I. Overview	

#### **OVERVIEW**

This document includes the 2012 Adopted Budget and the 2012-2015 Financial Plan.

The purpose of the February Financial Plan is to incorporate Board approved actions and technical adjustments into the Agencies' November Financial Plan budgets and forecasts, and to establish a 12-month allocation of the Adopted Budget. In order to highlight certain important items that are included within the November and December Financial Plans, the MTA lists them separately below-the-baseline. With Board approval secured, these items, also referred to as MTA Plan Adjustments, can be included within the MTA baseline and appropriately allocated to the Agencies.

The December Plan also captured re-estimates of fuel and electric power expenses that were derived after Agency baseline forecasts were closed. As a result, they were not allocated to specific Agencies but rather were included within consolidated totals. These adjustments are now incorporated into Agency baseline forecasts.

Unlike the July and November Plans, the February Plan does not include any new proposals. As such, the detailed explanations of the programs and assumptions supporting this Plan can be found in the November and December 2011 Financial Plan material, which are posted on the MTA website (www.mta.info).

This document includes all relevant financial tables and reconciliations. It also contains schedules detailing the 12-month allocation of the 2012 Adopted Budget, which will be compared with actual results. Variances will be analyzed and reported to the Board committees on a monthly basis.

The budget process gives the Agencies the opportunity to make technical adjustments to their budgets and forecasts which will result in improved reporting. This Plan reflects some technical adjustments including the impact of a revised Chart of Accounts. Effective 2012, the account structure has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve reporting consistency among the Agencies. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged, however, years 2012-2015 reflect the new account structure. Each Agency has provided, within its own section, a table entitled "Reconciliation of the 2012 Final Proposed Budget to the 2012 Adopted Budget by Generic Category" that details the re-categorizations as well as all other technical adjustments occurring in 2012.

For 2012 and beyond, the Plan excludes LI Bus from all budget forecasts of MTA revenue, expenses and subsidies. That service is now operated by a private contractor on behalf of Nassau County. MTA will seek reimbursement for costs beyond 2011 to finish the "wind-down" of MTA operations and future payments for employee and other liabilities from Nassau County based upon the terms of the Lease and Operating Agreement between the County and the MTA.

The December Plan captured below-the-baseline reductions in New York State MMTOA subsidies and the lower Payroll Mobility Tax (PMT) subsidies that were included in

legislation passed in December 2011 (the "December Act.") As part of that December legislation, the State included replacement funds to offset the estimated reduction in PMT revenues. These changes are now included within MTA baseline subsidy forecasts.

The proposed 2013 fare and toll increase, which has yet to be acted on by the Board, remains below the line. As the 2013 budget process progresses, this and other proposals, as well as Agency targeted spending levels, will be assessed. The Preliminary 2013 Budget will be presented to the Board at the July 2012 meeting. The Final Proposed Budget for 2013 will be presented to the Board in November and submitted for adoption in December 2012. This process enables the public and elected officials to comment on the proposals before the anticipated Board action in December.

The February Plan projects ending cash balances of \$192 million in 2011, \$1 million in 2012 and \$80 million in 2013 with projected cash deficits of \$137 million in 2014 and \$204 million in 2015. These represent very minor changes from the December Board approved Plan and a reconciliation of the change can be found in Section II. The implementation of technical changes results in the need to increase the amount of the Unspecified Deficit Reduction to \$40 million from \$35 million.

The following details how the February Plan captures MTA Plan Adjustments that were captured below-the-baseline in December:

Agency Baselines now include the MTA Plan Adjustments listed below:

#### MTA INITIATIVES (captured in baseline)

• New MTA Efficiencies – MTA increased efficiency targets last July and in November significantly reduced the portion of those targets that remained unidentified. MTA will continue to implement and pursue new opportunities that will not just deliver existing services more efficiently, but will also create savings that can be reinvested for improved reliability and service to our customers. This MTA-wide initiative encompasses consolidations, improved management of IT systems and reduced costs for inventory purchases. As of this February Financial Plan, Agencies have incorporated \$117 million in new efficiency savings into their baselines. By 2015, existing and new cost reduction initiatives will grow those efficiency savings in excess of \$260 million annually.

An assessment of current Information Technology (IT) functions resulted in changes to operations in a number of IT areas yielding cost savings, primarily associated with the collection, deactivation, consolidation and standardization of IT equipment, services and applications. Some \$7 million per year in savings were specifically linked to individual Agencies and are now included within their forecasts.

 <u>Three-Zeroes Salary/Wage Initiative</u> – This Financial Plan assumes that labor settlements will include three years of "net zero" wage growth. Those wage savings are in line with the contract agreements reached by the State and its two largest unions, the CSEA and PEF. For non-represented employees, 2011 became the third year without a cost-of-living adjustment increase. Savings incorporated into the baseline were \$15 million in 2011, \$26 million in 2012, \$35 million in 2013, \$83 million in 2014, and \$95 million in 2015.

Accelerate 3 Zeroes – Additional salary/wage savings of \$11 million in 2011, \$25 million in 2012, \$27 million in 2013, \$24 million in 2014, and \$15 million in 2015 are from the impact of the acceleration of the three-year "net zero" savings initiative.

#### MTA RE-ESTIMATES (captured in baseline)

These updated forecasts were approved by the Board in December as below-the-baseline items and are now captured within the baseline of the February Financial Plan:

- Continuing Energy Hedge Program Consistent with Board approval, the MTA has set aside \$100 million to collateralize fuel hedge agreements as a measure of protection should prices rise significantly above projections.
- MTA changed its estimate of State operating aid to MTA from Metropolitan Mass Transportation Operating Assistance ("MMTOA") by \$87 million in 2012 based upon information provided by the State Division of the Budget. For 2013 through 2015, revised MMTOA estimates, when compared with the November Plan, are unfavorable by \$58 million, \$45 million and \$47 million, respectively. The downward revisions are attributable to lower revenues, updated allocation projections and an increase in the amount that NYS will reserve (and therefore, not pay out) to hedge against economic risks.
- MTA Aid These taxes trended favorably most of 2011 and at the end of the year were running approximately \$13 million favorable. Based on discussions with NYSDOB, \$7 million of this favorable variance is expected to recur.
- Payroll Mobility Tax (PMT) In late 2011, Governor Cuomo signed into law the "December Act" that makes significant changes to the Payroll Mobility Tax. The provisions eliminated or reduced the payroll mobility tax imposed within the MTA Commuter Transportation District for certain taxpayers. It further expressly provides that any reductions in transit aid attributable to these reductions in the PMT "shall be offset through alternative sources that will be included in the state budget." Consequently, the February Plan sustains net PMT subsidy levels.

#### **POLICY ACTIONS (captured in baseline)**

 General Reserve – The Plan reflects the elimination of the remaining general reserve of \$8 million in 2011, and lowers the reserve by \$25 million to partially cover the MMTOA shortfall. Starting in 2013, the general reserve is resumed at an amount equal to approximately one-percent (1%) of the baseline operating budget.

The following MTA Plan Adjustments remain below-the-baseline:

#### **FARE/TOLL INCREASES (below-the-baseline)**

A key assumption in the Plan is the continuation of the Board policy that provides for modest bi-annual fare and toll increases designed to keep-up with normal inflationary growth.

- 2013 Increased Fare and Toll Yields Remaining below-the-baseline is a 7.5% consolidated farebox and toll revenue yield increase proposed for implementation on January 1, 2013. This increase is estimated to yield an additional \$449 million in 2013, \$466 million in 2014, and \$472 million in 2015 excluding yield increases for MTA Bus. The 7.5% farebox yield increase at MTA Bus is expected to generate additional revenue of \$14 million from 2013 through 2015 over the duration of the Plan.
- 2015 Increased Fare and Toll Yields Also remaining below-the-baseline is a 7.5% consolidated farebox and toll revenue yield increase proposed for implementation on January 1, 2015. This increase is estimated to yield an additional \$494 million in 2015 excluding yield increases for MTA Bus. The 7.5% farebox yield increase at MTA Bus is expected to generate additional revenue of \$15 million in 2015.

#### **POLICY ACTIONS (below-the-baseline)**

The following policy action will remain below-the-baseline and is described below:

Unspecified Deficit Reduction – In order to eliminate the remaining 2012 shortfall
and to offset the net subsidy reduction in the out-years, the MTA will implement
\$40 million in recurring deficit reduction measures that currently are unspecified.
These measures will be identified in 2012 and incorporated into the July 2012
Financial Plan. This represents a \$5 million annual increase from December
necessary to retain budgetary balance.

#### MTA INITIATIVES (below-the-baseline)

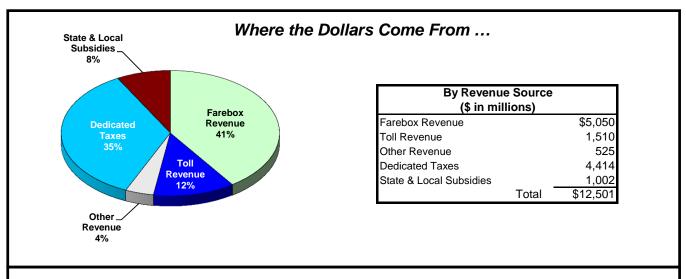

The following MTA Initiative will remain below-the-baseline and are described below:

 New MTA Efficiencies – Of the New MTA Efficiencies described earlier, some \$23 million remains to be identified of the \$140 million in efficiency savings established for 2012. Further consolidations, including Strategic Sourcing, are under review and will continue to occur throughout the year and contribute to meeting the out-year MTA Efficiency targets. Unidentified savings for 2013 -2015 are \$84 million, \$76 million and \$70 million, respectively. Metrocard Green Fee and Cost Savings – The MTA prints 170 million MetroCards each year at an annual cost of nearly \$13 million. Many of these cards are used once and then discarded, often ending up as litter in the system. To overcome this waste by encouraging customers to re-use their MetroCards, MTA is implementing a \$1.00 "green" fee for each new MetroCard bought in the subway system, where it is just as easy to refill a card as to get a new one. The estimated financial impact is a combination of additional revenue from the fee and lower costs from producing fewer cards. Furthermore, MTA is exploring a new fare payment system involving tap-n-go technology, which is also expected to generate savings.

