An advanced workshop to develop projects in experimental, documentary, or narrative forms using portable video, TV studio, and computerized image and editing facilities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8243. Film Sound. 4 Credit Hours.**

A production workshop on audio recording, editing and mixing of dialogue, foley, effects and music for film and electronic media. Lectures, demonstrations, hands-on instruction, exercises, critiques and discussions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8244. Experimental Methods. 4 Credit Hours.**

An introduction to formal concepts and experimental methods of film production with a workshop emphasis on optical printing, hand painting on film, manipulating the film image and exploring the material nature of the film medium. The course includes readings in the theories and history of experimental film and media arts production.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8245. Documentary Workshop. 4 Credit Hours.**

Design, pre-production planning, production, and subsequent evaluation of individual documentary projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for a total of 8 credit.

**FMA 8246. Advanced Documentary/Fiction Workshop. 4 Credit Hours.**

Designing and executing individual documentaries, dramatic projects, or works that intermix the strategies of documentary and fiction while dealing with socially significant material. Each project will involve one month of planning and scripting, one month of field production in film or video, and a final month of editing and postproduction. Lectures, demonstrations, critiques, and crew assignments on each other's projects will accompany the intensive fieldwork.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8340. Topics in Production. 1 to 4 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8341. Screen Directing Theory and Practice. 4 Credit Hours.**

Theories of directing, dramatic form, and acting are examined through lectures, demonstrations, readings, and applied exercises to establish a theoretical and practical foundation in film and television directing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8361. Writing for Media II. 4 Credit Hours.**

The preparation of a scenario and complete television or motion picture script.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8362. Joint Writing Workshop 1. 4 Credit Hours.**

This is an advanced workshop course designed for students in the Film and Media Arts MFA in Screenwriting. It will be offered in conjunction with a similar Writing Workshop offered by the Theater MFA in Playwriting. Students will complete the first draft of a feature screenplay or serial bible.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FMA 8361.

**FMA 8363. Joint Writing Workshop 2. 4 Credit Hours.**

This is an advanced workshop course designed for students in the Film and Media Arts MFA in Screenwriting. It will be offered in conjunction with a similar Writing Workshop offered by the Theater MFA in Playwriting. Students will polish and complete the final draft of a feature screenplay or serial bible.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FMA 8362.

**FMA 8450. Topics in Media. 1 to 4 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8451. Digital Animation. 4 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8452. New Technology Laboratory. 4 Credit Hours.**

Exploration, study, design, production, and implementation of hypermedia projects including interactive and computer controlled video, computer graphics, digital sound, videodisc, virtual reality, and other emerging technologies. Interdisciplinary collaborations will be encouraged between FMA, Computer Sciences, Engineering, Architecture, Art, and Music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8461. Interactive Narrative. 4 Credit Hours.**

A creative course within a critical frame in which students make and study interactive narratives; textual, audio and graphics/video based stories that incorporate explicit user choice. Weekly exercises and readings, followed by a substantial final project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8462. Documentary Arts and Visual Research. 3 to 4 Credit Hours.**

Students examine theories, methods and interdisciplinary approaches to nonfiction representation and depiction in order to develop documentary research and/or documentary projects. Students are expected to complete highly developed papers and/or documentary projects that are directly related to their thesis topics, methods, and goals. The course is open to graduate students from across the university with permission of the instructor.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8551. Digital Post-Production. 4 Credit Hours.**

Advanced tools and concepts of digital non-linear editing of film and video with emphasis on fine-cut preparation, file management, ProTools, foley, looping, multi-track mixing, compositing, titling, EDL generation, and film matchback.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8670. Topics in Media Studies. 1 to 4 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8673. Historical Film Research. 4 Credit Hours.**

Major trends in theatrical film history and the methods and issues in the writing of film history.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8674. Critical Studies Seminar. 3 Credit Hours.**

This seminar explores topics in the critical study of cinema or media arts to introduce students to the process of deeper scholarly inquiry into a given area of film or media arts study. Topics will rotate by semester, and students will watch and read widely on the theoretical concepts or historical periods under consideration. The course may be repeated with different topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8675. Seminar: International Film. 4 Credit Hours.**

A critical and historical examination of the films of a particular country or world region. Topics vary per semester. May be repeated (as long as the specific topic is not duplicated).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8680. Advanced Topics in Media Arts Studies. 4 Credit Hours.**

Advanced Topics in Media Arts Studies is a variable-content topics history/theory course in such media art topics as new technologies, sound, interactive video, mobile media, visual ethnography and other areas of interdisciplinary media art. This is a media arts studies course for graduate students.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Film and Media Arts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8771. Exhibition/Distribution. 3 Credit Hours.**

The objective of this course is to expose students to methods and approaches for exhibition and distribution of independent media. Students will investigate popular media outlets such as film/video festivals, microcinemas and internet exhibition possibilities, to name only a few. The course will serve dual functions in that it will prepare students to distribute their own work while also exposing them to industry opportunities in exhibition and distribution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 8870. U Penn Critical Studies. 4 Credit Hours.**

Recipient of the Temple (FMA)-UPenn Exchange Award that is given to one student per year to engage in studies in the University of Pennsylvania Program in Cinema Studies. The exchange has been officially approved by the Temple University and the University of Pennsylvania.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 8985. Teaching in Higher Education, Arts. 3 Credit Hours.**

This course focuses on the research on how people learn and best teaching practices, with the aim of preparing students for effective higher education teaching in the arts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 9085. Professional Field Experience. 1 to 4 Credit Hour.**

Field work on an outside professional production or media presentation with a position of creative, curatorial or managerial responsibility. May be repeated. Up to four credits may count toward the MFA degree.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9086. Study-Away Internship. 1 to 4 Credit Hour.**

Students apply for and perform internships in wide variety of entertainment industry fields. Students also study opportunities available to emerging professionals in their areas of specialty. Students submit weekly journals related to their internship experiences and assigned readings, as well as a final written reflection on their field experience, personal growth, and knowledge gained. NOTE: Internship placements subject to student qualifications and availability of openings. Must be admitted into Film and Media Arts LA-Away Program. Contact FMA's internship director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9245. Thesis Development Workshop. 4 Credit Hours.**

This writing intensive workshop is designed to aid in the conceptualization, development and preproduction phases of the final thesis production. Through a diverse range of creative exercises, writing assignments and visiting lecturers, students will complete their thesis proposal with clear plans for executing their thesis film.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in FMA 8674.

**FMA 9246. Thesis Production Workshop. 4 Credit Hours.**

This production workshop is designed to support the production of final thesis projects. Through a diverse range of workshops and visiting lecturers, the course is designed to support the production phases of final thesis projects with the goal of completing production by the course's end.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in FMA 8674.

**FMA 9282. Directed Projects. 1 to 4 Credit Hour.**

Individual production projects proposed by advanced students under the tutorial supervision of a faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9346. Methodologies and Praxis. 4 Credit Hours.**

This seminar offers core training in doctoral research methods across film and media arts and related fields. Drawing upon scholarly traditions in visual research in the humanities and social sciences, the course is designed to help students gain deep understanding of differing research approaches to develop research methods best suited to their dissertation projects. Student learn to systematically develop their research projects, combine research from archival, data and field sources, and integrate quantitative and qualitative research materials into their arguments. Students learn to develop annotated bibliographies, contrast research approaches to their potential thesis questions, and position their work for differing audiences. In developing strategies of implementation, students are instructed in IRB and other research protocols and engage readings on ethics and academic standards.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**Repeatability:** This course may not be repeated for additional credits.

**FMA 9683. Directed Readings. 1 to 4 Credit Hour.**

Individual research/theory projects proposed by advanced students under the tutorial supervision of a faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9994. Doctoral Comprehensive Exam Study. 1 to 6 Credit Hour.**

Open only to PhD candidates in Film and Media Arts for preparation for their doctoral comprehensive examination. A maximum of six credit hours will be counted toward the degree.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Documentary Arts + Visual Res.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9995. M.F.A. Project. 1 to 4 Credit Hour.**

Open only to MFA candidates in Film and Media Arts for their final project. May be repeated for credit during all semesters the final project is in progress, although only a maximum of six hours will be counted toward the degree.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9998. Doctoral Dissertation Proposal. 1 to 3 Credit Hour.**

Open only to PhD candidates in Film and Media Arts for their doctoral thesis proposal research, writing and presentation. A maximum of six credit hours will be counted toward the degree.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Documentary Arts + Visual Res.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FMA 9999. Doctoral Dissertation. 1 to 3 Credit Hour.**

For PhD students actively completing thesis work.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in FMA 9998.

## Finance (FIN)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**FIN 5001. Financial Analysis and Strategy. 3 Credit Hours.**

This course develops the conceptual framework that is used in analyzing the financial management problems of business enterprises. Students cover concepts such as the time value of money, the cost of capital, the relationship between risk and return, the valuation of assets such as stocks and bonds, and various corporate finance issues, including capital budgeting, capital structure, corporate financing, and dividend policy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (ACCT 5001, ACCT 5003, (ACCT 5301 and ACCT 5302), or (ACCT 5401 and ACCT 5402)) and (STAT 5001, (STAT 5401 and MIS 5401), or (STAT 5301 and MIS 5301))

**FIN 5104. Advanced Corporate Finance. 3 Credit Hours.**

This course builds on the core M.B.A. finance course to develop the critical skills and the analytical tools necessary to apply financial theory to real world situations. The theme of this course is corporate valuation and how corporate decision-making impacts firm value. Four broad topics are covered in this course: cost-of-capital estimation and cash flow estimation; capital structure and dividend policies from the perspective of their impact on firm value; the use of real-option techniques in valuing corporate assets; and mergers and acquisitions, including bidding, takeover defenses, and golden parachutes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5108. Derivatives. 3 Credit Hours.**

This course provides students with a basic knowledge of the futures, options, and other derivative markets, their market structure, theoretical foundation, and the derivative strategies of both speculators and hedgers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302)) and FIN 5109.

**FIN 5109. Investments. 3 Credit Hours.**

This course provides an understanding of the theory of investments, and introduces the tools and techniques used in investment management. Topics include portfolio theory; equilibrium models of security prices, including the capital asset pricing model and arbitrage pricing theory; empirical behavior of security prices; market efficiency; performance evaluation; and fixed-income markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5111. Corporate Valuation. 3 Credit Hours.**

This course covers the valuation of public and private companies using discounted cash flow models, market multiples methods, and hybrid models. Valuation techniques within the discounted cash flow paradigm include dividend discount models, free-cash flow models, and residual income. Market multiples methods will include both price and enterprise models. The instructional format of the course is lecture supplemented with case analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5114. Financial Markets and Institutions. 3 Credit Hours.**

This course is a survey course of financial instruments, markets and institutions. Topics covered include time value of money, interest rates and yield curves, financial markets efficiency, fundamentals of financial institutions, depository institutions, and interest rate risk management. While the primary focus is on U.S. markets, the course also considers global financial markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5115. Financial Modeling for Investments and Corporate Finance. 3 Credit Hours.**

This course will develop the modeling skills that are used in the investments and investment planning process. Spreadsheet Models for the valuation and analysis of investment alternatives will be developed. These will include portfolio modeling to obtain the optimal asset mix to meet investor's goals, valuation models for both equity and fixed income securities and models for alternative investment such as real estate, commodities, options and other investments. Applications of these models will be used through the case method. Solutions to real world problems that investors face will be addressed in these analyses. In addition, alternate models for determining the expected returns on investment will be addressed. This course will develop the modeling skills that are used in the process of corporate decision-making. It will include the development of models for financial statement analysis and the evaluation of investment decisions including the capital budgeting, cost of capital and company valuation. Application models of NPV, IRR, Payback Period, MIRR and other methods of establishing the cash flows and the relative value of projects as faced by corporate decision makers will be developed. These models will be utilized in real world applications through the case method to address the steps needed to make optimal business decisions. In addition, how to establish the appropriate return on a corporate investment will be modeled and addressed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001 (may be taken concurrently), (FIN 5301 (may be taken concurrently) and FIN 5302 (may be taken concurrently)), or (FIN 5401 (may be taken concurrently) and FIN 5402 (may be taken concurrently)))

**FIN 5134. Fintech, Blockchain and Digital Disruption. 3 Credit Hours.**

The course gives students exposure to the technological advances that are reshaping the financial services as well as other industries using a variety of outside sources including research papers, business news articles and guest speakers. Specifically, the course focuses on block-chain, digital currencies, artificial intelligence (AI), machine learning (ML), internet of things (IoT), virtual reality (VR) and the regulatory environment surrounding these innovations. We are living in a business world that is always changing, and understanding how to observe and analyze changes is a skill as broadly applicable as it is useful.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in BA 5002.

**FIN 5156. Private Equity. 3 Credit Hours.**

This course provides a broad coverage of the private equity market. The course is divided into two distinct segments. The first section addresses the structure of PE funds, evaluation of fund performance, and identification, structuring, and valuation of individual venture capital opportunities. The last segment focuses on leveraged finance and exit. This course is largely case-based, runs at a fast pace, and offers a unique opportunity to interact with private equity industry professionals.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5170. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5180. Special Topics Finance. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5182. Independent Study. 1 to 6 Credit Hour.**

Special study is undertaken in a particular aspect of finance under the direct supervision of an appropriate graduate faculty member. No more than six semester hours of independent study may be counted toward degree requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FIN 5190. Special Topics - Finance. 1 to 6 Credit Hour.**

Special Topics - Finance

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**FIN 5411. Financial Management. 3 Credit Hours.**

This course provides an overview of the financial challenges associated with the life cycle of an organization. Topics include: financial analysis and planning, capital budgeting, cost of capital, financial statements, and the sources and uses of business funds. While the emphasis is on decision making within a corporate environment, the tools taught in this course are just as relevant to other forms of business organization and to personal financial management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in (ACCT 5411 or ACCT 5001)

**FIN 5601. Financial Technology. .5 or 1 Credit Hours.**

This course teaches specialized financial software, financial market databases and quantitative financial tools. Financial Technology may be repeated up to one credit hour.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for a total of 1 credit.

**FIN 5602. Corporate Finance. 1 Credit Hour.**

This course reviews economic principles governing financial markets and corporate management and develops financial analysis skills. Topics include capital budgeting and cost of capital.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5603. Financial Accounting. 1 Credit Hour.**

This course reviews the practice of financial accounting and develops skills in analyzing financial statements. Topics include financial reporting quality and International standards.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5604. Derivative Markets. 1 Credit Hour.**

This course covers global exchange-traded and over-the-counter futures, options and swap instruments and financial applications. Topics include option investment strategies and structured swap applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5605. Fixed Income. 1 Credit Hour.**

This course examines the features and trading behavior of global fixed income markets. Topics include features of debt securities, bond valuation, interest rate risk immunization and foreign exchange.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5607. Stochastic Calculus & Finance. 1 Credit Hour.**

This course covers the mathematical foundations of stochastic calculus with financial applications. Topics include Brownian motion, stochastic integrals and stochastic differential equations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5612. Asset Pricing. 1.5 Credit Hour.**

This course examines the relationship between financial risk and rates of return. Topics include equilibrium and empirical approaches to asset pricing and international asset pricing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5613. Derivative Valuation. 1.5 Credit Hour.**

This course explores equity, fixed income, foreign exchange and commodity derivatives valuation and risk management applications. Coursework includes trading in futures and options markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5614. Continuous Time Finance. 1.5 Credit Hour.**

This course covers continuous-time financial theory and option pricing methods. Topics include risk-neutral pricing and equilibrium asset pricing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5615. Data Science in Finance. 1.5 Credit Hour.**

This course explores the tools and techniques of data mining to extract useful information from large financial data sets. Topics include data cleaning, data visualization and data mining for global financial market insights.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Fin Analysis + Quant Risk Mgt, Financial Analysis & Risk Mgmt, Financial Engineering, Financial Analysis, Investment Management, Quant Fin + Risk Mgmt.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5618. Corporate Value Management. 1.5 Credit Hour.**

This course examines the drivers of firm value and develops financial statement analysis skills. Topics include free cash flow valuation, industry analysis and valuation in emerging markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5619. Quant Fixed Income. 1.5 Credit Hour.**

The course covers the mathematics driving fixed income markets. Topics include term structure modeling, interest rate immunization and fixed income derivatives.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5622. Machine Learning in Finance. 1.5 Credit Hour.**

This course examines machine learning techniques for exploring relationships between financial economic variables and making future predictions. Topics include financial modeling and learning algorithms for global market insights.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Fin Analysis + Quant Risk Mgt, Financial Analysis & Risk Mgmt, Financial Engineering, Financial Analysis, Investment Management, Quant Fin + Risk Mgmt.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FIN 5615.

**FIN 5623. Risk Measurement. 1.5 Credit Hour.**

This course examines alternative measures of value-at-risk (VaR) including stress-testing and scenario analysis. Topics include Monte Carlo Methods and risk management failures.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5624. Numerical Methods. 1.5 Credit Hour.**

This course examines numerical lattice, Monte Carlo and finite difference methods for pricing vanilla and exotic options. Topics include implied trinomial trees and variance reduction techniques.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5627. Financial Econometrics. 1.5 Credit Hour.**

This course examines linear regression and time series models with applications to corporate finance and investments theory. Topics include interpreting regression coefficients and estimating correlation and volatility using GARCH models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5628. Global Economy. 1.5 Credit Hour.**

This course examines global macro-economic conditions. Topics include monetary and fiscal economics, economic indicators, the European Monetary Union and the causes of financial crises.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5629. Value at Risk. 1.5 Credit Hour.**

This course examines advanced quantitative methods for estimating the risk of financial loss and risk management applications. Topics include scenario analysis, incremental risk and VaR back testing techniques.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5631. Financial Time Series. 1.5 Credit Hour.**

This course teaches methods for analyzing time series data and for forecasting future events. The course offers a mix of financial data analysis together with statistical theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5632. Investment Management. 1.5 Credit Hour.**

This course explores portfolio management for individual and institutional investors. Coursework includes formulating a strategic equity and fixed income asset allocation strategy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5634. Stochastic Volatility. 1.5 Credit Hour.**

This course examines alternative models of implied volatility and model calibration to observed market data. Topics include the term structure of volatility and jump diffusion models of the volatility smile.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5637. Applied Corporate Finance. 1.5 Credit Hour.**

This course examines corporate financial restructuring and mergers and acquisitions. Topics include leveraged buyouts, industry capital structure and corporate governance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5638. Behavioral Finance. 1.5 Credit Hour.**

This course examines insights of efficient market theory and behavioral finance for the historical pattern of asset prices. Topics include bubbles, momentum and limits to arbitrage.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5639. Quantitative Risk Modeling. 1.5 Credit Hour.**

This course covers advanced quantitative analysis and assessment of market, credit and operational financial risks. Topics include hedging exotic options and default risk measures.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5641. Alternative Investments. 1.5 Credit Hour.**

This course explores proprietary hedge fund strategies and performance measures. Topics include relative value strategies, distressed debt and real estate investment trusts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5642. Entrepreneurial Companies. 1.5 Credit Hour.**

This course examines how entrepreneurial firms pursue financing at various growth stages. Topics include private company valuation, venture capital and new issues markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5643. Structured Products. 1.5 Credit Hour.**

This course teaches the financial engineering of structured product and hybrid security offerings. Topics include exotic derivatives and tailored investment strategies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5646. Frontiers in Quantitative Finance. 1.5 Credit Hour.**

Seminar in selected classic and evolving industry methods and applications of quantitative finance.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Fin Analysis + Quant Risk Mgt, Financial Analysis & Risk Mgmt, Financial Engineering, Financial Analysis, Investment Management, Quant Fin + Risk Mgmt.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FIN 5634.

**FIN 5647. Financial Reporting & Analysis. 1.5 Credit Hour.**

This course examines advanced financial accounting practices, theory, and issues. Topics include employee compensation, multinational operations and financial reporting quality.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5648. Quantitative Portfolios. 1.5 Credit Hour.**

This course examines portfolio management based on quantitative techniques versus fundamental valuation methods. Topics include statistical arbitrage and computer-based models for trading.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5649. Enterprise Risk Management. 1.5 Credit Hour.**

This course covers the analysis and development of a best in practice enterprise-wide risk management system. Topics include corporate risk tolerance and strategic risk and capital management issues.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5671. Financial Analysis I. 1.5 Credit Hour.**

This course explores the CFA Program's CFA Level I Candidate Body of Knowledge: ethical and professional standards, quantitative methods, economics, financial reporting, corporate finance, equity investments, fixed income, derivatives, alternative investments and portfolio management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5672. Financial Analysis II. 1.5 Credit Hour.**

This course examines the CFA Program's CFA Level I and II Candidate Body of Knowledge emphasizing the application of investment tools and concepts in asset pricing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FIN 5671.

**FIN 5673. Financial Risk Management I. 1.5 Credit Hour.**

This course explores the FRM Program's Part I Curriculum covering the tools used to assess financial risk: quantitative analysis, fundamental risk management concepts, financial markets and products, and valuation and risk models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5674. Financial Risk Management II. 1.5 Credit Hour.**

This course examines the FRM Program's Part I and Part II Curriculum focusing on the application of financial risk management tools.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in FIN 5673.

**FIN 5675. Professional Development. 1 Credit Hour.**

This course examines the importance of professional growth to the financial analyst. Topics include career development goals, effective professional communication, leadership and management skills and ethical issues specific to careers in finance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 5683. Special Study in Finance. .5 to 6 Credit Hours.**

Special study is in a particular aspect of finance under the supervision of an appropriate faculty member. No more than six semester hours of special study may be counted toward degree requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for additional credit.

**FIN 5690. Special Topics in Finance. .5 to 6 Credit Hours.**

Special Topics is in a particular aspect of finance under the supervision of an appropriate faculty member. No more than six semester hours of special study may be counted toward degree requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FIN 5802. Enterprise Financial Management. 3 Credit Hours.**

Enterprise financial management deals with the financial implications of decisions made by firms. The two broad decisions facing the finance manager are (i) what projects should I invest in?, and (ii) how do I finance these investments? These questions will be answered in this course as well as learning the basics of enterprise valuation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (STAT 5001 or STAT 5801) and (ACCT 5001 or ACCT 5801)

**FIN 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FIN 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FIN 9001. Corp Finance Theory. 3 Credit Hours.**

This course is a rigorous introduction to the fundamental concepts and techniques used in modern financial economic research. Topics include individual investment decisions under uncertainty, stochastic dominance, mean-variance portfolio analysis, various equilibrium and arbitrage pricing models, and option pricing. Upon completion of this course, students are expected to acquire a clear understanding of the major theoretical results concerning individuals' consumption and portfolio decisions under uncertainty and their implications for the valuations of securities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9002. Empirical Research in Corporate Finance. 3 Credit Hours.**

This course covers a wide variety of topics in corporate finance, including agency theory, capital structure, signaling, executive compensation, ownership structure, boards of directors, corporate control, diversification, venture capital, financial distress, and dividend policy. The analysis is both theoretical and empirical and is based on papers from the leading journals in finance, economics, and accounting. The principal aim of the course is to prepare students to conduct empirical research in corporate finance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9003. Banking and Financial Institutions. 3 Credit Hours.**

This course covers a variety of topics on financial institutions and, in particular, the banking enterprise. Emphasis is on empirical papers. The aim is to prepare students to read the literature critically and to strengthen their independent research skills. Subjects include uniqueness of banks, exposure to interest and exchange rate risks, product diversification, contagion, market and regulatory discipline, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9004. Seminar in Global Finance and Governance. 3 Credit Hours.**

The course introduces students to the basic academic literature in global finance and governance at a doctoral level and to selected advanced topics in this area. The aim is to prepare students to read the literature critically, to strengthen their independent skills, and to help them be ready to select topic in global finance and governance and related areas. Topics will be flexible to class needs but include corporate exchange risk management, international investments, global corporate governance, firm boundaries, financial and strategic issues of multinational firms, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School, Sport Tourism Hospitality Mgt.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9005. Empirical Asset Pricing. 3 Credit Hours.**

This course is designed to help students bridge the gap between theoretical asset pricing models and the data. Students will read seminal works in empirical asset pricing, implement the methodologies in statistical exercises and produce a research paper that extends the existing literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in BA 9105 and BA 9106.

**FIN 9011. Proseminar in Finance. 1 to 3 Credit Hour.**

This course is integrated with the Finance department's external seminar series (speakers from other universities) and internal seminar series (speakers are PhD students and department faculty). Students are required to attend all seminars. They must read the paper and ask questions during each seminar. For a selected number of seminars, students are required to submit a critique of the paper within a week after the seminar.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Business Administration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School, Sport Tourism Hospitality Mgt.

**Repeatability:** This course may be repeated for additional credit.

**FIN 9013. Alternative Investments. 3 Credit Hours.**

Alternative assets have become an increasingly important segment of the financial markets. This course analyzes various classes of alternative assets and how they are incorporated into portfolios for diversification and performance enhancement purposes. Topics include private equity, real estate, merger and arbitrage and fund of funds management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9014. Best Practices in Valuation. 3 Credit Hours.**

Corporate valuation deals with managerial decision-making covering two primary topic areas: (i) what projects should the company invest in? and (ii) how does the company finance these investments? This course will provide an in-depth understanding of the models and processes that managers use in making valuation decisions. In particular, covered topics include DCF model, multiple valuation, and transaction analysis. The course consists of a combination of in-class lectures, online material, and business/finance cases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9015. Corporate Governance. 3 Credit Hours.**

In this course, we examine the underlying theory, principles, and practices that surround the governance of modern corporations. The course focuses, in particular, on the mechanisms that shareholders use to ensure that managers maximize shareholder wealth. We will discuss such topics as boards of directors, executive compensation, large shareholders, executive termination and succession, and government regulation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9016. Derivatives and Risk Management. 3 Credit Hours.**

Financial derivatives are indispensable in today's business environments. The primary reason for the advent of derivatives has been their application to hedging and risk management. Commercial banks, investment banks, asset managers, mutual funds, hedge funds, pension funds, insurance companies, manufacturing companies, transportation companies, and energy companies are among the participants who are affected by changing conditions in the market and hence engage in risk management using derivative instruments. As the financial markets evolve and change derivatives are likely to emerge as even more vital ingredients of risk management for all kinds of corporations and businesses. The financial crisis, on the other hand, has taught us that clear understanding of derivatives and their price dynamics is ever more important now.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9017. Dissertation Methodologies. 3 Credit Hours.**

Research can follow many different methodologies in answering important and interesting questions. This class will cover the primary methodologies used in academic and practical research studies. These methodologies include: theoretical, empirical, survey, experimental, case studies, and a more general breakdown between quantitative and qualitative research. In addition to discussing and reading about the different methods, we will examine several different examples that appear in practice-based and academic-based finance journals.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9018. Financial Markets and Institutions. 3 Credit Hours.**

This course provides a survey of financial markets and institutions with a strong current events perspective and emphasis on global linkages. The course will have an applied managerial perspective that focuses on both how the markets are viewed by companies who need access to funding as well as the professionals that work in the financial services industry. The course consists of a combination of in-class lectures, online material, and business/finance cases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9019. Investment Allocation and Management. 3 Credit Hours.**

This course will discuss the concepts of portfolio management within the context of individual and institutional investment portfolios. Topics include the portfolio management process and development of investment policy statements, execution of portfolio decisions, evaluation of portfolio performance and Global Investment Performance Standards. Course materials are heavily weighted toward case studies and practical applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9021. Mergers and Acquisitions. 3 Credit Hours.**

The course focuses on financial tools, techniques, and best practices used in buyouts (financial buyers) and acquisitions (strategic buyers). While we will touch upon various strategic, organizational, and general management issues, our main lens for studying these transactions will be a financial one. We will explore how different buyers approach the process of finding, evaluating, and analyzing opportunities in the corporate-control market; how they structure deals and how deal structure affects both value creation and value division; how they add value after transaction completion; and how they realize their ultimate objectives (such as enhanced market position or a profitable exit).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9022. Private Equity. 3 Credit Hours.**

Understanding the philosophy of science and conduct of scholarly applied research is fundamental for undertaking high-quality research. This course introduces students to the philosophy of scientific inquiry, common research approaches (e.g., quantitative, qualitative) and common epistemological perspectives (e.g., positivistic, interpretative, and critical research). The trade-off between scientific rigor and practical relevance is covered with emphasis on conducting rigorous research with practical implications. Students are introduced to practical issues about undertaking applied research, such as identifying a research topic, forming research questions, conducting literature review, and developing a plan for actual fieldwork and data collection. Finally, the course aims at helping students identify a personal interest in a particular type and area of applied research to undertake specific projects during their tenure as the doctoral program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9023. Real Estate Finance. 3 Credit Hours.**

This course explores real estate finance and quantitative methods that are used in the valuation of real estate. Students develop an understanding of real estate financing and valuation as well as related topics such as underwriting, risk analysis, and financial leverage. In addition, students learn about the mortgage market and the securitization process for residential and commercial mortgages. The course also includes analysis of both residential and commercial real estate markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**FIN 9090. Spec Topic Finance. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FIN 9183. Directed Study in Fin. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Foreign Language Education (Secondary) (FLED)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**FLED 5429. Curriculum and Methods in Foreign Languages. 3 Credit Hours.**

Readings, theory, research, and demonstrations related to current methods and approaches for teaching foreign and second languages. Differences between learning a second language as a child, teenager, and an adult are explored. For foreign language, TESOL, and bilingual education teachers.

**College Restrictions:** Must be enrolled in one of the following Colleges: Education & Human Development.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: EDCNDCY.

**Repeatability:** This course may not be repeated for additional credits.

**FLED 5431. Innovations in Foreign Language Education. 3 Credit Hours.**

For foreign language, TESOL, and bilingual teachers. Recent innovations or trends in foreign and second language education. Topics such as whole language, cooperative learning, authentic materials, pair and small group communicative activities in teaching the four skills, dialogue journals, jazz chants, and creating student and teacher-made materials.

**College Restrictions:** Must be enrolled in one of the following Colleges: Education & Human Development.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: EDCNDCY.

**Repeatability:** This course may not be repeated for additional credits.

**FLED 5433. Multimedia Approaches to Teaching Foreign Language. 3 Credit Hours.**

Effective uses of various types of media in teaching all aspects of foreign and second language. Creating stimulating materials and demonstrating their use through mini-lessons. For foreign language, TESOL, and bilingual teachers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FLED 5435. Applic Res Sec Lang Ed. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FLED 5437. Teaching Second Language Culture. 3 Credit Hours.**

Devoted to how to teach culture and what to include. Identifying patterns of the target culture and areas of misunderstanding between cultures. Comparisons made between one's native culture and the target culture. Materials based on mini-dramas, simulations, and nonverbal communication are demonstrated and prepared by students for classroom use. For foreign language, TESOL, and bilingual education teachers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**FLED 5460. Spec Proj Foreign Lng Ed. 3 to 6 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FLED 5470. Spec Proj Foreign Lng Ed. 3 to 6 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**FLED 8645. Sem in Sec Foreign Lang Ed. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Gender, Sexuality and Women's Studies (GSWS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**GSWS 5000. Special Topics. 3 Credit Hours.**

Specific cultural, social or political topics in gender and sexuality issues with an emphasis on interdisciplinary studies. A variable topics course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GSWS 8001. Feminist and Queer Studies. 3 Credit Hours.**

This course offers an advanced introduction to students interested in the interdisciplinary field of Gender, Sexuality and Women's Studies as well as in applying feminist and queer methods of research, analysis and practice in their own disciplines. This is a rigorous graduate course designed for Ph.D. and M.A. students pursuing the Graduate Certificate in Gender, Sexuality and Women's Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GSWS 9082. Independent Study. 3 Credit Hours.**

Independent work on a project related to Gender, Sexuality and Women's Studies supervised by a member of the Gender, Sexuality and Women's Studies Affiliated Faculty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GSWS 9991. Research Seminar. 1 to 3 Credit Hour.**

Students will present research on topics related to feminist and/or queer issues and/or identities. Discussions depend on common readings on what constitutes feminist and queer research and focus on an analysis and critique of the papers presented. This is a rigorous graduate course that is required for Ph.D. and M.A. students pursuing the Graduate Certificate in Gender, Sexuality and Women's Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## **Geography and Urban Studies (GUS)**

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**GUS 5000. Special Topic Seminars. 3 Credit Hours.**

A faculty member offers special seminars in a research specialty. Recent topics have included current perspectives on development, the information and technology needs of low resource community organizations, and information systems design and management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 5010. Special Topics in GUS. 3 Credit Hours.**

Variable content; see graduate chair for specific details.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 5014. Urban Social Geography. 3 Credit Hours.**

The course acquaints students with social and cultural understandings of urban space in the U.S. city. Students are asked to use photography to explore how geography grounds itself on the landscape.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5015. Land Use Planning. 3 Credit Hours.**

This course is an examination of the forces that influence land use planning in and around American metropolitan regions. It considers economic perspectives (land values); public interest perspectives (zoning subdivision, housing and building codes, redevelopment and renewal programs, etc.); and social perspectives of land use. Also examined are separate housing, commercial locations, and industrial development.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5017. Health and Environment Seminar. 3 Credit Hours.**

This course addresses the relationship between community-level characteristics, such as neighborhood socioeconomic disadvantage, with health outcomes, with an emphasis on health behaviors such as substance use, exercise, and healthy eating. Access to resources such as health services and nutritious food will be examined, as will exposure to harmful or risky environmental conditions that can promote disease. A methodological focus will address how environmental influences on health is analyzed, as well as how individual-level characteristics such as age, sex, race/ethnicity, and peer and family relationships may moderate such influences. The role of community level factors in health disparities will also be examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5018. Economic Development and Planning Cities. 3 Credit Hours.**

The focus is on the causes of economic decline in American cities, history of governmental policies to promote urban economic development, and major tools available to local economic planners, with special emphasis on the political issues of who controls the programs and who reaps the benefits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5021. International Urbanization. 3 Credit Hours.**

This course examines urbanization around the world. The focus may include issues of rapidly industrializing areas, as well as postcolonial and transition societies. Students address topics related to the effects of rapid social and spatial change in a variety of settings. They also examine the problems of providing housing and urban infrastructure in rapidly urbanizing areas, as well as the social and cultural tensions related to urban change.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5031. GIS Programming. 3 Credit Hours.**

Building on previous coursework with Geographic Information Systems (GIS), students will learn computer programming in a GIS environment. Students will design and execute spatial data management and spatial analysis projects using automated geoprocessing functions available in the built-in scripting languages of prominent GIS software packages, with an emphasis on the Python programming language. Students will learn programming concepts such as variable typing, function definition, conditional evaluation, looping, and object-oriented programming. The course will also introduce geospatial programming strategies independent of any specific GIS software.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 5032. Geosimulation. 3 Credit Hours.**

Geosimulation (or spatial simulation) "is a catch-all phrase" that can be used to represent an emerging stream of spatially-explicit simulation models, often being computationally intensive. Developed at the confluence of geographic information science and computer science, geosimulation incorporates different computational systems such as cellular automata (CA) and agent-based modeling (ABM). This course will explore the conceptual, developmental, implementational, and evaluation aspects of these different simulation modeling systems. We primarily focus on cellular automata, agent-based systems, neural networks, and expert systems using geographical data, (hence spatially-explicit models). Simulation models developed using these techniques are used to investigate patterns and processes of complex systems in different topical areas such as urban growth, climate change, migration, birds and animal movements, environmental health, and conservation. This course builds upon the concepts introduced in Fundamentals of GIS, GIS Programming and other GIS courses offered by the department. The course structure will consist of lecture, class discussion, and lab activities. Students will be expected to read academic and professional literature and to actively participate in and lead class discussions. Students will also be expected to develop a final project on geosimulation modeling topic. Preferably, they will develop and implement a CA or ABM model of their own.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062 and GUS 5031.

**GUS 5033. Urban Analytics. 3 Credit Hours.**

With the increase of data availability and the computing power together with advanced data analytics, the data driven approach becomes a more objective and scientific way for us to understand the urban system for solving the social, economic, and environmental challenges in cities. Knowledge and skills for collecting and analyzing urban spatial data become an essential skill for urban researchers. This course will teach students the concepts, techniques, and analytical methods for urban analytics. Methods for collecting, storing, processing, analyzing, and visualizing various types of urban data using programming will be taught in this course. Examples of real urban analytics applications will be introduced in this course in order for students to get the practical skills in handling urban spatial data. The course is designed for students who have programming experience and want to reinforce the knowledge and skills and learn advanced topics in urban informatics and urban data analytics for solving urban issues. This course includes lectures and lab exercises. The knowledge and skills learned in this course further prepare students for an emerging career in smart city, data science, GIS, urban planning, and environmental management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 5034. Applied Machine Learning for Spatial Analysis. 3 Credit Hours.**

Machine Learning (ML) is a branch of artificial intelligence that enables computer systems to learn from data and improve their predictive capacity without explicit human intervention. ML algorithms are growingly being applied to solve complex spatial problems due to their ability to efficiently process large, high-dimensional datasets, improve predictive capacity and reveal hidden patterns in data. This course provides conceptual foundations, methods and analytical skills for the application of broadly used machine learning methods to geospatial analysis. The course will enable students to become familiar with basic definitions, conceptual foundations and applications of different machine learning methods. Students will become familiar with the main steps related to the conception, development, evaluation and interpretation of predictive models using machine learning methods. Students will also learn basic computer programming skills for spatial data integration and their use for the calibration and evaluation of spatial machine learning models. Students who took GUS 5074: Applied Machine Learning for Spatial Analysis may not take this course for additional credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (GUS 3062 or GUS 5062) and GUS 5161.

**GUS 5041. Sustainable Natural-Human Systems. 3 Credit Hours.**

This course provides the scientific basis and theoretical background for understanding the most essential challenges to address sustainability in natural-human systems. The course will provide knowledge about theories, conceptual frameworks and research methods to understand and appreciate the interactions and co-dependencies between human and natural systems. The course will also introduce students to the main global research and policy agendas to understand and address sustainability in natural-human systems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5042. Climate Change and Security. 3 Credit Hours.**

Climate change is widely understood by a range of state and non-state actors to pose significant security risks, but the relationship between climate change and security is much more complex than simple cause and effect. Researchers from diverse fields are actively engaged with questions about what kinds of security are threatened by climate change and through what mechanisms. For example, will severe drought lead to violent conflict? What are the consequences of viewing a problem as a livelihood versus national security risk? Who are the winners and losers of climate change-based security interventions? This course orients students to the evolving debate on the relationship between climate change and its impacts on national, human, and environmental security.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5043. Black Geographies. 3 Credit Hours.**

This course explores theoretical and methodological advances made by the interdisciplinary field of Black geographies. Texts and discussions will draw on the discipline of geography along with theorizing from Black studies, Black feminism, queer studies, anthropology, sociology, and political science to highlight how erasures, exclusions, and exploitations of Black people have structured historical and current world conditions. The course will center lessons from Black knowledges, radical struggles, and everyday life practices as a guide for scholarship and action aimed toward reshaping a new, more just world.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5044. Urban Housing. 3 Credit Hours.**

An overview of the economic, social, physical, and political forces that have molded the present urban housing stock is provided. Also examined are the implications of present urban housing stock, implications of present trends for the future, and the development of rational housing policies, emphasizing the Philadelphia metropolitan area.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5051. Environmental Hazards and Disasters. 3 Credit Hours.**

Natural and technological hazards are the focus for this course. We review the evolution of theoretical and applied conceptualizations of "hazard" and hazard vulnerability, examine the human dimensions of the resultant hazardscapes, and look to past, present, and anticipated "cases on the ground." Our emphasis is on geographical approaches, but this can be read as a broadly interdisciplinary perspective, as is typical of most geographical analysis. Among the varied issues we may take up are metropolitan impacts of climate change, coastal vulnerability, nuclear hazards, seismic threats, and public health threats associated with disease, hunger, and nutrition. Global, as well as U.S. and local perspectives, are integral to the course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5056. Political Ecology. 3 Credit Hours.**

Political ecology is an integrated, interdisciplinary approach to the study of human-nature relations. This course examines resource use, the construction of landscapes, questions of structure-agency, and definitions of "nature" and "development." We study cases at a variety of spatial scales and settings, and include examples from industrialized countries as well as non-industrialized regions. Topics are diverse, ranging from subsistence fishing to access to green spaces in cities. The critical roles of the state, non-governmental organizations, and individual actors in shaping social, political, and economic landscapes are considered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5061. Cartographic Production. 3 Credit Hours.**

This course presents advanced approaches to design and production of thematic maps.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5062. Fundamentals of Geographical Information Systems. 3 Credit Hours.**

This course prepares students with the knowledge necessary to effectively use GIS software packages, and covers fundamental principles such as spatial data models, database management systems, network modeling and geo-coding, and basic vector and raster operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5063. Remote Sensing. 3 Credit Hours.**

This course introduces students to the most basic concepts and skills for downloading, exploring and processing satellite data for broad remote sensing applications. The course is designed to guide students through the most relevant steps required from acquisition to production for the application of remote sensing to agriculture, forestry, ecology and hydrology, as well as for characterizing and assessing changes in urban and rural landscapes and in seascapes. The course will include weekly lab sessions that will allow students to apply the concepts and procedures learned in class and improve their skills on the use and application of remote sensing information.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (GUS 3062, ENST 3062, or GUS 5062)

**GUS 5065. Urban Geographical Information Systems. 3 Credit Hours.**

Assuming basic familiarity with Geographic Information Systems, this course focuses on applying GIS techniques to the study of such processes as urban sprawl, socioeconomic change, and ecological functioning of urban regions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 5066. Environmental Applications of GIS. 3 Credit Hours.**

Geographic Information Systems are widely used to investigate environmental processes and to develop solutions to environmental issues. This course will build upon concepts introduced in Fundamentals of GIS to investigate how the techniques, data, and interpretations from GIS analysis are applied across a variety of environmental fields. Topics to be covered include natural hazard vulnerabilities, global climate change, renewable energy potential, environmental health, and conservation. The course structure will consist of lecture, class discussion, and GIS-based lab activities. Students will be expected to read academic and professional literature and to actively participate in and lead class discussions. Students will also be expected to develop a final project on an environmental topic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 5067. GIS and Location Analysis. 3 Credit Hours.**

This course examines the concepts and techniques of location analysis - how to 1) describe the spatial arrangements of features on the earth's surface and 2) prescribe the best location or spatial arrangement of features for a particular activity - for economic and social service applications. The course introduces concepts in Geographic Information Systems (GIS) and spatial statistics to address issues of location.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5068. Census Analysis with Geographical Information Systems. 3 Credit Hours.**

Students gain an understanding of U.S. census geography and tabular data through the use of GIS. Activities, discussions, and lectures familiarize students with U.S. Census Bureau data, while lab assignments and exercises provide experience using GIS to analyze real world problems. By the end of the semester, students will have learned a variety of advanced GIS techniques and be able to make effective use of census data for academic research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5069. GIS for Health Data Analysis. 3 Credit Hours.**

Geographic Information Systems (GIS) has emerged as an essential tool for the analysis of health and disease data. This course provides an introduction to the most common geographic methods used for mapping and analyzing health disparities, disease risk factors, health services and geographic variation in health outcomes and disease. Through lecture and laboratory exercises students will learn how to create and edit spatial data, create disease maps, develop neighborhood-based measures, conduct geographic cluster detection and point pattern analysis, locate and map geographic health disparities, measure geographic access to health services, and critically assess potential study bias introduced from missing geographic data or positional accuracy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5071. Health Geography. 3 Credit Hours.**

This course offers an analysis of the factors responsible for the geographic patterns of disease, mortality, and health care services: the role of the environment in evaluating mortality and disease patterns. NOTE: This course was previously titled "Medical Geography." Students who complete this course under the new title will not receive additional credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5072. Advanced Remote Sensing. 3 Credit Hours.**

This hands-on course will provide skills and knowledge for the effective and efficient processing and analysis of satellite data for advanced applications with emphasis in the application of remote sensing for detecting and monitoring socio-environmental changes. The course will include a semester-long project where students will apply the concepts and procedures learned to their own research or a particular topic of their interest. Students will learn programming skills for effective and efficient processing of remote sensing data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (GUS 3063, ENST 3063, or GUS 5063) and (GUS 3062, ENST 3062, or GUS 5062)

**GUS 5073. Geovisualization. 3 Credit Hours.**

Maps can be powerful devices for communication, but also tools for exploration of relationships among social and physical processes manifesting in space. This computer-intensive course will focus on this dual purpose of maps as tools for visual communication and visual thinking. You will create data-driven products that combine geographic and statistical visualizations for static, interactive, and animated display. Previous experience with a programming language will be helpful. A previous course in cartography is recommended but not required. Heavy emphasis on open source tools.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (GUS 3161 or GUS 5161)

**GUS 5075. Regional Development. 3 Credit Hours.**

This course examines the transformations, beginning with the European expansion 500 years ago, that have, to a large extent, created the regional variation we see today. Theoretical approaches to understanding "modernization" and "development" are considered. This foundation is then built on to look at the historic factors that have shaped different parts of the world. Examined are the political, economic, social, spatial, and environmental processes that have shaped those countries that share a colonial past (our primary focus) as well as North America, Asia, Japan, and Eastern Europe.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5096. Problems in Environmental Quality. 3 Credit Hours.**

Local urban environmental problems are considered by members of the class in research teams, with a view toward seeking possible solutions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5097. Race, Class, Gender in Cities. 3 Credit Hours.**

This research seminar examines the spatial dimensions of metropolitan inequality, focusing on how inequality is perpetuated along race, class, and gender lines. Topics include urban growth politics, zoning and land use planning, domestic architecture, racial segregation, poverty, and homelessness. Students design a research proposal based on course materials.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5159. Geographic Inquiry. 3 Credit Hours.**

This course familiarizes students with the theoretical, conceptual, and methodological debates underlying the use of spatial analysis in the social sciences. Students explore how place, space, and scale are conceptualized and utilized to examine urban processes as well as different approaches to spatial representation, including visual, mathematical, digital, and cognitive.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5161. Statistics for Urban Spatial Analysis. 3 Credit Hours.**

This course provides an introduction to statistical analysis of spatial phenomena and processes with an emphasis on urban applications using a variety of economic, demographic, health, crime, and environmental data sets. The course covers the basic principles of sampling, probability, and tests of significance; spatial exploratory data analysis (SEDA); measures of association; ordinary least squares regression; and factor, principal component, and cluster analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5162. Advanced Statistics for Urban Applications. 3 Credit Hours.**

This course teaches advanced statistical methods to examine urban processes and patterns. The course covers spatial point pattern analysis, multivariate regression, logit and probit regression, spatial econometrics, Geographically Weighted Regression (GWR), and hierarchical linear modeling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** GUS 5161.

**GUS 5163. Qualitative Methods. 3 Credit Hours.**

This course is designed to foster an understanding of the principles and appropriate application of qualitative methods in Urban Studies. It provides an overview of qualitative research design and emphasizes the connections between grounded theory, explorative inquiry, and thick description. Specific skills that are introduced include participant observation, in-depth and open-ended interviewing, oral histories, case study analysis, focus groups, narrative analysis, content analysis, archival analysis, and social action methods. The course examines the limitations and advantages of qualitative approaches, triangulation with quantitative methods, and ethical issues in conducting research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5165. Community Based Program Evaluation. 3 Credit Hours.**

The course focuses on how to design and conduct evaluation plans that are useful for improving community-based human service and educational programs, as well as the challenges encountered in conducting evaluations in real world settings. A major emphasis is on the various methods and issues involved in conceptualizing, planning, conducting, and utilizing program evaluations. Among the topics covered are logic models and program theory, evaluability assessment, needs assessment, and process and outcome evaluation design.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5304. Food Studies. 3 Credit Hours.**

This course introduces students to key issues in food systems from a geographical and environmental perspective. The course begins with an overview of what constitutes a food system and critically examines agricultural transitions that took place over the last century, including the erasure of nondominant rural imaginaries. After, the course turns to look at issues of food security, access and control, focusing our attention to the question of how to produce more just food systems. We end with an exploration in critical nutrition and food-body relationships.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 5307. Transportation and Culture. 3 Credit Hours.**

Students will learn to approach the modern geography of transportative possibility from a critical standpoint. Rather than accepting this contemporary geography as being the outcome of supposedly "superior" transport technologies' rendering marginalized technologies obsolete, students will examine how processes of cultural and political struggle have shaped, opened up, and in some cases limited the modern array of possibilities for human mobility. Waterborne, animal-based, and human-powered modes of transportation will receive special attention, as will ongoing debates and struggles over automobile planning and urban mass transit. The history of transportation will be presented as necessarily entangled with parallel histories of public protest, political struggle, emergency logistics, human-animal relations, and environmental geography. The course readings will look at many parts of the world.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8006. Geographic Thought. 3 Credit Hours.**

This course reviews current concepts and methods used in geographic and urban interdisciplinary research. The major goals are to have students trace the pedigree of their research interests and develop a bibliography of essential readings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8010. Geographic Inquiry. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8011. History and Theory of Urban Studies. 3 Credit Hours.**

This course provides students with the foundational knowledge to pursue graduate studies in the interdisciplinary field of Urban Studies. It surveys the historical and philosophical bases of contemporary urban studies and provides an introduction to contemporary explanatory frameworks and associated critiques in the social sciences.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8016. Public Policy for Urban Regions. 3 Credit Hours.**

This course introduces students to the major policy approaches used to sustain and develop cities and regions in the United States and beyond - i.e., direct government intervention, market models, and third sector institutions. The course examines the changes brought about by globalization in the scope and function of governments, including regulatory regimes and privatization of services and infrastructure. Students analyze the consequences of different policy approaches for social equity, environmental sustainability, and economic growth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8021. Geography of Urban Services. 3 Credit Hours.**

The course provides an analysis of concepts basic to understanding spatial service patterns and emphasizes use of models in service area delineation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8031. Critical Issues in Globalization, Sustainability, and Social Justice. 3 Credit Hours.**

This course explores the theories, facts, and debates related to globalization, sustainability, and social justice, the themes that are critical to understanding contemporary urban conditions and dynamics. It provides students with an overview of a wide range of issues, in a number of U.S. and international settings, and at several spatial scales. The material is foundational for making decisions on research topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8033. Urban Economic and Spatial Structure. 3 Credit Hours.**

This course provides an introduction to the analysis of urban economic and spatial structure. Key ideas from urban economic theory (comparative advantage, scale economies, location economies, urbanization economies, clustering, increasing returns) are introduced. They are combined with key ideas from trade theory (transportation cost and globalization) and the impact of federal, state, and local government policies on creating and changing internal structures of cities and their consequences for access and distribution in fragmented metropolises.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8043. Seminar on Homelessness in America. 3 Credit Hours.**

This course explores various issues relating to homelessness, with a focus on public policy and research. A dominant theme is how public policy decisions have contributed to this problem. Topics are the experience of being homeless, the epidemiology of homelessness, structural and individual theories of homelessness, the history of homelessness in the United States, substance abuse and mental illness among the homeless, homeless women and children, homelessness in Philadelphia, and public policies needed to address the problem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8045. Poverty and Employment. 3 Credit Hours.**

The course examines the relationships among the globalization of the economy, economic restructuring, metropolitan labor markets, and poverty focusing on contemporary U.S. cities. It evaluates theoretical and public policy debates about employment and poverty. Particular attention is paid to how class, gender, and racial inequities are reproduced in the urban economy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8047. Comparative Urban History. 3 Credit Hours.**

The course reviews methodological tools for comparative readings and research on the history of cities, across cultural and chronological boundaries.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8050. Environmental Seminar. 3 Credit Hours.**

This course examines the ecological consequences of contemporary economic development. Focus is on countries at the low end of the developmental scale in Latin America, Africa, and South Asia. The course illustrates through case studies how changes in the relations of production give rise to increasing degradation of resources.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may be repeated for additional credit.

**GUS 8055. Sustainable Cities. 3 Credit Hours.**

This course introduces the concept of sustainability and explores environmental problems linked to urbanization, drawing on historical analysis, social theory, landscape ecology, and city planning/design practice. Primary topics covered include social and economic drivers of urban development and suburban sprawl; the principle of carrying capacity; the measurement of landscape-scale ecological function (e.g., habitat fragmentation); and the use of decision support tools to generate alternative policy scenarios for urban sustainability planning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8061. Big GeoSpatial Data. 3 Credit Hours.**

In Big data era, knowledge and skills for collecting and analyzing big spatial data become an essential skill for spatial data scientists. This course will teach students the concepts, techniques, and analytical methods for big spatial data. Methods for storing, processing, analyzing, and visualizing various types of big spatial data using cloud computing and advanced Python programming will be taught in this course. Examples of real big spatial data applications will be introduced in this course in order for students to get the practical skills in handling big spatial data. The course is designed for students who have programming experience or have finished GUS 5031 (GIS Programming) previously and want to reinforce the programming skills and learn advanced computing skills for solving big geospatial data problems. This course includes lectures and lab exercises. The knowledge and skills learned in this course further prepare students for an emerging career of Spatial Data Science.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5031.

**GUS 8065. Cartographic Design. 3 Credit Hours.**

This course introduces students to computer-based cartographic design for both online and paper publishing. Principles of cartography including symbolization, layout, color, and typography will be applied to the creation of reference maps and thematic maps. Strong emphasis on achieving eye-catching, informative, and unambiguous visual communication through the use of industry-standard GIS and graphic design software.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8066. Application Development for Geographic Information Systems. 3 Credit Hours.**

This course introduces students to geospatial software development through the creation of standalone software applications and plugins that add new functionality to major GIS software products. The emphasis will be on geospatial algorithms and object-oriented programming. Other topics in software design will be addressed including documentation, version control, user interface design, software testing, and software project management. The course will be taught using Python, JavaScript, or another major programming language with strong geospatial support. There will be a heavy emphasis on Free and Open Source Software, and active participation in the developer community outside of the classroom. At the end of the course students will have produced fully functioning geospatial software, shared their code to a public online repository, generated documentation, and promoted their work publicly.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062 and GUS 5031.

**GUS 8067. Spatial Database Design. 3 Credit Hours.**

The focus of this course is on the design and management of spatial databases. Topics covered include the database design process, spatial storage and access methods, relational and object-relational database models, and spatial query languages. Students will learn fundamental spatial database design concepts as well as their implementation and application within geographic information systems (GIS). Emphasis is placed on developing skills necessary for management of both desktop and enterprise-wide GIS databases. At the end of the course students are expected to know how to design relational and object-relational schemas for GIS databases, implement database designs in spatial database management systems (DBMS), and retrieve and manage spatial data in a GIS database.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 8068. Web Mapping and Map Servers. 3 Credit Hours.**

In this course, students will explore theoretical and practical concepts of Web GIS (Internet GIS). From a theoretical perspective they will study about advantages and techniques for publishing, visualizing and accessing maps on the Internet including architecture of Web GIS/Web mapping systems, markup languages (e.g. HTML, XML, SVG and GML), a scripting language, screen cartography, data sharing and geoportals, spatial web services and OGC standards. From a practical perspective they will learn to develop Web GIS/Web mapping applications including static and interactive web mapping systems. They will also learn and work with some famous open source software and libraries for developing a Web GIS.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 8069. GIS Ethics and Professional Practice. 3 Credit Hours.**

The focus of this course is on the ethical use and application of spatial data and geographic information systems and technologies. Topics covered include overviews of the geospatial industry and GIS profession, issues of spatial data sharing, the maintenance of privacy, and laws applicable to spatial data and GIS. Students will learn about the primary GIS industry sectors and professional organizations, and the codes of ethics and codes of conduct associated with being a GIS professional. A variety of case studies presenting ethical issues relating to the ethical use and application of spatial data and GIS are presented and discussed throughout the semester as a vehicle for exploring issues of ethics and professional practice. At the end of the course students are expected to be able to define the GIS industry, its sectors, and its workforce; explain the legal and ethical issues germane to the GIS profession; demonstrate familiarity with potential ethical challenges presented to GIS professionals; and understand how established codes of ethics and conduct apply to the GIS profession.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 8097. Research Design. 3 Credit Hours.**

The goals of this course are to provide students with an understanding of the basic concepts underlying different spatial approaches to research design and analysis. The course emphasizes fundamentals of designing investigations using a variety of methods and data to better understand urban processes, problems, and topics. Students learn to critically evaluate and conduct research, formulate meaningful research questions, design studies using different research methods, and develop a rigorous research proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8113. Community-Based Research. 3 Credit Hours.**

This course deals with applied, empirical research experience on issues affecting communities, often in the Philadelphia region. Students conduct research projects in collaboration with community organizations working for a more sustainable future. The course includes the study of contemporary environmental issues, broadly defined, and training in ethical community partnerships, research methods, applied research techniques, report writing, and engaging in community-driven research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 8985. Teaching in Higher Education: Social Sciences. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GUS 9082. Independent Study: Geography and Urban Studies. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9083. Readings in Geography. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9085. Internship in Geography and Urban Studies. 3 Credit Hours.**

The internship provides on-the-job training for graduate students with local consulting firms, planning commissions, community organizations, and various state, local, and federal government agencies in the Philadelphia metropolitan area.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9086. Internship Paper. 1 to 6 Credit Hour.**

Students complete a summary paper that is based on their experience in the field.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9087. Mapping Practicum I. 3 Credit Hours.**

Students are assigned cartographic projects and encouraged to plan, design, and execute them for faculty and those from outside firms and planning agencies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9187. GIS Capstone. 3 Credit Hours.**

The GIS Capstone course provides an experiential learning experience for students matriculated in the Professional Science Master's in GIS program at Temple. Students engage in a structured internship experience (140 hours during the semester), identified with the guidance of PSM faculty at Temple and a prospective employer. The student will complete a GIS-oriented project during the internship that draws on the GIScience and professional skills developed through the PSM curriculum. Student performance will be evaluated based on three criteria: 1) employer report of student performance during the internship, 2) student presentation of project, and 3) student-submitted report of project. The projects will be presented to PSM faculty and students at the conclusion of the semester and reports will be made available to employers and members of the Advisory Board. This course is required for all students matriculated in the GIS PSM at Temple. Students are expected to complete 140 hours of internship experience during the semester and to participate in an online course to reflect on their experiences during the internship. Students **MUST** have their internship opportunity approved by the instructor prior to the start of the semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GUS 5062.

**GUS 9991. Master's Research Paper. 3 Credit Hours.**

Students develop a high-quality research paper on a topic of their choice. Students connect the development of their paper to their work within a specific course as a means of facilitating their project. Students also work with an individual advisor to develop the content, implement the project design, and approve the final paper.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9994. Doctoral Qualifying Examination. 1 Credit Hour.**

Preparation for the preliminary examination.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9996. Masters Research. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9998. Dissertation Proposal. 1 to 3 Credit Hour.**

Preparation of the dissertation proposal in consultation with the primary dissertation supervisor.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**GUS 9999. Dissertation Research. 1 to 6 Credit Hour.**

After passing the Qualifying Exam, continuous registration in 9999 during the Fall and Spring semesters is required until the dissertation is successfully defended. One credit is the minimum required each semester after the proposal defense and while the student is researching and writing the dissertation. A minimum of 6 s.h. of GUS 9999 must be taken before one can secure the Ph.D. degree.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Globalization and Development Communication (GDC)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**GDC 8001. Seminar in Media, Communication and Development. 3 Credit Hours.**

This intensive seminar consists of twelve sessions providing an introduction to the program and an overview of the historical roots, political influences, institutional arrangements, and cultural considerations that have shaped and defined the field of development communication. This course prepares each new cohort of students for the rigors of the program by equipping them with a solid foundation in history and trajectories of development communication theory and practice. Throughout the seminar, participants are immersed in key readings and engage in a range of activities designed to foster a deeper theoretical and critical understanding of the issues covered. By the end of the course, students are able to take full advantage of the programs/s curriculum by proposing a specific program of study including which specialization they will pursue. NOTE: This 3 credit hour course will only be offered during the three weeks prior to each fall semester (12 meetings total, 3 contact hours per meeting), and is for incoming students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GDC 8002. Communication for Social Change Project Design. 3 Credit Hours.**

Recognizing the power of communication as a catalyst for social change, this course focuses on how development communication projects intended for a specific target audience are designed, managed and refined. The course also provides instruction in project monitoring and evaluation, decision-making tools, and human resource management as related to key aspects of development communication, such as behavior change, social marketing, social mobilization, media advocacy, and participatory development communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in GDC 8001.

**GDC 8003. Research Approaches in Communication, Development and Social Change. 3 Credit Hours.**

This course provides a hands-on approach to learning a series of research methods and fieldwork approaches used in the field of communication, development and social change. Students will learn different strategies to conduct fieldwork in marginalized communities, including participatory research and action research. The course focuses on practical research skills including how to formulate research questions, gather primary and secondary data, complete formative and summative research reports, and develop qualitative and quantitative data analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GDC 8089. Field Experience. 3 Credit Hours.**

The Field Experience is a custom-designed course that provides the opportunity for Globalization and Development Communication (GDC) students to apply course work to practice and/or research experiences. Field experiences can include internships with governmental and non-governmental organizations, research projects with socially responsible businesses, and participation in community development initiatives or media productions for social changes that allow students to acquire knowledge and new skills and become more reflective development practitioners. NOTE: This 3 credit hour course takes the form of a "hybrid," with students meeting with the instructor during several days of the "Maymester" term and completing their field experiences independently during the summer under the supervision and evaluation of the course instructor. The course is for outgoing GDC students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in GDC 8002.

