

2023-2024

# GRADUATE AND PROFESSIONAL BULLETIN

# Table of Contents

Temple Bulletins 2023-2024 .....	10	Business Administration/Human Resource Management and Organizational Behavior PhD .....	100
Graduate and Professional .....	11	Business Administration/Interdisciplinary Study PhD .....	102
About the Graduate and Professional Bulletin .....	12	Business Administration/International Business Administration PhD .....	102
Academic Calendar .....	13	Business Administration/Management Information Systems PhD .....	104
Graduate School Policies .....	16	Business Administration/Marketing PhD .....	106
Cost and Aid .....	29	Business Administration/Operations and Supply Chain Management PhD .....	108
Graduate Student Services .....	33	Business Administration/Risk Management and Insurance PhD .....	111
Schools and Colleges .....	36	Business Administration/Strategic Management PhD .....	113
Tyler School of Art and Architecture .....	37	Business Administration/Tourism and Sport PhD .....	115
Architecture MArch .....	39	Business Administration Executive Program MBA .....	117
Architecture MS .....	43	Business Administration Executive Program DBA .....	119
Art Education MEd .....	46	Business Analytics MS .....	121
Art History MA .....	48	Business Research MS .....	123
Art History PhD .....	51	Corporate Compliance and Ethics MS .....	124
Ceramics MFA .....	54	Decision Neuroscience MS .....	124
City and Regional Planning MS .....	56	Decision Neuroscience PhD .....	125
Facilities Planning MS .....	59	Digital Marketing MS .....	127
Fibers and Materials Studies MFA .....	61	Finance MS .....	129
Glass MFA .....	63	Financial Analysis MS .....	129
Graphic and Interactive Design MFA .....	65	Financial Analysis and Quantitative Risk Management MS .....	132
Landscape Architecture MLArch .....	66	Global Finance MS .....	135
Metals/Jewelry/CAD-CAM MFA .....	70	Global Finance DS .....	135
Painting MFA .....	71	Health Administration MHA .....	135
Photography MFA .....	73	Healthcare Financial Management MS .....	137
Printmaking MFA .....	75	Human Resource Management MS .....	137
Sculpture MFA .....	77	Information Technology Auditing and Cyber Security MS .....	139
Graduate Certificate: Community Arts Practices .....	78	Innovation Management and Entrepreneurship MS .....	141
Graduate Certificate: Health Facilities Planning .....	78	Management MiM .....	144
Graduate Certificate: Sustainable Community Planning .....	79	Management Information Systems MS .....	145
Graduate Certificate: Transportation Planning .....	80	Marketing Research and Analytics MS .....	145
Post-Master's Certificate: Teaching Art Education .....	81	Quantitative Finance and Risk Management MS .....	145
Fox School of Business and Management .....	84	Real Estate MS .....	148
Accountancy MAcc .....	87	Risk Management and Insurance MS .....	148
Accounting and Financial Management MS .....	90	Statistics MS .....	148
Actuarial Science MS .....	90	Statistics PhD .....	148
Business Administration MBA .....	92	Statistics and Data Science MS .....	151
Business Administration/Accounting PhD .....	97	Graduate Certificate: Business Administration .....	151
Business Administration/Entrepreneurship PhD .....	98	Graduate Certificate: Business Analytics .....	151
Business Administration/Finance PhD .....	99		

Graduate Certificate: Corporate Instructional Design .....	152	Educational Leadership and Policy MEd .....	218
Graduate Certificate: Diversity, Equity and Inclusive Leadership in Organizations .....	152	Higher Education MEd .....	219
Graduate Certificate: Healthcare Innovation Management ...	153	Higher Education EdD .....	221
Graduate Certificate: Human Resource Management .....	155	Middle Grades Education/Language Arts MEd .....	223
Graduate Certificate: Information Technology Auditing and Cyber Security .....	156	Middle Grades Education/Mathematics MEd .....	225
Graduate Certificate: Innovation Management and Entrepreneurship .....	157	Middle Grades Education/Mathematics and Language Arts MEd .....	227
Graduate Certificate: Management Consulting .....	158	Middle Grades Education/Mathematics and Science MEd ...	229
Graduate Certificate: Organizational Leadership .....	158	Middle Grades Education/Science MEd .....	231
Graduate Certificate: Real Estate .....	159	Middle Grades Education/Science and Language Arts MEd .....	233
Kornberg School of Dentistry .....	160	Middle Grades Education/Social Studies MEd .....	235
Dentistry DMD .....	160	Middle Grades Education/Social Studies and Language Arts MEd .....	237
Dentistry/Advanced Standing Program for Internationally Trained Dentists DMD .....	163	Middle Grades Education/Social Studies and Mathematics MEd .....	239
Oral Health Sciences MS .....	164	Middle Grades Education/Social Studies and Science MEd .....	241
Dentistry Certificate: Advanced Education in General Dentistry .....	168	Policy and Organizational Studies PhD .....	243
Dentistry Certificate: Dental Public Health .....	170	Professional Health Education MEd .....	245
Dentistry Certificate: Endodontics .....	172	School Psychology MEd .....	247
Dentistry Certificate: Oral and Maxillofacial Surgery .....	174	School Psychology EdS .....	248
Dentistry Certificate: Orthodontics .....	176	School Psychology PhD .....	249
Dentistry Certificate: Periodontics .....	179	Secondary Education/English Education MEd .....	252
Dentistry Certificate: Prosthodontics .....	181	Secondary Education/Mathematics Education MEd .....	254
College of Education and Human Development .....	185	Secondary Education/Science Education MEd .....	256
Accomplished Teaching MEd .....	187	Secondary Education/Social Studies Education MEd .....	258
Advocacy and Organizational Development MEd .....	189	Secondary Education / World/Foreign Languages Education MEd .....	259
Applied Behavior Analysis MEd .....	191	Special Education MEd .....	261
Applied Research and Evaluation PSM .....	192	Teaching English to Speakers of Other Languages (TESOL) MEd .....	264
Career and Technical Education MEd .....	194	Graduate Certificate: Applied Behavior Analysis .....	265
Career and Technical Education MEd .....	197	Graduate Certificate: Autism Endorsement .....	267
Counseling Psychology MEd .....	198	Graduate Certificate: College Access and Success .....	268
Counseling Psychology PhD .....	200	Graduate Certificate: Conflict Process .....	269
Early Childhood Education MEd .....	200	Graduate Certificate: Data-Driven Decision Making .....	270
Early Childhood Education and Special Education MEd .....	201	Graduate Certificate: Disability Studies .....	271
Education/Applied Linguistics PhD .....	203	Graduate Certificate: Diversity Leadership in Higher Education .....	272
Education/Educational Psychology PhD .....	205	Graduate Certificate: English as a Second Language .....	273
Education/Literacy and Learners PhD .....	207	Graduate Certificate: English Language Teaching .....	274
Education/Science, Mathematics and Educational Technology PhD .....	209	Graduate Certificate: Institutional Effectiveness .....	275
Education/Special Education PhD .....	211	Graduate Certificate: Instructional Learning Technology .....	276
Educational Leadership MEd .....	213		
Educational Leadership EdD .....	214		

Graduate Certificate: Leadership in Instructional Technology for Higher Education .....	278	Graduate Certificate: Estate Planning .....	348
Graduate Certificate: Professional Health Education .....	279	Graduate Certificate: International Business and Compliance .....	349
Graduate Certificate: Student Affairs Leadership .....	280	Graduate Certificate: International Law .....	350
Graduate Certificate: Superintendency .....	281	Juris Doctor Certificate: Business Law .....	351
Graduate Certificate: Teaching in Higher Education .....	281	Juris Doctor Certificate: Trial Advocacy and Litigation .....	353
Graduate Certificate: Teaching in Higher Education for the Creative Disciplines .....	282	College of Liberal Arts .....	356
Graduate Certificate: Urban Education .....	283	Africology and African American Studies MA .....	362
College of Engineering .....	285	Africology and African American Studies PhD .....	364
Bioengineering MSBioe .....	286	Anthropology MA .....	368
Bioengineering PhD .....	290	Anthropology PhD .....	368
Civil Engineering MSCE .....	293	Applied Sociology PSM .....	368
Civil Engineering PhD .....	297	Business Economics MA .....	368
Computer and Systems Security PSM .....	300	Creative Writing MFA .....	369
Electrical Engineering MSEE .....	300	Criminal Justice MA .....	371
Electrical Engineering PhD .....	303	Criminal Justice PhD .....	373
Engineering MEng .....	307	Decision Neuroscience MS .....	376
Engineering Management MS .....	309	Decision Neuroscience PhD .....	376
Environmental Engineering MSEnvE .....	311	Economics MA .....	379
Environmental Engineering PhD .....	314	Economics PhD .....	379
Mechanical Engineering MSME .....	318	English MA .....	379
Mechanical Engineering PhD .....	321	English PhD .....	380
Graduate Certificate: Advanced Manufacturing and Robotics .....	324	Geographic Information Systems PSM .....	383
Graduate Certificate: Computer and Systems Security .....	325	Geography MA .....	384
Graduate Certificate: Engineering Management .....	325	Geography PhD .....	386
Graduate Certificate: Engineering Project Management .....	326	Geospatial Data Science PSM .....	388
Graduate Certificate: New Product Development .....	327	History MA .....	390
Graduate Certificate: Stormwater Management .....	327	History PhD .....	392
Beasley School of Law .....	329	Liberal Arts MLA .....	395
American and International Law LLM .....	329	Neuroscience: Systems, Behavior and Plasticity MS .....	397
American and International Law - China LLM .....	331	Philosophy MA .....	398
Asian Law LLM .....	333	Philosophy PhD .....	399
Law JD .....	336	Political Science MA .....	402
Law SJD .....	339	Political Science PhD .....	403
Legal Education LLM .....	341	Psychological Research MS .....	407
Taxation LLM .....	341	Psychology MA .....	409
Taxation MS .....	342	Psychology PhD .....	409
Transnational Law LLM .....	343	Public Policy MPP .....	412
Trial Advocacy LLM .....	344	Religion MA .....	414
Graduate Certificate: American Legal Studies .....	346	Religion PhD .....	416
Graduate Certificate: Employee Benefits Law .....	347	Sociology MA .....	418
		Sociology PhD .....	420

Spanish MA .....	423	Music MS .....	499
Spanish PhD .....	424	Music PhD .....	501
Graduate Certificate: Crime Science .....	426	Music Composition MM .....	506
Graduate Certificate: Gender, Sexuality and Women's Studies .....	427	Music Education MM .....	509
Graduate Certificate: Geographic Information Systems .....	428	Music Education PhD .....	512
Graduate Certificate: Geospatial Data Science .....	429	Music History MM .....	516
Graduate Certificate: Neuroscience .....	430	Music Performance/Bassoon MM .....	519
Graduate Certificate: Non-Profit Management .....	431	Music Performance/Cello MM .....	522
Graduate Certificate: Police Leadership .....	432	Music Performance/Clarinet MM .....	525
Graduate Certificate: Public Policy .....	432	Music Performance/Classical Guitar MM .....	529
Graduate Certificate: Spanish for Health Professions .....	434	Music Performance/Double Bass MM .....	532
Lew Klein College of Media and Communication .....	436	Music Performance/Euphonium MM .....	535
Communication for Development and Social Change MS ....	438	Music Performance/Flute MM .....	539
Communication Management MS .....	440	Music Performance/French Horn MM .....	542
Journalism MJ .....	441	Music Performance/Harp MM .....	545
Media and Communication PhD .....	443	Music Performance/Harpsichord MM .....	548
Media Studies and Production MA .....	445	Music Performance/Oboe MM .....	552
Graduate Certificate: Conflict Management and Dispute Resolution .....	448	Music Performance/Percussion MM .....	555
Graduate Certificate: Cultural Analytics .....	449	Music Performance/Piano MM .....	559
Graduate Certificate: Public Relations .....	451	Music Performance/Saxophone MM .....	562
Graduate Certificate: Strategic Communication and Cross- Cultural Leadership .....	452	Music Performance/Trombone MM .....	566
Lewis Katz School of Medicine .....	454	Music Performance/Trumpet MM .....	569
Biomedical Sciences MS .....	457	Music Performance/Tuba MM .....	572
Biomedical Sciences PhD .....	460	Music Performance/Viola MM .....	575
Medicine MD .....	463	Music Performance/Violin MM .....	579
Physician Assistant MMS .....	465	Music Performance/Voice MM .....	582
Urban Bioethics MA .....	468	Music Performance/Bassoon DMA .....	585
Graduate Certificate: Narrative Medicine .....	470	Music Performance/Cello DMA .....	590
Graduate Certificate: Urban Bioethics .....	471	Music Performance/Clarinet DMA .....	594
Center for the Performing and Cinematic Arts / Boyer College of Music and Dance .....	473	Music Performance/Double Bass DMA .....	599
Choral Conducting MM .....	475	Music Performance/Euphonium DMA .....	603
Collaborative Piano and Chamber Music MM .....	478	Music Performance/Flute DMA .....	608
Collaborative Piano and Opera Coaching MM .....	481	Music Performance/French Horn DMA .....	612
Dance MA .....	484	Music Performance/Harp DMA .....	616
Dance MFA .....	486	Music Performance/Historical Keyboard DMA .....	621
Dance PhD .....	488	Music Performance/Oboe DMA .....	625
Instrumental Conducting: Wind-Band Emphasis MM .....	491	Music Performance/Percussion DMA .....	630
Jazz Studies MM .....	494	Music Performance/Piano DMA .....	634
Music MA .....	497	Music Performance/Trombone DMA .....	638
		Music Performance/Trumpet DMA .....	643
		Music Performance/Tuba DMA .....	647
		Music Performance/Viola DMA .....	652

Music Performance/Violin DMA .....	656	Pharmacy PharmD .....	751
Music Performance/Voice DMA .....	661	Regulatory Affairs and Quality Assurance MS .....	754
Music Technology MS .....	665	Graduate Certificate: Basic Pharmaceutical Development ...	756
Music Theory MM .....	668	Graduate Certificate: Biologics and Biosimilars Manufacturing	756
Music Therapy MMT .....	671	Graduate Certificate: Biologics and Biosimilars: Regulatory	758
Music Therapy PhD .....	675	Aspects .....	758
Opera MM .....	678	Graduate Certificate: Biopharmaceutical Manufacturing and	759
Piano Pedagogy MM .....	681	Regulatory Affairs .....	759
Piano Performance and Music Theory MM .....	684	Graduate Certificate: Clinical Trial Management .....	760
Piano Performance/Collaborative Piano and Chamber Music MM	688	Graduate Certificate: Drug Development .....	760
.....		Graduate Certificate: Food Regulatory Affairs and Quality	761
Piano Performance/Piano Pedagogy MM .....	692	Assurance .....	761
String Pedagogy MM .....	696	Graduate Certificate: Generic Drugs .....	762
Vocal Arts MM .....	698	Graduate Certificate: Global Pharmacovigilance/Benefit-Risk	763
Graduate Certificate: Music Teaching .....	701	Management .....	763
Graduate Certificate: Professional Studies .....	704	Graduate Certificate: Medical Device .....	764
Center for the Performing and Cinematic Arts / School of Theater,		Graduate Certificate: Pharmaceutical Labeling, Advertising and	765
Film and Media Arts .....	707	Promotions .....	765
Documentary Arts and Visual Research PhD .....	708	Graduate Certificate: Pharmaceutical Manufacturing: Process	766
Film and Media Arts MFA .....	711	Development and Analysis .....	766
mediaXarts: Cinema for New Technologies and Environments		Graduate Certificate: Sterile Process Manufacturing .....	767
MA .....	713	Graduate Certificate: Validation Sciences .....	768
Musical Theater Collaboration MFA .....	715	Post-Master's Certificate: Advanced Regulatory Affairs and	769
Theater/Acting MFA .....	718	Quality Assurance .....	769
Theater/Design MFA .....	719	Post-Master's Certificate: Biologics and Biosimilars	771
Theater/Directing MFA .....	721	Manufacturing .....	771
Theater/Playwriting MFA .....	723	Post-Master's Certificate: Biologics and Biosimilars: Regulatory	772
Theater Instruction MA .....	724	Aspects .....	772
Graduate Certificate: Documentary Arts and Ethnographic		Post-Master's Certificate: Biopharmaceutical Manufacturing and	773
Research .....	726	Regulatory Affairs .....	773
Graduate Certificate: Theater Instruction .....	727	Post-Master's Certificate: Clinical Trial Management .....	774
School of Pharmacy .....	729	Post-Master's Certificate: Food Regulatory Affairs and Quality	775
Advanced Biotherapeutics: Manufacturing and Regulatory Affairs		Assurance .....	775
MS .....	730	Post-Master's Certificate: Generic Drugs .....	776
Global Clinical and Pharmacovigilance Regulations MS .....	732	Post-Master's Certificate: Global Pharmacovigilance/Benefit-Risk	777
Pharmaceutical Regulatory Sciences MS .....	734	Management .....	777
Pharmaceutical Sciences/Medicinal Chemistry MS .....	735	Post-Master's Certificate: Medical Device .....	778
Pharmaceutical Sciences/Pharmaceutics MS .....	737	Post-Master's Certificate: Pharmaceutical Labeling, Advertising	779
Pharmaceutical Sciences/Pharmacodynamics MS .....	739	and Promotions .....	779
Pharmaceutical Sciences/Medicinal Chemistry PhD .....	741	Post-Master's Certificate: Pharmaceutical Manufacturing:	780
Pharmaceutical Sciences/Pharmaceutics PhD .....	743	Process Development and Analysis .....	780
Pharmaceutical Sciences/Pharmacodynamics PhD .....	746	Post-Master's Certificate: Sterile Process Manufacturing .....	781
Pharmaceutical Sciences/Regulatory Affairs and Quality		Post-Master's Certificate: Validation Sciences .....	782
Assurance PhD .....	748	School of Podiatric Medicine .....	784
		Podiatric Medicine DPM .....	784

College of Public Health .....	787	Biology MA .....	891
Applied Biostatistics MPH .....	789	Biology MS .....	893
Applied Physical Activity and Health Promotion MS .....	792	Biology PhD .....	894
Athletic Training MSAT .....	792	Biotechnology PSM .....	897
Athletic Training DAT .....	795	Chemistry MS .....	898
Communication Sciences and Disorders PhD .....	797	Chemistry PhD .....	900
Environmental Health MPH .....	799	Computational Data Science MS .....	903
Environmental Health MS .....	802	Computer and Information Science PhD .....	905
Epidemiology MPH .....	803	Computer Science MS .....	908
Epidemiology MS .....	806	Cyber Defense and Information Assurance PSM .....	910
Epidemiology PhD .....	808	Environmental Geoscience MS .....	912
Health Informatics MS .....	813	Forensic Chemistry PSM .....	913
Health Informatics PhD .....	816	Geology MS .....	915
Health Policy and Health Services Research PhD .....	820	Geoscience PhD .....	916
Health Policy and Management MPH .....	824	High-Performance Computing for Scientific Applications PSM .....	918
Neuromotor Science MS .....	828	Information Science and Technology MS .....	920
Neuromotor Science PhD .....	830	Mathematics MS .....	922
Nursing DNP .....	833	Mathematics PhD .....	924
Nutrition MPH .....	837	Physics MS .....	927
Occupational Therapy OTD .....	840	Physics PhD .....	929
Occupational Therapy Transitional Program OTD .....	843	Scientific Writing PSM .....	930
Physical Therapy DPT .....	845	Graduate Certificate: Bioinformatics .....	933
Public Health Data Science MS .....	848	Graduate Certificate: Bioinnovation .....	934
Recreational Therapy MS .....	850	Graduate Certificate: Biotechnology .....	935
Social and Behavioral Sciences MPH .....	853	Graduate Certificate: Computer Science .....	936
Social and Behavioral Sciences PhD .....	857	Graduate Certificate: Computer Science Instruction .....	937
Social Work MSW .....	861	Graduate Certificate: Cyber Defense and Information Assurance .....	938
Speech, Language and Hearing Science MA .....	865	Graduate Certificate: Forensic Chemistry .....	939
Graduate Certificate: Clinical Health Services Research .....	870	Graduate Certificate: High-Performance Computing for Scientific Applications .....	940
Graduate Certificate: Global Health .....	871	Graduate Certificate: Information Science and Technology .....	940
Graduate Certificate: Health Informatics .....	872	Graduate Certificate: Mathematics for Teaching .....	941
Graduate Certificate: Interdisciplinary Health Communication .....	873	Graduate Certificate: Scientific Writing .....	942
Graduate Certificate: Maternal and Child Health .....	875	School of Sport, Tourism and Hospitality Management .....	944
Graduate Certificate: Nutrition .....	876	Hospitality Management MS .....	945
Graduate Certificate: Public Health Law Research .....	877	Sport Business MS .....	945
Graduate Certificate: Public Health Preparedness and Response .....	878	Sport Business Executive Program MS .....	947
College of Science and Technology .....	880	Travel and Tourism MS .....	947
Bioinformatics PhD .....	883	Graduate Certificate: Destination Management .....	947
Bioinformatics and Biological Data Science PSM .....	886	Graduate Certificate: Event Management .....	948
Bioinnovation PSM .....	888		

Graduate Certificate: Global Tourism .....	948	Computer and Information Science (CIS) .....	1132
Graduate Certificate: Service Excellence .....	949	Conflict and Communication (CNCM) .....	1146
Graduate Certificate: Tourism Analytics .....	950	Counseling Psychology (CPSY) .....	1147
Academic Programs .....	951	Criminal Justice (CJ) .....	1152
Course Descriptions .....	976	Dance (DANC) .....	1158
Accounting (ACCT) .....	977	Dental Public Health Sciences (DPHS) .....	1170
Actuarial Science (AS) .....	984	Dermatology (DERM) .....	1172
Adult and Organizational Development (AOD) .....	987	Disability Studies (DSST) .....	1172

# Temple Bulletins

## 2023-2024

---

---

The Bulletin provides enrolled students with the information they need regarding their chosen academic path and helps prospective students make important enrollment decisions.

The information in this bulletin is subject to change by Temple University at any time. Neither this bulletin nor any parts of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this bulletin.

Disclaimer: Temple University expressly reserves the right to deliver some or all instruction remotely at its discretion. Tuition, the university services fee and certain other fees are required to be paid in full and will not be refunded regardless of the method of instruction, the inability to access university-maintained facilities, or any disruption to or cancellation of classes, activities, events, services or programs.

### Undergraduate Bulletin

The current Undergraduate Bulletin is for students who began school in Fall 2023.

For students who began prior to Fall 2023, see the Archives.

- [2023-2024 Undergraduate Bulletin](#)
- [Archived Undergraduate Bulletins](#)

### Graduate & Professional Bulletin

The current Graduate and Professional Bulletin is for students who began school in Fall 2023.

For students who began prior to Fall 2023, see the Archives.

# Graduate and Professional

---

Welcome to the Graduate and Professional Bulletin of Temple University.

## Graduate

The Graduate School oversees all facets of graduate education at Temple University. It is responsible for admitting students who meet university requirements and recommending to The Board of Trustees the awarding of master's, professional science master's, and research and practice doctoral degrees. The Graduate School also reviews the qualifications of faculty members who have been appointed as "Graduate Faculty."

Importantly, the Graduate School oversees the quality of new and continuing graduate programs, monitors standards of scholarship, maintains student records, and verifies advancement to candidacy. In concert with the Graduate Board, the Graduate School establishes and maintains admissions and degree requirements in consultation with the deans of the schools and colleges and their graduate councils. The Graduate School also administers policies established by the Graduate Board and Temple University.

## Professional

With the advent of the 2020-2021 academic year, professional education was added to the bulletin. Professional schools at Temple University include:

- Kornberg School of Dentistry
- Beasley School of Law
- Lewis Katz School of Medicine
- School of Pharmacy
- School of Podiatric Medicine

# About the Graduate and Professional Bulletin

---

---

The Graduate and Professional Bulletin is a presentation of specific information about the graduate academic programs and certificates offered under the umbrella of Temple University's Graduate School. It also includes descriptions of the professional programs and certificates offered by the professional schools of Temple University. This version of the Graduate and Professional Bulletin has a release date of July 1, 2023 for the 2023-2024 academic year.

Every effort is made to provide complete and accurate information in the Graduate and Professional Bulletin. The program and certificate descriptions are, however, announcements only and do not serve as a contract. As new programs and certificates go into effect and/or are modified, the Graduate and Professional Bulletin is updated.

# Academic Calendar

This academic calendar is based on the Academic Calendar published by the Office of the University Registrar at <https://registrar.temple.edu/2023-2024-academic-calendar>, but includes dates of vital importance to graduate students (indicated with a leading asterisk) found only herein:

## July 2023

Last day to add/drop for Second Summer 2023 6-week full term	Monday, 7/3
Independence Day (No Classes)	Tuesday, 7/4
Last day to withdraw from First Summer 2023 4-week session 4B course(s)	Wednesday, 7/5
Last day of classes for First Summer 2023 4-week session 4B	Tuesday, 7/11
First day of classes for Second Summer 2023 4-week session	Wednesday, 7/12
Last day to add/drop for Second Summer 2023 4-week session	Friday, 7/14
*Last day for August 2023 graduates to submit final dissertation/thesis to the Graduate School	Monday, 7/24 by 5:00 PM

## August 2023

Last day to withdraw from Summer 2023 12-week term course(s)	Tuesday, 8/1
Last day to withdraw from Second Summer 2023 6-week full-term course(s)	Tuesday, 8/1
Last day to withdraw from Second Summer 2023 4-week session course(s)	Tuesday, 8/1
Last day of classes for Summer 2023 12-week term	Tuesday, 8/8
Last day of classes for Second Summer 2023 6-week full term	Tuesday, 8/8
Last day of classes for Second Summer 2023 4-week session	Tuesday, 8/8
Diploma date for Summer 2023 12-week, First Summer 2023 4-week 4B, and Second Summer 2023 courses	Wednesday, 8/9
First day of classes for Fall 2023 16-week full term	Monday, 8/28
First day of classes for Fall 2023 7-week session 7A	Monday, 8/28

## September 2023

Labor Day (No Classes)	Monday, 9/4
Last day to add/drop for Fall 2023 7-week session 7A	Tuesday, 9/5

Last day to add/drop for Fall 2023 16-week full term Monday, 9/11

## October 2023

Last day to apply for December 2023 graduation for name to appear in the Commencement Book	Sunday, 10/1
Last day to withdraw from Fall 2023 7-week session 7A course(s)	Monday, 10/9
Fall Wellness Day (No Classes)	Friday, 10/13
Nominations for Doctoral Dissertation and Master of Fine Arts Project Completion Grants for spring 2024 and summer 2024 due in the Graduate School	Friday, 10/13 by 12:00 NOON
Last day of classes for Fall 2023 7-week session 7A	Monday, 10/16
First day of classes for Fall 2023 7-week session 7B	Tuesday, 10/17
Last day to add/drop for Fall 2023 7-week session 7B	Monday, 10/23

## November 2023

Fall Break (No Classes)	Monday, 11/20 - Wednesday, 11/22
Thanksgiving Holiday (No Classes)	Thursday, 11/23 - Sunday, 11/26
*Last day for December 2023 graduates to submit final dissertation/thesis to the Graduate School	Wednesday, 11/29 by 5:00 PM

## December 2023

Last day to withdraw from Fall 2023 7-week session 7B course(s)	Monday, 12/4
Last day to withdraw from Fall 2023 16-week full-term course(s)	Monday, 12/11
Last day of classes for Fall 2023 16-week full term	Monday, 12/11
Last day of classes for Fall 2023 7-week session 7B	Monday, 12/11
Diploma date for the Fall 2023 term	Wednesday, 12/20

## January 2024

Dr. Martin Luther King, Jr. Day (No Classes)	Monday, 1/15
First day of classes for Spring 2024 16-week full term	Tuesday, 1/16
First day of classes for Spring 2024 7-week session 7A	Tuesday, 1/16
Last day to add/drop for Spring 2024 7-week session 7A	Monday, 1/22
*Nominations for Round 1 of Presidential and University Fellowships due in the Graduate School	Thursday, 1/25 by 12:00 NOON

Last day to add/drop for Spring 2024 16-week full term	Monday, 1/29
--	--------------

## February 2024

Last day to apply for May 2024 graduation for name to appear in the Commencement Book	Thursday, 2/1
---	---------------

*Nominations for Round 2 of Presidential and University Fellowships due in the Graduate School	Monday, 2/12 by 12:00 NOON
--	----------------------------

## March 2024

Last day to withdraw from Spring 2024 7-week session 7A course(s)	Monday, 3/4
---	-------------

Spring Break (No Classes)	Monday, 3/4 - Sunday, 3/10
---------------------------	----------------------------

Last day of classes for Spring 2024 7-week session 7A	Monday, 3/11
---	--------------

First day of classes for Spring 2024 7-week session 7B	Tuesday, 3/12
--	---------------

Nominations for Doctoral Dissertation and Master of Fine Arts Project Completion Grants for Fall 2024 due in the Graduate School	Friday, 3/15 by 12:00 NOON
--	----------------------------

*Applications for First Summers Research Initiative Awards for Summer 2024 due in the Graduate School, if funding is available	Friday, 3/15 by 12:00 NOON
--	----------------------------

Last day to add/drop for Spring 2024 7-week session 7B	Monday, 3/18
--	--------------

## April 2024

*Last day for May 2024 graduates to submit final dissertation/thesis to the Graduate School	Wednesday, 4/17 by 5:00 PM
---	----------------------------

Last day to withdraw from Spring 2024 7-week session 7B course(s)	Monday, 4/22
---	--------------

Last day to withdraw from Spring 2024 16-week full-term course(s)	Monday, 4/29
---	--------------

Last day of classes for Spring 2024 16-week full term	Monday, 4/29
---	--------------

Last day of classes for Spring 2024 7-week session 7B	Monday, 4/29
---	--------------

## May 2024

Diploma date for the Spring 2024 term	Wednesday, 5/8
---------------------------------------	----------------

University Commencement	Thursday, 5/9
-------------------------	---------------

First day of classes for Summer 2024 12-week term	Monday, 5/13
---	--------------

First day of classes for First Summer 2024 6-week full term	Monday, 5/13
---	--------------

First day of classes for First Summer 2024 4-week session 4A	Monday, 5/13
--	--------------

Last day to add/drop for First Summer 2024 4-week session 4A	Thursday, 5/16
--	----------------

Last day to add/drop for First Summer 2024 6-week full term	Friday, 5/17
---	--------------

Last day to add/drop for Summer 2024 12-week term	Wednesday, 5/22
---	-----------------

Memorial Day (No Classes)	Monday, 5/27
---------------------------	--------------

## June 2024

Last day to apply for August 2024 graduation for name to appear in the Commencement Book	Saturday, 6/1
--	---------------

Last day to withdraw from First Summer 2024 4-week session 4A course(s)	Monday, 6/3
---	-------------

Last day of classes for First Summer 2024 4-week session 4A	Monday, 6/10
---	--------------

First day of classes for First Summer 2024 4-week session 4B	Thursday, 6/13
--	----------------

Last day to add/drop for First Summer 2024 4-week session 4B	Friday, 6/14
--	--------------

Last day to withdraw from First Summer 2024 6-week full-term course(s)	Monday, 6/17
--	--------------

Juneteenth (No Classes)	Wednesday, 6/19
-------------------------	-----------------

Last day of classes for First Summer 2024 6-week full term	Monday, 6/24
--	--------------

Diploma date for First Summer 2024 full-term courses	Tuesday, 6/25
--	---------------

First day of classes for Second Summer 2024 6-week full term	Thursday, 6/27
--	----------------

## July 2024

Last day to add/drop for Second Summer 2024 6-week full term	Monday, 7/1
--	-------------

Independence Day (No Classes)	Thursday, 7/4
-------------------------------	---------------

Last day to withdraw from First Summer 2024 4-week session 4B course(s)	Friday, 7/5
---	-------------

Last day of classes for First Summer 2024 4-week session 4B	Thursday, 7/11
---	----------------

First day of classes for Second Summer 2024 4-week session	Friday, 7/12
--	--------------

Last day to add/drop for Second Summer 2024 4-week session	Monday, 7/15
--	--------------

*Last day for August 2024 graduates to submit final dissertation/thesis to the Graduate School	Wednesday, 7/24 by 5:00 PM
--	----------------------------

## August 2024

Last day to withdraw from Summer 2024 12-week term course(s)	Thursday, 8/1
--	---------------

Last day to withdraw from Second Summer 2024 6-week full-term course(s)	Thursday, 8/1
---	---------------

Last day to withdraw from Second Summer 2024 4-week session course(s) Thursday, 8/1

Last day of classes for Summer 2024 12-week term Thursday, 8/8

Last day of classes for Second Summer 2024 6-week full term Thursday, 8/8

Last day of classes for Second Summer 2024 4-week session Thursday, 8/8

Diploma date for Summer 2024 12-week, First Summer 2024 4-week 4B, and Second Summer 2024 courses Friday, 8/9

First day of classes for the Fall 2024 TBD term

# Graduate School Policies

---

While the information presented in the policies detailed herein governing graduate education at Temple University is complete and accurate to the best of our abilities, these policies in no way serve as a contract. Some programs impose more stringent requirements than those set by the Graduate Board and the Graduate School. Applicants and enrolled students should contact their dean's office to review school/college policies and consult their graduate advisors to review current program requirements.

Note, however, that all students enrolled at Temple University are subject to Policy 03.70.12: Student Conduct Code.

The policies posted herewith are continuously undergoing revision:

## 02.23 Admission Requirements

## 02.24 Graduate Credits and Standards of Scholarship

## 02.25 Currency and Time Limits

## 02.26 Master's Examination and Thesis

## 02.27 Doctoral Examinations/Culminating Experiences

## 02.28 Doctoral Dissertation

## 02.29 Academic Appeals to the Graduate Board

## 02.30 Exit Requirements

<b>02.23</b>	<b>ADMISSION REQUIREMENTS</b>
	To be considered for admission, an applicant must meet the Temple University minimum standards for scholarship and all criteria established by the school/college and degree program. Admission to graduate programs is competitive; admissions authority rests with the Graduate School and the dean of the school/college. An application is reviewed only when the application fee is paid in U.S. dollars and all official transcripts, standardized test scores, and other application materials required for the degree program are received on or before the deadline.
<b>02.23.11</b>	<b>Minimum Requirements for Admission</b>
02.23.11.01	A baccalaureate degree or its equivalent, as recognized by Temple University, from an accredited post-secondary institution is required.
02.23.11.02.02	Admission of students is initially subject to standards set by the Graduate School and to any higher standards set by individual programs. The minimum admissions standard for all graduate students is ordinarily an undergraduate grade point average of "B" or 3.0 on a 4.0 scale, or the functional equivalent for students who have attended universities outside of the United States.
02.23.11.03	The Graduate School considers exceptions to the admissions requirement if the student meets one of these criteria: <ul style="list-style-type: none"> <li>• Achievement of a 3.25 cumulative grade point average in a least 9 credits of graduate work at an accredited university in the United States or equivalent academic performance in a university outside the United States.</li> <li>• Scores above the 65th percentile on the verbal and quantitative portions of the Graduate Record Examination (or other standardized test, such as the Graduate Management Admission Test).</li> <li>• Attainment of a 3.5 grade point average during their final two years of undergraduate work.</li> </ul>
<b>02.23.12</b>	<b>Examination Requirements for Admission</b>
	A school/college and program may require an examination such as the Graduate Record Examination (GRE®) or the Graduate Management Admission Test (GMAT®). Such examinations must have been taken within the past five years or appear on the official Temple University record of a student who has been previously enrolled.
<b>02.23.13</b>	<b>International Students</b>
	If an applicant attended any institution that does not routinely issue complete academic records in English, they must submit official copies of native language records and literal translations prepared by an appropriate university or government official. Alternately, the applicant may submit the academic documents to a credential evaluation organization approved by Temple University and request that the evaluation be sent directly to the intended program at Temple University. At the same time, an unofficial copy of the academic records on which the outside evaluation is based should be sent to the intended program at Temple University.

02.23.13.01	An applicant who does not hold a baccalaureate degree from an institution in which the sole language of instruction is English is required to present official scores from one of the following tests of English to meet these minimum English language requirements:
	<ul style="list-style-type: none"> <li>• Test of English as a Foreign Language (TOEFL iBT®). The minimum score required is 79 for all programs, with the exception of the Master of Music (MM) in performance, which accepts a TOEFL score of 71.</li> </ul>
	<ul style="list-style-type: none"> <li>• International English Language Testing System (IELTS™). The minimum score required on the academic version of the test is 6.5.</li> </ul>
	<ul style="list-style-type: none"> <li>• PTE Academic™. The minimum score required is 53.</li> </ul>
	<ul style="list-style-type: none"> <li>• Duolingo. The minimum score required is 110.</li> </ul>
<b>02.23.14</b>	<b>School and College Admissions Criteria</b>
	The faculties of each program establish additional admissions requirements that are approved by the graduate council or other governance body of the school/college. Additional requirements beyond the Temple University minimum requirements typically include the following:
	<ul style="list-style-type: none"> <li>• standardized tests</li> </ul>
	<ul style="list-style-type: none"> <li>• grades and/or completion of specific coursework</li> </ul>
	<ul style="list-style-type: none"> <li>• evidence of writing ability</li> </ul>
	<ul style="list-style-type: none"> <li>• professional experience</li> </ul>
	<ul style="list-style-type: none"> <li>• statement of goals and expressed specific interests in research or other creative activities</li> </ul>
	<ul style="list-style-type: none"> <li>• portfolios</li> </ul>
	<ul style="list-style-type: none"> <li>• auditions</li> </ul>
	<ul style="list-style-type: none"> <li>• letters of recommendation</li> </ul>
	Because admissions requirements for graduate programs vary widely, an applicant must contact the school/college and program for current information. It is the responsibility of the applicant to submit all required credentials and other evidence of qualifications by the deadline set by the school/college and program.
<b>02.23.15</b>	<b>Applications</b>
02.23.15.01	Application deadlines vary by program as shown in the Graduate Bulletin. To be considered for any form of graduate student financial support, an applicant should apply in advance of posted deadlines. To be considered for Temple University fellowships, an applicant must apply by December 15 for admission the following Fall term. Only a student who has been admitted may be considered for Assistantships, Fellowships, Scholarships, and Student Financial Aid (loans or work-study).
02.23.15.02	Prospective students may apply to more than one degree program, but must submit a complete application to each. A student accepted into a graduate program may matriculate in only one program, except in the case of officially designated dual degree programs.
02.23.15.03	Applicants to dual degree programs must be admitted to both degree programs and complete all requirements for both degrees. Admission to one program does not guarantee admission to the other.
02.23.15.04	All students must apply for graduation and pay the associated fees by the deadline listed in the Temple University Academic Calendar and/or in the version of the Graduate School Calendar adapted for graduate students. This is the only means by which a diploma is produced and an awarded degree transcribed. The graduation application is accessed through TUportal by selecting <b>Self Service Banner (SSB)</b> , then <b>Student » &gt;Student Records » &gt; Apply to Graduate</b> .
<b>02.23.16</b>	<b>Change of Degree Program</b>
02.23.16.01	A matriculated student in a doctoral program may, with the approval of the advisor and the dean of the school/college, request a transfer to a master's degree program in the same department and field without reapplying. The department or program must review the student's record and make the final decision about accepting the student into the master's degree program.
02.23.16.02	A matriculated student in a master's program must apply for admission to the doctoral program, even in the same department and field. (This is not applicable if the student was admitted into the PhD program at the time of admission into the master's program.) The procedures for applying are governed by the dean of the school/college and graduate council or other governance body.

**02.24 GRADUATE CREDITS AND STANDARDS OF SCHOLARSHIP**

To review the official Temple University policy regarding credits, see Policy 02.10.19: Credit Hours Policy at <https://secretary.temple.edu/sites/secretary/files/policies/02.10.19.pdf>.

**02.24.10 Registration**

Students must be appropriately registered for courses. Those who are not on the published grade list for a course may not receive a grade or credit for that course. Students are advised to utilize Self-Service Banner (SSB), accessible through the TUportal, to confirm billing and registration status, particularly when adding a course, dropping a class, or otherwise revising their roster. All students are responsible for ensuring that their registration is accurate. Note that any student who is registered for a course but does not attend will be billed for the course and will receive a final grade of "F" from the instructor.

**02.24.11 Grades**

02.24.11.01 Courses graded A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F are used to calculate the graduate grade point average (GPA). No grade below a "C-" can be used to fulfill any graduate requirement.

An "R" (Registered) grade indicates registration for the preliminary/comprehensive exam or a thesis, dissertation, or final project that is still in progress—and its use is restricted to this purpose. Therefore, the only courses that can receive an "R" grade are:

9993 - Master's Comprehensive Examination

9994 - Doctoral Preliminary/Candidacy Examination

9995 - Thesis/Project or Master of Fine Arts Credits

9996 - Master's Thesis Credits

9998 - Dissertation Proposal/Candidacy

9999 - Dissertation Credits

Courses numbered 9993 through 9999 cannot be graded "I" (Incomplete). These ongoing examinations and research projects require registration every term until their completion. Only the number of required s.h. for the completion of each of the aforementioned courses in the published program of study for each graduate degree offered by a department and found on the Graduate Bulletin webpage can and must be changed from an "R" grade to an assigned final grade of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, or P. All other "R" grades in excess of the required published s.h. for a program of study found on the Graduate Bulletin webpage remain on the transcript for all terms as "R." The GPA does not include courses designated "R." In addition, "R"-graded courses in excess of the amount required for degree completion are not included in the number of hours completed nor the number of hours passed.

The "R" grade is not—and cannot be used as—a substitute for an "I" grade. The "I" grade is appropriate for a one-term didactic course that will be completed within a year or assigned the contracted default grade.

"P" indicates Pass. Individual schools may authorize the use of Pass/Fail only for practica, seminars, and other courses for which traditional grading is inappropriate and only when all students are graded on a P/F basis. No grade points are assigned to either the "P" or "F" grade. In a course with the P/F grading option, "P" is equivalent to A, A-, B+, B, B-, C+, C, or C-, and "F" is equivalent to D+, D, D-, or F.

No grade points are assigned to either the "CR" (Credit) or "NC" (No Credit) grade. "CR" is equivalent to A, A-, B+, B, B-, C+, C, or C-, while "NC" is equivalent to D+, D, D-, or F.

Effective Spring 2020, any graduate student taking an undergraduate course for graduate credit will be subject to the following grade modes for the undergraduate course:

- No grade points are assigned to either the "CR" (Credit), "CD" (Credit D) or "NC" (No Credit) grade.
- "CR" is equivalent to A, A-, B+, B, B-, C+, C, or C-; "CD" is equivalent to D+, D, or D-; and "NC" is equivalent to F.

02.24.11.02 A student who receives more than two grades below "B-" or more than one grade of "F" is dismissed for failure to maintain satisfactory grades.

02.24.11.03 A minimum cumulative GPA of 3.0 is required in order to complete a master's or doctoral degree program and graduate.

02.24.11.03.01 To earn a graduate or post-master's certificate, the graduate student must meet the standards of scholarship established for the certificate program. Any passing grade of "C-" or higher can be counted toward completion of the certificate, if permitted by the department and school/college.

02.24.11.04 A doctoral student must take at least 2 s.h. of Dissertation Research (9999) after having been advanced to candidacy. Because these courses reflect continuing work on a single project, the student receives a grade (A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F or Pass/Fail, depending on the departmental grading system) for only the final term after having fulfilled this requirement, which entails filing the final approved dissertation with the Graduate School.

02.24.11.05 To remain in Academic Good Standing at Temple University, a non-matriculated or matriculated graduate student must achieve a term GPA of at least 3.0 for each term and maintain a cumulative GPA of at least 3.0 for all work completed at Temple University. The policy on Academic Good Standing operates in conjunction with Graduate School Policy 02.24.11.02 concerning substandard grades.

<b>02.24.12</b>	<b>Incompletes</b>
	An instructor may assign an Incomplete ("I") to a student who does not complete all coursework. The "I" may be changed to a letter grade if the student completes the coursework within one calendar year.
02.24.12.01	The student must file a contract with the faculty member of record stating what outstanding work remains to be completed. The faculty member must sign the contract and retain it in the student's permanent departmental file. All work must be completed, graded, and the change of grade filed with the Office of the University Registrar within one calendar year of the assignment of the Incomplete.
02.24.12.02.01	Change to Incomplete Policy Effective Fall 2003, the President instituted a policy change regarding Incompletes (see Policy 02.10.13: Incomplete Coursework Policy at <a href="https://secretary.temple.edu/sites/secretary/files/policies/02.10.13.pdf">https://secretary.temple.edu/sites/secretary/files/policies/02.10.13.pdf</a> ) for graduate and undergraduate students. As part of the Incomplete contract, the faculty member must assign a default grade that will apply if work is not completed per the contract or within one year of the assignment of the Incomplete grade.
02.24.12.03	A student who receives a Permanent Incomplete and wishes to receive credit for that course is required to re-register, pay tuition, and retake that course to receive a grade.
<b>02.24.13</b>	<b>Credits for Coursework in a Degree Program</b>
02.24.13.01	No course may be used to satisfy a credit hour requirement for more than one degree, except where course requirements for one degree (master's degree) are required for a more advanced degree (e.g., Ph.D.) or have been designated as eligible to satisfy the requirements of an officially designated dual degree program.
02.24.13.02	Courses in which a grade of "B" or higher has been earned while completing a graduate certificate prior to matriculation may be applied toward completion of a master's degree.
<b>02.24.14</b>	<b>Repeating a Course for Additional Credit</b>
	A student may repeat an Independent Study or other course for additional credit if the course content varies each term as designated in the Graduate Bulletin.
<b>02.24.15</b>	<b>Repeating a Course for Credit</b>
	A student may, with the permission of the advisor and graduate program director, retake a course once in order to improve the grade. The higher grade is used to calculate the graduate GPA. The s.h. for the course are counted only once toward graduation requirements.
<b>02.24.16</b>	<b>Graduate Credit for Undergraduate Courses</b>
	A graduate student may take an undergraduate upper division course for graduate credit only with the advanced written permission of the student's advisor and the dean of the school/college, prior to the first day of classes. Permission is granted only if the graduate student is required to complete more advanced work than that required of undergraduates, and the "Request to Take an Undergraduate Course for Graduate Credit" form, found in TUportal under the Tools tab within "University Forms," specifies the nature and extent of the additional work (e.g., a research paper or project). To receive graduate credit, the student must pay graduate tuition and fees.
<b>02.24.17</b>	<b>Enrollment in Undergraduate Courses Not for Graduate Credit</b>
	A student admitted to a graduate program may enroll in an undergraduate course to elevate their level of preparation to the standard expected of an entering graduate student, but such courses cannot be used to satisfy a graduate degree requirement.
<b>02.24.18</b>	<b>Prerequisites</b>
02.24.18.01	A prerequisite is preparatory work that must be completed prior to undertaking specified coursework in the degree program. Credits earned completing prerequisites do not count toward the total number of s.h. required for the degree.
02.24.18.02	Grades earned in prerequisite courses, if graduate level, are included in the graduate GPA and, irrespective of level, in the determination of standards of scholarship.
<b>02.24.19</b>	<b>Credit for Coursework Taken as a Non-Matriculated Student</b>
	A matriculated student may be allowed credit for up to 9 s.h. of graduate coursework, graded "B" or higher, taken before matriculation. These credits may be accepted in addition to the Advanced Standing Credit allowed if approved by the dean and the graduate council or other governance body of the school/college.
<b>02.24.20</b>	<b>Advanced Standing Credit</b> (defined as credit for coursework taken prior to matriculation and outside of Temple University)
02.24.20.01	Graduate coursework taken at an accredited institution prior to matriculation, and graded "B" or higher, may be accepted toward a Temple University master's degree. (Refer to Graduate School Policy 02.24.21.02 for limitations.)

02.24.20.02	Graduate coursework taken at an accredited institution prior to matriculation and graded "B" or higher as part of a master's degree program may be accepted for Advanced Standing Credit toward a doctoral degree. For doctoral programs that do not require the student to complete a master's degree at Temple University, the number of Advanced Standing Credits that may be accepted by a doctoral program cannot exceed the number of graduate s.h. required for the master's degree in the same or a closely related discipline at Temple University. Individual programs may have more restrictive limits on the number of graduate s.h. eligible to be considered for Advanced Standing Credit. The deans of the school/college and the graduate council or other governance body determine the courses to be deemed eligible.
02.24.20.03	For a student to receive Advanced Standing Credit, the graduate program director must make a recommendation to the dean of the school/college to accept the student's credits from a master's degree or other graduate work taken prior to matriculation in the degree program, whether the previous work was taken at Temple University or at another institution. The dean of the school/college has final authority over accepting the recommendation to grant Advanced Standing Credit in individual cases as long as the number and type of credits accepted do not exceed those allowed by the Graduate School.
<b>02.24.21</b>	<b>Transfer Credit</b> (defined as credit for coursework taken following matriculation and outside of Temple University)
02.24.21.01	The dean of the school/college and the graduate council or other governance body may accept a limited number of Transfer Credits. The coursework must be graduate level, taken at an accredited institution, and graded "B" or higher. (Refer to Graduate School Policy 02.24.21.02 for limitations.)
02.24.21.02	The combined number of Transfer Credits and Advanced Standing Credits (see Graduate School Policies 02.24.20.01 and 02.24.21.01) that may be accepted by a master's program cannot exceed 20% of the s.h. required for the degree (e.g., in a 30-s.h. master's degree, a maximum of 6 s.h. of credit is allowed).
02.24.21.03	A doctoral program may accept as many Transfer Credits as have been approved by the dean of the school/college up to the limit established by the Graduate School.
02.24.21.04	The Graduate School may be petitioned for an exception if the request is supported by the student's program and school/college.
<b>02.24.22</b>	<b>Auditing</b>
	A student may audit a course with the written permission of the instructor at the time of registration. For this purpose, a Special Approval Form must be signed by the instructor and submitted along with a Registration/Schedule Revision Form. The student must register for the course and pay the regular per-credit fee.
02.24.22.01	The registration for any course may not be changed from audit to credit or vice versa after the second week of classes during the Fall or Spring term or after the first three days of classes during the Summer sessions.
02.24.22.02	Audited courses do not meet prerequisite or graduation requirements.
<b>02.24.23</b>	<b>Withdrawal</b>
02.24.23.01	A student may "drop" a class during the first two weeks of the Fall or Spring term or Summer sessions and during customized drop/add/withdrawal dates set by Temple University. The course is removed from the transcript. The student is not financially responsible for the dropped course(s).
	A student who wishes to discontinue a course after the drop period has ended may "withdraw" from a class during weeks three through nine of the Fall or Spring term; during weeks three and four of Summer sessions; and during customized drop/add/withdrawal dates set by Temple University. The course is recorded on the transcript with the notation of "W." The student is financially responsible for the course(s) from which they have withdrawn.
02.24.23.02	A student who must withdraw due to circumstances beyond their control may petition for an "excused withdrawal" or "withdrawal with approved excuse." The extenuating circumstances that inhibit continued enrollment at Temple University are limited to serious medical conditions, serious family emergencies, military deployment, the student's death, and other catastrophic circumstances.
	An excused withdrawal is generally only approved for all courses in a term. In exceptional cases, an excused withdrawal can be approved for a single course when the need to withdraw is directly attributed to requirements related to that course. To request an excused withdrawal, a "Petition for Withdrawal with Approved Excuse" must be filed within one year from the end date of the term for which the student seeks the excused withdrawal. Learn more at <a href="https://registrar.temple.edu/excused-withdrawal">https://registrar.temple.edu/excused-withdrawal</a> . If the excused withdrawal is granted:
	<ul style="list-style-type: none"> <li>• The course is recorded on the transcript with the notation of "WE."</li> <li>• The student may be financially responsible for courses from which they have withdrawn with an approved excuse.</li> <li>• A student who is granted an excused withdrawal for medical reasons will not be permitted to return to the university until they present a statement from a medical provider showing that they are medically ready to return to the rigors of academic work.</li> </ul>

<b>02.25</b>	<b>CURRENCY AND TIME LIMITS</b>
	Courses taken prior to matriculation may be counted toward a degree only if they meet the program's criteria for currency. Generally, courses taken within the past five years are considered current. In some schools and colleges, coursework taken in a master's degree more than five years prior to matriculation may be considered eligible for Advanced Standing Credit.
<b>02.25.11</b>	<b>Continuous Enrollment/Registration</b>
	To remain in Academic Good Standing, a graduate student must maintain continuous enrollment (i.e., 1 or more s.h. each Fall and Spring; also in the Summer for those students graduating in Summer) from the term of matriculation through the term of graduation. The only exception for continuous enrollment/registration is for a student on a Leave of Absence.
02.25.11.01	A graduate student who is not continuously enrolled for two consecutive terms — whether as a result of not returning from an approved Leave of Absence term or because a Leave of Absence was never requested — is considered inactive, must apply for readmission, and must be accepted to the graduate program in order to continue. Readmitted graduate students do not retain their original Bulletin year and must follow the most current requirements for the graduate degree program.
<b>02.25.12</b>	<b>Full-Time Status</b>
02.25.12.01	To be designated full-time, a graduate student (including all recipients of Graduate School Fellowships) must be enrolled for 9 or more s.h. of coursework until all coursework is completed.
02.25.12.02	To be designated full-time, a graduate student who holds an Assistantship that requires at least 20 hours of service per week must be enrolled in 6 s.h. until all coursework is completed.
02.25.12.03	To be designated full-time, a graduate student who has completed required coursework for the degree must be enrolled in at least 1 s.h. of one of the following:
	9284 - Music Doctoral Performance
	9994 - Preliminary Examination
	9998 - Dissertation Proposal
	9999 - Dissertation Research
	OR any other terminal or culminating experience or project required beyond coursework to complete the degree, including Music Master Performance (9184), Master's or MFA Project (9995), and Master's Thesis (9996).
<b>02.25.13</b>	<b>Conditions of Full-Time Status</b>
02.25.13.01	No limit is set on the number of terms a student may be classified as full-time, although the expected time-to-degree is an important consideration. See the Graduate Bulletin for each program's allotted length.
02.25.13.03	A graduate student who has completed coursework and is enrolled in at least 1 s.h. of:
	9184 - Music Master Performance
	9284 - Music Doctoral Performance
	9994 - Preliminary Examination
	9995 - Master's or MFA Project
	9996 - Master's Thesis
	9998 - Dissertation Proposal
	9999 - Dissertation Research
	will automatically be classified as full-time. Contact the Graduate School about full-time status concerns only when exceptional circumstances warrant.
<b>02.25.14</b>	<b>Leave of Absence</b>
02.25.14.01	The dean of the school/college, on the recommendation of the advisor, may grant a matriculated student a Leave of Absence upon presentation of a completed "Leave of Absence Request" form. The form is found in TUportal under the Tools tab within "University Forms." A Leave of Absence must be in place by the end of each term's schedule revision period.
02.25.14.02.02	While on a Leave of Absence, a student retains admitted student status and remains eligible for the following privileges:
	<ul style="list-style-type: none"> <li>• Retention of the university requirements in place for their academic program at the time of their first term at Temple and the requirements in place for their degree or degree concentration at the time of declaration.</li> <li>• Temple email access.</li> <li>• Priority and self-registration for the approved term of return.</li> <li>• Library access and borrowing privileges.</li> </ul>
02.25.14.02.03	A student granted a Leave of Absence is not considered a registered student. As a non-enrolled student, they are not eligible for:

- Academic advising related to progress toward completion of the degree while on a Leave of Absence.
- Financial aid disbursements during the terms while on a Leave of Absence. Students on a Leave of Absence are reported to lenders and loan service agencies as "not enrolled" and need to contact lenders for information on possible repayment requirements.
- Enrollment verification, given their status as "not enrolled," which could affect eligibility for health insurance, etc., while on a Leave of Absence.
- Use of Student Health Services or any other university services not listed in Graduate School Policy 02.25.14.02.02 above while on a Leave of Absence.
- Campus Housing while on a Leave of Absence.

02.25.14.03 A Leave of Absence does not extend the time limit for completing a graduate degree. A student may not be granted more than four terms of leave except for a serious condition.

#### **02.25.15 Time Limits for a Degree**

02.25.15.01 The time limit begins with the term of matriculation and ends with the term in which the degree is earned.

02.25.15.02 The time limits for a master's degree are three to six years. See the program descriptions in the Graduate Bulletin.

02.25.15.03 The time limit for a doctoral degree is seven years.

02.25.15.04 An extension of time may be requested by master's and doctoral candidates. To ensure currency, a student who requests an extension of time beyond that allowed for a graduate degree may be required to retake coursework and/or examinations.

#### **02.26 MASTER'S EXAMINATION AND THESIS**

##### **02.26.11 Master's Examinations**

02.26.11.01 A student may take the master's comprehensive examination, in whole or in part, no more than twice.

02.26.11.02 A student who fails all or part of the comprehensive examination twice is dismissed.

##### **02.26.12 Master's Thesis**

02.26.12.01 For current requirements, see the specific degree program in the Graduate Bulletin.

02.26.12.02 A thesis must be completed in a format approved by the Graduate School and the school/college. Approved formats are listed in the Dissertation and Thesis Handbook, found at <https://grad.temple.edu/resources/dissertation-thesis-handbook>.

#### **02.27 DOCTORAL EXAMINATIONS/CULMINATING EXPERIENCES**

Doctoral Examinations/Culminating Experiences require a minimum of 6 s.h., with at least 2 s.h. of the 6 s.h. required to be in course number 9999. The remaining 4 s.h. can be a combination of the following course numbers: 9994, 9998, and/or 9999. Departments may require additional s.h. to fulfill Doctoral Examinations/Culminating Experiences since 6 s.h. constitute the minimum requirement. Doctoral students must maintain continuous enrollment from matriculation to graduation.

##### **02.27.11 Preliminary Examinations**

02.27.11.01 A doctoral student who has completed all coursework for the degree, but has not passed the preliminary examination, must register each Fall and Spring term for 1 s.h. of course number 9994, "Preliminary Examination Preparation." The student must be registered for 9994 in the term in which the examination is taken, including the Summer session. A student who is required to retake the preliminary examination in whole or in part must re-register for 1 s.h. of 9994 in the term in which the examination is retaken.

02.27.11.02 A student may take the doctoral preliminary examination, in whole or in part, no more than twice.

02.27.11.03 A student who fails all or part of the preliminary examination twice is dismissed.

02.27.11.04 Three or more members of the Graduate Faculty must approve the content of the doctoral preliminary examination. It must be graded fairly and in a manner that prohibits any one faculty member from determining whether a student passes or fails.

##### **02.27.12 Preliminary Examination Time Limits**

02.27.12.01 To ensure currency, a doctoral student who has not successfully defended the dissertation within five years of passing the preliminary examination may be required to retake and pass that examination to remain in Academic Good Standing.

02.27.12.02 When the five-year limit is reached, the student is to be notified by the school/college/program if they must retake and pass the preliminary examination within one term.

02.27.12.03 Failure to retake and pass the preliminary examination within one term results in dismissal by the school/college/program.

##### **02.27.13 Elevation to Candidacy**

A doctoral student is elevated to candidacy upon completion of all coursework and examination requirements (including foreign language or other proficiency examinations) for the degree after filing an approved dissertation proposal along with the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found in TUportal under the Tools tab within "University Forms," to the Graduate School.

<b>02.28</b>	<b>DOCTORAL DISSERTATION</b>
<b>02.28.11</b>	<b>Doctoral Advisory Committee/Sponsoring Committee</b>
02.28.11.01	A sponsoring committee must include at least three members of the Temple University Graduate Faculty, two of whom, including the chair, must be members of the candidate's degree program or approved to serve in that capacity with the advanced written approval of the Graduate School.
02.28.11.02	A committee may be expanded to include other Temple University faculty and/or qualified experts from outside Temple University, provided that a majority of the members of the Doctoral Advisory Committee are members of the Temple University Graduate Faculty.
02.28.11.03	If the proposed additional member is not a member of the Graduate Faculty, the chair of the Doctoral Advisory Committee must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found in TUportal under the Tools tab within "University Forms," and a current curriculum vitae to the Graduate School. Approval of the member must be received prior to the approved proposal being filed with the Graduate School.
02.28.11.04	If a change is made in the composition of the Doctoral Advisory Committee, the change must be approved by the chair of the initial committee and the dean of the school/college. The change must be noted on the "Request for Change in Dissertation Committee" form, found in TUportal under the Tools tab within "University Forms," and filed with the Graduate School prior to posting the final defense.
02.28.11.05	The dean of the school/college and the graduate council or other governance body define who is responsible for approving the composition of Doctoral Advisory Committees in their respective school/college.
02.28.11.06	The chair and each member of the Doctoral Advisory Committee work with the student to provide guidance to develop a proposal in which the student demonstrates broad knowledge of the field, current methods of investigation, and the ability to conduct the proposed research on a realistic timeline.
02.28.11.07	Emeritus faculty may serve on a dissertation sponsoring or examination committee provided the emeritus faculty member retains Graduate Faculty status by continuing to satisfy college/department criteria and responsibilities established for Graduate Faculty status.
02.28.11.08	Emeritus faculty may chair dissertations if: <ul style="list-style-type: none"> <li>• the emeritus faculty member was the chair of an approved dissertation proposal submitted to the Graduate School prior to retirement; and</li> <li>• the emeritus faculty member continues to satisfy college/department criteria and responsibilities established for Graduate Faculty to chair dissertations.</li> </ul>
<b>02.28.12</b>	<b>Dissertation Proposal</b>
02.28.12.01	A student who has passed preliminary examinations but has not filed an approved dissertation proposal with the Graduate School by the last day to Drop/Add in the term must register each Fall and Spring for course number 9998, "Pre-Dissertation Research."
02.28.12.02	When all members of the Doctoral Advisory Committee have signed the proposal, the proposal represents an agreement between the student and the committee that the theoretical and methodological approaches being taken are considered acceptable if the work is conducted appropriately and within the timeline proposed. The Doctoral Advisory Committee may not unilaterally require significant theoretical or methodological changes. The committee and the student may jointly agree on such changes but are advised to put the changes in writing.
02.28.12.03	Within 30 days of all members of the Doctoral Advisory Committee signing the proposal, it must be filed with the student's department and with the Graduate School. The proposal must include an official "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found in TUportal under the Tools tab within "University Forms," that bears the signatures of the Doctoral Advisory Committee members and the date approved.
<b>02.28.13</b>	<b>Dissertation Research</b>
02.28.13.01	A doctoral candidate must register each Fall and Spring term, and in the term in which the oral examination is held, for course number 9999, "Dissertation Research."
02.28.13.02	If the oral examination is held in the Summer session, the student must register for 9999 in the Summer session but will not be required to register in the Fall if the 30-day deadline for making final revisions extends into the Fall.
02.28.13.03	A doctoral student must complete a minimum of 2 s.h. of course number 9999, "Dissertation Research," after elevation to candidacy.
<b>02.28.14</b>	<b>Defense of Doctoral Dissertation</b>
02.28.14.01	To be defensible, a doctoral dissertation must:

- meet the standards for original research or other creative work in the field;
- uphold the ethics and standards governing research or creative work in the discipline;
- demonstrate mastery of the research methodology and subject matter;
- demonstrate an understanding of the contribution of the body of knowledge to the discipline or disciplines involved; and
- meet the standard of writing and presentation expected in any academic or scholarly publication or production, including grammar, spelling, formatting, and general readability.

02.28.14.02	A candidate whose dissertation fulfills the standards of scholarship and the commitments made in the proposal, and any modifications made to it as specified above, is entitled to an oral defense of the dissertation.
<b>02.28.15</b>	<b>Dissertation Examining Committee</b>
02.28.15.01	A Dissertation Examining Committee is responsible for evaluating the quality of the dissertation and conducting the oral defense.
02.28.15.02	A Dissertation Examining Committee must include the chair and all members of the Doctoral Advisory Committee and at least one outside examiner not previously involved with the dissertation writing or the Doctoral Advisory Committee.
02.28.15.03	The chair of the Dissertation Examining Committee must be a member of the Graduate Faculty but may not be the chair of the candidate's Doctoral Advisory Committee. This person, responsible for coordinating the defense, must be identified when the defense is posted with the Graduate School. If the dean of the school/college and the graduate council have a written policy that calls for the chair of the Dissertation Examining Committee to be elected only when the defense is convened, the person named in the posting to the Graduate School remains responsible for filing all official forms with the school/college and Graduate School.
02.28.15.04	The outside examiner may not be a faculty member in the candidate's degree program. The examiner must be doctorally prepared and, if they are from outside Temple University, must be approved by the Graduate School at least three weeks prior to the oral defense.
02.28.15.05	If the outside examiner or any other proposed member of the Dissertation Examining Committee is not a member of the Graduate Faculty, the chair of the Doctoral Advisory Committee must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found in TUportal under the Tools tab within "University Forms," and a current curriculum vitae to the Graduate School at least four weeks in advance of the scheduled defense. Approval must be received prior to posting the oral defense.
<b>02.28.16</b>	<b>Oral Defense/Final Examination</b>
02.28.16.01	To be eligible to post the Oral Defense/Final Examination, the candidate must have: <ul style="list-style-type: none"> <li>• an approved Dissertation Examining Committee;</li> <li>• distributed a complete copy of the final dissertation to all members of the Dissertation Examining Committee; and</li> <li>• identified the chair or the person responsible for the Dissertation Examining Committee in accordance with the policies of the school/college.</li> </ul>
02.28.16.02	The candidate must submit the official, signed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," to the Graduate School 10 or more working days before the scheduled defense. A defense cannot be held without written confirmation of approval and receipt of the defense paperwork from the Graduate School.
02.28.16.03	The announcement of the oral defense must be posted publicly. Any member of the Graduate Faculty has the right to request a copy of the dissertation from the dean of the school/college in advance of the defense and may participate in the defense.
02.28.16.04	If a person other than a member of the Dissertation Examining Committee or Graduate Faculty wishes to be present at the oral defense as a guest, the chair of the Dissertation Examining Committee is responsible for determining the appropriateness of the request and for making the final decision.
02.28.16.05	All members of the Dissertation Examining Committee must be physically present for the defense, except in the case of an emergency. The Graduate School may, in serious circumstances, give prior written approval for no more than one member to be absent. The candidate and chair of the Doctoral Advisory Committee must, however, both be present for a valid defense.
02.28.16.06	A member of the Dissertation Examining Committee whose absence has been approved by the Graduate School must still participate in the defense through some means (e.g., telephone, video-conference, written comments, and/or questions to be asked by another member), except in the case of a sudden, serious emergency.

02.28.16.07	The Dissertation Examining Committee evaluates both the dissertation and a candidate's performance in the oral examination to determine whether or not the candidate passes. Only officially recognized members of a Dissertation Examining Committee have the authority to determine whether or not the candidate passes the final defense.
<b>02.28.17</b>	<b>Revisions Following the Oral Defense</b>
02.28.17.01	Doctoral candidates who pass the oral defense may be required to make revisions to the dissertation as a condition of completing the degree. The chair of the Doctoral Advisory Committee is typically responsible to review and approve revisions, although any member of the Dissertation Examining Committee may require the candidate to submit a final draft for approval. The final revised dissertation must be submitted to the Graduate School within 30 calendar days of the oral defense or the defense is nullified and another oral defense must be scheduled.
02.28.17.02	If a Dissertation Examining Committee requires substantial revisions that cannot be made within 30 calendar days, the committee must suspend the defense until a majority agrees that the dissertation is sufficiently revised to be defensible. A candidate must repost the oral defense with the Graduate School. The chair of the Doctoral Advisory Committee is responsible for notifying the Graduate School that a defense was suspended.
<b>02.28.18</b>	<b>Dissertation Format</b>
	A dissertation must be completed in a format approved by the Graduate School and the school/college. Approved formats are listed in the Dissertation and Thesis Handbook, found at <a href="https://grad.temple.edu/resources/dissertation-thesis-handbook">https://grad.temple.edu/resources/dissertation-thesis-handbook</a> .
<b>02.28.19</b>	<b>Authorship and Prior Publication</b>
	A doctoral dissertation may have only one author. A candidate's previously published work may be included in the dissertation if the work meets the following criteria:
	<ul style="list-style-type: none"> <li>• The research was conducted by the candidate while a doctoral student at Temple University.</li> <li>• It has not been used to meet the requirements for another degree.</li> <li>• It is not co-authored, unless the role of the candidate was clearly defined in the co-authored work.</li> <li>• It is logically connected with and integrated into the dissertation.</li> <li>• By its inclusion, it does not violate any existing copyright or contractual agreement.</li> <li>• Co-authored works that do not meet the criteria above may be included as appendices if they include the names of all authors and the contribution of the candidate is stated.</li> </ul>
<b>02.28.20</b>	<b>Filing Dissertations</b>
	The Dissertation and Thesis Handbook, found at <a href="https://grad.temple.edu/resources/dissertation-thesis-handbook">https://grad.temple.edu/resources/dissertation-thesis-handbook</a> , details requirements for filing the final dissertation with the Graduate School.
<b>02.28.21</b>	<b>Final Authority Over Doctoral Dissertation</b>
	The Graduate School and the Graduate Board have the authority to review and approve all doctoral dissertations prior to awarding the degree.
<b>02.29</b>	<b>ACADEMIC APPEALS TO THE GRADUATE BOARD</b>
02.29.11.01	Title IX of the Educational Amendments Act requires that each college or university establish due procedures for the resolution of grievances. A student should consult their school/college for information about filing grievances.
02.29.11.02	A graduate student must follow all school/college and departmental policies and procedures governing grade appeals and appeals for all other academic matters. The Graduate Board and Graduate School have authority over reinstatement after academic or administrative dismissal. A student must file a "Petition to the Graduate School or Graduate Board Student Appeals Committee for Reinstatement," found in TUportal under the Tools tab within "University Forms," with the Graduate School to initiate an appeal to either body for reinstatement. A student who has been academically or administratively dismissed and no longer has access to TUportal should contact the Graduate School for a copy of the reinstatement form.
<b>02.29.12</b>	<b>Petitions for Reinstatement After Academic Dismissal</b>
	A graduate student may file a "Petition to the Graduate School or Graduate Board Student Appeals Committee for Reinstatement," found in TUportal under the Tools tab within "University Forms" or available from the Graduate School directly, with the Graduate Board Student Appeals Committee following dismissal:
02.29.12.01	If the student has failed the comprehensive or preliminary examinations, in whole or in part, twice.
02.29.12.02	If the student has failed to maintain satisfactory grades in accordance with Standards of Scholarship in the university, school/college, and/or program.
02.29.12.03	If the student has failed to make academic progress as defined by the school/college and program.
<b>02.29.13</b>	<b>Petitions for Reinstatement After Administrative Dismissal</b>

A student who has been administratively dismissed (i.e., has exceeded the time limit or failed to maintain continuous enrollment and is therefore ineligible to register, or who has withdrawn) may file a "Petition to the Graduate School or Graduate Board Student Appeals Committee for Reinstatement" by first contacting the Graduate School for a copy of the reinstatement form. A representative for the Graduate School may respond to these petitions administratively or refer them to the Graduate Board Student Appeals Committee.

**02.29.14 Appeals of Graduate Board Decisions**

A student can appeal decisions by the Graduate Board Student Appeals Committee only on procedural grounds. The appeal should be directed to the Provost.

**02.29.15 Readmission**

A student who has withdrawn, been dismissed for failure to maintain continuous enrollment for more than one term, or has exceeded the time limit and is therefore ineligible to register, may be required to file a new Application for Admission. See <https://grad.temple.edu/admissions/how-apply> for the appropriate application link at Temple University. If accepted, the student is considered newly matriculated at the time of admission and will be required to complete all current program requirements.

**02.30 EXIT REQUIREMENTS (Restatement of Graduate School Policy 02.23.15.04 on Applying for Graduation)**

All students must apply for graduation and pay the associated fees by the deadline listed in the Temple University Academic Calendar and/or in the version of the Graduate School Calendar adapted for graduate students. This is the only means by which a diploma is produced and an awarded degree transcribed. The graduation application is accessed through TUportal by selecting **Self Service Banner (SSB)**, then **Student » >Student Records » > Apply to Graduate**.

## FERPA/Privacy Guidelines

As required by the Family Educational Rights and Privacy Act (FERPA) of 1974, with certain exceptions, Temple University generally cannot disclose a student's education records without the written consent of a student or without proof by a parent that the student is dependent on their parent(s) for federal income tax purposes.

FERPA provides the following rights for students and for parents of dependent students attending Temple University:

- The right of a student, with minor limitations, to inspect and review their education records.
- The right to request amendment of a student's education records to ensure that they are not inaccurate, misleading or otherwise in violation of the student's privacy or other rights.
- The right, with certain exceptions, to consent to disclosures of personally identifiable information contained in the student's education records.
- The right to withhold public disclosure of any or all items of so-called "Directory Information" by written notification within two weeks after publication of this notice. Under current university policy, the item "Directory Information" includes a student's name, street address, e-mail address, confirmation of enrollment status (full-time/part-time), dates of attendance, degree received, awards received, major field of study, participation in officially recognized activities and sports, and weight and height of members of athletic teams.
- The right to file a complaint with the U.S. Department of Education concerning the alleged failure of Temple University to comply with the requirements of FERPA and of the implementing regulations.

The procedures for exercising the above rights are explained in the Policy 03.20.11: Policy Regarding Confidentiality of Student Records, which includes a description of the types and locations of educational records maintained by the university.

If you or your parents' primary or home language is not English, upon your request, reasonable effort is made to provide you with a translated copy of this "Annual Notice," as well as with "Temple University's Guidelines Pertaining to Confidentiality of Student Records."

Please note that, in compliance with a 1997 federal statute designed to advance military recruiting, Temple may release dates of birth to the military unless the student notifies Temple that they want this information withheld.

## FERPA Waiver

A student may consent to the release of information from education records to parents, guardians or other appropriate persons. Students may provide the university with their consent by completing the FERPA waiver online via TUportal. Once logged into TUportal, click on the "Self-Service Banner" link, then click the "Student" link, and then the "FERPA Contacts" link. After reading the informational text, click the "New Contact" link and enter the requested information before clicking the "Submit Changes" link.

## Scope of Policy and Rationale for Students Called to Military Service Obligation

Temple University is governed by federal and state laws on the duties to and the rights of students who are members of the U.S. Armed Forces, including the National Guard and the reserves, when they are temporarily unable to attend classes or have to suspend their studies due to service requirements. Policy 03.70.11: Temple University Policy for Students Called to Military Service Obligation is intended to conform fully to pertinent federal and state laws.

## Policy Statement

### I. Withdrawal from classes for a military service obligation:

1. Students called to a military service obligation should contact the Office of the University Registrar, Second Floor, Conwell Hall. Each such student has the following options:
  - a. If prior to the official drop/add deadline, drop classes and receive a full refund.
  - b. If after the official drop/add deadline, drop from classes and receive a full refund. A grade notation of "M" will be applied to each course to indicate drop due to military obligation.
  - c. Receive an "Incomplete (I)" if eligible according to university policy. If the student chooses this option, then if the student is not able to fulfill the course completion requirement(s), regardless of the circumstances, the student cannot later choose option "a" above. (See Policy 02.10.13: Incomplete Coursework.)
2. Students should provide advance written notice with supporting documents of their military service obligation to the Office of the University Registrar.
  - a. If unable to provide advance notice of the military service due to military necessity, students will submit at the time of reenrollment an attestation that the student performed service in the uniformed services that necessitated the student's absence from the institution.

### II. Reenrollment for service members after a military service obligation:

1. Students will be promptly reenrolled with the same academic status<sup>1</sup> when last in attendance or last admitted, subject to paragraphs 2 and 3 below. Temple will make reasonable efforts<sup>2</sup> at no extra cost to the students to help them become prepared or to enable the students to complete their program. However, if it is determined after reasonable efforts, that any such student is unable to complete their program or that there are no reasonable efforts that can be taken to prepare the student to resume the program at the point where they left off or to enable the student to complete the program, Temple is not required to readmit the student upon their return.
2. Students will be promptly reenrolled if the cumulative length of the absence and of all previous absences by reason of service in the uniformed services does not exceed five years. Students whose previous absences cumulatively exceed five years are subject to the established reenrollment policy and procedures.
3. Students who seek reenrollment will provide to Temple documentation to establish that the student has not exceeded the service limitation of total cumulative absence of five years.

### III. Additional Services

Graduate students may have special problems resulting from a military service obligation, such as a maximum number of years permitted to complete a particular academic program. Graduate students who need an extension or adjustment to their programs due to military service obligations should contact the Graduate School, Fifth Floor, Carnell Hall.

Veterans' tuition benefits at Temple are administered by the Office of the University Registrar.

1

"Academic status" is defined by the Code of Federal Regulations, 34 CFR 668.18, et seq.

2

"Reasonable efforts" is defined by the Code of Federal Regulations, 34 CFR 668.18, et seq.

## Notes

### 1. **Dates of official enactment and amendments:**

Amended by the President on September 20, 2001. First effective Fall 2001.

Amended by the President in May 2015. First effective December 3, 2014.

### 2. **History:**

Supersedes Presidential Policy Statement No. I-23, Temple University Policy for Students Called to Active Military Service.

Supersedes previous version designated as Presidential Policy 03.70.11, Temple University Policy for Students Called to Military Action.

The December 2014 amendment aligns Temple's policy with requirements of the Department of Defense readmission policies and Department of Education requirements for returning service members (ED 34 C.F.R. 668.8 and 668.18 respectively).

### 3. **Cross References:**

- Policy 04.14.11: Employment and Reemployment Rights of Temple University Employees Who Serve on Active Military Duty
- Policy 02.20.11: Leave of Absence (Graduate)
- Policy 02.10.13: Incomplete Coursework

# Cost and Aid

## Pennsylvania Residency Classification

Based on a student's domicile, Temple University has two tuition schedules. One is relevant for Pennsylvania residents, and the other for out-of-state residents and international students. For tuition purposes, Pennsylvania residency is determined in accordance with the criteria outlined in the "Pennsylvania Residency Guidelines." Questions about Pennsylvania residency, individual student status, change of domicile, or appeals for residency classification are answered on the website of the Office of the University Registrar.

## 2023-2024 Tuition

### Graduate Programs and Certificates

Tuition costs for all graduate programs and certificates are priced per credit, as shown below by school and college. The amounts listed are applicable for the Fall and Spring terms, as well as the various Summer sessions, of the 2023-2024 academic year:

School/College/Program	Pennsylvania Out-of-State	
	Residents	Residents
<b>Tyler School of Art and Architecture</b>	\$1,053	\$1,449
w/the exception of Architecture programs	\$1,262	\$1,658
w/the exception of Fine Arts (MFA) programs	\$1,266	\$1,682
<b>Fox School of Business and Management</b>		
Business Administration MBA (Full-Time, Part-Time, Online) <sup>1</sup>	\$1,250	\$1,250
Executive MBA	\$1,900	\$1,900
Executive DBA	\$2,200	\$2,200
Master's programs (non-MBA) <sup>1</sup>	\$1,165	\$1,165
PhD programs	\$1,000	\$1,250
Graduate certificates	\$1,000	\$1,150
<b>Kornberg School of Dentistry</b>	\$1,549	\$1,549
<b>College of Education and Human Development</b>	\$1,053	\$1,449
w/the exception of Executive Educational Leadership programs	\$1,184	\$1,513
w/the exception of Jamaica master's program	\$433	\$433
w/the exception of Jamaica doctoral program	\$731	\$731
<b>College of Engineering</b>	\$1,280	\$1,675
<b>Beasley School of Law</b>	\$1,165	\$1,165
<b>College of Liberal Arts</b>	\$1,053	\$1,449
<b>Lew Klein College of Media and Communication</b>	\$1,169	\$1,565
<b>Lewis Katz School of Medicine</b>		
Biomedical Sciences	\$992	\$1,360
Physician Assistant	\$774	\$812
Urban Bioethics	\$1,984	\$2,341

<b>Center for the Performing and Cinematic Arts/Boyer College of Music and Dance</b>	\$1,187	\$1,583
w/the exception of Music Education MM (online)	\$871	\$871
<b>Center for the Performing and Cinematic Arts/School of Theater, Film and Media Arts</b>	\$1,169	\$1,565
<b>School of Pharmacy</b>	\$1,186	\$1,475
<b>College of Public Health</b>	\$1,109	\$1,521
w/the exception of Social Work	\$1,053	\$1,449
w/the exception of online programs in Public Health and Social Work	\$1,087	\$1,087
<b>College of Science and Technology</b>	\$1,301	\$1,696
w/the exception of Information Science and Technology MS (online)	\$923	\$923
<b>School of Sport, Tourism and Hospitality Management</b>	\$956	\$956
Hospitality Management MS and Sport Business MS	\$956	\$1,100
Graduate certificates	\$900	\$1,050

1

A one-time program fee of \$750 is required in the term of admission.

### Professional Programs and Certificates

Tuition costs for all professional programs and certificates are priced per academic year, except where per credit pricing is indicated, as shown below by school and college. The amounts listed are applicable for the 2023-2024 academic year:

School/College/Program	Pennsylvania Out-of-State	
	Residents	Residents
<b>Kornberg School of Dentistry</b>		
DMD		
> Dentistry	\$67,800	\$77,308
> Dentistry/Advanced Standing Program for Internationally Trained Dentists	\$94,886	\$94,886
Dentistry Certificates		
> Dental Public Health	\$47,494	\$47,494
> Endodontics, Orthodontics, or Periodontics	\$68,130	\$76,566
Post-Baccalaureate Program (PreDental)	\$46,366	\$46,366
<b>Beasley School of Law</b>		
JD <sup>1</sup>		
> Day	\$29,842	\$45,738
> Evening	\$23,878	\$36,604
> Part-Time (per credit)	\$1,155	\$1,850
LLM		
> International Law	\$34,320	\$34,320
> International Law (per credit)	\$1,560	\$1,560
> Trial Advocacy	\$29,200	\$29,200
SJD (per credit) <sup>2</sup>	\$1,155	\$1,850
Special Programs		
> Summer Abroad - Rome <sup>3</sup>	\$3,700	\$3,700

> Summer Law - Washington DC (per credit) <sup>4</sup>	\$1,155	\$1,155
> Temple - China (15 months)	\$27,000	\$27,000
<b>Lewis Katz School of Medicine</b>		
MD	\$56,080	\$59,462
Post-Baccalaureate Program		
> Advanced Core Medical Science <sup>5</sup>	\$30,294	\$37,372
> Basic Core Medical Science <sup>6</sup>	\$30,294	\$37,372
<b>School of Pharmacy</b>		
PharmD	\$38,452	\$41,250
PharmD (per credit)	\$1,046	\$1,193
<b>School of Podiatric Medicine</b>		
DPM	\$45,074	\$47,098

1

In addition to University-wide fees, all JD students, whether studying full- or part-time, are assessed a Student Bar Association fee of \$70.

2

All SJD students are assessed a \$12,000 matriculation fee in the term of admission.

3

A program fee of \$400 is billed separately for the Rome Summer Abroad program.

4

A program fee of \$500 is billed separately for the Washington DC Summer program.

5

Tuition rate assumes study in the Fall and Spring terms.

6

Tuition rate assumes study in the Fall and Spring terms, as well as two Summer sessions.

Visit <https://bursar.temple.edu/tuition-and-fees/tuition-rates> for a full tuition schedule and access to the tuition calculator.

## 2023-2024 Fees

Each academic term, all enrolled students are assessed the "University Services Fee," which funds student activities, computers and technology, facilities, and student health services. The fees below are for the 2023-2024 academic year:

# of Credits	Fall and Spring Terms Fee	Fee per Summer Session
9+	\$484	\$244
5.0-8.9	\$347	\$184
1.0-4.9	\$177	\$111

Other fees are exclusive to graduate students on an "event" basis:

Graduate School Event	Fee
Online Application	\$60
Deposit	\$100 minimum <sup>1</sup>
Matriculation	\$85 <sup>2</sup>
Leave of Absence	\$25

1

Inquire of the department as deposit amounts vary by program.

2

A one-time charge is assessed for all first-year graduate students who are degree-seeking candidates. This fee is due in the initial semester after admission and includes student orientation.

All tuition and fees are subject to change by action of the Board of Trustees.

Disclaimer: Tuition and fees are set annually each summer, regardless of the method of instruction. Temple University expressly reserves the right to deliver some or all instruction remotely at its discretion. Tuition, the university services fee and certain other fees are required to be paid in full and will not be refunded regardless of the method of instruction, the inability to access university-maintained facilities, or any disruption to or cancellation of classes, activities, events, services or programs.

## Veteran/Military Education Benefits

Temple University will not impose any penalty—including the assessment of late fees; the denial of access to classes, libraries or other institutional facilities; or the requirement that a covered individual borrow additional funds—on any covered individual because of the individual's inability to meet their financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

Temple University will impose a late fee and financial hold for those students who have an outstanding balance beyond the amount of expected VA tuition and fee payment for the term.

## About

To qualify for most types of financial aid, students must first be admitted to a graduate program. Note that some graduate programs require that the FAFSA be completed no later than February 1 for scholarship opportunities.

The majority of graduate student financial aid administered by Temple University's Office of Student Financial Services (SFS) is in the form of federal loan and work-study programs. For information on funding resources offered through the Graduate School, visit the Graduate School website. In addition, Temple University's Office of Scholar Development and Fellowships Advising extends graduate student scholarship opportunities and provides workshops, information sessions and individual appointments.

Professional and graduate programs found on the Temple University Health Sciences Campus (HSC) are administered by the HSC Student Financial Services Office. HSC graduate students must complete the HSC Graduate Student Enrollment Form.

Review the frequently asked questions on SFS's Graduate Students webpage. Direct questions about financial assistance to SFS.

## Federal Eligibility Determination

To receive and retain student financial aid, including Federal Direct and PLUS Loans, graduate and professional students must file the annual FAFSA and meet certain eligibility requirements. Federal Direct Unsubsidized and PLUS Loans require graduate students to be enrolled at least half time during each semester, i.e., taking a minimum of

4.5 credits. Dissertation students are advised to ask their graduate department about enrollment information.

Semester enrollment and additional resources must be considered when determining eligibility for the Federal Unsubsidized Direct Loan, PLUS Loan and Work-Study programs. Most financial aid awards are based originally on the assumption that students will enroll full time, which requires 9 or more credits per academic term for graduate students. Thus, if students change their status from full- to part-time enrollment, an aid adjustment may result. Note that this can occur after a semester refund is sent out to the student. If a student withdraws from Temple University, an aid adjustment may also result. See the Conditions of Award section of the Policies page of the SFS website.

All resources, including scholarships, stipends, fellowships and the like, impact federal financial aid eligibility. Adjustments can be made throughout the aid year in the Fall, Spring and Summer terms.

Graduate students should contact the Office of Student Financial Services to confirm their enrollment, i.e., credit registration, each semester they do not enroll full time for 9 or more credits.

## Student Health Insurance

All full-time graduate students have the opportunity to enroll in one of Temple University's health insurance plans. Teaching Assistants, Research Assistants, Academic Interns and Graduate Externs receive health insurance benefits. Fellowship recipients have similar options. For questions regarding the plans, please visit the Student Health Insurance Plan webpage presented by Temple University Human Resources.

## University Support

Temple University provides financial support that includes assistantships, internships, externships and fellowships. Assistantships, internships and externships are awarded through departments and non-academic units based on need and fit. Interested applicants should consult with advisors or department chairpersons about the application procedures relevant to a desired position, as defined herewith:

- **Teaching Assistant:** Student engages in lecturing, instructing and supervising academic activities in the classroom, laboratory, studio, theater, or recitation or tutorial section; providing academic support in a laboratory, studio or office; or working in another setting in which academic instruction takes place. Expressly excluded are teaching of elementary or secondary students as part of community service projects and teaching that is not for university credit or is otherwise non-academic in nature, such as for recreational purposes.
- **Research Assistant:** Student engages in archival, clinical, field, laboratory, library, museum or survey research or in another research activity supervised by a faculty member or researcher on a sponsored project. Completion of the "RA Individual Declaration of Academic Benefit" form, found under Student Tools on TUportal within "University Forms" at bottom center, is required for the term of the award.
- **Academic Intern:** Student engages in academic, performance and professional activities that are central parts of the instructional program and directly related to the student's degree program (e.g., clinical practice, musical or theatrical production), but cannot be classified as either research or teaching. The activities must be

directly supervised by a faculty member/preceptor in the student's school or college.

- **Graduate Extern:** Student provides service that may entail academic and professional experience or development, although the activities are not directly supervised by a faculty member/preceptor in the student's degree program.

## Assistantships

Teaching Assistantships require the performance of instructional activity. Importantly, all graduate students who are assigned instructional responsibilities, where the language of instruction is English, must be certified as competent in spoken English. Consult your school or college dean's office for information on the SPEAK test process. As an alternative to teaching, Research Assistantships allow students to pursue research under the direction of a faculty member.

Assistantships, whether teaching or research, include both a stipend and tuition. To be considered for a Teaching or Research Assistantship, a student must have achieved a GPA of 3.25 or higher. In addition, the minimum GPA of 3.25 must be maintained throughout the duration of the assistantship.

## Internships and Externships

Temple University offers a variety of Academic Internships and Graduate Externships to a limited number of graduate students. Academic and administrative departments determine the selection process for these awards. To be considered for an internship or externship, a student must have achieved a GPA of 3.25 or higher. In addition, the minimum GPA of 3.25 must be maintained throughout the duration of the internship or externship.

Interested students should consult the department/program of their choice for specific details. Internships include support in the form of a stipend and tuition. Externships provide a stipend. Recipients of these awards are required to perform up to 20 hours of service per week.

## University-Wide Fellowships

Temple University offers a limited number of fellowships to support outstanding students in doctoral or Master of Fine Arts degree programs. Self-nomination is not permitted. Nominations for fellowships are submitted on one of the fellowship nomination forms by the department/program only. Competition for fellowship awards occurs annually in the month of February. Specific deadlines are found on the Graduate School calendar and on the forms.

Fellowships typically provide support, including a stipend and tuition, for four years, with shorter terms for those enrolled in a Master of Fine Arts degree program. The fellowship recipient is typically supported for two years with no service required or permitted. For the other two years, fellowship recipients are required to perform up to 20 hours of service per week as a Teaching Assistant or Research Assistant. Competition is for two classifications of fellowship:

- Presidential Fellowships are the most prestigious awards. Competition is reserved for only the most outstanding candidates.
- University Fellowships are awarded to outstanding incoming graduate students. These awards are intended to support students who demonstrate outstanding potential for success in their chosen fields.

To be considered as a nominee for a fellowship, applicants are urged to submit materials to the program of application by December 15.

## University Grants

Two highly competitive awards are designed to accelerate the degree completion process by offering significant financial support to promising students. These nonrenewable awards are intended to allow students to devote full-time work to completion of their final dissertation or creative project without the obstacle of additional employment. When application is made, applicants must acknowledge that, if selected as an award recipient, they become ineligible during both the period of award and beyond for any other funding from Temple University, including as a Teaching Assistant, Research Assistant, Academic Intern, Graduate Extern, student worker, adjunct faculty or non-tenure track faculty. Students apply in October for a Spring award or in March for a Summer or Fall award, if funding is available.

The application process requires a student application and a departmental nomination form as part of the submission packet. Access the forms by visiting TUportal. Click on the Tools tab and then scroll to the "University Forms" channel at bottom center.

## Doctoral Dissertation Completion Grant

Eligible students must be elevated to candidacy with the expectation of completing and defending their dissertation in the semester of application. Awardees of the Doctoral Dissertation Completion Grant receive a stipend, single coverage health insurance, and one credit of tuition remission.

## Master of Fine Arts Project Completion Grant

Eligible Master of Fine Arts students must be in the final semester of their program and complete the required project in the semester of application. Awardees of the Master of Fine Arts Project Completion Grant receive a stipend, single coverage health insurance, and one credit of tuition remission.

## First Summers Research Initiative and Other Summer Grants

The First Summers Research Initiative (FSRI) is a competition for summer research awards for domestic research doctoral students at Temple University who are traditionally underrepresented in their field of study. The purpose of these awards is to provide eligible students with funding to encourage their pursuit of research activity in the first, second and/or third summers of their graduate studies. The FSRI award is valued at \$6,000, if funding is available. Applicants can apply each summer until they achieve candidacy, although preference is given to first-time applicants.

Applicants for the FSRI award must meet the follow criteria:

1. Enrollment in a PhD program at Temple University in which the student is considered underrepresented in their field of study (i.e., as an ethnic minority), as determined by both National Science Foundation data and Temple demographics
2. U.S. citizenship
3. A minimum GPA of 3.5 at the time of the award
4. A formalized mentorship for the summer research experience with a faculty member at Temple University

5. Submission of a detailed plan for the mentored summer research experience prepared by the applicant and their faculty mentor, along with a cover letter from the mentor

The following criteria disqualify an applicant from garnering the award:

1. Receipt of financial aid from Temple University in the form of fellowship, assistantship, internship, or externship or employment as a student worker during the summer award period
2. Enrollment in coursework other than directed or independent research/study during the summer award period

FSRI and other summer grants are limited to students who have an academic year assistantship that does not include summer funding. Again, FSRI grants are limited to domestic research doctoral students who are traditionally underrepresented in their field of study. Other summer grants are open to research doctoral and Master of Fine Arts students whose assistantship does not otherwise include summer support.

# Graduate Student Services

---

Numerous resources are available to graduate students at Temple University to enhance their educational and personal experiences. Chief among these are:

- Career Center
- Disability Resources and Services
- Military and Veteran Services Center
- Student Health and Wellness
- Student Success Center

## Career Center

<https://careercenter.temple.edu/>  
 220 Mitten Hall  
 1913 N. Broad Street  
 Philadelphia, PA 19122  
[careercenter@temple.edu](mailto:careercenter@temple.edu)  
 215-204-7981

Open Monday–Friday, 8:30 a.m.–5:00 p.m.

The Career Center at Temple University is a central resource that empowers students and alumni through comprehensive career development services. Every Temple graduate student can own their future through both in-person and online career services. Expert advice on preparing a resume, writing a cover letter, and networking is available. Graduate students can also meet with career coaches to receive the tools and guidance to explore their career options, build their professional brand, gain experience, and make their path for lifelong career success.

## Disability Resources and Services

<https://disabilityresources.temple.edu/>  
 Howard Gittis Student Center South  
 1755 N. 13th Street, Room 420  
 Philadelphia, PA 19122  
[drs@temple.edu](mailto:drs@temple.edu)  
 215-204-1280  
 Fax: 215-204-6794

Open Monday–Friday, 8:30 a.m.–5:00p.m.

Appointments should be made in advance with a staff member.

Temple University is committed to the full inclusion of students with a disability in all programs and services. The goal is to build a learning community wherein people with diverse abilities are valued and included in all facets of life at the University.

Disability Resources and Services (DRS), a free and confidential service, facilitates access and accommodations on an individualized basis and provides opportunities for students with a disability to grow and develop. Students who connect with DRS include those with physical, visual, hearing and speech disabilities; health, mental health and autism spectrum conditions; attention deficits; brain injuries; and learning disabilities. Many student veterans, student athletes, honors students and international students who have a disability connect with DRS.

Dedicated, knowledgeable DRS staff meet with graduate students to determine eligibility for accommodations and discuss strategies for educational success. DRS develops programs and workshops to support student retention and provides training and awareness about access and inclusion to the entire University community.

All graduate students in need of such services should contact DRS on Main Campus to register, although services are available at all Temple University campuses. Each campus has an identified DRS liaison to aid the graduate student in accessing these services:

- Academic accommodations, including:
  - Alternate format materials
  - Note-taking support
  - Sign language interpreters and CART services
  - Testing accommodations
- Accessible housing
- Assistive technology
- Career development
- Intake assessment
- Mentoring and leadership development opportunities
- Scholarships

## Military and Veteran Services Center

<https://veterans.temple.edu/>  
 601 Conwell Hall  
 1801 N. Broad Street  
 Philadelphia, PA 19122  
[mjsc@temple.edu](mailto:mjsc@temple.edu)  
 215-204-8387

A *covered individual* is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits.

Newly admitted or currently enrolled students seeking to use their veteran education benefits toward tuition and fees for the first time should begin by contacting the VA at 1-888-442-4551 or visit VA.GOV for eligibility information.

Prior to enrolling at Temple University, students using Tuition Assistance should discuss the educational plan with their Educational Services Officer (ESO) or the counselor within the military service.

The Military and Veteran Services Center (MVSC) serves as a centralized resource for prospective and currently enrolled military-affiliated students seeking guidance and assistance regarding admissions to Temple, GI Bill® benefits, Temple's certification process, access to support services, and event coordination. Additionally, the shared physical space serves as a dedicated space for student-veterans.

The primary mission of the Military and Veterans Services Center is to provide, facilitate or coordinate programs, events and services for military-affiliated students. Military-affiliated students are defined as student veterans, military service members and their family members (spouse and/or child).

## Priority Registration (PA Act 46)

Pennsylvania Act 46 of 2014 requires public institutions of higher education in Pennsylvania to provide veteran students, as defined in the Act, with preference in course scheduling. Active duty US

servicemembers and veterans are eligible to register on the first day of priority registration, regardless of the number of earned credits.

Non-compliance may be reported to the Pennsylvania Department of Education by submitting the Higher Education Student Complaint form found at [www.education.pa.gov](http://www.education.pa.gov).

Eligible students will receive an email with their priority registration date, time and a special registration PIN. Eligible students who are on Academic Warning or Probation must meet with an academic advisor prior to registration to have the PIN updated to allow registration on the first day of priority registration.

## Residency Status (PA Act 11)

Pennsylvania Act 11 mandates Temple University to charge the in-state tuition rate to out-of-state students living in Pennsylvania and using their GI Bill® benefits under chapters 30, 31, 33, 35 and sections 1606 and 1607. Eligible students will have their student account adjusted to reflect the in-state tuition rate. Temple will also review the financial aid package and make any necessary adjustments based on the in-state tuition rate.

**Note: GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government web site at <https://www.benefits.va.gov/gibill/>.**

## Veteran Education Benefit Certification Process

Servicemembers or veterans may enroll as full-time or part-time students; however, education benefits are based on enrollment status. For newly admitted students or first-time using education benefits, please follow these steps to declare benefit use via GIBenefits in TUportal:

1. Obtain the Certificate of Eligibility or eBenefits summary (one-time only).
2. Access GIBenefits in TUportal.
3. Submit Servicemember/Dependent information (one-time only).
4. Register for courses.
5. Declare to use your benefits for the registered term.
6. Upload your certificate of eligibility or eBenefits information (one-time only).

For students receiving Chapter 31/Vocational Rehabilitation benefits, Form VA-1905 will be sent to the Office of the University Registrar by the VA counselor in lieu of Certificate of Eligibility.

Information regarding additional services available for servicemembers and veterans can be found on the Military and Veteran Services Center website.

## Student Health and Wellness

### Student Health Fee

As part of the University Services Fee, all students are charged each term during the academic year to help subsidize the basic diagnostic and treatment services provided by healthcare providers at two campuses. Some services are not covered by the Student Health Fee, including, for example, dispensed medications, orthopedic supplies and immunizations. Extensive laboratory testing is available at Main Campus, but only office laboratory tests are performed at the Health Sciences Center campus.

215-204-7391

### Main

*Open* Monday–Tuesday, 8:30 a.m.–5:00 p.m.; Wednesday, 10:00 a.m.–5:00 p.m.; Thursday, 8:30 a.m.–5:00 p.m.; Friday, 8:00 a.m.–5:00 p.m.; Saturday, 10:00 a.m.–2:00 p.m.

*Closed* Sunday and daily between 11:15 a.m. and 12:15 p.m.

### HSC

*Open* Monday–Tuesday, 8:00 a.m.–4:30 p.m.; Wednesday, 10:00 a.m.–4:30 p.m.; Thursday–Friday, 8:00 a.m.–4:30 p.m.

*Closed* Saturday, Sunday and daily between 11:15 a.m. and 12:15 p.m.

Student Health Services strives to promote a high standard of health among all Temple University students through programs in preventive medicine and health education, in addition to diagnosis and treatment of injury and illness. Care providers include doctors, nurse practitioners and nurses. Services offered at the Main and Health Sciences Center campuses include basic medical care, an immunization/allergy injection clinic, family planning services, and a self-care center. Other services offered on Main Campus include nutritional consultation and HIV testing.

## Tuttleman Counseling Services

<https://counseling.temple.edu/>

1700 N. Broad Street, Second Floor

Philadelphia, PA 19121

215-204-7276

Open Monday–Friday, 8:00 a.m.–5:00 p.m.

Appointments are required except in emergency situations when immediate care is required.

Tuttleman Counseling Services (TCS) is a comprehensive provider of mental health services to Temple's student population. Services are free and confidential for all registered students. Our mission is to support and enhance the psychological functioning of our students and thereby support the academic mission of the University. It is recognized that our students are dealing with a variety of major life issues as they pursue their education, including affiliation, career choices, identity formation, relationships, and separation and individuation. In addition, some students come to us with prior mental health histories and medication needs.