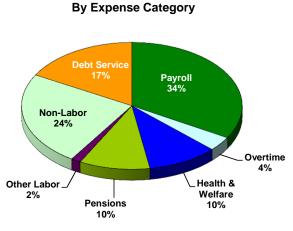

II.	MTA Consolidated 2012-2015 Financial Plan

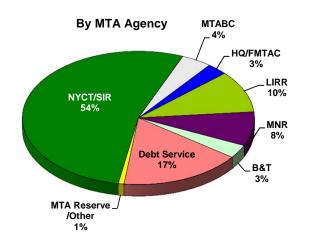

# MTA 2012 Adopted Budget Baseline Expenses After Below-the-Line Adjustments Non-Reimbursable

#### Where the Dollars Go ...

By Expense Category <sup>1</sup> includes below-the-line adjustments (\$ in millions)							
Payroll		\$4,202					
Overtime		460					
Health & Welfare		1,297					
Pensions		1,303					
Other Labor		181					
Non-Labor		2,942					
Debt Service		2,129					
	Total	\$12,515					

By MTA Agency <sup>23</sup> includes below-the-line adjustments (\$ in millions)						
NYCT/SIR	\$6,729					
MTABC	529					
HQ/FMTAC	363					
LIRR	1,281					
MNR	1,043					
B&T	406					
Debt Service	2,129					
MTA Reserve	100					
MTA Below-the-Line Adjustments 4	-63					
Total	\$12,515					

Expenses exclude Depreciation, OPEB obligation and Environmental Remediation.

<sup>&</sup>lt;sup>1</sup> The generic expense categories and totals include below-the-line adjustments that are not included in the baseline plan.

<sup>&</sup>lt;sup>2</sup> LI Bus operations ceased on December 31, 2011.

<sup>&</sup>lt;sup>3</sup> MTA Capital Construction is not included in the above charts, as its budget contains reimbursable expenses only.

<sup>&</sup>lt;sup>4</sup> The below-the-line adjustments have not been allocated to specific Agencies as yet.

69	ADJUSTMENTS	0	0	63	594	602	1,096
				. ,		. ,	

<sup>&</sup>lt;sup>1</sup> In order to establish consistency among Agencies when reporting overtime results, certain overtime-related expenses that had been captured within payroll (straight-time) were shifted to the overtime category beginning in 2011. However, the 2010 Actual results do not reflect the change. The result would have been a zero-sum shift of approximately \$48 million from payroll to overtime, making the 2010 Actual for Overtime \$491 million and Payroll \$4,121 million.

Note: The February Plan also reflects the impact of a revised Chart of Accounts. Effective 2012, the account structure has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve reporting consistency among the Agencies. With exception of MTAHO, these revisions result in a zero-impact to the bottom line. See Agency sections for the Reconciliation to the November Forecast by Generic Category table for details.

Note: The February Plan also reflects the impact of a revised Chart of Accounts. Effective 2012, the account structure has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve reporting consistency among the Agencies. With exception of MTAHQ, these revisions result in a zero-impact to the bottom line. See Agency sections for the Reconciliation to the November Forecast by Generic Category table for details.

Long Island Bus	36.8%	N/A	N/A	N/A	N/A		
Bus Company	<u>36.7%</u>	<u>36.6%</u>	<u>36.5%</u>	<u>35.9%</u>	33.8%		
MTA Total Agency Average	55.7%	54.0%	53.0%	51.7%	49.7%		

Farebox recovery ratio has a long-term focus. It includes costs that are not funded in the current year, except in an accounting-ledger sense, but are, in effect, passed on to future years. Those costs include depreciation and interest on long-term debt. Approximately 20% (and sometimes more) of MTA costs are not recovered in the current year from farebox revenues, other operating revenues or subsidies. That is why MTA operating statements generally show deficits. In addition, the recovery ratio allocates centralized MTA services to the Agencies, such as Security, the costs of the Inspector General, Civil Rights, Audit, Risk Management, Legal and Shared Services.

Farebox operating ratio focuses on Agency operating financial performance. It reflects the way MTA meets its statutory and bond-covenant budget-balancing requirements, and it excludes certain costs that are not subject to Agency control, but are provided centrally by MTA.

In the agenda materials for the Meeting of the Metro-North and Long Island Committees, the calculations of the farebox operating and recovery ratios for the LIRR and MNR use a revised methodology to put the railroads on a more comparable basis. Those statistics, which are included in the respective financial and ridership reports of both Agencies, differ from the statistics presented in this table.

## **Debt Service in the Financial Plan**

The following table reflects debt service projections for 2011 through 2015 associated with *approved* Capital Programs, including the two-year approved portion of the 2010-2014 Capital Programs. As approved by the Capital Program Review Board on June 2, 2010, the 2010-2014 Capital Programs finance capital expenditures associated with the first two years of commitments for transit, commuter railroads and bus projects. The TBTA 2010-2014 Capital Program finances capital expenditures associated with the full five years of commitments. The Summary of Total Debt Service table shows all MTA and TBTA debt service for this February 2012 Financial Plan (excluding State Service Contract and Convention Center debt service which is fully paid by New York State).

	Debt Service F	orecast (in mill	ions) <sup>(1)</sup>
Year	December Plan Debt Service	February Plan Debt Service	Difference Favorable/(Unfavorable)
2011	\$1,949	\$1,949	\$0
2012	2,129	2,129	0
2013	2,271	2,271	0
2014	2,418	2,418	0
2015	<u>2,555</u>	<u>2,555</u>	<u>0</u>
Total:	\$11,323	\$11,323	\$0

<sup>(1)</sup> Totals may not add due to rounding.

The following is a summary of the key assumptions used to determine the debt service projections included in the financial plan.

## **Debt Issuance Assumptions:**

Forecasted Borrowing Schedule	2011	2012	2013	2014	2015
New Money Bonds <sup>1</sup> (\$ in millions)	332	2,179	1,974	1,994	1,789
Assumed Fixed-Rates					
Transportation Revenue Bonds	5.27%	5.59%	5.90%	6.17%	6.35%
Dedicated Tax Fund Bonds	4.80%	5.09%	5.37%	5.62%	5.79%
Triborough Bridge & Tunnel Authority	4.80%	5.09%	5.37%	5.62%	5.79%
Assumed Variable Rates	4.00%	4.00%	4.00%	4.00%	4.00%
Weighted Average Interest Rates <sup>2</sup>					
Transportation Revenue Bonds	5.15%	5.43%	5.71%	5.95%	6.12%
Dedicated Tax Fund Bonds	4.72%	4.98%	5.23%	5.46%	5.61%
Triborough Bridge & Tunnel Authority	4.72%	4.98%	5.23%	5.46%	5.61%

<sup>1.</sup> Years 2011 to 2015 include assumed borrowing for existing approved Capital Programs. FY 2011 new money bonds are net of commercial paper.

<sup>2.</sup> Weighted Average of fixed and variable forecasted rates (see below for explanation).

- All debt is assumed to be issued as 30-year level debt, principal amortized over the life of the bonds.
- Current fixed-rate estimates derived from prevailing Fair Market Yield Curves for A- and AA- Transportation issuers using Bloomberg Information Service. Financial Plan years 2011–2015 derived by applying changes in U.S. Municipal Forward Curves to prevailing transportation curves (as of October 4, 2011).
- Split of fixed-rate debt versus variable rate debt each year is 90% fixed and 10% variable.
- New bond issues calculated interest rate at time of issuance use weighted average of fixed and variable assumptions (actual fixed-rates in table above assumed for fixed-rate bonds).
- Cost of issuance is 2% of gross bonding amount.
- New money bonds for currently approved transit and commuter projects assume a target split of 25% under the DTF credit and 75% under the Transportation credit, subject to satisfying the additional bonds test under the DTF Resolution. New money bonds for the two-year approved portion of the 2010-2014 Capital Program assumed to be issued under the Transportation credit.
- All bonds issued to finance TBTA capital projects issued under the TBTA General Revenue Resolution.
- Assumes \$21.4 million of Pay-Go funding in FY 2011 and \$165 million in FY 2012 and \$100 million annually during FYs 2013-2015.
- No reserve funds.

Notes on the following page are integral to this table.

### **Notes**

- 1 Unhedged tax-exempt variable rate debt reflects actual rates through September 2011, and 4.00% for the remaining life of bonds.
- 2 Synthetic fixed-rate debt assumed at swap rate.
- 3 Total debt service excludes COPS lease payments. All debt service numbers reduced by expected investment income and Build America Bonds (BAB) subsidy.
- 4 New money bonds amortized as 30-year level debt. New debt issued assumed 90% fixed-rate and 10% variable rate. Actual 2010 issuance is included with the forecast and is reflective of new money bonds and notes.
- Transportation Revenue Bonds pledged revenues consist generally of the following: fares and other miscellaneous revenues from the transit and commuter systems, including advertising, rental income and certain concession revenues (not including Grand Central and Penn Station); revenues from the distribution to the transit and commuter system of TBTA surplus; State and local general operating subsidies, including the new State taxes and fees; special tax-supported operating subsidies after the payment of debt service on the MTA Dedicated Tax Fund Bonds; New York City urban tax for transit; station maintenance and service reimbursements; and revenues from the investment of capital program funds. Pledged revenues secure Transportation Revenue Bonds before the payment of operating and maintenance expenses. Starting in 2006, revenues, expenses and debt service for MTA Bus have also been included.
- Dedicated Tax Fund pledged revenues as shown above consist generally of the following: petroleum business tax, motor fuel tax and motor vehicle fees deposited into the Dedicated Mass Transportation Trust Fund for the benefit of the MTA; in addition, while not reflected in the DTF pledged revenue figures above, the petrolium bussiness tax, district sales tax, franchaise taxes and temporary franchaise surcharges deposited into the Metropolitan Transporation Operating Assistance Account for the benefit of the MTA are also pledged. After the payment of debt service on the MTA Dedicated Tax Fund Bonds, these subsidies are available to pay debt service on the MTA Transporation Revenue Bonds, and then any remaining amounts are available to be used to meet operating costs of the transit system, the commuter system, and SIRTOA.
- Initial Triborough Bridge and Tunnel Authority General Revenue Bond pledged revenues consist primarily of the tolls charged by TBTA on its seven bridges and two tunnels. Pledged revenues secure TBTA General Revenue Bonds after the payment of TBTA operating and maintenance expenses, including certain reserves.
- Triborough Bridge and Tunnel Authority Subordinate Revenue Bonds pledged revenues consist primarily of the tolls charged by TBTA on its seven bridges and two tunnels, after the payment of debt service on the TBTA General Revenue Bonds.
- 9 Debt service schedules for each credit are attached as addendum hereto.