**GDC 9995. Master's Research Project. 3 Credit Hours.**

The Master's Research Project a field-based course provides the opportunity for Communication and Development for Social Change to apply coursework to practice and research experiences. Research projects can include internships with governmental and non-governmental organizations, investigative projects with socially responsible businesses, participation in community development initiatives, or media productions for social changes that allow students to acquire knowledge and new skills and become more reflective development practitioners. Note: This 3 credit hour course takes the form of a "hybrid", with students meeting with the instructor during several days of the early summer term and completing their field experiences independently during the summer under the supervision and evaluation of the course instructor. The course is for outgoing GDC students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Globaliztn & Dev Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Graduate Advanced Education and General Dentistry (ADVG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ADVG 9085. Advanced Education in General Dentistry I Clinical Practice. 9 Credit Hours.**

Clinical experience and documentation in diagnosis, treatment and prevention of dental diseases, and oral health maintenance care. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ADVG 9185. Advanced Education in General Dentistry II Clinical Practice. 9 Credit Hours.**

Clinical experience and documentation in diagnosis, treatment and prevention of dental diseases, and oral health maintenance care. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Graduate Endodontic (ENDG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ENDG 8111. Pain in Dentistry: Diagnosis and Control. 2 Credit Hours.**

Pathophysiology of orofacial pain, including transmission mechanisms, role of neurotransmitters and neuroregulators, neurology and classification of head and neck pain, differential diagnostic procedures, and a survey of pain control measures. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8112. Pulp Biology. 2 Credit Hours.**

Development, structure, histology, biochemistry, and physiology of tooth pulp tissues in health and disease. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8113. Periapical Biology. 2 Credit Hours.**

Development, structure, histology, biochemistry, and physiology of the tooth root apex and surrounding periapical tissues in health and disease.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8114. Biologic Basis of Disease. 2 Credit Hours.**

Basic biologic structures and processes underlying growth and destruction of human body tissues, including fundamentals of acute and chronic inflammation, the complement cascade, mechanisms of cell-mediated and humoral immune responses, ligand-cell receptor complexes, and receptor diseases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8115. Current Clinical Concepts. 2 Credit Hours.**

In this course, students learn to describe the characteristics and variations of ideal root canal access using proper instruments as well as the details of floor anatomy and the location of orifices. They will gain the ability to analyze, synthesize and evaluate data and knowledge related to various aspects of clinical endodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8116. Endodontic Microbiology/Immunology. 2 Credit Hours.**

Microbial structure, genetics, disinfection/sterilization, immunology, biology, and virulence relative to pulpal and periapical infections.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8117. Systemic Diseases. 1.5 Credit Hour.**

The student will be able to understand the significance of how different diseases and medical conditions may impact Endodontic treatment and prognosis, appreciate the relevance of an understanding of different diseases and medical conditions, and thoroughly learn and discuss the different diseases and medical conditions that may be encountered in treating their patients.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8118. Endodontic Microsurgery. 2.5 Credit Hours.**

This course enables students to understand the rationale for different surgical procedures, adequately and competently perform various endodontic surgical procedures, have a thorough knowledge of the different types of flap designs, and have a complete understanding of how and when to use the different types of guided tissue and bone regeneration materials.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8119. Teaching for Sophomore Preclinical Lab. 2 Credit Hours.**

The graduate students participate in teaching the sophomore students in hands-on endodontics prior to their entry into the clinic. This is done on a weekly basis in the Spring semester

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8120. Clinical Seminar in Endodontology. 2 Credit Hours.**

Students will become proficient in presenting evidence-based cases at the level of expectation/standard of the American Board of Endodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ENDG 8122. Dental Traumatology. 1 Credit Hour.**

Upon completion of this course, the student should be able to classify, provide a comprehensive treatment regimen, and provide opportunities for analysis, synthesis, and evaluation of data and knowledge on the different types of dental injuries.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8123. Endodontic Methods and Materials I. 2 Credit Hours.**

This course is intended to provide the student with a deep appreciation in Endodontic methods and materials, and obtain knowledge in the various materials and methods used in clinical endodontics, and differential interpretation of lesions and normal anatomic structures through radiographs or digital images; understand and be familiar with all the medicaments and obturation materials that are being used in endodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8124. Endodontic Methods and Materials II. 2 Credit Hours.**

This course is intended to provide the student with a deep appreciation in Endodontic methods and materials, and obtain knowledge in the various materials and methods used in clinical endodontics. Provide the student with the deep appreciation with the outcomes of endodontic treatment, and understand the relationship between endodontics and other dental specialty such as orthodontics, periodontics, and pediatrics.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8130. Current Endodontics Literature Review. 1 Credit Hour.**

Critical review of recent basic science and clinical literature pertinent to endodontics. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ENDG 8131. Endodontic Topics I. 2 Credit Hours.**

This course contains the following major topics: 1) Endodontic microbiology, 2) Inflammation, 3) Traumatic injury of the teeth. This course is intended to provide the student with a deep appreciation of the nature of microorganisms, and their role in pulpal and periapical disease; with a profound understanding of the biologic structures and processes underlying the growth and destruction of the tissues of the human body; understand the use of antibiotics in Endodontics; and obtain knowledge of various types of traumatic injury of teeth and their management.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8132. Endodontic Topics II. 2 Credit Hours.**

This course contains the following major topics: 1) Systemic diseases and endodontics, 2) Essential endodontic literatures, 3) Pain and management, 5) Tooth with open apex. This course is intended to provide the student with a deep appreciation of common systemic diseases and their correlations with endodontic diseases, as well as their impact on the outcomes of endodontic treatment; help the student understand the essential and classic endodontic literatures; provide the student with a deep appreciation of nature of dental pain, especially the endodontic pain; and also learn how to manage the tooth with open apex that has endodontic disease.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 8140. Classical Endodontics Literature Review. 1 Credit Hour.**

Critical evaluation of classical scientific literature in endodontics and pulp biology. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ENDG 8212. Pulp Biology II. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ENDG 8213. Periapical Biology II. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ENDG 9185. Emergency Endodontics Clinic. 3 Credit Hours.**

Everyday, two endodontic students are assigned to emergency duty to perform emergency Endodontic procedures. This is done on a rotation basis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ENDG 9285. Endodontics Clinic. 1 to 12 Credit Hour.**

This course focuses on the treatment of patients in the clinic. The student is expected to demonstrate graduate level of proficiency in Endodontic diagnosis, treatment skills, and management of patients. Special clinical emphasis is placed on endodontic re-treatment, periapical surgery, and contemporary management of complex and/or refractory endodontic lesions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Graduate Orthodontics (ORTG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ORTG 8400. Diagnosis and Treatment Planning Conference. 4 Credit Hours.**

The student will be exposed to a different case each conference. There will be discussion on the diagnosis, treatment goals, treatment plan and the treatment mechanics. Each student will be expected to demonstrate critical and original thinking. The discussions will be evidenced based. Ethics of the resulting treatment plan and the treatment will also be incorporated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8401. Orthodontic Technique Lab. 1 to 6 Credit Hour.**

This course is designed for the entering graduate student to learn the essential principles of orthodontic appliances utilizing the typodont. The typodonts are occluded on a hinge articulator to simulate the typical malocclusion(s). Students bend wires and apply auxiliary force modules to move the teeth to correct the malocclusion. This course is augmented by introduction and discussions of orthodontic instruments, use of extraoral appliances, wire properties, an overview of engineering principles of orthodontic mechanics as indicated in the course schedule. Students will be assigned readings to prepare for the day's agenda. Moreover, this course is the entering students' first exposure to the graduate orthodontic curriculum; and sessions take up the entire day. Thus, the intense one-on-one time spent with the instructors, and senior residents is also critical for transition into the rest of the curriculum. The principal goal of this course is to train the beginning resident in the techniques and use of orthodontic appliances. Course prerequisite: enrollment in the Year 1 of graduate orthodontic specialty program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8402. Orthodontic Principles and Techniques. 1 Credit Hour.**

This Principles of Orthodontics course is a seminar and independent study course that provides a review of orthodontics and its history. It includes discussions of essential literature on the nature of orthodontic specialty and introduces the student to orthodontic data collection, software, and patient management. Included in the topics of instruction are history of orthodontics, essentials of making various impressions, 2D and 3D imaging technologies, orthodontic insurance, and photography. Students are assigned to make PowerPoint presentations in various topics in orthodontic history. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss, provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Course prerequisites: enrollment in Year I of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8403. Orthodontic Diagnosis and Treatment Plan Seminar. 2 Credit Hours.**

Essentials of orthodontic diagnostic process and treatment planning are discussed in this course. Examples of topics of discussion include cephalometric headfilms and their numerous analyses, treatment timing, surgical orthodontics, interdisciplinary orthodontics, and occlusion and TMJ. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss, provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Every attending will have his/her own treatment philosophy. The student is expected to utilize the information gained in this course for clinical activities. Course prerequisites: enrollment in Year I of the graduate orthodontic specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8404. Orthodontic Biomechanics. 2 Credit Hours.**

Biology and engineering mechanics of orthodontic and orthopedic forces applied to human orofacial structures. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8405. Dymorphology. 1 Credit Hour.**

Study of biologic basis, classification, and management of human craniofacial anomalies and syndromes, with emphasis on cleft lip and palate. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8406. Teaching Principles. 2 Credit Hours.**

In this course the student is exposed to teaching and mentoring activities. Teaching and mentoring activities take place in the predoctoral and postdoctoral facilities. The graduate program is heavily dependent on the big brother/sister system. In the predoctoral clinic the resident will serve as the instructor. In the graduate program, the student will mentor the little brother/sister for diagnosis, treatment planning, paperwork, patient management, and the like. Course prerequisites: enrollment in the graduate orthodontic specialty program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8407. History of Orthodontics. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8408. Craniofacial Cephalometrics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8410. Current Literature Review. 1 Credit Hour.**

Critical review of selected recent basic science and clinical research papers in orthodontics and craniofacial biology. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8413. Operations Management for Orthodontic Practice I. 0 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8414. Growth and Development of the Craniofacial Complex. 2 Credit Hours.**

Fundamental biological and genetic mechanisms of normal human craniofacial growth and development, including neural crest contributions, epithelial-mesenchymal interactions, postnatal craniofacial development, and somatic growth in children.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8416. Clinical Biomechanics. 1 Credit Hour.**

The Clinical Biomechanics course is a seminar and independent study course providing an evidence-based, in-depth, review of the scientific literature on the mechanical and biological reactions of craniofacial structures to applied orthodontic and orthopedic forces. Also taught is the design of orthodontic appliances and treatment strategy based on these concepts. This course is built upon the material in the Biomechanics course (8404) where the reactions created by orthodontic and orthopedic forces are presented. Students will learn these at the level of a specialist. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss, provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Additionally, students will make formal presentations based on an assigned independent study related to orthodontics, its mechanics, and practice. Course prerequisites: enrollment in Year I of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8417. Introduction to Basic Principles of Orthodontics (Lab). 2 Credit Hours.**

Introduction to basic principles of orthodontics lab such as introduction to brackets and wires, appliance placement procedures, impression and study model preparation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8418. Introduction to Basic Principles of Orthodontics (Seminar). 3 Credit Hours.**

Introduction to basic principles of orthodontics such as department forms and procedures (clinical exam and techniques), basic definitions, clinical photography, AxiUm training, including billing, Dolphin Imaging.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8419. Orthodontic Principles and Techniques. 1 to 4 Credit Hour.**

Lecture seminar sequence dealing with the interpretation and application of orthodontic principles of the ethics and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8420. Orthognathic Surgery Seminar. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8421. 3-D Imaging and Computer Generated Orthodontics. 2 Credit Hours.**

Provides orthodontic residents with an introductory overview of various computer generated 3-D ortho appliances to include but not limited to: invisalign, suresmile, surgical treatment planning and indirect bonding.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8422. Advanced Orthodontic Principles and Techniques. 1 to 6 Credit Hour.**

Advanced lecture seminar sequence dealing with interpretation and application of orthodontic principles of the ethics and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8423. Progress Conference and Case Review. 1 to 6 Credit Hour.**

Advanced lecture seminar sequence dealing with interpretation and application of orthodontic principles of the ethics and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Progress of orthodontic cases reviewed and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Everyone attending will have his/her own treatment philosophy. The student is expected to utilize the information gained in this course for clinical activities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8424. Biology of Tooth Movement. 2 Credit Hours.**

This course will cover the histologic, cellular and molecular basis for orthodontic tooth movement, root resorption, and dentofacial orthopedics using historic and current findings in general bone biology, orthopedics and orthodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8425. Classic Literature Review. 1 to 6 Credit Hour.**

In this course residents are assigned articles to review from orthodontic journals from the recommended reading list from the American Board of Orthodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8426. Multidisciplinary and Adult Orthodontics. 2 Credit Hours.**

This course reviews the combined orthodontic, periodontic, restorative and psycho social need of the adult patient for comprehensive care.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8427. American Board of Orthodontics Preparation Course. 1 to 6 Credit Hour.**

Review selected topics in preparation for the ABO written exam. This includes review of biology of tooth movement, head and neck anatomy, biomechanics, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8428. ABO Mock Boards. 1 Credit Hour.**

This course provides the resident with a comprehensive way to evaluate the outcomes of their diagnosis, treatment plan and actual treatment of 6 patients they completed. This also prepares them for the clinical portion of the ABO clinical exam.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8429. Clinical Biomechanics. 1 Credit Hour.**

This course reviews the basic principles of biomechanics and their use in actual clinical situations. Different appliances and materials are discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8430. Advance Orthodontic Principles and Techniques. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8431. Thesis; Scientific Writing and Preparation Course 1. 1 to 6 Credit Hour.**

In this course essentials of scientific writing are taught. Topics such as organization of thesis, or writing of scientific articles, and the nature of different sections are covered. Emphasis is given to presentation techniques of the written material, avoidance of jargon, proper grammar, and the like, concepts. The student gains experience in reviewing manuscripts submitted to the journal. It includes discussions of essential literature on the nature of science and its reporting. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss and provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Course prerequisites: enrollment in year 1 of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 8487. Critical Elements in Clinical Orthodontics. 1 Credit Hour.**

This course discusses the fine points of clinical decision making process. Also taught is the ethics of orthodontic specialty and most current innovations in clinical orthodontics. Students will learn the fine points of orthodontic treatment practice through formal case presentations and discussions. Ethics of orthodontic practice are taught with the aid of educational material produced by the American Association of Orthodontists. Course prerequisites: enrollment in Year 2 of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8510. Interdisciplinary Orthodontic Treatment Seminar. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8513. Operations Management for Orthodontic Practice II. 2 Credit Hours.**

This course is designed to introduce the student to various ways to start practicing. Intellectual property laws, cost of money, building of a new office, buying of existing practice or the process of hiring, marketing, and the like topics are covered. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss, provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Course prerequisites: enrollment in Year 2 of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 8515. Growth and Development II. 2 Credit Hours.**

The growth and development of the craniofacial complex is a seminar and independent study course that reviews the evidence-based information at the anatomical and molecular level. Genetic and epigenetic influences are taught at the level of specialist. The course sessions are conducted as lectures and seminars where students, who have previously read and independently studied the assigned reading materials, will discuss, provide summary statements, critical analysis, and answers to questions in roundtable discussions led by attending faculty members serving as seminar leaders. Clinical implications of developmental phenomena are discussed in depth. Course prerequisites: enrollment in Year I of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORTG 9487. Dento-Facial Anomalies Conference. 1 Credit Hour.**

The student is exposed to grand rounds presentations that are conducted jointly by the Kornberg orthodontics and Jefferson surgeons. Students will actively participate to present or discuss the jointly treated cases. In addition, students will make presentations on the topics that are assigned. The focus of the course is management of patients between the two specialties. This is course also includes rotations through the operating rooms at Jefferson University. Additionally, the student will participate in a TMJ dissection course at Jefferson. Course prerequisites: enrollment in the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9489. Extracurricular Education. 2 Credit Hours.**

This activity requires attendance to approved regional or national meetings and conferences. The principal purpose of this course is to expose the student, in an unbiased format, to novel arguments, instruments, equipment, and services in the orthodontic industry. Students will be assigned selected topics to investigate at the meetings they attend. Upon their return, the graduate students will prepare a talk with the aid of PowerPoint presentations to highlight the pertinent areas of the meeting and their interpretation of the knowledge introduced at the meeting. The quality, appropriateness, and pertinence of these presentations will be judged. Course prerequisites: enrollment in Year 1 of the graduate orthodontics specialty program or with special permission of the course director.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9587. Graduate Orthodontic Clinic. 1 to 12 Credit Hour.**

This course is treatment of patients in the clinic. The student is expected to demonstrate graduate level mastery of orthodontic diagnosis; treatment skills and management of patients. As the student enters the program s/he is assigned a group of patients. From that pool the student will start a specified number of patients. The number of starts may vary from year to year. But the patient load in terms of numbers and complexity must be distributed as evenly as possible, or as specified, among the attendings. The student will experience a plethora of proven-performer appliances and techniques. Course prerequisites: enrollment in the graduate orthodontic specialty program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9588. Graduate Orthodontic Screening Clinic. 1 to 12 Credit Hour.**

In this course the student is exposed to teaching and mentoring activities. Teaching and mentoring activities take place in the predoctoral and postdoctoral facilities. The graduate program is heavily dependent on the big brother/sister system. In the predoctoral clinic the resident will serve as the instructor. In the graduate program, the student will mentor the little brother/sister for diagnosis, treatment planning, paperwork, patient management, and the like.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9589. Tweed Course. 2 Credit Hours.**

The student will attend the Tweed Foundation Course in Tucson, AZ for a two-week period. This course is designed to teach the basics of wire bending and to introduce the student to basics of Tweed diagnostic and treatment philosophy. The course consists of typodont work and lectures. The cost of the course will be borne by the student. US citizens may be qualified for a loan from the Foundation to cover the tuition and travel-related expenses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9991. Orthodontic Thesis Studies. 1 Credit Hour.**

Mentor-directed activities on preparation of orthodontic research protocols and thesis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORTG 9996. Orthodontic Thesis Research. 4 Credit Hours.**

Mentor-directed conduct of a basic science and/or clinical research project in orthodontics. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Graduate Periodontics (PERG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**PERG 8300. Periodontal Case Presentations. 2 Credit Hours.**

This course focuses on presentations of documented clinical periodontal patient cases for analysis and critical discussion of diagnosis, treatment and outcomes. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 8301. Introduction to Postgraduate Periodontology. 2 Credit Hours.**

An orientation course including overview of clinical periodontology, periodontal anatomy and pathogenesis, clinical methods, photography and record keeping.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8302. Biology and Pathology of the Periodontium. 2 Credit Hours.**

Seminars reviewing the scientific literature on development, morphology, and physiology of periodontal tissues; histopathology of periodontal diseases; and current concepts on mechanisms of periodontal tissue destruction and repair. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8305. Combined Spec Treat Plan. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8306. Introduction to Oral Implantology. 1 Credit Hour.**

Biologic basis for dental implants, including implant biomaterials and bioengineering, biology of bone healing, osseointegration, prosthetic and surgical considerations, implant maintenance, and etiology and management of implant complications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8307. Advanced Periodontal Microbiology and Immunology. 1 Credit Hour.**

Basic biology, methods of identification, pathogenic mechanisms, host inflammatory and immunological responses, and therapeutic implications of bacteria, yeasts, and viruses implicated as putative pathogens in human periodontal diseases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8308. Treat/Plan Dental Implan. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8309. Clinical Oral Implantology. 2 Credit Hours.**

This course focuses on clinical training to competency in treatment planning, surgical placement, and maintenance of endosseous dental implants. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**PERG 8310. Classic Periodontal Literature Review. 2 Credit Hours.**

Critical review of selected classical basic science and clinical research papers pertinent to periodontology. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 8311. Advanced Oral Implantology. 1 Credit Hour.**

Advanced Oral Implantology is a 1-credit course which includes 14 hours of didactic classes. The course builds upon knowledge obtained in the Introduction to Oral Implantology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P in PERG 8306.

**PERG 8313. Conscious Sedation. 2 Credit Hours.**

Didactic and clinical training to provide training for the resident in the methods of pain and anxiety control to achieve in-depth knowledge in all areas of conscious sedation, and proficiency in more than one method of conscious sedation. These methods include nitrous oxide/oxygen inhalation sedation, oral sedation or intravenous sedation. Course instruction will include a review of human physiology, physical evaluation, treatment of the medically compromised patient and management of medical emergencies. Residents must complete ACLS and provide documentation as part of this course. Upon completion the resident may qualify for conscious sedation permit in Pennsylvania.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**PERG 8314. Hospital Dentistry. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**PERG 8320. Current Periodontal Literature Review. 1 Credit Hour.**

Critical review of selected recent basic science and clinical research review papers pertinent to periodontology. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 8330. Special Topics in Perio. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 8340. Oral Implantology Literature Review. 2 Credit Hours.**

Study and critical review of basic science and clinical scientific literature on dental implants. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 8350. Interdisciplinary Comprehensive Dental Treatment Planning Grand Rounds. 2 Credit Hours.**

Interdisciplinary treatment planning conference exploring complex patient cases. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 9385. Clinical Periodontal Practice. 1 to 12 Credit Hour.**

Clinical experience and documentation in diagnosis, treatment and prevention of periodontal diseases, and periodontal maintenance care. May be repeated for credit.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Periodontics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 9387. Practice Teaching Periodontology. 2 Credit Hours.**

In this course, students gain experience in clinical instruction and patient care supervision in the predoctoral periodontology education program. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 9487. Oral Pathology Laboratory Rotation. 2 Credit Hours.**

Participation and experience in microscopic examination and diagnosis of human oral tissues at the oral and maxillofacial pathology laboratory biopsy service at Temple University Hospital.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**PERG 9991. Directed Research in Periodontology. 4 Credit Hours.**

Development and conduct of a basic science or clinical research project or literature review pertinent to periodontology under faculty mentorship. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Graphic Arts and Design (GAD)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**GAD 5000. Graduate Design: Special Topics. 3 Credit Hours.**

Graduate Level course focuses on topics in design not covered in the regular course offerings. Topics may include, but are not limited to, Environmental Design and Signage, Type Design, Promotion Design, etc. Classroom instruction and assignments will include projects appropriate to the specific topic being offered. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5001. Graduate Design: Design Workshop. 3 Credit Hours.**

Students work on projects for the Tyler Design Incubator. This includes project development and management, research on topics specific to entrepreneurial design practice, and assigned tasks for Incubator activities and events. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5002. Graduate Design: Hybrid Design. 3 Credit Hours.**

Students work on large assignments that have components in both print and interactive media. Instruction in the advanced use of software applications for print and/or interactive media is a significant part of the course. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5003. Graduate Design: Art Direction. 3 Credit Hours.**

This course focuses on concept development with an emphasis on image making and image editing in a variety of forms including book publishing, advertising and signage. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5004. Graduate Design: Packaging. 3 Credit Hours.**

This course focuses on package design for a variety of products. Students work with concept, surface design, typography, materials and the physical construction of three-dimensional forms. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5005. Graduate Design: Publishing. 3 Credit Hours.**

Students work on large-scale publications with a strong emphasis on the development of typographic formats and the inventive use of illustration and/or photographic imagery to create periodicals and/or books that are functional, conceptually sophisticated and visually distinctive. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5006. Graduate Design: Corporate. 3 Credit Hours.**

In this course students develop two large scale identities that include logo design, stationery and collateral materials in a variety of forms that can include booklets, brochures, posters, advertising, signage and/or packaging. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5007. Graduate Design: Interactive. 3 Credit Hours.**

The focus of this course is interactive design for a large-scale website. This project will involve in-depth exploration of interface design, navigation, audio, digital animation and organization of information. Includes instruction in intermediate through advanced programming skills and the use of video composition. A strong grasp of the fundamentals of interactive design is required. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5008. Graduate Design: Authorship. 3 Credit Hours.**

This course encourages students to express perceptions and positions on current issues and events through large-scale projects. Parameters of assignments are generated by individual approaches, challenging each student to engage in decision making to develop unique content and form. The work from this class expands the boundaries of the design discipline beyond traditional client-based practice. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5010. Graduate Design: Special Topics. 3 Credit Hours.**

Graduate Level course focuses on topics in design not covered in the regular course offerings. Topics may include, but are not limited to, Environmental Design and Signage, Type Design, Promotion Design, etc. Classroom instruction and assignments will include projects appropriate to the specific topic being offered. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5011. Graduate Design: Design for the Public Good. 3 Credit Hours.**

Students work on a wide variety of projects for arts and educational groups, social welfare and environmental organizations, and other clients in the nonprofit sector. Projects done in the class will actually be produced — either in print or, in the case of web sites, posted online. Students will be responsible for production preparation and supervision for course projects which could include identities, brochures, posters, invitations, and advertising campaigns. Graduate students in this course will also be expected to lead presentations to the clients and disseminate client feedback to the undergraduates. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5012. Graduate Design: Typography. 3 Credit Hours.**

This course will focus on typography as a medium for both verbal and visual communication. The class will explore basic principles of typography, working with type from its most elementary form - the letter - to complex typography involving words and images in multiple pages - micro to macro. Among the topics we'll be exploring will be the structure of letterforms, letter spacing and word spacing. We'll also look at contrast, texture, legibility, and typographic hierarchies. We'll also discuss the development of typographic concepts, and typographic history. You'll be encouraged to use typographic forms as both abstract and expressive components of visual communication. The class will consist of a combination of critiques, in-class assignments, workdays, lectures, and exercises. You'll also have quizzes and a type test based on a required text and lectures. It's a lot to cover, but by the end of this semester, you'll be well on your way to a much deeper appreciation for typography, and its importance to us in the practice of graphic design.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5013. Advanced Typography. 3 Credit Hours.**

Graduate Level course focuses on advanced applications of typography in design. Projects include logo design, book covers, posters, brochures and/or catalogues. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5015. Advanced Typography. 3 Credit Hours.**

Graduate Level course focuses on advanced applications of typography in design. Projects include logo design, book covers, posters, brochures and/or catalogues. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5023. Interactive Design. 3 Credit Hours.**

This course focuses on design for web and motion graphics. A good working knowledge of Adobe Photoshop and Illustrator (Mac Platform) is necessary. Flash and After Effects will be explored from basic to intermediate levels. While staying current with the latest technologies, the emphasis will be on design for communication through interactive media. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5025. Interactive Design. 3 Credit Hours.**

Graduate Level course focuses on design for web and motion graphics. A good working knowledge of Adobe Photoshop and Illustrator (Mac Platform) is necessary. Flash and After Effects will be explored from basic to intermediate levels. While staying current with the latest technologies, the emphasis will be on design for communication through interactive media. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5027. Digital Narratives. 3 Credit Hours.**

Graduate Level course focuses on the creation of a short digital animation/movie based on a supplied narrative. Strong conceptual and technical skills as well as a solid grasp of typography will be necessary for this course. Students will learn one vector based and one video based application to create this design. This course is not cell based animation. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5029. Programming and Production for Web Sites. 3 Credit Hours.**

Graduate Level course focuses on the technical production and programming aspects of producing a fully functioning web site. Topics covered will be the best-practices use of Dreamweaver for site production with an emphasis on CSS, HTML and Javascript programming languages. Students will also be introduced to the fundamentals of the ActionScript language. Students will cover the process of creating a web site and its many considerations such as flowcharts, sitemaps, and wireframes. Students will be introduced to fundamentals of information architecture and search engine optimization (SEO) for use within their site and discuss best-practices for uploading and maintaining their final site. Graduate students will need to keep a portfolio of work that is annotated, summarizing their learning and how they expect it to be applied in future courses. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5053. Art Careers Promotion. 3 Credit Hours.**

Graduate Level Course offers instruction in the design and content of materials needed by fine artist in professional practice. This course will cover a number of topics including resume content and design, stationery packages for business communication (cover letters, professional inquiries, etc.), presentation formats for print and web. NOTE: Open to all studio majors to include: GAD, Art, and Art Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5073. Introduction to Web Design. 3 Credit Hours.**

Graduate Level course instructs students in the fundamentals of interactive design with a focus on the use of interactive software, layout, typography, hierarchy and organization. Basic working knowledge of Adobe Photoshop and Illustrator required (MAC platform). Students will be tested for basic competency in these programs on the first day of class.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5078. The Art of Infographics. 3 Credit Hours.**

This course is an introduction to data visualization and infographic design. It explores the history of data visualization and infographic design, from cave paintings to contemporary design, covering static, animated and interactive solutions. Lectures on visual literacy and graphic design foundations will help the students develop the vocabulary necessary to critically analyze contemporary infographics. Students receive basic instruction in the creation of infographics and develop their own infographic utilizing supplied data. This course will include readings from Edward Tufte's "The Visual Display of Quantitative Information" and other texts. Tutorials in Excel and Illustrator may also be used for outside software instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5096. Graduate Design: Business of Design. 3 Credit Hours.**

The focus of this course is to understand professional business practices within the design industry. This course will cover a number of topics, including: business models, business writing, presentation, and communications, design thinking, strategy, pricing, contracts, client/project management, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5097. Graduate Design: Graphic Design Theory. 3 Credit Hours.**

This course will introduce students to contemporary design theories and discourse. It will examine the theoretical aspects of artifacts through their making, reading and dissemination. Graphic design and visual communication theories will be compared to those in literature and architecture. Students will use discussion, writing, presentations and design to investigate contemporary design issues. Emphasis will be placed on forming and articulating an individual point-of-view (POV) in discussion and writing. Based on the semester-long discussion about how we visually communicate, all students will draw a revised diagram of the Communication Model developed by Meredith Davis in 2012. Graduate students will also write a 1000-word reflection on the factors that have influenced this eight-year evolution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may not be repeated for additional credits.

**GAD 5111. Graduate Design: Illustration. 3 Credit Hours.**

Assignments focus on image-making for communication. Strong concepts, the development of a personal visual approach or style and professional process will be the focus of this course. Graduate students will need to research and present a topic related to contemporary illustration in class to the undergraduates. NOTE: This course is open to Graphic and Interactive Design MFA students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 5182. Independent Study. 1 to 3 Credit Hour.**

Graduate Level course where the proposal for a large-scale independent project must be approved by a faculty member who agrees to oversee the project prior to registration for the course. The proposal must relate to authorship and/or entrepreneurship and have the breadth and depth of a semester long graduate project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Fine Arts.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8001. Visual Design Graduate Seminar. 3 Credit Hours.**

Graduate projects in graphic design authorship. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8002. Visual Design Graduate Seminar II. 3 Credit Hours.**

Graduate projects in graphic design authorship. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8083. Graphic Design Graduate Projects. 3 Credit Hours.**

Graduate projects in graphic design authorship. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8084. Graphic Design Graduate Projects II. 3 Credit Hours.**

Graduate projects in graphic design authorship. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8095. Visual Design Thesis. 3 Credit Hours.**

Thesis project representing comprehensive original research in an area of specific interest for the degree candidate. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8096. Visual Design Thesis II. 3 Credit Hours.**

Thesis project representing comprehensive original research in an area of specific interest for the degree candidate. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8111. Graduate Seminar in Printmaking. 3 Credit Hours.**

Philosophy and theory of contemporary printmaking practices. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8112. Graduate Seminar in Printmaking II. 3 Credit Hours.**

Philosophy and theory of contemporary printmaking practices. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8183. Graduate Projects in Printmaking. 3 to 12 Credit Hours.**

Individual conferences and group seminars. Emphasis on diversity of command in several printmaking media. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8184. Graduate Projects in Printmaking II. 3 to 12 Credit Hours.**

Individual conferences and group seminars. Emphasis on diversity of command in several printmaking media. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8189. Collaborative Design Workshop in Rome. 3 Credit Hours.**

The six week course is geared toward design students interested in immersing themselves in the culture of Italy and producing, by the end of the workshop, a printed project about design, art, and culture in Rome. Students will have a choice of topics to research, design, and produce. Among the many topics that students could focus on are Roman decorative arts, cuisine, theatre, architecture, fashion, music, and film. Students will also be encouraged to study how the Italian design aesthetic and philosophy might be applied to their own work. An integral part of this project will be both digital and traditional image making. Students will photograph and/or illustrate an article that will be incorporated into the final collaboratively produced printed piece. Note: Open to majors in the following disciplines - Graphic and Interactive Design, Photography, Illustration, Fashion Design, Interior Design, Industrial Design, Landscape Architecture, Architecture, Journalism, Advertising.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8201. Digital Projects. 3 Credit Hours.**

The emphasis of this course will be on creating a professional digital portfolio. Throughout the semester, students will learn a series of multimedia software applications and develop interactive presentations that will promote themselves as artists with contemporary and professional portfolios. Note: The course is limited to seniors and graduate students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8211. Graduate Seminar in Photography. 3 Credit Hours.**

A seminar emphasizing individual research and group discussion of contemporary issues in photography. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8212. Graduate Seminar in Photography II. 3 Credit Hours.**

A seminar emphasizing individual research and group discussion of contemporary issues in photography. Note: This course can only be taken twice for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8222. Contemporary Photography. 3 Credit Hours.**

We live in an extraordinary moment in the history of photography, a moment much hoped for and anticipated by many champions of the medium. Finally one can say without qualification that photography is a medium fully embraced by the contemporary art world. While there has always been a movement to look at and discuss photography as art, photography has never played a more central, critical and vital role in contemporary art than it does now. This course will look at both the role that photography plays in contemporary art and the role that contemporary art plays in photography. By surveying contemporary trends in photography, students in this class will develop an understanding of what exactly photography is now. At the same time the class will attempt to answer questions about what it means to be contemporary, about what the relationship between the contemporary and the historical is, and why this might be important. Through these problems students will be encouraged to develop personal work that addresses themes and ideas discussed in the class. Note: Open to Junior/Seniors. Special authorization required for non-majors.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8253. Graduate Photo Process Workshop. 3 Credit Hours.**

Survey of experimental techniques, including hand applied, light-sensitive emulsions, ortho film making, photographic book arts, and 19th- and 20th-century processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8255. Graduate Photo Workshop: Digital Photography. 3 Credit Hours.**

State of the art technology merges with new issues related to digital imaging.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8256. Graduate Advanced Photo Workshop. 3 Credit Hours.**

Photography and new applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8283. Graduate Projects in Photography I. 1 to 12 Credit Hour.**

Individual conferences and group seminars. Emphasis on mastery of conceptual and technical practices with lens-based media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8284. Graduate Projects in Photography II. 1 to 12 Credit Hour.**

Individual conferences and group seminars. Emphasis on mastery of conceptual and technical practices with lens-based media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 8413. Photographic Lighting. 3 Credit Hours.**

At the core of any commercial or fine art photographer's practice is an in-depth understanding of lighting. Light is the fundamental element that makes a photograph possible, and every successful photographer's control over light is the key to their success. This course will not only focus on allowing you to gain a thorough understanding of artificial lighting techniques, but also how to approach natural light situations better, and beyond that, to an understanding of how the two work in conjunction. By revisiting the fundamentals of the large format view camera, and developing an understanding of environmental and situational lighting techniques, you will learn different commercial and fine art approaches to working in a studio setting. You will also learn lighting techniques with digital and medium formats, as well as develop an understanding regarding the differences between digital capture and negative film. In addition this course will cover advanced exposure control, lighting on location, and product lighting. Note: This course is repeatable for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

**GAD 9189. Design Workshop in Japan. 3 Credit Hours.**

The six week course is geared toward graphic design students interested in immersing themselves in the culture of Japan and producing a design project about this experience. Students will have a choice of projects to design and produce. They will be encouraged to study how Japanese design aesthetic and philosophies might be applied to their own work. Note: A basic knowledge of design industry-standard print software is required for this course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Art Architecture, Tyler School.

**Repeatability:** This course may be repeated for additional credit.

## Health Information Management (HIM)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HIM 5101. Fundamentals of Health Informatics. 3 Credit Hours.**

This course provides an introduction to the history, reasoning, and development of systems focused on the generation, aggregation, and analysis of health data. Students will gain exposure to usability requirements - elements of design which impact selection - in addition to the issues impacting data liquidity in the healthcare system. The course will also consider the various types of health information systems that exist in organizations and serve as feeders to clinical repositories of information.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5102. Applications of Computer Programming in Health Informatics. 3 Credit Hours.**

It is critical to teach health professionals how to apply computer programming and health informatics for successful health data analysis and application development. This course will introduce the characteristics of health data and provide basic and advanced applications of computer programming, especially Python and R, specifically focused on healthcare data analytics and application developments. By the end of this semester, students will be able to perform health data manipulation using Python and R, building predictive models, discover trends, visualize and present the analytical results, and design machine learning approaches in healthcare big data in medicine, and solve associated data mining challenges on dealing with such complex heterogeneous data. This course is devised in two parts, 1) Introducing the corresponding programming functions and 2) Practical applications to real life health applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5106. Technology for Population Health. 3 Credit Hours.**

Individuals and organizations are increasingly dependent on technology for the creation of information relevant to health status. Technology is being utilized to monitor health or social behavior or provide interventions in the form of information, alerts, or the provision of information to advanced health practitioners. This course is intended to provide students an opportunity to assess existing and emerging technologies as they relate to the delivery of healthcare or the maintenance of health status.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5111. Technology for Healthcare Financial Management. 3 Credit Hours.**

This course examines the nexus of value based care, financial management, and healthcare payment. Students examine complex financial systems and explore the principles of payment as they apply to various types of health care settings. This course focuses on payment policy and reporting requirements, and the students become familiar with topics such as fraud and abuse, revenue cycle management, integration of clinical and financial systems, charge master data, and managerial implications of alternative payment models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5112. Health Information Systems: Design and Decision Making. 3 Credit Hours.**

This course provides an introduction to the effective management of health informatics systems. Students will gain an understanding of the technical foundations required for the successful management of health informatics systems and the impact of adopting initiatives relative to an organization's operational and strategic goals. Students gain an exposure to industry benchmarking and appropriately valuing technology in healthcare. Topics related to the use of IT as a strategic resource, forming strategic health IT plans, the importance of stakeholders in health IT programs, and emerging healthcare technologies are explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5113. Database Administration for Health Informatics Professionals. 3 Credit Hours.**

Modern life science organizations rely on databases for transaction management, data analysis, outcomes assessment, and to satisfy the internal needs of the organization as well as to satisfy regulatory, legal, and accrediting bodies. The goal of the course is to provide hands-on use of database management tools promoting a strong understanding of database design, data modeling and structured query language for data definition and data manipulation, and data analysis tools including pivot tables. In addition, the course will explore operational database systems versus analytic systems, the importance of database design on data integrity, data warehousing, and data mining at modern health science organizations. Data formats, collection, and integrity as they relate to continual performance improvement, with specific attention to practitioner performance, are also stressed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5114. Health Informatics Project Management. 3 Credit Hours.**

The development of interoperable electronic health record systems has resulted in increased systems integration, convergence, and complexity. Nearly half of all IT projects fail to meet budget, schedule, and functionality. The course provides a hands-on approach to systems analysis and management of health informatics (HI) projects. Students will be introduced to the concepts of managing HI projects by focusing on initiating, planning, executing, controlling, and closing projects in the context of topics such as integration, scope, timing, cost, quality, human resource, technology, communications, and risk and procurement. Students will also be provided an opportunity to analyze functional requirements for HI projects using a variety of process modeling approaches.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5127. Privacy and Security: Protecting Healthcare Data. 3 Credit Hours.**

This course focuses on privacy and confidentiality and current legislative and health policy issues for electronic health record systems (EHRs). Ethical issues related to EHRs and advocacy of patients' and consumers' needs are explored. The course provides students with an understanding of regulatory requirements related to the protection of health information and introduces technical approaches to ensure compliance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5128. Health Data: Standards and Interoperability. 3 Credit Hours.**

This course provides an introduction to the principles of healthcare interoperability and provides foundation in healthcare standardization related to: privacy, security, clinical vocabularies, data messaging, architectural framework, data content, and the meaningful use of electronic health record systems (EHRs). The course explores the role of healthcare standards in supporting interoperability, patient care, research, and the practice of evidence-based medicine. National and international standards development efforts are also discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIM 5129. Health Data Analysis. 3 Credit Hours.**

Healthcare delivery systems require capabilities to effectively generate, aggregate, and analyze data relevant to the optimal delivery of healthcare and maintenance of health. This course is intended to build on the competencies gained in previous courses surrounding the creation, structure and maintenance of clinical datasets, patient generated health data, and elements of the digital medical record. The course is designed to embrace team based approaches to solving complex issues in the healthcare delivery system. Students will use data visualization tools paired with quantitative data driven techniques which aid in addressing the challenges in the Triple Aim in healthcare. This course will enable the student to build a basic working knowledge of data analysis, dash boarding, and clinical intelligence platforms using appropriate methodologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (HIM 8013 or HIM 5113)

**HIM 5190. Special Topics. 3 Credit Hours.**

This course provides students the opportunity to explore new and emerging areas in the field of health informatics, to gain a deeper understanding of a specific area within the field. This course may also be used to present areas of study not normally taught in the program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIM 5212. Application Development in Public Health. 3 Credit Hours.**

This course provides an in-depth understanding of the design and decision making processes for health informatics systems. Students will gain an understanding of the technical foundations required for the successful management of health informatics systems and the impact of adopting initiatives relative to an organization's operational and strategic goals. Students gain an exposure to industry benchmarking and appropriately valuing technology in healthcare along with current software development life cycle methodologies. Topics related to the use of IT as a strategic resource, forming strategic health IT plans, the importance of stakeholders in health IT programs, collection and documenting user stories, developing design documents, and building solutions and emerging healthcare technologies are explored. Students will collaborate in teams to complete a pragmatic, real world project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5101 and HIM 5102.

**HIM 5213. Informatics Solution Design and Development for Health Data and Its Applications. 3 Credit Hours.**

This course provides an in-depth understanding of the processes and tools used in health informatics for designing and developing advanced health informatics data solutions. This course prepares students to design and develop health specific solutions and applications using current health data models including star schemas, the Observational Health Data Sciences and Informatics (OHDSI), and the Observational Medical Outcomes Partnership (OMOP) common data models (CDM), with clinical, administrative, and social determinants of health data. Relational databases, graph databases, GIS systems, and other NoSQL databases will be used for development from Health Informatics use cases. Students are expected to be able to create health specific informatics solutions and applications, such as those used for clinical data research networks and patient cohort discovery tools.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5101 and (HIM 5113 or CIS 5002)

**HIM 5256. Global Health Informatics. 3 Credit Hours.**

Health and diseases have no country boundaries. Increased international travel has increased the spread of infectious disease, as evidenced by the Ebola virus and COVID-19 pandemics. Health Information Technology, particularly with the spread of mobile phones, brings new paradigms in tracking and battling diseases globally. This course will explore how global health informatics (GHI) combat diseases and promote health, especially in low- and middle-income countries (LMICs). The topics cover key concepts, frameworks, examples, and lessons learned in designing and implementing digital health systems in the developing world. Students will learn informatics innovations in global health, focusing on technologies to improve developing countries' health outcomes. It targets students interested in designing or implementing a GHI solution in LMICs with a multidisciplinary team.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5101.

**HIM 5299. Introduction to Language Processing and Text Mining for Health Professionals. 3 Credit Hours.**

This course provides a basic understanding of natural language processing (NLP) concepts in healthcare using Python programming language. This course is designed for students with a health background who do not have a basic knowledge of the NLP concepts. There is a vast amount of free-text data getting generated every day, such as social media, online chat groups, research publications, and electronic health record data. This data possesses excellent potential to be used for research, quality improvement, and financial purposes. In this class, students will learn the basic and advanced NLP and text-mining methods to extract information from free-text data to generate new knowledge. Students will also learn basic machine learning principles to mine free-text data that does not require to develop complex NLP pipelines. By the end of this course, students will be able to create NLP programs using concepts such as data segmentation, tokenization, text annotations, NLP parsing, part of speech tagging, developing and testing Named Entity Recognition (NER) programs, pattern recognition, and regular expressions. Students will also learn the use of WEKA, an open-source machine learning tool to mine free-text data to extract information automatically using various machine learning models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5102.

**HIM 8016. Principles and Practices of Health Informatics Research. 3 Credit Hours.**

As the healthcare system moves toward increased reliance on automation, electronic health records, and information technology, it is imperative to design health informatics research methods to deliver quality, cost-effective and safe healthcare. This course will address the various research practices and innovative research approaches in health informatics and HIM. It will introduce the theories, systems, applications, and technologies for collecting, using and disseminating health data and information. It involves utilizing primary and secondary analysis for direct patient care, reimbursement, patient safety, legal issues, healthcare policy, quality improvement, and public health. Students will learn through discipline-specific examples, step-by-step research design, and explanations of analytical procedures. Upon completing the class, students will be able to conduct quality health informatics research in addressing various informatics-related questions and knowledge discovery from health data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5129.

**HIM 8112. Advanced Clinical Decision Support Systems. 3 Credit Hours.**

Clinical decision support systems (CDSS) are computer-based programs that analyze data within electronic health records (EHRs) to provide prompts and reminders to assist health care providers in implementing evidence-based clinical guidelines at the point of care. This course provides a state-of-the-science overview of computer-based CDSS. This course will teach the design principles behind CDSS, CDSS usability and cognitive support, implementation science, mathematical foundations of the knowledge-based systems and pattern recognition systems, clinical vocabularies, legal and ethical issues, patient centered CDSS, and applications of clinical decision support systems in clinical practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5102.

**HIM 8129. Advanced Health Data Analytics. 3 Credit Hours.**

Healthcare delivery systems require capabilities to effectively generate, aggregate, and analyze data relevant to the optimal delivery of healthcare and maintenance of health. This course is intended to enhance existing competencies for the creation, structure and maintenance of clinical datasets, patient generated health data, and elements of the digital medical record. The course is designed to embrace team science approaches to solving complex issues in the healthcare delivery system. Students will use data visualization tools paired with advanced quantitative data driven techniques which aid in addressing the challenges in the Triple Aim in healthcare. This course will enable the student to build a research based working knowledge of data analysis, dashboarding, and clinical intelligence platforms using appropriate methodologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5101 and HIM 5102.

**HIM 8216. Applications of Machine Learning for Health Informatics. 3 Credit Hours.**

The use of machine learning (ML) and artificial intelligence (AI) in healthcare is a must nowadays to enable successful solutions for better patient care. The future of health becomes data-driven. There is an urgent need for a new kind of workforce embracing human intelligence with machine learning skills to solve complex problems from health informatics. This course will integrate problem-based learning (PBL) and research-based teaching (RBT) approaches to apply ML methods and tools for complex real-world health problems. One example is creating intelligent clinical decision support systems for the early diagnosis of neurodegenerative diseases. Students will practice ML on electronic health records (EHR), medical claims, and social media data in healthcare. Upon completing the class, students will be able to identify suitable machine learning approaches and existing tools for a health problem based on the available data variables and records. Note: Students must complete HIM 5102 or equivalent computing experience (with instructor approval) before registering for HIM 8216.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HIM 5102.

**HIM 9082. Independent Study in Health Informatics. 1 to 3 Credit Hour.**

This course provides students the opportunity to work independently under the direction of a faculty advisor to gain a deeper understanding of an area in Health Informatics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIM 9995. Capstone Project. 3 Credit Hours.**

The capstone course is the culminating class for students in the Health Informatics program. Students will create strategies and approaches that focus on various disciplines of health informatics such as topics relating to the Electronic Health Record, Health Information Exchange, Meaningful Use, and Ethical/Legal issues. In addition, students will analyze systems and evaluate potential decisions from the persona of senior level healthcare executives.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Health Informatics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (HIM 8001 or HIM 5101), (HIM 8013 or HIM 5113), (HIM 8027 (may be taken concurrently) or HIM 5127 (may be taken concurrently)), (HIM 8028 (may be taken concurrently) or HIM 5128 (may be taken concurrently)), and HIM 5006.

**HIM 9996. Health Informatics Thesis. 1 to 3 Credit Hour.**

The MS health informatics thesis is the culminating event for the Thesis Track. The thesis should be an original piece of research. Often, but not always, the research described in the MS thesis can be published in a peer-reviewed journal. The student coordinates the time for the defense and presentation with their Graduate Advisory Committee, which is responsible for evaluating the thesis and its defense.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Health Informatics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in HIM 5101, HIM 5102, HIM 5113, HIM 5129, HIM 5128, HRPR 5001, HIM 8016, and (HIM 5106, HIM 5111, HIM 5112, HIM 5114, HIM 5127, HIM 5212, HIM 5213, HIM 5299, HIM 8112, or HIM 8216)

**HIM 9998. Dissertation Proposal Research for Health Informatics. 1 Credit Hour.**

After passing the preliminary examinations, students may enroll in HIM 9998. Students must be enrolled for 1 credit of HIM 9998 each term until they file their dissertation proposal with the Graduate School. To fulfill the requirements of HIM 9998, students must submit a dissertation proposal, successfully defend it orally before their Committee, apply for IRB approval for the proposed research, and submit the proposal to the Graduate School. Once the proposal is defended, the student is elevated to candidacy and eligible to register for dissertation credits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in HIM 9994.

# Health Policy and Management (HPM)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

## **HPM 5005. International Health Studies Abroad. 6 Credit Hours.**

Students learn to articulate a historical and cultural understanding of the Costa Rican approach to health and medical care, to identify the major health concerns of the Costa Rican population in rural and urban settings and the major strides taken to improve health, to conduct limited fieldwork with rural communities in teams of 3 to 4 persons or conduct community health field research among the graduate students, and to write a professional paper and presentation on one of the health issues in Costa Rica based on their experience there. While previous Spanish language proficiency is not required, some Spanish language ability is essential for students to gain the maximum understanding during the program. Therefore, students during the first two weeks of the program take intensive Spanish language training in Costa Rica at the Institute for Central American Development Studies (ICADS). The third week involves travel to other regions within Costa Rica to examine different health conditions depending on the year's topics. During the fourth and fifth weeks, students live and work in rural communities and help to facilitate health education workshops on different activities such as: diabetes, nutrition, HIV/AIDS prevention education, women's health, child health care issues, first aid education, fitness and exercise, and backyard gardening.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## **HPM 5006. Political and Economic Aspects of Health. 3 Credit Hours.**

The course provides an introduction to the structure and delivery of healthcare in the United States, as well as an introduction to health policymaking. In addition to required reading materials, students will be asked to examine current health policies at the local, state, and/or national level.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## **HPM 5007. Principles of Emergency Management. 3 Credit Hours.**

This course is designed to introduce students to the concepts and models of public health preparedness and response for all hazards emergency management. It will enable health care and allied health professionals, public health professionals, and emergency responders to work together to plan and respond effectively to both natural and man made disasters. The course will introduce students to the identified core competencies of emergency health preparedness for public health professionals, which include functional roles, communication, resource identification, problem-solving, and evaluation. The issues of mental health and special populations will be introduced in an emergency management context. Students will utilize problem-based learning by analyzing actual disaster events and applying the theories, principles, and practice of preparedness, response, mitigation, and recovery.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## **HPM 5014. Leadership and Management in Non-Profit Organizations. 3 Credit Hours.**

This course covers leadership and management in public health practice. The course will review leadership styles, moving through the "leadership pipeline" to help students understand the basic underpinnings of leadership. Within that context, the course will explore the essentials of applying strong leadership practices in public health organizations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## **HPM 5016. Public Health Advocacy. 3 Credit Hours.**

The purpose of this course is to prepare future public health practitioners with substantive knowledge on how policy is crafted and how to effectively integrate public health science in the policy process, and to provide practical skills on engaging policymakers and public constituencies to support public health initiatives. It will combine policy/advocacy strategy, real-life case studies, lectures by policymakers, and strategic analysis of recent legislative developments in health care. Reading assignments provide background knowledge for class lectures and discussion.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5107. Forced Migration and Refugee Health. 3 Credit Hours.**

This course uses case studies and research literature to examine the multifaceted causes of complex emergencies and their subsequent impacts on the health of the population, including populations that stay in place, that are internally displaced (IPD), and population movement that crosses international borders (refugees). The policies and practices of the humanitarian response among both governments and non-governmental organizations (NGOs) and their impact on population health will be explored. A framework for three issues that effect population health in complex emergencies will be provided and their consequences and possible interventions iterated. These issues are mental health, gender based violence, and nutrition. Assessment, program implementation, and evaluation will be looked at in the context of the particular barriers and issues found in complex emergency situations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5111. Community Outreach in Public Health. 3 Credit Hours.**

This course is designed to introduce students to the concepts and models of strategic community outreach as it pertains to the special population communities, within the context of emergency management planning, response, and recovery. It will assist health care and allied health professionals, public health professionals, and emergency responders to understand how accessible information and technology is part of the community outreach strategy. Students will utilize problem-based learning by analyzing actual and scenario-based disaster events and applying the theories, principles, and practices of strategic community outreach pertaining to emergency response and recovery. In addition, students will learn about the issues faced by special population communities and how to address these special needs in all hazard response and recovery.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5122. Healthcare Quality and Safety. 3 Credit Hours.**

Quality management and quality improvement is the process undertaken by public health professionals, clinical providers, and other management professionals to identify underlying systemic issues in healthcare delivery impacting patient outcomes. Quality improvement and quality management utilizes data to establish performance standards within the healthcare delivery system. The iterative process of quality improvement includes the identification of pertinent issues, the development or sourcing of measurement tools, the ability to monitor adherence to widely accepted industry norms, and the ability to successfully manage change within an organization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5131. Health Policy Analysis. 3 Credit Hours.**

Health policy has a profound impact on population health outcomes. But how do we determine which policies are most likely to have a positive impact on health? Health policy analysis plays a central role in evaluating the impacts of policy on population health. This course introduces students to policy analysis and its role within the policymaking process. Students will learn about various types of policy analysis and methods for conducting policy analysis, with a focus on health policy. Students will conduct literature reviews, draft a problem statement, identify policy solutions, write policy briefs, and conduct a formal health policy analysis. This course is appropriate for students with specific professional interests in conducting health policy analysis, as well as students with more general interests in policy, health, and their relationship.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HPM 5006.

**HPM 5132. Comparative Health Systems: Local, National, and Global Perspectives. 3 Credit Hours.**

Healthcare and public health systems around the world take various forms and they perform differently in the task of maintaining individual and population health - and in responding to emerging health issues. This course brings together perspectives from traditional health system analysis and global health research to examine development, organization, and performance of health systems in high-, middle-, and low-income countries. The course will also explore the relationship between national health systems and international global health organizations, such as the World Health Organization, the World Bank, and financing mechanisms like the Global Fund to Fight AIDS, Tuberculosis, and Malaria. Students will develop the ability to produce comprehensive assessments of health systems and assess health system performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5190. Special Topics. 3 Credit Hours.**

This course provides students the opportunity to explore new and emerging areas in the field of health policy and management, to gain a deeper understanding of a specific area within the field. This course may also be used to present areas of study not normally taught in the program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 5202. Man-Made Disasters: Radiological, Chemical and Biological Terrorism. 3 Credit Hours.**

This course is designed to introduce students to the concepts and models of public health preparedness, mitigation, and evaluation in the context of man-made disasters, including radiological, chemical and biological incidents. The course addresses identified core competencies of emergency preparedness for public health professionals that include disaster management, risk assessment, risk communication, governmental resources, functional roles, surveillance, and preparedness evaluation. Man-made disasters are looked at in a historical, environmental, and psychological context in order to elucidate the role of public health in man-made disaster preparedness and evaluation. In addition, the role of cultural competency and the needs of special populations are addressed. Public perception of risk and media views of man-made disasters are explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5208. History of U.S. Public Health. 3 Credit Hours.**

To advance public health in the United States, it is important to understand the history of public health and how public health evolves. This course surveys the history of public health in the U.S. over the past 300 years and issues relevant to the 21st century. Each class session will focus on a history of public health theme, including shifting patterns of disease and illness; the emergence of public health as a profession; and the development of the U.S. public health systems. The class will focus on the dual nature of public health, encompassing both the biological basis of medicine and the economic, political, and cultural characteristics of societies in which public health operates. We will highlight how the beliefs and priorities in U.S. society have influenced both response to public health challenges and the activities by public health professionals to address these challenges. This includes scientific standards; religious or moral beliefs; and the political, cultural, economic, and sociodemographic gender context of society. Understanding historical interrelationships among context, issues, and decisions can help public health professionals better recognize and address today's challenges.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 5500. Seminar in Current Issues in Public Health. 3 Credit Hours.**

Seminar topics rotate to address current issues in public health research, policy and practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health, Social Work.

**Repeatability:** This course may be repeated for additional credit.

**HPM 8002. Research Seminar in Public Health. 3 Credit Hours.**

This is a research seminar on linkages between theory and research in social and behavioral health studies. It is required for Ph.D. students prior to taking the preliminary examinations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 8005. Theor Hlth Policy Making. 3 Credit Hours.**

The purpose of this course is to introduce students to the primary theoretical frameworks for the development of policy, from agenda setting through decision-making and implementation. In addition to reviewing the theoretical foundations of policymaking, the course will apply the theories to current health policy issues.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 8008. Health Economics. 3 Credit Hours.**

This class will promote the understanding of core health economics theory, using research literature and case studies to examine how economic theory has shaped the development and understanding of the healthcare systems and policies in the U.S. A background in economic theory will help students to understand and interpret research based on those theories. Health Economics is intended to promote an understanding of how these theories fit into the formation and changes in our healthcare structure. It will also offer an economic perspective on health behavior, such as how discounting relates to risk behavior and how risk preference relates to insurance purchase.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 8013. Research Methods in Health Policy. 3 Credit Hours.**

The purpose of this course is to introduce and engage students in research methods used in health policy research, including both the development of policies and the evaluation of existing policies. The course will cover both qualitative methods such as policy analysis, interviewing, focus groups and content analysis, as well as quantitative methods such as legal mapping studies, secondary data analysis, and some economic evaluations. The course will explain and engage these methodologies, but students are not expected to carry out statistical analysis. Lastly, the course will require students to think about the results generated in such research and effective ways in which to communicate such findings to the appropriate audience. The course is intended for students who will be working on policy research or social science research that may include a policy component. Learning objectives will be met through didactic lecture, a formal policy analysis paper, individual homework assignments, and a final exam.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 8014. Comparative Health Policy. 3 Credit Hours.**

Approaches to public health policy are informed and influenced by evidence and experience from across the nation and around the globe. Students will be challenged to think about the social, cultural, political and economic challenges of engaging public health policy to advance population health in an international context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (HPM 5006 or PBHL 5006)

**HPM 8015. Public Health Policy and Legal Issues. 3 Credit Hours.**

This course will introduce public health students to the basic legal principles underlying public health policy and the mechanisms to achieve policy change. The law is a powerful tool to support public health, but government must act within the confines of the Constitution and balance competing rights of individuals and the broader community. The course will explore these relationships in historical and present contexts and examine the differences among federal, state, and local governments' authority to enact public health policy. Students will be able to identify the legal issues that arise when government attempts to regulate risky behavior by individuals or the conduct of companies that produce and market products that create such risks (e.g., tobacco, firearms, and alcohol). The course will evaluate why the law is not uniform depending on the product government seeks to regulate (e.g., food vs. vaccines) and how litigation can effectively change this legal landscape. Any student interested in policy should be familiar with basic legal rules and current debates in regulation and control; this class will provide such insight and equip students to work in any type of policy or advocacy setting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (HPM 5006, PBHL 5006, HPM 8003, or PBHL 8003)

**HPM 8112. Public Health Program Evaluation. 3 Credit Hours.**

The course concerns research methods and techniques used to evaluate public health programs. Students develop an evaluation design, including defined evaluation questions, study design, specific measures and methods, and human subjects protocols.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 9083. Readings and Conference in Public Health. 1 to 3 Credit Hour.**

This is an advanced tutorial in public health with an appropriate faculty member. Note: Registration requires a written contract with the supervising faculty member and approval of the student's advisor and of the Director of Graduate Programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 9189. MPH Capstone Seminar. 3 Credit Hours.**

This seminar is required of M.P.H. students during final year of study. The seminar includes integration of coursework and practice skills to develop a fieldwork project or internship in a public health agency.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 9289. MPH Fieldwork I. 3 Credit Hours.**

The MPH is a professional degree designed to prepare you to work in the field of public health or health services. As such the program culminates in an integrative experience that facilitates the application of skills and competencies acquired through the MPH Program through fieldwork. This course entails a fieldwork project or internship in a public health agency or other health services organization. It includes seminars, oral and written reports of progress, and joint supervision by a preceptor and faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in EPBI 5002, EPBI 5005, EPBI 5101, HPM 5006, SBS 5001, and (SBS 5002 or SBS 5102)

**HPM 9389. MPH Fieldwork II. 3 Credit Hours.**

This course is an evaluation of the fieldwork project or internship using a full range of research methodologies. Data are collected, analyzed, and reported in a comprehensive final report. Oral and/or poster presentations are presented to public health organizations. The course includes a final oral defense of the project or internship.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HPM 9991. Public Health Research Project. 1 to 3 Credit Hour.**

Under the direction of an appropriate graduate faculty member, students tie together their coursework in a project that poses a problem, gathers data to help analyze the problem, and provides a solution. Note: Enrollment must be approved by the student's advisor and the Director of Graduate Programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 9994. Preliminary Examinations. 1 Credit Hour.**

This course supports preparation for taking the preliminary examinations in the Health Policy and Social and Behavioral Sciences Ph.D. programs. To enroll, students must have completed all required coursework for the Ph.D. and obtain the approval of the Ph.D. Program Director. Students must be enrolled to take the required preliminary examinations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 9995. Public Health Law Research Project. 3 Credit Hours.**

The purpose of the Public Health Law Research Project is to provide a mentored research experience for students who have completed the foundational work in Public Health Law and have demonstrated the analytic abilities in Multivariable Statistics. Students are encouraged to develop their own empirical legal dataset or use an existing legal dataset to conduct an empirical analysis of a current or emerging public health policy. The course involves close research mentorship during the development and implementation of the research project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Pre-requisites:** Minimum grade of B- in JUDO 9189 and EPBI 8012.

**HPM 9996. Masters Res in Pub Hlth. 3 Credit Hours.**

This course is limited to students who have chosen to fulfill the master's degree by writing a thesis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HPM 9998. Dissertation Proposal Research. 1 Credit Hour.**

This course supports preparation of the dissertation proposal. The course is required for students who have passed the preliminary examinations for their PhD program and who have not yet defended the dissertation proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in HPM 9994.