TCS is first and foremost a provider of individual and group counseling services, although couple and family counseling are available at the student's request. This foundation provides students with support and guidance for a wide variety of problems, from adjustment issues and transitory difficulties to more serious psychological problems and even severe mental illness. Whenever possible, we seek to help students

avoid or reduce self-harm that may stem from making poor choices. TCS provides services in the following areas:

- Individual Therapy: <https://counseling.temple.edu/individual>
- Psychiatric Services: <https://counseling.temple.edu/psychiatric-services>
- Resiliency Resource Center: <https://counseling.temple.edu/resiliency-resource-center>

TCS also has specialized counselors who provide comprehensive services to students concerned with alcohol/substance use and/or other addictive behaviors; engage in crisis intervention, case management, counseling and advocacy work for Temple students who have experienced sexual assault, partner violence, childhood sexual abuse, sexual harassment and/or stalking; and offer specialized experience and interest in treating disordered eating and body image concern.

## Wellness Resource Center

<https://wellness.temple.edu/>  
201 Howard Gittis Student Center  
1755 N. 13th Street  
Philadelphia, PA 19122  
TUWellness@temple.edu  
215-204-8436

Open Monday–Friday, 8:30 a.m.–5:00 p.m.

The Wellness Resource Center is the on-campus health education and prevention office. Staffed by master's- and doctoral-level health professionals and supported by peer health educators, the Wellness Resource Center is committed to providing comprehensive wellness resources and services that empower Temple University students to make informed, healthier choices and achieve academic success. Center staff also work with faculty, staff and departments in training and consultation capacities to support them in addressing student health needs and concerns. The Wellness Resource Center's multifaceted model helps to create a collective consciousness of wellness on Temple's campus with the hope of producing students who are not only well-educated but also healthy. Training, consultation and programs on a variety of topics are offered, including alcohol and sex; alcohol and substance abuse; body image and nutrition; diversity; healthy relationships; HIV; LGBTQIA+; mental health; safer sex; self-esteem; sexual assault, rape and dating violence; sexuality: orientation, gender and identity; sexually transmitted infections; and stress/time management.

The Wellness Resource Center provides a safe space for students to receive free, anonymous or confidential health information in a supportive environment. Students are engaged in a variety of ways, including campus-wide wellness events, condom sales, course instruction, health programming, health-related referrals, HIV testing, individual health education sessions, peer education, and promotion of a healthier campus environment.

The Wellness Resource Center also offers students opportunities to get involved as peer educators and interns. These students receive comprehensive wellness training, preparing them to support campus-wide health and wellness initiatives. Students can receive academic credit for their work with the Wellness Resource Center. A limited number of paid positions are available to students who successfully complete SBS 2304 HEART Peer Educator Training (3 s.h.).

## Student Success Center

<https://studentsuccess.temple.edu/>  
230 Charles Library  
1900 N. 13th Street  
Philadelphia, PA 19122  
ssc@temple.edu  
215-204-0702

Open Monday–Thursday, 8:30 a.m.–8:30p.m.; Friday, 8:30 a.m.–4:30p.m.; Saturday, 10:00 a.m.–4:00 p.m.

The Student Success Center (SSC) offers a suite of services that are designed to meet the particular needs of graduate students. These services include both writing and research retreats, as well as writing and research groups, which provide support for students working on dissertations and theses. Also offered is the PhD Colloquium, a semester-long workshop focusing on writing articles for publication.

Graduate students may also utilize the following services and programs:

**Academic Coaching** is an appointment-based service that helps students develop effective learning habits and strategies, including skills related to studying, test taking, time management and more. Academic coaches meet one-on-one with students to help them hone specific skills related to the students' individual academic goals.

**Language Tutoring** provides assistance that aids students in achieving fluency in more than one language. This program gives students who are learning English an opportunity to meet one-on-one with a proficient speaker who can help them practice listening, speaking and reading comprehension, and who serves as a mentor related to issues of intercultural communication.

**The Writing Center** offers tutoring services that help graduate students develop as writers. Writing tutors work collaboratively with students on many aspects of their writing, including organization, argument, editing sentences for clarity and grammar, incorporating outside sources, and citation.

The SSC maintains an interactive website. Students can use the website to access online tutoring, to make appointments for services, and to access academic support resources, including videos and downloadable handouts.

## Tyler School of Art and Architecture

Tyler School of Art and Architecture has a preeminent reputation among institutions of higher education chiefly as a result of the collective record of achievement produced by its graduates. Tyler graduate programs are intended for students whose work has achieved strong definition and who seek continued growth and education in their discipline. Internationally recognized graduate faculty bring a reputation for excellence in academic research, studio practice and teaching with a broad range of attitudes and philosophic positions. The educational atmosphere at Tyler is characterized by a system of mentorship that encourages diversity, respect for individual direction, and a rigorous exchange of ideas and creative challenges.

The philosophy on which Tyler School of Art and Architecture was founded has contributed to the school's success. Since 1935, Tyler has grown from a small art school in suburban Elkins Park, PA, to encompass a wide range of programs on the Main Campus of Temple University. Stella Elkins Tyler, the donor of the estate on which the art school was founded, had a keen interest in progressive education and a deep appreciation for her mentor: Boris Blai, sculptor, who was appointed the founding dean of the school. It was her expressed wish that the estate become an environment for the advancement of the fine arts, scholarly study in the arts, and individual creativity.

In 2016, the Departments of Landscape Architecture and Horticulture and of Planning and Community Development, which previously resided in the School of Environmental Design, were merged with Tyler's Department of Architecture to form a Division of Architecture and Environmental Design. In 2019, the division was reorganized as the Department of Architecture and Environmental Design:

- The department offers the Master of Architecture, a first professional degree program at the graduate level accredited by the National Architecture Accrediting Board. The programs in architecture engage the city, exploring and addressing the ethical, ecological and social dimensions of architecture and the urban environment, with the mission of preparing leaders in architectural practice.
- With regard to landscape architecture and horticulture, the department can trace its origins to the Pennsylvania School of Horticulture for Women, founded in 1911 at Ambler Campus. The Master of Landscape Architecture (MLArch) degree has been offered since Fall 2010. Through an ecological approach to planning, design, development and care of the land, the programs in landscape architecture and horticulture promote the development of skills to improve the quality of urban, suburban and rural communities.
- In the field of planning and community development, students are prepared to be skilled practitioners for the dynamic and growing fields of community development and community and regional planning. Accredited by the Planning Accreditation Board, the Master of Science in City and Regional Planning enables students to lead efforts to create and maintain healthy, sustainable communities by providing a broad-based understanding and awareness of multi-dimensional aspects of urban, suburban and rural community challenges and the means of effecting change from both grass-roots and public policy perspectives.

On July 1, 2019, the school officially adopted the Tyler School of Art and Architecture as its name and was reorganized into six departments:

- Department of Architecture and Environmental Design
- Department of Art
- Department of Art Education and Community Arts Practices
- Department of Art History
- Department of Foundations
- Department of Graphic and Interactive Design

Tyler School of Art and Architecture constitutes a major facet in a comprehensive set of arts and architecture programs at Temple University. The mission is to educate, motivate and inspire individuals who enter society as artists, architects, art historians, designers and educators with the highest aspirations for achievement, producing innovative work that is publicly presented and critically considered. The school's location in the Northeast Corridor not only makes the extensive art collections and institutions of Philadelphia, New York City, and Washington, D.C. easily accessible, but also allows for opportunities to complement Tyler's faculty with an extensive program of visiting artists, critics and scholars drawn from these cultural centers.

A Tyler education distinguishes its students as individuals who are well prepared for the unprecedented opportunities available today in the fields of architecture, art and design.

## Graduate Programs and Certificates

- Architecture MArch (p. 39)
- Architecture MS (p. 43)
- Art Education MEd (p. 46)
- Art History MA (p. 48)
- Art History PhD (p. 51)
- Ceramics MFA (p. 54)
- City and Regional Planning MS (p. 56)
- Facilities Planning MS (p. 59)
- Fibers and Materials Studies MFA (p. 61)
- Glass MFA (p. 63)
- Graphic and Interactive Design MFA (p. 65)
- Landscape Architecture MLArch (p. 66)
- Metals/Jewelry/CAD-CAM MFA (p. 70)
- Painting MFA (p. 71)
- Photography MFA (p. 73)
- Printmaking MFA (p. 75)
- Sculpture MFA (p. 77)
- Graduate Certificate: Community Arts Practices (p. 78)
- Graduate Certificate: Health Facilities Planning (p. 78)
- Graduate Certificate: Sustainable Community Planning (p. 79)
- Graduate Certificate: Transportation Planning (p. 80)
- Post-Master's Certificate: Teaching Art Education (p. 81)

## Graduate Faculty

*Mariola Alvarez*, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of California.

*Philip P. Betancourt*, Professor Emeritus, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

*Gerard F. Brown*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MA, School of the Art Institute of Chicago.

*Douglas J. Bucci*, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

*Susan E. Cahan*, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Graduate Center, City University of New York.

*Tracy E. Cooper*, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Princeton University.

*Chad D. Curtis*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Alfred University, New York State College of Ceramics.

*Therese A. Dolan*, Professor Emerita, Department of Art History, Tyler School of Art and Architecture; PhD, Bryn Mawr College.

*Müge Durusu-Tanrıöver*, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Brown University.

*Sasha Eisenman*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Rutgers University.

*Amze J. Emmons*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, University of Washington.

*Jane DeRose Evans*, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

*Clifton R. Fordham*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Yale University.

*Mark T. Gibson*, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Yale University.

*Philip Glahn*, Associate Professor, Department of Art, Tyler School of Art and Architecture; PhD, City University of New York.

*Abby Ryan Guido*, Assistant Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MBA, Temple University.

*Marcia B. Hall*, Laura H. Carnell Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Harvard University.

*Sally W. Harrison*, Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Massachusetts Institute of Technology.

*Jesse Harrod*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, School of the Art Institute of Chicago.

*Nathan Heavers*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

*David Herman Jr.*, Assistant Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; PhD, University of North Texas.

*Kelly A. Holohan*, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Temple University.

*Richard D. Hricko*, Professor Emeritus, Department of Art, Tyler School of Art and Architecture; MFA, University of Iowa.

*Pauline Hurley-Kurtz*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

*Renee E. Jackson*, Assistant Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; PhD, Concordia University.

*Gabriel Kaprielian*, Assistant Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, University of California Berkeley.

*Lisa Kay*, Associate Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; EdD, Northern Illinois University.

*Nichola Kinch*, Associate Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, Temple University.

*Robert T. Kuper*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, Auburn University.

*Baldev S. Lamba*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

*Scott R. Laserow*, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, Temple University.

*Roberto Lugo*, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, The Pennsylvania State University.

*Dermot MacCormack*, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, National College of Art and Design, Dublin.

*Lynn A. Mandarano*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

*Pablo Meninato*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Universidade Federal do Rio Grande do Sul.

*Rebecca Michaels*, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

*Leah Modigliani*, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, State University of New York at Stony Brook.

*Dona R. Nelson*, Professor, Department of Art, Tyler School of Art and Architecture; BFA, The Ohio State University.

*Jeffrey Nesbit*, Assistant Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; DDes, Harvard University, Graduate School of Design.

*Emily Neumeier*, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

*Rachel Grace Newman*, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Stanford University.

*Sharyn A. O'Mara*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Rhode Island School of Design.

*Odili Donald Odita*, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Bennington College.

*Karyn Olivier*, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Cranbrook Academy of Art.

*Michael Olszewski*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of Delaware.

*Pepón Osorio*, Laura H. Carnell Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; MA, Columbia University.

*Alpesh Patel*, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Manchester.

*Erin Pauwels*, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Indiana University, Bloomington.

*Bryan Martin Satalino*, Associate Professor of Instruction, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Temple University.

*Paul E. Sheriff*, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, Temple University.

*Mark Shetabi*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Pennsylvania Academy of the Fine Arts.

*Robert Z. Shuman Jr.*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; BArch, Temple University.

*Gerald D. Silk*, Professor Emeritus, Department of Art History, Tyler School of Art and Architecture; PhD, University of Virginia.

*Samantha Simpson*, Associate Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, San Francisco Art Institute.

*Hester Stinnett*, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

*Alexandra Strada*, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Columbia University.

*Kim D. Strommen*, Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, Washington University.

*Lolly Tai*, Professor Emerita, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Heriot-Watt University, Edinburgh College of Art.

*Christian Tomaszewski*, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Academy of Fine Arts in Poznan, Poland.

*Ulysses Sean Vance III*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, North Carolina State University.

*Jessica Vaughn*, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, University of Pennsylvania.

*Ashley West*, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

*M. Katherine Wingert-Playdon*, Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MS, The Pennsylvania State University.

*Andrew Wit*, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Massachusetts Institute of Technology.

*Byron Wolfe*, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Arizona State University.

*William Yalowitz*, Associate Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; EdD, Temple University.

## Architecture MArch

### TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Architecture.

### About the Program

The Master of Architecture (MArch) program is a first professional degree preparing students for the practice of architecture through a rigorous course of study that engages students with urgent urban, architectural, environmental and sociocultural issues. The curriculum is centered on design studios that require the synthesis and application of knowledge from other coursework. Seminars in building technology, history/theory, professional practice and research address questions in tandem with design studios. Elective courses allow students to pursue specializations with focus and intent. Together, the architecture courses satisfy professional accreditation requirements. During the final year of study, students have the opportunity to pursue a self-directed research and design thesis. The Department of Architecture and Environmental Design offers three tracks for the MArch: a 1-year, 2-year, or 3-year program depending on a student's educational background upon entry to the degree.

- The 1-year track is a +1 accelerated undergraduate-graduate program that enables eligible students to complete the 60-credit MArch degree within 15 months after receiving Temple's Bachelor of Science in Architecture (BSArch) pre-professional degree. Eligible undergraduate students use up to 12 specified graduate credits to fulfill requirements for their undergraduate degree. Upon graduation from their undergraduate program, students move seamlessly into their graduate program. At the end of the contiguous fifth year, students receive a Master of Architecture degree. To be eligible for the program, students must be declared as an Architecture major; have a minimum of 3.25 cumulative GPA in at least 45 credits of coursework taken at Temple; be able to complete their undergraduate degree in four full-time terms (beginning with their first term taking a graduate course as an undergraduate); and be able to complete the graduate degree in one additional year, including the two summer terms of graduate coursework.
- The 2-year track is a 60-credit degree program for students who earn Temple University's Bachelor of Science in Architecture (BSArch) degree and for students from other four-year pre-professional degree programs with equivalent course content.

- The 3-year track provides a curriculum of up to 90 credits for students without a pre-professional degree in architecture. The first year of this program provides a rigorous introduction to architectural design that consists of up to 30 credits of pre-professional studies, including building technology courses, design studios, and history and theory seminars. Each student's prior academic record is evaluated to determine program and course placement. The number of credits students need to take varies depending on the amount of pre-professional architectural course content previously satisfied by the candidate. Students who have little or no architectural content at the undergraduate level are required to take the full 30 credits of pre-professional studies in architecture. Students who have degrees in architectural studies may receive advanced standing within the 3-year track.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The curriculum is designed for a full-time load of 15 credits per term. Students are, however, able to complete the degree program on a part-time basis.

**Study Abroad:** MArch students in the Professional Track may choose to study at the TU Rome or TU Japan campuses in the Spring terms. Other study abroad exchange programs may allow students to study in the Fall.

**Accreditation:** The MArch degree program is accredited by the National Architectural Accrediting Board (NAAB), which requires publication of the following statement:

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year term, an eight-year term with conditions, or a two-year term of continuing accreditation, or a three-year term of initial accreditation, depending on the extent of its conformance with established education standards. Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Temple University's Department of Architecture and Environmental Design offers the following NAAB-accredited degree programs:

- MArch (BSArch pre-professional degree + 60 graduate credits)
- MArch (baccalaureate degree + up to 90 graduate credits)

The latest accreditation visit for all programs was in 2022.

For more information on NAAB accreditation and reporting requirements, please visit Tyler's NAAB Professional Program Information page.

**Job Prospects:** The Master of Architecture is an accredited professional degree program that prepares students for a career as a professional architect. Because this is an urban program located centrally in Philadelphia, engagement with the local professional community is a primary characteristic of the program. During their time in the program,

students are provided with many opportunities to engage with members of the profession through design critiques and mentorship initiatives.

**Licensure/Certification:** Licensure from a U.S. jurisdiction is required to practice Architecture in the United States. Licensure for architects is state regulated and must be obtained through achievement of three necessary components: (a) education, (b) professional practice experience, and (c) examination requirements. All states require the Architect Registration Examination® (ARE®). In addition, a majority of states require a degree that is accredited by the National Architectural Accrediting Board (NAAB) and the Architectural Experience Program® (AXP®), which is administered by the National Council of Architectural Registration Boards (NCARB).

Temple University's Master of Architecture is accredited by NAAB. NAAB-accredited degrees meet the education requirement for registration with all 55 U.S. licensing boards which, along with obtaining the necessary and documented experience of the AXP® and passing the ARE®, qualifies a candidate for licensure.

Although required in 38 jurisdictions, graduating from a NAAB-accredited program is not required in all states. States that allow an alternative educational path for licensure typically require a longer period of professional experience and/or a preliminary examination prior to taking the ARE®. Candidates who have obtained a NAAB-accredited professional degree typically complete their licensure requirements in a shorter time frame and constitute, by far, the majority of successful candidates in the United States. The following jurisdictions require a professional degree from a NAAB-accredited program: Alabama, Alaska, Arkansas, Connecticut (some conditions apply), Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oregon, Rhode Island, South Carolina, South Dakota, Texas, Utah, Virginia, West Virginia, Wyoming, as well as Puerto Rico, the Virgin Islands, and Washington, D.C.

Temple University's Master of Architecture program also prepares students for the AXP®, which students can begin while enrolled in Temple University's undergraduate and graduate architecture programs. The process connects students with NCARB representatives and is overseen by a faculty mentor. Successful completion of both the NAAB degree and the AXP® is required to qualify for the licensing exam in most states and territories. Additional hours or years of experience may be required beyond the AXP®.

Additional requirements (such as exams, questionnaires or specialized training) may be required depending on the state in which one intends to become licensed. For more information, visit <https://www.ncarb.org/get-licensed/licensing-requirements-tool>.

**Non-Matriculated Student Policy:** Non-matriculated students must contact the Department of Architecture and Environmental Design for information. A maximum of 9 graduate credits can be taken at Temple University prior to applying to the program.

**Financing Opportunities:** The Department of Architecture and Environmental Design has a limited number of scholarships for graduate students. Students should also check the Tyler School of Art and Architecture and Student Financial Services websites for financial aid opportunities. Students should complete a FAFSA application to determine eligibility for student financial aid, work study employment

within the Department of Architecture and Environmental Design, or other eligible on-campus jobs.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

*Spring:* November 1

Applications are reviewed as they are received after the deadline. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis.

Students are normally admitted in the Fall term. In the instance when students are admitted in the Spring, they may have limited course offerings in the first term because course sequencing begins in the Fall. See the Tyler School of Art and Architecture website for the most up-to-date application information.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and/or professionals in the field who are familiar with the applicant's academic and professional competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** The MArch program has three tracks:

1. a +1 accelerated track,
2. a two-year 60-credit track, and
3. a three-year track, up to 90 credits.

The +1 accelerated track is open to qualified students in the Temple BSArch program. Admission into the two-year track is open only to students who have completed a pre-professional degree in Architecture, i.e., either the Temple BS in Architecture program or a program with course content equivalent to the current Temple University BS in Architecture. Admission into the three-year track is open to any student who has completed a bachelor's degree.

All applicants apply directly to the MArch program, not to a specific curricular track. Admitted students are placed in the appropriate track based on a thorough review of all application materials.

**Bachelor's Degree in Discipline/Related Discipline:** A pre-professional baccalaureate degree in Architecture (or equivalent) is required for the two-year Professional Track. A baccalaureate degree in any discipline is required for the three-year Intensive Design Track. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your reason for pursuing a degree in Architecture, your interest in Temple's program in particular, and your aspirations and future career goals.

### Standardized Test Scores:

GRE: Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MArch in Architecture degree program. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** All applicants must submit a portfolio of their most important and representative design, creative and written work. Portfolios from students with prior academic experience in Architecture should include architectural design work done in academic settings. Portfolios may also include work in the visual arts or in visual communication. In addition, work completed in practice may be included but should clearly articulate the applicant's role in the project. Papers, research or other materials (preferably dealing with the built environment) are invited as evidence of scholarly, academic or creative work. Work chosen for inclusion in a portfolio should best represent the applicant's knowledge, aptitudes, interests, creative ability and experience relative to the discipline of Architecture. The portfolio should include approximately 20 images or other items.

Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed on the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** The Architecture Admissions Committee recommends the awarding of graduate transfer credits on a case-by-case basis as applications are reviewed. The maximum number of graduate transfer credits a student may receive is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 60 for the Professional Track; up to 90 for the Intensive Design Track

*Required Courses:*

### Professional Track <sup>1,2</sup>

Year 1		Credit Hours
Fall		
ARCH 5252	Str Des for Architects 1	3
ARCH 5351	Env Control Systems 1	3
ARCH 8011	Advanced Architecture Design Studio 1	6

ARCH 8131	Arch Research Seminar 1	3
<b>Credit Hours</b>		<b>15</b>
<b>Spring</b>		
ARCH 5253	Str Des for Architects 2	3
ARCH 8013	Comprehensive Architecture Design Studio	6
ARCH 8352	Environmental Control Systems 2	3
Select one from the following: <sup>3</sup>		3
ARCH 8132	Arch Research Seminar 2	
ARCH 8133	Arch Research Seminar 3	
<b>Credit Hours</b>		<b>15</b>
<b>Year 2</b>		
<b>Fall</b>		
ARCH 8012	Elect Arch Des Studio	6
ARCH 9991	Directed Research ((OR ARCH Elective))	3
ARCH Elective		3
Free Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Spring</b>		
ARCH 8012	Elect Arch Des Studio	6
or	or Architecture Design Thesis	
ARCH 9991		
ARCH 8096	Professional Practice	3
ARCH Elective		3
Free Elective		3
<b>Credit Hours</b>		<b>15</b>
<b>Total Credit Hours</b>		<b>60</b>

1

ROME, TOKYO, and STUDY ABROAD OPTION: MArch students in the Professional Track may elect to study abroad in the Spring term at the Temple Rome or Temple Japan campus. Some study abroad exchange programs allow students to study in the Fall semester.

2

Studio course credits count toward ARCH 8012. Architecture seminar course credits count toward Architecture elective requirements. Other coursework counts toward free elective credits in the program. Consult with your faculty and academic advisor.

3

ARCH 8132 and ARCH 8133 are typically offered during the Fall and Spring terms. Consult with your faculty and academic advisor.

## Intensive Design Track

Up to 30 credits are taken in Year 1, with the actual number varying according to the amount of architecture pre-professional course content previously satisfied by the student. Students are required to keep a portfolio of coursework taken in Year 1. Upon successful completion of Year 1, students undergo a portfolio review prior to entering the 2-year Professional Track. Courses for the Intensive Design Track include:

Code	Title	Credit Hours
<b>Core Courses</b>		
ARCH 5011	Graduate Representation Intensive 1	3
ARCH 5012	Graduate Representation Intensive 2	3
ARCH 5122	Graduate Design Foundation Intensive <sup>1</sup>	6

ARCH 5231	Graduate Design Studio 1	6
ARCH 5232	Graduate Design Studio 2	6
<b>Building Technology</b>		
ARCH 5152	Materials and Methods of Construction	3
ARCH 5251	Structural Analysis for Architects	3
<b>History and Theory<sup>2</sup></b>		
ARCH 5141	Architectural History 1: Ancient through Renaissance	3
ARCH 5142	Architectural History 2: Renaissance through 20th Century	3
ARCH 5296	Movements in Modern Architecture	3
ARCH 5596	Seminar in Architectural Theory	3
<b>Total Credit Hours</b>		<b>42</b>

1

ARCH 5122 is required of students who took fewer than 8 credits of foundation or architectural design studios as undergraduates.

2

The four courses (12 credits) identified include two courses (6 credits) that may be taken in Years 2 and 3 as architecture electives.

### Culminating Events:

#### *Design Studio Project:*

In the Intensive Design Track, students are required to take up to 18 credits of design studio and 6 credits of representation courses. Placement is assessed at the time of application and is based on the student's portfolio and transcript.

In the Professional Track, students are required to complete four design studios or three design studios and a thesis.

#### *Design Thesis:*

Students can undertake an independent design thesis. This option is a two-term, two-course sequence: ARCH 9991 in the Fall, and ARCH 9996 in the Spring. The result is a pre-design position paper and design project analysis, culminating in a design thesis project presentation and written/graphic documentation of the work.

# Architecture MS

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Science in Architecture.

## About the Program

The Master of Science in Architecture is a post-professional degree for those who have already earned a Bachelor of Architecture or a Master of Architecture professional degree. Offering the post-professional MS in Architecture provides an opportunity for prospective students to enhance professional skills and gain additional knowledge. While the professional degree programs in architecture focus on the design, technological and professional skills needed to practice architecture, the profession of architecture touches all areas and scales of the built environment. Architectural practices can specialize in such areas as education, healthcare, housing or residential design, preservation, tall buildings and infrastructure, and urban design, to name a few. Opportunities for practice also require different skill sets and advanced knowledge in business, design-build or digital technologies.

In addition to a general studies in architectural design track, the Architecture MS degree program offers three concentrations:

- The concentration in Advanced Technologies and Design broadens students' knowledge of digital and material technologies.
- The concentration in Health and Design expands students' knowledge of healthcare design.
- The concentration in Urban Ecologies and Design widens students' knowledge of design, sustainability and urban ecology.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** In addition to a general studies in architectural design track, students may choose a concentration in:

- Advanced Technologies and Design
- Health and Design
- Urban Ecologies and Design

**Job Prospects:** The post-professional Master of Science in Architecture offers working architects and those seeking advancement in the field the opportunity to build professional skills and design toolsets to elevate their practice competency. Graduates are also prepared to teach architectural design and to practice in other arenas such as government agencies.

**Non-Matriculated Student Policy:** Non-matriculated students must contact the Department of Architecture and Environmental Design for information. A maximum of 9 graduate credits can be taken at Temple University prior to applying to the program.

**Financing Opportunities:** The Department of Architecture and Environmental Design has a limited number of scholarships for graduate students. Students should also check the Tyler School of Art and Architecture and Student Financial Services websites for financial aid opportunities. Students should complete a FAFSA application to determine eligibility for student financial aid, work study employment within the Department of Architecture and Environmental Design, or other eligible on-campus jobs.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

*Spring:* November 1

Applications are reviewed as they are received after the deadline. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis.

Students are normally admitted in the Fall term. In the instance when students are admitted in the Spring, they may have limited course offerings in the first term because course sequencing begins in the Fall. See the Tyler School of Art and Architecture website for the most up-to-date application information.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and/or professionals in the field who are familiar with the applicant's academic and professional competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Master's Degree in Discipline/Related Discipline:** A Master of Architecture degree is applicable, but is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. Applicants are expected to hold a Bachelor of Architecture or a Master of Architecture degree. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, educational and research goals, future career goals, and academic and research achievements.

#### Standardized Test Scores:

GRE: Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MS in Architecture degree program. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** All applicants must submit work samples of their most important and representative academic and/or professional work. Work samples are to be submitted in portfolio format and must include architectural design projects and can include other creative work. Work samples from applicants who have been in a professional setting for a period of six years or more can include student work, but the applicant should instead emphasize work done in a professional setting and clearly articulate the applicant's role in the project. Papers, research or other materials (preferably dealing with the built environment) are invited as evidence of scholarly, academic or creative work. As much as possible, work samples should best represent the applicant's knowledge, aptitudes, interests, creative ability and experience relative to the program. As a guideline, the applicant should include approximately 20 images or other items.

Work samples are to be uploaded at <https://temple.slideroom.com>, as instructed on the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** The Architecture Admissions Committee recommends the awarding of graduate transfer credits on a case-by-case basis as applications are reviewed. The maximum number of graduate transfer credits a student may receive is 9.

## Program Requirements

#### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 30, whether or not a concentration is pursued

*Required Courses:*

## MS with No Area of Concentration

Code	Title	Credit Hours
<b>Architecture Research Seminar</b>		
Select one from the following:		3
ARCH 8131	Arch Research Seminar 1	
ARCH 8132	Arch Research Seminar 2	
ARCH 8133	Arch Research Seminar 3	
ARCH 8134	Architecture Research Seminar 4 - Urban Innovations: Technology, Environment and Health in Society	
<b>Current Topics Courses</b>

## **Art Education MEd**

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Education in Art Education.

## **About the Program**

The Master of Education (MEd) with a Major in Art Education at the Tyler School of Art and Architecture is a NASAD-accredited program with an option for students to pursue Pennsylvania certification in art, grades Kindergarten through 12. The program offers a pathway for K-12 teachers who want to hone a specialization in art or anyone who wants to add art teaching credentials.

The program gives students access to the resources of both a world-class art school and Temple University, a large public research university. Students develop their understanding of a broad range of art learners and expand their repertoire of teaching strategies. Grounded in both research and the studio, a Tyler MEd gives students the training needed to teach art at the K-12 level and cultivate arts practices beyond formal educational institutions.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs. The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students not only learn how to teach art and grow as artists, but they also learn how to effect positive change in the communities where they work.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** Students are encouraged to engage in in-depth study in a specific studio area.

**Job Prospects:** The program is primarily dedicated to producing well-trained art teachers.

**Licensure/Certification:** Teacher certification is the process used in the United States to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the *Praxis*® exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. See <https://www.education.pa.gov/Educators/Certification/BecomeAnEducator/Pages/ACPSpecialty.aspx>. Completion of Temple University's Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the *Praxis*® Core Academic Skills for Educators, *Praxis*® Subject Assessments, and *Praxis*® Fundamentals.

For certification in some states, students may need to take the *Praxis*® Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements,

classroom observations, and study of human development and pedagogy.

**Non-Matriculated Student Policy:** Only certain courses are available to non-matriculated graduate students. Please contact the Department of Art Education and Community Arts Practices for more information.

**Financing Opportunities:** In addition to federal student aid, graduate assistantships are available on a competitive basis to support Tyler MEd students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

*Spring:* November 1

All applications are evaluated together after deadline date. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty, art teachers or supervisors, and curators or gallery directors familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** Applicants must have an undergraduate degree, 40 undergraduate studio credits, and 9 art history credits.

**Bachelor's Degree in Discipline/Related Discipline:** A degree in Art or Art Education is required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program in particular, future career goals, and academic and artistic endeavors and achievements.

### Standardized Test Scores:

GRE: Scores should be in the 50th percentile or higher on the verbal and/or analytical sections. Students with concerns about scores should contact the Chair of the Department of Art Education and Community Arts Practices.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** Applicants must submit a portfolio that consists of 20 images representative of their range of experience and the immediate direction of their work. Include a variety of drawings. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the Art Education Program Director, the student's advisor, and the Associate Dean, up to 9 credits of graduate work completed at Temple University within a five-year period may be transferred into the program. Up to 6 credits of graduate coursework taken at other accredited institutions within the prior five years before matriculation may be considered for transfer into the program after the student has enrolled. No decisions are made until a student has successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 33, or 51 with Teaching Certification

### Required Courses:

Code	Title	Credit Hours
<b>Art Education or Education Component</b>		
ARTE 8001	Contemporary Issues in Art Education	3
ARTE 8002	History of Art Education	3
ARTE 8003	Art Education Research	3
	One additional course <sup>1</sup>	3
<b>Art History Component</b>		
	Select two courses from a range of graduate offerings (courses 5000-5580 or 8000-8570)	6
<b>Studio Art Component</b>		
	Select five studio courses <sup>2</sup>	15
<b>Total Credit Hours</b>		<b>33</b>

1

One additional course can be taken in Art Education, Education or any of the Liberal Arts programs offered by the University, provided it complements a particular research interest and receives prior advisor approval.

2

Select five courses from Tyler's extensive studio course listing. Since in-depth studies are encouraged, students may take as many as three courses (9 credits) in one studio area. Courses are available both in Art and in Graphic Arts and Design.

### Teaching Certification <sup>1</sup>

MEd candidates may pursue Teaching Certification concurrently with their graduate studies. An additional 18 credits of coursework is required in Art Education and Educational Psychology coursework:

Code	Title	Credit Hours
ARTE 5003	Inclusive Art Education K-12 Students in the Art Room	3
ARTE 5888	Student Teaching	6
ARTE 9187	Graduate Materials and Methods in Art	3
EDUC 5402	Child and Adol Develop	3
TESL 5631	Foundations of Language Teaching: Meeting the Needs of English Language Learners	3
<b>Total Credit Hours</b>		<b>18</b>

1

The MEd with Teaching Certification program of 51 credits, along with successful completion of the state-required *Praxis*® Fundamental Subjects: Content Knowledge exam and *Praxis*® Art: Content Knowledge exam, fulfills all of the requirements for Pennsylvania State Certification in Art for Kindergarten through grade 12. Pennsylvania Teaching Certification is awarded to U.S. citizens only.

**Internship:** An internship is required if seeking Teaching Certification.

#### Culminating Events:

##### *Artwork Review:*

At the end of the final term's residence, the student is required to pass a graduate review of artwork conducted by a committee of Art Education and Studio Art faculty.

##### *Thesis:*

In lieu of a comprehensive examination, MEd students produce a thesis, which is a scholarly master's paper developed through research under the guidance of an advisor. Students can complete the scholarly requirement as they pursue required coursework. The scholarly work results from the accumulation of what is learned rather than as an additional course requirement. Students who need additional time to complete the scholarly requirement, however, can register for ARTE 9995 Master's Thesis Research & Writing (1 s.h.) each term until they finish their research and produce their paper.

## Art History MA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Arts in Art History.

### About the Program

The Tyler School of Art and Architecture at Temple University offers a gateway to the best PhD programs in the discipline for students seeking careers in higher education or research. Alternately, it is a stand-alone option for students seeking positions in museums, galleries, nonprofits and other institutions.

The MA in Art History offers an optional concentration in Arts Management, which provides a specialized degree pathway for students seeking to advance artists, art and audiences by becoming cultural organizers and leaders. Students learn to engage the forces that shape the visual arts landscape by aligning their operations and programs with their mission and values. In addition to Art History requirements, core courses in the Arts Management track build professional practice skills, awareness of the history of the field, and perspectives on its future across a range of institutional models.

A number of resources are available at Temple to Art History MA students:

- The Loretta C. Duckworth Scholars Studio in Charles Library offers opportunities for research in the digital humanities with high-end computing and visualization resources, a virtual reality studio, collaboration spaces, and 3-D printing and media-capture capabilities.
- Temple Contemporary, Tyler's innovative exhibitions and public programs space, offers opportunities to learn curatorial practice.
- Expansive, world-class art and architecture buildings provide direct access to all aspects of the creative process via fellow students and faculty artists and designers.
- State-of-the-art digital resources include 8,000 digital images and access to millions more via Tyler's Artstor Digital Library membership.
- Tyler's art history community is enriched by a steady stream of compelling lectures by leading scholars and practitioners.

Tyler graduate students in Art History may participate in Temple University's Teaching in Higher Education certificate program to gain advanced training for a career in higher education or in the Cultural Analytics graduate certificate program offered by Duckworth Scholars Studio.

**Time Limit for Degree Completion:** 3 years, although the degree is designed to be completed full-time in two years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Study Abroad:** Many Tyler Art History graduate students take advantage of research opportunities at Temple University Rome and Temple's Japan Campus in Tokyo, both among the oldest and largest facilities of their type. Other opportunities exist elsewhere around the globe as guided by faculty members' extensive connections.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Non-Matriculated Student Policy:** Non-matriculated students must contact the Graduate Director for information.

**Financing Opportunities:** In keeping with Temple University's commitment to access and affordability, Tyler's graduate programs offer a competitive level of tuition with some opportunities for financial support. Rates are set annually and are affected by many factors, including in-state or out-of-state residency. For more information, contact the Graduate Director or the Associate Graduate Director for Arts Management, as applicable, and explore Temple's graduate student financial information page. Eligible graduate students are encouraged to apply for work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15

*Spring:* November 1

Students wishing to be considered for awards are strongly encouraged to apply by December 15.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic and artistic competence. The letters should be submitted by the referee at the time of application at <https://apply.temple.edu/Tyler/>.

**Coursework Required for Admission Consideration:** Five courses in Art History are desired for admissions consideration: two general surveys and one upper-level course in each of three periods, in any geographical area: ancient art (to circa 1400), art produced circa 1400-1800, and Modern/Contemporary art. Official transcripts from all universities/colleges attended, whether or not a degree was awarded and whether the courses were taken as an undergraduate or graduate student, must be sent as part of the online application.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required, but it need not be in Art History. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent as part of the online application.

**Statement of Goals:** In approximately 500 to 1,000 words, describe your interest in Temple's program, research goals, future career goals, academic and research achievements, and how you will contribute to the Tyler School of Art and Architecture mission. Submit at <https://apply.temple.edu/Tyler/>.

### Standardized Test Scores:

GRE: Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MA and PhD Art History programs. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current curriculum vitae required. Submit at <https://apply.temple.edu/Tyler/>.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper on a topic in Art History. The paper or excerpt submitted should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. Submit at <https://apply.temple.edu/Tyler/>.

**Transfer Credit:** The Graduate School allows the transfer of a maximum of 6 credits taken within a five-year period before matriculation for credit toward the master's degree. These credits must be in Art History, at the graduate level, with at least a final grade of "B," and must not have been used as part of the fulfillment of requirements for another degree awarded to the student.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30, or 36 if the optional concentration in Arts Management is pursued

*Required Courses:*

### MA with a Focus on Research

Code	Title	Credit Hours
<b>Core Course</b>		
ARTH 5601	Historiography of Art History <sup>1</sup>	3
<b>Electives <sup>2</sup></b>		12
<b>Art History Distribution Courses</b>		

In at least three distribution areas, select a total of four courses from the following:

Earliest to 1400		
ARTH 5510	Topics in Ancient Art	
ARTH 5520	Topics in Medieval Art	
ARTH 5621	Archeological Program	
ARTH 8610	Seminar in Ancient Art	
ARTH 8620	Seminar in Medieval Art	
ARTH 9183	Archaeological Program	
1400-1800		
ARTH 5530	Topics in Renaissance Art	
ARTH 5540	Topics in Early Modern Art	
ARTH 5630	Topics in Renaissance Art II	
ARTH 8630	Problems in Renaissance Art	
ARTH 8635	Problems in Northern Renaissance Art	
ARTH 8640	Seminar in Global Baroque Art	
1800-Present		
ARTH 5097	Graduate Design: Graduate Design Theory	
ARTH 5350	Topics in Arts Administration	
ARTH 5351	Introduction to Arts Management Practice: Mission, Values and Community	
ARTH 5370	Topics in Contemporary Art	
ARTH 5403	History of Modern Crafts and Design	
ARTH 5405	History of Photography	
ARTH 5460	Topics in Contemporary Art	
ARTH 5550	Topics in 19th-Century Art	
ARTH 5560	Topics in 20th-Century Art	
ARTH 5660	Topics in Modern and Contemporary Art

Transhistorical		
ARTH 5408	The History of Printmaking and Print Culture	
Research Course		
ARTH 9995	Research for Qualifying Paper	3
<b>Total Credit Hours</b>		<b>30</b>

1

Upon admission to the MA program, students are expected to complete ARTH 5601 during their first Fall term.

2

With approval from the Graduate Director, 6 credits of electives may be taken outside of Art History.

## OR MA with Optional Concentration in Arts Management

Code	Title	Credit Hours
<b>Core Courses</b>		
ARTH 5351	Introduction to Arts Management Practice: Mission, Values and Community	3
ARTH 5601	Historiography of Art History <sup>1</sup>	3
<b>Art History Electives</b>		<b>9</b>
<b>Open Electives</b>		<b>12</b>
<b>Culminating Courses</b>		
ARTH 8872	Arts Management Capstone	3
ARTH 9585	Internship Seminar	3
ARTH 9586	Internship Seminar	3
<b>Total Credit Hours</b>		<b>36</b>

1

Upon admission to the MA program, students are expected to complete ARTH 5601 during their first Fall term.

**Language Examination:** All MA students must demonstrate a reading knowledge of one foreign language.

### Culminating Events:

#### Qualifying Paper:

For the research-focused master's degree, students enroll in ARTH 9995. The qualifying paper engages the student in acquiring an understanding of how to conduct research using primary and secondary sources; a knowledge of art history that is rooted in historical, cultural, stylistic and ethical analysis; and the skills to write critical evaluations of artwork in their historical, cultural and stylistic contexts.

Selection of the research project requires the approval of the student's primary advisor, who is chosen by the end of a student's first year of study. The primary advisor guides the student in writing the qualifying paper, which is to be 25-30 pages in length. The qualifying paper entails rethinking, elaboration and expansion of a research project already composed for a class, with the addition of concentrated research time and/or a different methodological framework to extend the scope of the paper, producing a product that contains original work. The qualifying paper requires the approval of two readers.

#### Internship:

The Arts Management concentration requires 6 credits of internship supervised by the Arts Management Concentration Advisor. Three of these credits are taken in the second academic term of study, and three credits are taken in the last academic term concurrent with the required capstone class.

## Art History PhD

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Doctor of Philosophy in Art History.

## About the Program

The PhD in Art History program at the Tyler School of Art and Architecture provides the broad-based training needed for teaching, research and curatorial positions at the highest levels of the discipline. Offering both the resources of one of the nation's top art schools and a large research university, Tyler PhD students work with faculty members who have expertise in diverse and global areas, including new digital technologies. Students take full advantage of faculty contacts and the extraordinary variety of research opportunities opened by Tyler's location in Philadelphia, a vibrant center of art, culture and history strategically situated near New York and Washington, D.C.

The Department of Art History offers a doctoral program for students with an MA degree, as well as for exceptionally well-prepared students with a BA, who may be admitted directly without first earning a master's degree. A strong art history background, appropriate languages and indicators of high achievement are requisites for students entering with a BA only. Upon entering the program, all students are assigned a primary advisor and are expected to work closely with the advisor during their

studies. Students may change primary advisors in accordance with Graduate School procedures.

A number of resources are available at Temple to Art History PhD students:

- The Loretta C. Duckworth Scholars Studio in Charles Library offers opportunities for research in the digital humanities with high-end computing and visualization resources, a virtual reality studio, collaboration spaces, and 3-D printing and media-capture capabilities.
- Temple Contemporary, Tyler's innovative exhibitions and public programs space, offers opportunities to learn curatorial practice.
- Expansive world-class art and architecture buildings provide direct access to all aspects of the creative process via fellow students and faculty artists and designers.
- State-of-the-art digital resources include 8,000 digital images and access to millions more via Tyler's Artstor Digital Library membership.
- Tyler's art history community is enriched by a steady stream of compelling lectures by leading scholars and practitioners.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Study Abroad:** Many Tyler Art History graduate students take advantage of research opportunities at Temple University Rome, among the oldest and largest facilities of its type, and elsewhere around the globe, as guided by faculty members' extensive connections. Students researching Italian topics may be eligible for a fellowship to study in Rome.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** The curriculum concentrates on Western art history, broadly conceived, including ancient, the Black Atlantic, early modern, Europe, Islamic, Latin America, and modern and contemporary in the United States. Curricula are informed by the historiography and critical theory of art history. Tyler graduate students in Art History may participate in Temple University's Teaching in Higher Education certificate program to gain advanced training for a career in higher education or in the Cultural Analytics graduate certificate program offered by Duckworth Scholars Studio.

**Non-Matriculated Student Policy:** Non-matriculated students must contact the Graduate Director for information.

**Financing Opportunities:** Exceptionally qualified students who apply for the PhD may be nominated by the Department of Art History for prestigious University Fellowships upon receipt of their complete application.

The Department also offers Teaching/Research Assistantships and one Academic Internship. Applicants interested in being considered for these awards must submit their application by December 15. Assistantships carry a stipend, health insurance, and full tuition remission for up to 9 credits per term.

Eligible graduate students are encouraged to apply for work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: December 15

Spring: November 1

Applicants should declare an intention to enter the program by establishing contact with the Graduate Director in the Department of Art History. They are also encouraged to establish contact with at least one faculty member whose area of research interest overlaps with their own and who could potentially serve as their faculty advisor. Information on the faculty can be found at <https://tyler.temple.edu/programs/art-history>.

Applicants who wish to be considered for a University Fellowship must apply by December 15. Those who would like to be considered for a Teaching Assistantship are also strongly encouraged to apply by December 15, but November 1 applications for Spring admission may be considered.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators who can speak to the applicant's academic and art historical competence. The letters should be submitted by the referee at the time of application at <https://apply.temple.edu/Tyler/>.

**Coursework Required for Admission Consideration:** Five courses in Art History are desired for admissions consideration: two general surveys and one upper-level course in each of three periods, in any geographical area: ancient art (to circa 1400), art produced circa 1400-1800, and Modern/Contemporary art. Official transcripts from all universities/colleges attended, whether or not a degree was awarded and whether the courses were taken as an undergraduate or a graduate student, must be sent as part of the online application.

**Master's Degree in the Discipline/Related Discipline:** Generally, a master's degree in Art History is required, but a background in Art History and a master's degree in a related field suffice. Alternatively, exceptionally well-prepared students with a BA may be admitted directly to the PhD program.

**Bachelor's Degree in the Discipline/Related Discipline:** A baccalaureate degree is required, but it need not be in Art History.

**Statement of Goals:** In approximately 500 to 1,000 words, describe your interest in Temple's program, research goals, future career goals, academic and research achievements, and how you will contribute to the Tyler School of Art and Architecture mission. Submit at <https://apply.temple.edu/Tyler/>.

### Standardized Test Scores:

GRE: Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MA and PhD Art History programs. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the

Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current curriculum vitae required. Submit at <https://apply.temple.edu/Tyler/>.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper on a topic in Art History. The paper or excerpt submitted should be no more than 10 pages in length and be fully referenced according to a professional, scholarly style manual. Submit at <https://apply.temple.edu/Tyler/>.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Master's: 30

Number of Credits Required Beyond the Baccalaureate: 60

<b>Total Credit Hours</b>		<b>30</b>

1

Prior to registering for any course, students are expected to consult with their primary advisor and/or the Graduate Director.

2

If they have not taken a comparable class at the master's level, students must register for ARTH 5601.

3

Electives must be taken at the 5000 level or higher. With approval from the primary advisor and Graduate Director, up to 9 credits of electives may be taken outside of Art History.

4

Enrolling in 1 credit of ARTH 9994, ARTH 9998 or ARTH 9999 grants a PhD student full-time status.

5

Students may only register for ARTH 9999 after the dissertation proposal has been accepted by the Graduate Faculty and the student has advanced to candidacy. Additionally, a minimum of 2 credits of ARTH 9999 are required to earn the degree.

<b>Year 7</b>		
<b>Fall</b>		
ARTH 9999	Dissertation Research <sup>5,7</sup>	1
<b>Credit Hours</b>		<b>1</b>
<b>Total Credit Hours</b>		<b>60</b>

1

Prior to registering for any course, students are expected to consult with their primary advisor and/or the Graduate Director.

2

Upon admission to the PhD program, students are required to complete ARTH 5601 in their first Fall term.

3

Electives must be taken at the 5000 level or higher. With approval from the primary advisor and Graduate Director, up to 9 credits of electives may be taken outside of Art History.

4

In ARTH 9891, students write their Qualifying Paper, which the Department reviews and must approve prior to formally accepting the student into the PhD program.

5

The number of credits shown in this grid for ARTH 9994, ARTH 9998 and ARTH 9999 are recommended, but can be adjusted to fit a student's schedule and timeline for dissertation research. Ultimately, 15 credits of ARTH 9994, ARTH 9998 and ARTH 9999 are required to complete the degree, including a minimum of 2 credits of ARTH 9999. Enrolling in 1 credit of ARTH 9994, ARTH 9998 or ARTH 9999 in an academic term grants a PhD student full-time status.

6

In ARTH 9998, students write their dissertation proposal.

7

Students may only register for ARTH 9999 after the dissertation proposal has been accepted by the Graduate Faculty and the student has advanced to candidacy.

**Language Examination:** Students must demonstrate a reading knowledge of two foreign languages necessary to complete research in the given field. The language examinations are taken with the permission of the student's primary advisor.

**Culminating Events:**

*Qualifying Paper:*

The qualifying paper is only required of those entering the program with a bachelor's degree on the direct track. At the end of the fourth term of coursework, these students are required to submit a qualifying paper to demonstrate their command of scholarly research and writing. The ability to continue in the PhD program is contingent on the quality of this paper. If the qualifying paper is not deemed acceptable, the student is transferred to the MA program and works with an advisor to determine the progress made toward completion of the master's degree. When any outstanding courses are successfully completed, the student is awarded the MA.

*Doctoral Examinations:*

The purpose of the doctoral examinations is to demonstrate critical knowledge of current research and historiography in the student's primary field of interest. The examinations consist of two written exams, one in the student's broad field and one in the specialized field, and an accompanying oral examination. See Graduate School Policy 02.27.11.

*Dissertation Proposal:*

The dissertation proposal, which must be approved by the Department's Graduate Faculty, demonstrates the student's knowledge of and ability to conduct the proposed research. The dissertation proposal may only be submitted after the student has successfully completed their doctoral examinations. After the proposal has been accepted by the Department's Graduate Faculty, the student is raised to candidacy. See Graduate School Policy 02.28.12.

*Dissertation:*

The doctoral dissertation is an extended written study that shows evidence of the candidate's original thought and research and their mastery of the scholarly method. The dissertation makes a contribution to the field of Art History. With the consent of the primary advisor and members of the dissertation defense committee, the student presents an oral defense of the dissertation. The goal of the dissertation is to have a manuscript that is publishable in a scholarly venue. See Graduate School Policy 02.28.

## Ceramics MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Ceramics.

### About the Program

The Ceramics program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree that offers personal mentorship from faculty and visionary visiting artists in state-of-the-art facilities and encourages experimentation with media, interdisciplinary projects and public art to ignite social change.

The Ceramics program fosters mastery of the discipline through access to internationally recognized faculty, state-of-the-art facilities, and Philadelphia's rich clay culture, resulting in work that challenges the medium's traditional boundaries. The close-knit Ceramics MFA community is connected to the extended Tyler MFA cohort through interdisciplinary mentorship from a faculty of socially conscious artists, technologists, designers and art historians. The Ceramics faculty engage one-on-one with students to develop individual direction and encourage the exchange of ideas—in the studio and across Philadelphia—supported by the resources of Temple, a large public research university.

As members of the region's preeminent Ceramics program, Tyler MFA students partner with organizations in Philadelphia, a city with an established clay tradition and a thriving contemporary art scene, as well as other major cultural centers nearby, including New York. Philadelphia also offers opportunities for students to join a thriving arts and culture community and work as practicing artists and professionals.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Through a studio-based approach complemented by art history classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world. Tyler's rigorous program empowers students to engage deeply and develop a holistic practice with supportive research and interdisciplinary exploration.

**Study Abroad:** Tyler MFA students may pursue study abroad opportunities at Temple's Japan Campus and Temple University Rome to expand their studies in a global context.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** In the Ceramics program, equipment is available for wheel work, mold-making and slip-casting projects, and digital fabrication. Large kilns are available for hand building and sculpture. Students are expected to demonstrate both conceptual and technical excellence in the area, as well as a profound interest in research and experimentation.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists, craftspersons, designers and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/> Tyler/, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** 40 undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and portfolio in Ceramics are required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Tyler's program, research goals, future career goals, and academic and artistic achievements.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the

exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the Art Department Chairperson and the Vice Dean, up to 9 credits of graduate work may be transferred into the MFA program as Art History or Studio electives. Only credits received within five years of the transfer request are eligible. No decisions are made concerning transfer credits until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 60

*Required Courses:*

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Students select three courses in Art History at the 5000 level or higher. Of these, ARTH 8402 Introduction to Critical Thinking and Practice is required, as is one Art History Seminar. Students may choose from the full range of graduate ARTH offerings for their third course.

3

Students must earn 3 credits in a studio elective and 3 credits in a professional practice experience course. Professional practice courses are offered in a range of fields such as Arts Management, Community Arts, and Teaching in Higher Education. The professional practice requirement may also be fulfilled by other courses with the approval of the Graduate Director. For the remaining 9 credits of electives, students complete coursework within the Tyler School of Art and Architecture. Students may enroll in courses in other Temple University schools and colleges, provided that coursework complements a particular research interest and has been preapproved by their advisor and the Graduate Director.

#### **Culminating Event:**

##### *Thesis Exhibition:*

An approved thesis exhibition, with a written statement of working philosophy and slide and/or CD portfolio, is required at the final review in order to meet the MFA requirements. The thesis exhibition should be the fruit of the two years' studio research and practice in which the student engaged. The student defends their thesis exhibition to the review committee. The committee then evaluates the exhibition as pass with distinction, pass or fail.

# **City and Regional Planning MS**

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Science in City and Regional Planning.

## **About the Program**

The MS in City and Regional Planning is the terminal degree for the planning profession. The primary purpose of the program is to develop skilled practitioners for dynamic career opportunities in the government, nonprofit and private sectors. The program's areas of strength are in sustainability, environmental planning and community engagement. The program provides a broad-based understanding and awareness of the physical and economic aspects of planning, sensitivity to the social and environmental impact of planning decisions, and a knowledge of governmental structures as they apply to planning.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program is designed for full-time study, allowing students to complete the program in two years. Students may elect, however, to complete the program on a part-time basis.

**Affiliation(s):** The Department of Architecture and Environmental Design is a member of the American Planning Association (APA) and Association of Collegiate Schools of Planning (ACSP).

**Study Abroad:** The department has a formal agreement with Beijing Forestry University, where study abroad is possible.

**Accreditation:** The MS program in City and Regional Planning is accredited by the Planning Accreditation Board (PAB). The PAB accredits university programs in North America leading to bachelor's and master's degrees in planning. The accreditation process is based on standards approved by the PAB with input from the public and our sponsoring organizations: the American Planning Association (APA); the American Institute of Certified Planners (AICP), which is the professional planners' institute within the American Planning Association; and the Association of Collegiate Schools of Planning (ACSP).

**Areas of Specialization:** Two optional concentrations are available to students in the MS in City and Regional Planning degree program:

- Sustainable Community Planning
- Transportation Planning

Graduate certificates in Sustainable Community Planning (p. 79) and Transportation Planning (p. 80) are available to non-matriculated students and students in other Temple University graduate programs, with the approval of their graduate advisor. For more information, see the certificate descriptions on the Department of Architecture and Environmental Design website.

**Job Prospects:** A graduate degree in city planning is recognized by the profession as the terminal degree. The majority of students graduating from the program find employment in the greater Philadelphia region, Commonwealth of Pennsylvania, and beyond. The majority of the program's graduates have found employment in planning or a related field within one year of graduation. Private, public and nonprofit

employment opportunities in planning are strong for graduate degree holders based on current need and projected growth over the next decade.

**Licensure/Certification:** The American Institute of Certified Planners (AICP) provides nationwide, independent verification of planners' qualifications. While not required to practice, AICP certification ensures academic qualifications, work experience, mastery of essential skills, and commitment to a professional code of ethics. As a Planning Accreditation Board (PAB) accredited program, Temple University's Master of Science in City and Regional Planning provides the fastest path to AICP certification, with two years' professional planning experience required. To be eligible for the certification exam, graduates must also be a current member of the American Planning Association (APA) and be engaged in professional planning, either currently or in the past, as defined by AICP. For more information, visit <https://www.planning.org/certification/eligible/>.

New Jersey offers its own license for professional planners. This is in addition to, not instead of, the national AICP. Graduates who plan on working in New Jersey can opt to sit for the Professional Planner (PP) exam. Details can be found at <https://njplanning.org/professional-development/exam-prep/pp-pit/>.

**Non-Matriculated Student Policy:** Non-matriculated students are permitted to take a maximum of 9 graduate credits at Temple University prior to applying to the program. Please contact the Department of Architecture and Environmental Design for details.

**Financing Opportunities:** The Department of Architecture and Environmental Design has a limited number of scholarships for graduate students. Students should also check the Tyler School of Art and Architecture and Student Financial Services websites for financial aid opportunities. Students should complete a FAFSA application to determine eligibility for student financial aid, work-study employment within the department, or other on-campus jobs.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

*Spring:* November 1

Applications are reviewed as they are received up through the priority deadline. Applications received after these dates may be considered for admission. See the Tyler School of Art and Architecture website for the most up-to-date application information.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, planning professionals and others in a position to evaluate the applicant's past work and/or ability to do graduate work. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must hold a baccalaureate degree from an accredited college or university, but the bachelor's degree need not be in a related field of study. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art

and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your reason for pursuing a degree in City and Regional Planning, interest in Temple's program in particular, and future career goals.

### Standardized Test Scores:

**GRE/GMAT:** Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MS in City and Regional Planning degree program. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** The City and Regional Planning Admissions Committee recommends the awarding of transfer credits on a case-by-case basis as applications are reviewed. The student may not receive transfer credit for coursework taken as part of any other awarded graduate degree. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 45

### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
CTRP 5014	Planning Politics and Administration	3
CTRP 5413	Planning Communications	3
CTRP 5513	Planning Analysis	3
CTRP 5524	Spatial Analysis Techniques/Geographic Information Systems <sup>1</sup>	3
CTRP 8013	Planning History and Theory	3
CTRP 8016	Planning Law	3
CTRP 8213	Environmental Planning	3
<b>Electives <sup>2</sup></b>		<b>18</b>
<b>Capstone Course</b>		
CTRP 9889	Planning Studio	6
<b>Total Credit Hours</b>		<b>45</b>

1

With permission from the graduate advisor or chair of the Department of Architecture and Environmental Design, students who have had significant training in geographic information systems may be allowed to substitute an elective for CTRP 5524.

2

CTRP or related courses are selected in consultation with a department advisor.

Students may undertake one of two transcribed optional concentrations in fulfilling the coursework requirements for the MS degree:

## Sustainable Community Planning

Code	Title	Credit Hours
<b>Core Concentration Courses</b>		
CTRP 5256	Sustainable Community Design and Development	3
CTRP 8276	Regional Development	3
<b>Electives</b>		
Select two from the following: <sup>1</sup>		6
CTRP 8155	Ecological Planning and Development	
CTRP 8156	Neighborhoods, Cities, and Regions	
CTRP 8255	Sustainability in Suburban Communities	
CTRP 8257	Environmental Policy	
CTRP 8266	Sustainable Business Practices	
CTRP 8355	Environmental Infrastructure Planning and Management	
CTRP 8476	Collaborative Planning	
CTRP 8755	Introduction to Emergency Management Planning	
<b>Total Credit Hours</b>		<b>12</b>

1

In consultation with a department advisor or chair, students may substitute one relevant 3-credit CTRP graduate course as an elective.

## Transportation Planning

Code	Title	Credit Hours
<b>Core Concentration Course</b>		
CTRP 8655	Transportation Planning	3
<b>Electives</b>		
Select three from the following: <sup>1</sup>		9
CTRP 8276	Regional Development	
CTRP 8656	Integrated Transportation and Land-Use Planning: Context-Sensitive Design Solutions	
CTRP 8657	Non-motorized Transportation Planning	
CTRP 8666	Travel Demand Modeling	
<b>Total Credit Hours</b>		<b>12</b>

1

In consultation with a department advisor or chair, students may substitute one relevant 3-credit CTRP graduate course as an elective.

**Internship:** A supervised 180-hour internship is required. The internship emphasizes the acquisition and application of practical skills in planning. Placements are made at public agencies, nonprofit institutions and

private firms, with designated onsite and Planning and Community Development faculty supervisors. Internships may require interim reports and must culminate in a written report regarding the experience. Students have the option of registering for CTRP 9885 Internship in Planning for 3 elective credits. If the student has relevant professional experience, the internship requirement is waived and CTRP 9885 may not be taken for credit toward the degree.

### Culminating Events:

#### Capstone Course:

All students must complete CTRP 9889 Planning Studio (6 credits), which involves undertaking a planning project in cooperation with a local or regional client. Students synthesize the knowledge gained from previous courses in the development of an integrated approach that is appropriate to their project.

#### Thesis Option:

The master's thesis is substantial in length and follows a knowledge-enhancement model, based on planning theory, methodology and history. Requirements are specified in the Graduate School's *Dissertation and Thesis Handbook*, found at <https://grad.temple.edu/resources/dissertation-thesis-handbook>. Up to 6 elective credits may be earned for taking CTRP 9995 Thesis in Planning.

The student's Master's Committee is responsible for evaluating the thesis and its defense. No thesis should go to defense unless it is ready for public scrutiny. The committee evaluates the student's ability to express in writing and orally their research question, methodological approach, primary findings and implications. Committee members vote to pass or fail the thesis upon conclusion of the public defense. If the student must make revisions, those changes must be approved as arranged by the Master's Committee.

## Facilities Planning MS

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Science in Facilities Planning.

### About the Program

The Master of Science in Facilities Planning is designed for those with an academic background in facilities management at the undergraduate level or those with experience through practice who want to pursue an advanced degree that focuses on further specialization in their profession. The MS in Facilities Planning utilizes a workshop- and seminar-based curriculum. Group work that is part of the degree program takes place in the Facilities Management Lab in Tyler's Architecture Building, a shared group work environment for all facilities management students.

Students undertaking this degree program:

- add to their general knowledge base and/or develop a specialized knowledge base within the facilities management profession;
- develop knowledge, appreciation and a working relationship with other professionals to understand the management of facilities from the user's needs;
- increase their collaborative practice skills to be better prepared for the complex working environment in the facilities management industry; and
- learn to better articulate facility management needs.

Tyler School of Art and Architecture is committed to an interdisciplinary approach toward improving planning, design, construction, operation and management of appropriate facilities as a way forward in education and research. As much as possible in the classroom, students work in interdisciplinary teams to address problems of facilities, replicating, to some extent, the work environment in which they will engage. A concentration in Health Facilities, which is a collaborative effort between Tyler and the College of Public Health, is available to students who want to pursue health facilities management.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Students may choose a concentration in Health Facilities, which is a collaborative effort between Tyler and the College of Public Health.

**Job Prospects:** The post-professional Master of Science in Facilities Planning offers working facilities management professionals and those seeking advancement in the field the opportunity to build on their professional skills and toolsets to elevate their competency.

**Non-Matriculated Student Policy:** Non-matriculated students must contact the Department of Architecture and Environmental Design for information. A maximum of 9 graduate credits can be taken at Temple University prior to applying to the program.

**Financing Opportunities:** The Department of Architecture and Environmental Design has a limited number of scholarships for graduate students. Students should also check the Tyler School of Art and Architecture and Student Financial Services websites for financial aid opportunities. Students should complete a FAFSA application to determine eligibility for student financial aid, work study employment within the Department of Architecture and Environmental Design, or other eligible on-campus jobs.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* January 6

*Spring:* November 1

Applications are reviewed as they are received after the deadline. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis.

Students are normally admitted in the Fall term. In the instance when students are admitted in the Spring, they may have limited course offerings in the first term because course sequencing begins in the Fall. See the Tyler School of Art and Architecture website for the most up-to-date application information.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and/or professionals in the field who are familiar with the applicant's academic and professional competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. Applicants are expected to hold a degree in built environment professions, healthcare management or related fields. Candidates who studied in other disciplines as an undergraduate but who have gained knowledge of facilities or healthcare management as working professionals are also considered for admission. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, educational and research goals, future career goals, and academic and research achievements.

**Standardized Test Scores:**

GRE: Due to testing limitations related to COVID-19, the Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MS in Facilities Planning degree program. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** All applicants must submit work samples of their most important and representative academic and/or professional work. Work samples can include analytical assessments, research reports, and/or other planning, design, creative and written work. Work samples from applicants who have been in a professional setting for a period of six years or more can include student work, but the applicant should instead emphasize work done in a professional setting and clearly articulate the applicant's role in the project. Papers, research or other materials (preferably dealing with the built environment) are invited as evidence of scholarly, academic or creative work. As much as possible, work samples should best represent the applicant's knowledge, aptitudes, interests, creative ability and experience relative to the program. As a guideline, the applicant should include approximately 20 images or other items.

Work samples are to be uploaded at <https://temple.slideroom.com>, as instructed on the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** The Architecture Admissions Committee recommends the awarding of graduate transfer credits on a case-by-case basis as applications are reviewed. The maximum number of graduate transfer credits a student may receive is 9.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required to Earn the Degree:* 30, whether or not the concentration is pursued

*Required Courses:*

## Fibers and Materials Studies MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Fibers and Materials Studies.

## About the Program

The Fibers and Materials Studies program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree that pushes students to refine their aesthetic and embrace a broad definition of material exploration in relation to relevant global issues. Under the mentorship of an influential and diverse faculty and visiting artists on the cutting-edge of creative practice and critical inquiry, students find a compassionate, inclusive environment primed for experimentation, interdisciplinary collaboration and independent study.

Students have unlimited access to Tyler's state-of-the-art equipment and the abundant resources of Temple, a large public research university, to drive their research-based concepts. Fibers and Materials Studies MFA students also collaborate across the school through projects like Tyler's Natural Dye Garden, as well as leverage Philadelphia's landscape and vibrant DIY art scene to conduct community-based projects; study social and political issues; and examine the relationship between materials, processes and concepts.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** The Fibers and Materials Studies curriculum embraces material exploration—from community-based projects to experimental performance, sound and video—in relation to issues surrounding identity, power, sustainability and more. Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world. Influential visiting artists and programs are matched to each cohort to accelerate their growth.

**Study Abroad:** Many Tyler MFA students choose to pursue summer study abroad opportunities at Temple University Rome, a home base for immersive artistic, academic and cultural exploration for Tyler students since 1966. Historically, students who have immersed themselves in

interdisciplinary thought and practice abroad have returned with their focused work strengthened.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** In the Fibers program, equipment is available for traditional and contemporary techniques, including new technologies that allow the development of surface imagery with photographic stencils, as well as the creation of weave structures on a Jacquard Loom TC2. Students are encouraged to experiment with the materials, techniques and concepts previously developed in their work.

**Job Prospects:** A Tyler Fibers and Materials Studies MFA degree prepares graduates for a rigorous studio practice and develops their aptitude to teach at leading institutions. Graduates are prepared for careers as professional artists, craftspersons, designers and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

All applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

### Coursework Required for Admission Consideration:

40 undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and a portfolio specific to Fibers and Materials Studies are required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your specific interest in Tyler's program, research goals, future career goals, and academic and artistic achievements.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the Department Coordinator, the student's advisor and the Vice Dean, up to 9 credits of graduate work completed at Temple University within a five-year period may be transferred into the program. Up to 6 credits of graduate coursework taken at other accredited institutions within the prior five years before matriculation may be considered for transfer into the program after the student has enrolled. No decisions are made until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 60

### Required Courses:

Code	Title	Credit Hours
<b>Project and Seminar Courses</b>		
ART 8004	Critique and Critical Discourse I (2 terms)	6
ART 8005	Critique and Critical Discourse II (2 terms)	6
ART 8201/8202	Graduate Projects: Fibers I (4 terms) <sup>1</sup>	12
ART 9991	Directed Studio Practice (3 terms)	9
<b>Art History Courses<sup>2</sup></b>		<b>9</b>
<b>Electives<sup>3</sup></b>		<b>15</b>
<b>Culminating Course</b>		
ART 9995	Master of Fine Arts Thesis	3
<b>Total Credit Hours</b>		<b>60</b>

1

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Students select three courses in Art History at the 5000 level or higher. Of these, ARTH 8402 Introduction to Critical Thinking and Practice is required, as is one Art History Seminar. Students may choose from the full range of graduate ARTH offerings for their third course.

3

Students must earn 3 credits in a studio elective and 3 credits in a professional practice experience course. Professional practice courses are offered in a range of fields such as Arts Management, Community Arts, and Teaching in Higher Education. The professional practice requirement may also be fulfilled by other courses with the approval of the Graduate Director. For the remaining 9 credits of electives, students complete coursework within the Tyler School of Art and Architecture. Students may enroll in courses in other Temple University schools and colleges, provided that coursework complements a particular research interest and has been preapproved by their advisor and the Graduate Director.

#### **Culminating Events:**

##### *Thesis Exhibition:*

An approved thesis exhibition, with a written statement of working philosophy and slide and/or CD portfolio, is required at the final review in order to meet the MFA requirements. The thesis exhibition should be the fruit of the two years' studio research and practice in which the student engaged. The student defends their thesis exhibition to the review committee. The committee then evaluates the exhibition as pass with distinction, pass or fail.

## **Glass MFA**

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Glass.

### **About the Program**

The Glass program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree that offers personal mentorship from faculty and visionary visiting artists in state-of-the-art facilities and encourages experimentation with media, interdisciplinary projects and public art to ignite social change.

The Glass program is a leading center of interdisciplinary thought and practice with state-of-the-art facilities and equipment. The program is ranked No. 2 in the nation among MFA glass programs by *U.S. News & World Report*.

The MFA experience at Tyler Glass is defined by our commitment to cultivate each graduate student's unique voice, with glass as only one of many modes of expression. Students explore the intersections of glass, sculpture, installation, video, performance, culture, making and criticism—an approach that has helped build one of the most tight-knit alumni communities in the discipline. Tyler MFA students take advantage of the school's location in Philadelphia, a vibrant art center with a strong glass tradition, and its proximity to New York City's arts resources to grow their creative practices and businesses and earn teaching positions in higher education at leading institutions.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Through a studio-based approach complemented by art history classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world. Tyler's rigorous program empowers students to engage deeply and develop a holistic practice with supportive research and interdisciplinary exploration.

**Study Abroad:** Tyler MFA students may pursue study abroad opportunities at Temple's Japan Campus and Temple University Rome to expand their studies in a global context.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** The Glass studios are designed for the creation of works in all areas of glass blowing, glass casting, glass fusing and kiln work. Students are expected to demonstrate both conceptual and technical excellence in the area, as well as a profound interest in research and experimentation.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists, craftspersons, designers and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: January 6

Applications are evaluated together after the deadline date.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

### Coursework Required for Admission Consideration: 40

undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and portfolio in Glass are required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Tyler's program, research goals, future career goals, and academic and artistic achievements.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the Art Department Chairperson and the Vice Dean, up to 9 credits of graduate work may be transferred into the MFA program as Art History or Studio electives. Only credits received within five years of the transfer request are eligible. No decisions are made concerning transfer credits until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

Number of Credits Required to Earn the Degree: 60

Required Courses:

Code	Title	Credit Hours
<b>Project and Seminar Courses</b>		
ART 8004	Critique and Critical Discourse I (2 terms)	6
ART 8005	Critique and Critical Discourse II (2 terms)	6
ART 8303/8304	Graduate Projects: Glass I (4 terms) <sup>1</sup>	12
ART 9991	Directed Studio Practice (3 terms)	9
<b>Art History Courses<sup>2</sup></b>		<b>9</b>
<b>Electives<sup>3</sup></b>		<b>15</b>
<b>Culminating Course</b>		
ART 9995	Master of Fine Arts Thesis	3
<b>Total Credit Hours</b>		<b>60</b>

1

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Students select three courses in Art History at the 5000 level or higher. Of these, ARTH 8402 Introduction to Critical Thinking and Practice is required, as is one Art History Seminar. Students may choose from the full range of graduate ARTH offerings for their third course.

3

Students must earn 3 credits in a studio elective and 3 credits in a professional practice experience course. Professional practice courses are offered in a range of fields such as Arts Management, Community Arts, and Teaching in Higher Education. The professional practice requirement may also be fulfilled by other courses with the approval of the Graduate Director. For the remaining 9 credits of electives, students complete coursework within the Tyler School of Art and Architecture. Students may enroll in courses in other Temple University schools and colleges, provided that coursework complements a particular research interest and has been preapproved by their advisor and the Graduate Director.

### Culminating Event:

*Thesis Exhibition:*

An approved thesis exhibition, with a written statement of working philosophy and slide and/or CD portfolio, is required at the final review in order to meet the MFA requirements. The thesis exhibition should be the fruit of the two years' studio research and practice in which the student engaged. The student defends their thesis exhibition to the review committee. The committee then evaluates the exhibition as pass with distinction, pass or fail.

# Graphic and Interactive Design MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Graphic and Interactive Design.

## About the Program

The Graphic and Interactive Design (GAID) program at the Tyler School of Art and Architecture is a two-year, 60-credit program. It offers intensive, research-driven immersion in the practice of design, with mentorship from passionate, award-winning faculty members who push students to hone their visual voices and use their talents to change the world.

GAID MFA students are a close-knit cohort of thinkers and makers who drive original concepts through interdisciplinary collaboration in Tyler's state-of-the-art facilities with the specialists, technology and resources of Temple, a leading research university. Tyler students have unique opportunities to apply their socially conscious designs across Philadelphia. This is a city that's a living laboratory for design-driven solutions with a booming design community that hosts one of the largest national chapters of the American Institute of Graphic Arts (AIGA) and offers easy access to other major design hubs, like New York and Washington, D.C.

Tyler GAID MFA graduates find jobs in top studios; start their own advertising agencies; work in the film, television and music industries; teach in leading colleges and universities; and improve society with the understanding that good design has the power to make a real difference.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** The design faculty at Tyler is made up of practicing graphic and interactive designers with established reputations in the field. It is the goal of the design faculty to challenge students to achieve the highest level of excellence in their work.

**Job Prospects:** Graduates from the MFA program have been extremely successful in the field. They work for print and web design companies, advertising agencies, publishing companies, and design departments of major corporations. They also work in film and television, music packaging and promotion, product design and packaging, and as freelance illustrators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, art directors and/or designers familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** 40 undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and a portfolio specific to Graphic and Interactive Design are required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Tyler's program, research goals, future career goals, and academic and artistic achievements.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the department chairperson, the student's advisor, and the Associate Dean, up to 9 credits of graduate work completed at Temple University within a five-year period may be transferred into the program. Up to 6 credits of graduate coursework taken at other accredited institutions within the prior five years before matriculation may be considered for transfer into the program after the student has enrolled. No decisions are made until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required to Earn the Degree:* 60

*Required Courses:*

Code	Title	Credit Hours
<b>Project and Seminar Courses</b>		
ART 8001	Graduate Professional Practices	3
GAD 8001/8002	Visual Design Graduate Seminar (4 terms) <sup>1</sup>	12
GAD 8083	Graphic Design Graduate Projects (3 terms)	9
GAD 8095/8096	Visual Design Thesis (4 terms) <sup>1</sup>	12
<b>Art History Courses</b> <sup>2</sup>		<b>12</b>
<b>Studio Electives</b> <sup>3</sup>		<b>12</b>
<b>Total Credit Hours</b>		<b>60</b>

1

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Of the four required courses, two must be Art History Seminars chosen from a range of graduate ARTH offerings (5000 to 5800 or 8000 to 9980).

3

Course descriptions can be viewed on the Class Schedule. Note that enrolling in any course under 5000 for graduate credit requires prior approval from the studio area head.

**Culminating Event:**

*Thesis Exhibition with Slide Show:*

An approved thesis exhibition, with a written statement and slide portfolio, is required at the final review in order to meet the MFA requirements. Approval of the student's graduate committee is required.

## Landscape Architecture MLArch

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Landscape Architecture.

### About the Program

The Master of Landscape Architecture has an emphasis in ecological landscape restoration. Program objectives are to educate students to become capable practitioners with knowledge of a specialty area of

the discipline; to educate practitioners who are trained to think critically and creatively about each ecological situation; and to develop a body of knowledge through research, long-term monitoring of restored landscapes, and comparison of methods upon which current and future professionals can draw.

The American Society of Landscape Architects (ASLA) describes landscape architecture as a profession encompassing "the analysis, planning, design, management, and stewardship of the natural and built environments." Landscape architecture is a professional discipline focused on the promotion of environmental balance and human well-being through sustainable design. Ecological landscape restoration, the emphasis of this MLArch degree, has emerged as a critical dimension of landscape architecture over the past few decades. Landscape restoration increases local and regional biodiversity and mitigates potentially dangerous consequences of degradation through projects such as stream bank stabilization, created wetlands to help infiltrate stormwater, mine reclamation, industrial brownfield remediation, and reforestation of urban land. Understanding the ecological processes and natural history that constitute a site is fundamental to the design process.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Temple University Ambler, with some courses offered at the Main and Center City campuses. The Master of Landscape Architecture program has access to the Ambler Arboretum at Temple University and the Temple University Field Station at Ambler. Faculty and students use these resources in coursework and research. For more information, see <https://ambler.temple.edu/arboretum> and <https://ambler.temple.edu/fieldstation>.

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program is interdisciplinary and allows students to enroll in classes from allied disciplines. In addition to the courses in Landscape Architecture, the program builds on the field courses in Horticulture related to the woodland and riparian habitats at the Ambler campus. The program can also draw from the repository of local ecological landscape restoration examples and practitioners in the Philadelphia region.

**Affiliation(s):** The program is affiliated with the American Society of Landscape Architects (ASLA), the Council of Educators in Landscape Architecture (CELA), and the Society for Ecological Restoration (SER).

**Accreditation:** The Department of Architecture and Environmental Design offers two accredited programs in Landscape Architecture. The first professional Master of Landscape Architecture (MLArch) degree and the undergraduate Bachelor of Science in Landscape Architecture (BS) are both accredited by the Landscape Architectural Accreditation Board (LAAB) of the American Society of Landscape Architects (ASLA).

**Areas of Specialization:** The focus of the MLArch degree program is ecological landscape restoration, which emphasizes understanding of ecological processes and plant communities. This understanding is applied in a sequence of design studios. The design application results in connecting theory and scientific principles to creative application in the natural setting. The program educates practitioners skilled at designing beautiful landscapes that are also ecologically appropriate to their locale.

**Job Prospects:** Prepared with the knowledge to make informed and creative environmental design decisions, graduates are highly marketable and have the skills required of professional landscape architects,

including design, computer graphics, horticultural knowledge, technical competence and knowledge of restoration. According to Projections Central, which uses Labor Market Information (LMI) or individual State Employment Projections data, the job outlook between 2018 and 2028 is expected to grow in Pennsylvania by 4.8%, in New Jersey by 7.7%, in Maryland by 6.8%, and in New York State by 10.4%. Temple University's location in this region supports professional opportunities for graduates. This area has a very high concentration of prominent landscape architecture firms, public agencies and ecological restoration professionals.

**Licensure/Certification:** Licensure in Landscape Architecture is required to use the title "landscape architect" in all 50 U.S. states and the District of Columbia. Licensure for landscape architects is state regulated and must be obtained through achievement of three necessary components: (a) education, (b) professional practice experience, and (c) examination requirements. To obtain licensure, all states require candidates to pass the Landscape Architectural Registration Examination (L.A.R.E.), which is administered by the Council of Landscape Architectural Registration Boards (CLARB). Additionally, a majority of states require a degree that is accredited by the Landscape Architectural Accreditation Board (LAAB). Temple University's Master of Landscape Architecture is accredited by LAAB and prepares students to sit for the four-part computerized L.A.R.E.

Additional requirements (such as exams, questionnaires or training) may be required based on the individual requirements of the state in which one intends to become licensed. For more information, visit <https://www.asla.org/StateGovtAffairsLicensure.aspx>.

**Non-Matriculated Student Policy:** A maximum of 9 graduate credits can be taken at Temple University prior to applying to the program.

**Financing Opportunities:** Inquiries about funding should be directed to the Department of Architecture and Environmental Design.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* January 6

*Spring:* November 1

Applications are reviewed as they are received up through the deadline. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis. See the Tyler School of Art and Architecture website for the most up-to-date application information.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, employers and others who can evaluate the applicant's past work and/or ability to do graduate work. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals.

**Coursework Required for Admission Consideration:** All applicants apply directly to the MLArch program, not to a specific curricular track. Admitted students are placed in the appropriate track based on a thorough review of all application materials.

For students who have an undergraduate degree in Landscape Architecture, this program is a 44-credit post-professional degree. The program is also open to students without a degree in Landscape Architecture, but students without the appropriate prerequisite coursework need a maximum of 26 additional credits.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your reason for pursuing an advanced degree in Landscape Architecture, interest in Temple's program in particular, and aspirations and future career goals.

**Standardized Test Scores:**

GRE/GMAT: Due to testing limitations related to COVID-19, Tyler School of Art and Architecture is temporarily waiving submission of GRE scores for applicants to the MLArch in Landscape Architecture degree program. Applicants may still voluntarily submit GRE test scores, but scores will only be used as a supplement to required application materials. All other admission requirements, including submission of scores for a standardized test of English, if applicable, still need to be met. In some circumstances, the Graduate Admissions Committee may request additional supplemental application materials or an interview as part of the admissions process.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** Applicants have the option of submitting a portfolio. Portfolios from students with prior academic experience in Landscape Architecture should include design work done in academic settings. Portfolios may also include work in the visual arts or in visual communication. In addition, work completed in practice may be included but should clearly articulate the applicant's role in the project. Papers, research or other materials (preferably dealing with the built environment) are invited as evidence of scholarly, academic or creative work. Work chosen for inclusion in a portfolio should best represent the applicant's knowledge, aptitudes, interests, creative ability and experience relative to the discipline of Landscape Architecture. The portfolio may include up to 20 images or other items.

Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed on the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** The Landscape Architecture Programs Curricular Coordinator recommends the awarding of transfer credits on a case-by-case basis as applications are reviewed. The student may not receive

transfer credit for coursework taken as part of any other awarded graduate degree. The maximum number of transfer credits a student may receive is 9.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required to Earn the Degree:* 44 for students with an undergraduate degree in Landscape Architecture seeking a post-professional degree; 44-70 for students without an undergraduate degree in Landscape Architecture seeking a first professional degree

*Required Courses:*

### Post-Professional Degree (for students WITH an undergraduate degree in Landscape Architecture)

Year 1		
<b>Summer I</b>		<b>Credit Hours</b>
LARC 8789	Landscape Restoration Workshop	3
<b>Credit Hours</b>		<b>3</b>
<b>Fall</b>

LARC 8644	Professional Practice	3
LARC 9995	Capstone Restoration Design Project	3
<b>Credit Hours</b>		<b>6</b>
<b>Total Credit Hours</b>		<b>70</b>

1

These three courses (8 credits) are co-requisites and must be taken together.

2

These two courses (7 credits) are co-requisites and must be taken together.

3

Students working toward the first professional degree select one 3-credit elective in consultation with a Landscape Architecture advisor.

**Internship:** All students work with a local or regional client as part of the Capstone Course (LARC 9995 Capstone Restoration Design Project).

### Culminating Event:

#### Capstone Course:

All students must complete LARC 9995 Capstone Restoration Design Project, which involves undertaking a project in cooperation with a local or regional client. Students synthesize the knowledge gained from previous courses in developing an integrated approach appropriate to their project.

## Metals/Jewelry/CAD-CAM MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Metals/Jewelry/CAD-CAM.

### About the Program

The Metals/Jewelry/CAD-CAM program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree. The program at Tyler is an innovator in the field, providing students access to the latest technology and thinking, extensive tools and personal mentorship. These resources enable students to develop an excellent portfolio and be a well-prepared professional in the field.

Tyler offers MFA students access to state-of-the-art facilities; faculty leaders in the discipline; numerous visiting artists; support opportunities for research and travel to national conferences; the resources of a large public research university; and a welcoming and supportive community of artists, educators and thinkers. Tyler MFA students take advantage of faculty and alumni relationships in the art and craft world and the school's location in Philadelphia, a vibrant art center with a strong craft tradition, to grow their creative practices and businesses.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** MFA students are encouraged to expand their studies into other disciplines and utilize the many areas of expertise within the Tyler School of Art and Architecture. Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world.

**Study Abroad:** Tyler MFA students may pursue summer study abroad opportunities at Temple's Japan Campus and Temple University Rome to expand their studies in a global context.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** Students explore a broad range of approaches to the field, including traditional metalsmithing skills, extensive and experimental use of digital fabrication technologies, large-scale electroforming, casting and laser welding.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists, craftspersons, designers and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

### Admission Requirements and Deadlines

#### Application Deadline:

*Fall:* January 6

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

#### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

#### Coursework Required for Admission Consideration: 40

undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and a portfolio specific to Metals/Jewelry/CAD-CAM are required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Tyler's program, research goals, future career goals, and academic and artistic achievements.

#### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the appropriate department chairperson and the Vice Dean, up to 9 credits of graduate work may be transferred into the MFA program as Art History or Studio electives. Only credits received within five years of the transfer request are eligible. No decisions are made concerning transfer credits until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

Number of Credits Required to Earn the Degree: 60

Required Courses:

Code	Title	Credit Hours
<b>Project and Seminar Courses</b>		
ART 8004	Critique and Critical Discourse I (2 terms)	6
ART 8005	Critique and Critical Discourse II (2 terms)	6
ART 8403/8404	Graduate Projects: Metals I (4 terms) <sup>1</sup>	12
ART 9991	Directed Studio Practice (3 terms)	9
<b>Art History Courses</b> <sup>2</sup>		<b>9</b>
<b>Electives</b> <sup>3</sup>		<b>15</b>
<b>Culminating Course</b>		
ART 9995	Master of Fine Arts Thesis	3
<b>Total Credit Hours</b>		<b>60</b>

1

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Students select three courses in Art History at the 5000 level or higher. Of these, ARTH 8402 Introduction to Critical Thinking and Practice is required, as is one Art History Seminar. Students may choose from the full range of graduate ARTH offerings for their third course.

3

Students must earn 3 credits in a studio elective and 3 credits in a professional practice experience course. Professional practice courses are offered in a range of fields such as Arts Management, Community Arts, and Teaching in Higher Education. The professional practice requirement may also be fulfilled by other courses with the approval of the Graduate Director. For the remaining 9 credits of electives, students complete coursework within the Tyler School of Art and Architecture. Students may enroll in courses in other Temple University schools and colleges, provided that coursework complements a particular research interest and has been preapproved by their advisor and the Graduate Director.

### Culminating Event:

*Thesis Exhibition:*

An approved thesis exhibition, with a written statement of working philosophy and slide and/or CD portfolio, is required at the final review in order to meet the MFA requirements. The thesis exhibition should be the fruit of the two years' studio research and practice in which the student engaged. The student defends their thesis exhibition to the review committee. The committee then evaluates the exhibition as pass with distinction, pass or fail.

## Painting MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Painting.

## About the Program

The Painting program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree. The program, which is ranked among the top 15 MFA programs in the nation by *U.S. News & World Report*, offers students access to unparalleled facilities and strong, personal mentorship.

With eight faculty members devoted to 16 MFA students, Tyler Painting provides something that few other top programs can give their students: substantial, engaged, one-on-one access to a diversity of painters and thinkers. The breadth and interdisciplinary nature of the Tyler approach is reinforced by exposure to practicing faculty artists in the school's other programs and its visiting artist and lecture series, which brings leading minds to Tyler to interact with graduate students.

Tyler MFA students take advantage of the school's location in Philadelphia, a vibrant art center and affordable home base near New York and Washington, D.C., to grow their creative practices. Graduates join an alumni community that includes highly accomplished and influential artists and teachers.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Tyler's rigorous Painting curriculum supports the development of a personal vision rooted in a deep knowledge of materials and techniques augmented by bold experimentation and study of the history of art. Students participate in Art History courses, seminars, studio electives, time with visiting artists and gallery visits, all of which reinforce the program's emphasis on cross-disciplinary interaction and practice.

**Study Abroad:** Tyler Painting students have the opportunity to study abroad for a semester or a year at Temple University Rome, a home base for artistic, academic and cultural exploration for Tyler students since 1966.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** We encourage independent artistic exploration and development in an atmosphere of free and open exchange between students and professionally active faculty. Our aim is to produce artists who will be creatively active throughout their lives, enriching their communities in many different capacities.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists, craftspersons, designers and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## **Photography MFA**

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Photography.

### **About the Program**

The Photography program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree. The program offers students close mentorship, top facilities and interdisciplinary approaches, drawing on the resources available in Tyler's broad range of studio art programs as well as its architecture and environmental design programs. Whether students want to make bold moves into other disciplines through the lens of photography or be trained as classic still photographers, the breadth of faculty expertise and programs at Tyler offers a pathway, guided by one-on-one attention from faculty.

Students have access to both the resources of a large public research university and the warmth, support and spirit of collaboration that has come to define the Tyler Photography community. Tyler MFA students take advantage of faculty and alumni relationships in the photography and art world and the school's location in Philadelphia, a vibrant art center with a pioneering photographic tradition, and its proximity to New York and Washington, D.C., to grow their creative practices and careers.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Tyler students expand their technical and conceptual approaches to their work through studio and seminar classes, and become actively involved in the broader art community by curating an ongoing series of exhibitions by established and emerging artists. Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world.

**Study Abroad:** Students may elect to spend one of the two years of the program at Temple University Rome, a home base for immersive artistic, academic and cultural exploration for Tyler students since 1966.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** The Photography area houses studios that facilitate the use of various creative approaches to the medium, including black-and-white printmaking, critical theory, experimental and digital imaging, handmade cameras, historical processes, large-format photography, offset production, professional digital color and career options for artists.

**Job Prospects:** The MFA program prepares graduates for careers as professional photographers and educators. MFA graduates also explore the many fields of applied art and act as curators, critics and researchers.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

## Printmaking MFA

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the Master of Fine Arts in Printmaking.

## About the Program

The Printmaking program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree. Tyler Printmaking, a leading program for mentorship and critical thought in the discipline, is ranked as one of the top programs in the nation among MFA printmaking programs by *U.S. News & World Report*.

Tyler offers MFA students access to world-class faculty in a wide range of disciplines, all practicing artists themselves; private studios; state-of-the-art facilities; leading visiting artists; opportunities to attend New York Print Week and other national conferences; the resources of a large public research university; and a welcoming and supportive community of artists, educators and thinkers. Tyler MFA students take advantage of faculty and alumni relationships in the art world and the school's location in Philadelphia, a vibrant art center with a strong printmaking tradition, to grow their creative practices and businesses.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Students explore a broad range of approaches to the field, including digital print media, large-scale printmaking, photo processes, 3-D installation and traditional printmaking disciplines. MFA students are encouraged to stretch their study into other disciplines. Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world.

**Study Abroad:** MFA students may elect to spend one of the two years of the program at Temple University Rome, a home base for immersive artistic, academic and cultural exploration for Tyler students since 1966. As space is limited, faculty approval is required.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** The Printmaking area encompasses facilities for silkscreen, lithography and etching. MFA candidates work with faculty who are actively exhibiting professional artists. The faculty encourage the exploration of advanced printmaking techniques with full digital support and access to rapid prototyping tools.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

Learn more about the Master of Fine Arts in Sculpture.

### About the Program

The Sculpture program at the Tyler School of Art and Architecture is a two-year, 60-credit program leading to the Master of Fine Arts (MFA) degree. It offers personal mentorship from faculty and visionary visiting artists in state-of-the-art facilities and encourages experimentation with media, interdisciplinary projects and public art to ignite social change.

Tyler Sculpture represents a small, supportive cohort of dynamic artists. The program's intensive, exploratory approach to sculpture, including material-based, film and video, sound, performance, large-scale architectural installation and time-based media, offers students exciting opportunities for collaboration and discourse with Tyler's entire faculty and MFA community, as well as access to all of Tyler's specialized shops.

Located in Philadelphia, an affordable city close to New York, Tyler offers MFA students opportunities to immerse themselves in a vibrant contemporary art scene and urban landscape at the intersection of art and social practice. It is an ideal home base for students to creatively address real-world problems and directly impact communities. A Tyler Sculpture MFA degree prepares graduates to be practicing artists and educators at colleges and universities.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time status is required.

**Interdisciplinary Study:** Tyler Sculpture's rigorous curriculum emphasizes mentorship, interdisciplinary study, experimentation and research to enrich practice and create theoretical, philosophical and concrete links between art and society. Through Art History classes, electives and seminars, students are engaged in emerging topics in the field and the broader art world.

**Study Abroad:** Tyler MFA students may pursue study abroad opportunities at Temple's Japan Campus and Temple University Rome to expand their studies in a global context.

**Accreditation:** This degree program is accredited by the National Association of Schools of Art and Design (NASAD).

**Areas of Specialization:** Courses provide a framework to develop individual creative practices and professional goals within a community of peers. The faculty to student ratio of two full-time Sculpture professors to eight graduate students provides a supportive learning environment, while encouraging a spirit of friendly competition. The professors are actively exhibiting artists with differing aesthetics and are able to provide mentorship in a range of areas within sculptural practice. Graduate students are selected to represent a diversity of sculptural approaches.

**Job Prospects:** The MFA program prepares graduates for careers as professional artists and educators.

**Non-Matriculated Student Policy:** MFA courses are restricted to matriculated students.

**Financing Opportunities:** In addition to federal student aid, teaching assistantships and fellowships are available on a competitive basis to support Tyler MFA students.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* January 6

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members, gallery directors and/or curators familiar with the applicant's academic competence and abilities in the professional visual arts. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** 40 undergraduate studio credits and 12 art history credits are required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree and a documented portfolio of sculptural work are required. A wide range of media/disciplines may be appropriate, including IE-traditional and mixed sculptural media, performance, installation and time/sound-based media. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Tyler's program, research goals and philosophy of work, future career goals, and academic and artistic achievements.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** As a Master of Fine Arts applicant, you must submit a portfolio that consists of 20 images representative of the immediate direction of your work. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the appropriate department chairperson and the Vice Dean, up to 9 credits of graduate work may

be transferred into the MFA program as Art History or Studio electives. Only credits received within five years of the transfer request are eligible. No decisions are made concerning transfer credits until students have successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree: 60*

*Required Courses:*

Code	Title	Credit Hours
<b>Project and Seminar Courses</b>		
ART 8004	Critique and Critical Discourse I (2 terms)	6
ART 8005	Critique and Critical Discourse II (2 terms)	6
ART 8883	Graduate Projects: Sculpture I (4 terms) <sup>1</sup>	12
ART 9991	Directed Studio Practice (3 terms)	9
<b>Art History Courses</b> <sup>2</sup>		<b>9</b>
<b>Electives</b> <sup>3</sup>		<b>15</b>
<b>Culminating Course</b>		
ART 9995	Master of Fine Arts Thesis	3
<b>Total Credit Hours</b>		<b>60</b>

1

Courses are sequenced to be taken in the Fall and Spring terms. The sequence is repeated a second year for a total of four courses taken over four terms.

2

Students select three courses in Art History at the 5000 level or higher. Of these, ARTH 8402 Introduction to Critical Thinking and Practice is required, as is one Art History Seminar. Students may choose from the full range of graduate ARTH offerings for their third course.

3

Students must earn 3 credits in a studio elective and 3 credits in a professional practice experience course. Professional practice courses are offered in a range of fields such as Arts Management, Community Arts, and Teaching in Higher Education. The professional practice requirement may also be fulfilled by other courses with the approval of the Graduate Director. For the remaining 9 credits of electives, students complete coursework within the Tyler School of Art and Architecture. Students may enroll in courses in other Temple University schools and colleges, provided that coursework complements a particular research interest and has been preapproved by their advisor and the Graduate Director.

### Culminating Events:

*Thesis Exhibition:*

An approved thesis exhibition, with a written statement of working philosophy and slide and/or CD portfolio, is required at the final review in order to meet the MFA requirements. The thesis exhibition should be the fruit of the two years' studio research and practice in which the student engaged. The student defends their thesis exhibition to the review committee. The committee then evaluates the exhibition as pass with distinction, pass or fail.

## Graduate Certificate: Community Arts Practices

TYLER SCHOOL OF ART AND ARCHITECTURE

### About the Certificate

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

## Graduate Certificate: Health Facilities Planning

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the graduate certificate in Health Facilities Planning.

### About the Certificate

The graduate certificate in Health Facilities Planning is a collaboration between the Tyler School of Art and Architecture and the College

of Public Health. The program offers coursework in health facilities planning and in public health so that students can understand the relationship between health management and health facilities. The required workshop course gives students the opportunity to work together in a classroom setting on academic projects that are best addressed through interdisciplinary collaborative work. This gives students a taste of the work environment in healthcare management and facilities planning.

Undertaking the graduate certificate in Health Facilities Planning allows students to:

- build a knowledge base about healthcare facilities in pursuit of a career in healthcare management;
- increase collaborative practice skills to be better prepared for the complex working environment in the facilities management industry; and
- better articulate healthcare facility planning needs through knowledge of jobs and goals of partners in the workplace environment.

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact Tyler School of Art and Architecture's admissions advisor for more information.

**Non-Matriculated Student Policy:** To register for certificate courses as a non-matriculated student, please visit Tyler School of Art and Architecture's Non-Matriculating Students webpage found at <https://tyler.temple.edu/non-matriculating-students>.

## Admission Requirements and Deadlines

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate: 12*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ARCH 5013	Facilities for Health Workshop 1	3
ARCH 5131	Form and Function in Health and Environments	3
HIM 5112	Health Information Systems: Design and Decision Making	3

## Graduate Certificate: Sustainable Community Planning

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the graduate certificate in Sustainable Community Planning.

### About the Certificate

The graduate certificate in Sustainable Community Planning is available to non-matriculated students and students in other Temple University graduate programs, with the approval of their graduate advisor. The courses introduce students to the broad range of issues and topics relevant to planning for the sustainable development of our cities and regions. Elective courses provide the opportunity to deepen knowledge and training in specific areas of sustainability and environmental planning. Undertaking the graduate certificate in Sustainable Community Planning allows students to:

- understand the discourse of theory and practice of sustainable development at the local, regional and global levels;
- develop indicators to monitor and evaluate the sustainability of site, community and regional actions, plans and designs;
- recognize models of sustainability and know how to use such models to inform their professional practice; and
- understand how to incorporate sustainability principles into planning practice to address the interrelationships between social, economic and environmental factors.

This certificate meets the needs of public and private sector employees who work to improve the sustainability of neighborhoods, cities and

regions and to address the adverse impacts of climate change without academic degrees in planning.

**Campus Location:** Main and Center City

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact Tyler School of Art and Architecture's admissions advisor for more information.

**Non-Matriculated Student Policy:** To register for certificate courses as a non-matriculated student, please visit Tyler School of Art and Architecture's Non-Matriculating Students webpage found at <https://tyler.temple.edu/non-matriculating-students>.

## Admission Requirements and Deadlines

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate:* 12<sup>1</sup>, plus a prerequisite course in Environmental Planning<sup>2</sup>

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
CTRP 5256	Sustainable Community Design and Development	3
CTRP 8276	Regional Development	3
<b>Electives</b>		
Select two from the following: <sup>3</sup>		6
CTRP 8155	Ecological Planning and Development	
CTRP 8156	Neighborhoods, Cities, and Regions	
CTRP 8255	Sustainability in Suburban Communities	
CTRP 8257	Environmental Policy	
CTRP 8266	Sustainable Business Practices	
CTRP 8355	Environmental Infrastructure Planning and Management	
CTRP 8476	Collaborative Planning	
CTRP 8755	Introduction to Emergency Management Planning	
<b>Total Credit Hours</b>		<b>12</b>

1

Students matriculated in the MS in City and Regional Planning program may elect to take the certificate courses as a transcribed concentration within the MS degree. Other graduate students matriculated at Temple University may take certificate classes as electives for their program with the approval of their program advisor.

2

The prerequisite in Environmental Planning may be taken concurrently with the required courses for the certificate. Students complete this prerequisite by taking CTRP 2213 Environmental Planning (3 s.h.) or CTRP 8213 Environmental Planning (3 s.h.); by demonstrating that comparable undergraduate or graduate coursework has already been completed; or through self-study that achieves the stated course competencies of CTRP 2213 or CTRP 8213.

3

For one elective, students may substitute a relevant 3-credit CTRP graduate course selected in consultation with a department advisor or chair.

**GPA Required to be Awarded the Certificate:** 3.0 minimum

## Graduate Certificate: Transportation Planning

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the graduate certificate in Transportation Planning.

### About the Certificate

The graduate certificate in Transportation Planning is available to non-matriculated students and students in other Temple University graduate programs, with the approval of their graduate advisor. The courses introduce the broad range of issues and topics relevant to transportation planning and the specific relationships between transportation planning and land use planning. Through elective courses, the certificate also provides the opportunity for students to deepen knowledge and training in specific areas of transportation planning. Undertaking the graduate certificate in Transportation Planning allows students to develop:

- knowledge of the key contemporary transportation and travel behavior challenges facing transportation planners and engineers;
- critical thinking skills to address these challenges and analyze important debates in the field; and
- familiarity with and basic competence in transportation planning methodologies.

This certificate meets the needs of public and private sector employees who work in the field of transportation planning without academic degrees in transportation planning or transportation engineering.

**Campus Location:** Main and Center City

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. ## Post-Master's Certificate: Teaching Art Education

TYLER SCHOOL OF ART AND ARCHITECTURE

Learn more about the post-master's certificate in Teaching Art Education.

## About the Certificate

The post-master's certificate in Teaching Art Education is a NASAD-accredited program that allows students to pursue Pennsylvania certification in art, grades Kindergarten through 12. The certificate program offers a pathway for those holding the MFA degree, as well as those with an MEd degree and a fine arts background, to add art teaching credentials to their professional portfolio. Students are evaluated by cooperating teachers and supervisors through two field placements in local schools. Journals, lesson planning, art making, curriculum development and a capstone exhibition of the work of their students are key elements of the certificate program.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs. The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students not only learn how to teach art and grow as artists, but they also learn how to effect positive change in the communities where they work.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a full- or part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact Tyler School of Art and Architecture's admissions advisor for more information.

**Accreditation:** The Tyler School of Art and Architecture is accredited by the National Association of Schools of Art and Design (NASAD).

**Job Prospects:** The certificate program is dedicated to producing well-trained art teachers.

**Licensure/Certification:** Teacher certification is the process used in the United States to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the *Praxis*® exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. See <https://www.education.pa.gov/Educators/Certification/BecomeAnEducator/Pages/ACPSpecialty.aspx>. Completion of Temple University's Teaching Art Education post-master's certificate satisfies the necessary requirements for graduates to sit for the *Praxis*® Core Academic Skills for Educators, *Praxis*® Subject Assessments, and *Praxis*® Fundamentals.