### Special Notes

- (1) This is a revision to the Debt Affordability Schedule printed in the November Financial Plan 2012-2015.
  The previous schedule did not reflect the updated November Financial Plan Forecasted New Money Bonds Issued and Debt Service. Those numbers have been revised above.
- (2) Debt service associated with the approved portion of the 2010-2014 Capital Programs is included in the table above.

### Notes:

Does not include debt service for State Service Contract Bonds and Convention Center Bonds, which is paid by NY State. Also excludes COPS lease payments. Includes interest budgeted for Transportation Revenue Commercial Paper.

Forecasted Investment Income is not included above.

Net of Build America Bonds subsidy.

Debt Service associated with the approved portion of the 2010-2014 Capital Programs is included in the table above.

Note: The February Plan also reflects the impact of a revised Chart of Accounts. Effective 2012, the account structure has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve reporting consistency among the Agencies. With exception of MTAHO, these revisions result in a zero-impact to the bottom line. See Agency sections for the Reconciliation to the November Forecast by Generic Category table for details.

Note: The February Plan also reflects the impact of a revised Chart of Accounts. Effective 2012, the account structure has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve reporting consistency among the Agencies. With exception of MTAHQ, these revisions result in a zero-impact to the bottom line. See Agency sections for the Reconciliation to the November Forecast by Generic Category table for details.

## **METROPOLITAN TRANSPORTATION AUTHORITY** 2012 Adopted Budget

## 2012 Non-Reimbursable/Reimbursable Overtime

(\$ in millions)

Total

NON-REIMBURSABLE OVERTIME	Hours	\$	%
SCHEDULED:		·	
Direct Service	5,512,747	\$191.289	41.6%
Programmed Maintenance	423,273	15.813	3.4%
Total Scheduled	5,936,020	\$207.102	45.0%
UNSCHEDULED: Vacancy/Absentee Coverage	2,140,332	\$83.364	18.1%
Weather Emergencies	329,080	13.466	2.9%

#### Notes:

- (1) Budgeted debt service is calculated as resolution required funding from available pledged revenues into debt service accounts. Actual Payments to bondholders are made when due and do not conform to this schedule.
- (2) Debt service is allocated between Transit, Commuter, MTA Bus, and TBTA categories based on actual spending of bond proceeds for approved capital projects. Allocation of 2 Broadway COPs is based on occupancy.
- (3) Totals may not add due to rounding.

## MTA Police Department 2012 Commitment Summary All \$ in Millions

ACEP	Project Description	2012 Commiments
2005-2009		
N5100104	K-9 Facility (Construction)	10.5
N5100109	Public Safety Radio (30% Design)	0.5
	Element Total	11.05

MTA Police Department 2012 Commitment Total	\$11.05

## 2012 - 2015 Completions

ACEP	Project Description	Completions	Project Allocations
T30411/9K	Station Rehabilitation:149 St-Grand Concourse / Jerome Design	Jan-12	\$2.65
T30411/9L	Station Rehabilitation:149 St-Grand Concourse/White Plains Design	Jan-12	\$1.59
T40806/T1	Communications Cable And Equipment:TIS Command Center At RCC	Jan-12	\$1.30
T50703/39	Line Structure Overcoating:Portal - 27 Street / Astoria & Flushing	Jan-12	\$14.20
T40806/T1	Communications Cable And Equipment:Cable: Network Management (CNMMS)	Jan-12	\$10.83
T60502/23	Mainline Track Rehabilitation:Mainline Track Replacement at Clark St Tube	Jan-12	\$10.11
T51004/03	Shop Equipment And Machinery:207 St OH Shop: Cranes And Equipment	Jan-12	\$2.59
T60502/19	Mainline Track Rehabilitation: Mainline Track Replacement at 8th Avenue	Jan-12	\$16.58
T60502/06	Welded Rail:Continuous Welded Rail - 2011	Jan-12	\$6.57
T60302/20	New Buses:90 Standard Diesel Buses - Daimler Pilot	Jan-12	\$44.77
T61004/18	Yard Switches: Yard Switches - 2011	Jan-12	\$2.03
T60302/03	New Buses:90 Express Buses	Feb-12	\$55.46
T50404/05	MetroCard Vending Machine Replacement: Bill Handler Upgrade	Feb-12	\$3.25
T51204/19	Depot Rehabilitation: Jamaica Depot Roof Repairs, Phase 1 (Mentor)	Feb-12	\$0.92
T50404/01	Fare Control Modernization:Smart Card Cabling: 32 Pilot Stations	Feb-12	\$4.64
T50803/17	Fire Protection:Signal Room Fire Suppression, Phase 1	Feb-12	\$18.09
T51604/02	Computer Hardware & Communications:HP Server Consolidation/Replacement	Feb-12	\$5.20
			****
T60412/55	Station Component Investments:2 Street Stairs: Rockaway Avenue / New Lots [Mentor]	Feb-12	\$0.83
T50806/16	Station Communication Rooms:HVAC Comm Rooms: 5 Locations	Feb-12	\$6.67
T60302/21	New Buses:90 Standard Diesel Buses - New Flyer Pilot	Feb-12	\$44.23
T50411/60	Station Rehabilitation:Far Rockaway-Mott Avenue/ Far Rockaway	Feb-12	\$11.31
T50411/63	Station Rehabilitation:Beach 105 Street / Rockaway	Feb-12	\$18.29
T50411/62	Station Rehabilitation:Beach 98 Street / Rockaway	Feb-12	\$20.20
T50806/08	Antenna Cable Replacement:Antenna Cable Replacement Phase II (Wrap Up)	Feb-12	\$3.00
T50413/17	Station Accessibility (ADA):Mott Avenue: Far Rockaway Line	Feb-12	\$10.67
T60503/07	Mainline Track Switches:Mainline Track Switches at Jamaica	Feb-12	\$4.36
T50411/61	Station Rehabilitation:Beach 90 Street / Rockaway	Feb-12	\$19.38
T50703/29	Line Structure Overcoating:27 Street - 41 Avenue / Astoria & Flushing	Mar-12	\$13.80
T51204/20	Depot Rehabilitation:Jamaica Depot Roof Repair, Phase 2 [Mentor]	Mar-12	\$0.97
T40411/2D	Station Rehabilitation:Intermodal: Gun Hill Road / White Plains Road	Mar-12	\$6.77
T60412/57	Station Component Investments:2 Street Stairs: New Lots Avenue / New Lots [Mentor]	Mar-12	\$0.85
T60302/04	New Paratransit Vehicles:15 Paratransit Vehicles - Ramp-based prototype (CNG)	Mar-12	\$0.93
			7,,,,
T51604/03	Misc: Human Resources/Customer Services:Automated Telephone Travel Information	Mar-12	\$2.84
T30902/FE	Substations (IRT-BMT):Neg Return System At Joralmon/Willow	Mar-12	\$4.20
T41302/O4	Work Train & Special Equipment:36 CWR Flatcars & 18 Flatcars	Mar-12	\$15.11
T51607/26	Consolidated Employee Facilities:Subways:East 180th Street / White Plains Road  Communications Cable And Equipment:ATM Network System: B Division - 253 Stations	Mar-12	\$6.54
T50806/01	OPTION	Mar-12	\$210.63
T40806/P2	Public Address/Customer Info Systems:PA/CIS, Phase 2: 156 Stations (IRT)	Mar-12	\$200.19
T50803/20	Communication-Based Train Control:CBTC Canarsie: Automatic Signal Removals	Mar-12	\$5.08
T50803/24	Signal Systems:Alstom Relay Replacement	Mar-12	\$10.82
T50803/19	Communication-Based Train Control:CBTC Canarsie: Equip 64 R-160 Cars	Mar-12	\$61.37
T50411/74	Station Rehabilitation:East 180 Street / White Plains Road	Mar-12	\$49.65
T60904/10	Power Distribution Facilities:Joralemon/Willow Duct Replacement	Mar-12	\$4.07
T50806/04	Communications Cable And Equipment:Copper Cable Replacement: Steinway Tube - Phase 1	Mar-12	\$4.49
T60806/18	Communications Cable And Equipment:Copper Cable Repl: Steinway Tube Phase 2	Mar-12	\$9.95

## 2012 - 2015 Completions

ACEP	Project Description	Completions	Project Allocations

Project ID Project Description	Completion	Project Allocation
N5100104 K-9 Facility	Dec-13	\$9.65

### OPERATING IMPACTS EXCEEDING \$1 MILLION FOR CAPITAL PROJECTS REACHING BENEFICIAL USE 2012-2015

### **NEW YORK CITY TRANSIT CAPITAL PROJECTS**

**Project**: Mother Clara Hale Depot Reconstruction

This is a reconstruction of a bus depot to create a modern facility and increase vehicle handling capacity. The new multi-story depot will replace a single-story structure dating from the 1890's. Impacts began in 2011 (\$1.5 million), with full impacts in late 2013 (\$2.7 million).

### **Project**: Enterprise Security Network Infrastructure

This will install unified threat management network security hardware at all the nodes on the new IP-based enterprise data network. The security hardware will protect mission-critical applications like ATS (Automatic Train Supervision), CBTC (Computer based Train Control), PA/CIS (Public address and Customer Information System) which are planned to be migrated to new network. Full impacts will start in 2014 (\$2.7 million).

### **Project**: 7 West Extension

This project will extend the Flushing Line (7) southwest from 42 St & 8th Ave to a new station at 34 St & 11th Ave. The construction includes new running tunnel and associated right-of-way equipment; vent plants; and a new terminal station with elevators, escalators, HVAC, and other modern station finishes. Full impacts will start in 2014 (\$12 million).