**HPM 9999. Dissertation Research. 1 to 6 Credit Hour.**

This course is limited to Ph.D. candidates who have completed and defended a dissertation proposal that is filed with the Graduate School by the last day to add a course in the semester. Continuous registration in 9999 fall and spring is required until the dissertation is successfully defended.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Health Related Professions (HRPR)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HRPR 5001. Current and Emerging Issues in Public Health and Health Professions. 0 Credit Hours.**

This course is designed to provide students with an introduction to the five core areas of public health -- biostatistics, epidemiology, environmental health, health services administration, and social behavioral sciences -- and to demonstrate the intersection of public health with various health, health care, and human service professions. The discipline of public health is multifaceted, and these facets impact individuals and communities in different ways. Students will be expected to think critically about issues such as disease prevention, health promotion, the determinants of health, health information privacy, access to health services, and environmental issues, and to consider how those issues drive human behavior and community (local, national, and international) development. Successful graduation from the College of Public Health is contingent upon completion of 12 web-based modules from the approved compendium for this course. There are six core modules that all students must complete: Advancing Health People 2020, Social Determinants of Health, Access to Health Services, Health Information Technology, Public Health Infrastructure in the United States, and Environmental Health. The remaining six modules may be either embedded by program faculty or self-selected and self-paced by the individual student. Faculty can mandate certain modules within course content.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 5002. Emergency Medical Technician (EMT). 6 Credit Hours.**

The Emergency Medical Technician curriculum follows the National Registry of Emergency Technician standards in a traditional course setting. In a traditional setting, material is taught in a dynamic classroom environment where hands-on skills are heavily integrated. Students will utilize an assigned textbook and associated interactive supplements to complete readings, assignments, presentations, and non-psychomotor skill labs. Students will complete field clinical hours with affiliated prehospital and hospital facilities. Throughout the course, and through application of skills in the clinical setting, students will become proficient in Basic Life Support (BLS) care and initial exploration of Advanced Life Support (ALS).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 5005. Introduction to Mindfulness. 3 Credit Hours.**

This 3-credit course will review the history of mindfulness and then move to modern approaches and applications of mindfulness. A personalized mindfulness practice will be explored for relevance to a student's life and pursuit of clinical excellence in their chosen field. The course will focus on the neuro-biological influence of stress, the gut-brain axis, and the epigenetic nature of the human experience. It will explore issues such as conflict, approach versus withdrawing behaviors, and response to clinical scenarios with a clinical instructor (i.e. giving and accepting feedback). Students will deepen their understanding of concepts such as compassion fatigue, burnout, cognitive empathy, vulnerability, resilience, and chronic sorrow. The course serves as a springboard for future learning and deeper exploration into specific areas of mindfulness application, at a personal or population level.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 5200. Clin Pharm. 1.5 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRPR 5999. Research Experience in Health Professions. 0 Credit Hours.**

The Research Experience provides graduate students hands-on experiences in a research setting prior to undertaking independent, director, master's project, master's thesis, or dissertation research. This course allows graduate students the opportunity to learn best practices and principles of health research, including designing and carrying out a study, collecting preliminary data, field experiences, participation in research group meetings, assisting with analyses, drafting manuscripts, etc. with faculty which may lead to identifying a faculty mentor. The course will be graded as Pass or Fail. The Research Experience is a non-repeatable course. After the completion of this Research Experience, students will need to be enrolled in an independent study, directed research, master's research, master's thesis, dissertation proposal, or dissertation if they continue in an active research program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8001. Introduction to Health Outcomes Measurement Science. 3 Credit Hours.**

This course provides an introduction to health outcomes conceptual frameworks and assessment methods. Students will gain exposure to health outcome frameworks from public health, medical, and economic perspectives. This course will provide an overview of health outcome assessment tools. It will consider factors that influence the validity and meaningfulness of outcome assessments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8002. Qualitative Methods in Health Outcomes Measurement. 3 Credit Hours.**

This course focuses on the application of selected qualitative approaches used in the conceptualization and development of health outcome measures, in particular patient reported health outcome measures. This course draws from a variety of disciplines providing a foundation for the philosophical and theoretical bases of qualitative research paradigms.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8003. Quantitative Methods in Health Outcomes Measurement Science. 3 Credit Hours.**

This course will cover the classical and modern test theories and their applications to solve measurement problems in practice. This course will educate students on measurement concepts including test standardization, validity, reliability, operational definitions, scaling, and latent variables in behavioral and health sciences. Issues surrounding validity and reliability of measures will be discussed in detail. Students will be given an opportunity to critically evaluate existing measures and to propose how a new measure can be developed and evaluated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8004. Application of Health Outcomes Measurement Science. 3 Credit Hours.**

This course focuses on the integration of measurement science and health outcomes with a focus on application of mixed methods to develop a health outcome measure in a project of value to the student. The course will also provide a deeper consideration of technology and electronic and mobile health application platforms for operationalization of their outcomes project. Standards and guidelines for development and qualification of measures as clinical trial endpoints through the FDA process will provide a structure for the projects. Each student will present their proposal which will be framed either as a project, FDA clinical outcomes assessment qualification package or grant proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HRPR 8001 and (HRPR 8002 or HRPR 8003)

**HRPR 8101. Bioethics and Ethical Decision-Making. 3 Credit Hours.**

This seminar course is designed to facilitate interdisciplinary dialogue and approaches for ethical decision-making. Students from many health disciplines can engage in bioethical discourse. Students can increase their understanding of ethics within the context of research and health care, identify and consider moral and professional values and preferences when collecting information and making decisions, and recognize the importance of collaboration when making bioethical decisions. The student reflects on personal decision-making through an exploration of the results of the Myers-Briggs Type Indicator (MBTI).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8102. Cultural Competence in Health Studies. 3 Credit Hours.**

This course emphasizes culture as a defining characteristic of our diverse society and examines a multitude of its implications for culturally sensitive and competent health-care service, policy-making, and system transformation in a transdisciplinary and transcultural context. The course begins with contextualizing key concepts such as cultures, health disparities, cultural competence, cultural sensitivity, multicultural health, cross-cultural concepts of health and illness, and complementary/alternative medicine and spirituality. Communication, education/training, programming, and ethical issues central to promoting cultural competence in the healthcare system are then addressed. In addition, the course gives insights into specific cultural groups, including Hispanic, African, Asian, Native, and Caucasian American populations, as well as aging populations and individuals with unique sexual orientation. Key challenges and opportunities concerning cultural issues facing the current health fields are also examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8103. Health Across the Lifespan. 3 Credit Hours.**

This course will provide an interdisciplinary lifespan-oriented overview of the health construct spanning from prenatal influences through to extreme longevity, with an emphasis on its inter-relationships with biological, behavioral, and social ecological influences. Particular emphasis is given to methodological, theoretical, and substantive issues needed for synthesis of an interdisciplinary mastery of development and health. By the end of the course, students gain a thorough knowledge of how to measure health of individuals, communities, and populations; an understanding of both the correlates and sequelae of health and development across the lifespan; and an ability to assess the implications of health disparities across the lifespan.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8104. Systems Theory and Change Theory. 3 Credit Hours.**

The purpose of this course is to provide the theoretical foundation for all subsequent courses and formal scientific inquiry. Students in this course will use systems theory, change theory, and other integrative theories and models to explore complex health and life-quality related issues with ecological theory providing the planning framework. Students will focus on synthesis and integration of key health-related factors at the micro and macro levels that affect health for diverse individuals, families, communities, cultures, environments, societies and health systems using a lifespan and life cycle approach. They will apply principles guiding interdisciplinary approaches to complex health issues in a holistic manner.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8203. Systematic Rev Hlth Ecol. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8985. Teaching in Higher Education: Health Professions. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRPR 8987. Teaching in Higher Education Practicum. 3 Credit Hours.**

The purpose of the Teaching in Higher Education Practicum is to provide a mentored teaching experience for students who are currently teaching as the instructor (not just a grader). Building on the content discussed in the prerequisite course, the focus of this course is to apply the skills and reflect on teaching practices in real time. Through paired critiques and group discussions, students will work together to share teaching experiences and problem solve. Students are encouraged to develop strategies and approaches to teaching that can be tailored to their circumstances.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HRPR 8985.

## Healthcare Management (HCM)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HCM 5101. Health Systems Organization and Development. 1.5 to 3 Credit Hour.**

This course describes and analyzes the "physiology and fluid mechanics" of national, regional and local delivery systems, exposing students to the flow of funds and the resulting patterns of use, expenditure and health outcomes in these systems. Basic epidemiological concepts and their application to population-based health management are introduced. Current regional data, live case presentations and guest lecturers will be used where appropriate to translate abstract concepts into vivid concrete realities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5102. Healthcare Organizational Leadership and Strategy. 3 Credit Hours.**

This course covers organizational and management theory, and the application of these principles to health services organizations. Emphasis is placed on current trends in health care organizational structure that will affect performance, quality and inter-organizational relations in the future, and the values and principles of health management as a profession. Responsibility of health systems for the health of populations as well as the provision of high quality clinical services is emphasized. The course utilizes information from the textbook and current management publications; guest lecturers; case analyses, both published and live, that provide important insight into the workings of health services organizations; and personal experiences of the instructors and class participants.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in HCM 5101.

**HCM 5103. Financial Management of Healthcare Organizations. 3 Credit Hours.**

Current practices in financial management of health care operations, including the development of operational and capital budgets, business plans, and methods for measuring financial performance, and assessing the impact of alternative contractual arrangements with third party payers. The live cases studies will deal with the issues related to practice acquisition, and the financial insolvency of health plans and delivery systems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (HCM 5101 or (HCM 5601 and HCM 5602)) and (ACCT 5301, ACCT 5401, ACCT 5001, or ACCT 5003)

**HCM 5104. Healthcare Law and Information Technology. 3 Credit Hours.**

This course deals with a shifting agenda of issues faced by health care managers such as those related to acquisition of capital, ensuring regulatory compliance, emerging health markets (e.g. assisted living, focused factories, etc) and health related information technology and e-commerce. The course includes live case studies and group projects related to these topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5105. Healthcare Info Systems. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5106. Advanced Hlth Econ & Fin. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (HCM 5101 or (HCM 5601 and HCM 5602))

**HCM 5170. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5180. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5182. Independent Study. 1 to 6 Credit Hour.**

Directed study of health services management projects under supervision of an appropriate graduate faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5185. Sum Admin Res Sem. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5190. Special Topics-HCM. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5601. The Organizational Structure of the US Health System. 1.5 Credit Hour.**

This course provides a systematic overview of the United States Healthcare Services System focusing on its historical, current, organizational, human resources, and educational dimensions. Contemporary issues confronting the system's organization and operation are addressed. The purpose of this course is to provide graduate students with a common basis of information about the characteristics, components, and structure of the U. S. Healthcare System, in order to acquaint students with the various institutional mechanisms through which healthcare services are delivered in the U.S. Special emphasis will be placed on the acquisition of a functional knowledge of key technical terms commonly used in health care delivery. At the conclusion of the course, all will have a common ground and knowledge base from which to progress. Thus, this course also provides the student with an awareness of factual information, data and statistics, technology and terms and concepts unique to health care delivery systems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5602. Market Forces, Regulation and Policy in the US Health System. 1.5 Credit Hour.**

Health Policy and Regulatory Analysis began in the 1930's as an area of rigorous systematic evaluation in the United States. It struggled to find ways to finance and organize health services rationally, assuring that the basic health needs of a population were met. Its practitioners had a strong bias towards capitated financing and regionalized delivery networks. These efforts, however, largely remained academic exercises, attacked by the hospital and medical mainstream. Federal legislation that might have incorporated some form of universal coverage was stymied. In its place a fragmented, voluntary, patchwork system of healthcare financing and delivery evolved. How do you make the system accountable to their purchasers, enrollees and to the public as a whole? How much can you really rely on market forces (as exemplified by the total reliance on private insurance as the vehicle for implementation) where health risks and the ability to pay for their consequences are so unevenly distributed? How do you re-tool the infrastructure to improve health and reduce costs in a community fragmented by provider competition? All of the traditional boundaries are blurring between public health and private health care, between drug and alcohol treatment, mental health and acute care services and even the schools and criminal justice system. Never before has answering such questions been as central to defining our national identity and in determining our long-term social and economic future!

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5603. Population Health Management. 1.5 Credit Hour.**

Two of the most important trends facing healthcare providers include increasing responsibility for population health and quality improvement. The Affordable Care Act of 2010 and market forces are compelling healthcare organizations to adopt innovative organizational forms such as accountable care organizations and patient centered medical homes that rely on the use of epidemiological data for purposes of program planning and assessment. Both internal and external health data are used for purposes of managerial decision making. Welcome to the era of "big data." This course will be devoted to the application of managerial epidemiology to the strategic management and quality improvement processes that will assure effective performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5604. Analytic Foundations of Health and Healthcare. 1.5 Credit Hour.**

This course will address how people purchase health care and the implications of people's purchasing behavior for pricing health care goods and services. We will begin with a discussion of health as something a person invests in, that depreciates over time, and that requires an individual to make decisions now based on future expectations. We will then move into a discussion of some concrete principles for determining the value of a good or service in the health care market. We will include basic concepts of comparative effectiveness analysis (comparing two services regardless of cost) and cost benefit analysis (determining how much people are willing to pay for a service and comparing it to the cost of provision). We will then go through some specific applications of these principles to actual health care services. Finally, we will address how health insurance affects the decision-making process. The course will incorporate health care practitioners to move students through case analyses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5605. Healthcare Market Structure and Strategy. 1.5 Credit Hour.**

This course will look at the market structure of the health care industry from a strategic perspective. The health care industry has several unusual characteristics: there are a large number of nonprofit firms, much of the financing comes from government sources, and service quality is difficult to measure (as it also is in markets such as law, auto repair, etc.). We will first examine how nonprofits and for-profits can be expected to behave differently when making decisions. We will then look at how providers and insurers interact with each other, focusing on what strategic tools health care providers and insurers have at their disposal. Next we will look at a key element of integrated healthcare delivery: the bundling of multiple services into single products or product lines. Finally, we will examine the role of principal-agent problems (where a principal hires an agent, but cannot fully observe the agent's actions) in the context of the physician-patient relationship and the provider-insurer relationship. The course will incorporate health care practitioners to move students through case analyses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5606. Financial Analysis and Managerial Accounting for Healthcare Organizations. 1.5 Credit Hour.**

This course focuses on the application of financial analysis and managerial accounting for healthcare organizations. The reading, discussion, lectures, cases, problem sets and presentations (from industry representatives and fellow students) are the main learning tools. Key topics include reimbursement, utilization, quality and healthcare costs. The primary organization type focused on in the text is the hospital, but other types of organizations with different business models, such as pharmaceutical firms, physician group practices, managed care organizations, and insurers, will be considered. Particular attention will be given to the differences between for-profit and non-profit organization types in health. We will also discuss the perspective of payers (governments, employers, individuals).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5607. Corporate Finance and Strategy in Healthcare. 1.5 Credit Hour.**

This course focuses on the application of strategy and financial analysis for strategic and tactical decisions in the health care sector. The course will primarily be case based, but we will also include select readings and problem sets, lectures and presentations (from industry representatives and fellow students) to facilitate learning. The course assumes working knowledge of corporate finance (e.g. NPV/IRR, Modeling Cash Flows in Excel), general managerial accounting (Working Capital, Fixed/Variable Costs, Budgeting) and ability to interpret and use financial statement (Income Statements, Cash Flow Statement, Balance Sheet). A background or prior course on the structure of the US healthcare system is also helpful. In order to ensure that students understand and can apply important financing methods for various health organization types, select cases may include: NPV for a Long-Term Care Expansion of a Non-Profit Academic Health Center; Risk analysis for pharmaceutical development; Cost accounting in Hospitals; Working Capital simulation for a OTC pharmaceutical start-up; M&A and Valuation of health service organizations; International markets and currency risk in pharmaceuticals; Premium development for health insurers. By applying these finance and strategy tools in a health setting, we hope to make students more aware of unique aspects of the health sector and improve their ability to contribute to applied decision-making for organizations that produce and deliver healthcare.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5621. Healthcare Analytics. 1.5 Credit Hour.**

The ability to analyze data and interpret the results of statistical analyses is an important skill for all students who plan to enter the health care industry. This course will examine several statistical models that are useful for the analysis of health care data. We will apply these statistical models to problems within health care organizations (such as estimating the effect of a new process change) and within the larger context of health care markets (such as predicting demand for a new hospital program). Although students will be expected to understand the basic statistical foundations of these applications, the focus will be on using statistical tools to find patterns in real-world data. Students will learn how to perform these analyses using Microsoft Excel. Specific topics covered will include program evaluation, least squares and logistic regression, determining causality, and choice models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5622. International Health Systems. 1.5 Credit Hour.**

In most OECD countries, healthcare is an important component of the economy - typically responsible for 10% of GDP or more. Healthcare markets in emerging countries and middle income markets are also growing rapidly and are increasingly important sources of revenue for multinational healthcare firms. This course examines the comparative structure of health care systems/markets in different countries, focusing on insurance mechanisms, financing and delivery systems for healthcare. Prototypical approaches to healthcare in developed countries include National Health Systems (UK, Canada), Social Insurance Systems (Germany, Japan) and Market-focused systems (US, Singapore). We will also discuss systems in middle income and emerging markets (China, India). Important themes include the relative roles of private sector and public sector, the effect of system design on cost, quality, efficiency and equity of medical services, rationing of resources and evaluation of these countries as markets. We will examine how many of the policy/market issues in the US also are relevant for other countries and vice versa.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5623. Healthcare Risk Management and Patient Safety. 1.5 Credit Hour.**

Healthcare organizations (HCOs) like all other types of firms are exposed to the uncertainties of facing losses due to substantial risk exposures. The uncertainty of facing losses may prevent the firm from maximizing stakeholder value as well as render it less competitive in the healthcare market. Exposure to future uncertain losses may arise from a variety of uncertainties; the ability to identify and manage these risk so as to maximize the HCOs long range growth, profitability and maximization of stake holder value is the primary goal of healthcare risk management. In the healthcare setting, risk management is essentially inseparable from healthcare law, patient safety and quality. Thus, the course includes modules in healthcare law, patient safety and quality. In addition, we will explore both patient safety and quality as outcomes of the risk management process. This course focuses on the enterprise approach to the risk management process as it pertains to HCOs. The primary focus will be on identification of exposures, applying the risk management paradigm to manage those exposures to loss with an emphasis primarily on loss control methods. General risk financing techniques will also be explored. The relationships and synergies among risk management, quality improvement and patient safety will also be explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5624. Pharmaceutical Trends, Issues and Policies. 1.5 Credit Hour.**

This course utilizes in-class discussions, guest lecturers, case studies, current published academic research, industry publications, and business policy writing to understand the trends and complex issues facing the pharmaceutical industry. Students will explore business strategies and public health policies that companies and governmental institutions respectively can take to find solutions to critical pharmaceutical issues while mitigating policy implementation risk. Analyses of these trends, issues, and strategic policies will cover the entire life-cycle of a drug, from pre-discovery through to post-patent expiration. Complementary developments that affect the pharmaceutical industry and patient health in areas such as medical devices, imaging and diagnostic equipment, and smart phone technology will be discussed. The ultimate objective is to assist students in developing and applying strategic thinking competencies through study and practice in formulating business and health policy positions on various issues critical in addressing unmet patient medical needs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5625. Strategic Context of the Pharmaceutical Industry. 1.5 Credit Hour.**

This course examines specific topics in-depth critical to the future of the pharmaceutical industry. This course utilizes in-class discussions, guest lecturers, current published academic research, and industry publications to explore the future of this vital industry. While the proportion of national health expenditures spent on pharmaceuticals is significantly less relative than money spent on hospitals and physicians respectively, it is a very critical component for society in achieving its overall health policy goals. Focus will be on factors necessary for growth in R&D productivity, new commercial models necessary to capitalize more efficiently and effectively new drugs, and the formation of an overall regulatory environment necessary for continued drug innovation. An exploration of trends happening in healthcare as well as those occurring externally such as those in the consumer packaged goods industry and technological developments (medical devices, imaging and diagnostic equipment, and smart phones) will be undertaken to determine their effects on the future of the pharmaceutical industry and patient health. This course will be devoted to the application of an interdisciplinary and holistic systems approach to understanding the forces shaping the future of the pharmaceutical industry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5651. Healthcare Leadership and Strategy. 1.5 Credit Hour.**

The course utilizes in-class discussion, guest lecturers, case studies, current healthcare management literature and the monitoring of environmental trends all in the context of management and organizational theory to understand issues facing healthcare organizations and managerial actions and strategies that help those organizations to maintain high levels of performance. Emphasis is placed on the application of organization theory and behavior to the analysis and interpretation of factors that will affect performance, quality and inter-organizational relations in the future, and the values and principles of health management as a profession. The ultimate objective is to assist students in developing and applying managerial and leadership competencies through study and practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HCM 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 9090. Spec Topic Hlthcar Mgt. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HCM 9183. Directed Study-Hlth Adm. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Higher Education (HIED)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HIED 5101. Introduction to Higher Education. 3 Credit Hours.**

The purpose of this introductory seminar is to provide a foundation in the theory, research and practice of higher and post-secondary education. This course examines the history and philosophy as well as contemporary issues related to the development, missions, and functions of American colleges and universities. The course introduces graduate students to the interdisciplinary field of higher education which bridges theory, practice, policy and empirical scholarship. Course content aims to enhance and develop students' abilities to critically understand higher education as a site of opportunity and challenge and how these institutions continue to adapt to social, political, economic and demographic forces.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5102. Administration of Higher Education. 3 Credit Hours.**

This course is designed to help students develop their own practices as principled and effective higher education leaders. Successful administrators have to understand the complexity of the organizations in which they work as well as the political, economic, and social ecosystems in which those organizations are situated. This course helps students understand how to situate particular higher education administrative challenges (retention and student success, equity, learning and assessment, etc.) within the complex organizational and governance structures of higher education institutions. The course also explores theories of organizational culture, learning and change through which administrators can effectively make sense of and address the most pressing challenges in higher education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5103. Access and Equity in Higher Education. 3 Credit Hours.**

This course covers theory and best practices to help professionals better prepare students underrepresented in higher education for what it takes academically and personally to enroll in and transition through college and onto careers. Focal areas will include: pre-college programs created and designed to assist these underrepresented students and connecting student access and success programs as partners with institutions of higher learning. This course will also provide strategic planning models to assist course participants in analyzing how access and success programs can be an integral part of an institution. Students gain more knowledge of access and equity concerns and the resources necessary to help students successfully navigate postsecondary opportunities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5104. College Students and Development Theory. 3 Credit Hours.**

This course covers theories, perspectives and research that inform contemporary college students' development and experiences. The study of American college students reflects the history and development of social and cultural issues that have marked the society's general development. The perspectives and experiences of contemporary students in colleges and universities inform institutional policy as well as directives for the larger society. This is an introductory course focused on students in higher education as an area of professional practice and research. Course content examines theory and college as theoretical context, student development and identity formation within and beyond higher education institutions and links theory with professional practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5201. Diversity Issues in Higher Education. 3 Credit Hours.**

While colleges and universities have historically struggled to attract and retain students from diverse populations, growing political, economic and ethical demands of the day have forced many to revisit their institutional commitment to diversity and inclusion. This course is designed to provide students the opportunity to critically examine the impact of diversity on all postsecondary stakeholders including students, staff, faculty members, administrators, policy makers, local community members and employers. Using various theoretical models, this course will also help students develop a shared language around diversity, assess institutional missions and responses to diversity and inclusion, and finally, to develop a knowledge base to support strategies for inclusive advising and student support practices in higher education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5202. The Costs of College. 3 Credit Hours.**

This course provides aspiring leaders, administrators and academics with an overview of economics and finance in higher education. The premise of this course is that in today's increasingly demanding higher education environment, with challenges such as budget cuts, rising institutional costs, tuition pressures, affordability, access and success, the most effective higher education leader must possess at least a basic understanding of postsecondary economics and finance. This course is designed to instill that knowledge, as well as to provide students with an opportunity to critically analyze the literature, issues, and recent trends, for purposes of both practical application and ongoing research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5203. Getting into College: Strategic Enrollment Management. 3 Credit Hours.**

This course focuses on topical issues in enrollment management in higher education and is intended to serve as an introductory seminar. As such, it aims to provide a forum for thoughtful and meaningful discussion of readings and materials related to strategic activities in enrollment management. The course supports the notion that practice of admissions is not a singular independent activity, but in fact, is an integral part and linked to what we know about the development, mission, and current student profile issues that influence institutional practice. Therefore, the course uses current readings and research (e.g., journal articles, books, higher educational newspapers, reports, and internet resources) to examine issues at the core knowledge base of enrollment management theory and practice in higher education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5204. Diversity Facilitation and Leadership. 3 Credit Hours.**

This course introduces students to the practice of leading diverse groups in a variety of settings through Dialogue facilitation. Leading diverse groups requires, first, the group leader's self-awareness about his/her own positionality and attitudes regarding diversity; the students' ability to review their personal and professional masks, and develop an understanding of the ways our fears influence our attitudes toward authority and power and thus our ability to experience and participate in a diverse and inclusive environment. Secondly, students will learn the capacity to develop trust, shared motivations, and cooperation among diverse group members. This course deepens students' understanding of how to work with diverse groups in educational settings. The development of real cooperation in a group involves understanding the socio-psychological bases of personal and intergroup relations so as to recognize the deep obstacles to change in order to overcome them. In this course, students will begin to work with various frameworks of facilitating social justice practices, such as Transformational Social Therapy (TST), which helps people overcome the personal, social and professional issues that create mistrust among and within groups and impedes real cooperation. TST concepts to be explored include social pathology, social crises, and moving from violence to constructive conflict. Students will also be introduced to the relevant literature on intergroup relations through the Michigan Model of intergroup dialog, the emotional life in groups and the practice of leading diverse groups. Additionally, students will experience other DEI strategies that will help to build their toolkit for facilitation and creating a more socially just educational environment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in HIED 5201.

**HIED 5301. Planning and Assessment in Higher Education. 3 Credit Hours.**

This course provides an overview of the accreditation, planning and assessment processes in higher education. It is a graduate-level seminar designed to introduce students to theory, uses, and outcomes of planning in higher education. Strategic planning is a long-standing practice in the business world, but planning--as a proactive and integrated activity--is an expanding practice in American colleges and universities. The course explores accreditation processes particularly how institutional self-assessment and adherence to standards for student learning outcomes assure higher education's internal and external publics that accredited institutions are fulfilling their stated purposes and addressing public and policy expectations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5401. Student Affairs in Higher Education. 3 Credit Hours.**

This course is a survey to student affairs as an area of professional practice in higher education. Course content examines the organization and administration of student affairs in postsecondary institutions in the United States and also encourages the application of research and theory to student affairs practice. Specifically, theories, research, and methods are introduced to encourage reflective application to professional practice. Learning objectives and outcomes for the course will be achieved by exploring the following topics: administrative environment of student affairs; organizational and management issues related to student affairs; essential skills and competencies for student affairs administrators and leaders; diversity/equity issues in student affairs; assessment; professional development; and future challenges and opportunities for professional practice in the field.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5502. Digital Education Leadership. 3 Credit Hours.**

This course develops prospective online higher education leaders' vision, skills, and knowledge necessary to responsibly facilitate and sustain online education programming within post-secondary institutions. The premise of this course is that in today's increasingly digitized and online higher education environment - one that has given rise to new forms of faculty development, academic support systems, interdepartmental relationships, and federal/state policies - the successful higher education leader must nurture a vision that will advance both the institution's mission and diverse learners' individual goals. This course is designed to provide students with an opportunity to critically analyze the literature, emergent trends, and various professional standards for purposes of both practical application and ongoing evaluative research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5801. Gender Issues in Education. 3 Credit Hours.**

This graduate-level seminar serves as a survey of gender issues across the education pipeline. Course content is based on studies of primary, secondary and college settings with implications for administration and leadership. This course examines gender issues including identity development and constructions within diverse education spaces. Placing gender at the center of discussion about education, this course connects research to practice and policy. The perspectives and experiences of contemporary students as well as educators inform this "practice and policy" of gender. Although gender is at the heart of this course, considerable emphasis is also placed on the intersection of race, class and sexual orientation in education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5802. Leadership in Higher Education. 3 Credit Hours.**

While many higher education classes on leadership focus on the functional roles and hierarchical structures of leaders within postsecondary educational institutions, this class centers on the development and expression of individual leadership qualities. Current theories of leadership will be explored as well as the interpersonal skills necessary to be an effective leader within higher educational institutions. Topics will include: The self-reflective leader, career planning assessments, leadership theories and practices, communication skills for leaders and reflections and recommendations from current exemplary leaders in colleges.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5803. Law and Policy in Higher Education. 3 Credit Hours.**

This course is designed to provide an intensive theoretical and pragmatic inquiry into the ways that higher education administrative practice is regulated. The course examines regulation not just in terms of the legal institution (i.e., case law and the courts) but also as the array of social and political structures that impact the delivery and management of postsecondary education. In addition to major legal events and controversies impacting higher education, students will become familiar with key federal regulation, state and federal policy, and internal institutional regimes of authority, as well as "soft" regulatory mechanisms of markets and social norms. The course helps students understand the nature of law, policy, and regulation as social structures impacting practice in higher education, and provides a critical overview of current key areas of law, policy, and regulation influencing practice in higher education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 5804. The Community College. 3 Credit Hours.**

This course provides a critical analysis of the characteristics, scope, public policy issues, and impact of community and two-year colleges in the United States. Institutional types presented in this course include traditional community colleges, two-year colleges, junior colleges, proprietary schools, and branch campuses. The course introduces students to historical landmarks in the development of community colleges; describe and analyze the impact and implications of the current characteristics, status, and student demographics of community colleges including their role in increasing national college graduation rates. Community colleges' position and role in the higher education landscape are investigated with attention to their external organizational systems and financial structure including state systems, university systems, corporate structures, and other affiliations. A wide range of curricula issues are examined, including transfer articulation agreement, liberal arts, vocational/technical/career, continuing and digital education, and developmental/remedial programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8093. Advanced Higher Education Research Seminar. 3 Credit Hours.**

The Ed.D. in higher education is a rigorous program that is built around aligned and integrated content related to the study of higher education and practice. Students in the program develop proficiency in research methods and data analysis through course work. This advanced research seminar is designed to provide students with structured preparation for writing a literature review and other competencies evaluated in the comprehensive examination. During the seminar, the development of a literature review and preparation for the doctoral comprehensive examination will be combined. Doctoral students will be enrolled in this seminar as they complete all required coursework for the program or it should be taken immediately following completion of coursework. The seminar serves as intensive groundwork for the comprehensive exam and all students will take the exam at the end of the advanced research seminar course. Given this intentional link to preparation for the comprehensive examination, the seminar will focus on developing students' ability to: Situate and define a chosen topic within the concepts and history of the field; Compare, contrast, and justify various research methods appropriate to investigate a practice-based research problem in higher education; and Critically synthesize the extant scholarly and practice-focused literature that informs topic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8101. Advanced Seminar on Higher Education Administration. 3 Credit Hours.**

HIED 8101 is an advanced seminar focused on higher education administration as an area of professional practice and research. Course content examines the organization and administration of higher educational institutions and links the application of research and theory to practice. Learning objectives and outcomes for the course will be achieved by exploring the following topics: higher education as a social good; administrative environment of higher education; organizational factors related to how universities and colleges function; assessment competencies for administrators and leaders; diversity/equity and cultural issues; and future challenges and opportunities for professional practice and research in higher education. During the course, students will explore a variety of roles higher education administrators play on university/college campuses and seek to develop an understanding of how institutional cultures (and professionals' roles within those cultures) facilitate institutional effectiveness. Specifically, this course is designed to critically engage students' thinking about higher education institutions through discussing contemporary issues, problems, trends, administrative practices, leadership and post-secondary opportunities. An initial brief review of current and lingering challenges of higher education in the United States will help ground the course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8102. Higher Education Economics and Finance. 3 Credit Hours.**

This course provides doctoral students with a comprehensive overview of economics and finance issues in higher education. The premise of this course is that in today's increasingly demanding higher education environment, with challenges such as budget cuts, rising institutional costs, tuition pressures, affordability, access, and so on, the successful higher education leader must possess at least a basic understanding of postsecondary education economics and finance. This course is designed to instill that knowledge, as well as to provide students with an opportunity to critically analyze the literature, issues, and recent trends, for purposes of both practical application and ongoing research. This course addresses theoretical and practical aspects of higher education administration. The theoretical components are based primarily on the readings. The practical aspects derive from the professor's experiences as a university administrator, from the experiences of members of the class and from reading about current events and cases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8103. Equity in Higher Education Policy and Practice. 3 Credit Hours.**

This doctoral course on equity in higher education covers theory and best practices related to under-represented groups in higher education. This course will engage critical issues informed by research, policy and practice relating to access and equity in higher education. Special attention will be given to the ways in which race, gender, class, and the intersection of these social identities influence equity considerations in higher education. The course will specifically examine what it takes structurally and institutionally to enroll and transition traditionally marginalized students to post-secondary education. Focal areas will include: pre-college programs and policy created and designed to assist these students and connecting access and equity programs as partners with institutions of higher learning. Course participants will gain more knowledge about research on equity issues and the practices necessary to help students successfully navigate postsecondary opportunities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8104. Seminar on Theory in Higher Education and Leadership. 3 Credit Hours.**

This seminar is designed to provide doctoral students a general understanding of (1) what theory is and how it guides scholarly research and effective administrative practice in higher education, and (2) major theoretical perspectives, frameworks, and paradigms that inform higher education research and practice. The course is not meant as an exhaustive survey of all theory relevant to higher education. Rather, the course is intended as an intensive seminar to help students develop the skill of identifying, understanding, and applying theory related to applied research and practice. The following broad questions guide the course: What are the differences between theories, paradigms, conceptual models and frameworks, and epistemologies in higher education? Why is theory important to higher education research and to practice? What are the differences between "micro" and "macro" or "meta" theory? When is each appropriate or helpful in research and practice in higher education? How do we employ theory in research and how does the role of theory differ between qualitative and quantitative methodologies? Where and how does theory appear in a dissertation proposal?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8262. Advanced Practice-Based Qualitative Research in Higher Education. 3 Credit Hours.**

This doctoral course is intended to provide a forum for advancing qualitative research strategies in the practice of higher education. The course extends the study of foundational philosophies, standpoints and uses of qualitative inquiry. Designed to help doctoral students in higher education develop a critical understanding of the various considerations and stages of qualitative research, this course includes the development of researchable questions, understanding theoretical and conceptual frameworks, and using methodological strategies such as data collection and analysis. Course readings, assignments, discussions, and learning activities will expose students to qualitative studies in the higher education literature. In doing so, the course aims to prepare students for qualitative approaches that may be part of their dissertation research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIED 8287. Research Practicum. 3 Credit Hours.**

This course is designed to provide graduate students with faculty-directed research experience. The purpose of this research practicum is to provide a bridge between students' doctoral coursework and methodological training and their independent dissertation research. Students will work with their faculty advisor and the sponsoring faculty member to identify research projects that are relevant to their interests while also developing skills and practices that will be applicable in other research contexts. Please note that this course is not intended to be a substitution for HIED 8093 Advanced Higher Education Research Seminar. Students seeking to engage in research on a focused topic would take HIED 8287 as an elective prior to or concurrent with enrollment in HIED 8093. For the research practicum: 1. Students may work with a faculty member on an ongoing study or as part of the faculty member's research team. 2. Students may be given primary responsibility for a discrete portion of a faculty member's ongoing research project. 3. Students may develop a full research proposal or do independent research on an approved topic under the direction of a faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in HIED 8101, HIED 8102, HIED 8103, and HIED 8104.

**HIED 9995. Master's Capstone in Higher Education. 3 Credit Hours.**

In this course, students completing a master's degree in higher education will work with an advisor to construct a capstone project. Drawing on the program's core ideas students will complete a summative project in which they apply these ideas to a real-world problem in the field. The final product for the course will include a written document summarizing this work.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## History (HIST)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HIST 5010. Special Topics in History. 1 to 3 Credit Hour.**

Variable content course. Consult department for details.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5151. Nonprofit Management for Historians. 3 Credit Hours.**

This course provides an introduction to the non-profit based management, leadership and administration issues and practices for historical and cultural heritage organizations. The goal of this course is to provide students who will be entering the public history field with the background knowledge and tools to be effective managers and leaders in their institutions. Students are introduced to the complexity of issues in historical management and administration as reflexive practitioners and engage a wide variety of case studies, issues analysis, and real-life examples from local historical institutions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 5152. Digital History. 3 Credit Hours.**

The definition of digital history is amorphous, broad, and often debated. Digital history projects may refer to everything from an online exhibition to a podcast to mapping and geographic information systems. This class will explore digital history in terms of the questions of narrative, shared authority, access, and historical analysis that arise when using digital tools for working with history. We will discuss the major issues involved in digital history initiatives and gain familiarity with various technologies often used in such projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 5187. Public History Practicum. 3 Credit Hours.**

The public history practicum allows students to intern in historical organizations while learning from one another in periodic classroom meetings. Internships balance student interests with the needs of partnering institutions. Each student must complete 140 hours of work under the supervision of an experienced public history professional in addition to writing assignments devised and evaluated by a faculty internship supervisor. Students must contact the director of the Center for Public History about their intent to enroll by no later than the midpoint of the semester preceding the practicum.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 5280. Special Topics: American. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5400. Special Topics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5480. Special Topics: European. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5540. Special Topics in Latin American History. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5670. Special Topics in African History. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5680. Special Topics in Asian History. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 5800. Comparative Women's History. 3 Credit Hours.**

Exploration of two to three selected topics in women's history in comparative, global perspective. Topics may include: 1) gender, race, and state; 2) women, religion, and social change; 3) women in industrializing societies; 4) domestic contestations; 5) histories and theories. See current semester description.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may be repeated for additional credit.

**HIST 5880. Special Topics in World or Comparative History. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8001. Environments, Cities, and Cultures. 3 Credit Hours.**

This course introduces graduate students to one of the two specialties in the History Department, which comprises environmental, urban, and cultural history. It is highly recommended for first-year PhD students who will take the preliminary exam in this specialty in their third semester. In it, students will read several books that will be later tested in the preliminary exam, in addition to learning about some of the more consequential and innovative works in the historical profession. The readings will be global and comparative in nature, and thus relevant to students specializing in US and non-US history alike.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8002. War, Empire, and Society. 3 Credit Hours.**

This course introduces graduate students to one of the two specialties in the History Department, which comprises military, imperial, and social history. It is highly recommended for first-year PhD students who will take the preliminary exam in this specialty in their third semester. In it, students will read several books that will be later tested in the preliminary exam, in addition to learning about some of the more consequential and innovative works in the historical profession. The readings will be global and comparative in nature, and thus relevant to students specializing in US and non-US history alike.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8101. Introduction to American History I (to 1865). 3 Credit Hours.**

This is the first segment of the Introduction to American History readings seminar required of all M.A. and Ph.D. students in U.S. History. Doctoral students are required to take both courses in this sequence. M.A. students must take one of the two segments. This segment covers the colonial era through the Civil War.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8102. Cultural History. 3 Credit Hours.**

Investigates ways that historians and other scholars have interpreted modern popular culture, 1800 to the present. American media, sports, entertainment, fashion, art, as well as American myths, ideas, and popular thought are some of the topics that will be explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8103. Studies in American Diplomatic History. 3 Credit Hours.**

Readings in and discussion of the principal schools of interpretation and conceptual frameworks in the history of U.S. foreign relations as a means to introduce students to the subfield. A complement to Studies in the Cold War (HIST 8209), the chronological parameters extend from the Revolutionary era through the conclusion of World War II. In addition to completing weekly reading and writing assignments, and as a final assignment a comparative review essay, students will participate actively in class conversations about history and historians.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8104. Studies in African American History. 3 Credit Hours.**

The emphasis is on the period since the Civil War. Possible topics include Reconstruction and rise of segregation; urbanization of the black population; history of black women in U.S.; Civil Rights revolution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8105. History of Education. 3 Credit Hours.**

This course focuses primarily on the way that educationally institutions, broadly construed, have shaped American culture and society. Special attention is paid to recent historiographic debates concerning education and its social effects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8106. Modern American Social History. 3 Credit Hours.**

The theme of the course in recent years is Race, Ethnicity, and Poverty in the U.S., 1870-1940. The main subject is the impact of industrialization and urbanization on the working class, the poor, and minority groups during the period when the U.S. emerged as an industrial power. Attention is also given to the response to poverty, both by private charities and the state.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8107. Religion in Modern United States. 3 Credit Hours.**

This course explores the history of religion in the United States between 1877 and the present. In the past decade a cadre of creative scholars has focused their attention on American religious history. They have transformed the field: it is far more capacious, lively, and sophisticated than it was ten years ago. This course provides students with an introduction to the field. It also offers them a chance to focus their attention on a set of questions related to historians' determination to take religion seriously. What does it mean to do take religion seriously? What is the opposite of taking religion seriously supposed to be? In what ways, if any, has the determination to take religion seriously hampered the development of the field?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8111. Introduction to American History II (since 1865). 3 Credit Hours.**

This is the second segment of the Introduction to American History readings seminar required of all M.A. and Ph.D. students in U.S. History. Doctoral students are required to take both courses in this sequence. M.A. students must take one of the two segments. This segment covers the Civil War to the present.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: History.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Liberal Arts.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8151. Studies in American Material Culture. 3 Credit Hours.**

Introduction to literature from several fields that use artifacts to understand culture. Exploration of various theoretical approaches. Topics include architecture, folk art, photography, decorative arts, landscape design, historic preservation, and the use of interior space.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8152. Managing History. 3 Credit Hours.**

This course explores the practical considerations and theoretical issues concerning the management/ownership of the interpretation, preservation, and presentation of history for public consumption. Emphasis is placed on public management policies and methods of private ownership of critical historical issues, including, but not limited to, museum exhibits, historical preservation policies and practices, governance of historical societies and museums, publication practices, historical documentaries (aural and visual), and other elements related to the dissemination of historical interpretations, common historical knowledge, and public memory. This course asks: Who manages American history and American memory? Who Owns History? Who is empowered to tell the story and how did they gain that power? What role does the historian play in the formulation and preservation of public memory?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8153. Archives and Manuscripts. 3 Credit Hours.**

An introduction to the theoretical and applied aspects of historical records management. Taught in cooperation with local archives and historical societies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8201. History of Philadelphia. 3 Credit Hours.**

Students who enroll in this class will be given an opportunity to analyze the cultural, economic, political, and social history of Philadelphia. Special attention will be paid to immigration, ethnicity, and race.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8202. American Colonial History. 3 Credit Hours.**

A survey of how American society developed before the Revolution: the evolution of American politics and political institutions; the changing imperial system; internal and external conflicts; how the economies and lifestyles of the various colonial regions developed; the role of women; free and forced migration; the foundations of modern American life in the experience, thought, and values of colonists before 1775.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8203. Age of the American Revolution. 3 Credit Hours.**

This is a readings course on the causes, nature, and consequences of the American Revolution. The Revolution has a long, venerable -- and contentious -- historiography; the course examines classic and recent debates, probes different research and narrative strategies, and seeks to understand the possibilities and limits of: (1) understanding the late eighteenth century in light of the Revolution; (2) old and new international and comparative approaches; (3) the tendency to understand colonial and subsequent US history in light of the Revolution; (4) recent trends to highlight and integrate previously neglected topics, including slavery, African Americans, Native Americans; and (5) resurgent interest in "founders" and the Constitution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8204. Early United States Social History. 3 Credit Hours.**

Introduction to American social history from 1800 until the Civil War. Recent research on the structure of American society, the American family, immigration, the worker, urban developments, and the reform movements of the Jacksonian era.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8205. Civil War and Reconstruction. 3 Credit Hours.**

This course focuses on the ordinary citizen rather than the rich and powerful. Much attention will be paid to issues of race, class, and gender.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8206. Studies in Recent American Urban History. 3 Credit Hours.**

This course is broadly interdisciplinary, concerned with major developments in America's large cities from the mid-nineteenth century to the present. Basic issues include: the changing spatial structure of the city, social and geographical mobility, the nature of ethnicity and the Black experience, the development of crime and rioting, the structure of local politics, and the movements for urban reform.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8207. Recent United States History. 3 Credit Hours.**

Presents a new approach to the history of the United States since World War II, focusing on social and economic change. Topics include: urbanization and suburbanization, rise of post-industrial economy, racial problems, shift of population and political power to the Sunbelt, and the impact of new technologies. Relates the political history of the era to these fundamental socio-economic changes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8208. Studies in United States Urban Crime. 3 Credit Hours.**

Examines the significant scholarship and issues involved in understanding the history of crime in American cities, with special emphasis upon the period since the Civil War. The course deals mostly with the organized underworld, including drugs, gambling, bootlegging, prostitution, professional theft, and other on-going criminal activities. By linking the underworld to the city structure, sports history, entertainment, and reform, the course will examine the interrelationship of American urban and social history with the changing underworld.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8209. United States Foreign Policy in the Cold War. 3 Credit Hours.**

Few if any "moments" within America's historical experience have generated the intensely competitive and emotionally-charged debates as has the "moment" called the "Cold War." The purpose of this course is to identify the questions that have bedeviled historians of the Cold War, and by reading competing interpretations, evaluate the strategies by which they have been addressed. Sample topics: U.S.-Russian (Soviet) relations, the nuclear arms competition and arms control, regional rivalries, summitry, alliance politics, cultural instruments of influence, crisis management, intelligence agencies, and critical personalities. Students will read widely, write frequently, and speak extensively.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8211. Rise of the American Military Profession. 3 Credit Hours.**

The overriding purpose of this course is to provide students with a theoretical framework for analyzing the evolution of modern military institutions and the people who lead them. Students will examine the development of the military profession in the United States from the War of Independence through the 1990s. Students will examine contemporary concepts of military professionalism by studying the careers of American officers in their historical context. This course will also address the major European influences that revolutionized standards of officer procurement, training, education, and advancement in the United States and around the world.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8212. North American Environmental History. 3 Credit Hours.**

This seminar examines the interactions between human societies and the natural world in North America from the sixteenth century to the present. That relationship is complex: the environment both reflects people's influences and affects human history. Through reading and discussion, participants in this seminar will examine this reciprocal relationship. Topics to be discussed include Native American management of the environment; the effects of the European ecological invasion; resource exploitation in the industrial era; and the evolution of twentieth-century environmentalism.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8213. History of the North American West. 3 Credit Hours.**

This seminar examines the history of the North American West from the mid-eighteenth to the mid-twentieth century. The course emphasizes the reciprocity of social and environmental history; cultural interactions in the multi-ethnic West; and the iconography and ideology of the "frontier."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8214. Slavery and U.S. History. 3 Credit Hours.**

This course provides an introduction to the scholarship on slavery as it has evolved within the U.S. field and at its borders in Atlantic and "New World" history. It pays particular attention to the development of key concepts and how different ways of understanding the place of slavery in colonial and American history reflected - and affected - changing interpretations of other aspects of the American past. This inquiry logically culminates in recent work that not only changes how we define the "institution" of slavery - or even whether it makes sense to call it an institution - but which also expands the range of subjects to which slavery can be said to be integrally related.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8301. Introduction to European History. 3 Credit Hours.**

Overview of the field, its shape, main lines of research, and central concerns. Through selected readings, discussion, and guest speakers, participants gain understanding of current practice including political, social, and cultural history, the treatment of Europe in global studies and in contemporary metahistory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8302. Atlantic World 15th-18th Centuries. 3 Credit Hours.**

Examines main aspects of social and economic change in which the Old World and the New interacted in the 17th and 18th centuries: colonization; commercial agriculture and trade; servitude, free labor, and slavery; migration; changing lifestyles and expectations; the development of family and community; religion, reform, and revolts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8303. Studies in Russian History. 3 Credit Hours.**

This course explores milestones in Russian/Soviet history and society during the 20th century. Basic knowledge of European and Russian history is assumed. Students will do intensive reading on the Russian Revolution Stalinism and the Second World War, and on peaceful devolution of communism. The main purpose of this class is to familiarize students with the fundamental issues of this history, provide exposure to diverse interpretations, and promote discussion of research strategies and (to an extent possible) their source base. Special assignments will be encouraged, i.e., individual research that will help enrich class discussions. Writing assignments and oral presentations are the main requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8304. Soviet Cold War- DeStalination. 3 Credit Hours.**

This course is a sequel to the graduate course on Stalinism (History 8121). It studies two groups of literature: one on Soviet Cold War behavior and the collapse of the Soviet empire, and another on the post-Stalin history of the Soviet Union. The course emphasizes internal social-economic, cultural and intellectual developments inside the USSR as a crucial essential (and previously underestimated) factor in Soviet transformation and the peaceful end of the Cold War. This course aims at students who are interested in foreign relations, but also contemporary international history, globalization and social change.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** HIST 8121.

**HIST 8307. 20th Century Europe. 3 Credit Hours.**

Discusses major events in 20th century Europe such as the origins of the First World War, the Bolshevik Revolution, the rise of fascism in Italy and Germany, World War II, and the subsequent collapse of European political dominance. Investigates the Cold War, the demise of communism in Eastern Europe, and the gradual economic and political establishment of the European Union. In addition to a standard historiographic study of these topics, the course includes developments in the "new cultural history" and the history of "representations" and "memory."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8308. Imperialism. 3 Credit Hours.**

To Lenin, imperialism was "the highest stage of capitalism," to Rudyard Kipling, "the white man's burden" and to Joseph Schumpeter, "the object-less disposition of a state to expansion by force without assigned limits." In this course, we both attempt to define imperialism and to understand the various ways in which historians and other scholars have approached the study of imperialism. Focusing primarily on the modern European empires, we examine imperialism from the perspective of economic, environmental, military, diplomatic and cultural history. We discuss Edward Said's extremely influential theory of orientalism and examine how contributions from historians of gender, scholars associated with the subaltern studies movement, and post-modern/post-colonial studies have influenced the field.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8400. Topics in 20th Century Germany. 3 Credit Hours.**

Readings and discussions on selected topics in modern European history.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8402. Jewish History. 3 Credit Hours.**

Students who enroll in this class are given an opportunity to analyze the cultural, economic, political, religious, and social history of the Jewish people. Special attention is paid to gender and secular ways of being Jewish.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8403. History of European Military Policy. 3 Credit Hours.**

Introduces the literature and problems of Europe's military history since 1789. Examines both the practical and theoretical contributions of the battlefield, the cabinet room, and the individual military leader as theorist. Social and economic factors are also considered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8501. Introduction to the Third World. 3 Credit Hours.**

An introduction to the historical issues and literature concerning broad thematic areas of Third World life such as imperialism, economic development, global economic organization, peasant life, urbanization, migration, nationalism, cultural and social change, the role of the state, and international relations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8502. Vietnam War Studies. 3 Credit Hours.**

This reading seminar explores the significant English- and French-language historical literature on the "Vietnam wars," considered in the large sense of the political and military struggles from 1945 to 1991 for control of the Indochina peninsula.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8505. Studies in Latin American History. 3 Credit Hours.**

Examines Latin America in the age of the Cuban Revolution and beyond, covering the array of new historical literature that continues to emerge concerning the Revolution itself, the rise and fall of insurgencies and national security states in many parts of Latin America, and the more recent period of incomplete establishment of democracy and accountability.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8506. Studies in Spanish and Portuguese America. 3 Credit Hours.**

From an empire-wide perspective, this course will analyze this encounter and its consequences and place both in historiographic context. The syllabus will proceed chronologically starting with the history of Spain and Portugal prior to the Conquest and continuing with the Conquest and reorganization of the American space. Rather than provide a detailed description of the historical episodes, however, the course will center around key processes affecting Iberian America, such as the rise of new societies and the transformation of indigenous cultures, the types of rule established by the Spanish and Portuguese, the economic relationship between the metropole and the new American kingdoms, slavery, race relations, the centralizing project of the eighteenth century, and the revolutions of the 1800s.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8610. Studies in Chinese History. 3 Credit Hours.**

Surveys key issues and themes in modern Chinese history. Topics include: the ideology and politics of the China field; long-term patterns of change; peasant rebellions; imperialism; the nature of elite reform; the origins of the revolution; the Nationalists; militarism and state-building; rural revolution and communist success; the Maoist road to socialism.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8701. Introduction to World History. 3 Credit Hours.**

A review of the concept of World History and its historiography; an introduction to materials now available to the study of World History; and an introduction to key themes and conceptual frameworks in the study of World History.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8705. New Themes in the History of Slavery. 3 Credit Hours.**

Comparative social history of Atlantic-world slavery and Red Sea-Indian Ocean-Persian Gulf world-slavery. Slavery in other domains, such as the Mediterranean and Black Sea regions, will also be discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8707. History of Sexuality. 3 Credit Hours.**

Studies recent work on sexuality and its relation to gender, race, class, and power. The course's emphasis is on modern U.S. and Europe because that is where the most theoretically interesting recent work has been done, but the course will also look at the ancient world and pre-modern Europe, and consider cross-cultural.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8713. The Historian and Society. 3 Credit Hours.**

Open to students in Temple's Public History Program and to matriculated graduate students in good standing, this course provides graduate credit for Public History Internships in selected Philadelphia-area historical societies, museums, and cultural institutions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8714. Historical Methods. 3 Credit Hours.**

This seminar is an introduction to the practice of professional history and to historical methodologies. One of the main purposes of the seminar is to familiarize its participants with the methodological and historiographical evolution of professional history. How has the approach of historians to their craft changed in the last century? What assumptions informed the decisions they have been made about how to study the past? In short, we study methodology because it is a way of approaching the questions that are central to historical scholarship: How do we know what has happened? How do we decide what matters? How do we best study the past? Whose version of history is authoritative?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8800. Topics in History I. 3 Credit Hours.**

Introduction to a variety of historical and normally comparative topics and themes in, such as environmental or psychological history.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8801. Cross-Cultural Encounters. 3 Credit Hours.**

Readings and discussion of selected issues in the history of the interaction of various cultures and societies. Special attention is paid to issues of power.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8807. Comparative History - Modern War. 3 Credit Hours.**

Beginning with the emergence of armies and navies that can be considered "modern" because of the professional educational qualification of their officers, this course examines the historical literature dealing with warfare and armed forces around the world from the 17th century to the present.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HIST 8810. Topics in History II. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 8820. Topics in History III. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9208. Research Seminar. 3 Credit Hours.**

This research seminar explores a range of subjects not restricted to any geographic area or time period. Students prepare an oral presentation and research paper on a specific subject of his/her choosing but approved by the instructor. The research utilizes some secondary but principally primary sources.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9683. Readings in History. 3 Credit Hours.**

Students who enroll in this course are given an opportunity to pursue an independent study of a topic of particular interest to them. Their work will be supervised by a member of the graduate faculty of the history department.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9996. Master's Thesis. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

Registration required each semester after Preliminary Examinations while researching the dissertation proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HIST 9999. Dissertation Research. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Horticulture (HORT)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HORT 8261. Native Woody Plant Identification. 3 Credit Hours.**

This course focuses on the study of native trees, shrubs, and vines that are the foundation of natural and designed landscapes. Emphasis is on identification, culture, association, and appropriate use of plant communities. Students learn to identify a variety of native plants and their uses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**HORT 8514. Landscape Restoration. 3 Credit Hours.**

Students develop an ecologically based understanding of how to establish, restore, and manage meadows, forests, and wetland systems. The course emphasizes natural processes and how to integrate the built landscape with natural systems. Students also explore plant communities and wildlife habitats of Southeastern Pennsylvania. By the end of the course, students know the components of a restoration plan and have developed a plan for a real site.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in HORT 8261.

## Human Resource Management (HRM)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HRM 5001. Leading Organizations. 3 Credit Hours.**

How does effective leadership materially contribute to the achievement of strategic organizational objectives? This class explores individual and group behavior and the means through which leaders can influence that behavior. Students will be exposed to research on drivers of employee performance and commitment - both direct (e.g., employee attitudes, motivation) and indirect (e.g., organizational culture, climate, leadership) - and learn about their practical application in the workplace. Emphasis will be placed on improving self-awareness to facilitate the positive workplace experiences of employees.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5051. Developing Human Resource Management Strategies. 3 Credit Hours.**

What is a human resource management strategy and how does effective strategy affect an organization's long-term performance? Given the direct impact of HRM on cost, quality, and productivity, the success of any organization -- traditional or virtual -- depends on the effectiveness of its managers' strategic human resource decisions. This course examines contemporary best practices through the lens of business strategy. It utilizes readings, case studies, and group projects to help students to improve the quality of their strategic HR decision making. Throughout the course, students will review how organizations strategically consider such HR issues as work system design, talent acquisition and management, compensation, and change management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5054. Leadership Development. 3 Credit Hours.**

This course is designed to be a study of human behavior in organizations and the means through which managers can influence that behavior. Specifically, the class will consider key situations where the effective exercise of leadership can materially contribute to the achievement of strategic organizational objectives. The leadership process will be considered within a business environment increasingly characterized by global competition, economic turmoil, rapid technological change and shifting labor market dynamics. Emphasis will be placed on identifying and developing the personal skills and perspectives necessary to establish and maintain a leadership position (e.g., self-awareness and abilities in such areas as communication, decision-making, problem solving and behavioral management).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5111. Influential Organizational Communication. 3 Credit Hours.**

Do you want to build your personal communication capabilities? How about learning to leverage strategic conversations for impactful leadership in your organization? Students in this course apply theoretical knowledge and empirical research for practical purposes using case analysis and class discussion. Varied assignments will enhance student perspective and skills in employee/relationship management, writing and editing, oral presentation, coaching and performance feedback, crisis communication, persuasion and influence, and managing emotional expression.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5112. Leading High Performing Teams. 3 Credit Hours.**

Organizations need effective teams to accomplish important objectives, especially as business becomes more complex and change more dynamic due to factors including globalization and technology. Through readings, written assignments, group discussions, and projects, students will examine strategies to develop and sustain productivity in individuals and work groups such as group formation, goal setting, delegation, group dynamics, and diversity and inclusion.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5113. Power, Influence, and Negotiation. 3 Credit Hours.**

Throughout this course, students examine how power, influence, and negotiation support effective leadership. Students will explore ethical and practical strategies for handling organizational disputes and conflicts; identify sources of power in complex interpersonal situations; examine influence strategies; employ appropriate negotiation tactics; and develop a problem-solving style that is value-based and authentic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5114. Building Human Capital. 3 Credit Hours.**

This course highlights employee training and development as a mechanism to enhance organizational effectiveness and innovation. Using reflections, projects, readings, and group discussion, this course examines ways to transform a company's most valuable asset - the skills and talents of its people. This is a transformation that will build effective organizational culture to sustain high performance and promote individual growth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5115. Designing Talent Acquisition Systems. 3 Credit Hours.**

How do organizations acquire the talent to deliver on business strategy? This course focuses on building and implementing hiring systems that align with the strategy, competitive advantage, and culture of the organization, and that deliver measurable return on investment. How do we forecast supply and demand? What tools do we use for sourcing active job seekers as well as passive candidates who are not looking for opportunities? How are recruiting and assessment tools validated and what ethical and legal standards must be monitored? Through the course, students will become acquainted with the state-of-the-art practices in this key HR area.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5116. Designing Strategic Reward Systems. 3 Credit Hours.**

How do organizations build reward systems to attract, engage, reward, and retain talent? This course exposes students to compensation systems and how they contribute to organizational success. Through readings, discussions, case studies, written assignments, and group projects, students will understand how to design systems that reflect current knowledge of motivation and trends in organizational design and strategy, addressing both financial and non-financial rewards.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5117. Leading within the Regulated Environment of HRM. 3 Credit Hours.**

What are the contemporary legal and public policy issues facing organizational leaders and HR partners? How can these business leaders remain compliant in this dynamic regulatory environment? How can they ensure that their decisions consider public policy implications? Students will focus on the issues and challenges associated with talent-related practices, such as employment opportunity, compensation, employee relations, job safety and health, and leave and benefits. Readings, videos, debates, and projects will expose them to public policy frameworks and the foundational legislation of these areas. Note: Prior to summer 2017, this course was titled "HR in a Dynamic Environment." Between Summer 2017 and Spring 2021, this course was titled "Public Policy and Compliance." Students will not receive credit for this course if they successfully completed it under the previous titles.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5118. Leading Business Transformation. 3 Credit Hours.**

Organizations transform, or they struggle. This course focuses on the transformation process - what motivates it, what it looks like, and how to lead it. Students will focus on key issues challenging businesses today to better understand the impacts on their organizations and the marketplace. They will evaluate the drivers for change, the risks and/or rewards of transformation, and the potential impacts to their workforce, culture, brand, policies and practices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5119. Human Resource Consulting. 3 Credit Hours.**

This course focuses on building practical skills and knowledge that can be applied directly to Talent Management consulting opportunities. Students will learn how to deliver and measure consulting solutions that meet or exceed business goals. They will examine how and where Talent Management consultants add value to organizations in diverse industry sectors and participate in developing and managing TM consulting proposals and projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5121. Leading Strategically: Trends, Analytics, and Impact. 3 Credit Hours.**

Leaders who are able to think strategically are critical to business success. This course builds on foundational leadership concepts and explores a broad range of thought from strategic and organizational perspective with the goal of driving organizational results and supporting individual success. Students will take a focused, hands-on look at trending topics such as real-time feedback, personalized micro-learning, artificial intelligence, digital leadership, and generational leadership.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5122. Leading with a Diversity, Equity, and Inclusion Perspective. 3 Credit Hours.**

Leaders are continually being asked to develop initiatives within their organizations that drive revenue, enhance culture, improve service delivery, and increase employee engagement. They are being asked to lead these initiatives with a focus on diversity, equity, and inclusion or DEI. While these human resource "buzzwords" have led to noble efforts, the initiatives are often undertaken with a "check the box" or "avoid a lawsuit" perspective. Of course, compliance with organizational policies and avoiding lawsuits are not to be understated, but rarely do initiatives with this underlying charge drive desired organizational outcomes. This course is designed to go beyond compliance and review dynamics such as unconscious bias, privilege, and micro-aggressions that can keep organizations from attracting and retaining top talent. Course content includes global history and its influence on how and why isms exist, emotional intelligence (to serve as the model for providing clarity on the complex topic of DEI), how and why DEI programs succeed, and how to develop the leadership behavior of Cultural Humility. Come to class prepared to investigate your own identities, to increase your ability to regulate unproductive behaviors, to build empathy for your colleagues from all backgrounds, and to establish effective working relationships that will support your leadership competence and ultimately, organizational success!

