

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

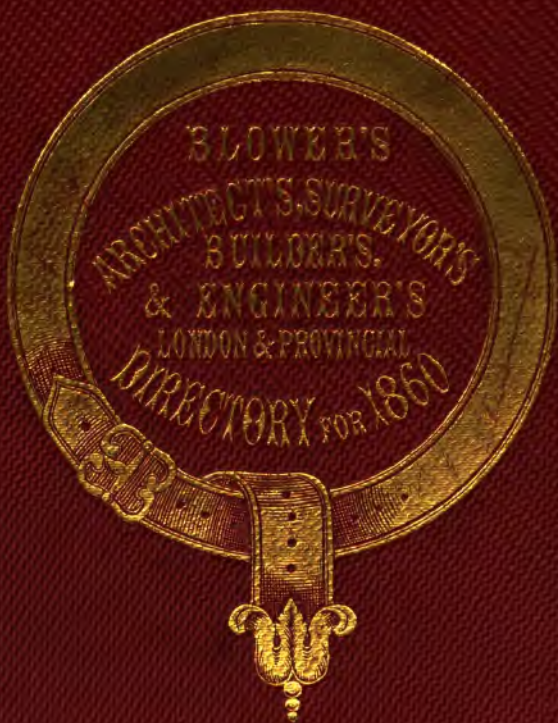

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE compilation of a work of this description cannot well be free from a few errors when it first appears. The greatest care has been taken, attended with much perseverance; therefore it is with a degree of confidence that this Directory is placed before its numerous subscribers.

The Proprietor takes this opportunity of returning his thanks for the liberal patronage he has received from the many leading firms connected with the Building and Engineering Trades, several of whom have kindly suggested various important improvements, and he begs to say that they will, as far as practicable, be carried out in next year's publication.

LANDLORDS AND TENANTS.

If there has not been a written agreement specifying the time when a tenant is to give up possession, or when he is to give notice to quit, a yearly tenant must give notice to quit his premises half a year before the time of the expiration of the current year of his tenancy; thus, supposing he entered the house at Christmas, he must leave at Christmas, giving his notice *on* or *before* the previous Midsummer-day. If rent commences from Lady-day, notice must be given from Michaelmas in every case, so that the notice may terminate at the half year corresponding with that for which the house was taken. If, by agreement, a quarter's notice is to be sufficient, such notice must also expire with the tenancy, if that is yearly. Want of attention to this rule is often a source of trouble or expense.

THE FOLLOWING IS THE FORM OF NOTICE:—

Sir,—I hereby give you notice that it is my intention to quit the house and premises I now hold of you, situate and being No. —, — Street, in the parish of —, in the town of —, in the county of —, on or before (Midsummer) next.

To Mr

Tenant.

A copy of this notice should be kept, and the person who serves it at the landlord's house should endorse on the back—

Served by —, upon —, on the — day of —, 186 .

If a landlord neglects to repair the premises, according to his covenant, the tenant may maintain an action against him, but such neglect does not absolve the tenant from payment of rent.

A landlord can legally dispose of goods taken under distress for rent, by appraisement, without putting them up to auction. An under-tenant who has left the premises in arrear of rent, must pay the same to his immediate landlord.

Postal Regulations.

INLAND LETTERS.

These include letters passing between places in the United Kingdom, including the Orkney, Shetland, Scilly, and Channel Islands, and the Isle of Man. The rate of postage is regulated by weight, irrespective of distance, and, if paid in advance, is as follows:—

Letter weighing not more than $\frac{1}{2}$ oz.	1d.
" more than $\frac{1}{2}$ " but not exceeding 1 oz. ...	2d.
" " 1 " " " 2 " ...	4d.
" " 2 " " " 3 " ...	6d.

And so on, 2d. being charged for every additional oz.

Except in re-directed letters, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency must be charged. No letters can be received which there is reason to believe contain anything explosive or combustible, or glass, liquids, gunpowder, sharp instruments, &c.

MONEY ORDERS.

