As you browse each book, you can click on the audio or video and immediately hear or view what you are reading.

You don't need to search a lot of files on your computer, and you don't need to open many windows.

You can view the book on your PC, Mac, tablet or smartphone, or you can print out the pages and put them on the piano stand.

Who is the target group of Pianoforall?

Whether you don't know how to play notes – or you play a little bit but want to improve – or you might play another instrument and want to diversify – or whether you can read sheet music but can't play with your ears, or even if you want Teach others - Pianoforall is the method for you!

Great for piano or keyboard

Because [Pianoforall](#) teaches a wide range of styles, you can play in any direction you choose, and you can apply all the techniques to acoustic pianos or digital pianos/keyboards as well. Pianoforall teaches the basic knowledge that is essential whether you play the piano or keyboard.

The perfect solution to meet your needs

Many piano methods will teach you how to play very old traditional tunes because they are not protected by copyright. I hate that! Who wants to play (or listen to) a sex version of "Oh Susanna"?

Other methods only focus on one style of playing—you basically learned how to play a dozen tunes, and that's it—the story ends—you have to pay for another method to learn more.

Pianoforall lays the foundation that can be applied to any direction and any musical style. When you learn how to read and write, you are not just learning other people's sentences—you learn the alphabet so you can construct your own sentences. Pianoforall provides you with tools to play any style you want.

Millions of people all over the world are afraid to learn piano. There are thousands of keyboards collecting dust in the attic and attic. why? Because people think this is a dream they can't reach.
