INSTRUCTION BOOKLET

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME DISC OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	Eye or muscle twitching	Loss of awareness
Altered vision	Involuntary movements	Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendinitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

⚠ WARNING - Electric Shock

To avoid electric shock when you use this system:

- Use only the AC adapter that comes with your system.
- Do not use the AC adapter if it has damaged, split or broken cords or wires.
- Make sure that the AC adapter cord is fully inserted into the wall outlet or extension cord.
- Always carefully disconnect all plugs by pulling on the plug and not on the cord. Make sure the Nintendo GameCube power switch is turned OFF before removing the AC adapter cord from an outlet.

⚠ CAUTION - Motion Sickness

Playing video games can cause motion sickness. If you or your child feel dizzy or nauseous when playing video games with this system, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

⚠ CAUTION - Laser Device

The Nintendo GameCube is a Class I laser product. Do not attempt to disassemble the Nintendo GameCube. Refer servicing to qualified personnel only.

Caution - Use of controls or adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

ENTER

THE FRAY

The object of Super Smash Bros. Melee is to attack your opponents and send them flying from the field of battle.

When a match starts, use the many techniques at your disposal to take the fight to your foes.

1

2

When your attack succeeds, your enemy's damage percentage, displayed at the bottom of the screen, increases. When it reaches a high number...

...use a powerful Smash Attack to blast your opponent off the screen!

3

TIP #1

Opponents with a high damage percentage fly farther when struck!

The distance enemies get sent flying is proportional to the amount of damage they have taken. Try to raise your foe's damage percentage as high as possible before attempting finishing blows.

When damage percentages are...

...low, it is hard to send opponents flying.

...high, opponents go sailing.

TIP #2

As long as you can make it back to the stage, it doesn't matter how far you've been sent flying away.

When an opponent smashes you and sends you soaring, don't give up! You can sometimes use your midair jump and  Special Move to cover ground and return safely to the playing field.

Climbing Up Edges

Characters can grab the edges of platforms in Super Smash Bros. Melee. Grabbing edges and climbing up them is a fundamental part of traversing terrain and successfully performing recovery moves.

When hanging from an edge, press to climb up.

NOTE

You can jump or attack as you are climbing up edges. Practice both techniques and use them strategically.

Special Moves

Perform Special Moves by pressing **B** or by pressing **B** and the Control Stick. When performed properly, Special Moves produce attacks that are unique to the character being used.

Each Character Has Four Special Moves

Donkey Kong

Giant Punch

Press **B** to wind up, and **B** again to punch!

Yoshi

Egg Throw

The longer you hold **B**, the farther you'll throw the egg. Use to direct the angle of the toss.

Link

Boomerang

Hold for a greater throw distance! Tilt up or down on release to set a high or low flight pattern.

Mario

Mario Tornado

Press **B** repeatedly at the beginning of the technique to send Mario spinning skyward.

NOTE

Each character has four different Special Moves. See pages 36-43 for more details.

Defensive Shield

Press **L** or **R** to shield and deflect enemy attacks. The more you depress the button, the smaller your shield becomes. Use your shield to ward off blows and keep your damage percentage low.

Use **L** or **R** to shield

Tilt the Control Stick to shift the position of the shield.

NOTE

Shields become smaller as they absorb attacks and as time passes. If held too long or hit with overpowering blows, shields break, leaving the characters stunned and momentarily unable to move.

Use the Control Stick for Advanced Defensive Moves

Tap **○** while shielding to perform some nifty defensive maneuvering. With practice, you will nimbly sidestep incoming attacks or even circle around enemies like a matador!

Getting Started

Insert the Nintendo GameCube Game Disc and a Nintendo GameCube Memory Card (sold separately) into the console, close the cover and turn the POWER Button ON. After the Super Smash Bros. Melee title screen appears, press START/PAUSE.

Things to Remember About Saving and Memory Cards

- ★ Insert the Memory Card into **Memory Card Slot A**.
★ To save Game Data, the Memory Card must have **eleven (11) blocks** of space open.