For certification in some states, students may need to take the *Praxis*® Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

**Non-Matriculated Student Policy:** Only certain courses are available to non-matriculated graduate students. Please contact the Department of Art Education and Community Arts Practices for more information.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 6

*Spring:* November 1

All applications are evaluated together after deadline date. Applicants must meet the January 6 priority deadline to be considered for financial assistance. After January 6, applications may be considered on a rolling basis.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty, art teachers or supervisors, and curators or gallery directors familiar with the applicant's academic and artistic competence. The letters should be submitted with the application at <https://apply.temple.edu/Tyler/>, along with the statement of goals and resume.

**Coursework Required for Admission Consideration:** Applicants must have an undergraduate degree, 40 undergraduate studio credits, and 9 art history credits.

**Master's Degree in Discipline/Related Discipline:** An MFA degree in Art is required. An MEd degree, complemented by a fine arts background, is also accepted.

**Bachelor's Degree in Discipline/Related Discipline:** A degree in Art or Art Education is required. Official transcripts from all universities/colleges attended, whether or not a degree was awarded, must be sent to the Tyler School of Art and Architecture, Graduate Admissions Office, 2001 N. 13th Street, Philadelphia, PA 19122-6016.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program in particular, future career goals, and academic and artistic endeavors and achievements.

### Standardized Test Scores:

GRE: Scores should be in the 50th percentile or higher on the verbal and/or analytical sections. Students with concerns about scores should contact the Chair of the Department of Art Education and Community Arts Practices.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Portfolio:** Applicants must submit a portfolio that consists of 20 images representative of their range of experience and the immediate direction of their work. Include a variety of drawings. Portfolios are to be uploaded at <https://temple.slideroom.com>, as instructed at the website. SlideRoom requires an additional fee for this service. Original work, slides, CD-ROMs, catalogs, photographs, books and/or binders are not acceptable substitutes for the SlideRoom portfolio and will not be reviewed or returned.

**Resume:** Current resume required.

**Transfer Credit:** Upon approval of the Art Education Program Director, the student's advisor, and the Associate Dean, up to 9 credits of graduate work completed at Temple University within a five-year period may be transferred into the program. Up to 6 credits of graduate coursework taken at other accredited institutions within the prior five years before matriculation may be considered for transfer into the program after the student has enrolled. No decisions are made until a student has successfully completed 15 matriculated credits at Tyler. The maximum number of credits a student may transfer is 9.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate:* 21<sup>1</sup>

215-777-9264

1

The post-master's certificate program in Teaching Art Education of 21 credits, along with successful completion of the state-required *Praxis*® Fundamental Subjects: Content Knowledge exam and *Praxis*® Art: Content Knowledge exam, fulfills all of the requirements for Pennsylvania State Certification in Art for Kindergarten through grade 12. Pennsylvania Teaching Certification is awarded to U.S. citizens only.

2

ARTE 8003 is only recommended for students who have a particular interest in Art Education Research. The course is designed mainly for MEd students preparing for thesis research.

**GPA Required to be Awarded the Certificate:** 3.0 minimum

**Internship:** An internship is required when seeking Teaching Certification.

**Culminating Event:**

*Artwork Exhibition:*

At the end of the final term, students present a capstone exhibition of their students' work.

## Fox School of Business and Management

The vision of Temple University's Fox School of Business and Management is to transform student lives, develop leaders, and impact our local and global communities through excellence and innovation in education and research.

The Fox School's research institutes and centers, as well as 275 full- and part-time faculty, provide access to market-leading technologies and foster a collaborative and creative learning environment that offers more than a standard curriculum: *it offers an experience*. Coupled with its leading student services, the Fox School ensures that its graduates are fully prepared to enter the job market.

The flexibility and responsiveness of our innovative research faculty allow the school to address the needs of the industry and generate courses and programs in emerging fields. As a leader in business research, the Fox School values interdisciplinary approaches and translational research that influence and impact real-world problems. Our research informs an adaptive curriculum, supports innovation in teaching, and prepares students for the ever-changing business environment.

### Graduate Faculty

*Aleksi Aaltonen*, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, London School of Economics.

*Edoardo Airoidi*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Carnegie Mellon University.

*Ronald C. Anderson*, Professor, Department of Finance, Fox School of Business and Management; PhD, Texas A and M University.

*Lynne M. Andersson*, Associate Professor, Department of Management, Fox School of Business and Management; PhD, University of North Carolina at Chapel Hill.

*Sezgin Ayabakan*, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, University of Texas at Dallas.

*Xue Bai*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Carnegie Mellon University.

*Gurdip Bakshi*, Marvin Wachman Professor, Department of Finance, Fox School of Business and Management; PhD, University of Wisconsin-Madison.

*Steven Balsam*, Professor, Department of Accounting, Fox School of Business and Management; PhD, City University of New York.

*Rajiv Banker*, Professor and the Stanley Merves Chair in Accounting, Information Technology and Management, Department of Accounting, Fox School of Business and Management; DBA, Harvard University.

*Sudipta Basu*, Professor, Department of Accounting, Fox School of Business and Management; PhD, University of Rochester.

*Konstantin Bauman*, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, Moscow State University.

*Gary J. Blau*, Professor, Department of Management, Fox School of Business and Management; PhD, University of Cincinnati.

*Jeffrey R. Boles*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, University of California Berkeley.

*Dmitri Byzalov*, Associate Professor, Department of Accounting, Fox School of Business and Management; PhD, Harvard University.

*Yiwei Chen*, Assistant Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Massachusetts Institute of Technology.

*J. Jay Choi*, Laura H. Carnell Professor, Department of Finance, Fox School of Business and Management; PhD, New York University.

*Benjamin Collier*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, University of Kentucky.

*John R. Deckop*, Professor, Department of Management, Fox School of Business and Management; PhD, University of Minnesota.

*C. Anthony Di Benedetto*, Professor, Department of Marketing, Fox School of Business and Management; PhD, McGill University.

*Yuxiao Dong*, Associate Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, The Pennsylvania State University.

*Leora F. Eisenstadt*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; JD, New York University School of Law.

*Enrique A. Gomez*, Assistant Professor, Department of Accounting, Fox School of Business and Management; PhD, University of Georgia.

*Elizabeth A. Gordon*, Professor, Department of Accounting, Fox School of Business and Management; PhD, Columbia University.

*Martin Grace*, Harry Cochran Professor in Risk, Insurance and Healthcare Management, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, University of Florida.

*Terry Ann Halbert*, Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; JD, Rutgers University.

*Crystal M. Harold*, Associate Professor, Department of Management, Fox School of Business and Management; PhD, George Mason University.

*Samuel D. Hodge Jr.*, Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; JD, Temple University.

*Brian C. Holtz*, Associate Professor, Department of Management, Fox School of Business and Management; PhD, George Mason University.

*Leila Hosseini*, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, University of Texas at Dallas.

*Alan J. Izenman*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, University of California Berkeley.

*Jaehwuen Jung*, Assistant Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, University of Minnesota.

*Vishesh Karwa*, Assistant Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, The Pennsylvania State University.

*Guangwen Kong*, Associate Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, University of Southern California.

*Jagannathan Krishnan*, Professor, Department of Accounting, Fox School of Business and Management; PhD, The Ohio State University.

*Jayanthi Krishnan*, Professor, Department of Accounting, Fox School of Business and Management; PhD, The Ohio State University.

*Ravi S. Kudesia*, Assistant Professor, Department of Management, Fox School of Business and Management; PhD, Washington University in St. Louis.

*Subodha Kumar*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, University of Texas at Dallas.

*James M. Lammendola*, Associate Professor of Practice, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; JD, University of Tulsa College of Law.

*Kuang-Yao Lee*, Assistant Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, The Pennsylvania State University.

*Yan Li*, Associate Professor, Department of Finance, Fox School of Business and Management; PhD, Cornell University.

*Xueming Luo*, Charles E. Gilliland, Jr. Professor in Marketing, Department of Marketing, Fox School of Business and Management; PhD, Louisiana Tech University.

*Munir Y. Mandviwalla*, Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, Claremont Graduate University.

*Connie Xiangdong Mao*, Professor, Department of Finance, Fox School of Business and Management; PhD, Cornell University.

*Kenichiro McAlinn*, Assistant Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Duke University.

*John A. McClendon*, Associate Professor, Department of Management, Fox School of Business and Management; PhD, University of South Carolina.

*Thorsten P. Moenig*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, Georgia State University.

*Solon Moreira*, Assistant Professor, Department of Management, Fox School of Business and Management; PhD, Copenhagen Business School.

*Shreeram R. Mudambi*, Frank M. Speakman Professor of Strategic Management, Department of Management, Fox School of Business and Management; PhD, Cornell University.

*Lalitha Naveen*, Associate Professor, Department of Finance, Fox School of Business and Management; PhD, Arizona State University.

*In-Sue Oh*, Professor, Department of Management, Fox School of Business and Management; PhD, University of Iowa.

*Min-Seok Pang*, Associate Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, University of Michigan.

*Hyun Jong Park*, Assistant Professor, Department of Accounting, Fox School of Business and Management; PhD, University of Florida.

*Arvind Parkhe*, Laura H. Carnell Professor, Department of Management, Fox School of Business and Management; PhD, Temple University.

*Shaojun Qin*, Assistant Professor, Department of Marketing, Fox School of Business and Management; PhD, University of Minnesota.

*Yue Qui*, Assistant Professor, Department of Finance, Fox School of Business and Management; PhD, University of Minnesota.

*Crystal Reeck*, Assistant Professor, Department of Marketing, Fox School of Business and Management; PhD, Duke University.

*Samuel Rosen*, Assistant Professor, Department of Finance, Fox School of Business and Management; PhD, University of North Carolina at Chapel Hill.

*Edward C. Rosenthal*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Northwestern University.

*Abhishek Roy*, Assistant Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, University of Texas at Austin.

*Oleg Rytchkov*, Associate Professor, Department of Finance, Fox School of Business and Management; PhD, Massachusetts Institute of Technology.

*Sanat K. Sarkar*, Cyrus C.K. Curtis Professor in Statistics, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Calcutta University.

*Todd Schifeling*, Assistant Professor, Department of Management, Fox School of Business and Management; PhD, University of Michigan.

*Stuart M. Schmidt*, Professor Emeritus, Department of Management, Fox School of Business and Management; PhD, University of Wisconsin-Madison.

*Jonathan A. Scott*, Professor, Department of Finance, Fox School of Business and Management; PhD, Purdue University.

*Tianxiang (Tim) Shi*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, University of Waterloo.

*Indrajit Sinha*, Associate Professor, Department of Marketing, Fox School of Business and Management; PhD, University of Michigan.

*Joydeep Srivastava*, Professor, Department of Marketing, Fox School of Business and Management; PhD, University of Arizona.

*Minhui (Barbara) Su*, Assistant Professor, Department of Accounting, Fox School of Business and Management; PhD, University of Toronto.

*Chung (Jennifer) Won Tae*, Assistant Professor, Department of Management, Fox School of Business and Management; PhD, London School of Business.

*Vivek Tandon*, Assistant Professor, Department of Management, Fox School of Business and Management; PhD, University of Michigan.

*Cheng-Yong Tang*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Iowa State University.

*Jason Thatcher*, Milton F. Stauffer Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, Florida State University.

*Michael Valenza*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; JD, Temple University.

*Vinod Venkatraman*, Associate Professor, Department of Marketing, Fox School of Business and Management; PhD, Duke University.

*Krupa S. Viswanathan*, Associate Professor, Department of Risk, Actuarial Science, and Legal Studies, Fox School of Business and Management; PhD, University of Pennsylvania.

*Ryan M. Vogel*, Associate Professor, Department of Management, Fox School of Business and Management; PhD, University of Georgia.

*Monica Wadhwa*, Associate Professor, Department of Marketing, Fox School of Business and Management; PhD, Stanford University.

*Wei Wang*, Assistant Professor, Department of Accounting, Fox School of Business and Management; PhD, University of Missouri-Columbia.

*Sunil Wattal*, Professor, Department of Management Information Systems, Fox School of Business and Management; PhD, Carnegie Mellon University.

*William W. S. Wei*, Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, University of Wisconsin-Madison.

*Zhigen Zhao*, Associate Professor, Department of Statistics, Operations, and Data Science, Fox School of Business and Management; PhD, Cornell University.

## Accountancy MAcc

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Accountancy.

### About the Program

The Master of Accountancy program is designed for students who seek the CPA designation and a career in either public or private accounting. The MAcc curriculum builds on accounting undergraduate work and is focused on advanced-level accounting, auditing, data analytics, taxation and related technologies. Time to study and sit for the CPA exam is incorporated into the program's schedule, providing a practical timeline to pass all four parts of the CPA exam during the program. MAcc faculty and career development coaches work with students one-on-one to help identify the career opportunity that is best suited for each individual from among our close-knit recruiting partnerships with Big Four, national and regional public accounting firms, and industry partners.

**Time Limit for Degree Completion:** The Fox Master of Accountancy is designed to be completed in one year with full-time study or across two years if studying part-time. Graduate School guidelines allow up to six years, however, for completion of the master's degree.

**Campus Location:** Main, Center City, and Online

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The Fox Master of Accountancy is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates are typically hired by public accounting firms or the accounting industry.

**Non-Matriculated Student Policy:** Students who would like to pursue a Master of Accountancy degree who were not accounting majors while undergraduates may take six required prerequisite courses as a non-matriculated student at Temple University, if approved by the Director of the MAcc program. Non-matriculated students must earn a "B" or better in the following six courses for consideration:

Code	Title	Credit Hours
ACCT 2101	Financial Accounting	3
ACCT 2521	Cost Accounting	3
ACCT 3511	Intermediate Accounting I	3
ACCT 3512	Intermediate Accounting II	3

ACCT 3531	Federal Taxes on Income	3
ACCT 3596	Auditing	3

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program. The program also offers merit- and need-based scholarships to eligible admitted students.

### Admission Requirements and Deadlines

#### Application Deadline:

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

#### Letters of Reference:

*Number Required:* 1 (optional)

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Coursework Required for Admission Consideration:** Applicants must have completed the undergraduate accounting courses (or equivalent) identified below before undertaking MAcc coursework. Those who apply to the program while satisfying the prerequisite courses must complete these prerequisites with a grade of "B-" or better before final acceptance can be granted:

Code	Title	Credit Hours
ACCT 2101	Financial Accounting	3
ACCT 2521	Cost Accounting	3
ACCT 3511	Intermediate Accounting I	3
ACCT 3512	Intermediate Accounting II	3
ACCT 3531	Federal Taxes on Income	3
ACCT 3596	Auditing	3

**MAcc Summer Bridge Program:** Prospective students who have no previous accounting or business education may pursue a master's degree in Accountancy through the MAcc Summer Bridge program, which prepares students with the fundamental business background knowledge they need to succeed in the MAcc degree program.

Prerequisites for admission into the MAcc Summer Bridge program include successful completion of financial accounting at Fox or another accredited institution; self-study of introductory financial accounting through an approved online platform such as Coursera, which requires a certificate of completion; or the equivalent of financial accounting through the CLEP exam. This coursework is required:

Course	Title	Credit Hours
<b>Year 1</b>		
<b>Summer I</b>		
ACCT 2521	Cost Accounting	3
ACCT 3511	Intermediate Accounting I	3
<b>Credit Hours</b>		<b>6</b>
<b>Summer II</b>		
ACCT 3512	Intermediate Accounting II	3
ACCT 3531	Federal Taxes on Income	3
ACCT 3596	Auditing	3
<b>Credit Hours</b>		<b>9</b>
<b>Total Credit Hours</b>		<b>15</b>

Students who hold a four-year bachelor's degree from a regionally accredited college or university who complete the MAcc Summer Bridge program with at least a cumulative GPA of 3.0 and at least a "B-" in each of the required courses listed above are eligible to enroll in the MAcc program in the Fall term.

To determine if Fox's MAcc Summer Bridge program is right for you, contact Cory Ng, academic director of the Master of Accountancy program, at [cory.ng@temple.edu](mailto:cory.ng@temple.edu) or Chang Liu, associate director of graduate admissions, at [chang.liu@temple.edu](mailto:chang.liu@temple.edu).

The accounting prerequisite courses for the MAcc Summer Bridge program can be completed through the Office of Continuing Studies. To register for the courses, first-time Continuing Studies students must complete an online application. After completing the application, you will receive a message from [Cstudies@temple.edu](mailto:Cstudies@temple.edu) to schedule a Zoom meeting.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

**Standardized Test Scores:**

GMAT/GRE: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** Candidates are invited to interview in person or virtually. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MAcc program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:<sup>1</sup>*

Code	Title	Credit Hours
ACCT 5170	Special Topics	1
ACCT 5201	Advanced Studies in Financial Reporting	3
ACCT 5202	Enterprise Systems and Data Analytics	3
ACCT 5203	Professional Skills Development	3
ACCT 5204	Advanced Auditing and Assurance Services	3
ACCT 5205	Advanced Federal Taxation	3
ACCT 5206	Law Ethics & Regulations	3
ACCT 5207	Concepts and Analysis of Financial Statements	3
ACCT 5209	Taxes & Business Strategy	2
ACCT 5211	Advanced Data Analytics and Innovation in Accounting	3
ACCT 5287	Colloquium on Current Issues in Accounting Practice (3 terms)	3
<b>Total Credit Hours</b>		<b>30</b>

1

Each semester, a CPA review course is open to students in the full-time program to prepare them to sit for the various parts of the CPA exam:

- Financial Accounting and Reporting (FAR) is taken during the last two months of the Fall term.
- Regulation (REG) is taken during the last two months of the Spring term.
- Auditing and Attestation (AUD) is taken during the first two weeks of August, after the Summer term has ended.
- Business Environment and Concepts (BEC) is taken during the program. Students are encouraged to consult with the Academic Director for the recommended timing. After January 1, 2024, BEC is replaced with one of three disciplines: Business Analysis and Reporting (BAR), Information Systems and Controls (ISC), or Tax Compliance and Planning (TCP).

## Accounting and Financial Management MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

This program is not accepting applications for the 2023-2024 academic year.

## Actuarial Science MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Actuarial Science.

### About the Program

The Fox School of Business and Management has a longstanding tradition of preparing our students with the power to lead within the world of business. Actuaries specialize in the evaluation of insurance and financial risks and distinguish themselves through a combination of analytical skills, business acumen and professionalism. Temple's Actuarial Science MS program prepares students for a successful career in the field through its rigorous coursework and exceptional opportunities for professional development. Our curriculum covers multiple professional actuarial exams and can be tailored to students' interests and background.

We are recognized as a Center of Actuarial Excellence (CAE) by the Society of Actuaries (SOA) and as a Global Center of Insurance Excellence (GCIE) by the International Insurance Society. In 2020, we received the CAS University Award from the Casualty Actuarial Society. We participate in SOA's University Earned Credit (UEC) program, allowing students to earn credit for all five eligible actuarial exams (ALTAM, ASTAM, FAM, FM, SRM) through their coursework at Temple.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Actuarial Science is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** Actuaries hold positions of responsibility with consulting firms, government insurance programs, government regulatory organizations, insurance companies and investment banks. We help prepare students for these careers through our coursework and our extensive professional development opportunities, including an on-campus actuarial career fair and a resume book. The Fox Center for Student Professional Development (CSPD) provides students with additional career coaching and professional development resources that support the job search.

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

<b>Total Credit Hours</b>	<b>30</b>

## 1

If the student has passed an actuarial exam prior to taking its corresponding course, the course must be waived:

- Passing the ALTAM exam waives AS 5103 Advanced Long-Term Actuarial Modeling.
- Passing the ASTAM exam waives AS 5114 Advanced Short-Term Actuarial Modeling.
- Passing the FAM-L or LTAM exam waives AS 5102 Long-Term Actuarial Modeling.
- Passing the FAM-S or STAM exam waives AS 5104 Short-Term Actuarial Modeling.
- Passing the FM exam waives AS 5101 Theory of Interest.
- Passing the SRM exam waives AS 5108 Actuarial Analytics.

Any waived course is replaced by an elective from the list above. Alternately, students may, on a case-by-case basis, select another course to replace the waived course provided that the course has sufficient academic rigor, is beneficial to the student's career, and is approved by the Academic Director.

## 2

With prior approval from the Academic Director, students may select alternate courses as electives.

## 3

Selection of AS 5182 or AS 5191 requires prior approval from the Academic Director.

**Culminating Event:** Successful completion of coursework is required to earn the MS degree in Actuarial Science.

## Business Administration MBA

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Business Administration.

## About the Program

The Fox School of Business and Management MBA program prepares students to be collaborative leaders in organizations. The updated array of concentrations, including new STEM-certified MBA concentrations, provide learners with in-demand skills in Business Analytics, Finance, and Information Technology Management. We transform students into responsible, professional leaders through engagement with Fox communities, fostering the development of a commitment to lifelong learning, service, and the advancement of management practice.

The Fox MBA is one program available in a variety of completion options to meet the needs of learners:

- The Full-Time MBA is designed for early career professionals who seek career mobility and enhancement. The program is designed to be completed in as little as 17 months.
- The Part-Time MBA is ideal for working professionals looking to advance in their organization or to change careers. The program can be completed with maximum flexibility in a minimum of 17 months, although the average time to completion is three years.
- The Online MBA meets the needs of professionals seeking the rigor of a traditional MBA with the flexibility of online learning. The program can be completed in 24 months and requires only one week-long opening residency in Philadelphia.

**Time Limit for Degree Completion:** Temple University Graduate School guidelines allow for up to six years for completion of the master's degree.

**Campus Location:** Center City, Main, and Online

**Full-Time/Part-Time Status:** The MBA program can be completed on a full- or part-time basis. Registration for 9 credits or more in the Fall and Spring terms constitutes full-time study.

**Interdisciplinary Study:** Students seeking an MBA in a particular discipline complete electives in a specific concentration area. The Fox

MBA offers three STEM-certified concentration areas: Business Analytics, Finance, and Information Technology Management.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The Fox MBA is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Areas of Specialization:** Students work with an academic advisor regarding concentration requirements. Effective Fall 2023, Fox offers three STEM MBA programs. To complete an MBA concentration, 9 to 12 credits of upper-level elective coursework within the discipline are required. Program electives may be combined to complete any one of the concentrations identified below:

- Business Analytics (STEM)
- Finance (STEM)
- Health Sector Management
- Human Resource Management
- Information Systems and Digital Innovation
- Information Technology Management (STEM)
- Innovation Management and Entrepreneurship
- Marketing Management
- Sport Business
- Strategic Management

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides MBA students with career coaching and professional development resources that support student job search. Graduates of the Fox School MBA obtain jobs in a variety of industries, such as consulting, consumer products and services, energy/utilities, operations/logistics, financial services/banking, government, healthcare, industrial products and services, manufacturing, pharmaceuticals, telecommunications, and tourism/transportation.

**Non-Matriculated Student Policy:** Students with an undergraduate GPA of 3.0 or higher may take classes on a non-matriculated basis in the Online or Part-Time MBA programs. Non-matriculated students can take a maximum of 9 credits before being required to matriculate in the program. Students seeking to complete the program as a Full-Time MBA student are required to be matriculated in the program. For more information and an application, contact the Fox Graduate Admissions Office.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to Temple University alumni admitted to the program. The program also offers merit-based scholarships to eligible admitted students. Contact the Fox Graduate Admissions Office for information.

## Admission Requirements and Deadlines

### Application Deadline:

Full-time MBA applicants are admitted Fall term only. Applicants for the Part-Time MBA are admitted in the Fall and Spring terms. Applicants for the Online MBA are admitted in the Fall, Spring and Summer terms.

### Full-Time MBA Fall Admission Only:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

### Part-Time MBA Fall Admission:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

### Part-Time MBA Spring Admission:

- August 1 – Scholarship Deadline
- November 1 – Final Deadline

### Online MBA Fall Admission:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

### Online MBA Spring Admission:

- August 1 – Scholarship Deadline
- November 1 – Final Deadline

### Online MBA Summer Admission:

- February 15 – Scholarship Deadline
- March 31 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis. International students who miss the March 1 deadline for the Full-Time MBA are required to submit to Temple University an evaluation of their transcript(s) by an approved educational evaluation firm.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required:* 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Coursework Required for Admission Consideration:** No specific courses are required for admission, but two years of work experience are highly recommended.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal for Full-Time MBA, Part-Time MBA, and Online MBA applicants.

### Standardized Test Scores:

**GMAT/GRE:** Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MBA program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. Admitted students may request a course waiver application at the time of admission. Course waiver requests are reviewed as they are received by the Waiver Committee. The maximum number of credits a student may transfer/waive is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 48, including 36 core course credits and 12 credits of electives that may be combined in an area of concentration, if desired<sup>1</sup>

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ACCT 5001	Accounting for Managerial and Investment Analysis and Planning <sup>2</sup>	3
BA 5002	Socioeconomic Context of Business	3
BA 5687	Advanced Professional Development Strategies <sup>3</sup>	0
FIN 5001	Financial Analysis and Strategy <sup>2</sup>	3
HRM 5001	Leading Organizations	3
LGLS 5701	Legal and Ethical Foundations of Business	3
MIS 5001	Information Technology Management	3
MKTG 5001	Marketing Management/Strategy	3
MSOM 5001	Operations Management <sup>4</sup>	3
RMI 5051	Managing Risk	3
SGM 5051	Business Strategy in a Global Environment	3
STAT 5001	Quantitative Methods for Business <sup>2,4</sup>	3
<b>Concentration or Electives (see concentration areas below)</b>		<b>12</b>
<b>Capstone Course</b>		
BA 5287	Fox MBA Capstone Experience <sup>5</sup>	3
<b>Total Credit Hours</b>		<b>48</b>

1

To earn the STEM MBA, selection of a STEM-designated concentration is required.

2

ACCT 5001 Accounting for Managerial and Investment Analysis and Planning and STAT 5001 Quantitative Methods for Business are prerequisites that must be satisfactorily completed before FIN 5001 can be taken.

3

BA 5687 Advanced Professional Development Strategies is a requirement for students in the Full-time MBA program.

4

STAT 5001 Quantitative Methods for Business is a prerequisite that must be satisfactorily completed before MSOM 5001 Operations Management can be taken.

5

All core courses must be completed before the student enrolls in BA 5287, the capstone course.

Requirements for each of the 11 MBA concentrations are identified in the following course grids:

## Business Analytics

Code	Title	Credit Hours
STAT 5602	Visualization: The Art of Numbers and the Psychology of Persuasion	3
STAT 5607	Advanced Business Analytics	3
Select two STAT courses from the following:		6
STAT 5603	Statistical Learning and Data Mining	
STAT 5604	Experiments: Knowledge by Design	
STAT 5605	Decision Models: From Data to Decisions	
STAT 5606	Data: Care, Feeding, and Cleaning in Python	
<b>Total Credit Hours</b>		<b>12</b>

## Financial Management

Code	Title	Credit Hours
Select FIN courses totaling 12 credits from the following:		12
FIN 5134	Fintech, Blockchain and Digital Disruption	
FIN 5612	Asset Pricing	
FIN 5613	Derivative Valuation	
FIN 5615	Data Science in Finance	
FIN 5618	Corporate Value Management	
FIN 5623	Risk Measurement	
FIN 5628	Global Economy	
FIN 5632	Investment Management	
FIN 5637	Applied Corporate Finance	
FIN 5638	Behavioral Finance	
FIN 5647	Financial Reporting & Analysis	
FIN 5648	Quantitative Portfolios	
Other FIN courses at the 5000 level or higher <sup>1</sup>		
<b>Total Credit Hours</b>		<b>12</b>

1

Academic Director approval is required.

## Health Sector Management

Code	Title	Credit Hours
HCM 5101	Health Systems Organization and Development <sup>1</sup>	3
HCM 5102	Healthcare Organizational Leadership and Strategy <sup>2</sup>	3
HCM 5103	Financial Management of Healthcare Organizations <sup>3</sup>	3
RMI 5103	Health Risks	3
<b>Total Credit Hours</b>		<b>12</b>

1

HCM 5101 is required to be the first HCM course taken. Alternate course equivalents at 1.5 credits are HCM 5601 The Organizational Structure of the US Health System AND HCM 5602 Market Forces, Regulation and Policy in the US Health System.

2

HCM 5102 is required to be the final HCM course taken. Alternate course equivalents at 1.5 credits are HCM 5603 Population Health Management AND HCM 5651 Healthcare Leadership and Strategy.

3

Alternate course equivalents at 1.5 credits are HCM 5606 Financial Analysis and Managerial Accounting for Healthcare Organizations AND HCM 5607 Corporate Finance and Strategy in Healthcare.

## Human Resource Management

Code	Title	Credit Hours
HRM courses at the 5000 level or higher		9
Business Elective <sup>1</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Information Systems and Digital Innovation

Code	Title	Credit Hours
MIS 5101	Business Intelligence	3
MIS 5603	Social Media Innovation	3
MIS course at the 5000 level or higher		3
Business Elective <sup>1</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Information Technology Management

Code	Title	Credit Hours
Select four from the following: <sup>1</sup>		12
<b>Fall</b>		
MIS 5201	IT Audit Process	
MIS 5202	IT Governance	
MIS 5206	Protection of Information Assets	
<b>Spring</b>		
MIS 5203	Systems and Infrastructure Lifecycle Management <sup>1</sup>	
MIS 5205	IT Service Delivery and Support <sup>2</sup>	
MIS 5214	Security Architecture <sup>3</sup>	
<b>Total Credit Hours</b>		<b>12</b>

1

Students are responsible for completing prerequisites for concentration courses.

2

MIS 5201 IT Audit Process is a prerequisite for MIS 5205 IT Service Delivery and Support.

3

MIS 5206 Protection of Information Assets is a prerequisite for MIS 5214 Security Architecture.

## Innovation Management and Entrepreneurship

Code	Title	Credit Hours
SGM 5139	Lean Entrepreneurship / Innovation: Fast & Frugal Methods to Launch Startups & Test Innovative Ideas	3
SGM 5142	Business Model Innovation	3
Select one course from the following: <sup>1</sup>		3
SGM 5103	Management of Technology and Innovation	
SGM 5135	Innovation Intelligence: Plan, Build, Protect, and Monetize a Technology / Innovation Portfolio	
SGM 5137	Entrepreneurial Thinking and New Venture Creation	
SGM 5138	Global Innovation Strategy: Creating Agile, Innovative, Globally-Competitive Organizations	
SGM 5144	Creativity Unleashed: Harnessing Creativity to Solve Real-World Innovation Challenges	
SGM 5145	Plan, Pitch, and Fund an Entrepreneurial Start-Up	
SGM 5148	Open Innovation and Managing Strategic Alliances	
Business Elective <sup>2</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

New courses focused on innovation and entrepreneurship may be selected to fulfill this elective requirement. Academic Director approval is required.

2

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Marketing Management

Code	Title	Credit Hours
MKTG courses at the 5000 level or higher		9
Business Elective <sup>1</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Real Estate

Code	Title	Credit Hours
Select three from the following:		9
LGLS 5103	Real Estate Law and Practice	
RE 5101	Real Estate Finance and Capital Markets	
RE 5102	Enterprise Real Estate Asset Optimization	
RE 5105	Real Estate Valuation and Market Analysis	
Business Elective <sup>1</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Sport Business

Code	Title	Credit Hours
Select three from the following:		9
SRM 5211	Sport Finance and Economics	
SRM 5212	Legal Issues in Sport and Recreation	
SRM 5226	Consumer Behavior in Sport and Recreation	
SRM 5227	Sport Media and Communication	
SRM 5251	Introduction to Sport Analytics	
SRM 5252	Sport for Development	
SRM 5255	The Sport Workplace	
Business Elective <sup>1</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

## Strategic Management

Code	Title	Credit Hours
SGM courses at the 5100 level or higher OR		9
IB courses related to Strategic Management at the IB 5100 level or higher <sup>1</sup>		
Business Elective <sup>2</sup>		3
<b>Total Credit Hours</b>		<b>12</b>

1

Approval is required for the selection of IB courses.

2

5000-level business courses that are not required MBA core coursework may be selected as business electives. Students may choose 5000-level elective courses from the different disciplines within the Fox School of Business. Business electives from outside the Fox School must be preapproved by the student's Academic Director.

### Additional Requirements:

MBA candidates are required to complete three academic development and three professional development workshops. Workshops are delivered through a variety of modalities to meet various scheduling needs. Workshops change each academic term based on availability. Student participation is tracked electronically. Students are not permitted to register for their capstone course unless all professional development requirements have been met.

### For Full-Time MBA Students:

Full-time MBA candidates are required to complete a non-credit internship in the summer between their first and second year of study to better prepare them for the post-MBA job market. The internship exposes students to opportunities in their area of interest while expanding their professional networks. Internships are expected to be a minimum of 400 hours and should not exceed 1,000 hours during the Full-time MBA program of study.

### For Online MBA Students:

Online MBA candidates are required to participate in a five-day opening residency that can be completed in person or online, depending on the time of year. Residency includes networking, professional development and the first course of the program.

## Business Administration/ Accounting PhD

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Philosophy in Business Administration.

## About the Program

The PhD in Business Administration program, with a concentration in Accounting, prepares individuals for advanced research and scholarship. The primary emphasis of the program is to prepare future faculty members for successful academic careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Accreditation:** The PhD in Business Administration program, with a concentration in Accounting, is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program is primarily dedicated to producing well-trained researchers who will work in academic positions.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications, and other competitive considerations. Students may also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

### Standardized Test Scores:

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

## Program Requirements

### General Program Requirements:

Number of Credits Required to Earn the Degree: 48

Required Courses:<sup>1</sup>

Code	Title	Credit Hours
<b>Core Accounting Seminars</b> <sup>2</sup>		
	Math Preparation (August) non-credit	0
ACCT 9001	Interdisciplinary Accounting Research	3
ACCT 9002	Seminar in Financial Accounting Theory	3
ACCT 9011	Proseminar in Accounting	3
<b>Theory and Research Methods Courses</b>		
BA 9103	Econ Theory of Choice	3
BA 9105	Business Econometrics I	3
BA 9106	Business Econometrics II	3
BA 9108	Capital Markets Research	3
STAT 8112	Statistical Methods for Business Research I	3
<b>Electives</b>		
	Select six from the following: <sup>3</sup>	18
BA 9101	Getting Your Hands Dirty: The Craft of Data Management and Analysis	
BA 9104	Game Theory	
BA 9205	Information Economics	
BA 9209	Business Econometrics III	
MKTG 9006	Empirical Modeling in Marketing	
STAT 8108	Applied Multivariate Analysis I	
STAT 8113	Statistical Methods for Business Research II	
<b>Research Courses</b> <sup>4</sup>		
		6
BA 9994	Preliminary Examination Preparation	
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

With approval from the Concentration Director, students may repeat the ACCT 9011 proseminar or other Accounting concentration seminars in lieu of electives.

3

With approval from the Concentration Director, students may take other electives to match their research interests.

4

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

**Culminating Events:** A committed student can complete a PhD in Accounting in five years:

- Complete coursework in Accounting, Economics, Finance and Statistics in the first two and a half years.
- Take the competency exam in Economics and Statistics at the end of the first year.
- Present two research papers, typically in collaboration with one or more faculty, in the second and third years, later extending research presentations to national and international conferences.
- Take the Accounting PhD comprehensive exam at the end of the third year.
- Work on dissertation, revise and submit research papers to journals, and develop teaching skills during the fourth and fifth years.

## About the Program

The PhD in Business Administration program, with a concentration in Finance, prepares students for successful academic careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Accreditation:** The PhD in Business Administration program, with a concentration in Finance, is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program is primarily dedicated to producing well-trained researchers who will work in academic positions.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications, and other competitive considerations. Students may also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

### Standardized Test Scores:

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree: 48*

*Required Courses:<sup>1</sup>*

Code	Title	Credit Hours
<b>Core Courses</b>		
	Math Preparation (August) non-credit	0
BA 9103	Econ Theory of Choice	3
BA 9105	Business Econometrics I	3
BA 9106	Business Econometrics II	3
BA 9108	Capital Markets Research	3
BA 9203	Financial Economics	3
BA 9209	Business Econometrics III	3
STAT 8112	Statistical Methods for Business Research I	3
<b>Core Finance Seminars</b>		
FIN 9001	Corp Finance Theory	3
FIN 9002	Empirical Research in Corporate Finance	3
FIN 9005	Empirical Asset Pricing	3
FIN 9011	Proseminar in Finance	3
<b>Electives<sup>2</sup></b>		<b>9</b>
BA 9104	Game Theory	
BA 9205	Information Economics	
BA 9212	Seminar in Global Finance and Governance	
	or FIN 9004 Seminar in Global Finance and Governance	
<b>Research Courses<sup>3</sup></b>		<b>6</b>
BA 9994	Preliminary Examination Preparation	
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

The program of study may be individualized to a significant degree for the student's best professional and scholarly development. Recommended electives include BA 9205 and BA 9212 or FIN 9004. With approval from the Concentration Director, students may take other electives to match their research interests.

3

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

**Culminating Events:** A committed student can complete the Finance PhD in five years by adhering to the following schedule:

- Complete coursework in Economics, Finance and Statistics in the first two and a half years.
- Take the competency exam in Economics and Statistics at the end of the first year. See details in "Statistics Competency Examination" below.
- Complete and present two research papers at the end of the first and second year. See details under "Research Paper and Presentation Requirements" below.
- Take the Finance PhD comprehensive exam in the third year. See details for the "Comprehensive Examination" below.
- Work on dissertation, revise and submit research papers to conferences and journals, and develop teaching skills during the fourth and fifth years.

*Statistics Competency Examination:*

An assessment of proficiency in statistical theory and methodology is made at the end of the first year in the program. Students who fail the Statistics competency exam on the first attempt must sit for reexamination prior to the Fall term of their second year. A second failure results in dismissal from the program. No third attempt is permitted.

*Research Paper and Presentation Requirements:*

PhD students in Finance are required to complete a first-year research proposal by the end of September in the second year. They must also complete a research paper in their second year. The deadline for presentation of papers at the Finance Department's internal seminar is Fall of the third year. After each presentation, a committee of Finance faculty evaluate whether the student has completed the paper and presentation requirement with satisfaction.

*Comprehensive Examination:*

PhD students in Finance are required to pass a comprehensive exam in February of the third year. The exam is designed to test whether the student has a comprehensive and integrative understanding of the theories, methodologies and empirical findings in the field of finance. It primarily focuses on the knowledge gained in the concentration seminars and theory courses, although other pertinent materials may also be included in the comprehensive exam.

<b>Theory and Research Methods Courses</b>		
BA 9001	Organizations and Management Theory	3
BA 9002	Scientific Inquiry-Management Research	3
BA 9003	Seminar in Organizational Behavior	3
BA 9207	Quantitative Research Methods II	3
BA 9208	Quantitative Research Methods III	3
PSY 8011	Graduate Statistics I	3
STAT 8112	Statistical Methods for Business Research I	3
	Any other methods course <sup>3</sup>	3
<b>Elective</b>		
	Select one from the following: <sup>4</sup>	3
BA 9183	Directed Study in Business	
MKTG 9005	Seminar in Judgment and Decision Making	
<b>Research Courses</b> <sup>5</sup>		<b>6</b>
BA 9994	Preliminary Examination Preparation	
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

Students take HRM 9011 for a minimum of three credits, but may elect to take it for a total of six credits. Those who choose to complete the course for only three credits must substitute a three-credit elective for the remaining credits of HRM 9011.

3

Course selection must be approved by the Concentration Director.

4

The program of study may be individualized to a significant degree for the student's best professional and scholarly development. With approval from the Concentration Director, students may substitute another content/theory course that is relevant to their research program.

5

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

**Culminating Events:** Students are expected to complete formal coursework within five academic terms. They then spend the remainder of the program working toward successful completion of these programmatic milestones:

- A first- and second-year research paper
- A comprehensive examination requirement
- A dissertation proposal and defense
- A final dissertation and defense

**Culminating Events:** Students are expected to complete formal coursework within four academic terms. Additional benchmarks include:

- Take the qualifying exam in Statistics after the first year.
- Prepare the first-year research proposal by the end of the first year's Summer term.
- Complete the second-year paper requirement by the end of the second year's Summer term.
- Take the MIS preliminary exam by the end of the second year's Summer term. The purpose of the exam is to demonstrate critical and interpretive knowledge of current research in subject areas determined, in advance, by department faculty.
- Write and defend the dissertation proposal, which demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem.
- Write and defend the final dissertation, which is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

### Standardized Test Scores:

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

BA 9994	Preliminary Examination Preparation	
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

The program of study may be individualized to a significant degree for the student's best professional and scholarly development. With approval from the Concentration Director, students may take relevant coursework in quantitative methods, Psychology or Sociology to match their research interests.

3

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

**Additional Requirements:** A screening examination is required after completion of the first year of coursework. In addition, two research papers are required:

- The first research paper is written at the end of the first year of study. The objective is to demonstrate progress in developing research capabilities. The student is expected to show initiative in proposing a research idea and developing a research approach. In May, students present a preliminary version of the paper, receive faculty feedback, and then formally submit and present the paper in the Fall term of the second year.
- The second research paper is prepared following completion of the second year of study. The objective is to demonstrate research capability. This paper may be based on the first-year research paper and includes research motivation; literature review; conceptual model with research hypotheses; description of methodology, including operationalization of variables and research design; analysis; discussion of results; and specific contributions and implications for theory and practice.

In May of the second year, students present a preliminary version of the research paper, receive faculty feedback, and then formally submit and present the paper at the beginning of the Fall term of the third year. The second-year research paper, which should be publishable in a high-quality academic journal, must be successfully passed before the student can take the comprehensive exam.

#### Culminating Events:

#### *Comprehensive Examination:*

The purpose of the comprehensive examination is to demonstrate critical and interpretive knowledge of current research. The subject areas are determined, in advance, by the faculty of the department. The comprehensive exam should be completed no more than one term after the student completes the coursework component of the program. Students who are preparing to write their comprehensive examination should confirm a time and date with their departmental advisor.

Members of the student's department write the questions for the comprehensive exam. The student must answer every question on the examination in order to be evaluated by the Department Committee. The evaluators look for a breadth and depth of understanding of specific research areas, a critical application of that knowledge to specific phenomena, and an ability to write technical prose. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed.

#### *Proposal:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the following:

- the context and background surrounding a particular research problem;
- an exhaustive survey and review of literature related to the problem; and
- a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing coursework. Upon approval, a timeline for completing the investigation and writing process is established.

#### *Dissertation:*

The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the student's department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department.

If any member decides to withdraw from the committee, the student shall notify the Chair of the Dissertation Examining Committee and the PhD Managing Director. The student is responsible for finding a replacement, in consultation with the Chair. Inability to find a replacement shall constitute evidence that the student is unable to complete the

dissertation. In such a case, the student may petition the PhD Managing Director for a review. Once review of the facts and circumstances is completed, the Director will rule on the student's progress. If the Director rules that the student is not capable of completing the dissertation, the student will be dismissed from the program. This decision may be appealed to the Senior Associate Dean. If dismissed, the student may appeal to the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards the appropriate forms to the student. After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department posts flyers announcing the defense, and the Graduate School announces the defense on its website.

# Business Administration/ Operations and Supply Chain Management PhD

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Philosophy in Business Administration.

## About the Program

The PhD in Business Administration program, with a concentration in Operations and Supply Chain Management, prepares individuals for advanced research and scholarship. The primary emphasis of the program is to prepare future faculty members for successful academic careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Accreditation:** The PhD in Business Administration program, with a concentration in Operations and Supply Chain Management, is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program is primarily dedicated to producing well-trained researchers who will work in academic positions.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications, and other competitive considerations. Students may also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Accreditation:** The PhD in Business Administration program, with a concentration in Strategic Management, is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program is primarily dedicated to producing well-trained researchers who will work in academic positions.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications, and other competitive considerations. Students may also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

### Standardized Test Scores:

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0

- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

BA 9994	Preliminary Examination Preparation	6
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

The program of study may be individualized to a significant degree for the student's best professional and scholarly development. With approval from the Concentration Director, students may take other electives to match their research interests.

3

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

### Additional Requirements:

#### *Statistics Competency Examination:*

An assessment of proficiency in statistical theory and methodology is made at the end of the first year in the program. Students who fail the Statistics competency exam on the first attempt must sit for reexamination prior to the Fall term of their second year. A second failure results in dismissal from the program. No third attempt is permitted.

#### *Teaching Experience:*

Students are required to teach for at least one term.

### Culminating Events:

#### *Preliminary Examination:*

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge of current research. The subject areas are determined, in advance, by the faculty of the department. The preliminary exam should be completed no more than one term after the student completes the coursework component of the program. Students who are preparing to write their preliminary examinations should confirm a time and date with their departmental advisor.

The members of the student's department write the questions for the preliminary exam. The student must answer every question on the examination in order to be evaluated by the Department Committee. The evaluators look for a breadth and depth of understanding of specific research areas, a critical application of that knowledge to specific phenomena, and an ability to write technical prose. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed.

#### *Proposal:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem, an exhaustive survey and review of literature related to the problem, and a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing coursework. Upon approval, a timeline for completing the investigation and writing process is established.

#### *Dissertation:*

The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between

the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the student's department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department.

If any member decides to withdraw from the committee, the student shall notify the Chair of the Dissertation Examining Committee and the PhD Managing Director. The student is responsible for finding a replacement, in consultation with the Chair. Inability to find a replacement shall constitute evidence that the student is unable to complete the dissertation. In such a case, the student may petition the PhD Managing Director for a review. Once review of the facts and circumstances is completed, the Director will rule on the student's progress. If the Director rules that the student is not capable of completing the dissertation, the student will be dismissed from the program. This decision may be appealed to the Senior Associate Dean. If dismissed, the student may appeal to the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards to the student the appropriate forms. After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department posts flyers announcing the defense, and the Graduate School announces the defense on its website.

# Business Administration/Tourism and Sport PhD

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Philosophy in Business Administration.

## About the Program

The PhD in Business Administration program, with a concentration in Tourism and Sport, prepares individuals for advanced research and scholarship. The primary emphasis of the program is to prepare future faculty members for successful academic careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Affiliation(s):** The Tourism and Sport faculty are conducting research for the following agencies: Commonwealth of Pennsylvania, Greater Philadelphia Tourism Marketing Corporation, Greater Reading (PA) Convention and Visitors Bureau, Office of Travel and Tourism Industries, and Special Olympics of North America.

**Accreditation:** The PhD in Business Administration program, with a concentration in Tourism and Sport, is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program is primarily dedicated to preparing well-trained PhD graduates for faculty positions at universities that offer hospitality, recreation, sport and tourism degrees.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications, and other competitive considerations. Students may also

receive remuneration for conference travel, publications and academic achievement.

STHM 9982	Independent Research	
<b>Research Courses<sup>4</sup></b>		<b>6</b>
BA 9994	Preliminary Examination Preparation	
BA 9998	Pre-Dissertation Research	
BA 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Students require approval from their mentor and the Concentration Director for all course selections, including those dropped and/or added.

2

The program of study may be individualized to a significant degree for the student's best professional and scholarly development. Students and their mentor work together to ensure students take coursework to match their research interests. Courses may be chosen from departments other than those listed with the approval of the Concentration Director and the Business Administration PhD Program Director. Potential courses are offered in such programs as Accounting, Entrepreneurship, Finance, International Business, Risk Management and Insurance, and Strategic Management.

3

Recommended courses include STHM 9482 and STHM 9982. With approval from the Concentration Director, students may take other electives to match their research interests.

4

Of the 6 required research credits, a minimum of 2 credits of BA 9999 must be taken. The other 4 credits may be taken in any combination of BA 9994, BA 9998, and BA 9999. Given that 6 credits constitute the minimum requirement, additional credits may be needed to fulfill the degree program's culminating experiences. Doctoral students must maintain continuous enrollment from matriculation to graduation.

#### **Culminating Events:**

##### *Screening Examination:*

The screening exam ensures a student is making sufficient progress in theoretical and methodological development in the first year of study. A student must pass the screening exam in order to advance to the second year of the PhD program.

##### *Preliminary Examination:*

The preliminary exam is designed to test whether the student has a comprehensive and integrated understanding of the theories, methodologies and empirical findings in Tourism and Sport. Within six months of completing the required coursework, students must take and pass a preliminary examination. A Preliminary Examination Committee is formed based on the PhD-level Tourism and Sport courses and related cognate area of specialization that a student has taken. Students are encouraged to take the preliminary examination in the first academic term of the third year. Students who fail are allowed to sit for re-examination. A second failure results in automatic dismissal from the program. Third attempts are not allowed.

The preliminary exam for the Tourism and Sport concentration is formatted with four sections: Methodology, Primary Theory Area, Cognate Research, and Field/Discipline/Application. Written by members of the committee, the questions reflect an expectation that students are familiar with the broad base of the specific domain in Tourism and Sport and specific topics chosen by the committee.

##### *Dissertation Proposal and Defense:*

Within three months of successfully passing the preliminary examination, students are expected to select a dissertation advisor and their Dissertation Advisory Committee. Students must notify the Tourism and Sport Concentration Advisor of their choice for advisor and committee members prior to the proposal defense date.

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem, an exhaustive survey and review of literature related to the problem, and a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing coursework. Upon approval, a timeline for completing the investigation and writing process is established.

A Dissertation Advisory Committee must have a minimum of three faculty members, including a chairperson. The chairperson and at least one other member must be faculty from the Tourism and Sport concentration. One member may be from outside the concentration, and this is encouraged. The chairperson must be a member of the Temple University Graduate Faculty and must be approved by the Concentration Advisor and Fox PhD office. Students are encouraged to formally defend the proposal with the Dissertation Proposal Committee's approval no later than the end of summer of the third year.

## **Business Administration Executive Program MBA**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Business Administration Executive Program.

## About the Program

The Fox School of Business and Management offers MBA programs that help develop a solid understanding of business models created by the synergistic forces of globalization, entrepreneurship and information technology. Our approach to graduate education helps develop practical expertise through case analyses, presentations, interaction with business practitioners, and team projects. The Fox School prepares students to step immediately into key management roles in highly specialized fields.

**Time Limit for Degree Completion:** The Executive MBA program is delivered in cohorts and designed to be completed in 16 months, but students may take up to 6 years to complete the degree.

**Campus Location:** The Executive MBA is delivered through required in-person classes on weekends (Friday through Sunday), with additional online components. Class weekends are held in the Executive Education Suite in 1810 Liacouras Walk, part of the Fox School of Business on Temple University's main campus.

**Full-Time/Part-Time Status:** Executive MBA students are considered full-time students.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Study Abroad:** A required one-week international trip is arranged for students in the Philadelphia Executive MBA program.

**Accreditation:** The Executive MBA program is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Areas of Specialization:** The Executive MBA program is designed to mirror a real work environment with students assigned to teams. Students work extensively in these teams to prepare assignments and presentations. Support is given by the faculty on how to manage a successful team environment.

**Job Prospects:** Graduates of the Fox School obtain jobs in computer/information technology, consulting, consumer products and services, energy/utilities, financial services/banking, government, healthcare, industrial products and services, manufacturing, pharmaceuticals, telecommunications and tourism/transportation.

**Non-Matriculated Student Policy:** Executive MBA courses may not be taken on a non-matriculated basis.

**Financing Opportunities:** Tuition includes books, lodging, most meals during the required class weekends, and the one-week required international trip. Students are responsible for travel to and from in-person class weekends, and the round-trip airline ticket associated with the international trip. Fox School Executive MBA students may be considered for merit-based scholarships. The Fox School offers 5% tuition scholarships for all Temple alumni who are admitted to the program. No additional forms, application essays or recommendations are required. Citizens and permanent residents of the United States are eligible for federal financial aid opportunities. Alternative loans through private lenders may also be available as well as a payment plan through Temple's Bursar's Office. Students are responsible for the total cost of the program.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required:* 2

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Coursework Required for Admission Consideration:** Although no specific courses are required for admission consideration, applicants to the Executive MBA program are expected to have approximately 10 years of experience, with 5 to 7 years of managerial experience.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### Standardized Test Scores:

GMAT/GRE: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** If an interview is scheduled, on-site interviews are strongly recommended so that applicants can visit Temple University and the Fox School to tour the facilities and meet the Executive MBA faculty. Interviews may also be conducted via video conference.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 48, all of which must be completed at Temple University

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>

## Business Administration Executive Program DBA

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Business Administration Executive Program.

### About the Program

The Executive DBA is a part-time program that prepares senior managers and executives to rigorously discover, describe, study and solve everyday practical problems. Individuals are prepared to approach problems as evidence-based managers by using the tools and techniques of applied business research on issues relevant in the industry.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** The Executive DBA is delivered through six required on-site weekend residencies per year (Friday through Sunday) for the first two years, with additional online components. Residencies are in-person at Convene at Commerce Square in Center City Philadelphia.

**Full-Time/Part-Time Status:** The program is designed for part-time study.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The Executive DBA is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The program prepares graduates for corporate, consulting and academic careers.

**Non-Matriculated Student Policy:** All participants in the Executive DBA must be matriculated.

**Financing Opportunities:** Tuition includes books, lodging and most meals during the required residencies, as well as some funding for research and conference travel. Students are responsible for travel to and from in-person residencies. Students may be considered for merit-based scholarships. The Fox School offers 5% tuition scholarships for all Temple alumni who are admitted to the program. Citizens and permanent residents of the United States are eligible for federal financial aid opportunities. Alternative loans through private lenders may also be available as well as a payment plan through Temple's Bursar's Office. Students are responsible for the total cost of the program.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 - Early Admissions Deadline
- June 30 - Final Deadline

Applications are processed as they are received throughout the year.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

Number Required: 2

*From Whom:* Letters of recommendation should be obtained from individuals familiar with the applicant's demonstrated leadership, academic potential and critical thinking skills.

**Master's Degree in Discipline/Related Discipline:** Applicants should have at least 12 years of management experience, with at least 7 years at the senior management or executive level. They should hold an MBA or other relevant business-focused master's degree.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Describe your goals and motivations for pursuing the Executive DBA degree and your area of research interest.

**Standardized Test Scores:** No standardized tests are required for admission, but scores may be submitted if the applicant desires.

**Admissions Essay:** A personal statement describing your plan to balance the program's time commitments of about 15 hours per week with your work schedule and other demands is required.

**Resume:** A current professional resume or CV that highlights professional experience and education is required.

**Interview:** Candidates may be interviewed after submission of the application. If an interview is scheduled, on-site interviews are strongly recommended so that applicants can visit Temple University and the Fox School to tour the facilities and meet the Executive DBA faculty. Interviews may also be conducted via video conference.

### Culminating Events:

#### Proposal:

The doctoral dissertation is an original investigation that makes a significant contribution to the field. It should expand the existing body of knowledge and demonstrate the student's own knowledge of both research methods and a mastery of their primary area of interest. In consultation with the committee chair, the proposal should include a statement of the general research problem and motivation for the research; the questions or hypotheses to be investigated; the relevance of the problem to business theory and practice; a review of relevant literature; an outline of the dissertation; a detailed description of the methodology to be used; and expected contributions and practical implications. Executive DBA students should defend their dissertation proposal defense in the Fall of their third year.

**Dissertation:**

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee votes to pass, conditionally pass, or fail the dissertation and the defense at the conclusion of the public presentation based on whether the requirements laid out in the dissertation proposal and agree upon by the committee and the student have been successfully met.

Executive DBA students should defend their dissertation in the Spring of their third year. Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. After the Graduate Secretary has arranged the time, date and room for the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department publicly announces the defense, and the Graduate School announces the defense on its website.

**Business Analytics MS**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Business Analytics.

**About the Program**

The MS in Business Analytics degree, a STEM-certified program, enables graduates to effectively use data and models to support identification and evaluation of opportunities and improve decision-making.

The Business Analytics MS leverages the ever-increasing volume and importance of data as a strategic asset for organizations. Graduates enhance their managerial skillset and improve decision-making through analytics. The curriculum supports student development of advanced skills and techniques that can be applied to discipline-specific and general business problems. The MS program ensures graduates are prepared to meet the growing demand for talent in the areas of managing, analyzing, predicting and discovering insights from complex data available to modern corporations.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main, Center City, Online

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates are hired into such positions as:

- Big Data Analytics Specialist
- Data Analyst
- Data Scientist/Information Scientist
- Management Analyst/Consultant
- Manager of Services or Manufacturing Operations
- Market Research Analyst
- Project Manager
- Research Analyst
- Supply Chain Manager

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program or graduate certificate program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program. Scholarship funds are limited and available based on merit.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and can sometimes be considered after the deadline.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

Number Required: 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### Standardized Test Scores:

GRE/GMAT: Required. Scores for the GRE typically fall within the following percentile ranges: 50 to 99 Verbal; 80 to 99 Quantitative.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** Candidates are invited to interview in person or virtually. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MS program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

### Required Courses:

<b>Capstone Course</b>		<b>3</b>
BA 5685	Internship or Externship in Business <sup>3</sup> or STAT 565 Capstone in Analytics	
<b>Total Credit Hours</b>		<b>30</b>

1

BA 5687 may be waived based on prior academic or professional preparation. Students should consult with the Academic Director.

2

Two courses are required. Students should pursue a combination of electives that supports their educational and career goals. Note that in all cases, students are responsible for completing prerequisites. They are also encouraged to consult with the Academic Director or advisor when making their course selections. Alternate courses may be taken with permission from the Academic Director.

3

Permission from the Academic Director is required to enroll in BA 5685 Internship or Externship in Business as an elective. This permission, however, does not guarantee that the course will fulfill the capstone requirement. The Academic Director must grant a second permission for BA 5685 to count for the capstone.

#### **Culminating Event:**

##### *Capstone Course:*

All students in the Business Analytics MS program participate in a capstone experience that is designed to integrate real-world problems into the curriculum. Students may choose between BA 5685 Internship or Externship in Business and STAT 5651 Capstone in Analytics. For STAT 5651, a sponsoring corporation provides a problem and real data, and students divide into teams to work on the problem. At the end of the term, the top several groups as judged by professors present to the program's advisory board and other corporate judges.

## **Business Research MS**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Business Research.

## **About the Program**

The Master of Science in Business Research is a STEM-designated PhD-preparatory degree program. Coursework provides exposure to and training in core business theories, research methods and advanced statistical analyses. Students enroll in coursework that allows them to pursue their own research projects. The training received during pursuit of the Business Research MS at Fox School of Business and Management prepares students for PhD study at Temple University and other institutions of higher learning. Although students may apply to a Fox PhD program upon completion of the degree, admission is not guaranteed.

**Time Limit for Degree Completion:** Graduate School guidelines allow for up to six years for completion of the master's degree.

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Job Prospects:** The program is primarily dedicated to preparing its students for study in PhD programs.

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program.

## **Admission Requirements and Deadlines**

### **Application Deadline:**

#### *Fall:*

- January 5 – Early Admissions Deadline
- March 1 – Final Deadline

Applications received after January 5 are reviewed on a rolling basis.

APPLY ONLINE to this Fox graduate program.

### **Letters of Reference:**

*Number Required:* 1

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### **Standardized Test Scores:**

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the

ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

MKTG 9001	Behavioral Science Seminar	
MKTG 9002	Seminar on Behavioral Research in Marketing	
MKTG 9003	Sem-Quant Research-Mktg	
PSY 8312	Core Course in Cognitive Psychology	
PSY 8712	Core Course in Behavioral Neuroscience	
<b>Total Credit Hours</b>		<b>30</b>

1

The select topic for this course is an introduction to research in judgment and decision-making and their applications.

2

PSY 8310 Topical Seminar in Cognitive Psychology is taken twice for credit. One course topic provides an introduction to the biological bases of higher brain function, including attention, consciousness, emotion, executive functions, language, memory and perception. The other provides an overview of the use of functional magnetic resonance imaging (fMRI) in the investigation of human sensory, motor and cognitive function.

## Decision Neuroscience PhD

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Philosophy in Decision Neuroscience.

### About the Program

The field of decision neuroscience provides new insights into the mechanisms that underlie a wide range of economic and social phenomena, from risky choice and consumer behavior to altruism and cooperation. It is also a primary example of truly interdisciplinary research, with people from such diverse fields as business administration, economics, engineering, neuroscience, philosophy, physics and

psychology working together to advance knowledge of mechanisms underlying decision-making and decision preferences.

The interdisciplinary PhD program in Decision Neuroscience at the Fox School of Business and Management is a collaborative effort with the Department of Psychology and Neuroscience in the College of Liberal Arts. Through the efforts of its Center for Applied Research in Decision Making, the Fox School of Business has been at the forefront of the field of decision neuroscience over the past ten years. Similarly, Temple University's Department of Psychology and Neuroscience has long been a leader in brain and cognitive science research.

Students enrolled in the program gain a thorough understanding of the intellectual issues in the rapidly growing field of decision neuroscience and its subfields of neuroeconomics and neuromarketing. The program has the unique vision of integrating scientific findings with everyday real-world problems. It is designed for students who want to work at the intersection of neuroscience and business.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program is inherently interdisciplinary.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Job Prospects:** Graduates of the program are prepared to seek tenure-track appointments either in business schools or psychology departments, depending on their approach to the program's curriculum.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). Level of support is based on the concentration, the applicant's qualifications and competitive considerations. Students can also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:*

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

**Letters of Reference:**

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work

supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

**Standardized Test Scores:**

GMAT/GRE: Required. GMAT scores are preferred. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

BA 9999	Dissertation Research	3

**Total Credit Hours**

**42**

1

The select topic for this course is an introduction to research in judgment and decision-making and their applications.

2

PSY 8310 Topical Seminar in Cognitive Psychology is taken twice for credit. One course topic provides an introduction to the biological bases of higher brain function, including attention, consciousness, emotion, executive functions, language, memory and perception. The other provides an overview of the use of functional magnetic resonance imaging (fMRI) in the investigation of human sensory, motor and cognitive function.

**Additional Requirements:**

*Research Rotations:*

In addition to undertaking specially designed interdisciplinary coursework, students complete research rotations during the first year of study that prepare them for independent research in the field of decision neuroscience. Students are required to complete two laboratory rotations in their first year (Fall and Spring) that would ideally be in different subfields with different mentors. Students also have the option to complete a third rotation during the Summer if they require additional exposure.

Research rotations are designed to give students a wide range of knowledge in the area of decision neuroscience by being engaged in the research of an assigned lab. When rotating through a lab (or with a research mentor), students are often paired with a senior lab member (e.g., a postdoctoral fellow or senior graduate student) to work on an ongoing research project. In some cases, they may be given a new project based on their knowledge and skill levels. Students are not, however, expected to complete a full project within an academic term.

*Research Meetings:*

Students are expected to attend research meetings and to be fully engaged in the research culture.

*Publications:*

It is expected that students will write, submit and publish articles.

*Grant Proposals:*

Students are expected to prepare a grant proposal for submission to a government funding agency. Eligible students are also required to write and submit a National Research Service Award (NRSA) proposal at the end of their third year. International students who are not eligible for federal grants are encouraged to work on submissions with faculty members.

**Culminating Events:**

**Comprehensive Examination:**

The comprehensive examination is taken at the end of the second year of study. Each student must propose and defend a major area paper in their proposed field of research. Upon passing the exam, students choose a faculty member from either Fox School or the College of Liberal Arts as their primary mentor.

**Dissertation:**

The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the student's department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department.

If any member decides to withdraw from the committee, the student shall notify the Chair of the Dissertation Examining Committee and the PhD Program Director. The student, in consultation with the Chair, is responsible for finding a replacement. Inability to find a replacement shall constitute evidence that the student is unable to complete the dissertation. In such a case, the student may petition the PhD Program Director for a review. Once review of the facts and circumstances is completed, the Director rules on the student's progress. If the Director rules that the student is not capable of completing the dissertation, the student is dismissed from the program. This decision may be appealed to the Senior Associate Dean. If dismissed, the student may appeal to the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards to the student the appropriate forms. After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department posts flyers announcing the defense, and the Graduate School announces the defense on its website.

**Digital Marketing MS**

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Digital Marketing.

**About the Program**

The MS in Digital Marketing degree program is designed to address digital marketing best practices to empower graduates to thrive at the front line of the changing media environment. Students are equipped with the skills necessary to develop and manage a modern brand through authentic communication with customers and prospects alike. In addition, students are empowered to think strategically about how brands, their employees and society-at-large interact to hone more effective multi-platform media plans. The entire program is designed to provide students with hands-on, real-world experiences leveraging marketing research, data visualization and advanced analytics to enhance strategies they can immediately apply to their current careers and/or to entrepreneurial initiatives.

Upon program completion, graduates pursue various marketing and/or advertising positions. Many positions relate to working and living in a multi- and omni-channel world. Today's marketers cannot simply rely on traditional marketing and advertising alone. They must be able to segment, target and position their brand, product and service for a consumer in a strategic, timely, relevant and useful manner. Building and maintaining brand loyalty and long-term customer relationships is key. Examples of career paths upon program completion include:

- Account Supervisor/Associate Vice President of Marketing
- Advertising Account Executive or Senior Account Executive

- Brand Strategy Director
- Senior Communications Strategist
- Senior Content Marketing Strategist
- Director of Digital/Mobile/Social Strategies
- Director of Marketing/Advertising/Communications/Public Relations
- Insights and Analytics Specialist
- Media Planning/Buying Specialist
- Multi-platform Account Director
- Product Development Manager
- Search, Social, and Emerging Media Specialist
- Senior Brand Manager
- SEO Account Manager/Specialist

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The degree program is completed on a part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Digital Marketing is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search.

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and can sometimes be considered after the final deadline.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required:* 1

*From Whom:* Professional references from an immediate supervisor, current or past, is preferred. An academic reference is acceptable. If self-employed, a reference from a client is permissible.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree from an accredited university or college is required.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### Standardized Test Scores:

GRE/GMAT: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** Candidates are invited to interview in person or virtually. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MS program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

## Finance MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Program

Currently offered as an international partner program and open only to students affiliated with the international partner institution.

## Financial Analysis MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Financial Analysis.

### About the Program

For the Master of Science in Financial Analysis, students explore project-based applications of today's best financial theory and technology practices, including data science for finance, to build a skill set for 21st-century success. Students make strides toward the Chartered Financial Analyst (CFA) designation during their program studies. They also connect with senior leaders and industry experts through a distinguished guest speaker series and visits to firms in the Greater Philadelphia region and on Wall Street.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time students are able to complete the degree program in 10 or 22 months, while part-time students taking 8 or fewer credits per term are able to complete the program in two years.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Financial Analysis is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates develop industry-matched skills in finance that distinguish them for employment with accounting firms, commercial banks, consulting companies, financial technology firms, government and regulatory agencies, hedge funds, insurance companies, investment banks and investment management companies.

**Non-Matriculated Student Policy:** Students are not allowed to take classes under non-matriculated status.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

**Letters of Reference:**

*Number Required:* 1

*From Whom:* Academic references and/or professional references from an immediate supervisor, current or past, are accepted.

**Coursework Required for Admission Consideration:** Applicants must demonstrate completion of coursework in Accounting, Finance, Micro/Macroeconomics and Statistics with a grade of "B" or better earned.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

**Standardized Test Scores:**

GRE/GMAT: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

# Financial Analysis and Quantitative Risk Management MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Financial Analysis and Quantitative Risk Management.

## About the Program

Through the Master of Science in Financial Analysis and Quantitative Risk Management, students build industry-matched knowledge and skills across the fields of financial analysis, data science, quantitative modeling and risk management. Combining the benefits of Temple's specialized Financial Analysis MS and Quantitative Finance and Risk Management MS programs, the MS in Financial Analysis and Quantitative Risk Management offers a unique curriculum that supports pursuing both the Chartered Financial Analyst (CFA) Exam Levels I through III and the Financial Risk Management (FRM) Exam Parts I and II during graduate study.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time students are able to complete the Financial Analysis and Quantitative Risk Management MS degree program in 22 months, while part-time students can complete the program in three years.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Financial Analysis and Quantitative Risk Management is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates develop industry-matched skills in finance that distinguish them for employment with accounting firms, commercial banks, consulting companies, financial technology firms, government and regulatory agencies, hedge funds, insurance companies, investment banks and investment management companies.

**Non-Matriculated Student Policy:** Students are not allowed to take classes under non-matriculated status.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and can sometimes be considered after the deadline.

## Health Administration MHA

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Health Administration.

### About the Program

Catering to the needs of busy working professionals with at least three years of work experience, the MHA is a 30-credit, part-time program designed to help current professionals advance their careers and become leaders in the industry. Working professionals can complete the MHA in either a hybrid or fully online format with flexible class times and locations.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main, Center City, Online

**Full-Time/Part-Time Status:** The degree program is designed to be completed on a part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MHA is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources. MHA students are typically full-time working professionals seeking to enhance their management skills to improve performance in their existing jobs. Some students seek to move from clinical to more administrative responsibilities and others seek to enter the healthcare sector.

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program or graduate certificate program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

*Spring:*

- August 1 - Early Admissions Deadline
- November 1 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

**Letters of Reference:**

*Number Required:* 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree from an accredited university or college is required.

**Statement of Goals:** Essay prompts can be found in the application portal.

**Standardized Test Scores:**

GRE/GMAT: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required. It must reflect a minimum of three years of professional leadership or healthcare experience.

**Interview:** Candidates are invited to interview in person or virtually. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MHA program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ACCT 5001	Accounting for Managerial and Investment Analysis and Planning	3
BA 5687	Advanced Professional Development Strategies <sup>1</sup>	0
HCM 5101	Health Systems Organization and Development	3
HCM 5102	Healthcare Organizational Leadership and Strategy	3
HCM 5103	Financial Management of Healthcare Organizations	3
RMI 5051	Managing Risk	3
RMI 5103	Health Risks	3
STAT 5001	Quantitative Methods for Business	3
STAT 5602	Visualization: The Art of Numbers and the Psychology of Persuasion	3
<b>Electives <sup>2</sup></b>		<b>6</b>
<b>Total Credit Hours</b>		<b>30</b>

1

BA 5687 may be waived based on prior academic or professional preparation. Consult with the MHA Academic Director.

2

Students have the option to select electives to study a particular subject area more deeply or to choose any two electives. To support student learning based on varied interests and career needs, elective courses have been grouped. The list is not exhaustive given that the educational and professional needs of every student cannot be predicted; courses change or are removed over time; and departments add new courses that may be beneficial for student learning and professional development. Thus, the MHA Academic Director may approve other electives for students on an individual basis. Note that some electives may have prerequisites. See the list of recommended electives below:

## Recommended Electives Grouped by Subject Area

Code	Title	Credit Hours
<b>Finance</b>		
FIN 5001	Financial Analysis and Strategy	
FIN 5104	Advanced Corporate Finance	
FIN 5114	Financial Markets and Institutions	
FIN 5134	Fintech, Blockchain and Digital Disruption	
<b>Human Resource Management</b>		
HRM 5001	Leading Organizations	
HRM 5051	Developing Human Resource Management Strategies	
HRM 5112	Leading High Performing Teams	
HRM 5113	Power, Influence, and Negotiation	

**Project Management**

MSOM 5001	Operations Management
MSOM 5107	Lean, Six Sigma, and the Science of Improvement
MSOM 5108	Project Management
<b>Strategy - Consulting</b>	
SGM 5133	Management Consulting: Principles and Practices
SGM 5134	The Consulting Engagement: Managing Projects and Change
<b>Strategy - General</b>	
BA 5287	Fox MBA Capstone Experience <sup>1</sup>
SGM 5051	Business Strategy in a Global Environment
SGM 5136	Principles of Strategy and Management
<b>Strategy - Innovation/Problem Solving</b>	
SGM 5103	Management of Technology and Innovation
SGM 5142	Business Model Innovation
SGM 5144	Creativity Unleashed: Harnessing Creativity to Solve Real-World Innovation Challenges
<b>Miscellaneous</b>	
HCM 5182	Independent Study
LGLS 5701	Legal and Ethical Foundations of Business
MIS 5001	Information Technology Management (Other)
MKTG 5001	Marketing Management/Strategy

1

For BA 5287 to count toward the MHA, students must enroll in a section with a healthcare project.

**Culminating Event:** Successful completion of coursework is required to earn the MHA degree.

## Healthcare Financial Management MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Human Resource Management MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Human Resource Management.

### About the Program

The Fox School of Business and Management offers the MS in Human Resource Management (MSHRM) degree program for those who want to pursue a career in Human Resource Management (HRM). The curriculum equips rising professionals with knowledge of advanced practices in critical HRM areas, an understanding of how those practices affect organizational success, and the ability to influence that success. The Fox MSHRM program is offered completely online and accommodates the busy schedules of our working students. With the accelerated completion pathway, students can earn their degrees in as few as 13 months. The curriculum meets industry standards set by the Society for Human Resource Management (SHRM).

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Online. Each course is delivered online over a five-week term. Each week, students participate in a live and collaborative web-conferencing session with faculty and classmates. Additional coursework and activities are required throughout the period.

**Full-Time/Part-Time Status:** The MSHRM is flexible and can accommodate both full- and part-time students.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Human Resource Management is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates can expect to be qualified for such positions as:

- HR Business Partner
- HRM Strategic Leader
- Professional Development/E-Learning Manager/Director
- Program Director

- Senior Talent Management or Organization Development Consultant
- Talent Acquisition Manager/Director
- Total Rewards Manager/Director

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program or graduate certificate program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program. Employers may provide tuition reimbursement as part of their benefit packages.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

#### Spring:

- August 1 – Early Admissions Deadline
- November 1 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required:* 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree from an accredited university or college is required.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### Standardized Test Scores:

GRE/GMAT: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required. It must reflect a minimum of three years of professional leadership or Human Resource Management experience.

**Interview:** An interview, conducted either virtually or in person, is required. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MSHRM program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

## Program Requirements

## Information Technology Auditing and Cyber Security MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Information Technology Auditing and Cyber Security.

### About the Program

The MS in Information Technology Auditing and Cyber Security (MS ITACS) program prepares students for Information Technology (IT) risk management, cyber security and information systems auditing positions in business and critical infrastructure sectors of the economy identified by the U.S. Department of Homeland Security. The MS ITACS is a STEM program aligned with the ISACA® model curriculum for information security audit and control, which enables graduates to earn a three-year education experience waiver toward the Certified Information Systems Auditor (CISA®) designation.

Upon completion of the MS ITACS program, graduates are able to:

- Describe how an IT organization should be governed and managed.
- Explain how IT systems are implemented and recommend appropriate controls.

- Demonstrate how to protect an organization's information.
- Demonstrate the ability to conduct research related to emerging IT issues.
- Describe how IT services are delivered and maintained and recommend appropriate controls.
- Demonstrate an understanding of the IT audit process and apply it to business situation.
- Demonstrate an understanding of how organizations' systems are attacked and the skills used.
- Explain how organizations can mitigate cyber risks through prevention, detection and response.

MS ITACS students take five common core courses focused on IT governance and risk management and specialized courses in one of two concentrations: Information Technology Auditing or Cyber Security. The IT Auditing concentration culminates in a capstone course that prepares the student for the CISA® certification exam, while the capstone course for the Cyber Security concentration prepares the student for the Certified Information Systems Security Professional (CISSP®) certification exam. Qualified students with necessary prerequisites are able to take courses from both concentrations.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main and/or Online

**Full-Time/Part-Time Status:** The MS ITACS program can be completed on a full- or part-time basis.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS ITACS program is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Areas of Specialization:** Two areas of concentration are offered:

- Cyber Security
- Information Technology Auditing

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. The MS ITACS degree prepares graduates for employment in IT risk management, cyber security and information systems auditing positions at accounting and consulting firms, banks and financial companies, businesses producing goods and providing services, computer software and hardware companies, information and data service providers, and governmental agencies and non-governmental organizations. The U.S. Bureau of Labor Statistics reports 35% job growth through 2031.

**Licensure/Certification:** Preparation for certification varies by area of concentration, as detailed below:

- **Certified Information Systems Auditor (CISA®):** The MS ITACS program's **IT Auditing** capstone course (MIS 5902) prepares students in the IT Auditing concentration to take the CISA® certification exam. The MS ITACS program does not require students to take the CISA® exam. This is optional. Experience required for CISA® certification is a minimum of five years of professional work experience in information systems auditing, control or security. A master's degree in information security, information systems or related field from an accredited university can be substituted

for three years of experience. For more information, visit <https://www.isaca.org/credentialing/cisa/get-cisa-certified>.

- Certified Information Systems Security Professional (CISSP®): The MS ITACS program's **Cyber Security** capstone course (MIS 5903) prepares students in the Cyber Security concentration to take the CISSP® certification exam. The MS ITACS program does not require students to take the CISSP® exam. This is optional. Experience required for CISSP® certification is a minimum of five years of cumulative paid work experience in *two or more of the eight domains* of the CISSP® Common Body of Knowledge (CBK). For more information, visit <https://www.isc2.org/certifications/cissp>.

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program or graduate certificate program.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

#### Spring:

- August 1 – Scholarship Deadline and International Deadline
- November 1 – Final Deadline

Applications are reviewed as they are received and can sometimes be considered after the deadline.

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required:* 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

### Standardized Test Scores:

GRE/GMAT: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a

country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** Candidates are invited to interview in person or virtually. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

**Transfer Credit:** Upper-level graduate credits from an AACSB-accredited graduate business program, but not previously applied to a conferred degree, may be transferred into the MS ITACS program. The credits must be part of the required degree program at Temple University. To be transferred, the grade must be a "B" or better. The Admissions Committee makes recommendations for transferring credits to the department chair. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

## Information Technology Auditing Concentration

Code	Title	Credit Hours
<b>Core Courses</b>		
MIS 5202	IT Governance	3
MIS 5206	Protection of Information Assets	3
MIS 5214	Security Architecture	3
MIS 5687	Business Skills for ITACS Professionals I <sup>1</sup>	1.5
MIS 5688	Business Skills for ITACS Professionals II <sup>1</sup>	1.5
<b>IT Auditing Concentration Courses <sup>2</sup></b>		
MIS 5201	IT Audit Process	3
MIS 5203	Systems and Infrastructure Lifecycle Management <sup>1</sup>	3
MIS 5205	IT Service Delivery and Support	3
MIS 5208	Data Analytics for IT Auditors	3
<b>IT Auditing Elective <sup>3</sup></b>		
Select one from the following:		3
MIS 5121	Enterprise Resource Planning Systems	
MIS 5170	Special Topics	
MIS 5182	Independent Study	
<b>IT Auditing Capstone Course</b>		
MIS 5902	IT Auditing Capstone	3
<b>Total Credit Hours</b>		<b>30</b>

1

For our partner program with the Beijing National Accounting Institute (BNAI) in **China only**, students may substitute MIS 5287 Business Skills for ITACS Professionals (3 s.h.) for MIS 5687 Business Skills for ITACS Professionals I (1.5 s.h.) and MIS 5688 Business Skills for ITACS Professionals II (1.5 s.h.).

2

MIS 5122 Enterprise Architecture for IT Auditors (3 s.h.) may also be required of students who are admitted to the program but lack sufficient technical background.

3

Students in the Information Technology Auditing concentration alternately may select up to two courses from the Cyber Security concentration and/or in Computer Science and/or Engineering Security as electives. This is done in consultation with the ITACS Program Director.

## Cyber Security Concentration

Code	Title	Credit Hours
<b>Core Courses</b>		
MIS 5202	IT Governance	3
MIS 5206	Protection of Information Assets	3
MIS 5214	Security Architecture	3
MIS 5687	Business Skills for ITACS Professionals I	1.5
MIS 5688	Business Skills for ITACS Professionals II	1.5
<b>Cyber Security Concentration Courses</b>		
MIS 5211	Ethical Hacking	3
MIS 5213	Intrusion Detection & Response	3
MIS 5215	Operating System Security	3
MIS 5216	Organizational Forensics	3
MIS 5217	Network Security	3
<b>Cyber Security Elective(s) <sup>1</sup></b>		
Select one or more from the following, if desired: <sup>2</sup>		0
MIS 5170	Special Topics	
MIS 5182	Independent Study	
MIS 5212	Penetration Testing	
<b>Cyber Security Capstone Course</b>		
MIS 5903	Cyber Security Capstone	3
<b>Total Credit Hours</b>		<b>30</b>

1

Students in the Cyber Security concentration alternately may select up to two courses from the Information Technology Auditing concentration and/or in Computer Science and/or Engineering Security as electives. This is done in consultation with the ITACS Program Director.

2

Students earn credit for any elective course(s) taken. The Cyber Security concentration does not, however, require completion of an elective to earn the degree.

### Culminating Event:

#### Capstone Course:

The MS ITACS program culminates in a capstone that prepares students to take the appropriate professional certification examination:

- Certified Information Systems Auditor (CISA®)
- Certified Information Systems Security Professional (CISSP®), with a minimum of five years' experience

## Innovation Management and Entrepreneurship MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Innovation Management and Entrepreneurship.

### About the Program

In these challenging times, innovation is more important than ever, and it is critical that business professionals understand how to creatively solve problems and turn challenges into opportunities. Innovation and entrepreneurship are ubiquitous in today's competitive landscape. For firms to thrive, they must invent groundbreaking new products; think outside the box in order to deliver services with unparalleled value; fundamentally rework their internal activities and processes to create competitive advantage; and reinvent the game by diving into so-called "blue oceans" and "white spaces" with new business models. As open innovation perspectives come to be fully embraced by organizations, entire business ecosystems are fundamentally shifting and competition becomes value chain against value chain, not company against company.

The Master of Science in Innovation Management and Entrepreneurship (IME MS) program teaches students to shift their perspectives to develop a deep understanding of strategy, innovation, creativity and entrepreneurial thinking, as well as to develop relevant management skills necessary to effectively manage innovation in existing companies and/or to successfully found new entrepreneurial ventures. Because diverse perspectives and backgrounds enhance creativity and innovation, we welcome applicants with several years of working experience and students applying directly out of undergraduate programs. Transform yourself, your company and your ideas with an MS in Innovation Management and Entrepreneurship.

The IME MS includes 9 credits of electives that allow students to tailor the program to their interests, background and goals. Students can take core MBA courses to fulfill these 9 credits and balance broad business acumen with a deep understanding of innovation and entrepreneurship. Alternatively, they can take other innovation and entrepreneurship courses, consulting courses or other Fox elective courses open to MS students. Finally, students can take up to 6 credits from other graduate programs outside of the Fox School that complement their IME MS coursework and help them achieve their career objectives. This often works well for entrepreneurs looking to launch ventures that require specific expertise or skills taught in other schools and colleges across Temple.

The IME MS is designed for:

- Working professionals who want to move into strategic leadership roles.
- Entrepreneurs who aim to create high-growth, innovative or technology-focused companies. In March 2021, our first IME MS alum appeared on Shark Tank. Congratulations, Jared!
- Mission-driven professionals who want to solve societal problems with multi-bottom-line social impact organizations or nonprofits.
- MBA dual-degree students who recognize the important ways that innovative perspectives complement traditional management approaches and who want to differentiate themselves from other graduates.
- Undergraduate or graduate students as well as faculty from technical or scientific disciplines who want to develop complementary skills and perspectives in innovation and entrepreneurship, commercialize a technology, or work in R&D/innovation leadership roles.
- Students from the arts or other areas who are interested in launching a freelancing business or entrepreneurial venture or interested simply in learning the business side of creative industries.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Center City, Main, Online. All courses are offered in both online and hybrid in-person course formats designed to balance efficiency and impact, learning and relevant practice. Classes are scheduled in the evenings and on weekends and designed to meet the working professional's schedule or for a student taking classes full time.

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Full-time study requires a minimum course load of 9 credits. Part-time students typically complete the program in two or three years, taking courses as their schedule and finances permit.

**Interdisciplinary Study:** This uniquely collaborative program includes artists, businesspeople, designers, engineers, lawyers, scientists and professionals from various backgrounds. Courses are taken by Fox MBA,

Engineering Management MS, and Bioinnovation PSM students and are offered as electives for graduate students across Temple.

The IME MS has been approved as a dual-degree program with all of the Fox School MBA programs. In completing a dual-degree program, students can count up to 15 credits of coursework toward the completion of the two degrees. Students must declare the dual degree prior to graduation from their first degree.

In addition, the IME MS is closely tied to Temple's Innovation and Entrepreneurship Institute (IEI), which offers a wide range of co-curricular programs, mentoring, a members-only co-working space, an accelerator, multiple annual competitions and more.

**Accreditation:** The MS in Innovation Management and Entrepreneurship is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** Depending in part on their prior experience, degrees and expertise, IME MS graduates are prepared for employment in a variety of areas, including but not limited to:

- Consulting
- Corporate new venture, accelerator/incubator program, and design and innovation teams
- Entrepreneurial ecosystem accelerators, incubators, makerspaces or venture capital firms
- Founders of for-profits or nonprofits
- Innovation and engineering management
- Leadership, management and/or strategy
- New product development
- Technical sales and strategic marketing
- Technology commercialization and scouting

**Licensure/Certification:** Coursework prepares students to take the New Product Development Professional (NPDP) certification exam offered by the Product Development and Management Association (PDMA). In addition, students have the option to take courses to achieve certification as a Lean Six Sigma Green Belt by the International Association for Six Sigma Certification (IASSC).

**Non-Matriculated Student Policy:** This program requires the student to be matriculated in the degree program or graduate certificate program.

**Financing Opportunities:** Merit- and need-based scholarships are available and are awarded based on application strength.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

#### Spring:

- August 1 – Scholarship Deadline and International Deadline
- November 1 – Final Deadline

Applicants who have not assembled their complete application for the IME MS program in time for an upcoming application deadline are

encouraged to apply to one of our certificate programs. Credits taken in our Innovation Management and Entrepreneurship graduate certificate (p. 157) program can be transferred to the IME MS.

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

Number Required: 1

*From Whom:* Professional references from an immediate supervisor, current or past, are preferred. Academic references are acceptable.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** Essay prompts can be found in the online application portal.

#### Standardized Test Scores:

GMAT/GRE: Scores may be requested based on the applicant's academic and/or professional background. Candidates with an undergraduate GPA below 3.0 are required to submit valid GMAT or GRE test scores. Consult an admissions advisor with any questions.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV is required.

**Interview:** An interview is conducted after an application has been submitted and reviewed. Interviews are required on a case-by-case basis.

**Writing Sample:** Prompts for this optional essay can be found in the online application portal.

## Program Requirements

#### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
BA 5687	Advanced Professional Development Strategies <sup>1</sup>	0
SGM 5137	Entrepreneurial Thinking and New Venture Creation	3
SGM 5138	Global Innovation Strategy: Creating Agile, Innovative, Globally-Competitive Organizations	3

SGM 5139	Lean Entrepreneurship / Innovation: Fast & Frugal Methods to Launch Startups & Test Innovative Ideas	3
SGM 5142	Business Model Innovation	3
SGM 5144	Creativity Unleashed: Harnessing Creativity to Solve Real-World Innovation Challenges	3
SGM 5145	Plan, Pitch, and Fund an Entrepreneurial Start-Up	3
SGM 5148	Open Innovation and Managing Strategic Alliances	3
<b>Electives</b>		
Select three from the following: <sup>2</sup>		9
BA 5002	Socioeconomic Context of Business	
BA 5685	Internship or Externship in Business <sup>3</sup>	
HRM 5001	Leading Organizations	
HRM 5131	Ethical and Socially Responsible Decision-making	
SGM 5051	Business Strategy in a Global Environment	
SGM 5103	Management of Technology and Innovation	
SGM 5135	Innovation Intelligence: Plan, Build, Protect, and Monetize a Technology / Innovation Portfolio	
SGM 5182	Independent Study <sup>3</sup>	
SGM 5190	Special Topics: General & Strategic Management <sup>3</sup>	
STAT 5602	Visualization: The Art of Numbers and the Psychology of Persuasion	

**Total Credit Hours** **30**

1

BA 5687 may be waived based on prior academic or professional preparation. Students should consult with the Academic Director.

2

Three courses are required. Alternate courses may be taken with permission from the Academic Director.

3

Permission from the Academic Director is required to enroll in BA 5685, SGM 5182 and/or SGM 5190 as an elective.

**Internships/Externships:** Project-based internships, which are undertaken on-site, and externships, which engage the student off-site, are available for students in the IME MS. These can be valuable to those looking to expand their work experience or portfolio as well as for individuals looking to change careers or industries. More than 40 internships/externships are typically available each academic term across a range of industries and variety of different types of companies.

**Culminating Event:** Successful completion of coursework is required to earn the IME MS degree.

## Management MiM

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master in Management.

## About the Program

Developed for recent college graduates with business and non-business degrees, the Master in Management (MiM) delivers a comprehensive introduction to the world of business and equips students to become managers, leaders and problem solvers at globally focused firms. This program, taught by industry experts, is designed for students looking to supplement their undergraduate degree with the knowledge that today's employers demand in an effort to increase their career marketability.

The MiM program is only offered at Temple University's Japan campus.

**Time Limit for Degree Completion:** The MiM program is designed to be completed on a full-time basis with a cohort in one year, although Graduate School guidelines allow for up to six years for completion of the master's degree.

**Campus Location:** Temple University Japan only

**Full-Time/Part-Time Status:** The program is designed to be completed on a full-time basis with a cohort. Classes are held in the evening to accommodate internships and other obligations.

**Accreditation:** The MiM program is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Non-Matriculated Student Policy:** The MiM program is a cohort program, and courses may not be taken on a non-matriculated basis.

**Financing Opportunities:** United States Federal Student Aid is available only to U.S. citizens or permanent residents of the United States. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program. Scholarship funds are limited. For more information, visit <https://www.tuj.ac.jp/mim/tuition>.

## Admission Requirements and Deadlines

### Application and Student Visa Application Deadline:

*For Fall 2024 Admission:*

- January 25 – Earliest Date to begin work on student Visa Application if seeking a student visa through TUJ
- February 28 – Early Admissions Deadline for Application
- April 15 – Application Deadline if seeking a student visa through TUJ
- April 25 – Visa Deadline if seeking a student visa through TUJ. Applicants who do not have permission to reside in Japan through citizenship or a prior long-term visa must apply for a student visa through TUJ.
- June 30 – Final Application Deadline if not seeking a student visa through TUJ

The cost to apply is ¥12,000. An email with payment instructions is sent to applicants after submission of the online application form.

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

## Management Information Systems MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Marketing Research and Analytics MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Quantitative Finance and Risk Management MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Master of Science in Quantitative Finance and Risk Management.

### About the Program

Through the Master of Science in Quantitative Finance and Risk Management, students develop expertise in quantitative modeling, risk management and data science principles and in the best industry practices driving the financial services industry today. This 30-credit master's degree program is the only one in the Greater Philadelphia region offering the ideal way to pursue the professional Financial Risk Manager (FRM) designation and a prestigious master's degree simultaneously.

**Time Limit for Degree Completion:** 6 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time students are able to complete the degree program in 10 or 22 months, while part-time students taking 8 or fewer credits per term are able to complete the program in two years.

**Affiliation(s):** Research interests of Fox faculty are supported by numerous centers and institutes throughout the Fox School and Temple University.

**Accreditation:** The MS in Quantitative Finance and Risk Management is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

**Job Prospects:** The Fox Center for Student Professional Development (CSPD) provides students with career coaching and professional development resources that support the job search. Graduates are distinctly qualified to contribute in quantitative analysis areas in the financial services industry, including financial modeling, financial risk management, information technology, portfolio management and securities trading roles.

**Non-Matriculated Student Policy:** Students are not allowed to take classes under non-matriculated status.

**Financing Opportunities:** Citizens and permanent residents of the United States are considered domestic students and are typically eligible for federal student loans and alternative loans through private lenders. The Fox School grants 5% tuition scholarships to alumni who are admitted to the program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

- December 15 – Early Admissions Deadline
- March 1 – Scholarship Deadline and International Deadline
- June 30 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline on a space-available basis.

APPLY ONLINE to this Fox graduate program.

1

Students select graduate business elective courses in consultation with the Director of the Graduate Program in Statistical Science.

## Statistics PhD

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the Doctor of Philosophy in Statistics.

### About the Program

The general purpose of the graduate programs in Statistics is to provide statisticians with a broad base in the theories and methods of statistics toward successful application of statistical tools to immediate and specific problems that arise in virtually every area of societal and scientific endeavors. Admitted students pursue graduate study that is balanced appropriately between theory and methods. They are expected to gain experience in the application of statistics through research assistantships, statistical consulting, applications-oriented courses and/or through outside employment, including internships.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program is completed on a full-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research and interactions among faculty and students with interests in business, biology and health sciences.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in the following areas:

- Applications of statistics to the law
- Asymptotic theory
- Bayesian inference/empirical Bayesian inference
- Causal inference
- Clinical trials
- Design of experiments

- Inequalities in statistics
- Linear and generalized linear models
- Methods in AIDS research and teratology
- Multiple comparisons
- Multivariate analysis
- Parametric and nonparametric inference
- Pharmaceutical statistics
- Quality control
- Ranking and selection
- Resampling methods
- Robust inference
- Statistical computing and graphics
- Sufficient dimension reduction
- Survey sampling
- Survival analysis
- Time series

**Job Prospects:** The program is dedicated to producing well-trained statisticians who work as researchers in academia, industry and government.

**Non-Matriculated Student Policy:** Qualified non-matriculated students are permitted to take doctoral courses.

**Financing Opportunities:** Typically, all PhD students receive financial assistantship in the form of full tuition remission and a stipend in return for offering services as a Research Assistant (RA) or Teaching Assistant (TA). The level of support is based on the concentration, the applicant's qualifications and other competitive considerations. Students may also receive remuneration for conference travel, publications and academic achievement.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:*

*Applications must be submitted AND complete (i.e., all required materials must be received and verified by Fox Staff) by Dec. 5 to be considered. Applications received after this deadline are reviewed on a case-by-case basis and dependent on availability.*

APPLY ONLINE to this Fox graduate program.

### Letters of Reference:

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained from evaluators, typically college/university faculty or an immediate work supervisor, who can provide insight into your abilities and talents, as well as comment on your aptitude for graduate study.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** The equivalent of a four-year U.S. baccalaureate degree from an accredited university or college is required. For three-year degrees, mark sheets must be evaluated by WES or another NACES organization.

**Statement of Goals:** In 500 to 1,000 words, describe your specific interest in Temple's program, research goals, career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Required. Test results cannot be more than five years old. Although the applicant's test score is an important factor in the admissions process, other factors, such as the ability to conduct research as demonstrated by academic research publications and whether your indicated research interests match with those of our faculty, are also taken into consideration.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 90
- IELTS Academic: 7.0
- Duolingo: 110
- PTE Academic: 68

**Resume:** Current resume or CV required.

<b>Total Credit Hours</b>		<b>48</b>

1

With prior approval from the Director of Graduate Programs in Statistical Science, students may select electives outside of Statistics.

2

A minimum of 2 credits of STAT 9999 must be taken. The remaining 4 credits may be earned in any combination of STAT 9994, STAT 9998 and/or STAT 9999.

**Additional Requirement:** Completion of a Summer research paper is required.

#### **Culminating Events:**

##### *Statistics Competency Examination:*

An assessment of students' proficiency in statistical theory and methodology is made at the end of their first year in the program with an exam offered in June. Students who fail the statistics competency examination on the first attempt must sit for reexamination prior to the Fall term of their second year. A second failure results in dismissal from the University. No third attempt is allowed.

##### *Preliminary Examination:*

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge of current research. The subject areas are determined, in advance, by the faculty of the department. The preliminary exam should be completed no more than one term after the student completes the coursework component of the program. Students who are preparing to write their preliminary examinations should confirm a time and date with their departmental advisor.

The members of the student's department write the questions for the preliminary exam. The student must answer every question on the examination in order to be evaluated by the Department Committee. The evaluators look for a breadth and depth of understanding of specific research areas, a critical application of that knowledge to specific phenomena, and an ability to write technical prose. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed.

##### *Proposal:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem,

an exhaustive survey and review of literature related to the problem, and a detailed methodological plan for investigating the problem.

The proposal should be completed and approved no more than one year after completing coursework. Upon approval, a timeline for completing the investigation and writing process is established.

##### *Dissertation:*

The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standard of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from the student's department. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation. This committee is comprised of the Doctoral Advisory Committee and at least one additional faculty member from outside the department.

If any member decides to withdraw from the committee, the student shall notify the Chair of the Dissertation Examining Committee and the Director of Graduate Programs in Statistical Science. The student, in consultation with the Chair, is responsible for finding a replacement. Inability to find a replacement shall constitute evidence that the student is unable to complete the dissertation. In such a case, the student may petition the Director of Graduate Programs in Statistical Science for a review. Once review of the facts and circumstances is completed, the Director rules on the student's progress. If the Director rules that the student is not capable of completing the dissertation, the student is dismissed from the program. This decision may be appealed to the Senior Associate Dean. If dismissed, the student may appeal to the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards to the student the appropriate forms. After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department posts flyers announcing the defense, and the Graduate School announces the defense on its website.

## Statistics and Data Science MS

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Graduate Certificate: Business Administration

FOX SCHOOL OF BUSINESS AND MANAGEMENT

### About the Certificate

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

## Graduate Certificate: Business Analytics

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Business Analytics.

### About the Certificate

The graduate certificate in Business Analytics, offered by the Department of Statistics, Operations and Data Science in the Fox School, fosters deep analytical skills needed to use analysis of big data to make effective decisions. Students learn to understand descriptive, predictive and prescriptive analytics; recognize when each is appropriate; and understand the fundamental methods and techniques used in each method. They are also prepared to:

- understand applications, assumptions and limitations of business-analytic models and techniques,
- develop expertise in the use and application of analytical tools and software,
- obtain information and insight from datasets of varying complexity, and
- effectively communicate insights and results of analyses in relevant managerial terms.

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

### Admission Requirements and Deadlines

#### Application Deadline:

##### Fall:

- December 15 – Early Admissions Deadline
- June 30 – Final Deadline

##### Spring:

- August 1 – Early Admissions Deadline
- November 1 – Final Deadline

Applications are reviewed as they are received and will be considered after the deadline.

APPLY ONLINE to this Fox graduate program.

**Bachelor's Degree:** A baccalaureate degree from an accredited university or college is required. Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree in a country where the language of instruction is English, must report scores for a standardized test of English.

**Statement of Goals:** In 250 words or less, describe your goals and motivations for pursuing this certificate program.

**Resume:** Current resume or CV is required.

### Certificate Requirements

## Graduate Certificate: Corporate Instructional Design

FOX SCHOOL OF BUSINESS AND MANAGEMENT

## About the Certificate

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

## Graduate Certificate: Diversity, Equity and Inclusive Leadership in Organizations

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Diversity, Equity and Inclusive Leadership in Organizations.

## About the Certificate

We recognize this truth: Our organizations are increasingly diverse with employees of various ethnicities, generations, genders and sexual orientations, religious beliefs, backgrounds and histories, partnerships, and values cooperating in support of personal and organizational goals. Our organizational leaders must embrace this world and facilitate a future that respectfully acknowledges those differences and builds a culture of equity. One of the keys to this future is inclusive leadership beliefs and practices. Our graduate certificate in Diversity, Equity and Inclusive Leadership in Organizations is designed to increase the skills of managers and team members in utilizing these key practices.

Coursework allows students to develop their own perspectives on diversity and equity and begin to model inclusive leadership practices. Students explore the larger context of leadership, the variety of individual differences that contribute to a diverse environment, the importance of understanding one's colleagues and tailoring one's communication to their needs, and the laws and public policy issues related to diversity and equality.

All courses are delivered online and include virtual classroom meetings with a Fox School faculty member and student-classmates. Rigorous hands-on courses are taught by faculty who are leaders in their fields and businesspeople who have managerial and leadership experience. Participants also have the option to transfer credits earned into a Fox graduate degree program, such as the Human Resource Management MS (p. 137).

The Diversity, Equity and Inclusive Leadership in Organizations certificate program is appropriate for:

- individual contributors who seek a leadership role, and
- general managers who would like to develop inclusive leadership practices.

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

## Graduate Certificate: Healthcare Innovation Management

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Healthcare Innovation Management.

## About the Certificate

The graduate certificate in Healthcare Innovation Management gives healthcare leaders the tools to become innovative thinkers more focused on non-traditional approaches to healthcare delivery.

This certificate is designed for working professionals, and is jointly run by the Department of Risk, Actuarial Science and Legal Studies and the Department of Management in the Fox School of Business and Management. Rigorous, hands-on courses are taught by faculty who are leaders in their fields and businesspeople who have implemented ideas into practice.

Students who undertake the certificate have the option to transfer credits earned into our other graduate degree programs, such as the Innovation Management and Entrepreneurship MS, the MBA in Business Administration/Health Sector Management, or the Health Administration MHA.

Four focal areas that serve a diverse range of healthcare professionals are available within the Innovation Management and Entrepreneurship coursework required to be completed as part of this certificate:

- Creative Problem-Solving and Innovating, which solves everyday problems in healthcare or hospital settings, improves operations, enhances patient outcomes, and offers connections to stakeholder groups;
- Designing and Building Next-Generation Organizations, which balances productivity with innovation, identifies connections to regional ecosystems, and understands macro-level trends that are changing and often disrupting healthcare;
- Entrepreneurship, which encourages entrepreneurial thinking within the organization, understands new models for multi-bottom-line organizations focused on social impact, and identifies connections with the entrepreneurial ecosystem; and

- New Product Development, which demonstrates running innovation or technology, as well as research and development programs, projects or teams.