Requisition forms for money orders are sold by postmasters at the rate of ten forms for 1d., or five or fewer for $\frac{1}{2}$ d. Every money order must contain in full the surname and one Christian name, both of the person who sends the order and the person to whom the money is to be paid, together with the remitter's address. When application is made for a money order payable in London, or in any town where there is more than one money order office, the remitter should say at which office he wishes it to be paid, otherwise the order can be paid at the chief office alone. Money orders do not require a receipt stamp. No money order business is transacted on the Sunday, Christmas-day, or Good Friday; but, for the convenience of the labouring classes, the office is kept open on Saturday night till eight o'clock, or as near that hour as the despatch of the mail will allow—except when the surveyor of the district considers such an arrangement unnecessary.

NEWSPAPERS.

STAMPED.—Must be folded so that the whole stamp may be exposed to view: they must be posted within fifteen days of the date of publication, either without cover or in a cover with the ends open, and must contain no enclosure, mark, or writing. Irregularity in any one of these respects will cause the newspaper to be detained for a short time, and dealt with according to the regulations for the book post, except when the only deficiency is a neglect properly to expose the stamp in folding, in which case a penny will be charged at the place of delivery. A stamped paper addressed to any person within the free delivery of the place where it is posted is liable to the additional postage of a penny, which must be prepaid by an affixed stamp, for otherwise it will be reckoned as a letter.

Unstamped newspapers, or stamped papers, which have been issued more than fifteen days, can be forwarded within the United Kingdom, and to most of the colonies, under the regulations of the book post, that is, unless the weight exceeds four ounces, they will be conveyed free if a penny postage stamp be affixed. *Newspapers sent abroad*, whether stamped or not, must have a penny postage stamp affixed to them. Should they be required to pass through a foreign country, the additional postage must be paid.

BOOK POST.

INLAND.—Book packets may be sent by post to any place within the United Kingdom at the following charges:—

Weighing not more than 4 oz.	1d.
" more than 4 " and not exceeding 8 oz. ...	2d.
" " 8 " " 16 " ...	4d.
" " 1 lb. " 1 $\frac{1}{2}$ " ...	6d.

And so on, 2d. being charged for every additional $\frac{1}{2}$ lb., or any less weight. The postage must be prepaid in full, by means of postage stamps affixed outside the packet, and sent without covers, or in covers open at the ends. If sent without stamps it will be charged the double rate of postage; but if not stamped of sufficient value, it will be forwarded, charged with the deficient postage, and an additional rate of 4d. A book packet may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum, but no *no letters, whether sealed or open*; and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. The regular binding or cover of a book will be allowed, as also rollers for prints or maps. No book packet can be received if it exceeds two feet in length, width, or depth.

THE "ARTISAN" PATENT OFFICE

IS NOW REMOVED TO

19, SALISBURY STREET, STRAND, W. C.

Office for British & Foreign Patents and the Registration of Designs,

19, SALISBURY STREET, STRAND, LONDON.

All Business relating to British and Foreign Letters Patent may be transacted at this Office.

Patents solicited. Provisional Protection obtained. Searches made for Specifications, and Abstracts of Copies supplied. Specifications drawn or revised. Machinery designed, and Drawings made by competent draughtsmen. Prolongations and Confirmations solicited. Disclaimers entered. Advice on the Patent Laws. Opinions on Infringements. The Novelty of Inventions ascertained. Ornamental Designs, Devices, and Patterns, and the configuration of Articles of Utility protected completely or provisionally.

TO ENGINEERS AND OTHERS.—This Office offers peculiar advantages to Mechanical Inventors desirous of securing their Inventions by Letters Patent, it being under the direction of an eminent Consulting Engineer, of great practical experience in scientific Patent matters. It possesses also the advantage of having the assistance of an eminent Practical Chemist; there is also a staff of experienced Mechanical Draughtsmen, Copper-plate Engravers, and Lithographic Artists upon the premises.

Having complete Lists of all the Patents granted from A.D. 1617 to the latest date, as also every information upon the subject of Patents under the Act 15 & 16 Vict., c. 83, and the Registration of Designs, every assistance can be afforded to Inventors. An extensive Library of Scientific Books may be consulted.