 - To save Snapshots in Camera mode, you'll need additional blocks (see page 33). It's best to insert a Memory Card with a large number of empty blocks in slot B.
- ★ Before beginning play, follow the on-screen instructions and **create a file for this game** on the Memory Card. (If there is already a file, all of your game progress will be saved to it automatically.)

 - Follow the on-screen instructions for saving Snapshots.
- ★ Game Data is saved during game play. Do not remove the Memory Card during game play.
- ★ When finishing game play, it is recommended that you return to the title screen before **turning the power OFF**.

NOTE

During game play, do not repeatedly insert and then remove Memory Cards, press the POWER Button, or reset the game. Doing so may erase saved game data or cause damage to Memory Cards or the game console.

There is no Memory Card in Slot A.

Please refer to the Nintendo GameCube instruction booklet (Pages 18-20) for directions on how to format and erase Memory Card files.

Game Menus

1 One-Player Mode

The single-player Smash mode is full of variety—there are battles against computer-controlled characters, training sessions, and much more!

GAME 1

Regular Match

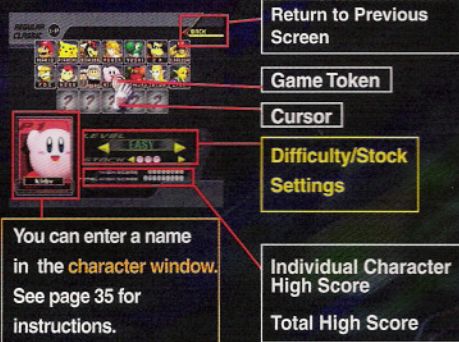

There are two unique one-player modes ready to play: Classic and Adventure.

Getting Ready to Play

Step One

Selecting Characters

Move the cursor with the Control Stick then press **A** to pick up your game token. Place the game token on the character you want to play, and press **A** again to select that character. After you have chosen a difficulty level and number of lives, press START/PAUSE.

Difficulty and Stock Settings

Place the cursor on **▶▶** and press **A**.

Difficulty Levels

There are five difficulty levels: Very Easy, Easy, Normal, Hard, Very Hard

Stock Setting

The number of lives you have can be set to between one and five.

On the character select screen, use  or  to change the color of your character's outfit.

Step Two

Starting the Game

Classic

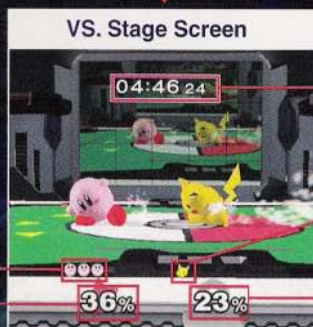

In Classic mode, battle your way from stage to stage by either fighting computer-controlled characters or clearing special bonus stages.

Stage Map

On VS. stages, you have to defeat (KO) computer-controlled characters to move to the next stage.

There are three types of bonus stages. You'll be awarded bonus points if you can successfully complete the missions on these stages.

On the VS. stages, you'll find team matches where you're paired up with a computer-controlled character to battle two opponents, as well as stages where you must battle whole armies of enemies.

Adventure

This mode is a mix of VS. battles and side-scrolling action. Regardless of the setup, however, the goal remains the same—clear the stage and move on!

The **Time Remaining Bonus** corresponds to the speed with which you clear the level. The faster you clear the level, the higher the bonus you receive.

The **Damage Bonus** is based on the amount of damage you dish out. The more you punish your opponents, the higher your bonus is.

Special Bonus

After clearing a stage, you may receive some Special Bonuses that reflect your performance. Here are three examples of Special Bonuses.

Cheap KO

This is awarded when you KO an opponent from behind.

Perfect Aim

If you hit with every attack that you attempt, you'll receive this award.

All Ground

Successfully attack with all ground techniques to receive the All Ground award.

There are a ton of Special Bonuses for you to collect!

NOTE

If your stock reaches zero during the game, the Continue screen will appear (see page 45). If you choose YES, you'll continue from the last level you played. Choose No to end your game and return to the 1-P Regular Match menu screen.