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5131. Ethical and Socially Responsible Decision-making. 3 Credit Hours.**

What are the ethical and social responsibilities of business decision-making, policy formulation, and implementation? This course examines an organization's ethical and social responsibilities to various stakeholders, including owners, consumers, the community, and especially employees. Utilizing individual readings, written assignments, group discussion, and group projects, it provides students tools for critical thinking strategies and approaches that will help them raise questions and make decisions regarding appropriate ethical actions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5155. Leading Virtual Organizations. 3 Credit Hours.**

Virtual organizations are complex systems; Business leaders and HRM partners must be able to navigate that complexity. Virtual organizations can arise if the environment calls for greater supply flexibility or when the preferences of the workforce shift. They encompass the gig workforce and remote working arrangements - situations in which technology links individual effort. Topics will include the business need for virtual organizations, work system structuring, independent contractor relationships, and talent management and rewards. Students will explore the challenges of this form through readings, case studies, discussion boards, and presentations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5161. Human Resource Management in a Global Environment. 3 Credit Hours.**

Focuses on the role of culture in determining effective human resource management strategies. Addresses many of the problems and issues arising around the acquisition, development, organization and management of human resources on an international scale.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5170. Special Topics: Human Resource Management. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5180. Special Topics: Human Resource Management. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5182. Independent Study. 1 to 6 Credit Hour.**

Special study in a particular aspect of human resource administration under the direct supervision of an appropriate graduate faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5190. Special Topics: Human Resource Management. 1 to 6 Credit Hour.**

Special Topics- Human Resource Administration

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5411. Managing People. 3 Credit Hours.**

This course focuses on understanding the behavior of individuals and teams in relation to helping organizations and its members thrive. The concepts are linked to core managerial competencies and focus on leadership development and how effective leaders develop, motivate, and inspire organizational members to drive organizational success. Other subjects covered include the development of management thought, the role of the supervisor as a decision maker and the processes of planning, organizing, leading and controlling organizational activities. Ultimately, students will learn how to better create a vision of success, relate to others, and lead groups in which people engage and perform at their best.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5802. Leading and Managing Teams and Individuals. 3 Credit Hours.**

By exploring the interpersonal dynamics of individuals and groups, you'll hone your leadership skills and our ability to create cohesive teams with collective investment in reaching goals. You'll be better able in both traditional and virtual organizations to: manage conflict, dependency issues and difficult personalities; listen effectively and present yourself and your ideas to others; and manage virtual employees.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5804. Managing and Developing Human Capital in the Enterprise. 3 Credit Hours.**

In this course, you'll increase your ability to manage people and maintain a view of the human resource function as an integral part of a total enterprise in both traditional and virtual organizations. You'll address practical issues of human resource management, such as planning and executing staffing strategies, maintaining influence in the organization, managing the multicultural work force, managing programs for productivity improvement, and planning and managing the human side of organizational change.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 9001. Managing Human Resources. 3 Credit Hours.**

Current research on human resource management topics, including recruitment and selection, socialization, job planning, training and development, performance appraisal, job analysis, careers, labor-management relations, industrial conflict, and unionization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 9005. Seminar in Functional Human Resource Management. 3 Credit Hours.**

This is a PhD seminar course in functional/micro human resource management (HRM) that aims at providing you, as a doctoral student, with substantive knowledge and skills necessary to become a competent HRM researcher. The field of functional/micro HRM is vast and much broader than strategic/macro HRM. Given the size of the functional HRM literature, this course is not exhaustive; rather, it will introduce you to some key topics spanning recruitment, personnel selection, training and development, performance management and compensation, and employee withdrawal and turnover as well as exemplary recent research. An important challenge that you face as a doctoral student is developing your own "mental map" of this vast field. The role in this course is to provide a guided tour through the field of functional HRM so that you can begin to develop this map. That is, the major goal of this seminar is that you develop a broad familiarity with functional HRM research and theory, develop analytic skills necessary to critically evaluate and integrate work in this area, and apply pertinent HRM theory and concepts to your particular research interests.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 9006. Doctoral Seminar in Meta-analysis and Research Synthesis Methods. 3 Credit Hours.**

Meta-analysis is aimed at the synthesis and generalization of primary research findings that seem to conflict with one another to draw simple yet significant conclusions. The essence of meta-analysis is that it is the research process of cumulating and synthesizing effect sizes (e.g., correlations) of a number of primary studies on the same topic by the application of research, measurement, and statistical techniques as normally addressed in a typical primary study (i.e., problem selection, hypothesis formulation, definition and measurement of constructs and variables, sampling, coding, and data-analysis).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HRM 9011. Pro-Seminar in Human Resource Management and Organization Behavior. 1 to 3 Credit Hour.**

Socializes students about the process of conducting and publishing research in HRM/OB. Includes guest speakers to discuss topics such as designing a research stream, conducting a project from start to finish, differences in journal quality and requirements to publish at different levels, presenting research well, the art of constructive peer review, and keys to effective academic writing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 9021. Current Readings in Human Resource Management and Organizational Behavior. 3 Credit Hours.**

This course examines emerging themes in the contemporary Human Resource Management and Organizational Behavior (HRM/OB) literature. Each week we will critically analyze articles that exemplify a current topical or methodological theme in the premier HRM/OB journals. The course will focus on articles that have been recently accepted or published within the current calendar year. The goal of this course is to gain a discussion-based seminar that will require significant class preparation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**HRM 9090. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for additional credit.

**HRM 9183. Directed Study in Human Resource Administration. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Human Services (HS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**HS 8701. Introduction to Play Therapy. 3 Credit Hours.**

This course provides the theoretical basis for play therapy and is the first course in the Post Graduate Certificate in Play Therapy program. It offers an overview of the essential theories and principles of play therapy, and provides an arena for the direct comparison of the major theoretical models of play therapy and their implications for treatment. In addition, the course teaches the history of play therapy, as required by the Association of Play Therapy for registration as a play therapist. Students learn the role of the play therapist in a variety of settings, the stages of the play therapy relationship, the evolving research that guides play therapy interventions, the basic play therapy skills and the training/supervision guidelines. Foundational to this course is the belief that involvement of family in the treatment of children is imperative, however uniquely family is defined. An experiential component will focus on exposure to basic play therapy skills through observation of local professionals, instructors or videotaped experts performing play therapy. The course develops play therapy practice skills and an understanding of theoretical approaches of play therapy at the level required for eventual registration as a play therapist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HS 8805. Play Therapy Techniques. 3 Credit Hours.**

This course provides an understanding of the essential elements and principles of several primary techniques of conducting and evaluating play therapy including filial therapy, family play therapy and group play therapy. An experiential component will focus on play therapy techniques and skill development within the context of ethical and diversity sensitive practice. The content will contain materials to develop play therapy practice skills and an understanding of in depth approaches of play therapy at the level required for eventual registration as a play therapist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HS 8806. Play Therapy Applications for Special Populations. 3 Credit Hours.**

This course provides theoretical and applied skills for the treatment of special populations, including children who have been neglected, physically or sexually abused or otherwise traumatized, as well as children who are trying to cope with parental loss as a result of divorce, death or abandonment. Play Therapy with children who have special physical or developmental needs will also be explored, including children with medical problems, chronic or terminal illness, and/or challenging psychopathology such as autism. The content will contain materials to develop practice skills at the level required for eventual registration as a play therapist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HS 8807. Advanced Play Therapy Practice. 3 Credit Hours.**

This course further develops and synthesizes the subject matter in the previous three courses, to prepare students for the challenges of moving into practice. It provides an in-depth review of the advanced elements and principles of play therapy, including the ethical and legal issues of therapy with children and adolescents, attachment issues and disorders of children, children diagnosed with serious mental illness, children and resiliency, play therapy in schools, hospitals, and other host settings, sand tray therapy, and play therapy across the lifespan. The goal of this course is to further prepare play therapists for the special issues that are likely to be confronted in everyday practice, as well as expansion of skills for eventual work as a supervisor. The content will contain materials to develop advanced play therapy practice skills and an understanding of in depth approaches of play therapy at the level required for eventual registration as a play therapist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**HS 9001. Advanced Play Therapy Seminar. 3 Credit Hours.**

This is the final course within the graduate play therapy certificate program. It is an advanced seminar in Play Therapy theory and practice. The goal of this course is to increase each student's effectiveness with and knowledge of play therapy through intensive study of theoretical approaches to play therapy with an emphasis on the dimensions of the process (i.e., the student's understanding of children's behavior and their perceptions of self, the client and the therapeutic play relationship). Students have supervised opportunities to discuss and examine the value conflicts and ethical dilemmas that arise in the practice of play therapy with vulnerable populations. This course reviews the use of play therapy practice strategies, approaches, and collaborative interventions. Students will learn about different methods of practice assessment and evaluation and will be able to select appropriate forms of evaluation for use in their practice. Throughout the seminar, students will have exposure to and/or involvement in mock play therapy sessions, group supervision of a play therapy session, and supervision of play therapy sessions. This will provide students with opportunities to process the clinical experience of play therapy with emphasis on advanced skill development, assessment, treatment planning, intervention and evaluation of practice. In short, this seminar sets the stage for transition from the learning environment to professional practice as a play therapist. Students have the opportunity to practice skills in simulated settings; field settings may be available. Lecture, large group discussion, role playing, group supervision, video demonstration and participation on play therapy session labs are primary methods of instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Instructional Learning Technology (ILT)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ILT 5232. Technology, Teaching, and Learning. 3 Credit Hours.**

This 3 semester-hour online/asynchronous graduate course focuses on how educational technologies may be strategically integrated to enhance both program administration and teaching and learning for adults in post-secondary settings. The ethical, social, and scientific ramifications of technological developments in education and how these developments affect the teaching and learning process are discussed. Application of instructional technologies in education, business, and industry presented.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ILT 5287. ILT: Practicum in Instructional Technology. 3 Credit Hours.**

This 3 semester-hour graduate course provides for 100 hours of hands-on experience working in a professional organization consistent with the student's goals and objectives. The ethical, social, and scientific ramifications of technological developments in education and how these developments affect the teaching and learning process in the practicum settings are discussed. Application of instructional technologies in education, business and industry is discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ILT 5499. ILT: Instructional Technology and Learning. 3 Credit Hours.**

Introduces characteristics and applications of basic instructional and computer technology in the teaching-learning process. Students will gain hands-on experience in the use of computer and adaptive and/or augmentative hardware and software.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ILT 5639. Instructional Design and Development. 3 Credit Hours.**

This 3 semester-hour graduate course is designed for the classroom teacher to explore pedagogically the strategies and techniques for creating and modifying instructional resources. Emphasis is on instructional design models for the systematic design of instruction, including adaptive and/or augmentative technology. Students employ a specific instructional design model and apply select instructional theories in the design of an instructional unit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Internal Medicine (INTM)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**INTM M118. Intro to Rheumatology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**INTM M119. Introduction to Geriatric Medicine. 0 Credit Hours.**

With the increasing proportions of older adults worldwide, all graduating medical students will need to have a basic understanding and competencies in caring for older adult patients regardless of the medical specialties they end up choosing (except for pediatrics). Consequently, this elective will help students meet this need through exposure to basic geriatrics concepts/syndromes including ageism, polypharmacy, cognitive impairment, and malnutrition/failure to thrive.

**Repeatability:** This course may be repeated for additional credit.

**INTM M202. Introductory Elective. 0 Credit Hours.**

This generic first and second year Medicine elective serves as an introduction to a special topic in the Department of Internal Medicine. Topics vary from semester to semester and may include an extension of a content area already covered in the required curriculum, an introduction to a new topic or research issue, or exposure to a clinical discipline. First and second year electives are optional and do not impact graduation requirements. Electives are scheduled for seven two-hour sessions each, for a total of fourteen contact hours. Student interest and faculty availability determine topics offered each semester.

**INTM M203. Introduction to Integrative Medicine. 0 Credit Hours.**

The goal of this elective is to introduce the field of Integrative Medicine to early medical students. Integrative medicine is informed by scientific evidence and utilizes all appropriate therapies, both conventional and complementary, to treat patients with a coordinated, holistic, and patient-focused approach for health care and wellness. An Integrative Medicine elective is aligned with the LKSOM mission dedicated to patient-centered care, as the core principles of Integrative Medicine emphasize the therapeutic relationship between practitioner and patient.

**Repeatability:** This course may be repeated for additional credit.

**INTM M213. Introduction to Nephrology - A Journey through Kidney Disease. 0 Credit Hours.**

We will give students an overview of chronic kidney disease, including epidemiology, detection and management. Students will have the opportunity to participate in the American Society of Nephrology MAPS (Mentoring and Assessment Program) during this elective - a new program developed by this premiere nephrology professional organization to enhance early exposure to this subspecialty. This course is structured to provide didactic and hands-on exposure to chronic kidney disease evaluation and management. The educational experience will include opportunities to learn screening techniques in at-risk populations, talk with patients with kidney disease, end-stage renal disease and kidney transplantation, and visit an active dialysis unit under the supervision of nephrology faculty. Students will also have the opportunity to hear about some of the on-going kidney disease research within the Division.

**Repeatability:** This course may be repeated for additional credit.

**INTM M242. Mindfulness Meditation: Biological and Psychological Underpinnings. 0 Credit Hours.**

This elective will address the fundamentals of mindfulness meditation and instruct the student on how to begin and cultivate a practice of mindfulness of their own to reduce stress and attend more to the here-and-now moments of their lives. We will discuss the important contributions of Jon Kabat-Zinn, Tara Brach, Sharon Salzberg, Richard Davidson and Jack Kornfield, and review current studies endorsing the use of mindfulness meditation in the practice of medicine for pain, anxiety and many other pathologies.

**INTM M246. Early Clinical Reflections: Literature and Writing about Patient Encounters. 0 Credit Hours.**

This elective will address issues raised by initiation into the realm of clinical medicine. In learning to take medical histories and perform physical examinations, medical students gain access to privileged and detailed information about the lives and bodies of patients. The elective will provide a format for discussing reactions to this process. Readings will include essays about, and fictional descriptions of, clinical encounters by Oliver Sacks, John Stone, Richard Selzer, William Carlos Williams, and others. Participants will write three brief pieces in either fictional or essay form.

**INTM M285. Intro to Palliative Care. 0 Credit Hours.**

As early as the third year of medical school, students are faced with medical and ethical issues surrounding end-of-life care. Too often, this is without solid introduction to palliative care medicine and personal reflection on what a "good death" entails. This elective will provide information about end-of-life care through lectures, readings, and shadowing opportunities, and will also allow time for student reflection through journaling and small group discussion. It will be a foundation for medical students to begin a career-long endeavor to provide compassionate, appropriate, multidisciplinary care to dying patients and those suffering through chronic illness.

**Repeatability:** This course may not be repeated for additional credits.

**INTM M300. Medicine Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**INTM M301. Medicine. 0 Credit Hours.**

**Course Attributes:** M6

**Repeatability:** This course may not be repeated for additional credits.

**INTM M305. Career Exploration of Geriatric Medicine. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M312. Career Exploration of Hematology/Oncology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M313. 3rd Year 2 Week Away Healthcare Elective. 0 Credit Hours.**

Students may receive credit for a 2-week away experience in healthcare. This can include a clinical or non-clinical experience. The student must be supervised and evaluated by a person with a position in the organization where the experience is taking place. The experience must be arranged by the student and approved by the Associate Dean for Clinical Education.

**Repeatability:** This course may be repeated for additional credit.

**INTM M319. Career Exploration of Palliative Care. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M321. Career Exploration of Infectious Diseases. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M333. Career Exploration of Medical Toxicology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M357. Career Exploration of Inpatient Pulmonary Medicine. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M364. Career Exploration of Nephrology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M374. Career Exploration of Cardiology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M375. Career Exploration of Rheumatology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M380. Career Exploration of Endocrinology/Metabolism. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M381. Medical Subspecialties. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**INTM M390. Career Exploration of Gastroenterology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**INTM M391. Principles of Urology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**INTM M419. Palliative Care/Hospice. 0 Credit Hours.****Course Attributes:** M2**Repeatability:** This course may not be repeated for additional credits.**INTM M430. Pulmonary/Sleep Medicine. 0 Credit Hours.**

This rotation is a 4 week course comprised of two weeks of pulmonary medicine and two weeks of sleep medicine which will cover commonly encountered sleep problems. We will review both the physiology of normal sleep and pathophysiology associated with sleep apnea, hypoventilation syndromes and insomnia.

**Repeatability:** This course may be repeated for additional credit.**INTM M449. HIV Care and Prevention in Populations at Risk. 0 Credit Hours.**

This will be a four week elective, spent on site at Episcopal hospital primarily with a physician, and occasionally a nurse practitioner. There will hopefully be occasional opportunities to visit Graterford Prison in person to see patients if security clearance can be arranged. The student will participate in both clinical sessions with patients in the office (HIV infected, or at risk for HIV) and via telemedicine in the Pennsylvania Department of Corrections (DOC), as our HIV/DOC program care for approximately 650 incarcerated HIV patients at any given time. They will have the opportunity to interact with patients both in the outpatient setting and in the prison setting, in conversations regarding their health care, mental health, nutritional status, treatment choices, living conditions, and comorbidities. For those patients who are incarcerated, the students will learn how prison both presents opportunities and barriers to care, and how transitions to freedom may jeopardize that health. Transgender patients are seen both as outpatients and in the DOC. Our program manages their hormonal therapy, as few DOC physicians feel comfortable doing so. The student will be able to witness the degrees of sensitivity given to this population in the prison system, and the health care needs that are often overlooked in transgender people. One of the goals of our outpatient program is to provide culturally competent and friendly care to the LGBTQ community. Our practice is open to all, and we have a number of HIV negative patients as well. Many of our patients do identify as at risk for HIV, and are on tenofovir/emtricitabine (Truvada) for PrEP. This is also routinely discussed with our HIV-infected patients, as well as our prisoners prior to release, if they have partners who might be interested. There will also be opportunity to interact with other members of our multidisciplinary HIV team, including HIV specialty pharmacists, case managers, and care coordinators. We will attend a weekly HIV didactic conference run jointly with the Infectious Disease division.

**INTM M450. Allergy/Immunology. 0 Credit Hours.****Course Attributes:** M2**Repeatability:** This course may not be repeated for additional credits.**INTM M463. Ambulatory Medicine. 0 Credit Hours.****Course Attributes:** M2**INTM M464. Rural Medicine. 0 Credit Hours.****Course Attributes:** M2**Repeatability:** This course may not be repeated for additional credits.**INTM M466. General Internal Med/Inpatient. 0 Credit Hours.****Course Attributes:** M2**INTM M467. Medicine Nicaragua. 0 Credit Hours.****Course Attributes:** M2**Repeatability:** This course may not be repeated for additional credits.**INTM M470. Cardiology. 0 Credit Hours.****Course Attributes:** M2**INTM M471. Clinical Cardiac Electrophysiology. 0 Credit Hours.**

This course will focus on the diagnostic and therapeutic procedural elements of Cardiac Electrophysiology. Students rotating in Clinical Cardiac Electrophysiology will gain exposure to device implant procedures (e.g. pacemakers, defibrillators, CRT, subcutaneous ICD, leadless pacemakers, cardiac contractility modification devices), device extraction (using laser and mechanical instruments), and ablation (e.g. SVT, VT, atrial fibrillation, atrial flutter). Students will also learn about anatomical and electrophysiologic mapping technology that facilitates EP procedures. Students will participate in Cardiac EP academic and clinical rounds, ECG teaching with the Cardiology fellows, and provided reading on arrhythmia mechanisms and treatments.

**Repeatability:** This course may be repeated for additional credit.

**INTM M475. Right Heart Failure and Pulmonary Hypertension. 0 Credit Hours.**

The Right Heart Failure and Pulmonary Hypertension Elective is a 4th year elective that gives students an in-depth clinical exposure to the history, physical exam, diagnostic evaluation, and workup of patients with all forms of right heart failure, including those with pulmonary hypertension and chronic thromboembolic disease. There will be emphasis on the heart failure physical exam, interpretation of laboratory assessment, ECG, echocardiograms, CT Chest (with and without angiography), V/Q scan with SPECT imaging, pulmonary angiography, pelvic venography, invasive hemodynamic assessment under rest and exercise conditions including with gas exchange assessment with cardiopulmonary exercise testing (CPET).

**Repeatability:** This course may not be repeated for additional credits.

**INTM M476. Cardia Critical Care-CCU. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M480. Endocrinology/Metabolism. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M486. HIV Outpatient Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M487. Women's Health. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M490. Gastroenterology. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M505. Geriatric Medicine. 0 Credit Hours.**

The course aims to expose learners to basic geriatric principles and prepares future physicians to care for older adults in their practice, regardless of what specialty they may go into. Learners can choose to take the elective for 2 weeks or 4 weeks, depending on their preference/schedule. Course contents are extrapolated from this validated study with corresponding pocket card (<https://agsjournals.onlinelibrary.wiley.com/doi/full/10.1111/jgs.16226>).

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M510. Hematology/Oncology. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M520. Infectious Diseases. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M521. Transplant Infectious Diseases. 0 Credit Hours.**

The Transplant Infectious Diseases Elective is a 4th year elective that gives students exposure to both the treatment and prevention of infection in solid organ transplant recipients and candidates. Students will be part of a one fellow/one attending team caring for patients preparing for transplant or post-transplant. They will participate in the care of immunosuppressed inpatients in a consultative manner. Students will experience a diversity of solid organ transplant issues, ranging from nosocomial infections to opportunistic infections and from pre-transplant evaluation to end-of-life. They will participate in the student lecture series of the General Infectious Diseases elective as well.

**Repeatability:** This course may be repeated for additional credit.

**INTM M529. Advanced Lung Disease. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M530. Medical ICU (MICU) - Critical Care. 0 Credit Hours.**

The required critical care course will introduce students to the management of critically ill patients. Students are expected to follow their patients' progress and contribute to their care with supervision. Students will observe and assist as possible in procedures being performed in the ICU. Students will obtain exposure to assisted ventilation, palliative and end-of-life care.

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P in INTM M301, OBGY M320, PEDI M330, PSYM M340, SURG M350, NEUR M370, and FAMP M360.

**INTM M531. MICU/SICU. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M536. Ventilator Rehab. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M540. Medical Oncology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**INTM M543. General Internal Medicine Ambulatory Elective. 0 Credit Hours.**

The General Internal Medicine Ambulatory Elective is a 4th year elective that exposes students to outpatient primary care. Students will work directly alongside faculty members and will be involved in all aspects of patient care, including taking a history and physical, behavioral change counseling, following up results, and inter-visit patient communication. There will be an emphasis on chronic disease management, preventive care, and the impact of social determinants of health on patient care. Students will receive individualized coaching to improve their clinical skills. Students will also participate in a didactic series with the internal medicine residents and lead a case-based, evidence-based medicine session on a clinical topic.

**Repeatability:** This course may be repeated for additional credit.

**INTM M550. Ambulatory Pulmonary Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M551. Lung Transplant. 0 Credit Hours.**

The Lung Transplant Elective is a 4th year elective that gives students exposure to the care of Lung Transplant patients. They will be a part of a multidisciplinary team caring for patients preparing for transplant or post-transplant. They will participate in the care of patients in the hospital and in clinic.

**Repeatability:** This course may be repeated for additional credit.

**INTM M557. Inpatient Pulmonary Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M560. Nephrology. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M566. Addiction Medicine. 0 Credit Hours.**

The Addiction Medicine Elective is a 3rd and 4th year elective designed to provide medical students with exposure to the care of patients with opioid use disorder and the principles of harm reduction. Students will be paired with faculty caring for patients on the inpatient addiction medicine consult service, as well as Temple's outpatient medication assisted treatment clinic. Students will gain exposure to patients experiencing opioid withdrawal and uncontrolled pain in the acute care setting, as well those engaged in outpatient buprenorphine maintenance care. The importance of transitional care will be highlighted, with an emphasis on hospital discharge and warm handoff to community care providers. Particular attention will be paid to the unique socioeconomic challenges experienced by patients with drug dependence.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Medical, Fourth Year Medical.

**Repeatability:** This course may be repeated for additional credit.

**INTM M570. Rheumatology. 0 Credit Hours.**

**Course Attributes:** M2

**INTM M581. Medical Subspecialties. 0 Credit Hours.**

A 4-week clinical rotation comprising two 2-week experiences in approved internal medicine subspecialties.

**INTM M850. Medicine Subinternship. 0 Credit Hours.**

**Course Attributes:** M1

## International Business Administration (IB)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**IB 5501. IB Theory & Practice. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (ACCT 5001, ECON 5001, STAT 5001, MKTG 5001, MIS 5001, FIN 5001, and MSOM 5001)

**IB 5502. International Marketing. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001, (MKTG 5401 and MKTG 5402), or (MKTG 5301 and MKTG 5302))

**IB 5503. Disruption and Strategic Responses. 3 Credit Hours.**

This course is designed to present the break-through concepts and frameworks to respond to disruptions and uncertainty in a global business context. It combines multiple attributes and analytical frameworks to investigate the most appropriate strategic response(s) while avoiding biases and pitfalls that often cause strategies to fail. This course focuses on challenges and opportunities in crafting and executing strategies amid changes that occur at all levels (e.g., country, industry, corporate, and individual). It contains theoretical and experiential elements to strategically respond to (geo)political, economic, technological, environmental, and legal disruptions. These strategies allow companies and their managers to create value by establishing and maintaining a sustainable competitive advantage. Note: Whereas there are no prerequisites for this course, students without any experience and/or coursework in marketing or strategy should consult the faculty for guidance and possible additional preparation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**IB 5511. International Management. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (ACCT 5001, ECON 5001, STAT 5001, MKTG 5001, MIS 5001, FIN 5001, and MSOM 5001)

**IB 5535. Intl Financial Markets. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**IB 5536. Intl Corporate Finance. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (FIN 5001, (FIN 5401 and FIN 5402), or (FIN 5301 and FIN 5302))

**IB 5570. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 5580. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 5582. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 5590. Special Topics: Intl Bus. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 9001. Theory-Int Bus & Mltinat. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**IB 9002. Empirical Research in International Business. 3 Credit Hours.**

The course is designed to provide an introduction to issues relevant to international business/cross-national/cross-cultural research. We will investigate basic elements of research theory, constructs, measures, data collection and analysis, and other elements of international business research. While the underlying objective of this course is to familiarize you with basic tools in IB research, a higher-level goal is to provide hands-on experience of conducting high quality original research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**IB 9090. Spec Topic Intl Bus. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**IB 9183. Directed Study in International Business. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for additional credit.

## International Teaching Assistants (ITA)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ITA 5221. Eng for Foreign Students. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Journalism (JRN)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **JRN 5004. Computer-Assisted Reporting and Research. 4 Credit Hours.**

Computer-based exploration of the Internet, World Wide Web, databases and on-line libraries to develop information gathering and presentation skills. Research approaches and data analysis emphasized.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **JRN 5005. Communication Law. 3 Credit Hours.**

Legal and philosophical study of government regulation of information transmission from 15th century to the present. Emphasis on legal descriptive research methods.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in 20 credits in courses numbered 5000 to 9999.

### **JRN 5102. International Reporting. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5002.

### **JRN 5121. Magazine Writing. 3 Credit Hours.**

Intended for graduate students who want to write non-fiction for a variety of publications and outlets. It will examine the styles of various writers and publications; development of ideas into saleable magazine articles for major periodical publications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5002.

### **JRN 5151. Literary Writing in Journalism. 3 Credit Hours.**

This graduate-level course will examine the 50-year trend, begun by the New Journalism of the 1960s, which uses the storytelling techniques of fiction and the documentation of journalism to create works of powerfully-told emotional truth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5002.

### **JRN 5201. The American Magazine. 4 Credit Hours.**

Analysis of content, editorial policy and trends in American magazine journalism; discussion of publishing procedures; marketing, circulation, and advertising problems; reader research. Class project: create prototype issue of magazine, with prospectus, advertising, and promotional materials.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5001.

### **JRN 5211. Media Management. 4 Credit Hours.**

Comparison of the organizational structures of news media; editorial content, advertising, circulation, and business aspects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5001.

**JRN 5212. The Entrepreneurial Journalist. 3 Credit Hours.**

With traditional news organizations in crisis, there have never been more opportunities for journalists to become entrepreneurs. This course will explore the future of news, from individual bloggers to digital startups, and how journalists can help shape this future.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5213. Solutions Journalism. 3 Credit Hours.**

This course introduces students to the practice of solutions-oriented reporting, an outcome-focused form of journalism, and assesses its impact on communities and issues. Students will develop reporting projects on specific solutions-based themes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5221. Journalism and Mass Communication History. 3 Credit Hours.**

Study of the technological and social development of communication systems from ancient to present times with emphasis on historical/descriptive research methods.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5001.

**JRN 5251. Mass Communication Research Methods. 4 Credit Hours.**

This course offers a study of the methods for researching journalism and mass communication, including quantitative and qualitative approaches.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5252. Models of Journalism Around the World. 3 Credit Hours.**

This course introduces students to current issues, debates, and practices relating to the dissemination of news in a global context. We will first examine and discuss the key theoretical concepts associated with the creation, distribution, and reception of news in an increasingly global environment, as well as the broader debates surrounding issues of transnational influence. In the second half of the semester, we will take a closer look at the current nature and organization of media systems in various parts of the world through a number of case studies. By the end of the semester students will be familiar with the global context in which news is produced and distributed, and demonstrate a critical understanding of the challenges and concerns facing both American journalists covering international issues and foreign journalists operating in different media environments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5001.

**JRN 5301. Introduction to Urban Journalism. 3 Credit Hours.**

This course is a bootcamp designed to ensure all incoming students have the skills necessary to dive into the Urban Reporting Lab in the fall semester. It covers (1) News literacy: how consume news, and why. What is a news story? How does it get produced? What should it accomplish? (2) Storytelling tools: an overview of the mediums and technologies involved in multimedia storytelling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5302. Urban Reporting Lab 1. 3 Credit Hours.**

This is a coached, multimedia news production class in which students cover urban issues, publishing their work on the lab's news site and developing areas of individual expertise. This work is continued in JRN 5305, Urban Reporting Lab 2.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5303. Journalism Concepts. 3 Credit Hours.**

This weekly seminar gives students an overview of the norms and philosophies that guide journalistic practice, with a particular emphasis on journalism's role in the social, cultural, political and historical fabric of the city. Students will learn about the professional concepts that will guide their work as journalists while also understanding how those concepts have developed over time and contribute to journalism's role in society.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5304. Editing the News. 3 Credit Hours.**

Accelerated, in-depth instruction in AP style, copy editing, legal problems of the editor, editorial judgment, accuracy, fairness, clarity, balance in copy, headline writing, fundamentals of page makeup and design, use of photography, tables, graphs, charts and maps.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5305. Urban Reporting Lab 2. 3 Credit Hours.**

This course is a continuation of Urban Reporting Lab 1. Students work together to tackle a single, urban problem, issue, or topic that the class chooses together, producing a regular stream of news to be published on a collectively owned, multimedia, data-centric class website. Students may hone a chosen specialization through this course by having a particular role in the class project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in JRN 5302.

**JRN 5306. Journalism and the Public Interest. 3 Credit Hours.**

This course prepares students to work in an ethical way as responsible members of their profession and their communities. It covers the ethical aspects of technological and economic change, the main legal issues that journalists face, the challenges of reporting on powerful institutions, and journalists' obligations to their subjects and audiences.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5307. Capstone Reporting Experience. 3 Credit Hours.**

In this class, students do their own independent reporting projects, within an area of specialization if appropriate. The goal is to produce a journalistic masterwork (analogous to a thesis) that will lead to professional publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5308. Multiplatform Journalism. 3 Credit Hours.**

This course focuses on the technical skills needed to produce news reports in multiple media. These skills include photography and photo editing; videography and video editing; and audio recording and editing. Students will become proficient with the necessary equipment and the Adobe Creative Cloud software. This course is a companion to JRN 5302 Urban Reporting Lab 1, which provides foundational reporting and writing skills that students will be expected to employ in this course. The technical skills taught in this course enable students to pursue multimedia journalism across the MJ curriculum.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**JRN 5601. Temple Journalism Review. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (JRN 5012 and JRN 5013)

**JRN 5602. Documentary Journalism. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (JRN 5012 and JRN 5013)

**JRN 5700. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5710. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5720. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5730. Seminars in Communication. 3 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5740. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5750. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5760. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5770. Seminars in Communication. 3 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5780. Seminars in Communication. 4 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5790. Seminars in Communication. 3 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5800. Seminars in Communication. 3 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5810. Seminars in Communication. 2 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5820. Seminars in Communication. 2 Credit Hours.**

Special-topic courses in a broad range of communication areas including print and broadcast news, magazines, and new technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5890. Seminars in Communication Abroad. 6 Credit Hours.**

Subject matter and location vary each semester. Please consult the Course Schedule for further information.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5982. Directed Projects. 1 to 8 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5983. Directed Readings Comm. 1 to 4 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 5986. Internship. 1 to 4 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**JRN 9995. Master's Research Project. 3 Credit Hours.**

Students complete independent reporting projects within an area of specialization if appropriate. A faculty advisor will oversee weekly meetings among all students to discuss common issues and progress. The goal is to produce a journalistic masterwork (analogous to a thesis) that will be pitched to a professional news organization, creating the foundation for a portfolio of published work. The course is meant as a center for advising and feedback from instructor and peers. While students work independently on a master's project, this course serves as a home base for addressing common questions, concerns and challenges. Students will regularly report progress updates and receive feedback and guidance from the class. The instructor ensures that all students complete the projects in a timely fashion. The master's research project may take many forms. Students should choose a project in consultation with the program director, the instructor of this course, and other advisors as appropriate. Projects must be approved by the program director before beginning work. The master's project may be accomplished using one of the following venues: a longform or otherwise in-depth reporting project; an internship; a study away; an assistantship with Philadelphia Neighborhoods; or a collaboration on a substantial project with third parties, including but not limited to Open Data Philly, Solutions Journalism Network, Philadelphia Media Network, etc. In any case, the goal of the master's research project is to produce a publishable journalistic masterwork. The instructor of this course will work with students choosing study or other work that keeps them away from in-person class meetings to ensure that these students may still participate in giving project updates and providing feedback to peers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Juridical Science (JUSI)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**JUSI D899. Dissertation Research. 1 to 9 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Juris Doctor (JUDO)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**JUDO 0000. Law Abroad-Cork. 6 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0001. Law Abroad-Tel Aviv. 6 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0002. Law Abroad-Athens. 6 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0003. Law Abroad-Rome. 6 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0004. Law Abroad-Japan. 18 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0005. FLLM Dual Degree. 0 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**JUDO 0400. Administrative Law. 3 Credit Hours.**

A study of the process of lawmaking and law application by the executive departments and agencies of government and their control by the legislature and the courts. The primary emphasis is on the frequently competing goals of effective government, administrative discretion and fairness to affected parties. A part of the course is designed to give students insights into the allocation of law and policy making among executive, legislative and judicial branches. Another part focuses on administrative procedure and the various constitutional, statutory and common law underpinnings of such procedures.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0401. Litigation Basics. 1 Credit Hour.**

A basic overview of the judicial system and the mechanics of litigation. This course familiarizes students with the anatomy of a lawsuit and the basic procedural concepts that frame many of the cases used in the first year curriculum.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0402. Civil Procedure I. 2 to 4 Credit Hours.**

Civil Procedure I covers the jurisprudence and rules governing the process of civil litigation in the United States. The law of civil procedure finds its basis in a framework of rules, but Civil Procedure I focuses on the doctrine relating to the Federal Rules of Civil Procedure rather than on the rules themselves. (The rules are covered in detail in Civil Procedure II). As a result, students will learn this area of jurisprudence largely by reading and analyzing cases that interpret these rules, and will also examine some of the rules as well as relevant provisions of federal statutes and the U.S. Constitution. The course covers topics which may include: commencement of an action, pleading, pre-trial techniques of discovery, the trial, judgments and jurisdiction, res judicata, collateral estoppel, bar and merger and other collateral attacks are considered in a federal setting with appropriate emphasis on historical antecedents.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0403. Law Day Division. 15 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0404. Constitutional Law. 4 Credit Hours.**

Judicial review of legislative and executive actions in a constitutional setting, the relationship of the states to the federal government (Federalism), the relationship of the people to government (Bill of Rights) and the powers of the Congress are considered.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0405. Law PTD Reg Division. 11 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0406. Contracts. 4 Credit Hours.**

Topics may include: the bargain, fairness, equality of the bargain and formalisms such as parole evidence and Statute of Frauds are examined in the context of the common law and Article 2 of the Uniform Commercial Code. Further utilizing the Uniform Commercial Code, the common law and other statutory bases, impossibility, change, condition, anticipatory breach, good faith duty to act, judicial remedies, controlling risk and remedy, third party beneficiaries and assignment are examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0407. Law Eve Reg Division. 11 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0408. Contracts II. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0409. Law Eve Ext Division. 10 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0410. Criminal Law I. 3 Credit Hours.**

The elements of major crimes, their policy and historical underpinnings and the alternatives for designating and dealing with major antisocial behaviors are considered. Some introduction to criminal procedure is provided.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0411. Law PTD Ext Division. 10 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0412. Transfer Credit. 1 to 29 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0413. JD/MBA. 1 to 12 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0414. Legal Research & Writing. 2 to 3 Credit Hours.**

Legal research, writing and advocacy methods are explored. Students are assigned to small groups for individualized instruction. After introduction to basic research techniques, problems are assigned and various methods are utilized to help students develop their writing and analytical skills. The objective of the program is to develop basic legal skills in an informal seminar atmosphere that allows maximum contact with the assigned instructor. NOTE: Legal Research and Writing must be successfully completed (grade of D or better) [a] in order to graduate and [b] prior to taking any writing course.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0415. Adv Legal Research/Writing. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0416. Professional Responsibility. 2 to 3 Credit Hours.**

The purpose of this course is to explore what it means to be an ethical lawyer by discussing a range of issues facing legal professionals while acquainting students with some of the specific guidelines for ethical professional conduct. Emphasis is on the Model Rules of Professional Conduct, ethics opinions from bar associations, common law and statutory materials. Successful completion (grade of C or better) of Professional Responsibility, either as an exam course, a writing seminar, or a part of ITP, is required in order to graduate.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in (JUDO 0404 and JUDO 0410)

**JUDO 0417. Advanced Contracts: UCC and Interpretation. 3 Credit Hours.**

This course focuses on sophisticated commercial problems and cases, usually based on Article 2 (the Sales article) of the Uniform Commercial Code and occasionally on the Convention on the International Sales of Goods. A primary emphasis is on methods for interpreting contract provisions and the underlying statutory provisions, usually during the performance phase of contracts. The problems confronted in the course are somewhat broader than those arising in the Sales course. In addition, they often arise in transactional and counseling settings and the material lends itself to considering the role of lawyers in these situations, as distinguished from their roles as litigators. Both this and the Sales course are the easiest transition from the Contracts course in first year. Article 2 of the UCC is a subject covered by the bar exam.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0418. Property. 4 Credit Hours.**

The basic relationships in systems of ownership of personalty and realty, and the devices for transferring ownership are considered. Private and public planning, regulation of land use, the estate system and the new property theories are also examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0419. Philosophy of Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0420. Torts. 4 Credit Hours.**

The legal protection afforded in civil proceedings against interference by others with the one's person, property and intangible interests is considered. The historical and theoretical bases of the principal theories of tort liability are examined to develop an understanding of current law and a sensitivity to changing patterns of tort responsibility emerging from a dynamic society.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0421. Spanish for Lawyers. 2 Credit Hours.**

The purpose of this course is to give the Spanish speaking lawyer or law student a brief introduction to, and the ability to increase their familiarity with, legal terms in Spanish. Students will be exposed to these terms in the context of the substantive civil law in which they are utilized. This course will be conducted in the following manner. A legal document, brief article or other reading will be posted on Blackboard one week prior to our meeting. These legal documents or articles will focus on different areas of the law as practiced in Latin America. Students will be expected to read and review each weekly document prior to our meeting, where we will discuss the assignment in Spanish. This course will be graded on a Pass/Fail basis. The evaluation will be based on two to three writing assignments, which will involve either the drafting of a legal document in Spanish or the translation of a document in Spanish into English. NOTE: Students must be able to speak and read Spanish as class meetings will be conducted exclusively in Spanish.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0422. Legal Decision Making. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0423. Intl/Comprtv Family Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0424. Crim Pro: Euro-Japan-US. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0425. Supreme Ct/Current Term. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0426. Sexual Orientation & Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0427. Comnty Economic Devlpmnt. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0428. Pennsylvania Civil Procedure. 2 Credit Hours.**

This course will provide students with a firm foundation in the procedures followed in the litigation of civil disputes in Pennsylvania state courts. The significant differences between the Pennsylvania and the Federal Rules of Civil Procedure will be examined. The final grade will be based on a series of written exercises and a final exam.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0429. Sexual Orientation, Gender Identity and the Law. 2 Credit Hours.**

This course will explore the relationship between the ways in which American law has responded to a variety of issues related to sexual orientation. The course will begin by examining the multiple meanings and dimensions of sexual orientation, then look at the relationships between issues of orientation and other legally protected statutes. The remainder of the course will focus on a variety of substantive areas of law in which issues of sexual orientation arise. As each substantive area is covered, students will be encouraged to reflect back on the first classes and think about whether existing legal protections for other minority groups are appropriate for sexual minorities, or whether other legal structures would be more effective in achieving the goals of equality and liberation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0430. Water Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0431. Collective Bargaining. 2 Credit Hours.**

This course examines collective bargaining: the duty to bargain in good faith and enter into and enforce collective bargaining agreements through the courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0432. Mass Tort Litigation. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0433. Cyberspace. 2 to 3 Credit Hours.**

The goal of this course is to introduce students, by means of a series of specific case studies chosen to illustrate the clash between existing legal regimes and new technologies, to a reasonably comprehensive subset of the legal problems that are being addressed as part of the developing "online law." Topics to be covered include the law of copyright as applied to electronic information, trademark law as applied to Internet "domain names," application of the First Amendment to the regulation of Internet communications, privacy concerns on the Internet, the law of anonymous communication and the regulation of encryption technology, and the difficult international jurisdictional questions presented by Internet activity.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0434. Constnl Lmts Reg Commrce. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0435. Human Rights/Euro Union. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0436. Law of Investigations. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0437. Introduction to Transactional Skills. 1 to 2 Credit Hour.**

This course exposes students to transactional lawyering through a mix of substantive lectures and small-class skill workshops organized around founding a small business. Topics include: choosing a business form; client interviewing; negotiation; drafting letters, contracts, leases, and other agreements.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0438. Introduction to Business Organizations. 3 Credit Hours.**

Businesses of any complexity require that someone exercise responsibility on behalf of another person or on behalf of the entity itself. Ensuring the responsible exercise of that authority will be a primary focus of this course. Through a study of non-corporate forms of doing business, including sole proprietorships, partnerships and limited liability companies (LLCs), the course will focus on concepts of agency and fiduciary duty which are the foundation for understanding when and how a person or entity acts on behalf of another. Throughout the course, students will consult the statutory provisions governing various business entities and consider how to contract around the those statutes when the organizers of a business desire to alter the basic statutory scheme.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0439. Business Law Basics. 1 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0440. Unincorporated Business Organizations: Agency, Partnerships and LLC's. 3 Credit Hours.**

Most business organizations in the United States are no longer corporations, but unincorporated business associations such as sole proprietorships, partnerships, or limited liability companies (LLCs). These business forms are used by entities ranging from "mom and pop" stores to high-tech start-ups to sophisticated investment funds. This class examines these business entities, which every attorney engaged in a business practice needs to understand. After a review of agency law, the course will examine partnerships, limited partnerships (LPs), LLCs, and if time permits some less common unincorporated business forms.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0441. Adv Con Law: Con Theory. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0442. Violence Against Women. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0443. Intro Asian Legal System. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0444. National Security Law. 2 to 3 Credit Hours.**

This course will study national security threats - those posed to the United States by state and non-state actors who target US civilians, personnel and interests with the aim of achieving political change - and examine the legal controversies raised in responding to these threats domestically and abroad. The course will be divided into two parts. Part One will examine legal controversies in constitutional law. This includes the scope of presidential powers in times of heightened national security threats and the separation of powers more broadly. We will also explore the tension between national security and individual liberties during times of crisis. Part Two will examine the legal controversies raised by irregular combat between the US and non-state actors internationally. We will study some of the most important and controversial legal issues triggered by the so-called 'war on terror.'

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0445. Family Law: Custody. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0446. Social Science in Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0447. Intellectual Property Licensing Law. 2 to 3 Credit Hours.**

This course examines the law of intellectual property licensing, explores the rationale for licensing, and analyzes IP license agreements and common provisions for licensing. IP License Agreements are unique in many legal and business ways and are important to all aspects of the business world today. The course will involve drafting licenses for different intellectual property rights.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0448. Business Acquisitions. 1 to 2 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0449. Lawyering for Organizations. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0450. Environmntl Lit/Superfund. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0451. Business Mergers and Acquisitions. 2 Credit Hours.**

The course will prepare students seeking employment as business lawyers by exploring fundamental legal issues arising in mergers and acquisitions. It will include a review of basic state code provisions relating to mergers and acquisitions using provisions of the Delaware General Corporation Law ("DGCL"). The course will examine provisions of the DGCL authorizing mergers and acquisitions, evaluate instances when stockholder approval is required and assess issues arising in different deal structures and the various consequences of each, including tax issues relating to asset and stock deals and successor liability issues. Once students have a solid understanding of how deals are consummated under state law and the structural issues associated with various deal forms, the class will scrutinize certain drafting and negotiating issues arising in preliminary and final acquisition agreements and will analyze basic closing documents and study the role of business lawyers in acquisition transactions. The course also will cover fiduciary duties of board members relating to acquisitions including a board's power to thwart unwanted takeover attempts as well as a response to competing bidders.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0452. AIDS & the Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0453. Law of the European Union. 2 to 3 Credit Hours.**

This course provides an introduction to the law and institutions of the European Union. Topics to be considered include, inter alia, the major treaties and institutions of the Union, the concept of the Common Market and the Four Freedoms, the sphere of Union law and policy, judicial review of Union acts, the reception of Union law in the member states and the relationship between the Union and its members.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0454. Commercial Finance Trans. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0455. Economics of Divorce. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0456. Adv Evidence: Scientific. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0457. Business Torts. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0458. Dignitary Harms. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0459. International Commercial Mediation and Arbitration. 2 Credit Hours.**

This course focuses on the law and practice of international commercial arbitration, including the creation and operation of international arbitration tribunals as well as the role of nations in compelling, facilitating, and enforcing arbitral awards. Special attention will be given to issues involving jurisdiction, choice of law, arbitration clauses in international transactions, presentation of cases before arbitral tribunals, cases on arbitrations and the relationship between international arbitration and court systems.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0460. Trial Advocacy I. 2 Credit Hours.**

Trial Advocacy I is part of the Integrated Trial Advocacy Program (ITAP), a two semester, ten credit course package. ITAP combines Evidence, Civil Procedure II and trial advocacy skills. Taken in the fall along with Evidence and coupled with the spring courses of Civil Procedure II and Trial Advocacy II, Trial Ad I introduces the student to the basic skills of analyzing a trial file, examining witnesses, making and meeting objections and offers of proof, introducing exhibits, and delivering opening statements and closing arguments through a "learning by doing" or student performance format. Trial Ad I has a decidedly criminal trial advocacy orientation. The course culminates with students trying a mock criminal jury trial. Particular attention is given to the interplay between the law of evidence and the art of trial advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: L2LAWF, L3LAWP.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0461. Trial Advocacy II. 3 Credit Hours.**

Trial Advocacy II is part of the Integrated Trial Advocacy Program (ITP), a two semester, ten credit course package. See the description for Trial Advocacy I (Law 460) for further information. Taken in the spring along with Civil Procedure II, this course builds on the skills developed in Trial Advocacy I with particular attention paid to witness impeachment, the examination of expert witnesses, and the integration of a case theory into each aspect of trial performance. Trial Ad II has a decidedly civil trial advocacy orientation. Students will conduct depositions, argue motions and try a minimum of two mock civil lawsuits.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0460, JUDO 0517 (may be taken concurrently), and JUDO 0540)

**JUDO 0462. Transactional Practice I. 2 Credit Hours.**

This course is part of an innovative course package entitled "Integrated Transactional Practice" which combines Trusts and Estates, Professional Responsibility and transactional skills, such as interviewing, negotiation, counseling and drafting into a two-semester, ten-credit sequence. The course centers around six realistic client files which involve one family (except for a single pro bono matter). The simulation course work with these clients occurs in the two skills sections, of which Transactional Practice I is part. This includes counseling the mother regarding the disposition of shares of a family business under her will, negotiating and selling a piece of property from an estate, and selling the entire family business. Along the way, one of the children gets married and the mother seeks to persuade him to negotiate a prenuptial agreement, and later the son organizes a charitable business and has to face an IRS agent in an examination of organizational activities.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: L2LAWF, L3LAWP.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0463. Transactional Practice II. 2 to 3 Credit Hours.**

Transactional Practice II is part of the Integrated Transactional Program (ITP), a two semester, ten credit course package. See the description for Transactional Practice I (Law 462) for further information.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0462, JUDO 0602, and JUDO 0416 (may be taken concurrently))

**JUDO 0464. Draftng Solutn-Contracts. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0465. Affirmative Action. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0466. Intrnl Environmental Law. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0467. International Intellectual Property. 2 to 3 Credit Hours.**

Once thought of as a "niche" course taught in a few law schools, international intellectual property is rapidly becoming a staple of law school's intellectual property curriculum. International Intellectual Property is in many ways similar to, and in many ways different than, the United States' intellectual property law, which students study in an Introduction course. International intellectual property is similar because of the same intellectual property regimes, namely, copyrights, trademarks, patents, and trade secrets. Students will therefore see many of the same underlying principles and theories seen in the U.S. intellectual property course. This is not unexpected as other countries' intellectual property laws are similar to if not based on the U.S. laws. On the other hand, international intellectual property law is different because many more countries' intellectual property laws are not based on U.S. intellectual property law and are, indeed, vastly different than U.S. law. This is, in many ways, the fascinating part of international intellectual property law. This aspect involves not only understanding, but truly appreciating why each country has different laws. Each country has different histories, traditions, levels of economic and technological development, and has very different goals and abilities. We will explore these differences and what they mean for attempting to harmonize global intellectual property. Even more so than as with domestic intellectual property, international intellectual property law raises difficult questions about the relationship between citizens and government in a democracy; how we go about promoting progress and encouraging economic and technological progress; and the role of the courts and legislatures in determining who decides these issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0468. Consumer Bankruptcy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0469. Spoken Language/Legl Pro. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0470. Intl Negotiatn/Arbitratn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0471. Patent Prosecution. 2 Credit Hours.**

This course will focus on the legal issues that arise during the process of drafting patent applications and negotiating with patent examiners over patent validity. We will look at the prosecution history of a single successful patent application, and examine the kinds of decisions that the prosecuting attorneys were called upon to make and the ways in which questions about patent law, patent licensing, and the enforceability of patents and possible litigation concerns, help to shape the prosecution process.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547 and (JUDO 0552 or JUDO 0940)

**JUDO 0472. Patent Litigation. 2 Credit Hours.**

This course will address the manner in which patent cases are litigated, with special emphasis on a number of special issues that frequently arise in that context. Topics to be covered include preparation and content of the complaint and answer, discovery, the role of expert witnesses, preliminary injunctions, claim construction "and the "Markman hearing," proof of infringement and" damages, jury instructions, and appeals. There will be a number of hands-on exercises and a final examination.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547 and JUDO 0552.

**JUDO 0473. Biotechnology Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0474. Adv Patent Litigation. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0475. Adv Copyright Issues. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0476. Business Intellectual Property. 2 to 3 Credit Hours.**

The objective of this course is to address various intellectual property issues businesses may face when developing and selling products. Intellectual property is one of the most expensive capital outlays for many organizations today and this course will focus on business-to-business transactions and how IP issues affect different organizations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0477. Advocacy in Transactional Lawyering. 2 to 3 Credit Hours.**

This course offers advocacy techniques for those who anticipate practice in a non-litigation setting. Students work with the basic principles of advocacy that apply in various situations likely to be encountered in transactional and hybrid practice settings. Elements include theory and psychology of persuasion; rhetoric and argument devices, and communication skills. The course offers some exposure to the basics of questioning techniques and short arguments on the premise that non-litigators will need to appear in administrative settings (hearings and group presentations). The negotiation process is analyzed, with emphasis on advocacy techniques that can be employed along the way. There are readings, lectures, learning-by doing exercises, and review of videotapes. Grading is based on an accumulation of performance results and written submissions. The lawyering situations to be addressed in this course include: advising the client, and persuading why a particular course of action is in the client's best interests; negotiation - planning and use of techniques in the stages of the process; supporting a work product - making the oral presentation of an assignment; building cooperation in work groups - using brainstorming and other leadership techniques; marketing - basic theory/psychology of "selling", using practice anecdotes to understand storytelling technique; essentials of advocacy at administrative hearings; crossover - common characteristics of effective written and oral advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0478. Introduction to Privacy Law. 2 to 3 Credit Hours.**

Information law deals with the flow of information - when do you restrict information and when do you let it flow? During this course, students will examine information privacy legal principles related to electronic surveillance, the media, anonymity, databases, genetic testing and neuroimaging, terrorism and national security, public and private sector information and home, school and work.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0479. Appellate Advocacy. 2 Credit Hours.**

The purpose of this course is to provide guidance to students concerning how to handle an appeal in the federal and state courts on a practical level. Toward that end, the class will attend two or three sessions of oral arguments at the United States Court of Appeals for the Third Circuit, the Superior Court of Pennsylvania and/or the Commonwealth Court of Pennsylvania. We will meet with judges of those courts who will hopefully attend our classes and provide illumination as to what we have observed in court. Experienced appellate advocates will appear as guest lecturers to provide us with the benefit of their experience and to share their knowledge and skills with the class. The instructor will provide the latest updates in appellate law and practice on a weekly basis. The class will use Judge Ruggiero Aldisert's leading text in this field, "Winning on Appeal," and there will be supplemental readings pertinent to this topic. There will be no written examination; however, the class will be provided with a transcript of a real trial and will be required to submit an appellate brief and thereafter to argue the case as if they were before an appellate court. Students will be judged on classroom participation, the written brief and those oral arguments.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0480. Securities Litigation and Enforcement. 3 Credit Hours.**

This course surveys a broad range of materials concerning theoretical and practical aspects of complex federal securities litigation and enforcement. It addresses actions and issues as they are likely to arise in actual securities litigation, such as class action securities fraud lawsuits, insider trading litigation, Securities Exchange Commission administrative proceedings and Department of Justice criminal prosecutions. This course is designed to be accessible without any prior familiarity of securities regulations, however, it does analyze conceptual subtleties, doctrinal nuances and practical issues that students are unlikely to have previously encountered in their securities regulations course. Finally, this course also provides all of the necessary financial economics background for securities litigation and enforcement in terms of an overview of capital markets efficiency and behavioral finance, which applies insights of empirical and experimental research in psychology and neuroscience to understand actual financial economic behavior.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0481. Environmental Law/Policy. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0482. Commercial Bankruptcy Practice and Procedures. 2 Credit Hours.**

Bankruptcy is an important component of commercial and business law that blends transactional and litigation practice, and requires lawyers with strong drafting, negotiating, and oral advocacy skills. This course is a general introduction to bankruptcy practice and procedures with principal emphasis on commercial reorganizations and liquidations under Chapters 11 and 7 of the Bankruptcy Code. The course will consist of lectures and discussions of problems and contemporary case studies designed to examine the law and policy of commercial bankruptcy, the powers and authority of bankruptcy courts and various practical and ethical issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0483. Transnational Insolvency. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0484. Global Climate Chng Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0485. Drug Products Liability. 2 Credit Hours.**

This course develops an understanding the interrelationship between drug products liability, professional malpractice, and hospital negligence. This course will explore the evolution of therapeutic drugs and devices from the manufacturer's submission of the Application to the FDA through the approval of the Application to the marketing and prescription. The course will then explore the role of the FDA, pharmacists, physicians, and hospitals in the delivery of therapeutic drugs and devices to the consumer, and their respective obligations to the consumer. In that regard, this course will examine the federal Food, Drug, and Cosmetics Act, as well as many other complex legal and ethical theories applicable to drug and medical devices manufacturers, pharmacists, physicians, and hospitals in their therapeutic drug and devices interactions with the consumer. Currently publicized incidents such as problems with the Jesse Gelsinger gene therapy at the University of Pennsylvania, and others will be dissected within the context of both products liability and professional malpractice law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0486. Law and Economics. 2 or 3 Credit Hours.**

This course's aim is to introduce students to the basic analytical construct of the economic analysis of law. Attention will also be given to the fundamental criticisms of this construct derived from recent scholarly exchange, including those flowing from new behavioral research.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0487. Adv Case Law Methods. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0488. Legsltv-Regulatory Advncy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0489. Corruption Law and Policy. 2 Credit Hours.**

This course will examine the phenomenon of public corruption. We will use recent and current corruption prosecutions -- from federal officials and lobbyists in Washington to local public officials and employees in the region -- as the focal point for discussion of the nature of public corruption, its costs, and efforts to combat or curtail it. Much of our focus will be on enforcement tools, including both relevant federal criminal statutes and investigatory techniques. The reading materials for this course will be reported decisions, law review articles, newspaper reports, indictments, briefs, and other court records from relevant cases.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0490. Doing Business on the Internet: The Law of E-Commerce. 2 to 3 Credit Hours.**

This course will focus on key issues confronting businesses as they migrate to an electronic environment. The course will examine the problems confronting the application of existing law to on-line commerce and then explore possible solutions to those problems. Authentication and integrity issues in cyberspace, electronic contracting, click wrap contracting, warranty liability in cyberspace, controlling the use of information in cyberspace, electronic payment models, marketing on the Internet, data security and privacy issues, data mining - using customer information/lists, social networking and e-commerce, protection of intellectual property rights, raising capital in high-tech businesses, taxation of electronic commerce and negotiability in electronic commerce are examples of topics that (time permitting) will be covered. The course will be "reality based": students will get hands-on experience with actual contracts and other materials in this field.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0491. Law & Higher Education. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0492. Gaming Law. 2 Credit Hours.**

This course will explore the constitutional and statutory basis for gaming; the regulatory structure to license and control gaming; legal issues involving Indian, shipboard, charitable and internet gaming; and the rights of patrons and licensees who frequent and work in casinos.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0493. Constitutional History. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0494. Advising the Multinational Company on Global Legal Issues. 2 or 3 Credit Hours.**

This interactive and participatory course is intended to provide a survey of the types of issues confronting lawyers, and particularly in-house lawyers, who advise multinational corporations on a worldwide basis. The areas to be discussed include topics that will cross corporate law, tax law, labor and employment law, employee benefits, litigation and corporate compliance. Real life examples will be used to illustrate the complicated nature yet importance of this type of practice. Further, in addition to the more substantive legal topics to be covered, the course will also be interspersed with practice tips, jurisdictional practice highlights and ethical considerations for the multinational practitioner. The success of the course depends highly on each class member coming to class prepared, and more important, on each class member participating in our discussions. Because of this, class participation will account for 30% of the final grade. The remaining 70% of a student's grade will be based on a final paper and presentation (weighted equally). Note: This course does not satisfy the graduation writing requirement.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0495. Family Law: Theory/Policy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0496. Legal, Professional and Business Aspects of Law Practice. 2 Credit Hours.**

This course focuses on the economics, ethics and practice management aspect of the law. It will introduce students to "life in a law firm" through the following concepts: Economics of Law Practice, Time Management, Client Development, Ethics of Practice. Each of these four general areas will receive roughly equal treatment during the course. In addition, the ethics component will overlay the other three areas in order to describe how the Rules of Professional Conduct govern the provision of legal services. Class sessions will include guest presenters who will discuss issues within their areas of expertise and work with students on real-world problems. Students will work in "law firms" of several students and will develop their own structure and organization, two-year financial projections, staffing patterns, administrative and management plans, practice systems, and marketing and business development strategies and tactics. Students will complete projects based on challenges that today's law firms and law departments face and present their projects to the entire class for discussion and critique. Class size will be limited.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0497. International Health Law. 2 Credit Hours.**

This course examines the many treaties, institutions and customs that govern how health is protected and promoted in the international system. Specific topics will include communicable disease control (e.g., SARS), chronic disease control (Framework Convention on Tobacco Control), international human rights and health, access to medicines (e.g., the TRIPS Agreement), the institutional structure of global health governance (World Health Organization, Global AIDS Fund), and health-related business regulation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0498. Election Law. 2 to 3 Credit Hours.**

Elections in the United States are largely governed by state law and, in a few instances, local law. However, there is a body of federal law, deriving from the Constitution and a number of federal statutes, that establishes rule rules for the conduct of elections. It is not possible, nor is it likely to be helpful, to review the vast array of state and local laws that govern most of the American electoral system. This course is therefore largely devoted to the federal law aspects that create the sometimes dense, sometimes porous framework for the conduct of American elections. Special attention is given to the constitutional aspects of federal election law as defined by the Supreme Court and, occasionally, by lower courts; but in several sections of the course there is attention to federal statutes and regulations. At a conceptual level, the course also inquires about the nature of representation and what inferences for election law might be drawn from different concepts of representation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0499. Constitutional Litigatn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0500. Admiralty. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0501. Adv Crim Pro: Defense. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0502. Criminal Law II. 3 Credit Hours.**

This course examines several aspects of substantive criminal law not covered extensively in Criminal Law I. Some of these subjects involve the interplay of substantive criminal law with constitutional issues, with evidentiary issues, and with procedural concerns -- all of which can better be brought to bear in an advanced course. Possible topics includes: limitations on what conduct should be criminalized; proportionality and legality limits; group criminality (advanced concepts involving corporate liability and conspiracy); exculpatory defenses based on mental illness and more recently developed defenses; entrapment; and an extensive examination of selected crimes such as rape and the theft related offenses.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0503. Criminal Appellate Procedure. 2 to 3 Credit Hours.**

The major focus of this course is on the procedures and rights involved in the appeal of a criminal case. (Many of these procedures are similar to those in civil cases.) Attention is given to understanding the implication of appellate rules for the trial of a case. The role of the appellate courts, as well as of appellate attorneys, is also examined. That portion of the course dealing with prosecutor appeals affords an opportunity for an extensive examination of important aspects of double jeopardy. Some brief attention also may be given to various forms of "collateral attack" litigation and post-verdict trial court motions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0504. Antitrust. 3 Credit Hours.**

The relevant federal statutes which regulate the competitive process and their interpretation by the courts are considered. Classroom discussion also covers the policy rationale for such regulation and economic conditions are examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0505. Criminal Procedure II. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0506. Banking and Financial Reg. 2 to 3 Credit Hours.**

This class will provide students with corporate, regulatory, or litigation backgrounds with a rich understanding of the increasingly complex interaction between state and federal regulations (designed to promote efficiency, growth and fairness) and our nation's complex web of money moving institutions (banks, credit card companies, investment banks, S&L's, credit unions, brokerage houses, pay-day loan shops, etc.).

