Originator of Road Stripe Retires

Capt. Peter Vernon Rexford, reputed originator of the center stripe to guide fast-moving ve-

tiring from the month after 31 years of serv-ice. Captain Rexford started his career in the sheriff's of-fice in 1916 as a traffic officer Capt. Rexford moted to cap-

tain four years later. He remained in the traffic department until 1942, when he was put in charge of the civilian defense organization for the sheriff. He held this position during the war years and was placed in charge of the record department and the sheriff's re-serve in 1946 upon return to active work in the sheriff's

Dad's Device Recalled

It was while riding on a bus from Salem, Captain Rexford related, on a dark, rainy night early in 1917, that the idea for a white center line first was conceived.

"I'm a farmer, just a kid raised on the farm." Captain Rexford said, "and I remem-bered the guide line my dad once had." The line lead across a ravine to the bunkhouse on the farm at Hubbard, Or., and served as a guide on dark rainy nights.

The county wouldn't consider financing the striping, Captain Rexford said, and Sheriff Martin Pratt, then a deputy sheriff, bought the paint out of his own pocket. In April a white stripe was painted on the curves of the Columbia river highway just east of Crown Point. In September of 1917 more curves were painted west of Crown West and Crown were painted west of Crown were painted west of Crown Point.

History Kills Contest

A few years later there was a nation-wide contest to deter-mine who originated the center stripe. with a cash prize of \$10.000 offered. Records revealed Captain Rexford's striping was the earliest that could be found. However, information from Europe disclosed the presents had posed the special to the stripe. ancients had paved their streets with white brick down the center so the contest was canceled.

In 1919 the lines wore thin and were repainted, as were those on the more dangerous curves on the Columbia highway, Captain Rexford said. About 1926 the county and state both started using the line

state both started using the line regularly.

Neted Outlaws Captured

Some outstanding highlights in his career as an officer include the recovery of 89 drowned bodies, 56 of which were children under 12 years. He captured Pete and Cal Reed and Joe Asvedo, nationally known counterfeiters, near Viking park, on the Columbia river highway. He assisted in the capture of Jimmy Willis and Alvin Kelly near Goldendale, Wash, after the pair shot their way out of the Oregon state penitentiary at Salem in 1926.

Captain Rexford lives at 550 S. E. 155th avenue.

Frec learn to swim classes, sponsored by the recreation department, will be held July 8 through July 19 and are scheduled as follows: For intermediates, 10:30: beginners, boys at 11, girls at 11:30 and adult beginners, 6:30 P. M. Those wishing to take swimming instruction or to join a class have been asked to register July 1 to 7 with the director or checker at the pool. Swimmers are expected to furnish their own suits, caps and towels. There is no charge for use of the pools.

The summer's swim ming meets are scheduled for August. Winners in the local meets will compete August 30 at the Jant-

Burglary Charged

Richard H. Ackles, 29, of 253 Suburb Inclusion N. Broadway, was arrested by police Saturday night on a charge of burglary. Bail was set at \$3000. Officers said Ackles was apprehended in Kienow's grocery store, 2038 S. E. 39th avenue, armed with

brary in time, labor and shelf which the library or a patron space. In the past the reference department averaged from 50 to 100 calls for The Oregonian files daily. This meant that the bulky files had to be kept handly. Even so it took more distributions in the national capital has made through it a microfilm of virtually any document can be

obtained.

It is anticipated that some more recent actual flas of The Oregonian will have to be kept handy because the film reading machine will not be sufficient to handle the traffic. One re-turned soldier last week was using the machine two hours daily — catching up on Lil

Mill Industry Moving South Tract Avowed To Available Fir Stands

Migration of the Pacific cent of the privately owned Northwest's logging and saw timberland is in ownership of mill industry toward southern less than 5000 acres.

Oregon in search of easily The recovery of timber from Rain or shine, the eight park pools under supervision of the bureau of parks and public recreation will be open to the public Tuesday with qualified aquatic directors on duty from 10 in the morning until dark. With the exception of Grant and Figure park pools which are Oregon in search of easily available old growth Douglas fir has brought with it new "smaller, more modern" mills, but accompanied by lowered manufacturing standards, Dr. J. Alfred Hall, director of the Pacific Northwest forest and range experiment station have range experiment station here, declared Saturday in his annual cleansing devices, the pools will

report for 1946.
"Old northern and Columbia river mills are closing or facing closure." his report said.
"Those are, for the greater part, large mills.

"Many new mills being built further south are smaller, more modern, and usually more ef-ficient in turning out boards and dimensions

and dimensions.
"It is probable that new installed capacity equals that lost by closure, but the new mills do not equal the old in finishing and dry kiln capacity Thus, manufacturing standards have been lowered."

Two Counties at Limit

This general migration of the industry south of the Columbia has also brought Lane county to about 25 per cent above its allowable cut and Douglas county to allowable cut and probably above it," the report This general migration of the

The signatures represent 75 "much more intensive use of the crop" and "wasteful cut-ting of old growth continues per cent of the assessed val-uation of the property— one quarter by one half mile in size but is no longer universal," the report said. High lumber prices have been accompanied by relogging of recent cut-lings, the "premature and destructive harvesting of second growth" and the development of lodgepole pine as a commer-cial species "of some impor-

New Industries Multiply

The report also sounded a warning to the northwest's 33-plant plywood industry: "the imperative need for intensive work in pruning and thinning of second growth is quite apparent. It is already too late to do much about clear wood supply for come plywood mills within the next ten years.

years."
Perhaps something can be done in the next 30 years, Dr. Hall wrote, "and it is a certain that positive measures must be taken if the plywood industry is to endure in anything like its present form."
A special study of the plywood industry, the report said, showed that "nine plants representing about one-fourth of the senting about one-fourth of the current installed capacity had less than ten years' life ex-pectancy based upon visible raw material supply and another seven plants, with equal aggregated capacity, had from

ten to 20 years' operation in prospect." On the brighter side, Dr. Hall's report remarked new industries based on wood are being established rapidly in this region and many more are in the investigative stage."

It also noted that 57 per

On Sales Tax

The Oregon Sales Tax committee Saturday denied there the Tillamook burn is proceeding "at a slow pace. The state of Oregon has assumed the sales tax bill, as contended by sales tax bill, as contended by habilitation of this area and as yet has not taken any exten-

A letter printed in The Oregonian Friday and signed by Tompkins declared that "the ville power administration on a projected study of the levels of first anonymously published production and employment of literature favoring the proposed sales tax is now being distributed throughout the state."

Saturday the Oregon Sales Tax Committee said Tompkins apparently referred to earlier copies of a pamphlet which last week was circulated bearing the name of Ralph Watson, political writer, as compiler. The pamphlet also carried the imprint of the committee, with Earl Hill as manager.