GAME 2

EXPLANATION: Fight Bowser in a classic Mushroom Kingdom classic!

NOTE

The character you use is set on some events and left to your preference on others. On the events where you choose your character, the Character Select screen appears once you have confirmed your event choice.

Step Two

Starting the Game

Not all Event Matches are as simple as defeating your opponent. Some of the matches have additional conditions or goals that must be met. Don't forget to check the explanation before you begin!

NOTE

After you clear a set number of Event Matches, a new set of Event Matches will open up. How many Event Matches could there be?

GAME 3

Stadium

Stadium contains a number of special games with unique sets of rules.

Getting Ready to Play

There are three game options in Stadium: Target Test, Home-Run Contest, and Multi-Man Mele. Multi-Man Mele contains a menu of melees to choose from.

Step One

Selecting a Multi-Man Melee Type

You can enter a name in the character window. See page 35 for instructions.

Step Three

Starting the Game

Target Test

In this game, you have to race the clock to destroy 10 specially placed targets. All Target Test stages are designed specifically to challenge the selected character.

Home-Run Contest

Your goal in the Home-Run Contest is to smack Sandbag around for a few seconds and then unload on him with the Home-Run Bat to send him flying as far as you can. The more damage you do before belting him with the bat, the better.

Multi-Man Mele

The Fighting Wire Frames are waiting for you! Select a melee, check the rules, and get ready to take on these mysterious goons.

Target Test High Score

If all targets are not broken, the high score is based on the total number broken.

If all targets are broken, the high score is based on the time it took to destroy the targets.

When all available characters have broken all the targets, the total time is also displayed.

Home-Run Contest high scores are displayed for individual characters.

GAME 4

Training

Need to polish your grabs? Work on attack combos? The Training mode allows you to pick an opponent and set some very specific battle conditions for you to practice, practice, practice!

Getting Ready to Play

Step One

Selecting Characters

Character Select Screen

Select your character by placing **P1** over the character icon, then select a computer-controlled character with **CP**.

NOTE

All melee results are automatically saved. Check Melee Records under Data from the main menu to peruse all of the recorded melee information.

GAME 2

Tournament Melee

The Tournament Mele is perfect for those times when you have five or more people ready to play. Customize the rules (see page 34) to set up a melee that is just right for you.

Getting Ready to Play

Step One

Setting Up Tournaments

Answer the on-screen questions in the order they appear to set up a tournament. The rules and values you set may differ depending on the type of melee you choose.

NOTE Computer-controlled characters can compete in tournaments, but they cannot take part in Winner Out or Loser Out melees.

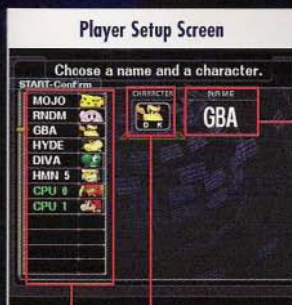

Once you have finished setting up your tournament, a confirmation screen, like the one shown here, will appear.

- OK** Select this to begin player setup.
- Option** To customize the rules further, choose this option. For more on rules, see page 34.
- Redo** If you want to begin the setup process again, select Redo.

Step Two

Setting Up Players

Select characters, enter new names, or load saved names for each player on this screen.

Entering New Names & Loading Saved Names
Place the cursor here and press **A** to enter a new name or load a saved name. See page 35.

Changing Characters
Press **A** when the cursor is here to bring up the Character Select screen. Use the Control Stick and the A Button to choose a character. Press **Left** or **Right** to change the color of your character's skin or clothing.

Step Three

Begin Battle

The Controller to be used by each player is displayed here. Please use the Controller that matches your character and name.

Player Name

Once the player setup has been completed, the competition will begin. When there are a lot of people playing, be sure that you have the Controller that matches your name and character.

NOTE For Tournament melees, the Result screen is the same as in standard Mele mode. In Winner Out and Loser Out melees, use **Left** or **Right** to select a character.