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0507. Condominiums & Cooperatives. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0508. Corporations. 3 Credit Hours.**

This course is an introduction to the law and policy governing corporations. Corporations are legally created entities designed to facilitate accumulation of large amounts of capital (that is money and other things of value). They do so primarily by offering investors the opportunity of a financial return on their investment, without the requirement to undertake financial risk (above the amount invested) or responsibility for managing the enterprise. Thus, corporations permit passive investment and the separation of ownership and control. Most of the law governing corporations are designed to regulate the relationships between owners (equity investors) and managers and to provide rules to govern managers in the exercise of power over actions of the company.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0509. Comparative Constitutional Law. 3 Credit Hours.**

This course will engage in a comparative study of selected constitutional problems, with particular emphasis on the constitutional law of the United States in comparison and contrast with the constitutional law of various other democratic nations, including the European Union and its constituent states, Australia, Canada, India, Israel, Japan, South Africa, and others. Topics will include issues of constitutional structure (e.g., judicial review, separation of powers, executive authority, federalism) as well as human rights in such contexts as abortion, criminal punishment, gender equality, sexual orientation, protection for linguistic and cultural minorities, freedom of expression, and freedom and establishment of religion.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0510. Business Planning. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0511. Corporate Taxation. 2 to 3 Credit Hours.**

This course provides an overview of the taxation of corporations and their shareholders. It examines the concept of a corporation for tax purposes, corporate formations, debt versus equity, dividends and distributions, penalty taxes on undistributed income, redemptions and partial liquidations, Section 306 stock, liquidations, collapsibility, reorganizations, corporate divisions, affiliated corporations and corporate tax attributes.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0512. Social Science Methodology. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0513. Aviation Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0514. Intl Commercial Trans. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0515. Media and Telecommunications Law. 2 to 3 Credit Hours.**

This course will examine the regulation of electronic communications in the United States. The course will focus on the media, telephone, cable, broadcast, satellite, and Internet industries - industries that are rapidly changing, highly competitive, and significant drivers of economic growth. We will examine traditional regulatory frameworks, the manner in which technology is challenging these frameworks, and the regulatory response to these changes in technology. Some of the issues that will be considered are questions of market entry, access, pricing, and content.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0516. Comparative Law: Africa. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0517. Civil Procedure II. 2 to 3 Credit Hours.**

The litigation process from the pleading stage through appellate review is thoroughly studied. Areas covered in detail include: pleading, complex multi-party litigation (class actions, necessary parties, inter-pleader, intervention, multi-district litigation); discovery practice; pre-trial conference; trial and post-trial procedures; fundamentals of appellate review, securing and enforcing judgments; and problems of judicial administration.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0518. Comparative Law. 2 or 3 Credit Hours.**

A study of the origins, structure and distinctive features of the two main legal traditions of Western Civilization - the Civil Law and Common Law traditions - and their influences on selected national legal systems around the globe.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0519. Custom-Common Law-Africa. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0520. Adv European Union Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0521. Com Law: Dispute Settlement. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0522. Conflict of Laws. 3 Credit Hours.**

This course studies problems of jurisdiction and choice of law arising from our federalist system of government. The course emphasizes conflicts among state laws governing daily transactions as well as principles governing enforcement of state judgments. The course may also investigate issues implicating the Erie doctrine and federal common law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0523. Partnership Taxation. 2 to 3 Credit Hours.**

The purpose of the course is to provide students with a basic understanding of the taxation of business entities under Subchapters K of the Internal Revenue Code. The focus of the course is on the relationship between a "pass-through" business entity and its owners. Consequently, in looking at the tax implications of business operations, this course will focus on the partnership and, in particular, its partners. In doing so, it will survey issues pertaining to the formation, operations, distributions, and liquidation of partnerships.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0524. Consumer Law and Litigation. 1 to 3 Credit Hour.**

Through lecture, class discussion and case problems, this course will examine federal and state statutes, regulations and judicial decisions governing consumer financial transactions. The primary focus will be on the litigation of disputes in this area. Significant attention will be paid to the emerging problem of theft of credit identity. The course will be permeated with actual consumer problems and contracts, with emphasis throughout upon case strategy and the impact of federal procedure on gaining advantage in litigation. Time will be devoted to trial issues that arise in a consumer case, especially with regard to voir dire and opening statements.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0525. Corporate Finance. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0526. State Constitutional Law. 3 Credit Hours.**

This course emphasizes the following topics: the role of state constitutions in the federal system; state constitutional protections of individual liberties; interpretation of state constitutions; separation of powers; the judicial, legislative and executive branches of state government; finance and taxation; and amendment and revision of state constitutions. Up to one half of the final grade in this course will be based on a ten to twelve page paper selected by the student from the topics covered in the course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0527. China/Bus WTO Regime. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0528. Corporate Reorganization: Chapter 11 Bankruptcy. 1 to 3 Credit Hour.**

This course examines selected matters under Chapter 11 of the Bankruptcy Code. It will address both process and substantive law, as well as practical considerations, most recent decisional law developments and proposed Bankruptcy Code reforms.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0529. Adv Con Law: Equal Protct. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0530. Bankruptcy. 3 Credit Hours.**

Our basic Bankruptcy course is designed to give you a good grounding in the Bankruptcy Code and the associated law governing the enforcement of civil judgments. The course focuses on personal (rather than business) bankruptcy. It deals with the structure of the Bankruptcy Code and the costs and benefits the process represents to those who become involved with it either as debtors or as creditors. This simpler context of personal bankruptcy will allow you to absorb complex policy issues more readily than would an earlier foray into the bankruptcy of businesses. Business bankruptcy, by itself, is sufficiently complex to support its own course (Chapter 11 Reorganization) for students already versed in basic bankruptcy and corporate law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0531. Corrections Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0532. Criminal Procedure I. 3 Credit Hours.**

This is a basic criminal procedure course, dealing mainly with the various constitutional rules governing police conduct prior to the institution of formal court proceedings. The major focus is on the federal constitutional rights and restrictions imposed by the Fourth, Fifth, Sixth and Fourteenth Amendments. Searches and seizures, police interrogation, identification procedures and the exclusion of evidence obtained in violation of these provisions account for a substantial portion of the course. Some additional matters are covered, including some aspects of the formal court-connected proceedings and the basic principles of habeas corpus.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0533. Com Land Use & Envrnmnt. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0534. Education Law. 2 Credit Hours.**

This course surveys a range of legal issues affecting children in our nation's elementary and secondary schools, with considerable emphasis on policy and on problems of equal educational opportunity. Topics include the differing legal frameworks applicable to public, private and religious schools; the right, if there is one, to a quality education; issues of racial and class disparity; the education of students with disabilities, English language learners, and others with special needs; freedom of expression in schools; school discipline; and school finance equity.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0535. Entertainment Law. 2 Credit Hours.**

This course deals with selected legal issues which affect persons active in various aspects of the entertainment industry. These include pertinent contract, copyright, business association, securities regulation, communications and tax law issues. Special emphasis is given to the theater and to the recording and television industries.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0536. Environmental Law. 3 Credit Hours.**

Private law remedies, administrative and legislative regulatory schemes to control use and abuse of environmental resources are examined. Principal emphasis is placed on air and water allocation in a federal setting and national environmental policy is reviewed.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0537. Employment Discrimination. 2 to 3 Credit Hours.**

The course covers race, sex, age and handicap discrimination in employment. The historical antecedents to modern discriminatory practices and early 19th and 20th century legislative and judicial efforts to curb discriminatory practices are studied, as well as the various federal statutes and Executive Orders establishing non-discrimination and affirmative action obligations and the source of congressional and executive authority to prescribe these rules. Also covered are the non-discrimination obligations imposed by and the affirmative action activity permitted by the Fourteenth Amendment to the United States Constitution and other relevant constitutional issues, including those arising under the Tenth and Eleventh Amendments.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0538. Estate Counseling. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0539. Adv Evidnc: Prsmpt/Con Lmt. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0540. Evidence. 3 Credit Hours.**

An examination of the rules governing the use of evidence, including problems of relevancy, hearsay, impeachment, burden of proof, presumptions and the function of judge and jury.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0541. Adv Evidence/Trl Tactics. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0542. Federal Courts and Jurisdiction. 3 Credit Hours.**

This course analyzes the constitutional and statutory contours of procedure and jurisdiction in the United States courts. Course materials address the role of federal courts in protecting federal rights and supervising state governments. Topics may include justiciability (including doctrines of standing, mootness, ripeness and political questions); congressional control of jurisdiction; legislative or Article I courts; federal questions; federal common law; diversity jurisdiction; supplemental jurisdiction; state sovereign immunity under the Eleventh Amendment; habeas corpus; civil rights suits under 42 U.S.C. 1983; and abstention.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0543. Federal Practice. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0544. Estate and Gift Taxation. 3 Credit Hours.**

The federal estate and gift tax principles which apply to inter vivos and testamentary transfers of property are examined in this course. Tax consequences of various dispositive devices will be considered together with the marital deduction, the charitable deduction and valuation problems. The generation-skipping tax will be introduced.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0545. Intrnl Contrl Environmnt. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0546. Food and Drug Law. 2 Credit Hours.**

The governance of interstate and intrastate commerce in foods, drugs, cosmetics, medical devices is studied. Emphasis is placed upon the effect of the Federal Food, Drug and Cosmetic Act upon the research, manufacture, marketing and distribution of drugs through the regulatory activities of the federal agencies. Through illustration, case study and comparison, other articles and pertinent state laws and agencies are also considered.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0547. Introduction to Intellectual Property. 3 Credit Hours.**

This course will cover the broad outlines of the four major branches of intellectual property law: patent, copyright, trademark, and trade secret law. Time permitting; the course also will look at the emerging doctrine of "misappropriation" as applied to intellectual property. The course will look generally at why (and how) intellectual property law differs from the law governing real property or tangible personal property, as well as at the special features of each of these sub-fields of intellectual property law. The course should provide a helpful overview of this area of the law for students who do not plan to specialize in intellectual property, as well as providing those who plan to go on to more detailed study of, and practice in, this area with an introductory exposure to the kinds of problems that are common to all intellectual property disciplines.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0548. Housing Law. 2 to 3 Credit Hours.**

Like many cities across the country, Philadelphia faces an eviction crisis. Court filings underestimate the problem, as illegal evictions occur outside of the judicial system. Low-income households headed by Black women with children are disproportionately impacted. This course will explore how we got here and efforts by Philadelphia government and legal non-profits to reduce evictions and maintain stable households and neighborhoods.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0549. Insurance Law. 2 to 3 Credit Hours.**

Insurance contracts, types of coverage, insurable interests, beneficiary rights, creditor and assignee rights, powers and duties of insurer and insured are examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0550. Immigration Law. 3 Credit Hours.**

The course provides a detailed overview of the laws which enable individuals to enter, reside in and ultimately become citizens of the United States. Among the topics discussed are: U.S. immigration policy and the limits of legislative and executive regulation of individuals, racial and geographic quotas, types of visas, arrest, detention, grounds of excludability of individuals and of waiver of excludability, political asylum and refugee admission, processing of relative and employer petitions, change of status within the U.S., administrative procedures and appeals, nationality by birth and by naturalization, revocation and expatriation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0551. Trademarks and Unfair Competition. 2 Credit Hours.**

Addressing both theoretical and practical issues, this course combines a traditional law school examination of common law and statutory principles with a "real world" application of those principles as a practitioner sees them. The principles include unfair competition topics such as the right of publicity, misappropriation of trade values and trade secrets, regulation of false and deceptive advertising, and interference with contract and trade relations. The principles focus, however, on trademark law topics such as the creation and maintenance of trademark rights, infringement of trademark rights and dilution, special defenses and limitations, and remedies. These topics are examined in light of modern advertising and marketing practices, including special issues raised by the Internet and international considerations. Among the more practical aspects covered are the federal trademark registration process, proceedings before the Trademark Trial and Appeal Board of the U.S. Patent and Trademark Office, and highlights of trademark litigation in the courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0552. Patent Law. 2 to 3 Credit Hours.**

This course provides an extended introduction to United States patent law. Topics covered include the patenting process, patent-eligible subject matter, patent validity requirements, patent infringement, and the nature of rights secured by a patent. The course also briefly examines trade secret law, and discusses the relationship between, and the relative advantages and disadvantages of, patent and trade secret law for protecting intellectual property rights in inventions and discoveries. This course will provide a broad overview of the law and policy of the U.S. patent system. Topics to be covered include the nature of patentable subject matter, the standards for assessing patent validity (novelty, utility, and non-obviousness), Patent Office procedures, infringement and the doctrine of equivalents, and remedies for patent infringement.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0553. Copyrights. 2 to 3 Credit Hours.**

The goal of this course is to introduce students to the basics of US copyright law. Without detracting from this goal of covering the (domestic) copyright basics, we will also look at these issues in the specific context of these new technologies and the growing internationalization of copyright law, in order to introduce you to some of the problems that are likely to arise as copyright law enters the next century. Topics to be covered include the subject matter of copyrights, copyright ownership, the scope of copyright protection, the nature of the copyright infringement inquiry, the "fair use" and other defenses, and selected issues concerning the international enforcement of copyrights.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0554. International Investment and Trade Policies. 3 Credit Hours.**

This course focuses on the law of international investments and trade policy and covers the nature of the international investment transaction and the various forms of regulation thereof. The course will also consider national governmental policies dealing with trade and the restriction thereof.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0555. Environmental Law Problm. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0556. International Law. 3 Credit Hours.**

The role of authority in the decision-making processes of the world community is studied. The process by which international law is made and applied and the public order established is examined. The interrelationships (legal, power, economic, human) of groups organized on a territorial-state basis are examined in context. Traditional topics in private and public international law are included.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0557. Interviewing, Negotiating and Counseling. 1 to 3 Credit Hour.**

An in-depth study of three pre-litigation lawyering skills is provided. Readings include legal and non-legal materials on interpersonal relationships. Students engage in video and audio-tape simulation exercises.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0558. Introduction to Trial Advocacy. 3 Credit Hours.**

Armed with the prerequisite, Evidence, this course introduces the student to the law of trial advocacy. "In a "learning by doing" or student performance format," students are taught the basic trial advocacy skills of making and meeting objections, direct and cross examination, introducing and opposing exhibits, impeachment of witnesses, examination of experts, and delivering opening statements and closing arguments. Students are placed in performance sections which are capped at 12 and attend a weekly lecture or demonstration geared to the weekly assignment. Students must sign up for both a two-hour performance section and the one-hour lecture section. Successful completion of ITA meets the advocacy requirement for clinicals.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0540.

**JUDO 0559. Jurisprudence. 2 Credit Hours.**

This course will explore the Natural Law and Natural Rights traditions in Western Thought.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0560. Juvenile Justice. 2 to 3 Credit Hours.**

Students will examine how the law, and particularly Supreme Court jurisprudence, treats juvenile offenders in both the juvenile justice and adult criminal justice systems. Students will begin by learning about the history of the juvenile justice system. They will then consider the case law governing the stages in delinquency proceedings, from interrogation through sentencing. Students will consider and analyze how juvenile offenders are treated differently from adult offenders and the implications for legal advocacy. Particular attention will be given to emerging research on adolescent development and its influence on juvenile law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0410 and JUDO 0532 (may be taken concurrently))

**JUDO 0561. Public Employment Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0562. Labor Law. 3 Credit Hours.**

The employment relationship in a unionized context is examined. Strikes, picketing, secondary boycotts, injunctions and employer and union unfair labor practices are studied. The National Labor Relations Board's function as an administrative agency is emphasized.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0563. ATA/Persuasion Elements. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0564. Land Use Planning. 3 Credit Hours.**

Land use law focusing on zoning, including the traditional elements such as spot zoning, variances, special exceptions, planned unit developments, as well as the emerging law of exclusionary zoning, zoning to control perceived undesirable uses of land such as adult book stores played off against First Amendment rights, damage actions under Sec. 1983 for land use decisions by local government, subdivision process and substance, eminent domain and some emphasis on historic preservation, private land use controls such as covenants and easements and nuisance principles.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0565. Advanced Trial Advocacy (Criminal). 3 Credit Hours.**

This course is designed to provide an in-depth understanding of the criminal trial process from initiation of charge through verdict. Intensive examination of case theory as it relates to all phases of the trial will be stressed. In addition to trying two complete jury trials, students will perform at preliminary hearings and motions to suppress. Special emphasis will be placed on the examination and cross examination of experts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0410, JUDO 0532, and JUDO 0540) and (JUDO 0558 or (JUDO 0460 and JUDO 0461))

**JUDO 0566. Mental Health Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0567. Law Science & Technology. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0568. Family Law. 3 Credit Hours.**

The role of the family and its connection with the legal system is considered, including the law pertaining to marriage, annulment, divorce, support and maintenance of the wife, children and other relatives, separation agreements, child custody, guardianship, status of wife, business transactions, property rights of husband and wife and intervention of the legal system in family affairs.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0569. Advanced Trial Advocacy (Civil). 3 Credit Hours.**

This course provides an intensive examination of the theory and practice concerning the examination of witnesses and the boundaries of "Relevant Evidence" with the primary focus on selected topics of impeachment and rehabilitation. The course is designed to provide an in-depth understanding of the trial process system from the perspective of the courtroom lawyer, an ability to perform certain trial skills within the ambit of witness examination and an analysis of trial tactics and techniques as well as trial rules and procedures. Articles VI and IV of the Federal Rules of Evidence are studied in-depth and explored in their application to the courtroom experience.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in ((JUDO 0540 and JUDO 0558 (may be taken concurrently)) or (JUDO 0460 and JUDO 0461 (may be taken concurrently)))

**JUDO 0570. Accounting for Lawyers. 2 Credit Hours.**

The course is designed to simplify the accounting process and instill confidence in students that they can handle situations where accounting and finances come into play. The course will explain the accounting process from original entry to the production of financial statements; it will critically examine evolving accounting standards and procedures; students will learn to analyze financial statements; the importance of the time value of money, and the various liabilities that will be of importance to them; and accounting problems. Finally, students will learn about accounting systems and the importance of internal control. The course is designed for students who have no previous study of accounting but who plan to engage in commercial, corporate, tax, or any legal practice where finances are an issue.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0571. International Taxation. 2 or 3 Credit Hours.**

This course on the fundamental concepts in the taxation of transnational transactions covers basic issues involved in both the taxation of the foreign operations of United States taxpayers (outbound transactions) and the United States taxation of income received by foreign individuals or entities (inbound transactions). Thus, the course will address questions of jurisdiction to tax, source of income, the foreign tax credit, tax treaties, the effect of currency fluctuations and, of course, the operations of the controlled subsidiaries of United States corporations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0572. Intl Tax Joint Ventures. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0573. State/Local Tax Finance. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0574. Local Government Law. 2 to 3 Credit Hours.**

This class, like most Local Government Law classes, will focus on the relationships between (1) cities (and other local government units, such as counties and towns) and (2) superior governmental units (the federal and state government) and citizens; the law governing these relationships; and the law governing the internal workings of local government units.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0575. Legislation. 3 Credit Hours.**

Aspects of the legislative process most significant for the practicing lawyer are considered. The course begins with introductory materials on the structure and function of the legislative process as compared and contrasted with the judicial process. The bulk of the course is devoted to a thorough examination of the main approaches to statutory interpretation: statutory text; legislative intent; purpose and contexts as revealed in legislative history; and the canons of statutory construction. The topics of judicial deference to administrative interpretation and clear statement rules will also be thoroughly canvassed.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0576. Payment Systems. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0577. Business Taxation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0578. Political and Civil Rights. 3 Credit Hours.**

Civil rights and individual freedoms under the First and Fourteenth Amendments are examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0579. Contractual Relations. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0580. Legal Advocacy/Soci Chng. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0581. Adm Pro: Grants/Benefits. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0582. Products Liability. 2 to 3 Credit Hours.**

Problems arising from the research, manufacture, marketing and advertising of a wide variety of products available to the consumer are used to provide basic understanding of the determinants in prosecution and defense of products liability claims sounding in contract or in tort, breach of warranty, fraud, misrepresentation. Pertinent statutory and case materials are examined as a basis for both counseling and conduct of litigation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0583. International Protection of Human Rights. 2 Credit Hours.**

This course is designed as an introduction to issues of law, policy and institutional machinery for the promotion of human rights in the world community. The course will focus first on 20th century genocide against the Armenians and Jews and then study the following problems: (1) Are nations bound by human rights laws (such as treaties, customary international law, U.N. Charter, European Convention, etc.). (2) Are the courts of a nation so bound. (3) Where there is violation of human rights law, when and under what circumstances may diplomatic intervention, economic sanctions and/or military force be used to redress the wrongs or to cause compliance with human rights guarantees.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0584. Public Utilities. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0585. Racism & Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0586. Real Estate Development Finance. 2 Credit Hours.**

This course looks at the law and economics involved in commercial real estate projects from start to finish, including an examination of some of the practical considerations inherent in the development and financing of commercial real estate.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0587. Real Estate Transactions. 2 Credit Hours.**

The essentials of land transfer with emphasis on agreement of sale, deed, title examination, rights and remedies of all parties are studied. Financing and relevant tax considerations are given limited attention.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0588. Remedies. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0589. Secured Transactions. 2 to 3 Credit Hours.**

Creation, perfection and enforcement of security interests in personal property under Article Nine of the Uniform Commercial Code. A major component of this offering concerns the interaction of Article Nine with the Federal Bankruptcy Law and the effect of the bankruptcy law upon a lender's decisions and expectations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0590. Securities Regulation. 3 Credit Hours.**

Federal and state regulation of the sale, distribution and trading of securities, including an inquiry into the liabilities of officers, directors, attorneys and accountants, is studied.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0591. Social Legislation: Law and the Elderly. 3 Credit Hours.**

This course examines the specific programs and the implications of social politics and principles that affect the elderly. Topics to be considered include public entitlements/benefits programs, income maintenance, health care, guardianship and long term care.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0592. State & Local Taxation. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0593. Product Safety. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0594. Status & Process. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0595. Econ/Stat Experts Litgtn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0596. Adv Crim Pro Corr & Sanct. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0597. Adv Business Taxation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0598. Real Estate Problems. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0599. Mass Media-Law of Torts. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0600. Taxation. 3 Credit Hours.**

This course will introduce you to the principles, policies and structure of the federal income tax system. Basic concepts relating to income taxation including gross income, exemptions, deductions, capital gains and losses, and the splitting of income are studied. You will learn who is taxed, what they are taxed on, how much they are taxed, and when they are taxed by studying both the Internal Revenue Code and the judicial and administrative pronouncements that interpret it. You will have the opportunity for detailed examination of the interaction between the three branches of government because the legislature (Congress) writes the statute, the executive (Treasury and IRS) interprets and administers it and the judiciary (the Tax Court and the Federal courts) settles disputes.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0601. Sports Law. 3 Credit Hours.**

This course explores issues at the intersection of law and sport in both the amateur and professional contexts. Among other issues, the course will engage questions of liability arising from players' injuries and questions of professional responsibility faced by the lawyer-agent.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0602. Trusts and Estates. 3 Credit Hours.**

This course provides a survey of the principal devices utilized in the transmission of accumulated family wealth, concentrating primarily on the requirements for creating, modifying and terminating wills and trusts. Intestate succession and will substitutes are also considered as are selected issues concerning future interests, powers of appointment and fiduciary administration. The course explores the often clashing policies of effectuating donative intent and restraining dead-hand control.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0603. Unfair Trade Practices. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0604. Urban Transportation. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0605. Public Administration. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0606. Women and the Law. 3 Credit Hours.**

This course presents a historical panorama of the special status accorded women in the Anglo-American legal system from its earliest time through the present. Any study of a complex historical process encourages observation of the interaction between socio-cultural and legal values. Thus, students enrolled in this course will be able to examine the cybernetics of law and social policy in the particular context of women's issues. Finally, a focus on recent changes in the law respecting women provides students with the opportunity to explore the possibilities of a positive role for lawyers and the legal system in the lives of American women.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0607. Comparative Law: Roman. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0608. American Legal History. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0609. Civil Rights/Disabilities. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0610. Workers' Compensation. 2 to 3 Credit Hours.**

The objective of this course is to impart fundamental knowledge requirements for developing the necessary analytical skills enabling recognition of workers' compensation issues and defenses; applying applicable compensation law; and procedurally navigating the litigation claims process and adjudicatory system. Students will analyze factual scenarios using the Pennsylvania Workers' Compensation Act, administrative rules, and relevant case law. Some classes will incorporate guest speakers, including attorneys currently practicing in this area, state regulators, and judicial officers.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0611. Collective Bargaining. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0612. Constitutional Law and Foreign Policy. 2 Credit Hours.**

This course explores the relationships of selected principles of constitutional law and adjudication with the conduct of U.S. foreign policy; especially from World War II to the present.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0613. Health Care Law: Bioethics. 2 Credit Hours.**

This course examines bioethics as it applies to health care problems. Representative topics are: definitions of life and death; organ and tissue transplants; procreation problems; genetic counseling; abortion; sterilization; in vitro fertilization; surrogate parenting; wrongful birth and wrongful life; life and death decisions and medical experiments with human subjects.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0614. Health Care Law: Medical Malpractice. 2 Credit Hours.**

This course examines the professional responsibility of physicians and other health care providers. Representative topics are: the professional patient relationship; quality control and risk management; standards of care; defense to malpractice actions; hospital patient responsibility; manufacturer patient responsibility; tort reform; medical evidence and damages.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0615. Health Care Law: Regulation and Financing. 2 to 3 Credit Hours.**

This course surveys fundamental concepts affecting U.S. health law and policy, including healthcare financing and delivery through Medicare, Medicaid, managed care organizations and private health insurance; expanding access to health care services; regulatory mechanisms for ensuring the quality of health care and controlling cost; legal relationships between professionals, patients, and institutions; and the impact of national health reform (i.e., the Affordable Care Act).

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0616. Constnl Torts & Remedies. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0617. Health Care 21st Century. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0618. Government Contract Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0619. Human Rights/Emergency. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0620. Exclusionary Zoning. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0621. Victimology. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0622. Sales. 3 Credit Hours.**

This course looks at formation, performance and enforcement of contracts involving the sales of goods. Most of the course focuses on Article 2 of the Uniform Commercial Code but the course also touches Articles 2A, 5, and 7 of the UCC, the Convention on the International Sale of Goods (CISG) and other sources of law. Of the Uniform Commercial Code offerings, the Sales course will be the most familiar to students and builds directly on doctrine familiar to them from the first year Contracts courses.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0623. Alternative Dispute Resolution. 2 to 3 Credit Hours.**

This course covers the main alternatives civil courts, now commonly called "Alternative Dispute Resolution" (ADR): competitive negotiation; principled negotiation ("Getting to 'Yes'"); mediation; and arbitration. In addition, a segment of the course explores ways in which courts are using ADR and in which states are creating ADR units to mediate public-impact disputes. The pedagogy includes overview lectures, readings (an excellent textbook exists), role plays (all students participate once), videos, and several guest speakers.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0624. Fed American Indian Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0625. Employment Law. 3 Credit Hours.**

This course explores, in a manner suitable for non-specialists, issues of employer-employee relations in nonunionized settings. It supplements existing courses by examining problems such as: wrongful discharge and employment-at-will at common law; fair labor standards including minimum wages and maximum hours; comparable worth and equal pay; industrial accidents and occupational safety and health; income security, unemployment compensation and pension protection; employment discrimination; employees' rights in areas such as drug testing, lie detectors, privacy, whistle blowing; plant closings, job retraining, status of aliens and employer-employee cooperation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0626. Tax Policy. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0627. Litigation Strategy. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0628. Ethical Perspectives Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0629. Privacy. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0630. Trusts & Estates II. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0631. Public Health Law. 2 Credit Hours.**

This course surveys the broad terrain of law and the public's health. We will cover both the "laws on the books" and the problems of actually implementing these laws in the often highly politicized and culturally sensitive context of health and behavior. Topics include the basic powers, duties and limitations of state health authorities in the United States; the epidemiological influence of law on health and health behavior; the global system of health governance; and the application of a human rights framework to health issues. Health topic areas covered include communicable diseases (HIV, SARS, emerging infections), tobacco, substance abuse, chronic diseases and infections. We will also devote considerable time to reading about and discussing how health is "socially constructed" and how stigma, economic self-interest and other cultural responses to disease complicate efforts to promote public health.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0632. Federalism. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0633. First Amendment. 2 to 3 Credit Hours.**

This course offers an in-depth examination of the protections afforded by the First Amendment.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0634. Religious Rights. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0635. Computer Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0636. Intl Employmnt Relations. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0637. International Commercial Transactions. 3 Credit Hours.**

This course is designed to provide an introduction to transactional work undertaken by international commercial attorneys. The course focuses on international and national regulation of international economic transactions, particularly sales of goods across international borders. Particular attention is given to the export sale and its financing; the international transfer of technology; and the regulation of foreign direct investment.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0638. Comparative Corporate Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0639. Adv Securities Regulatn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0640. ADR: Negotiating Settlements. 1 to 3 Credit Hour.**

This course focuses on learning negotiating skills.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0641. Taxation II: Commercial and Property Transactions. 2 to 3 Credit Hours.**

This course builds upon the foundation laid by the basic course in Taxation which covers principally income and deductions. Taxation II will cover additional broad-based tax principles which are of concern to all classes of taxpayers and their advisors. As to capital transactions, the course will cover the distinguishing of capital gain from ordinary income, the determination of basis, the realization of gain or loss in non-cash dispositions, the amount of gain realized, the requirement of a sale or exchange for capital treatment, the nonrecognition of deferral of gain or loss in specified situations, and the treatment of certain amounts realized in otherwise capital transactions [including original issue discount] as ordinary income. As to timing and recognition, Taxation II will cover tax accounting periods and methods, the proper year of inclusion of income items and of taking of deduction items, the requirement of inventories for those engaged in the production or purchase and sale of goods, the effects of changes in the method of accounting, and the mitigation of the annual tax accounting period requirement through the carry back and carryover of certain losses and unused credits, where the taxpayer or the Internal Revenue Service treats related items inconsistently, or where amounts received under a claim of right are restored.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0642. International Organizations. 2 to 3 Credit Hours.**

This course explores issues of international law, authority, and legitimacy regarding international organizations and their operations in the world community, including the United Nations, the World Trade Organizations, the International Monetary Fund, and the African Union. Exploration of the International Court of Justice and the International Criminal Court raise particular questions in this regard about the international rule of law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0643. Law of Public Finance. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0644. Pension/Employee Benefit. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0645. Parents, Children and the State. 2 to 3 Credit Hours.**

This course is designed to examine the allocation of power between children, parents, and the government both within and outside of the family unit and to explore how law can be used to both oppress and empower children and their families. Rather than providing a survey of family law, this course focuses primarily on the intersection of poverty law issues and interventions into the family by public institutions designed to promote social welfare and to protect and nurture young people. The course asks the students to use doctrinal analysis, policy review, and simulation exercises to explore the appropriate boundaries of state intervention into the family, the distinct substantive rights of minors and the role of counsel for families and children. Students should enter the course with a basic understanding of Constitutional law, along with a desire to explore social welfare through a variety of mediums.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0646. Intrnl Litgtn & Arbitrn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0647. Federal Criminal Law. 3 Credit Hours.**

This course will examine the structure of federal law enforcement, the scope of federal criminal law and techniques for limiting federal criminal authority. It will address the problems of fraud and political corruption and specifically examine the crime of mail fraud, violation[s] of the Hobbs Act and examine official bribery. The course will include an examination of drug trafficking and money laundering. Group and organizational crime will be addressed through examination of conspiracy and the racketeer influenced and corrupt organizations statute. As time permits, students may also examine federal sentencing guidelines and forfeiture provisions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0648. Islamic Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0649. Church-St Relatns Israel. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0650. Corporate Transactions: Analysis and Implementation. 2 Credit Hours.**

This course will explore the legal principles involved in analyzing, structuring, documenting and implementing corporate transactions. Students will examine the legal principles and practical considerations of corporate formation; mergers; acquisitions; going public; and takeovers. Consideration will also be given to the ethical considerations involved in representing the corporation, its shareholders, officers and directors.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0651. U.S. Business Planning for International Transactions. 2 Credit Hours.**

The course will address a number of major, recurring issues that confront attorneys in international commercial practice. In particular, the course will cover the choice and formation of corporate entities (including the allocating of control among participants and planning the capital structure), legal and economic issues to consider when choosing a foreign partner, various financing issues (including the role of senior debt, mezzanine debt, common stock, ADR's letters of credit, etc), issues arising out of the purchase and sale of a business, and the major international tax implications arising out of choice of entity and formation of entity issues. In addition, it will address ethical issues that arise in international business representation. Much of the course will involve the close examination of redacted documents from international transactions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** JUDO 0508 (may be taken concurrently)

**JUDO 0652. Cyberlaw and Policy: Practical Applications in Organizational Settings. 2 Credit Hours.**

This course is a practical and concrete course applying Cyberlaw to pseudo-clients in legal practice. Legal and policy principles are studied that should be included in an acceptable use of electronic communications and technology policy. Included are the legal aspects of Internet, computer and information technology such as cyberprivacy, cybersecurity, commercial disparagement and defamation, cybercrimes, computer forensics, e-business, electronic issues. Students will be expected to prepare an acceptable use policy that is usable for a private corporation or public entity.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0653. Immigration Law & Policy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0654. Business Immigration Law. 1 to 4 Credit Hour.**

There is little or no doubt that much of the US economy is (and always has been) powered by foreign workers. Although the demand for certain types of workers may vary, we as a nation will need foreign nationals to fill important gaps in our economy. This course will examine the different ways US employers can hire workers from outside of the United States, as well as the options for foreign employers investing in or trading with the United States. It will also cover some of the ways in which particularly well-qualified foreign citizens can enter the United States without a sponsoring employer. We will also review some of the obligations the hiring of non-citizen workers places on employers, and the unique legal considerations in recruiting, hiring, and promoting foreign nationals. This course will provide a brief introduction to some of these issues, providing students with the information necessary to spot them before they become problems.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0655. Mediation Advocacy & Practice. 2 to 3 Credit Hours.**

This course provides an introduction to the theoretical and practical aspects of mediation as an alternative to litigation. Students will engage in a number of simulations and will receive verbal and written feedback from the instructor.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0656. Law & Medicine Problems. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0657. Religion-Workplace/Socty. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0658. Globalization and the Constitution. 3 Credit Hours.**

This course will consider the consequences of globalization for law, with a particular focus on globalization at the intersection of U.S. constitutional law. The course will address the analytical challenges posed by the increasing density of communications, porosity of borders, and intensity of economic interdependence. The course will situate such issues as the war and treaty powers in both their historical and contemporary context, and explore the rising profile of international law in the U.S. constitutional regime. Particular focus will be directed at new actors in international decision-making, including U.S. states, individuals, corporations, and non-governmental organizations, and how their participation is affecting the legal structure of foreign relations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0659. The Global Workplace. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0660. Money Laundering. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0661. Animal Law. 2 Credit Hours.**

This course will examine the moral, ethical and public policy considerations involved in balancing the interests of animals and humans. Topics include the treatment of animals as property, including animal custody in divorce; state anti-cruelty laws; the federal Animal Welfare Act; the use of animals in research; veterinary malpractice; tort liability for animal-inflicted injury; consumer fraud litigation against animal-related industries; and animal rights advocacy in the age of ecoterrorism legislation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0662. Drafting and Negotiating Real Estate Documents. 2 Credit Hours.**

This course, taught by two experienced practitioners, will study the skills necessary to effectively negotiate real estate transactions and to draft the related documents. Working in small groups, students will have the opportunity to develop those skills by negotiating a commercial real estate lease and by drafting the key elements of the lease and the ancillary documents.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0663. Special Education Law in the United States. 2 Credit Hours.**

This course will examine the foundation of special education in the United States; specific federal statutes that govern education of exceptional children; practical application of those statutes, specifically the importance of individualization of programming, how the procedures are designed to ensure that individualization occurs and what an appropriate IEP looks like;

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0664. Working Parents and the Law. 2 Credit Hours.**

This course will consider how the law impacts those who combine paid work with being the primary caregiver for their children. We will examine some of the various areas of law that impact such working parents, including Labor and Employment Law, Social Security Law, Tax Law, and Family Law. We will consider how our laws protect working parents as well as whether our laws encourage or discourage women, in particular, to combine paid work with motherhood. Additionally, this course will look at laws in other countries for contrast and comparison.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0665. International Criminal Law. 3 Credit Hours.**

Recent years have seen a rapid expansion in the international law dealing with atrocity crimes such as genocide and crimes against humanity as well as crimes committed in armed conflict. This course will study the evolution of international criminal law from Nuremberg to the present. The goals of the course are (1) to provide an overview of the main doctrines of international criminal law and procedure, including the definitions of crimes, modes of responsibility, and principles of procedure and punishment; and (2) to explore the advantages and disadvantages of prosecuting crimes of mass violence in national, international, and "hybrid" courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0666. E-Discovery: Preservation through Presentation in the Digital Age. 2 Credit Hours.**

With computers and e-mail dominating business and personal life, the nature of civil discovery has changed. Lawyers need to know how to request, identify, preserve, collect, process, review and produce digital information, in all its myriad of forms (from e-mail and Excel to social media and the "Cloud"). While this does not require a technical degree, there are significant pitfalls that lawyers can learn to avoid and better represent their clients. This class is designed to teach law students about the nuances of the quickly evolving world of e-discovery and provide practical help so that students can be immediately valuable to their employers and clients.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0667. Commercial Litigation Strategy. 2 Credit Hours.**

The course includes case studies of categories of litigation and the types of relief that plaintiffs seek, including damages, injunctive relief, declaratory judgments, and class actions. Experienced litigators will be guest speakers. Students will be expected to read cases assigned and participate in class discussions. Generally, each class will have two separate segments. One segment will be discussion of the cases from the assigned reading, generally led by one of the students, subject to advance assignment. The discussion will focus on the contentions by counsel and the court's decision, with an emphasis on strategic objectives and alternatives. The second segment will discuss a general litigation topic, usually with a guest speaker. There is no exam. The grade will be based on class participation (20%), one short paper (20%), and one long paper (60%).

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0668. Advertising and Marketing Law. 2 to 4 Credit Hours.**

Businesses and other brand owners are constantly taking steps to market and advertise their products and services in ways that reach the targeted consumers and/or end users. Whether the platforms are television, radio, social media, apps, blogs, search engine advertising or highway billboards, many of the legal issues are the same. This course explores some of the major issues that businesses and other entities must consider when advertising and marketing products and services to the public. The course includes topics on false and deceptive advertising, defamation and other business torts, negative and gripe content, trademarks and copyrights, right of publicity, privacy, transmission tools (e.g., email, text messaging), promotions, and other relevant topics. The course takes a practical approach to these and other topics, and class discussions focus on current events and examples, to the extent feasible, to better apply the legal issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0669. Advanced Trial Advocacy (Speech Making). 3 Credit Hours.**

This performance based course will explore the art of speechmaking by focusing on the elements of what constitutes clear and persuasive speech in a legal context. It will consider the use of speechmaking in a variety of contexts that arise in legal practice (e.g., with individual clients and client boards, in negotiations and settlements, before judges, arbitrators, and mediators). Particular attention will be paid to the use of speeches in litigation. Principles of persuasion will be identified and analyzed in how they advance the three purposes of a speech: to entertain; to inform; and to persuade. Students will focus on preparing, organizing, drafting, using exhibits, quoting witnesses, explaining burdens of proof, incorporating judicial instructions, calling opponents on mistakes and misstatements, avoiding impermissible arguments and actual speech delivery.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0540 or JUDO 0461 (may be taken concurrently)) and (JUDO 0558 (may be taken concurrently) or (JUDO 0460 and JUDO 0461 (may be taken concurrently)))

**JUDO 0670. Tax Practicum. 2 to 3 Credit Hours.**

This course is open only to students who have had at least one course in Taxation and who have secured the consent of a member of the Tax Faculty. The specifics of the course will be tailored to the student's interests and proposed project but will in all cases involve some aspect of the practice of tax, regular discussion with the Professor, and written work product that requires the merging of tax theory with practice. Examples include but are not limited to, the establishment of a non-profit corporation, including the drafting of appropriate tax exemption documents, unpaid (internship) work at the Office of District Counsel of the Internal Revenue Service or Philadelphia City Solicitor, including drafting of legal memoranda or briefs and regular conferences with the Professor regarding the subject of such memoranda or brief, and including, at the discretion of the Professor, a paper reflecting on the experience or further analyzing a substantive issue arising from the experience. The Professor will be responsible for monitoring the quantity and quality of the work and ensuring that it is commensurate with the credits being awarded. Students may receive either 2 or 3 credits for the course. The course will not satisfy the Law School's Writing Requirement. Grading will be either a letter grade or pass/fail, at the discretion of the Professor and will be determined at the time of registration for the course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 0672. Low Income Taxpayer Policy and Practice. 3 Credit Hours.**

This course enables students to see first hand the effect tax policies have on low income taxpayers and then to process that experience through the lens of existing tax policy scholarship and commentary. Students will become certified as a volunteer preparers for VITA, the IRS's Volunteer Income Tax Assistance project, and will volunteer at a VITA center for a minimum of 4 hours per week during the last week of January, all 4 weeks of February, and two weeks in April. Class will meet once per week for 3 weeks in January, at least 2 weeks in February, 2 weeks in March, and 3 weeks in April. Students will be required to keep a journal in which they will describe the salient aspects of the returns they help to prepare. In addition, students will prepare a paper, not to exceed 6,000 words, in which they analyze their experience, taking into account the policy literature examined in class, and make recommendations for change. Students will present the ideas for their papers to the class and will lead a discussion thereof. The paper will not satisfy any portion of the law school's writing requirement. With prior approval, two or more students may choose to collaborate on the final paper, which has the potential to generate deeper, more meaningful papers. The grade for the course will reflect a combination of the quality of the journal postings, participation in class meetings, and the final paper.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0673. Taxation of S Corporations. 2 to 3 Credit Hours.**

This course provides an overview of the taxation of S Corporations and their shareholders. Over the past decade, S Corporations have been one of the fastest growing forms of business organization, even outpacing limited liability companies in terms of new entity formations. The taxation of S Corporations reflects a hybrid approach, blending corporate and partnership tax principles. Thus, this course will examine issues unique to S Corporations. Topics will include eligibility requirements, making and terminating the S Corporation election, operations and allocations, distributions, special issues involving historic C Corporations, and Qualified Subchapter S Subsidiaries.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0511 (may be taken concurrently) and JUDO 0523)

**JUDO 0674. PA Divorce Law & Practice. 2 to 3 Credit Hours.**

This course will thrust students into the role of new attorneys in a family law practice, with "hands-on" responsibility for every aspect of client representation. Several fictitious clients, with varying degrees of factual and legal complexities, will provide the setting for students to learn and practice interviewing, counseling, case management, negotiation and oral and written advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0568.

**JUDO 0675. Prosecution in the 21st Century. 2 to 3 Credit Hours.**

The theme of this course will be the changing role of the prosecutor, from managing cases initiated through police activity to proactive problem solving, and attempting to reduce crime and recidivism through a more holistic approach. The course will start with a comparative evaluation of prosecution roles in other legal systems and the evolution of the American prosecutor, with particular emphasis on the wide latitude and discretion afforded American prosecutors.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0676. Legal Issues in Business Strategic Planning. 2 to 4 Credit Hours.**

This law school course will be structured as a simulation in which the students and instructor serve as a General Counsel's Office for EMC examining the legal issues that arise in helping businesses do strategic planning.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0677. Experiential Practicum. 1 to 15 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0680. Presidential Leadership and Individual Rights. 2 to 4 Credit Hours.**

Presidents are especially well placed to make constitutional law within their sphere of action, as well as to influence the development of rights in others' spheres of influence. In exposing students to writings from political science, history, law, and sociology, this interdisciplinary course has several objectives. First, students will examine the opportunities available to modern presidents to advance or erode constitutional, statutory, and human rights. Second, students will explore the social conditions - within bureaucracies and society as a whole - that must prevail for an administration to make the transformation of existing rights a priority. Third, taking on the perspective of an executive branch actor, students will assess the tactics available when a president is interested in taking action on a matter implicating individual rights: when is each strategy most tempting, what are the historical or legal precedents for each tactic, how effective is it, and so on.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0681. Public Advocacy for Social Change. 1 Credit Hour.**

In this 4-day intensive course, students will work intensively in teams to design and build an effective public advocacy campaign with multi-faceted deliverables. Among other things, students will identify a social problem, convince others to care about it in both written and oral form and develop a set of solutions to it. Students will identify stakeholders, targets, messages, and counter-arguments; testing ways to reach key audiences and measuring your success. Students will learn how to recognize effective marketing strategies; select a name for a campaign and build a brand that creates an emotional connection with target audience. Students will learn the craft of storytelling and how it can be leveraged to build a campaign in a fun and compelling way.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0684. Natural Resources Law. 2 to 3 Credit Hours.**

This course examines the law and policy related to the governance and management of natural resources in the face of competing demands for their preservation and use. The course will introduce the debate over resource valuation and will survey the statutory and common law regimes governing a variety of resources including public lands, water, wetlands, wildlife, forests, fisheries, and minerals.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0685. Oil and Gas Law. 2 to 3 Credit Hours.**

Development of natural gas from the Marcellus Shale formation has brought renewed interest in oil and gas development to Pennsylvania, West Virginia, and New York. This course will cover issues in conveying the mineral estate, relations between surface and mineral owners, relations among neighboring uses, environmental regulation at the state and federal level, local regulation and state preemption, moratoriums, considerations of cumulative impacts, and litigation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0686. Real Estate Development Law and Practice. 2 Credit Hours.**

This Course will detail the entire process of Real Estate Development from a legal perspective while reviewing the role of an attorney in the real estate development process and detailing numerous legal documents, governmental regulations, and major case law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0687. Strategy and Ethics in Trial Practice. 2 to 3 Credit Hours.**

This course takes students behind the scenes of two real trial lawyers' practices to look at real files of real cases that present real legal and ethical issues. It will demonstrate the practical application of abstract ethical and legal principles to real clients, causes, judges and counsel.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0688. The Role of In-House Counsel. 2 to 3 Credit Hours.**

This course focuses on the role of in-house counsel in today's technology and business driven world. Emphasis will be on: an interdisciplinary, broad-based approach, the ability to multi-task and to perform various types of legal work, and the many critical professional and legal issues uniquely faced by in-house staff.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0689. Franchise Law. 2 to 3 Credit Hours.**

This course will address the legal and business considerations of franchising; the role of franchising in the economy and the community; franchisor and franchisee relationships; federal and state regulation of franchise law; the disclosure and registration process; essential skill and knowledge sets in representing franchisors and franchisees; basic terms and issues in franchise agreements; intellectual property issues; antitrust issues; counseling prospective franchisors and franchisees.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0690. Energy Law and Regulation. 3 Credit Hours.**

The course will focus on the economic regulation of electricity and fossil fuel markets. Emphasis will be placed on how the Federal Energy Regulatory Commission (FERC) regulates price, service and competition in interstate markets under the Federal Power Act, the Interstate Commerce Act and the Natural Gas Act, and how state utility commissions, like the Pennsylvania Public Utility Commission regulate retail rates and services of electric and gas utilities, competitive commodity suppliers, and local gathering and pipeline transportation under analogous state laws. Constitutional principles governing the allocation of authority and the interplay between federal and state jurisdictions (dormant commerce clause, supremacy clause/preemption) will also be addressed. Grading will be based on one or more practice exercises, and a final examination.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0691. International Financial Law. 3 Credit Hours.**

This course will focus primarily on the legal aspects of international capital markets but will also include an introduction to the basics of project finance. No prior knowledge of finance is required. It will begin with a general overview of the architecture of the international finance system and some basic concepts in legal finance. We will then review three types of international business transactions; (i) loans; (ii) bond issues; and (iii) derivatives. As part of that review, we will examine the legal relationships and legal documentation necessary to effect such transactions and the kinds of legal issues (such as accountability for disclosure of accurate information, the risk of insolvency, the risk of asset freezes and related conflicts of laws) that commonly arise. Towards the end of the course, we will take a brief look at the legal aspects of project finance and evolving legal issues regarding carbon finance. Final class grades will be based on an exam, a mid-term team presentation and class participation. Class attendance is mandatory.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0692. Post-Conviction Remedies. 2 to 3 Credit Hours.**

The criminal appeals process provides prisoners the right to challenge their convictions in both state collateral and federal habeas corpus proceedings. This course introduces students to this important and rapidly changing post-conviction practice. We will examine what state-sentenced inmates must do in state court to preserve their right to pursue federal habeas relief before the federal district courts and courts of appeals under 28 U.S.C. § 2254 as well as address the habeas procedures set forth at 28 U.S.C. § 2255 available to federally-sentenced inmates. Students should have the opportunity to attend a state post-conviction evidentiary hearing and/or a federal habeas hearing and to meet with United States Magistrate Judges, who submit recommendations to United States District Court judges on how habeas corpus matters should be resolved. Students will learn about the types of claims that are successful in post-conviction, the complex interplay between state and federal proceedings, and how to overcome the many roadblocks the law has erected to bar federal court consideration of federal constitutional violations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0693. Informational Privacy Law and Compliance. 2 to 3 Credit Hours.**

This course will examine the fundamentals of informational privacy law across the United States and the globe. The course will also cover the design, implementation and operation of global privacy programs. The course will examine and evaluate the risks and benefits of global approaches to privacy as well as country or industry specific approaches to privacy. Finally, the course will examine corporate privacy policies, internal and external enforcement and reporting requirements, vendor management and data security breach management.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0695. Renewable Energy Law, Regulation and Policy. 2 to 3 Credit Hours.**

The course will cover solar and wind generation technologies and the issues involved in developing, siting, and integrating them into the U.S. electricity grid. The course will review the major renewable energy laws and regulations designed to promote renewable generation resources, including federal tax subsidies, state renewable portfolio standards, the Public Utility Regulatory Policies Act of 1978 and net metering. The class will consider the intermittent character of wind and solar resources, and the policy and legal aspects of possible ways to overcome this phenomenon. In light of the location constraints of wind resources, key regulatory issues affecting transmission access will also be addressed. Turning to the transportation sector, the course will consider vehicle electrification (widespread market integration of electric vehicles) as a strategy to reduce greenhouse gas emissions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0696. Introduction to Technology in Legal Practice. 1 to 4 Credit Hour.**

Technology used in the legal field is rapidly changing. Being competent in the use of technology is no longer an optional skill. Many states, including Pennsylvania, now require some form of technological competence as part of the Rules of Professional Conduct. This course will give students the foundation needed to use the common technology encountered in legal practice including time keeping, privacy and security, creating and managing secure documents, presentation technology, media literacy, legal analytics, and artificial intelligence. In addition to learning how to understand and evaluate these technologies, students will also get hands-on experience using many of these technologies. Students will also learn how to identify and evaluate any ethical implications related to the use of legal technology.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0698. Stakeholder Capitalism: Policy and Practice. 1 to 4 Credit Hour.**

This course will introduce students to stakeholder capitalism concepts in U.S. Law and Policy and how they are implemented. Furthermore, this course will equip future attorneys with the knowledge and practical skills to advise directors, officers, and business owners on how to meet their duties to shareholders and stakeholders.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0699. Economic and Community Development: Laws and Policies. 1 to 4 Credit Hour.**

Urban areas are key engines of regional and national growth. At the same time, they have emerged as disproportionate centers of poverty and inequality. This class will explore the history and context of community and economic development, with an emphasis on the economic revitalization of declining urban cores. This course is geared toward students interested in domestic economic development law, policy, and practice. The course will focus on Philadelphia and will touch on other cities. We will review case studies to understand the complex politics of urban economic development and students will critically reflect on the objectives and outcomes of local economic and community development efforts. Through reviewing landmark cases, statutes, and regulatory policies, the class will highlight the impact that national, regional, and state economic forces have on cities.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0700. Tort Litigation and Trial Practice (SEPTA). 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0701. Death Penalty Litigation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0702. Business Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in JUDO 0508 and JUDO 0600.

**JUDO 0703. Public Interest Advocacy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0704. Temple Legal Aid Office: Family Law Litigation Clinic. 1 to 4 Credit Hour.**

The Family Law Litigation Clinic in the Temple Legal Aid Office provides direct legal representation to low-income litigants in child custody, child and spousal support, paternity and adoption cases. Student attorneys in the Clinic have the opportunity to handle all aspects of client's cases, including intake interviews, case selection based on merit, development of a case plan, drafting of pleadings, counseling of clients, negotiation with opposing counsel or parties, development of trial strategy, trial preparation and court appearances.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 5036.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0705. Homeless Advocacy Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0706. Adv Civil Trial Advocacy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0707. Civil Litigation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0708. Collective Bargaining. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0709. Phila Vlntr Lawyers/Arts. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0710. Legislation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0711. Local Government. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0712. Consumer Legislation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0713. Small Claims Mediation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- in JUDO 0731.

**JUDO 0714. Criminal Defense Advocacy: Camden Public Defender. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0715. Environmental Law-Delaware Riverkeeper Network. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in (JUDO 0536 or JUDO 0684)

**JUDO 0716. Criminal Defense Advocacy: Defender Association of Philadelphia. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0717. Federal Criminal Practice: Federal Defender. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0718. Criminal Litigation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0719. Criminal Prosctn: Camden. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0720. Criminal Prosecution: Philadelphia District Attorney. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0721. Criminal Litigation Clinic: Montco DA's Office. 3 to 4 Credit Hours.**

Participants, after an intensive training period, will appear in various units throughout the Montgomery County District Attorney's Office as Certified Legal Interns on behalf of the Commonwealth. Students will be assigned to the pre-trials unit, where they will handle probation/parole violation hearings, summary appeals, and other miscellaneous pretrial hearings; the juvenile unit, where they will have the opportunity to work on misdemeanor and felony bench trials; the Family Protection Unit, where they will work closely with assistant district attorneys handling domestic violence and sex assault cases; and, the Narcotics/Firearm Units, where students will work closely with assistant district attorneys handling drug and firearm related cases.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0722. Law Education & Partcptn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0723. Vip-Negligence Litagatn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0724. Federal Criminal Practice: United States Attorney. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0725. Criminal Prosecution: Bucks County District Attorney. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0532 (D or higher), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0726. Federal Judicial Clerkship. 3 to 6 Credit Hours.**

While traditional clerkship opportunities are available only to select law school graduates from the top of their class, Temple Law is proud to offer a unique federal judicial clerkship clinical for current law students. Students in Temple's prestigious Federal Judicial Clerkship Clinical Honors Program work for federal judges over the course of a full academic year and participate in the practical aspects of jurisprudence. Working alongside judges and their full-time clerks, students draft orders, research issues, prepare bench memoranda, and observe judicial proceedings. The program consists of eight to ten hours a week in chambers and a classroom component focused on the current issues impacting the federal courts. The classroom component of the course is taught by Judge Lawrence F. Stengel, United States District Court Judge.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of C in JUDO 0540.

**JUDO 0727. Constitution Litigation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0728. Federal Criminal Practice: Health Care Fraud. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0729. Fed Civ Rts/Labor Law. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0730. Elderly Law Project. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 5028 or JUDO 0591)

**JUDO 0731. Philadelphia Housing Court. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0732. Women Against Abuse. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0733. City Solicitor: Mntl Hlth. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0734. City Solicitor: Adoption. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0736. Sexual Orientation and Gender Identity Law Practice. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0737. Criminal Prosecution. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0738. Temple Legal Aid Office: Domestic Relations Mediation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in (JUDO 0623, JUDO 0655, JUDO 0568, JUDO 1033, JUDO 0445, or JUDO 1035)

**JUDO 0739. Reprsntng Charitable Org. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0740. Temple Legal Aid: Bankruptcy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0741. Philadelphia District Attorney: Charging Unit. 3 Credit Hours.**

This external clinic will provide students with the hands on opportunity to work in the Philadelphia District Attorney's Office Charging Unit. In doing so, students will gain experience applying Pennsylvania law to real cases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0532.

**JUDO 0742. American Red Cross Southeastern PA Disaster Relief Clinic. 3 Credit Hours.**

Students will learn about disaster law and spend the semester gaining real world experience at the American Red Cross of Southeastern Pennsylvania.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0743. Medical-Legal Partnership Clinical Program. 3 Credit Hours.**

This clinical program provides an opportunity to work alongside lawyers who work in the healthcare setting as part of the clinical team. Focus is on delivery of legal services to low-income clients in an effort to address factors that impede good health (social determinants of health).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0745. Federal Civil Rights Litigation under Section 1983. 2 to 4 Credit Hours.**

The course is intended to first teach students the basic federal constitutional and statutory doctrines necessary to litigate common current constitutional cases, specifically those arising under the Fourth, Eighth and Fourteenth Amendments, by briefly examining the initial discussions of Reconstruction and the enactment of the Civil War Amendments and, via simulation, revisiting Virginia's debate over whether to ratify the Constitution with or without an express provision protecting States' sovereign immunity. The course will then focus on the federal constitutional and statutory doctrines necessary to litigate Section 1983 actions through a series of in-class simulations which will cover Fourth Amendment claims arising out of police misconduct and other improper activities, Eighth Amendment prisoner claims, Fourteenth Amendment due process claims focusing on challenges to executive actions, and Fourteenth Amendment claims focusing on the fairness of procedures used when government deprives citizens of a protected interest. The course will also cover the doctrines necessary to understand and bring those claims against state and local governmental actors.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0748. Federal Appellate Litigation Clinic: Advanced Clinic Intensive. 2 to 4 Credit Hours.**

After having completed the Federal Appellate Litigation Clinic and Seminar, students will have the opportunity to continue their work on the client's appeal during the spring semester, including completing the briefing and presenting oral argument before the Third Circuit. In the advanced clinic, students will complete initial briefing, including finalizing and filing the principal brief, drafting a reply brief in opposition to appellee's/respondent's brief, negotiating settlements, and preparing and presenting oral argument before the Court. In addition, each student will participate in at least four moots as they prepare for argument; and draft three reflection papers, addressing the role of pro bono counsel in providing meaningful access to justice, effective appellate advocacy, and/or emerging issues in immigration and civil rights law. Students are also expected to participate in a weekly meeting with their faculty supervisor. There is no classroom component beyond what was taken in LAW 5037.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0759 and JUDO 5037.

**JUDO 0750. Immigration Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0751. Ethics in Practice. 1 to 4 Credit Hour.**

This course will focus on issues of professionalism and ethics in practice. Students will learn about attorney obligations to the client, court, profession, and society, and develop an understanding of their own professional values and philosophy as practicing lawyers. In addition to examining global issues of ethics and professionalism, the course will utilize students' experiences to identify and explore issues particular to different areas of practice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0752. Pennsylvania Innocence Project. 3 Credit Hours.**

This clinical program offers students the unique opportunity to exercise their lawyering skills by reviewing and investigating actual claims of innocence on behalf of Pennsylvania inmates and, where appropriate, pursuing legal avenues for exoneration and release from prison. In the course of investigating factual claims and researching legal issues, students will review criminal files, interact with investigators, contact other attorneys, interview the client and witnesses, gather documentation and prepare legal documents and memoranda. Any court appearances will also involve students. The classroom component will cover topics including the definition of a claim of innocence, investigating and raising claims of innocence under Pennsylvania law, preservation of innocence claims for federal review, post conviction discovery rules, state and federal post conviction procedures and problems, investigative techniques and skills, the nature and uses of DNA and other scientific evidence and the state and federal rules governing admissibility of such evidence. Students will explore substantive and procedural issues in the context of their actual cases as well as discuss the ethical issues common to this area of practice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D (except where noted) in JUDO 0532 and JUDO 0540 (C or higher)

**JUDO 0753. Consumer Bankruptcy Assistance Project. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0754. Domestic Violence. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0755. Domestic Violence: Philadelphia Family Court. 3 Credit Hours.**

This clinical course will first immerse students in how the legal system handles abusive situations. Students will: 1) study state and federal law concerning who, what and how actions can be brought and prosecuted, 2) have opportunity to observe proceedings in Family Court, and 3) have discussions with domestic violence advocates. Throughout the balance of the course, students will handle several cases referred by the main domestic violence programs in Philadelphia.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0756. State Judicial Clerkship. 3 Credit Hours.**

This clinical will provide a select group of students the opportunity to practice the tasks associated with judicial law clerks and observe and reflect on practitioners who appear in court. Students are matched with a judge in the First Judicial District. Students will apply their research and writing skills as they act as student law clerks, and will observe court proceedings and participate in a weekly seminar.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0757. Low Income Taxpayer Clinic (LITC). 2 to 4 Credit Hours.**

Experiential learning is designed to enhance traditional classroom instruction by engaging students in real life lawyering situations. This course will focus on developing professional skills, applying doctrine/theory to practice, and addressing ethical issues. Through their work, students will critically examine their learning strategies, goals and progress, and develop self-directed learning habits. Students will gain substantial legal experience including, advising, representing, and engaging in other legal issues on behalf of actual LITC clients.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 5067.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0758. Advanced Trial Advocacy: Online Advocacy and Technology in Trials. 1 to 4 Credit Hour.**

This course offers intensive training in the applicable law, strategy, skills, and techniques of online advocacy in hearings, as well as training in the use of courtroom presentation software. The course combines traditional lectures and demonstrations with learning-by-doing exercises. Students will have opportunities to conduct witness preparation, create visual demonstrations, conduct direct and cross-examinations virtually, and participate in an entire trial online. All of these exercises will allow the professors to provide substantial feedback and critique.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in (JUDO 0540 (D or higher), JUDO 0558, or (JUDO 0460 and JUDO 0461))

**JUDO 0759. Federal Appellate Litigation Clinic. 2 to 4 Credit Hours.**

Under the supervision of the professor, and consistent with Local Appellate Rule 46.3, third-year law students will handle appeals currently pending in the United States Court of Appeals for the Third Circuit. Students will provide pro bono representation to appellants in immigration appeals, habeas corpus proceedings, prisoner litigation, and other matters as appointed by the Court. The clinic will handle all aspects of representation for at least two existing appeals during each academic year.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 5037.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0550.

