NO BLOW-UP DAMAGE MUCH RAW MATERIAL AND A STRUCTURE NOT COMPLETED WERE LOST.

Le Roy, May 23.—The plant of the Union Explosives Company, located on the Gulf road about five miles northeast of Le Roy, was menaced by fire at an early hour yesterday morning, several thousand dollars damage being done to buildings and raw materials before the flames were extinguished.

It was shortly before 1 o'clock when Edward Martin, the night fireman at the plant, discovered flames in the dry house, a frame and concrete building used for drying materials to be used in the manufacture of high explosives. He telephoned word of the fire to the officials in this village.

In the buildings destroyed were considerable quantities of ammonium nitrate, a highly explosive material, sodium nitrate, also explosive, and wool pulp used in the manufacture of the company's products. Near the dry house were many barrels of ammonium nitrate and about a fourth of these were burned.

DIRECTORATE OF HOSPITAL STATES PLAN WOMEN'S BOARD PROPOSES REORGANIZATION OF ADMINISTRATION. CAMPAIGN MOTIVES

In an open letter to the people of Genesee county Mrs. Francis Thomas of No. 311 East Main street, president of the Batavia Woman's Hospital Association, and Mrs. Alice G. Fisher of No. 427 East Main street, formerly president of the hospital association for many years, announced today the motives which actuated the association in its campaign to raise \$58,500 which starts on Wednesday of next week.

Following is the official statement: For nearly twenty years the Batavia hospital was practically self supporting and made no demands on the public for maintenance. This extraordinary achievement was made possible by serious study in the first years of a portion of the money earned through rummage sales and entertainments. The trustees felt that after the first enthusiasm it might be difficult to raise money for the hospital and so the fund was gradually accumulated for certain purposes only.

It is suggested that the income from the \$5,000 endowment for each bed permitted many more days' service for each bed than it does now, as expenses were far less. At the outbreak of the world war the women of the hospital board decided to render a great service to the city and refused to raise their prices, even in the face of rising costs, and the fact that their surplus fund was being rapidly exhausted.

Four years later they were obliged to come out for money for maintenance, in common with all the other hospitals of the country. Since that time they have been called on to receive the people who administered them, the war conditions making it almost impossible to keep up necessary equipment and repairs. So it seems advisable to change our policy of administration somewhat.