### **Project**: Fulton St Transit Center Complex

This is a reconfiguration and reconstruction of an existing complex of subway stations. There is an additional underground connecting concourse extending west to the Cortland St Broadway line station, and the design for a new entry pavilion at Fulton and Broadway is still being determined. The complex is being renewed in phases. The renewed complex will be larger and have new escalators and elevators. Full impacts begin in 2014 (\$6.4 million).

**Project**: Public Address/Customer Information Screens – 156 IRT Stations Total impacts begin in 2009, reflecting 20 positions (\$2.6 million). Impacts appear in two areas. The TIS area includes vendor software maintenance and resources to support the active directory of the PA/CIS application (\$1.2 million). The Electronics Maintenance Division (EMD) includes \$1.4 million to maintain assets associated with the enhanced public address system.

### **Project**: Charleston Depot Annex

This is a new bus depot. 72 positions are added, reflecting the fixed overhead of operating a depot. Beginning in 2009, 10 of the positions include security guards, who will provide 24 x 7 coverage. Initial operating impacts begin in 2008 (\$1.2 million), but full impacts have begun in 2011, totaling about \$6.4 million annually.

### **Project**: R188 Subway Car Purchase

This is the base portion of the purchase of R188 subway cars. This purchase of 23 cars, in conjunction with the later option for 123 cars, is to grow the A-Division fleet in anticipation of beginning CBTC on the Flushing Line. Additional new cars to the fleet have additional maintenance, energy, and personnel costs. Total impacts are expected to begin in 2013, with an annual cost estimated to be \$1.2 million.

**Project:** Public Address/ Customer Information – 87 Stations

This project will install public address speakers and visual information delivered by Customer Information Screens at 87 stations and 2 pilot stations. Impacts will begin in 2014, when the majority of the equipment would be installed or shortly thereafter. An annual total impact of \$5.5 million is expected.

### LONG ISLAND RAIL ROAD CAPITAL PROJECTS

**Project:** East Side Access

This project will expand LIRR service into Grand Central Terminal. The construction includes new tunnel and track along with related right-of-way equipment, vent plants, substations, and a new terminal station with elevators, escalators, and HVAC. The project also includes 236 new rail cars and will introduce an expanded train service plan to support 2018 Opening Day, impacts will begin before 2018.

### **Project:** Positive Train Control

This project is for the installation of a Positive Train Control (PTC) system for the LIRR. PTC is mandated by the Federal Rail Safety Improvement Act of 2008 for commuter railroads such as the LIRR with an implementation deadline of December 15, 2015. It is an integrated command, control, communication, and geographic information system designed to prevent train-to-train collisions, over-speed derailments, incursions into established work zone limits, and the movement of a train through a switch left in the wrong position. PTC is comprised of five core elements: On-Board Equipment, a Wireless Communication Network, Central Servers, a Dispatching System, and Wayside Equipment. The full operating budget impact has not been identified. However, because of the assets and equipment that will need to be operated and maintained, it is expected that PTC will have an OBI of at least \$1 million a year. Partial impacts will begin in 2015 with full impacts realized starting in 2016.

### METRO-NORTH RAILROAD CAPITAL PROJECTS

**Project**: M-8 New Haven Line Purchase [May 2014]

This project is for the design, manufacture, test and delivery of the new New Haven Line M8 EMU Cars. The first one hundred cars will be utilized to supplement the existing fleet to fill out trains and reduce standees. The base contract for 210 cars and the first

option for 90 additional cars were awarded on August 21, 2006. Two additional options 42 and 38 cars respectively. A change order was executed for 25 Single Cars for a total of 405 cars. As of the end of December 2011, 60 Cars have been conditionally accepted and were placed into revenue service. Anticipated steady-state Operating Budget Impact of approximately \$3m (NYS portion) once all 405 cars are in service.

**Project**: Customer Communication/Connectivity Improvements [December 2014] Under this project, an updated public address system and real-time information will be provided to Metro-North customers at East of Hudson stations. Departure time and destination, status, and track number will be displayed. Connectivity will be provided at each station to support the new real-time train information/public address system, upgrade ticket office workstations, and allow capability for remote CCTV and elevator monitoring/control. Project currently in scoping phase and any potential Operating Budget Impacts are currently unknown, however they could potentially exceed \$1m.

### **Project**: Positive Train Control [December 2015]

Installation of a Positive Train Control (PTC) system is mandated by the Federal Rail Safety Improvement Act of 2008. Commuter railroads such as Metro-North have until December 15, 2015 to implement a PTC system. PTC is an integrated command, control, communication, and geographic information system designed to prevent trainto-train collisions, over-speed derailments, incursions into established work zone limits, and the movement of a train through a switch left in the wrong position. It is comprised of five core elements: On-Board Equipment, a Wireless Communication Network, Central Servers, a Dispatching System, and Wayside Equipment. The full operating budget impact has not been identified. However, because of the assets and equipment that will need to be operated and maintained, it is expected that PTC will have an Operating Budget Impact of at least \$1 million a year. Partial impacts will begin in 2015 with full impacts realized starting in 2016.

Project: West of Hudson Signal Improvements [December 2015] The purpose of this project is to install a new 100 Hz Cab Signal system replacing existing antiquated signal system for the West of Hudson Port Jervis Line between Suffern, NY (MP 31.3) and Sparrowbush, NY (MP 89.9). This system will be consistent with NORAC (Northeast Operating Rules Advisory Committee) and NJT (New Jersey Transit) operating rules. This project will extend existing cab signal system from NJT territory (south of Suffern) into MNR territory up to the division post at MP 89.9. This line consists of nine interlockings and four highway grade crossings. MNR rolling stock operated by NJT is already equipped with cab signal system due to its operation south of Suffern. PTC equipment for West of Hudson will be procured as options on New Jersey Transit PTC contract. Similarly to the Positive Train Control project (above), the West of Hudson Signal Improvements project could potentially have an annual Operating Budget Impact of greater than \$1m due to the assets and equipment that will need to be operated and maintained.

### MTA CAPITAL CONSTRUCTION COMPANY CAPITAL PROJECTS

There are no capital projects entering beneficial use in 2012-2015 that have an impact on the MTACC's operating budget over \$1 million.

### MTA BUS COMPANY CAPITAL PROJECTS

There are no capital projects entering beneficial use in 2012-2015 that have an impact on the MTA BUS's operating budget over \$1 million.

### **BRIDGES AND TUNNELS CAPITAL PROJECTS**

**Project:** Anchorage and Tower Improvements at the Throgs Neck Bridge Best Value Analysis of the 2010-2014 Capital Program resulted in the incorporation of the Major Maintenance Project TNM-338, miscellaneous steel repairs to the tower bases and removal and replacement of concrete encasements, into this Capital Project. The work being capitalized is similar to the work being performed under the capital project, economies of scale are achieved by performing this work under one contract and the work complies with capital eligibility requirements. The major work of this project is structural steel work water for anchorage and tower protection. Impacts reflecting reductions to the major maintenance costs are reflected in 2010 and 2011 (\$3.9 million and \$2.3 million respectively). These reductions have already been incorporated into the July 2010 Financial Plan.

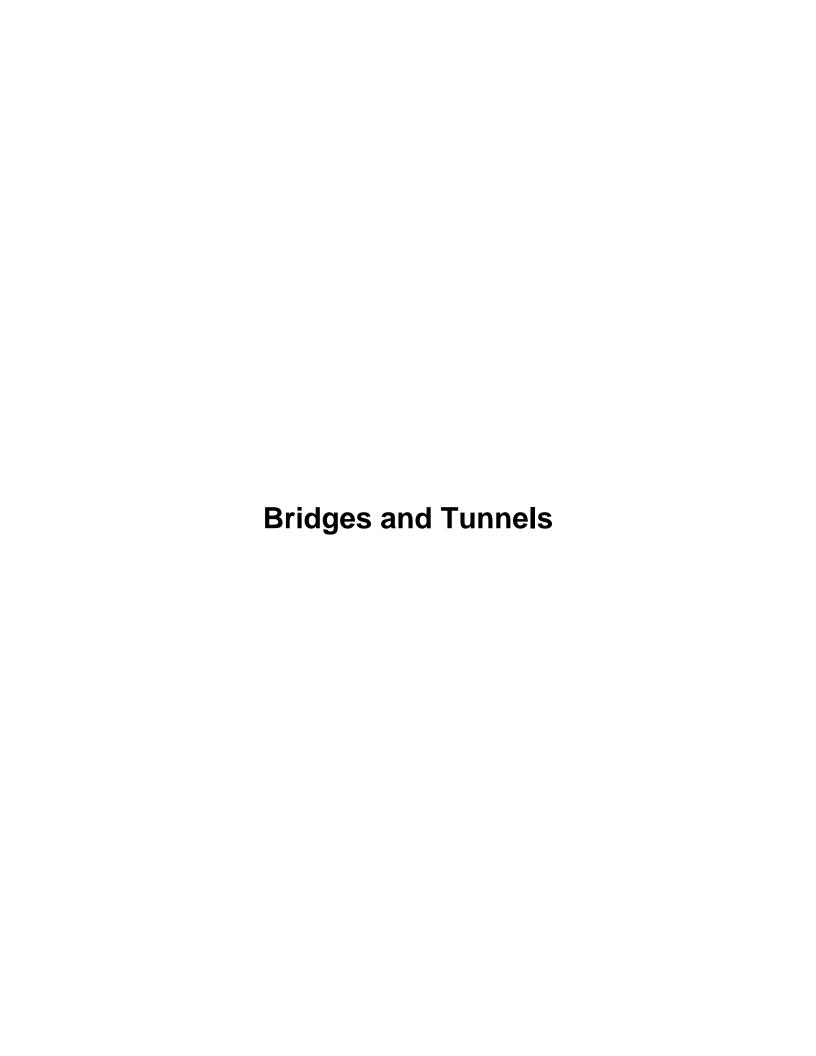

### **Project:** QMT Maintenance Facility

Best Value Analysis of the 2010-2014 Capital Program resulted in the incorporation of the Major Maintenance Project QMM-332, Borden Avenue Environmental Remediation, into this Capital Project. The work being capitalized complies with capital eligibility requirements and is a GASB #49 reportable remediation. In addition, economies of scale are achieved by performing this work under one contract. Impacts reflecting reductions to the major maintenance costs are reflected in 2010 and 2011 (\$0.1 million and \$1.1 million respectively). These reductions have already been incorporated into the Financial Plan.