**JUDO 0760. City Slctr: Code Enfrcmnt. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0762. Criminal Litigation Field Clinic. 2 to 4 Credit Hours.**

This experiential live-client course provides students with the analytical thinking, case preparation, and litigation skills to successfully try a criminal case from Pre-Trial to Sentencing at the Montgomery County Public Defender's Office. After an intensive seminar during which students will be taught the following skills: litigation skills, effective client interviewing, brainstorming, discovery review, theory crafting, motion practice, plea-bargaining, cross-examination, and direct examination, students will observe court proceedings and then be assigned to a trial room in Montgomery County, Pennsylvania. Students will then conduct preliminary hearings and misdemeanor trials; interviews of clients, investigators and/or social workers; and appear in court. Students will also have the opportunity to work on a criminal justice related policy issue, most likely related to cash bail and probation and parole issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0763. Civil Rights for Inmates. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0765. Temple Legal Aid Office: Civil Practice for Clients with Health Care Issues. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0766. Federal Estate & Gift Tax. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0767. Collective Bargaining. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0768. Community Legal Services. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0769. United States Attorney: Bankruptcy Unit. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0530 (D or higher; may be taken concurrently), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0770. Juvenile Rights Clinic. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0771. Consumer Legislation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0773. Corporate Social Governance. 2 to 3 Credit Hours.**

The course is designed to foster the acquisition of substantive legal knowledge and develop practical legal skills in the context of learning about core legal issues implicated by corporate engagements into social issues. In terms of substantive legal knowledge, the course will focus on legal issues relating to corporate governance, corporate social responsibility, corporate social activism, and shareholder activism. In terms of practical legal skills, the course will focus on skills related to legal communications and problem-solving in the context of various meetings, strategy sessions, presentations, and teamwork.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0774. Advanced Access to Justice Clinic. 2 to 4 Credit Hours.**

In the Access to Justice Clinic (JUDO 0790), students learn about the civil justice gap - i.e., the desperate shortage of legal help for most people of low and moderate incomes. Students who have completed Temple's Access to Justice Clinic can enroll in this course designed to provide an opportunity to complete advanced work on an access-to-justice project in a subsequent semester. In the Advanced Clinic, a small number of students will further develop an access to justice project, making use of the skills and knowledge they have acquired during the preceding semester.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D (except where noted) in (JUDO 0790 or JUDO 0790 (S- or higher))

**JUDO 0775. Advanced Clinical Intensive: Temple Legal Aid Civil Practice for Clients with Health Care Issues. 2 to 3 Credit Hours.**

Taken along with or after having completed Law 0765, students have a more comprehensive clinical experience by doing an additional project or more in-depth client work. Doing so, students can focus intensively on one or several aspects of skills training. Potential projects include developing a writing portfolio based on clinical cases, developing and/or staffing an interview site, handling extra client matters, and student developed initiatives.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0765 (may be taken concurrently), JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0776. Temple Legal Aid Office: Advanced Family Law Litigation Clinic. 1 to 3 Credit Hour.**

Students who have completed the Family Law Litigation Seminar and the Family Law Litigation Clinic may enroll in the Advanced Family Law Litigation Clinic to continue to hone their family law practice skills. The expectation is that students enrolled in the Advanced Family Law Litigation Clinic will be asked to handle more complex matters in court and/or a higher volume of cases over the course of the semester. Students in the Advanced Family Law Litigation Clinic will continue to work in the Temple Legal Aid Office to provide direct legal representation to low-income litigants in child custody, child and spousal support, paternity and adoption cases.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0704, JUDO 0540 (C or higher), and (JUDO 0460 or JUDO 0558)

**JUDO 0780. Temple Summer Professional Experience Curriculum. 1 to 5 Credit Hour.**

Students will participate in an experiential learning program. An externship will be combined with a course of study designed to examine the role a lawyer has in society; obligations to clients, supervisors, public and self; definitions of success; moral judgment; and the formation of professional identity.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0781. Social Justice Lawyering Clinic. 1 to 6 Credit Hour.**

Students will engage in the multifaceted practice of social justice advocacy through hands-on experience. Using a hybrid advocacy model, students provide direct individual client representation and work on related advocacy projects that address systemic issues. This work will be team-based and collaborative, and often involve nonprofit legal providers and community-based organizations. Students are expected to participate in a weekly team meeting with their faculty supervisor as well as learn about the substantive and procedural law that is applicable to their cases and projects. This course will focus on one or more particular social justice issues each semester.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0782. Advanced Clinical Intensive: Social Justice Lawyering Clinic. 1 to 4 Credit Hour.**

After having completed the Social Justice Lawyering Clinic and Seminar, students will have the opportunity to engage in a more in-depth clinical experience. They will work on a project that addresses systemic issues in team-based collaboration with community-based organizations. In addition, each student will: (1) provide leadership for a team of students; (2) produce a written portfolio with at least three different forms of non-traditional legal writing; and (3) write a paper that critically examines their role working as a student lawyer within a social justice movement.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0781 and JUDO 5034 (D or higher)

**JUDO 0783. Federal Reentry Court Clinic. 2 to 4 Credit Hours.**

In this year-long program, students assist STAR (Supervision to Aid Reentry) program participants, representing them in court under the guidance of supervising attorneys. Some of the legal issues that students have assisted participants with include: challenging arrears accrued on child support orders while incarcerated, adjusting child support payments, assisting participants to overcome barriers to employment such as help obtaining occupational licenses, challenging traffic violations, and screening and registering participants for benefits. The discrete issues on which the students work will be placed into a broader social justice context that explores such topics as mass incarceration, collateral consequences of incarceration, and restorative justice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (C or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 0784. Justice Lab Clinic. 1 to 6 Credit Hour.**

Justice Lab students represent client organizations (community groups, nonprofits, and governmental agencies) in a range of systemic advocacy matters. Students develop and advance policy campaigns, design legal services and access to justice programs, draft legislation and provide legislative advocacy tools, and act as legal problem solvers. Through this social justice advocacy, students find creative solutions to legal problems, reflect on the complex social and political aspects of the law, and develop strengths in interviewing, research and information gathering, policy, legislative, and strategic analysis, written and oral advocacy, collaboration, project management, professional ethics, negotiation, and media advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 5052.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0785. Community Lawyering: Temple Legal Aid Office. 2 to 4 Credit Hours.**

Through community lawyering projects, this internal clinic at Temple's Legal Aid Office allows you to develop the legal skills you will need to represent clients in many areas of practice. As a legal intern, you will be placed in the primary lawyer role under the direct supervision of the professor who will supervise each aspect of the work you do. It is designed to be diagnostic--you will practice skills you need to lawyer and reflect with the professor at every step on how to practice well. Some skills you will develop include interviewing and counselling, goal defining with clients, legal analysis, legal research and writing, and oral advocacy. You will handle some litigation type matters, like administrative hearings before Administrative Law Judges to help people get disability benefits, and transactional ones, like drafting powers of attorney and wills. The present client base has a health law focus and includes people with physical disabilities and those with severe illnesses, like HIV and cancer. Many of the community sites focus on delivering medical and social services to people with these disabilities and illnesses.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0786. Big Tech and The Law. 2 to 3 Credit Hours.**

This course will cover fundamental legal and practical issues concerning large technology companies, including issues relating to corporate governance, privacy, competition, and social impact. The course is designed to foster the acquisition of substantive legal knowledge and develop practical legal skills in the context of learning about core legal issues implicated by large technology companies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0788. Temple Law Asylum Project. 2 to 4 Credit Hours.**

Students will work in conjunction with the Washington Office on Latin America (WOLA), a preeminent research and advocacy nonprofit that works to advance human rights in the Americas, to draft annotated tables of contents tailored to specific asylum claims. This course will begin with a short overview of the asylum process in the United States and a breakdown of the legal elements of an asylum claim. Students will then learn various methodologies of country conditions research, and how to evaluate the accuracy and reliability of such research as well as the weight that immigration adjudicators will accord different sources. Working in teams, students will conduct in-depth country conditions research, some in Spanish, and compile that information into annotated tables of contents. Each annotated table of contents will be organized in accordance with a legal argument developed by its respective team. By using the annotated tables of contents as an organizational tool, students will learn how to tailor their facts through substantial, thoughtful, and careful editing to most effectively support their legal arguments. Students will gain a deeper understanding of the sociological, psychological, and ethical issues implicated in their work.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0790. Access to Justice Clinic. 2 to 4 Credit Hours.**

In this clinical course, students would engage in legal analysis and policy advocacy while representing client organizations seeking to achieve systemic improvements in access to civil justice - in the mechanisms, that is, by which currently unrepresented people can get access to legal help. Students would develop skills in working collaboratively with client organizations, project planning; interviewing; research and information-gathering; analyzing substantive law, procedure, and the actual working of administrative agencies and courts; identifying systemic barriers and developing solutions and strategies by which to achieve them; and written and oral advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0791. Sheller Center for Social Justice: The Systemic Justice Clinic. 2 to 4 Credit Hours.**

A civil rights/social justice clinic focused on the collateral consequences of the criminal legal system will provide students an opportunity to address one of the most pressing concerns in civil rights today, that almost any interaction with the mechanisms of the criminal legal system results in a deprivation of a person's rights, and that these interactions and resultant deprivations fall disproportionately upon racial minorities and the poor. Michelle Alexander's "The New Jim Crow" draws an undeniable line from traditional conceptions of the struggle for civil rights to the modern carceral state and the treatment of incarcerated individuals. Complementing this understanding, James Jacobs has written convincingly on the concept of the "eternal criminal record", which can deprive people - even those with merely an arrest record - in the areas of housing, employment, and education for the rest of their lives. This clinic will give students a chance to work in an area of public interest law that is deeply textured, widely relevant, and profoundly rewarding.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0794. Advanced Clinical Intensive: Justice Lab. 1 to 4 Credit Hour.**

After taking the core Justice Lab clinic and seminar courses, some small number of students may wish to enroll in Advanced Justice Lab to continue their client advocacy and gain more in depth or complementary lawyering skills. In this advanced clinic option, students will continue their advocacy work for the same client as in the previous semester by pursuing further advocacy on the same or related issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- in JUDO 0784.

**JUDO 0795. Advanced Clinical Intensive: Community Lawyering Temple Legal Aid Office. 2 to 4 Credit Hours.**

Taken along with or after having completed JUDO 0785, students have a more comprehensive clinical experience by doing an additional project or more in-depth client work to supplement the clinical work of JUDO 0785. Projects are picked before the end of the first week of the semester.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- in (JUDO 0765 or JUDO 0785 (may be taken concurrently))

**JUDO 0796. Lawyering for the Indigent Intensive Clinic. 1 to 12 Credit Hour.**

This intensive clinic will provide students with basic instruction in law practice that will put together the substantive law and legal skills they have learned in law school in an intensive practice setting while they provide direct legal services to indigent clients. It is a capstone course which will allow students who have completed all of the rest of their coursework needed to graduate to spend their last 12 weeks of law school doing public interest legal work under the supervision of a fulltime clinical professor. It will meet the requirements of an alternate admission program established for the New York Bar, and may be modified as appropriate to accommodate students outside of that setting.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0800. Advanced Antitrust. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0801. Adv Con Law: Equal Protct. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0802. Adv Corporate Problems. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0803. African Customary Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0804. Education Law. 3 Credit Hours.**

This writing seminar will cover a range of legal and policy issues affecting elementary, secondary, and higher education. Specific topics will include rights of students, teachers, and parents; freedom of expression; privacy; academic freedom; school discipline; and equal opportunity.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0805. Employment Discrimination. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0806. Professional Responsibility. 3 Credit Hours.**

The purpose of this writing seminar is to explore what it means to be an ethical lawyer by discussing a range of issues facing legal professionals while acquainting students with some of the specific guidelines for ethical professional conduct. Emphasis is on the Model Rules of Professional Conduct, ethics opinions from bar associations, common law and statutory materials.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of D in (JUDO 0404 and JUDO 0410)

**JUDO 0807. Corporate Tax Planning. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0808. Health Care Law: Bioethics. 3 Credit Hours.**

This writing seminar examines bioethics as it applies to health care problems. Representative topics are: definitions of life and death; organ and tissue transplants; procreation problems; genetic counseling; abortion; sterilization; in vitro fertilization; surrogate parenting; wrongful birth and wrongful life; life and death decisions and medical experiments with human subjects.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0809. Collective Bargaining. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0810. Adm Pro: Grants/Benefits. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0811. Adv Evidence/Trl Tactics. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0812. Health Care: Reg & Financng. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0813. Law Economics & Morality. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0814. Comparative Criminal Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0815. Criminal Appellate Procedure. 3 Credit Hours.**

The major focus of this writing seminar is on the procedures and rights involved in the appeal of a criminal case. (Many of these procedures are similar to those in civil cases.) Attention is given to understanding the implication of appellate rules for the trial of a case. The role of the appellate courts, as well as of appellate attorneys, is also examined. That portion of the course dealing with prosecutor appeals affords an opportunity for an extensive examination of important aspects of double jeopardy. Some brief attention also may be given to various forms of "collateral attack" litigation and post-verdict trial" court motions. In lieu of an examination, students taking this course as a writing seminar will research and write a series of papers. Study of the course materials and participation in classes is also part of the process.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0816. Adv Crim Pro: Advocacy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0817. Law, Science and Technology. 3 Credit Hours.**

We will explore the interrelationship between law, science and technology and the role of science and technology in law by examining a series of specific problems. Examples include the legal ramifications of recent technological developments such as polygraph testing, clinical testing of new treatments on human subjects, cable television and the newest vehicle for mass communications, Internet, and fiber optics. Another issue that will be explored is the influence of new statistical and mathematical methods on the law. Students write and make a presentation to the class on a topic of their choosing.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0818. Comparative Law: Roman. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0819. Comparative Law: China. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0820. Adv Crim Procedure: Prblm. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0821. Insurance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0822. Current Issues in Family Law. 3 Credit Hours.**

This seminar will be a small but ambitious step toward initiating a transactional family law program. The course will combine several basic substantive family law issues with several basic professional responsibility issues with several basic skill-based exercises. There will be two or three basic "problems". Each problem requires integrating substantive law with the rules of professional responsibility. Each problem requires exercising other basic lawyering skills, for example, client interviewing, intake processing, opponent attorney contact, negotiation, and client relations. The skill-based exercises for example, letters to clients, formalized agreements. As the course is currently planned, there may be a final paper requesting students to tie the other experiences together. As currently imagined, the course is very hands-on, relying on simulations to stimulate discussions and development.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0823. Adv Evidence: Scientific. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0824. Environmental Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0825. Corporate Finance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0826. Land Use Law & Process. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0827. Legal Problems Small Bus. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0828. Adv Securities Regulatn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0829. Banking and Financial Reg. 3 Credit Hours.**

This writing seminar will provide students with corporate, regulatory, or litigation backgrounds with a rich understanding of the increasingly complex interaction between state and federal regulations (designed to promote efficiency, growth and fairness) and our nation's complex web of money moving institutions (banks, credit card companies, investment banks, S&L's, credit unions, brokerage houses, pay-day loan shops, etc.).

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0830. Comparative Antitrust. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0831. Computer Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0832. Consumer Problems. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0833. Selected Problems in Philosophy of Law. 3 Credit Hours.**

This seminar explores interconnections among legal concepts, history and political theory. Students interested in enrolling are encouraged to contact the instructor both for information about the reading list and to discuss potential paper topics.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0834. White Collar-Organzcd Crm. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0835. Appellate Advocacy. 3 Credit Hours.**

This writing seminar will provide an intensive study of the appellate process, brief writing, and oral argument. Topics will include theories of persuasion, argument development, and strategic considerations in brief writing and oral argument. Students will research, brief, and argue a case on appeal.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0836. Constitutional Litigatn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0837. Adv Constitutional Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0838. Counseling Internl Inves. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0839. Supreme Ct/Current Term. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0840. Legislation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0841. International Protection of Human Rights. 3 Credit Hours.**

This writing seminar is designed as an introduction to issues of law, policy and institutional machinery for the promotion of human rights in the world community. The course will focus first on 20th century genocide against the Armenians and Jews and then study the following problems: (1) Are nations bound by human rights laws (such as treaties, customary international law, U.N. Charter, European Convention, etc.). (2) Are the courts of a nation so bound. (3) Where there is violation of human rights law, when and under what circumstances may diplomatic intervention, economic sanctions and/or military force be used to redress the wrongs or to cause compliance with human rights guarantees.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0842. Drug Products Liability. 3 Credit Hours.**

This course develops an understanding the interrelationship between drug products liability, professional malpractice, and hospital negligence. This course will explore the evolution of therapeutic drugs and devices from the manufacturer's submission of the Application to the FDA through the approval of the Application to the marketing and prescription. The course will then explore the role of the FDA, pharmacists, physicians, and hospitals in the delivery of therapeutic drugs and devices to the consumer, and their respective obligations to the consumer. In that regard, this course will examine the federal Food, Drug, and Cosmetics Act, as well as many other complex legal and ethical theories applicable to drug and medical devices manufacturers, pharmacists, physicians, and hospitals in their therapeutic drug and devices interactions with the consumer. Currently publicized incidents such as problems with the Jesse Gelsinger gene therapy at the University of Pennsylvania, and others will be dissected within the context of both products liability and professional malpractice law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0843. Contrlling Noncompliance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0844. Entertainment Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0845. Legal Advocacy Soc Chg. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0846. Business Torts. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0847. Environmental Law Problm. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0848. Cyberspace. 3 Credit Hours.**

The goal of this course is to introduce students, by means of a series of specific case studies chosen to illustrate the clash between existing legal regimes and new technologies, to a reasonably comprehensive subset of the legal problems that are being addressed as part of the developing "online law." Topics to be covered include the law of copyright as applied to electronic information, trademark law as applied to Internet "domain names," application of the First Amendment to the regulation of Internet communications, privacy concerns on the Internet, the law of anonymous communication and the regulation of encryption technology, and the difficult international jurisdictional questions presented by Internet activity. Although it is not a prerequisite, it is strongly recommended that students have had a course on intellectual property prior to enrolling in this course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0849. Food & Drug. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0850. Jurisprudence. 3 Credit Hours.**

This writing seminar will explore the question - What is law? - with special emphasis on the question of law's authority and on the relationship between law and morality. In the course of the semester, we will survey a variety of perspectives on the nature of law, including natural law, legal positivism, legal realism, law and economics, critical legal studies, feminist jurisprudence, and critical race theory.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0851. Jewish Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0852. Captl Pun. Life Imprism. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0853. Mental Health Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0854. State/Local Tax Finance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0855. Introduction to Public Interest Law. 3 Credit Hours.**

This writing seminar is designed to explore major lawyering issues confronting public interest lawyers in a variety of practice areas. The course is intended to integrate academic theory with study of actual practice experiences in public interest advocacy. Students will discuss the assigned readings, interact with guest speakers, complete a research paper on an approved public interest topic, and present the paper to the class while it is still in draft.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0856. Adv Criminal Law:Prblems. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0857. Real Estate Problems. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0858. Select Prob in Evidence. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0859. State Constitutional Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0860. Tax Policy. 1 to 3 Credit Hour.**

This seminar examines selected aspects of federal income tax policy and enables students to explore the social and economic choices that underlie the tax system.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0861. Civil Disobedience. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0862. Copyrights. 3 Credit Hours.**

The goal of this writing seminar is to introduce students to the basics of US copyright law. Without detracting from this goal of covering the (domestic) copyright basics, we will also look at these issues in the specific context of these new technologies and the growing internationalization of copyright law, in order to introduce you to some of the problems that are likely to arise as copyright law enters the next century. Topics to be covered include the subject matter of copyrights, copyright ownership, the scope of copyright protection, the nature of the copyright infringement inquiry, the "fair use" and other defenses, and selected issues concerning the international enforcement of copyrights.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 0863. Advanced Trial and Litigation Strategy. 3 Credit Hours.**

This writing seminar provides an intensive examination of the theory and practice concerning the examination of witnesses and the boundaries of "Relevant Evidence" with the primary focus on selected topics of impeachment and rehabilitation. The seminar is designed to provide an in-depth understanding of the trial process system from the perspective of the courtroom lawyer, an ability to perform certain trial skills within the ambit of witness examination and an analysis of both trial tactics and techniques as well as trial rules and procedures. Articles VI and IV of the Federal Rules of Evidence are studied in-depth and explored in their application to the courtroom experience.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0540 or JUDO 0461 (may be taken concurrently)) and (JUDO 0558 (may be taken concurrently) or (JUDO 0460 and JUDO 0461 (may be taken concurrently)))

**JUDO 0864. Intrnl Control Environmn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0865. Advanced Jurisprudence. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0866. Civil Rghts/Disabilities. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0867. Juvenile Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0868. American Legal History. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0869. Real Estate Dev Finance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0870. Public Administration. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0871. English Legal History. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0872. Constitutional Law and Foreign Policy. 3 Credit Hours.**

This course explores the relationships of selected principles of constitutional law and adjudication with the conduct of U.S. foreign policy; especially from World War II to the present.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0873. Comparatv Nonprofit Orgs. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0874. Health Care Law: Medical Malpractice. 3 Credit Hours.**

This writing seminar examines the professional responsibility of physicians and other health care providers. Representative topics are: the professional patient relationship; quality control and risk management; standards of care; defense to malpractice actions; hospital patient responsibility; manufacturer patient responsibility; tort reform; medical evidence and damages.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0875. Estate Counseling. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0876. Bus Mergers/Acquisitions. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0877. Bus-Bankrptcy-Lit Ethics. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0878. Sports Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0879. Exclusionary Zoning. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0880. International Law Problems. 3 Credit Hours.**

This seminar will consider, within an interdisciplinary context, selective topics of international law. At the end of the semester, each student will submit an agreed-upon research paper on a subject within a topic such as: problems in foreign trade and investment; unilateral action by nations within international law; and the scope, reach of methods of anti-terrorist programs

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0881. Intl Investment & Trade. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0882. Products Liability. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0883. Complex Civil Litigation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0517.

**JUDO 0884. State/Local Government. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0885. Relational Torts. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0886. Constnl Torts & Remedies. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0887. Real Estate Transactions. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0896. Multinational Enterprses. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0897. Persuasive Thinking. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0898. Comparative Law. 3 Credit Hours.**

A study of the origins, structure and distinctive features of the two main legal traditions of Western Civilization - the Civil Law and Common Law traditions - and their influences on selected national legal systems around the globe.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0899. Stigma and Deviance. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0900. Guided Research. 1 to 4 Credit Hour.**

This independent research offers students an opportunity to (1) satisfy the mandated writing requirement, (2) develop research, writing and analytical abilities through producing a single substantive research paper and (3) work with a faculty member in an area of the teacher's interest or expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0901. Guided Research II. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0902. Guided Research Serial. 1 to 4 Credit Hour.**

This independent research offers students an opportunity to (1) satisfy the mandated writing requirement, (2) develop research, writing and analytical abilities through producing a series of short papers and (3) work with a faculty member in an area of the teacher's interest or expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0903. Guided Research II Serial. 1 to 5 Credit Hour.**

Guided Research offers students an opportunity to develop research, writing, and analytical abilities. The student works with a faculty member in an area of the student's interest and the faculty member's expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0905. Temple Law Review. 1 to 3 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0906. Moot Court. 1 to 2 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0907. Intl/Compartv Law Journl. 1 to 3 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0908. Sci/Tech/Envrn Law Journl. 1 to 3 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0909. National Trial Team. 1 to 2 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0910. Poltcl/Cvl Rghts Journal. 1 to 3 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0911. Jessup Intl Moot Court. 1 to 3 Credit Hour.**

Jessup Moot Court is a co-curricular course offering. Students compete in teams and must produce written briefs and participate in oral arguments in mock appellate proceedings. Team members organize their own research, writing, and oral preparations with guidance from members of Temple's international law faculty, who serve as advisors. Temple Law competes against other U.S. law schools in regional rounds. In the international round, the winners of the U.S. regional competitions compete against teams from foreign countries who have won their own national competitions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 0912. International Law Colloquium. 3 Credit Hours.**

This course will examine select advanced topics in contemporary international law practice and scholarship. Approximately every other week, the course will feature scholarly presentations of papers or works-in-progress by leading international law scholars. Students will submit written critiques of the scholars' papers. This course satisfies the serial writing requirement.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0452, JUDO 0497, JUDO 0554, JUDO 0556, JUDO 0583, JUDO 0637, JUDO 0642, JUDO 0658, JUDO 0665, JUDO 0841, JUDO 0881, JUDO 0913, JUDO 0934, JUDO 0991, JUDO 0996, JUDO 0997, JUDO 1003, JUDO 1055, JUDO J637, JUDO J652, JUDO J991, JUDO R432, or JUDO R658)

**JUDO 0913. Treaties. 3 Credit Hours.**

The aim of this course is twofold. First, it will seek to acquaint students with the international law rules regarding the formation, interpretation and application of treaties, with particular attention to the 1969 Vienna Convention on the Law of Treaties. Second, the course will introduce students to the treaty law and practice of the United States, with particular attention to the distribution of authorities under the Treaty Power, Congress' role(s) in U.S. treaty-making, and judicial enforcement of treaties in federal and state courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** JUDO 0556 (may be taken concurrently)

**JUDO 0914. Law of Investigations. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0915. Human Rights/Euro Union. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0916. Legal Ed/Practice of Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0917. Sexual Orientation, Gender Identity and the Law. 3 Credit Hours.**

This writing seminar will explore the intersections between American law and issues of sexual orientation and gender identity. The course will begin by encouraging students to think about what is meant by the terms "sexual orientation" and "gender identity," and how those identities relate to other legally-protected statuses. The remainder of the course will survey a range of substantive areas of American law in which issues of sexual orientation and gender identity arise. Students will be encouraged to reflect upon the theoretical underpinnings of sexual orientation and gender identity law, and also to creatively imagine how real-life clients presenting these issues might be served in different areas of practice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0918. Law & Feminism. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0919. Crim Pro: Euro-Japan-US. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0920. Adv European Union Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0921. Law/Electronic Commerce. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0922. Derivative Securities and their Regulation. 3 Credit Hours.**

**Derivative Securities & Their Regulation:** This seminar provides an overview of what derivative securities are; how they are designed, risk-managed, and traded; how banks, corporations, insurance companies, pension plans, and other institutional investors can utilize derivative securities to enhance their profits or control risks; and how derivative securities are and can be regulated. This seminar analyzes legal aspects of an estimated \$600 trillion notional OTC (Over-The-Counter), or privately negotiated, derivative securities market. Some blame derivative securities for causing or at least contributing to recent economic crises. Topics covered include CDOs (Collateralized Debt Obligations), complexity, credit derivative securities, hedging, knowledgeable traders, noise traders, speculation, swaps, systemic risk, unsophisticated traders, and various regulatory proposals to reform our financial services industry. No prior familiarity with or knowledge of derivative securities is assumed or necessary.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0923. Intl/Comprtv Family Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0924. Fed American Indian Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0925. Japanese Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0926. Transactional Skills Workshop. 3 Credit Hours.**

This writing seminar will introduce students to the practice of business transactions law. Business transactions can, of course, take many forms, but most commonly involve either acquisitions or financings. "These are fancy words for "purchases" and "investments," respectively. Other transactions" include joint ventures, product development agreements, franchise agreements, licenses, and so on. This course is organized around two transactions: (i) the formation (financing) of an imaginary high-tech venture, and (ii) an asset purchase by that venture of another business. In addition to the skills component, students will be "expected to draft documents, maintain a "strategy" "journal," and complete several written assignments."

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 0927. Comnty Economic Devlpmnt. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0928. Intrnl Litgtn & Arbitrn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0929. Gaming Law. 3 Credit Hours.**

This writing seminar will explore the constitutional and statutory basis for gaming; the regulatory structure to license and control gaming; legal issues involving Indian, shipboard, charitable and internet gaming; and the rights of patrons and licensees who frequent and work in casinos.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0930. Crim Law-Changng Society. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0931. Human Rights/Jewish Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0932. Criminal Procedure II. 3 Credit Hours.**

Criminal Procedure II covers the main pretrial stages of criminal proceedings in felony cases, from pre-arrest to trial: prosecution decision whether to prosecute; bail and other forms of pretrial release; preliminary hearings; indicting and investigating grand jury proceedings; joinder and severance of defendants and offenses for trial; speedy trial, prompt commencement of proceedings, prompt trial statutes and rules; pretrial discovery; prosecution disclosure and preservation of exculpatory evidence; defense obligations not to conceal inculpatory evidence; and guilty pleas proceedings, including plea bargaining. The course deals with more "practical" procedure than Criminal Procedure I; the constitutional provisions and appellate decisions. The class is conducted predominately through role-play simulations, but also uses more traditional case analysis (mainly U.S. Supreme Court cases) and problem solving. In the simulations, students are assigned to conduct hearings, argue motions, etc., serving as judges, attorneys and witnesses. Some of the students not assigned to perform the simulation are assigned to write on the problem.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0933. Land Use Planning. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0934. Law of European Union. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0935. International Taxation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0936. Intl Employmnt Relations. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0937. Corp Law/Policy in Banking. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0938. Comparative Corporate Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0939. Adv Con Law: Con Theory. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0940. Patent Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0941. Trademarks/Unfair Comptn. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0942. Women and the Law: Domestic Violence, Rape and Harrassment. 3 Credit Hours.**

This course will focus on woman abuse, previously labeled battered woman syndrome. It will cover the causes of woman abuse and both formal and informal societal responses. Major emphasis will be on police involvement, evidentiary rules, substantive criminal and civil law doctrine, criminal and civil procedures, and avoidance and remedial measures. Some time will be spent on historical, sociological and international materials.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 0943. Constnl Lmts Reg Commrce. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0944. Legal Research and Writing III: Advanced Persuasive Strategies. 3 Credit Hours.**

This course will focus on advanced strategies for persuasion in legal writing. The reading in the course will focus on materials about the theory and practice of persuasion in law and other disciplines. The course will touch on such topics as storytelling and narrative, rhetorical devices, scientific advances in persuasion, and framing. Students will evaluate the use of the studied techniques in legal briefs and will practice using the techniques in their own writing.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0945. Advanced Legal Analysis. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0946. Law & Social Science. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0947. Environmental Law/Policy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0948. Health Med Law Socl Plcy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0949. Lawyering for Organiztns. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0950. Human Rights/Emergency. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0951. Com Law: Dispute Settlmnt. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0952. Law Justice & Morality. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0953. Comparative Constnl Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0954. Public Health Law. 3 Credit Hours.**

This writing seminar surveys the broad terrain of law and the public's health. We will cover both the "laws on the books" and the problems of actually implementing these laws in the often highly politicized and culturally sensitive context of health and behavior. Topics include the basic powers, duties and limitations of state health authorities in the United States; the epidemiological influence of law on health and health behavior; the global system of health governance; and the application of a human rights framework to health issues. Health topic areas covered include communicable diseases (HIV, SARS, emerging infections), tobacco, substance abuse, chronic diseases and infections. We will also devote considerable time to reading about and discussing how health is "socially constructed" and how stigma, economic self-interest and other cultural responses to disease complicate efforts to promote public health.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate, Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0955. Dignitary Harms. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0956. Natl/Multicultural Rghts. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0957. Religion-Workplace/Socety. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0958. Law & Popular Culture. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0959. The Global Workplace. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0960. Privacy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0961. Ethical Perspectives on the Practice of Law. 3 Credit Hours.**

This course challenges the view that a lawyer is merely an instrument for achieving his or her client's ends and then examines the relationship between professional roles and ordinary morality. We ask whether the lawyer must take personal moral responsibility for (a) the quality of his or her relationship with the client, (b) the outcome of the cases s/he handles, and (c) the tactics and the strategies used to achieve the outcome. This is a serial paper writing seminar. Also, this course is not a substitute for Professional Responsibility and may be taken before or after that required course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0962. Federalism. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0963. First Amendment. 3 Credit Hours.**

This writing seminar offers an in-depth examination of the protections afforded by the First Amendment.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0964. Legislation and Public Policy. 3 Credit Hours.**

Through actual case studies, this serial writing seminar explores how legislatures translate controversial public policies (such as nondiscrimination laws) into specific legislation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0965. Religious Rights Under the United States Constitution. 3 Credit Hours.**

This course will examine the Free Exercise and Establishment Clauses of the First Amendment, with particular attention to the various approaches to their interpretation that the supreme court has pursued.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0966. Governing the Workplace. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0967. Sales. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0968. Theories of Property. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0969. Current Problems in Law and Medicine. 3 Credit Hours.**

The goal of this course is to provide students interested in health law with a unique opportunity to conduct research on current problems being faced in the field of health law. The student will gain practical experience through exposure to health care law practitioners working on problems confronting Temple University Hospital. Using this experience to select a topic and generate ideas, the student will then conduct guided research and write a paper under the supervision of the course instructors.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0970. Strict Liability-Products. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0971. Adv Administrative Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0972. Citznshp Immgrtn Refugee. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0973. Accounting for Lawyers. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0974. Civil Procedure II. 3 Credit Hours.**

The litigation process from the pleading stage through trial is thoroughly studied in this writing seminar. Areas covered in detail include: pleading, preliminary injunctions, motion practice, multi-party litigation, class actions, discovery practice and post-trial motions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0975. Death Penalty. 3 Credit Hours.**

This writing seminar will explore the law administering the death penalty in the United States. Four papers [one a month] of 7-10 pages will explore students' personal reactions to legalization of the death penalty, issues of racism, over inclusion, resources, effective assistance, retardation, youthful offenders and post conviction limitations on seeking relief.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0410 and JUDO 0532)

**JUDO 0976. Lender Liability. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0977. Corporate Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0978. Parents/Children/State. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0979. Affirmative Action. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0980. Equity in Jewish Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0981. Advanced Patent Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0982. Abortion. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0983. Advanced Immigration Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0984. National Security Law. 3 Credit Hours.**

This seminar will focus on a specific set of national security threats - those posed to the United States by non-state actors who target US civilians, personnel, and interests with the aim of achieving political change - and examine the legal controversies raised in responding to these threats domestically and abroad.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0404 and JUDO 0410)

**JUDO 0985. Unincorporated Business Associations. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0986. Law and Economics. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0987. Adv Case Law Methods. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0988. Legsltv-Regulatory Advcy. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0989. Law in Asia. 3 Credit Hours.**

This writing seminar will focus on both the comparative and international role of law in several Asian societies, including China, Japan, Taiwan and the Korean peninsula. We will compare the ways in which the different societies handle similar problems, and we will also consider the extent to which they are developing a kind of regional international law. Additionally, we will consider the degree to which convergence of cultures, economies and politics in East Asia is helping to promote convergence of law.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0990. Law Happiness & Meaning. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0991. International Development Law and Policy. 3 Credit Hours.**

This seminar examines high priority areas in international development aid and the legal issues that arise in connection with them. We begin with a discussion of the meaning of development and the role of governments, international organizations, civil society and the private sector in development. We then examine the legal and policy aspects of development in the context of specific needs, such as HIV AIDS, education, the environment and microfinance. We focus, particularly, on the legal questions that arise in building collaborations between donors of international development aid to address these needs and the different legal instruments used to provide such aid. No prior knowledge of development or development law is required.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0992. Conflict of Laws. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0993. Constitutional History. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0994. Race & Ethnicity. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0995. Family Law: Theory, Policy and Practice. 3 Credit Hours.**

This writing seminar is designed to investigate the available theories for facilitating "family transition" through the process of separation or divorce and evaluate the extent to which the current practice by lawyers, courts, and related professionals facilitates or undermines successful transitions. There will be a particular focus on families with children and low income or moderate income families, and will include judicial as well as alternative dispute resolution techniques. Students will consider both economic issues following separation and divorce as well as child custody issues. Students will be required to work in teams to develop a research plan and produce individual scholarly written work that encompasses the following areas of research: 1) Identifying legal, psychological, and sociological theories concerning family transition that focus on reducing risks for all family members associated with separation and divorce, 2) "Real world" research that maps and evaluates the resources available to separating and divorcing families, including legal, mental health, court, and alternative dispute resolution procedures in the five county Southeastern Pennsylvania area, 3) Identification of key policymakers that would be in a position to implement policy proposals. Students will be encouraged to share their research findings with key policymakers.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0568, JUDO 0445, or JUDO 0455)

**JUDO 0996. Post-Conflict and Transitional Justice. 3 Credit Hours.**

This seminar will explore the legal, moral, social, and political questions that face societies emerging from periods of large-scale human rights abuses. We will study the various strategies that societies have adopted in recent history to recover from war, ethnic conflict, apartheid, and authoritarian rule. Such strategies include prosecutions, truth commissions, reparation programs, institutional reforms, and reconciliation programs. Each student will engage in a substantial research project that describes and analyzes a specific case or problem in transitional justice and explores how that case or problem fits into the larger themes examined in the course. Students will present their research to the class and will be responsible for reading and reacting to the work of their classmates.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0997. International Health Law. 3 Credit Hours.**

This writing seminar examines the many treaties, institutions and customs that govern how health is protected and promoted in the international system. Specific topics will include communicable disease control (e.g., SARS), chronic disease control (Framework Convention on Tobacco Control), international human rights and health, access to medicines (e.g., the TRIPS Agreement), the institutional structure of global health governance (World Health Organization, Global AIDS Fund), and health-related business regulation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 0998. Current Issues in Civil Rights Law. 3 Credit Hours.**

This writing seminar covers the federal regime for protection of civil rights, with a particular focus on (1) emerging or unresolved issues in civil rights law and (2) the broader historical and sociological background underlying federal civil rights statutes and doctrines. Reading assignments (subject to change) will cover Critical Race Theory; the debate over affirmative action; Titles VI and IX (prohibiting discrimination based on race/ethnic origin and gender in programs receiving federal funds, respectively); sexual orientation; and racial profiling.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 0999. Anatomy for Litigators. 3 Credit Hours.**

This course explores the medical/legal issues related to personal injury claims. In addition to discussing human anatomy from a litigator's perspective, the course will examine issues related to theories of liability and defense, expert testimony, diagnostic tests, medical records, and HIPAA.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1000. Trial Team - Pretrial Motions. 1 to 2 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1001. Trial Team - Evidence and Strategy. 1 to 2 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1002. Psychology and the Law. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1003. Refugee Law and Policy. 3 Credit Hours.**

This writing seminar will provide an introduction to international and domestic refugee law and policy. Beginning with an overview of the origins of modern international refugee law and policy, the course will then move into a basic background of the asylum process in the United States. We will next engage in an in-depth discussion of the doctrine of American asylum law, walking through the relevant elements laid out in asylum law and focusing particularly on areas of doctrinal growth. The course will also introduce students to the standard for claims to protection under the Convention Against Torture. We will then focus on detention of asylum seekers, reading both case law and policy papers. After this grounding in the American asylum system, the course will step back to examine international issues in refugee protection, including temporary and subsidiary protection, internally displaced persons, and durable solutions. We will wrap up with a discussion of challenges facing the American and international refugee law regimes in the future.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0550, JUDO 0583, or JUDO 0841)

**JUDO 1004. Law and Human Behavior Colloquium. 3 Credit Hours.**

This colloquium course will bring in leading scholars to present papers on legal, policy and regulatory implications of different conceptions of human behavior. With the recent explosion of research about how people behave in various contexts, environments, settings and situations, the goal of this seminar is to expose students to this recent research, with an eye toward its application in legal regulation and doctrinal development. There will be outside speakers every other week presenting their current research and its applications. Students are to read these papers before their authors present them, and write a brief two to three page reflection/response paper for each speaker before that speaker's presentation. These assignments will provide students with opportunities to critically evaluate, reflect upon and think carefully about what they have read. In the "off weeks" students will be provided material that provides background on the coming week's topic and instructors will lead discussion to enrich students' responses.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508, JUDO 0530, JUDO 0525, JUDO 0825, JUDO 0486, JUDO 0986, JUDO 0690, JUDO 1011, JUDO 0958, JUDO 0480, JUDO 0590, or JUDO 0600)

**JUDO 1005. Intl/Rsltn Armed Conflict. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1006. Political and Civil Rights. 2 to 4 Credit Hours.**

Civil rights and individual freedoms under the First and Fourteenth Amendments are examined in this writing seminar. Topics include Congressional enforcement of the Civil War Amendments, racial discrimination in schools, housing and employment, sex discrimination, national security, libel, obscenity, access to the media, government surveillance and the right of privacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 1007. Climate Change Law and Policy. 3 Credit Hours.**

Global climate change is threatening to cause severe, widespread and possibly catastrophic changes to our planet. This seminar will consider the implications of climate change for domestic and international law and policy. International negotiations are scheduled to take place in Copenhagen in December 2009, climate change legislation is pending in Congress, and the EPA is poised to begin regulation of greenhouse gases under existing law. How should such legislation be designed in order to accomplish the radical restructuring of the U.S. economy that will be necessary in order shift energy production away from our current heavy reliance on fossil fuels? Should it employ a carbon tax, a cap-and-trade system, or some other regulatory mechanism? How should the costs of transitioning to the new "green economy" be allocated? Should the poor receive subsidies to offset rising energy costs? How might an international agreement to reduce global greenhouse gas emissions be structured to be both politically feasible and fair? Should such an agreement impose costly emissions reduction obligations on developing nations that are already struggling economically, when the problem has been primarily caused by those in the developed world? Who should pay the costs of adapting to those adverse effects of climate change that have already become inevitable - effects that are likely to fall most heavily on the developing world? In the absence of a unified regulatory approach at either the federal (U.S.) or international level, how have advocates already begun to use existing legal structures to try to force action on climate change? We will address these and other questions in the seminar with the help of readings drawn primarily from books and scholarly articles. Students will write a series of short papers over the course of the semester based on the readings and will take an active role in facilitating class discussions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1008. Developing Children's Rights. 3 Credit Hours.**

The seminar will cover the following topics: 1) Childhood as a Legal Status . This segment of the course, joined with the next, act as foundation for identifying the basic legal problem in developing the constitutional rights of children; 2) Children as Family Members. This is focused on fleshing out the legal relationship between parents and children; 3) Children as Victims and Witnesses. This segment of investigates one of the dominant tensions in our system: children victimized by the very people assigned to protect them; 4) Children as Students and Agents. Here again, children are assigned to 'protective' environments that are sometimes hostile or unsupportive; 5) Children as Patients, Consumers, Litigants. This is a catch all, following from the highlighted 'agency' element of the school focused material; 6) Children as Offenders. This segment will be structured to consider the ways in which we hold children responsible for their choices even as otherwise characterizing them as incompetent deciders; and 7) Children as Citizens. This is designed to contain material on regulations directed at children like curfews, underage drinking, and gambling prohibitions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1009. The Jury. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1011. Law, Emotions and Neuroscience. 3 Credit Hours.**

This writing seminar provides a survey of practical and theoretical aspects of how emotions and neuroscience affect legal rules and institutions. It addresses roles that emotions and neuroscience can, do, and should play in theories and practice of law. Emotions and neuroscience raise profound and interesting questions central to jurisprudence such as these: How do emotions like anger, anxiety, compassion, fear, disgust, guilt, happiness, love, mercy, remorse, resentment, and shame influence the decision-making and judgment processes of judges, juries, lawyers, legislators, litigants, and voters? How and should law take into account evidence based upon brain imaging and scanning technology? How do emotions and reason interact and influence decision making? How are different emotions processed by human brains? Which brain systems regulate which emotions? This course focuses on legal and public policy implications of recent neuroscience research about how emotions influence financial decision making over time and under conditions of risk, strategic interaction, and employment discrimination. Finally, this course addresses how emotions and neuroscience are related to addiction, creating and developing social and institutional structures, criminal and personal responsibility, ethical issues, meaning in our lives, and moral development. This course does not presume any prior formal study of emotions or knowledge about neuroscience, yet it should also be challenging to students with substantial backgrounds in the study of emotions or neuroscience.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1012. Crimes and Immigration. 3 Credit Hours.**

This writing seminar will focus on the growing intersections between criminal law and immigration law, with a primary focus on immigration consequences of criminal convictions. The course will begin with an introduction to deportation and removal, and the specific criminal grounds for removal. The remainder of the course will focus on related topics such as immigration detention, applicability of criminal procedural rights in immigration proceedings, right to counsel, retroactivity, terrorist bars, victims of crime, and potential relief from removal despite convictions. This course is intended for students with an interest in either criminal or immigration practice, or both.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1013. Selected Issues in Federal Criminal Law and its Enforcement. 3 Credit Hours.**

Students will examine the provisions of particular Federal statutes including the Racketeer Influenced and Corrupt Organizations Act (RICO), the Hobbs Act, the Mail and Wire Fraud statutes, anti-money laundering provisions, the Official Bribery and Gratuities acts and Conspiracy laws. This course will explore the rationale and appropriateness of the choices made by Federal authorities to investigate and prosecute certain offenses--particularly when there is clear, State statutory authority to proceed. Policy issues to be examined will include the viability of the existing emphasis upon an anti-supply strategy in the Federal effort to contend with the abuse of drugs and narcotics in the United States. The current form of the Federal anti-terrorism program and the impact of the elevation of Intelligence activities by the Federal Bureau of Investigation with its effects upon traditional Criminal law enforcement will be reviewed. Each student is expected to produce a major research paper of publishable quality as a basic requirement of the Seminar. 50% of each student's final grade for the course will be based upon the quality of the written product and the remaining half of the course grade (50%) will be based upon the instructor's assessment of the student's contribution to the quality of the discussion during the weekly meetings of the Seminar.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0410 and JUDO 0532)

**JUDO 1014. Emerging Trends in Labor Law. 3 Credit Hours.**

This seminar will examine recent developments in labor law, most of which are occurring in the shadow of the classic NLRA regime. Among other topics, we will likely study workers' efforts to organize via privately-negotiated recognition agreements; state and local governments' efforts to promote or deter collective bargaining; and the particular challenges faced by immigrant and other non-traditional workers. Throughout, we will also consider the broader constitutional and economic issues raised by such developments, and will ask how labor law should adapt to modern workplaces more generally.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0562.

**JUDO 1015. LRW III: Civil Motions Practice. 3 Credit Hours.**

This writing seminar is designed to provide an in-depth understanding of the primary pre-trial motions used during the course of civil litigation, including: 1) motions to dismiss/preliminary objections, 2) discovery motions, 3) motions in limine, and 4) Frye/Daubert motions challenging expert testimony. Both the Pennsylvania Rules of Civil Procedure and local procedural rules governing motions practice will be examined. Emphasis will be placed on the purpose behind the various motions as well as how to effectively draft those motions for use in civil litigation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1016. Modern Depositions. 3 Credit Hours.**

An examination of the legal, practical and skills dimensions of modern depositions. Topics to be covered: case theory for deposition practice; taking and defending depositions for fact gathering, for preservation of testimony, and for obtaining admissions; taking and defending entity representative, expert witness, and theory testing depositions; use of video recorded depositions; and party and non-party witness preparation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0517 and JUDO 0540) and (JUDO 0558 or (JUDO 0460 and JUDO 0461))

**JUDO 1017. Privacy in Employment Law. 2 to 3 Credit Hours.**

The purpose of this writing seminar is to explore employer and employee expectations regarding privacy in the workplace and the role of emerging technology. Topics of discussion will include pre-employment inquiries and screening, workplace investigations, monitoring of off-duty behavior, computer usage and data privacy protection.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1018. Immigrant Low Wage Workers in a Global Economy. 2 to 3 Credit Hours.**

This writing seminar will examine the laws governing employment relationships and the exclusion of certain classes of workers from worker protection statutes. In particular, we will explore the employment realities of low wage workers, and examine the growth of contingent employment arrangements and their implications for workers' rights and efforts to strengthen them.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1019. Citizenship in Legal and Theoretical Perspective. 2 to 3 Credit Hours.**

This seminar examines how political communities accept, reject, and expel individual members as citizens, and how citizenship law defines and reflects national identity. The course considers how citizenship is acquired at birth, and what requirements are imposed on naturalization applicants. It also considers in what circumstances the government can deprive an individual of citizenship; the special problems of dual nationality; historical racial and gender aspects of citizenship; the special context of terrorism; and the status of non-citizens and the extent to which they can be legally disadvantaged, as for instance with respect to public benefits and political participation. The course also considers the meaning of citizenship beyond the nation-state, including local, indigenous, regional, and global citizenship. The course will pursue critical perspectives on citizenship, drawing from constitutional, statutory, comparative, and international law sources.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 1020. Legal and Clinical Approaches to Healthcare. 2 to 3 Credit Hours.**

This course provides students with an in-depth analysis of U.S. health policy and the impact on access, safety, quality, and efficacy of health delivery. Students will also be asked to review pertinent cases affecting health care practices as well as legislation affecting the profession. Included is a study of appropriate health care practices and their connection to the law. A major emphasis will be placed on safety in the delivery of health care.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1021. Tax Policy and Administration Colloquium. 1 to 3 Credit Hour.**

In this course students will read and comment on contemporary scholarship in tax policy either while the scholarship is still a work in progress or shortly after its initial publication and be able to discuss their comments with the author, who will present the work to the class. Scholarship will include work to be published in law reviews as well as other forms of contemporary scholarship.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 1022. Foundations of International Criminal Law. 2 to 3 Credit Hours.**

This is not a basic course in international criminal law (ICL), which typically examines the crimes that constitute ICL, modes of liability, characteristic defenses, the tribunals involved, and the bases for assertions of jurisdiction by those tribunals. Rather, this writing seminar previews that more systematic analysis of ICL by addressing a number of constitutive issues, which are grouped into four broad topics regarding issues of: Definition, Universalism, Criminal Responsibility, and Transitional Justice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1023. Legislation and Regulation. 3 Credit Hours.**

This seminar introduces students to the central role of legislatures and administrative agencies in the current legal and social landscape, addressing how statutes and regulations are generated, changed, and interpreted by the legislative, administrative, and judicial arms of government within U.S. federalism.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1024. Chinese Law. 3 Credit Hours.**

This seminar provides students with an understanding of the Chinese legal system.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1025. Law and Public Policy II. 3 Credit Hours.**

Law & Public Policy II is an upper level seminar with an individualized writing component, focusing on legislative and regulatory reform. Students receive individualized one-on-one instruction while participating in collaborative work that encourages information sharing. Students must complete a scholarly article that is suitable for submission to law reviews. All students are also required to present their papers at a professional conference or comparable setting with an accompanying PowerPoint presentation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO W910.

**JUDO 1026. Access to Justice in Civil Matters. 3 Credit Hours.**

This seminar will explore the extent to which the American legal system provides access to civil justice for people of low and moderate means.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 1027. Innocence and Wrongful Convictions. 3 Credit Hours.**

This seminar provides students with an overview of the issues and case law related to wrongful convictions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410 and JUDO 0532.

**JUDO 1028. Legal Research and Writing III: Civil Litigation. 3 Credit Hours.**

Using a hypothetical medical malpractice action venued in the Philadelphia Court of Common Pleas, students will learn about, and produce, work product in four broad categories of communications: (1) drafting to the client; (2) drafting to opposing counsel; (3) drafting to a demanding supervising partner; and (4) drafting to the Court.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in ((JUDO 0540 (D or higher) and JUDO 0558) or (JUDO 0460 and JUDO 0461))

**JUDO 1029. Advanced Financial Regulation: Corporate Scandals and Crises. 3 Credit Hours.**

This seminar examines the legal and practical considerations surrounding selected corporate scandals and crises. Additionally, it aims to develop and foster substantive legal knowledge and practical legal skills among its participants.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 1030. Forensic Evidence, Science, and Medicine. 3 Credit Hours.**

Through a Murder Mystery that unfolds during the semester, this course will explore how cases are pieced together through the collection of evidence, crime scene assessments, and forensic analysis as students create and analyze a murder book to help solve the homicide. Through real life experiences and lectures by experts in the field, this course will discuss the legal issues involved in forensics from eyewitness identification to polygraphs.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1031. The Science of Legal Persuasion. 3 Credit Hours.**

This course introduces modern scientific knowledge about how people make judgments of fact and values, and trains the student to apply this knowledge to the lawyer's core task of persuasion.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1032. Comparative Family Law. 3 Credit Hours.**

This course examines various countries' family laws in light of key comparative law debates, including the legacies of colonialism and the role of globalization; changing definitions of "family" and borrowing across legal systems; migration for marriage and adoption; the role of culture and religion in defining family law codes; and the influence of human rights law. The course will also address, to a lesser extent, the treatment of family law in international law and by multinational courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1033. Families in Law and Public Policy. 3 Credit Hours.**

This writing seminar is designed to provide the opportunity to learn to be an effective advocate to improve public policy on behalf of children and families. Students will engage in interdisciplinary research regarding legal issues directly affecting children and families in areas such as divorce and separation, child custody and support, adoption and child welfare. The course will look at theories for how law and policy may undermine or support families and the many different approaches to reform. It will consider issues related to socio-economic status, race, religion and ethnicity in the law's relationship to families. It will also consider practices of lawyers and courts in relationship to families and children. We will focus on gaining the skills to (1) identify areas needing reform; (2) conduct research into the problem requiring reform; (3) analyze research to propose solutions to the problem; and (4) effectively represent clients. The course will require both oral and written communication individually and in groups.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1034. Disability Law and Policy. 3 Credit Hours.**

In this writing seminar, students will explore laws designed to protect and assist people with disabilities. The course will look at laws to provide income and health insurance support including Social Security, Medicare and Medicaid; laws designed to help people with disabilities to enter the workforce and the community, including the ADA and other civil rights laws; and laws designed to protect people with disabilities in the community, including guardianship, criminal justice, and civil commitment laws. The course will focus on how each area of law is shaped by a different conception policy makers have about who people with disabilities are and how the law can help. Students will compare these and struggle with the ways people must fit into each definition to get help under the law, and will come to understand disability laws and what must be done to access them effectively.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1035. Custody Law. 3 Credit Hours.**

This seminar covers the entire field of custody, including the following: History of custody in America; Constitutional implications; Definitions and general principles including joint custody; Psychological issues from the parent's point of view, from the children's point of view and from the lawyer's point of view; Child custody evaluations; Best interest standard and the factors affecting that standard; Paternity related presumptions and rights of third parties, including the state, grandparents, stepparents and relevance of in loco parentis and different burdens of proof; Abuse; Interstate and International Child Custody Disputes; Relocation; Termination of parental rights; Dependency; Adoption; Methods of resolving custody disputes, including negotiation, mediation and litigation; Post-decision proceedings including modification of orders and appeal and contempt; and Special topics including surrogacy, biological or psychological parents and biotechnology issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1036. Low Income Taxpayer Policy and Practice. 2 to 3 Credit Hours.**

This course enables students to see first-hand the effect tax policies have on low income taxpayers and then to process that experience through the lens of existing tax policy scholarship and commentary. Students will become certified as volunteer preparers for VITA, the IRS's Volunteer Income Tax Assistance project, and will volunteer at a VITA center of their choice for a minimum of 35 hours during the semester. Class will consist of two parts. During the first part, students will share their experiences preparing low income taxpayer returns, specifically linking what they are seeing in the returns to the scholarship they have read for the class. During the second part they will discuss the specific reading assigned for that class. Students will also produce a series of at least four short papers in which they will offer their reflections on their tax preparation experience and the ways in which it does, or does not, connect with the policies reflected in the scholarship they have read. At the end of the course, students will develop a project, present the project to the class, and write a final paper describing the project. The course will be graded, reflecting a combination of the quality of the periodic reflection papers, participation in class meetings, and the final presentation and paper.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO 1037. Advanced Employment Discrimination. 3 Credit Hours.**

This writing seminar will provide an in-depth exploration of the theory and proof structures of federal employment discrimination law, with an emphasis on exploring how the law should develop in the future.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0537 (may be taken concurrently) or JUDO 0625 (may be taken concurrently))

**JUDO 1038. Comparative Corporate Governance. 2 to 3 Credit Hours.**

This seminar will involve in-depth analysis of several major problems in the governance of large corporations, and the ways that power relations operate among the major constituencies of the modern corporation (shareholders, directors, officers, and other stakeholders). To give students a grounding in corporate governance, the course will initially focus on issues raised in the context of U.S. publicly-traded corporations, but as the semester progresses it will introduce particular governance problems and solutions presented in other legal systems.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508 or JUDO J508)

**JUDO 1039. Race and the Law. 2 to 3 Credit Hours.**

The seminar goal is to understand the role of the law in creating and perpetuating systems of racial privilege and discrimination in the U.S. from the colonial period to the present. It will also critically examine the effectiveness of race-conscious remedies. The course will cover issues related to African Americans, Asian Americans, Latinos/as, and American Indians.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1041. Poverty Law. 2 to 3 Credit Hours.**

Students will study what poverty looks like in the U.S. and how law addresses the needs of the poor and otherwise affects them. They will look at both laws specifically designed to alleviate poverty and its impact, like welfare, housing, and health care laws, and laws that have a disproportionate impact on the poor, like criminalization and some discrimination law. A particular emphasis will be placed on whether specific laws are in sync with policy goals. Second, students will consider what policy and litigation strategies are being tried presently to alter how things currently are and think about others that could be used. Students will be asked to design their own strategies and through several serial writing papers, will create a short white paper on the topic.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404 and JUDO 0410.

**JUDO 1042. Legal Research and Writing III: Experts in Civil Litigation. 2 to 3 Credit Hours.**

This writing seminar is designed to train upper level students in how to effectively use experts at trial and to prepare the various documents and other filings that accompany expert testimony. Topics will include: how to retain and investigate experts, qualifications and the admissibility of expert testimony, the scientific or technical reliability of the proposed testimony, methods for effective presentation of expert testimony, cross-examination techniques, and ethical issues surrounding the use of experts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in JUDO 0540 (D or higher) and (JUDO 0460 or JUDO 0558)

**JUDO 1043. Legislation and Public Policy. 1 to 4 Credit Hour.**

Learning at the intersection of law, politics, and policy, students will explore - through writing and presentations - how legislatures translate controversial public policies into specific legislation. Students will also explore the avenues of how policy can be manifested beyond the immediate passage of legislation, intersecting with the role of the executive branch and the courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1044. Advanced Legal Research. 2 to 3 Credit Hours.**

This seminar is designed to strengthen student research and legal analysis skills through a detailed and comprehensive examination of key legal research resources, with a particular focus on advanced legal research methods and strategies. It teaches students to better evaluate and select sources, develop and implement appropriate research strategies, and conduct effective and efficient research on a range of complex legal topics.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1045. Reproductive Health, Rights and Justice. 2 to 3 Credit Hours.**

This seminar will explore how the law shapes reproductive decision-making through a variety of mechanisms designed to regulate and control sexuality, bodies, and family relationships. Course materials pose challenging questions about the role of government institutions, economic systems, and social structures in influencing or impeding the realization of reproductive rights.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO 1046. International Investment Law and Arbitration. 1 to 4 Credit Hour.**

This course will examine critical legal and policy issues facing the investment treaty regime in a time of sustained economic globalization and populist backlash. The basic principles and policies underlying international investment law will be introduced, including the allure of investor-state arbitration as a means for investment protection. Students will examine and critically assess arguments that investment law undermines human rights protections, discourages legitimate health and safety regulation, and protects polluters while hindering effective responses to climate change. Students will discuss the connections between international investment protection, economic development, and national security. Finally, students will assess proposals to reform or revolutionize the investment treaty system. Students will connect these discussions to broader and timely themes concerning globalization, the rise of populist nationalism, and the future of the global economy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0556.

**JUDO 1047. Internet Law. 2 to 3 Credit Hours.**

The goal of this course is to introduce students, by means of a series of specific case studies chosen to illustrate the clash between existing legal regimes and new technologies, to a reasonably comprehensive subset of the legal problems that are being addressed as part of the developing "Internet law."