GAME 3

Special Melees

These are matches set up under unique rules. Camera Mode lets you take photographs of on-screen action.

Battle Under Ten Different Sets of Rules

There are ten Special Melees, each with its own challenge.

Camera Mode

Use the Controller inserted into Controller Socket 4 to take on-screen photos.

Stamina Mode

Each player starts with an equal number of health points (HP). If a player's HP reaches zero, he or she is out.

Super Sudden Death

The action is fast and furious in this melee, where all contestants start out at 300% damage.

Invisible Melee

Now you see 'em...well, actually, it's hard to see anyone in this suspenseful event match.

Single-Button Melee

All you can use are and . An absolute must for beginners.

Giant Melee

All contestants are giant-sized, as if they had eaten a Super Mushroom.

Tiny Melee

All competitors appear as if they had consumed a Poison Mushroom and been shrunk to minuscule proportions.

Fixed-Camera Mode

There are no close-ups and no pan-outs here. The camera is set and will not move.

Lightning Melee

Fast, faster, fastest! This mode launches everyone into super speed.

Slo-Mo Melee

Molasses seems speedy compared to the characters in this watch-every-move melee.

Playing Special Melees

Step One

Selecting Characters and Stages

Once you've selected a Special Melee, you'll need to select characters and a stage to battle on. The selection method is the same as in other modes.

Step Two

Beginning Melees

After GO! appears on screen, fight like you would in any other match. In Camera Mode, follow the instructions below to take photos of the on-screen action and save them to a separate Memory Card.

To take photos in **Camera Mode**, insert a Controller into Controller Socket 4. (Try to use a Memory Card with as many empty blocks as possible in Slot B or a fairly empty card in Slot A.)

Press on the Controller inserted into Controller Socket 4 at any time during game play to take a photo.

Use on the Controller inserted into Controller Socket 4 to take photos.

Camera Mode Screen

After you have taken a Snapshot, you can press to save that photo data to a Memory Card. Follow the on-screen camera controls to take impressive pictures.

Press on the Controller inserted into Control Socket 4 to save photo data.

4 Options

Choose Options to change game-play settings.

Rumble Settings

Turn the Controllers' built-in Rumble feature ON or OFF. You can change the settings for specific Controllers or just for specific registered names.

Change Controller or Name Setting

Move the Cursor

Turn On or Off

Name settings override Controller settings. If a name is set to OFF, but the Controller is set to ON, the Rumble feature will be turned OFF when that name is used.

Sound

Change in-game sound settings to Stereo or Mono or adjust the mix of background music and sound effects.

Language Setting

Set the language display to either English or Japanese.

Screen Display

Turn the game's deflicker function on or off. Use the setting that looks best on the TV you are using.

When Deflicker is on...

The game graphics are softened, but may look slightly blurry.

When Deflicker is off...

You may see more edges, but the graphics look crisp overall.

Erase Data

Erase some or all of the Super Smash Bros. Melee data saved to your Memory Card.

Note: Erased data can never be recovered, so be careful before erasing anything. Keeping an extra copy of your data might be a good idea.

Customize! There Are Many Ways to Play!

Super Giant Melee

1-4 Players

Choose the Giant Melee under the Special modes, then set the Item Switch so that only Super Mushrooms appear. Get ready for a true clash of the titans!

▲ Grab a Super Mushroom to become a gargantuan beast on a tiny stage!

Super Projectile Match

2-4 Players

▲ Playing with all the same characters can be a riot.

Choose a Stamina Battle under Special Melee, and then choose only characters that have projectile attacks. Prohibit all direct attacks and fight using only projectiles. Fight on a stage that has little level ground and many places to hide and take cover.

Temple Race

2-4 Players

Play a Melee battle in Time mode. Set the time and choose the Hyrule Temple stage. Choose a particular route, then see who can complete the most laps within the time limit.

King of the Rock

2-4 Players

Play a Melee battle on the Kongo Jungle stage and set the time to one minute. Position all players on the rock on the right side of the stage, then fight for control of the rock. The player in control when time runs out wins the match.