**Campus Location:** Main, Center City, Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

## Graduate Certificate: Human Resource Management

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Human Resource Management.

### About the Certificate

People are a critical component of all organizations. They are the ones who produce the products, serve the customers, verify the financial statements, attract the customers, develop the innovations, and manage the enterprise. Human Resource Management (HRM) plays a crucial role in this arena with its strategies and tactics of:

- attracting and selecting from a diverse talent pool and developing that talent for continued growth and engagement;
- creating motivation and reward systems that support individual and organizational goals;
- ensuring talent retention; and
- ultimately, generating important individual and organizational outcomes.

The focus of this graduate certificate is to equip rising professionals with knowledge of advanced practices in critical HRM areas and an understanding of how those practices affect organizational success. It is designed for both career accelerators and career changers. Courses are delivered online and include virtual classroom meetings with a Fox School faculty member and student-classmates. Rigorous hands-on courses are taught by faculty who are leaders in their fields and businesspeople who have led HR groups. Participants also have the option to transfer credits earned into a Fox graduate degree program, such as the Human Resource Management MS.

The HRM certificate program is appropriate for:

- human resource practitioners seeking to enhance their careers with new strategies and cutting-edge knowledge,
- general managers who strive to transition to an HRM career, and
- general managers who want to deepen their understanding of HRM practices to become better managers.

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

# Graduate Certificate: Information Technology Auditing and Cyber Security

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Information Technology Auditing and Cyber Security.

## About the Certificate

The graduate certificate program in Information Technology Auditing and Cyber Security (ITACS) immerses students in a series of IT risk management, cyber security and information technology auditing courses. The ITACS graduate certificate is an efficient, high-impact program that prepares the next generation of information assurance specialists for the rapidly changing landscape of information systems security.

Our graduate certificate program is designed for working professionals. Rigorous, hands-on courses are taught by faculty who work for leading businesses on the front lines of IT risk management, cyber security and information systems auditing. Students also have the option to transfer credits earned into the Information Technology Auditing and Cyber Security MS (p. 139) degree.

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

## Graduate Certificate: Innovation Management and Entrepreneurship

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Innovation Management and Entrepreneurship.

### About the Certificate

The graduate certificate in Innovation Management and Entrepreneurship is designed such that students have an efficient path through the coursework. The required courses are important for both entrepreneurs and intrapreneurs, i.e., those working within an organization.

The key learning goals for the graduate certificate in Innovation Management and Entrepreneurship include:

- learn to leverage divergent and convergent thinking techniques to creatively solve problems,
- design and evaluate business models and business model innovations,
- understand how to make innovation central to strategy,
- learn to identify and test assumptions as well as unknowns, and
- identify entrepreneurial opportunity.

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Fox School's admissions advisor for more information.

### Admission Requirements and Deadlines

Students are accepted into the certificate program in both the Fall and Spring terms.

APPLY ONLINE to this Fox graduate program.

**Bachelor's Degree:** A baccalaureate degree from an accredited university or college is required. ## Graduate Certificate: Organizational Leadership

FOX SCHOOL OF BUSINESS AND MANAGEMENT

Learn more about the graduate certificate in Organizational Leadership.

### About the Certificate

Organizations need strong leaders who:

- internalize how individuals, groups and organizations function;
- embrace diversity, equity, inclusion and justice as part of their practices; and
- enable teamwork, both as a colleague and team member and as a leader.

Our graduate certificate in Organizational Leadership is designed to equip rising professionals with the ability to influence success both for individuals and for the organization through practical leadership skills.

Courses include overviews of various leadership content areas, as well as a choice of elective in the additional areas of negotiation, communication and strategic leadership. All courses are delivered online and include virtual classroom meetings with a Fox School faculty member and student-classmates. Rigorous hands-on courses are taught by faculty who are leaders in their fields and businesspeople who have managerial and leadership experience. Participants also have the option to transfer credits earned into a Fox graduate degree program, such as the Human Resource Management MS.

### **About the Certificate**

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

## Kornberg School of Dentistry

Temple University's Maurice H. Kornberg School of Dentistry is a center of excellence in dental education, patient care, and community-based service and research. The school's mission is to promote oral health through the education of diverse general and specialty dentists with advanced skills. Our dentists provide patient-centered and evidence-based comprehensive care while engaging in research, scholarly activities and community service. Founded in 1863 as the Philadelphia Dental College, it is the second oldest continuously operating dental school in the United States.

Kornberg School of Dentistry provides more than 300,000 patient procedures every year and is known around the nation and the world for the quality of its clinical education. The school's patient base and outreach in its immediate community offer students exceptional opportunities to develop clinical skills in the full range of oral health care. The school's preclinical lab, four general practice clinics, and eight specialty clinics create a state-of-the-art environment for clinical education and patient care on Temple's Health Sciences Center campus. Temple dental students work in a comprehensive-care, large-practice setting equipped with the latest technologies, including computer-aided design and computer-aided manufacturing (CAD/CAM) and cone-beam imaging.

A growing faculty research enterprise explores issues with broad-scale impact on dental and overall health. Dental faculty are conducting research into remineralization of dental enamel; regeneration of dental pulp tissue; development of bacterial viruses to combat infections caused by antibiotic-resistant bacterial strains; the effect of maternal behavior in influencing dental hygiene practices in young children; and other topics.

Temple's Kornberg School of Dentistry prepares students to serve their patients and to shape the continued development of the dental profession and oral health. Kornberg School graduates demonstrate the highest levels of skills, with outstanding manual dexterity, diagnostic and clinical skills, and a sound understanding of the science and business aspects of dental practice.

## Graduate and Professional Programs and Certificates

- Dentistry DMD (p. 160)
- Dentistry/Advanced Standing Program for Internationally Trained Dentists DMD (p. 163)
- Oral Health Sciences MS (p. 164)
- Dentistry Certificate: Advanced Education in General Dentistry (p. 168)
- Dentistry Certificate: Dental Public Health (p. 170)
- Dentistry Certificate: Endodontics (p. 172)
- Dentistry Certificate: Oral and Maxillofacial Surgery (p. 174)
- Dentistry Certificate: Orthodontics (p. 176)
- Dentistry Certificate: Periodontics (p. 179)
- Dentistry Certificate: Prosthodontics (p. 181)

## Graduate Faculty

*Nezar Al-Hebshi*, Associate Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; PhD, University of Bergen.

*Jsam M. Albandar*, Professor, Department of Periodontology and Oral Implantology, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry.

*Kenneth G. Boberick*, Associate Professor, Department of Restorative Dentistry, Kornberg School of Dentistry; DMD.

*Eugene M. Dunne*, Assistant Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; PhD, University of Florida-Gainesville.

*Amid Ismail*, Laura H. Carnell Professor and Dean, Department of Restorative Dentistry, Kornberg School of Dentistry; DrPH, University of Michigan.

*Laurie MacPhail*, Professor, Department of Oral and Maxillofacial Pathology, Medicine and Surgery, Kornberg School of Dentistry; DMD.

*Roni Nissan*, Associate Professor, Department of Endodontology, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry.

*Santiago Orrego*, Assistant Professor, Department of Restorative Dentistry, Kornberg School of Dentistry; PhD, University of Maryland Baltimore County.

*Sumant Puri*, Assistant Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; PhD, State University of New York at Buffalo.

*Thomas E. Rams*, Professor, Department of Periodontology and Oral Implantology, Kornberg School of Dentistry; DDS, University of Maryland.

*James J. Sciote*, Professor, Department of Orthodontics, Kornberg School of Dentistry; PhD, University of Michigan.

*Roy H. Stevens*, Professor, Department of Endodontology, Kornberg School of Dentistry; DDS, Columbia University.

*Marisol Tellez-Merchán*, Associate Professor, Department of Oral Health Sciences, Kornberg School of Dentistry; PhD, University of Michigan.

*Orhan C. Tuncay*, Gerald D. Timmons Professor, Department of Orthodontics, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry.

*Jie Yang*, Professor, Department of Oral and Maxillofacial Pathology, Medicine and Surgery, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry.

*Maobin Yang*, Associate Professor, Department of Endodontology, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry, PhD, University of Connecticut.

*Cemil Yesilsoy*, Associate Professor, Department of Endodontology, Kornberg School of Dentistry; DMD, Temple University Kornberg School of Dentistry.

## Dentistry DMD

KORNBERG SCHOOL OF DENTISTRY

Learn more about the Doctor of Dental Medicine.

## About the Program

The Maurice H. Kornberg School of Dentistry at Temple University offers a four-year pre-doctoral program leading to the Doctor of Dental Medicine (DMD) degree.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Graduates of the program are employed in a variety of diverse general dentistry settings.

**Licensure/Certification:** In order to become a practicing dentist, students must first obtain licensure. This process includes completing an educational program that is accredited by the Commission on Dental Accreditation (CODA). Students also need to complete Parts I and II of the National Board Dental Examination (NBDE) administered by the Joint Commission on National Dental Examinations. For most U.S. jurisdictions, the last component is that students complete a clinical licensure examination.

Each State Board of Dentistry sets its own requirements for the clinical examination, with regional testing agencies administering the examination process. At present, all but the following jurisdictions accept successful completion of the American Board of Dental Examiners (ADEX) dental examinations as administered by The Commission on Dental Competency Assessments (CDCA): Delaware and New York. Delaware has its own licensing exam, and New York requires students to complete a one-year clinical residency program.

Temple University Kornberg School of Dentistry is CODA-accredited and prepares students for the written and clinical examinations. Kornberg students must complete Parts I and II of the NBDE before graduation. Successful completion of a clinical examination is not required for graduation, although Kornberg does host the ADEX examination in its school facilities.

**Non-Matriculated Student Policy:** Coursework may not be taken on a non-matriculated basis.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* January 15

[APPLY ONLINE to this professional program.](#)

Applicants for the Dentistry DMD must utilize the Associated American Dental Schools Application Service (AADSAS®), which is a centralized application service for all U.S. dental schools sponsored by the American Dental Education Association (ADEA). The ADEA AADSAS® application must be completed.

Additional information regarding the application process is found at the DMD's Admissions page. In brief, applicants must have:

- Completed a minimum of 90 semester hours at an accredited college or university.
- Completed at least one year of college and all dental prerequisite courses in the United States or Canada if the student was educated at an institution outside the United States or Canada.

- Completed a minimum of eight semester hours in each of the following subjects, all with laboratory experience: biology, general chemistry, organic chemistry and physics. It is also highly recommended that the student gained exposure to advanced science courses, particularly anatomy, biochemistry, histology and physiology.
- Completed six semester hours in English.
- Met the technical standards established for behavioral, cognitive, communication, motor and sensory/observation skills.

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained from science professors or pre-health committee members.

**Degree Required for Admission Consideration:** Applicants should have completed a minimum of 90 semester hours from an accredited college or university. Students who have completed a baccalaureate degree are given preference in the admissions process.

**Standardized Test Scores:**

DAT: Required. Applications will not be reviewed without reported DAT scores. DAT scores more than two years old at the time of application will not be accepted. Proficiency in English must be demonstrated as determined through the interview, essays and Reading Comprehension score on the DAT.

**Transcripts:** Complete official transcripts for all undergraduate coursework must be submitted.

**Interview:** Applicants are invited to visit the Kornberg School of Dentistry for a formal interview. The visit involves meeting with current students in the program, touring the facility, reviewing financial aid and housing procedures, and engaging in an interview. The applicant is given an opportunity to learn more about Temple and to review the submitted application. The interview affords the Admissions Committee an opportunity to learn more about the applicant and to gauge motivation, approach to problems and communication skills.

**Acceptance:** Decisions are made starting December 1. Admission is rolling after that date. Upon acceptance, a non-refundable deposit is required to hold a seat in the class.

## Program Requirements

## Dentistry/Advanced Standing Program for Internationally Trained Dentists DMD

KORNBERG SCHOOL OF DENTISTRY

Learn more about the Doctor of Dental Medicine Advanced Standing Program for Internationally Trained Dentists.

### About the Program

The Kornberg School of Dentistry offers a postgraduate opportunity for dentists who hold a DDS, DMD or BDS degree from an international dental school not accredited by the Commission on Dental Accreditation (CODA). This comprehensive program includes both clinical and didactic training.

Residents in this one-year program have the flexibility to pursue an optional second year of Advanced Education in General Dentistry (AEGD) training and/or to earn an optional Oral Health Sciences MS (p. 164) degree. Those interested in the optional MS degree must apply to both the first-year AEGD and MS programs concurrently. If accepted to both programs, the tuition for the MS degree program is included in the AEGD tuition. Learn more about how to apply to the AEGD program for international applicants.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Graduates of the program are employed in a variety of diverse general dentistry settings.

**Non-Matriculated Student Policy:** Coursework may not be taken on a non-matriculated basis.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* July 15 to start in June of the following year

APPLY ONLINE to this professional program.

Applicants for the Dentistry DMD must utilize the Centralized Application for Advanced Placement for International Dentists (CAAPID), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for internationally educated dental graduates who wish to practice dentistry in the United States or Canada. The ADEA CAAPID® application must be completed.

Additional information regarding the application process is found on the DMD Program page.

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation must have been written within one year of the date of application. One letter must be written by the dean of the dental college attended, and one letter must be provided by a science professor or dental professional. These letters must be submitted to ADEA CAAPID.

**Degree Required for Admission Consideration:** Applicants must have earned a dental degree from a dental school outside of the United States and Canada.

### Standardized Test Scores:

**NBDE/INBDE:** Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II or Integrated National Board Dental Examination (INBDE) to be considered for admission into the Advanced Standing Program or Attrition Based DMD Program. An official or notarized copy of NBDE or INBDE scores will be requested by the Kornberg School of Dentistry if the applicant is invited for an interview.

**TOEFL iBT:** 100 minimum required. All applicants must be proficient in the English language to be admitted to the Advanced Standing Program and to its companion program, the Attrition Based DMD Program for those waitlisted for the Advanced Standing Program. An official or notarized copy of TOEFL scores will be requested by the Kornberg School of Dentistry if the applicant is invited to interview. TOEFL scores must be no more than two years old.

**Transcripts and Credential Evaluation:** A detailed credential evaluation report prepared by Educational Credential Evaluators, Inc. (ECE) must be submitted. Application eligibility requires a degree from an international dental school degree showing completion of a minimum of 120 credits with a minimum GPA of 3.0. Kornberg School of Dentistry only accepts ECE evaluations, which include a dental school course-by-course analysis, sent to ADEA CAAPID. For more information, contact <https://www.ece.org/>.

**Interview with Skills Assessment:** Following initial review and evaluation of the applicant's credentials and other documents, select applicants are invited to visit the Kornberg School of Dentistry for a formal interview. The visit includes a skills assessment, which is performed by faculty who evaluate the applicant's pre-clinical and clinical skills. A fee applies.

**Acceptance:** Advanced Standing applicants who are offered admission to the Kornberg School of Dentistry enter into the second or third year of dental school. Internationally trained dental students are held to the same standards as domestic students who enroll in the DMD program.

## Program Requirements

## Oral Health Sciences MS

### KORNBERG SCHOOL OF DENTISTRY

Learn more about the Master of Science in Oral Health Sciences.

### About the Program

The MS in Oral Health Sciences program is designed to meet the needs of those who wish to pursue an advanced science degree. This flexible program allows students to choose either to survey a range of oral health disciplines or to pursue an interest in one particular discipline. Students may select a Clinical Specialty Track, a Clinical Internship Track, or a Non-Clinical Internship Track. Each track requires completion of 30 credits of coursework, with an emphasis on producing a scholarly work that demonstrates mastery of the scientific method and creation of new knowledge.

The MS in Oral Health Sciences provides advanced education on the structure, development and function of oral tissues, their interrelationships, and their relation to other organ systems in both health and disease. Emphasis is on gaining advanced understanding of oral and

craniofacial structures and their function in health and disease, as well as application of modern biological principles and research techniques in the diagnosis, treatment and prevention of oral and craniofacial diseases and anomalies.

Areas of study for the Oral Health Sciences MS program include traditional basic biomedical science disciplines, such as advanced biomaterials, advanced digital dentistry, advanced systematic review and critical thinking, anatomy, clinical pharmacology, contemporary laboratory techniques, neurophysiology of pain, oral microbiomes, and regenerative medicine, with emphasis on how these areas relate to oral health and disease. Study and research opportunities are offered in a variety of areas, including, but not limited to, advanced general dentistry, dental biomaterials, oral implantology, oral and maxillofacial radiology, oral microbiology and immunology, oral molecular biology, oral mucosal disorders, periodontal and craniofacial regeneration, pulp biology, and such clinical fields as endodontology, implantology, orthodontics, periodontology and public health. The goals of the Oral Health Sciences MS program are to:

- advance knowledge and understanding in the scientific field of oral health sciences;
- develop "clinical scholars" in dentistry by offering an adaptive graduate-level education across a variety of dental disciplines applicable to oral health;
- offer oral healthcare professionals the opportunity to attain a deeper, more focused understanding of their respective disciplines; and
- provide graduate-level training and experience in research methodology and technology to better qualify students for careers in academic and/or industry-related oral health activities.

**Time Limit for Degree Completion:** 4 years, but can be completed in 2 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Students not enrolled in an advanced training certificate program may choose to complete the MS degree either on a full- or part-time basis. Students enrolled in a Commission on Dental Accreditation (CODA)-accredited advanced training certificate program are full-time.

**Interdisciplinary Study:** The curriculum of the Oral Health Sciences MS program is inherently interdisciplinary and crosses traditional department boundaries of basic biomedical sciences, such as anatomy, microbiology, pharmacology and physiology. A major strength of the program lies in offering Clinical Internship and Non-Clinical Internship tracks such that students who are not enrolled in a specialty certificate program are able to choose from course offerings across all dental specialty programs and disciplines at Temple University's Kornberg School of Dentistry.

**Areas of Specialization:** Three tracks are offered:

- Clinical Specialty, which is intended for post-graduate students enrolled in a CODA-accredited advanced training certificate program at the Kornberg School of Dentistry. Coursework in the students' respective post-graduate certificate program is used toward fulfilling the required 30 credits for the MS degree.
- Clinical Internship, which is intended to be a stand-alone program for students who are not enrolled in an advanced training certificate program at the Kornberg School of Dentistry, but wish to broaden their understanding of clinical dentistry.

- Non-Clinical Internship, which is intended to be a stand-alone program for students with or without a dental degree who have an interest in advanced master's-level education in oral health sciences. The curriculum for students in the Non-Clinical Internship Track does not include clinical courses.

**Job Prospects:** Graduates of the MS in Oral Health Sciences degree program may be engaged in academic teaching and research careers, private clinical patient care, and industry-related oral health activities.

**Non-Matriculated Student Policy:** Coursework may not be taken on a non-matriculated basis.

**Financing Opportunities:** Contact the Office of Graduate Education in the Kornberg School of Dentistry for information.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

Applicants either accepted into or applying for one of the advanced training certificate programs at the Kornberg School of Dentistry may submit application documents in conjunction with the PASS application for their certificate program. Information regarding advanced training certificate programs at the Kornberg School of Dentistry can be obtained at <https://dentistry.temple.edu/>.

Applicants not affiliated with one of the Kornberg School of Dentistry's advanced training certificate programs apply through the Allied Health Centralized Application Service (AHCAS) and complete the supplemental application to Temple University.

Applications are processed as they are received. Late applications may be considered for admission.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from faculty members who are familiar with the applicant's academic background and potential for graduate-level study. Referees may know the applicant from dental school or wherever their highest degree was attained.

**Degree Required for Admission Consideration:** Applicants to the Oral Health Sciences graduate program must hold a BDS, DDS, DMD or other bachelor's degree from an accredited college or university. The minimum preferred undergraduate GPA is 3.0. No prerequisites must be met to apply to the Oral Health Sciences MS program, but applicants with a GPA of 3.25 or higher in mathematics/statistics courses and strong grades in writing are preferred.

All applicants must present official credentials that are the equivalent of an accredited baccalaureate degree. Official transcripts should be sent directly to AHCAS electronically or mailed to AHCAS Transcript Processing Center, PO Box 9127, Watertown, MA 02471.

A WES evaluation or ECE evaluation is required for applicants who completed their bachelor's degree outside of the United States. This can be requested at <https://www.wes.org/> or <https://www.ece.org/> and submitted through AHCAS.

Alternately, applicants who have successfully completed Kornberg School of Dentistry's Post-Baccalaureate Program (PBP) with a cumulative GPA of 3.0 or higher may apply to the Oral Health Sciences MS and request

that up to 15 credits of pre-approved PBP coursework completed with a grade of "B" or better count toward completion of elective credits for the MS. Credits from Kornberg's PBP must have been completed no more than 12 months before matriculating into the MS in Oral Health Sciences. Applicants who qualify may be able to complete the MS program within 12 months, although certain restrictions may apply. Consult with the Director of Graduate Programs at dentalgrad@temple.edu regarding specific courses and requirements and to determine if you qualify.

Applicants who have completed Kornberg's PBP within the last 12 months submit a supplemental application and either an AHCAS application or their original PBP application through PostbacCAS or ADEA AADSAS®. Applicants who opt to use their original application source may require additional material to be sent directly to Kornberg School of Dentistry. Contact the Director of Graduate Programs for more information at dentalgrad@temple.edu.

**Statement of Goals:** In approximately 500 to 1,000 words, address your academic and research achievements to date, overall career goals, specific interest in Temple University's Oral Health Sciences graduate program, and proposed research interests.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate, BDS, DDS or DMD: 40*

*Number of Credits Required Beyond Successful Completion of Kornberg School of Dentistry's Post-Baccalaureate Program (PBP): 25, with MS coursework beginning within 12 months of completing the Kornberg PBP*

*Required Courses:*

	or OHSC 8059 Oral Radiology for Non-Clinicians	
OHSC 8033	Bioethics and Critical Thinking in Dentistry	1

**Electives <sup>3</sup> 24**

**Research Courses**

OHSC 9991	Research in Oral Health Sciences	4
OHSC 9993	Master's Research Qualifying Examination	1
OHSC 9996	Master's Thesis in Oral Health Sciences	1

**Total Credit Hours 40**

1

Students in the Clinical Specialty and Clinical Internship Tracks register for OHSC 8016. Students in the Non-Clinical Internship Track register for OHSC 8056.

2

Students in the Clinical Specialty and Clinical Internship Tracks register for OHSC 8019. Students in the Non-Clinical Internship Track register for OHSC 8059.

3

Students in the Clinical Specialty Track earn the additional 24 credits from coursework completed in their respective specialized area of study while enrolled in a CODA-accredited advanced training certificate program. Students in the Clinical Internship Track and the Non-Clinical Internship Track select their additional 24 credits from the electives identified below. Alternately, with the approval of the program course director, elective courses in closely related graduate programs may be selected as electives by students in the Clinical Internship and Non-Clinical Internship Tracks.

### Culminating Events:

#### *Qualifying Exam Presentation:*

Prior to commencing the master's project, the student's Master's Advisory Committee (MAC) must formally accept the project plan. All students must establish a MAC for their scholarly activity, which reviews and approves the student's proposed master's protocol and monitors the student's progress. The committee should consist of a primary faculty research mentor who serves as committee chair, another faculty member who has expertise in the area of research, and a third faculty member from another department who may have expertise in the area to be studied.

The primary research mentor must be a member of the Temple University graduate faculty and approved by the Chair of the student's home academic department at the Kornberg School of Dentistry or the Assistant Dean for Advanced Clinical Education. The MAC must include members of at least two different departments at the Kornberg School of

Dentistry, one of which must be the academic department representing the student's area of research. MAC members may include experts from outside of Temple University. In addition, the Assistant Dean for Advanced Clinical Education may serve as an ex-officio member of the committee. The majority of members of the MAC must be members of the graduate faculty. The committee has responsibility for submitting grades for OHSC 9991 Research in Oral Health Sciences, OHSC 9993 Master's Research Qualifying Examination, and OHSC 9996 Master's Thesis in Oral Health Sciences.

The comprehensive project plan is reviewed by members of the student's MAC and is then presented by the student in a qualifying exam presentation to demonstrate appropriate understanding of the project. This proposal contains an introduction, theories, hypotheses, scholarly literature review, research methods, proposed alternatives and any other issues relevant to the project.

*Master's Research Project:*

All students, regardless of their chosen track, complete a scholarly work acceptable to their MAC. The thesis may be an original research investigation, a self-directed capstone project, or a systematic review:

1. The original research investigation demonstrates the student's ability to design and carry out original research, and to analyze, interpret and present the resulting data under the supervision of an approved research mentor. The thesis must address a well-focused, scientifically meaningful question and a hypothesis that is of adequate scope and significance to qualify for an MS degree.
2. The self-directed capstone project results from the student's applying what has been learned throughout the course of graduate study in the examination of a specific idea. Successful projects are those that have added to the technological and practical advancements involved in the oral health sciences field. Capstone projects identify, define and research a pertinent problem or opportunity in a real-world setting and develop the means to address it. The findings and end product should be something that can be readily implemented and used.
3. A systematic review summarizes the results of available, carefully designed healthcare studies (controlled trials) and provides a high level of evidence on the effectiveness of healthcare interventions. Judgments may be made about the evidence and inform recommendations for healthcare. These reviews are complicated and depend largely on the available clinical trials, the quality of the trials conducted, and the health outcomes that were measured. Review authors pool numerical data about the effects of the treatment through the process of meta-analyses. Authors then assess the evidence for any benefits or harms from those treatments. In this way, systematic reviews are able to summarize the existing clinical research on a topic.

Each project is unique to the student's program and, therefore, the student must continuously consult with their MAC to ensure that their project is proceeding in a timely manner and is consistent with the qualifying exam presentation. When appropriate, a written manuscript must be submitted and orally defended to the student's MAC. The master's candidate is then invited by their MAC to give a formal presentation of their project that shall be announced and open to the faculty of the Kornberg School of Dentistry. The date and location are arranged by mutual agreement between the candidate and the MAC. The presentation must meet standards outlined by the MAC regarding foundation, organization, relevance and practicality of results.

## Dentistry Certificate: Advanced Education in General Dentistry

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Advanced Education in General Dentistry.

### About the Certificate

The 12-month certificate program in Advanced Education in General Dentistry (AEGD) from Temple University's Kornberg School of Dentistry expands students' knowledge and refines clinical competency and judgment. The program is designed to accommodate recent dental school graduates, who function in the program as residents, as well as applicants who hold a DMD or DDS degree from a Commission on Dental Accreditation (CODA)-accredited dental school. Dentists who hold a DDS, DMD or BDS degree from an international dental school not accredited by CODA may apply to the Advanced Standing Program for Internationally Trained Dentists (p. 163).

The field of dentistry is rapidly evolving as new restorative technologies are pioneered to serve patients who live longer and have more complex medication and healthcare needs. The AEGD program takes students

beyond the four-year DMD curriculum and strengthens their knowledge base and clinical judgment, helping them to keep pace with advances in the field. While primary patient care provides the majority of residents' learning experience, diagnostic skills and the ability to develop patient-appropriate treatment plans are also enhanced through the didactic curriculum and weekly seminars covering treatment planning, literature reviews and topics in general dentistry. Residents train to operate effectively and collaborate efficiently within cross-functional healthcare teams while honing their ability to provide emergency, multidisciplinary and patient-centered oral healthcare to a diverse community of patients with a broad spectrum of conditions and needs.

Certificate students acquire robust clinical experience by working in the AEGD Clinic, which operates as a stand-alone clinic with a staff of dental assistants and hygienists. Rotations in postgraduate endodontology, implantology and periodontology supplement the comprehensive patient care assignment in the AEGD clinical facility. Dedicated faculty, who are experts in their fields and who are full-time tenured members of the Department of Restorative Dentistry, instruct and support residents throughout their clinical development and treatment of complex cases.

**Time Limit for Certificate Completion:** 1 year

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Dentistry has evolved tremendously over the years, and more can be learned beyond the dental degree. Graduates of the AEGD program go into the field having gained a better understanding of economic impacts; evolution of technologies; new restorative techniques and materials; patient management; and pharmacology, including side effects and interactions.

**Non-Matriculated Student Policy:** Participation in the certificate program is limited to dental school graduates accepted into the program on a yearlong basis.

**Financing Opportunities:** AEGD residents who hold a DMD or DDS degree from a CODA-accredited dental school receive a stipend of \$38,500. International dentists without a CODA-accredited dental degree should refer to the Temple University Tuition and Fees schedule.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* October 1

[APPLY ONLINE to this professional certificate program.](#)

Also APPLY ONLINE directly to Kornberg School of Dentistry.

Applicants for the Advanced Education in General Dentistry certificate program must utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEA PASS® application must be completed.

All AEGD applicants must submit their application materials to PASS by September 15 to allow PASS sufficient time to process their materials and submit them to Temple by our October 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

Additional information regarding the application process is found on the AEGD certificate's Admissions page.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills.

**Degree Required for Admission Consideration:** Applicants must hold the DDS, DMD or BDS degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

### Standardized Test Scores:

**NBDE:** Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II. If the applicant is currently a senior dental student, results from Part II may be forwarded directly to Kornberg School of Dentistry once received.

**TOEFL iBT:** 100 minimum

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. Transcripts should include GPA and class rank. Submit transcripts through the ADEA PASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at the following address:

Advanced Education in General Dentistry (AEGD) Certificate Program  
Temple University Kornberg School of Dentistry  
3223 N. Broad Street (600-00)  
Philadelphia, PA 19140

**Resume:** Current resume required. Submit resume through the ADEA PASS® application.

**Supplemental Document:** A 2x2 photo of the applicant's face is required for the AEGD program and should be included with the ADEA PASS® application.

**Acceptance:** Applicants will be notified of their admission consideration upon completion of all interview days. The AEGD program does not participate in the National Matching Service.

## Dentistry Certificate: Dental Public Health

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Dental Public Health.

## About the Certificate

Dental public health is the science and art of preventing and controlling dental diseases and promoting oral health through organized community efforts. These community efforts include assessments of oral health status and need for care, the use of scientific knowledge to influence oral health policy, and diligence to ensure adequate services are available and provided to achieve community health goals.

Kornberg School of Dentistry's Dental Public Health Residency Program is accredited by the American Dental Association's Commission on Dental Accreditation (CODA) as of February 4, 2016. This certificate program adheres to the guidelines of the American Board of Dental Public Health (ABDPH). It is designed to allow dentists with the Master of Public Health (MPH) degree to complete the educational requirements for Board certification as a specialist in Dental Public Health.

The goal of the residency program in dental public health at Kornberg School of Dentistry is to provide the necessary educational preparation for dentists so they can:

- practice dental public health,
- take and pass the ABDPH examination and achieve Diplomate status, and
- design, conduct and lead dental public health research projects.

**Time Limit for Certificate Completion:** 1 year full-time; 3 years part-time

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** This certificate program can be completed on a full- or part-time basis. NOTE: International students must enroll full time in the certificate program to be eligible to apply for a student visa based on admission to the certificate program. Please contact the Department of Oral Health Sciences' admissions advisor for more information.

**Job Prospects:** Graduates of the program promote oral health in various capacities working with countless community programs tackling an expansive range of dental public health issues.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Kornberg School of Dentistry's Office of Graduate Education.

**Financing Opportunities:** Limited financial support is available for dental residents.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* September 1 to start the following year

*APPLY ONLINE to this professional certificate program.*

Applications are received on a rolling basis, but it is strongly recommended that all documents be submitted no later than September 1. Incomplete applications are not evaluated.

Two individuals are selected each year for full-time matriculation in the Dental Public Health Residency Program. Preference is given to academically accomplished candidates and those with demonstrable maturity in research, clinical care or service. Individuals with high GPAs

and strong letters of recommendation are encouraged to apply. The admissions process ensures a fair, unbiased and nondiscriminatory admissions policy.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from public health faculty and professionals.

**Degree Required for Admission Consideration:** Applicants must hold both:

- a DDS or DMD degree from a dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA), and
- an MPH degree from a U.S. or Canadian school of public health. Candidates with other master's degrees may submit an inquiry to the program director.

International applicants must verify that their training is equivalent to a CODA-accredited institution by using one of these foreign academic credentialing services: World Education Services or Education Credential Evaluators.

**Statement of Goals:** This personal statement includes your specific interest in Temple's DPH Residency program, your research and future career goals, and your previous academic and research achievements. The statement should not exceed 2,000 words.

**Standardized Test Scores:**

ADAT: Not required.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. GPA and class rank should be identified.

**Resume:** Current resume or CV required.

**Writing Sample:** An academic paper written during the master's program must be submitted.

**Acceptance:** Resident selection is accomplished by the Dental Public Health (DPH) Program Committee. The Committee consists of the Program Director as Chair, two additional DPH faculty members, and one non-DPH faculty member from the College of Public Health. The committee members review every applicant's folder and decide whether to grant an interview to the applicant based on the GPA in both dental school and the MPH program, previous public health education, letters of recommendation, and any other supplemental information.

Upon review of all completed applications, the DPH Program Committee extends invitations for interviews to those applicants under serious consideration for acceptance. Interviewees are required to visit Temple University for a personal interview, although being granted an interview does not guarantee admission into the program.

## Certificate Requirements

*Number of Credits Required:* 32

*Required Courses:*

# Dentistry Certificate: Endodontics

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Endodontics.

## About the Certificate

The postgraduate certificate in Endodontics is a full-time, 24-month program accredited by the American Dental Association's Commission on Dental Accreditation (CODA). This certificate program also fulfills the educational requirements for specialty board certification by the American Board of Endodontics.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Students who graduate from the Endodontology program are well prepared to pursue a specialized career in endodontics, whether in academics, administration, clinical and private practice, or research. Graduates have expertise in endodontics and oral biology, as well as the experience and compassion necessary for a patient-centered practice.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Kornberg School of Dentistry's Office of Graduate Education.

**Financing Opportunities:** Limited financial support is available for dental residents.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* August 1

APPLY ONLINE to this professional certificate program.

Applicants for the Endodontics certificate program must utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEAPASS® application must be completed.

All Endodontics applicants must submit their application materials to PASS by July 15 to allow PASS sufficient time to process their materials and submit them to Temple by our August 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty or supervisors. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills.

**Degree Required for Admission Consideration:** Applicants must hold the DDS or DMD degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

International applicants must verify that their training is equivalent to a CODA-accredited institution by using one of these foreign academic credentialing services: World Education Services or Education Credential Evaluators.

**Standardized Test Scores:**

NBDE: Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II. If the applicant is currently a senior dental student, results from Part II may be forwarded directly to Kornberg School of Dentistry once received. If the Integrated National Board Dental Examination (INBDE) was taken, evidence must be provided of satisfactory completion of the exam.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. Transcripts should include GPA and class rank. Submit transcripts through the ADEAPASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at [https://apply.temple.edu/DENTAL\\_CERT/](https://apply.temple.edu/DENTAL_CERT/) as part of the required Temple University application identified below.

**Resume:** Current resume required. Submit resume through the ADEAPASS® application.

**Supplemental Document:** When applying to the Endodontics certificate program, a separate Temple University application and application fee of \$50 are required. SUBMIT ONLINE the Temple application and fee.

# Dentistry Certificate: Oral and Maxillofacial Surgery

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Oral and Maxillofacial Surgery.

## About the Certificate

Oral and maxillofacial surgery (OMS) is one of ten dental specialties approved by the American Dental Association. These dental specialists treat conditions, defects, injuries and aesthetic aspects of the mouth, teeth, jaws and face. Among their specializations are inserting dental implants, extracting wisdom teeth, surgically correcting cleft lips and palates and other maxillofacial skeletal deformities, and diagnosing and managing temporomandibular joint (TMJ) disorders.

The OMS certificate program at Kornberg School of Dentistry is designed as a companion to the MD degree program at Temple University's Lewis Katz School of Medicine. This creates a combined MD degree/OMS certificate residency program that:

- allows Kornberg School of Dentistry to provide comprehensive oral surgical care at all levels, from simple extraction to care that requires hospitalization, with Kornberg faculty providing didactic and clinical instruction and supervision as a primary rotational site for the residency;
- extends Kornberg School of Dentistry's support to its large predoctoral program and other specialty programs, such as advanced

education in general dentistry, implantology and periodontology, by expanding the collaboration between various Kornberg predoctoral and graduate-level dental clinical services; and

- increases the capacity of Temple University Hospital to manage oral maxillofacial trauma and emergency care.

The goal of the certificate program at Kornberg School of Dentistry is to ensure that the large number of patients who annually need advanced oral and maxillofacial surgical procedures, which are beyond the capabilities of predoctoral dental students, can gain the assistance they need at Temple University. Offering the OMS certificate allows the Kornberg School of Dentistry to achieve its mission of:

- promoting health and wellness through the comprehensive education of diverse general and specialty dentists utilizing inter-professional collaboration;
- providing compassionate, comprehensive, patient-centered, evidence-based and outcome-driven oral healthcare;
- engaging in research and scholarly activities; and
- serving the community.

Although no credit hour requirements are set by the American Dental Association's Commission on Dental Accreditation (CODA), the certificate awarded by the Kornberg School of Dentistry is for completion of the requirements for the Oral and Maxillofacial Surgery certificate as defined by CODA.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** This certificate program is expected to be completed on a full-time basis. NOTE: International students must enroll full-time in the certificate program to be eligible to apply for a student visa based on admission to the certificate program. Please contact the admissions advisor in the Department of Oral and Maxillofacial Pathology, Medicine and Surgery for more information.

**Job Prospects:** Graduates of the program are prepared to provide advanced oral and maxillofacial surgical procedures for community members in need of such services.

**Non-Matriculated Student Policy:** Participation in the certificate program is limited to enrolled students.

**Financing Opportunities:** Limited financial support is available.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* September 15 to start on July 1 of the following year

[APPLY ONLINE to this professional certificate program through ADEA PASS®.](#)

Also APPLY ONLINE to the Postdoctoral Dental Matching Program.

Applicants for the OMS certificate program must utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEAPASS® application must be completed.

All OMS applicants must submit their application materials to PASS by September 15 to allow PASS sufficient time to process their materials and submit them to Temple by our October 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

All OMS applicants are also required to apply to the Postdoctoral Dental Matching Program through National Matching Services Inc.

Note that every applicant must be a U.S. or Canadian citizen or hold U.S. Permanent Resident status.

#### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills.

**Degree Required for Admission Consideration:** Applicants must hold the DDS or DMD degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

#### Standardized Test Scores:

NBDE: Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II. If the Integrated National Board Dental Examination (INBDE) was taken, evidence must be provided of satisfactory completion of the exam. Applicants are encouraged to upload official scores in the PASS application, but may also mail them to the Kornberg School of Dentistry.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. Transcripts should include GPA and class rank. Submit transcripts through the ADEAPASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at [https://apply.temple.edu/DENTAL\\_CERT/](https://apply.temple.edu/DENTAL_CERT/) as part of the required Temple University application identified below.

**Resume:** Current resume required. Submit resume through the ADEAPASS® application.

**Supplemental Document:** When applying to the OMS certificate program, a separate Temple University application and application fee of \$50 are required. SUBMIT ONLINE the Temple application and fee.

**Acceptance:** Applicants will be notified of their admission consideration by National Matching Services Inc.

*Number of Credits Required:* 5

*Required Courses:*

Code	Title	Credit Hours
ORBG 8014		1
ORBG 8015		1

ORBG 8017	1
ORBG 8018	1
ORBG 8019	1
<b>Total Credit Hours</b>	<b>5</b>

#### Additional Curricula and Assessments

##### Formal:

OMS residents participate in weekly seminars and lectures, in addition to monthly grand rounds, with topics ranging from surgical anatomy to professionalism and practice management. Although no formative or summative assessments are required, these curricular elements constitute a part of the longitudinal learning process of the OMS residency. The performance of residents on the annual Oral and Maxillofacial Surgery In-Training Examination (OMSITE) measures their clinical knowledge and skills.

OMS residents also engage in simulation training exercises throughout their clinical training. Debriefing and formative assessments are integral parts of these exercises.

##### Informal:

Throughout their surgical training, OMS residents participate in the daily educational experience of teaching rounds when patients are admitted to the hospital. These teaching rounds utilize the principles of directed and case-based learning. While no formal assessments are required, the learners' engagement and performance in the learning process are noted by the faculty and discussed at debriefing sessions or during the residents' semi-annual evaluations.

In clinical education and experiential learning, ongoing dialogue occurs between the residents and faculty. Although informal, this is perhaps the most important assessment of the residents' knowledge base, skills, preparedness and professionalism with respect to direct patient care. Trained and calibrated faculty communicate their assessment with the program director in preparation for the residents' semi-annual evaluations.

## Dentistry Certificate: Orthodontics

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Orthodontics.

### About the Certificate

The postgraduate certificate in Orthodontics at Kornberg School of Dentistry emphasizes evidence-based, patient-centered and outcome-driven care. The Orthodontics curriculum incorporates advanced understanding of cutting-edge orthodontic instrumentation, with a focus on wire manipulation and clinical biomechanics. Study of dental literature, research, theories, technological advancements and therapeutic procedures is applied to the diagnosis and treatment of patients. Skills are also developed for the sound management of one's own clinical practice.

Matriculation in the Orthodontics program starts in July of each year. Dentists are expected to maintain continuous residency status over the course of the program. Completion of the certificate also awards residents a concurrent Master of Science degree in Oral Health Sciences.

**Time Limit for Certificate Completion:** 26 months

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** The postdoctoral certificate program prepares residents to become qualified specialists in orthodontics with expertise in applied basic sciences, clinical biomechanics, compassionate care for patients, and diagnosis and treatment planning. Residents receive advanced didactic and clinical instruction across all aspects of the discipline in preparation for a career as an orthodontist in settings such as academics, clinical practice and research. Graduates are prepared to pursue certification by the American Board of Orthodontics.

**Licensure/Certification:** Students who complete the certificate in Orthodontics are eligible to sit for the American Board of Orthodontics (ABO) exam. A written examination must first be completed before the clinical examination can be taken. When both examinations are successfully completed, the orthodontist may become board certified by the ABO. The awarded certificate is time limited. By the end of the time-limited certificate, the board-certified orthodontist must have taken the appropriate renewal examination to retain board certification.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Kornberg School of Dentistry's Office of Graduate Education.

**Financing Opportunities:** Limited financial support is available for dental residents.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* August 15 to start the following year

[APPLY ONLINE to this professional certificate program through ADEA PASS®.](#)

Also APPLY ONLINE to the Postdoctoral Dental Matching Program.

Applicants for the Orthodontics certificate program must utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEA PASS® application must be completed.

All Orthodontics applicants must submit their application materials to PASS by August 15 to allow PASS sufficient time to process their materials and submit them to Temple by our September 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

All Orthodontics applicants are also required to apply to the Postdoctoral Dental Matching Program through National Matching Services Inc.

Six individuals are selected each year for full-time matriculation into the Orthodontics certificate program. Preference is given to academically accomplished candidates and those with demonstrable maturity in research, clinical care or service. Individuals with high GPAs and strong letters of recommendation are encouraged to apply. The admissions process ensures a fair, unbiased and nondiscriminatory admissions policy.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty or supervisors. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills.

**Degree Required for Admission Consideration:** Applicants must hold the DDS or DMD degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

International applicants must verify that their training is equivalent to a CODA-accredited institution by using one of these foreign academic

credentialing services: World Education Services or Education Credential Evaluators.

**Statement of Goals:** In no more than 2,000 words, address your specific interest in Temple University's Orthodontics certificate program, your research and future career goals, and your previous academic and research achievements.

**Standardized Test Scores:**

ADAT: Not required.

GRE: Required.

NBDE: Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II. If the applicant is currently a senior dental student, results from Part II may be forwarded directly to Kornberg School of Dentistry once received.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. Transcripts should include GPA and class rank. Submit transcripts through the ADEAPASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at the following address:

Dept. of Orthodontics  
Temple University Kornberg School of Dentistry  
3223 N. Broad Street (600-00)  
Philadelphia, PA 19140

**Resume:** Current resume or CV required. Submit resume through the ADEA PASS® application.

**Supplemental Documents:** The following documents required for the Orthodontics certificate program are to be sent directly to the Kornberg School of Dentistry in one envelope to the address listed above:

- A check in the amount of \$50 made payable to Temple University Kornberg School of Dentistry. This covers a separate application fee required when applying to the Orthodontics program. Payment should be remitted in a U.S. bank check or U.S. money order as international checks are not accepted.
- A 2x2 photo of the applicant's face.

**Acceptance:** Applicants who are accepted into the Orthodontics certificate program are rank-ordered, and their names are submitted to National Matching Services Inc. Notification of their match with a program occurs on the date chosen by National Matching Services Inc.

## Dentistry Certificate: Periodontics

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Periodontics.

### About the Certificate

The postgraduate certificate in Periodontology provides qualified dentists with specialized clinical training and research-focused education in periodontology and oral implantology, with a particular emphasis on surgical oral implantology. Students earn a certificate in Periodontics and a simultaneous Master of Science in Oral Health Sciences.

The rigorous 36-month, full-time postgraduate program prepares students for practice, teaching and research in periodontology and oral implantology. Students receive advanced education related to the attachment apparatus of the dentition, as well as the diseases and

conditions that affect teeth. Students also study the prevention, diagnosis and treatment of diseases.

**Time Limit for Certificate Completion:** 36 months

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Students who graduate with the Periodontology certificate program are well prepared to pursue a specialized career in periodontics, whether in academics, administration, clinical and private practice, or research. Graduates have expertise in periodontics and oral biology, as well as the experience and compassion necessary for a patient-centered practice.

**Non-Matriculated Student Policy:** Non-matriculated students may enroll in some courses with permission from the course instructor and approval from the Kornberg School of Dentistry's Office of Graduate Education.

**Financing Opportunities:** Limited financial support is available for dental residents.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* September 15 to start the following year

[APPLY ONLINE to this professional certificate program through ADEA PASS®.](#)

Also APPLY ONLINE to the Postdoctoral Dental Matching Program.

Applicants for the Periodontics certificate program can utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEAPASS® application must be completed.

All Periodontics applicants must submit their application materials to PASS by September 15 to allow PASS sufficient time to process their materials and submit them to Temple by our October 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

All Periodontics applicants are also required to apply to the Postdoctoral Dental Matching Program through National Matching Services Inc.

Four individuals are selected each year for full-time matriculation into the Periodontics certificate program. Preference is given to academically accomplished candidates who have one or more years of clinical practice experience or have completed a General Practice Residency (GPR) or an Advanced Education in General Dentistry (AEGD) program. Preference is also given to applicants with prior research experience/training, scientific publications and/or prior advanced degrees in basic science/biomedical fields.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills. These must be on appropriate letterhead and sent directly from the dental school faculty

to the Program Director at the Kornberg School of Dentistry's Office of Graduate Education.

**Degree Required for Admission Consideration:** Applicants must hold the DDS or DMD degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

International applicants must verify that their training is equivalent to a CODA-accredited institution by using one of these foreign academic credentialing services: World Education Services or Education Credential Evaluators.

**Standardized Test Scores:**

NBDE: Required. All applicants must have passed the National Board Dental Examination (NBDE) Part I and Part II. If the applicant is currently a senior dental student, results from Part II may be forwarded directly to Kornberg School of Dentistry once received.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. Transcripts should include GPA and class rank. Submit transcripts through the ADEAPASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at [https://apply.temple.edu/DENTAL\\_CERT/](https://apply.temple.edu/DENTAL_CERT/) as part of the required Temple University application identified below.

**Resume:** Current resume required. Submit resume through the ADEAPASS® application.

**Writing Sample:** An essay must be submitted.

**Supplemental Document:** When applying to the Periodontics certificate program, a separate Temple University application and application fee of \$50 are required. SUBMIT ONLINE the Temple application and fee.

**Acceptance:** Applicants who are accepted into the Periodontics certificate program are rank-ordered, and their names are submitted to National Matching Services Inc. Notification of their match with a program occurs on the date chosen by National Matching Services Inc.

**Dentistry Certificate: Prosthodontics**

KORNBERG SCHOOL OF DENTISTRY

Learn more about the certificate in Prosthodontics.

## About the Certificate

The postgraduate certificate in Prosthodontics is a full-time, 34-month program accredited by the American Dental Association's Commission on Dental Accreditation (CODA). This certificate program also fulfills the educational requirements for specialty board certification by the American Board of Prosthodontics.

**Time Limit for Certificate Completion:** 34 months

**Campus Location:** Health Sciences Center

**Full-Time/Part-Time Status:** Full-time study is required.

**Job Prospects:** Students who graduate from the Prosthodontics certificate program are well prepared to pursue a specialized career in prosthodontics, whether in academia, administration, clinical and private practice, or research. Graduates have expertise in prosthodontics and oral health sciences, as well as the experience and compassion necessary for a patient-centered practice.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* October 1

[APPLY ONLINE to this professional certificate program through ADEA PASS®.](#)

Also APPLY ONLINE to the Postdoctoral Dental Matching Program.

Applicants for the Prosthodontics certificate program must utilize the Postdoctoral Application Support Service (PASS), which is a centralized application service sponsored by the American Dental Education Association (ADEA) for individuals applying to advanced dental education programs. The ADEAPASS® application must be completed.

All Prosthodontics applicants must submit their application materials to PASS by September 15 to allow PASS sufficient time to process their materials and submit them to Temple by our October 1 deadline. Please check with PASS to ensure that your information has been received as they will only forward completed records to Temple University for assessment.

All Prosthodontics applicants are also required to apply to the Postdoctoral Dental Matching Program through National Matching Services Inc. and provide the match number.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from dental school faculty or supervisors. At least two of the letters must be written by faculty who can evaluate the applicant's clinical skills.

**Degree Required for Admission Consideration:** Applicants must hold the DDS, DMD or BDS degree from a U.S. or Canadian dental school accredited according to the standards of the American Dental Association's Commission on Dental Accreditation (CODA).

International applicants must verify that their training is equivalent to a CODA-accredited institution by using one of these foreign academic credentialing services: World Education Services (WES) or Education

Credential Evaluators (ECE). If accepted, internationally trained applicants must obtain legal foreign student status.

### Standardized Test Scores:

NBDE/INBDE: Required. All applicants must have passed Part I and Part II of the National Board Dental Examination (NBDE) or Integrated National Board Dental Examination (INBDE). If the applicant is currently a senior dental student, results from Part II may be forwarded directly to Kornberg School of Dentistry once received.

TOEFL iBT: 100 minimum required.

**Transcripts and Credential Evaluation:** Official transcripts from all colleges, universities and dental schools attended must be submitted. For those trained internationally, official transcripts with course-by-course evaluation by WES or ECE must be sent directly to Kornberg School of Dentistry. All transcripts should include GPA and class rank. Submit transcripts through the ADEAPASS® application.

Note that PASS does not accept undergraduate college transcripts. Applicants must send official transcripts for their undergraduate study directly to Kornberg School of Dentistry at [https://apply.temple.edu/DENTAL\\_CERT/](https://apply.temple.edu/DENTAL_CERT/) as part of the required Temple University application identified below.

**Resume:** Current resume required. Note that preference is given to applicants with high academic accomplishments and other significant awards as noted in their resume, e.g., advanced degrees, publications and research activities. Submit resume through the ADEAPASS® application.

**Interview with Skills Assessment:** Following initial review and evaluation of each applicant's credentials and other documents, select applicants are invited to visit the Kornberg School of Dentistry for a formal interview. The visit includes a skills assessment, which is performed by faculty who evaluate the applicant's pre-clinical and clinical skills. All expenses incurred during the interview process are the responsibility of the applicant.

**Supplemental Document:** When applying to the Prosthodontics certificate program, a separate Temple University application and application fee of \$75 are required to also enroll in the Oral Health Sciences MS program. SUBMIT ONLINE the Temple application and fee.

**Acceptance:** Offers of acceptance are made following review of the interview and skills assessment.

# College of Education and Human Development

## Mission Statement

The College of Education and Human Development at Temple University promotes education as a primary mechanism for social mobility and social justice for all learners. Our mission is to prepare all of our students as educational leaders and agents of change who employ leading-edge understandings and evidence-based practices in whatever setting they work. In our research, we conduct well-designed investigations that have the potential to improve learning and teaching, especially for historically underserved populations, and provide effective mentorship of doctoral students so that they can engage in similar kinds of investigations on their own. In our teaching, we strive to infuse our findings and those of other investigators into our coursework in ways that provide practitioners and prospective practitioners with deep understandings of both research and theory, as well as how to bring research and theory into effective practice. In our service, we endeavor to create and implement an infrastructure, policies and procedures that facilitate and enhance the implementation of the teaching and research missions of the College. Our students come from backgrounds that are economically and culturally diverse, but have in common the desire to acquire the skills they need to become the kind of teacher and/or researcher who can improve the lives of others through education.

## History

While the official date for the founding of the College of Education and Human Development is usually given as 1919, the college has included teacher preparation as part of its curricula almost from its inception. It is clear from Temple's history that the unofficial founder of the college was Laura Carnell, who began a program for the preparation of kindergarten teachers as early as 1895. The College was founded in 1919 as Teachers College. Its initial programs in elementary and then secondary education were offered largely in response to the Philadelphia school district's decision that higher positions in the city's school system would be open only to those with a college degree. As a consequence, the college began offering two-, three- and four-year programs to teachers, as well as extension work, day and evening courses, five days a week and on Saturday mornings. This intimate relationship between the college and the School District of Philadelphia characterizes almost all of the college's history. Programs of graduate study at the master's level were introduced in 1923, with the Doctor of Education degree first awarded in 1931.

Historically, Temple's College of Education and Human Development has had a significant impact on local and regional practice. The College continues to be a large provider of teachers for the School District of Philadelphia and for many suburban districts. Many principals and superintendents in neighboring regions have received their degrees from Temple. Many of their school psychologists, counselors, educational researchers and other education professionals have been prepared at Temple. In a very real sense, the College of Education and Human Development has helped to shape the educational direction of the region. In addition, recognizing that education occurs both in and out of school, the College has in recent years diversified its programs to provide preparation to those who plan to work with learners across the lifespan not only in schools but also in businesses and community-based organizations.

## Accreditation

The College of Education and Human Development is accredited by the Middle States Commission on Higher Education.

The College offers programs approved by the Pennsylvania Department of Education (PDE) that are designed for students seeking certificates to teach in early childhood/elementary, middle and secondary grades, as well as special education and business education settings.

The College offers School Psychology programs accredited by the American Psychological Association (APA), the National Association of School Psychologists (NASP), and the Pennsylvania Department of Education (PDE).

- Graduate Certificate: Conflict Process (p. 269)
- Graduate Certificate: Data-Driven Decision Making (p. 270)
- Graduate Certificate: Disability Studies (p. 271)
- Graduate Certificate: Diversity Leadership in Higher Education (p. 272)
- Graduate Certificate: English as a Second Language (p. 273)
- Graduate Certificate: English Language Teaching (p. 274)
- Graduate Certificate: Institutional Effectiveness (p. 275)
- Graduate Certificate: Instructional Learning Technology (p. 276)
- Graduate Certificate: Leadership in Instructional Technology for Higher Education (p. 278)
- Graduate Certificate: Professional Health Education (p. 279)
- Graduate Certificate: Student Affairs Leadership (p. 280)
- Graduate Certificate: Superintendency (p. 281)
- Graduate Certificate: Teaching in Higher Education (p. 281)
- Graduate Certificate: Teaching in Higher Education for the Creative Disciplines (p. 282)
- Graduate Certificate: Urban Education (p. 283)

## Certificates Not Currently Open for Enrollment

- Career and Technical Education/K-12
- English Education/7-12
- Instructional Coaching Endorsement
- Mathematics Education/7-12
- Middle Grades Education/4-8
- Science Education/7-12
- Social Studies Education/7-12
- World/Foreign Languages Education/K-12

## Graduate Faculty

*Gregory Anderson*, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, City University of New York.

*Janelle M. Bailey*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Arizona.

*Julie L. Booth*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Carnegie Mellon University.

*Joseph Boyle*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Kansas.

*Carol B. Brandt*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of New Mexico.

*Wanda M. Brooks*, Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, University of Pennsylvania.

*James P. Byrnes*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

*Sarah A. Cordes*, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, New York University.

*Maia Bloomfield Cucchiara*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Pennsylvania.

*James Earl Davis*, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Cornell University.

*Meixia Ding*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Texas A and M University.

*Arthur G. Dowdy*, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

*Joseph P. DuCette*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Cornell University.

*Richard M. Englert*, Professor and Chancellor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; EdD, University of California Los Angeles.

*Armando X. Estrada*, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Texas at El Paso.

*Frank H. Farley*, Professor Emeritus, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of London.

*Catherine A. Fiorello*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Kentucky.

*Timothy P. Fukawa-Connelly*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Maryland.

*Allison Gilmour*, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Vanderbilt University.

*John Hall*, Assistant Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of California Berkeley.

*Annemarie H. Hindman*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Michigan.

*Xu (Lilya) Jiang*, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of South Carolina.

*Jennifer Johnson*, Assistant Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Maryland College Park.

*Paul Jones*, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

*Avshalom Kaplan*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Michigan.

*Janice H. Laurence*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, George Mason University.

*Kelly M. McGinn*, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

*Sabina Neugebauer*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

*Kristie Jones Newton*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Maryland College Park.

*Timothy J. Patterson*, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Columbia University, Teachers College.

*Laura Pendergast*, Associate Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, The Pennsylvania State University.

*Charles Price*, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Graduate Center, City University of New York.

*Jayminn S. Sanford-DeShields*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

*W. Joel Schneider*, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Texas A and M University.

*Michael W. Smith*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Chicago.

*Matthew J. Tincani*, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, The Ohio State University.

*Renee M. Tobin*, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Texas A and M University.

*Jason C. Travers*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Nevada, Las Vegas.

*Matthew J. Elvis Wagner*, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Columbia University, Teachers College.

*Barbara A. Wasik*, Professor and the PNC Chair in Early Childhood Education, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

*Jason Wingard*, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Pennsylvania.

*Christine A. Woysner*, Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

## Accomplished Teaching MEd

### COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Science in Education in Accomplished Teaching.

### About the Program

The Master of Science in Education program in Accomplished Teaching enables working teachers, both relatively new practitioners and veterans, to develop new knowledge and to reflect on and analyze their own practices in order to move their teaching to a higher level. A combination of core courses and electives supports and advances those who have chosen to make classroom teaching their profession while allowing them to explore individual interests and additional certifications. Courses are designed to meet the immediate needs of students and to be directly applicable to students' home schools and communities.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main, with some courses offered online

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 5:30 p.m. and online. The degree program can be completed on a full- or part-time basis.

**Job Prospects:** Graduates are typically educators in current positions of teaching and leadership. This program is designed to enhance credentials and expand educators' knowledge and expertise.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study before being admitted to the program. The credits transfer into the program, if the student is

admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1  
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 2, with a third submitted at the applicant's discretion. Applicants are encouraged to use the online system in the application portal to request references electronically or they may use the "Reference Report for Graduate Study" found at [https://grad.temple.edu/sites/grad/files/Web\\_GRAD\\_REFERENCE\\_REPORT.PDF](https://grad.temple.edu/sites/grad/files/Web_GRAD_REFERENCE_REPORT.PDF).

From Whom: Letters of recommendation should be obtained from school administrators or college/university faculty members who can provide insight into the applicant's academic competence.

**Coursework Required for Admission Consideration:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University. Official undergraduate and graduate transcripts from all accredited institutions attended are required, as well as a copy of a valid teaching certification or demonstration of at least two years of successful practice in an educational setting.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. Applicants who do not meet the minimum GPA requirement of 3.0 on a 4.0 scale may be considered for admission if they meet one of the following exceptions:

- Standard exception:** 3.5 UGPA during the last two years AND a minimum of 3.25 Graduate GPA for 9 credits (typically taken as a non-matriculated student in the program prior to application for admission).
- Special exception:** Applicants who do not meet regular admission criteria may be considered for a special exception if a compelling case can be made for admission on the basis of some additional source of data.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5255	Tech in Classrooms: TPCK <sup>1</sup>	3
EPSY 5529	Tests and Measurements <sup>2</sup>	3
	or EDUC 5101 Critical Understanding of Social Science Research	
	Select one course on diversity in the school system from the following: <sup>3</sup>	3
AOD 5524	Sociocultural Dynamics	
DSST 5402	Action Modes of Research	
DSST 5403	Disability and Social Policy	
TESL 5621	Contexts for Teaching and Learning Language	
URBE 5401	Policy and Practice in Urban Education	
URBE 5501	Urban Schools	
URBE 5565	The Origins of Urban Education	
	Select one course on individual differences from the following: <sup>4</sup>	3
DSST 5401	Disability Rights and Culture	
SPED 5211	Effective Instruction for Students with Disabilities	
TESL 5613	Multilingual Students' Literacy Development	
TESL 5615	Teaching English in a Global Context	
	<b>Electives <sup>5</sup></b>	<b>15</b>
<b>Capstone Course</b>		
EDAD 5201	Action and Collaborative Research Seminar	3
	or EDUC 9991 Research Apprenticeship	
<b>Total Credit Hours</b>		<b>30</b>

1

With documented approval from the student's advisor, another educational technology course may be selected.

2

With documented approval from the student's advisor, another research methods course may be selected.

3

With documented approval from the student's advisor, another course focused on diversity in the school system may be selected.

4

With documented approval from the student's advisor, another course focusing on individual differences may be selected.

5

Students select five courses from within or outside of the College of Education and Human Development (CEHD) to tailor the degree to their needs and interests. It is recommended that students in this program use their electives to pursue a graduate certificate, including Data-Driven Decision Making, Disability Studies, English as a Second Language, Instructional Learning Technology (p. 276), and Urban Education from CEHD or Computer Science Instruction from the College of Science and Technology. Some of these suggested certificates offer fewer than the required 15 credits of elective coursework for the Accomplished Teaching MEd program. Additional courses needed to complete 15 elective credits should be selected with documented approval from the student's advisor.

#### **Culminating Event:**

##### *Capstone Course:*

Students execute an action-research project as part of EDAD 5201 OR EDUC 9991.

# **Advocacy and Organizational Development MEd**

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Advocacy and Organizational Development.

## **About the Program**

The interdisciplinary MEd program in Advocacy and Organizational Development is led by faculty trained in anthropology, education, law, psychology, sociology and other fields. Coursework is based in social science, conflict theory, and quantitative and qualitative research that develops students' skills in:

- diagnosing issues in organizations and communities;
- developing interventions;
- promoting community or organizational well-being;
- managing conflict and conducting negotiation or mediation;
- preparing schools, communities and organizations to advocate on their own behalf;
- building diverse and inclusive relationships and teams; and
- conducting research for an organization or community.

The goal of the program is to develop civic-minded individuals who support organizations, communities and nonprofit organizations through community engagement; informed research; organizational dynamics; and theory and skills, including rigorous study of advocacy. Classroom instruction and assignments draw on students' experience along with training in conceptual, theoretical and methodological applications.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program has a strong interdisciplinary focus. In addition, the coursework concentrates on empowering and engaging all individuals in and out of formalized organizations, whether for-profit or nonprofit.

**Areas of Specialization:** The program features coursework in three areas:

- adult learning and training, which concentrates on developing and teaching instructional/training programs for adult personal and professional development;
- organizational and team development, which develops assessment, planning, facilitation and consulting skills to help teams and organizations design and implement change; and
- conflict management and dispute resolution, which involves developing models and best practices for positive conflict cultures and third-party interventions.

**Job Prospects:** The MEd degree in Advocacy and Organizational Development prepares students for applied positions focusing on advocacy, engagement and development within educational, community and organizational settings.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1  
Spring: November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants must also submit an official document, including a course-by-course evaluation conducted by a NACES-accredited organization, that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 36

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
AOD 5301	People-Centered Community Development	3
AOD 5302	Introduction to Mission-Driven Organizations: Theory and Practice	3
AOD 5402	Negotiating Conflict	3
AOD 5404	Organizational Development	3
AOD 5524	Sociocultural Dynamics	3
AOD 5527	Training Design and Delivery	3
EDAD 5201	Action and Collaborative Research Seminar	3
EPSY 5551	Introduction to Program Evaluation	3
URBE 5417	The Urban Environment	3
<b>Electives <sup>1</sup></b>		<b>9</b>
<b>Total Credit Hours</b>		<b>36</b>

1

In consultation with their academic advisor, students select three approved College of Education and Human Development courses at the 5000 level or higher as electives. Suggested electives include AOD 5516, EDAD 5303, EDUC 5262 and URBE 5516.

**Culminating Event:** Successful completion of coursework is required to earn the Advocacy and Organizational Development MEd degree.

## Applied Behavior Analysis MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Science in Education in Applied Behavior Analysis.

### About the Program

The Master of Science in Education program in Applied Behavior Analysis trains students to apply the principles of learning and behavior to influence behavior change that is significant to society. Students learn how to systematically change behavior by analyzing related environmental variables and applying interventions based on the principles of behavior science. Behavior analysts have improved a wide range of everyday issues, including enhancing staff performance, improving public safety initiatives, teaching effective parenting skills, treating problem behavior in children, improving general and special education teaching strategies, rehabilitating individuals who abuse substances, and more. This program fulfills the degree and coursework requirements and partially fulfills the supervised experience requirement for the Board Certified Behavior Analyst® (BCBA®) credential.

Graduates of the Applied Behavior Analysis MEd program help fill the growing demand for individuals with applied behavior analytic training in social service agencies and educational institutions, particularly in service of individuals with autism and other intellectual and developmental disabilities. The Applied Behavior Analysis graduate degree also prepares educators, clinicians and other helping professionals to understand and implement interventions to address skill deficits and performance issues or problem behavior. Graduates of the program have a diverse set of skills, including the ability to analyze environmental variables affecting behavior, create individualized interventions, and assess the effectiveness of interventions to inform data-based decisions on modification and continuation.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main, with some courses offered at off-site locations

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The interdisciplinary Applied Behavior Analysis MEd program blends courses in education and psychology. Courses are taught by faculty with top academic credentials and experience as practitioners.

**Accreditation:** The Association for Behavior Analysis International® (ABAI) has verified the seven-course sequence of this MEd's requirements for eligibility to take the Board Certified Behavior Analyst® or Board Certified Assistant Behavior Analyst® examination. Applicants need to, however, meet additional requirements before they can be deemed eligible to take the examination.

**Job Prospects:** Graduates are prepared for professional careers in a variety of environments, particularly in social service agencies and educational institutions.

**Licensure/Certification:** Coursework may apply toward earning the Behavior Specialist license from the Commonwealth of Pennsylvania.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

### Admission Requirements and Deadlines

#### Application Deadline:

*Fall:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

#### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

#### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

**Credits Earned in a Certificate Program:** Students who choose to enroll in the MSEd program may have up to 12 credits earned for either the Applied Behavior Analysis Graduate Certificate or Autism Endorsement Graduate Certificate applied to the MSEd upon acceptance into the program. Completion of a certificate program does not guarantee admission into the master's program, and students who are accepted may have to complete more than 33 credits to meet all requirements for the master's program. Students currently enrolled in a certificate program and considering matriculation into a master's program are encouraged to apply as early as possible.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 36

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
ABA 5302	Effective Teaching Strategies and Academic Interventions	3
ABA 5303	Ethical and Legal Issues	3
ABA 5304	Concepts and Principles of Behavior Analysis	3
ABA 5305	Single Subject Research Design	3
ABA 5306	Organizational Behavior Management - OBM	3
or PSY 8610	Topical Seminar in Organizational-Social	
ABA 5307	Experimental Analysis of Behavior - EAB	3
ABA 5676	Applied Behavior Analysis	3
ABA 8787	Seminar on Verbal Behavior	3
<b>Practica</b>		
ABA 9387	Practicum in Applied Behavior Analysis <sup>1</sup>	6
<b>Culminating Project</b>		
ABA 9991	Applied Research Experience <sup>2</sup>	6
<b>Total Credit Hours</b>		<b>36</b>

<sup>1</sup> Students are required to take two 150-hour practica for 3 credits each: ABA 9387 Practicum in Applied Behavior Analysis. Acceptable practicum sites are those engaged in applied behavior analysis practice/research with the ability to provide ongoing supervision to students in the discipline. A list of approved sites is available, although other sites can be approved by the program.

<sup>2</sup> ABA 9991 Applied Research Experience (3 s.h.) is taken twice for credit.

### Culminating Event:

*Applied Research Experience:*

Students are required to select a research project and participate in supervised research activities through ABA 9991. They develop a research question and then may conduct a literature review, develop and/or follow a research protocol, collect and analyze data, and/or report research results as part of their research experience.

## Applied Research and Evaluation PSM

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Professional Science Master's in Applied Research and Evaluation.

### About the Program

Growing awareness of the importance of data-informed planning and decision-making, increased availability and ease of collection of data, and rising emphasis on accountability in a wide array of educational and organizational settings have served to increase demand for personnel with applied research knowledge, skills and abilities across educational, nonprofit, for-profit and governmental organizations. The Professional Science Master's degree in Applied Research and Evaluation offers a graduate curriculum that enables students to study advanced conceptual and theoretical principles and methodological and statistical procedures while simultaneously developing expertise and experience with applied research and program evaluation studies in educational and organizational settings.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time students complete the degree program by taking classes during the day and in the evening. Part-time students take classes that start after 4:00 p.m.

**Areas of Specialization:** The program offers two areas of concentration:

- Applied Educational Psychology focuses on the development of research and evaluation skills for PreK-16 educational settings.
- Organizational Research and Development focuses on the development of research and evaluation skills for use in nonprofit, for-profit and governmental institutions.

**Job Prospects:** The PSM degree in Applied Research and Evaluation is designed to prepare students for applied positions focusing on research and development within educational and organizational settings. Academic settings may include research centers, institution evaluation units, and research and planning units within institutions of higher learning. Other organizational settings may include applied research and development units within the public and private sectors, as well as units within nonprofit and for-profit entities.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

## Career and Technical Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Career and Technical Education.

### About the Program

The mission of the Career and Technical Education master's program is to prepare its students to share their professional expertise in a classroom by gaining credentials to teach in Pennsylvania's public K–12 schools. Students study child and adolescent development, teaching models and inclusive school practices. They also learn to adapt curriculum for students of varying backgrounds, levels of knowledge and language use. Two optional concentrations are offered.

The program with no concentration is designed to enable students to become effective teachers in Career and Technical Education areas in grades 7 to 12. This program provides competencies for diverse types of teaching environments and offers transitional skill attainment strategies for application of knowledge across an array of career and technical program areas. Individuals completing the program find success in secondary teaching, post-secondary teaching in community colleges, and developing industrial training programs for businesses.

The concentration in Business, Computer and Information Technology is designed to enable students to become effective teachers in all of the business domains, including business communications; computer and information technology; economics and personal finance; law,

entrepreneurship, and international business; management and marketing concepts; and quantitative skills and accounting. Individuals are prepared for success in K-12 teaching, post-secondary teaching in community colleges, and business skills training.

The concentration in Marketing Education is designed to enable students to become effective marketing teachers. This program provides competencies for diverse types of work in marketing and offers transitional skill attainment strategies for application of knowledge across an array of business areas. Individuals are prepared for success in K-12 teaching, post-secondary teaching in community colleges, developing marketing education programs for businesses, and as trainers in marketing for a variety of business types and sizes.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main and Online, with coursework offered in a hybrid format of some in-person instruction but mostly online instruction

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. and/or online. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The program offers two optional concentrations for study:

- Business, Computer and Information Technology
- Marketing Education

**Job Prospects:** Graduates typically continue in their established career paths as career and technical educators, work-force development professionals, and technical trainers in business and industry.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Career and Technical Instructional certification (MEd with no concentration) or a Pennsylvania Instructional I Teaching Certificate (MEd with the optional concentration in Business, Computer and Information Technology or in Marketing Education).

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Career and Technical Education MEd program include courses taken at the undergraduate level with a grade of "C" or better earned in the following areas:

- At least 6 credits of college-level mathematics, and
- At least 6 credits of college-level English composition and literature.

A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

For the Business, Computer and Information Technology or Marketing Education concentrations, your transcript should show coursework in each of the following areas:

- Business communications
- Computer and information technology
- Economics and personal finance
- Law, entrepreneurship and international business
- Management and marketing concepts
- Quantitative skills and accounting

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

For the MEd with no concentration, applicants must show proof of Intern Certification (8,000 hours of paid work experience and OCA completion).

For the MEd with an optional concentration in Business, Computer and Information Technology or in Marketing Education, applicants must provide an official score report that demonstrates a passing score on the *Praxis*® Fundamental Subjects: Content Knowledge (5511) test. Additionally, to be eligible for certification, all applicants must pass the relevant *Praxis*® Subject Assessment in their intended concentration area. Although not required, we recommend that applicants pass the subject-area test prior to admission:

- *Praxis*® Business Education: Content Knowledge (5101) for the Business, Computer and Information Technology concentration – 154 minimum score
- *Praxis*® Marketing Education (5561) for the Marketing Education concentration – 144 minimum score

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Coursework Waivers:** Each student is assigned a faculty advisor at the time of admission. The advisor reviews the student’s credentials and determines which, if any, of the required courses can be waived. In general, this waiver covers the beginning-level courses in the program. Waiving a specific requirement, however, does not reduce the total number of credits needed to graduate.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Career and Technical Education MSEd

### COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Science in Education in Career and Technical Education.

### About the Program

The mission of the Master of Science in Education program in Career and Technical Education is to enable its students to apply advanced pedagogical skills, knowledge and attributes in a career and technical education setting at the secondary and post-secondary levels. Individuals pursuing this degree already hold instructional or career and technical certification in Pennsylvania. While pursuing this online degree, individuals pursue Pennsylvania certification in supervision of career and technical education and director of career and technical education. The degree provides specialized knowledge in areas of workforce development, leadership, industry trends and issues, the role of workforce development in a dynamic economy, and infusing industry standards into secondary career and technical education programs.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** Students complete the degree program online on a full- or part-time basis.

**Job Prospects:** Graduates are prepared for leadership roles as teachers, adult instructors, curriculum specialists, career and technical center administrators, and technical trainers in business and industry.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

**Counseling Psychology MEd**

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Counseling Psychology.

**About the Program**

The Counseling Psychology program offers a 60-credit master's degree in Education (MEd) with two areas of concentration:

- Mental Health Counseling prepares students to work with individuals, couples, families and groups in various settings, including community mental health centers, hospitals and consulting agencies. Completion of the Counseling Psychology master's degree with a concentration in Mental Health Counseling qualifies the student to become a Licensed Professional Counselor (LPC) in the Commonwealth of Pennsylvania.
- School Counseling prepares students to work with students, teachers, administrators and parents in either an elementary or secondary school setting. Completion of the Counseling Psychology master's degree with a concentration in School Counseling qualifies the student for certification as a Pre-K-12 school counselor in the Commonwealth of Pennsylvania.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The program is designed to be completed in two years of full-time study or three years of part-time study.

**Areas of Specialization:** The program offers concentrations in Mental Health Counseling and School Counseling.

**Job Prospects:** Graduates typically engage in careers as licensed professional counselors or school counselors, or use their degree to pursue doctoral training in a field related to Counseling Psychology.

**Licensure/Certification:** Upon successful completion of the Mental Health Counseling Concentration degree requirements, passing the required post-master's licensure examination, and completing the Supervised Clinical Experience, candidates may apply to become a Pennsylvania Licensed Professional Counselor (LPC). For more information about licensure in Pennsylvania, see the Pennsylvania Department of State's professional licensing guidelines. Other states may require additional testing, clinical experience and/or coursework.

Upon successful completion of the School Counseling Concentration degree requirements and passing the *Praxis*® School Counselor (5422) examination, candidates may apply for a Pennsylvania Educational Specialist certificate as Elementary and Secondary School Counselor PK-12. A GPA of 3.0 or higher is required in most states to become certified. For more information about certification in Pennsylvania, see the Pennsylvania Department of Education's certification guidelines. Other states may require additional testing and/or coursework, and some states certify without the *Praxis*® examination.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: February 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support. The faculty admissions committee reviews application materials to evaluate evidence of:

- Work experience and/or volunteer public service relevant to professional development in counseling psychology;
- Intra- and inter-personal skills (or potential for the development of such skills) as indicated in the applicant's personal and career statements; and
- Aptitude for graduate-level academic work as determined by graduate and undergraduate grades, especially work in the major and in prerequisite psychology courses.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, describe your interest in seeking a Counseling Psychology MEd, focusing on the career to which you aspire, such as mental health counselor or school counselor; your interests; and your relevant academic and professional experience. Explicitly indicate whether you are applying to the Mental Health Counseling or School Counseling concentration.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Early Childhood Education and Special Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Early Childhood Education and Special Education.

## About the Program

The Early Childhood Education and Special Education graduate program is designed to prepare students for dual teacher certification in Early Childhood Education and Special Education, grades pre-Kindergarten to 4.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Evening classes on Main campus start at 5:30 p.m. Students also complete fieldwork in a classroom about one day a week throughout each academic term.

**Accreditation:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

**Job Prospects:** Graduates typically pursue early childhood and special education teaching positions in school settings in grades pre-Kindergarten to 4.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated** courses before being admitted to the program are NOT guaranteed admission.

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1  
*Spring:* November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Prerequisites for admission to the Early Childhood Education and Special Education MEd program include at least one course (3 credits) taken at the undergraduate or graduate level with a grade of "C" or better earned in the following areas:

- Math (cannot be basic or remedial courses below the 1000 level)
- Science

A prerequisite evaluation is conducted upon receipt of the application and all official transcripts. All required prerequisites must be fulfilled before an applicant is eligible for admission.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 49

*Required Courses:*

Code	Title	Credit Hours
<b>Foundation Course</b>		
EDUC 5402	Child and Adol Develop	3
<b>Early Childhood Education Courses</b>		
ECED 5107	Mathematics Education for the Early Years: PreK-4	3

## Education/Applied Linguistics PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Education.

### About the Program

The interdisciplinary PhD program in Education, with a concentration in Applied Linguistics, prepares students to study ways in which languages – and, in particular, second or additional languages – are used, taught and learned in today’s increasingly globalized and multilingual world. The program promotes significant research on the teaching, learning and testing of additional languages, including but not limited to English, and on the interaction between language ideologies and practices in multilingual communities and societies. Students gain theoretical grounding, research experiences and academic skills that prepare them for academic research positions and other academic and practice-oriented positions.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** Graduates are prepared for academic research positions in the areas of Applied Linguistics, Second and Foreign Language Education, and TESOL, as well as for other academic and practice-oriented positions.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

Number Required: 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** Students who hold a master's degree in a related field may transfer in up to 30 credits as advanced standing, with approval.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Write a 500- to 1,000-word statement in autobiographical style covering the following areas:

- How have your personal, academic and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs and future goals? Be certain to identify the faculty member whose research best matches your own interests.

**Standardized Test Scores:**

GRE: Not required, but scores from the general test taken no more than 5 years prior to application may be submitted.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Master's: 48*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5262	Introduction to Qualitative Research	3

EDUC 8404	Quantitative Analysis, Part I	3
EDUC 8405	Quantitative Analysis, Part II	3
EDUC 9987	Teaching Apprenticeship	3
EDUC 9991	Research Apprenticeship	3
EPSY 8627	Introduction to Research Design and Methods	3
	Advanced Methods Elective	3
<b>Applied Linguistics Concentration Courses</b>		
EDUC 8505	Assessment and Evaluation of Students	3
EDUC 8506	Cognition and Learning in Education	3
EDUC 9991	Research Apprenticeship	3
	Select three from the following:	9
TESL 5611	Applied Language Study I: Phonology and the Lexicon	
TESL 5613	Multilingual Students' Literacy Development	
TESL 8625	Applied Linguistics	
TESL 8626	Second Language Writing	
TESL 8635	Educating English Language Learners: State of Knowledge	
TESL 8636	Assessment of English Language Learners	
TESL 8643	Research Methods in Applied Linguistics	
TESL 8644	Current Issues in Applied Linguistics	
	<b>Culminating Courses</b> <sup>1</sup>	<b>6</b>
EDUC 9998	Dissertation Proposal Design	
EDUC 9999	Doctor of Education Dissertation	
<b>Total Credit Hours</b>		<b>48</b>

1

Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 must be taken.

**Internship:** An internship in the form of a research apprenticeship is required.

**Culminating Events:**

*Preliminary Examination:*

The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member's life: research, teaching and service. The exam requires students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

*Proposal with Oral Defense:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem;

and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Applied Linguistics. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

#### *Dissertation with Oral Defense:*

The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside the concentration. The Dissertation Examining Committee evaluates the student's ability to express verbally their research question, methodological approach, primary findings and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date and room for the defense have been established, the completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

## Education/Educational Psychology PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Education.

### About the Program

The interdisciplinary PhD program in Education, with a concentration in Educational Psychology, seeks to advance the understanding of learning, cognition and human development as these processes apply to educational processes and practices. The Educational Psychology specialty is characterized by a strong theoretical and research orientation, the interplay of theory and practice, an interdisciplinary approach, and a commitment to service. Designed for students seeking to become professors or researchers in higher education, it is structured around the three areas of learning and conceptual processes, motivation, and applied data analysis and research methodology.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** Graduates typically pursue careers in higher education.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Education/Literacy and Learners PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Education.

### About the Program

The PhD concentration in Literacy and Learners prepares students to understand literacy research and practice and to contribute new knowledge to the field of literacy learning. The program defines literacy learning broadly. Students can focus on various aspects of language and literacy from their developmental foundations in childhood and early schooling to how older children, adolescents and adults learn and apply them in different contexts. The program is grounded on the beliefs that education is a primary mechanism for social justice and that educational research has the capacity to improve the material conditions of people's lives.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** The program is designed to prepare students for an academic or other research-oriented job.

Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

*Proposal with Oral Defense:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty

members. Two members, including the Chair, must be from, or affiliated with, Literacy and Learners. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

#### *Dissertation with Oral Defense:*

The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be of sufficient quality for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside the concentration. The Dissertation Examining Committee evaluates the student's ability to express verbally their research question, methodological approach, primary findings and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Shimada Resource Center at least 10 days before the defense is to be held. After the time, date and room for the defense have been established, the completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," is sent to the Graduate School. A flyer announcing the defense is posted in a public location in the College.

## Education/Science, Mathematics and Educational Technology PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Education.

### About the Program

The interdisciplinary PhD program in Education, with a concentration in Science, Mathematics and Educational Technology, prepares students to contribute new knowledge to the fields of science, mathematics and educational technology. The program defines science and mathematics learning very broadly, preparing students to take on a variety of roles in science and mathematics education. Students can focus on any aspect of teaching and learning inclusive of students, teachers and adult learners, with priority in admissions decisions given to those who intend to pursue topics aligned with current faculty research interests. However, because of our strategic location in North Philadelphia, we have a strong and demonstrated commitment to issues of teaching, learning and schooling in urban contexts. The program is grounded in the dual belief that education is a primary mechanism for social justice and that educational research has the capacity to improve the material conditions of people's lives.

The doctoral program in Science, Mathematics and Educational Technology prepares students in two ways: through academic coursework and through an intensive mentoring relationship with various faculty members. Coursework emphasizes a broad knowledge of critical lines of inquiry in science or mathematics education and the development of research and analytic skills, with an emphasis on educational technology. Research opportunities include working alongside prominent faculty on federally funded projects; exposure and presentations at regional and national conferences; and co-authoring papers for publication in top-tiered journals. Practice and research are blended in a program that promotes both teaching and learning.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** Graduates are prepared to pursue careers in academic or research-oriented positions as well as leadership positions within science or mathematics education or educational technology within K-16 schools.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated***

**courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

APPLY ONLINE to this graduate program.

### Letters of Reference:

Number Required: 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** Students who hold a master's degree in a related field may transfer in up to 30 credits as advanced standing, with approval.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Write a 500- to 1,000-word statement in autobiographical style covering the following areas:

- How have your personal, academic and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs and future goals? Be certain to identify the faculty member whose research best matches your own interests.

### Standardized Test Scores:

GRE: Not required, but scores from the general test taken no more than 5 years prior to application may be submitted.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Master's: 48

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5262	Introduction to Qualitative Research	3
EDUC 8401	Philosophical Foundations of Educational Research	3
EDUC 8404	Quantitative Analysis, Part I	3
EDUC 8405	Quantitative Analysis, Part II	3
EDUC 9987	Teaching Apprenticeship	3
EDUC 9991	Research Apprenticeship	3
EPSY 8627	Introduction to Research Design and Methods	3
	Advanced Methods Elective	3
<b>Science, Mathematics and Educational Technology Concentration Courses</b>		
EDUC 8501	Motivation in Education	3
EDUC 8502	Social Contexts of Learning	3
EDUC 8504	Problem Solving and Reasoning in STEM Education	3
EDUC 8506	Cognition and Learning in Education	3
EDUC 9255	Research Seminar in Science, Mathematics, and Educational Technology	3
EDUC 9991	Research Apprenticeship <sup>1</sup>	3
<b>Culminating Courses <sup>2</sup></b>		<b>6</b>
EDUC 9998	Dissertation Proposal Design	
EDUC 9999	Doctor of Education Dissertation	
<b>Total Credit Hours</b>		<b>48</b>

1

An elective may be selected in lieu of repeating EDUC 9991.

2

Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 must be taken.

**Internship:** An internship in the form of a research apprenticeship is required.

### Culminating Events:

**Preliminary Examination:**

The purpose of the preliminary examination is for students to demonstrate their development in the three core areas of a faculty member's life: research, teaching and service. The exam requires

students to undertake an integrative analysis of research; to demonstrate that they can bring research and theory into effective practice in their teaching; and to exhibit their ability to provide professional service. Preliminary exams are evaluated by a committee of faculty in the concentration. Evaluators look for a breadth and depth of understanding of research and theory; a critical application of that knowledge to specific phenomena and to teaching; integrative reasoning ability; and an ability to write technical prose.

*Proposal with Oral Defense:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the context and background surrounding a particular research problem; an exhaustive survey and review of literature related to the problem; and a detailed methodological plan for investigating the problem. The proposal should be completed and approved no more than one year after completing coursework.

The proposal is defended in an open hearing attended by the student's Doctoral Advisory Committee, which is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members. Two members, including the Chair, must be from, or affiliated with, Math and Science Education. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress. Upon approval of the proposal by the Doctoral Advisory Committee, a timeline for completing the investigation and writing process is established.

*Dissertation with Oral Defense:*

The doctoral dissertation is an original study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of business; and be prepared for publication in an academic journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least two additional faculty members, one of whom must be from outside Math and Science Education. The Dissertation Examining Committee evaluates the student's ability to express verbally their research question, methodological approach, primary findings and implications. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

## Education/Special Education PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Education.

### About the Program

The Special Education (SPED) program in the College of Education equips teachers with deep understanding of the sociocultural context of education, high-impact instructional practices, and empirically supported, preventative approaches to provide equitable education to children with disabilities. Through the program, students gain:

- Up-to-date knowledge of the research and issues pertaining to special education;
- The ability to apply comprehensive research skills to problems relating to the education of children with special needs;
- The competence to prepare highly qualified teachers that are equipped to understand the complexities and individual differences of children with special needs, especially within urban environments; and
- A deep knowledge of how public policy and political and social variables shape research and service delivery activities within special education.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Job Prospects:** Graduates are prepared to assume research positions at colleges and universities and/or to be engaged in the preparation of special educational professionals at both the pre-service and in-service levels. They are expected to contribute to the advancement of evidence-based practice throughout their careers.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## **Educational Leadership MEd**

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

### **About the Program**

The cohort-based Master of Education in Educational Leadership, offered in collaboration with Church Teachers' College, Mandeville, Jamaica, prepares students to become transformative leaders in a variety of educational settings and roles, including leadership positions in the direction and management of K-12 schools and higher education. Graduates are prepared for the roles of principal, business administrator, and other administrative positions in schools, school districts, colleges and universities. The Educational Leadership MEd program is designed to help students gain both new ways to think about education in Jamaica and to develop a robust global perspective.

### **Admission Requirements and Deadlines**

#### **Application Deadline:**

*Fall:* March 1

*Spring:* November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

**Official Transcript:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted. Official diploma transcripts should be submitted, if applicable.

## Educational Leadership EdD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Education in Educational Leadership.

## About the Program

The EdD in Educational Leadership program is intended for a wide audience of individuals with experience in K-12 educational settings who desire to advance their careers. Many educational professionals want a defined, predictable program of study that supports steady progress and complements the busy schedule of a teacher and/or school leader. This program institutes a cohort-based executive-format program, wherein courses are offered on weekends and during the summer, accommodating the schedules of working professionals. The program fosters and reinforces Temple's commitment to social justice, equity and ethical practices. The courses, course sequence, and dissertation process are designed in a way that the program coheres around these issues and their implications for educational leadership. This cohort program consists of a fixed-course sequence and is structured to allow students to complete their degree in three years.

The program objectives reflect the essential values of educational leadership and the foundational knowledge, skills and abilities required for effective postsecondary administrative practice. Students gain:

- a deep understanding of the historical, social, legal, economic, cultural and political contexts of higher education administration;
- an advanced understanding of the governance and finance structures of school districts, school organizations and governmental agencies;
- sensitivity to the complexities of organizational culture and the ability to lead effectively in diverse settings;
- the ability to critically examine, diagnose and address persistent problems and inequities in education;
- the ability to identify, critically review, and apply evidence from scholarly and policy research, and a commitment to using evidence routinely in decision-making; and
- skills and habits of reflective practice that support equitable and ethical decision-making in complex situations.

The essential expected learning outcomes of the Temple EdD program in Educational Leadership include graduates' ability to demonstrate advanced understanding of:

- effective practices for equitable and ethical school, school district, and system leadership;
- leadership and learning theories;
- the history, politics, policy and philosophy of public, charter and independent educational programs;
- schooling, school governance, organizational leadership and civic engagement; and
- how political, societal and identity factors contribute to student and school success.

Graduates will also be able to demonstrate the ability to:

- critically engage, diagnose, assess and address issues of equity and inequality that exist in schools and school districts;
- review and synthesize research and practitioner literature to examine educational issues;
- select and apply research methods and theoretical frameworks to address problems of practice; and
- design, engage in, and thoughtfully report on research in multiple designated formats, such as dissertation, white paper and presentation.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students matriculate part-time. Courses are offered in a cohort-based executive-format program on weekends and during the summer to accommodate the schedules of working professionals. A fixed-course sequence allows students to complete the doctoral degree program in three years.

**Affiliation(s):** The program is a member of the University Council for Educational Administration (UCEA).

**Job Prospects:** Graduates typically become senior administrators in public or private schools, administrators in state or federal agencies, and administrators or professors in institutions of higher education.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

*Summer II:* March 1

Applicants should submit all required documents by the application deadline to receive priority consideration for admission.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** A master's degree is preferred but not required. At a minimum, applicants are required to have successfully completed at least 30 graduate credits in a related field to be admitted to the program. All applicants are expected to transfer in up to 30 credits as advanced standing, with approval.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Write a 500- to 1,000-word statement in autobiographical style covering the following areas:

- How have your personal, academic and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs and future goals? Be certain to identify the faculty member whose research best matches your own interests.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

or EPSY 8625	Intermediate Educational Statistics	
URBE 5401	Policy and Practice in Urban Education	3
<b>Research Courses</b> <sup>1</sup>		<b>6</b>
EDUC 9998	Dissertation Proposal Design	
EDUC 9999	Doctor of Education Dissertation	
<b>Total Credit Hours</b>		<b>45</b>

1

Of the 6 research credits required, a minimum of 2 credits of EDUC 9999 Doctor of Education Dissertation must be taken.

### Culminating Events:

#### *Preliminary Examination:*

At the end of the academic term in which students are enrolled in EDAD 8093 Administration Research Seminar and prior to completion of the dissertation proposal, students complete a preliminary exam (also sometimes called "comps" or "comprehensive exam"). The preliminary exam consists of written responses to three questions developed by the instructor of the Research Seminar. Through the comprehensive exam, students must demonstrate the ability to:

- situate and define a chosen topic or field within the concepts and history of the field;
- compare, contrast and justify various research methods appropriate to investigation of a practice-based research problem; and
- critically synthesize the extant scholarly and practice-focused literature that informs administrative practice related to the topic.

Students must obtain a passing score on the preliminary exam prior to registering for EDUC 9998 Dissertation Proposal Design. A passing score is also required for elevation to candidacy following a successful proposal defense.

#### *Dissertation Proposal:*

In the term immediately following completion of the EDAD 8093 Administration Research Seminar and successful completion of the comprehensive exam, students enroll in EDUC 9998 Dissertation Proposal Design. Like EDAD 8093 Administration Research Seminar, EDUC 9998 Dissertation Proposal Design serves as a structured, intensive cohort-based monthly workshop in which students design and defend a dissertation proposal that outlines a rigorous plan for empirical study of an issue relevant to the student's professional responsibilities or aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing Institutional Review Board (IRB) review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the

end of the academic term. Students receive feedback from the faculty advisor, other committee members and their cohort peers during their defense.

#### *Dissertation:*

The EdD dissertation is distinct from the PhD dissertation in that the intent of the EdD dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of K-12 educational leadership. EdD dissertations are typically less lengthy than PhD dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as PhD dissertations with respect to methodological validity, data analysis, and writing quality and clarity.

Following successful defense of the dissertation proposal and after securing IRB approval, students carry out an original research project intended to make a significant practice-based contribution to the field. While the EdD dissertation is meant to have practical and applied relevance, however, it is nonetheless expected to engage rigorously with existing literature and theory appropriate to the student's chosen topic and to demonstrate the student's ability to execute robust methods appropriate to the student's research question(s). Toward this end, EdD students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion and references; and
- produce a white paper/executive summary that distills the lessons of their research for practitioners in their field.

## Educational Leadership and Policy MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Educational Leadership and Policy.

### About the Program

The MEd degree in Educational Leadership and Policy is grounded in the social justice mission of the College of Education and Human Development. Consequently, the curriculum is uniquely focused on urban schooling, school leadership, urban education in the broader community, and the policies that impact schools and schooling in urban centers.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Three concentrations are offered:

- Education Policy
- School Leadership, for which enrolled students take an approved course of study in partial fulfillment of the requirements for state certification as Principal or Supervisor of Curriculum and Instruction
- Urban Education

**Job Prospects:** The MEd degree in Educational Leadership and Policy prepares students for positions of leadership in school settings, particularly in urban schools.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1  
*Spring:* November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

### Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30, or 36 for students completing optional clinical experiences to gain certification through the School Leadership concentration

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>

## Higher Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Higher Education.

### About the Program

The MEd in Higher Education is intended for early- and mid-career individuals aspiring to serve as administrators in a variety of settings, including colleges and universities, community colleges, higher education systems, proprietary/vocational institutions, and college access and pathway programs. The distinctive feature of the MEd program is its emphasis on urban issues and themes of equity and access in postsecondary education.

Extending Temple's traditional commitment to social justice and educational opportunity, this program develops expert practitioners, i.e., those who can enact the kinds of changes that are necessary to meet state and federal college completion goals, improve equity in student postsecondary outcomes, strengthen the role of higher education for the public good, and create structures and cultures that are conducive to student success.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program in a hybrid format, both through classes offered after 5:30 p.m. and online courses. The degree program can be completed on a full- or part-time basis.

**Job Prospects:** Graduates are prepared to seek employment in a variety of professional areas in higher education, including academic advising, academic support, admissions, advancement, athletics, business services, counseling and health services, facilities, financial aid, human resources, institutional research and planning, learning centers, multicultural and diversity affairs, public relations, residence life, and training and development.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Higher Education EdD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Education in Higher Education.

### About the Program

The EdD in Higher Education is a rigorous program of study that helps students develop the skills needed to diagnose and resolve organizational challenges and to craft and evaluate programs and policies impacting student success. The program features a core set of courses that reflect the essential values of the Temple University graduate program in higher education and the foundational knowledge, skills and abilities required for effective postsecondary administrative practice. This program combines the theoretical and methodological foundations of academic research with an applied focus that helps students develop the professional and interpersonal wisdom necessary to successfully manage change within complex organizational structures.

The Higher Education EdD degree prepares its graduates to be not just effective administrators but skillful and visionary leaders. The essential expected learning outcomes of the EdD in Higher Education include:

- Demonstrate advanced understanding of the foundations of higher education, including knowledge of the history, politics, economics and philosophy of higher education, theories of student development and organizations, and the institutional and social factors that contribute to student success in higher education.
- Demonstrate a disciplined and analytic approach to professional practice in the organization and administration of academic and student affairs, including the use of assessment, evaluation and research in decision-making; the ability to engage in strategic planning and goal setting; the ability to lead with cultural sensitivity and ethical judgment; the ability to understand organizational behavior and dynamics; and the ability to communicate clearly and effectively about complex administrative issues to a wide array of audiences and stakeholders.
- Demonstrate knowledge related to the functional core of the university, including teaching, research and service; management skills, such as problem solving, planning, budgeting, fundraising, and assessment and evaluation; and human relations skills, such as managing conflict, communicating effectively, valuing diversity, and promoting organizational and individual development.
- Gain a conceptual understanding of higher education organizations when viewed from multiple perspectives, including organizations as academic enterprises, loosely coupled bureaucratic systems, and complex multifarious cultures, and be able to adopt those perspectives as analytic lenses for understanding and addressing administrative issues.
- Demonstrate the ability to select and apply appropriate research and program evaluation designs and methods, including understanding principles of research study design; synthesizing relevant literature

from across fields to inform practice and research; articulating and applying theory or conceptual frameworks to support analysis and evaluation; having familiarity with an array of qualitative and quantitative methods and competence in data analysis strategies appropriate for contributing knowledge to advance effective higher education practice; and being competent in academic writing conventions.

- Enact habits of reflective and equity-conscious administrative practitioners, including conducting critical inquiry into issues of inequity or disparities in student access and success; engaging as learning agents on behalf of the institution; and collecting, interpreting and communicating evidence to substantiate administrative issues.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Affiliation(s):** The program is a member of the University Council for Educational Administration (UCEA).

**Job Prospects:** Graduates typically become senior administrators at public or private 2- and 4-year institutions of higher education in academic or student affairs; administrators in state or federal agencies; scholar-practitioners in college access programs; faculty in institutions of higher education; or administrators in various academic disciplines.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* February 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** A master's degree in a related field, with some exceptions, is required for admission to the

program. Students who have completed a master's degree with at least 30 credits will be designated as admitted with master's degree.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

- How have your personal, academic and professional experiences shaped your research interests, and how might a doctoral program in Education help you explore those interests?
- What academic/professional goals would the program help you to achieve following graduation?
- How does the doctoral program at Temple fit your individual interests, needs and future goals – and which faculty member's research best matches your own interests?

#### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Interview:** At the request of the Admissions Committee, an interview may be required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

#### Other Requirements:

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.
2. Professional experience in higher education or work experience related to the applicant's goals is strongly recommended.

## Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Master's:* 39

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
HIED 8101	Advanced Seminar on Higher Education Administration	3
HIED 8102	Higher Education Economics and Finance	3

<b>Electives</b> <sup>1</sup>		<b>6</b>
<b>Advanced Research Methods Courses</b>		
EDUC 5262	Introduction to Qualitative Research <sup>2</sup>	3
EDUC 5325	Introduction to Statistics and Research <sup>2</sup>	3
	or EDUC 8404 Quantitative Analysis, Part I	
EPSY 8627	Introduction to Research Design and Methods	3
In addition, select one course from the following: <sup>3</sup>		3
EDUC 5244	Class Discourse	
EDUC 8102	Ethnographic Research Methods	
EDUC 8405	Quantitative Analysis, Part II	
EPSY 5529	Tests and Measurements	
EPSY 8625	Intermediate Educational Statistics	
EPSY 8825	Advanced Data Analysis	
EPSY 8826	Multivariate Research Methods	
HIED 8262	Advanced Practice-Based Qualitative Research in Higher Education	
HIED 8287	Research Practicum	
<b>Research Course</b>		
HIED 8093	Advanced Higher Education Research Seminar <sup>4</sup>	3
<b>Culminating Courses</b> <sup>5</sup>		<b>6</b>
EDUC 9998	Dissertation Proposal Design	
EDUC 9999	Doctor of Education Dissertation	
<b>Total Credit Hours</b>		<b>39</b>

1

Students select a two-course cognate based on their dissertation interests. They should consult with their advisor on the selection of these electives.

2

Students must take the "introductory" versions of the qualitative (EDUC 5262) and quantitative (EDUC 5325) courses before enrolling in more advanced courses for either methodology. A student may be exempted from the introductory courses if program faculty believe the student's prior coursework warrants an exemption. Approval from the student's advisor is required.

3

With documented approval from the student's advisor, an alternate course may be selected as an advanced research method course.

4

HIED 8093 must be taken during or after the last term of academic coursework.

5

Of the 6 credits overall, a minimum of 2 credits of EDUC 9999 must be taken.

#### Culminating Events:

**Comprehensive Exam:**

At the end of the academic term in which students are enrolled in HIED 8093 Advanced Higher Education Research Seminar and prior to completion of the dissertation proposal, students complete a comprehensive exam in order to advance to candidacy for the doctoral degree. The comprehensive exam consists of written responses to three questions developed by the instructor of the Research Seminar who, in most cases, will serve as the student's primary dissertation advisor and chair. Through the comprehensive exam, students must demonstrate the ability to:

- situate and define a chosen topic or field within the concepts and history of the field;
- compare, contrast and justify various research methods appropriate to investigation of a practice-based research problem; and
- critically synthesize the extant scholarly and practice-focused literature that informs administrative practice related to the topic.

Successful completion of the comprehensive exam advances students to doctoral candidate status and aids in preparation of the dissertation proposal.