A Circular of Information, containing full particulars as to the cost, &c., of British and Foreign Patents, the Designs Act, &c., will be forwarded upon application.

The Charge of this Office for the Provisional Protection of an Invention (under the 15 & 16 Vict. c. 83), including Government Stamp, Agency, &c., is £10 10s.

Artizans having Inventions of merit will be treated liberally and advantageously as to payments.

Address to the Proprietor—"THE ARTIZAN" Patent Office,

19, SALISBURY STREET, STRAND, LONDON.

Free by Post for Two Stamps, HINTS TO INVENTORS intending to obtain Letters Patent for their Inventions, by an Eminent Patent-Law Barrister.

THE PATENT PLUMBAGO CRUCIBLE COMPANY,

HAVING completed the enlargement of their premises, beg to call the attention of all users and shippers of MELTING POTS to the great superiority of the PATENT CRUCIBLES, which have been used during the last three years by some of the largest melters in England and abroad. In addition to their capabilities of melting an average of from thirty-five to forty pourings, they are unaffected by change of temperature, never crack, but can be used till worn out, requiring only one annealing for several days' work, and become heated much more rapidly than ordinary pots, effecting thereby a saving of more than fifty per cent. in time, labour, fuel, and waste. The Patent Plumbago Crucible Company also manufacture and import clay crucibles, muffles,

portable furnaces, sublimate pans and covers, glass-pots, all descriptions of fire standing rods, and every requisite for the assayer and dentists. For Lists, Testimonials, &c., to Battersea Works, London, S.W.

PFEIL & STEDALL,

5 & 6, BROAD STREET, BLOOMSBURY,

SOLE PROPRIETORS OF PITT'S

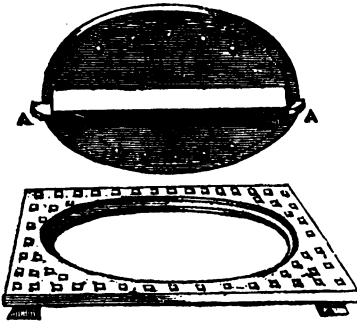

NEW PATENT

MOUNT & SPINDLE FOR LOCK FURNITURE,

To which they beg to call the attention of Architects, Surveyors, Builders, and the public generally. This invention surpasses in simplicity every other of its kind; at the same time it removes those difficulties in the way of secure fixing (see Fig. 1), which proved so serious a drawback in former patents. This is effected by so making the under rose that it can be detached. (see Fig. 2 and 3).

Lock Furniture of every description and quality, in Glass, Ormolu, China, Wood, &c., can be obtained, with these Patent Mountings, at the Warehouses, 5 & 6, Broad Street, Bloomsbury, W.C.

PFEIL & STEDALL

Are the Only London Agents for a

NEW PATENT

COAL VAULT PLATE.

The advantage of this invention is that it is Self-fastening, and cannot be unfastened from the outside, thus affording perfect security against robbery and accident, to both of which the use of the ordinary coal-plate frequently leads.

PFEIL & STEDALL

Also invite attention to their Stock of

The only White Zinc Works in the Kingdom.

Hubbuck's Patent White Zinc Paint.

MANY Painters and Decorators have never seen really good Zinc Paint, or they would not use any other Paint for their best work. The adulterated article bears no comparison with the genuine.

Some Paint Grinders adulterate Zinc with Sulphate of Barytes, even to the extent of twenty or thirty per cent. Whether sold as "Improved Zinc Paint," or candidly offered as number Two or Three qualities, the workman will naturally condemn such Paint altogether.

Hubbuck's Patent process completely resists London atmosphere, bilge water, and gas under every form.

Each Cask is Stamped "HUBBUCK, LONDON, PATENT."

LORD REDESDALE'S
SALE OF GAS ACT,
WET AND DRY GAS METER WORKS,
GREAT PETER STREET,
WESTMINSTER.

THOMAS EDGE

Has the satisfaction to inform those Directors of Gas Companies who have favoured him with their Orders for his Patent Improved Wet Meters—of which he has sent out upwards of 80,000—that they will not require any alteration under the provisions of the Sale of Gas Bill; whereas the Common Meters in use in the United Kingdom, which have been proved so susceptible of error in their measurement, are required to be taken down and altered at considerable expense.