### MTA POLICE DEPARTMENT CAPITAL PROJECTS

There are no capital projects entering beneficial use in 2012-2015 that have an impact on the MTAPD's operating budget over \$1 million.

# VI. Agency Financial Plans and 12-Month Allocations

### MTA BRIDGES AND TUNNELS FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA-approved budget procedures, the following information presents MTA Bridges and Tunnels' 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of MTA Adjustments that were presented in the November Financial Plan, which were adopted by the Board in December 2011, as well as other technical adjustments.

These adjustments are presented on the attached reconciliations from the November Financial Plan and are described below:

- The 3 Zeroes Salary/Wage Initiative has been fully incorporated into Bridges and Tunnels financial plan, which produces savings of over \$0.9 million annually from non-represented positions throughout the entire plan period, and 1.5 million and \$2.9 million in 2014 and 2015 respectively from represented positions;
- The impact of the Accelerated 3 Year-Net Zero Salary/Wage Initiative for represented positions generates additional savings of \$1.9 million in 2011, \$6.7 million in 2012, \$7.2 million in 2013, \$5.2 million in 2014 and \$3.9 million in 2015;
- New MTA Efficiencies have been achieved through Bridges and Tunnels' participation in MTA's IT Streams, Consolidations & Communications program, with subsequent cost savings totaling \$0.1 million in 2011, \$0.4 million in 2012, and \$0.3 million annually thereafter;
- Energy adjustments resulting from revised rate forecasts for heating fuel, diesel and natural gas generate cost reductions of \$0.1 million in 2011 and \$0.6 million thereafter;
- Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount, and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup> Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

<sup>\*</sup> Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

### MTA CAPITAL CONSTRUCTION FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA approved budget procedures, the following information presents MTA Capital Construction's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of MTA Adjustments that were presented in the November Financial Plan, which was adopted by the Board in December 2011, as well as other technical adjustments.

These adjustments, which are fully reimbursable, are presented on the attached reconciliations from the November Financial Plan and are described below:

- Adjusted labor inflation assumptions reflect 2.20% in 2012, 1.97% in 2013, 1.91% in 2014, and 1.85% in 2015.
- Effective 2012, the non-labor account structure of the MTA standard chart
  of accounts has been adjusted to reflect the reclassification and renaming
  of certain accounts in order to improve account reporting consistency
  among the Agencies. These changes, which affect most non-labor
  accounts presented on the attached tables, result in no net-impact to the
  bottom line. In order to maintain comparability with 2011 actual results for
  year-end reporting purposes, the 2011 account structure remains
  unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

#### MTA LONG ISLAND BUS FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE

In accordance with MTA-approved budget procedures, the following information presents MTA Long Island Bus' 2011 Final Estimate. The 2011 Final Estimate reflects the inclusion of MTA Adjustments that were presented in the November Financial Plan, which was adopted by the Board in December 2011.

These adjustments are presented on the attached reconciliation from the November Financial Plan and are described below:

- Fuel has decreased by \$0.878 million due to the decline of revenue vehicle CNG price.
- The impact of a third year wage freeze in 2011 for non-represented employees is expected to reduce labor cost by \$0.237 million in 2011.
- Accelerated zero savings initiative for represented employees is expected to reduce labor cost by \$1.018 million in 2011.

The Lease and Operating Agreement between Nassau County and LI Bus was terminated effective December 31, 2011. Nassau County contracted with a private operator to provide bus and paratransit service in the County commencing January 1, 2012. The February Financial Plan therefore reflects financial information through December 31, 2011 for Long Island Bus operations.

### MTA LONG ISLAND RAIL ROAD FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

The following information presents MTA Long Island Rail Road's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of below-the-line adjustments that were presented in the November Financial Plan, which was adopted by the Board in December 2011, as well as other technical adjustments

These adjustments are presented on the attached reconciliations from the November Financial Plan and are described below:

- Elimination of a 2011 forecasted non-represented wage assumption that resulted in annual non-reimbursable savings of approximately \$1.6 million.
- Net-Zero Labor Initiative with the assumption that each new labor contract will not impose any additional financial burden on the LIRR for three consecutive years in total. 2011 and 2012 are adjusted from the November Financial Plan to include the third year. Nonreimbursable savings in 2012 are projected to be \$7.0 million growing to \$12.8 million in 2015.
- New MTA IT Efficiencies totaling \$0.4 million in 2011 and approximately \$0.5 million 2012 -2015.
- Energy adjustments for Traction and Propulsion Power, Diesel Fuel and Natural Gas resulting in savings of \$0.3 million in 2011 and increased expenses of approximately \$(0.2) million in 2012 2014 and (\$0.3) million in 2015.
- Technical adjustments primarily consist of changes to the Force Account Insurance rate.
- Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

#### MTA METRO-NORTH RAILROAD FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA-approved budget procedures, the following information presents MTA Metro-North Railroad's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of MTA Adjustments that were presented in the November Financial Plan, which were adopted by the Board in December 2011, as well as other technical adjustments.

These adjustments, along with technical adjustments now included in the February Financial Plan, are presented on the attached reconciliations from the November Financial Plan and are described below:

- Annual cost efficiencies of \$0.3 million in 2011, \$1.1 million in 2012 2014, and \$1.5 million in 2015 associated with the MTA review of information technology functions.
- Inclusion of 3 Zeroes Salary/Wage Initiative by extending the two consecutive years of no-wage growth for represented and non-represented employees to a third year has resulted in savings of \$2.7 million in 2011, \$7.4 million in 2012, \$13.5 million in 2013, \$13.7 million in 2014, and \$14.1 million in 2015.
- Energy cost adjustments anticipate a decrease in diesel fuel prices starting in 2011 for the Revenue and Non Revenue equipment fleets (\$1.7 million annually) and an annual increase in Traction and Propulsion power starting in 2012 (\$1.3 million).
- Changes in Overhead Recovery adjustments reflect Port Jervis Line reconstruction project costs in 2011 and 2012 and the refinement of Overhead recovery rates in 2012-2015.
- Rescheduling of approximately \$2.0 million in Operating Capital project costs from 2011 to 2012.
- Timing differences in capital project reimbursements reflect 2011 Port Jervis Line reconstruction costs paid in 2012 (\$16.3 million).
- Effective 2012, the non-labor account structure of the MTA standard chart of accounts
  has been adjusted to reflect the reclassification and renaming of certain accounts in
  order to improve account reporting consistency among the Agencies. These changes,
  which affect most non-labor accounts presented on the attached tables, result in no netimpact to the bottom line. In order to maintain comparability with 2011 actual results for
  year-end reporting purposes, the 2011 account structure remains unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

# MTA HEADQUARTERS FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND ADOPTED BUDGET FOR 2012

In accordance with MTA-approved budget procedures, the following information presents MTA Headquarters' 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The adopted budget reflects the inclusion of MTA adjustments that were presented in the November Financial Plan, which were adopted by the Board in December 2011, as well as other technical adjustments.

These adjustments are presented on the attached reconciliations from the November Financial Plan and are described below:

- Labor savings of \$1.997 million in 2012, \$2.043 million in 2013, \$2.088 in 2014 and \$2.134 million in 2015 from the impact of a third year wage freeze in 2011 for non-represented employees
- Labor savings of \$0.657 million in 2013, \$4.743 million in 2014 and \$4.416 million in 2015 from the impact of the Accelerated Zero Savings Initiative for represented employees.
- New MTA IT Streams, Consolidations and Communications efficiencies result in MTA net cash savings of \$5.318 million in 2012 and over \$4.0 million in the outyears, including \$3.4 million of recurring savings in maintenance contracts at the Integrated Electronic Security System (IESS) facility.
- Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes result in an expense shift causing a reduction of \$0.247 million in the Accrued Non-Reimbursable Baseline Deficit. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.
- Technical adjustments include a functional shift of 1 position from Administration to Public Safety and some minor shifts within Administration which do not impact total positions.
- Technical adjustments also include a shift of \$3.5 million in Operating Capital from 2012 to 2013 due to timing.

This submission also includes schedules detailing the monthly allocation of financial and headcount data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes result in an expense shift causing a reduction of \$0.247 million in the Accrued Non-Reimbursable Baseline Deficit. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

<sup>&</sup>quot;Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes result in an expense shift causing a reduction of \$0.247 million in the Accrued Non-Reimbursable Baseline Deficit. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

#### MTA Headquarters

MTA Headquarters includes four distinct components: Policy & Oversight, MTA Consolidated Functions, the Business Service Center, and MTA Security:

- MTA HQ Policy & Oversight includes MTA Executive Leadership and policy/oversight functions. All aspects of Administration strive to identify opportunities to streamline expenses and increase efficiencies.
- MTA Consolidated Functions includes areas where savings have been achieved through function consolidations or areas where the work can be more efficiently performed at Headquarters. As MTA consolidates functions across the Agencies, it is likely that the net budget change associated with those functions will increase Headquarters' costs, while staffing and expense levels decrease at a higher level at the Agencies.
- The Business Service Center provides shared back-office financial including accounts receivable, payroll, procurement, and human resource services to all agencies. While a number of services began operating in January 2011, the full complement of services is expected to become available to all agencies by spring 2012.
- Public Safety includes the MTA Police which patrols the MTA's commuter railroads, and provides MTA-wide oversight of security and safety services.
   Public Safety also leads emergency preparedness, and interfaces with multiple city, state and federal law enforcement agencies.

The following tables show break-outs of the MTA HQ expenses and personnel Budgets by these categories.

#### MTA INSPECTOR GENERAL FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA-approved budget procedures, the following information presents MTA Inspector General's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the November Financial Plan, which was adopted by the Board in December 2011, as well as other technical adjustments.

In the 2011 Final Estimate, a total of \$12.8 million is projected in baseline expenses, which remains unchanged from the November Financial Plan.

The 2012 Adopted Budget of \$13.2 million remains unchanged from the November Financial Plan.