**Dissertation Proposal:**

In the term immediately following completion of the HIED 8093 Advanced Higher Education Research Seminar and successful completion of the comprehensive exam, students enroll in EDUC 9998 Dissertation Proposal Design. Students enroll in a section of EDUC 9998 with the same cohort of students and instructor with whom they were enrolled in HIED 8093. Like HIED 8093 Advanced Higher Education Research Seminar, EDUC 9998 Dissertation Proposal Design serves as a structured, intensive cohort-based monthly workshop in which students design and defend a dissertation proposal that outlines a rigorous plan for empirical study of an issue relevant to the student's professional responsibilities or aspirations. The proposal must incorporate a thorough and critical review of literature relevant to the topic, a discussion of theoretical approaches to understanding and studying the topic, a conceptual or theoretical framework that will guide the study, and a robust methodological plan that includes assurances of completing Institutional Review Board (IRB) review and any interview or other protocols necessary to submit for IRB review. Dissertation proposal defense occurs at any point during or at the end of the academic term. Students receive feedback from the faculty advisor, other committee members, and their cohort peers during their defense. Students are encouraged to defend the proposal no later than the end of the term in which they are enrolled in EDUC 9998.

**Dissertation:**

The EdD dissertation is distinct from the PhD dissertation in that the intent of the EdD dissertation is not to build theory but to make a substantive contribution to practice-focused scholarship in a particular domain of higher education. EdD dissertations are typically less lengthy than PhD dissertations and cover a smaller scope of theorizing and data collection. They are, however, held to the same standards as PhD dissertations with respect to methodological validity, data analysis, and writing quality and clarity. Toward this end, EdD students:

- prepare a dissertation study report that is a standard academic manuscript, which includes an introduction, literature review, conceptual/theoretical framework, methodology, results, discussion and references; and
- produce a Practice Guide that is three to five pages in length. The Practice Guide distills the lessons of the student's research into

succinct recommendations or best practices for practitioners in their field.

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Middle Grades Education.

**About the Program**

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education and Human Development program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of

academic standards and the wide-ranging developmental needs of middle grades students.

Our program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming **certified to teach all elementary subjects in grades 4 to 6**, Middle Grades Education students **MUST** pursue **single or dual certification for seventh and eighth grades** in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies
- Social Studies and Language Arts/English
- Social Studies and Mathematics
- Social Studies and Science

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Most classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all *Praxis*® examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1  
*Spring:* November 1  
*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence and should ideally attest to the candidate's academic ability and readiness to work with children. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Significant coursework (i.e., the equivalent of a minor or better) and/or professional experience related to the intended certification area are preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

The official score report must demonstrate a passing score on these two tests:

- *Praxis*® PA Grades 4-8 Core Assessment: English Language Arts and Social Studies (5154) - 152 minimum score
- *Praxis*® PA Grades 4-8 Core Assessment: Mathematics and Science (5155) - 164 minimum score

Additionally, to be eligible for certification, all applicants must pass the relevant *Praxis*® Subject Assessment in their intended content area. Although not required, we recommend that applicants pass the subject-area test prior to admission:

- *Praxis*® PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-

kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5402	Child and Adol Develop	3
MGSE 5196	Reading and Writing in the Middle Grades	3
MGSE 5296	Citizenship, Cultures, and Social Studies Education	3

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5402	Child and Adol Develop	3
MGSE 5196	Reading and Writing in the Middle Grades	3
MGSE 5296	Citizenship, Cultures, and Social Studies Education	3
MGSE 5404	Teaching Math in the Middle Grades	3
MGSE 5405	Teaching Science in the Middle Grades	3
SPED 5106	Literacy Instruction for Students with Disabilities	3
SPED 5109	Classroom Management and Positive Behavior Support	3
TESL 5631	Foundations of Language Teaching: Meeting the Needs of English Language Learners	3
<b>Culminating Courses</b>		
Select either Residency or Non-Residency Student Teaching and Seminar:		7
Residency Student Teaching and Seminar		
EDUC 5801	Residency Practicum Capstone	
EDUC 5802	Residency Student Teaching Capstone	
EDUC 5888	Supervised Teaching	
Non-Residency Student Teaching and Seminar		
EDUC 5409	Research Methods and Induction Capstone	
EDUC 5888	Supervised Teaching	
<b>Total Credit Hours</b>		<b>31</b>

**Culminating Events:** Student teaching and its related seminar(s) constitute the culminating events for this program. Additionally, during their student teaching term, Middle Grades Education students should take the *Praxis*® PA Grades 4-8 Core Assessment (5152) test.

## Middle Grades Education/Science Med

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Middle Grades Education.

### About the Program

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers, particularly in math and science education, are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education and Human Development program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students.

Our program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming **certified to teach all elementary subjects in grades 4 to 6**, Middle Grades Education students **MUST** pursue **single or dual certification for seventh and eighth grades** in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies
- Social Studies and Language Arts/English
- Social Studies and Mathematics
- Social Studies and Science

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Most classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all *Praxis*® examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1  
 Spring: November 1  
 Summer II: March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

Number Required: 2

**From Whom:** Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence and should ideally attest to the candidate's academic ability and readiness to work with children. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Significant coursework (i.e., the equivalent of a minor or better) and/or professional experience related to the intended certification area are preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

The official score report must demonstrate a passing score on these two tests:

- *Praxis*® PA Grades 4-8 Core Assessment: English Language Arts and Social Studies (5154) - 152 minimum score
- *Praxis*® PA Grades 4-8 Core Assessment: Mathematics and Science (5155) - 164 minimum score

Additionally, to be eligible for certification, all applicants must pass the relevant *Praxis*® Subject Assessment in their intended content area. Although not required, we recommend that applicants pass the subject-area test prior to admission:

- *Praxis*® PA Grades 4–8 Subject Concentration: Science (5159) – 156 minimum score

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

- Praxis® PA Grades 4-8 Core Assessment: Mathematics and Science (5155) - 164 minimum score

Additionally, to be eligible for certification, all applicants must pass the relevant *Praxis®* Subject Assessment in their intended content area. Although not required, we recommend that applicants pass the subject-area test prior to admission:

- *Praxis®* PA Grades 4–8 Subject Concentration: English Language Arts (5156) – 156 minimum score
- *Praxis®* PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision

about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

**General Program Requirements:**

## Middle Grades Education/Social Studies and Mathematics MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Middle Grades Education.

### About the Program

The Middle Grades Education graduate program prepares students for middle-level teaching in grades 4 to 8. Middle grades teachers are increasingly sought out and in high demand in Pennsylvania and across the country.

The College of Education and Human Development program in Middle Grades Education is designed to ensure that our students graduate highly knowledgeable about learning and teaching as well as committed to pre-adolescent learners from diverse ethnic, economic and geographic backgrounds. The goal is to produce certified teachers to fill the growing vacancies. Toward that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of

academic standards and the wide-ranging developmental needs of middle grades students.

Our program stands out as cutting edge because we prepare graduate students to teach in both upper elementary and middle grades classrooms. In addition to becoming **certified to teach all elementary subjects in grades 4 to 6**, Middle Grades Education students **MUST** pursue **single or dual certification for seventh and eighth grades** in one of the following concentrations:

- Language Arts/English
- Mathematics
- Mathematics and Language Arts/English
- Mathematics and Science
- Science
- Science and Language Arts/English
- Social Studies
- Social Studies and Language Arts/English
- Social Studies and Mathematics
- Social Studies and Science

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Most classes are offered to accommodate working adults.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education (PDE).

**Job Prospects:** Graduates typically pursue teaching positions in elementary or middle schools for grades 4 to 8.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all *Praxis*® examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1  
*Spring:* November 1  
*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

**APPLY ONLINE to this graduate program.**

**Letters of Reference:**

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence and should ideally attest to the candidate's academic ability and readiness to work with children. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Significant coursework (i.e., the equivalent of a minor or better) and/or professional experience related to the intended certification area are preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

The official score report must demonstrate a passing score on these two tests:

- Praxis® PA Grades 4-8 Core Assessment: English Language Arts and Social Studies (5154) - 152 minimum score
- Praxis® PA Grades 4-8 Core Assessment: Mathematics and Science (5155) - 164 minimum score

Additionally, to be eligible for certification, all applicants must pass the relevant *Praxis®* Subject Assessment in their intended content area. Although not required, we recommend that applicants pass the subject-area test prior to admission:

- *Praxis®* PA Grades 4–8 Subject Concentration: Mathematics (5158) – 173 minimum score
- *Praxis®* PA Grades 4–8 Subject Concentration: Social Studies (5157) – 150 minimum score

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human

Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Policy and Organizational Studies PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in Policy and Organizational Studies.

## About the Program

The PhD in Policy and Organizational Studies is designed to prepare students for research-oriented work in the academy or other settings within the fields of education policy or organizational development. This program is structured to highlight the interdisciplinary nature of the fields and to build on the unique characteristics of Temple University, including its status as a diverse urban institution that emphasizes user-inspired, social justice-oriented, and community-connected scholarship.

The 48-credit post-master's doctoral program includes rigorous study of the theoretical and methodological foundations of Policy and Organizational Studies research combined with a focus on three specialized facets of the policy and organizational fields: Adult and Organizational Development, Higher Education, and Urban Education. The PhD in Policy and Organizational Studies is designed to be completed in four years.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students may matriculate either full- or part-time. Most courses are offered in the evening to accommodate

working professionals. The length of time to complete the doctoral degree program varies depending on the number of courses taken each term.

**Areas of Specialization:** The program offers three areas of concentration:

- **Adult and Organizational Development:** Develop the theoretical knowledge and research methodology to discover or create new protocols or support systems that help adults, teams and organizations develop constructive processes for addressing conflict and adapting to change.
- **Higher Education:** Prepare for senior leadership positions in colleges and universities by developing the doctorate-level expertise to construct new ways to improve institutional effectiveness, college access and success, or student affairs leadership.
- **Urban Education:** Position yourself to break new ground in urban school reform policy and practice by developing deep theoretical understanding of such schools' social context and the precise research methodology needed to uncover new insights.

**Job Prospects:** Graduates are prepared for research-focused careers in academia and other institutions.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** A master's degree in a related field, with some exceptions, is required for admission to the program. Students who have completed a master's degree with at least 30 credits will be designated as admitted with master's degree.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate.

While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

- How have your personal, academic and professional experiences shaped your research interests, and how might a doctoral program in Policy and Organizational Studies help you explore those interests?
- What academic and professional goals would the program help you to achieve upon graduating?
- How does the doctoral program at Temple fit your individual interests, needs and future goals – and which faculty member's research best matches your own interests?

**Standardized Test Scores:**

GRE: Not required, but scores from the general test taken no more than 5 years prior to application may be submitted.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Master's: 48*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5262	Introduction to Qualitative Research	3
EDUC 8402	Policy Analysis	3
EDUC 8403	Understanding Social Science	3
EDUC 8404	Quantitative Analysis, Part I	3
EDUC 8405	Quantitative Analysis, Part II	3

## Urban Education Concentration

Code	Title	Credit Hours
EDUC 9991	Research Apprenticeship	3
URBE 5417	The Urban Environment	3
URBE 5501	Urban Schools	3
URBE 5565	The Origins of Urban Education	3
Elective		3
Theory Elective		3
<b>Total Credit Hours</b>		<b>18</b>

### Culminating Events:

#### *Comprehensive Examination:*

Students are required to complete their comprehensive examination by the end of their second year of doctoral studies. The specific nature of the examination is determined by the concentration selected by the student, but all comprehensive examinations require students to demonstrate proficiency in theory, research methodology, and discipline-specific content.

#### *Proposal with Oral Defense:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. Minimally, the proposal should contain the context and background surrounding a particular research problem; a survey and review of the literature to a sufficient degree to provide the reader with enough information to understand why the research is being conducted; a detailed methodological plan for investigating the problem; and a proposed timeline for completing the dissertation. The Doctoral Advisory Committee must approve the student's proposal, which is presented at a formal proposal defense.

#### *Dissertation with Oral Defense:*

The doctoral dissertation is an original piece of scholarship that makes a significant contribution to the field of Policy and Organizational Studies. A successful dissertation will be publishable in a refereed journal.

The Doctoral Advisory Committee oversees all aspects of the student's dissertation from the proposal to the oral defense. It is composed of three members of the Graduate Faculty. A member of the Policy, Organizational and Leadership Studies faculty typically chairs the committee. At least one faculty member from outside the program must be on the committee. The student chooses their committee in consultation with the selected chair. A student may petition for a change of chairperson or member of the Doctoral Advisory Committee. This petition must be approved by the Department Chair and by the Associate Dean for Academic Affairs and Graduate Studies. Complete details about the dissertation process are available in the College of Education and Human Development Dissertation Handbook, which is available from the Dean's office.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. It is composed of the three members of the Doctoral Advisory Committee plus one additional faculty member, i.e., an outside examiner. One member may be assigned by the Associate Dean for Academic Affairs and Graduate Studies. The Dissertation Examining Committee evaluates the dissertation and the student's ability to defend it. The committee votes to pass or fail the dissertation. The outcome of the defense is determined by majority vote.

Students who are preparing to defend their dissertation must confirm a date and time with the Dissertation Examining Committee. Notification

of the date and time must then be submitted on the appropriate College form to the Associate Dean for Academic Affairs and Graduate Studies no less than 3 weeks prior to the oral defense. The announcement of the oral defense is sent by the Associate Dean to the Graduate School no less than 10 days prior to the defense. A copy of the announcement is also sent to each member of the Dissertation Examining Committee and is posted on the bulletin board in the Office of Student Services of the College of Education and Human Development.

## Professional Health Education MSED

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Science in Education in Professional Health Education.

### About the Program

The Master of Science in Education program in Professional Health Education, with an optional concentration in The Scholarship of

Teaching and Learning in Health-Based Instruction, seeks to provide support to faculty teaching in professional education programs (e.g., Dentistry, Medicine, Pharmacy, Podiatry). In conjunction with faculty and administration from the Kornberg School of Dentistry and the Lewis Katz School of Medicine, faculty from the College of Education and Human Development created a 20-month executive-style program supporting professional faculty who have credentials for the content they teach, but do not have knowledge regarding teaching and learning theories or case-based instruction methods. This program is unique in that it does not solely emphasize instruction and research, but focuses on case-based, evidence-based instruction and clinical care. After completion of all core and concentration courses, students engage in teaching practicum, which is followed by a capstone research project that is presented to faculty and students in the program. An optional concentration is designed to support students interested in the scholarship of teaching and learning in health-based instruction.

Upon completion of the MEd program, students will be able to:

- apply evidence-based healthcare principles to teaching future professionals in their field of study;
- utilize both didactic and clinical adult learning theories when teaching future professionals in their field of study;
- design, present and assess case-based instructional modules within their field of study;
- provide leadership in innovative curricular development, including critiquing curricular change;
- implement effective coaching techniques in their teaching;
- provide effective group facilitation and consultation in their teaching;
- apply current concepts of motivation in education to their teaching; and
- develop a viable study of teaching within their field of study.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Online and in-person at the Center City and Main campuses

**Full-Time/Part-Time Status:** The degree program can be completed on a part-time basis.

**Areas of Specialization:** The program can be completed with an optional concentration in The Scholarship of Teaching and Learning in Health-Based Instruction.

**Job Prospects:** Graduates of the MEd program will have enhanced skills that increase their marketability as faculty in healthcare education institutions and institutions of higher learning.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1

*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking the master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 33

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
AOD 5403	Facilitating Adult Learning	3
AOD 5534	Group Facilitation and Consultation	3
EDUC 5501	Fundamental Interpersonal Techniques for Healthcare Professionals	3
EDUC 5502	Case-Based Instruction and Learning	3

# School Psychology EdS

## COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Education Specialist degree in School Psychology.

### About the Program

The EdS is a rigorous graduate degree program that meets the requirements for certification as a school psychologist in Pennsylvania and New Jersey. Students who apply directly from a bachelor's degree can earn an MEd after completion of 30 credits of qualifying coursework toward the EdS. In addition to required coursework, students must complete a portfolio, required practicum placements, and a 1,200-hour internship in a school setting.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The program is designed to be completed in three years of full-time study, with the third year being a full-time internship.

**Accreditation:** The program is approved by the National Association of School Psychologists and accredited by the Pennsylvania Department of Education.

**Areas of Specialization:** The program offers two optional concentrations for study:

- Applied Behavior Analysis
- Counseling

**Job Prospects:** Graduates are employed in public and private schools.

**Licensure/Certification:** Graduates can become Nationally Certified School Psychologists. Certification in School Psychology is awarded after completing the internship and passing the examinations required by the Commonwealth of Pennsylvania. Some states certify without the examinations.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

### Admission Requirements and Deadlines

#### Application Deadline:

*Fall:* February 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

#### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In two to three pages, indicate your goals and objectives in obtaining a specialist degree and certification as a school psychologist, as well as your reason for seeking certification with a specific focus on the career to which you aspire, your research and practice interests, and your academic and job-related experiences that are relevant to the program.

#### Standardized Test Scores:

GRE: Not required, but scores from the general test taken no more than 5 years prior to application may be submitted. Scores from the GRE Subject Exam in Psychology may also be provided.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment. Students must complete and upload documentation of clearances prior to the start of their program.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

### Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 66 (30 credits MEd; 36 credits post-master's EdS)

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ABA 5302	Effective Teaching Strategies and Academic Interventions	3
ABA 5303	Ethical and Legal Issues	3

	or SPSY 5303 Ethical and Legal Issues	
CPSY 5526	Multicultural Counseling	3
EDUC 5101	Critical Understanding of Social Science Research	3
EPSY 5561	Development and Learning Over the Lifespan	3
SPSY 5667	Introduction to Cognitive Assessment	3
SPSY 5671	Integrative Assessment	3
SPSY 5674	Social and Emotional Aspects of Behavior and Assessment	3
SPSY 5676	Applied Behavior Analysis	3
SPSY 5771	Biological Aspects of Behavior	3

SPSY 8777	Theories and Techniques of Counseling for Youth	3
SPSY 9551	Consultation	3
<b>Culminating Courses</b>		
SPSY 9487	Professional Issues and Practicum (2 terms)	6
SPSY 9687	Clinical Supervision Seminar in School Psychology	6
SPSY 9688	Psychoeducational Clinic (2 terms)	6
SPSY 9885	Internship in School Psychology	9
<b>Total Credit Hours</b>		<b>66</b>

## Optional Concentration in Applied Behavior Analysis

The optional 12-credit concentration in Applied Behavior Analysis allows students to meet the Behavior Analyst Certification Board's educational requirements to become a Board Certified Behavior Analyst (BCBA):

Code	Title	Credit Hours
ABA 5304	Concepts and Principles of Behavior Analysis	3
ABA 5305	Single Subject Research Design	3
ABA 5306 or PSY 8610	Organizational Behavior Management - OBM Topical Seminar in Organizational-Social	3
ABA 8787	Seminar on Verbal Behavior	3
<b>Total Credit Hours</b>		<b>12</b>

## Optional Concentration in Counseling

The optional 12-credit concentration in Counseling allows students to meet Pennsylvania's educational requirements for licensure as a professional counselor:

Code	Title	Credit Hours
CPSY 5519	Group Counseling	3
CPSY 5566	Professional Issues in Mental Health Counseling	3
CPSY 5593	Career Counseling and Development	3
CPSY 5698	Fundamental Counseling Techniques	3
<b>Total Credit Hours</b>		<b>12</b>

**Internship:** For certification, an internship with a minimum of 1,200 hours in an approved setting must be completed. A minimum of 600 hours must be in a school setting. The internship can be full-time for a year or half-time over two years.

### Culminating Events:

*Comprehensive Examination:*

The comprehensive examination is an essay examination that covers key areas of Psychology and School Psychology to determine the student's competence and ability to explain key concepts. The comprehensive exam is only required for a student whose GPA is below 3.5 at the completion of MEd coursework.

### Portfolio Review:

During the internship year, students must submit a portfolio of professional work for review by the advisor.

## School Psychology PhD

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Doctor of Philosophy in School Psychology.

### About the Program

The School Psychology PhD program follows a scientist-practitioner model, which emphasizes that a school psychologist's basic skills are derived from a thorough understanding of the science of psychology. Armed with this understanding of basic psychology, the school psychologist can adapt to changing professional demands and help determine the future of the profession. Without this background, a psychologist could only serve the role of a technician and would be poorly equipped to overcome any obstacles or lead new developments in the

profession. Students who apply directly from a bachelor's degree can earn an MEd after completion of 30 credits of qualifying coursework toward the PhD.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students must complete one year of full-time residency. The program requires both day and evening classes.

**Accreditation:** The doctoral program in School Psychology is fully accredited by the American Psychological Association (APA), the National Association of School Psychologists (NASP), and the Pennsylvania Department of Education.

**Areas of Specialization:** The program offers an optional concentration in Applied Behavior Analysis.

**Job Prospects:** Graduates are employed in universities, public and private schools, hospitals, research facilities, government and state agencies, and private practice.

**Licensure/Certification:** Certification in School Psychology is awarded after completing the internship and passing the examinations required by the Commonwealth of Pennsylvania. Some states certify without the examinations. Licensing as a psychologist in most states requires an additional post-doctoral year of supervision and passing the Examination for the Professional Practice in Psychology (EPPP) and a state licensure exam.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include assistantships, fellowships, scholarships, tuition remission, graduate student employment, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 1

Applications are accepted for the Fall term only. Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Using autobiographical style, explain your interest in pursuing a doctoral degree in education. The statement should address the following questions:

- Why are interested in becoming a school psychologist?
- What do you perceive as the role and functions of a school psychologist?
- What is your area of research focus?
- How does the doctoral program at Temple fit your individual interests, needs and future goals – and which faculty member's research best matches your own interests?

### Standardized Test Scores:

GRE: Submit scores from the general test taken no more than 5 years prior to application.

GRE Subject Test in Psychology: Optional.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Interview:** An interview with the faculty admissions committee may be required after a complete application is received.

**Writing Sample:** The academic writing sample should be a paper written for a class within the last five years. If a recent paper is not available, the applicant should compose an op-ed piece on an educational issue of their choosing. The op-ed should be 400 to 1,200 words in length and of the kind that might appear in *The New York Times* or *Philadelphia Inquirer*.

**Advanced Standing:** The advisor determines advanced standing during the student's first term in the program by evaluating the credits the student has taken in accordance with the relevance to and requirements of the School Psychology program. Students who have completed a master's degree with at least 30 credits will be designated as admitted with the master's degree; up to 30 credits of the master's degree can be applied toward degree requirements.

**Clearances:** A Pennsylvania criminal background check, a federal criminal history check, a child abuse clearance, and a TB test are required upon enrollment. Students must complete and upload documentation of clearances prior to the start of their program.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 99 for those who complete an internship through the Association of Psychology Postdoctoral and Internship Centers (APPIC); 102 for those who complete a non-APPIC internship

*Number of Credits Required to Earn the Degree with the Concentration in Applied Behavior Analysis:* 105 for those who complete an APPIC internship; 108 for those who complete a non-APPIC internship

### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
ABA 5302	Effective Teaching Strategies and Academic Interventions	3
ABA 5303	Ethical and Legal Issues	3
or SPSY 5303	Ethical and Legal Issues	
CPSY 5526	Multicultural Counseling	3
or AOD 5524	Sociocultural Dynamics	
EDUC 8404	Quantitative Analysis, Part I	3
EDUC 8405	Quantitative Analysis, Part II	3
EPSY 5529	Tests and Measurements	3
EPSY 5561	Development and Learning Over the Lifespan	3
EPSY 8627	Introduction to Research Design and Methods	3
SPSY 5667	Introduction to Cognitive Assessment	3
SPSY 5671	Integrative Assessment	3
SPSY 5674	Social and Emotional Aspects of Behavior and Assessment	3
SPSY 5676	Applied Behavior Analysis	3
SPSY 5771	Biological Aspects of Behavior	3
SPSY 8773	Developmental Psychopathology and Low Incidence Disabilities	3
SPSY 8776	History and Systems of Psychology	3
SPSY 8777	Theories and Techniques of Counseling for Youth	3
SPSY 9487	Professional Issues and Practicum (2 terms)	6
SPSY 9488	Advanced Practicum in School Psychology (6 terms)	6
SPSY 9551	Consultation	3
SPSY 9687	Clinical Supervision Seminar in School Psychology	6
SPSY 9688	Psychoeducational Clinic (2 terms)	6
SPSY 9876	Supervision of Psychological Services	3
SPSY 9885	Internship in School Psychology <sup>1</sup>	6-9
Advanced Statistics Course <sup>2</sup>		3
<b>Electives OR Applied Behavior Analysis Concentration Courses</b> 6-12		
<b>Research Courses</b> <sup>4</sup>		
EDUC 9994	Preliminary Examination Preparation	
EDUC 9998	Dissertation Proposal Design	
SPSY 9999	Doctoral Dissertation	
<b>Total Credit Hours</b>		<b>99-108</b>

1

Students who undertake an internship through the Association of Psychology Postdoctoral and Internship Centers (APPIC) complete 6 credits of SPSY 9885, while those who complete a non-APPIC internship must take 9 credits of SPSY 9885.

2

Students select their statistics course in consultation with their academic advisor.

3

If students opt to take electives for a total of 6 credits, they select their two electives in consultation with their academic advisor. If students opt to pursue a concentration in Applied Behavior Analysis, they complete the 12 credits of coursework identified below.

4

Of the 6 credits overall, a minimum of 2 credits of SPSY 9999 must be taken.

## Optional Concentration in Applied Behavior Analysis

The optional 12-credit concentration in Applied Behavior Analysis allows students to meet the Behavior Analyst Certification Board's educational requirements to become a Board Certified Behavior Analyst (BCBA):

Code	Title	Credit Hours
ABA 5304	Concepts and Principles of Behavior Analysis	3
ABA 5305	Single Subject Research Design	3
ABA 5306	Organizational Behavior Management - OBM	3
or PSY 8610	Topical Seminar in Organizational-Social	
ABA 8787	Seminar on Verbal Behavior	3

**Internship:** An internship with a minimum of 1,500 hours must be completed in an approved setting. A minimum of 600 hours must be in a school setting. The internship can be full-time for a year or half-time over two years.

### Culminating Events:

#### Portfolio Review:

During the internship year, students must submit a portfolio of professional work for review by the advisor.

#### Preliminary Examination:

The preliminary examination is an essay examination that covers key areas of Psychology and School Psychology to determine the student's competence and ability to explain key concepts. Four areas are covered:

1. Scientific Psychology
2. Consultation and Intervention
3. Diagnosis and Remediation
4. Role/Function and Ethical/Legal Considerations

The preliminary examination is taken after completion of all academic subjects except for the internship. It is offered over two days, with each section of the examination requiring three hours. The exam is administered and proctored at a time determined by the College of Education and Human Development.

All School Psychology faculty participate in writing the exam by submitting questions and by evaluating the written exam. A passing grade in all four areas is required to pass the exam.

*Proposal with Oral Defense:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. Minimally, the proposal should contain the context and background surrounding a particular research problem; a survey and review of the literature to a sufficient degree to provide the reader with enough information to understand why the research is being conducted; a detailed methodological plan for investigating the problem; and a proposed timeline for completing the dissertation. The Doctoral Advisory Committee must approve the student's proposal, which is presented at a formal proposal defense.

*Internship Evaluation:*

The internship experience is evaluated for successful completion.

*Dissertation with Oral Defense:*

The doctoral dissertation is an original piece of scholarship that makes a significant contribution to the field of School Psychology. A majority of the dissertations in the program are empirical, typically using statistical analysis as the means of completing the data collection process. Other types of scholarship (e.g., those utilizing more qualitative approaches or those employing theoretical or philosophical analysis of educational issues) may be acceptable. A successful dissertation will be publishable in a refereed journal.

The Doctoral Advisory Committee oversees all aspects of the student's dissertation from the proposal to the oral defense. It is composed of three members of the Graduate Faculty. A member of the School Psychology faculty typically chairs the committee. At least one faculty member from outside the program must be on the committee. The student chooses their committee in consultation with the selected chair. A student may petition for a change of chairperson or member of the Doctoral Advisory Committee. This petition must be approved by the Department Chair and by the Associate Dean for Academic Affairs and Graduate Studies. Complete details about the dissertation process are available in the College of Education and Human Development Dissertation Handbook, which is available from the Dean's office.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. It is composed of the three members of the Doctoral Advisory Committee plus one additional faculty member, i.e., an outside examiner. One member may be assigned by the Associate Dean for Academic Affairs and Graduate Studies. The Dissertation Examining Committee evaluates the dissertation and the student's ability to defend it. The committee votes to pass or fail the dissertation. The outcome of the defense is determined by majority vote.

Students who are preparing to defend their dissertation must confirm a date and time with the Dissertation Examining Committee. Notification of the date and time must then be submitted on the appropriate College form to the Associate Dean for Academic Affairs and Graduate Studies no less than 3 weeks prior to the oral defense. The announcement of the oral defense is sent by the Associate Dean to the Graduate School no less than 10 days prior to the defense. A copy of the announcement is also sent to each member of the Dissertation Examining Committee and is posted on the bulletin board in the Office of Student Services of the College of Education and Human Development.

## Secondary Education/English Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Secondary Education.

### About the Program

The Secondary Education graduate program's English Education specialization seeks to prepare teachers to engage secondary students in the production and interpretation of literary and non-literary spoken and written texts. Courses stress connections between the advanced literacy demands of secondary schools and the similarities and differences in the literacies necessary to thrive in home and school communities.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education.

**Job Prospects:** Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1

*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence and should ideally attest to the candidate's academic ability and readiness to work with students at the middle- and secondary-grade levels. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Significant coursework (i.e., the equivalent of a minor or better) and/or professional experience related to the intended certification area are preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31, or 37 with ESL Certification

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5255	Tech in Classrooms: TPCK	3
EDUC 5402	Child and Adol Develop	3
MGSE 5796	Literacy and Differentiation in the Academic Areas, 7-12	3
	or TESL 5613 Multilingual Students' Literacy Development	
SPED 5109	Classroom Management and Positive Behavior Support	3
SPED 5666	Introduction to Special Education	3
TESL 5631	Foundations of Language Teaching: Meeting the Needs of English Language Learners	3
<b>Concentration-Specific Pedagogy Classes</b>		
MGSE 5641	Teaching Written Composition in the Secondary School	3
MGSE 5642	Teaching Literature and Reading in the Secondary School	3
<b>Culminating Courses</b>		
	Select either Residency or Non-Residency Student Teaching and Seminar:	7

## Residency Student Teaching and Seminar

EDUC 5801	Residency Practicum Capstone
EDUC 5802	Residency Student Teaching Capstone
EDUC 5888	Supervised Teaching

## Non-Residency Student Teaching and Seminar

EDUC 5409	Research Methods and Induction Capstone
EDUC 5888	Supervised Teaching

---

**Total Credit Hours** **31**

## ESL Certification

While completing the degree, MEd candidates who have elected to complete TESL 5613 Multilingual Students' Literacy Development as a core course may opt to pursue ESL Certification in teaching English as a second language. An additional 6 credits of coursework are required:

Code	Title	Credit Hours
TESL 5616	Designing Assessment and Curriculum for Multilingual Students	3
TESL 5621	Contexts for Teaching and Learning Language	3
<b>Total Credit Hours</b>		<b>6</b>

**Culminating Events:** Student teaching and its related seminar(s) constitute the culminating events for this MEd program.

# Secondary Education/ Mathematics Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Secondary Education.

## About the Program

The Secondary Education graduate program's Mathematics Education specialization follows the standards and recommendations of leading mathematics professional organizations, such as the National Council of Teachers of Mathematics (NCTM). The curriculum is designed to provide candidates with knowledge of the interests and abilities of students at different levels of mathematics achievement. The program emphasizes problem-solving skills, mathematical thinking processes, and methods of actively engaging children and young adults in their own learning.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

**Job Prospects:** Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1  
*Spring:* November 1  
*Summer II:* March 1

# Secondary Education/Science Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Secondary Education.

## About the Program

The Secondary Education graduate program's Science Education specialization requires a strong foundation in at least one science discipline with supporting expertise in mathematics, as appropriate. Students graduate with an understanding of the nature of science and its complex relationship to the society in which it functions and serves. The program offers concentrations in Biology, Chemistry, Earth Science, General Science and Physics.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

**Areas of Specialization:** The Science Education specialization of the Secondary Education graduate program offers concentrations in Biology, Chemistry, Earth Science, General Science, and Physics.

**Job Prospects:** Graduates typically pursue teaching positions in middle and secondary school settings in grades 7 to 12.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for a Pennsylvania Instructional I Teaching Certificate.

## Secondary Education/Social Studies Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Secondary Education.

### About the Program

The Secondary Education graduate program's Social Studies Education specialization aims to develop teachers with the skills necessary to create an informed citizenry with respect for diversity in a democratic society. The Social Studies Education specialization emphasizes critical thinking about social studies curriculum frameworks and materials; curriculum development grounded in teaching for understanding; and sensitivity around controversial areas such as race relations, gender, war and peace, equality of economic and social opportunities, and global interdependence.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

## Secondary Education / World/ Foreign Languages Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Secondary Education.

### About the Program

The Secondary Education graduate program's World/Foreign Languages Education specialization is devoted to providing students with a combination of fluency in the target language and the ability to implement best practices in foreign language pedagogy. This specialization emphasizes that learning a foreign language also means learning about another way of life and developing intercultural understanding in order to escape a narrow cultural perspective. Through the experiences in this program, students gain a deeper understanding of the nature of language and culture.

Although most graduates work in secondary school settings, the need for foreign language teachers in elementary schools, especially for teachers of Spanish, is increasing. In response to this, the World/Foreign Languages Education specialization offers K-12 certification, and the

curriculum is designed to equip students with knowledge and skills they can apply in K-12 settings. Certification is offered in Chinese, French, German, Italian, Latin and Spanish.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification program by the Pennsylvania Department of Education.

**Areas of Specialization:** The World/Foreign Languages Education specialization of the Secondary Education graduate program offers certification in Chinese, French, German, Italian, Latin and Spanish.

**Job Prospects:** Graduates typically pursue teaching positions in elementary, middle or secondary school settings in grades K to 12.

**Licensure/Certification:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1  
*Spring:* November 1  
*Summer II:* March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Before being admitted, applicants must have completed an undergraduate major or the equivalent in a subject area (e.g., French, Spanish, etc.) with 36 credits of undergraduate coursework in the subject area:

- Non-native speakers must have taken the first two elementary courses and 10 three-credit courses, with a minimum of 30 credits in the foreign language at the college level, for certification in one foreign language. Work should include courses in composition,

contemporary literature, conversation, culture and civilization, and linguistics.

- Native speakers must have taken eight university courses in the department of the language of certification (e.g., the Spanish Department) and be versed in language, linguistics, literature, and culture.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

The official score report must demonstrate a passing score on the *Praxis*® Fundamental Subjects: Content Knowledge (5511) test and the appropriate language test:

- *Praxis*® Chinese (Mandarin): World Language (5665) test
- *Praxis*® French: World Language (5174) test
- *Praxis*® German: World Language (5183) test
- *Praxis*® Latin (5601) test
- *Praxis*® Spanish: World Language (5195) test

Alternately, the American Council on the Teaching of Foreign Languages (ACTFL) test in the appropriate language may substitute for the *Praxis*® language test. For the ACTFL, both the written and oral exams must be taken, if available. The minimum proficiency to qualify is Intermediate High: Code 120. Candidates may contact the ACTFL testing office at 914-963-7110.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience

requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31, or 37 with ESL Certification

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5255	Tech in Classrooms: TPCK	3
EDUC 5402	Child and Adol Develop	3
MGSE 5796	Literacy and Differentiation in the Academic Areas, 7-12	3
or TESL 5613	Multilingual Students' Literacy Development	
SPED 5109	Classroom Management and Positive Behavior Support	3
SPED 5666	Introduction to Special Education	3
TESL 5631	Foundations of Language Teaching: Meeting the Needs of English Language Learners	3
<b>Concentration-Specific Pedagogy Courses</b>		
MGSE 5427	Curriculum and Methods of Foreign Language Education	3
MGSE 5428	Innovations in Foreign Language Education	3
<b>Culminating Courses</b>		
Select either Residency or Non-Residency Student Teaching and Seminar:		7
Residency Student Teaching and Seminar		
EDUC 5801	Residency Practicum Capstone	
EDUC 5802	Residency Student Teaching Capstone	
EDUC 5888	Supervised Teaching	
Non-Residency Student Teaching and Seminar		
EDUC 5409	Research Methods and Induction Capstone	
EDUC 5888	Supervised Teaching	
<b>Total Credit Hours</b>		<b>31</b>

## ESL Certification

While completing the degree, MEd candidates may opt to pursue ESL Certification in teaching English as a second language. An additional 6 credits of coursework are required:

Code	Title	Credit Hours
TESL 5616	Designing Assessment and Curriculum for Multilingual Students	3
TESL 5621	Contexts for Teaching and Learning Language	3
<b>Total Credit Hours</b>		<b>6</b>

**Language Examination:** Test scores documenting language proficiency need not be provided as they cannot be substituted for academic coursework in the target language.

**Culminating Events:** Student teaching and its related seminar(s) constitute the culminating events for this MEd program.

## Special Education MEd

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Education in Special Education.

### About the Program

The Special Education (SPED) program in the College of Education and Human Development equips teachers with deep understanding of the sociocultural context of education; high-impact instructional practices;

and empirically supported, preventative approaches to provide equitable education to children with disabilities. The program features uphold and further both the College's and the University's mission in the following ways:

- Promoting evidence-based practice and effective implementation in the classroom;
- Recognizing and ameliorating the impact of sociocultural factors on the education of children with disabilities;
- Advocating inclusive practices both within schools and within society as a whole; and
- Emphasizing preventative approaches to support improved teaching and learning.

The Special Education MEd program allows Temple Teacher Residency (TTR) students the ability to complete student teaching across two semesters in a year-long residency. Non-TTR students may complete student teaching in one semester.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main and Online

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

**Accreditation:** The program is approved as a teacher certification preparation program by the Pennsylvania Department of Education.

**Areas of Specialization:** The scope of the Special Education certificate is grades PreK-8.

**Job Prospects:** The market for highly qualified special education teachers remains unabated. The U.S. Bureau of Labor Statistics reports an increased need for special education teachers. The shortage of special education teachers has been identified regionally (i.e., Pennsylvania and New Jersey) and is particularly prevalent in urban centers in the immediate environs of Temple University.

**Licensure/Certification:** Upon successful completion of the degree requirements and passing all required licensure examinations, candidates may apply for Pennsylvania Special Education PreK-12 certification.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program, if the student is admitted. ***Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.***

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission and other financial aid such as grants, loans and federal work study.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1  
Spring: November 1  
Summer II: March 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required: 2*

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence and should ideally attest to the candidate's academic ability and readiness to work with students at the middle- and secondary-grade levels. References from college/university faculty are recommended.

**Coursework Required for Admission Consideration:** Significant coursework (i.e., the equivalent of a minor or better) and/or professional experience related to the intended certification area are preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500 to 1,000 words, outline your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Transfer Credit:** Courses may be transferred from an accredited institution provided they were completed less than five years ago and are relevant to the program. The academic advisor makes the decision about the relevancy of the courses that the student desires to transfer. The maximum number of credits a student may transfer is 6.

**Clearances:** All admitted students must submit copies of the required Pennsylvania criminal background check, FBI criminal history, Child Abuse check, and TB test to the College of Education and Human Development's Office of Field Placement prior to enrolling in their first term. These clearances are required by law prior to entering pre-kindergarten through 12th-grade classrooms to complete field experience requirements, starting with the first term and continuing throughout the program.

Pennsylvania clearances are not required for application completion. All new students who possess required Pennsylvania clearances more than one year old must submit updated clearances to the Office of Field Placement. Please note that obtaining these clearances may take up to

six weeks. For instructions, please visit the Office of Field Placement's website at <https://education.temple.edu/ofp/clearances>.

**Other Requirements:**

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.
2. Upon admission to the Special Education MEd program, students must submit proof from an accredited body of Instructional I Certification, if already earned.

## Program Requirements

**General Program Requirements:**

Number of Credits Required Beyond the Baccalaureate: 37

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
EDUC 5402	Child and Adol Develop <sup>1</sup>	3
SPED 5105	Assessment in Special Education	3
SPED 5106	Literacy Instruction for Students with Disabilities	3
SPED 5107	Understanding and Using Special Education Research	3
SPED 5109	Classroom Management and Positive Behavior Support <sup>1</sup>	3
SPED 5201	Students with Moderate to Severe Disabilities: Effective Teaching Strategies	3
SPED 5211	Effective Instruction for Students with Disabilities <sup>1</sup>	3
SPED 5402	Effective Transition Practices for Students with Disabilities	3
SPED 5666	Introduction to Special Education <sup>1</sup>	3
TESL 5631	Foundations of Language Teaching: Meeting the Needs of English Language Learners <sup>1</sup>	3
<b>Culminating Courses</b>		
Select either Residency or Non-Residency Student Teaching and Seminar:		7
Residency Student Teaching and Seminar		
EDUC 5801	Residency Practicum Capstone	
EDUC 5802	Residency Student Teaching Capstone	
EDUC 5888	Supervised Teaching <sup>2</sup>	
Non-Residency Student Teaching Seminar		
EDUC 5409	Research Methods and Induction Capstone	
EDUC 5888	Supervised Teaching <sup>2</sup>	
<b>Total Credit Hours</b>		<b>37</b>

<sup>1</sup>

Students who already hold an Instructional I Certification – or who have completed the requirements for initial certification but have not yet applied for certification – have satisfied the competencies of one or more courses required for the Special Education MEd. With documented approval from their advisor, these students may select up to 15 credits of coursework from the list of approved courses below.

<sup>2</sup>

Only students with an Instructional I Certification may reduce their credit hours for EDUC 5888 from 4 to 1 credit and maintain Supervised Teaching. PDE permits a meaningful and modified student teaching experience for students who previously completed a full student teaching experience. Students who opt for this must select an additional 3-credit elective, with documented approval from their advisor, to ensure completion of a total of 37 credits in earning the Special Education MEd.

## Approved Courses for Students Who Have Satisfied Competencies for Instructional I Certification<sup>1</sup>

Code	Title	Credit Hours
ABA 5302	Effective Teaching Strategies and Academic Interventions	3
ABA 5303	Ethical and Legal Issues	3
ABA 5304	Concepts and Principles of Behavior Analysis	3
ABA 5305	Single Subject Research Design	3
ABA 5306	Organizational Behavior Management - OBM	3
ABA 5676	Applied Behavior Analysis	3
ABA 8787	Seminar on Verbal Behavior	3
EDUC 5212	Curriculum, Instruction, and Technology in Education	3

## Teaching English to Speakers of Other Languages (TESOL) MEd

### COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the Master of Science in Education in Teaching English to Speakers of Other Languages (TESOL).

## About the Program

The Master of Science in Education program in Teaching English to Speakers of Other Languages (TESOL) is designed for professionals from a variety of backgrounds and with varied career interests. These include:

- Those interested in teaching positions that do not require state certification, including jobs overseas or in business settings, community agencies, college and university English language institutes, and parochial or other independent elementary and secondary schools.
- Those who are already certified to teach in a public school system in Pennsylvania and want to learn how to better meet the needs of English language learners.
- Those from abroad who desire to develop expertise in teaching English in their native country.

Most courses have a mandatory fieldwork component that affords students the opportunity to apply newly learned course concepts and skills to the classroom. Students typically serve as assistant teachers, but if they already have teaching positions, they may complete the fieldwork in their own classrooms. Students who need help finding a fieldwork site receive assistance from their course instructor or from the Office of Field Placement and Professional Experiences.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Job Prospects:** Graduates are prepared to meet the needs of English language learners both stateside and abroad.

**Non-Matriculated Student Policy:** Students may take up to, but not more than, 9 credits of graduate study in the program before being admitted to the program. The credits transfer into the program if the student is admitted. **Students completing non-matriculated courses before being admitted to the program are NOT guaranteed admission.**

**Financing Opportunities:** Financial support opportunities may include scholarships, tuition remission, and other financial aid such as grants, loans and federal work-study.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1

Applicants should submit all required admissions documents by the application deadline to receive priority consideration for admission and financial support.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum GPA of 3.0 on a 4.0 scale is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** Write a 500 to 1,000-word statement of purpose that outlines your interest in seeking a master's degree with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 95
- IELTS Academic: 7.0
- PTE Academic: 64

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
TESL 5611	Applied Language Study I: Phonology and the Lexicon	3
TESL 5612	Applied Language Study II: Grammar, Morphology and Classroom Discourse	3
TESL 5613	Multilingual Students' Literacy Development	3
TESL 5614	Current Approaches to Teaching English Language Learners	3
TESL 5616	Designing Assessment and Curriculum for Multilingual Students	3
TESL 5618	Second Language Development	3
TESL 5687	Practicum for Teaching English Language Learners	3
<b>TESOL Electives</b>		
Select two from the following: <sup>1</sup>		6
TESL 5615	Teaching English in a Global Context	
TESL 5621	Contexts for Teaching and Learning Language	
TESL 8625	Applied Linguistics	
TESL 8626	Second Language Writing	
TESL 8634	Bilingualism and Bilingual Education	
TESL 8636	Assessment of English Language Learners	
TESL 8643	Research Methods in Applied Linguistics	
TESL 8644	Current Issues in Applied Linguistics	
<b>Non-TESOL Elective</b> <sup>2</sup>		<b>3</b>
<b>Research Course</b>		
EDUC 9993	Master's Comprehensive Examination	1
<b>Total Credit Hours</b>		<b>31</b>

1

With advisor approval, other appropriate courses may be taken. Students may also choose to take a third TESOL elective, thus requiring no non-TESOL elective.

2

To fulfill this requirement, a course may be taken either within the College of Education and Human Development or in another Temple University school or college. Non-TESOL electives are recommended to be taken in, but are not limited to, such fields as Anthropology, Educational Media, Educational Sociology, English, Foreign Language Education, Linguistics, Literacy, Secondary Education, and Urban Education.

### Culminating Event:

*Comprehensive Examination:*

In order to take the comprehensive exam, the student must remain in good academic standing. Thus, the student cannot accumulate more than

two grades below "B-" or one "F" and must maintain at least a 3.0 grade point average.

## Graduate Certificate: Applied Behavior Analysis

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Applied Behavior Analysis.

### About the Certificate

The graduate certificate in Applied Behavior Analysis trains students to apply the principles of learning and behavior to influence behavior change that is significant to society. Students learn how to systematically change behavior by analyzing related environmental variables and applying interventions based on the principles of behavior science. Behavior analysts have improved a wide range of everyday issues, including enhancing staff performance, improving public safety initiatives, teaching effective parenting skills, treating problem behavior in children, improving general and special education teaching strategies, rehabilitating individuals who abuse substances and more.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

**Accreditation:** The certificate program includes a seven-course sequence approved by the Association for Behavior Analysis International (ABAI).

**Job Prospects:** Graduates are prepared for professional careers in a variety of environments, particularly in social service agencies and educational institutions.

**Licensure/Certification:** Coursework may apply toward earning the Behavior Specialist license from the Commonwealth of Pennsylvania.

## Admission Requirements and Deadlines

**Application Deadline:**

Applications are accepted for the Fall and Spring terms and are reviewed on a rolling basis.

*APPLY ONLINE to this certificate program.*

**Letters of Reference:**

# Graduate Certificate: Autism Endorsement

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Autism Endorsement.

## About the Certificate

Pennsylvania is experiencing a considerable increase in the proportion of students with autism eligible for services. A significant need exists for well-trained professionals holding various Level I and Level II certificates of professional competence to serve students with autism and related Autism Spectrum Disorders (ASD).

The graduate certificate in Autism Endorsement offers a competency-based sequence of courses and a practicum for certified teachers who support students with ASD. All courses are grounded in applied behavior analysis and demonstrate research-based practices that enable students to gain the knowledge, specific skills and competencies to effectively educate children with ASD and work with their families. Students learn from renowned faculty in Temple's College of Education and Human Development, which is consistently ranked among the nation's best by *U.S. News and World Report*. Flexible practicum options are available.

At the conclusion of each course, students may apply for ACT 48 credits.

Completion of the certificate program ensures that graduates enhance their marketability as certified teachers when seeking positions in inclusive settings. Students who successfully complete the program are eligible to receive Pennsylvania's Autism Spectrum Disorders Endorsement Certificate.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main, with convenient night classes offered

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

# Graduate Certificate: College Access and Success

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in College Access and Success.

## About the Certificate

The graduate certificate in College Access and Success aims to provide a post-baccalaureate credential that aligns with the primary goals of the MEd program in Higher Education. As the College of Education and Human Development strives to prepare existing and incoming professionals in the ever-changing landscape of higher and postsecondary education, this certificate serves as a critical bridge to helping these service providers develop marketable skills and competencies. Courses offered through this graduate certificate program challenge norms by placing significant emphasis on urban issues and themes of equity, access and affordability in higher and postsecondary education.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

## Admission Requirements and Deadlines

### Application Deadline:

Applications are accepted for the Fall, Spring and Summer terms and are reviewed on a rolling basis.

*APPLY ONLINE to this certificate program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum undergraduate GPA of 3.0 is expected.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500-1,000 words, write a statement of purpose outlining your interest in seeking a graduate certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate:* 12

*Required Courses:*

# Graduate Certificate: Data-Driven Decision Making

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Data-Driven Decision Making.

## About the Certificate

Data-driven decision-making refers to the practice of using systematically collected and analyzed information to guide key decisions about policy or practice in business, education, government or other contexts. A growing need exists among organizations of all sorts for employees with knowledge about data-driven decision-making, an important trend in the field and one that complements the expertise of our educational psychology faculty. The graduate certificate program is designed for data users and decision makers from many different kinds of organizations, including schools, colleges, social service groups, nonprofits, government and business.

The success of data-driven decision-making depends on knowing what information to collect, how to collect it, how to analyze it, how to interpret the findings, and how to translate these understandings into subsequent action. Flexible sequencing of courses, potentially flexible modes of course delivery (e.g., face-to-face, hybrid, online), and a culminating paper on a flexible topic allow students in the graduate certificate program to customize training to fit their personal interests.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

# Graduate Certificate: Disability Studies

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Disability Studies.

## About the Certificate

Scholars in the field of Disability Studies recognize the necessity of focusing their work on issues of disability within a traditional discipline, as well as enriching their own understandings by acquiring a familiarity with work on disability in other disciplines. In light of this philosophical reasoning, the graduate certificate in Disability Studies:

- pairs well with graduate study in a variety of disciplines, including bioethics, higher education, occupational therapy, public health, public policy, recreational therapy, social work, special education, and speech-language-hearing;
- draws on resources in a broad array of disciplines from the liberal arts and social sciences to the allied health professions; and
- is interdisciplinary and jointly sponsored by the Institute on Disabilities and the College of Education and Human Development.

The Disability Studies graduate certificate offers a course of study that explores disability from historical, cultural and sociopolitical perspectives. Focus is placed on disability within a social and political context, challenging the notion that the statuses and roles of individuals with disability result from physical or psychological aspects of disability.

The certificate program provides students with an opportunity to reflect critically on practices and approaches that may be taken for granted in their home disciplines. Particular strengths include constituency-oriented research on disability rights and culture, disability and health, disability social policy, ecological aspects of disablement, social history of disability and ableism, and universal design. Students develop a more accurate understanding and appreciation of people with disabilities and the evolution of their civil rights movement.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online, both synchronous and asynchronous

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

**Financing Opportunities:** Students undertaking this certificate in conjunction with a terminal degree program may be eligible for financing and assistantship opportunities. For more information, refer to the Graduate School's financing webpage and/or the Institute on Disabilities' graduate assistantship webpage.

## Admission Requirements and Deadlines

### Application Deadline:

Applications are accepted for the Fall, Spring and Summer terms and are reviewed on a rolling basis.

*APPLY ONLINE to this certificate program.*

### Letters of Reference:

## Graduate Certificate: Diversity Leadership in Higher Education

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Diversity Leadership in Higher Education.

## About the Certificate

The graduate certificate in Diversity Leadership in Higher Education is designed to provide a broad range of knowledge related to the field of diversity and to create reflective practitioners who can lead and support formal and informal learning collaborations by diverse groups in higher education settings. The broader vision is that certificate holders contribute to the creation of responsible, ethical citizens able to collaborate in an increasingly diverse world.

A sequence of two courses is offered. In the first course, key foundational principles, policies and procedures used in the field of diversity in higher education are introduced. Students learn about the models and theories for developing partnerships and serving as change agents within institutions, as well as strategic planning and assessment of diversity initiatives. In the second course, the student is the facilitator, leading diverse groups in a variety of settings and helping to create self-awareness of their own positionality and attitudes about diversity.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

## Graduate Certificate: English as a Second Language

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in English as a Second Language.

## About the Certificate

The population of English learners has been increasing dramatically across Pennsylvania. This significant growth has led to an increased need for trained ESL teachers. While the ESL graduate certificate is required for individuals to lead ESL classes, it is also strongly recommended for all teachers as Pennsylvania classrooms become increasingly diverse.

In response to the significant need for well-trained ESL and mainstream teachers, Temple's ESL certificate program offers a set of four challenging and practical courses that prepare teachers to work effectively with ESL students. Through this program, students develop a foundation in English usage, linguistic awareness, and second language acquisition. They also learn to adapt and develop instructional materials for ESL students; administer and interpret a variety of formative and summative assessments; become knowledgeable about support services for English language learners; and develop cultural awareness and sensitivity. Because each course includes fieldwork, students have frequent opportunities to teach ESL students throughout the program, immediately applying newly learned concepts and skills. Courses are taught by full-time Temple faculty to ensure students are guided by experts in the field and receive a high-quality education. ESL certificate course credits can also be applied toward Temple University's MSEd in Teaching English to Speakers of Other Languages (TESOL) (p. 264).

The ESL graduate certificate can currently be added to any valid Pennsylvania Instructional I or II teaching certificate. However, to obtain a position as an ESL teacher in a public school, individuals must be certified in Early Childhood Education, Middle Grades English, or Secondary English. To add this credential, students with certificates in other Middle Grades or Secondary content areas should take the *Praxis*® English Language Arts: Content Knowledge (5038).

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

## Admission Requirements and Deadlines

**Application Deadline:**

Applications are accepted for the Fall, Spring and Summer terms and are reviewed on a rolling basis.

Prospective students should hold an Instructional I or II certificate that is valid in Pennsylvania. Alternatively, students may be accepted if they are matriculated in a certification program at Temple University:

- Undergraduates currently matriculated in a Temple teacher certification program are eligible for the certificate program after achieving candidacy with a minimum GPA of 3.0.
- Graduate students with good academic standing while enrolled in a teacher certification program are also eligible for the certificate program.

Prospective students not currently matriculated in a Temple University teacher certification program must *APPLY ONLINE to this certificate program*.

**Letters of Reference:***Number Required: 2*

*From Whom:* Letters of recommendation should be obtained to provide insight regarding the applicant's academic competence. References from college/university faculty are recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum undergraduate GPA of 3.0 is expected.

Applicants who have taken some TESOL courses, who have experience as an ESL teacher, and/or who participated in ESL-related professional development activities may request a credential review.

International applicants should also submit an official document that validates completion and conferral of a degree, diploma and/or certificate. While not required, international applicants are encouraged to submit transcript(s) to the World Education Services (WES) for evaluation.

**Statement of Goals:** In 500-1,000 words, write a statement of purpose outlining your interest in seeking a graduate certificate with a specific focus on the career to which you aspire, your interests, and your academic and job-related experiences that are relevant to the program.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirements:**

1. Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.
2. A copy of a valid Pennsylvania Instructional I or II Teaching Certification or evidence of enrollment in a certification program must be submitted.

**Graduate Certificate: English Language Teaching**

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in English Language Teaching.

**About the Certificate**

The graduate certificate in English Language Teaching equips students with a foundational understanding of language structure and development as well as strategies for teaching and working with English language learners beyond the K-12 classroom in the United States. Please note that this certificate does not lead to teacher certification and, therefore, is not intended for teacher education students. Teaching English in K-12 classrooms in the United States requires state certification and, in Pennsylvania, a Pennsylvania Program Specialist: ESL Certificate. If you are enrolled in a teacher education program leading toward Pennsylvania Instructional I certification or currently hold that certification, please review the Teaching English to Speakers of Other Languages (TESOL) MSED (p. 264) program.

Grounded in a sociocultural perspective, the program provides firsthand practical experience to build language teaching skills, including lesson planning/delivery, curriculum development and assessment. Upon completion, students find themselves knowledgeable of the cultural, social and political complexities of language education, its learning and use, and are able to skillfully draw on this awareness in a broad range of

international, professional and teaching contexts. This program is ideal for those who want to develop a solid foundation for teaching English to non-native speakers and can serve as a critical pathway to the master's program in Teaching English to Speakers of Other Languages (TESOL).

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

## Graduate Certificate: Instructional Learning Technology

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Instructional Learning Technology.

### About the Certificate

Institutions across the nation require educators who understand and can effectively utilize technology in learning environments. The Instructional

Learning Technology certificate program provides students with the expertise and competencies to implement learning strategies through the use of technology. The certificate program is designed for working professionals with diverse professional goals, including:

- Educators in public, charter, independent, parochial and other religiously affiliated institutions.
- Corporate and government trainers and adult educators.
- Faculty and instructional leaders in higher education.

By completing additional coursework to meet state certification requirements, students become eligible to apply for the Instructional Technology Specialist (K-12) certification.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis.

## Admission Requirements and Deadlines

# Graduate Certificate: Professional Health Education

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Professional Health Education.

## About the Certificate

The graduate certificate in Professional Health Education provides initial support to faculty teaching in professional education programs in such disciplines as dentistry, medicine, pharmacy and podiatry. It is designed for health-related professional educators, such as dentists, pharmacists, physicians and scientists who have professional credentials for the content they teach, but do not have knowledge regarding teaching and learning theories or case-based instruction methods.

The Professional Health Education graduate certificate offers coursework focused on adult learners, learning theories and case-based instruction. This is provided through an initial, cohort-based executive model in which courses meet either monthly or fully online, with extensive online support via activities, projects, assignments and assessments.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Online and in-person at the Center City and Main campuses

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

## Graduate Certificate: Superintendency

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Superintendency.

### About the Certificate

The graduate certificate in Superintendency is open to individuals who are currently enrolled in Temple's Educational Leadership EdD program and to those who have completed a doctoral degree in Educational Leadership or Organizational Leadership with a concentration in K-12 school leadership at another institution. Completing both this certificate and the related leadership courses for our or another Educational Leadership EdD program fulfill the course of study required by the Pennsylvania Department of Education for the Superintendent PK-12 Letter of Eligibility.

Students in the Superintendency certificate program master:

- the overarching body of knowledge that informs the field of educational leadership and administration and the elements of effective practices in educational leadership;
- analyses of competing perspectives on issues of school and school district leadership as well as critical theory and its implications for leadership practice; and
- knowledge, skills, dispositions, experiences and personal attributes necessary for effective and ethical leadership at the highest levels in school districts and other educational organizations.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

## Graduate Certificate: Teaching in Higher Education

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Teaching in Higher Education.

## About the Certificate

The graduate certificate in Teaching in Higher Education has been developed for current faculty members looking to enhance their teaching or advance their career, as well as for high school teachers and professionals in other fields who would like to teach in higher education. Completion of the coursework for the certificate prepares students to:

- appreciate learning-centered teaching;
- apply research on learning and adult development to teaching;
- utilize the principles of integrated course design in developing syllabi, assessments and learning activities;
- use a variety of research-based teaching methods to promote learning, development and achievement of all students;
- practice a reflective, purposeful and learning-centered approach to teaching; and
- independently learn, evaluate and assimilate future research on teaching and learning.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate is completed on a part-time basis as part of a cohort. The Fall/Spring cohort takes one course in Fall and the other in Spring. The Summer cohort enrolls in one course in each of the summer sessions (Summer I and Summer II).

## Admission Requirements and Deadlines

### Application Deadline:

To register for the Fall/Spring cohort or the Summer I/Summer II cohort, complete TUCC's registration form.

For questions, contact the Center for the Advancement of Teaching at [thec@temple.edu](mailto:thec@temple.edu) or 215-204-2670.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required. A minimum undergraduate GPA of 3.0 is expected.

International applicants should also be prepared to submit an official document that validates completion and conferral of a degree, diploma and/or certificate.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

## Graduate Certificate: Urban Education

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Learn more about the graduate certificate in Urban Education.

## About the Certificate

The graduate certificate in Urban Education helps students develop the skills and knowledge necessary to engage in collaborative education-focused work with diverse groups of people in urban settings. Students develop a broad understanding of urban schools and communities,

with a particular emphasis on the social, economic, political and historic factors that shape urban schooling. They also learn to create connections between theory and practice and to move beyond stories of urban school “failure” to analysis of successful policies and approaches.

Students in the Urban Education certificate program seek to provide services in the areas of community development, education, health, youth and advocacy. The program attracts individuals from a wide variety of backgrounds, including educators, parents, community leaders and activists. Through the certificate, students gain knowledge and skills in:

- the history of urban education;
- race, class and schools;
- education policy;
- current trends in school reform; and
- theory, practice and program development related to creating and sustaining partnerships between schools, agencies and communities.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the Office of Enrollment Management for more information.

## Admission Requirements and Deadlines

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master’s degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Other Requirement:** Official undergraduate and graduate transcripts from all accredited institutions attended and/or from which credit was earned must be submitted.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate: 12*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
URBE 5401	Policy and Practice in Urban Education	3
URBE 5516	School-Community Partnerships in Urban Settings	3
<b>Electives</b>		
Select two from the following:		6
URBE 5417	The Urban Environment	
URBE 5501	Urban Schools	
URBE 5565	The Origins of Urban Education	
URBE 5611	Reforming City Schools	
<b>Total Credit Hours</b>		<b>12</b>

**GPA Required to be Awarded the Certificate:** 3.0 minimum

## College of Engineering

Temple University's College of Engineering is committed to its students with an emphasis on education that is hands-on and personal. Classes are small and taught by experienced and dedicated faculty. Fostering an environment for the creation of knowledge, the college encourages basic and cross-disciplinary applied research by its faculty and students. Great importance is attached to scholarship, practice and service aimed at improving the quality of life and the economic viability of our society. These objectives are pursued in a learning environment that celebrates ethnic and gender diversity, respects experience, and encourages problem solving through teamwork.

As part of a research institution, the College of Engineering offers cutting-edge programs that are accredited by the Accreditation Board for Engineering and Technology, Inc. (ABET). The college began as the Evening Technical School in 1936 to accommodate an expanded technical course offering. In 1969, the Board of Trustees approved the formation of the College of Engineering Technology, which was authorized to grant Bachelor of Science degrees in various engineering technology disciplines. In 1986, the college offered the Master of Science in Engineering, its first graduate program.

The mission of the College of Engineering is to provide students with a high-quality, innovative and globally competitive learning experience in engineering, engineering technology and the applied sciences. Engineering graduates are educated professionals with the technical, problem-solving and communication skills required to succeed in the workplace and society. The college has partnerships with some of the area's leading engineering employers. Our graduates are hired by such companies as Boeing, Lockheed Martin, Metrologic, NASA, PennDot, Pannoni Construction, PGW, Turner Construction, Verizon and many more.

## Graduate Programs and Certificates

- Bioengineering MSBioe (p. 286)
- Bioengineering PhD (p. 290)
- Civil Engineering MSCE (p. 293)
- Civil Engineering PhD (p. 297)
- Computer and Systems Security PSM (p. 300)
- Electrical Engineering MSEE (p. 300)
- Electrical Engineering PhD (p. 303)
- Engineering MEng (p. 307)
- Engineering Management MS (p. 309)
- Environmental Engineering MSEnVE (p. 311)
- Environmental Engineering PhD (p. 314)
- Mechanical Engineering MSME (p. 318)
- Mechanical Engineering PhD (p. 321)
- Graduate Certificate: Advanced Manufacturing and Robotics (p. 324)
- Graduate Certificate: Computer and Systems Security (p. 325)
- Graduate Certificate: Engineering Management (p. 325)
- Graduate Certificate: Engineering Project Management (p. 326)
- Graduate Certificate: New Product Development (p. 327)
- Graduate Certificate: Stormwater Management (p. 327)

## Graduate Faculty

*Bechara E. Abboud*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Drexel University.

*Fauzia Ahmad*, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Pennsylvania.

*Gangadhar Andaluri*, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Temple University.

*Li Bai*, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Drexel University.

*Evangelia Bellas*, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Tufts University.

*Saroj K. Biswas*, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Ottawa.

*Robert M. Brooks*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Indian Institute of Technology.

*Shih-Jiun Chen*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, Drexel University.

*Harsh Deep Chopra*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Maryland College Park.

*Joseph Thomas Coe Jr.*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of California Los Angeles.

*Richard S. Cohen*, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Princeton University.

*Philip Dames*, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Pennsylvania.

*Kurosh Darvish*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Virginia.

*Zdenka J. Delalic*, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Pennsylvania.

*Dmitriy A. Dikin*, Research Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, National Academy of Sciences of Ukraine, Institute for Low Temperature Physics and Engineering.

*Liang Du*, Assistant Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Georgia Institute of Technology.

*Ahmed Faheem*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of Wisconsin.

*Bojana Gligorijevic*, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Georgetown University.

*John J. Helferty*, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Drexel University.

*Parsaoran Hutapea*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, North Carolina State University.

*Daniel A. Jacobs*, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, Stanford University.

*Mehdi Khanzadeh Moradillo*, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Oklahoma State University.

*Mohammad F. Kiani*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, Louisiana Tech University.

*Sanghun Kim*, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Syracuse University.

*Peter Lelkes*, Laura H. Carnell Professor, Department of Bioengineering, College of Engineering; PhD, RWTH Aachen University.

*Michel Lemay*, Professor, Department of Bioengineering, College of Engineering; PhD, Case Western Reserve University.

*Haijun Liu*, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Maryland College Park.

*Ling Liu*, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Columbia University.

*Erica R. McKenzie*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of California Davis.

*Iyad Obeid*, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Duke University.

*Chetan A. Patil*, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Vanderbilt University.

*Vallorie J. Peridier*, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Lehigh University.

*Joseph Picone*, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Illinois Institute of Technology.

*Alex Pillapakkam*, Associate Professor of Instruction, Department of Mechanical Engineering, College of Engineering; PhD, New Jersey Institute of Technology.

*Nancy Pleshko*, Laura H. Carnell Professor, Department of Bioengineering, College of Engineering; PhD, Rutgers University.

*Fei Ren*, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Michigan State University.

*Robert J. Ryan*, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Drexel University.

*Keyanoush Sadeghipour*, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Manchester Institute of Science and Technology.

*Elham Sahraei*, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, George Washington University.

*Anita Singh*, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Wayne State University.

*Damoon Soudbakhsh*, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, George Washington University.

*Andrew Spence*, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Cornell University.

*Rominder Suri*, Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Michigan Technological University.

*Rouzbah Tehrani*, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Temple University.

*Erkan Tüzel*, Associate Professor, Department of Bioengineering, College of Engineering; PhD, University of Minnesota.

*Philip D. Udo-Inyang*, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of Missouri-Columbia.

*Felix F. Udoeyo*, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Abubakar Tafawa Balewa University.

*Karin Wang*, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Cornell University.

*Chang-Hee Won*, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Notre Dame.

*Heyang Yuan*, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Virginia Polytechnic Institute and State University.

*Yimin Daniel Zhang*, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Tsukuba.

*Yichuan Zhu*, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Texas A and M University.

## Bioengineering MSBioe

### COLLEGE OF ENGINEERING

Learn more about the Master of Science in Bioengineering.

### About the Program

The MSBioe program offers students graduate-level interdisciplinary education and research opportunities in bioengineering and engineering applications in related healthcare fields. The program offers concentrations in Bioelectronics, Biomaterials, and Biomechanics. Graduates of the program are prepared for careers in industry or may choose to pursue a program of study leading to the PhD degree. The program offers research opportunities in collaboration with faculty in

the College of Science and Technology and the Lewis Katz School of Medicine.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main. Students may also take a significant number of required and elective courses at the Health Sciences Center campus.

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the Lewis Katz School of Medicine.

**Areas of Specialization:** For each of the three areas of specialization, research includes:

- Bioelectronics – sensor development and image analysis
- Biomaterials – wear of ultra-high molecular weight polyethylene, polymer chemistry and interfacial chemistry
- Biomechanics – computer-aided design of composite biomaterials, mechanical properties of orthopedic implant materials, design of orthopedic implants, and modeling of biomaterial behavior

For the MSBioe program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (BIOE 9995), and 3 credits of Thesis (BIOE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (BIOE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the Bioengineering (BIO) Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- "Thesis" credits (BIOE 9996) can only be applied toward the Thesis MSBioe Track and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (BIOE 9995) can be applied toward the Thesis and Project MSBioe Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the MSBioe degree are employed in a variety of biomedical industries ranging from device manufacturers to design engineering. Other possibilities include careers in government, either in regulatory agencies or with the U.S. Patent and Trademark Office. Students who complete the MSBioe degree with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the MSBioe degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate

coursework to receive an admissions exception. Consequently, the BIO Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the MSBioe program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual Bioengineering faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to PhD-program applicants.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

Both admissions and financial aid award decisions originate in the Bioengineering Department. Applicants are encouraged to contact the BIO Graduate Program Director for advice and consultation in the application process.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the BIO Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Bioengineering or a related discipline is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the MSBio program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The BIO Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the MSBio program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 18).)

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

## Thesis Track

Code	Title	Credit Hours
<b>Core Courses</b>		
BIOE 5600	Bioengineering Graduate Seminar <sup>1</sup>	0
ENGR 5011	Engineering Mathematics I	3
<b>Specialty Courses</b>		
Select three from the following:		9
BIOL 5312	Biostatistics	
BIOE 5719	Introduction to Bioengineering	
BIOE 5721	Cell Biology for Engineers	
BIOE 5737	Systems Physiology for Engineers	
<b>Electives <sup>2</sup></b>		<b>12</b>
<b>Research Courses</b>		
BIOE 9995	BioEngineering Project Research	3
BIOE 9996	BioEngineering Thesis Research	3
<b>Total Credit Hours</b>		<b>30</b>

1

BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

2

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of BIOE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

### Culminating Events:

#### Thesis Track:

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — BIOE 9995 BioEngineering Project Research (3 credits)  
Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for BIOE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in BIOE 9996 BioEngineering Thesis Research in the following term. The student submits a research report as their Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents their proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student's advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.  
The student must pass the Thesis Proposal before registering for BIOE 9996. If the student fails Thesis Proposal, they may either re-register for BIOE 9995 (1 credit) in the next regular term and repeat

the entire proposal process or consider switching to the Project or Coursework Track. *NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.* If switching to another track, the Plan of Study form requires updating and appropriate approvals.

- Thesis Defense — BIOE 9996 BioEngineering Thesis Research (3 credits)  
The student should register for BIOE 9996 in the term that they plan to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 22).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.  
The thesis defense is an open College seminar in which the student presents the concepts and results of their research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for BIOE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an "R" grade is assigned to BIOE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until they are again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

#### Project Track:

The culminating event for the Project Track is BIOE 9995 BioEngineering Project Research. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of their findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for BIOE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

#### Coursework Track:

Successful completion of coursework constitutes the culminating event.

# Bioengineering PhD

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Bioengineering.

## About the Program

The PhD in Bioengineering addresses the needs of an aging population that is likely to require more medical care and to take advantage of the advances in and benefits of biomedical engineering. Employment of biomedical engineers is projected to grow 6 percent from 2020 to 2030, as fast as average for all occupations. The Bioengineering PhD program is designed to educate and train doctoral-level bioengineers to work in academic, medical or industrial settings.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main, Health Sciences Center

**Full-Time/Part-Time Status:** Students are able to complete the didactic portion of the PhD degree program through classes offered after 4:30 p.m.

**Interdisciplinary Study:** Bioengineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering; other departments on Main campus, including Biology and Chemistry; and other schools and colleges at Temple University, such as the Kornberg School of Dentistry, Lewis Katz School of Medicine, and School of Pharmacy.

**Areas of Specialization:** While the Bioengineering PhD is inherently interdisciplinary, the student is admitted to the program and then conducts doctoral research within an area of specialization. These include:

- Biomaterials
- Imaging and optical spectroscopy
- Injury biomechanics
- Neuroengineering
- Neuromechanics of locomotion

- Regenerative tissue engineering
- Stem and cancer cell engineering
- Targeted drug delivery

In the first term, the student and the Bioengineering (BIO) Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the PhD program.

**Job Prospects:** The program is primarily intended for individuals who wish to pursue careers in industry, government and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in biotechnology.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PhD degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the BIO Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the PhD program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Applicants for full-time study in the Bioengineering PhD program are automatically considered for financial aid. Three forms of financial aid are awarded to PhD students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all PhD applicants. The BIO Graduate Program Director nominates exceptional PhD applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Both admissions and financial aid award decisions originate in the Bioengineering Department within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

#### Letters of Reference:

*Number Required: 3*

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the BIO Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Bioengineering Department identifies the needed coursework on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The BIO Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of their overall educational qualifications with respect to the departmental requirements for the PhD program.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

#### Standardized Test Scores:

GRE: Required. Scores that are not more than 5 years in advance of the application date are sent by Educational Testing Service (ETS) to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).) Applicants who require a waiver of the GRE should consult the BIO Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the PhD-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 18).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the BIO Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Bachelor's:* 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Number of Credits Required Beyond the Master's:* 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Required Courses:*

### Post-Baccalaureate (for students WITHOUT a master's degree in Bioengineering)

Code	Title	Credit Hours
<b>Core Courses</b>		
BIOE 5600	Bioengineering Graduate Seminar <sup>1</sup>	0
ENGR 5011	Engineering Mathematics I	3
<b>Specialty Courses</b>		
Select three from the following:		9
BIOL 5312	Biostatistics	
BIOE 5719	Introduction to Bioengineering	
BIOE 5721	Cell Biology for Engineers	
BIOE 5737	Systems Physiology for Engineers	
<b>Technical Electives</b> <sup>2</sup>		<b>33</b>
<b>Research Courses</b> <sup>3</sup>		<b>15</b>
BIOE 9991	Directed Research (1-9 credits)	
BIOE 9994	BioEngineering Preliminary Examination Preparation (1-2 credits)	

BIOE 9998	Bioengineering Pre-Dissertation Research (1 credit minimum)	
BIOE 9999	BioEngineering Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>60</b>

1

BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

2

Students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

3

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of BIOE 9994, a minimum of 1 credit of BIOE 9998, and a minimum of 2 credits of BIOE 9999, with the further stipulation that the minimum number of credits taken in BIOE 9994, BIOE 9998 and BIOE 9999 combined is 6.

## Post-Master's (for students WITH a master's degree in Bioengineering)

Code	Title	Credit Hours
<b>Core Courses</b>		
BIOE 5600	Bioengineering Graduate Seminar <sup>1</sup>	0
ENGR 5011	Engineering Mathematics I	3
<b>Specialty Courses</b>		
Select three from the following:		9
BIOE 5312	Biostatistics	
BIOE 5719	Introduction to Bioengineering	
BIOE 5721	Cell Biology for Engineers

BIOE 9998	Bioengineering Pre-Dissertation Research (1 credit minimum)	
BIOE 9999	BioEngineering Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>30</b>

1

BIOE 5600 Bioengineering Graduate Seminar is required to be taken each academic term while completing the degree.

2

Students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

3

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of BIOE 9994, a minimum of 1 credit of BIOE 9998, and a minimum of 2 credits of BIOE 9999, with the further stipulation that the minimum number of credits taken in BIOE 9994, BIOE 9998 and BIOE 9999 combined is 6.

### Culminating Events:

#### *Formation of the Doctoral Advisory Committee:*

Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a PhD. Selection of a doctoral advisor depends on the student's level of preparation upon entering the PhD program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the PhD program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the PhD degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 23) for clarification on the composition of the Doctoral Advisory Committee.

#### *Preliminary Examination:*

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 22).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of BIOE 9994 BioEngineering Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student's core knowledge in Bioengineering and their capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the BIO Graduate Program Director. The BIO Graduate Program Director supervises the specific form, content and frequency of the Bioengineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of BIOE 9994. Students are dismissed upon the second failure.

#### *Dissertation Proposal:*

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of their proposed research.

Approval is granted for the proposed dissertation research when the "Dissertation Proposal Transmittal for Elevation to Candidacy" form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the

dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 23) for more information.)

#### *Research Credits:*

Students carry out research throughout their studies and register for the corresponding research credits while in the PhD program. However, the type of research credits that a student registers for depends on the student's progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student's research should be registered under BIOE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student's research should be registered under BIOE 9998 Bioengineering Pre-Dissertation Research.
- After elevation to candidacy, the student's research credits should be registered under BIOE 9999 BioEngineering Dissertation Research. Students are required to register for at least three credits of BIOE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 23).)

#### *Publications:*

Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student's research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student's dissertation research with the student as the first author.

#### *Dissertation:*

The dissertation defense is an open University seminar in which the student presents the concepts and results of their research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that they intend to defend their dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional "external" member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University's Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student's doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student's official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 23).) The Chair's role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 23).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that

any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 23).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student's performance and their research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

## Civil Engineering MSCE

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Civil Engineering.

## About the Program

The MSCE program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Civil and Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate and socially aware individuals. Graduates of the program are key contributors to the civil engineering and environmental engineering professions.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Mechanical Engineering includes projects on water flow and solute transport in porous media (aquifers) and the effects of turbulence on the mixing of oil spills at sea. Collaboration with the Department of Chemistry includes research on waste combustion products and surface complexation.

**Areas of Specialization:** For each of the two areas of specialization, research includes:

- Civil Engineering Systems – three major branches of civil engineering: construction engineering, structural engineering, and transportation engineering
- Environmental Engineering – the fundamentals and applications of water resources engineering, pollution in natural systems (water and air), and engineered treatment and remediation systems

For the MSCE program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (CEE 9995), and 3 credits of Thesis (CEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (CEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the Civil and Environmental Engineering (CEE) Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- "Thesis" credits (CEE 9996) can only be applied toward the Thesis MSCE Track and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (CEE 9995) can be applied toward the Thesis and Project MSCE Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the MSCE are employed by various engineering companies as well as government agencies in design,

analysis and applications. Typical examples are water treatment facilities and regulatory agencies engaged in environmental regulation and pollution control; companies involved in construction project management; and those involved in structural design and analysis of buildings, bridges and other structures. Students who complete an MSCE with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the MSCE degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the CEE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the MSCE program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual CEE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to PhD-program applicants.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering (CEE). Applicants are encouraged to contact the CEE Graduate Program Director for advice and consultation in the application process.

**Letters of Reference:**

*Number Required:* 3

**From Whom:** Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The CEE Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Civil Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the MSCE program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the MSCE program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or

better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 18).)

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:*

### Thesis Track

Code	Title	Credit Hours
<b>Core Courses</b>		
Select three from the following:		9
CEE 5212	Transportation Engineering Materials	
CEE 5241	Pavement Management and Traffic Systems Management	
CEE 5431	Behavior and Design of Steel Structures	
CEE 5434	Behavior and Design of Reinforced Concrete Structures	
CEE 5821	Foundation Engineering	
CEE 5822	Earth Retaining Systems	
<b>Electives</b> <sup>1</sup>		15
<b>Research Courses</b>		
CEE 9995	Project	3
CEE 9996	Thesis	3
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup>

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

### Culminating Events:

#### Thesis Track:

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — CEE 9995 Project (3 credits)  
Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for CEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in CEE 9996 Thesis in the following term. The student submits a research report as their Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents their proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student's advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.  
The student must pass the Thesis Proposal before registering for CEE 9996. If the student fails Thesis Proposal, they may either re-register for CEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. *NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.* If switching

to another track, the Plan of Study form requires updating and appropriate approvals.

- Thesis Defense — CEE 9996 Thesis (3 credits)  
The student should register for CEE 9996 in the term that they plan to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 22).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.  
The thesis defense is an open College seminar in which the student presents the concepts and results of their research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for CEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an "R" grade is assigned to CEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until they are again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

#### Project Track:

The culminating event for the Project Track is CEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of their findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for CEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

#### Coursework Track:

Successful completion of coursework constitutes the culminating event.

## Civil Engineering PhD

### COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Civil Engineering.

## About the Program

The PhD in Civil Engineering is designed to produce graduates who have:

- built a solid core knowledge base in science, technology, civil engineering and mathematics;
- gained the ability to adapt to interdisciplinary research projects and employ emerging technology;
- learned how to plan, develop and conduct a research project on their own as future principal investigators; and
- mastered professional oral and written communication skills.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students are able to complete the didactic portion of the PhD degree program through classes offered after 4:30 p.m.

**Interdisciplinary Study:** Research in Civil Engineering is interdisciplinary and requires collaboration of members of the faculty and students in the Department of Electrical and Computer Engineering, Department of Mechanical Engineering, Mathematics Department, and various science departments at Temple University.

**Areas of Specialization:** Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Civil Engineering:

- Construction management
- Geophysical imaging and site characterization
- Instrumentation and sensor technology
- Pavement design and rehabilitation
- Scour countermeasures for bridges
- Transportation engineering

In the first term, the student and the Civil and Environmental Engineering (CEE) Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement

sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the PhD program.

**Job Prospects:** The program is primarily intended for individuals who wish to pursue careers in industry, government and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in civil engineering.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PhD degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the CEE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the PhD program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Applicants for full-time study in the Civil Engineering PhD program are automatically considered for financial aid. Three forms of financial aid are awarded to PhD students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all PhD applicants. The CEE Graduate Program Director nominates exceptional PhD applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College

of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of their overall educational qualifications with respect to the departmental requirements for the PhD program.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

**Standardized Test Scores:**

GRE: Required. Scores that are not more than 5 years in advance of the application date are sent by Educational Testing Service (ETS) to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).) Applicants who require a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the

testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the PhD-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 18).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the CEE Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Bachelor's:* 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Number of Credits Required Beyond the Master's:* 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Required Courses:*

### Post-Baccalaureate (for students WITHOUT a master's degree in Civil Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>45</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
CEE 9991	Directed Research (1-9 credits)	
CEE 9994	Preliminary Examination Preparation (1-2 credits)	
CEE 9998	Pre-Dissertation Research (1 credit minimum)	
CEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>60</b>

<sup>1</sup>

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of CEE 9182 Independent Study I, 3 credits of CEE 9282 Independent Study II, or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of CEE 9994, a minimum of 1 credit of CEE 9998, and a minimum of 2 credits of CEE 9999, with the further stipulation that the minimum number of credits taken in CEE 9994, CEE 9998 and CEE 9999 combined is 6.

## Post-Master's (for students WITH a master's degree in Civil Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>15</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
CEE 9991	Directed Research (1-9 credits)	
CEE 9994	Preliminary Examination Preparation (1-2 credits)	
CEE 9998	Pre-Dissertation Research (1 credit minimum)	
CEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>30</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of CEE 9182 Independent Study I, 3 credits of CEE 9282 Independent Study II, or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of CEE 9994, a minimum of 1 credit of CEE 9998, and a minimum of 2 credits of CEE 9999, with the further stipulation that the minimum number of credits taken in CEE 9994, CEE 9998 and CEE 9999 combined is 6.

### Culminating Events:

#### *Formation of the Doctoral Advisory Committee:*

Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a PhD. Selection of a doctoral advisor depends on the student's level of preparation upon entering the PhD program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the PhD program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the PhD degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 23) for clarification on the composition of the Doctoral Advisory Committee.

#### *Preliminary Examination:*

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 22).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of CEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student's core knowledge in Civil Engineering and their capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the CEE Graduate Program Director. The CEE Graduate Program Director supervises the specific form, content and frequency of the Civil Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of CEE 9994. Students are dismissed upon the second failure.

#### *Dissertation Proposal:*

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of their proposed research.

Approval is granted for the proposed dissertation research when the "Dissertation Proposal Transmittal for Elevation to Candidacy" form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 23) for more information.)

#### *Research Credits:*

Students carry out research throughout their studies and register for the corresponding research credits while in the PhD program. However, the type of research credits that a student registers for depends on the student's progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student's research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student's research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student's research credits should be registered under CEE 9999 Dissertation Research. Students are required to register for at least three credits of CEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 23).)

#### *Publications:*

Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student's research. All doctoral students must publish at least two technical papers in refereed journals or refereed

conferences. The papers must be based on the student's dissertation research with the student as the first author.

#### *Dissertation:*

The dissertation defense is an open University seminar in which the student presents the concepts and results of their research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that they intend to defend their dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional "external" member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University's Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student's doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student's official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 23).) The Chair's role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 23).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 23).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student's performance and their research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

## Computer and Systems Security PSM

COLLEGE OF ENGINEERING

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Electrical Engineering MSEE

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Electrical Engineering.

### About the Program

The MSEE program offers students practice-oriented graduate-level education in Electrical and Computer Engineering. Concentrations include Computer Architectures and Microelectronics, Digital Signal Processing and Digital Data Communication, and Intelligent Systems and Control. Current active research projects in the department include embedded systems and system-on-chip design, intelligent interactive tutoring systems, intrusion detection, multisensor fusion, speaker identification, speech processing, and visualization and fault detection in multicasting networks. Other active areas of research include digital signal processing, heat dissipation problems in microchips, human-computer interaction, intelligent multimedia systems, robust and optimal control, and wireless data networks.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Computer and Information Sciences includes visualization and fault detection in multicasting networks and image processing.

**Areas of Specialization:** For each of the three areas of specialization, research includes:

- Computer Architectures and Microelectronics – current practices of computer design and development; hardware realization and integrated circuit layout; MOS-integrated circuit design for high-speed digital computation and data communication; and software-level testing
- Digital Signal Processing and Digital Data Communication – array signal processing; detection of faults in communication networks; detection of multidimensional signals in the presence of noise; filtering and modulation; intrusion detection, visualization and security of multicast networks; multisensor data fusion; performance evaluation of local area and wireless networks, broadband networks and protocols; speaker identification; and voice signal processing
- Intelligent Systems and Control – intelligent tutoring systems, interactive multimedia, neuro-fuzzy control, and robust and optimal control

For the MSEE program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (ECE 9995), and 3 credits of Thesis (ECE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (ECE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the Electrical and Computer Engineering (ECE) Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- "Thesis" credits (ECE 9996) can only be applied toward the Thesis MSEE Track and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (ECE 9995) can be applied toward the Thesis and Project MSEE Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the MSEE are employed in high-tech industries and government laboratories with responsibilities for design, analysis and applications of electrical engineering principles. Students who complete an MSEE with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the MSEE degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the ECE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the MSEE program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual ECE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to PhD-program applicants.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

Both admissions and financial aid award decisions originate in the Department of Electrical and Computer Engineering (ECE). Applicants are encouraged to contact the ECE Graduate Program Director for advice and consultation in the application process.

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic

reference letters appear impractical should contact the ECE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ECE Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Electrical Engineering or Computer Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the MSEE program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The ECE Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

**Standardized Test Scores:**

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the MSEE program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 18).)

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

### Thesis Track

Code	Title	Credit Hours
<b>Core Courses</b>		
ECE 5022	Engineering Analysis and Applications	3
ECE 5033	Probability and Random Processes	3
ECE 5600	Graduate Seminar	0
<b>Electives<sup>1</sup></b>		<b>18</b>
<b>Research Courses</b>		
ECE 9995	Project	3
ECE 9996	Thesis	3
<b>Total Credit Hours</b>		<b>30</b>

1

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of ECE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of ECE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

### **Culminating Events:**

#### *Thesis Track:*

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- **Thesis Proposal — ECE 9995 Project (3 credits)**  
Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for ECE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in ECE 9996 Thesis in the following term. The student submits a research report as their Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents their proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student's advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.  
The student must pass the Thesis Proposal before registering for ECE 9996. If the student fails Thesis Proposal, they may either re-register for ECE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. *NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.* If switching to another track, the Plan of Study form requires updating and appropriate approvals.
- **Thesis Defense — ECE 9996 Thesis (3 credits)**  
The student should register for ECE 9996 in the term that they plan to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 22).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.  
The thesis defense is an open College seminar in which the student presents the concepts and results of their research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for ECE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an "R" grade is assigned to ECE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until they are again prepared to attempt the

defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

#### *Project Track:*

The culminating event for the Project Track is ECE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of their findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for ECE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

#### *Coursework Track:*

Successful completion of coursework constitutes the culminating event.

## **Electrical Engineering PhD**

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Electrical Engineering.

### **About the Program**

The PhD in Electrical Engineering is designed to develop electrical engineers who have a clear understanding of the importance of electrical engineering. Doctoral students are prepared to identify a research area in electrical engineering and analyze the literature, develop theory, perform

experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for electrical and computer engineering. Graduates are well prepared to enter the workforce in a range of engineering companies, universities, research organizations, federal agencies and nonprofit organizations.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students are able to complete the didactic portion of the PhD degree program through classes offered after 4:30 p.m.

**Interdisciplinary Study:** Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the physical sciences, and at the Lewis Katz School of Medicine at Temple University.

**Areas of Specialization:** The areas of specialization within the Electrical Engineering PhD include:

- Cyber physical systems
- Digital data communication and network
- Digital signal processing and digital image processing
- Microelectronics and computer architectures
- Signal processing and speech processing
- Smart systems and control

In the first term, the student and the Electrical and Computer Engineering (ECE) Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the PhD program.

**Job Prospects:** The program is primarily intended for individuals who wish to pursue careers in industry, government and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in electrical engineering. In the past, most graduates with the PhD in Electrical Engineering were employed in high-tech industries in research and development positions.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PhD degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the ECE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the PhD program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Applicants for full-time study in the Electrical Engineering PhD program are automatically considered for financial aid. Three forms of financial aid are awarded to PhD students on a competitive basis:

1. **Teaching Assistantship (TA):** TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. **Research Assistantship (RA):** Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. **Fellowships:** Fellowships are awarded by the University in a competitive process that is open to all PhD applicants. The ECE Graduate Program Director nominates exceptional PhD applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Both admissions and financial aid award decisions originate in the Department of Electrical and Computer Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the ECE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Electrical and Computer Engineering identifies the needed coursework on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The ECE Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of their overall educational qualifications with respect to the departmental requirements for the PhD program.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

#### Standardized Test Scores:

GRE: Required. Scores that are not more than 5 years in advance of the application date are sent by Educational Testing Service (ETS) to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).) Applicants who require a waiver of the GRE should consult the ECE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the PhD-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 18).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the ECE Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Bachelor's:* 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Number of Credits Required Beyond the Master's:* 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Required Courses:*

### Post-Baccalaureate (for students WITHOUT a master's degree in Electrical Engineering)

Code	Title	Credit Hours
<b>Required Seminar</b>		
ECE 5600	Graduate Seminar	0
<b>Core Courses</b> <sup>1</sup>		<b>45</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
ECE 9991	Directed Research (1-9 credits)	
ECE 9994	Preliminary Examination Preparation (1-2 credits)	
ECE 9998	Pre-Dissertation Research (1 credit minimum)	
ECE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>60</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of ECE 9182 Independent Study I, 3 credits of ECE 9282 Independent Study II, or 3 credits of ECE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of ECE 9994, a minimum of 1 credit of ECE 9998, and a minimum of 2 credits of ECE 9999, with the further stipulation that the minimum number of credits taken in ECE 9994, ECE 9998 and ECE 9999 combined is 6.

### Post-Master's (for students WITH a master's degree in Electrical Engineering)

Code	Title	Credit Hours
<b>Required Seminar</b>		
ECE 5600	Graduate Seminar	0
<b>Core Courses</b> <sup>1</sup>		<b>15</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
ECE 9991	Directed Research (1-9 credits)	
ECE 9994	Preliminary Examination Preparation (1-2 credits)	
ECE 9998	Pre-Dissertation Research (1 credit minimum)	
ECE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>30</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of ECE 9182 Independent Study I, 3 credits of ECE 9282 Independent Study II, or 3 credits of ECE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of ECE 9994, a minimum of 1 credit of ECE 9998, and a minimum of 2 credits of ECE 9999, with the further stipulation that the minimum number of credits taken in ECE 9994, ECE 9998 and ECE 9999 combined is 6.

### **Culminating Events:**

#### *Formation of the Doctoral Advisory Committee:*

Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a PhD. Selection of a doctoral advisor depends on the student's level of preparation upon entering the PhD program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the PhD program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the PhD degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 23) for clarification on the composition of the Doctoral Advisory Committee.

#### *Preliminary Examination:*

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 22).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of ECE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student's core knowledge in Electrical Engineering and their capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the ECE Graduate Program Director. The ECE Graduate Program Director supervises the specific form, content and frequency of the Electrical Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of ECE 9994. Students are dismissed upon the second failure.

#### *Dissertation Proposal:*

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of their proposed research.

Approval is granted for the proposed dissertation research when the "Dissertation Proposal Transmittal for Elevation to Candidacy" form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 23) for more information.)

#### *Research Credits:*

Students carry out research throughout their studies and register for the corresponding research credits while in the PhD program. However, the type of research credits that a student registers for depends on the student's progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student's research should be registered under ECE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student's research should be registered under ECE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student's research credits should be registered under ECE 9999 Dissertation Research. Students are required to register for at least three credits of ECE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 23).)

#### *Publications:*

Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student's research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student's dissertation research with the student as the first author.

#### *Dissertation:*

The dissertation defense is an open University seminar in which the student presents the concepts and results of their research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that they intend to defend their dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional "external" member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University's Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student's doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to

the Graduate School in the student's official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 23).) The Chair's role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 23).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 23).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student's performance and their research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

## Engineering MEng

COLLEGE OF ENGINEERING

Learn more about the Master of Engineering.

### About the Program

The Master of Engineering (MEng) degree program is designed for engineers who make their career in the engineering field and look to advance as either technical specialists and project supervisors or to move into management or sales positions. A strong skilled workforce is in very high demand as the skills gap widens in the field of engineering. Skilled engineers that can participate across disciplines are needed as industries evolve.

The MEng degree allows engineering students to achieve the unique set of technical skills required by their specialty or the business skills needed for leadership that cannot be gained through undergraduate engineering education alone. Innovation in the delivery of graduate engineering education that allows for flexibility and customization is revolutionizing post-baccalaureate education for engineers by meeting the needs of the evolving industry and fostering the management skills engineers need to innovate and lead.

The MEng degree enables students to select three graduate certificates of 9 credits each in specialized areas of engineering in accordance with their interests, combining the specialties to engage in a unique combination of cross-disciplinary training. To earn the degree, the three certificates are "stacked" along with an integrative capstone project proposed by the student. Graduates of the program emerge with technical expertise in their field as well as the leadership and business acumen required to advance in their organizations.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Online, with a mix of synchronous and asynchronous courses until all courses are asynchronous

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The degree program is inherently interdisciplinary in its design.

**Non-Matriculated Student Policy:** Students with an undergraduate GPA of 3.0 or higher may be allowed to take classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 credits. Any additional courses require the student to be matriculated in a program.

**Financing Opportunities:** For more information, contact the Department of Engineering, Technology and Management in the College of Engineering.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an

admissions decision within 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required: 3*

*From Whom:* Recommendations should be professional references from supervisors and co-workers or academic references. References should be obtained from those who know the applicant well and who can attest to the applicant's ability to excel in the MEng program.

**Coursework Required for Admission Consideration:** Two years' relevant work experience in a company is preferred, but exceptions can be made.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in a STEM field is required, with a minimum GPA of 3.0 having been attained.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** An essay on your professional plans and goals should be one to three pages in length. It should reflect your influences, values, aspirations and interest in the MEng program. The following questions may be addressed:

- What particular past experiences or previous exposure (academic, professional, etc.) prepared or motivated you to pursue the MEng degree?
- How would you expect to change over the course of the program?
- What personal and professional values and skills do you hope to acquire through the academic content?
- How will obtaining the MEng degree support your career objectives or potential career path(s)?
- Given the importance of teamwork and collaboration in business, what are the most significant strengths or contributions you bring to a team?

**Standardized Test Scores:**

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5

- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Interview:** Students applying to the MEng program may be required to interview with the department chair or a designated faculty member.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:*

Code	Title	Credit Hours
<b>Specialization Courses</b>		
Select three specializations from the following and complete 9 credits in each of the three areas:		
Advanced Manufacturing and Robotics		
MEE 5411	Introduction to Mobile Robotics	27
MEE 5412	Modern Dynamics for Robotics	
MEE 5413	Robotic Manipulation	
MEE 5643	Manufacturing Engineering	
Cybersecurity		
ECE 5516	Introduction to Communication Networks	27
ECE 5526	Engineering Principles of Computer Intrusion and Detection	
ECE 5826	Information Theory	
Engineering Project Management		
EMGT 5634	Project Management Overview and Project Management Essentials	27
EMGT 5635	Financial Management for Technologists	
EMGT 5641		
EMGT 5642	Project Management - Project Planning, Implementation and Case Study	
EMGT 5645	Fundamentals of Interpersonal Leadership for Technologists	27
EMGT 5647		
EMGT 5643		
New Product Development		
EMGT 5631	Design Thinking	27
EMGT 5637	Marketing Technological Products and Services	
EMGT 5643		
EMGT 5644		
EMGT 5645	Fundamentals of Interpersonal Leadership for Technologists	27
EMGT 5646	Fundamentals of Team Leadership	
<b>Capstone Course</b>		
ENGR 9995	Project	3
<b>Total Credit Hours</b>		<b>30</b>

**Culminating Event:**

*Capstone Course:*

The integrative capstone project (ENGR 9995) is proposed by the student. The project should integrate the different skills learned for

each of the three specialty areas to address an industry need. A faculty member is selected to serve as an advisor for the capstone project.

## Engineering Management MS

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Engineering Management.

### About the Program

The interdisciplinary Master of Science in Engineering Management is hosted by the College of Engineering in collaboration with the Fox School of Business and Management. The degree program is designed as a career development option for students interested in technology-based ventures who desire to learn specific management techniques associated with the management of technology development and technology-based projects or the introduction of new technologies into existing organizations.

Students who complete the MS in Engineering Management learn many of the skills and approaches necessary to increase the productivity and innovative capacity of technology-driven organizations. They are exposed to aspects of management education, such as project management, IP strategy and quality management, to which they may not have previously been exposed.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Many courses are offered on Main Campus and include online components. Eventually, students will be able to complete

the program entirely online. The online program requires some in-person classroom participation.

**Full-Time/Part-Time Status:** The degree program can be completed full-time in one year or part-time over two years. Part-time students may extend the completion deadline to three years, based on circumstances.

**Interdisciplinary Study:** Designed as an interdisciplinary program, the source of courses has been balanced between the College of Engineering and Fox School of Business and Management.

**Affiliation(s):** Research is supported by the Fox School of Business and Management's Innovation and Entrepreneurship Institute and Small Business Development Center. Research interests of the Fox School and College of Engineering faculty are also supported by numerous centers and institutes throughout Temple University.

**Accreditation:** The overall curriculum is designed to meet the requirements of the American Society for Engineering Management.

**Non-Matriculated Student Policy:** Students with an undergraduate GPA of 3.0 or higher may be allowed to take classes on a non-matriculated basis. Non-matriculated students may take a maximum of 9 credits. Any additional courses require the student to be matriculated in a program.

**Financing Opportunities:** For more information, contact the Department of Engineering, Technology and Management in the College of Engineering.

## Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30, with a minimum of 16.5 credits taken in the College of Engineering and a minimum of 6 credits taken in the Fox School of Business and Management

*Required Courses:*

Code	Title	Credit Hours
<b>College of Engineering Courses</b>		
EMGT 5631	Design Thinking	1.5
EMGT 5632	Intrapreneurship: Managing the New Product Development Process	3
EMGT 5633	Management Principles for Innovators, Engineers and Technologists	3
EMGT 5634	Project Management Overview and Project Management Essentials	1.5
EMGT 5635	Financial Management for Technologists	1.5
EMGT 5636	Lean Six Sigma and the Science of Improvement	3

#### Fox School of Business and Management Courses

Select courses from the following:		6
SGM 5135	Innovation Intelligence: Plan, Build, Protect, and Monetize a Technology / Innovation Portfolio	
SGM 5137	Entrepreneurial Thinking and New Venture Creation	
SGM 5138	Global Innovation Strategy: Creating Agile, Innovative, Globally-Competitive Organizations	
SGM 5139	Lean Entrepreneurship / Innovation: Fast & Frugal Methods to Launch Startups & Test Innovative Ideas	
SGM 5142	Business Model Innovation	
SGM 5144	Creativity Unleashed: Harnessing Creativity to Solve Real-World Innovation Challenges	
SGM 5145	Plan, Pitch, and Fund an Entrepreneurial Start-Up	
SGM 5148	Open Innovation and Managing Strategic Alliances	

**Electives**<sup>1</sup> **7.5**

#### Capstone Course

EMGT 9995	Capstone for Engineering Management	3
-----------	-------------------------------------	---

**Total Credit Hours** **30**

1

Students select electives from either the Fox School of Business and Management (e.g., BA 5118 Strategic Performance Management, MSOM 5806 Managing Operations in the Enterprise, SGM 5108 New Venture Creation, STAT 5001 Quantitative Methods for Business) or the College of Engineering (e.g., MIS 5108 Digital Business Strategy).

#### Culminating Event:

*Capstone Course:*

Successful completion of EMGT 9995 Capstone for Engineering Management (3 s.h.) constitutes the culminating event for the MS in Engineering Management.

# Environmental Engineering MSEnVE

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Environmental Engineering.