THOMAS EDGE begs to state that he is prepared to supply his Patent Meters, which meet the requirements of the Act, to any Company at the present time; and, so soon as arrangements are made in London to have Meters tested and stamped, he will then supply them to Country Gas Companies with the Legal Stamp affixed, ready for use.

COTTAM'S PATENT INVENTIONS FOR STABLE REQUISITES,

Awarded a Prize at the Paris Exhibition, Patronised by the English and French Governments, as well as by the principal Nobility, Gentry, and Hunting Establishments in the kingdom. In use at Her Majesty's Stables, Aldershot and Balmoral.

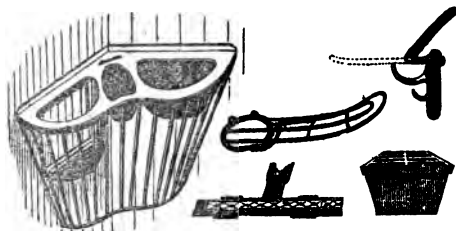

COTTAM and COMPANY, WINSLEY-STREET, W., are the original inventors of the **PATENT ENAMELLED MANGER, Water Trough, and Wrought Iron Rack,** united to an iron top-plate, and forming one complete and useful fixture, having **COTTAM'S Patent Noiseless Halter Guide and Collar Reel** attached, which is taken to the back of the manger, and works with ease and freedom up or down the guide-bar.

COTTAM'S NEW PATENT SEED-BOX, an important addition to the above fittings, being simple in construction, light, and durable, promotes cleanliness, and is economical in its results.

COTTAM'S PATENT PERMANENT ATTACHED DROP COVER, for the above, is a most essential addition to their fittings; it is never in the way; can be placed and replaced in an instant; while its cheapness, simplicity, and utility in keeping the contents of the troughs clean, and regulating the quantity to be taken is quite sufficient to insure its use.

COTTAM'S PATENT SADDLE & HARNESS BRACKET combined, can be used with great advantage where space is an object, as it can be turned up out of the way when not in use.

COTTAM'S IMPROVED WROUGHT IRON VENTILATING BRACKET preserves the shape and allows a free admission of air to the under parts of the saddle.

COTTAM'S IMPROVED SURFACE CUTTER, with perforated moveable cover, the use of which prevents accidents, and can be easily cleaned out.

COTTAM'S CAST IRON SANITARY TRAP, from its improved construction, gives a full water passage, and does not allow any smell to ascend from the drain.

PATENT LOOSE-BOX FITTINGS, and every article for the harness-room and stable, kept in stock, plain, galvanised, and enamelled. Iron gates, fencing, hurdles, etc.

IRON STAIRCASES, Circular and Straight, BOTH PLAIN AND ORNAMENTAL,

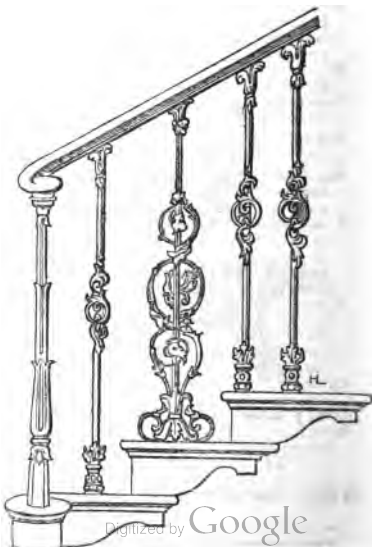

Staircase, Altar, and Tomb Railings, &c.

For patterns of which see separate lithographic sheets on application.

COTTAM & Co. beg to draw particular attention to this, an important branch of their trade, which they closely follow up, and keep experienced Designers and Workmen solely engaged in it.

Their Stock of Patterns & Drawings afford a better and greater selection than can be seen at any other Manufactory, and of which they invite the inspection of all requiring such work.

Skylights, Conservatories, and every description of Horticultural Building and Implements. Hot Water Apparatus Hurdles, Fencing and Gates, Builders Castings and Wrought Iron-work of all kinds.