Effective 2012, the non-labor account structure of the MTA standard chart
of accounts has been adjusted to reflect the reclassification and renaming
of certain accounts in order to improve account reporting consistency
among the Agencies. These changes, which affect most non-labor
accounts presented on the attached tables, result in no net-impact to the
bottom line. In order to maintain comparability with 2011 actual results for
year-end reporting purposes, the 2011 account structure remains
unchanged.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

# MTA NEW YORK CITY TRANSIT FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND ADOPTED BUDGET FOR 2012

In accordance with MTA-approved budget procedures, the following information presents MTA New York City Transit's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of MTA adjustments that were presented in the November Financial Plan, which was adopted by the Board in December 2011, as well as other technical adjustments.

These adjustments are presented on the attached reconciliations from the November Financial Plan and are described below:

- Non-reimbursable labor savings of \$9.1 million in 2012, \$9.2 million in 2013, \$55.4 million in 2014 and \$65.7 million in 2015, from the elimination of a third year wage increase as part of a three-year net zero savings initiative for represented employees and the elimination of a third year (2011) non-represented employee wage increase.
- Non-reimbursable labor savings of \$18.9 million in 2012, \$18.7 million in 2013, \$14.5 million in 2014 and \$6.8 million in 2015, from the impact of acceleration of the three-year net zero savings initiative.
- Revised inflation assumptions, which result in net energy savings of \$3.3 million in 2012, \$3.0 million in 2013, \$2.8 million in 2014, and \$2.6 million in 2015.
- New MTA efficiencies, which are projected to result in savings of \$1.4 million each year.
- Technical adjustments, principally due to retro-active cash payments related to the projected timing of labor contract settlements.
- Effective 2012, the non-labor account structure of the MTA standard chart
  of accounts has been adjusted to reflect the reclassification and renaming
  of certain accounts in order to improve account reporting consistency
  among the Agencies. These changes, which affect most non-labor
  accounts presented on the attached tables, result in no net-impact to the
  bottom line. In order to maintain comparability with 2011 actual results for
  year-end reporting purposes, the 2011 account structure remains
  unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented above, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented above, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented above, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

# MTA BUS COMPANY FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA-approved budget procedures, the following information presents MTA Bus Company's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The adopted budget reflects the inclusion of MTA Adjustments that were presented in the November Financial Plan, which were adopted by the Board in December 2011, as well as technical adjustments.

These adjustments are presented on the attached reconciliation from the November Financial Plan and are described below:

- Three-year zero savings initiative impact for Represented employees: \$4.2 million in 2014 and \$5.7 million in 2015.
- Non-represented wage freeze savings: \$0.9 million in 2011 and 2012, and \$0.8 million in 2013 through 2015.
- Accelerated zero savings initiative for Represented employees: \$1.1M in 2011, \$5.4 million in 2012, \$5.9 million in 2013, \$1.7 million in 2014 and \$0.4 million in 2015.
- Revised inflation assumptions, which result in net Fuel savings of \$0.7 million in 2011 and \$2.7 million in 2012 through 2015, as well as Non-Revenue Fuel savings of \$0.3 million in 2011, and \$1.4 million in 2012 through 2015.
- New MTA Efficiencies are projected to result in savings of \$0.6 million in 2011, and \$0.2 million each year thereafter.
- Effective 2012, the non-labor account structure of the MTA standard chart
  of accounts has been adjusted to reflect the reclassification and renaming
  of certain accounts in order to improve account reporting consistency
  among the Agencies. These changes, which affect most non-labor
  accounts presented on the attached tables, result in no net-impact to the
  bottom line. In order to maintain comparability with 2011 actual results for
  year-end reporting purposes, the 2011 account structure remains
  unchanged.
- Technical adjustments include a departmental shift of 8 positions from various departments and some minor shifts within Administration which does not impact total positions.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented on the attached tables, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

# MTA STATEN ISLAND RAILWAY FEBRUARY FINANCIAL PLAN FOR 2012-2015 2011 FINAL ESTIMATE AND 2012 ADOPTED BUDGET

In accordance with MTA-approved budget procedures, the following information presents MTA Staten Island Railway's 2011 Final Estimate, 2012 Adopted Budget and the Financial Plan for 2012-2015. The Adopted Budget reflects the inclusion of MTA adjustments that were presented in the November Financial Plan, which was adopted by the Board in December 2011.

These adjustments are presented on the attached reconciliations from the November Financial Plan and are described below:

- Labor savings of \$0.313 million in 2012 and 2013, \$0.320 million in 2014 and \$0.326 million in 2015, from the assumption of a three-year net zero savings initiative for represented employees.
- Labor savings of \$0.063 million in 2012, \$0.064 million in 2013, \$0.065 million in 2014 and \$0.066 million in 2015, from the impact of a third year wage freeze in 2011 for non-represented employees.
- Revised inflation assumptions, which result in increases in traction & propulsion power costs of \$0.089 million in 2012, \$0.092 million in 2013, \$0.095 million in 2014 and \$0.098 million in 2015.
- Revised inflation assumptions, which result in decreases in fuel costs of \$0.003 million for each plan year.
- Effective 2012, the non-labor account structure of the MTA standard chart
  of accounts has been adjusted to reflect the reclassification and renaming
  of certain accounts in order to improve account reporting consistency
  among the Agencies. These changes, which affect most non-labor
  accounts presented on the attached tables, result in no net-impact to the
  bottom line. In order to maintain comparability with 2011 actual results for
  year-end reporting purposes, the 2011 account structure remains
  unchanged.

This submission also includes schedules detailing the monthly allocation of financial, headcount and utilization data based on the 2012 Adopted Budget for the purpose of reporting actual results on a monthly basis to the Board.

<sup>\*</sup>Effective 2012, the non-labor account structure of the MTA standard chart of accounts has been adjusted to reflect the reclassification and renaming of certain accounts in order to improve account reporting consistency among the Agencies. These changes, which affect most non-labor accounts presented above, result in no net-impact to the bottom line. In order to maintain comparability with 2011 actual results for year-end reporting purposes, the 2011 account structure remains unchanged.

#### Purpose:

To secure MTA Board (i) adoption of the accompanying 2012 Final Proposed Budget and the Four Year Financial Plan 2012-2015 (December Plan), which includes approving the 2011 Final Estimate, the General Reserve, and all Plan Adjustments (items below the baseline), and (ii) authorization of Budget and Plan adjustments, budget and cash management actions and other staff actions as set forth below in the Staff Summary.

#### **Discussion:**

This document summarizes the Plan presented to the Board in November ("November Plan") and describes new developments that have adversely impacted this Plan and which require the Board's consideration of additional budgetary measures to be incorporated into the 2012 Final Proposed Budget and Four-Year Financial Plan (the "December Plan").

Subsequent to the November Plan, the MTA has made several important re-estimates that are detailed on pages 3-4 (and Attachment A). Recent discussions with the New York State Division of the Budget (NYSDOB) indicate a likely reduction in the level of MMTOA taxes that were projected in the November Plan. A modest increase in the level of taxes known as MTA Aid will offset some of that reduction, as will the release of certain reserves. However, in order to eliminate the remaining 2012 shortfall and to offset the net subsidy reduction in the out-years, the MTA will implement \$35 million in recurring deficit reduction measures that currently are unspecified. These measures will be identified early in 2012 and incorporated into the July 2012 Financial Plan.

Recent legislation signed into law by Governor Cuomo makes significant changes to the Payroll Mobility Tax (PMT) by eliminating or reducing the PMT for certain taxpayers including public and private schools, small employers and self-employed with income below a legislated threshold. New York State projects a reduction in PMT revenues of \$310 million annually; however, the December Act expressly provides that any reductions in transit aid attributable to these reductions in the payroll mobility tax "shall be offset through alternative sources that will be included in the state budget" ("replacement funds"). This Financial Plan, therefore, assumes that there will be no reduction in net revenue to the MTA.

The December Plan projects ending cash balances of \$200 million in 2011, \$1 million in 2012, and \$80 million in 2013 with projected cash deficits of \$141 million in 2014 and \$211 million in 2015 (see Attachment A). Compared with the November Financial Plan, the forecast of Net Cash Balances is \$21 million higher in 2011 and flat in 2012. Projections for 2013 through 2015 are slightly worse than the November Plan by \$16 million, \$19 million, and \$5 million respectively.

Page 2 of 6

#### The November Financial Plan 2012-2015

The 2011 November Forecast, 2012 Final Proposed Budget and November Financial Plan 2012-2015 (the "November Plan" or "Plan"), which was presented to the MTA Board at its last meeting, reaffirms the MTA's commitment to establishing fiscal stability for the MTA's finances. The Plan includes a continued focus on cost cutting to achieve \$850 million annual recurring savings by 2015, with a cumulative total efficiency savings in the Plan alone of almost \$4 billion, without budget-driven service cuts; continued receipt of dedicated taxes and subsidies; and agreement with labor for "net zero" wage savings of more than \$300 million annually by 2015. Consistent with the 2009 State understanding on MTA financing, the Plan also includes 7.5 % fare and toll increases in 2013 and 2015. The Plan will protect the revenues budgeted for capital Pay-As-You-Go so that they will be available to pay debt service on new debt critical to funding the final three years of the 2010-14 Capital Program. The capital funding proposal will require approval by the Board and Capital Program Review Board.

The November Plan incorporates the increased MTA efficiency targets that were established in the July Plan and has significantly reduced the portion of the future targets that are unidentified. Vigilance will be required not to backslide where savings have been achieved. The MTA must continue to seek out and pursue new opportunities not just to deliver existing services more efficiently, but also to create savings that can be reinvested for improved reliability and service.

Additionally, the November Plan assumes that labor settlements will include three years of "net zero" wage growth. With approximately 60% of the MTA's expenses driven by labor costs, it is essential that growth in this area reflect the economic realities of this region and the State. The MTA's plan includes three years of "net zero" wage savings which are in line with the contract agreements reached by the State and its two largest unions, the CSEA and PEF. By the end of 2011, non-represented employees will have gone three years without a wage increase.

The Plan captures the impacts of three significant weather events that took place during 2011 that affected MTA operations and finances – record breaking January snowfalls, an October Nor'easter that dropped unusually early, heavy snowfall and August's Tropical Storm Irene. Irene caused extensive infrastructure damage to MTA properties with Metro-North's Port Jervis line the hardest hit. Metro-North and its employees did an excellent job mitigating the impact and cost of that storm, restoring service on November 28<sup>th</sup>. Repairs were done faster and less expensively than originally estimated, and recoveries from insurance and the Federal Emergency Management Agency (FEMA) are anticipated in 2012.