## About the Program

The MSEnVE program is designed to provide students with the opportunity to develop a greater technical competency in the general area of Environmental Engineering. Students are motivated to grow intellectually through the continued search for and use of knowledge, and are provided with the catalyst to become active, articulate and socially aware individuals. Graduates of the program are key contributors to the civil engineering and environmental engineering professions.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments in the sciences and applied mathematics. Recent collaborative work with the Department of Mechanical Engineering includes projects on water flow and solute transport in porous media (aquifers) and the effects of turbulence on the mixing of oil spills at sea. Collaboration with the Department of Chemistry includes research on waste combustion products and surface complexation.

**Areas of Specialization:** For each of the two areas of specialization, research includes:

- Civil Engineering Systems – three major branches of civil engineering: construction engineering, structural engineering, and transportation engineering
- Environmental Engineering – the fundamentals and applications of water resources engineering, pollution in natural systems (water and air), and engineered treatment and remediation systems

For the MSEnVE program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (CEE 9995), and 3 credits of Thesis (CEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (CEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the Civil and Environmental Engineering (CEE) Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various

benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- "Thesis" credits (CEE 9996) can only be applied toward the Thesis MSEnVE Track and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (CEE 9995) can be applied toward the Thesis and Project MSEnVE Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the MSEnVE in Environmental Engineering are employed by various engineering companies as well as government agencies in design, analysis and applications. Typical examples are water treatment facilities and regulatory agencies engaged in environmental regulation and pollution control; companies involved in construction project management; and those involved in structural design and analysis of buildings, bridges and other structures. Students who complete an MSEnVE with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the MSEnVE degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the CEE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the MSEnVE program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual CEE faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to PhD-program applicants.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering (CEE). Applicants are encouraged to contact the CEE Graduate Program Director for advice and consultation in the application process.

#### Letters of Reference:

*Number Required: 3*

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The CEE Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Environmental Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the MSEnvE program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

#### Standardized Test Scores:

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the

testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the MSEnvE program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 18).)

## Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:*

### Thesis Track

Code	Title	Credit Hours
<b>Core Courses</b>		
CEE 5701 or CEE 8701	Physical Principals of Environmental Systems Advanced Physical/Chemical Treatment Processes	3
CEE 5702 or CEE 5762	Chemical Principles of Environmental Systems Environmental Organic Chemistry	3
CEE 5794 or CEE 5793	Advanced Biological Wastewater Treatment Environmental Biotechnology	3
<b>Specialization Electives</b>		
Select four from the following:		12
CEE 5621	Engineering Hydrology	
CEE 5622	Fate of Pollutants in Subsurface Environments	
CEE 5623	Contaminant Dynamics in Urban Streams	
CEE 5631	Environmental Hydrology	
CEE 5641	Urban Streams and Stormwater Management	
CEE 5711	Air Pollution Control	
CEE 5751	Water and Wastewater Treatment	
CEE 5795	Aquatic Toxicology in Environmental Engineering	
<b>Approved Elective</b> <sup>1</sup>		<b>3</b>
<b>Research Courses</b>		
CEE 9995	Project	3
CEE 9996	Thesis	3
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup>

Approved electives generally include graduate courses within the CEE Department and may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework in another department within the College of Engineering or outside the College in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

## Project Track

Code	Title	Credit Hours
<b>Core Courses</b>		
CEE 5701 or CEE 8701	Physical Principals of Environmental Systems Advanced Physical/Chemical Treatment Processes	3
CEE 5702 or CEE 5762	Chemical Principles of Environmental Systems Environmental Organic Chemistry	3

Furthermore, students who wish to take graduate coursework in another department within the College of Engineering or outside the College in one of Temple University's other schools/colleges need to obtain the appropriate written approvals on their Plan of Study form.

### Culminating Events:

#### Thesis Track:

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — CEE 9995 Project (3 credits)  
Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for CEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in CEE 9996 Thesis in the following term. The student submits a research report as their Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents their proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student's advisory committee questions the student about the details and strategy of the proposed research. The committee then accepts, accepts with revisions, or rejects the proposal.  
The student must pass the Thesis Proposal before registering for CEE 9996. If the student fails Thesis Proposal, they may either re-register for CEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. *NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.* If switching to another track, the Plan of Study form requires updating and appropriate approvals.
- Thesis Defense — CEE 9996 Thesis (3 credits)  
The student should register for CEE 9996 in the term that they plan to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 22).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.  
The thesis defense is an open College seminar in which the student presents the concepts and results of their research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for CEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides

to not fail the student, an "R" grade is assigned to CEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until they are again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

*Project Track:*

The culminating event for the Project Track is CEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of their findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for CEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

*Coursework Track:*

No culminating event is warranted for the Coursework Track.

## Environmental Engineering PhD

COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Environmental Engineering.

## About the Program

The PhD in Environmental Engineering is designed to produce graduates who have:

- built a solid core knowledge base in science, technology, environmental engineering and mathematics;
- gained the ability to adapt to interdisciplinary research projects and employ emerging technology;
- learned how to plan, develop and conduct a research project on their own as future principal investigators; and
- mastered professional oral and written communication skills.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students are able to complete the didactic portion of the PhD degree program through classes offered after 4:30 p.m.

**Interdisciplinary Study:** Research in Environmental Engineering is interdisciplinary and requires collaboration of members of the faculty and students within all departments of the College of Engineering, in the Mathematics Department and departments engaged in the study of the sciences, and at the Lewis Katz School of Medicine at Temple University.

**Areas of Specialization:** Faculty in the Department of Civil and Environmental Engineering are actively engaged in research in the following areas of Environmental Engineering:

- Advanced treatments for drinking water and wastewater
- Emerging contaminants in the environment
- Environmental biotechnology
- Fate and transformation of environmental contaminants
- Surface and subsurface hydrology

In the first term, the student and the Civil and Environmental Engineering (CEE) Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the PhD program.

**Job Prospects:** The program is primarily intended for individuals who wish to pursue careers in industry, government and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in environmental engineering.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PhD degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the CEE Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the PhD program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Applicants for full-time study in the Environmental Engineering PhD program are automatically considered

for financial aid. Three forms of financial aid are awarded to PhD students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all PhD applicants. The CEE Graduate Program Director nominates exceptional PhD applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Both admissions and financial aid award decisions originate in the Department of Civil and Environmental Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the CEE Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Civil and Environmental Engineering identifies the needed coursework on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The CEE Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of their overall educational qualifications with respect to the departmental requirements for the PhD program.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages, ensuring that you have clearly identified your area of interest within the field of civil and environmental engineering.

### Standardized Test Scores:

GRE: Required. Scores that are not more than 5 years in advance of the application date are sent by Educational Testing Service (ETS) to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).) Applicants who require a waiver of the GRE should consult the CEE Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the PhD-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 18).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the CEE Graduate Program Director is required. The courses must be equivalent to courses offered at

Temple in the student's area of study and research, and the grades must be "B" or better.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Bachelor's:* 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Number of Credits Required Beyond the Master's:* 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Required Courses:*

### Post-Baccalaureate (for students WITHOUT a master's degree in Environmental Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>45</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
CEE 9991	Directed Research (1-9 credits)	
CEE 9994	Preliminary Examination Preparation (1-2 credits)	
CEE 9998	Pre-Dissertation Research (1 credit minimum)	
CEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>60</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of CEE 9182 Independent Study I, 3 credits of CEE 9282 Independent Study II, or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of CEE 9994, a minimum of 1 credit of CEE 9998, and a minimum of 2 credits of CEE 9999, with the further stipulation that the minimum number of credits taken in CEE 9994, CEE 9998 and CEE 9999 combined is 6.

### Post-Master's (for students WITH a master's degree in Environmental Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>15</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
CEE 9991	Directed Research (1-9 credits)	
CEE 9994	Preliminary Examination Preparation (1-2 credits)	
CEE 9998	Pre-Dissertation Research (1 credit minimum)	

CEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>30</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of CEE 9182 Independent Study I, 3 credits of CEE 9282 Independent Study II, or 3 credits of CEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of CEE 9994, a minimum of 1 credit of CEE 9998, and a minimum of 2 credits of CEE 9999, with the further stipulation that the minimum number of credits taken in CEE 9994, CEE 9998 and CEE 9999 combined is 6.

### Culminating Events:

*Formation of the Doctoral Advisory Committee:*

Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a PhD. Selection of a doctoral advisor depends on the student's level of preparation upon entering the PhD program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the PhD program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the PhD degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 23) for clarification on the composition of the Doctoral Advisory Committee.

*Preliminary Examination:*

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 22).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of CEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student's core knowledge in Environmental Engineering and their capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the CEE Graduate Program Director. The CEE Graduate Program Director supervises the specific form, content and frequency of the Environmental Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student

registers for one credit of CEE 9994. Students are dismissed upon the second failure.

#### *Dissertation Proposal:*

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of their proposed research.

Approval is granted for the proposed dissertation research when the "Dissertation Proposal Transmittal for Elevation to Candidacy" form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 23) for more information.)

#### *Research Credits:*

Students carry out research throughout their studies and register for the corresponding research credits while in the PhD program. However, the type of research credits that a student registers for depends on the student's progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student's research should be registered under CEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student's research should be registered under CEE 9998 Pre-Dissertation Research.
- After elevation to candidacy, the student's research credits should be registered under CEE 9999 Dissertation Research. Students are required to register for at least three credits of CEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 23).)

#### *Publications:*

Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student's research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student's dissertation research with the student as the first author.

#### *Dissertation:*

The dissertation defense is an open University seminar in which the student presents the concepts and results of their research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that they intend to defend their dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional "external" member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University's Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student's doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student's official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 23).) The Chair's role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 23).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 23).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student's performance and their research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation must be submitted and approved by the Committee within 30 days of the original defense date.

## Mechanical Engineering MSME

COLLEGE OF ENGINEERING

Learn more about the Master of Science in Mechanical Engineering.

### About the Program

The MSME program provides students who already have an undergraduate Engineering degree with the credentials and background to pursue a career in industrial research and development. The program provides students from diverse basic science backgrounds with the fundamental technical engineering expertise necessary to work in an interdisciplinary field such as Bioengineering or Material Science. The program provides engineers who are currently employed with a means to further their technical capabilities through part-time study.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary research with other branches of engineering as well as with various departments of the College of Science and Technology and the Lewis Katz School of Medicine. Faculty are also collaborating with investigators in the Department of Civil and Environmental Engineering on water turbulence studies; in the Department of Electrical and Computer Engineering on heat dissipation in microelectronic components; and in the Department of Physics on nanotechnology research.

**Areas of Specialization:** Research is offered in:

- Biomaterials
- Composite materials and design
- Finite element analysis and computational fluid dynamics
- Fluidics and energetics
- Target drug delivery and tissue engineering

For the MSME program, students also choose between three tracks:

1. The Thesis Track is intended for students pursuing advanced research and includes 24 credits of didactic coursework, 3 credits of Project (MEE 9995), and 3 credits of Thesis (MEE 9996).
2. The Project Track introduces students to applied research and includes 27 credits of didactic coursework and 3 credits of Project (MEE 9995).
3. The Coursework Track provides students with an advanced engineering background for their future in the engineering profession through 30 credits of didactic coursework.

In the first term, the student and the Mechanical Engineering (ME) Graduate Program Director establish a graduate Plan of Study that outlines all required courses and the sequence for the student to follow. This form is used to track the student's progress as the various

benchmarks in the program are completed. Once established, any revisions to the Plan of Study require approval in advance. However, if considering whether to change one's track, the student should note that:

- "Thesis" credits (MEE 9996) can only be applied toward the Thesis MSME Track and cannot be applied to either the Project or Coursework Tracks.
- "Project" credits (MEE 9995) can be applied toward the Thesis and Project MSME Tracks but cannot be used for the Coursework Track.

**Job Prospects:** Graduates with the MSME in Mechanical Engineering are employed in high-tech industries and government laboratories in design, analysis and applications. Typical employers include manufacturing companies; pharmaceutical and biotechnology companies; companies involved in research and development in fluid flow and heat transfer; computer-aided designers and manufacturers; computer technology firms; and government offices such as the U.S. Patent and Trademark Office. Students who complete an MSME with a thesis are prepared to enter a doctoral program.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the MSME degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the ME Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the MSME program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Three forms of financial aid are offered to graduate students:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual ME faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's Thesis advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: These highly competitive University-wide grants are typically awarded only to PhD-program applicants.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1

*Spring:* November 1; August 1 international

Applications are processed on a continual basis. Late applications may be considered for admission. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

Both admissions and financial aid award decisions originate in the Department of Mechanical Engineering (ME). Applicants are encouraged to contact the ME Graduate Program Director for advice and consultation in the application process.

#### Letters of Reference:

*Number Required: 3*

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the ME Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The ME Department identifies the needed coursework on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree in Mechanical Engineering is the preferred prerequisite degree. However, students who have earned a bachelor's degree in a related field are encouraged to apply, with the understanding that remedial preparatory courses may be a pre-condition of admission to the MSME program.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The ME Graduate Program Director helps the applicant navigate the admission possibilities, including the "Non-Matriculated Student Policy" option.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences and career goals in one to two pages.

#### Standardized Test Scores:

GRE: Optional. If reported, scores that are not more than 5 years in advance of the application date are sent to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).)

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the

testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Transfer Credit:** Graduate credits taken at an accredited institution prior to matriculation may be transferred into the MSME program. In order to transfer, the courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better. The maximum number of credits a student may transfer is 6. (See Graduate School Policy 02.24.21 (p. 18).)

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:*

## Thesis Track

Code	Title	Credit Hours
<b>Core Courses</b>		
ENGR 5117	Experimental Methods	3
Select one course from the following:		3
ENGR 5011	Engineering Mathematics I	
ENGR 5012	Engineering Mathematics II	
Select one additional course from the following:		3
ENGR 5314	Continuum Mechanics	
ENGR 5334	Dynamical Systems	
MEE 5117	Finite Element Analysis	
<b>Electives <sup>1</sup></b>		<b>15</b>
<b>Research Courses</b>		
MEE 9995	Project	3
MEE 9996	Thesis	3
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup>

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

## Project Track

Coursework may include up to, but no more than, 3 credits of ENGR 9182 Independent Study I or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

### Culminating Events:

#### Thesis Track:

The culminating events in the Thesis Track are typically undertaken during the last two successive terms of study. Successful completion requires the following:

- Thesis Proposal — MEE 9995 Project (3 credits)  
Under the guidance of the advisor, the student conducts independent research on an applied engineering topic of current interest and registers for MEE 9995. This work includes the research and preliminary results that form the basis of an extended study that the student plans to carry on in MEE 9996 Thesis in the following term. The student submits a research report as their Thesis Proposal to a committee consisting of three or more faculty members, including the faculty advisor, and presents their proposal in an open College-wide seminar, which is scheduled and posted at least 10 business days in advance of the presentation date. Immediately following the presentation, the student's advisory committee questions the student about the details and strategy of the proposed research.

The committee then accepts, accepts with revisions, or rejects the proposal.

The student must pass the Thesis Proposal before registering for MEE 9996. If the student fails Thesis Proposal, they may either re-register for MEE 9995 (1 credit) in the next regular term and repeat the entire proposal process or consider switching to the Project or Coursework Track. *NOTE: A second failure of Thesis Proposal results in automatic dismissal from the University.* If switching to another track, the Plan of Study form requires updating and appropriate approvals.

- Thesis Defense — MEE 9996 Thesis (3 credits)  
The student should register for MEE 9996 in the term that they plan to defend the thesis. The thesis document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.26.12.02 (p. 22).) Two weeks prior to the thesis defense, the student provides the committee with a copy of the completed thesis and posts an announcement of the defense, which is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the thesis defense is held, then the defense should take place at least 30 days prior to the end of the term.  
The thesis defense is an open College seminar in which the student presents the concepts and results of their research. Immediately following the defense, the thesis committee convenes to closely examine the student's research and decide to accept the thesis as provided, accept the thesis with revisions, or not accept the thesis. If the thesis is accepted, a letter grade for MEE 9996 is assigned. If the thesis is accepted with revisions, then the student must submit the revised thesis within 30 days and with the approval of the Thesis Committee. If the thesis is not accepted, but the committee decides to not fail the student, an "R" grade is assigned to MEE 9996. In the following term, the student registers for one credit of ENGR 9991 Directed Research until they are again prepared to attempt the defense. The defense procedures described above are then carried out again in the term that the student is prepared to defend the thesis.

#### Project Track:

The culminating event for the Project Track is MEE 9995 Project. This entails a one-term research activity done under the supervision of a full-time faculty advisor on an applied engineering topic of interest. Near the end of the term, the student prepares a report of their findings and presents the study in an open departmental seminar. Both the seminar and the written report are used to determine the student's grade for MEE 9995. The grade is determined jointly by the advisor and another designated grader selected by the Graduate Program Director.

#### Coursework Track:

No culminating event is warranted for the Coursework Track.

# Mechanical Engineering PhD

## COLLEGE OF ENGINEERING

Learn more about the Doctor of Philosophy in Mechanical Engineering.

## About the Program

The PhD in Mechanical Engineering is designed to develop mechanical engineers who have a solid foundation in mechanical engineering research methods, design and analytics. Doctoral students are prepared to identify a research area in mechanical engineering and analyze the literature, develop theory, perform experimentation, and develop their own methodologically rigorous research studies. Students complete their studies with a mastery of the fundamental critical thinking and analytic skills and competencies necessary for mechanical engineering. Graduates are well prepared to be engineers and researchers in a range of academic units, nonprofit organizations, government agencies and the private sector.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students are able to complete the didactic portion of the PhD degree program through classes offered after 4:30 p.m.

**Interdisciplinary Study:** Engineering research is highly interdisciplinary and draws on collaboration with members of the faculty and students within the department, as well as with departments in other schools and colleges at Temple University, including the Lewis Katz School of Medicine and the College of Science and Technology.

**Areas of Specialization:** Faculty in the Department of Mechanical Engineering are actively engaged in research in the following areas:

- Biofluidics
- Biomechanics
- Combustion

- Composite materials
- Finite element analysis
- Fluid dynamics
- Fluid mechanics
- Heat and mass transfer
- Material science
- Mechanics of materials
- Vibration and controls

In the first term, the student and the Mechanical Engineering (ME) Graduate Program Director jointly initiate a Plan of Study. This form lists all required courses and the program requirement sequence for the student to follow. The Plan of Study is used to track the student's progress, with an annual annotation and update as the student completes various benchmarks in the PhD program.

**Job Prospects:** The program is primarily intended for individuals who wish to pursue careers in industry, government and academia in a highly creative environment. The program is dedicated to producing engineers who will contribute to advancements in mechanical engineering.

**Non-Matriculated Student Policy:** Up to 9 credits of graduate Engineering coursework may be taken at Temple University on a non-matriculated basis and subsequently applied to the PhD degree upon admission. If the applicant's undergraduate GPA was less than 3.0, a GPA of 3.25 or better is required on this non-matriculated graduate coursework to receive an admissions exception. Consequently, the ME Graduate Program Director may encourage those with an undergraduate GPA less than 3.0 to take their first three graduate courses prior to making formal application to the PhD program. (See the relevant Graduate School policies on special admission procedures for non-matriculated students: 02.23.11.03 (p. 16) and 02.24.19 (p. 18).)

**Financing Opportunities:** Applicants for full-time study in the Mechanical Engineering PhD program are automatically considered for financial aid. Three forms of financial aid are awarded to PhD students on a competitive basis:

1. Teaching Assistantship (TA): TA awards are made solely by the Department and require the awardee to work 20 hours per week in support of the Department's undergraduate programs. The TA is compensated with a 9-month stipend, a basic health-insurance plan, and 9 credits per term of tuition remission.
2. Research Assistantship (RA): Individual faculty confer RA awards, using their research funds, upon students who appear well-qualified to carry out the research. Typically, this faculty member becomes the RA's doctoral advisor. The RA normally works up to 20 hours per week and is compensated with a stipend, basic health insurance, and tuition remission.
3. Fellowships: Fellowships are awarded by the University in a competitive process that is open to all PhD applicants. The ME Graduate Program Director nominates exceptional PhD applicants for a University Fellowship. Fellows receive 9 to 12 months of stipend, depending on the award; basic health insurance; and 12 credits of tuition remission each Fall and Spring term. Fellows of the University have no work obligations with respect to either the Department, the College, or the University.

Because financial aid is awarded on a competitive basis, applicants are urged to complete the application as early as possible.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1

Spring: November 1; August 1 international

Applications are processed on a continual basis. Ordinarily, the applicant is informed of an admissions decision within 4 to 6 weeks of receipt of all supporting application documents.

*APPLY ONLINE to this graduate program.*

Both admissions and financial aid award decisions originate in the Department of Mechanical Engineering within the College of Engineering. Applicants who plan to matriculate full-time are automatically considered for financial aid awards so no separate application for financial aid is required. **To ensure financial aid consideration for the intended term of study, however, applicants should submit a complete application by January 15 (Fall) and August 1 (Spring).**

### Letters of Reference:

*Number Required: 3*

*From Whom:* Letters of recommendation should be obtained from college or research faculty who are familiar with the applicant's competency. If the applicant has an established career in engineering, one of the letters should be provided by the applicant's immediate supervisor. Any applicant who has been out of school long enough that relevant academic reference letters appear impractical should contact the ME Graduate Program Director to obtain a waiver of this admission requirement.

**Coursework Required for Admission Consideration:** Students not adequately prepared for advanced courses may be required to take a number of prerequisites. The Department of Mechanical Engineering identifies the needed coursework on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required, but preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A bachelor's degree is required.

University regulations stipulate that the applicant must have earned a 3.0 grade-point average on a 4.0 scale in their undergraduate studies, but admission exceptions are made for a variety of circumstances. (See Graduate School Policy 02.23.11.03 (p. 16).) The ME Graduate Program Director helps the applicant navigate the admission possibilities and assists in the assessment of their overall educational qualifications with respect to the departmental requirements for the PhD program.

Official transcripts from all institutions of higher education attended, whether or not a degree was awarded, must be submitted. International applicants submit official transcripts or official NACES-accredited evaluation documentation that validates completion and conferral of a degree, diploma and/or certificate. All applicants must ensure transcripts and/or NACES-accredited documentation are sent directly from the institution(s) or NACES-accredited evaluation agency via email to gradengr@temple.edu or to the Temple University College of Engineering, 1947 N. 12th Street, Philadelphia, PA 19122-6077.

**Statement of Goals:** Describe your relevant technical experiences, career goals, and specific research interests in one to two pages.

### Standardized Test Scores:

GRE: Required. Scores that are not more than 5 years in advance of the application date are sent by Educational Testing Service (ETS) to test code 2945. (See Graduate School Policy 02.23.12 (p. 16).) Applicants who require a waiver of the GRE should consult the ME Graduate Program Director concerning the mechanics and consequences of obtaining an exception.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must ensure official scores are reported directly by the testing agency for a standardized test of English and meet one of these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53
- Duolingo: 110

**Resume:** Current resume required.

**Advanced Standing:** Both transfer credit for courses taken at another institution while matriculated at Temple and/or advanced standing credit for courses taken within the 5-year period prior to matriculating at Temple may be applied toward the PhD-level didactic coursework requirement. Written approval is required from the student's doctoral advisor, the College's Associate Dean for Graduate Study, and the Graduate School. (See Graduate School Policy 02.24.21 (p. 18).) Up to six credits of advanced standing for courses taken within the 5-year period prior to matriculating at Temple may be used to satisfy the master's-level didactic coursework requirement. Approval of the ME Graduate Program Director is required. The courses must be equivalent to courses offered at Temple in the student's area of study and research, and the grades must be "B" or better.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Bachelor's:* 60, including 45 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Number of Credits Required Beyond the Master's:* 30, including 15 credits of graduate-level didactic coursework and 15 research credits, including preliminary PhD examination and dissertation research

*Required Courses:*

### Post-Baccalaureate (for students WITHOUT a master's degree in Mechanical Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>45</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
MEE 9991	Directed Research (1-9 credits)	
MEE 9994	Preliminary Examination Preparation (1-2 credits)	
MEE 9998	Pre-Dissertation Research (1 credit minimum)	
MEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>60</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of MEE 9182 Independent Study I, 3 credits of MEE 9282 Independent Study II, or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of MEE 9994, a minimum of 1 credit of MEE 9998, and a minimum of 2 credits of MEE 9999, with the further stipulation that the minimum number of credits taken in MEE 9994, MEE 9998 and MEE 9999 combined is 6.

## Post-Master's (for students WITH a master's degree in Mechanical Engineering)

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		<b>15</b>
<b>Research Courses</b> <sup>2</sup>		<b>15</b>
MEE 9991	Directed Research (1-9 credits)	
MEE 9994	Preliminary Examination Preparation (1-2 credits)	
MEE 9998	Pre-Dissertation Research (1 credit minimum)	
MEE 9999	Dissertation Research (2 credits minimum)	
<b>Total Credit Hours</b>		<b>30</b>

1

Coursework is typically selected by the student's Doctoral Advisory Committee. It may include up to, but no more than, 3 credits of MEE 9182 Independent Study I, 3 credits of MEE 9282 Independent Study II, or 3 credits of MEE 9991 Directed Research. Furthermore, students who wish to take graduate coursework outside the College of Engineering in one of Temple University's other schools or colleges need to obtain the appropriate written approvals on their Plan of Study form.

2

Sample distribution of the 15 credits associated with PhD examinations and dissertation research is shown, although the actual distribution of credits can vary across courses depending on the student's particular needs. Completion of the required 15 credits includes a minimum of 1 credit but no more than 2 credits of MEE 9994, a minimum of 1 credit of MEE 9998, and a minimum of 2 credits of MEE 9999, with the further stipulation that the minimum number of credits taken in MEE 9994, MEE 9998 and MEE 9999 combined is 6.

### Culminating Events:

#### *Formation of the Doctoral Advisory Committee:*

Selection of a research advisor and formation of a Doctoral Advisory Committee constitute the first steps toward achieving a PhD. Selection of a doctoral advisor depends on the student's level of preparation upon entering the PhD program. The Doctoral Advisory Committee selects the required coursework and guides the progress of the student's dissertation research:

- Students entering the PhD program with a master's degree, i.e., those who must complete 30 credits to earn the degree, form their Doctoral Advisory Committee before the end of their second regular term of study.
- Students entering the program with a bachelor's degree, i.e., those who must complete 60 credits to earn the PhD degree, generally complete most of their coursework before forming their Doctoral Advisory Committee by the end of their fourth regular term in the program.

See Graduate School Policy 02.28.11 (p. 23) for clarification on the composition of the Doctoral Advisory Committee.

#### *Preliminary Examination:*

All students generally complete their didactic coursework prior to taking the preliminary examination. (See Graduate School Policy 02.27.11 (p. 22).) Students in the 30-credit cohort ordinarily take the exam in their third or fourth term. Students in the 60-credit cohort typically take the exam no later than the eighth regular term. Students should register for one credit of MEE 9994 Preliminary Examination Preparation in the term when the exam will be taken.

The preliminary exam tests both the student's core knowledge in Mechanical Engineering and their capacity to synthesize and interpret research communications. The student coordinates the scheduling of the preliminary exam with the ME Graduate Program Director. The ME Graduate Program Director supervises the specific form, content and frequency of the Mechanical Engineering preliminary exam. A maximum of two opportunities to pass the preliminary exam are available to the student. In each term when the exam is attempted, the student registers for one credit of MEE 9994. Students are dismissed upon the second failure.

#### *Dissertation Proposal:*

Within a year of passing the preliminary exam, the student must develop a written research proposal and present it in an open College seminar. Ten business days prior to the presentation seminar, the student must schedule the proposal and post an announcement. Immediately following the seminar, the Doctoral Advisory Committee questions the student about the details and strategy of their proposed research.

Approval is granted for the proposed dissertation research when the "Dissertation Proposal Transmittal for Elevation to Candidacy" form (found in TUportal under the Tools tab within "University Forms") has been signed off by the entire Doctoral Advisory Committee. After the dissertation proposal has been accepted by the Doctoral Advisory Committee and the Graduate School has received the form, the student is considered to be a doctoral candidate. (See Graduate School Policy 02.28.12 (p. 23) for more information.)

#### *Research Credits:*

Students carry out research throughout their studies and register for the corresponding research credits while in the PhD program. However, the type of research credits that a student registers for depends on the student's progress in the program:

- Prior to passing the preliminary exam, credit hours associated with the student's research should be registered under MEE 9991 Directed Research.
- After the preliminary exam is passed, but before elevation to candidacy, credit hours associated with the student's research should be registered under MEE 9998 Pre-Dissertation Research.

- After elevation to candidacy, the student's research credits should be registered under MEE 9999 Dissertation Research. Students are required to register for at least three credits of MEE 9999 following their elevation to candidacy. (See Graduate School Policy 02.28.15 (p. 23).)

**Publications:**

Paper writing and presentation at a conference are considered integral to the student's training. Also, peer review, in part, offers an indication of the quality and novelty of the student's research. All doctoral students must publish at least two technical papers in refereed journals or refereed conferences. The papers must be based on the student's dissertation research with the student as the first author.

**Dissertation:**

The dissertation defense is an open University seminar in which the student presents the concepts and results of their research.

The student must coordinate the formation of the Dissertation Examining Committee in the term that they intend to defend their dissertation. This committee consists of the original Doctoral Advisory Committee plus one additional "external" member who is not faculty in the College of Engineering. If the external examiner is not a member of Temple University's Graduate Faculty, the person must be approved by the Graduate School at least four weeks prior to the dissertation defense.

The dissertation defense is to take place during a regular academic term (i.e., not scheduled during study days, final exams, or the breaks between terms). If the student is to graduate in the same term as the dissertation defense is held, then the defense should take place at least 30 days prior to the end of the term to allow for document revisions.

Three weeks prior to the defense, the members of the committee elect a Chair of the Dissertation Examining Committee. The Chair cannot be the student's doctoral advisor. The Associate Dean of Research and Graduate Studies must approve the selection. The Chair is identified to the Graduate School in the student's official request for permission to schedule the defense. (See Graduate School Policy 02.28.15 (p. 23).) The Chair's role includes coordination of the proceedings of the defense and completion of all relevant College and Graduate School forms concerning the defense.

The dissertation document should be prepared in a format compliant with University standards. (See Graduate School Policy 02.28.18 (p. 23).) A copy of the completed dissertation must be provided to the committee at least three weeks before the date of the dissertation defense. Note that any Graduate Faculty may request a copy of the dissertation in advance of the defense and may participate in the defense.

A minimum of two weeks prior to the defense, a public announcement of the defense must be posted. Prior to posting, this announcement must be approved in writing by the Graduate School. (See Graduate School Policy 02.28.16 (p. 23).)

Immediately following the presentation, the Dissertation Examining Committee closely examines the student's performance and their research. External attendees may participate in this closed portion of the defense with the permission of the Dissertation Examining Committee Chair. However, only members of the Dissertation Examining Committee may actually vote on the decision to accept the dissertation as prepared, accept the dissertation with revisions, or not accept the dissertation. If the dissertation is accepted with revisions, a revised copy of the dissertation

must be submitted and approved by the Committee within 30 days of the original defense date.

**Graduate Certificate: Advanced Manufacturing and Robotics****COLLEGE OF ENGINEERING**

Learn more about the graduate certificate in Advanced Manufacturing and Robotics.

**About the Certificate**

The innovative graduate certificate in Advanced Manufacturing and Robotics is designed for working engineering professionals. The certificate allows for delivery of critical career skills in 9 credits. Students select graduate coursework in either advanced manufacturing or robotics. This certificate can be "stacked" along with other graduate certificates and an integrative capstone project to earn the Master of Engineering (MEng) degree.

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program.

Please contact the College of Engineering's admissions advisor for more information.

## Admission Requirements and Deadlines

Students are accepted into the certificate program in both the Fall and Spring terms.

*APPLY ONLINE to this graduate program.*

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

## Certificate Requirements

*Number of Credits Required to Complete the Certificate: 9*

*Required Courses:*

Code	Title	Credit Hours
Select courses from the following:		9
MEE 5411	Introduction to Mobile Robotics	
MEE 5412	Modern Dynamics for Robotics	
MEE 5413	Robotic Manipulation	
MEE 5643	Manufacturing Engineering	
	Automation in Manufacturing	
<b>Total Credit Hours</b>		<b>9</b>

**GPA Required to be Awarded the Certificate:** 3.0 minimum

## Graduate Certificate: Computer and Systems Security

COLLEGE OF ENGINEERING

### About the Certificate

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

## Graduate Certificate: Engineering Management

COLLEGE OF ENGINEERING

Learn more about the graduate certificate in Engineering Management.

### About the Certificate

The graduate certificate in Engineering Management requires 9 credits of coursework that foster the student's understanding of both basic concepts of business management from the perspective of a technology professional and the critical issues around new product development and market success for new technologies. Graduates expand their career prospects by adding business acumen to their engineering expertise.

Coursework is delivered in collaboration with the Fox School of Business and Management. Students must complete one required course in the College of Engineering, but elective courses may be taken in Fox School and/or the College of Engineering. The credits completed for the certificate can also be applied to the Engineering Management MS (p. 309).

**Campus Location:** Main, online, or a combination of in-person and online instruction

**Full-Time/Part-Time Status:** The graduate certificate is completed on a part-time basis. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program. Please contact the College of Engineering's admissions advisor for more information.

### Admission Requirements and Deadlines

Students are accepted into the certificate program in both the Fall and Spring terms.

## Graduate Certificate: Engineering Project Management

COLLEGE OF ENGINEERING

Learn more about the graduate certificate in Engineering Project Management.

### About the Certificate

The innovative graduate certificate in Engineering Project Management is designed for working engineering professionals. In addition to learning traditional project management methodologies, students study Agile project management (APM) methodologies, engage with financial analysis to understand the value of a project to the overall organization, and work toward a detailed treatment of the specific leadership challenges facing the project manager. This certificate can be "stacked" along with other graduate certificates and an integrative capstone project to earn the Master of Engineering (MEng) degree.

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. ## Graduate Certificate: New Product Development

COLLEGE OF ENGINEERING

Learn more about the graduate certificate in New Product Development.

### About the Certificate

The innovative graduate certificate in New Product Development is designed for working engineering professionals. Students gain critical career skills while learning about design thinking principles, the marketing of technological products, and the challenge of producing a reliable pipeline of innovations beyond a single breakthrough. Additionally, students are educated in the engineering management principles required for leadership in new product development. This certificate can be "stacked" along with other graduate certificates and an integrative capstone project to earn the Master of Engineering (MEng) degree.

**Campus Location:** Online

**Full-Time/Part-Time Status:** The graduate certificate can be completed on a part-time basis. ## Graduate Certificate: Stormwater Management

COLLEGE OF ENGINEERING

Learn more about the graduate certificate in Stormwater Management.

### About the Certificate

The graduate certificate in Stormwater Management requires 12 credits of coursework that foster the student's expertise in addressing the effects associated with stormwater management. Increased stormwater runoff, causing flooding and erosion in urban stream ecosystems, is a growing environmental issue. Students study the effects of urban runoff on stream channels and learn best practices to prevent degradation of ecosystems. This certificate is an excellent fit for professionals or graduates with:

- an undergraduate engineering degree;
- educational or professional background in environmental science, geomorphology, hydrology or stormwater management; or
- professional experience in civil or environmental engineering, stormwater management, or land development.

Up to nine credits may be applied to the Environmental Engineering MSEnE (p. 311).

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate is completed on a part-time basis. NOTE: International students may not be eligible to

apply for a student visa based on admission to the certificate program. Please contact the College of Engineering's admissions advisor for more information.

## Admission Requirements and Deadlines

## Beasley School of Law

Beasley School of Law is committed to excellence in teaching, scholarship and service. The faculty are dedicated to preparing students to work in the legal profession with the highest level of skill possible, with a firm commitment to principles of professional responsibility, and with a sense of personal obligation to lead and serve the communities in which they live and practice. We are dedicated to our traditional ideal of making opportunities for legal education accessible to talented students who might otherwise not have the opportunity and those who might encounter barriers due to race, creed, gender, disability, sexual orientation, gender identity, age, socioeconomic background or other personal characteristics.

The Law School opened in 1895 as Temple College's Department of Law under Dean Henry S. Borneman to prepare students for the bar examination. Initially, 46 students enrolled in evening classes. In 1901, the Law School graduated its first class of 16. In 1907, it received accreditation from the Pennsylvania State Board of Bar Examiners.

In 1933, the Law School created a three-year day division, also receiving full accreditation and an "A" rating from the Council on Legal Education of the American Bar Association. The Law School was admitted to full membership in the Association of American Law Schools in 1935. By 1943, however, the school was on the brink of closure, having experienced a deep decline in enrollment and severe financial difficulties. Judge Charles Klein worked closely with a group of dedicated alumni and professors to save the school from collapse.

Under the leadership of Dean Peter J. Liacouras in the 1970s and 1980s, the Law School greatly expanded its programs. It prospered under Dean Robert Reinstein, who served from 1989 to 2008. In 1999, to express gratitude for one of the largest gifts ever given to an American law school, the Law School took on the name of its alumnus and benefactor, James E. Beasley. The availability of Beasley scholarships, together with Law Faculty, Conwell, and Public Interest scholarships, continues to draw a bright, diverse student body.

In 2009 under Dean JoAnne Epps, the Law School was selected by the Robert Wood Johnson Foundation to house its new \$19 million Public Health Law Research Program devoted to funding research focused on the influence of law on population health. That year, Beasley School of Law also established the Conwell Community Corps, offering recent graduates full-time, paid four- to six-month positions with Philadelphia area public interest agencies. The leadership of Dean Epps during the economic downturn in the years following 2009 drew national attention to Temple Law and to her as an influential voice within legal education.

In 2013, the Sheller Center for Social Justice at Beasley School of Law was founded to partner with local community advocacy organizations to address civil access to justice issues confronting underserved populations. The Law School seeks to maintain and strengthen a longstanding tradition of accessibility and diversity in order to pursue the goals of excellence in higher education and equal justice under the law.

In 2016, Gregory Mandel, Peter J. Liacouras Professor of Law, was named Dean. He is a leading international scholar on intellectual property law, innovation and the interface among technology and law who, in 2021, was promoted to Provost.

Most recently, in July 2022, Rachel Rebouché, James E. Beasley Professor of Law, was appointed Dean of the Beasley School of Law.

She is a leading scholar on reproductive health law, feminist legal theory and family law.

## Graduate Faculty

*Laura E. Little*, James G. Schmidt Professor of Law, Department of Law, Beasley School of Law; JD, Temple University Beasley School of Law.

*Gregory N. Mandel*, Professor, Department of Law, Beasley School of Law; JD, Stanford Law School.

## American and International Law LLM

BEASLEY SCHOOL OF LAW

### About the Program

The Master of Laws (LLM) in American and International Law is designed for foreign-trained lawyers. It is equivalent to a "General" or "Traditional" LLM or an "LLM in American Law." Temple's program is appropriate for international attorneys; legal academics, counsel, and government officials; recent law graduates; and those who have earned a first degree in law.

Our LLM program is one of the longest running in the United States, with alumni around the world. *U.S. News & World Report* ranks Temple Law as a top law school, particularly in healthcare law, international law, legal writing, tax law and trial advocacy. Courses within our specialty rankings are popular with international students.

At Temple University's Beasley School of Law, LLM students take courses together with Juris Doctor (JD) students, becoming part of a tight-knit community. Students earn degree credits at our main campus in Philadelphia, where living is affordable. Strategically located on the East Coast of the United States, Philadelphia is close to both New York City

to the north and Washington, D.C. to the south. Students may also earn degree credits at our campuses in Rome, Italy and Tokyo, Japan.

This general legal studies degree program includes two required courses (JUDO 0414 Legal Research & Writing and JUDO J425 Introduction to the American Legal System), an advanced writing course, a first-year JD course, and a series of elective law subjects. Students, in consultation with the program director, select electives based on their interests.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main campus in Philadelphia and abroad in Rome, Italy and Tokyo, Japan

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Job Prospects:** Although most U.S. states require applicants to hold a JD degree to seek admission to the Bar, some U.S. states have historically permitted graduates of an LLM program who do not hold a JD degree to sit for the bar examination. Those individuals must meet other requirements related to both their prior degree and the types of credits earned during the LLM program. For more information, visit Taking the Bar Exam. Most of our LLM graduates return to their home countries shortly after graduation.

Further education may be an option, although one's admission to and/or awarding of the LLM does not guarantee admission to the JD program. Main campus LLM graduates may only be considered for JD admission with transfer credit if they demonstrate an excellent LLM grade point average or present a competitive LSAT score. LLM graduates who want to apply to Temple's SJD program must satisfy that program's independent admission requirements.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** Temple Law offers partial tuition scholarships based on need and merit. The amount of any award offered is only shared after a final admissions decision has been made. Even without financial aid, Temple's LLM tuition is highly competitive when compared to tuition at other U.S. law schools. For more information, visit our Financial Aid webpage.

## Admission Requirements and Deadlines

### Application Deadline:

For applicants to the *Philadelphia, Pennsylvania, USA* program:

*Fall:* March 15  
*Spring:* October 1

For applicants to the *Rome, Italy* program:

*Summer:* May 1

For applicants to the *Tokyo, Japan* program who *do not need* a student visa:

*Fall:* July 1  
*Spring:* November 1  
*Summer:* April 1

For applicants to the *Tokyo, Japan* program who *need* a student visa:

*Fall:* April 15  
*Spring:* September 10  
*Summer:* January 15

### Student Visa Application Deadline:

*Fall:* May 15  
*Spring:* October 10  
*Summer:* February 15

Applicants are admitted on a rolling basis and are encouraged to apply as early as possible while space is available in the program. The application deadline may be extended upon request.

Payment of the \$50 application fee may be remitted directly to Temple Law by check or money order payable to "Temple University." The application fee may be waived upon request.

### NOTES:

1. *All documents must be submitted in English. Submit both the originals and translated versions whenever relevant.*
2. *If you have already submitted an admissions application through the Law School Admission Council (LSAC), please do not submit an application at the links below. Your application in the LSAC system is already in process.*

*APPLY ONLINE to this program in Philadelphia, Pennsylvania, USA.*

*APPLY ONLINE to the summer program in Rome, Italy, where up to 5 credits can be earned in classes taught in English by American and European law professors that can later be applied toward the American and International Law LLM degree.*

*APPLY ONLINE to this program in Tokyo, Japan.*

### Letters of Reference:

*Number Required: 2*

*From Whom:* The reference letters may be written by a professor and/or employment supervisor and should candidly evaluate the applicant's academic abilities and/or professional skills. Relevant work experience may also be considered evidence of potential for graduate study.

**Degree Required for Admission Consideration:** All matriculants to the LLM program must have earned a first degree in law, such as an LLB, outside the United States. Official law transcripts or proof of passage of home country lawyer license examination must be submitted either electronically or as hard copy received in a sealed envelope from the issuing institution, with English translation if needed. Translations must be certified by a credentialed evaluation service.

**Statement of Goals:** Outline your interest in the program in a one- to two-page personal statement. Applicants should explain their interest in graduate study, as well as any other factors the admissions committee should take into consideration when evaluating their application. The statement should demonstrate the applicant's organizational, analytical and writing skills. Thus, applicants should invest appropriate time and effort in preparing this statement. The personal statement is carefully evaluated by the admissions committee.

### Standardized Test Scores:

Unless a waiver is provided, lawyers trained in a non-English-speaking country must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88 (send officially using TOEFL code 2906, department code 03)
- IELTS Academic: 6.5, with no individual score below 6.0
- Duolingo: 115

The score requirement is waived for applicants whose native language is English or who earned a degree from an institution where the language of instruction was English.

**Resume:** Current resume or CV is required.

**Interview:** An interview is not required, but prospective applicants are welcome to visit or schedule an informal video chat so that questions about the program may be answered.

**Other Requirement:** All students are required to attend an LLM orientation session. A two-week session is held in August for Fall admits. In limited cases, a one-week session is held in January for Spring admits. Students take an introductory course on the American legal system and participate in other lectures and workshops in preparation for studying law in the United States. During orientation, students meet classmates, faculty, deans and other members of the Temple community and learn about Temple's opportunities and resources.

## Program Requirements

## American and International Law - China LLM

BEASLEY SCHOOL OF LAW

### About the Program

In 1999, Temple University launched a Master of Laws degree (LLM) program in Beijing to educate public and private sector legal professionals in U.S. and international law. This program, in collaboration with Tsinghua University School of Law, is the first foreign law degree granting program approved by the Chinese Ministry of Education.

The Temple-Tsinghua LLM degree program provides Chinese legal professionals and law students with the knowledge and skills essential to meet the changing and growing legal demands of today's global landscape. Graduates receive an LLM degree from Temple University. The program is approved by the Ministry of Education of the People's Republic of China and acquiesced by the American Bar Association.

The program begins with a required one-month intensive Legal English course that prepares students for law school coursework. Students may request to be exempted from the course if they work in a full-time English-

language environment and earn sufficiently high scores on the English assessment exam used for admission purposes. The Legal English program consists of:

- American Legal System
- Case Briefing
- Law School Skills
- Listening and Speaking in Law

Courses taught in Beijing focus on principal areas of American law studied by Juris Doctor (JD) students in the United States, with course offerings in civil, criminal and commercial law.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Tsinghua Law School in Beijing, China and Main campus in Philadelphia

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** During the Summer session in Philadelphia, students continue coursework; participate in interactive visits to the courts, law firms and government agencies; and visit cultural sites. Courses are taught in English by Temple and Tsinghua law faculty and adjunct professors who are expert practitioners in their fields.

**Job Prospects:** Graduates may have an advantage in procuring jobs that require China-focused international law study and experience.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** The degree program does not have a scholarship program, but students may explore financial aid opportunities commonly available to other law students. Tuition and cost information is available at <https://law.temple.edu/academics/degrees/llm-china/tuition-cost/>. For financial aid information, visit <https://law.temple.edu/resources/financial-aid/graduate-international/>.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* August 1

Applicants are admitted on a rolling basis. Late applications may be accepted if space is available.

Payment of the CNY 300 yuan may be remitted directly to the Temple-Tsinghua LLM program office in Beijing.

*APPLY ONLINE to this program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* The reference letters must be written by law professors or legal employers who are well acquainted with your academic abilities and/or professional skills.

**Degree Required for Admission Consideration:** All matriculants to the LLM program must be current students in the Tsinghua University School of Law Juris Master program or have earned an LLB, LLM or higher law degree. Alternately, individuals who have passed the Chinese National Judicial Examination may apply for the program. Official transcripts and

certificates of law degree completion must be submitted to Temple Law either electronically or as hard copy received in a sealed envelope from the issuing institution, accompanied by the certified English translation if needed. Transcripts that have been opened and handled by the applicant are not considered acceptable.

**Statement of Goals:** This carefully worded personal statement should include your personal history, professional interests and abilities, as well as any other information that might be helpful to the Admissions Committee. The committee wants to know each applicant as a person and as a professional. Each statement must be signed and dated to certify that the essay is true and your own work.

### Standardized Test Scores:

LSAT: Not required.

Unless a waiver is provided, applicants trained in a non-English-speaking country must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5, with no individual score below 6.0
- Duolingo: 115

The score requirement is waived for applicants whose native language is English or who earned a degree from an institution where the language of instruction was English.

**Interview:** An interview may be requested by the Admissions Committee.

## Asian Law LLM

BEASLEY SCHOOL OF LAW

### About the Program

Temple Law has always taken great pride in providing an excellent legal education that prepares its graduates for the challenges they will meet in practice. Globalization has significantly changed the nature of these challenges. In the decade that U.S. trade across the Pacific surpassed that across the Atlantic, clear recognition arose in the legal profession that Asia is an area of practice in which lawyers should receive special training. The growing number of commercial Asia-U.S. transactions continues to flame both domestic and foreign demand for U.S. lawyers who specialize in Asian law. While this demand continues and will likely grow, only a limited number of academic programs in the United States exist that are specifically designed to create such specialists.

This program is designed primarily for those who hold a Juris Doctor (JD) degree, potential JD students, and lawyers from foreign common law jurisdictions who would use Temple's curricular strengths and existing programs as a bridge to expand their careers to Asia, the most dynamic region in the 21st-century world.

The Beasley School of Law has long regarded its international law programs as a core center of excellence. Indeed, our expertise in international law generally is reflected in our strong national ranking in that area. Our substantive depth and our existing physical presence in the capitals of the nations with the three largest economies in Asia make us the program of choice for those wishing to become Asian law specialists. Our program is unique in requiring candidates to spend a semester at a law school program in Asia, ensuring that graduates of the program are exposed not just to substantive aspects of the law, but to

the almost equally important nuances of the legal, economic and social culture from which those laws spring.

Our tenured faculty specialize in Chinese Law, Japanese Law, and legal issues in Asia. Our roots run deep in legal education in Asia. In 1994, we became the only U.S. law school to offer a full semester of JD study and a full academic year for LLM students in Asia at Temple University's Japan campus in Tokyo. In 1999, the Beasley School of Law expanded into China in a groundbreaking program to train Chinese lawyers, judges and professors. In addition, we send students every fall to study Chinese Law in Tsinghua University's LLM in Chinese Law program for non-Chinese students. In 2011, Temple entered into an exchange partnership with Jindal Global University Law School in National Capital Region (NCR) of Delhi, India.

**Time Limit for Degree Completion:** 4 years, although full-time students typically complete the LLM program in one academic year

**Campus Location:** Main campus in Philadelphia and abroad in Beijing, China; Delhi, India; or Tokyo, Japan

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Students may pursue the Asian Law LLM on its own or in conjunction with the JD. A Temple JD student may qualify for entry into the LLM program before graduation, and earn up to half of the required 24 credits for the LLM while still a JD student. The remaining credits required for the LLM degree can then be completed in one additional full-time semester or several part-time semesters in Philadelphia, China, India or Japan after satisfying the JD requirements. Current Temple JD students who enter the JD/LLM program directly after earning a JD automatically have up to six credits of eligible courses in a Temple program applied toward the LLM in Asian Law. For each additional credit earned beyond the minimum number of credits required to earn the JD degree, a Temple JD/LLM student can apply one more credit of international and comparative law coursework toward the LLM in Asian Law, up to a maximum of 12 credits.

**Job Prospects:** Graduates may have an advantage in procuring jobs that require Asia-focused international law study and experience.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** The Asian Law LLM degree program does not have a scholarship program, but students may explore financial aid opportunities commonly available to JD students. Tuition and cost information is available at <https://law.temple.edu/about/tuition/>. For financial aid information, visit <https://law.temple.edu/resources/financial-aid/graduate-international/>.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* June 1

*Spring:* November 1

Applicants are admitted on a rolling basis and are encouraged to apply as early as possible while space is available in the program. Payment of the \$50 application fee may be remitted directly to Temple Law by check or money order payable to "Temple University." The application fee is waived for current Temple students.

APPLY ONLINE to this program.

**Letters of Reference:**

Number Required: 1

*From Whom:* The reference letter may be written by a professor or employment supervisor and should candidly evaluate the applicant’s academic abilities and/or professional skills. Relevant work experience may also be considered evidence of potential for graduate study.

**Degree Required for Admission Consideration:** It is expected that applicants hold a Juris Doctor or equivalent first degree in law from an English common law country. Official law transcripts must be submitted either electronically or as hard copy received in a sealed envelope from the issuing institution, with English translation if needed.

**Statement of Goals:** Outline your interest in the program in a maximum of 1,000 words. Applicants should explain their interest in graduate study in Asian law, as well as any other factors the admissions committee should take into consideration when evaluating their application. The statement should demonstrate your organizational, analytical and writing skills. Thus, applicants should invest appropriate time and effort in preparing this statement. The personal statement is carefully evaluated by the admissions committee. While proficiency in an Asian language is preferred, it is not required.

**Resume:** Current resume or CV is required.

1

Tsinghua is a well-recognized Chinese university with a large law school that primarily enrolls domestic Chinese students. Asian Law LLM students with sufficient language proficiency may petition to take courses taught in Chinese to count toward the degree.

2

Jindal's law school primarily enrolls domestic Indian students earning their LLB, a graduate law degree equivalent to the JD in the United States. While the courses available to Asian Law LLM students do not explicitly include the word "Indian" in their titles, they do indeed focus on Indian law.

3

Courses identified for TUJ are commonly taught in Tokyo. JUDO J105 is the only course on the list that is not offered in English.

4

JUDO J104 and JUDO J105 are not offered on Temple University's Main campus.

## Law JD

BEASLEY SCHOOL OF LAW

## About the Program

The Juris Doctor (JD) is a professional degree required to practice law in the United States. At Temple University, students can earn a JD in three years in the full-time division or in four years in the evening and part-time divisions.

Temple's JD program delivers the knowledge, skills, experience and professionalism necessary to excel at the practice of law. Diverse doctrinal, experiential and integrated courses, all led by accomplished faculty, ensure that every Temple student has access to a world-class legal education, no matter what their area of interest.

Students who are currently enrolled in the JD program may take and apply coursework for the Transnational Law LLM degree toward the Juris Doctor. These students may then qualify for the JD/LLM degree. While this is not a concurrent degree, current JD students may earn up to half of the credits toward the LLM degree. A JD/LLM student who earns 88 credits, the minimum number of credits required for a JD degree, may apply up to 6 credits from eligible international law courses, exclusive of International Law, toward an LLM. For each additional credit a student earns beyond the minimum number of credits for a JD degree, the student can apply 1 additional credit from eligible international courses toward an LLM, up to a maximum of 12 credits.

**Time Limit for Degree Completion:** In accordance with the Faculty Regulations, students must complete the academic requirements necessary for the degree within 6 years. Those taking an authorized leave of absence for active military duty may exceed 6 years.

**Campus Location:** Main

**Full-Time/Part-Time Status:** The program may be completed on a full- or part-time basis.

**Job Prospects:** Graduate employment outcome reports submitted to the American Bar Association (ABA®) and National Association for Legal

Support Professionals (NALS) for the previous three years are posted annually on the Beasley School of Law website. These reports contain details about the employment outcomes of graduates at ten months post-graduation.

**Financing Opportunities:** Students may contact the Temple Law Financial Aid Office via e-mail ([lwfinaid@temple.edu](mailto:lwfinaid@temple.edu)) or phone (215-204-8943 or 800-560-1428) for information about financial aid.

## Admission Requirements and Deadlines

**Application Deadline:** March 1

The application form must be completed and mailed to Temple Law School or electronically transmitted to the Law School Admission Council (LSAC®) on or before the March 1 deadline.

Applicants are encouraged to apply electronically through LSAC®'s online application. Applicants may also either download the Temple Law School Admissions Application form from the Beasley School of Law website or request that the application form be mailed to them by contacting the Temple Law Admissions Office at 800-560-1428.

### Application Fee and Waiver:

The application fee is \$65. Payment may be made by credit card if the application is submitted electronically. For applications submitted by mail, a check or money order should be made payable to Temple University and must be drawn on a U.S. bank. The application fee is nonrefundable and cannot be credited toward any charges if an applicant subsequently registers as a student.

Applicants for whom paying the application fee may present a financial hardship may request a waiver of the application fee by e-mailing their name and LSAC® account number to the Temple Law Admissions Office at [lawadmis@temple.edu](mailto:lawadmis@temple.edu). The Beasley School of Law application fee will automatically be waived for any applicant who has been approved for a fee waiver from LSAC®.

### Letters of Reference:

*Number Required:* 4 maximum

*From Whom:* Letters of recommendation should be obtained from professors or employers directly acquainted with the applicant's academic or professional capabilities.

Letters of recommendation may be sent directly from the recommender to LSAC® for distribution with an applicant's law school reports to the law schools to which the applicant is applying or may be sent directly to the Temple Law Admissions Office. Applicants should not have any recommender send the same letter to both LSAC® and Temple. Letters sent directly to Temple should be accompanied by a Letter of Recommendation Waiver Form. This form should be completed by the applicant and provided to the author of each letter of recommendation.

The Family Educational Rights and Privacy Act (FERPA) of 1974, also known as the Buckley Amendment to the General Education Provisions Act, gives students who register at Beasley School of Law the right to inspect and review the letter(s) of recommendation contained in their law school records, unless that right is waived and the applicant consents to the letter(s) remaining confidential communication between the law school and the writer. Applicants may waive the right of access provided by that legislation, but are not required to waive the right as a condition for admission to the law school. If a letter of recommendation is received by the Beasley School of Law unaccompanied by a waiver form executed

by the applicant and the author of the letter, the letter is treated as confidential communication between the writer and the law school.

**Degree Required for Admission Consideration:** All matriculants to the JD program must have earned a baccalaureate degree from an institution approved by one of the regional accrediting associations of the United States. If an applicant presents a degree from an institution situated outside the United States (other than a Canadian affiliate), the academic work required by the awarding institution must be the equivalent of a baccalaureate degree from an accredited institution situated within the United States.

All applicants must provide transcripts from each graduate or professional school attended. Official transcripts of all graduate and professional school courses can be sent either to LSAC®'s Credential Assembly Service (CAS) or directly to the Temple Law Admissions Office.

**Personal Statement:** All applicants must submit a personal statement with the application form. The personal statement provides an opportunity for applicants to present themselves, their background, their experiences and their ideas to the Admissions Committee. Applicants may want to write about intellectual interests, career goals, achievements, family background or involvement in the community.

**Law School Admission Test (LSAT):** All applicants are required to have taken the LSAT within five years of applying for admission and are required to have their scores reported to Temple Law School as part of an LSAC®'s CAS Law School Report. The Beasley School of Law registration code number is 2906.

**Law School Credential Assembly Service (CAS):** All applicants must register with LSAC®'s CAS for the academic year during which application is made. It is the applicant's responsibility to have a transcript from each college or university attended sent directly to LSAC®.

CAS analyzes and duplicates the transcript(s) and sends an unofficial copy to the Beasley School of Law. Applicants who have not yet completed their undergraduate work are encouraged to send updated transcripts to LSAC® upon completion of each semester/quarter so that the Admissions Committee has the most up-to-date academic record when reviewing an applicant's credentials.

Detailed information on registering with CAS and for the LSAT is available on the LSAC® website (<https://www.LSAC.org/>).

**Resume:** While a resume is not required, applicants are encouraged to submit one as part of their application materials. The resume need not be limited to one page. Applicants are asked to include work history even if they think it is not relevant to the legal field.

**Application Processing and Notification of Decision:** Applicants are notified via e-mail when the application and fee have been received and processed. The e-mail also provides login information for the Temple Law Admissions Office's Online Status Check, which allows applicants to check on receipt of letters of recommendation by the Admissions Office and to review their application and decision statuses.

An application is considered complete when a completed application form and current CAS report containing LSAT score(s) and college records have been received. Based on past experience, candidates whose files are complete before January 15 may have a more favorable chance of admission if they are competitive within the applicant pool. Most applicants can expect notification of a decision eight to ten weeks after their file is complete. Delays in the evaluation process may occur,

however, if additional information is requested and/or January or March LSAT scores are awaited.

Admissions decisions are made from December until June as files are completed. All applicants are notified via e-mail of their admissions decision.

An acceptance packet is mailed to all admitted students with instructions on accepting their seat in the entering class. To reserve a place in the entering class, an accepted applicant must submit two nonrefundable admission deposits by the posted deadlines. Both deposits are credited toward tuition.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree: 88*

*Required Courses:*

Code	Title	Credit Hours
<b>Mandated First-Year Curriculum</b> <sup>1</sup>		
JUDO 0402	Civil Procedure I	2-4
JUDO 0404	Constitutional Law	4
JUDO 0406	Contracts	4
JUDO 0410	Criminal Law I	3
JUDO 0414	Legal Research & Writing (LRW I) <sup>2</sup>	2-3
JUDO 0414	Legal Research & Writing (LRW II) <sup>2</sup>	2-3
JUDO 0418	Property	4
JUDO 0420	Torts	4
JUDO 0437	Introduction to Transactional Skills	1-2
Elective Menu Course <sup>3</sup>		1-6
<b>First-Year Credit Hours</b>		<b>32</b>

1

All students must successfully complete all courses in their program's required first-year curriculum. Unless otherwise provided, successful completion means attaining a grade of "D" or better in a letter-graded course and "S-" or better in a non-letter-graded course. Students who fail to successfully complete a course in the mandated first-year curriculum must retake the course at the next possible opportunity, as determined by the Assistant Dean for Students. Note that required first-year courses are subject to change based on a full faculty vote.

2

All students must take Legal Research & Writing II (LRW II) in the Spring term immediately following the Fall term in which Legal Research & Writing I (LRW I) was taken. However, any student who receives a grade of "F" or "FA" in LRW I may not take LRW II in sequence but, instead, must take both courses the following year. Further, any student who receives a grade of "F" or "FA" in LRW II must, in the following year, retake both LRW I and LRW II if that student received a grade below "C" in LRW I or only retake LRW II if that student received a grade of "C" or better in LRW I.

3

Students choose from the available courses in the Elective Menu during the Fall term.

Code	Title	Credit Hours
------	-------	--------------

### Requirements After the First Year<sup>1</sup>

Professional Responsibility course <sup>2</sup>		
Two upper-level writing courses <sup>3</sup>		
Serial Paper		
Research Paper		
Upper-level Experiential/Professional Skills courses <sup>4</sup>		
Bias in the Law course <sup>5</sup>		
Upper-level electives		
<b>Post-First Year Credit Hours</b>		<b>56</b>

1

To learn more about Beasley School of Law's upper-level course offerings, review the Course Selection site (<https://law.temple.edu/academics/course-selection/>).

2

Requiring this course reflects Temple's commitment to the development of lawyers with high ethical standards. Students must meet this requirement by attaining a grade of "C" or better in a Professional Responsibility course. In the event that the student receives less than a "C" the first time taking the course, the student must:

- take a Professional Responsibility course again;
- attain a grade of "C" or better in that course;
- earn sufficient credits above the 88 credits normally required for graduation in order to make up for the credits that were received for the first Professional Responsibility course that was not successfully completed; and
- consult the Office of Student Services for more information.

3

Students fulfill the upper-level writing requirement by attaining a grade of "C" or better in a 2- or 3-credit Writing Seminar or Guided Research project that meets the standards for the Serial Paper component and, for the Research Paper component, by completing:

- a Note or Comment for one of the two law school journals, or
- a brief in a moot court or Jessup competition, which the supervising full-time faculty member certifies meets Research Paper standards and would have received a grade of "C" or better if it had been letter graded.

4

All students who matriculated prior to Fall 2016 must successfully complete a course designated as a Professional Skills course. All students who matriculated in or after Fall 2016 must successfully complete one or more Experiential courses totaling at least 6 credits. Students may take Experiential/Professional Skills courses at any time, provided they have completed the mandated First-Year Curriculum and any other applicable prerequisite courses. For this purpose, successful completion means a grade of "C" or better in a letter-graded course and "S" or better in a non-letter-graded course. Courses that satisfy the Experiential/Professional Skills requirement include those designated as Clinical courses (both Internal Clinics and External Clinics), Externships, Practicums and designated Simulation courses. Writing courses taken to fulfill the Experiential/Professional Skills requirement cannot also fulfill the upper-level writing requirement.

5

All students who matriculated into the JD program on or after July 1, 2021 must successfully complete at least one course from a menu of courses that explore bias in the law. For this purpose, successful completion means a grade of "C" or better in a letter-graded course and "S" or better in a non-letter-graded course. The decision on what courses satisfy this graduation requirement is made by the Associate Dean for Academic Affairs.

**Cumulative GPA Required to be Awarded the Degree:** 2.0 minimum

## Law SJD

BEASLEY SCHOOL OF LAW

### About the Program

The Doctor of Juridical Science (SJD) degree program is designed for law school graduates who demonstrated excellent law school academic performance and writing skills, which indicate potential to conduct legal research and scholarship in the English language. This highly selective program accepts no more than two SJD candidates in a given academic year. Admitted SJD students are expected to complete their dissertation research within three years.

**Time Limit for Degree Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program is completed on a full-time basis. In Year 1, SJD students study in residence in Philadelphia. In Years 2 and 3, students may register for 2 credits of dissertation research without being physically present on Main campus.

**Job Prospects:** SJD graduates usually teach law at the university level outside of the United States.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** All incoming SJD candidates are charged a one-time SJD program fee of \$12,000. The SJD program does not have a scholarship program, but students may explore financial aid opportunities commonly available to JD students. Tuition and cost information is available at <https://law.temple.edu/about/tuition/>. For

financial aid information, visit <https://law.temple.edu/resources/financial-aid/graduate-international/>.

Temple LLM graduates enrolled in the SJD program pay a per-credit tuition charge, set by the Temple University Board of Trustees, each semester of enrollment.

Non-Temple LLM graduates enrolled in the SJD program who are required to enroll for a *second* semester of classes are required to pay the full-time tuition rate for those second-semester courses. When approved to begin work on their dissertation, these students will thereafter register for two credits of dissertation research every semester of SJD program enrollment and pay a per-credit hour tuition charge, set by the Temple University Board of Trustees, each semester of enrollment.

SJD students are also charged any mandatory Temple University student non-tuition fees, including international student fees assessed to all F-1 visa holders and university service fees assessed to all enrolled Temple University students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* May 15

### Application Procedures:

Procedures for applying to the SJD degree program vary depending on where the applicants earned their LLM degree:

#### *Apply as a Temple LLM Graduate*

- Take courses for grades while enrolled in Temple's LLM program.
- Earn a final cumulative Temple Law School GPA of 3.33 or higher.
- Earn a grade of "B+" (3.33) or higher in JUDO 0414 Legal Research & Writing or JUDO J414 Legal Research & Writing.
- Earn a grade of "B" (3.00) or higher in an upper division research writing seminar.
- Demonstrate, if relevant, a TOEFL IBT score of 100 or IELTS score of at least 7.0 with no individual scores below 6.5 points.
- Complete and submit an online Temple Law SJD application.
- Provide two letters of recommendation from two Temple law professors that endorse the applicant's English writing ability, recommend the applicant's admission into the program, and endorse the subject matter of the proposed dissertation.
- Submit a detailed dissertation topic proposal.
- Provide a current resume or CV.
- Submit a personal statement describing your goals and motivation to earn the SJD degree.

SJD applicants should not solicit Temple law professors regarding SJD dissertation supervision in advance. A Temple Law faculty SJD Committee reviews each SJD applicant's file. The SJD Committee decides if an applicant's SJD file is suitable for presentation to a tenured Temple law professor that the Committee has identified as a potential SJD research advisor and dissertation committee chairperson. The SJD Committee, not an individual law professor, makes all final decisions regarding SJD admission and dissertation advisor assignments.

*OR Apply as a Non-Temple LLM Graduate*

1. Complete and submit an online Temple Law SJD application.
2. Submit official transcripts from all law schools and universities previously attended.
3. Demonstrate, with submission of an official score report, a TOEFL IBT score of at least 100 or IELTS overall score of at least 7.0 with no individual scores below 6.5 points, if relevant.
4. Provide two letters of recommendation from professors or workplace superiors who are able to certify the applicant's legal research and writing skills.
5. Submit a detailed dissertation topic proposal.
6. Provide a current resume or CV.
7. Submit a personal statement describing your goals and motivation to earn the SJD degree.

SJD applicants should not solicit Temple law professors regarding SJD dissertation supervision in advance. The applicant must meet the requirements for admission into our program. In addition, a Temple Law faculty SJD Committee reviews each SJD applicant's file and decides if an applicant's proposal will be passed on to a tenured law professor who might be willing to serve as an advisor and dissertation committee chairperson. If a professor is identified and amenable, the candidate may be admitted into the SJD program. The SJD Committee makes all final decisions regarding SJD admission and dissertation advisor assignments. Individual professors cannot independently make SJD admission offers.

## Program Requirements

### General Program Requirements:

*Coursework Required of Temple LLM Graduates:* Register for 2 credits of JUSI D899 Dissertation Research every semester of enrollment in the SJD program. At least one year in residence at Beasley School of Law on Main campus in Philadelphia is required to allow the student to meet regularly with the dissertation advisor.

*Coursework Required of Non-Temple LLM Graduates:* Enroll in graded Temple Law classes in the Fall semester. SJD First-Year classes are individually selected from the JD curriculum to ensure they relate to the student's research topic. At least one law writing class is required. Students must earn a cumulative GPA of 3.33 or higher. For the writing class, a grade of "B" or higher is required of domestic students and a minimum grade of "B+" is required of international students. If a student fails to satisfy the grade requirement after one semester, the advisor and Office of Graduate and International Programs determine whether to allow the student to enroll in Spring semester classes to achieve compliance.

When students have satisfactorily completed their coursework and are approved to begin work on their dissertation, they thereafter register every semester for 2 credits of JUSI D899 Dissertation Research while enrolled in the SJD program. When the dissertation phase begins, students must spend at least the next year in residence at Beasley School of Law on Main campus in Philadelphia to allow regular meetings with their dissertation advisor.

**Additional Requirement:** At the end of each academic year of enrollment, the dissertation advisor must certify to the SJD Committee that the student has made satisfactory progress. If satisfactory progress has not been made at the end of any academic year, the student receives a written warning that satisfactory progress must be attained by the end of the following semester to continue in the program.

### Culminating Events:

### *Dissertation Committee:*

After making satisfactory progress during the first year of dissertation work, the advisor forms a dissertation committee consisting of a minimum of two other faculty members, including at least one of whom is tenured or tenure track. Non-tenure track faculty may serve on a committee only if they have a five-year contract. The advisor also has the discretion to form the committee before the end of the first dissertation year.

### *Annual Public Presentation of SJD Dissertation Work-in-Progress:*

SJD students who have begun work on their dissertation must give a public presentation of their research each academic year. This could be a student organization event or a student panel organized by the Office of Graduate and International Programs.

### *Attendance at Faculty Colloquia:*

SJD students are invited to attend faculty colloquia. This aids students in understanding what is expected of legal academic researchers and demonstrates how to present legal research in an academic setting.

### *Law Professor Mentor and Classroom Observation:*

Law professors may offer to mentor SJD students by allowing them to observe one of their classes and provide information about pedagogical issues related to teaching law students.

### *Oral Dissertation Defense:*

When an advisor, in consultation with the student's dissertation committee, has determined that the candidate is ready to defend the dissertation, the advisor coordinates scheduling of the oral dissertation defense with the Office of Graduate and International Programs. Candidates who pass the defense work with the Office of Graduate and International Programs ensure that their dissertation is properly submitted to the University. If the candidate conditionally passes the defense, the advisor gives the candidate a deadline, which may not exceed one semester, to satisfy any deficiencies in the dissertation. If the candidate fails the defense, the candidate is dismissed from the program.

### *Dissertation Honors:*

At the discretion of the advisor, the candidate may be awarded an "honors" designation on the transcript for an outstanding dissertation.

## Legal Education LLM

BEASLEY SCHOOL OF LAW

### About the Program

This program is not open for enrollment for the 2023-2024 academic year.

## Taxation LLM

BEASLEY SCHOOL OF LAW

### About the Program

The Master of Laws in Taxation program trains lawyers who aim to specialize in tax practice. It offers a diverse curriculum that allows students to shape their education based on their aspirations, whether they involve business planning and compliance, employee benefits, estate planning, international tax or tax controversy. Professors are top-flight academics and practitioners who give the law context. Focus is on skills training, both inside the classroom and out, through real-world simulations, practicums and volunteer opportunities.

Beyond offering a first-rate education, the LLM in Taxation program is exceptionally affordable and convenient. Tuition is among the lowest in the country. Students take classes on their own schedule at Temple's Main campus, Center City campus or remotely.

**Time Limit for Degree Completion:** 4 years following initial enrollment

**Campus Location:** Main or Center City, with some courses offered online

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Temple Juris Doctor (JD) students have the opportunity to earn an LLM in Taxation in as little as one additional semester of study and pay no additional tuition for LLM courses taken while earning their JD degree. All students can receive continuing legal education credits for the course credits they earn.

**Job Prospects:** Graduates are employed or gain employment at accounting firms; banks; federal, state and local governments; in-house tax departments of businesses; law firms; trust companies; and wealth management companies. They also start their own firms.

**Non-Matriculated Student Policy:** Non-matriculated enrollment by the general public is not permitted. Alumni of the Graduate Tax Program are permitted to re-enroll with the Beasley School of Law as non-matriculated students to audit taxation-specific courses at the current Graduate Tax Program tuition rate.

**Financing Opportunities:** Tuition and cost information is available at <https://law.temple.edu/about/tuition/>. For financial aid information, visit <https://law.temple.edu/resources/financial-aid/graduate-international/>. See also the Barbara W. Freedman Memorial Scholarship, which is awarded to current LLM and JD students based on academic performance in tax.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* August 1

*Spring:* December 15

*Summer:* May 1

Applicants are admitted on a rolling basis and are encouraged to apply as early as possible while space is available in the program. The cost to apply is \$50.

*APPLY ONLINE to this program.*

### Letters of Reference:

*Number Required:* 0

**Degree Required for Admission Consideration:** A Juris Doctor or equivalent first degree in law for non-U.S. law school graduates is required. Official law transcripts must be submitted either electronically or as hard copy received in a sealed envelope from the issuing institution.

**Statement of Goals:** Outline your interest in the program in a one- to two-page personal statement.

### Standardized Test Scores:

Unless a waiver is provided, lawyers trained in a non-English-speaking country must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- Duolingo: 115

**Resume:** Current resume or CV is required.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 24

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		
JUDO 0511	Corporate Taxation	2-3
MLTX G521	Taxation/Partnerships	2-3
MLTX G641	Taxation II	2
<b>Electives</b> <sup>2</sup>		<b>16-18</b>
<b>Total Credit Hours</b>		<b>24</b>

1

Students who did not previously complete a basic course in Taxation must also take MLTX 0501 Taxation 1, although this course is not counted toward the LLM degree.

2

Coursework is related to tax law, as approved by the program director. One elective must be a writing course that satisfies the writing requirement.

**Cumulative GPA Required to be Awarded the Degree:** 2.5 minimum

## Taxation MS

BEASLEY SCHOOL OF LAW

### About the Program

The Beasley School of Law offers an MS program for accountants through which students acquire in-depth knowledge of taxation law. This program is ideally suited for accountants wishing to gain a mastery of taxation law, without becoming lawyers. Students in the program take both law and business classes and seminars with our Master of Laws in Taxation students. Courses are taught primarily by law faculty, with the exception of advanced accounting classes taught by faculty from the Fox School of Business and Management. Students develop both practical and theoretical expertise through case analyses and rigorous class participation with lawyers and Juris Doctor students. The Beasley School of Law has a solid history of preparing students to hit the ground running in a variety of law and law-related fields.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Online, with some in-person instruction on Main or the Center City campuses

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Business classes in Valuation and Accounting may be required.

**Affiliation(s):** The Beasley School is a member of the American Association of Law Schools.

**Ranking:** The Beasley School of Law is highly ranked. In the 2023-2024 rankings by *U.S. News & World Report*, Beasley is tied for 54th out of 196 law schools.

**Accreditation:** The Beasley School of Law is fully accredited by the American Bar Association.

**Areas of Specialization:** Areas of specialization include:

- Business
- Estate Planning
- Employee Benefits
- Litigation

**Job Prospects:** Graduates are prepared for employment in accounting firms or to advance in their careers at their current firm.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** Matriculated students are eligible for federal financial aid.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* August 1  
*Spring:* December 15  
*Summer:* May 1

Applications are processed as they are received throughout the year. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 1

*From Whom:* Letters of recommendation should be obtained from an immediate supervisor, current or past, and/or from academic evaluators.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Accounting or in a related field is required.

**Statement of Goals:** Describe your future goals in specific terms and how the MS will assist you in achieving those goals.

### Standardized Test Scores:

For applicants whose native language is not English, a minimum score on the TOEFL or IELTS is required:

- TOEFL iBT: 88
- IELTS Academic: 6.5

**Resume:** Current resume required.

**Transfer Credit:** Advanced standing is not granted.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*<sup>1</sup>

**Transnational Law LLM**

BEASLEY SCHOOL OF LAW

**About the Program**

The Transnational Law LLM degree is grounded in international and comparative law coursework and requires a period of study abroad. Applicants must have completed a first degree in law in English in a common law country. International applicants with a civil law education background should apply to the general LLM for foreign-trained lawyers.

Transnational Law LLM students gain the skills and knowledge to compete successfully in a world wherein the practice of law is no longer limited by national borders. Our graduates are knowledgeable about international legal doctrines, adept at dealing with multiple legal systems, and familiar with other cultures.

**Time Limit for Degree Completion:** 4 years following initial enrollment

**Campus Location:** Main and a required study abroad location, as identified below

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Coursework completed in earning the Transnational Law LLM degree may be applied toward the Juris Doctor (JD) for those currently enrolled as JD students. These students may qualify for the JD/LLM degree. While this is not a concurrent degree,

current JD students may earn up to half of the credits toward the LLM degree. A JD/LLM student who earns 88 credits, the minimum number of credits required for a JD degree, may apply up to six credits from eligible international law courses, exclusive of International Law, toward an LLM. For each additional credit a student earns beyond the minimum number of credits for a JD degree, the student can apply one more credit from eligible international courses toward an LLM, up to a maximum of 12 credits.

**Study Abroad:** While pursuing the Transnational Law LLM degree, students are required to study abroad during the Spring semester in Tokyo at Temple University Japan or over the Summer semester at the Temple University Rome campus. Alternately, students may spend a semester abroad at a foreign law school outside of Temple University through one of our Semester Exchange Partner Schools.

**Areas of Specialization:** Coursework for this degree is limited to international and comparative law. Credits in U.S. domestic law are not eligible to count toward the degree. The curriculum is not designed to satisfy U.S. bar exam requirements.

**Job Prospects:** Graduates may have an advantage in procuring employment that requires international law study and experience.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** The Transnational Law LLM degree program does not have a scholarship program. Tuition and cost information is available at <https://law.temple.edu/about/tuition/>. For financial aid information, visit <https://law.temple.edu/resources/financial-aid/graduate-international/>.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* June 1

*Spring:* November 1

Applicants are admitted on a rolling basis and are encouraged to apply as early as possible while space is available in the program. Payment of the \$50 application fee may be remitted directly to Temple Law by check or money order payable to "Temple University."

*APPLY ONLINE to this program.*

### Letters of Reference:

*Number Required:* 1

*From Whom:* The reference letter may be written by a professor or employment supervisor and should candidly evaluate the applicant's academic abilities and/or professional skills. Relevant work experience may also be considered evidence of potential for graduate study.

**Degree Required for Admission Consideration:** A Juris Doctor or equivalent first degree in law from an English common law country is required. Official law transcripts must be submitted either electronically or as hard copy received in a sealed envelope from the issuing institution, with English translation if needed.

**Statement of Goals:** Outline your interest in the program in a one- to two-page personal statement. Applicants should explain their interest in graduate study in international and comparative law, as well as any other factors the admissions committee should take into consideration when

evaluating their application. The statement should demonstrate your organizational, analytical and writing skills. Thus, applicants should invest appropriate time and effort in preparing this statement. The personal statement is carefully evaluated by the admissions committee.

**Resume:** Current resume or CV is required.

## Program Requirements

### General Program Requirements

*Number of Credits Required to Earn the Degree:* 24

No specific courses are required, but all coursework taken to complete the Transnational Law LLM degree must be related to international law, as approved by the faculty director.

One course must be a writing course that satisfies the writing requirement.

LLM students who did not previously complete a basic course in International Law are required to take such a course, although this course cannot be counted toward the Transnational Law LLM degree.

**Cumulative GPA Required to be Awarded the Degree:** 2.5 minimum

## Trial Advocacy LLM

BEASLEY SCHOOL OF LAW

### About the Program

The LLM in Trial Advocacy curriculum integrates the development of theory and theme, persuasive storytelling, extemporaneous speech, and effective use of technology in the courtroom. The program is performance-based, featuring a "learn by doing" approach.

Designed for the practicing attorney, the program's 24 credits are completed in one year. Classes are scheduled one evening a week for three hours (6:00-9:00 p.m.) for the duration of the program. Weekly classes may be attended online if the student works and/or lives more than a one-hour drive from Temple's Main campus. However, all students must attend the August Bootcamp and scheduled performance weekends on our Philadelphia campus.

Students graduate with the LLM degree in Trial Advocacy, and those who have already been admitted to a state bar earn 22 substantive CLE credits and two ethics credits.

Temple's LLM in Trial Advocacy is an ideal fit for those who aspire to perfect their litigation tactics, remote advocacy and courtroom performance. In addition, this program provides training and an introduction for students who wish to pursue teaching in academia.

**Time Limit for Degree Completion:** 1 year

**Campus Location:** Main campus or, if the student works/lives more than one hour's drive away, online

**Full-Time/Part-Time Status:** The degree program is completed on a full-time basis.

**Non-Matriculated Student Policy:** Students must be matriculated in the program to take courses.

**Financing Opportunities:** All applicants for financial aid must submit a FAFSA form and complete the online Graduate Law Student Financial Aid Request Form. Students can apply online for federal Direct Subsidized and Unsubsidized Loans and/or the federal Direct PLUS Loan at <https://studentaid.gov/>. For more information, visit our Financial Aid webpage.

A number of partial scholarships to the LLM in Trial Advocacy Program are awarded each year to attorneys practicing in public interest settings. Awards are applied in equal amounts in the Fall and Spring terms.

## Admission Requirements and Deadlines

### Application Deadline:

*Summer:* May 31

Admission is selective, and class size is limited. Applicants are admitted on a rolling basis. Late applications may be accepted if space is available. The cost to apply is \$50.

*APPLY ONLINE to this program.*

### Letters of Reference:

*Number Required:* 2

*From Whom:* The reference letters must be written by law professors or legal employers who are well acquainted with your academic abilities and/or professional skills.

**Degree Required for Admission Consideration:** Applicants must hold a Juris Doctor or other law degree from a law school accredited by the American Bar Association or must hold a first law degree from a foreign law school approved by the appropriate authority in that country.

Applicants who received their first law degree from a U.S. law school that is not, or at the time of the applicant's graduation was not, accredited by the American Bar Association may be considered for admission if the applicant:

- is licensed to practice law in at least one state within the United States;
- can provide a certificate of good standing from that state's bar; and
- has a strong interest in or experience in advocacy or related areas of practice.

Official transcripts and certificates of law degree completion must be submitted to Temple Law either electronically or as hard copy received in a sealed envelope from the issuing institution, accompanied by the certified English translation if needed. Transcripts that have been opened and handled by the applicant are not considered acceptable.

### Standardized Test Scores:

Unless a waiver is provided, applicants trained in a non-English-speaking country must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- Duolingo: 115

**Interview:** A personal interview with the Program Director is an integral part of the admissions process. Admissions decisions are based on application materials, advocacy and trial experience, career objectives and the interview. Applicants who live a considerable distance from campus may request a telephone interview.

# Graduate Certificate: American Legal Studies

BEASLEY SCHOOL OF LAW at Temple University Japan

## About the Certificate

The American Legal Studies certificate is chiefly designed for three types of professionals:

- legal practitioners who want to study law in English but are unable to travel overseas for an extended period of time, as required by our LLM programs;
- qualified individuals who do not have a law degree but do hold a degree in finance or other related field; and
- persons who have legal-related professional experience, such as engineers working in intellectual property matters, who are not eligible to matriculate into an LLM program.

Credits earned in completing the certificate may be applied toward the LLM in American Law for those eligible to later pursue the degree.

**Time Limit for Certificate Completion:** 3 years

**Campus Location:** Temple University Japan

**Full-Time/Part-Time Status:** The certificate program can be completed on a full- or part-time basis.

## Admission Requirements and Deadlines

### Application Deadline:

For applicants who *do not need* a student visa:

Fall: August 1  
Spring: December 1  
Summer: May 1

For applicants who *need* a student visa:

Fall: April 15

Spring: September 10  
Summer: January 15

### Student Visa Application Deadline:

Fall: May 15  
Spring: October 10  
Summer: February 15

The cost to apply is ¥12,200. An email with payment instructions is sent to applicants after submission of the online application form. Payment may be remitted by credit card online. Wire transfer is also available, but requires an additional ¥3,000 to cover Japanese bank fees.

APPLY ONLINE to this certificate program.

**Coursework Required for Admission Consideration:** Applicants who do not hold a law degree from a common-law country are required to attend an introductory seminar on Common Law Reasoning before taking courses at Temple University Japan (TUJ).

**Degree Required for Admission Consideration:** Official transcripts from all institutions attended must be submitted directly to TUJ. Transcripts must be sent either electronically through an academic credential evaluation service, such as World Evaluation Service (WES) or Law School Admission Council (LSAC), or as hard copy received in a sealed envelope from the issuing institution.

**Statement of Goals:** In 500 to 1,000 words, share your personal history, professional interests and abilities.

### Standardized Test Scores:

All non-native speakers of English must submit an official TOEFL or IELTS score. Applicants who earned a university degree in an English-speaking country or from an institution in which English is the language of instruction may petition to have the language proficiency test requirement waived.

- TOEFL iBT: send officially to TUJ using TOEFL code 9698
- IELTS Academic: send officially directly to TUJ

**Resume:** Current resume or CV is required.

## Graduate Certificate: Employee Benefits Law

BEASLEY SCHOOL OF LAW

### About the Certificate

The Employee Benefits Law certificate is designed for those interested in additional training who are not yet ready to pursue an LLM degree. The certificate program exposes students to the sophisticated federal laws that govern the provision of employee benefits. Credits earned in completing the certificate may be applied toward the LLM in Taxation if pursued later.

**Time Limit for Certificate Completion:** 2 years, although the program is often completed in two semesters

**Campus Location:** Main

**Full-Time/Part-Time Status:** The certificate program can be completed on a full- or part-time basis.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* August 1

*Spring:* December 15

*Summer:* May 1

The cost to apply is \$50.

*APPLY ONLINE to this certificate program.*

**Coursework Required for Admission Consideration:** Applicants must have satisfactorily completed a basic tax income course in law school or demonstrated comparable work experience. An applicant who cannot meet this requirement must take JUDO 0600, the basic tax course in taxation offered for Temple's JD program, in the first term of enrollment. Credits earned in meeting this prerequisite are not applied toward the certificate program.

**Degree Required for Admission Consideration:** A Juris Doctor or equivalent first degree in law for non-U.S. law school graduates is required. Official law transcripts must be submitted either electronically or as hard copy received in a sealed envelope from the issuing institution.

**Statement of Goals:** Outline your interest in the program in a one- to two-page personal statement.

#### Standardized Test Scores:

Unless a waiver is provided, lawyers trained in a non-English-speaking country must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- Duolingo: 115

**Resume:** Current resume or CV is required.

# Graduate Certificate: Estate Planning

BEASLEY SCHOOL OF LAW

## About the Certificate

The Estate Planning certificate is designed for those interested in additional training who are not yet ready to pursue an LLM degree. The certificate program exposes students to sophisticated federal estate, gift and generation-skipping transfer tax issues, as well as the federal income taxation of trusts and estates. The program benefits practitioners who want to concentrate on tax issues involved in estate planning and estate administration. It also provides valuable training for relatively inexperienced practitioners who want to acquire an advanced level of expertise in the field. Credits earned in completing the certificate may be applied toward the LLM in Taxation if pursued later.

**Time Limit for Certificate Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The certificate program can be completed on a full- or part-time basis.

## Admission Requirements and Deadlines

**Graduate Certificate: International Business and Compliance**

BEASLEY SCHOOL OF LAW

**About the Certificate**

In recent decades, U.S. and foreign enforcement authorities and multilateral development agencies have increased their focus on investigating and prosecuting fraud and corruption in a variety of industries. Corporations are required to develop comprehensive compliance and ethics programs to adhere to a range of domestic and foreign laws, minimize risk, and avoid legal repercussions and reputational damage, all while maximizing operational performance. Professionals with compliance training, experience and skills are in high demand.

The graduate certificate in International Business and Compliance is designed for international law students and foreign-trained lawyers who want to be credentialed as a compliance specialist. This program supports the existing LLM program by furthering its goal to provide foreign students with a comparative and deep understanding of the U.S./common law systems. Students in the certificate program who are already in the field can enhance the classroom experience with a real-world international perspective.

The certificate program is intended to provide students with an in-depth understanding of compliance-related topics with a focus on international issues. The chief learning outcomes that each student should attain include:

- an understanding of the legal, corporate governance and enforcement aspects of compliance and ethics;
- a practical understanding of the implementation and operation of an effective compliance and ethics program; and
- exposure to a variety of substantive areas of law that are relevant to compliance and ethics programs through elective courses.

**Time Limit for Certificate Completion:** One semester**Campus Location:** Main**Full-Time/Part-Time Status:** The certificate must be completed on a full-time basis.**Non-Matriculated Student Policy:** The certificate may not be taken on a non-matriculated basis.**Admission Requirements and Deadlines****Application Deadline:***Fall:* March 15*Spring:* October 15

APPLY to this certificate program.

Applicants must have earned a first degree in law, such as an LLB, outside of the United States. All application materials listed below must be submitted in English. Translations must be certified by a credentialed evaluation service. Submit both the original and the translated versions.

1. Official **law school transcript** or **proof of passage of home country lawyer license examination** provided in a sealed envelope with English translation, if needed
2. **Two** professional/academic **letters of recommendation**
3. **Personal statement** that is one to two pages in length
4. Current **resume**
5. **\$50 application fee**, which may be waived upon request
6. English proficiency is one of the most important predictors of success in our program. To ensure students have the requisite language skills to succeed at Temple Law, we require proof of **English proficiency** from every applicant who is not a native English speaker or who did not complete a degree at an institution where the language of instruction is English. Scores for a standardized test of English must meet these minimums:
  - TOEFL iBT: 88 (send officially from ETS using institution code 2906, department code 03)
  - IELTS Academic: 6.5, with no individual score below 6.0
  - Duolingo: 115

**Post-Baccalaureate Degree in Discipline/Related Discipline:**

Applicants must have graduated from a non-U.S. law school or currently be enrolled in a law school outside of the United States.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree from an accredited university or college is expected.

**Interview:** Although an interview is not required, prospective applicants are welcome to visit us or schedule an informal video chat so that we may answer questions about the program.

## Juris Doctor Certificate: Business Law

BEASLEY SCHOOL OF LAW

### About the Certificate

The Juris Doctor certificate in Business Law is designed for students who want to develop their knowledge of business, given that they do not hold an undergraduate business degree nor have an extensive business background. While pursuing their JD degree, students in the Business Law certificate program take a minimum of 10 business-related law courses, receiving a notation on their transcript upon successful completion.

**Time Limit for Certificate Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The certificate program can be completed on a full- or part-time basis.

**Non-Matriculated Student Policy:** The certificate may not be taken on a non-matriculated basis.

### Admission Requirements and Deadlines

**Application Deadline:**

During the *Spring semester of the first year* in Law School, apply by contacting the Beasley School of Law's Office of Academic Affairs.

**Coursework Required for Admission Consideration:** Applicants must be pursuing the Juris Doctor degree.

**Master's Degree in Discipline/Related Discipline:** Not required.

**Bachelor's Degree in Discipline/Related Discipline:** Not required.

### Certificate Requirements

*Number of Credits Required to Complete the Certificate: 30*

*Required Courses:*

Code	Title	Credit Hours
<b>Mandatory Courses</b>		
JUDO 0508	Corporations	3

MLTX G804		Tax Provsn Corp Acquistn
		Business-Related Practicum

**Total Credit Hours** **30**

1

Students who take more than four courses from the Core list may count the additional core course(s) taken as electives.

2

JD/MBA students may substitute an appropriate number of credits from MBA courses that cover equivalent content for JUDO 0525 and JUDO 0570.

3

The Integrated Transactional Program (ITP) alone counts as four elective courses. Thus, students who enroll in JUDO D462 do not need to take any other electives.

## Juris Doctor Certificate: Trial Advocacy and Litigation

BEASLEY SCHOOL OF LAW

### About the Certificate

The Juris Doctor certificate in Trial Advocacy and Litigation is designed for students who want to focus their studies on the art and science of trial advocacy. At Beasley School of Law, JD students gain the skills and experience to be ready for the courtroom upon completion of their studies. While pursuing their JD degree, students in the Trial Advocacy and Litigation certificate program take a minimum of eight law courses, receiving a notation on their transcript upon successful completion.

**Time Limit for Certificate Completion:** 4 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The certificate program can be completed on a full- or part-time basis.

**Non-Matriculated Student Policy:** The certificate may not be taken on a non-matriculated basis.

### Admission Requirements and Deadlines

**Application Deadline:**

Eligible students complete a registration form and return it to Professor Sara Jacobson in 611 Klein Hall.

**Coursework Required for Admission Consideration:** Applicants must be pursuing the Juris Doctor degree.

**Master's Degree in Discipline/Related Discipline:** Not required.

**Bachelor's Degree in Discipline/Related Discipline:** Not required.

### Certificate Requirements

*Number of Credits Required to Complete the Certificate:* 19-23, depending on the student's choice of eight required courses

*Required Courses:*

**Second-Year Day / Third-Year Evening**

Code	Title	Credit Hours
<b>Integrated Trial Advocacy Program (ITAP) Courses</b>		
JUDO 0460	Trial Advocacy I (Fall)	2

**Total Credit Hours****9-12**

1

Day students take two courses from Menu A, one course from Menu B, and one clinical from the approved list. Evening students take two courses from Menu A and two courses from Menu B if unable to take an approved clinical.

2

Any course in Menu A may count as a Menu B course, but no Menu B course may count as a Menu A course.

3

Day students select one clinical. In addition, a second clinical may be substituted for their Menu B course.

4

JUDO 0751 or a practicum may only count toward the clinical requirement with prior approval from the Director of Trial Advocacy.

5

Advanced work in the Temple Legal Aid Office for either the Family Law Clinic or the Community Lawyering Office can only count toward the clinical requirement with prior approval from the Director of Trial Advocacy.

**GPA Required to be Awarded the Certificate:** 3.0 minimum in advocacy coursework, with a 2.5 minimum overall

**Culminating Events:** Beyond coursework, all students are required to fulfill two additional obligations to earn the Trial Advocacy and Litigation certificate:

1. Serve as either a Teaching Assistant for the Integrated Trial Advocacy Program (ITAP), Introduction to Trial Advocacy (ITA), or Advanced Trial Advocacy (ATA); a witness for the LLM program's weekend trials; or a witness at the Regional Championship of the National Trial Competition hosted by Temple each February.
2. Complete the LLM lecture series, which requires attendance at five lectures. In-person attendance is required. Lectures are generally held in Room 1C from 6:00 to 9:00 p.m. Lecture topics include:
  - Advanced Experts
  - Damages: Depositions
  - Damages: Experts
  - Depositions II
  - eDiscovery and Litigation
  - Expert Witnesses
  - Persuasion: Lawyer Likability and Civility
  - Persuasive Pleadings
  - Psychology and Persuasion
  - Science Series: Accident Reconstruction
  - Science Series: Neuroscience and the Law
  - Trial Technology
  - Voir Dire and Jury Selection
  - Witness Preparation
  - Witnesses and Storytelling

If a class conflict prevents a student from attending in person, the lecture may be viewed on Canvas but only with advance permission from the Director of Trial Advocacy. Lecture dates are subject to change, depending on the needs of the LLM program. Changes

are announced on Canvas as soon as the need for a change is determined.

## College of Liberal Arts

Home to 15 departments, the College of Liberal Arts (CLA) offers students a small liberal arts college experience within a premier research university setting. The College and its departments are at the forefront of research within their various fields.

CLA is home to more than 5,000 students, both graduate and undergraduate, who learn in seminar-style classes, conduct research with award-winning faculty, and gain real-world experience in the field. Our graduates build the essential skills valued in the workplace: critical reading, careful thinking and effective communicating. Through our graduate degree programs, students in the College of Liberal Arts are equipped to become vanguards of integrated and innovative thinking.

Graduate students and faculty regularly win awards and accolades for their scholarship. Recent honors include:

- American Psychological Association (APA) Distinguished Scientific Lecturer Award
- APA Student Research Award in Clinical Psychology
- APA Toy Caldwell-Colbert Award for Distinguished Educator in Clinical Psychology
- Anxiety and Depression Association of America Clinician Trainee Award
- Fulbright Scholarship
- Goldsmith Book Prize from the Shorenstein Center on Media, Politics and Public Policy at Harvard University's Kennedy School of Government
- Lindau (Germany) Nobel Laureate Meetings invitation
- National Endowment for the Humanities Summer Institute invitation
- National Humanities Center Fellowship
- National Science Foundation Graduate Research Fellowship
- Pew Fellowship
- Society for Research in Adolescence Emerging Scholar Travel Award
- Sundance Film Festival selection

*Brian J. Hutler*, Assistant Professor, Department of Philosophy, College of Liberal Arts; PhD, University of California Los Angeles.

*Richard H. Immerman*, Professor Emeritus, Department of History, College of Liberal Arts; PhD, Boston College.

*Veronica Jacome*, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, University of California Berkeley.

*Johanna Jarcho*, Assistant Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of California Los Angeles.

*Wilbert L. Jenkins*, Associate Professor, Department of History, College of Liberal Arts; PhD, Michigan State University.

*Rhiannon Jerch*, Assistant Professor, Department of Economics, College of Liberal Arts; PhD, Cornell University.

*Jayasinhji Jhala*, Associate Professor Emeritus, Department of Anthropology, College of Liberal Arts; PhD, Harvard University.

*C. Amari Johnson*, Assistant Professor, Department of Africology and African American Studies, College of Liberal Arts; PhD, University of Texas at Austin.

*Peter R. Jones*, Professor, Department of Criminal Justice, College of Liberal Arts; PhD, Aberystwyth University.

*Priya Joshi*, Professor, Department of English, College of Liberal Arts; PhD, Columbia University.

*Joyce A. Joyce*, Professor, Department of English, College of Liberal Arts; PhD, University of Georgia.

*Artemy M. Kalinovsky*, Professor, Department of History, College of Liberal Arts; PhD, London School of Economics and Political Science.

*Andrew Karpinski*, Associate Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Michigan.

*Michael W. Kaufmann*, Associate Professor, Department of English, College of Liberal Arts; PhD, Columbia University.

*Philip C. Kendall*, Laura H. Carnell and Distinguished University Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Virginia Commonwealth University.

*Dustin Kidd*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, University of Virginia.

*Joshua Klugman*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, Indiana University.

*Robin A. Kolodny*, Professor, Department of Political Science, College of Liberal Arts; PhD, Johns Hopkins University.

*Rita Krueger*, Associate Professor, Department of History, College of Liberal Arts; PhD, Harvard University.

*Mindie Lazarus-Black*, Professor Emerita, Department of Anthropology, College of Liberal Arts; PhD, University of Chicago.

*Don Lee*, Professor, Department of English, College of Liberal Arts; MFA, Emerson College.

*Sue-Im Lee*, Associate Professor, Department of English, College of Liberal Arts; PhD, University of Illinois at Chicago.

*Michael A. Leeds*, Professor, Department of Economics, College of Liberal Arts; PhD, Princeton University.

*Mark A. Leuchter*, Professor, Department of Religion, College of Liberal Arts; PhD, University of Toronto.

*Judith A. Levine*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, Northwestern University.

*Laura S. Levitt*, Professor, Department of Religion, College of Liberal Arts; PhD, Emory University.

*Xiaojiang Li*, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, University of Connecticut.

*Vasiliki M. Limberis*, Professor Emerita, Department of Religion, College of Liberal Arts; ThD, Harvard University.

*Jay B. Lockenour*, Professor, Department of History, College of Liberal Arts; PhD, University of Pennsylvania.

*Peter Logan*, Professor Emeritus, Department of English, College of Liberal Arts; PhD, University of California Berkeley.

*Martin Lopez-Daneri*, Assistant Professor, Department of Economics, College of Liberal Arts; PhD, University of Iowa.

*Gerardo Augusto Lorenzino*, Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, Graduate Center, City University of New York.

*Kevin Loughran*, Assistant Professor, Department of Sociology, College of Liberal Arts; PhD, Northwestern University.

*Hilary Iris Lowe*, Associate Professor, Department of History, College of Liberal Arts; PhD, University of Kansas.

*Natalie Léger*, Assistant Professor, Department of English, College of Liberal Arts; PhD, Cornell University.

*Johanna Catherine Maclean*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, Cornell University.

*Peter J. Marshall*, Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Cambridge.

*Ama Mazama*, Professor, Department of Africology and African American Studies, College of Liberal Arts; PhD, La Sorbonne Nouvelle, Paris III.

*Michael S. McCloskey*, Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Southern Mississippi.

*Laura McGrath*, Assistant Professor, Department of English, College of Liberal Arts; PhD, Michigan State University.

*Alan McPherson*, Professor, Department of History, College of Liberal Arts; PhD, University of North Carolina at Chapel Hill.

*Patricia Melzer*, Associate Professor, Department of French, German, Italian and Slavic, College of Liberal Arts; PhD, Clark University.

*Jeremy Mennis*, Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, The Pennsylvania State University.

*Nichole E. Miller*, Associate Professor, Department of English, College of Liberal Arts; PhD, University of California Irvine.

*Robin N. Mitchell-Boyask*, Professor, Department of Greek and Roman Classics, College of Liberal Arts; PhD, Brown University.

*Katherina Motyl*, Assistant Professor, Department of History, College of Liberal Arts; PhD, University of Chicago.

*Gary A. Mucciaroni*, Professor, Department of Political Science, College of Liberal Arts; PhD, University of Wisconsin-Madison.

*Vishnu Murty*, Assistant Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Duke University.

*Shigenori Nagatomo*, Professor, Department of Religion, College of Liberal Arts; PhD, University of Hawaii.