“ THE UNION ”
KITCHEN RANGE with OPEN FIRE.
HAYWARD'S PATENT—1855.
HAYWARD BROTHERS,
117 & 118, Union Street, Borough, S.E. London.

THE pecuniary and great advantages of this OPEN FIRE Range are, that in it the heat can be directed to the top of the Oven, or EQUALLY to the TOP and BOTTOM at the same time; and in either case, the whole of the Hob above the oven presents a boiling surface or

HOT PLATE,

of sufficient power to heat Steaming Apparatus, Saucepans, Kettles, or Stewpans, for frying or preserving. The Hob may also be used as an

IRONING STOVE.

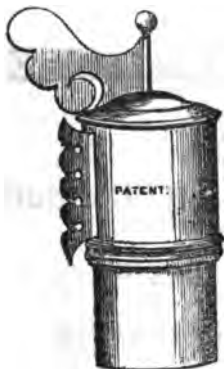

THE BOILER is, in appearance, like that of an ordinary range, but its peculiar shape gives great power for steaming or for heating large quantities of water for Baths, hot water pipes, &c. &c. The whole is easily set by an ordinary bricklayer.

HAYWARD BROTHERS request the favour of a visit from Architects and the Public, to inspect their Model Bath Room, where can be seen in use daily the above Range, with Bath attached; also Baths Heated by an independent boiler from the ordinary bath room.

THE
PATENT
SELF-CLEANSING
CHIMNEY
C O W L .

The defect in all Cowls hitherto produced, viz., liability to clog, is by this simple contrivance effectually remedied; the lower portion (A) is made to slip down on the outside of an ordinary red chimney pot, and supports the centre (C) upon which the (dotted) head revolves; at each revolution the bars (B) clear it of any loose soot which may adhere to the sides or top, and as there is no cross bar or other obstruction, the sweeper's brush may enter the head and clean it without injury. Thus being at all times clear, free passage for the smoke is ensured, and having its back to the wind, all downward draught prevented.

These Cowls are made of Tinned Iron, Japanned, that being much more durable than Zinc.

"Medaille d'honneur" awarded
at Exposition Universelle de
Paris, 1856.

MANDER BROTHERS, having for many years devoted their exclusive attention to the Manufacture of Varnishes of a high class quality for Coach Builders, House Decorators, &c., can confidently recommend their productions to those who are not practically acquainted with them.

They would especially invite attention to two articles they have just introduced—

"The White Coburg Varnish,"

for white and delicate decorations; and which for absence of colour, brilliancy of surface, and durability, is far superior to anything yet introduced to the Trade. Samples may be obtained gratis, at their Works or Depôts.

Warranted Varnish for Seats of Churches, &c.

A Brilliant and durable, hard drying, and tackless Varnish for painted and stained work.

The great uncertainty and annoyance which have been so frequently occasioned by the failure of Varnish upon the seats of Public Edifices, from its not hardening, or from its softening again with heat, have led MANDER BROTHERS, to direct special attention to this article, which they have now perfected, and for the security of the Trade are prepared to supply with a WRITTEN WARRANTY THAT THE VARNISH SHALL POSSESS EVERY GOOD QUALITY ATTRIBUTED TO IT, relying solely on the good faith of the persons to whom they may supply it: a security never yet attempted to be given by any other house in the Trade.

MANUFACTURER OF PATENT

SILVERED GLASS DAY & GAS LIGHT REFLECTORS

These Reflectors never tarnish, require no cleaning, and have proved themselves to be the most effective and durable yet presented to the Public.

The PATENT SILVERED GLASS DAYLIGHT REFLECTORS have been fixed at most of the Govern-
ment Offices, at the Post Office, British Museum, and the Tower of London. Many of the West
End Clubs have adopted them, and they are becoming general in the dark offices of the Merchants
and Tradesmen of London.

Dark Offices, Warehouses, Cellars, and gloomy Apartments made light by this valuable
invention, rendering gas useless in the daytime.