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1048. Ethical Perspectives on Law. 2 to 3 Credit Hours.**

This course is about different visions of moral responsibility in law. We will examine a variety of concepts, including "neutral partisanship," accountability, fault, causation, and justice. In addition to conventional legal materials, we will use literary works to probe these ideas.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1049. Advanced Topics in Contract Law. 2 to 3 Credit Hours.**

This seminar surveys the empirical literature on contracts and contracting. It is organized around three questions, which will serially recur in the readings: (1) What terms are in contracts, and why? (2) When do firms or individuals pay attention to terms (if ever)? (3) How do individuals and firms respond to contract terms? That is, rather than approaching the field of contracts from the typical doctrinal or economic perspectives, we will proceed more pragmatically, using sociology and psychology to develop models of how agreements are formed and order relationships.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0406, JUDO J406, or MLAI C406)

**JUDO 1050. Law, Legal Theory, and Global and Local Food Systems. 2 to 3 Credit Hours.**

Debates about how food is produced and distributed are often debates about the structure of economic exchange - and thus also debates about the legal rules that govern markets. This seminar uses the production and distribution of food to study the role of law in economic development. We will begin this seminar with history - specifically a history of law and development that traces shifts in dominant ideas of law and development over the twentieth century. We will then study three global shifts in the structure of agricultural production, distribution and trade that roughly parallel this historical periodization. Throughout this investigation, we will ask how law and legal theory shapes food systems and facilitates their transformation and, in turn, how food law and food systems have contributed to development and, sometimes, baffled or misdirected it, producing a great deal of inequality and suffering in their wake. We will look at specific areas of food law and policy including trade liberalization, food aid, land (land reform and land grabs), and biotechnology. We will end the seminar with hopeful contemporary case studies on topics including fair trade, food sovereignty, and food cooperatives. Here, we will pay particular attention to how different actors use law to challenge economic concentration and inequality in global and local food systems and thus how these actors promote particular ideas of social and economic justice and market reform.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1051. Environmental Compliance and Enforcement. 2 to 3 Credit Hours.**

This seminar will introduce students to the environmental law framework in the United States, key federal environmental statutes, various enforcement models built within those statutes, and the theories behind compliance. The course will also briefly touch upon federalism and the relationship between federal and state agencies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1052. International Compliance. 2 to 3 Credit Hours.**

This course will survey key compliance challenges facing corporations operating in a global environment. A case study method will be used to explore regulatory regimes in the United States and key foreign jurisdictions that impact international corporate operations, including (i) antitrust/cartel questions, (ii) corruption, (iii) market manipulation, (iv) trading with certain countries, and (v) data privacy. In doing so, compliance issues at all stages of corporate operations will be considered including both ex ante issues (i.e., structuring effective policies, procedures and programs to avoid compliance issues in the United States and abroad) as well as those that arise ex post (i.e. dealing with allegations of non-compliance and remediating any violations found). Also considered will be the liability risks of not only the corporation itself, but also corporate managers and directors (in both their professional and, occasionally, their personal capacities) alongside the risks for third parties who fail to implement and oversee reasonable compliance programs.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1053. Mindful Lawyering: Techniques for Effective Counseling, Negotiation and Advocacy. 2 to 3 Credit Hours.**

This course is designed to accomplish two primary goals. First, to teach students mindfulness practices and to explore how those practices can enhance their effectiveness in various lawyering skill areas. These include the ability to: (1) listen to, counsel, and work effectively with, clients; (2) identify and deploy negotiating strategies that maximize value for all parties; (3) mediate conflicts; (4) advocate for desired legal and social outcomes; (5) develop leadership skills; and (6) maintain balance and focus in high stress professional environments. The second major course goal will be to teach students effective legal researching and writing techniques.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1054. Regulating Cyberthreats. 2 to 3 Credit Hours.**

This course will explore how law, including domestic and international law rules on cybercrime and international law rules applicable to cyber warfare, regulates cyberthreats. It will also analyze current debates over the appropriate forms of international governance of cyberspace and explore how law might be used to regulate the prospects of cyberterrorism.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1055. Treaties and Negotiations. 2 to 3 Credit Hours.**

Treaties have long served as one of the several sources of international law. Increasingly, they have come to serve as the dominant source, regulating almost every aspect of international affairs, from bilateral, one-time deals between States to multilateral agreements that aspire to law-like status. This course aims to consider the treaty from three perspectives. First, it examines the treaty concept, using historical, theoretical and functional materials to assess this instrument's role in international relations. Second, broadly following the structure of the 1969 Vienna Convention on the Law of Treaties – 'the treaty on treaties' – it examines the life-cycle of treaties from their inception to their termination. Third, it examines how domestic legal systems regulate treaty-making using the U.S. system as a case study. Taken together, this course considers what treaties are alongside the modern law and practice on their formation, application, interpretation, and termination. Students will write a paper examining a topic related to treaties and will participate in an in-class exercise involving the negotiation and adoption of the text of a treaty.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1056. Legal Research and Writing III: Judicial Opinions; Critical Drafting and Analysis. 2 to 3 Credit Hours.**

This course has two primary goals. First, students will learn a process for drafting judicial opinions, including the development of legal reasoning and authority to support their conclusions. They will read materials on how to write judicial opinions and will study judicial opinions to deconstruct their components. Second, students will learn how to view law and judicial opinions from a variety of diverse perspectives and learn to integrate critical legal theory into their legal reasoning and opinion drafting. They will read legal theories that critique law and read judicial opinions that incorporate those legal theories into the law. By focusing on gender, race, class, sexuality, economic class and masculinity, the course requires a desire to learn a new style of writing, a willingness to be deliberate and conscious about how to write law, and an open mind.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1057. Toxic Chemical Regulation. 1 to 3 Credit Hour.**

This seminar will introduce students to some of the most important broad policy issues raised by the regulation of toxic chemicals, first investigating how these issues have been confronted in the past by regulatory schemes in Europe, the states, and under the old federal law, and then exploring the new regulatory scheme that the EPA is currently constructing under the new statute (the Frank R. Lautenberg Chemical Safety for the 21st Century Act). Writing assignments would be practice-oriented and may include, for example, comments on currently pending regulations that could actually be filed with the EPA.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1058. Lawyering for Entrepreneurship. 1 to 3 Credit Hour.**

This writing seminar will introduce students to the practice of business transactions law. Business transactions can, of course, take many forms, but most commonly involve either acquisitions or financings. These are fancy words for "purchases" and "investments," respectively. Other transactions include joint ventures, product development agreements, franchise agreements, licenses, and so on. This course is organized around two transactions: (i) the formation (financing) of an imaginary high-tech venture, and (ii) an asset purchase by that venture of another business. In addition to the skills component, students will be expected to draft documents, maintain a strategy journal, and complete several written assignments.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508 (may be taken concurrently) or JUDO J508 (may be taken concurrently))

**JUDO 1059. Current Issues in Cyberlaw. 1 to 3 Credit Hour.**

This course is a practical course in which students will apply cyberlaw to pseudo clients. Legal cyberlaw principles involved in electronic transactions, defamation, data breaches, identity theft, hacking, cryptography and encryption, cyberprivacy, cybersecurity, cybercrimes, national security, electronic surveillance, virtual currencies, the deep and dark web, among other current cyberlaw issues will be studied.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1060. Internet of Things. 1 to 3 Credit Hour.**

The Internet of Things (IoT) is the common name for the emerging world of everyday objects such as wearable technology, personal devices, medical electronics, appliances, homes and cars being linked to each other through the Internet. They collect large amounts of data that is stored in cloud platforms and communicated to other devices and to other parties. They provide revenue for businesses that sell data collected from IoT devices. Additionally, they provide developers, governments, researchers, investigators, hackers and others access to analyze information in different ways. This course examines the legal, policy, and technology issues of these and other expanding aspects of IoT, focusing on how lawyers can be integral to the course of IoT development.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1061. Payment Systems. 1 to 3 Credit Hour.**

This course focuses on modern consumer payment systems, and the rules, laws, and regulations that govern them. We will look at payment instruments commonly used by consumers - credit cards, debit cards, prepaid cards, and checks - and will discuss the ways in which payments are authorized, cleared, and settled. We will also examine the ways in which consumers who use electronic payment systems are protected. In addition, we will discuss emerging payment instruments, privacy concerns, and policy considerations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1062. How to Run for Office. 2 to 3 Credit Hours.**

This 3-credit semester long writing seminar will help students learn and practice the elements that would make for a successful candidate in a run for office or a valuable addition to any campaign team. Students will learn about the intricacies of an election, campaign finance law, learn how to build a campaign plan and team, learn how to analyze your constituency, and develop a clear and convincing campaign message. Come to this course and articulate your beliefs about the role of government, make a ten-minute stump speech outlining your plan for your team, and develop a detailed legislative strategy for your first day in office. Learn the history of democratic politics in the United State and how to successfully join the many lawyers who have run for office.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1063. Special Education Law-US. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1064. International Trade Law. 2 to 3 Credit Hours.**

This course focuses on the law of international investments and trade policy and covers the nature of the international investment transaction and the various forms of regulation thereof. The course will also consider national governmental policies dealing with trade and the restriction thereof.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1065. Scientific and Statistical Evidence. 2 to 3 Credit Hours.**

This course will explore the ways in which scientific and statistical evidence is used and evaluated in civil and criminal legal proceedings today. We will introduce the principles and regimes governing the admissibility of evidence of a scientific or technical nature and discuss the underlying policy choices. We will discuss cultural and social contexts in which forensic disciplines have been developed and used in court; interactions between legal and scientific cultures that arise in this context; the roles played by experts, juries, and judges; and scientific, judicial, and lay perceptions of scientific material presented in court. Examining in more detail a number of forensic techniques that have come under scrutiny in recent years will allow us to delve deeper into some of the central questions in scientific evidence today - What makes scientific evidence reliable or unreliable? What is the line between "junk science" and admissible evidence? How might experts and data be biased, and how might courts and litigants detect and correct for those biases? - and engage in a broader debate about the role of science in adjudication. Finally, we will assess proposals to reform or radically overhaul the manner in which scientific and statistical evidence is used in courts today, drawing on both domestic proposals and foreign approaches.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0540.

**JUDO 1067. Asylum at the US-Mexico Border: Resistance and the Rule of Law. 1 to 4 Credit Hour.**

This course will examine federal policies that limit the right to seek asylum at the US-Mexico border and impact litigation challenging these policies. Students will examine the role of the federal court in protecting the rights of asylum seekers at the border and will also explore the role that practices such as accompaniment, human rights monitoring, and popular rights education play in resisting these policies at the border. This course will also examine federal and state responses to resistance, including the criminalization of migrants and human rights defenders. This course will examine case studies and emphasize practice skills in movement lawyering, human rights monitoring, and impact litigation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0550 (may be taken concurrently) or JUDO 1003 (may be taken concurrently))

**JUDO 1068. International Human Rights of Children. 2 to 3 Credit Hours.**

This introductory course will expose students to contemporary children's rights issues. Students will learn the sources of substantive and procedural rights of children under international law. Students will explore the evolution of children's rights by reviewing international declarations and conventions of the rights of the child, culminating with the U.N. Convention on the Rights of the Child and its optional protocols on children in armed conflict and on the sale of children, child prostitution and child pornography. Students will learn about mechanisms for monitoring children's rights, through the state (country) committees and the U.N. Committee on the Rights of the Child. Students will also learn about complaint procedures through the third Optional Protocol on a Communications Procedures (which addresses matters such as exhaustion of remedies). Students will read case studies addressing issues such as the death penalty for children, access to education, and the use of child soldiers. Over the course of the semester, students will become familiar with international children's rights standards, as well as opportunities - and limits - for advancing children's rights.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1069. ICC Moot Court. 1 to 4 Credit Hour.**

ICC Moot Court members are selected after the first year of law school to participate in an inter-scholastic appellate competition involving law school students from other schools. ICC Moot Court members engage in research, writing, and/or oral advocacy projects designed to learn International Law through a case file.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1070. Citizenship: Race and Immigration. 2 to 3 Credit Hours.**

This course will examine how shifting racial legal categories are a critical factor in constructing citizenship. The course will focus on intersectional rights, justice, and liberation through the prism of historical, contextualized, and modernized immigration law, enforcement, and politics. Course discussions will analyze identity issues such as race, class, gender, immigration status, and sexuality. Specific doctrinal areas of law covered in this course include Constitutional Law and Criminal Law to advance student understanding of how our legal system and governance impact marginalized communities in the United States.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1072. Gender Equity in the Legal Profession: Issues and Solutions. 2 to 3 Credit Hours.**

The course will focus on biases (explicit and implicit) against women in the legal profession. The course will examine forms of bias (e.g., Confirmation Bias, Prove-it-Again Bias, Tightrope Bias, Motherhood and Workplace Bias), and the difficulties of combatting implicit bias because it is often subtle and hidden. The course will also cover the impact of implicit biases. This will include unequal representation in various fields of and roles in practice (e.g., the underrepresentation of women as first chairs at trial, lead negotiators, and patent and IP practice, just by way of examples.) It will also examine the impact of these biases in, e.g., performance evaluations, access to mentoring, high-quality assignments, networking opportunities, fair pay, promotions, as well as being mistaken for administrative staff and/or asked to perform "office housework." The course will then focus on an analysis of methods to combat or "interrupt" biases. This portion of the course will focus on solutions, including institutional best practices, the importance of allies and mentors, grit and growth mindsets, and the ways law, regulatory regimes and ethical rules can be utilized to bring about change. The course will conclude with studies in leadership, equipping students to recognize and seize opportunities to manage their own professional journey and to level the playing field for everyone.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1073. Law of Investment Management. 2 to 3 Credit Hours.**

Law of Investment Management is an introduction to the primary federal statutes and administrative regulations that govern investment advisers and investment companies (primarily mutual funds but also introducing other types of registered and private investment funds). This course will focus on the Investment Advisers Act of 1940, the Investment Companies Act of 1940, the regulations promulgated by the U.S. Securities and Exchange Commission thereunder, and selected judicial opinions and SEC guidance interpreting those statutes and regulations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1079. IP Moot Court. 1 to 4 Credit Hour.**

Intellectual Property Moot Court members are selected after the first year of law school to participate in an inter-scholastic appellate moot court competition involving other law school students. IP Moot Court Competition Team members engage in research and writing assignments and/or oral advocacy projects. Students will learn about intellectual property law through a case file that is developed as part of a moot court competition.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1080. Legal Research Writing III: Legal Drafting Seminar. 3 Credit Hours.**

Drafting is an essential experience in your preparation for the practice of law. This course presents a unified approach to developing the drafting skills that span different categories of legal documents. Students will learn how to solve a client's problems and to accomplish a client's goals through legal drafting. The primary emphasis will be on drafting statutes and contracts. However, students will also learn drafting principles that apply to other public rules (constitutional provisions, codes, ordinances, administrative rules/regulations, executive orders, and court rules) and private documents (leases, covenants, bylaws, and settlement agreements).

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1081. Innovation Law and Policy. 2 to 3 Credit Hours.**

This course will examine how law and policy affect, and are affected by, innovation and scientific/technological advancement. To understand the relationship between law, policy, and innovation, we will focus on several ways in which innovation, law and policy interact with one another. This course will begin by reviewing certain laws and policies that were developed to promote innovation and technological development. While this course will explore certain concepts revolving around biotechnology, genetics, and neuroscience, students do not need a background in science to take this course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO 1082. Combating Counterfeiting and Piracy. 2 to 4 Credit Hours.**

This course is designed to progress as a case study in which the students will initially review a client intake memorandum and investigative report. Students will next develop and present a strategy to their client for combating the illegal activity; students will also present their strategy to relevant government agencies for approval. Next, the students will implement their strategy through assembling their evidence, identifying the appropriate defendants, statutes and jurisdictions for prosecution of their claims, and preparing and arguing motions seeking the desired relief, as well as organizing execution of the same upon the defendants. Through this course students will consider various ex parte civil litigation tactics and strategies available to intellectual property owners for combating illicit trade and supporting both civil and criminal remedies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1083. Child Abuse and Sex Trafficking of Minors. 2 to 3 Credit Hours.**

This course is designed to provide an introduction to tort actions involving child abuse and sex trafficking of minors in the United States. During the first half of the semester students will discuss the legal landscape of the child welfare system, including definitions and signs of abuse, the mechanics of state intervention, the role of agencies and mandatory reporters. The second half of the course will focus on the sex-trafficking of minors, highlighting sex trafficking as a subset under the larger human trafficking landscape. Students will discuss state and federal anti-trafficking legislation, profiles of victims and perpetrators and special considerations when taking a minor trafficking case to court. Students will also explore policy and ethical considerations relevant to sex-trafficking civil litigation including the efficacy of third-party liability in preventing the abuse and trafficking of minors.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1085. Law and Global Development. 2 to 4 Credit Hours.**

This course will deal with past and present debates over the role that law and legal institutions play in international development. We will examine various aspects of the relationships among economic ideas, legal ideas, and development policies pursued at national and international levels, with an emphasis on trade, global supply chains, and the roles of international organizations such as the World Bank and the International Monetary Fund. The course will introduce students to diverse methodologies, including economics, law, critical studies, and other disciplines to understand the successes and failures of globalization and development initiatives over time and across countries.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1086. Diversity, Equity and Inclusion in the Legal Profession. 2 to 4 Credit Hours.**

This course explores why diversity, equity and inclusion (DEI) are core competencies in the practice of law and in the administration of justice. This course will examine the history and current state of the legal profession in terms of representation by people from historically underrepresented groups, including women, racial and ethnic minorities, LGBTQ+ individuals, and people with disabilities. The course will also explore the role of individuals, institutions, and systems in perpetuating discrimination and injustice. The course will also examine the moral and business case for DEI and the impact of current and historical events on DEI.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1091. Private Equity and Hedge Funds. 2 to 3 Credit Hours.**

This course explores the role of private fund investors in global financial markets today. This course will focus on hedge funds and two types of private equity investors: venture capital and buyout funds. We will discuss the structure of private funds and investment strategies of private funds. We will also gain an understanding of private fund transactions and will focus on venture capital transactions involving portfolio companies. We will also discuss the regulatory environment for private fund investors, including with respect to the Securities Act of 1933, the Investment Company Act of 1940, the Investment Advisers Act of 1940, and other relevant laws and regulations. We will discuss a number of other issues of current interest in the private fund arena, including issues related to diversity and inclusion and the role of pension fund investors in the private fund arena.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 1093. Current Issues in Patent Law. 1 to 4 Credit Hour.**

This course will focus on the most important patent cases pending before the Supreme Court and the Federal Circuit and may also examine cases pending before the federal district courts, the Patent Office, and the International Trade Commission. Students will learn about various issues, which may include personal jurisdiction in patent cases, venue in patent litigation, design patents, claim construction, post-grant challenges at the Patent Office, patent cases at the International Trade Commission, and infringement damages.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0940 (may be taken concurrently), JUDO 0552 (may be taken concurrently), or JUDO 0547 (may be taken concurrently))

**JUDO 1094. Race and Gender Equality in Commercial Law, Markets and Business Organizations. 3 Credit Hours.**

This seminar focuses on the intersection between race and gender issues and commercial/corporate law, business organizations, and product markets. Sections will include: examining the impact of race and gender issues on regulated industries, markets, and public corporations; exploring how commercial law regimes (such as bankruptcy, tax, housing, banking) impact race and gender equality; the use of data analysis to support or reject claims of race and gender bias in organizations and transactional markets.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1095. Mergers and Acquisitions - Advocacy to Antitrust Authorities. 2 to 3 Credit Hours.**

Future litigators, antitrust specialists, corporate attorneys and bankers stand to benefit from an appreciation of how antitrust affects deal-making, how the regulatory process works, how transactions with substantial competitive overlaps might be approved on the basis of creative advocacy, and what mergers may be possible now and in the future in a dynamic competitive environment. In this experiential learning course, students will analyze the competitive implications of potential transactions, study the Department of Justice Merger Guidelines, conduct industry research, draft memos setting forth antitrust arguments to the agencies, and develop a presentation for the purpose of demonstrating that a proposed transaction will not lessen competition and should be allowed to proceed.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1097. Race, Health, and the Law. 1 to 4 Credit Hour.**

This course will provide students with an opportunity to explore the connections between the social concept and embodiment of race, public health, and law. The course will include extensive readings in legal history of race and the social epidemiology of health inequalities and inequities, but will be structured to rely on the students to make sense of what is important in that history to their own agendas for personal and collective legal action.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1098. Artificial Intelligence Law. 2 to 4 Credit Hours.**

Artificial Intelligence (AI) attempts to replicate human intelligence in a machine so the machine can perform tasks that typically require human intelligence. Based on the capacity to mimic human characteristics, the technology used, the real-world applications, and the theory of the mind, AI is focused into goal-oriented abilities designed to perform specific tasks, or AI abilities that are in parity with human abilities, or AI abilities that are more capable than a human. Lawyers are presented with issues related to: autonomous vehicles; medical devices (e.g., microchip implants in humans, ingestible pills), medical diagnosis, and health/medical care; reducing energy use; improving cybersecurity; new methods of climate and environmental protection; a safer society; "deep fakes" used to spread disinformation; bias in AI analysis and its impacts on marginalized groups (e.g., employment, setting bail, and criminal sentencing); AI and Intellectual Property (IP) (AI as inventor or author, and IP protection for AI); AI and social media, especially with respect to data mining and privacy concerns; AI in law practice and law firm management; implications of AI for employment; AI and legal decision-making for claims for benefits such as social security disability or workers compensation; and AI affecting finance, transportation, national security, advertising, and a variety of other fields. The governance of AI is aimed at ensuring AI's numerous potential benefits while minimizing risks to consumers' health, safety, security, and privacy is only beginning. Lawyers, policymakers, and risk management professionals must address governance issues with respect to development, deployment and use of AI applications.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1099. Empirical Analysis and the Law. 2 to 4 Credit Hours.**

In many areas of law and law-making, attorneys are increasingly called upon to evaluate and present empirical evidence to support their claims. Fortunately, the majority of empirical research today uses only a handful of research methods. In this seminar, you will learn about these methods and the types of legal questions that they can address. The goal of this seminar is not to equip students to become producers of empirical research, but rather, to help students become better consumers of empirical research and in so doing, build an important set of skills for legal practice. There is no special preparation or background in empirical methods necessary for this course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1102. Law and Justice: International Literary Perspectives. 2 to 4 Credit Hours.**

What is justice? One important component of justice is a decision made according to a rule, rendered by a neutral, impartial decision-maker. But the rule of law ideal does not exhaust our conceptions of justice. When rigidly applying rules seems unduly harsh, justice may consist of showing mercy. Or an occasion might seem to require an empathetic rather than an impartial decision-maker. And, sometimes, focusing on results rather than on procedure is important. Drawing upon literature--short stories, novels, plays--from several countries, this course will examine competing images of just outcomes and procedures. Through in-class discussions, simulations, and writing exercises, students will bring these differing images to bear on an actual legal case in order to see how alternative ideas of justice might affect how lawyers understand and perform their work.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1112. Law, Innovation and Technology Colloquium. 2 to 4 Credit Hours.**

Innovation and new technologies consistently generate regulatory questions - whether and how to govern the production, distribution, operation, or use of the technology - and what consequences may follow from regulation for industry, marginalized groups, and the population in general. Of course, different technologies involve different background conditions and contexts that raise discrete regulatory questions and related issues of law and policy. Thus, there is a robust - and growing - set of sub-disciplines focused on law relating to cybersecurity, big data, artificial intelligence, robotics, nanotechnology, and assisted reproductive technology to name just a few. This course seeks to provide students with the analytic and critical tools necessary to engage current law and technology issues in a sophisticated way both theoretically and doctrinally. Ideally, these tools may eventually be employed by interested students in the future to evaluate the latest innovations and technologies over time.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 1500. National Business Negotiating Competition. 1 to 2 Credit Hour.**

The National Business Negotiating Competition is a credit bearing activity for eligible law students.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5001. Equity and Bias in Education: Selected Topics. 2 to 3 Credit Hours.**

Education law in the United States presents a stunning array of bias issues. At the very top of the list, of course, is racial discrimination in the assignment of students to schools and the provision of resources. Even those students who never take an education law course are likely to encounter *Brown v. Board of Education* and perhaps even *Parents Involved in Community Schools v. Seattle School District No. 1*. This course is intended to focus on selected issues of bias in the law of elementary, secondary and higher education. The focus on bias will have two major aspects. One is the exploration of ways in which education law has often, in combination with other areas of law, such as discriminatory housing laws, contributed to educational inequity based on race, ethnicity, gender, disability, and other categories. The other aspect involves looking at ways in which education law has been, is being, or could be changed in order to address these inequities.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404 (may be taken concurrently)

**JUDO 5020. Commercial Arbitration Law and Procedure. 2 to 3 Credit Hours.**

This course looks at the body of law, primarily federal law under the Federal Arbitration Act (FAA), governing the intersection between courts and the arbitral forum. It covers the issues presented to courts for resolution relating to compelling arbitration, arbitrators' exercise of court subpoena power, and court confirmation and vacatur of arbitration awards. The primary focus of the course will be the FAA and the body of case law governing application of its provisions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5021. Race and the Law. 2 to 3 Credit Hours.**

The course goal is to understand the role of the law in creating and perpetuating systems of racial privilege and discrimination in the U.S. from the colonial period to the present. It will also critically examine the effectiveness of race-conscious remedies. The course will cover issues related to African Americans, Asian Americans, Latinos/as, and American Indians.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5022. Ethical Dilemmas and Standards for Public Servants. 2 to 3 Credit Hours.**

This course will delve into what is ethical behavior for government officials and politicians. It will analyze the definition of ethics, what constitutes ethical behavior, and will examine moral theories in relationship to real life cases. It will also focus on examining how and where ethics fit into the roles of government officials and politicians. This course does not fulfill the requirement to take Professional Responsibility.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 5023. Sentencing. 2 to 3 Credit Hours.**

This course will examine many of the critical sentencing issues currently being faced by prosecutors, defense attorneys and judges. We will consider the evolving role of sentencing guidelines and the ways in which mandatory sentences, plea bargaining, cooperation and other important factors impact the sentencing process. We will also explore issues raised by imprisonment, alternatives to incarceration, including the use of probation and fines, and the roles and rights of victims in the sentencing process.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 5024. International Commercial Arbitration. 2 to 3 Credit Hours.**

This course will explore the law and practice of international and domestic commercial arbitration in the United States and, to a lesser extent, arbitrations under the laws of other countries that are major arbitration venues. National arbitration statutes, international treaties and the procedural rules that apply in arbitration proceedings will be studied, and we will examine the way arbitrations are conducted in the real world.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5025. Legislation and Regulation. 2 to 3 Credit Hours.**

This course introduces students to the central role of legislatures and administrative agencies in the current legal and social landscape, addressing how statutes and regulations are generated, changed, and interpreted by the legislative, administrative, and judicial arms of government within U.S. federalism.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5026. Nonprofit Organizations. 1 to 4 Credit Hour.**

Nonprofit organizations, ranging from foundations to private universities to religious organizations to political parties, play a vital and growing role in American society. This course will introduce students to the law governing nonprofit organizations, focusing on charitable entities, examining both tax and non-tax issues raised by the nonprofit sector.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600 (may be taken concurrently)

**JUDO 5027. Legal and Clinical Approaches to Healthcare. 2 to 3 Credit Hours.**

This course provides students with an in-depth analysis of U.S. health policy and the impact on access, safety, quality, and efficacy of health delivery. Students will also be asked to review pertinent cases affecting health care practices as well as legislation affecting the profession. Included is a study of appropriate health care practices and their connection to the law. A major emphasis will be placed on safety in the delivery of health care.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5028. Law and Aging. 2 to 3 Credit Hours.**

This course examines the laws and programs that affect the elderly. Topics to be considered include public entitlements/benefits programs, income maintenance, health care, guardianship and long term care.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5029. Drug and Medical Device Law. 2 to 3 Credit Hours.**

The governance of interstate and intrastate commerce in drugs and medical devices is studied. Emphasis is placed upon the effect of the Federal law upon the research, manufacture, marketing and distribution of drugs and medical devices through the regulatory activities of the federal agencies. Pertinent state laws and agencies are also considered.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5030. Negotiating and Documenting Corporate Transactions. 2 to 3 Credit Hours.**

This course develops the skills and strategies necessary to negotiate and document various facets of complex, but common, corporate transactions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508 (may be taken concurrently)

**JUDO 5031. Commercial Transactions. 2 to 3 Credit Hours.**

Commercial transactions invoke 3 distinct systems: (1) sales systems, (2) financial systems, and (3) secured credit. This course introduces the legal rules and principles that undergird the first and third of these systems, i.e. sales and secured transactions. It is organized with reference to the systems in which commerce operates rather than the sections or categories into which statutes and legal doctrine divide.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5032. Advanced Trial Advocacy: Technology in Trial and Litigation. 3 Credit Hours.**

This course will teach students to use technology to present their message persuasively; to organize and prepare cases; and to control the message both verbally and visually. It will introduce students to various current and emerging technologies used in courtrooms throughout the country. Students will also develop advanced trial presentation skills and learn more about the basic underpinnings of trial advocacy.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of S- (except where noted) in ((JUDO 0540 (D or higher) and JUDO 0558) or (JUDO 0460 and JUDO 0461))

**JUDO 5033. Sports and Entertainment Law. 2 to 3 Credit Hours.**

This course is designed to introduce students to some of the laws, rules and regulations that apply to people and organizations in the sports and entertainment industries, and to provide an overview of the key topics and debate involving those industries at both the amateur and professional levels.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5034. Social Justice Lawyering Seminar. 1 to 3 Credit Hour.**

This course will focus on one or more particular social justice issues each semester. This course will combine the theoretical and practical aspects of lawyering by covering topics such as basic lawyering skills, legal theory, and the role of lawyers in promoting social justice. The seminar will also include regular case rounds where students can collectively strategize about actual cases and advocacy projects while engaging in critical self-reflection about lawyering and professional responsibility.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5035. Civil Pre Trial Practice. 2 to 3 Credit Hours.**

This course takes students through the complete civil litigation pre-trial process. It begins with the investigation of a case pre-suit. (Pennsylvania actually provides pre-complaint discovery.) The next topic is pleading, followed by discovery (interrogatories, requests for production, requests for admission, and depositions), followed by motions for summary judgment, pre-trial memoranda, and pre-trial settlement conferences.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0517 and JUDO 0540)

**JUDO 5036. Temple Legal Aid Office: Family Law Litigation Seminar. 1 to 2 Credit Hour.**

This course will focus on key aspects of Pennsylvania family law practice and procedure as well as substantive law. This course will also develop students' lawyering skills, such as interviewing, negotiating and trial advocacy skills within the context of family law practice. Students will be exposed to critical practice issues which arise in family law, particularly as they relate to serving low-income litigants. The seminar will also include regular case rounds where students can collectively strategize about actual cases while engaging in critical self-reflection about lawyering and professional responsibility.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 0704.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5037. Federal Appellate Litigation Seminar. 2 to 4 Credit Hours.**

A weekly two-hour seminar for the Federal Appellate Litigation Clinic. Students will be assigned readings on the procedural aspects of federal appellate litigation, preparing the appellate brief, and presenting oral arguments. Students will also be assigned noteworthy cases and other readings on immigration law, habeas corpus litigation, constitutional law, and prisoners' rights. Guest speakers, including local appellate practitioners, judges, and law clerks, will be invited to address the seminar up to two times per semester.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 0759.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0550.

**JUDO 5038. Comparative Corporate Governance. 2 to 3 Credit Hours.**

This course will involve in-depth analysis of several major problems in the governance of large corporations, and the ways that power relations operate among the major constituencies of the modern corporation (shareholders, directors, officers, and other stakeholders). To give students a grounding in corporate governance, the course will initially focus on issues raised in the context of U.S. publicly-traded corporations, but as the semester progresses it will introduce particular governance problems and solutions presented in other legal systems.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508 or JUDO J508)

**JUDO 5039. International Sports Law. 2 to 3 Credit Hours.**

International Sports Law will examine sports law in an international and comparative context. Among the topics to be studied are the nature of global sports; professionalism versus amateurism; the business structure of team and individual sports; their regulatory oversight; labor relations and collective bargaining; cheating, including doping, the use of performance enhancing drugs, and match-fixing; international merchandising; and entities for dispute resolution. While students will explore several sports and legal environments, the primary vehicles for study will be the Olympics, FIFA, the Court of Arbitration for Sport and European and Asian professional basketball and baseball leagues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5040. Survey of Legal Topics. 2 to 3 Credit Hours.**

This limited enrollment course addresses selected legal subjects likely to be encountered upon entering the practice of law and will involve systematic study and assessment of those subjects.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Law Prof, Fourth Year Law Prof.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5041. Poverty Law. 2 to 3 Credit Hours.**

Students will study what poverty looks like in the U.S. and how law addresses the needs of the poor and otherwise affects them. They will look at both laws specifically designed to alleviate poverty and its impact, like welfare, housing, and health care laws, and laws that have a disproportionate impact on the poor, like criminalization and some discrimination law. A particular emphasis will be placed on whether specific laws are in sync with policy goals. Second, students will consider what policy and litigation strategies are being tried presently to alter how things currently are and think about others that could be used.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404 and JUDO 0410.

**JUDO 5042. Introduction to Compliance and Ethics. 2 to 3 Credit Hours.**

Over the past few decades, the federal government has increased its focus on fraud and corruption in a variety of industries. Businesses are now required to develop comprehensive compliance and ethics programs to comply with a variety of federal, state, and in some cases foreign laws and regulations, in order to minimize risk and avoid legal repercussions. As a result, legal professionals who can advise companies on the development and implementation of effective compliance programs are in high demand. This course will introduce you to the compliance profession, one of the fastest-growing markets for lawyers. Focusing on health care, life sciences, financial industry, energy, and manufacturing sectors, the course will discuss the importance of corporate compliance and provide an overview of the legal and ethical considerations at play. The course will also explore relevant laws, examine emerging risks and provide an understanding of the design and implementation of compliance and ethics program in health care and multiple industries.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5043. Health Care Fraud: Investigation, Prosecution, and Compliance. 2 to 3 Credit Hours.**

This is a course in the investigation and civil and criminal prosecution of health care fraud and abuse. It will introduce the basic statutory structures of the provision of health care in the United States, the mechanisms by which individuals have abused that structure for personal or corporate gain, and the statutes and regulations under which such individuals are held responsible for that conduct. It will also explore the processes by which such abuse is discovered and investigated.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5044. Advanced Legal Research. 2 to 3 Credit Hours.**

This course is designed to strengthen student research and legal analysis skills through a detailed and comprehensive examination of key legal research resources, with a particular focus on advanced legal research methods and strategies. It teaches students to better evaluate and select sources, develop and implement appropriate research strategies, and conduct effective and efficient research on a range of complex legal topics.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5045. Pennsylvania Legal Research. 1 to 3 Credit Hour.**

This is a practical, hands-on course which provides students with advanced training on finding and utilizing materials for legal research in Pennsylvania. The course introduces students to a wide variety of Pennsylvania-specific legal resources, which will be useful in a broad range of legal practice in the state.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5046. Disability Law and Policy. 2 to 3 Credit Hours.**

Students will explore laws designed to protect and assist people with disabilities. The course will look at laws to provide income and health insurance support including Social Security, Medicare and Medicaid; laws designed to help people with disabilities to enter the workforce and the community, including the ADA and other civil rights laws; and laws designed to protect people with disabilities in the community, including guardianship, criminal justice, and civil commitment laws. The course will focus on how each area of law is shaped by a different conception policy makers have about who people with disabilities are and how the law can help. Students will compare these and struggle with the ways people must fit into each definition to get help under the law, and will come to understand disability laws and what must be done to access them effectively.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5047. Internet Law. 2 to 3 Credit Hours.**

The goal of this course is to introduce students, by means of a series of specific case studies chosen to illustrate the clash between existing legal regimes and new technologies, to a reasonably comprehensive subset of the legal problems that are being addressed as part of the developing "Internet law."

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5048. Ethical Perspectives on Law. 2 to 3 Credit Hours.**

This course is about different visions of moral responsibility in law. We will examine a variety of concepts, including "neutral partisanship," accountability, fault, causation, and justice. In addition to conventional legal materials, we will use literary works to probe these ideas.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5049. Advanced Topics in Contract Law. 2 to 3 Credit Hours.**

This course surveys the empirical literature on contracts and contracting. It is organized around three questions, which will serially recur in the readings: (1) What terms are in contracts, and why? (2) When do firms or individuals pay attention to terms (if ever)? (3) How do individuals and firms respond to contract terms? That is, rather than approaching the field of contracts from the typical doctrinal or economic perspectives, we will proceed more pragmatically, using sociology and psychology to develop models of how agreements are formed and order relationships.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0406, JUDO J406, or MLAI C406)

**JUDO 5050. Commercial Transactions. 4 Credit Hours.**

This course will introduce students to the law of Secured Transactions under Article 9 of the Uniform Commercial Code and how transactions under it are addressed in bankruptcy, which is often viewed as the "acid test" for their enforceability (or not). Studying these subjects together (sometimes characterized as a "systems approach") makes it possible to better understand how credit transactions succeed or fail. Thus, creditors who have a properly created security interest will typically receive the full value of their interest in that property; unsecured creditors, by contrast, have no interest in a debtor's property at all. They typically recover far less. Moreover, while most credit transactions are negotiated and documented against the possibility of bankruptcy, there are other systems and laws for the collection of unsecured debt about which all practicing lawyers must have some basic knowledge, which this course would provide.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5051. Environmental Compliance and Enforcement. 2 to 3 Credit Hours.**

This course will introduce students to the environmental law framework in the United States, key federal environmental statutes, various enforcement models built within those statutes, and the theories behind compliance. The course will also briefly touch upon federalism and the relationship between federal and state agencies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5052. Justice Lab Seminar. 1 to 3 Credit Hour.**

Justice Lab students participate in a classroom component that addresses the theoretical and substantive bases of Justice Lab's work. Classroom sessions are also an opportunity to reflect on ongoing client representation, and provide classroom skill development in support of client work.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 0784.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5053. International Compliance. 2 to 3 Credit Hours.**

This course will survey key compliance challenges facing corporations operating in a global environment. A case study method will be used to explore regulatory regimes in the United States and key foreign jurisdictions that impact international corporate operations, including (i) antitrust/cartel questions, (ii) corruption, (iii) market manipulation, (iv) trading with certain countries, and (v) data privacy. In doing so, compliance issues at all stages of corporate operations will be considered including both ex ante issues (i.e., structuring effective policies, procedures and programs to avoid compliance issues in the United States and abroad) as well as those that arise ex post (i.e. dealing with allegations of non-compliance and remediating any violations found). Also considered will be the liability risks of not only the corporation itself, but also corporate managers and directors (in both their professional and, occasionally, their personal capacities) alongside the risks for third parties who fail to implement and oversee reasonable compliance programs.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5054. Mindful Lawyering: Techniques for Effective Counseling, Negotiation and Advocacy. 2 to 3 Credit Hours.**

This course is designed to accomplish two primary goals. First, to teach students mindfulness practices and to explore how those practices can enhance their effectiveness in various lawyering skill areas. These include the ability to: (1) listen to, counsel, and work effectively with, clients; (2) identify and deploy negotiating strategies that maximize value for all parties; (3) mediate conflicts; (4) advocate for desired legal and social outcomes; (5) develop leadership skills; and (6) maintain balance and focus in high stress professional environments. The second major course goal will be to teach students effective legal researching and writing techniques.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5055. Comparative Criminal Procedure. 2 to 3 Credit Hours.**

This course will examine how police and prosecutors in three distinct cultures gather evidence and investigate criminal activity. Subject areas to be treated in detail will include arrest, search and seizure, obtaining of statements and confessions, pre-trial release, discovery, identification procedures, wiretapping and sting operations. Comparisons and distinctions will be drawn in an attempt to draw from each system what is useful, effective and desirable for the future.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0410.

**JUDO 5056. Current Issues in Cyberlaw. 1 to 3 Credit Hour.**

This course is a practical course in which students will apply cyberlaw to pseudo clients. Legal cyberlaw principles involved in electronic transactions, defamation, data breaches, identity theft, hacking, cryptography and encryption, cyberprivacy, cybersecurity, cybercrimes, national security, electronic surveillance, virtual currencies, the deep and dark web, among other current cyberlaw issues will be studied.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5057. Internet of Things. 1 to 3 Credit Hour.**

The Internet of Things (IoT) is the common name for the emerging world of everyday objects such as wearable technology, personal devices, medical electronics, appliances, homes and cars being linked to each other through the Internet. They collect large amounts of data that is stored in cloud platforms and communicated to other devices and to other parties. They provide revenue for businesses that sell data collected from IoT devices. Additionally, they provide developers, governments, researchers, investigators, hackers and others access to analyze information in different ways. This course examines the legal, policy, and technology issues of these and other expanding aspects of IoT, focusing on how lawyers can be integral to the course of IoT development.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5058. Empirical Legal Research Methods: Health Policy. 1 to 3 Credit Hour.**

This course aims to provide students with a comprehensive introduction to scientific methods for measuring law and its effects. While the focus will be on the evaluation of the health effects of law, the training will be applicable to other social and economic effects as well.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate, Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5059. Drug Law Policy and Practice: Marijuana Regulation. 2 to 3 Credit Hours.**

This course will analyze how we regulate drugs in the United States, using one of the most current and high profile examples - marijuana. As part of our analysis, we will use a public health perspective to evaluate marijuana policy. Our study of the history and current landscape of marijuana law in the United States will have a particular focus on how policy is made through legislation and regulation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5060. International Trade Law. 2 to 3 Credit Hours.**

This course focuses on the law of international investments and trade policy and covers the nature of the international investment transaction and the various forms of regulation thereof. The course will also consider national governmental policies dealing with trade and the restriction thereof.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5061. Introduction to Healthcare Compliance. 2 to 3 Credit Hours.**

This course will examine the fundamentals of health care compliance, examining written compliance policies and procedures; compliance oversight and committees; enforcement and reporting requirements; screening of employees and vendors; and negotiating and implementing corporate integrity agreements. The course will also address key U.S. laws and regulations that inform the development and implementation of health care compliance programs and will emphasize practical skills and case studies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5062. Environmental Issues in Business Law. 2 to 3 Credit Hours.**

This course will use case studies, regulations/statutes, and hypothetical fact patterns to facilitate comprehensive discussion of various environmental law topics as well as complicated ethical issues. Students will be divided into groups and asked to role-play as environmental attorneys in, among other things: (1) acquiring, financing, and selling an ongoing business and real property with potential environmental concerns; (2) investigating, disclosing, and negotiating with opposing counsel and regulatory agencies regarding a client's noncompliance with environmental laws; (3) participating in a public hearing involving competing interest groups; and (4) handling the complex ethical issues relating to the above situations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5063. New Technology Regulation. 3 Credit Hours.**

This course examines how law, regulation and government policy shape the development and success of new technologies. It surveys the major legal and policy issues raised by emergent regulatory regimes for self-driving cars, drones, the Internet of Things, online intermediaries like Google and Facebook and sharing economy businesses like Uber and Airbnb. Using these specific technologies as anchors, students are introduced to modern regulation and regulatory agencies, exploring the design, implementation and enforcement of regulation.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5064. Sheller Center for Social Justice: The Systemic Justice Clinic Seminar. 2 Credit Hours.**

The clinical seminar will address the substantive and procedural laws governing civil rights litigation; provide critical analysis of the legal framework overlaying a civil rights practice; and cover lawyering practice skills, through reading, discussion, and in-class simulations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5065. Police and School District Litigation Defense Clinic. 1 to 4 Credit Hour.**

Second and Third year students will examine policy considerations and litigation strategies in the context of local civil rights litigation. Half the class will work with and represent Philadelphia police officers and other City employees in civil rights suits, while the other half will represent employees of the School District of Philadelphia. The students will examine a number of recent high profile cases litigated by the City and School District and be asked to consider the interplay of civil procedure, constitutional law, and public policy, and how these elements are used to effectuate successful results. Students will learn from instructors and guest lecturers who litigated these cases and be afforded the opportunity to discuss in an intimate setting how these attorneys approach critical litigation. Students will then apply what they learn when they are given the responsibility (under supervision) for drafting motions, preparing and responding to discovery, attending settlement conferences, and appearing before the Court or arbitration panels. By participating in every phase of litigation and learning how strategy permeates the process of litigation, students will begin to gain the practical experience that takes many attorneys years to acquire.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404 and JUDO 0402.

**JUDO 5067. Low Income Taxpayer Clinic Seminar. 2 to 4 Credit Hours.**

This seminar will develop students' substantive knowledge of federal civil tax procedure and tax issues related to low-income taxpayers. The first few classes will develop foundational skills for clinic work and later classes to build on that foundation both with lawyering skills and tax knowledge. The seminar will be comprised of three components: (1) case rounds; (2) bi-weekly journal entries; (3) presentations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Co-requisites:** JUDO 0757.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5068. Corporate Governance and Disclosure. 2 to 3 Credit Hours.**

This course will study the system and structure in which corporations function including: the board structure, director independence, and board attendance; board composition and board diversity; nominating and governance committees; the framework for effective corporate governance; the duty to disclose and duty to update disclosures; the structure and authority of the relationships between the corporation and a board of directors, management, shareholders, and other stakeholders; and disclosure measures.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO 5069. Global Anti-Bribery and Corruption. 2 to 3 Credit Hours.**

The course is designed to familiarize students with the current state of global Anti-Bribery and Corruption law and practice, how the current situation came to be, how rapidly the international legal and business environment has developed in recent years with respect to Global Anti-Bribery and Corruption, and challenges facing both businesses and enforcement authorities. The course will examine the development, introduction and impact of the U.S. FCPA and the major international laws, treaties and regimes that followed it. It will review the emergence of key new anti-bribery laws worldwide. And it will review the impact of major scandals under emerging anti-bribery and corruption laws.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5070. Practice Skills Lab. 1 to 4 Credit Hour.**

Upper division and graduate students will have the opportunity to enroll, concurrently with any approved course offered in a given semester, in a Practice Skills Lab. Each Practice Skills Lab will be organized around exercises designed to further put into practice the doctrine or material being taught in the anchor course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO 5072. Immigration Consequences of Criminal Conviction. 2 to 3 Credit Hours.**

Non-citizens who have contact with the criminal justice system face a range of unique consequences, including arrest by immigration authorities, deportation, and detention without a bond hearing. This course explores multiple points of intersection between criminal law and immigration law. Topics include the immigration consequences of criminal convictions, the constitutional limitations on detention and deportation of non-citizens with convictions, and the federal government's use of state and local criminal justice systems to enforce immigration laws. This course will familiarize students with the substantive law necessary to represent clients facing the immigration consequences of criminal convictions in both the criminal and immigration systems. It will also give students the opportunity to discuss the policy implications of predicating immigration consequences on a criminal justice system that disparately impacts poor people and people of color. The course will also familiarize students with the role constitutional law and the federal courts should play in limiting the political branches' power over non-citizens with convictions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5074. Cybersecurity Across Fields: A Hands-On Approach for Future Computer Scientists, Engineers & Lawyers. 2 to 4 Credit Hours.**

This innovative interdisciplinary course will advance and promote research of cybersecurity and privacy by bringing together three cohorts of students from the computer science, engineering, and legal disciplines. Together, these students will develop a Security Incident Response plan for a critical infrastructure service and work through related experiential and practical exercises. This course will offer students from each discipline insights into how their own disciplines and others approaches cyber risks, actual incidents and their aftermath.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO 5076. Cybercrimes. 2 to 4 Credit Hours.**

This course examines the legal issues raised by computer-related crimes (cybercrimes), including those involving your ever-present smart phone. In addition, we will study the challenges posed by rapidly developing technologies for citizens, law enforcement, and the courts. The course is structured around two main topics: (1) substantive criminal laws as they relate to cybercrimes, and (2) criminal procedure, especially with respect to how privacy laws regulate law enforcement investigations of cybercrimes. No technical background is required.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO J532 and JUDO 0404.

**JUDO A453. Intro European Union Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A467. Intl Intellctl Property. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A499. Comparative Constnl Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A500. Comparative Public Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A501. Comparative Private Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A502. Comparative Criminal Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A503. Int'l & Comprtv Envirnmntl. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A504. Intro European Cmnty Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A505. Intl & Euro Criminal Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A506. Admiralty: Intl Maritime. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A512. Comp Maritime Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A550. Compartv Immigration Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A583. Intl Protctn Human Rghts. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A637. Intl Commercial Transctn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A651. Intl Dispute Resolution. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A900. Guided Research. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO A902. Guided Research Serial. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C414. Legal Research & Writing. 4 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C503. Comparative Crim Justice. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C504. Irish Law & Legal Justice. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C505. Law/Euro Econ Community. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C600. Taxation. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO C837. International Sports Law. 2 to 3 Credit Hours.**

International Sports Law will examine sports law in an international and comparative context. Among the topics to be studied are the nature of global sports; professionalism versus amateurism; the business structure of team and individual sports; their regulatory oversight; labor relations and collective bargaining; cheating, including doping, the use of performance enhancing drugs, and match-fixing; international merchandising; and entities for dispute resolution. While students will explore several sports and legal environments, the primary vehicles for study will be the Olympics, FIFA, the Court of Arbitration for Sport and European and Asian professional basketball and baseball leagues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO D460. ITAP Section. 5 Credit Hours.**

Students register in this course to participate in the Integrated Trial Advocacy Program (ITAP). ITAP is a two-semester, ten credit course package. ITAP combines Evidence, Civil Procedure II and trial advocacy skills.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: L2LAWF, L3LAWP.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO D462. Integrated Transactional Program. 5 Credit Hours.**

Students register in this course to participate in the Integrated Transactional Program (ITP). ITP is a two-semester, ten credit course package. ITP combines Trusts & Estates, Professional Responsibility, and transactional practice skills.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Cohort Restrictions:** Must be enrolled in one of the following Cohorts: L2LAWF, L3LAWP.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I416. Professnl Responsibility. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I460. Trial Advocacy I. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I461. Trial Advocacy II. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I462. Transactional Practice I. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I463. Transactional Practce II. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I517. Civil Procedure II. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I540. Evidence. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO I602. Trusts & Estates. 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J100. Legal English/Communcn. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J101. Intro/Asian Legal System. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J102. Intro to Japanese Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J103. Intrnl Criminal Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J104. East/West Negotiation. 2 to 3 Credit Hours.**

This pass/fail course is intended to introduce students to the practical legal and cultural issues encountered when drafting and negotiating international agreements in the Asian context. A particular emphasis will be placed on negotiations involving American and Japanese parties through the examination of actual international commercial transactions. Students will have an opportunity to participate in the preparation of mock agreements and negotiations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J105. Current Issues in Japanese Law. 2 to 3 Credit Hours.**

This seminar is available only to students with a sufficient level of Japanese language ability to enable them to participate in classes conducted in Japanese and to read primary source material in Japanese. Students are not required to write Kanji, but will have to read complex Japanese texts. A sufficient measure of language proficiency required is the ability to read Japanese newspaper articles, with or without using a dictionary. The course covers a variety of subjects including recent legal reforms in Japan. This course is taught in Japanese and is open only to non-native Japanese speaking students.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J106. Regulatn Business Japan. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J107. Compartv Criminal Procdr. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J108. Taxation US-Japan Trans. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J109. International Antitrust. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J110. Law & Governance Internet. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J111. Intl Enforcmnt IP Rights. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J112. International Finance. 2 to 3 Credit Hours.**

A survey of regulatory and transactional aspects of international finance, which is an area of increasing significance to all commercial lawyers. Topics will include an examination of banking and securities regulation in the United States, Japan and the European Union, major areas of international regulation and private ordering, derivatives, and international transactions such as syndicated loans and project finance.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J113. Comprtv Corporate Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J114. Comparative Bankruptcy. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J115. Compartv Competition Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J116. Chinese Bus/Investmt Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J117. Intro Chinese Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J118. International Entertainment Law. 2 to 3 Credit Hours.**

This course deals with selected legal issues which affect persons active in various aspects of the international entertainment industry. Topics will include privacy rights, contract law, copyright law, and labor law which will be discussed in the context of the stages of development of an international entertainment project.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J402. Civil Procedure I. 2 to 3 Credit Hours.**

This course will primarily focus on federal courts and will include issues of jurisdiction, venue, forum non convenience and choice of applicable law (the "Erie doctrine"). Res judicata and collateral estoppel concepts with their preclusive effects as the result of prior litigation will also be introduced along with joinder and class actions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J403. Administrative Law. 2 to 3 Credit Hours.**

A study of the process of lawmaking and law application by the executive departments and agencies of government and their control by the legislature and the courts. The primary emphasis is on the frequently competing goals of effective government, administrative discretion and fairness to affected parties. A part of the course is designed to give students insights into the allocation of law and policy making among executive, legislative and judicial branches. Another part focuses on administrative procedure and the various constitutional, statutory and common law underpinnings of such procedures.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J404. US Constitutional Law. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J406. Contracts. 2 or 3 Credit Hours.**

This course is designed to introduce students to the fundamental concepts of U.S. contract law. Areas of principal focus include offer and acceptance, consideration, interpretation and construction, conditions, breach of contract and remedies therefore. Students will also study Article 2 of the Uniform Commercial Code.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J410. Criminal Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J414. Legal Research & Writing. 2 to 4 Credit Hours.**

This course is required of all non-American trained LL.M. candidates. It may be taken in either Tokyo or Philadelphia and should be completed as soon as possible after entering the program. In this course, legal research, writing and advocacy are explored. After introduction to the American legal system and basic research techniques (including on-line data bases such as Lexis/Nexis), problems are assigned and various methods are utilized to help students develop their writing and analytical skills. The objective of the program is to develop basic legal skills in an informal seminar atmosphere that allows maximum contact with the assigned instructor. There will be one or two Saturday morning library workshops. (American J.D. students are not permitted to enroll in this class.)

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J416. Professional Responsibility. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J418. Property. 2 to 4 Credit Hours.**

This basic U.S. law class is open to non-J.D. students. It explores the basic relationships in systems of ownership of personalty and realty, and the devices for transferring ownership are considered. Private and public planning, regulation of land use, the estate system and the new property theories are also examined.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J420. Torts. 2 to 4 Credit Hours.**

The study of legal remedies in civil proceedings for interference by others with one's person, property and intangible interests. Historical and theoretical bases of the principal theories of tort liability are examined to develop an understanding of current law and a sensitivity to changing patterns of tort responsibility emerging from a dynamic society.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J422. Legal Decision Making. 2 to 3 Credit Hours.**

Examination of theory and operation of the main institutions and processes of the American legal system. Techniques of case and statutory analysis are featured, along with consideration of the impact of social, economic, historical and jurisprudential factors on the development of the law. Although judicial and legislative processes receive most attention, students are also introduced to the role and methods of administrative agencies.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J423. Intl/Comprtv Family Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J424. International Civil Litigation. 2 to 3 Credit Hours.**

With the globalization of business transactions, cross-border civil litigation has become common. This course will examine the international law that governs "foreign" relations between individuals or business entities, and will discuss the theory and practice of international civil dispute settlement. The issues it will cover include determining the proper forum, finding the applicable law, judicial assistance (e.g. service of process, discovery and foreign judgment enforcement), and litigation involving a foreign state. It will also discuss such important practical matters as how to draft a dispute settlement clause, how to meaningfully choose a forum and the applicable law to more effectively protect the client's interest, and how to address potential obstacles facing lawyers engaging in international practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J425. Introduction to the American Legal System. 2 to 3 Credit Hours.**

This course is intended to provide the student from a non-common law background with an introduction to the basic concepts, structures and institutions of the American Legal System. Topics to be covered include: historical origins of the common law system; common law method; the structure of the United States government, Federal and State; the Constitution; judicial review, structure, organization and operations of courts in the United States, civil litigation, case analysis and precedent; the legislative branch: statutes and legislative history; and the executive branch: administrative law.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J427. Intro Intl Business Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J435. Human Rights/Euro Union. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J440. Unincorporated Assoctns. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J444. National Security Law. 2 or 3 Credit Hours.**

This course will study national security threats – those posed to the United States by state and non-state actors who target US civilians, personnel and interests with the aim of achieving political change – and examine the legal controversies raised in responding to these threats domestically and abroad. The course will be divided into two parts. Part One will examine legal controversies in constitutional law. This includes the scope of presidential powers in times of heightened national security threats and the separation of powers more broadly. We will also explore the tension between national security and individual liberties during times of crisis. Part Two will examine the legal controversies raised by irregular combat between the US and non-state actors internationally. We will study some of the most important and controversial legal issues triggered by the so-called 'war on terror.'

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J446. Intl IP Licensing. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J447. Intelctl Property Licnsng. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J453. Intro European Union Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J464. International Contract Drafting. 2 to 3 Credit Hours.**

This course bridges the gap between contract theory and contract practice and offers practical insights into international contracts such as licenses, distributorships and joint ventures. The principal focus will be on the development of skills in drafting these types of contracts, although ancillary preparation exercises may also be undertaken.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J466. International Environmental Law. 2 to 3 Credit Hours.**

This course critically examines the legal response to a variety of transborder and global environmental problems. Special emphasis will be placed on the development of legal norms in specific contexts such as protection of endangered species, nuclear accidents, ozone depletion and global climate change. The course will also examine legal principles regarding natural resource management and the relationship between trade and environment. Special attention will be given to the practice of Environmental Law in an Asian context.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J467. International Intellectual Property. 2 to 3 Credit Hours.**

This course will cover the broad outlines of the four major branches of intellectual property law - patent, copyright, trademark, and trade secret law - and will consider the following topics: obtaining rights by registration in the U.S. and other typical examination countries; exploitation of intellectual property rights with a focus on technology transfer including compulsory licensing, foreign ownership requirements in ventures and antitrust considerations; protection of rights with a focus on the difficulties of protecting intellectual property rights by litigation, policing property rights, preventing international distribution, international trade piracy, and gray market goods; and other topics as time permits.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J472. Intl Commercl Arbitratn. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J473. Law of Cyberspace. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J478. Cyberprivacy Law. 2 to 3 Credit Hours.**

Today's state of technology provides limitless possibilities to collect, analyze and exchange information globally. Cyberprivacy law aims to regulate the use of information that may identify an individual, so-called personal information, such as names, pictures, GPS location information, cookies and IP addresses. During this course we will discuss the rationale and ethics behind privacy regulations while defining what should constitute privacy from the perspective of consumers, technology innovators and the government. Even if global cyberprivacy regulations are desired by some stakeholders, laws tend to be limited to the national level. The European Data Protection Regulation (GDPR), adopted in the European Economic Area in 2016, has set a new standard in terms of protection of personal information that has been followed by many countries since. Analyzing the GDPR, students will learn about the European approach to personal information protection, data processing, and domestic and international data transfers. We will apply the newly acquired knowledge to practice in joint course exercises of daily tasks privacy lawyers face, including analyzing data flows from commercial websites, creating response protocols for data breaches and drafting a privacy policy. Once being familiar with the GDPR, students will have the opportunity to discover and compare other privacy law initiatives from around the globe in class.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J490. Law/Electronic Commerce. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J494. Advising the Multinational Company on Global Legal Issues. 2 or 3 Credit Hours.**

This interactive and participatory course is intended to provide a survey of the types of issues confronting lawyers, and particularly in-house lawyers, who advise multinational corporations on a worldwide basis. The areas to be discussed include topics that will cross corporate law, tax law, labor and employment law, employee benefits, litigation and corporate compliance. Real life examples will be used to illustrate the complicated nature yet importance of this type of practice. Further, in addition to the more substantive legal topics to be covered, the course will also be interspersed with practice tips, jurisdictional practice highlights and ethical considerations for the multinational practitioner. The success of the course depends highly on each class member coming to class prepared, and more important, on each class member participating in our discussions. Because of this, class participation will account for 30% of the final grade. The remaining 70% of a student's grade will be based on a final paper and presentation (weighted equally). Note: This course does not satisfy the graduation writing requirement.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J500. Admiralty. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J501. International Dispute Resolution. 2 to 3 Credit Hours.**

As worldwide trade increases, the instances in which disputes cross national borders increase as well. This course introduces the types of issues private international lawyers encounter. Major features of international litigation will be considered, such as uses of Alternative Dispute Resolution (ADR), jurisdictional and discovery questions, and enforcement of arbitration and forum selection clauses. Leading U.S. Supreme Court cases will be analyzed, as well as major treaties.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J502. International Trade Contracts. 2 to 3 Credit Hours.**

This course looks at formation, performance and enforcement of international contracts involving the sale of goods. The course focuses on the Convention on Contracts for the International Sale of Goods (CISG) and other sources of law. Students will compare provisions of the CISG with Article 2 of the UCC and with comparable commercial codes. The sale of goods in connection with distribution, license and joint venture agreements will be considered, and will explore how contracts doctrines apply in the international and comparative context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J504. Antitrust. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J506. Banking and Financial Regulation. 2 to 3 Credit Hours.**

This course will focus, in particular, on the history of banking regulation, the state/federal dichotomy, Dodd-Frank, the Bureau of Consumer Financial Protection, financial institution compliance officer functions, and such core federal agencies as the FDIC, the SEC, the Federal Reserve, the Department of the Treasury, and the CFTC.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J508. Corporations. 2 or 3 Credit Hours.**

Comparison of forms of business organizations, promoting and organizing the business association, allocation of an accountability for management and control of the business organization, problems incident to corporate entity, proxies, and the derivative suit, the issues of shares, going concern and other asset distribution and organic changes are studied.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J509. Comparative Constnl Law. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J515. Telecommunication Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J517. Civil Procedure II. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J521. Comprtv Dispute Settlmnt. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J522. Conflict of Laws. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J528. Corporate Reorganization. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J530. Bankruptcy. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J532. Criminal Procedure I. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J535. Entertainment Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J537. Employment Discriminatr. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J540. Evidence. 2 to 3 Credit Hours.**

An examination of the rules governing the use of evidence, including problems of relevancy, hearsay, impeachment, burden of proof, presumptions and the function of judge and jury.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J550. Comparative Immigration Law. 2 to 3 Credit Hours.**

This course surveys the key areas of Japanese and U.S. immigration law, and provides students with a sound understanding of not only the law, but its application in practice in both Japan and the U.S. Cases and articles are used to illustrate the topics and issues that are relevant to both practicing lawyers and students of immigration law. The course will cover traditional areas such as political asylum and refugees, nonimmigrant and immigrant visas, as well as other issues in order to provide an insight into the practice of immigration law as performed in both Japan and the U.S.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J551. Comprtv Trademarks. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J552. Comparative Patent Law. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J553. Copyright Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J554. International Investment. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J555. International Trade Law. 2 to 3 Credit Hours.**

This course will introduce legal, business and policy aspects of international trade with a focus on U.S. trade law in the context of the WTO-GATT agreements. The class will consider tariffs and tariff negotiations, quotas, most favored nation clauses, domestic standards, industrial safeguards, export regulation, regional trading blocks, national treatment clauses, adjustment assistance, antidumping and countervailing duty law, international rules on intellectual property, trade services and other topics. The underlying goal of this course is to provide a rounded understanding of the interplay between national and international trade regulation and its impact on private international transactions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J556. International Law. 2 or 3 Credit Hours.**

This course is designed to introduce students to the fundamental concepts of international law. Areas of principal focus include the nature and sources of international law; treaties and customary international law; international dispute resolution; international organizations (including the United Nations, European Union, and the GATT); and the application of international law in United States courts.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J568. Family Law. 1 to 3 Credit Hour.**

The role of the family and its connection with the legal system is considered, including the law pertaining to marriage, annulment, divorce, support and maintenance of the wife, children and other relatives, separation agreements, child custody, guardianship, status of wife, business transactions, property rights of husband and wife and intervention of the legal system in family affairs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J571. International Taxation. 2 to 3 Credit Hours.**

This course covers fundamental concepts in taxation of international transactions, both inbound (taxation of income received by foreign individuals or entities residing within the state) and outbound (taxation of the foreign operations of a nation's citizens and corporations). The course will address questions of residence, jurisdiction to tax, source of income, foreign tax credits, tax treaties, transfer pricing, and the operations of controlled foreign subsidiaries of a corporation. These topics are covered with reference to the U.S. and Japanese tax regulations.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**JUDO J582. Comprt v Products Liablt y. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J583. International Protection of Human Rights. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J588. Remedies. 2 to 3 Credit Hours.**

Important and contemporary problems in compensatory and punitive damages, equity and contempt, restitution, and declaratory judgments are studied from a functional and practice standpoint.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J589. Secured Transactions. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J590. US Securities Regulation. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J591. Intl Securities Regulatn. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J599. Survey of Legal Topics. 2 to 3 Credit Hours.**

This limited enrollment course addresses selected legal subjects likely to be encountered upon entering the practice of law and will involve systematic study and assessment of those subjects.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J600. Taxation. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J602. Trusts and Estates. 2 to 3 Credit Hours.**

Surveys the principal devices used in the transmission of accumulated family wealth, concentrating primarily on the requirements for creating, modifying and terminating wills and trusts. Also considers intestate succession, will substitutes and selected issues concerning future interests, powers of appointment and fiduciary administration. The course explores the often clashing policies of effectuating donative intent and restraining dead-hand control.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J619. Citizenship in Legal and Theoretical Perspective. 2 to 3 Credit Hours.**

This seminar examines how political communities accept, reject, and expel individual members as citizens, and how citizenship law defines and reflects national identity. The course considers how citizenship is acquired at birth, and what requirements are imposed on naturalization applicants. It also considers in what circumstances the government can deprive an individual of citizenship; the special problems of dual nationality; historical racial and gender aspects of citizenship; the special context of terrorism; and the status of non-citizens and the extent to which they can be legally disadvantaged, as for instance with respect to public benefits and political participation. The course also considers the meaning of citizenship beyond the nation-state, including local, indigenous, regional, and global citizenship. The course will pursue critical perspectives on citizenship, drawing from constitutional, statutory, comparative, and international law sources.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0404.