*Kimani Nehusi*, Associate Professor, Department of Africology and African American Studies, College of Liberal Arts; PhD, University College of London.

*Harvey R. Neptune*, Associate Professor, Department of History, College of Liberal Arts; PhD, New York University.

*Nora S. Newcombe*, Laura H. Carnell Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Harvard University.

*Jessica M. Newman*, Assistant Professor, Department of Anthropology, College of Liberal Arts; PhD, Yale University.

*Steven L. Newman*, Associate Professor, Department of English, College of Liberal Arts; PhD, Johns Hopkins University.

*David Nickerson*, Professor, Department of Political Science, College of Liberal Arts; PhD, Yale University.

*Melissa E. Noel*, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University at Albany, State University of New York.

*Daniel T. O'Hara*, Professor Emeritus, Department of English, College of Liberal Arts; PhD, Temple University.

*Thomas Olino*, Associate Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, State University of New York at Stony Brook.

*Lauren Olsen*, Assistant Professor, Department of Sociology, College of Liberal Arts; PhD, University of California San Diego.

*Ingrid Olson*, Professor and the Thaddeus L. Bolton Chair in Psychology, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Yale University.

*Ryan Omizo*, Assistant Professor, Department of English, College of Liberal Arts; PhD, The Ohio State University.

*Laura A. Orrico*, Assistant Professor, Department of Sociology, College of Liberal Arts; PhD, University of California Los Angeles.

*Miles D. Orvell*, Professor, Department of English, College of Liberal Arts; PhD, Harvard University.

*Jena Osman*, Professor, Department of English, College of Liberal Arts; PhD, State University of New York at Buffalo.

*Lara Ostaric*, Associate Professor, Department of Philosophy, College of Liberal Arts; PhD, University of Notre Dame.

*Vinay Parikh*, Associate Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Punjabi University.

*C. Hamil Pearsall*, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, Clark University.

*José Manuel Pereiro-Otero*, Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, University of Colorado Boulder.

*Montserrat Piera*, Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, The Pennsylvania State University.

*Danya Pilgrim*, Assistant Professor, Department of History, College of Liberal Arts; PhD, Yale University.

*Mark A. Pollack*, Professor, Department of Political Science, College of Liberal Arts; PhD, Harvard University.

*Victor M. Pueyo Zoco*, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, State University of New York at Stony Brook.

*Elver Sergio Ramirez-Franco*, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, University of Pittsburgh.

*Jerry H. Ratcliffe*, Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University of Nottingham (UK).

*Leslie A. Reeder-Myers*, Assistant Professor, Department of Anthropology, College of Liberal Arts; PhD, Southern Methodist University.

*Aunshul P. Rege*, Associate Professor, Department of Criminal Justice, College of Liberal Arts; PhD, Rutgers University.

*Terry Rey*, Professor, Department of Religion, College of Liberal Arts; PhD, Temple University.

*Monica Ricketts*, Associate Professor, Department of History, College of Liberal Arts; PhD, Harvard University.

*Moritz Ritter*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, University of Toronto.

*L. Christie Rockwell*, Associate Professor, Department of Anthropology, College of Liberal Arts; PhD, University of California Davis.

*Caterina Gouvis Roman*, Professor, Department of Criminal Justice, College of Liberal Arts; PhD, American University.

*Jessica Roney*, Associate Professor, Department of History, College of Liberal Arts; PhD, Johns Hopkins University.

*Christina Rosan*, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, Massachusetts Institute of Technology.

*Cathryn Jo Rosen*, Associate Professor, Department of Criminal Justice, College of Liberal Arts; LLM, Temple University.

*Eileen Ryan*, Associate Professor, Department of History, College of Liberal Arts; PhD, Columbia University.

*James Salazar*, Associate Professor, Department of English, College of Liberal Arts; PhD, University of California Berkeley.

*Michael W. Sances*, Associate Professor, Department of Political Science, College of Liberal Arts; PhD, Massachusetts Institute of Technology.

*Viviane Sanfelice*, Assistant Professor, Department of Economics, College of Liberal Arts; PhD, University of Rochester.

*Joseph M. Schwartz*, Professor Emeritus, Department of Political Science, College of Liberal Arts; PhD, Harvard University.

*Jacob Shell*, Associate Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, Syracuse University.

*Adam Joseph Shellhorse*, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, University of California Berkeley.

*Thomas F. Shipley*, Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Pennsylvania.

*Pedro Silos*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, University of Iowa.

*Bryant Simon*, Laura H. Carnell Professor, Department of History, College of Liberal Arts; PhD, University of North Carolina at Chapel Hill.

*Alan S. Singer*, Professor Emeritus, Department of English, College of Liberal Arts; PhD, University of Washington.

*Aaron X. Smith*, Assistant Professor, Department of Africology and African American Studies, College of Liberal Arts; PhD, Temple University.

*David V. Smith*, Assistant Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Duke University.

*Hillel David Soifer*, Associate Professor, Department of Political Science, College of Liberal Arts; PhD, Harvard University.

*Miriam Solomon*, Professor, Department of Philosophy, College of Liberal Arts; PhD, Harvard University.

*Howard Spodek*, Professor Emeritus, Department of History, College of Liberal Arts; PhD, University of Chicago.

*Gerald J. Stahler*, Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, Temple University.

*Damien Stankiewicz*, Associate Professor, Department of Anthropology, College of Liberal Arts; PhD, New York University.

*Jessica Stanton*, Associate Professor, Department of Political Science, College of Liberal Arts; PhD, Columbia University.

*Laurence D. Steinberg*, Laura H. Carnell and Distinguished University Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Cornell University.

*William J. Stull*, Professor, Department of Economics, College of Liberal Arts; PhD, Massachusetts Institute of Technology.

*Sandra L. Suárez*, Professor, Department of Political Science, College of Liberal Arts; PhD, Yale University.

*Charles E. Swanson*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, University of Minnesota.

*Benjamin Talton*, Professor, Department of History, College of Liberal Arts; PhD, University of Chicago.

*Ronald D. Taylor*, Associate Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Michigan.

*Rebecca Tesfai*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, University of Pennsylvania.

*Kimberley Thomas*, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, Rutgers University.

*Barbara E. Thornbury*, Professor, Department of Asian and Middle Eastern Languages and Studies, College of Liberal Arts; PhD, University of British Columbia.

*Teshale Tibebe*, Professor, Department of History, College of Liberal Arts; PhD, State University of New York at Binghamton.

*Olga Timoshenko*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, Yale University.

*Paul D. Toth*, Associate Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, University of Pittsburgh.

*Kathleen S. Uno*, Associate Professor, Department of History, College of Liberal Arts; PhD, University of California Berkeley.

*Gregory J. W. Urwin*, Professor, Department of History, College of Liberal Arts; PhD, University of Notre Dame.

*Jane Vaynman*, Assistant Professor, Department of Political Science, College of Liberal Arts; PhD, Harvard University.

*Lawrence Venuti*, Professor Emeritus, Department of English, College of Liberal Arts; PhD, Columbia University.

*Pablo S. Vila*, Professor, Department of Sociology, College of Liberal Arts; PhD, University of Texas at Austin.

*Wilson Vincent*, Assistant Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Georgia State University.

*Gerald A. Vision*, Professor Emeritus, Department of Philosophy, College of Liberal Arts; PhD, University of Michigan.

*E. Rely Vilcicã*, Associate Professor, Department of Criminal Justice, College of Liberal Arts; PhD, Temple University.

*Thomas J. Waidzunas*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, University of California San Diego.

*Shannon Walters*, Associate Professor, Department of English, College of Liberal Arts; PhD, The Pennsylvania State University.

*Jeffrey T. Ward*, Associate Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University of Florida.

*Douglas Webber*, Associate Professor, Department of Economics, College of Liberal Arts; PhD, Cornell University.

*Marsha A. Weinraub*, Professor Emerita, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Michigan.

*Robert W. Weisberg*, Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, Princeton University.

*Charles A. Weitz*, Professor, Department of Anthropology, College of Liberal Arts; PhD, The Pennsylvania State University.

*Susan Wells*, Professor Emerita, Department of English, College of Liberal Arts; PhD, University of Texas at Austin.

*Wayne N. Welsh*, Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University of California Irvine.

*Sydney D. White*, Associate Professor, Department of Religion, College of Liberal Arts; PhD, University of California Berkeley.

*Kimberly D. Williams*, Associate Professor, Department of Anthropology, College of Liberal Arts; PhD, The Ohio State University.

*Roland L. Williams Jr.*, Professor, Department of English, College of Liberal Arts; PhD, University of Pennsylvania.

*Mathieu E. Wimmer*, Assistant Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of Pennsylvania.

*Steven Windisch*, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University of Nebraska.

*Celeste M. Winston*, Assistant Professor, Department of Geography and Urban Studies, College of Liberal Arts; PhD, City University of New York.

*David Wolfsdorf*, Professor, Department of Philosophy, College of Liberal Arts; PhD, University of Chicago.

*Jennifer D. Wood*, Professor, Department of Criminal Justice, College of Liberal Arts; PhD, University of Toronto.

*Alese Wooditch*, Associate Professor, Department of Criminal Justice, College of Liberal Arts; PhD, George Mason University.

*Matt Wray*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, University of California Berkeley.

*Hongling Xie*, Associate Professor, Department of Psychology and Neuroscience, College of Liberal Arts; PhD, University of North Carolina at Chapel Hill.

*Sean Yom*, Associate Professor, Department of Political Science, College of Liberal Arts; PhD, Harvard University.

*Amarat Zaatut*, Assistant Professor, Department of Criminal Justice, College of Liberal Arts; PhD, Rutgers University.

*Janire Zalbidea*, Assistant Professor, Department of Spanish and Portuguese, College of Liberal Arts; PhD, Georgetown University.

*Lu Zhang*, Associate Professor, Department of Sociology, College of Liberal Arts; PhD, Johns Hopkins University.

*Shanyang Zhao*, Professor, Department of Sociology, College of Liberal Arts; PhD, University of Maryland.

*Yun Zhu*, Associate Professor, Department of Asian and Middle Eastern Languages and Studies, College of Liberal Arts; PhD, University of South Carolina.

*Adam Ziegfeld*, Associate Professor, Department of Political Science, College of Liberal Arts; PhD, Massachusetts Institute of Technology.

## Africology and African American Studies MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Africology and African American Studies.

### About the Program

The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to critically examine, analyze and interpret the experiences, traditions and dynamics of people of African descent. The department's undergirding philosophy is that the specific historical experiences of a people must

be the central axis guiding and informing any effective analysis and interpretation of that people's past, present and future.

Our graduate program is informed by the Afrocentric paradigm in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community.

The MA program seeks to answer the personal and intellectual aspirations of the student and the particular needs of society that are not satisfied by a baccalaureate degree. Thus, the MA provides more specialized study in Africology and African American Studies than the BA or BS degree and often serves as the terminal degree. It is the goal of the department that graduates with an MA in Africology and African American Studies be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora. The MA also serves as a strong foundation for those who intend to apply to the PhD program.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Although the program is firmly grounded in the Afrocentric paradigm, students may be encouraged or required by their advisors to take courses in other departments in order to enhance or supplement their program of study.

**Affiliation(s):** Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; Caribbean Studies Association (CSA); College Language Association (CLA); Haitian Studies Association (HSA); Modern Language Association (MLA); National Council for Black Studies (NCBS); Pennsylvania Humanities Council; TESOL International Association; and Temple University's Young Scholars Program.

**Study Abroad:** The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the master's degree.

**Accreditation:** This program is accredited by the National Council for Black Studies.

**Areas of Specialization:** Faculty specialize, offer substantial coursework, and mentor in a variety of areas, including:

- African and African American History
- African and African American Literature
- African American Drama
- African American Homeschooling
- African American Psychology
- African Civilizations

- African Languages
- African Spiritual Systems
- Afrocentric Education
- Afrocentric Theory
- Caribbean Culture and History
- Cultural Studies
- Ethnographic Methods
- Gender Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Social and Political Thought

**Job Prospects:** Graduates of the MA program in Africology and African American Studies find employment in a variety of public and private sector areas, including arts and humanities, business, social services and teaching. Many secondary school teachers desire to enhance their skills by obtaining an MA degree in Africology and African American Studies.

**Non-Matriculated Student Policy:** A non-matriculated student may take a maximum of 9 credits in the department. Those credits may be applied to the degree if the student applies and is admitted to the degree program. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 15  
*Spring:* November 1

Applications for admission are processed together shortly after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation are preferred from college/university professors who have taught or worked with the applicant in their major or minor area of concentration.

**Coursework Required for Admission Consideration:** An applicant is expected to have a sound academic background in Africology and African American Studies.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 500 to 1,000 words, share your specific interest in Temple's Department of Africology and African American Studies; your research goals as they relate to Africology and African American Studies and to the social relevance of the discipline; your future career goals; and your academic and research achievements.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Interview:** An interview may be required.

**Writing Sample:** The writing sample should demonstrate the student's ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

**Transfer Credit:** During the first term of enrollment at Temple, incoming graduate students may apply to have graduate credits taken at other accredited institutions count toward completion of the degree. Grades of transfer courses must be "B" or better. After consultation with and approval of the advisor, the student must submit to the Graduate Committee:

1. a letter specifying the course(s) the student wishes to have considered for credit toward the MA or PhD as well as the corresponding Temple course related to the transfer course; and
2. supporting documents (i.e., syllabi, course descriptions from college catalogs, a letter from the transfer course instructor or department) showing the overlap by which the course covers material from Temple courses.

The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Didactic Credits Required Beyond the Baccalaureate:* 30

### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
AAAS 8002	African Civilizations	3
AAAS 8004	Theories and Methods in African American Studies	3
AAAS 8009	The Afrocentric Paradigm	3
<b>Electives</b>		<b>21</b>
<b>Total Credit Hours</b>		<b>30</b>

### Culminating Events:

Students have the option of completing the program with either a written comprehensive examination or a thesis.

### Comprehensive Examination:

The comprehensive examination is intended to probe the student's knowledge of content, literature, theory/methodology and methods in Africology and African American Studies and to test the student's ability to apply theoretical issues to praxis. It is a proctored, closed book, 6-hour written examination. Students may not use a computer or any other

electronic device for the examination unless there is a documented medical necessity.

The MA comprehensive exam covers the content, theories and paradigms of the discipline and/or relevant coursework that students may have taken. Students must take the comprehensive exam after completing all required coursework. The student must answer every question on the examination in order to be evaluated. The evaluators look for content mastery and coherent application of the discipline's theories and paradigms.

The comprehensive examination is offered twice a year: the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student must schedule their examination with the Graduate Secretary after consultation with their advisor at least one month in advance of the exam date. In order to arrange an examination date, the student must be sure that their record is free of encumbrances that would prevent them from meeting University requirements for taking the examination. In addition, the student intending to take the exam must ensure that all of their coursework has been completed in the previous term.

The Examination Committee prepares and administers the student's written MA comprehensive exam. Students are advised to choose an Examination Committee at the beginning of their final term. They should consult with their graduate advisor to select the second member of the committee and set the date for the comprehensive exam. The Examination Committee is composed of two Graduate Faculty from the Department of Africology and African American Studies, one of whom is the major advisor who will write one half of the questions, while the other committee member will provide the remaining questions.

The Examination Committee evaluates the answers. The Graduate Director notifies the student of the comprehensive exam results no later than five weeks after completion of the exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The MA student may receive a master's degree when all other departmental and University requirements are met.
2. Fail: The MA student is not awarded the MA degree, and the student may retake the exam once.
3. Fail/Termination: The MA student has failed to pass the written examination a second time and is terminated from graduate status in the department.

#### *Thesis:*

Students who choose to complete a thesis are given the opportunity to demonstrate specialized knowledge and their ability to do original research in Africana studies. The student must have completed at least 27 hours of coursework, including the core. The student then registers for AAAS 9996 Master's Thesis and completes a Master's Thesis Option form, duly signed by the student and the designated advisor. The student must work with the advisor to produce and successfully defend a thesis on an approved topic. The student then meets the requirements for submission of the approved thesis to the Graduate School, as stipulated in the Final Checklist section of the *Dissertation and Thesis Handbook* at <https://grad.temple.edu/resources/dissertation-thesis-handbook>.

## Africology and African American Studies PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Africology and African American Studies.

## About the Program

The mission of the Department of Africology and African American Studies is to provide an intellectual arena in which students learn to critically examine, analyze and interpret the experiences, traditions and dynamics of people of African descent. The department's undergirding philosophy is that the specific historical experiences of a people must be the central axis guiding and informing any effective analysis and interpretation of that people's past, present and future.

Our graduate program is informed by the Afrocentric paradigms in relation to other perspectives in Africana studies. The program reflects a deeply ingrained commitment to the self-directed study of African peoples and has benefited from a variety of conceptual and political inputs from diverse, but fully committed, faculty participation as well as invaluable contributions from the community. It is the goal of the department that graduates of our PhD program be prepared to engage in a diverse range of intellectual issues that affect the lives of Africans on the continent and in the diaspora.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The majority of courses are offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Advisors may encourage or require students to take courses in other departments in order to enhance their research agenda. Students must obtain prior approval from their major advisor for any courses taken outside the Department of Africology and African American Studies that they want to use to fulfill departmental requirements. However, for personal and intellectual enrichment, a student may take as many external courses as desired.

**Affiliation(s):** Faculty are affiliated with a variety of professional organizations such as the African Heritage Studies Association (AHSA); African Literature Association; African Studies Association (ASA); American Anthropological Association (AAA); Association of Black Women Historians (ABWH); Association for the Study of African American Life and History (ASALH); Association for the Study of Classical African Civilizations (ASCAC); Black History Advisory Committee of the Pennsylvania Historical and Museum Commission; Caribbean Studies Association (CSA); College Language Association (CLA); Haitian Studies Association (HSA); Modern Language Association (MLA); National Council for Black Studies (NCBS); Pennsylvania Humanities Council; TESOL International Association; and Temple University's Young Scholars Program.

**Study Abroad:** The department offers study abroad in the Temple University Ghana program. A maximum of 6 credits may be applied toward the doctoral degree.

**Accreditation:** This program is accredited by the National Council for Black Studies.

**Areas of Specialization:** Applicants to the PhD program should have a clearly articulated research interest that fits within the department's faculty expertise. Africology and African American Studies is a discipline that draws from diverse academic fields. Most research areas fall into two general categories: the cultural aesthetic, which engages interests in the humanities, particularly history, literature and the performing arts; and the social behavioral, in which issues may be addressed under the

broad domains of sociology, psychology, political science, philosophy, anthropology and the like. Faculty specialize, offer substantial coursework and mentor in a variety of areas, including:

- African and African American History
- African and African American Literature
- African American Drama
- African American Homeschooling
- African American Psychology
- African Civilizations
- African Languages
- African Spiritual Systems
- Afrocentric Education
- Afrocentric Theory
- Caribbean Culture and History
- Cultural Studies
- Ethnographic Methods
- Gender Studies
- Linguistics
- Mass Media
- Narrative Tradition
- Popular Culture
- Research Methods
- Social and Political Thought

**Job Prospects:** Graduates of the PhD program in Africology and African American Studies generally find employment based on their area of concentration in academia, college and university administration, or public and private high school administration; the entertainment industry; the fields of criminal justice, journalism, public relations or social work; local, state and federal government; or nonprofit organizations.

**Non-Matriculated Student Policy:** Non-matriculated students who desire to take courses at the PhD level in the Department of Africology and African American Studies must first submit an academic transcript to the department's Graduate Director for review. The prospective non-matriculated student then receives a letter stating whether or not they are approved to take courses in the department. A maximum of 9 credits may be applied toward a degree if the student later matriculates. Non-matriculated students may not take AAAS 9982 Individual Research in African American Studies.

**Financing Opportunities:** The department offers a limited number of assistantships on a highly competitive basis. The awards usually involve teaching or assisting one or more faculty with instructional duties. Teaching Assistants receive a stipend and full tuition remission of up to 9 credits. The applicant must have a grade point average of 3.5 or better and strong letters of recommendation.

## Admission Requirements and Deadlines

**Application Deadline:**

**Coursework Required for Admission Consideration:** An applicant is expected to have a sound academic background in Africology and African American Studies.

**Master's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate master's degree at Temple University.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 500 to 1,000 words, share your specific interest in Temple's Department of Africology and African American Studies; your research goals as they relate to Africology and African American Studies and to the social relevance of the discipline; your future career goals; and your academic and research achievements.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Interview:** An interview may be required.

**Writing Sample:** The writing sample should demonstrate the student's ability to conduct research and to write a scholarly paper relevant to the discipline. The paper should be no more than 20 pages in length and fully referenced according to a professional, scholarly style manual.

**Transfer Credit:** During the first term of enrollment at Temple, incoming graduate students may apply to have graduate credits taken at other accredited institutions count toward completion of the degree. Grades of transfer courses must be "B" or better. After consultation with and approval of the advisor, the student must submit to the Graduate Committee:

1. a letter specifying the course(s) the student wishes to have considered for credit toward the PhD as well as the corresponding Temple course related to the transfer course; and
2. supporting documents (i.e., syllabi, course descriptions from college catalogs, a letter from the transfer course instructor or department) showing the overlap by which the course covers material from Temple courses.

The maximum number of credits a student may transfer is 18.

## Program Requirements

**General Program Requirements:**

Number of Credits Required to Earn the Degree: 51

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
AAAS 8002	African Civilizations	3
AAAS 8004	Theories and Methods in African American Studies	3
AAAS 8008	Ethnographic Methods	3
AAAS 8009	The Afrocentric Paradigm	3
AAAS 9642	Seminar in African American Social Philosophy	3
<b>Electives</b>		<b>30</b>
<b>Research Courses</b>		<b>6</b>
AAAS 9994	Preliminary Examination Preparation	
AAAS 9998	Pre-Dissertation Research	
AAAS 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>51</b>

**Language Examination:** The language requirement in Africology and African American Studies is intended to ensure that students have a working familiarity with a language and culture other than English and/or their native language. The PhD student may take the exam at any time, but must pass it before taking the preliminary examination. The student who has English as a second language may use English to fulfill the language requirement. With the recommendation of the advisor, a student may demonstrate competency in Statistics to fulfill the language requirement. The language examination must be administered and graded by a college/university affiliated or certified instructor in the exam language, but may not be from the Department of Africology and African American Studies. The results must be forwarded on letterhead attesting to the examiner's credentials. Temple University's various language departments offer non-credit language courses and administer examinations for graduate students needing to fulfill the language requirement.

**Culminating Events:**

*Preliminary Examination:*

The preliminary examination is intended to probe the student's knowledge of content, literature, theory/methodology and methods in Africology and African American Studies and to test the student's ability to apply theoretical issues to praxis. It is a proctored, closed-book, 12-hour written examination administered by the student's Examination Committee. Students are expected to take the preliminary examination upon completion of the coursework component of the program and upon satisfactory completion of the language requirement.

The student is strongly advised to choose an Examination Committee at the beginning of the term in which the last course is taken. The student should consult with their graduate advisor in selecting members of the Examination Committee and in setting the date for the exam. The student should then write to prospective members requesting that they serve on the committee. In the letter, the student should mention the course(s) taken with the professor, and include a copy of their statement of research interests and career goals. The faculty member should notify the student's advisor in writing of their agreement to serve on the committee.

The subject areas are chosen by the Examination Committee. Particular reading lists or specific materials may be suggested for review before the exam. The student's major advisor composes six hours of the examination, and the other members compose the balance. Examiners submit exam items directly to the Graduate Director. In order to take the exam, the student must register for AAAS 9994 Preliminary Examination Preparation.

The preliminary examination is offered twice a year: during the first week of April and the first week of November. The hours of the exam are from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. The student should notify the Graduate Secretary of their intention to take the examination at least one month in advance after consultation with their advisor. The Graduate Secretary checks to ensure the student's records are free of encumbrances that would prevent them from meeting University requirements for taking the exam. If the student meets all requisites, the Graduate Secretary advises the student's Examination Committee that the exam will take place on the planned date.

Each member of the Examination Committee evaluates the student's exam question(s). The Graduate Director notifies the student of the preliminary exam results no later than five weeks after completion of the exam. Based on the quality of the examination results, the Examination Committee may make one of the following determinations:

1. Pass: The student passes the exam and may now write their dissertation proposal.
2. Fail: The student fails the written and/or oral examination, but may retake part or all of the examination once.
3. Fail/Termination: The student fails the written examination for the second time, may not retake the exam, and is dismissed from the program.

*Dissertation Proposal:*

The formal research proposal, usually at least 30 pages long, presents a plan for increasing the knowledge base in the discipline. The student works in concert with the Chair of the Doctoral Advisory Committee (DAC) to fine-tune the proposal. With the Chair's approval, the student submits the proposal to the other committee members who make suggestions for changes. When the entire committee is satisfied with the proposal, the student makes an oral presentation and defends the proposal, where other suggestions to strengthen the proposal can be made. After a successful oral defense, the proposal is submitted to the Graduate School, along with the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found in TUportal under the Tools tab within "University Forms."

*Dissertation:*

The dissertation is an original and definitive empirical study that makes a significant contribution to the field of Africology and African American Studies. It should add to the knowledge of one or more areas either by uncovering new information, providing an innovative synthesis of existing information, propounding a new theory, fine-tuning an existing theory, or offering a new interpretation substantiated by data. The length of the dissertation varies but should be in excess of 150 pages.

The DAC guides the candidate's doctoral research. This committee offers regular advice and expertise as the student collects data, researches, and writes the proposal and dissertation. The DAC must include at least three Graduate Faculty members from Temple University; two of them, including the Chair, must be from the Department of Africology and African American Studies. The DAC may be expanded to include other Temple University faculty (from within or outside the department) and/or

doctorally prepared experts from outside the University, provided that a majority of the committee members are Graduate Faculty members.

The function of the Dissertation Examining Committee (DEC) is to evaluate the dissertation and the student's performance in the oral defense to decide whether the candidate passes or fails. All members of the DEC must be physically present for the oral defense. Exceptions must be specifically approved in writing by the Graduate School. The DEC is composed of the DAC plus at least one additional reader who may be a Graduate Faculty member from Temple or another university, but cannot be a member of the Department of Africology and African American Studies.

A student must have an advisor at all times. However, it is possible that as the student's interests develop, they may find it desirable to change major advisors and/or advisory committees. The advisee/advisor relationship can be terminated by mutual consent with a note to the Graduate Director signed by both parties or by either party through negotiation with the Graduate Director, who must not at the time be serving as a member of the DAC. When the Graduate Director is also a member of the committee, then another member of the Graduate Faculty, appointed by the Department Chair, should serve as the negotiator between the student and the committee member. The student must complete a "Change of Advisor" form, which may be obtained from the Graduate Secretary. Once a defense date is set, no changes can be made in major advisor or committee membership.

When the Chair of the committee is satisfied with the dissertation draft, the Chair advises the student to distribute it to the other members of the committee. When the entire committee is satisfied with the draft, the student and Chair decide on an examination date. At the conclusion of the dissertation defense, the DEC may recommend either that the candidate passes or fails. After the student passes the dissertation defense, certification forms are signed by the committee members and forwarded to the Graduate School. Failure may call for substantial revisions and a new defense.

Students who are preparing to defend their dissertation should confirm a time and date with their DEC and register with the Graduate Secretary. The Graduate Secretary arranges for the room; prepares the appropriate forms; sends copies of the announcement to the Graduate School and departmental Graduate Faculty; and posts the announcement on public bulletin boards. Every dissertation defense must be publicly announced in writing at least 10 working days prior to the defense and must be open to the academic community.

## Anthropology MA

COLLEGE OF LIBERAL ARTS

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Anthropology PhD

COLLEGE OF LIBERAL ARTS

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Applied Sociology PSM

COLLEGE OF LIBERAL ARTS

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Business Economics MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Business Economics.

### About the Program

The MA in Business Economics prepares the student to understand contemporary economic theory and its application to problems arising in industry, business and government. Students completing the program have the opportunity to sit for the certification exam to become a Certified Business Economist® (CBE).

**Time Limit for Degree Completion:** 3 years, although a student whose advisor certifies that satisfactory progress is being made may apply for an extension of the program for up to a maximum of 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 5:30 p.m. The degree program can be completed on a full- or part-time basis.

**Job Prospects:** The program is primarily dedicated to producing well-trained researchers and managers in the field of Economics. Many students go on to enter business and work in public policy.

**Licensure/Certification:** Students completing the program have the potential to sit for the Certified Business Economist® (CBE) examination. Developed and administered by the National Association for Business Economics (NABE), the CBE exam is based on an advanced body of knowledge that reflects the most relevant information and core competencies demanded by today's top employers.

The CBE designation is earned by demonstrating a mastery of applied economics and data analytics. The CBE exam constitutes a comprehensive multiple-choice assessment that tests a candidate's practical and applied knowledge of:

- Applied Econometrics
- Business Applications of Statistics and Data Analytics
- Economic Measurement
- Economics of Strategy and Managerial Decision Making
- Foundations of Macroeconomics/Microeconomics

For more information on the exam and certification, visit <https://www.nabe.com/cbe>.

**Non-Matriculated Student Policy:** Students may enroll in up to 9 credits with the permission of the Graduate Director. Minimum undergraduate GPA requirements apply.

**Financing Opportunities:** Financial aid may be available to students through the University. For information on financial aid, please contact Student Financial Services at 215-204-2244.

### Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* March 1, 2025

*Spring:* November 1, 2025

**\*\* APPLICATIONS will first be accepted for this upcoming program for FALL 2025 ADMISSION \*\***

Although students are admitted in both the Fall and Spring terms, applicants without previous graduate coursework in Economics are advised to apply for the Fall. Spring admission will only be granted when the student has taken the typical Fall term classes as a non-matriculated student. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required: 3*

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence and/or immediate work supervisor.

**Coursework Required for Admission Consideration:** Details on appropriate background are available from the department upon request.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. Details on appropriate disciplines are available from the department.

**Statement of Goals:** In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, research goals, future career goals, and academic and research achievements.

**Standardized Test Scores:**

GRE: Required. Scores are typically in the 60th to 99th percentile on the quantitative section and in the 45th to 99th percentile on the verbal section.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Transfer Credit:** A grade of "B" or better must have been earned in a peer MA program course in order for the credit to transfer. The maximum number of credits a student may transfer is 6.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate: 30*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ECON 5011	Quantitative Methods in Economics	3
ECON 5113	Data Analytics for Economists	3
ECON 5201	Microeconomic Theory	3
ECON 5202	Macroeconomic Theory with Calculus	3
ECON 5901	Masters Writing Seminar	3
ECON 8009	Econometrics I <sup>1</sup>	3

<b>Electives</b> <sup>2</sup>	<b>12</b>
<b>Total Credit Hours</b>	<b>30</b>

1

Students with no undergraduate background in econometrics must first take ECON 5203 Introduction to Econometrics.

2

Students who plan to take the Certified Business Economist® exam offered by the National Association for Business Economics (NABE) must take ECON 5538 Economic Operations and Strategy as one of their electives.

**Culminating Event:** Successful completion of coursework is required to earn the MA in Business Economics degree.

## Creative Writing MFA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Fine Arts in Creative Writing.

## About the Program

The MFA program in Creative Writing provides fiction writers and poets with an opportunity to develop their craft and extend the horizon of their thinking about the genre in which they work. Workshops and other graduate courses in creative writing are the core of the program.

For greater detail, visit <https://liberalarts.temple.edu/academics/departments-and-programs/english/graduate/creative-writing/creative-writing-mfa>. Additional details are also available by downloading the MFA Information Packet.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed in two years with full-time study. Students who engage in part-time study may take up to three years to complete the degree. Classes are generally held during the day.

**Interdisciplinary Study:** With permission of the Program Director, students may take two literature, writing, arts, humanities or social science courses and one elective in departments outside of the English Department.

**Study Abroad:** Creative Writing students previously had the option to enroll in a 6-credit seminar in Art and Culture in Rome during the Summer term. The seminar entailed an intensive program of classwork, field trips and guest lectures. This course is now only offered infrequently.

**Areas of Specialization:** The program provides a combination of small, intensive workshops in poetry and fiction, in addition to one-on-one tutorials and craft and special topics courses in Creative Writing. Temple has an excellent faculty of writers in both genres, representing a wide range of aesthetics. To learn more about the faculty, see <https://liberalarts.temple.edu/about/faculty-staff/program/creative-writing-graduate-program/>.

**Job Prospects:** Graduates have become published authors and have been hired as faculty members at colleges and universities. Others have gone on to become editors in the field of publishing, Web content writers and editors, arts administrators, journalists, librarians, copywriters, grant writers, and primary and secondary school teachers, and have obtained jobs in advertising, communications, marketing and public relations. Books written by our graduates have been published by trade and small presses and cover all genres. These works have won grants, prizes and residencies.

**Non-Matriculated Student Policy:** Writers (or graduate students from other departments at Temple) who wish to take a class in the MFA program on a non-matriculated basis should inquire about the possibility first, emailing [mfaapplications@temple.edu](mailto:mfaapplications@temple.edu) at least two weeks before the start of the academic term about a specific course. Search Temple's class schedule by selecting the term, then "English" and "Graduate." If there is space and the instructor is amenable, you will most likely be asked for a writing sample and other information for further consideration. Upon admission to the program, non-matriculated students may transfer up to 9 credits for courses in which a grade of "B" or higher was earned.

**Financing Opportunities:** On average, the MFA program in Creative Writing is able to fund 40% of its students with Teaching Assistantships or University Fellowships. These funding packages are awarded on a

competitive basis. If you are admitted to the Creative Writing program, you will automatically be considered for an assistantship or fellowship.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* February 15

All materials should be submitted by February 15. If you would like to be considered for a teaching assistantship or fellowship, please submit your materials by December 15. Applications submitted after December 15 will still be considered for a teaching assistantship or fellowship, but those meeting the initial deadline will be prioritized.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from professors or work supervisors who can comment on your performance in previous academic, creative and/or professional roles.

**Coursework Required for Admission Consideration:** Although not required, we prefer applicants to the MFA program in Creative Writing to hold a bachelor's degree in English or creative writing or to have taken a significant number of workshops or literature classes as an undergraduate. However, in the past, students without this background have performed well in the program. Therefore, we consider the entire application package in our admission decisions.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required, although it need not be in Creative Writing or English. An applicant must, however, display evidence of talent as a fiction writer or poet. A minimum undergraduate GPA of 3.0 is required for admission.

**Statement of Goals:** In two to four double-spaced pages, discuss literary influences and models that feed your creative work. We are interested in which writers and texts have been important to you in recent years, as well as what critical approaches, if any, you have found useful. Describe your work or teaching experience. Discuss your aims in attending an MFA program. Mention what attracts you to Temple's program and whether you are familiar with Philadelphia. Give us a sense of who you are—a more detailed, personal picture than what can be gleaned from transcripts or resumes, especially if you have a non-traditional background or atypical undergraduate record.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** A personal resume or curriculum vitae is required. Work experience, whether academic or non-academic, is as important as any publishing credits, particularly since the latter is not required or expected at this stage of the applicant's career. The resume/CV should identify

institutions, positions, duties and dates for all teaching and/or tutoring experience listed.

**Writing Sample:** Your writing sample is the most crucial single element of your application. Send a packet of writing in one genre only: poetry or fiction. For poetry, submit ten pages. These pages may include shorter poems, longer poems, and/or an excerpt from a longer project. Individual poems should be separated by page breaks, not run together. Poems may be single-spaced or formatted in whatever way you see fit. For fiction, send a total of 15 to 25 double-spaced pages. The pages may include a single story, a series of stories, and/or an excerpt from a longer work. Please identify the excerpt as part of a long story, novella, novel or hybrid work. For applicants in either genre, if you would like to include a critical essay in addition to the creative sample, please feel free to do so.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate: 33*

#### Required Courses:

Code	Title	Credit Hours
4	workshops	12
3	craft, manuscript tutorial, or special topics courses	9
2	literature, writing, arts, humanities, or social science courses	6
1	elective <sup>1</sup>	3
ENG 9995	Master's Project	3
<b>Total Credit Hours</b>		<b>33</b>
1		

Those who hold a Teaching Assistantship must take a Practicum in Composition Theory as their elective.

### Culminating Events:

#### *Comprehensive Examination:*

The comprehensive examination is intended to give students an opportunity to write about the historical and formal context of the literary genre in which they practice. For the exam, they write a 10 to 15 page essay.

The exam is due between the third and fourth terms of the program on the Friday immediately preceding the day on which the Spring term begins. The paper should address issues of craft and aesthetics, but may include other points of reference. The essay should demonstrate a facility for critical discourse and indicate a breadth of knowledge of literary traditions.

Each exam is graded by two members of the Creative Writing Graduate Faculty. Students pass the exam by writing cogent, well-argued, and stylistically polished arguments.

#### *Master's Project:*

The master's project is intended to be a work of fiction (at least 100 pages) or a work of poetry (at least 50 pages) that reflects an aesthetically and intellectually sophisticated example of the genre in which the student has worked over the course of the program. The project is due on the second Tuesday in April of the student's fourth term.

The master's project is graded exclusively by members of the Creative Writing Graduate Faculty. Two readers must agree that the project

passes. If there is a conflict, the Director of the Graduate Creative Writing Program adjudicates the decision. A project defense is not required.

## Criminal Justice MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Criminal Justice.

### About the Program

The MA program in Criminal Justice is designed to serve as a first stage of training for students wishing to eventually pursue more advanced graduate work. It also prepares students who will terminate their studies at the master's level. For the latter group, including many engaged in part-time study, the MA program is designed to serve students who, upon graduation, will begin or rejoin professional careers in management, administration or specialist positions in governmental and private criminal and juvenile justice and related agencies. The MA degree requires the completion of 30 credits. The curriculum is structured around a set of core requirements that provides substantive grounding in decision-making and operational aspects of the criminal justice system, and a theoretical, legal, policy and methodological foundation for understanding crime and society.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis. Those engaged in part-time study take 8 or fewer credits per term. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice MA program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

**Ranking:** In the 2021 rankings by *U.S. News & World Report*, Temple University's Criminal Justice program was rated 14th in Criminology. In addition, *The Chronicle of Higher Education's* Faculty Scholarly Productivity Index identifies the faculty of the Criminal Justice department as the sixth most productive among all doctoral programs in Criminology and Criminal Justice.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in a wide array of areas, including:

- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policy making and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

**Job Prospects:** The MA program is primarily dedicated to producing well-trained criminologists, researchers and criminal justice practitioners. The job market for an individual with a master's degree in the field is extremely good. Some graduate students advance their career while completing coursework, while others are hired at the completion of their degree. Graduates of the MA program have obtained positions in the criminal justice system, including criminal or juvenile courts, institutional and community-based agencies, and state and federal police agencies. Careers are also possible in government, planning, public administration, research, teaching or community activism.

**Non-Matriculated Student Policy:** Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program.

**Financing Opportunities:** Students in the MA program cannot be awarded Teaching Assistantships. Occasionally, however, funded research opportunities become available for which MA students are eligible.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1

Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the demands of a graduate program.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology or a related field is required.

**Statement of Goals:** In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, research goals, future career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.

**Transfer Credit:** Students with graduate course credits from other accredited institutions should petition the Graduate Chair to determine the acceptance and transferability of coursework. Grades must be of "B" quality or better. The maximum number of credits a student may transfer is 6.

## Criminal Justice PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Criminal Justice.

## About the Program

The PhD degree program in Criminal Justice is designed to produce criminal justice scholars who will lead the field in academia, private and governmental research agencies, and policy-level positions in criminal justice and related organizations. The PhD degree requires the completion of a minimum of 48 hours of coursework post-baccalaureate, although students may take additional courses to prepare themselves for subsequent stages of their post-graduate career.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Doctoral students are expected to be enrolled full-time. Part-time students are accepted in exceptional circumstances. Students should note that classes are scheduled both during the day and evening as scheduling demands. Students are expected to be available for classes when they are scheduled.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research and interactions among faculty and students with interests in a wide range of fields. Many of the students entering the Criminal Justice PhD program have backgrounds in Counseling, Economics, Geography, History, Political Science, Psychology, Social Work, Sociology, and Urban Studies.

**Ranking:** In the 2021 rankings by *U.S. News & World Report*, Temple University's Criminal Justice program was rated 14th in Criminology. In addition, *The Chronicle of Higher Education's* Faculty Scholarly Productivity Index identifies the faculty of the Criminal Justice department as the sixth most productive among all doctoral programs in Criminology and Criminal Justice.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in a wide array of areas, including:

- Corrections and community corrections
- Court processes
- Crime and the physical/social environment
- Criminal justice policy making and strategic management
- Criminal law
- Criminological theory
- Discretion in criminal justice
- Issues in policing
- Juvenile justice
- Organized crime
- Qualitative/quantitative research methods
- Restorative justice
- Socialization and deviant behavior
- Statistical analysis
- White collar crime

**Job Prospects:** The PhD program is primarily dedicated to producing well-trained criminologists, researchers and criminal justice practitioners. The job market for an individual with a PhD degree in the field is extremely good. Most of our graduates enter the academy as university professors while others advance their careers in research for government or private agencies.

**Non-Matriculated Student Policy:** Non-matriculated students are eligible to take some of the graduate courses offered in Criminal Justice. If accepted into the program, up to 9 credits may be applied toward the degree program. For some courses, permission of the instructor is required before registration by non-matriculated students can occur.

**Financing Opportunities:** The principal duties of a Teaching Assistant include assisting faculty members in classroom (field, observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. Research Assistants are expected to devote 20 hours per week on average to research obligations. They are assigned to a faculty member or principal investigator investigating a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors. Both Teaching and Research Assistantships carry a stipend and full tuition remission for up to 9 credits per term. Applications should include:

1. a statement of previous teaching and/or research experience, areas of interest, and future goals;
2. unofficial transcripts; and
3. a curriculum vitae.

The Department makes assistantship offers in early Spring of each year.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15; November 30 international

Applications are evaluated from the end of October until the deadline. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required: 3*

*From Whom:* Ideally, the letters should be obtained from college/university faculty members familiar with the applicant's academic competence. Letters from employers and other non-academic assessors are accepted but generally carry far less weight.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Criminology/Criminal Justice, Geography, History, Law, Political Science, Social Work, Sociology or a related field is required.

**Statement of Goals:** In approximately 500 to 1,000 words, discuss your specific interest in Temple's program, research goals and how they relate to Temple's program, future career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should not be too lengthy (up to 10 pages is preferable) and should be fully referenced according to a professional, scholarly style manual. Although it need not be related directly to Criminal Justice, it should reflect your ability to prepare a social science paper.

**Advanced Standing:** Graduate coursework taken as part of a master's degree program at an accredited institution prior to matriculation at Temple may be accepted for advanced standing credit, provided the coursework is relevant to the PhD in Criminal Justice. To request advanced standing, the applicant must provide an official transcript from their prior graduate institution to the Graduate Chair that clearly states "MA awarded" and the date of its awarding. The Graduate Committee reviews the request.

Only grades of "B" or better are accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 15 credits. Students with transferred credits should expect that they will have to complete much of the required coursework in residence to ensure that they are adequately prepared to take their PhD comprehensive exams.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree: 48*

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
CJ 8101	Decision Making in Criminal Justice	3
CJ 8102	Research Methods in Criminal Justice	3
CJ 8104	Law and Social Order	3
CJ 8105	Statistical Issues and Analysis of Criminal Justice Data	3
CJ 8106	Theories of Crime and Deviance	3
CJ 8228	Race, Crime, and Justice	3
CJ 8302	Advanced Methods and Issues in Criminal Justice Research	3
CJ 8305	Advanced Statistical Issues in Criminal Justice Data	3
<b>Electives <sup>1</sup></b>		<b>18</b>
<b>Research Courses <sup>2</sup></b>		<b>6</b>
CJ 9994	Preliminary Examination Preparation	
CJ 9998	Pre-Dissertation Research	
CJ 9999	Doctoral Dissertation Research	
<b>Total Credit Hours</b>		<b>48</b>

1

Any CJ course at the 8000 or 9000 level that is not a required course may be taken as an elective. With approval from their advisor, students may take up to two graduate-level courses outside the department.

2

Of the 6 required research credits, a minimum of 2 credits of CJ 9999 must be taken. The other 4 credits may be taken in any combination of CJ 9994, CJ 9998, and CJ 9999.

### Culminating Events:

#### *Comprehensive Examinations:*

Two comprehensive examinations must be passed. One is in "Justice," which has the Criminal Justice system as its focus. The second is in "Crime," which has theory as its focus. The purpose of the comprehensive exams is to demonstrate critical and interpretive knowledge in specialized areas of both the Criminal Justice system and Criminal Justice theory.

#### *Prospectus Defense:*

The prospectus defense evaluates the student's ability to apply specific research and/or analytic methods to the questions addressed in the prospectus. The defense occurs within several weeks of the student's advisor confirming, in writing to the Graduate Chair, that the student is ready to defend their prospectus.

Ideally, the prospectus defense should be completed within one academic year of the comprehensive examinations. The prospectus defense consists of a short (30-40 minute) presentation of the prospectus by the student to faculty and graduate students. Following the presentation, the Graduate Chair mediates a question-and-answer session between the student and audience. The members of the student's Doctoral Advisory Committee normally pose the initial questions at the defense. When these have been exhausted, other audience members are asked to put forth any questions they have for the student. The defense is scheduled to last no longer than two hours.

The Doctoral Advisory Committee must evaluate the quality of the presentation and of the answers provided during the question-and-

answer session. Committee members look for evidence of a breadth and depth of understanding of specific substantive and methodological areas. In addition, they gauge the student's ability to utilize their knowledge to address the questions posed during the defense. Each member votes to pass or fail the student. Members can also vote to pass pending the completion of specified changes to the prospectus. In order to pass, a majority of the committee members must agree that the defense has been satisfactorily completed.

Students who are preparing to defend their prospectus should arrange some dates and times for the defense with the Doctoral Advisory Committee. The student should then inform the Graduate Chair of these dates and times and confirm the final date and time selected. Finally, the Graduate Chair provides confirmation of the time, date and room.

#### *Dissertation:*

The dissertation is an original empirical study that makes a significant contribution to the field of Criminal Justice. It should expand the existing database and demonstrate the student's knowledge of both research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field of Criminal Justice; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Criminal Justice; and be prepared for publication in a professional journal.

The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Temple Graduate Faculty members. Two members, including the Chair, must be from the Department of Criminal Justice. Committee compositions must be approved by the Department's Graduate Committee. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Criminal Justice. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of a Committee, the new member must be approved by the Department's Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Doctoral Advisory Committee and register with the Graduate Secretary at least 30 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room and forwards to the student the appropriate paperwork. After the Graduate Secretary has scheduled the defense, the student must send the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 working days before the defense. The department posts flyers announcing the defense.

## Decision Neuroscience MS

COLLEGE OF LIBERAL ARTS

### About the Program

This program is *not open for direct admission*. The Master of Science in Decision Neuroscience is awarded to a student enrolled in the Doctor of Philosophy (PhD) program in Decision Neuroscience who successfully completes 30 credits of required coursework but chooses to not continue in the PhD program.

### Program Requirements

#### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate: 30*

#### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
BA 9813	Problem Solving using Quantitative Research Methods	3
MKTG 9090	Sem-Sel Topics in Mktg <sup>1</sup>	3
PSY 8310	Topical Seminar in Cognitive Psychology (2 courses) <sup>2</sup>	6

Course in decision neuroscience	3
Proseminar in decision neuroscience	3

#### Electives

Select four from the following: 12

#### Methods Electives

BA 9806	Integrative Perspectives on Business Knowledge
BA 9814	Advanced Quantitative Research Methods
BA 9815	Problem Solving using Qualitative Research Methods
PSY 8033	Hierarchical Linear Modeling

#### Other Electives

MKTG 9001	Behavioral Science Seminar
MKTG 9002	Seminar on Behavioral Research in Marketing
MKTG 9003	Sem-Quant Research-Mktg
PSY 8312	Core Course in Cognitive Psychology
PSY 8712	Core Course in Behavioral Neuroscience

**Total Credit Hours** 30

1

The select topic for this course is an introduction to research in judgment and decision-making and their applications.

2

PSY 8310 Topical Seminar in Cognitive Psychology is taken twice for credit. One course topic provides an introduction to the biological bases of higher brain function, including attention, consciousness, emotion, executive functions, language, memory and perception. The other provides an overview of the use of functional magnetic resonance imaging (fMRI) in the investigation of human sensory, motor and cognitive function.

## Decision Neuroscience PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Decision Neuroscience.

### About the Program

The field of decision neuroscience provides new insights into the mechanisms that underlie a wide range of economic and social phenomena, from risky choice and consumer behavior to altruism and cooperation. It is also a primary example of truly interdisciplinary research, with people from such diverse fields as business administration, economics, engineering, neuroscience, philosophy, physics and psychology working together to advance knowledge of mechanisms underlying decision-making and decision preferences.

The interdisciplinary PhD program in Decision Neuroscience in the Department of Psychology and Neuroscience in the College of Liberal Arts is a collaborative effort with the Fox School of Business and Management. Temple University's Department of Psychology and Neuroscience has long been a leader in brain and cognitive science research. Similarly, through the efforts of its Center for Applied Research in Decision Making, Fox School has been at the forefront of the field of decision neuroscience over the past ten years.

Students enrolled in the program gain a thorough understanding of the intellectual issues in the rapidly growing field of decision neuroscience and its subfields of neuroeconomics and neuromarketing. The program has the unique vision of integrating scientific findings with everyday

real-world problems. It is designed for students who want to work at the intersection of neuroscience and business.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program is inherently interdisciplinary.

**Ranking:** Over the years, Temple University's Psychology PhD program has been consistently ranked among the very best by all evaluating agencies.

**Job Prospects:** Graduates of the program are prepared to seek tenure-track appointments either in business schools or psychology departments, depending on their approach to the program's curriculum.

**Non-Matriculated Student Policy:** Non-matriculated students are not permitted to take 8000-level Psychology courses.

**Financing Opportunities:** Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading quizzes. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project. The appropriate subjects are determined by consultation between the student and the student's research and academic advisors.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 1

Applications are not evaluated until after the deadline has passed.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 500 to 1,000 words, state your interest in Temple's program, your research goals, future career goals, and academic and research achievements.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the

exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Resume:** Current resume required.

## Program Requirements

**General Program Requirements:**

PSY 9999	Ph.D. Dissertation Research	3
<b>Total Credit Hours</b>		<b>42</b>

1

The select topic for this course is an introduction to research in judgment and decision-making and their applications.

2

PSY 8310 Topical Seminar in Cognitive Psychology is taken twice for credit. One course topic provides an introduction to the biological bases of higher brain function, including attention, consciousness, emotion, executive functions, language, memory and perception. The other provides an overview of the use of functional magnetic resonance imaging (fMRI) in the investigation of human sensory, motor and cognitive function.

#### **Additional Requirements:**

##### *Research Rotations:*

In addition to undertaking specially designed interdisciplinary coursework, students complete research rotations during the first year of study that prepare them for independent research in the field of decision neuroscience. Students are required to complete two laboratory rotations in their first year (Fall and Spring) that would ideally be in different subfields with different mentors. Students also have the option to complete a third rotation during the Summer if they require additional exposure.

Research rotations are designed to give students a wide range of knowledge in the area of decision neuroscience by being engaged in the research of an assigned lab. When rotating through a lab (or with a research mentor), students are often paired with a senior lab member (e.g., a postdoctoral fellow or senior graduate student) to work on an ongoing research project. In some cases, they may be given a new project based on their knowledge and skill levels. Students are not, however, expected to complete a full project within an academic term.

##### *Research Meetings:*

Students are expected to attend research meetings and to be fully engaged in the research culture.

##### *Publications:*

It is expected that students will write, submit and publish articles.

##### *Grant Proposals:*

Students are expected to prepare a grant proposal for submission to a government funding agency. Eligible students are also required to write and submit a National Research Service Award (NRSA) proposal at the end of their third year. International students who are not eligible for federal grants are encouraged to work on submissions with faculty members.

#### **Culminating Events:**

##### *Comprehensive Examination:*

The comprehensive examination is taken at the end of the second year of study. Each student must propose and defend a major area paper in their proposed field of research. Upon passing the exam, students choose a faculty member from either the College of Liberal Arts or Fox School as their primary mentor.

##### *Dissertation:*

The doctoral dissertation is an original empirical study that makes a significant contribution to the field. It should expand the existing knowledge and demonstrate the student's grasp of research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department's Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 working days before the defense. The Department posts announcements of the defense, and the Graduate School lists the defense on its website.

## Economics MA

COLLEGE OF LIBERAL ARTS

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## Economics PhD

COLLEGE OF LIBERAL ARTS

### About the Program

This program is not accepting applications for the 2023-2024 academic year.

## English MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in English.

### About the Program

The English program enjoys a high reputation for education and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diverse urban environment.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research or writing. In special circumstances, the department permits part-time enrollment, but such students are not exempt from the guidelines concerning reasonable academic progress toward the degree.

**Interdisciplinary Study:** Students take courses in all areas of literary studies and are encouraged to develop their interests in related areas, such as History, Philosophy, Psychology, the arts and non-print media.

**Affiliation(s):** Affiliations include the Association of Departments of English (ADE) and the Modern Language Association (MLA).

**Areas of Specialization:** The literature faculty specializes in both emerging and traditional areas of literary scholarship. The MA program provides options for intensive study in critical theory, cultural theory, digital humanities, interdisciplinary methods, minority literature and women's studies. Traditional areas of study include Medieval, Renaissance, eighteenth-century, nineteenth-century, modern and contemporary literature, as well as rhetoric and composition.

**Job Prospects:** Graduates find jobs in the Philadelphia area and in all parts of the United States as teachers, editors and journalists, and in all professions that value writing and critical thinking.

**Non-Matriculated Student Policy:** In general, English graduate courses are open only to students who are matriculated in an English graduate degree program. However, students matriculated in another graduate

program at Temple University may be admitted to English courses at the discretion of the instructor. In exceptional cases, a non-matriculated student may request permission from the instructor to register for a course. All non-matriculated students or students in other University graduate programs should first contact the Graduate Director, who will advise on registering.

**Financing Opportunities:** Assistantship monies are typically reserved for doctoral students.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* February 15

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic abilities.

**Coursework Required for Admission Consideration:** An applicant should hold an undergraduate degree in English or have completed equivalent coursework in English and American literature.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required in a Humanities discipline. A wide range of literature courses should have been taken.

**Statement of Goals:** In approximately 600 to 1,000 words, share your research interests, completed coursework that has especially interested you, and the relevance of the MA to your future goals.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

GRE Subject Test in Literature: Optional. Scores should be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Resume:** Current CV or resume required.

**Writing Sample:** The writing sample should be a work of literary criticism, not creative writing, approximately 12 to 15 pages in length. It should represent the best of its author's critical and writing abilities.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

Code	Title	Credit Hours
Coursework, including at least one advanced-level (8000 to 9000-level) seminar		27
ENG 9996	Master's Essay	3
<b>Total Credit Hours</b>		<b>30</b>

**Language Requirement:** Students must demonstrate a reading knowledge of one foreign language. Additional information on the variety of ways students can fulfill this requirement can be found in the Graduate English Office.

#### **Culminating Events:**

##### *Qualifying Paper:*

While enrolled in ENG 9996, students must write a qualifying paper that demonstrates the student's ability to write clearly and analytically on a literary subject. Typically a substantial revision of a paper submitted for a previous course, the qualifying paper (4,000-6,000 words) is to be submitted in the last term of coursework. Students work with a Graduate Faculty sponsor who must approve it for submission to the Graduate Director. The paper must then be approved by the MA Qualifying Paper Committee, which may accept the essay or ask for revisions.

# **English PhD**

## **COLLEGE OF LIBERAL ARTS**

Learn more about the Doctor of Philosophy in English.

## **About the Program**

The English program enjoys a high reputation for education and research in both traditional and innovative areas of literary history and literary criticism. The graduate program prides itself on providing students with the advantages of studying at a Research I institution in a diverse urban environment. Temple University is the only public university in the Philadelphia area offering a doctoral concentration in rhetoric and composition.

The English doctoral program offers a curriculum that provides training in broad foundational areas while also allowing for concentration in more specialized seminars and in areas of individual student interest. Five-year funding packages are awarded to incoming students, and it is possible for both MA and BA students to complete the degree within that time.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** In order to be certified as full-time, a student must engage in at least 9 credits of coursework each term or the equivalent in supervised teaching, dissertation research or writing. In special circumstances, the department permits part-time enrollment, but no student is exempt from the guidelines concerning reasonable academic progress toward the degree.

**Interdisciplinary Study:** Students are encouraged to engage in serious interdisciplinary projects and to work closely with a faculty member engaged in research and publications projects that take them regularly into the areas of History, Philosophy, Psychology, the arts and non-print media.

**Affiliation(s):** Affiliations include the Association of Departments of English (ADE) and the Modern Language Association (MLA).

**Areas of Specialization:** The literature faculty is productive in both emerging and traditional areas of literary scholarship. The doctoral program provides options for intensive study in British, American and Global Literatures, encompassing critical theory, cultural theory, film theory, interdisciplinary methods, minority literatures, gender studies, and rhetoric and communication. Specialty certificates may be pursued in Gender, Sexuality and Women's Studies, in Cultural Analytics (using digital techniques) and in other areas.

**Job Prospects:** About 40% of graduates hold tenure-track positions at colleges and universities. A smaller number are non-tenure-track faculty, while some work in publishing, foundations or corporate positions. Graduates have traditionally found placement in the Northeast. Increasingly, however, the program's graduates have taken jobs outside the region in Midwestern, Southern and Western states.

**Non-Matriculated Student Policy:** In general, English graduate courses are open only to students who are matriculated in an English graduate degree program. However, students matriculated in another graduate program at Temple University may be admitted to English courses at the discretion of the instructor. In exceptional cases, a non-matriculated student may request permission from the instructor to register for a

course. All non-matriculated students or students in other University graduate programs should first contact the Graduate Director, who will advise on registering.

**Financing Opportunities:** All applicants are automatically considered for funding in the form of a Teaching Assistantship, which consists of five years of support that includes a living stipend, tuition waiver, healthcare and other benefits. Conditions of the award are determined by the graduate student union contract with Temple University, which currently requires recipients to perform a combination of teaching and other assignments. For funding consideration, applications should be submitted by December 15. The department makes funding offers generally in February and March. Students may be admitted to the program without funding and are then placed on a waiting list for funding.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15

To be considered for a fellowship and/or teaching assistantship, applicants should submit a complete application by December 15. Applications are accepted until February 15, although funding consideration is uncertain for later applications.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic abilities.

**Coursework Required for Admission Consideration:** The applicant should have completed an undergraduate concentration in English covering a broad chronological range.

**Master's Degree in Discipline/Related Discipline:** A master's degree is preferred.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in English is required.

**Statement of Goals:** In approximately 600 to 1,000 words, share your research goals, particular interest in the Temple English graduate program, and future goals.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

GRE Subject Test in Literature: Optional. Scores should be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Resume:** Current CV required.

**Writing Sample:** The writing sample should be a literary critical essay, not a piece of creative writing, approximately 12 to 15 pages in length. It should represent the student's best work, and it may or may not relate to the student's future graduate studies.

**Advanced Standing:** Students who have earned graduate credits or a master's degree in English from another institution can transfer up to 15 credits (five courses) toward the coursework requirement for the PhD.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 48

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
ENG 5001	Introduction to Graduate Study in English	3
ENG 5502	Current Directions in Critical Theory	3
ENG 8900	Advanced Study in Literature and Culture <sup>1</sup>	3
<b>5000-level Courses</b>		
Select two from the following:		6
ENG 5011	Early British Literature	
ENG 5012	Early American Literature	
ENG 5014	16th and 17th Century British Literature	
ENG 5016	18th Century British Literature	
ENG 5018	19th Century British Literature	
ENG 5021	19th Century American Literature	
ENG 5022	20th and 21st Century British Literature	
ENG 5024	20th and 21st Century American Literature	
ENG 5026	Anglophone Literatures	
ENG 5501	History of Critical Theory	
ENG 5720	Topics - Rhetoric and Composition	
<b>8000-level Advanced Seminars <sup>2</sup></b>		<b>6</b>
<b>Electives <sup>3</sup></b>		<b>21</b>
<b>Research Courses</b>		<b>6</b>
ENG 9994	Preliminary Examination Preparation	
ENG 9998	Pre-Dissertation Research	
ENG 9999	Dissertation Research <sup>4</sup>	
<b>Total Credit Hours</b>		<b>48</b>

<sup>1</sup>

ENG 8900 is taken by students in their last term of coursework, after they have satisfied all 5000- and 8000-level course requirements.

<sup>2</sup>

Students select two advanced seminars at the 8000 level, with the exception of ENG 8900 Advanced Study in Literature and Culture and ENG 8985 Teaching in Higher Education: Writing.

<sup>3</sup>

Students select seven electives in consultation with the Graduate Director.

4

At least 2 of the 6 credits must be in ENG 9999 Dissertation Research.

**Language Requirement:** Students must demonstrate a reading knowledge of one foreign language. For doctoral students, the language requirement must be satisfied before taking the first preliminary examination. No exceptions to this rule are permitted. Additional information on fulfilling this requirement can be found in the Graduate English Office.

#### **Culminating Events:**

##### *Optional Master's Degree:*

Students enrolled in the PhD program who do not already possess the MA degree may acquire the optional MA degree while continuing on to the PhD. Students who leave the PhD program for any reason also can apply for the MA degree. In either case, the student qualifies for the MA by successfully completing 30 credits of coursework; passing the foreign language requirement; and writing a Qualifying Paper that demonstrates the student's ability to write perceptively, lucidly, and at length (4,000-6,000 words) on a literary subject.

##### *Preliminary Examination:*

The preliminary examination should demonstrate competence in two areas. Typically, one area corresponds to a general teaching area (e.g., British 19th Century, American 20th Century), while the other represents the student's scholarly research interests (e.g., Ecocriticism, Ethnic Literature, Gender Studies, Literature and Visual Arts). Students define these areas by writing a protocol and constructing two reading lists, one for each area. The protocol is an explanation and justification of the two reading lists in terms of professional aims.

In preparing for the exam, students in their final term of coursework register for ENG 8900 Advanced Study in Literature and Culture. In addition, they typically register for ENG 9082 Independent Study or ENG 9994 Preliminary Examination Preparation. During the following term, with all coursework completed, students take the exam itself. The exam consists of three parts:

- Part I is a course syllabus for each area of the exam. It is submitted by the student in advance of the exam.
- Part II constitutes written answers to questions in each area, which are prepared over the course of three days and may be written at home or in a place of the student's choice.
- Part III is an oral examination that is taken only after passing Part II. The oral exam is conducted on campus, no more than three weeks after the written exam.

Exams are judged "Pass," "Fail" or "Honors." Additional details on exam procedures and the criteria for passing are available from the Graduate English Office.

##### *Dissertation Proposal:*

The dissertation proposal should:

- identify the key issues to be investigated;
- demonstrate an awareness of the relevant scholarship in the field; and
- provide a detailed outline of the proposed dissertation.

##### *Dissertation:*

The dissertation should demonstrate the student's ability to conceive, research and write a scholarly project of at least 150 pages. The student's doctoral research is overseen by the Doctoral Advisory

Committee, which consists of at least three Graduate Faculty members. Two members, including the Chair, must be from the English Department. Committee compositions must be approved by the department's graduate committee. The Chair is responsible for overseeing and guiding the student's progress, coordinating the responses of the committee members, and informing the student of their academic progress.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. This committee comprises the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the English Department. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student wishes to change a member of a committee, the new member must be approved by the department's graduate executive committee and registered with the Graduate Coordinator and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Coordinator at least 15 days before the defense is to be scheduled. The Graduate Coordinator arranges the time, date and room. After the Graduate Coordinator has made the arrangements, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 working days before the defense. The department posts notices announcing the defense.

## Geographic Information Systems PSM

COLLEGE OF LIBERAL ARTS

Learn more about the Professional Science Master's in Geographic Information Systems.

### About the Program

The Professional Science Master's (PSM) degree in Geographic Information Systems (GIS) combines advanced training in GIS core skills with professional development and business ethics to prepare students to enter the GIS workforce. Our courses introduce students to a variety of cutting-edge spatial analysis technology and mapping software. The Department of Geography and Urban Studies faculty have expertise in a range of GIS applications, including business, environment, geovisualization, health, location analysis, remote sensing and urban. The program curriculum is informed by an advisory board of industry professionals and incorporates real-world experiences through project-based learning and an internship capstone requirement. Graduates are well prepared to pursue certification as a GIS professional (GISP).

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis. Full-time students can complete the program in one calendar year. Part-time students are expected to complete the program in 3 years.

**Affiliation(s):** The program is an affiliated Professional Science Master's program.

**Areas of Specialization:** The program specializes in Geographic Information Systems and offers coursework in cartography, geospatial programming, geovisualization, spatial database design, spatial statistics, web mapping, and several applied areas. The Department offers students the opportunity to learn in research laboratory settings equipped with the latest technologies.

**Job Prospects:** The program trains a workforce that is highly competent to meet the challenges faced by public, regulated and private sector industries and also adaptable to the future needs of the industries. It provides access to a professional career, requiring both technical skills and professional development training in areas related to business, ethics and policy. The program enables students to match their specialized training in GIS with substantive fields that utilize such training, including criminology, epidemiology, national security, natural and environmental sciences, and urban and regional planning.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

**Funding Opportunities:** Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for PhD students.

### Admission Requirements and Deadlines

#### Application Deadline:

##### Fall:

- March 1 – Application Deadline
- July 1 – Late Application Deadline

##### Spring:

- November 1 – Application Deadline
- December 7 – Late Application Deadline

##### Summer:

- April 15 – Application Deadline

Applications are processed as they are received. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

#### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members or professional references familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study" or as a traditional letter of recommendation. Letters must be signed and forwarded as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** No specific coursework is required as applicants are drawn from a variety of disciplines.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in any field is appropriate. An undergraduate GPA of 3.0 or an undergraduate GPA of 2.5 with 2 to 4 years of relevant professional experience is preferred.

**Statement of Goals:** In approximately 500 to 1,000 words, share why you are interested in this program, your research and academic goals, future career goals, academic and research achievements, and any other information that you believe will be helpful in evaluating your application.

#### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

**Resume:** Current resume required.

**Transfer Credit:** Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained

no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
GUS 5031	GIS Programming	3
GUS 5162	Advanced Statistics for Urban Applications	3
GUS 8065	Cartographic Design	3
GUS 8067	Spatial Database Design	3
GUS 8069	GIS Ethics and Professional Practice	3
<b>Electives<sup>1</sup></b>		<b>12</b>
<b>Capstone Course</b>		
GUS 9187	GIS Capstone	3
<b>Total Credit Hours</b>		<b>30</b>

1

In consultation with the faculty advisor, students select four electives from a wide array of courses in cartography, GIS, remote sensing, and spatial analysis. It is recommended that students who are interested in advanced programming take GUS 8066 Application Development for Geographic Information Systems as one of their four electives.

### Culminating Event:

*GIS Capstone:*

The GIS Capstone course (GUS 9187) provides an experiential and industry-relevant learning experience for students matriculated in the GIS Professional Science Master's program at Temple. Students engage in a structured internship experience (140 hours during the term) identified with the guidance of PSM faculty at Temple and a prospective employer. The student completes a GIS-oriented project during the internship that draws on the GIS science and professional skills developed through the PSM curriculum.

## Geography MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Geography.

## About the Program

The Master of Arts program in Geography focuses on geographic approaches to the study of urban and environmental processes and conditions in U.S. and international settings. Our emphasis is on the themes of geographic methods, globalization, social justice and sustainability. We train our students to conduct research that is theoretically informed and empirically grounded along the urban to rural continuum; understand interdisciplinary and integrative analyses of complex human-environmental processes; and specialize in techniques for urban and environmental analysis with an emphasis on GIS, spatial statistics and qualitative methods.

The program prepares students for further study and for careers in academia, business, government, nonprofit organizations, and community organizing and social change efforts, such as economic development, environmental management, geographic systems management, and planning and public policy. Throughout, emphasis is placed on the development of research techniques and analytical skills applicable to problem solving.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Faculty members in the Department of Geography and Urban Studies hold doctoral degrees in environmental science, geography, urban and regional planning, and other social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

**Affiliation(s):** The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

**Areas of Specialization:** Graduate faculty expertise is at the intersection of geographic methods, globalization, social justice and sustainability, including Black and feminist geographies, community-based research, energy geography, geographic information science, geospatial data science, health geography, political ecology, sustainability science, urban analytics, urban and economic geography, and urban studies and public policy. Faculty have regional expertise in North America, Latin America, East and Southeast Asia, and Africa. Faculty networks with academic institutions, community organizations, nongovernmental organizations and public agencies, as well as social movements in Philadelphia and beyond, provide opportunities to actively engage in research.

**Job Prospects:** Graduates have continued their education by pursuing doctoral degrees in some of the nation's most prestigious PhD programs. Graduates also find employment in public sector agencies that deal with environmental planning, land use and urban problems. In addition, they work for quasi-public social service institutions that address various needs of urban residents, as well as for private sector firms whose business requires an understanding of urban and spatial dynamics.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

**Funding Opportunities:** Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for PhD students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*Spring:* November 1

Applications may be reviewed prior to the deadlines. Although students are sometimes admitted for the Spring term, the Department encourages applicants to apply for the Fall term since the program sequence is designed to begin at that time.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference

Report for Graduate Study" or as a traditional letter of recommendation. Letters must be signed and forwarded as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** No specific coursework is required as applicants are drawn from a variety of disciplines.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in any of the social sciences is appropriate. A bachelor's degree in another discipline may also be considered.

**Statement of Goals:** In approximately 500 to 1,000 words, share why you are interested in Temple's Geography program, your research and academic goals, future career goals, academic and research achievements, and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students' interests and goals and whether they fit with our program offerings and faculty interests.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

**Resume:** Current resume required.

**Writing Sample:** At its discretion, the Graduate Admissions Committee may request a writing sample.

**Transfer Credit:** Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b>		
GUS 5159	Geographic Inquiry	3
Select one from the following:		3
GUS 5041	Sustainable Natural-Human Systems	
GUS 8016	Public Policy for Urban Regions	
Select one from the following:		3
GUS 5031	GIS Programming	
GUS 5032	Geosimulation	
GUS 5062	Fundamentals of Geographical Information Systems	

GUS 5063	Remote Sensing	
GUS 5065	Urban Geographical Information Systems	
GUS 5066	Environmental Applications of GIS	
GUS 5067	GIS and Location Analysis	
GUS 5068	Census Analysis with Geographical Information Systems

## Geography PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Geography.

### About the Program

The doctoral program in Geography focuses on geographic approaches to the study of urban and environmental processes and conditions in U.S. and international settings. Our emphasis is on the themes of geographic methods, globalization, social justice and sustainability. We train our students to conduct research that is theoretically informed and empirically grounded along the urban to rural continuum; understand interdisciplinary and integrative analyses of complex human-environmental processes; and specialize in techniques for urban and environmental analysis with an emphasis on GIS, spatial statistics and qualitative methods.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Faculty members in the Department of Geography and Urban Studies hold doctoral degrees in environmental science, geography, urban and regional planning, and other social sciences. Even beyond the interdisciplinary expertise of the departmental faculty, the program draws on the expertise of Graduate Faculty conducting research and teaching courses in related departments across the university.

**Affiliation(s):** The program is affiliated with the Association of American Geographers and the Urban Affairs Association.

**Areas of Specialization:** Graduate faculty expertise is at the intersection of geographic methods, globalization, social justice and sustainability, including Black and feminist geographies, community-based research, energy geography, geographic information science, geospatial data science, health geography, political ecology, sustainability science, urban analytics, urban and economic geography, and urban studies and public policy. Faculty have regional expertise in North America, Latin America, East and Southeast Asia, and Africa. Faculty networks with academic institutions, community organizations, nongovernmental organizations and public agencies, as well as social movements in Philadelphia and beyond, provide opportunities to actively engage in research.

**Job Prospects:** Graduates are often employed in academic settings as teaching-research scholars in geography and in interdisciplinary fields such as environmental studies, international studies and urban studies. They also serve research-oriented organizations such as non-governmental organizations, policy institutes and think tanks as applied researchers and administrators.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree.

**Funding Opportunities:** Financial support is available to graduate students through a variety of university and departmental teaching and research assistantships, fellowships, and awards. Most assistantships and fellowships carry a stipend plus a tuition waiver. Assistantships typically require 20 hours of work per week devoted to assisting faculty with either teaching or research. Teaching Assistants grade papers, lead discussion sections, and occasionally lecture in large undergraduate classes. Advanced graduate students are sometimes assigned their own undergraduate class to teach.

In recent years, a number of graduate students have been supported by externally funded faculty research projects. Positions on funded research projects may include full or partial tuition coverage in addition to the stipend for up to 20 hours of work per week. The timing and availability of such opportunities depend on the status of faculty research projects and external grants.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 15

Applications may be evaluated before the deadline, if submitted early, and after the deadline at the discretion of the Graduate Chair.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study" or as a traditional letter of recommendation. Letters must be signed and uploaded as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** No specific coursework is required as applicants are drawn from a variety of disciplines.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required but is highly recommended.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. It should have been earned in Geography, Urban Studies, Anthropology, Criminal Justice, Economics, Political Science, Psychology or Sociology, among other disciplines.

**Statement of Goals:** In approximately 500 to 1,000 words, share why you are interested in Temple's Geography program, your research and academic goals, future career goals, academic and research achievements, and any other information that you believe will be helpful in evaluating your application. The Graduate Admissions Committee is particularly interested in students' interests and goals and whether they fit with the interests of specific faculty as well as general program offerings.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the

exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

**Resume:** Current resume required.

**Writing Sample:** At its discretion, the Graduate Admissions Committee may request a writing sample. The writing sample is not required.

**Advanced Standing:** Graduate coursework taken at an accredited institution as part of a master's degree program prior to matriculation at Temple may be accepted for Advanced Standing Credit. Applicants must supply an official transcript from their prior graduate institution to the Graduate Chair. The Graduate Admissions Committee reviews the request. Only grades of "B" or better can be accepted. If the request is granted, the student receives advanced standing and is awarded a maximum of 24 credits. Normally, these credits should have been earned no more than five years prior to the student's matriculation at Temple.

<b>Total Credit Hours</b>		<b>57</b>

1

Students select two courses from a departmental list of approved methodology courses.

2

Any GUS course at the 5000 level or higher may be taken as an elective. With approval from their advisor and the graduate chair, students may take graduate-level courses outside the department.

3

Of the 6 required research credits, a minimum of 2 credits of GUS 9999 must be taken. The other 4 credits may be taken in any combination of GUS 9994, GUS 9998, and GUS 9999.

### Culminating Events:

*Qualifying Examination:*

The qualifying exam is taken after all coursework is completed. The exam has written and oral components. Students develop the parameters of the exam with their committee, which approves reading lists prepared by the student before the exam. All parts of the written exam must be passed

before the student proceeds to the oral exam. The oral exam, based on the written portion, assesses the candidate's readiness to commence dissertation research.

In conjunction with their Graduate Advisor, each student identifies at least two other faculty members for the exam committee. At least two committee members must be GUS faculty, while the third may be from outside the Department. The Graduate Advisor/Chair and all but one of the remaining members of the examination committee must approve in order for the student to pass.

Students are expected to demonstrate breadth of knowledge and intellectual sophistication across the field of Geography. Students should be able to employ various theoretical approaches to investigate geographic and urban patterns and processes and to use data to illuminate concepts. When student pass the exam (1 credit), they achieve candidacy. If the student fails the exam, they are given the opportunity to retake the exam, usually within one term. If the student fails the second time, they are recommended for academic dismissal.

Ordinarily, the exam should be administered no later than six months after coursework is completed. Several different written formats are possible, at the discretion of the committee, including a single extended paper, individual papers prepared for separate examiners, and closed or open book exams administered within a time limit. The oral portion of the exam may expand on the questions asked on the written exam. It may include additional but related questions.

*Proposal:*

The proposal defines the research problem, scholarly significance, pertinent literature and methodology. It should contain an outline of the projected document and timeline for completing various tasks involved in the dissertation. Within one term after finishing the qualifying exam, a candidate is expected to submit a 5 to 6 page preliminary dissertation proposal to the Doctoral Advisory Committee. Within one year of passing the qualifying exam, a candidate is expected to submit a more substantial proposal to the committee members. When the proposal is ready, the committee chair schedules a meeting of the committee. The student gives an oral presentation of the proposal, and the committee members ask questions and give suggestions. The committee must approve the proposal and give specific instructions on how the student can improve it. After the meeting, the committee chair sends a letter to the Department's Graduate Director indicating whether it has been accepted (1 credit) or rejected, summarizing comments from the overall committee. At that time, the student is scheduled to present their proposal at a departmental colloquium.

*Dissertation:*

The PhD dissertation should make an original contribution to the field of Geography. The dissertation must demonstrate formulation, design and independent execution of a significant research project. The student must complete a minimum of 4 credits of dissertation research. While no ceiling on the number of dissertation credits exists, students should note that seven years from matriculation is the time limit for completion of the degree.

When the student and the committee chair judge the dissertation complete and ready to be defended, the committee chair schedules the defense. The Coordinator arranges the time, date and room, and forwards to the student the appropriate forms. With approval of the committee chair, the Coordinator sends a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," to the Graduate School at least 10 working

days before the defense. The Coordinator notifies all members of the Dissertation Examining Committee and all faculty members and graduate students in the Department. Changes in the membership of a committee must be approved by the Department's Graduate Director. If approved, the Graduate School must be notified.

The entire Dissertation Examining Committee must attend the defense to evaluate the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Geography and Urban Studies. Affiliated faculty may serve as external members of the Dissertation Examining Committee. The student presents a formal lecture at the defense. The oral defense should demonstrate that the student's work satisfies the standards for original research in Geography; that the candidate has mastered the appropriate methodology or methodologies; and that the candidate has an understanding of the relationship of the dissertation to the broader field. Following the public lecture and discussion, the Dissertation Examining Committee convenes in a closed session with the candidate for the defense. Directly after this session, the committee votes whether to accept or reject a completed dissertation.

## Geospatial Data Science PSM

COLLEGE OF LIBERAL ARTS

Learn more about the Professional Science Master's in Geospatial Data Science.

## About the Program

Geospatial analysis is a growing expertise with applications for a wide variety of fields and industries, including climate adaptation, retail and business location, spatial epidemiology, urban and environmental planning, and any other discipline in which spatially referenced data informs prediction and decision-making. The Department of Geography and Urban Studies offers graduate work leading to the Professional Science Master's (PSM) degree in Geospatial Data Science. The program combines advanced training in data science and GIS core skills with professional development and business ethics to prepare students to enter the workforce. Our courses introduce students to statistical and computer programming and a variety of cutting-edge spatial analysis technology.

The Department of Geography and Urban Studies faculty have expertise in a range of GIS applications, including business, environment, geovisualization, health, location analysis, remote sensing and urban. The program curriculum is informed by an advisory board of industry professionals and incorporates real-world experiences through project-based learning and an internship capstone requirement. The program is designed to attract professional data analysts seeking to deepen their understanding of the challenges of working with big geospatial data, as well as GIS specialists seeking to develop a more rigorous understanding of programming and statistics. Graduates are well prepared to pursue certification as a GIS professional (GISP).

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. The degree program can be completed on a full- or part-time basis. Full-time students can complete the program in one calendar year. Part-time students are expected to complete the program in 3 years.

**Affiliation(s):** The program is an affiliated Professional Science Master's program.

**Areas of Specialization:** The program specializes in Geospatial Data Science and Geographic Information Systems and offers coursework in big data, geospatial programming, geovisualization, machine learning and statistics. The Department offers students the opportunity to learn in research laboratory settings equipped with the latest technologies.

**Job Prospects:** The PSM degree provides students with advanced technical knowledge and professional development for jobs in technology-based companies, government agencies and nonprofits. The program trains a workforce that is highly competent to meet the challenges faced by public, regulated and private sector industries and also adaptable to the future needs of industries. It provides access to a professional career, requiring both technical skills and professional development training in areas related to business, ethics and policy. Students seek careers as data consultants, data scientists, geospatial engineers and information officers.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits prior to matriculation. If accepted into the program, these credits may be applied toward the degree. A special exception can be

made for students pursuing the Graduate Certificate in Geospatial Data Science. For more information, please email [psmgis@temple.edu](mailto:psmgis@temple.edu).

**Financing Opportunities:** Typically, the Department does not provide financial assistance to students at the master's level. Teaching and Research Assistantships are reserved for PhD students.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- March 1 – Application Deadline
- July 1 – Late Application Deadline

#### Spring:

- November 1 – Application Deadline
- December 7 – Late Application Deadline

#### Summer:

- April 15 – Application Deadline

Applications are processed as they are received. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members or professional references familiar with the applicant's academic competence. The recommendations may be submitted on the "Reference Report for Graduate Study" or as a traditional letter of recommendation. Letters must be signed and forwarded as a PDF on official letterhead.

**Coursework Required for Admission Consideration:** Applicants should have completed GUS 5031 GIS Programming or an equivalent college-level course in programming and GUS 5161 Statistics for Urban Spatial Analysis or an equivalent college-level introductory statistics course. Professional experience in programming and/or statistics is also acceptable. Students who do not meet these coursework requirements or lack professional experience in programming and/or statistics are required, upon admission, to take GUS 5031 and/or GUS 5161 as electives.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in any field is appropriate. An undergraduate GPA of 3.0 or an undergraduate GPA of 2.5 with 2 to 4 years of relevant professional experience is preferred.

**Statement of Goals:** In approximately 500 to 1,000 words, share why you are interested in this program, your research and academic goals, future career goals, academic and research achievements, and any other information that you believe will be helpful in evaluating your application.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S.

institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

**Resume:** Current resume required.

**Transfer Credit:** Applicable graduate coursework may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The credits must be equivalent to coursework offered at Temple. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
GUS 5073	Geovisualization	3
GUS 5162	Advanced Statistics for Urban Applications	3
GUS 8061	Big GeoSpatial Data	3
GUS 8066	Application Development for Geographic Information Systems	3
GUS 8069	GIS Ethics and Professional Practice	3
<b>Electives</b>		
Select four from the following: <sup>1</sup>		12
GUS 5031	GIS Programming <sup>2</sup>	
GUS 5032	Geosimulation	
GUS 5062	Fundamentals of Geographical Information Systems <sup>2</sup>	
GUS 5063	Remote Sensing	
GUS 5065	Urban Geographical Information Systems	
GUS 5066	Environmental Applications of GIS	
GUS 5067	GIS and Location Analysis	
GUS 5068	Census Analysis with Geographical Information Systems	
GUS 5069	GIS for Health Data Analysis	
GUS 5072	Advanced Remote Sensing	
GUS 5161	Statistics for Urban Spatial Analysis <sup>2</sup>	
<b>Capstone Course</b>		
GUS 9187	GIS Capstone	3
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup>

Alternately, students may select any course within the range of GUS 5030-5040 and GUS 8060-8070 as an elective toward the degree.

<sup>2</sup>

If, as determined by the faculty advisor, the student has not completed equivalent coursework or lacks equivalent professional experience, they must take GUS 5031, GUS 5062, and/or GUS 5161 as electives.

### Culminating Event:

*Internship with Project:*

GUS 9187, the capstone course, provides an experiential and industry-relevant learning experience for students matriculated in the Professional Science Master's program in Geospatial Data Science at Temple. With the guidance of PSM faculty and prospective employers, students engage in a structured 140-hour internship experience for one term. The student completes a geospatial data science project during the internship that draws on the technical and professional skills developed through the PSM curriculum.

## History MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in History.

## About the Program

Temple University offers a varied and flexible program for graduate training in History at the master's level. While general requirements ensure that every graduate is familiar with the basic issues of history and the latest approaches of professional historians, students are encouraged to tailor their programs to suit their own particular interests. This program provides enrichment opportunities for teachers in secondary schools, students hoping to pursue history doctorates elsewhere, and professionals in a variety of fields. Philadelphia is a rich public history environment with numerous opportunities for research and fieldwork.

**Time Limit for Degree Completion:** 3 years, although a student whose advisor certifies that they are making satisfactory progress may apply for an extension of their program for up to a maximum of 5 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework, research and interactions among faculty and students.

**Affiliation(s):** The History program at Temple is affiliated with the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, the Center for Public History, and Temple's Urban Archives.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in diplomatic and military history, environmental history, history of capitalism, modern history, public history, U.S. social and cultural history, and urban history.

**Job Prospects:** The program is primarily dedicated to producing well-trained historians who aspire to attain the PhD, teach in primary and secondary schools, and work in history-oriented institutions like archives, museums, historical parks and government agencies.

**Non-Matriculated Student Policy:** Non-matriculated students are permitted to take up to 9 credits of coursework prior to applying. These courses can be transferred into the degree program after admission only if the student earned a grade of "B" or higher.

**Funding Opportunities:** Funding is not offered by the History Department to students studying at the master's level.

## Admission Requirements and Deadlines

### Application Deadline:

NOTE: The optional Public History concentration is not open to students enrolling in the History MA program for the 2023-2024 academic year.

*Fall:* February 15

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from instructors or other individuals who are familiar with the applicant's academic work.

**Coursework Required for Admission Consideration:** Applicants are expected to have majored or minored in History or a related discipline at the undergraduate level. Applicants lacking that qualification are considered on a case-by-case basis.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 500 to 750 words, share a clear statement of your interest in the master's program in History at Temple University and how Temple's program meets your needs, your major historical interests, career goals, and academic and research achievements, if applicable.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Writing Sample:** The writing sample should demonstrate an applicant's ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the History program. Transferred credits must be equivalent to coursework at Temple and carry a "B" grade or better. They may not have been used to obtain another degree. Incoming students may transfer a maximum of 6 credits.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

### Required Courses:

Code	Title	Credit Hours
HIST 8714	Historical Methods	3
Seven 8000-level seminars <sup>1</sup>		21
Two 9000-level research seminars <sup>2</sup>		6
<b>Total Credit Hours</b>		<b>30</b>

1

Course selection is determined by the student's specific interests and goals. It is recommended that one skills-based course, such as HIST 5152 Digital History or HIST 8152 Managing History, be taken. Those with a concentration in Public History are required to take both HIST 8101 Introduction to American History I (to 1865) and HIST 8152 Managing History.

2

Students may take only one writing seminar in an academic term. The second seminar should be taken in the student's last term of study. Students choose whether to combine the two 9000-level courses to produce a master's thesis.

**Internship:** An internship is required only of students pursuing Public History as a primary or secondary field.

**Culminating Events:** Both thesis and non-thesis options are offered as a culminating event. The default position of the department is that students opt for the non-thesis option.

*Non-Thesis Option:*

All MA students are required to take two writing seminars along with the PhD students. The writing seminars are open writing workshops, eschewing a particular time period or geographic focus on which students must concentrate, and instead allowing students to pursue whatever interest they wish. Students work with the course instructor who sets deadlines; provides feedback on argument, structure and writing; and, with input from the faculty mentor, assigns a grade for the course. Students also, where appropriate, work with another faculty mentor whose area of expertise aligns with the student's research topic.

*Thesis Option:*

Before beginning the second writing seminar, students choosing the thesis option must formally declare that they will continue and build on the research paper written for the first writing seminar. Essentially, the first research paper is treated as one chapter in an MA thesis and the second chapter is written during the second writing seminar. Permission from both the faculty mentor who will oversee the project and the MA Coordinator is required. The instructor of the second writing seminar must also be advised of a student's choice to work on a thesis.

The MA thesis in its entirety must be signed by a first reader, i.e., the faculty mentor, and a second reader, who may or may not be one of the faculty members who taught the two research classes. The thesis advisor/first reader gathers the necessary signatures.

Students who pursue an MA thesis but do not complete it must have produced work comparable to two distinct seminar papers to complete the degree program.

## History PhD

### COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in History.

## About the Program

Temple University offers a varied and flexible program for graduate training in History at the PhD level in the Philadelphia area, which is rich in historical archives and museums. The thrust of the PhD program is to prepare professional historians who are equipped to function in academia, public history, education, government service or other related careers.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students are required to complete the PhD program on a full-time basis.

**Interdisciplinary Study:** The History program at Temple is affiliated with the Center for Public History, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, and Temple's Urban Archives.

**Affiliation(s):** The History program at Temple is affiliated with the Biographical Dictionary of Pennsylvania Legislators, the Center for the Study of Force and Diplomacy, The Myer and Rosaline Feinstein Center for American Jewish History, the Social Science Data Library, and Temple's Urban Archives.

**Areas of Specialization:** Faculty members specialize and offer substantial coursework in anti-colonial movements, cultural history, diplomatic history, gender, imperialism, international history, military history, political history, race and ethnicity, religious history, sexuality and social history.

Although training is offered in many different historical eras at Temple, most doctoral students write dissertations that focus on the eighteenth, nineteenth or twentieth century.

**Job Prospects:** The program is primarily dedicated to producing well-trained historians who work in academia, public history, government and academically related fields.

**Non-Matriculated Student Policy:** Non-matriculated students are permitted to take up to 9 credits of coursework. These courses can be transferred into the degree program after their admission only if they earn a grade of "B" or higher.

### Financing Opportunities:

*Teaching Assistantships:*

Teaching Assistants (TAs) are required to teach or assist in teaching at Temple. TAs receive tuition waivers for all courses taken during the Fall and Spring terms (up to 9 credits) that contribute to the student's program, plus a stipend and health insurance benefits. All TAs are doctoral students and offers of teaching assistantships are considered as part of the admissions process. New applicants for the PhD program are automatically considered, and teaching assistantships are generally for a period of five years.

#### *Fellowships:*

Presidential and University Fellowships provide support for four years. The Graduate School funds Years 1 and 4; the College of Liberal Arts funds Years 2 and 3. In addition to free tuition and health coverage, these fellowships carry a stipend. While on fellowship, the student must take a minimum of 9 credits each term during the academic year. Students are nominated for a fellowship by the department upon admission to the program. The department can elect to supplement these fellowships with an additional year of teaching assistantship.

#### *Fellowships from the Center for the Humanities at Temple (CHAT):*

Advanced Graduate Scholar Awards provide support to advanced doctoral students pursuing research in the humanities or humanistic social sciences in any school or college at Temple. Fellows receive funding for full-time work on their dissertation. This includes a stipend, tuition, benefits and \$500 in research funding for the term. Fellows receive office space at the Center and participate in the bi-weekly Fellows Seminar.

#### *Dissertation Completion Grant:*

Students may apply for a dissertation completion grant in their last term before graduation. Applications are due to the Director of Graduate Studies on March 1 and October 1. The Director of Graduate Studies or the Department Chair submits a letter of nomination on behalf of each applicant. Departmental nomination does not, however, guarantee the nominee receipt of the dissertation completion grant. Note that receipt of this grant disqualifies a student from receiving further financial support from Temple University.

#### *Appointment as Part-Time Instructor:*

PhD candidates are eligible for appointment as part-time instructors. The Department Chair, after consulting with the Director of Graduate Studies, is responsible for these appointments. Consideration is given to whether the candidate has assisted in the course and, if so, consultation is made with the faculty whom they assisted. Priority is given to qualified students who have not had the opportunity previously to teach independently.

#### *Awards and Grants:*

The History Department and the Center for the Study of Force and Diplomacy provide several awards and grants annually. For more information on these, visit <https://liberalarts.temple.edu/research/labs-centers-and-institutes/center-study-force-and-diplomacy/funding>.

Additional research funding is possible through Charles Library and the Public Policy Lab at Temple.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15

Applications are evaluated together after the deadline date.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from instructors or other individuals who are familiar with the applicant's academic work.

**Coursework Required for Admission Consideration:** Applicants are expected to have majored or minored in History at the undergraduate level or to have received an MA in History. Those who lack either of these qualifications are considered on a case-by-case basis.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 500 to 750 words, share a clear statement of your interest in the doctoral program in History at Temple University and how Temple's program meets your needs, your major historical interests, career goals, and academic and research achievements, if applicable.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Writing Sample:** The writing sample should demonstrate the applicant's ability to conduct research and write a scholarly paper. It should be fully referenced according to a professional, scholarly style manual and should not exceed 30 pages in length.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 39

#### *Required Courses:*

Doctoral students must take at least 11 courses in the History Department, and may elect to take courses outside the department with the permission of the Director of Graduate Studies. A minimum of 10 courses must be completed before the general examination can be taken. Students should consult with their advisor for specific field requirements for the following required courses:

- One methodology seminar [HIST 8714 Historical Methods (3 s.h.)], taken in the first year of study in the first academic term.
- Two 9000-level research/writing seminars (currently HIST 9208 Research Seminar repeated for a total of 6 credits) in which a substantial piece of original research is produced; one course must be taken in the first year, preferably in the second term.
- Eight 5000- and 8000-level reading and literature review courses (24 credits), with the course offerings coordinated by the Director of Graduate Studies; four of the courses are recommended to be taken in the student's area of interest.

- 6 credits of HIST 9994 Preliminary Examination Preparation, HIST 9998 Pre-Dissertation Research, and HIST 9999 Dissertation Research.

**Language Examination:** All students must show competence in at least one foreign language. To demonstrate competence, a student must pass a short translation exam administered, in most cases, by the University's language departments. The dissertation advisor determines whether competence in a second language is required. The language requirement must be satisfied prior to taking the general examination. For doctoral students in American History, the language requirement may be waived at the discretion of the advisor and with the approval of the Director of Graduate Studies.

#### **Culminating Events:**

##### *Preliminary Examination:*

All doctoral students take a preliminary exam in the September of their third term of study. The preliminary exam is a take-home exam consisting of one synthetic question covering one of two areas: either Environments, Cities, and Cultures (Track I) or War, Empire, and Society (Track II), each with its respective list of 50 books for students to study. Students choose one area/track and, at the exam, choose one of two questions in that area. They have one week to write an essay of no more than 6,000 words. In the preceding Spring term, the exam committee is responsible for conducting a workshop with first-year doctoral students in which the expectations of the preliminary exam are discussed.

The exam date is set, and the exam itself is graded by a pair of Graduate Faculty in each area who have been appointed by the Director of Graduate Studies. The exam is graded blindly by the exam committee. Doctoral students who twice fail the preliminary exam are dismissed from the program.

##### *General Examination:*

Doctoral students who pass the preliminary exam proceed to the general exam, which consists of three fields, each guided by a different member of the faculty. Note that the dissertation advisor should be the examiner in either the Geographic and/or Chronologically Distinct Field or the Thematic Field:

- Geographic and/or Chronologically Distinct Field – The reading list should include 75-80 books and articles that examine a broad field in terms of time and space, e.g., 20<sup>th</sup>-Century U.S. History, Atlantic World, Latin American or Caribbean History, or Southeast Asian History. Students designate a member of the Graduate Faculty to examine them in this field and collaborate with that faculty member in creating the reading list.
- Thematic Field – The reading list is made up of 50 books and key articles that explore a more focused and topical area, such as Diplomatic History, Labor History, Queer Studies or Urban History. Students designate a member of the Graduate Faculty to examine them in this field and collaborate with that faculty member in creating the reading list.
- Teaching Field – Students submit a detailed and largely original syllabus, ideally for an undergraduate class, covering either the geographic field (a survey class) or the thematic field (a more specialized, upper-level class). They designate a faculty member to lead a discussion of the syllabus. The other two members of the exam committee are welcome to participate in this discussion. Students should submit the syllabus to all three members of the examining committee 72 hours before the exam.

Doctoral students typically complete the general exam in their fifth term. This oral exam is two hours long. All three members of the exam committee leading the exam in the Geographic/Chronological Field, Thematic Field, and Teaching Field need to be present at the exam. Students are asked to discuss issues pertinent to their prepared fields of study and teaching. To pass the exam, all three members of the committee must approve of the student's performance. Students may retake the oral exam if they fail. After failing twice, students are dismissed from the program.

University-wide regulations governing examinations when a PhD student matriculated apply throughout their career until the degree is received. If departmental or college regulations change, the student similarly follows the rules in place at the time of their matriculation unless they obtain approval of the advisory committee and written permission from the Graduate Council to follow more recent requirements.

Students preparing to take their general examination should confirm times and dates with their other committee members and the Graduate Administrator. All parties involved should receive confirmation of the time, date and room well in advance of the examination.

##### *Dissertation Committee:*

After passing the general exam and in consultation with the primary advisor, students select the members of their Doctoral Advisory Committee. The Doctoral Advisory Committee is formed to oversee the student's doctoral research and is comprised of at least three Graduate Faculty members, two of whom are from the History Department. The student's primary advisor functions as the chair of this committee and is responsible for overseeing and guiding the student's progress, coordinating the responses of committee members, and informing the student of their academic progress.

Further, either during the process of writing the dissertation prospectus, or at some time following its approval, students, again in consultation with their primary advisor, select a qualified external reader of the dissertation. The external reader may either be on the faculty of a Temple University department other than History or a member of the faculty of a college/university other than Temple. Once the external reader has agreed to serve in the capacity (and received approval from the Graduate School), that person is added to the Dissertation Examining Committee. The total membership of the Dissertation Examining Committee may exceed four faculty (the minimum being the three Graduate Faculty members who approved the prospectus plus the external reader). A majority of the committee's members, however, must be Temple University History Department Graduate Faculty.

##### *Prospectus:*

All doctoral candidates must prepare a dissertation prospectus in close consultation with the advisor prior to advancing to PhD candidacy. This document, usually 15 to 20 pages in length, must achieve the following goals:

1. Identify the major research question of the dissertation.
2. Situate the dissertation in the existing scholarly literature.
3. Lay out a coherent research strategy that identifies the archives and sources that will be used.
4. Include a timeline for research and writing of the dissertation.

The prospectus defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation lasting approximately 10 to 20 minutes, outlining the contents of the prospectus. A copy of the dissertation prospectus is made

available at least one week before the defense for examination by the faculty. During the defense, faculty and students engage the candidate in vigorous conversation about the proposed project.

The prospectus must be defended before the end of the sixth term. Failure to defend the prospectus by the end of the sixth term is grounds for dismissal from the doctoral program. At the end of the defense, the candidate's Doctoral Advisory Committee meets privately to vote on advancing the student to PhD candidacy.

#### *Dissertation:*

Dissertations must be written and defended within seven years of matriculation. Students who have made satisfactory progress toward completing their dissertation can apply for an extension of up to three additional years. Therefore, the maximum total time permitted for completing the PhD program is ten years. Students in the PhD program must register each term until all requirements for the degree have been fulfilled unless they receive a leave of absence.

All dissertations must be prepared in accordance with the guidelines of the *Dissertation and Thesis Handbook*. Students should arrange a procedure for submitting draft chapters for review to their primary advisor and other members of the Doctoral Advisory Committee.

When the chair and a majority of the Dissertation Examining Committee agree that the written dissertation is of sufficient quality to be defended, the student should arrange with the Committee a time for the oral defense to be held. The student should then notify the Graduate Administrator of the proposed defense date. The oral defense must be publicly announced in writing at least ten days in advance of the date of the defense and must be open to the public. A copy of the dissertation is made available to the department at least one week before the defense for examination by the faculty.

An Oral Defense Chair must be identified. This person must be a Temple University presidential faculty member and may not be the chair of the student's Dissertation Examining Committee.

In the event that a member of the Dissertation Examining Committee cannot attend the defense, teleconferencing or videoconferencing is arranged. This arrangement must be approved by the Graduate School prior to the defense. No more than one member of the Dissertation Examining Committee can be physically absent from the defense.

The dissertation defense is a public event, open to History Department faculty and doctoral students. At this event, the doctoral candidate makes a brief presentation, outlining the main argument of the dissertation. During the defense, faculty and students engage the candidate in a vigorous conversation about the project. At the end of the defense, the Dissertation Examining Committee meets privately to vote on the candidate's performance. The candidate is notified immediately of the decision.

## Liberal Arts MLA

### COLLEGE OF LIBERAL ARTS

Learn more about the Master of Liberal Arts.

### About the Program

The Master of Liberal Arts is an interdisciplinary degree that allows students to take courses from a variety of graduate programs in the College of Liberal Arts and elsewhere in the University. Students are encouraged to develop an individual program of study, based on their own interests and objectives and in consultation with the MLA Program Director. Our students are generally working adults who want to grow intellectually by extending their liberal arts education. Some may be seeking to move toward a doctorate and want to prepare themselves for more advanced graduate coursework. Others may be interested in changing careers and wish to gain post-baccalaureate experience. The MLA degree might be relevant, for example, for those who want to move into educational administration, library work, public policy, the law or teaching.

**Time Limit for Degree Completion:** 5 years

**Campus Location:** Main and Center City, where both required and elective courses can be taken

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 4:30 p.m. However, the program allows for flexibility and students are able to take courses at other times. The degree program can be completed on a full- or part-time basis.

**Continuous Enrollment:** Students must maintain continuous enrollment. When a student knows that they will not register for the Fall or Spring term, they must submit a "Leave of Absence Request" form, found in TUportal under the Tools tab within "University Forms," along with the \$25 fee to the MLA administrative office. If a student fails to register for two consecutive terms without submitting Leave of Absence forms, they may be dismissed from the program for non-continuous enrollment.

**Interdisciplinary Study:** Students are introduced to interdisciplinary thinking through MLA 5011 Introduction to Interdisciplinary Studies, a graduate writing and research methods course that entails peer review and collaborative learning and culminates in a final project based on the course theme. Students also select from a range of MLA "Topics"

courses while continuing to develop individual programs of study along interdisciplinary lines. Specific themes for all MLA courses may change for any given academic term depending on the instructor. In addition to completing the required MLA course, students may choose to concentrate their course of study by undertaking coursework outside of the MLA curriculum.