The following are examples of the Profits accruing on **Globe Participating Life Policies** under the **BONUS** declared as at 31st December, 1858—

AGE at Date of Policy.	Original Sum Insured.	Original Annual Premium.	Complete Years in force.	Bonus applied—	
				By Addition to Policy.	By Payment in CASH.
25	£ 1000	£ s. d. 21 9 2	6	£ 72	£ s. 27 17
35	1000	28 2 6	6	72	32 15
40	1000	32 15 0	6	72	35 7
50	1000	45 12 6	6	72	42 9

(Policies of One to Five complete Years Participate in Proportion.)

The above Profits are equivalent—If added to the Policy—to a Reversionary Sum at death equal to **One Pound Four Shillings per Cent.** per annum on the Sum Insured for each of the completed years of the Policy:—Or, if taken as an **Immediate Cash Payment**, it is, at all ages, considerably more than **One Year's Premium.**

The Bonus Periods are **FIVE** years, and the Rates of Life Premiums, whether *With* or *Without* Profits, very economical. **Fire, Life, Annuity, Endowment, and Reversionary business** transacted.

BRITISH NATION LIFE ASSURANCE ASSOCIATION.

INCORPORATED BY 7TH & 8TH VICT. CAP. 110.

CHIEF OFFICES, 291, REGENT STREET, W.

THIS Institution is conducted on purely commercial principles, and combines every advantage of the modern system of Life Assurance, with perfect security to the assured.

FINANCIAL POSITION.

1. A CAPITAL of	- - - - -	£300,000
with power of increase to	- - - - -	£600,000
2. CAPITAL actually subscribed	- - - - -	£100,000
by a responsible body of Shareholders, numbering	-	300
3. ANNUAL INCOME from Policies actually in force	- - - - -	£28,000

POLICIES PAYABLE DURING LIFE INDISPUTABLE NOT LIABLE TO FORFEITURE.

NEW BUSINESS.

During the past two months 209 Proposals for Life Assurance have been received; being an average of 25 Proposals weekly, and at the rate of 1,300 new Proposals per annum; a convincing proof of the public appreciation of the principles of this Association.

SPECIAL ADVANTAGES.

1. The application of the Profits to rendering the Policy payable during the Lifetime of the Assured.
2. The avoidance of all uncertainty or litigation, by making Policies Indisputable.
3. The assistance granted to an Assurer in the payment of his premium; thus averting the chance of losing the benefit of the Policy by forfeiture, through inability to pay the premium.
4. Life Policies are in full force during the days of grace.
5. No extra charge for enrolment in any Volunteer Corps in the United Kingdom.
6. Annuities are granted on very favourable terms.

Full particulars of these valuable and popular features will be found in the Prospectus.

LOOSE BOXES.

PATENT WROUGHT-IRON STABLE FITTINGS

Should be adopted for the following reason, viz:—

That the BREAKAGES in Cast Iron FITTINGS are numerous, and that one fracture from a kick, or other cause, may occasion an injury to a horse, and involve a loss equal to the entire expense of fitting up the Stable. The fear of this has led to the use of wood, and, in the case of Cast Iron GUTTERS, to the adoption of another and less effective mode of draining; while the cost is prevented exceeding that of Cast Iron, by the employment of specially adapted machinery—

ENAMELLED-TOP PLATE MANGER, WITH RACK AND WATER-TROUGH,

The whole of which, except the Rack, being enamelled, can be kept as clean as a DINNER PLATE. Cleanliness, Comfort, Economy, Imperviousness to Infection, Prevention of Crib-biting, &c., with the better thriving of the Horse, are some of the characteristic advantages of this invention.

The Halter Ball, attached by a New Improvement, works noiselessly on the Guide-Bar, and almost without friction.

PATENT FASTENINGS FOR THE DOORS OF LOOSE BOXES.

These Catches and Hangings work easily, are self-acting, and cannot be put out of order; by their use all projections by which horses are often blemished are rendered impossible; advantages peculiarly their own.

THE PATENT HARNESS FITTINGS

Keep the Harness and Saddles in shape, and are constructed so as to admit the air getting to the underside of them when hung up, thereby insuring a quick and perfect airing from any wet or moisture. They will be found *great preservatives of the harness.*