For 2012 and beyond, the Plan continues to assume the exclusion of LI Bus from all budget forecasts of MTA subsidies. We note that there will be recurring costs beyond 2011 to finish the "wind-down" of MTA operations and future payments for employee and other liabilities including vacation and sick leave balances, retiree health insurance, worker's compensation claims, pension liabilities and unemployment insurance. While these costs likely will impact MTA short-term cash flow, such expenses are the financial responsibility of Nassau County under the terms of the Lease and Operating Agreement between Nassau County and the MTA, and MTA will seek reimbursement for such future expenses from the County.

#### Other Changes between the July and November Plans

November Plan subsidy projections are similar to July. The November Plan recognized the likelihood that State subsidies to the MTA will be lower than anticipated because of a slow-down in the economic activity supporting those specific taxes. These losses, however, are expected to be mostly offset by higher real estate revenues. Agency projections are also similar to July as the combination of lower passenger revenues and higher claims costs are being offset by slightly lower costs for health & welfare and energy. Lower debt service and favorable spending in 2011 will help to finance reinvestments that are described below.

The elimination of most of the remaining general reserve in 2011, and a significant shift in the timing of expenses from 2011 to 2012 will permit the MTA to repay an inter-agency loan of \$135 million in 2011 rather than in 2012, as was assumed in the July Plan. In 2012 and beyond, the General Reserve increases to approximately one percent of the MTA's operating budget. Energy fluctuations and weather impacts seen in 2011 alone demonstrate the necessity of an increased General Reserve. The November Plan continues the fuel hedge program through 2015.

The November Plan projected a \$179 million ending cash balance in 2011, a positive balance (less than \$1 million) in 2012, and a \$96 million ending cash balance in 2013. Projected cash deficits of \$122 million in 2014 and \$206 million in 2015 reflect a worsening in out-year results.

# **Staff Summary**

Page 3 of 6

#### Reinvestments for Improved Reliability and Service Quality

While striving to reduce expenses, the MTA continues to address the important issues of reliability and service quality and has made appropriate reinvestments. New York City Transit is adding staff to improve signal maintenance and repairs and to improve the reliability and safety of its escalators and elevators. NYC Transit is also adding resources to extend the useful life of its R-32 subway car fleet until replacements are delivered in 2017, and is reinstating its Work

Experience Program, that will result in substantial improvements to station and car cleanliness. Bus Customer Information Systems (CIS) are being rolled out, which will provide real-time information for bus passengers so that riders will know when buses will arrive and their current locations. This pilot program will deploy CIS to all Staten Island buses by the end of 2011, and will be rolled-out to all buses throughout the MTA system beginning in 2012.

Metro-North will rehabilitate its Harlem River Lift Bridge, which was severely damaged in a 2010 fire, and will purchase equipment to improve its response to heavy snowfall and icing conditions. MNR will also overhaul several West of Hudson locomotives to extend their reliability through 2020 and complete its door modification program for its M-3 fleet. The Long Island Rail Road is rolling out systems to improve the service and schedule status information it provides to its customers during major service disruptions. MTA Bus is adding road dispatchers for service support and investing in customer convenience and related amenities by expanding the existing Guide-A-Ride program and implementing a Passenger Environment Survey process much like NYCT that will provide information on the customer experience.

#### Risks Identified in the November Plan

Despite an improved outlook, significant risks remain. <u>The regional economy remains weak, and if there is a "double dip" recession, the MTA has limited financial reserves to offset lower-than-expected operating revenues and dedicated taxes.</u> The Plan assumes that State budget actions will reflect full remittance to MTA of all resources collected on MTA's behalf and that fare and toll increases will be implemented as forecasted.

An additional significant risk to the MTA is the underfunding of the 2010 - 2014 Capital Program. Failure to fund this program would put the MTA at risk of violating the Federal Full Funding Grant Agreements for the mega-projects and/or deferring necessary investment in state of good repair and normal replacement of its capital assets, both of which are essential to the reliability of the system. This outcome would undermine MTA's financial rating and its ability to deliver essential transportation services for the region. For this reason, the Plan continues to protect revenues set aside for capital PAYGO, which are proposed to be re-budgeted to pay debt service on new bonds to fully fund the last three years of the Capital Program, subject to review and approval by the MTA Board and CPRB.

#### **New Developments**

Subsequent to the November Plan, the MTA has made several important re-estimates that are described below and captured on page 2 of Attachment A:

- Recent discussions with the State Division of the Budget (DOB) subsequent to the November Plan have yielded information that has caused the MTA to change its estimate of State operating aid to MTA from Metropolitan Mass Transportation Operating Assistance ("MMTOA") by an amount that is \$87 million lower in 2012 than was forecast in the November Plan. For 2013 through 2015, revised MMTOA estimates, when compared with the November Plan, are unfavorable by \$58 million, \$45 million and \$47 million, respectively. The downward revisions are attributable to lower revenues, updated allocation projections and an increase in the amount that NYS will reserve (and therefore, not pay out) to hedge against economic risks.
- PMT Recent legislation signed into law by Governor Cuomo, (the December Act) makes significant changes to the Payroll Mobility Tax (PMT). The provisions eliminate or reduce the PMT imposed within the MTA Commuter Transportation District for certain taxpayers including public and private schools, small employers and self-employed with income below a legislated threshold. As a result of the changes, the Governor's Memorandum in support of the December Act projects a reduction in PMT revenues of \$310 million annually. The December Act further expressly provides that any reductions in transit aid attributable to these reductions in the payroll mobility tax "shall be offset through alternative sources that will be included in the state budget" ("replacement funds"). A portion of the \$310 million is already included in the current State Financial Plan.
- MTA Aid These taxes are running \$13 million favorable, with the increase attributable to the auto rental tax and
  the taxi surcharge; the majority of this variance reflects receipts since the preparation of the November Plan.
  Based on discussions with NYSDOB, \$7 million of this favorable variance is likely to be recurring. All other

Page 4 of 6

subsidies are tracking close to budget. While the improvement in MTA Aid offsets a small portion of the reduced MMTOA projections, the net 2011-2012 subsidy impact is \$67 million unfavorable.

- 2011 General Reserve The November Plan left \$8 million dollars in MTA's General Reserve for 2011 to mitigate
  potential unfavorable financial impacts from the October Nor'easter and other potential storms through the
  remainder of the year. The MTA is confident that any storm impacts can be absorbed within existing Agency
  forecasts, and is releasing the rest of that reserve, which will improve the cash carryover into 2012 by \$8 million.
- 2012 General Reserve The November Financial Plan recognized the risks posed by a tenuous economic recovery (see underlined sentence above). This risk was one reason that the cash reserve for 2012 was increased to \$125 million, approximately 1% of the MTA's operating budget. Since the reduced MMTOA estimate is clearly one of the risks cited in the November Financial Plan, and that risk has now been quantified and incorporated into this Plan, the MTA will lower the 2012 General Reserve by \$25 million to partially cover the MMTOA shortfall. Out-year reserve levels will not be adjusted.

The use of reserves offsets some but not all of the above unfavorable subsidy re-estimate. In order to eliminate the remaining 2012 shortfall and to offset the net subsidy reduction in the out-years, the MTA will implement \$35 million in recurring deficit reduction measures that currently are unspecified. These measures will be identified early in 2012 and be incorporated into the July 2012 Financial Plan.

The December Plan projects ending cash balances of \$200 million in 2011, \$1 million in 2012, and \$80 million in 2013 with projected cash deficits of \$141 million in 2014 and \$211 million in 2015. Compared with the November Financial Plan, the forecast of Net Cash Balances is \$21 million higher in 2011 and flat in 2012. Projections for 2013 through 2015 are slightly worse than November by \$16 million, \$19 million, and \$5 million respectively.

#### Recommendation:

It is recommended that the Board:

- Adopt the 2012 Final Proposed Budget and Four Year Financial Plan 2012-2015 (December Plan), which
  includes approving the 2011 Final Estimate, the General Reserve, and all Plan Adjustments (items below the
  baseline). The approval of this Plan will supersede prior Board Plan Approvals for this period.
- Authorize staff, under the guidance of the Executive Director, to take actions to implement the subsidy and other technical adjustments set forth in the December Plan.
- Authorize technical adjustments to Agency Budgets and forecasts of a non-material nature in the February Plan.
- Authorize adjustment of Agency 2012 Budgets and forecasts to reflect labor settlements approved from time to time by the Board.
- Consistent with last December's Board Action, which authorized staff under the direction of the Chair/CEO to take
  actions in furtherance of ending subsidization of the Long Island Bus deficit, authorize the transfer of certain LI
  Bus staff temporarily to MTA HQ to continue "wind down" work necessary to close out LI Bus' operations.
- As previously approved, the Plan assumes that the MTA will enter into fuel hedge agreements, up to 12 months in length, and set aside up to \$100 million to collateralize these hedges. It is recommended that the Board authorize staff to continue its previously authorized energy hedge program and authorize forward hedges up to but not exceeding 24 months in duration to always assure one full year of price certainty for the hedged amount.
- Approve additional budget and cash management actions, as has been done in past budget adoptions, as further described below:

#### Advance of Bridges and Tunnels Operating Surplus

As has been done on previous occasions, the Board is requested to authorize Bridges and Tunnels to advance to MTA and NYC Transit, to the extent funds are available, all or part of the estimated operating surplus for the year 2012, when and as directed by the Executive Director or his designee.

# **Staff Summary**

Page 5 of 6

#### Uses of MTA MRT-2 Corporate Account Monies

Unlike many other forms of intergovernmental aid, these subsidy monies, by statute, can be allocated at the Board's discretion. It is recommended that the Board authorize that these funds be used as set forth in the Plan, authorize staff under direction of the Executive Director to administer these funds in a manner consistent with the Plan, and to temporarily help stabilize cash-flow requirements. As in the past, the advance of funds to the MTA and its affiliates and subsidiaries to stabilize cash-flow requirements may be made, provided that such advances are repaid prior to the end of the fiscal year in which made.

