Section 2
Table of Contents Page

Introduction **i-1**
What is a Watershed? i-1
What is a Watershed-based Plan? i-1
Purpose and Funding i-2
Scope i-2
Planning i-2

Chapter 1: Concerns, Goals, and Targets **1-1**
Introduction 1-1
Enjoyments and Concerns 1-1
Vision 1-2
Goals 1-2
Targets 1-4
Nutrient Load Reduction Targets 1-4
Phosphorus Reduction Targets 1-4
Nitrogen Reduction Targets 1-6
Sediment Reduction Targets 1-6
Limitations of Reduction Targets 1-7
Agricultural Runoff versus Residential Runoff 1-7

Chapter 2: Recommended Projects and Practices **2-1**
Introduction 2-1
Stakeholders' Current Conservation Efforts 2-1
Homeowner Efforts 2-1
Agricultural Producer Efforts 2-2
What More Can be Accomplished 2-3
High Priority Projects and Practices 2-4
Highly Erodible Land Stabilization with Forest Stand Improvement 2-5
Ravine Stabilization with Grade Stabilization and Forest Stand Improvement 2-5
Streambank Stabilization 2-6
Vegetated Filter Strips 2-7
Vegetated Filter Strips along Streambanks 2-7
Vegetated Filter Strips along Shorelines of Lake Carroll, Ponds, and Basins 2-7
Vegetated Swales 2-8
Wetland Restoration 2-8
Rain Gardens 2-9
Grassed Waterways 2-9
Detention Features: Ponds, Basins, Dry Detention, and Scrapes 2-9
Floating Treatment Wetlands 2-10
Moderate Priority Projects and Practices 2-10
Porous Pavement or Pavers 2-11
Soil Testing 2-11

Table of Contents (cont.) Page

Native Plantings 2-11
Cover Crops 2-11
Low Priority Projects and Practices 2-12
No-Till Farming and Conservation Tillage 2-12
Nutrient Management Plan 2-12
Terraces 2-13
Contour Farming 2-13
Livestock Management Plan 2-13
Stream Channel Restoration 2-13
Enhancements for Wildlife 2-13
Fish 2-14
Birds 2-14
Amphibians 2-14
Reptiles 2-14
Birds, Amphibians, and Reptiles 2-14
Invertebrates 2-14

Chapter 3: Education and Outreach 3-1
Introduction 3-1
Existing Opportunities 3-1
Opportunities of Interest 3-1
Education Planning 3-5
Educational Fliers 3-6

Chapter 4: Implementation of Watershed-Wide Practices 4-1
Introduction 4-1
Priority Areas for Watershed-Wide Projects and Practices 4-1
Areas for Watershed-Wide Stabilization Projects 4-3
Pollution Load Reduction Estimates for Watershed-Wide Practices 4-8
Cost Estimates for Watershed-Wide Practices 4-9
Cost per Unit of Reduced Pollutants 4-12
Schedule of Implementation of Watershed-Wide Practices 4-13
Responsible Parties 4-14

Chapter 5: Implementation of Site-Specific Projects 5-1
Introduction 5-1
Site-Specific Practice Locations and Sizes 5-1
Pollution Load Reduction Estimates for Site-Specific Projects 5-9
Cost Estimates for Site-Specific Projects 5-13
Schedule of Implementation of Site-Specific Projects 5-15
Responsible Parties 5-16

Chapter 6: Financial and Technical Resources 6-1
Introduction 6-1
Financial and Technical Assistance Resources 6-4

Table of Contents (cont.) Page

Chapter 7: Monitoring and Evaluation Strategy **7-1**
Introduction 7-1
Criteria to Measure Success 7-1
Monitoring Focus 7-1
Monitoring Worksheets 7-4
East Fork Creek Watershed Monitoring Worksheet 7-5
Lake Carroll Remnant Prairie Management Plan 7-7
Lake Carroll Boulevard Prairie Management Plan 7-11

Works Cited **8-1**

List of Figures and Tables

Introduction
Table i.1 Schedule of Planning Meetings i-3

Chapter 1
Figure 1.1 State Percentage Share of Nitrogen and Phosphorous Contribution to Gulf of Mexico 1-3
Figure 1.2 Total Phosphorous Targets for Lake Carroll 1-5
Table 1.1 Lake Carroll Stream and Lake Water Quality Targets for Phosphorous and Orthophosphate 1-5
Figure 1.3 Runoff Coefficient 1-8

Chapter 3
Table 3.1 Educational Opportunities of Interest 3-2
Table 3.2 Cost Summary for Education & Outreach 3-4
Table 3.3 Schedule of Education Meetings and Agenda 3-6

Chapter 4