**Areas of Specialization:** The MLA program draws on faculty from across the range of disciplines in the College of Liberal Arts, with an emphasis on applied humanities, engaging such areas as arts and culture, media studies, public history and social theory.

**Job Prospects:** While not a professional degree, the MLA degree may be applicable to a wide range of future graduate training and/or employment: from teaching and educational administration to library work; from public policy to arts management; and from government, the law and public service to private sector work.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of graduate work at Temple University before applying to the program. Coursework may be credited to the MLA degree with approval of the MLA Advisory Committee.

**Financing Opportunities:** Funding opportunities are not available.

## Admission Requirements and Deadlines

### Application Deadline:

Fall: March 1  
Spring: November 1

Applications are accepted on a rolling basis, but all application materials must be received by the deadline to be considered for that term. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required: 3*

*From Whom:* Letters of recommendation should be requested from individuals who are well positioned to evaluate the applicant's academic abilities and accomplishments as well as potential for graduate study.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must hold a baccalaureate degree from an accredited college or university. A minimum undergraduate GPA of 3.0 is required for admission.

**Statement of Goals:** In approximately 500 to 1,000 words, describe your academic and research achievements, current research interests, and why Temple's MLA program and interdisciplinary graduate study in the liberal arts are the right match to attain your academic and professional goals.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** Current academic CV or professional resume required.

**Transcripts:** An official transcript from each postsecondary institution attended is required.

**Transfer Credit:** Graduate credits from an accredited institution may be transferred into the MLA program upon approval. The credits must be equivalent to coursework offered at Temple and not older than five years. The grade(s) earned must be a "B" or better in order to transfer. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate: 30*

### Required Courses:

Code	Title	Credit Hours
MLA 5011	Introduction to Interdisciplinary Studies	3
	Three MLA "Topics" courses	9
	Electives	18
<b>Total Credit Hours</b>		<b>30</b>

### Culminating Event:

#### *Qualifying Paper:*

All candidates for the MLA degree are required to write a Qualifying Paper, which is typically 40 to 50 pages in length. It should demonstrate the student's ability to:

- write analytically on a topic of their choice;
- read, absorb and evaluate scholarly thought and research; and
- develop and establish their own perspective on the problem being examined.

The Qualifying Paper is submitted for approval to the MLA Advisory Committee or other graduate faculty chosen by the MLA program. Revisions may be requested.

## Neuroscience: Systems, Behavior and Plasticity MS

### COLLEGE OF LIBERAL ARTS

Learn more about the Master of Science in Neuroscience: Systems, Behavior and Plasticity.

## About the Program

Neuroscience is the study of the nervous system, including the brain, spinal cord, networks of nerve cells called neurons, and how these cells interact to generate behavior. This is a rapidly evolving field with applications ranging from health disciplines to economics and public policy. The philosophical goal of the MS program in Neuroscience: Systems, Behavior and Plasticity is to provide advanced training in neuroscience and professional development via coursework and a faculty-mentored research experience to students who have completed an undergraduate major in Neuroscience or a closely related scientific area and who wish to extend their studies before moving on to other post-graduate training or professional employment. Students in this program achieve the following objectives:

- Build a core knowledge in specific areas of neuroscience, including behavioral, cellular, molecular and systems.
- Develop a general professional competence in oral and written expression as well as in the critical analysis of research articles.
- Learn to understand, create and undertake hypothesis-based approaches to research.
- Train in a variety of techniques and approaches to studying the nervous system.
- Develop a keen sense of analytical thinking and logic in the evaluation of their own work and that of others.
- Become effective teachers and communicators of neuroscience.
- Gain independence in thinking, teaching, laboratory work and communicating.

**Time Limit for Degree Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program is expected to be completed on a full-time basis.

**Job Prospects:** Because the brain is involved in every important human endeavor, understanding the brain and its functions opens career paths in multiple fields, including education, engineering, law, medicine, psychology and public policy. Master's-level education in neuroscience provides students with a wide range of career options, including:

- Biostatistician
- Clinical data manager
- Counselor
- Environmental health safety officer
- Medical or science writer
- Public health administrator
- Public policy strategist
- Regulatory affairs specialist
- Research associate at academic research institutes or in private industry
- Research and teaching administrator
- Teacher/lecturer

The United States Bureau of Labor Statistics identifies the breadth of employment opportunities in neuroscience along with the salary ranges for different careers options based on different types of employers in its Occupational Outlook Handbook.

**Non-Matriculated Student Policy:** Non-matriculated students are eligible to take graduate courses. If accepted into the program, up to 9 credits may be applied toward the degree program.

**Financing Opportunities:** Assistantships are not available for the MS program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty who are familiar with the applicant's academic abilities.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must hold a baccalaureate degree (BA or BS) in one of the following disciplines:

- Bioengineering
- Biology
- Chemistry
- Human Movement Science
- Kinesiology
- Mathematics
- Neuroscience
- Physics
- Psychology
- Public Health

Other relevant disciplines, combined with or including coursework in Biology, Chemistry, Mathematics/Statistics, Neuroscience, Physics and/or Psychology, may be accepted after individual evaluation of the applicant's qualifications.

A minimum GPA of 3.2 in undergraduate work is required for consideration of the application to the program.

**Statement of Goals:** In approximately 500 to 1,000 words, share your specific interest in Temple's program, academic achievements, and future career goals.

**Standardized Test Scores:**

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 88
- IELTS Academic: 6.5
- PTE Academic: 60

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
NSCI 5001	Systems and Behavioral Neuroscience	3
NSCI 5002	Neurochemistry	3
NSCI 5016	Professional Development in Neuroscience	3
NSCI 9381	Readings in Neuroscience (3 terms)	3
PSY 5003	Advanced Statistics	3
PSY 8712	Core Course in Behavioral Neuroscience	3
<b>Electives</b> <sup>1</sup>		<b>6</b>
<b>Capstone Course</b>		
NSCI 9991	Directed Research	6
<b>Total Credit Hours</b>		<b>30</b>

1

Students may select any elective relevant to their area of interest or specialization with approval from the Program Director.

**Culminating Event:**

*Master's Project:*

Students are required to work on a master's project over both terms in their second year of the program. The purpose of the project is not only to train students in specific neuroscientific techniques, but also how to develop a scientific and analytical approach toward a problem, formulate clear research questions, conduct experiments, and analyze/interpret data. Depending on their career goals, students may opt to engage either in a laboratory-based research project or in a non-laboratory project.

Students who are motivated to join a doctoral program or are interested in a research position gain by working independently on a neuroscientific investigation under the supervision of a faculty member who maintains an active neuroscience research program. On the other hand, students who are not intending to engage in bench-level research upon graduation and are interested in non-research jobs, such as counseling, research administration, public policy and teaching, may choose to engage in a non-laboratory project of a similar scope.

## Philosophy MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Philosophy.

### About the Program

Temple's Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics. The department also has expertise in ancient Greek philosophy, epistemology, ethics, feminist philosophy, Kantian and post-Kantian German philosophy, philosophy of mind, philosophy of race, philosophy of science, and political philosophy.

The MA program is designed for students to begin advanced training in the field of philosophy. Students may plan to continue with a PhD program elsewhere, or may be satisfied with a master's degree for personal enrichment or for pre-college teaching. Students who plan at the outset to pursue the PhD at Temple should apply to the PhD. The MA can be earned on the way to the PhD, if desired.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main, Center City

**Full-Time/Part-Time Status:** Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages students in the MA program to engage in a limited amount of interdisciplinary coursework. Students generally take courses in Africology and African American

Studies, Art History, English, Psychology or Women's Studies. A dual-degree program earning the MA in Philosophy/MA in Urban Bioethics is offered in conjunction with the Lewis Katz School of Medicine.

**Affiliation(s):** The Greater Philadelphia Consortium provides expanded course options for graduate work in Philosophy. Students enrolled in the MA program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

**Job Prospects:** MA graduates often find employment as teachers in community colleges and in other professions. For university teaching, the PhD is necessary.

**Non-Matriculated Student Policy:** Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for PhD students.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

Admission is competitive and determined only once a year.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with your academic competence.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required, preferably with some coursework in Philosophy.

**Statement of Goals:** In approximately 500 to 1,000 words, address your interest in Temple's program, research goals, future career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 79
- IELTS Academic: 6.5
- PTE Academic: 53

**Resume:** A short curriculum vitae should be submitted with your application.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be 15-20 pages

in length and fully referenced according to a professional, scholarly style manual. It should be in the area of Philosophy or a closely related field.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 30

### Required Courses:

The Thesis Option requires students to take 24 credits in Philosophy and 6 credits in thesis writing. The Non-Thesis Option requires students to take 6 credits in electives rather than in thesis writing.

For a current copy of the Departmental Graduate Handbook, which lists all requirements, email [claphilo@temple.edu](mailto:claphilo@temple.edu) or call 215-204-1742.

### Culminating Events:

#### *Thesis Option:*

A thesis is required when choosing the Thesis Option.

#### *Non-Thesis Option:*

Successful completion of coursework constitutes the culminating event for this option.

## Philosophy PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Philosophy.

## About the Program

Temple's Department of Philosophy has strengths in several areas of philosophical study. The department has a rich history and continuing presence in the field of aesthetics. The department also has expertise in ancient Greek philosophy, epistemology, ethics, feminist philosophy, Kantian and post-Kantian German philosophy, philosophy of mind, philosophy of race, philosophy of science, and political philosophy.

The PhD program is designed to provide students with a breadth of knowledge in philosophy while emphasizing depth of knowledge through intensive work on particular philosophical issues of interest to the student. The program stresses early development of professional writing standards and oral skills. PhD students are generally given the opportunity to teach courses under the guidance of the department's Teaching Mentoring Program.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main, Center City

**Full-Time/Part-Time Status:** Students complete the degree program through classes largely offered before 4:30 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program permits students in the PhD program to take a limited number of courses in non-Philosophy programs at Temple. Students may also earn the graduate certificate in Gender, Sexuality and Women's Studies in conjunction with the PhD in Philosophy. A dual-degree program earning the PhD in Philosophy/MA in Urban Bioethics is offered in conjunction with the Lewis Katz School of Medicine.

**Affiliation(s):** The Greater Philadelphia Consortium provides expanded course options for graduate work in philosophy. Students enrolled in the PhD program at Temple may take graduate courses at the University of Pennsylvania and Villanova University.

**Job Prospects:** Graduates typically find employment in college or university teaching and research. A departmental placement committee assists students with the job search.

**Non-Matriculated Student Policy:** Non-matriculated students may register for courses after an interview with the Director of Graduate Studies, at which time they should present academic transcripts. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** Support is available in the form of University Fellowships, Teaching Assistantships, and Academic Internships. University Fellows are typically supported with a stipend and full tuition remission for four years, teaching for two of those years. Teaching Assistants are typically required to teach introductory philosophy courses or recitation sections in large courses taught by professors. They receive a stipend and full tuition remission. All PhD applications are automatically considered for financial aid.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 15

Admission is competitive and determined only once a year. Applications to the PhD program are automatically considered for financial aid.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with your academic competence.

**Coursework Required for Admission Consideration:** Applicants typically have majored or minored in Philosophy for their bachelor's degree.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Philosophy is standard, although not mandatory, for admission into the program.

**Statement of Goals:** In approximately 500 to 1,000 words, address your interest in Temple's program, research goals, future career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Required. Scores are typically in the 65 to 75% range on the verbal and quantitative sections.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be 15-20 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Philosophy or a closely related area.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 42

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
	Epistemology/Metaphysics Course	3
	History of Philosophy Courses	9
	Select one course each in Ancient, Kant/Hegel, and 17th/18th Century Philosophy	
	Values/Ethics Course	3
	<b>Electives</b> <sup>1</sup>	<b>21</b>
	<b>Research Courses</b>	<b>6</b>
PHIL 9994	Preliminary Examination Preparation	
PHIL 9998	Pre-Dissertation Research	

PHIL 9999 Dissertation Research

**Total Credit Hours****42**

1

Of the 21 elective credits, 9 credits may be taken in cognate disciplines, subject to determination by the Director of Graduate Studies.

For a current copy of the Departmental Graduate Handbook, which lists all requirements, email claphilo@temple.edu or call 215-204-1742.

**Language/Logic Examination:** Students must pass either a written proficiency examination in French, German, or Ancient Greek, or a logic examination. Other languages may be approved by the Director of Graduate Studies, provided the student makes a compelling case that the language in question is useful for dissertation work.

**Culminating Events:***Dissertation Advising:*

It is the student's responsibility, in consultation with their primary advisor, to assemble three advisory committees. It is best to form a committee that gives the student a variety of sympathetic but critical perspectives on the project. Three distinct committees, which are largely composed of the same members, must be in place at different phases of the proposal and dissertation processes. The committee guidelines are outlined below:

1. **Proposal Advisory Committee:** This committee guides the student through the preparation and defense of their dissertation proposal. The Proposal Advisory Committee is composed of three Graduate Faculty members from the Philosophy Department. One member is named Chair. Additional members from outside the Philosophy Department may be included with written approval from the Chair and the Graduate School. Normally, the Proposal Advisory Committee becomes the Doctoral Advisory Committee upon approval of the proposal.
2. **Doctoral Advisory Committee:** This committee guides the student through all stages of the dissertation. The Doctoral Advisory Committee must be in compliance with University guidelines as prescribed by the Graduate School. The committee must be composed of at least three Temple University Graduate Faculty members, two of whom must be from the Philosophy Department. A member of the committee from the Philosophy Department is named Chair.  
If changes must be made in the Doctoral Advisory Committee after the student is elevated to candidacy, such changes must be approved by the Chair of the Advisory Committee and the Graduate School. A "Request for Change in Dissertation Committee" form, found in TUportal under the Tools tab within "University Forms," must be filed.
3. **Dissertation Examining Committee:** This committee consists of the Doctoral Advisory Committee plus one Graduate Faculty member from outside Temple's Philosophy Department OR one Outside Examiner. The Outside Examiner may be from another academic institution; should not have been a part of the dissertation writing process or the Doctoral Advisory Committee; and must be approved at least two weeks prior to the defense. The Chair of the Dissertation Examining Committee must be a member of the Temple University Graduate Faculty, but may not be the Chair of the student's Doctoral Advisory Committee. The Chair of the Dissertation Examining Committee must be identified when the defense is posted through the Graduate School.

*Preliminary Examinations:*

The preliminary examinations consist of writing original research papers in:

1. History of Philosophy, defined as Ancient Philosophy through the end of the 19th Century; and
2. Contemporary Philosophy, emphasizing constructivist, analytical or other philosophical approaches to a particular issue.

Students may submit either the historical or the contemporary paper first. These papers are typically developed from a student's best coursework papers and are generally revised through consultation with the professors who originally evaluated them. *The papers should aspire to meet the standards of publication.* NOTE: A successful course paper typically requires considerable work to become a successful preliminary paper. Preliminary examination essays should show both a mastery of relevant primary and secondary literature and put forward ideas that are an original contribution to the field. Graduate students are strongly encouraged to consult with faculty several months before their preliminary examination essays are due.

The first Preliminary Examination Paper is due by 4:00 p.m. on the second Monday in October at the beginning of the student's second year, and the second paper submission is due by 4:00 p.m. on the second Monday in October at the beginning of the student's third year. Papers must be prepared for blind review and submitted via e-mail to the Graduate Coordinator. Papers should include an abstract of not more than 200 words.

All papers are prepared for blind review and evaluated by three faculty members. Papers are graded High Pass/Pass/Borderline/Fail. Papers must receive at least two grades of Pass in order to pass. Papers that receive two Borderline grades, a Fail and a Borderline, or two Fail grades automatically fail. Students get a second chance on each of the preliminary papers, but students who fail a preliminary examination twice are dismissed from the program. Second-year students who fail a preliminary examination resubmit, along with their second preliminary examination, in the October of their third year. Third-year students who fail a preliminary examination for the first time resubmit by 4:00 p.m. on the second Monday of the following February.

Students must be registered for at least one credit of PHIL 9994 Preliminary Examination Preparation in the terms in which they submit their preliminary examinations. Students who are required to resubmit their preliminary examinations must re-register for one credit hour of PHIL 9994 in the term in which the exam is to be resubmitted.

*Dissertation Proposal:*

The dissertation proposal is an opportunity for the student to develop and clearly articulate the project of the dissertation. The dissertation proposal has two components: written and oral. The written component should be 15-20 pages in length and include a statement of the problem, a critical literature review, and a sketch of how the student intends to address the philosophical problem(s) at hand. The student needs to make clear how the dissertation will be an original contribution to the field of philosophy. A detailed bibliography and chapter outline are also expected. The approved dissertation proposal serves as a contract between the student and their Doctoral Advisory Committee: the student agrees to complete the work outlined in the proposal under the guidance of the Doctoral Advisory Committee.

When the written component of the proposal is judged ready by the Proposal Advisory Committee, an oral examination date is set. At least two weeks before this examination, the defense is announced to the

department faculty and at least two copies of the written proposal are made available in the Graduate Coordinator's office.

The oral examination, which is conducted by the Proposal Advisory Committee, constitutes an opportunity for the student's committee to make positive suggestions as well as to test the candidate's preparedness. Other faculty may attend the oral examination and ask questions after the Proposal Advisory Committee has completed its questioning. The Proposal Advisory Committee decides, by majority vote, whether the candidate passes or fails the written and oral parts of the dissertation proposal.

*Dissertation:*

The dissertation should constitute a definitive and original contribution to the field of philosophy. It needs to show mastery of the relevant philosophical literature. The dissertation should be in the hands of the Dissertation Examining Committee by October 1 for December graduation and by March 1 for May graduation.

All PhD students must formally and publicly defend their dissertations before the Dissertation Examining Committee. The candidate must submit the official, signed notice of the oral defense to the Graduate School 10 or more working days before the scheduled defense. A defense cannot be held without written confirmation of approval and receipt of the defense paperwork from the Graduate School.

The defense should be announced publicly and is open to all members of the University. During the defense, primary questioning is restricted to the members of the Dissertation Examining Committee. Then, Philosophy Department faculty members who have submitted written questions in advance may address the candidate. Lastly, other members of the Philosophy Department faculty may address the candidate. The Dissertation Examining Committee decides, by majority vote, whether the candidate passes or fails.

## Political Science MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Political Science.

### About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Most students in the MA program intend to pursue a PhD either at Temple or elsewhere, immediately after graduation or after a few years of employment. Those who wish to pursue a PhD at Temple are strongly encouraged to apply directly to the PhD program at the outset of the admissions process. Some MA students use the degree to establish or strengthen credentials in teaching or for private/public sector positions, while others want to strengthen their background for applications to other professional degree programs.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** We offer courses in American Politics, Comparative Politics, International Relations, Political Theory, as well as methodology.

**Job Prospects:** Most students in the MA program intend to pursue a PhD immediately after graduation or after a few years of employment. Some MA students use the degree to establish or strengthen credentials in teaching or for private/public sector positions, while others want to strengthen their background for applications to other professional degree programs.

**Non-Matriculated Student Policy:** Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the MA or PhD program. Then, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

**Financing Opportunities:** MA students are not eligible for departmental assistantships.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15

Late applications may not be considered.

APPLY ONLINE to this graduate program.

**Letters of Reference:**

Number Required: 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, research goals, future career goals, and academic and research achievements.

NOTE: Students who are ultimately interested in earning a doctoral degree in Political Science at Temple University should apply directly to the PhD program.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.

**Transfer Credit:** Graduate coursework in Political Science may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 6.

## Program Requirements

**General Program Requirements:**

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Code	Title	Credit Hours
<b>Core Course</b>		
POLS 8001	Political Statistics I	3
<b>Subfield Courses</b>		
Select three from the following:		
POLS 8101	Government in American Society	
POLS 8201	Comparative Politics	
POLS 8301	International Politics	
POLS 8401	Introduction to Political Theory	
<b>Electives</b> <sup>1</sup>		15
<b>Methodology Course</b>		
POLS 8002	Qualitative Research Methods	3

or POLS 8003 Political Statistics II

**Total Credit Hours**

**30**

1

All students should consult with their faculty advisor on course selection and exam preparation. Students select two elective courses in two main fields and one in a third minor field. Those who plan to continue into the PhD program should take their two main-field elective courses in the two fields in which they plan to complete written comprehensive exams and the third in a minor field.

**Culminating Event:**

*Seminar Paper:*

Students must complete a seminar paper in one of their elective courses. All graduate elective courses give students the option of writing a seminar paper as a central element of the course grading. Students must submit the seminar paper, with the instructors' comments and grades, to the Graduate Chair. The Graduate Chair must certify that these papers meet the seminar paper requirement (i.e., contain original arguments grounded in extensive reference to relevant secondary and/or primary sources). Such certification must be granted before the degree is awarded.

## Political Science PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Political Science.

## About the Program

The primary mission of the Political Science Department's graduate program is to prepare students for careers in academia. The department gives equal emphasis to training students for both the research and teaching sides of such a career. Many of our graduates also successfully apply their political science training to non-academic careers. The PhD program offers study in four broadly defined fields: American Politics, Comparative Politics, International Relations and Political Theory. The PhD program seeks primarily to develop the research skills and substantive knowledge necessary for successful completion of a dissertation.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 3:00 p.m. The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** We offer courses in American Politics, Comparative Politics, International Relations, Political Theory, as well as methodology. We typically accept students wishing to specialize in American Politics, Comparative Politics or International Relations.

**Job Prospects:** Most PhD students are preparing for college teaching careers, and a good number secure teaching positions at colleges and universities. Others pursue careers in government or other non-academic research positions.

**Non-Matriculated Student Policy:** Prior to applying for admission, students sometimes want to take courses as non-degree students. Those who wish to do so must first obtain the approval of the Graduate Chair in the Political Science Department to determine if the individual stands a reasonable chance for admission to the MA or PhD program. Then, to be enrolled in coursework, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree.

### Financing Opportunities:

#### *Departmental Support:*

The department typically supports a portion of its graduate students as Teaching or Research Assistants. Students may not only assist professors in research and teaching, but also may teach courses on their own. Assistantships include full tuition, a stipend and health insurance. Assistantships are awarded on a competitive basis. The amount of support available for entering students varies from year to year, in accordance with the University budget and contractual commitments with the Temple University Graduate Students' Association (TUGSA). Assisting in research and undergraduate teaching helps graduate students integrate their studies and prepare for examinations, and gives those who plan on pursuing an academic career valuable experience.

In making funding awards, the Graduate Chair and committee place high priority on a student's academic performance and potential. The following rules and criteria guide the committee's decisions for continuing students:

- The student must be making normal progress toward meeting their degree requirements. *Two incompletes disqualify a student from consideration for financial assistance.* Advanced students should note that no student will be awarded financial assistance who has

not successfully defended a dissertation prospectus within a year of passing the comprehensive examinations.

- To spread support more broadly and to provide an incentive for students to move quickly through coursework and examinations and into the dissertation, the department typically will not provide financial aid for students who have already had five years of support as a Graduate Assistant.

#### *Graduate School Support:*

The Graduate School offers Presidential and University Fellowships to the very best applicants on a competitive basis for newly admitted PhD students. Each fellowship offers a stipend plus tuition, for up to two years, plus up to two additional years of support as a Teaching and/or Research Assistant. Fellowships can be offered to candidates who are newly matriculating in the doctoral program at Temple.

For students nearing completion of their dissertations, the Graduate School offers a limited number of Doctoral Dissertation Completion Grants. Doctoral candidates with approximately six months of anticipated writing to complete their dissertations may apply for this grant. These awards are given on a competitive basis. Students should apply for these awards only when all other department and university support has been exhausted, and when a persuasive case can be made that the dissertation will be completed within the time period of the grant. No more aid will be available after the awarding of such a grant. Interested students should speak to the Graduate Chair at least one term before they plan to apply for the award. Application can be made for Fall, Spring or Summer funding, when available.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* December 15

Late applications may not be considered.

A limited number of fee waivers are available for applicants for whom the application fee represents a financial hardship. U.S. applicants should verify whether they are eligible for a fee waiver from the Graduate School by visiting <https://grad.temple.edu/admissions/how-apply>. By November 20, applicants who want to be considered for a fee waiver from the department should complete their application to the point of payment and then fill out the request form found at <https://forms.office.com/r/F9XBGEITYY>. Applicants are notified by December 1 as to whether they will receive a fee waiver.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, research goals, future career goals, and academic and research achievements.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 25 pages and fully referenced according to a professional, scholarly style manual.

**Advanced Standing:** For students entering the PhD program who have received an MA degree elsewhere, up to 18 credits may be applied to the doctoral program, provided they are relevant to the department's required courses. These credits must have been obtained no more than five years prior to the student's matriculation at Temple and the grades must be "B" or better. The Graduate Chair decides which courses students may transfer. As a general rule, transfer students should expect that they will have to complete much of the required coursework in residence. Students transferring into the PhD program should note that it is advisable to take courses from Temple faculty in their major and minor fields before taking the PhD Qualifying Exams in those two fields.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the PhD:* 45, including 30 credits at the master's level and 15 at the doctoral level

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
Select two from the following:		6
POLS 8101	Government in American Society	
POLS 8201	Comparative Politics	
POLS 8301	International Politics	
POLS 8401	Introduction to Political Theory	3
<b>Methods Courses</b>		
CLA 8985	Teaching in Higher Education: Liberal Arts	3
POLS 8001	Political Statistics I	3
POLS 8002	Qualitative Research Methods	3
POLS 8003	Political Statistics II	3
<b>Electives</b> <sup>1</sup>		<b>18</b>
<b>Research Courses</b>		<b>6</b>
POLS 9994	Preliminary Examination Preparation	
POLS 9998	Pre-Dissertation Research	
POLS 9999	Dissertation Research <sup>2</sup>	
<b>Total Credit Hours</b>		<b>45</b>

1

Students select three elective courses in a first field, two elective courses in a second field, and one free elective. Elective courses in the two fields should be taken in areas in which the student plans to complete written comprehensive exams. The free elective may be taken in advanced methods or another substantive course. Taking more than two independent study courses requires the permission of the Graduate Chair.

2

Students must register for POLS 9999 while writing their dissertation to remain in good standing in the program unless they file for a leave of absence. Students usually register for 1 credit of POLS 9999 for every term they are writing the dissertation. Of the 6 required research credits, a minimum of 2 credits of POLS 9999 must be taken.

### Culminating Events:

#### *Qualifying Examinations:*

The Qualifying Examinations are given at the end of the Spring term for students in their second year of the PhD program. To be eligible to take the Qualifying Exams, students must have completed nearly all didactic coursework and have no incompletes on their transcript regardless of how many credits they have completed. In practice, all incompletes must be converted to a letter grade by the date on which the examinations take place.

Students take the PhD Qualifying Examinations in one of four fields: American Politics, Comparative Politics, International Relations and Political Theory. The field in which a student takes their Qualifying Examinations is considered their primary field of study. Examinations consist of a written component and are conducted by at least three faculty selected from the subfield by the Graduate Chair in consultation with the Subfield Coordinator. The examiners have joint responsibility for writing and grading the field examination. In this exam, students must demonstrate depth and breadth of knowledge and intellectual sophistication across their primary PhD field of study. They should also be prepared to interpret political phenomena within the context of various theories, use empirical data to illuminate concepts, and identify gaps in knowledge. Students are encouraged to meet with faculty in their field to discuss the general areas of the exam content to ensure that they have accurately identified key theories, concepts and literature. Professors may make sample questions, previous exams or special reading lists available as study aids.

Students who fail the written exam portion of the Qualifying Examinations can take a new version at the end of the summer after their second year in the PhD program. The Graduate School specifies that any student who fails all or part of these examinations twice is automatically dismissed from the program.

#### *Field Paper:*

In addition to the Qualifying Examinations in their primary field, students must also submit a field paper in their primary field of study. The field paper is a completed piece of research of publishable quality. It is intended to serve as a significant steppingstone toward the dissertation proposal and may build on papers written in previous courses. In the Spring term of a student's second year, the student enrolls in POLS 9994 and works with the course instructor and a member of the graduate faculty to generate a topic for the field paper. Field papers are due at the start of the Fall term of the student's third year. Papers are evaluated by the Qualifying Examinations committee in the relevant field. Students whose papers are deemed passing are invited to present their papers orally to the Qualifying Examinations committee within ten days of the

date of submission. Papers not approved by the Qualifying Examinations committee must be revised and resubmitted again before the end of the Fall term of the third year. Failure to complete a satisfactory field paper by the end of the exam period in the Fall term of the third year constitutes grounds for dismissal from the program.

*Seminar Paper:*

In lieu of a Qualifying Exam, students submit a seminar paper in their secondary field of study to the Qualifying Examinations committee in the relevant field. As part of their coursework, students must take the core seminar and two electives in their secondary field. All graduate elective courses give students the option of writing a seminar paper as a central element of the course grading. In one of these electives, students complete a seminar paper, which is graded as usual by the instructor of record, and turned in when students sit for their Qualifying Examinations in their primary field. The instructor of record in the course for which the seminar paper is written may require further revision before the paper is submitted to the Qualifying Examinations committee.

*Dissertation Proposal:*

In consultation with the Graduate Chair, the candidate secures a principal dissertation advisor. This person must be a member of the Political Science Graduate Faculty and specialize in the area of the dissertation topic. Preferably in the term immediately after passing the PhD Qualifying Exam, and no more than two terms thereafter, the candidate takes POLS 9998, the dissertation proposal preparation course. The course is offered every Fall under the guidance of the Graduate Chair. The purpose of the course is to launch students on writing their dissertation proposals and prepare them for writing the dissertation. Students are required to do the following:

1. Under the guidance of their advisor (or if different from the advisor, the faculty member most likely to supervise their dissertation) and Graduate Chair, begin exploring possible dissertation topics through research and reading.
2. Attend seminar meetings in the Fall term under the supervision of the Graduate Chair. At these sessions, the Graduate Chair presents information relevant to the development and preparation of dissertation proposals and chapters. Students are required to make presentations that address problems encountered in the proposal and dissertation writing process and strategies for overcoming them. Students who already have taken POLS 9998 are invited back to attend and participate in subsequent seminars and report on their progress and share their experiences with the students enrolled in the course.

In consultation with the dissertation advisor, the student assembles a Doctoral Advisory Committee. The Doctoral Advisory Committee is to be composed of at least three Temple Graduate Faculty, at least two of whom have their primary appointment in Political Science. The composition of the Doctoral Advisory Committee must be formally approved by the Graduate Chair. A student wishing to pursue a dissertation on a topic that requires supplementing the expertise of the department's faculty may have to seek a committee member from another department. The student has the burden of convincing the Graduate Chair that a committee with adequate expertise can be established with faculty willing to serve.

Students are required to submit a preliminary proposal not to exceed five double-spaced pages. The preliminary proposal should address both the question(s) to be examined and a justification for why those questions warrant a major study. Students are expected to show why these questions are or should be important to political scientists as well

as to citizens. Only after the Doctoral Advisory Committee is satisfied that the student has written a persuasive preliminary proposal will the student be permitted to write a longer proposal, if the committee believes a longer proposal is warranted.

Successful completion of POLS 9998 culminates in the defense of the dissertation prospectus before the Doctoral Advisory Committee. The dissertation prospectus, consisting of a research design and literature review, should be defended and accepted by the full membership of the committee within two terms after completion of PhD coursework. No student is awarded financial assistance who has not successfully defended a prospectus within a year of completion of coursework. Students who fail to submit an approved dissertation proposal within two years of completing their PhD coursework are subject to dismissal from the program. An approved proposal is a contract between the student and the Doctoral Advisory Committee. After approval, any significant theoretical or methodological change in the substantive direction of the project must be approved by the committee.

Once the prospectus is successfully defended, the student is advanced to candidacy. The Doctoral Advisory Committee must confer at least once a year with the student to review progress and provide advice. Students should take the initiative to schedule these exchanges and ensure that written faculty comments on the exchange be placed in their graduate file.

*Dissertation:*

A doctoral dissertation should demonstrate that the candidate can conduct scholarly research with a high level of professional competence. The dissertation should constitute a distinctive contribution to knowledge in Political Science. Normally, it should outline theoretical knowledge in some field of Political Science, propose a question or hypothesis that is linked to the theory, and provide empirical data to illuminate the theoretical issues in a convincing manner.

The Graduate School requires that students working on a dissertation register for POLS 9999 in order to maintain status as an active graduate student.

Students must submit final drafts of dissertations in an approved style and format. Not doing so may result in significant reformatting at the end. Information on the desired format can be found in the Dissertation and Thesis Handbook.

After the principal dissertation advisor and the Doctoral Advisory Committee have reviewed the completed dissertation draft, a fourth reader from outside the department who has not been involved with the dissertation previously must be selected by the dissertation committee chair and the Graduate Chair. Students may suggest a reader. This reader must be a Graduate Faculty member from another department at Temple or from another university who has the qualifications necessary to act as a fair judge of the dissertation's scholarly merit. As a member of the newly formed Dissertation Examining Committee, this reader should receive a completed draft of the dissertation one month before the anticipated dissertation defense date. Readers who are from outside of Temple University must submit a curriculum vitae and be approved by the Graduate School at least two weeks prior to the oral defense.

When a majority of the Dissertation Examining Committee has judged in writing that the dissertation is ready to be defended, a defense date can be scheduled. A defense is open to the university community and to the student's family. Others who wish to attend must obtain the written permission of the student and the Dissertation Examining Committee. The defense must be announced publicly at least 10 working days in

advance. Notice must be sent to all faculty members in the department and to the Graduate School. The public announcement of the defense should include an abstract of the dissertation.

The oral defense must be chaired by a member of the committee other than the dissertation advisor. The oral defense should demonstrate that:

- the dissertation is commensurate with the standards for original research in Political Science;
- the ethics and standards governing Political Science research have been followed;
- the research and appropriate methodology have been mastered; and
- the candidate has an understanding of the relationship of this work to the broader field in which it is lodged.

Passing the examination requires a vote of approval by more than half of the full membership of the Dissertation Examining Committee. If a dissertation is approved but revisions are required, the revisions must be submitted to the Graduate School in final form within 30 days of the defense. Otherwise, the defense is nullified and a new oral defense must be scheduled. After the final draft of the dissertation has been approved by the dissertation chair, it must be submitted to the Graduate Coordinator and to the Graduate School by uploading the final document to <https://www.etdadmin.com/cgi-bin/school?siteId=171>.

# Psychological Research MS

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Science in Psychological Research.

## About the Program

The accelerated +1 MS in Psychological Research is designed to provide a research-intensive experience, advanced coursework and professional development to current Temple University students completing their undergraduate degree in Psychology who intend to pursue doctoral studies in any of the academic psychology disciplines. Students enter the program as senior psychology majors and complete the MS degree with only one additional year of graduate coursework. Students in the 32-credit program work with a faculty sponsor to develop and carry out a master's project; complete graduate-level coursework in methodology, statistics, ethics and topical seminars; and engage in professional development activities that prepare them for doctoral-level studies and enhance their applications to PhD programs.

The MS in Psychological Research is separate and distinct from the PhD program offered by the Department of Psychology and Neuroscience and does not lead to entrance into the Psychology PhD program. Prospective doctoral students must apply directly to the PhD program.

**Time Limit for Degree Completion:** 2 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework.

**Job Prospects:** Graduates of the MS program in Psychological Research gain skills that enhance their applications to doctoral programs in academic psychology. Positions for individuals with an MS in Psychological Research are also available in a number of settings, including universities, private research and consulting organizations, nonprofits and marketing.

**Non-Matriculated Student Policy:** Master's Directed Research courses, including PSY 5791 Master's Directed Research I and PSY 5891 Master's Directed Research II, and 8000-level courses are not open to non-matriculated students. Permission of the instructor is required for non-matriculated students to take PSY 5003 Advanced Statistics and PSY 5104 Ethics and Ethical Conflicts in Psychological Science.

**Financing Opportunities:** Assistantships are not available for the MS program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

Applications are not evaluated until after the deadline has passed.

If you are currently an undergraduate student in Psychology at Temple University, *APPLY ONLINE to this graduate program*. The MS program in Psychological Research is open only as an accelerated +1 program for Psychology undergraduate students at Temple University. It is expected

that the program will open to non-Temple students in the future, but that time frame has not yet been determined.

#### Letters of Reference:

Number Required: 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with the applicant's academic competence.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree (BA, AB or BS) in Psychology is required. Additionally, a minimum GPA of 3.5 is required in both Psychology and overall for admissions consideration. Meeting the minimum does not, however, guarantee admission.

**Statement of Goals:** In approximately 500 to 1,000 words, state your reasons for pursuing a master's degree, current research interests, research experience, and future career goals.

#### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Writing Sample:** An academic writing sample must be submitted. It is used to assess the applicant's ability to complete graduate-level written work and produce a high-quality master's project paper.

## Program Requirements

#### General Program Requirements:

Number of Credits Required Beyond the Baccalaureate: 32

Required Courses:

Year 1		
Fall		Credit Hours
PSY 5791	Master's Directed Research I	3
<b>Credit Hours</b>		<b>3</b>
Spring		
PSY 5003	Advanced Statistics	3
PSY 5891	Master's Directed Research II	3
<b>Credit Hours</b>		<b>6</b>
Year 2		
Fall		Credit Hours
PSY 8015	Teaching of Psychology	1
PSY 8016	Professional Development Seminar	2
PSY 9991	Research	4
8000-level Statistics or Methodology course		3
<b>Credit Hours</b>		<b>10</b>

Spring		
PSY 5104	Ethics and Ethical Conflicts in Psychological Science	3
PSY 9991	Research	4
8000-level Topical Seminar		3
Elective <sup>1</sup>		3
<b>Credit Hours</b>		<b>13</b>
<b>Total Credit Hours</b>		<b>32</b>

1

The elective must be a graduate course at the 5000 to 8000 level, but may be taken from any school or college.

**Other Requirement:** MS students are exposed to a broad range of current research by attending the department's Colloquium and TILES lecture series to hear talks by distinguished researchers from other universities. They are also required to participate in lab meetings and journal clubs, and to attend regular advising meetings to select and apply to appropriate doctoral programs. Students who postpone application to doctoral programs receive guidance for a master's-level job search and applications.

#### Culminating Event:

*Master's Project:*

A four-course sequence of directed research immerses the student in carefully planned and executed research, culminating in a publishable paper. Throughout the sequence, students are expected to participate in and contribute to the advisor's program of research. Activities include data analyses, literature reviews, programming experiments and/or recruitment.

- During the first term, students work with their advisors to develop a research proposal and analysis plan for the master's project. A protocol is submitted to the Institutional Review Board (IRB) for approval. Students become familiar with the methods, measures and apparatus in the advisor's lab.
- During the second term, students begin data collection for the master's project and start work on a comprehensive literature review.
- The third term focuses on continued data collection, preliminary analyses, completion of the literature review, and a possible poster submission.
- During the fourth term, data collection, cleaning and analyses are completed, and the results are written up in an APA manuscript.

All students complete the master's project and submit their research for publication and/or presentation at a conference. Students who do not complete the final project requirement by the end of the Spring term of Year 2 may register for additional research credits in the Summer term and submit their master's project no later than July 15 to be eligible for August graduation.

# Psychology MA

COLLEGE OF LIBERAL ARTS

## About the Program

This program is *not open for direct admission*. The Master of Arts in Psychology is awarded to students enrolled in the Doctor of Philosophy (PhD) program in Psychology en route to completion of their doctoral degree. Students must successfully complete 30 credits of required coursework.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 30

To be revealed...

# Psychology PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Psychology.

## About the Program

The Psychology program offers advanced study leading to the doctoral degree. Training is directed toward excellence in scholarship, research, teaching and practical applications. The focus of the Psychology PhD program varies depending on the area of specialization into which the student enters.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is required.

**Interdisciplinary Study:** The program encourages interdisciplinary coursework.

**Ranking:** The program has been consistently ranked among the very best Psychology doctoral programs.

**Accreditation:** The American Psychological Association and Psychological Clinical Science Accreditation System have accredited the Clinical Psychology area of specialization. Other areas of specialization do not undergo accreditation.

**Areas of Specialization:** The four areas of specialization include:

- Clinical Psychology
- Cognition and Neuroscience
- Developmental Psychology
- Social Psychology

**Job Prospects:** The program is dedicated to producing well-trained psychologists with the PhD who work in academic, applied and industry settings.

**Licensure/Certification:** The field of Clinical Psychology requires licensure for its practice.

**Non-Matriculated Student Policy:** The permission of the instructor is required for non-matriculated students to take PhD courses. The exception is 8000-level courses, which are not open to non-matriculated students.

**Financing Opportunities:** Both Teaching and Research Assistantships carry a stipend, full tuition remission (up to 12 credits per term depending on year and specialization), and health insurance benefits. The principal duties of a Teaching Assistant (TA) include assisting faculty members in classroom (field and observatory) instruction, conducting tutorials and discussion sections, and grading. A Research Assistant (RA) is expected to devote 20 hours per week on average to research obligations. An RA is assigned to a faculty member or principal investigator who is working on a specific research project.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall Admission Only:*

- November 15 – Clinical Psychology
- December 1 – Cognition and Neuroscience, Developmental Psychology, and Social Psychology

Applications are not evaluated until after the deadline has passed.

All applicants to the Psychology PhD program must apply through the online application for the College of Liberal Arts at Temple University.

Fee waivers are available on a first-come, first-served basis for applicants who identify as members of groups underrepresented in academia or who meet NIH guidelines for socioeconomically disadvantaged students. Applicants should complete the application up to the point of payment and then fill out the waiver request form found at <https://forms.gle/ZEWQHSn12Q7HqdYD8>. Please address any questions about the process by emailing [psych\\_fee\\_waivers@temple.edu](mailto:psych_fee_waivers@temple.edu).

**Letters of Reference:**

Number Required: 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members and/or employers familiar with the applicant's academic competence.

**Coursework Required for Admission Consideration:** Applicants to the doctoral program must hold a BA or BS degree and have completed at least four 3-credit courses in Psychology, a statistics course, and one laboratory course in the sciences. A natural sciences laboratory course is also recommended.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Psychology is strongly recommended. Depending on the area of interest, a bachelor's degree in a biology-related discipline may be appropriate.

**Statement of Goals:** In approximately 500 to 1,000 words, state your interest in Temple's program and outline your research goals, future career goals, and academic and research achievements. This statement should also identify your first, second and third choice of faculty with whom you are applying to work. If your choice of potential faculty mentor is not included, your application may not receive full review.

#### Standardized Test Scores:

GRE General Test: Optional. Scores may be submitted if available. Note that if applying for the Clinical Psychology area, GRE scores will not be considered in admissions decisions. Applications for the Cognition and Neuroscience, Developmental Psychology, and Social Psychology areas will receive equal consideration with or without GRE scores.

GRE Subject Test in Psychology: Not required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 105
- IELTS Academic: 7.0
- PTE Academic: 72

**Advanced Standing:** A student enrolled in the Psychology PhD program may, with the approval of the Director of Graduate Studies in Psychology, transfer as many as 9 credits of coursework taken elsewhere. To be so approved, the courses must be deemed appropriate to stand as part of the student's training in the PhD program, and the student must have received a grade of "B" or higher in the course(s). Final approval of advanced standing credits is given by the Office of the Dean, College of Liberal Arts, on recommendation from the Director of Graduate Studies in Psychology. The maximum number of advanced standing credits awarded is 9.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree:* 32-68, depending on area of specialization<sup>1</sup>:

Code	Title	Credit Hours
	Clinical Psychology	68
	Cognition and Neuroscience <sup>2</sup>	32
	Developmental Psychology <sup>2</sup>	32
	Social Psychology <sup>2</sup>	32

<sup>1</sup>

For greater detail on requirements by area of specialization, consult the Department of Psychology and Neuroscience Graduate Handbook, found at [https://docs.google.com/document/d/1hoxVN1o1ZGB10\\_9N0k8yVxkRDJLcMVYGTp-Nwgbm94/edit](https://docs.google.com/document/d/1hoxVN1o1ZGB10_9N0k8yVxkRDJLcMVYGTp-Nwgbm94/edit).

<sup>2</sup>

39 credits required with the Neuroscience specialization.

*Required Courses:*

## Area of Specialization in Clinical Psychology

Code	Title	Credit Hours
<b>Core Courses</b>		
PSY 8011	Graduate Statistics I <sup>1</sup>	3
PSY 8015	Teaching of Psychology	0
PSY 8017	Professional Issues for Psychology Careers	0
PSY 8021	Graduate Statistics II <sup>1</sup>	3
PSY 8410	Multicultural Issues in Clinical Psychology	3
PSY 8411	Cognitive-Behavioral Therapies	3
PSY 8412	Core Course in Psychopathology	3
PSY 8413	Psychological Assessment I	3
PSY 8423	Psychological Assessment II	3
PSY 8433	Clinical Psychology: Scientific and Professional Dimensions	3
PSY 8481	Social, Cognitive, and Developmental Aspects of Behavior	3
PSY 9187	Clinical Practicum <sup>2</sup>	3
PSY 9287	Clinical Practicum <sup>2</sup>	3
PSY 9387	Clinical Practicum <sup>2</sup>	3
PSY 9411	Clinical Research Methodology	3
PSY 9485	Ph.D. Internship Course	2
PSY 9487	Clinical Practicum <sup>2</sup>	3
PSY 9987	Assessment Practicum	6
	Bio-integrative Course <sup>3</sup>	3
<b>Electives</b>		
	Clinical Elective	3
	General Electives	6
<b>Research Courses <sup>4</sup></b>		
	PSY 9994 Preliminary Examination Preparation	
	PSY 9998 Pre-Dissertation Research	
	PSY 9999 Ph.D. Dissertation Research	
<b>Total Credit Hours</b>		<b>68</b>

<sup>1</sup>

Two terms of graduate coursework in Statistics must be successfully completed in the first year of study.

2

Students must complete 12 credits of Clinical Practicum, including PSY 9187, PSY 9287, PSY 9387, and PSY 9487.

3

The bio-integrative course is selected from the departmental list of approved courses.

4

A minimum of 6 credits is required, with at least 2 of the 6 credits required to be in PSY 9999. The remaining 4 credits can be taken in any combination of PSY 9994, PSY 9998, and PSY 9999. At least one credit of PSY 9999 must be taken in the academic term or summer session of graduation.

## Areas of Specialization in Cognition and Neuroscience, Developmental Psychology, and Social Psychology

Code	Title	Credit Hours
<b>Core Courses</b>		
PSY 8011	Graduate Statistics I <sup>1</sup>	3
PSY 8015	Teaching of Psychology	1
PSY 8017	Professional Issues for Psychology Careers	1
PSY 8021	Graduate Statistics II <sup>1</sup>	3
<b>Electives and Topical Seminars</b>		<b>18</b>
<b>Research Courses <sup>2</sup></b>		<b>6</b>
PSY 9994	Preliminary Examination Preparation	
PSY 9998	Pre-Dissertation Research	
PSY 9999	Ph.D. Dissertation Research	
<b>Total Credit Hours</b>		<b>32</b>

1

Two terms of graduate coursework in Statistics must be successfully completed in the first year of study.

2

A minimum of 6 credits is required, with at least 2 of the 6 credits required to be in PSY 9999. The remaining 4 credits can be taken in any combination of PSY 9994, PSY 9998, and PSY 9999. At least one credit of PSY 9999 must be taken in the academic term or summer session of graduation.

## Optional Concentration in Quantitative Methods

*Number of Credits Required to Complete the Optional Concentration: 3*

Code	Title	Credit Hours
<b>Coursework taken as part of the Psychology PhD</b>		
PSY 8011	Graduate Statistics I	
PSY 8021	Graduate Statistics II	
Two Advanced Multivariate Methods courses <sup>1</sup>		
<b>Coursework required outside of the Psychology PhD <sup>2</sup></b>		
PSY 8031	Survey of Multivariate Techniques	3
<b>Total Credit Hours</b>		<b>3</b>

1

To complete this requirement, students opt to take PSY 8032 Structural Equation Modeling and PSY 8033 Hierarchical Linear Modeling in lieu of elective or seminar courses required for the Psychology PhD. With the permission of the Graduate Director, an advanced statistics course may be selected instead of PSY 8033.

2

In addition, students are required to demonstrate the ability to teach statistics. This is done by serving as the: (a) primary instructor for an undergraduate-level statistics course, such as Introductory Statistics; (b) instructor of a recitation section for undergraduate statistics; or (c) teaching assistant for a statistics course at the graduate level. Alternately, students may present a cumulative total of 9 to 12 hours of workshop material on statistics in multiple workshops on the same or different statistical topics for the Department of Psychology and Neuroscience. At least three hours should be didactic, with the remaining hours in consulting. Students prepare a plan to address these hours. Note that serving as a grader for a statistics course is insufficient for satisfying the teaching requirement for this concentration.

**Internship:** An internship is required for the Clinical Psychology area of specialization.

### Culminating Events:

#### *Preliminary Examination:*

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in a specialized area of Psychology. The exam should be modeled after published literature reviews in the field and evaluated by the criteria applied to reviews that are submitted for publication to scholarly journals. The examination evaluates the student's ability to apply specific research foci to anticipated problems in Psychology. The student must demonstrate a high level of oral and written competency in reviewing, synthesizing and evaluating an important topic in the field of Psychology.

The preliminary examination is generally completed by the end of the third year of study. The subject areas are determined, in advance, by the student and the Doctoral Advisory Committee. The Doctoral Advisory Committee must include at least three Graduate Faculty members from Temple's Department of Psychology and Neuroscience. The committee may be expanded to include other Temple Presidential faculty (from inside or outside the department) and/or doctorally prepared experts from outside the University, provided that a majority of the members of the committee are members of Temple's Graduate Faculty. The Doctoral Advisory Committee evaluates the examination. Each member votes to pass or fail the student. In order to pass, a majority of the committee members must agree that the exam has been satisfactorily completed. The examination is defended orally following an evaluation of the written document.

Students who are preparing to write their preliminary examinations should confirm a time and date with the Chair of the Doctoral Advisory Committee and notify all members of their training program.

#### *Proposal:*

The dissertation proposal demonstrates the student's knowledge of and ability to conduct the proposed research. The proposal should consist of the following:

1. the context and background surrounding a particular research problem;

2. an exhaustive survey and review of literature related to the problem; and
3. a detailed methodological plan for investigating the problem.

The Doctoral Advisory Committee evaluates and approves the proposal or requests modifications by the student.

*Dissertation:*

The doctoral dissertation is an original empirical study that makes a significant contribution to the field of Psychology. It should expand the existing knowledge and demonstrate both the student's grasp of research methods and a mastery of their primary area of interest. Dissertations should be rigorously investigated; uphold the ethics and standards of the field; demonstrate an understanding of the relationship between the primary area of interest and the broader field of Psychology; and be prepared for publication in a professional journal.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Dissertation Examining Committee consists of the Doctoral Advisory Committee plus at least three additional doctorally prepared individuals. The majority of the individuals on the Committee must be members of the Temple University Graduate Faculty. The Dissertation Examining Committee votes to pass or fail the dissertation and the defense at the conclusion of the public presentation.

If a student needs to change a member of either the Doctoral Advisory Committee or the Dissertation Examining Committee, the new member must be approved by the Departmental Chair and registered with the department's Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 15 days before the defense is to be scheduled. The Graduate Secretary arranges the time, date and room within two working days, and forwards to the student the appropriate forms.

After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 working days before the defense. The department posts announcements of the defense, and the Graduate School lists the defense on its website.

## Public Policy MPP

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Public Policy.

### About the Program

The Master of Public Policy (MPP) degree provides training for individuals who seek careers in the public sector or in private and nonprofit organizations that work on a continuous basis with government agencies. The MPP curriculum is designed to provide students with the technical and analytical skills to be able to develop and assess proposed public policies and evaluate the effectiveness of programs and activities that governments at the federal, state and local levels undertake. The MPP also develops students' appreciation for the political and institutional contexts in which issues reach the policy agenda and policies are formulated, adopted, implemented and evaluated.

**Time Limit for Degree Completion:** 3 years; part-time students may apply for extensions, if needed

**Campus Location:** Center City for in-person instruction or Online with a combination of asynchronous and synchronous evening components

**Full-Time/Part-Time Status:** Students complete the degree program through classes offered after 5:00 p.m. The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Courses are taken in Economics, Geography and Urban Studies, Political Science and other disciplines as needed. Students may also pursue the MPP as a dual degree with the Master of Public Health (MPH). Applicants for the dual degree must apply to each program separately and should consult the MPP website for further details.

**Areas of Specialization:** Students use their electives to specialize in a specific policy area or skill set.

**Job Prospects:** Students in the MPP program plan to seek entry-level jobs in government agencies as civil servants or in private and nonprofit organizations that work with federal, state and local governments, or may already have experience in government, private or nonprofit organizations and seek training and credentials to further develop their careers.

**Non-Matriculated Student Policy:** Prior to applying for admission, students sometimes want to take courses as non-degree students. Students are permitted to take up to 9 credits on a non-matriculated basis. If admitted to the program, students may have that coursework, with a grade of "B" or better, apply toward the MPP degree. Individuals who wish to take courses as non-matriculated students must first obtain the approval of the Director of the MPP program to determine if the individual stands a reasonable chance for admission to the program. Next, the prospective student must visit the Office of Continuing Studies with transcripts from all institutions attended, including the one that conferred the undergraduate degree, to be enrolled in the coursework.

**Financing Opportunities:** MPP students are not eligible for departmental assistantships, but may apply for a limited number of partial scholarships available from the program.

## Admission Requirements and Deadlines

### Application Deadline:

#### Fall:

- March 1 – Application and Scholarship Deadline
- April 15 – Late Application Deadline
- June 15 – Final Application Deadline

#### Spring:

- November 1 – Application Deadline
- December 6 – Late Application Deadline

Applications are processed as they are received. Late applications may be considered for admission.

*APPLY ONLINE to this graduate program.* Whether delivered in person or online, curricula, admissions requirements and deadlines are the same for the Master of Public Policy program. In the application portal, applicants interested in the in-person MPP program should select "Master of Public Policy" from the drop-down menu, while those applying for the online MPP should select "Online MPP."

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence. For applicants with extensive administrative experience, two of the letters may come from supervisors or colleagues in the agency or organization where the applicant has been employed. Letters must be on official letterhead or include the recommender's full contact information: mailing address, phone and email.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required. A minimum GPA of 3.0 in undergraduate work is expected for consideration of the application to the program.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, future career goals, and academic and work experience.

### Standardized Test Scores:

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Transfer Credit:** Graduate coursework in public policy or public administration may be transferred from outside the University, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple; the grades are "B" or better; and the course(s) for transfer are equivalent to those in Temple's curriculum. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 36

### Required Courses:

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		
ECON 5102	Economic Decisions and Public Policy	3
GUS 5165	Community Based Program Evaluation	3
PLCY 8001	Statistics for Public Policy	3
PLCY 8118	The Policy-Making Process	3
PLCY 8119	Policy Analysis	3
PLCY 8123	Bureaucracy and Public Management	3
PLCY 8127	Public Policy Project	3
PLCY 8128	State and Local Budgeting	3
<b>Electives</b>		<b>9</b>
<b>Internship</b>		
PLCY 5085	Internship in Public Policy	3
<b>Total Credit Hours</b>		<b>36</b>

1

Students who matriculate into the in-person MPP program are permitted to take up to 6 credits of required core coursework online, excluding PLCY 8127. Requests to take required courses online must be approved in writing on a case-by-case basis.

#### **Culminating Event:**

##### *Seminar Paper:*

The Public Policy Project, completed in PLCY 8127, is undertaken in the student's last term in the MPP program. Students produce an original, full-length policy analysis for a client. Students attend a weekly seminar to report on their progress at each stage in the development of their policy analysis, receive feedback from other seminar participants, and provide advice to other students in the seminar.

## **Religion MA**

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Religion.

### **About the Program**

The Department of Religion at Temple University offers a 30-credit master's program. For those seeking to qualify for the PhD program at Temple University or other leading universities, it offers intensive training in research methods and in special fields of concentration in religion studies. Note, however, that admission to the Temple PhD program requires a separate application and the completion of qualifying examinations not required for the MA degree.

For those who plan to teach religious studies in community colleges or high schools, the MA degree provides advanced training in methods of research and in-depth study of the world's major religious traditions. For those in various forms of religious ministry, it offers post-graduate training and exposure to the newest research methods and developments for use in understanding their own or other religious and cultural traditions. For those who wish to bring cultural and cross-cultural analytical tools to professions such as business, government, journalism, medicine and social work, the MA degree provides additional training in research methods and graduate-level study in the major world religious and cultural traditions. For qualified persons in the general public, it allows the opportunity to acquire competence in the study of religions, values and cultures broadly defined, and in areas of special interest to the student.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** The MA program offers two areas of concentration, each of which allows students to choose between the Thesis Option and the Portfolio Option:

- Religion, Values and Global Cultures, which is built around our Foundations seminars in the world's religious traditions and advanced seminars that permit further study in various Western and Asian religious and values traditions. Courses in the other track may be taken if they draw on materials from one of these religious traditions.
- Religion, Values and Public Life, which is built around our Foundations seminars in the historical, philosophical and social-science methods of study in the field of Religion, together with advanced seminars in various areas of the interaction of religion and values in public life, such as interfaith dialogue, race/gender/sexuality and religion, religion and ethics, and religion and the political process. Students taking courses in this concentration may also take courses on related topics in world religions.

Upon entering the program, students choose their area of concentration. While admission requirements and procedures are identical, requirements for the degree vary.

**Job Prospects:** The master's degree at Temple University is viewed as enhancement of knowledge about religion for those already employed in various professional capacities or as the foundation for pursuit of a PhD degree.

**Non-Matriculated Student Policy:** Non-matriculated students may complete three graduate courses before being admitted into the degree program. Credit toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** University Fellowships, Graduate Assistantships, and Academic Internships are ordinarily reserved for PhD students.

## **Admission Requirements and Deadlines**

### **Application Deadline:**

*Fall:* January 15

Applications are evaluated together after the deadline.

APPLY ONLINE to this graduate program.

**Letters of Reference:**

Number Required: 3

*From Whom:* Recommendations should be obtained from former instructors or academic persons who know the applicant best.

**Coursework Required for Admission Consideration:** Applicants are invited to consult with the Graduate Director regarding specific academic preparation.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required, with a degree earned in a Liberal Arts discipline preferred. Applicants with no Liberal Arts background should consult with the Graduate Director.

**Statement of Goals:** In 2 to 3 pages, describe your background and specific interests and reasons for pursuing an MA in Religion, demonstrating knowledge of the scope and limits of the Department of Religion's offerings and outlook.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available. The GRE is waived for international students whose native language is not English, but the minimum TOEFL must be achieved and reported.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

**Transfer Credit:** Courses taken at an accredited institution that are compatible with the offerings at Temple's Department of Religion and graded "B" or better are eligible for transfer credit. The maximum number of credits a student may transfer is 6.

## Program Requirements

**General Program Requirements:**

Number of Credits Required Beyond the Baccalaureate: 30

Required Courses:

Code	Title	Credit Hours
	Foundations Courses	12
	Advanced Seminars and/or Independent Study	12
	Additional Courses <sup>1</sup>	6
<b>Total Credit Hours</b>		<b>30</b>

1

Students can take 3 to 6 credits of coursework outside the Department of Religion in a cognate field at Temple University.

**Language Examination:** Reading knowledge of a language relevant to the area of focus is required. However, at the discretion of the student's supervisory committee, this requirement can be waived for those who are planning to do graduate work that does not require foreign language proficiency.

**Culminating Event:** No later than upon completion of their first 18 credits of coursework in either the Religion, Values and Global Cultures concentration or the Religion, Values and Public Life concentration, the student must choose either the thesis or portfolio option:

- The Thesis Option is recommended for, but not limited to, students intending to apply to a doctoral program or planning to teach at the college level. Six credits must be taken in a 3-credit Independent Study that prepares the student to register the following term for a 3-credit MA thesis project under the direction of a thesis advisor. Reading knowledge of a language relevant to the thesis topic and oral defense of the thesis are required.
- The Portfolio Option is recommended for students to augment their primary area of experience and professional training in fields other than Religion.

Upon choosing an option, the student then selects an advisor for the final project who has primary responsibility for supervising the student's work for the remainder of the program and is the primary reader of the thesis or portfolio. This choice must be approved by the Graduate Studies Committee.

*Thesis:*

For the Thesis Option, a thesis is required.

Note that the Portfolio Option requires successful completion of coursework.

## Religion PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Religion.

### About the Program

The Temple University Department of Religion began shortly after the Supreme Court declared that the study of religion (not to be confused with its practice) in state-supported public education was commended. Temple's department broke from the "seminary model" of traditional fields, such as church history and theology, and instead committed to the multi-traditional and multi-disciplinary study of global religious traditions. This gives our program an outstanding breadth and cross-cultural diversity. We have a long history of attracting students from all over the world, and our graduates now work in universities not just in North America, but also in places such as Germany, Japan, Korea and Malaysia.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main chiefly for day classes, with an increasing number of evening courses offered at TUCC in Center City

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** Students are given a broad, interdisciplinary introduction to Religion in Unit I study and take courses in other departments and institutions in Unit II study. For details, see the Program Requirements.

**Affiliation(s):** Graduate student exchange agreements exist with the University of Pennsylvania's Department of Religious Studies; the Reconstructionist Rabbinical College; Palmer Theological Seminary, formerly the Eastern Baptist Theological Seminary; and the Lutheran Theological Seminary in Philadelphia. In addition, a coordinated MA/PhD program in Islamic-Christian Relations is conducted with Hartford International University for Religion and Peace, formerly the Hartford Theological Seminary, while a graduate certificate in Gender, Sexuality and Women's Studies is offered in cooperation with Temple's Women's Studies Program.

**Areas of Specialization:** The Department of Religion offers graduate programs leading to the MA and PhD degrees. Students are introduced to the major methods of study in Religion, with stress on the critical analysis of religions by the methods of the humanities and the social sciences, including textual and historical analysis, philosophical and hermeneutical studies, and social and cultural analysis. The program thus ensures that a well-rounded course of study is achieved. The two basic concentrations are:

- Global Religious Traditions, with emphasis in Asian Philosophy/Religious Thought, Biblical Studies, and Islam
- Religion and Society

**Job Prospects:** The kind of education we offer has enabled our graduates to find jobs in a very competitive job market. For example, some of our graduates in the area of Bible study were hired explicitly because they had received some instruction in Islam and could serve as a resource about that tradition. Breadth and diversity constitute one of the strengths of our program, and we continue to offer coursework in global religious traditions and the roles of religions in society and culture so as to maintain this strength. Graduates of our doctoral program are employed in colleges and universities in North America, Europe, Africa and Asia. The most common positions are as faculty in religion studies, although some are administrators in educational governmental administrations and academic administrations.

**Non-Matriculated Student Policy:** Persons not enrolled in a degree program may register for courses as non-matriculated students. Transcripts of undergraduate work should indicate some background in Religion Studies and a GPA sufficient to maintain graduate work, normally 3.5 or above. Non-matriculated students may register for courses after an interview with the Director of Graduate Religion Studies, at which time they should present academic transcripts. Credit earned toward a subsequent degree program at Temple University is limited to 9 credits.

**Financing Opportunities:** Teaching Assistants teach sections independently in the Department of Religion.

### Admission Requirements and Deadlines

#### Application Deadline:

This program is not accepting applications for the 2023-2024 academic year.

#### Letters of Reference:

*Number Required:* 3

*From Whom:* Recommendations should be obtained from former faculty who know the applicant best.

**Coursework Required for Admission Consideration:** It is suggested that applicants have taken at least 18 credits of Religion coursework.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In 2 to 3 pages, address your background that prepares you for graduate studies in Religion, including previous successes in academic study and research in the field; area of interest within the field of Religion and how that interest coincides with offerings in Temple's Department of Religion; and teaching and research goals and how you foresee study at Temple furthering those goals.

#### Standardized Test Scores:

GRE: Optional. Scores may be submitted if available.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the

exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current resume required.

**Writing Sample:** The writing sample should demonstrate your ability to research and write a scholarly paper. The paper should be no more than 10 pages in length and fully referenced according to a professional, scholarly style manual. It should be in the field of Religious Studies or a closely related area.

**Advanced Standing:** With the approval of the Director of Graduate Studies, students who have earned graduate credit at another institution can transfer up to 24 credits toward the coursework required for the PhD. A grade of "B" or higher must have been earned.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the PhD:* 51, including 30 credits at the master's level and 21 at the doctoral level

*Required Courses:*

Code	Title	Credit Hours
<b>Didactic Courses</b> <sup>1</sup>		
5000-, 8000-, and/or a maximum of 12 credits of 9000-level courses in the student's area of concentration		45
<b>Research Courses</b> <sup>2</sup>		
REL 9994	Preliminary Examination Preparation	6
REL 9998	Pre-Dissertation Research	
REL 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>51</b>

<sup>1</sup>

Six credits of coursework are taken outside of one's primary research area and may, optionally, be taken outside of the Department of Religion.

<sup>2</sup>

Of the 6 required research credits, a minimum of 2 credits of REL 9999 must be taken. The other 4 credits may be taken in any combination of REL 9994, REL 9998, and REL 9999.

**Language Examination:** Competence in all languages necessary to perform graduate-level scholarly research in the student's area of concentration must be demonstrated. Reading knowledge of a minimum of two foreign languages is required. Prior to taking the preliminary exam, students must successfully pass two research language examinations determined by their primary advisor or the Director of Graduate Studies.

### Culminating Events:

*Preliminary Examination:*

The purpose of the preliminary examination is to demonstrate critical and interpretive knowledge in specialized areas of Religion. Students are examined in all areas of scholarship and research necessary for their

area of study. They must have demonstrated reading knowledge of two foreign languages. They prepare a dissertation proposal and an outline of their areas of examination. The preliminary examination is taken once all coursework is complete.

All students may petition for and take their preliminary examination in four areas as early as the second term of their third year but must petition for and complete the preliminary exam by the end of their fourth year. Members of the student's dissertation committee individually write examination questions. Sometimes faculty are included as "examiners" who will not serve on the Dissertation Committee. Students arrange with their Dissertation Committee when the exams are to be taken. Normally exams are done within the Department of Religion, using a computer under supervised conditions. All examiners and members of the Dissertation Committee must agree that the student has demonstrated competence in the relevant areas of study, and that the student is capable of completing the dissertation proposed.

The written exams serve as the basis for the oral preliminary examination. All faculty for whom exams were written participate in the oral preliminary exam.

*Dissertation Proposal:*

The proposal demonstrates the student's knowledge of the current research in the field on their particular problem of interest. Students should show methodological awareness and state the uniqueness of the proposed research with regard to the ongoing body of scholarly literature.

*Dissertation:*

The dissertation is to demonstrate original and significant contributions to the study of Religion. It should make use of primary texts and demonstrate reading knowledge of appropriate original languages.

The Dissertation Examining Committee evaluates the student's dissertation and oral defense. This committee is comprised of the Doctoral Advisory Committee and at least one additional Graduate Faculty member from outside the Department of Religion. The Outside Examiner should be identified no later than the beginning of the term in which the student will defend the dissertation. The Dissertation Examining Committee evaluates the student's written thesis in making an original scholarly contribution to the field and their ability to defend and discuss orally the contents of the thesis.

If a student needs to change a member of a Committee, the new member must be approved by the Department's Graduate Studies Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation should confirm a time and date with their Dissertation Examining Committee and register with the Graduate Secretary at least 30 days before the defense is to occur. The Graduate Secretary arranges the time, date and room, and forwards to the student the appropriate forms. After the Graduate Secretary has scheduled the defense, the student must send to the Graduate School a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," at least 10 days before the defense. The department posts flyers announcing the defense.

# Sociology MA

COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Sociology.

## About the Program

The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The master's program provides advanced training in sociological theory, statistics and research methods. The program's main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Interdisciplinary Study:** The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women's Studies. A dual degree program is also currently offered:

- MA in Sociology/MA in Urban Bioethics with the Lewis Katz School of Medicine at Temple University

**Affiliation(s):** The program is affiliated with the American Sociological Association (ASA).

**Areas of Specialization:** The main areas of graduate teaching and research are:

- Gender and Sexuality
- Immigration and Globalization
- Medical Sociology
- Race and Ethnicity
- Urban Sociology

**Job Prospects:** Graduates of the MA program are typically employed as applied researchers and administrators in private and public agencies.

**Non-Matriculated Student Policy:** Students with a bachelor's degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

**Financing Opportunities:** The Sociology Department does not offer funding opportunities for students enrolled in the MA program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* March 1

Applications are evaluated together after the deadline has passed.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree is required.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, research goals, future career goals, and academic and research achievements.

### Standardized Test Scores:

GRE: Required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68
- Duolingo: 120

**Resume:** Current personal resume or curriculum vitae required.

**Writing Sample:** The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper may be on any

topic. It must be fully referenced according to a professional and scholarly style.

**Transfer Credit:** Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 6.

## Program Requirements

### General Program Requirements:

*Number of Credits Required Beyond the Baccalaureate:* 31

*Required Courses:*

Code	Title	Credit Hours
<b>Social Theory Course</b>		
SOC 8111	Classical Social Theory	3
or SOC 9111	Contemporary Sociological Theory	
<b>Methods of Inquiry Courses</b>		
SOC 8011	Logic of Inquiry	3
SOC 8211	Inferential and Multivariate Statistics	4
SOC 8221	Qualitative Methods	3
SOC 9211	Graduate Data Analysis	3
SOC 9241	Qualitative Data Analysis	3
<b>Electives</b> <sup>1</sup>		<b>9</b>
<b>Capstone Courses</b> <sup>2</sup>		
SOC 8873	Writing for the Social Sciences	3
SOC 8883	Second-Year Research	0
<b>Total Credit Hours</b>		<b>31</b>

1

Electives may include: (1) SOC 9382 Independent Study Program: With the consent of the Graduate Chair and the instructor, students may take one Independent Study course, which is an intensive program of study within a specific area of Sociology. Students who wish to take an Independent Study course must submit to the Graduate Chair at the beginning of the term a "Department Independent Study Request" form describing the readings and/or research they propose to undertake.

The form must be signed by both the participating faculty member and the Graduate Chair. A final statement on the work completed must be filed with the Graduate Chair at the end of the term. A letter grade is given for this course. (2) An outside course: With the approval of the Graduate Chair, students may take one course outside of the Sociology Department. (3) SOC 9385 Internship in Social Research: With the consent of the Graduate Chair, students may undertake an internship for course credit, provided the internship unites the core concepts of sociology with professional organizational settings and the community as a whole. Students who wish to complete an internship must submit to the Graduate Chair at the beginning of the term an "Internship Request Form" describing the duties, frequency of service and major outcomes. The form must be signed by both the supervisor of the internship and the Graduate Chair.

2

SOC 8873 and SOC 8883 are taken concurrently.

**Culminating Events:** The Sociology Department evaluates students at the end of their second year based on two criteria:

- First, full-time students are expected to complete a Second Year Paper, which is due at the end of the Spring term of their second year. Part-time students are allowed to complete the paper within a year after finishing their required Social Theory and Methods of Inquiry courses. All students are responsible for recruiting two committee members to review and grade the paper, which is due the last day of classes in the Spring term. Students may work with their committee throughout the semester to ensure the paper aligns with expectations. Papers can be a journal-quality literature review, a journal-quality theory piece, a journal-quality empirical investigation, a grant proposal, or a research report akin to those put out by research organizations. Students then present their paper to the department. Their committee evaluates the paper based on the student's demonstrated ability to synthesize the relevant literature, conceptualize a research problem, and/or carry out a feasible research design. Both committee members must pass the paper. Any student who does not write a passing paper that term must do so the following semester. Those who are unsuccessful on the second attempt are dismissed from the program.
- Second, students must earn a cumulative grade point average of 3.0 or better in the degree curriculum. Students apply for graduation in Self-Service Banner by accessing TUportal. Note the deadline for submitting the graduation application on the Graduate School calendar (p. 13).

# Sociology PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Sociology.

## About the Program

The graduate program in Sociology is devoted to the training of research scholars and educators in the discipline. Students have a variety of career goals, ranging from academic research and teaching to research and administration in private or public agencies. The doctoral program provides advanced training in sociological theory, statistics and research methods. The program's main areas of graduate teaching and research are Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** Full-time study is preferred, but part-time enrollment can be considered on a case-by-case basis.

**Interdisciplinary Study:** The program encourages students to participate in seminars in other social sciences, including Anthropology, Criminal Justice, Geography and Urban Studies, History, Political Science, Psychology, Urban Education, and Women's Studies. A dual degree program is also currently offered:

- PhD in Sociology/MA in Urban Bioethics with the Lewis Katz School of Medicine at Temple University

**Affiliation(s):** The program is affiliated with the American Sociological Association (ASA).

**Areas of Specialization:** The main areas of graduate teaching and research are:

- Gender and Sexuality
- Immigration and Globalization
- Medical Sociology
- Race and Ethnicity
- Urban Sociology

**Job Prospects:** Graduates of the PhD program are typically employed as either teaching-research scholars in an academic setting or as applied researchers and administrators in private and public agencies.

**Non-Matriculated Student Policy:** Students with a bachelor's degree may take graduate courses in Sociology without enrolling in a Temple University graduate program. A limit of 9 credits of graduate coursework taken prior to admission will be accepted toward a Sociology degree. Non-matriculated students should consult with the Graduate Chair before selecting their coursework if they plan to apply for the degree program.

**Financing Opportunities:** The Sociology Department and Temple University support full-time students during the academic year through Teaching Assistantships, part-time teaching and University Fellowships. Initial funding is contingent on the recommendation of the Admissions Committee. Continued funding is based on faculty assessment at the annual graduate student review. Funded students are typically offered a five-year funding package. Additional support for dissertation research is

available through fellowships competitively awarded by the university and from outside sources.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* December 15

Applications are evaluated together after the deadline has passed.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members familiar with academic competence, wherever possible.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree in Sociology, Criminal Justice, Economics, History, Political Science, Psychology, or Urban Studies is required, although a degree in other disciplines can be considered.

**Statement of Goals:** In approximately 500 to 1,000 words, share your interest in Temple's program, research goals, future career goals, and academic and research achievements.

**Standardized Test Scores:**

GRE: Required.

Applicants who earned their baccalaureate degree from an institution where the language of instruction was other than English, with the exception of those who subsequently earned a master's degree at a U.S. institution, must report scores for a standardized test of English that meet these minimums:

- TOEFL iBT: 100
- IELTS Academic: 7.0
- PTE Academic: 68

**Resume:** Current personal resume or curriculum vitae required.

**Writing Sample:** The writing sample should demonstrate your ability to conduct research and write a scholarly paper. The paper should be on a sociological topic. It must be fully referenced according to a professional and scholarly style.

**Transfer Credit:** Graduate coursework in Sociology may be transferred from outside the university, provided that the credits were obtained no more than five years prior to the student's matriculation at Temple and the grades are "B" or better. The maximum number of credits a student may transfer is 12, if the credits earned did not result in the completion of an MA degree.

**Advanced Standing:** For students entering the PhD program who have received an MA degree elsewhere, up to 19 credits may be applied to the doctoral program, provided the courses are relevant to the department's required courses. These credits must have been obtained no more than five years prior to the student's matriculation at Temple and the grades must be "B" or better. The Graduate Chair decides which courses students may transfer. As a general rule, students with

transferred credits should expect that they will have to complete much of the required coursework in residence and are, further, expected to take two courses from Temple faculty in their area of focus before taking the PhD Preliminary Exam in their field.

## Program Requirements

### General Program Requirements:

*Number of Credits Required to Earn the Degree: 52*

*Required Courses:*

Code	Title	Credit Hours
<b>Social Theory Courses</b>		
SOC 8111	Classical Social Theory	3
SOC 9111	Contemporary Sociological Theory	3
<b>Methods of Inquiry Courses</b>		
SOC 8011	Logic of Inquiry	3
SOC 8211	Inferential and Multivariate Statistics	4
SOC 8221	Qualitative Methods	3
SOC 9211	Graduate Data Analysis	3
SOC 9241	Qualitative Data Analysis	3
<b>Electives</b> <sup>1</sup>		<b>21</b>
<b>Second-Year Milestone Courses</b> <sup>2</sup>		
SOC 8873	Writing for the Social Sciences	3
SOC 8883	Second-Year Research	0
<b>Research Courses</b>		
SOC 9994	Preliminary Examination Preparation	1
SOC 9998	Pre-Dissertation Research <sup>3</sup>	3
SOC 9999	Dissertation Research	2
<b>Total Credit Hours</b>		<b>52</b>

1

Of the seven elective courses, two must relate to the preliminary examination. Other electives may include: (1) SOC 9382 Independent Study Program: With the consent of the Graduate Chair and the instructor(s), students may take two Independent Study courses, which are intensive programs of study within a specific area of Sociology. Students who wish to take these courses must submit to the Graduate Chair at the beginning of the term a "Department Independent Study Request" form describing the readings and/or research they propose to undertake. The form must be signed by both the participating faculty member and the Graduate Chair. A final statement on the work completed must be filed with the Graduate Chair at the end of the term. Letter grades are given for these courses. (2) Outside courses: With the approval of the Graduate Chair, students may take two courses outside of the Sociology Department. (3) SOC 9385 Internship in Social Research: With the consent of the Graduate Chair, students may undertake an internship for course credit, provided the internship unites the core concepts of sociology with professional organizational settings and the community as a whole. Students who wish to complete an internship must submit to the Graduate Chair at the beginning of the term an "Internship Request Form" describing the duties, frequency of service and major outcomes. The form must be signed by both the supervisor of the internship and the Graduate Chair. Students are permitted to take up to two internship courses.

2

SOC 8873 and SOC 8883 are taken concurrently.

3

In lieu of SOC 9998, an additional credit may be taken in either SOC 9994 or SOC 9999.

### Culminating Events:

*Pre-Candidacy Evaluation:*

The Sociology Department evaluates doctoral students at the end of their second year based on two criteria:

- First, full-time doctoral students are expected to complete a Second Year Paper, which is due at the end of the Spring term of their second year. Part-time students are allowed to complete the paper within a year after finishing their required Social Theory and Methods of Inquiry courses. All students are responsible for recruiting two committee members to review and grade the paper, which is due the last day of classes in the Spring term. Students may work with their committee throughout the semester to ensure the paper aligns with expectations. Papers can be a journal-quality literature review, a journal-quality theory piece, a journal-quality empirical investigation, a grant proposal or a research report akin to those put out by research organizations. Students then present their paper to the department. Their committee evaluates the paper based on the student's demonstrated ability to synthesize the relevant literature, conceptualize a research problem, and/or carry out a feasible research design. Both committee members must pass the paper. Any student who does not write a passing paper that term must do so the following semester. Those who are unsuccessful on the second attempt are dismissed from the program.
- Second, students must earn a GPA of 3.4 or higher to continue in the doctoral program. However, a student may petition the Graduate Committee for re-consideration. After a petition is submitted, the Graduate Chair requires a written evaluation from each faculty member in the department with whom the student has taken a course. The student is permitted to continue in the PhD program if at least five faculty members write in support of the petition. Those not allowed to continue can graduate with an MA upon completion of its degree requirements.

*Preliminary Examination:*

After completing the required coursework, doctoral students are expected to take a preliminary examination in the form of a written area exam in the Spring term of their third year. Prior to taking the preliminary examination, students must complete two or more graduate-level courses related to that examination area offered by the faculty within the department. When doctoral students complete the required coursework, they must then take the preliminary examination in one of the broad examination areas identified by the Sociology Department as consistent with its mission and self-defined areas of strength: Gender and Sexuality, Immigration and Globalization, Medical Sociology, Race and Ethnicity, and Urban Sociology. However, students may request to take the exam in another area under the following conditions:

1. the student has taken at least two graduate-level courses in the Sociology Department in the requested area, one of which may be an independent study course;
2. three faculty members are willing to sponsor the exam; and
3. the Graduate Chair approves.

No later than the second Monday in August prior to the Spring term when the preliminary examination will be taken, students must fill out the "Department Preliminary Examination Application" form and indicate the selected area for the exam. The Department Chair appoints three faculty

members to form area-specific prelim committees charged with grading the exams.

The written area examination consists of four questions, and students must select and answer two of those questions. Students are given one week to complete the preliminary exam. Students receive the questions on an announced Monday in March or April, and the answers are due a week later. The Prelim Committee members assign a grade of "Pass" or "Fail" to each question along with their comments. A student needs at least two passes on both questions to pass the exam.

Based on the written area exam grade, the Graduate Chair assigns an overall "Pass" or "Fail" to each student for the preliminary examination. Any student who fails the written area exam may retake the exam. At the beginning of the following Fall term, three faculty members in the prelim area are appointed by the Department Chair to form a Prelim Committee. The committee submits four questions to the Graduate Chair by an announced date in October. The student receives the questions the Monday of the week before Thanksgiving week, and the exam is due on the Monday of Thanksgiving week.

*Doctoral Advisory Committee:*

Following the preliminary examination, the student selects the Chair of their Doctoral Advisory Committee. The remaining two or more members of the committee are selected by the student in consultation with the Chair. The majority of the committee members must be from the Sociology Department. Other members may include faculty from other departments within Temple University or from other universities. Doctoral-level expert advisors from outside university settings may also be considered as members.

To establish the Doctoral Advisory Committee, the student must submit a "Sociology Department Doctoral Advisory Committee" form to the department's Graduate Coordinator. To include committee members who are not members of the Temple Graduate Faculty on a Doctoral Advisory Committee, the Chair must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found in TUportal under the Tools tab within "University Forms," and the proposed committee member's current curriculum vitae to the Graduate School. If a change is made in the composition of the Doctoral Advisory Committee, the change must be approved by the Chair of the committee. If the change involves the Chair of the committee, the Graduate Chair should be informed beforehand and the original Chair of the committee must be notified. The change must also be noted on the original "Sociology Department Doctoral Advisory Committee" form and signed by both the Chair of the committee and the Graduate Chair.

The Doctoral Advisory Committee meets at least once a year to review the candidate's progress and offer advice to the candidate.

*Dissertation Proposal:*

The dissertation proposal is a brief statement of the dissertation research. It should contain a review of the literature, a statement of the research problem, and a comprehensive description of the research strategy to be employed.

A digital copy of the proposal is made available to faculty at least two weeks prior to the oral defense of the proposal. All department faculty and graduate students are invited to attend the presentation of the dissertation proposal. Normally, proposal defenses are held during the academic year. All members of the committee must be present at the proposal defense.

The dissertation proposal is accepted only when members of the dissertation committee vote unanimously to accept it. An approved dissertation proposal along with the "Dissertation Proposal Transmittal for Elevation to Candidacy" form, found in TUportal under the Tools tab within "University Forms," must be filed with the Graduate School. After defending the dissertation proposal, a student is formally advanced to PhD candidacy.

If a change is made in the composition of the Doctoral Advisory Committee after the approval of the proposal, the change must be approved by the Chair of the committee and the Dean of the College. The change must be noted on the "Request for Change in Dissertation Committee" form, found in TUportal under the Tools tab within "University Forms," and filed with the Graduate School prior to posting the final dissertation defense.

*Dissertation Defense/PhD Final Examination:*

The dissertation is defended orally. Any discrepancy between the final version of the dissertation and the dissertation proposal should be explained and defended. A digital copy of the dissertation is made available to faculty at least two weeks before the dissertation defense. An abstract of the dissertation, not exceeding ten pages, must be given to all faculty members ten days before the defense.

The Dissertation Examining Committee is formed to evaluate the quality of the dissertation and conduct the oral defense. The committee includes the Doctoral Advisory Committee and at least one outside examiner. If the outside examiner is not a member of the Temple Graduate Faculty, the Chair of the Doctoral Advisory Committee must request approval by submitting the "Nomination for Service on Doctoral Committee" form, found in TUportal under the Tools tab within "University Forms," and the outside examiner's current curriculum vitae to the Graduate School at least four weeks in advance of the scheduled defense. Approval must be received prior to posting the oral defense. The Chair of the Dissertation Examining Committee must be a member of the Graduate Faculty, but may not be the Chair of the candidate's Doctoral Advisory Committee. This person, responsible for coordinating and conducting the defense, must be identified when the defense is posted with the Graduate School on the "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms."

All dissertation oral defense examinations are publicly announced by the Sociology Department in writing at least ten days in advance of the examination. The written announcement must be sent to all members of the Dissertation Examining Committee, all graduate faculty in the candidate's department, and the Graduate School. It must also be posted in the College. All dissertation examinations are open to the entire academic community.

Normally, the dissertation defense is held during the regular academic year. A dissertation defense passed after the Graduate School deadline in the Spring does not qualify the student for a May degree. A summer defense may be scheduled only if all members of the committee agree. The entire dissertation committee must attend the defense. If one or more committee members fail to attend the defense, the Departmental Chair cannot sign the form certifying the defense. All faculty members and students are invited to participate in the dissertation defense.

The dissertation committee must vote unanimously that the student has passed the PhD Final Examination. Each member of the dissertation committee indicates their assessment of the examination and signs their name to the "Final Examination Report for Doctoral Candidates" form, found in TUportal under the Tools tab within "University Forms."

If the Chair of the Sociology Department agrees that the dissertation meets departmental standards, the Chair signifies approval by signing for the department as well on the "Final Examination Report for Doctoral Candidates" form. The completed form is submitted to the Dean's Office of the College of Liberal Arts.

Information regarding the required format of the dissertation is available in the Graduate School's *Dissertation and Thesis Handbook*, found at <https://grad.temple.edu/resources/dissertation-thesis-handbook>. Fees may be required when filing the dissertation electronically, within 30 days of the dissertation defense, at <https://www.etdadmin.com/cgi-bin/school?siteid=171>. The student should heed the instructions found on the "Final Checklist of Dissertation Materials," identified as an appendix in the Graduate School's *Dissertation and Thesis Handbook*. Note that the signature page bearing original ink signatures constitutes the only item required to be submitted in hard copy to the Graduate School.

Students must apply to graduate, through the Sociology Department, by the deadline date announced in the graduate catalog each year. The deadline is usually three or four months before graduation. Applications may be obtained from the department's Graduate Coordinator or online. Upon completion of the doctoral program, the student is required to submit a bound copy of their dissertation to the Sociology Department, as well as a regular hard copy to the Chair of the Dissertation Examining Committee.

## Spanish MA

### COLLEGE OF LIBERAL ARTS

Learn more about the Master of Arts in Spanish.

### About the Program

The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the MA level, the program develops advanced Spanish-language skills for diverse careers and trains students in the exercise of research and pedagogical skills necessary for the pursuit of the PhD.

**Time Limit for Degree Completion:** 3 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Study Abroad:** Students may apply one approved non-Temple graduate course done in a Spanish-speaking country toward fulfillment of the MA requirements in Spanish. Opportunities for graduate study abroad through Temple programs are available occasionally.

**Areas of Specialization:** Areas of specialization include:

- Spanish Peninsular Literature
- Latin American Literature
- Hispanic Linguistics

**Job Prospects:** Graduates of the MA program in Spanish typically find employment in secondary education, in business and government, and in social and medical services.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

**Financing Opportunities:** Teaching Assistants typically teach basic and intermediate Spanish or specialized language-skills courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

## Admission Requirements and Deadlines

### Application Deadline:

*Fall:* January 15  
*Spring:* September 30

Applications are evaluated as they arrive, with attention paid to deadlines. Late applications may be considered.

*APPLY ONLINE to this graduate program.*

### Letters of Reference:

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic achievements.

**Coursework Required for Admission Consideration:** An undergraduate major in Spanish or its coursework equivalent is required for entrance into the MA program.

**Bachelor's Degree in Discipline/Related Discipline:** A baccalaureate degree, preferably in Spanish, is required for admission.

**Statement of Goals:** In approximately 2 to 3 pages, share your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, fellowships or other financial support may describe special needs in an addendum to their personal statement.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

**Resume:** Current resume required.

**Writing Sample:** A paper or journal article written in Spanish is required.

**Transfer Credit:** One course (3 credits) undertaken while the student is enrolled in Temple's Spanish MA program may be transferred from a program in a Spanish-speaking country. The course must be a graduate course, and it must be approved by the Graduate Advisor. The maximum number of credits a student may transfer is 3.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Baccalaureate:* 30

*Required Courses:*

Code	Title	Credit Hours
Non-advanced (5000-level) courses <sup>1</sup>		12
Advanced (8000- and 9000-level) courses <sup>2</sup>		18
<b>Total Credit Hours</b>		<b>30</b>

<sup>1</sup>

Twelve credits is the maximum number that a student may take of 5000-level coursework.

<sup>2</sup>

Eighteen credits is the minimum number that a student may take of 8000- and 9000-level coursework.

**Language Examination:** Students must pass a written reading-comprehension examination in a foreign language other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

**Culminating Event:**

*Comprehensive Examination:*

The purpose of the comprehensive examination is to evaluate the breadth and depth of students' knowledge of the discipline. Students must write a four-hour written comprehensive examination based on a customized reading list agreed on through consultation with three faculty members from the three course fields within the department: Spanish

Peninsular Literature, Latin American Literature, and Hispanic Linguistics. The examination is taken after the student fulfills the 30-credit course requirement and passes the reading-comprehension exam in a language other than Spanish or English.

All examinations must include representation from each of three course fields: Spanish Peninsular Literature, Latin American Literature, and Hispanic Linguistics. Graduate Faculty from each of the three fields write the questions and evaluate responses on a scale of "A" to "F." To be evaluated as passing, a grade of "B-" or higher must be achieved in response to each examination question.

Comprehensive examinations are administered once a term. They are scheduled by the Graduate Chair, with whom students must register.

## Spanish PhD

COLLEGE OF LIBERAL ARTS

Learn more about the Doctor of Philosophy in Spanish.

## About the Program

The graduate program in Spanish integrates the established fields of Literature and Linguistics. At the PhD level, the program provides opportunities for advanced study and research in Spanish Peninsular Literature, Latin American Literature, and Hispanic Linguistics as it trains scholars for careers in higher education.

**Time Limit for Degree Completion:** 7 years

**Campus Location:** Main

**Full-Time/Part-Time Status:** The degree program can be completed on a full- or part-time basis.

**Areas of Specialization:** Areas of specialization include:

- Spanish Peninsular Literature
- Latin American Literature
- Hispanic Linguistics

**Job Prospects:** The department has an excellent record of placing graduates as full-time faculty in public and private universities.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to three courses with approval of the department or Graduate Chair.

**Financing Opportunities:** Teaching Assistants typically teach basic and intermediate Spanish or conversation, composition and reading courses. Assistantships carry a stipend and tuition remission. Candidates for Teaching Assistantships should express their interest and special needs in an addendum to the personal statement of the application to the graduate program.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall:* January 15

*Spring:* September 30

Applications are evaluated as they arrive, with attention paid to deadlines. Late applications may be considered.

*APPLY ONLINE to this graduate program.*

**Letters of Reference:**

*Number Required:* 3

*From Whom:* Letters of recommendation should be obtained from college/university faculty members with personal knowledge of the applicant's academic and scholarly achievements.

**Master's Degree in Discipline/Related Discipline:** A master's degree is not required.

**Bachelor's Degree in Discipline/Related Discipline:** All applicants must present credentials that are the equivalent of the appropriate baccalaureate degree at Temple University.

**Statement of Goals:** In approximately 2 to 3 pages, share your interest in Temple's Spanish program, future career goals, research goals, academic achievements, and any related experience. Applicants interested in Teaching Assistantships, fellowships or other financial support may describe special needs in an addendum to their personal statement.

**Standardized Test Scores:**

GRE: Optional. Scores may be submitted if available.

International applicants are required to provide scores from one of the following tests: Test of English as a Foreign Language (TOEFL®), the International English Language Testing System (IELTS™), or the Pearson Test of English Academic (PTE Academic™).

**Resume:** Current resume required.

**Writing Sample:** A paper or journal article in Spanish is required as a writing sample.

**Advanced Standing:** Students are awarded advanced standing based on a review of transcripts and descriptions of previous graduate coursework in Spanish Literature or Spanish Linguistics at another institution. Advanced standing credits count toward the elective credit requirements of the PhD program.

## Program Requirements

**General Program Requirements:**

*Number of Credits Required Beyond the Master's:* 30; 24 for students who earned their Spanish MA at Temple

*Number of Credits Required Beyond the Baccalaureate:* 54

*Required Courses:*

Code	Title	Credit Hours
<b>Core Courses</b>		
8000-level Course in Hispanic Linguistics		3
8000-level Course in Latin American Literature		3
8000-level Course in Spanish Peninsular Literature		3
<b>Electives</b> <sup>1</sup>		<b>39</b>
<b>Research Courses</b>		
SPAN 9994	Preliminary Examination Preparation	
SPAN 9998	Pre-Dissertation Research	
SPAN 9999	Dissertation Research	
<b>Total Credit Hours</b>		<b>54</b>

1

Unless otherwise approved by the Associate Chair for Graduate Studies, all electives are Spanish courses taken at the 5000 and 8000 levels. Students specializing in Spanish Peninsular Literature or Latin American Literature are limited to taking two courses in related disciplines outside of the Department of Spanish and Portuguese. Students specializing in Hispanic Linguistics are limited to three related outside courses. These allowances may be reduced for individuals who earned an MA degree from another institution. Also note that nine credits earned at Temple University through the Continuing Studies Program may be used to satisfy the PhD degree requirements.

**Language Examination:** Students must pass written reading-comprehension examinations in two foreign languages other than Spanish. Examinations are usually taken in the Romance languages or German. Other languages may be accepted with approval.

**Culminating Events:**

*Preliminary Examination:*

The purpose of the written preliminary examination is to demonstrate critical and interpretive knowledge in two specific areas of Hispanic

Studies chosen by the doctoral student and approved by the faculty. The doctoral student may customize the reading lists for the examination in accordance with research interests. The written examination lasts 10 hours. The preliminary examination should be completed no more than one term after the student completes the coursework component of the program.

Examination areas are drawn from the three fields of study within the department: Spanish Peninsular Literature, Latin American Literature, and Hispanic Linguistics. Graduate Faculty members specializing in the subject areas selected for the examination write the questions for the preliminary examination and evaluate the examination. Each member grades examination answers on a scale of "A" to "F." A grade of "B-" or higher must be achieved in response to each question. The evaluators look for breadth and depth of understanding of specific research areas, the critical application of knowledge in response to specific exam questions, and an ability to write in a clear and concise manner using appropriate terminology.

The preliminary examination is given over a period of two weeks. Students who are preparing to write their preliminary examinations must meet with the Graduate Chair to register and confirm.

*Proposal:*

The dissertation proposal demonstrates the student's knowledge and ability to conduct the proposed research. The proposal typically consists of the presentation of the context and background surrounding a particular research question or problem, a survey and review of pertinent literature, and a detailed methodological plan for carrying out the proposed research. The proposal should be completed and approved by the student's Doctoral Advisory Committee no more than one year after the student completes coursework.

*Dissertation:*

The doctoral dissertation is an original empirical or theoretical study that makes a significant contribution to the field of Hispanic Studies. It should expand existing knowledge and demonstrate the student's mastery of research methods and of their primary area of research. The dissertation should be rigorously investigated, uphold the ethics and standards of the field, and demonstrate an understanding of the relationship between the primary area of research and the broader field of Hispanic Studies.

The Doctoral Advisory Committee is formed to oversee the student's dissertation research and is comprised of three Graduate Faculty members. One is the Committee Chair, who has responsibility for directly overseeing and guiding the student's progress, coordinating the responses of the Committee members, and informing the student of their academic progress.

The Dissertation Examining Committee is comprised of the Doctoral Advisory Committee and at least one additional examiner from outside the Department of Spanish and Portuguese. The outside examiner should be identified no later than the beginning of the term in which the student plans to defend the dissertation. The Dissertation Examining Committee evaluates the student's dissertation and public oral examination, including the student's ability to express verbally their research question, methodological approach, primary findings and implications. The Committee votes to pass or fail the dissertation and the defense at the conclusion of the public oral defense.

If a student needs to change a member of a Committee, the new member must be approved by the department's Graduate Committee and registered with the Graduate Secretary and the Graduate School.

Students who are preparing to defend their dissertation must confirm a time and date with their Doctoral Advisory Committee Chair at least one month before the defense is to be held. After the Chair has arranged the time, date and room for the defense, a completed "Announcement of Dissertation Defense" form, found in TUportal under the Tools tab within "University Forms," must be delivered to the Graduate School by the student at least 10 days before the defense. The department posts flyers announcing the defense.

## Graduate Certificate: Crime Science

COLLEGE OF LIBERAL ARTS

### About the Certificate

This graduate certificate is not open for enrollment for the 2023-2024 academic year.

# Graduate Certificate: Gender, Sexuality and Women's Studies

COLLEGE OF LIBERAL ARTS

Learn more about the graduate certificate in Gender, Sexuality and Women's Studies.

## About the Certificate

Students in the Gender, Sexuality and Women's Studies (GSWS) graduate certificate program acquire and develop methodological and theoretical expertise in the interdisciplinary fields of gender, sexuality and women's studies.

The certificate can be pursued by students already enrolled in a Temple University graduate degree program. They complete the certificate coursework while simultaneously fulfilling the graduate requirements for their degree-granting department. It is also possible to pursue the certificate as a freestanding program.

All students complete the same course requirements to earn the certificate. Everyone in the program joins and benefits from a community of graduate students and faculty committed to the study of gender and sexuality in a wide range of disciplines.

**Time Limit for Completion of Certificate Coursework:** 3 years, with coursework completed in any order in that 3-year period

**Campus Location:** Main

**Full-Time/Part-Time Status:** The graduate certificate is completed on a part-time basis. Students undertaking the GSWS graduate certificate while enrolled in a graduate degree program at Temple complete the certificate while fulfilling the requirements for their graduate degree program. NOTE: International students may not be eligible to apply for a student visa based on admission to the certificate program.

**Job Prospects:** The GSWS graduate certificate is a credential that enhances students' prospects in today's highly competitive job market by signaling a demonstrated interest in and commitment to diversity and inclusion.

**Non-Matriculated Student Policy:** Non-matriculated students may take up to 9 credits of coursework before applying to the graduate certificate program.

## Admission Requirements and Deadlines

**Application Deadline:**

*Fall and Spring:* Applications must be submitted by the end of the add/drop period.

Students currently enrolled in a graduate degree program at Temple University should use the internal application form. Students not currently enrolled at Temple should use the external application form. Both forms can be found on this page: <https://liberalarts.temple.edu/academics/departments-and-programs/gender-sexuality-and-womens-studies/graduate>.

**Bachelor's Degree in Discipline/Related Discipline:** Applicants already admitted to a graduate degree program at Temple University have demonstrated that they possess the required bachelor's degree. Applicants not currently enrolled in a Temple University graduate degree

program and applicants enrolled in a graduate degree program at another university must submit official transcripts for all coursework taken since high school, whether or not a degree was earned from the institution(s). Evidence of the award of a baccalaureate degree from an accredited university with an undergraduate GPA of at least 3.0 on a 4.0 scale must be shown.

### Additional Requirements for Students Not Currently Enrolled in a Graduate Degree Program at Temple University:

- Two letters of recommendation from persons in a position to evaluate the applicant's academic ability and accomplishments
- A personal statement of no more than 250 words indicating interests, plans and objectives within the fields of gender, sexuality and women's studies

## Certificate Requirements

*Number of Credits Required to Complete the Certificate:* 12

*Required Courses:*

Code	Title	Credit Hours
GSWS 8001	Feminist and Queer Studies <sup>1</sup>	3
GSWS 9991	Research Seminar <sup>2</sup>	3
	Electives <sup>3</sup>	6
<b>Total Credit Hours</b>		<b>12</b>

1

GSWS 8001 is offered annually in the Fall term.

2

GSWS 9991 is offered annually in the Spring term.

3

Students take 6 credits of approved courses focusing on gender and/or sexuality from their own department, if enrolled in a graduate degree program at Temple, or any academic department at Temple University, as identified in the list below. Note that the following list is not exhaustive, and students may request permission to take other gender/sexuality-themed courses on a case-by-case basis.

## Approved Electives with a Gender and/or Sexuality Theme

Code	Title	Credit Hours
AAAS 9645	Seminar in the African American Woman	
ANTH 5355	Anthropology of Sexuality and Gender	
ANTH 5358	Race and Class in North America	
CJ 8202	Corrections	
CPSY 5526	Multicultural Counseling	
CPSY 8789	Seminar in Race, Culture, and Gender in Psychotherapy	
DANC 8872	Educating Dance	
DANC 9861	Dance and the Gendered Body: Historical Perspectives	
EDAD 5615	Gender Issues in Education	
EPBI 8011	Social Epidemiology	
GUS 5097	Race, Class, Gender in Cities	

HIED 5801	Gender Issues in Education
HIST 5231	
HIST 5800	Comparative Women's History
HIST 8009	
HIST 8402	Jewish History
HIST 8707	History of Sexuality
KINS 9403	Sociology of Kinesiology
MLA 5150	Topics in Gender Studies
PHIL 5217	Feminist Epistemology and the Philosophy of Science
RCTH 5212	Play and Pediatric Development
REL 8012	Religion and Sexuality
REL 8401	Race, Gender, Class and Ethnicity in Ancient Near East
SOC 5321	
SOC 8401	Sexuality and Gender
SOC 8411	Gender and Body
SSWG 8603	Advanced Human Behavior and the Social Environment - Gender and Sexuality through the Lifespan
SSWG 8607	Advanced Policy - Gender and Sexuality

**GPA Required to be Awarded the Certificate:** 3.0 minimum