#### Uses of Payroll Mobility Tax (and Replacement Funds) and Other New Taxes

Like the MRT-2 Corporate Account moneys, these subsidy moneys, by statute, can be allocated at the Board's discretion. It is recommended that the Board authorize that the revenues from the PMT (and Replacement Funds) be released as needed: (i) for pledged revenues by MTA to secure and be applied to the payment of bonds to be issued in the future, to fund capital projects of MTA, its subsidiaries, and MTA New York City Transit and its subsidiary and (ii) to pay capital costs, including debt service of MTA, its subsidiaries, and MTA New York City Transit and its subsidiary. It is further recommended that the Board authorize that subject to the provisions of any such pledge, or in the event there is no such pledge, the PMT Revenues be used by MTA to pay for costs, including operating costs of MTA, its subsidiaries and MTA New York City Transit and its subsidiary, and that the Executive Director or his designee be authorized to release these funds as needed in any of these areas described above.

Further, it is recommended that the Board authorize that the revenues in the MTA Aid Trust Account (derived from four fees and taxes imposed in the Metropolitan Commuter Transportation District - a supplemental motor vehicle license fee, a supplemental motor vehicle registration fee, a tax on medallion taxicab rides, and a supplemental tax on passenger car rentals) be released as needed and used as pledged revenues by MTA or pledged to the Triborough Bridge and Tunnel Authority to secure debt of MTA Bridges and Tunnels. Further subject to the provisions of such pledge, or in the event there is no such pledge, it is recommended that that the Executive Director or his designee be authorized to direct the release of these funds to be used by MTA for the payment of operating and capital costs of the MTA, its subsidiaries, and MTA New York City Transit and its subsidiary.

#### Inter-Agency Loans

The Board is requested to authorize the Executive Director or his designee, acting under Section1266 (6-a) of the Public Authorities Law, to enter into inter-agency loan agreements among the MTA and its affiliates and subsidiaries. This authorization would allow the temporary movement of funds among agencies to meet cash flow requirements for operating or capital purposes resulting from a mismatch between the receipt of subsidies and other monies and cash flow needs. The statute requires that any such inter-agency loans be repaid no later than the end of the next succeeding calendar year.

#### Use of Stabilization Reserve: Provision for Prompt Payment of Contractual Obligations

In 1996, the Board approved the establishment of a Stabilization Reserve, to be held by the MTA Treasurer (the "Treasurer"), to stabilize MTA Agencies' cash flow requirements. The fund consists of two accounts, the MTA New York City Transit Account (the "Transit Account") and the MTA Commuter Railroad Account (the "Commuter Railroad Account"). The Board is requested to authorize the use of any balances in such accounts, plus any amounts authorized below to be transferred to such accounts, to meet the cash flow requirements of MTA New York City Transit and the MTA Commuter Railroads and to authorize MTA New York City Transit to pay to the Treasurer for deposit in the Transit Account such amounts as it deems necessary to accomplish the purpose thereof, consistent with this Plan; and the Treasurer, subject to the approval of the Executive Director or his designee, to pay into the Commuter Railroad Account, such amounts as are deemed necessary to accomplish the purpose thereof, consistent with this Plan. The Treasurer, upon request of MTA New York City Transit, shall pay to NYCT such amounts as are necessary to meet cash flow requirements of NYCT and as authorized by the Executive Director or his designee, shall transfer from the Commuter Railroad Account such amounts as are necessary to meet the cash flow requirements of MTA Commuter Railroads. The Treasurer shall also use such funds as from time to time may be necessary or convenient to timely make debt service payments on MTA bonds.

# **Staff Summary**

Page 6 of 6

#### Government Accounting Standards Board (GASB) Contributions

In June 2008, the MTA approved the establishment of the "MTA Retiree Welfare Benefits Trust" to govern the administration and investment of the OPEB trust assets. Pending transfer to the "Trust," the Treasurer will continue to hold the 2006 through 2011 funds set aside in discrete sub-accounts that comprise the GASB Account. Moreover, agencies will make contributions of \$58 million as set forth in the 2012 Budget to the GASB Account in 2012 (with additional contributions in the out years of the Plan). The Treasurer is authorized to use the GASB accounts to fund intra-agency loans as well as inter-agency loans. If an agency uses its own GASB funds to meet 2012 cash flow needs, the amounts withdrawn in 2012 must be paid back by December 31, 2014. If the GASB funds are used as inter-agency loans in 2012, they would be subject to repayment no later than December 31, 2013, consistent with the Inter-Agency Loan provision described above.

<sup>&</sup>lt;sup>1</sup> In order to establish consistency among Agencies when reporting overtime results, certain overtime-related expenses that had been captured within payroll (straight-time) were shifted to the overtime category beginning in 2011. However, the 2010 Actual results do not reflect the change. The result would have been a zero-sum shift of approximately \$48 million from payroll to overtime, making the 2010 Actual for Overtime \$491 million and Payroll \$4,121 million.

# Certification of the Chairman and Chief Executive Officer of the Metropolitan Transportation Authority

Metropolitan Transportation Authority in accordance with Section 202.3(l) of the

### State Comptroller's Regulations

I, Joseph J. Lhota, Chairman and Chief Executive Officer of the Metropolitan Transportation Authority ("MTA"), hereby certify, to the best of my knowledge and belief after reasonable inquiry, including certifications from senior management at the MTA agencies, that the attached budget and financial plan is based on reasonable assumptions and methods of estimation and that the requirements of Section 202.3 and 202.4 of the Regulations referenced above have been satisfied.

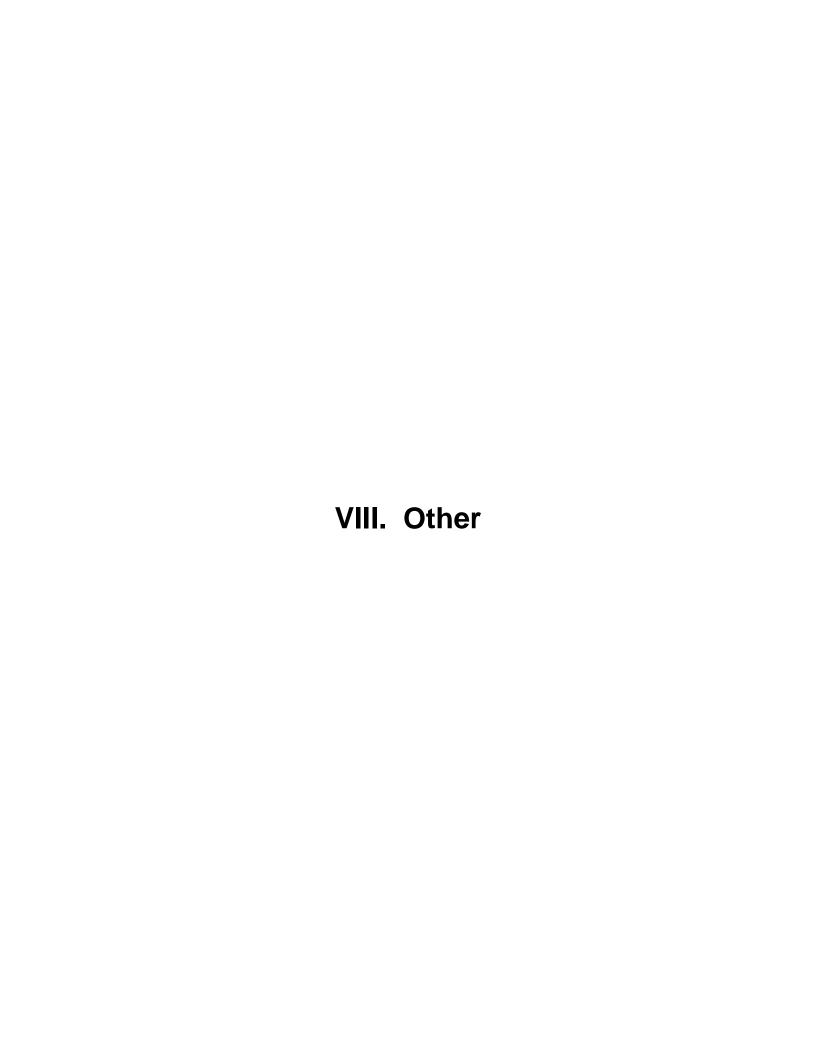

Metropolitan Transportation Authority

Joseph I Lhota

Chairman and Chief Executive Officer

Dated: February 15, 2012

#### **The MTA Budget Process**

MTA budgeting is a rigorous and thorough process that begins in the spring and culminates with the passage of the Budget in December. In the course of a year, MTA prepares a February, July and November Financial Plan, and Adoption Materials in December. In addition to the existing year, each Plan requires Agencies to prepare four-year projections which include the upcoming and three future calendar years.

Both the July and November Financial Plans are divided into two distinct volumes:

- Volume I supports the complete financial plan, including the baseline as well as policy items and below-the-line gap closing items;
- Volume II includes detailed Agency information supporting baseline revenue, expense, cash and headcount projections. Also included is detailed information supporting actions taken to increase savings as well as individual Agency deficit reduction programs.

#### July Plan

The July Financial Plan provides the opportunity for the MTA to present a revised forecast of the current years finances, a preliminary presentation of the following years proposed budget, and a three-year reforecast of out-year finances. This Plan may include a series of gap closing proposals necessary to maintain a balanced budget and actions requiring public hearings. The Mid-Year Forecast is allocated over the period of 12 months and becomes the basis in which monthly results are compared for the remainder of the year.

#### November Plan

After stakeholders weigh in and the impact of new developments and risks are quantified, a November Plan is prepared, which is an update to the July Financial Plan. The November Plan includes a revised current year and finalization of the proposed budget for the upcoming year and projections for the three out-years.

#### December Adopted Budget

In December, the November Plan is updated to capture further developments, risks and actions that are necessary to ensure budget balance, which is ultimately presented to the MTA Board for review and approval of the budget for the upcoming year.

#### February Plan

Finally, in the Adopted Budget below-the-line policy issues are moved into the baseline and technical adjustments are made. This results in what is called the February Plan. The current year (the Adopted Budget) is allocated over the period of 12 months and becomes the basis in which monthly results are compared.