**JUDO J625. Comparative Employment Law. 2 or 3 Credit Hours.**

This course will compare the U.S. and Japanese law on selected aspects of labor and employment law, including hiring/firing and promotion procedures and practices, the role of labor union, employer discretion in job assignments, equal opportunity in employment and sexual harassment.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J635. Computer Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J637. International Commercial Transactions. 2 or 3 Credit Hours.**

This course provides an introduction to transactional work undertaken by international commercial attorneys. Primary areas of study include export sale and financing, the international transfer of technology, compliance issues, and relevant international trade law of the United States. Particular attention is given to the mitigation and avoidance of risks attendant to international transactions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J642. International Organizations. 2 to 3 Credit Hours.**

This course explores issues of international law, authority, and legitimacy regarding international organizations and their operations in the world community.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J650. Corporate Transactions. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J651. Business Planning for International Transactions. 2 to 3 Credit Hours.**

This course covers issues that arise when business organizations plan international structures. It will address such questions as selection of entity, financial and ownership structures, steps in the formation of different entities, the rights and duties of different stakeholders, tax issues related to the foregoing and related issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J652. International Development and Policy Law. 2 to 3 Credit Hours.**

This course will examine how law and legal institutions shape economic, political and social development in both theory and practice. We will look at some key texts and debates to understand the theoretical foundations of the field. We will also look at development practice from a lawyer's perspective, drawing on examples from both developed and developing countries. These case studies will help us critically examine questions such as: Do urban slum residents have the same access to justice as their wealthier neighbors? Which corporate structures should a developing economy adopt? Do intellectual property rights form a barrier to improving public health? What is the rule of law and why are economists promoting it? The aim of the course is not to find definitive answers to development questions. Rather, students will be encouraged to think broadly and deeply about development and how law relates to it.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J653. Comparative Corporate Governance. 2 or 3 Credit Hours.**

This course will examine issues relating to corporate governance and ownership, including the legal structure of business entities in the U.S. and other countries; the duties of directors; and the roles of shareholders and employees. The course may also cover issues relating to the role of investors in and regulators of publicly traded corporations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508 or JUDO J508)

**JUDO J654. Introduction to Compliance. 1 to 3 Credit Hour.**

This course will discuss the importance of corporate compliance and provide an overview of the legal and ethical considerations at play. The course will also explore relevant laws, examine emerging risks and provide an understanding of the design and implementation of compliance programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J655. Political and Civil Rights. 1 to 3 Credit Hour.**

Civil rights and individual freedoms under the First and Fourteenth Amendments of the U.S. Constitution are examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J656. International Compliance. 2 to 3 Credit Hours.**

Increased globalization of commerce has substantially increased the risk of fines, sanctions and costly litigation resulting from the way and manner business is conducted around the world. Governments and various Unions have responded to globalization in varying degrees by enforcing existing laws, enacting new laws and regulatory requirements addressing competition, market manipulation, trade and corruption. Aside from costly fines levied against the Corporation, various legal regimes have begun to impose direct liability on directors, managers and third parties who have failed to implement and oversee reasonable compliance programs. These factors require a vigorous and ever changing compliance programs for corporations. A thorough understanding of compliance issues helps lawyers to craft creative and effective legal solutions for their clients. An excellent compliance program cannot only prevent problems, but also discover issues at an early stage and can be used to receive credit where a corporation runs afoul of a law.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J813. Comparative Corporate Law. 2 to 3 Credit Hours.**

In both the US and Japan, the corporation is the overwhelmingly dominant form of business entity. Moreover, given that a good deal the modern Japanese Company Law was derived from Illinois corporate law, it is not surprising that (on the surface at least), Japanese and US corporate law take similar approaches to many of the legal problems which accompany the characteristic fact of the modern corporation the separation of ownership and control. This course seeks to explore many of these doctrinal similarities, while also analyzing some of the differences in the application and enforcement thereof, within the larger context of Japanese and US business practice. It also hopes to elicit some lessons which the corporate law of each country may provide for lawyers and policy makers of the other.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J825. Comparativ Employment Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J835. Innovation Law and Policy. 2 to 3 Credit Hours.**

This course will examine how law and policy affect, and are affected by, innovation and scientific/technological advancement. To understand the relationship between law, policy, and innovation, we will focus on several ways in which innovation, law and policy interact with one another. This course will begin by reviewing certain laws and policies that were developed to promote innovation and technological development. While this course will explore certain concepts revolving around biotechnology, genetics, and neuroscience, students do not need a background in science to take this course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO J837. International Sports Law. 2 to 3 Credit Hours.**

International Sports Law will examine sports law in an international and comparative context. Among the topics to be studied are the nature of global sports; professionalism versus amateurism; the business structure of team and individual sports; their regulatory oversight; labor relations and collective bargaining; cheating, including doping, the use of performance enhancing drugs, and match-fixing; international merchandising; and entities for dispute resolution. While students will explore several sports and legal environments, the primary vehicles for study will be the Olympics, FIFA, the Court of Arbitration for Sport and European and Asian professional basketball and baseball leagues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J840. Private Equity and Hedge Funds. 2 to 3 Credit Hours.**

This course explores the role of private fund investors in global financial markets today. This course will focus on hedge funds and two types of private equity investors: venture capital and buyout funds. We will discuss the structure of private funds and investment strategies of private funds. We will also gain an understanding of private fund transactions and will focus on venture capital transactions involving portfolio companies. We will also discuss the regulatory environment for private fund investors, including with respect to the Securities Act of 1933, the Investment Company Act of 1940, the Investment Advisers Act of 1940, and other relevant laws and regulations. We will discuss a number of other issues of current interest in the private fund arena, including issues related to diversity and inclusion and the role of pension fund investors in the private fund arena.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO J898. Comparative Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J900. Guided Research. 1 to 4 Credit Hour.**

This independent research offers students an opportunity to (1) satisfy the mandated writing requirement, (2) develop research, writing and analytical abilities through producing a single substantive research paper and (3) work with a faculty member in an area of the teacher's interest or expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO J902. Guided Research Serial. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO J903. Introduction to Japanese Law. 2 to 3 Credit Hours.**

This writing seminar introduces students to the major principles of civil law systems and Japanese law in comparison with the common law system such as in the United States.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J904. Guided Research II. 1 to 4 Credit Hour.**

Guided Research offers students an opportunity to: Develop research, writing, and analytical abilities. Work with a faculty member in an area of the student's interest and the faculty member's expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO J905. Guided Research II Serial. 1 to 4 Credit Hour.**

Guided Research offers students an opportunity to: Develop research, writing, and analytical abilities. Work with a faculty member in an area of the student's interest and the faculty member's expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO J907. Comparative Criminal Procedure. 2 to 3 Credit Hours.**

This course will compare selected aspects of criminal procedure in common law systems and in civil law systems. It will also examine specific aspects of American and Japanese criminal procedure. Topics to be investigated are arrest, detention, bail, search warrants, arrest warrants, the right to counsel, jury trial, confessions and guilty pleas.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J908. Comparative Criminal Justice. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**JUDO J915. Human Rights/Euro Union. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J921. Law/Electronic Commerce. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J922. Regulating Cyberthreats. 2 to 3 Credit Hours.**

This course will explore how law, including domestic and international law rules on cybercrime and international law rules applicable to cyber warfare, regulates cyberthreats. It will also analyze current debates over the appropriate forms of international governance of cyberspace and explore how law might be used to regulate the prospects of cyberterrorism.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J923. Intl/Comprtv Family Law. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J924. International Contract Drafting. 2 to 3 Credit Hours.**

This course bridges the gap between contract theory and contract practice and offers practical insights into international contracts such as licenses, distributorships and joint ventures. The focus will be on skills development in drafting these types of contracts. Enrollment is limited to LLM students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J925. Refugee Law. 3 Credit Hours.**

This serial writing seminar will provide an introduction to international and domestic refugee law and policy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0558 (may be taken concurrently), JUDO 0583 (may be taken concurrently), JUDO 0841 (may be taken concurrently), or JUDO J583 (may be taken concurrently))

**JUDO J926. Comparative Corporate Governance. 2 to 3 Credit Hours.**

This course will involve in-depth analysis of several major problems in the governance of large corporations, and the ways that power relations operate among the major constituencies of the modern corporation (shareholders, directors, officers, and other stakeholders). To give students a grounding in corporate governance, the course will initially focus on issues raised in the context of U.S. publicly-traded corporations, but as the semester progresses it will introduce particular governance problems and solutions presented in other legal systems.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0508 or JUDO J508)

**JUDO J927. International Protection of Human Rights. 1 to 3 Credit Hour.**

This course is designed as an introduction to issues of law, policy and institutional machinery for the promotion of human rights in the world community. Are nations bound by human rights laws (such as treaties, customary international law, U.N. Charter, European Convention, etc.)? Are the courts of a nation so bound? Where there is violation of human rights law, when and under what circumstances may diplomatic intervention, economic sanctions or military force be used to redress wrongs or to cause compliance with human rights guarantees?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J928. Unincorporated Business Entities. 1 to 3 Credit Hour.**

Most business organizations in the United States are no longer corporations, but unincorporated business associations such as sole proprietorships, partnerships, or limited liability corporations (LLCs). Entities including "mom and pop" stores, high-tech start-ups, and sophisticated investment funds use these business forms. This class examines these business entities, which every attorney engaged in a business practice needs to understand. After a review of agency law, the course will examine partnerships, limited partnerships (LPs), LLCs, and if time permits some less common unincorporated business forms.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J959. The Global Workplace. 2 to 3 Credit Hours.**

This three-credit writing seminar will strive to be, as one noted American scholar recommends, "comparative in method" and "transnational in perspective." It will compare the laws and legal environments of Japan, the U.S., and the E.U, and it will review the materials and discuss the mechanisms for attempting to achieve global labor standards. In their research, students may choose to focus on one of the following components of an inchoate global labor law: international treaties and conventions, best practices, corporate voluntary codes of conduct, transnational labor unionism, and the role of social movements.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J984. National Security Law. 2 or 3 Credit Hours.**

This course will study national security threats – those posed to the United States by state and non-state actors who target US civilians, personnel and interests with the aim of achieving political change – and examine the legal controversies raised in responding to these threats domestically and abroad. The course will be divided into two parts. Part One will examine legal controversies in constitutional law. This includes the scope of presidential powers in times of heightened national security threats and the separation of powers more broadly. We will also explore the tension between national security and individual liberties during times of crisis. Part Two will examine the legal controversies raised by irregular combat between the US and non-state actors internationally. We will study some of the most important and controversial legal issues triggered by the so-called 'war on terror.'

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO J991. International Development and Policy Law. 2 to 3 Credit Hours.**

This course will examine how law and legal institutions shape economic, political and social development in both theory and practice. We will look at some key texts and debates to understand the theoretical foundations of the field. We will also look at development practice from a lawyer's perspective, drawing on examples from both developed and developing countries. These case studies will help us critically examine questions such as: Do urban slum residents have the same access to justice as their wealthier neighbors? Which corporate structures should a developing economy adopt? Do intellectual property rights form a barrier to improving public health? What is the rule of law and why are economists promoting it? The aim of the course is not to find definitive answers to development questions. Rather, students will be encouraged to think broadly and deeply about development and how law relates to it.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO P300. Practicum Associated with a Course. 1 to 3 Credit Hour.**

Practicums associated with a course are open to students registered in a specific course and will involve projects for real clients that are supervised and evaluated by the course instructor.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO P400. Practicum: Administrative Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P410. Practicum: Alternative Dispute Resolution. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P415. Practicum: Bankruptcy. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P420. Practicum: Civil Rights. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P430. Practicum: Commercial Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P440. Practicum: Constitutional Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P450. Practicum: Consumer Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P460. Practicum: Corporate Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P470. Practicum: Criminal Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P480. Practicum: Death Penalty. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P490. Practicum: Employment Discrimination. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P500. Practicum: Environmental Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P510. Practicum: Family Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P520. Practicum: General. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P530. Practicum: Health Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P540. Practicum: Immigration Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P550. Practicum: Intellectual Property Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P560. Practicum: International Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P565. Practicum: Judicial Placement. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P570. Practicum: Law and Public Policy. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P580. Practicum: Non-Profit Organizations. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P590. Practicum: Property Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P600. Practicum: Public Interest Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P610. Practicum: Securities Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P620. Practicum: Sports Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO P630. Practicum: Tort Law. 2 to 3 Credit Hours.**

Practicums for law students will involve projects for real clients that are actively supervised and evaluated by individual faculty members. In addition to a faculty member, a supervising attorney may be involved. Faculty will assure the educational value of projects and students will meet periodically with their supervising faculty to discuss and review their projects. Each category of practicum (currently 25) is established as a separate course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO R100. Legal English/Communctn. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R119. IP-Law Of The Internet. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R120. Intrnl Fiscal Policy. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R422. Legal Decision Making. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R424. Intrnl Civil Litigation. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R425. Intl Litigatn/Arbitratn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R426. Intrnl Business Policy. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R427. Introduction to International Business Law. 2 Credit Hours.**

This course will introduce you to international business law primarily in a transactional setting. This is a vast subject. To represent clients that want to do business with persons from other countries, a practitioner needs to know something of how contract law works in other countries, and of the international law (such as it may be) that will govern international transactions. In addition, one also needs to know about mechanisms businesses can use to deal with insecurity about delivery or payment. This insecurity can haunt any contract between strangers but is endemic in transactions between strangers when business is conducted at great distances. The lawyer also needs to know how to prospectively shape dispute resolution, should a dispute arise how to limit where and how disputes are resolved and what law the decision maker will use to decide them. This course will offer a broad survey of these and possibly other areas that confront business lawyers representing clients in international business transactions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R428. Intl Literary Perspectvs. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R429. Comparv Legal Systems. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R430. Intl Human Rts/US Litgn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R432. Intrnl Criminal Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R464. Intrnl Contract Drafting. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R466. Intrnl Environmental Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R467. Foundations of International Criminal Law. 2 Credit Hours.**

This is not a basic course in international criminal law (ICL), which typically examines the crimes that constitute ICL, modes of liability, characteristic defenses, the tribunals involved, and the bases for assertions of jurisdiction by those tribunals. Rather, this course previews that more systematic analysis of ICL by addressing a number of constitutive issues, which are grouped into four broad topics regarding issues of: Definition, Universalism, Criminal Responsibility, and Transitional Justice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R468. Rome, the Roman Republic, and the American Constitution. 2 to 3 Credit Hours.**

This course examines the many ways in which the history of the growth and collapse of the Roman Republic affected the framing of the United States Constitution. Two main topics will be covered: first, the history of the Roman Republic, and second, the interpretations that later historians and political theorists - in particular, the authors of the Federalist Papers - gave to these events, and the role those interpretations played in the pre-Constitutional debates.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R469. International Intellectual Property. 2 Credit Hours.**

This course will cover in an international context broad outlines of the four major branches of intellectual property law - patent, copyright, trademark, and trade secret law.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R494. Advising the Multinational Company on Global Legal Issues. 2 to 3 Credit Hours.**

This interactive and participatory course is intended to provide a survey of the type of issues confronting lawyers, and particularly in-house lawyers, who advise multinational corporations on a worldwide basis. The areas to be discussed include topics that will cross corporate law, tax law, labor and employment law, employee benefits, litigation and corporate compliance. Real life examples will be used to illustrate the complicated nature yet importance of this type of practice. Further, in addition to the more substantive legal topics to be covered, the course will also be interspersed with practice tips, jurisdictional practice highlights and ethical considerations for the multinational practitioner.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R499. Comparative Constnl Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R500. Intrnl Trade Contracts. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R501. Intl Dispute Resolution. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R502. Immigration Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R503. Criminal Appellate Pro. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R509. Comp Products Liability. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R513. Common Law & Civil Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R514. Comparative Family Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R515. Comparative Prod Liabil. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO R516. Disp Res Int'l Trans. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R517. Intro to EEC Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R518. Comp.Exam.Of Legal Rghts. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R521. Introduction to European Union Law. 2 Credit Hours.**

Italy is a member of the European Union, making it an excellent place to study European law. This course surveys the institutions of the European Union, the EU mechanisms for establishing law and adjudicating disputes, and the main bodies of EU law and leading cases. The focus of this course will be on issues of jurisdiction, harmonization and enforcement of the laws of the various European member states.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R522. Comp Contracts Principle. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R523. Admiralty. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R525. Comparative Social Justice. 1 to 4 Credit Hour.**

This course will explore international approaches to select social justice issues. The course defines social justice broadly, as the process of remedying oppression by understanding social inequality. The course will examine both the law's role in perpetuating social inequality and its great potential to realize social justice and will focus on how the courts of the U.S. and other countries decide cases that raise issues related to socially marginalized populations, with particular focus on gender, race, socio-economic status and sexual orientation. The course covers a wide range of doctrinal issues, including reproductive justice, education, marriage and family, voting and other civil rights issues. Students need not have any background in the law of these areas to understand the issues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R554. Intl Business Transactns. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may be repeated for additional credit.

**JUDO R613. Comparative Bioethics. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R625. Comparative Employment Law. 2 to 3 Credit Hours.**

This course will engage in a comparative study of current issues, practices, and debates in transnational and comparative employment law. The course will begin with a brief description of U.S. employment law, then students will compare and contrast the employment laws of various other nations. Topics will include hiring, termination, trade secrets, non-competition, anti-discrimination and anti-harassment, employee privacy, whistleblowing, hours and compensation, and employee benefits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R658. Globalization/Constn. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R690. Perspectives on Law Abroad: Rome. 1 to 2 Credit Hour.**

This course introduces students to the structure and practice of law in a foreign country. In Rome, the course will include an introduction to the civil law system and will cover additional subjects in coordination with the other courses being offered in the Rome Summer program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R835. Innovation Law and Policy. 2 to 3 Credit Hours.**

This course will examine how law and policy affect, and are affected by, innovation and scientific/technological advancement. To understand the relationship between law, policy, and innovation, we will focus on several ways in which innovation, law and policy interact with one another. This course will begin by reviewing certain laws and policies that were developed to promote innovation and technological development. While this course will explore certain concepts revolving around biotechnology, genetics, and neuroscience, students do not need a background in science to take this course.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0547.

**JUDO R837. International Sports Law. 2 to 3 Credit Hours.**

International Sports Law will examine sports law in an international and comparative context. Among the topics to be studied are the nature of global sports; professionalism versus amateurism; the business structure of team and individual sports; their regulatory oversight; labor relations and collective bargaining; cheating, including doping, the use of performance enhancing drugs, and match-fixing; international merchandising; and entities for dispute resolution. While students will explore several sports and legal environments, the primary vehicles for study will be the Olympics, FIFA, the Court of Arbitration for Sport and European and Asian professional basketball and baseball leagues.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO R840. Private Equity and Hedge Funds. 2 to 3 Credit Hours.**

This course explores the role of private fund investors in global financial markets today. This course will focus on hedge funds and two types of private equity investors: venture capital and buyout funds. We will discuss the structure of private funds and investment strategies of private funds. We will also gain an understanding of private fund transactions and will focus on venture capital transactions involving portfolio companies. We will also discuss the regulatory environment for private fund investors, including with respect to the Securities Act of 1933, the Investment Company Act of 1940, the Investment Advisers Act of 1940, and other relevant laws and regulations. We will discuss a number of other issues of current interest in the private fund arena, including issues related to diversity and inclusion and the role of pension fund investors in the private fund arena.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0508.

**JUDO R900. Guided Research. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO R901. Guided Research II. 1 to 5 Credit Hour.**

Guided Research offers students an opportunity to develop research, writing, and analytical abilities. Work with a faculty member in an area of the student's interest and the faculty member's expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: First Year Law Prof, Second Year Law Prof, Third Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO R902. Guided Research Serial. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO R903. Guided Research II Serial. 1 to 5 Credit Hour.**

Guided Research offers students an opportunity to develop research, writing, and analytical abilities. The student works with a faculty member in an area of the student's interest and the faculty member's expertise.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO T400. Moral Courage/Lawyers. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T433. Cyberspace. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T500. Intro Int'l Business Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T501. Comparatv Religious Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T502. White Collar Crime. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T509. Comparative Constnl Law. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T510. Middle East Peace Procss. 2 or 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T511. Comparative Family Law. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T515. Comp Crim Law and Pro. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T637. Intl Commercial Transctn. 2 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO T900. Guided Research. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO T902. Guided Research Serial. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO U010. MBA Course Transfer Credit. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO U020. MPH Course Transfer Credit. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO U030. University Transfer Credit. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO W510. Institutional Decision Making. 2 to 3 Credit Hours.**

This course introduces students to the theory and operation of the three branches of the U.S. government and explores the relative ability of each branch to address complex social and political issues. Through a series of contemporary case studies, the course considers the merits of judicial, legislative, regulatory, or market intervention. Issues covered may include health care reform, drug policy, consumer financial protection, LGBT equality, and religious freedom.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**JUDO W910. Law and Public Policy. 2 to 3 Credit Hours.**

This course is an individualized writing program that focuses specifically on legislative or regulatory reform. Students receive individualized one-on-one instruction while participating in collaborative work that encourages information sharing. Students complete a professional paper of approximately 30 to 40 pages that identifies an important policy question and proposes a workable legislative or regulatory solution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO W920. Law and Public Policy Colloquium. 2 to 3 Credit Hours.**

Law and Public Policy Colloquium is an upper level seminar where students meet with prominent policymakers and advocates in a small group setting. Arranged thematically, the course is intended to serve as a capstone experience for students studying in Washington, DC. Before meeting with the policymakers, students will examine relevant policy initiatives and work collaboratively to develop a series of questions and comments for the meeting. Grading will be based primarily on reflection papers.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO W930. Public Advocacy for Social Change. 1 Credit Hour.**

In this course, students will work intensively in teams to design and build an effective public advocacy campaign with multi-faceted deliverables. Among other things, students will identify a social problem, convince others to care about it in both written and oral form and develop a set of solutions to it. Students will identify stakeholders, targets, messages, and counter-arguments; testing ways to reach key audiences and measuring your success. Students will learn how to recognize effective marketing strategies; select a name for a campaign and build a brand that creates an emotional connection with target audience. Students will learn the craft of storytelling and how it can be leveraged to build a campaign in a fun and compelling way.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**JUDO X419. TU/Rutgers Exchange. 1 to 4 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**JUDO X537. Employmnt Discrm-Writing. 1 Credit Hour.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

## Kinesiology (KINS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**KINS 5202. Biomechanical Skeletal Tissue. 3 Credit Hours.**

This course offers an in-depth examination of the structure, composition, and material behavior of the basic skeletal tissues, including bone, cartilage, tendon, ligament, and muscle. The pathomechanics of injury, adaptation to loading, and degenerative changes associated with aging are analyzed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5237. Racial Minorities and Sport. 3 Credit Hours.**

This dual-level course focuses on the positions and roles of African American and other persons of color in American sport. Topics to be covered assist in consciousness raising of both white students and students of color to the unique experiences and challenges of racial minority participants in sport.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5239. Self-Development and Sport. 3 Credit Hours.**

This group process experiential course focuses the student's attention on the patterns and practices of her/his own sport or exercise. Assessments of satisfaction and areas for change are followed by action plan development for future experiences.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5311. Physiology of Exercise. 3 Credit Hours.**

This course is a survey of the broad spectrum of exercise physiology. The physiology concepts presented are applied to research, rehabilitation, preventive medicine, and coaching. Such topics as nutrition and performance, weight control, stress testing, and ergogenic aids are discussed in detail. Basic laboratory techniques and classical experiments are demonstrated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5312. Exercise and Nutrient Metabolism. 3 Credit Hours.**

The scientific principles controlling the relationship between exercise, nutrition, and weight control are examined. Special emphasis is directed toward the practical application of these principles for the development of individualized weight control programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5313. Exercise and Aging. 3 Credit Hours.**

This course offers a study of the potential influence of exercise on the aging process. The scientific principles that govern aging processes and the influences of exercise on these processes are reviewed as well as the development of exercise programs for geriatric populations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5333. Clinical Cardiovascular-Pulmonary Exercise Physiology. 3 Credit Hours.**

The course explores the roles and responsibilities of the clinical exercise professional in performing clinical exercise test procedures and programming exercise for populations with specific known cardiovascular and pulmonary diseases. Accordingly, the student will apply their knowledge, skills, and abilities of exercise programming to populations with diverse cardiovascular and pulmonary diseases, in mostly lecture and a few isolated laboratory experiences. The course will cover the basic pathophysiology of a wide variety of cardiovascular and pulmonary diseases and disorders, methods of diagnosis, the effect on the exercise response, and common management and medications. A review of the effects of exercise training will be conducted and recommendations regarding exercise testing and programming will be discussed for each disease/disorder. Some CV diseases/disorders covered include atherosclerosis, acute coronary syndromes, heart revascularization, cardiac transplant, valvular disease, heart failure, severe cardiac dysrhythmias, hypertension, and peripheral artery disease. Some pulmonary diseases include COPD, asthma, cystic fibrosis, restrictive disease and lung transplant. Also, students will learn to conduct a complete clinical evaluation according to the American College of Sports Medicine (ACSM) guidelines and conduct a clinical graded exercise test with an appropriate protocol. The content of this course is found on the certification exam for the ACSM Clinical Exercise Physiologist.

**Field of Study Restrictions:** Must be enrolled in one of the following Concentrations: Integrative Exercise Physiolog.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5335. Clinical Exercise Physiology. 3 Credit Hours.**

While KINS 5333, Clinical Cardiovascular-Pulmonary Exercise Physiology focuses strictly on various types of CV and Pulmonary diseases, this course explores the roles and responsibilities of the clinical exercise professional in performing clinical exercise test procedures and prescribing exercise programs in populations with other specific known chronic diseases. Accordingly, the student will apply their knowledge, skills, and abilities to diseased populations in mostly lectures and an isolated laboratory experience. The course will cover the basic pathophysiology of a wide variety of chronic diseases and disorders, the effect on the exercise response, and common management and medications. A review of the effects of exercise training will be conducted and recommendations regarding exercise testing and programming will be discussed for each disease/disorder. Diseases/disorders covered include immunological, hematological, orthopedic, neuromuscular, cognitive and psychosocial disorders. Also, students will learn to conduct a complete clinical evaluation according to the American College of Sports Medicine (ACSM) guidelines and conduct a clinical graded exercise test with an appropriate protocol. The content of this course is found on the certification exam for the ACSM Clinical Exercise Physiologist.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Integrative Exercise Physiolog.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 5987. Practicum in Athletic Training IV. 3 Credit Hours.**

This three-credit course is designed to accompany the final of four clinical experiences in the athletic training curriculum to further develop and enhance the practical skills and knowledge necessary for clinical practice. Students will review and demonstrate organization and administration principles and applied research skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in KINS 5443, KINS 5644, and KINS 5687.

**KINS 8500. Symposium in Kinesiology. 3 Credit Hours.**

This course provides an opportunity for an in-depth examination of a special topic of interest, generally in a smaller class setting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9201. Cardiovascular Exercise Physiology. 3 Credit Hours.**

This is a comprehensive cardiovascular exercise physiology course that emphasizes the mechanisms of regulatory function of the cardiovascular system during acute physical activity and the mechanisms of the adaptive response to exercise training.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9203. Appl Ex Physio-Neuromusc. 3 Credit Hours.**

Principles of neurophysiological regulatory mechanisms of muscle contraction are the focus of this course. Skeletal muscle physiology, including muscle fiber types, neuromuscular junction, motor unit recruitment, and fatigue are discussed. Mechanisms of adaptation in skeletal muscles and the biomedical adaptations produced by increased and decreased use are also discussed, with emphasis on cell signaling and genomics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** KINS 5311.

**KINS 9204. Cellular Adapt to Exer. 3 Credit Hours.**

This course examines control and regulatory mechanisms at the tissue and cellular levels during exercise. Mechanisms of adaptation in cells and tissues and the biomedical adaptations produced by training are discussed, with emphasis on genomics and cell signaling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** (KINS 4311 or KINS 5311) and KINS 9203.

**KINS 9205. Exercise Testing and Prescription. 3 Credit Hours.**

This course enhances the knowledge and skills of persons interested in preventive and rehabilitative exercise programs. Exercise in the diagnosis, prevention, and rehabilitation of coronary heart disease, as well as the techniques of exercise stress testing are studied. Emphasis is placed on the development of exercise prescriptions from graded exercise test data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9287. Athletic Training/Sports Medicine Practicum I. 1 to 6 Credit Hour.**

This is a practicum in which the student satisfies the 200-hour requirement by serving as an athletic trainer in a NATA-approved allied-health setting such as the Temple University Sports Medicine Clinics. Students perform athletic training duties under the supervision of certified athletic trainers and orthopedic surgeons.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9288. Athletic Training/Sports Medicine Practicum II. 1 to 6 Credit Hour.**

As a continuation of KINS 9287, in this practicum the student further satisfies the 200-hour requirement by serving as an athletic trainer in a NATA-approved allied health setting such as the Temple University Sports Medicine Clinics. Students perform athletic training duties under the supervision of certified athletic trainers and orthopedic surgeons.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9301. Motor Development. 3 Credit Hours.**

This course is designed to study human movement across the lifespan through the review and critique of major theoretical positions and the analysis of selected movement patterns.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9302. Motor Learning. 3 Credit Hours.**

This course is designed to study the acquisition and retention of motor skills as related to practice schedules, information processing, and motor control.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9311. Biomechanics: Human Movement. 3 Credit Hours.**

This course offers an assessment of research in the biomechanics of human motion, including electromyography, muscle modeling, link segment modeling and analysis, and energy and power analysis. The above concepts are utilized in the assessment of both normal and atypical populations in sport and rehabilitation contexts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9401. Psychological Bases of Motor Behavior. 3 Credit Hours.**

This course focuses on the psychology of motor behavior, with particular emphasis on motor learning and motor development.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9402. Psychology of Human Motivation and Development. 3 Credit Hours.**

This course focuses on the basic psychological variables that influence, and are influenced by, human movement. A diverse set of topics within exercise and sport psychology is explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9403. Sociology of Kinesiology. 3 Credit Hours.**

This course focuses on the social structural/contextual variables that influence, and are influenced by, human movement. Among the variables examined are socioeconomic status, gender, race, ethnicity, sexual preference, dominant-subordinate perceptions, and value formation and conflict.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9404. Exercise and Mental Health. 3 Credit Hours.**

This course provides the student with a background in theory, research, and applied work in the relationship between exercise and mental health.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9407. Obesity and Eating Disorders. 3 Credit Hours.**

This course aims to provide a comprehensive understanding of obesity and eating disorders. It focuses on kinesiology and its relation to the etiology of the disorder, its prevalence, classification, diagnosis, treatment and prevention. These issues are discussed in terms of their psychosocial, behavioral, and physiological aspects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9683. Mentored Research I. 3 Credit Hours.**

This course exposes the Ph.D. student to the basic nature of behavioral and somatic science research. Learning experiences consist of journal article review, laboratory/field techniques, and subject or data collection exposure as directed by faculty mentors.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9783. Mentored Research II. 3 Credit Hours.**

This course provides the Ph.D. student with the opportunity to be involved in research, under the direction of the faculty mentor, as the assistant project director and as the project director for pilot studies. The student gains experience in these roles with close supervision by the faculty mentor.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in KINS 9683.

**KINS 9785. Internship in Kinesiology. 3 to 6 Credit Hours.**

This course provides supervised field and/or clinical experiences in psychological aspects of sport/physical activity, and exercise science.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9882. Independent Research. 1 to 12 Credit Hour.**

This course allows students to engage in independent research. Students present a proposal to the instructor, who advises them on their project. Prior to registration, students obtain a letter of agreement from the department chair indicating the number of credits involved.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9901. Research Methods in Kinesiology. 3 Credit Hours.**

This course focuses on basic understanding of research methods and related techniques necessary to evaluate research literature in physical education and related fields. Attention is given to the selection of research problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**KINS 9994. Preliminary Examination Preparation. 1 to 3 Credit Hour.**

This course is for students who have completed all coursework and have not passed the preliminary examination.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9995. Master's Research in Kinesiology. 1 to 3 Credit Hour.**

This course is open to Master of Science candidates doing either the project option or the first three credits of the thesis option.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9996. Master's Thesis in Kinesiology. 1 to 3 Credit Hour.**

This course is open only to Master of Science candidates completing the last three credits of the thesis option.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may be repeated for additional credit.

**KINS 9998. Dissertation Proposal Research. 1 or 2 Credit Hour.**

This course supports preparation of the dissertation proposal. The course is required for students who have passed the preliminary examinations for their PhD program and who have not yet defended the dissertation proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in KINS 9994.

**KINS 9999. Doctoral Dissertation in Kinesiology. 1 to 9 Credit Hour.**

This course is limited to candidates for the doctoral degree. This offers continuous registration during the fall and spring terms as required from after completion of the preliminary examination until the dissertation has been completed and accepted by the graduate faculty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Landscape Architecture (LARC)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **LARC 5085. Landscape Architecture Internship. 1 to 3 Credit Hour.**

This course expands students' knowledge and professional experience through internships in landscape design, ecological restoration, horticulture, or a related field. Students will be exposed to methods of practice and design thinking and have the opportunity to integrate academic learning with practical work experience, thereby broadening his or her skills and perspectives. The course requires that the student prepare a report in a format agreed upon with the course coordinator.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Landscape Arch.

**Repeatability:** This course may be repeated for additional credit.

### **LARC 5544. Landscape Architecture Computer Technology I. 3 Credit Hours.**

An introduction to modeling, mapping, drafting, and representation software that is currently used in landscape architectural practice. Focuses on learning the basic commands for drawing, rendering, and formatting digital representations of work for presentations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **LARC 5551. Landscape Architecture Computer Technology II. 3 Credit Hours.**

Builds upon computer knowledge introduced in Design Communications/Introductory Design Studio I or equivalent. Introduction to Geographic Information System (GIS), intermediate level computer-aided design (CAD), and Photoshop applications to aid in developing and presenting designs. How to select the most useful software for a particular design problem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **LARC 5564. Landscape Architecture Computer Technology III. 3 Credit Hours.**

Addresses more advanced concepts within and between drafting, rendering, modeling, mapping, and representation software that are commonly employed in landscape architectural practice. Products are project-based and prepare students for professional standards.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D (except where noted) in (LARC 1544 or LARC 5544 (C- or higher))

### **LARC 5665. Grant Writing. 3 Credit Hours.**

Develop skills in researching grant funding possibilities, identifying and developing appropriate restoration projects with potential for grant funding, and writing grant proposals.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **LARC 8141. Design Communications/Introductory Design Studio I. 4 Credit Hours.**

This studio course explores the development of graphic techniques and introduces students to the design process commonly used in landscape architecture and horticulture. Students develop a small-scale design project using a variety of graphic skills. Plans, sections, and elevations are drawn, and their functions are understood in design representation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8144. Landscape Design Studio II. 4 Credit Hours.**

This course focuses on the development of mixed use and sustainable communities within the natural, social, cultural, and economic context of development or redevelopment. Large-scale land-use and community planning projects in the urban or rural context are investigated. Real world projects range from preparing community-based revitalization plans and designs for inner-city neighborhoods, to the creation of a new town development set in a bucolic landscape. Students learn to develop creative ideas through illustrative techniques. They engage in a complete design process, including analysis, conceptual, and finished design of an outdoor space.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in LARC 8141.

**LARC 8151. Woodland Design Studio. 4 Credit Hours.**

Students apply the knowledge and methodologies presented in LARC 8751: Northeastern Woodland Ecosystems. Projects, varying in size and location, allow students to synthesize and advance their understanding of the ecosystem. Finished design projects are presented in graphic, written, and verbal forms and may be implemented in the field. Students develop the analytical and technical skills necessary for the inventory, analysis, programming, and design of a woodland landscape. Fieldwork, site inventory and analysis, identification of opportunities and constraints, and program development, as well as hand and computer drawing, are included.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** LARC 8351, LARC 8751.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8152. Wetland/Riparian Design Studio. 4 Credit Hours.**

This studio course complements material introduced in LARC 8752: Wetland Ecology. Students are required to draw on and implement knowledge about wetland ecosystems to develop a site design. Field visits, inventory, analysis, and monitoring are used to gain a thorough knowledge of the site for use as the basis for a design. Identification of opportunities and constraints, program development, and hand and computer drawing are extensively used. Students learn the critical thinking and artistic judgment necessary for developing a design for wetland habitat restoration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** LARC 8752.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8153. Public Lands Design Studio. 4 Credit Hours.**

Focuses on a public project, such as a metropolitan park or regional or state conservation area. Students are required to understand and integrate the diverse values and views held by various stakeholders. In addition to typical design studio components such as site inventory and analysis, projects may require students to interview, confer, and present to public audiences to seek feedback and approval of designs. By the end of the course, students have attended and/or presented at public meetings and have developed a design for the public realm.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8241. Landscape Engineering I. 3 Credit Hours.**

The course emphasis is on the basic concepts, ideas, and techniques that deal with the visual, functional, and ecological aspects of grading and landform manipulation. Students learn the technical skills necessary for grading a landscape to ensure proper drainage.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8242. Landscape Engineering II. 3 Credit Hours.**

This course is an introduction to the principles, processes, and techniques of landscape architectural site engineering. Based on the understanding of ecological principles, functional requirements, and aesthetic considerations, students learn essential elements of construction drawings that are typically required for implementation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in LARC 8241.

**LARC 8351. Aesthetics of Ecological Design Seminar. 1 Credit Hour.**

Students learn about the emerging aesthetic associated with ecological design. Form and psychological experience of design are presented through readings and discussion. Students understand the importance of peer-reviewed research as it relates to design and aesthetics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** LARC 8151, LARC 8751.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8355. Capstone Seminar. 1 Credit Hour.**

The LARC 8355 Capstone Seminar is an introduction to, and preparation for LARC 9995, Capstone Restoration Design Project. The Capstone Seminar objectives include defining the research topic and specific project site, in addition to establishing the scope and goals of the proposed project. Students conduct a thorough site inventory and analysis, identify research resources and precedents, contact site stakeholders and formulate a design program. All these components are further developed in LARC 9995 in the following spring semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Landscape Arch.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (LARC 5551, LARC 8151, LARC 8152, LARC 8153, LARC 8242, LARC 8351, LARC 8751, LARC 8752, LARC 8789, and LARC 8552)

**LARC 8496. Landscape Traditions. 3 Credit Hours.**

A comprehensive overview of civilization's efforts to create useful, beautiful, and symbolic spaces and places from ancient times until the modern day is presented. Students learn to critically assess landscapes through written research papers and oral presentations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8552. Research Design Methods. 3 Credit Hours.**

Master of Landscape Architecture students gain an understanding of research design methods. Students conduct a research project and write a paper that summarizes their research study and findings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LARC 8644. Professional Practice. 3 Credit Hours.**

This course focuses on codes of professional and environmental ethics, the requirements of professional licensure, current business practices, and current and emerging challenges in landscape architectural practice. The course emphasizes the leadership role of landscape architects on interdisciplinary design teams. Students gain an understanding of different professional avenues and opportunities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (LARC 8141 and LARC 8241)

**LARC 8751. Northeastern Woodland Ecosystems. 3 Credit Hours.**

The course presents terrestrial forest ecosystems and the biotic and abiotic factors that affect them. Students learn the components of forest ecosystems, including degradation factors and restoration concepts. Field trips allow students to observe and document a local forest ecosystem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** LARC 8151, LARC 8351.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8752. Wetland Ecology. 3 Credit Hours.**

The course introduces the ecology of traditional wetlands, such as salt marshes and bogs. Students gain an understanding of riparian edges and shorelines and the measures necessary for protecting and/or restoring them. Site visits are required.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Landscape Architecture.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** LARC 8152.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8755. Native Plant Communities. 3 Credit Hours.**

The course examines native and naturalized tree, shrub, and/or herbaceous plant community structure. Restoration processes are explored relevant to maintaining healthy plant communities. Discussion centers around growth, habit, and on-site propagation during restoration. Students learn to distinguish between native and non-native plant communities and vital characteristics associated with plant community health.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8789. Landscape Restoration Workshop. 3 Credit Hours.**

Students learn principles and practices of ecological restoration through hands-on experience. They visit restored landscapes, conduct field measurements in a unique ecosystem and contribute to a restoration project on a local site(s). By the end of the course, students understand various technical strategies involved in restoration through drawing and writing their field observations, assessing proper techniques for restoration, and then implementing those techniques on a real site.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 8860. Topics in Landscape Architecture. 3 Credit Hours.**

Variable offerings from semester to semester of selected topics not part of the regular listing of courses. The topic can be in an area of specialization of a faculty member or an examination of a current development in the field. NOTE: Students may obtain a description of the current version at the department office and in the schedule of classes. This course may be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may be repeated for additional credit.

**LARC 8870. Topics in Landscape Architecture. 1 to 3 Credit Hour.**

Variable offerings from semester to semester of selected topics not part of the regular listing of courses. The topic can be in an area of specialization of a faculty member or an examination of a current development in the field. NOTE: Students may obtain a description of the current version at the department office and in the schedule of classes. This course may be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LARC 8889. Invasive Species Management and Restoration Monitoring. 3 Credit Hours.**

This field course introduces methods for monitoring the process of a restoration project and the corrective actions needed to ensure a positive restoration. It includes strategies for pre- and post-installation monitoring. By the end of the semester, students understand issues associated with monitoring and maintaining the health of a restored ecosystem.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Landscape Architecture.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Landscape Arch.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LARC 9883. Directed Reading/Study. 1 to 3 Credit Hour.**

Advanced reading/study tutorial is arranged between the student and a faculty member. NOTE: A written contract with the faculty member and approval from the Chair of the Department are required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LARC 9995. Capstone Restoration Design Project. 1 to 3 Credit Hour.**

Students develop an independent restoration design project requiring synthesis of all previous coursework, including methodologies, seminars, ecological knowledge, and design projects. Every project must incorporate research in three ways: (1) accomplishing a literature review; (2) selecting and applying a methodology; and (3) advancing the knowledge base in ecological restoration. Research is used to both guide and test the design project. Students develop a comprehensive report. The capstone project concludes with a verbal and graphic presentation as well as a report summarizing the implications of the design, including strategies for monitoring and adjusting the restoration over time. Note: Students must obtain the instructor's approval of a project site and type no later than the first week of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Landscape Architecture.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Landscape Arch.

**Course Attributes:** SF

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of C- in LARC 5551, LARC 8151, LARC 8152, LARC 8153, LARC 8242, LARC 8351, LARC 8355, LARC 8552, LARC 8751, LARC 8752, LARC 8755, LARC 8789, and LARC 8889.

## Latin American Studies (LAS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**LAS 5001. Process and Change in Latin America. 1 to 9 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Legal Studies (LGLS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**LGLS 5051. Business Law. 1.5 Credit Hour.**

This course provides an overview of contract law, the foundation of all business law, with special attention given to issues often encountered by business executives. In addition, a broad range of ethical workplace dilemmas will be covered. Topics include sources of law, the organization of the United States legal system, selected issues in domestic and international contracts, diversity in the workplace, privacy and technology, and whistle-blowing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5103. Real Estate Law and Practice. 3 Credit Hours.**

This course merges two disciplines (i.e., law and real estate) and provides students with an overview of the legal aspects associated with key documents that are part of the real estate investment. Documents including loan, joint venture and leases will be reviewed. We then evaluate the impact of business and legal terms on the proforma. To this end, we expose the students to how to read to understand the key documents for any real estate transaction. Each will be presented in a format that will provide students the over-arching terms both legal and business that are then used to form the basis for the impact of same on the performance of an investment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5131. Environ Law & Corp Resp. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5155. E-Commerce Law & Regulation. 1.5 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5170. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LGLS 5180. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LGLS 5182. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LGLS 5190. Special Topics - Law. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LGLS 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**LGLS 5602. Ethics in the Public and Commercial Sectors. 3 Credit Hours.**

This course will provide an overview of the study of ethics and its operations in the public and commercial sectors. It will emphasize the identification and analysis of ethical issues in the regulatory and corporate contexts and examine the roles of government and business in society, focusing upon its various stakeholders, including government regulators, consumers, corporate actors, employees, and local/national/global communities. It will also dissect the ethical dimensions of ordinary regulatory and corporate decision-making.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5603. Public Policy and Regulatory Process. 3 Credit Hours.**

The course will introduce students to the study of public policy - that which addresses the interests of the public and fuels the creation of national, state and local laws, as well as internal codes of corporate conduct. The course will assist students in comprehending how public officials make decisions that positively and negatively affect people's lives in the public and private sectors. The course will examine how problems reach the government's agenda, why some solutions are embraced and others rejected, and why some policies seem to flourish while others flop. Students will be encouraged to intelligently analyze policies, find their strengths and weaknesses, and apply knowledge of the policy process to any issue confronted in daily life. Students will also understand how legislation is proposed and passed, how legislation is enforced, and how stakeholders can affect the ultimate acceptance or rejection of a proposed policy or regulation. Additionally, students will understand the dynamic nature of public policy by comparing prior policy, legislation, and public attitude with that of the modern world.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5604. Corporate Compliance. 3 Credit Hours.**

This course provides an overview of the world of corporate compliance. The Compliance Officer's ability to investigate wrongdoing at the workplace, through internal investigations and audits, will be explored, along with case study exercises that involve the interaction between corporate entities and federal and state agencies. Students will analyze the interrelationships between the public and private sectors and the nature of legal liability for business entities and their employees. The course will also emphasize the creation and maintenance of corporate compliance programs, codes of conduct and policies, with drafting and critiquing exercises. Substantive course topics include: corruption, workplace discrimination, data privacy, trade control, and environmental risk.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5605. Corporate Governance and Responsibility. 3 Credit Hours.**

This course will provide an overview of corporate governance, the systems, principles and processes by which corporations are directed and controlled. It will explore inter-related governance structures (e.g., the relationships between and among boards of directors, management, shareholders in contemporary business organizations) and analyze how companies can be directed such that they satisfy their objectives in a way that builds value and benefits stakeholders. It will analyze the intersection of responsible management and good public policy. Students will consider how a business organization can build and sustain a culture that is supportive of ethical decision-making, both internally and in relation to the political process. Students will look at the kinds of ethical dilemmas that confront managers, at the pressures that can cloud good judgment, and at mechanisms for communicating best ethical practices across an organization. As they analyze a series of business ethics case studies, students will weigh possible action choices in light of both relevant law and market imperatives.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5606. Forensic Accounting. 3 Credit Hours.**

This course explores the growing field of forensic and investigative accounting. Students will be introduced to the basic concepts of auditing, internal control, valuation, fraud examination, and litigation support. The objectives of this course include understanding the principles and practices that guide accountants, financial professionals, and Certified Fraud Examiners.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5607. Global Public Policy and Business. 3 Credit Hours.**

Public policy refers to the relationship between the government and the governed. This relationship includes the complex array of statutes, regulations, and often judicial decisions that affect the actions of ordinary citizens by guiding their behavior and providing ramifications for acting outside of socially accepted norms. Policies reflect the values and beliefs of a specific community, whether local, regional, national or international. Businesses are also affected by these policies. The behavior of firms, of their employees, and of their governing institutions, are driven by policies developed by government actors. Policies for businesses are most often reflected in the form of regulations, which guide firm behavior with respect to financing, labor standards, transparency, interaction with the environment, and so forth. Debates rage about whether a strong regulatory environment facilitates effective economic development with a consumer focus or whether it restricts economic growth potential. In this course, we will examine business-relevant issues within the global public policy environment. We will compare and contrast the regulatory environments of distinct countries to that of the United States in order to judge effectiveness, viability, and the relationship between that environment and business growth. This class will be case study intensive and will require students to apply deep critical analysis skills as they read course materials and complete assignments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5611. Compliance in the Financial Services Industry. 3 Credit Hours.**

This course focuses on the regulatory landscape concerning the financial services industry. Students will learn about the basic regulatory principles guiding financial institutions, as well as modern changes to be implemented as a result of the recent financial crisis. Additionally, students will learn about the intersection between the different regulatory bodies that oversee both public and private financial institutions. Specific topics to be discussed include: the Dodd-Frank Act, the Glass-Steagall Act, the Gramm-Leach-Bliley Act, and the Right to Financial Privacy Act.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5612. Ethics in the Financial Services Industry. 3 Credit Hours.**

This course explores ethical issues in the financial services industry. The need for ethical practices in the financial services industry has been repeatedly discussed following the recent financial crisis. Students will discuss the often-unclear boundaries between ethical and legal practices. Students will also explore the relationship between different financial services organizations, shareholders, regulators, and customers. The objective of this course is to prepare students to make ethical decisions that positively affect both their organization and outside stakeholders.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5613. Compliance in Healthcare. 3 Credit Hours.**

This course focuses on the regulatory landscape concerning the healthcare industry. Innovations in technology, an aging population, and the passing of the Patient Protection Affordable Care Act are poised to greatly change the American healthcare industry. Students will learn how these changes will affect their respective organizations. Upon completion of this course, students will be better equipped to serve as effective compliance leaders.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5614. Ethics in Healthcare. 3 Credit Hours.**

This course explores the ethical issues in the healthcare industry. The nature of the doctor-patient relationship in healthcare creates unique ethical issues. Students will learn how to recognize and confront these ethical issues. Through an open discussion and analysis of current events, students will explore the delicate balance between the patient's interests and the business decisions facing modern healthcare providers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5615. Risk Management and Compliance. 3 Credit Hours.**

Risk is a future phenomenon. As part of our eternal quest to control some small component of our future, it is the focus of many business discussions, thus making it an essential part of decision making. The challenge and the focus of the course is on creating a degree of consistency in managing risk and the risk process. The course uses a holistic approach, examining risk as a blend of environmental, programmatic, and situational concerns, covering the latest perspectives, focusing on a systematic approach to risk management. We also focus on specific techniques to enhance organizational risk identification, assessment, and management, all within the project and program environments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5616. Anti-Money Laundering. 1.5 Credit Hour.**

Money laundering generally refers to financial transactions in which criminals, including terrorist organizations, attempt to disguise the proceeds, sources or nature of their illicit activities. Money laundering facilitates a broad range of serious underlying criminal offenses and ultimately threatens the integrity of the financial system. The course reviews the various forms of money laundering and how it may be combated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5617. Sustainability in Business. 3 Credit Hours.**

A sustainable approach to business requires business leaders to transform the traditional linear business production cycles that exploit the environment and produce wastes into a more circular one in which all waste products are used in the production cycle, in an industrial cluster, or returned harmlessly to the earth. Waste reflects inefficiency, pollution risks, and seeking its elimination leads to innovation. The change of perspective is especially necessary today. In the first industrial revolution, humans had abundant resources and limited labor. Now the resources available to businesses are limited and labor (whether human or automated) is abundant. So, business leaders need to learn how to do more with what they have. In the course, we study industrial ecology as means to develop new business models and processes that generate better products, reduce costs, protect the environment, and make money for the firm. In doing so, we study cases and provide students the opportunities to reconsider their own industries and develop entrepreneurial ideas.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5618. Compliance in the Government Services Industry. 1.5 Credit Hour.**

The work of corporate governance is divided into two main parts: compliance and ethics. This course focuses on compliance in the government services industry, which includes the rules and regulations that companies have to follow when doing work for the government. That is to operate in the area of corporate governance, one needs to know and put safeguards in place to make sure the company is following applicable rules, including, but not limited to rules against conflicts of interest, drafting codes of conduct, handling employee violations of the code of conduct, and monitoring vendors.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5619. Ethics in Government Services Industry. 1.5 Credit Hour.**

This course focuses on ethics in the government services industry, which includes helping students identify and incorporate certain ethical frameworks that they can apply to moral conflicts in business with the government. That is to say, it is not enough to know the rules, one must know how to apply them, why you are applying them and, at times, when to disregard them. The course focuses on ethical issues that specifically arise in the government services industry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5622. Law and Policy of the Workplace. 3 Credit Hours.**

Social media and privacy rights. Sexual harassment. Trade secrets and Non-Compete Agreements. Conscious and Unconscious Bias. This course will explore the rights and responsibilities of workers and managers alike by examining the laws, regulations, court cases and policies that govern the employer-employee relationship. It aims to provide you with a basic understanding of workplace law and policy while challenging you to question existing approaches to the employment relationship. The course will use cases and questions currently in the news and in the courts to examine the U.S. approach to the workplace: Should employers control employees' access to birth control or other medical care? Can a company perform criminal background or credit checks on applicants without violating race discrimination prohibitions? How would a mandate of paid time off to care for a new child or ill family member impact a business's bottom line? What role should the government play in setting a minimum wage and how does it affect workers and their employers? This course will ask questions like these to help you understand the way in which compliance with workplace laws impacts numerous aspects of a business and to help you articulate your own view of the employer-employee relationship.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5623. Cyber-Security and Privacy. 3 Credit Hours.**

This course introduces students to the interdisciplinary study of cybersecurity and privacy rights. It examines the development of cybersecurity (how we can protect against the criminal or unauthorized use of electronic data) and how this topic relates to the government and business sectors and interfaces with individual privacy rights (i.e., the right of a person to be free from intrusion into matters of a personal nature). Students will investigate national and global legal and policy considerations related to cybersecurity and privacy, including cybercrime, homeland security and cyberwarfare, and how law and policy is created in this arena. In addition, students will study the existing legal frameworks that protect consumer privacy and the security protections for private sector businesses, with strong focus on regulatory and compliance matters.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5701. Legal and Ethical Foundations of Business. 3 Credit Hours.**

Business leader's face values conflicts. This course analyzes economic and moral theories people use to assess whether proposed actions are right or wrong, good or bad, just or unjust. While moral theories can guide our thinking, we explore why they do not always guide our behavior. That brings us to the law. Laws constitute socially imposed incentives and disincentives to encourage people to do what society deems "right". In that way, law represents substantive decisions by the state that are values-based and do not necessarily yield just results. In this course, we come to understand that our laws are not without moral import and that ethics must inform the law because the law in and of itself does little work in informing what should be. It mostly speaks to what is.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5801. Law and Ethics in the Business Enterprise. 3 Credit Hours.**

You will develop greater confidence in managing situations where legal and ethical questions are prominent and where the right decision may not be the easy one to make. As you learn to master online legal research and the basics of business law, you'll discuss actual dilemmas that you've faced at work. As issues involving diversity, surveillance technology, environmental protection, workplace safety, whistle blowing and sexual harassment surface in discussion, you'll gain insight into ways of resolving these complex business problems in both classical and digital enterprises. Note: Enrollment limited to students in the EMBA program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**LGLS 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**LGLS 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## LLM American & International (MLAI)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MLAI C001. Amer & Int'l Law Pgm Assess. 0 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**MLAI C005. FLLM Dual Degree. 0 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**MLAI C100. Legal English / Communication. 2 to 3 Credit Hours.**

This course aims to help international students to improve their English language skills, as well as to provide them with an intensive introduction to legal vocabulary and concepts that will be important in their subsequent law school coursework. Attention is given to acquiring and practicing extensive legal English skills by exploring topics in various legal areas, including contract law, tort law, criminal law and other legal concepts in order to expand the students' vocabulary and stimulate class discussions and debate. In addition to participating in daily classroom discussions, students will be required to give short class presentations in English on different legal topics, as well as essay writing and various reading assignments. The main objective of the course is to build students' self-confidence in using English in their law school courses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLAI C101. Intensv English Language. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C400. Admnstr TV/Telecommunctns. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C401. Civil Procedure/Evidence. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C402. Civil Procedure I. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C403. Administrative Law. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C404. Constitutional Law. 2 to 3 Credit Hours.**

Judicial review of legislative and executive actions in a constitutional setting, the relationship of the states to the federal government (federalism), the relationship of the people to the government (fundamental rights and due process of law), and the powers of the legislative branch are considered in the context of the US Constitution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C405. Legal Profssnlsm Practcm. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C406. Contracts I. 2 Credit Hours.**

This course provides students with in-depth knowledge of the fundamental principles of contract law. The core elements include formation and creation of the contract, contract terms, contract performance and excuse for nonperformance, breach of contract and remedies for breach, and third party rights. Practical matters such as the principle of party autonomy, legal effect of a contract, and enforcement of contractual rights are emphasized. The teaching methods rely heavily on case analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C407. Criminal Legal Process. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C408. Contracts II. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C414. Legal Research & Writing. 2 to 4 Credit Hours.**

This course teaches the basics of writing like a lawyer. Students learn basic legal research skills and the fundamentals of legal writing. Students will be taught how to do computerized legal research using the Westlaw database.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C415. Legal Research. 1 Credit Hour.**

The objective of this course is to introduce Chinese students to legal reasoning, legal research, and legal writing in English - three of the many necessary skill sets required in the practice of law, especially in the U.S. legal system. Students will be given both reading and hands-on research assignments. They are required to conduct research and write research reports (legal memoranda) for their work. In addition, the instructor will use pairs or groups of cases to help students learn about citation, case reading and analysis, statutory interpretation, and legal synthesis to further appreciate the role of legal research in the practice of law. Overall, students taking this course will experience enhancement in legal reasoning, legal research, and legal writing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C416. Professional Responsibility. 2 to 3 Credit Hours.**

In this course, students will gain a broad understanding of professional responsibility, attorney ethics, and the laws of lawyering. Students will gain proficiency in applying the American Bar Association Model Rules of Professional Conduct, the California Rules of Professional Conduct, the California Business and Professions Code (Selected Provisions), and state law variations of the Model Rules. The course includes topics on the regulation of lawyers, lawyer liability, confidentiality, the lawyer-client relationship, conflicts of interest, and lawyers' duties.

**Class Restrictions:** Must be enrolled in one of the following Classes: Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C417. IP in Cyberspace. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C418. Real Property. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C419. American Legl Sys/Theory. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C420. Torts. 2 Credit Hours.**

This course focuses on the basic concepts of civil liability between private parties, including intentional torts, negligence, and strict liability. It also acquaints students with the potential role of courts in providing individuals who are injured with a means of redress against other individuals, business entities, and government officials. Some specific issues, such as tortious interference with contracts and product liability, are addressed. In addition, the course considers the theoretical basis of civil liability, including providing justice, spreading risk and cost, and deterring socially harmful behavior

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C421. Markets. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C422. Legal Reasoning. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C424. International Civil Litigation. 2 to 3 Credit Hours.**

This course will examine the international law that governs "foreign" relations between individuals or business entities, and discuss the theory and practice of international civil dispute settlement. Issues to be covered include determination of the proper forum, finding of the applicable law, judicial assistance (e.g. service of process, discovery and foreign judgment enforcement), and litigation involving a foreign state. Also discussed will be: how to draft a dispute settlement clause in an international contract, how to make a meaningful choice of forum as well as applicable law to more effectively protect client's interest, and what are the potential obstacles facing lawyers engaging in the international practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C466. Intrnl Environmental Law. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C490. Law Electronic Commerce. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C501. Intl Dispute Resolution. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C504. Antitrust Law. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C505. Criminal Procedure. 2 to 3 Credit Hours.**

In Criminal Procedure students will learn about parts of the United States Constitution that impact the rights of criminal defendants in court. Specifically, students will study the impact of the 4th, 5th, and 6th Amendments of the Bill of Rights on criminal cases. Study will focus on both how case law interprets these amendments and the real world impact of those decisions, as viewed through a racial justice framework.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C506. Banking/Financial Instns. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C508. Business Associations. 2 Credit Hours.**

This course examines the law of corporate entities, including the reason for their existence, their functioning in a market economy, and the legal rules that govern their existence. It focuses primarily on the corporation, exposing students to an artificial entity, to corporate governance and management, and to the problems that tend to arise in the ongoing life of a corporation. In that context, the students examine the various types of corporate entities that exist and different assumptions underlying their existence.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C522. Conflict of Laws. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C524. International Commercial Arbitration. 2 to 3 Credit Hours.**

Arbitration is an important alternative dispute resolution mechanism in international business transactions. It is in many respects a form of dispute settlement most often chosen by the parties and their lawyers, and it operates interactively among national legal rules and institutions. This course provides students with the theory and practice of international commercial arbitration with a focus on its jurisprudential underpinnings and legal structures. It examines and analyzes from comparative law aspects both procedural and substantive issues involved in the international commercial arbitration.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C530. Creditors/Debtors Rights. 2 Credit Hours.**

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C545. Introduction to Compliance. 2 to 3 Credit Hours.**

This course will discuss the importance of corporate compliance and provide an overview of the legal and ethical considerations at play. The course will also explore relevant laws, examine emerging risks and provide an understanding of the design and implementation of compliance programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C547. Intellectual Property. 2 Credit Hours.**

This course will cover the broad outlines of the four major branches of intellectual property law: patent, copyright, trademark, and trade secret law. The course will look generally at why (and how) intellectual property law differs from the law governing real property or tangible personal property, as well as at the special features of each of these sub-fields of intellectual property law. The course should provide a helpful overview of this area of the law for students who do not plan to specialize in intellectual property, as well as providing those who plan to go on to more detailed study of, and practice in, this area with an introductory exposure to the kinds of problems that are common to all intellectual property disciplines.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C637. International Business Transactions. 2 Credit Hours.**

This course is designed to give students an understanding of the variety of issues that lawyers acting for clients in international business transactions encounter in their daily work. The first section of the course focuses on the three principal contracts used in international documentary sales transactions: the sales contract, the bill of lading and the letter of credit. Particular attention is given to contract formation issues under private international law and the UN Convention on Contracts for the International Sale of Goods. The course then considers the impact of global trade regulation on private business deals, with an emphasis on customs law as well as the basic principles and evolving case law of the WTO.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C652. Intrnl Commercial Law. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLAI C751. Ethics in Practice. 1 to 4 Credit Hour.**

This course will focus on issues of professionalism and ethics. Students will learn about attorney obligations to the client, court, profession, and society, and develop an understanding of their own professional values and philosophy as practicing lawyers. In addition to examining global issues of ethics and professionalism, the course will utilize students' experiences to identify and explore issues particular to different areas of practice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX 0980. OSHA Of 1970. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX 0981. Equal Pay in Employment. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX 0997. Tax Planning Seminar. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX 0998. Guided Research. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX 0999. Tax Research. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G100. Legal English/Communctn. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may be repeated for additional credit.

**MLTX G403. Graduate Law Division. 1 to 15 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G406. Contracts. 3 to 4 Credit Hours.**

Topics may include: the bargain, fairness, equality of the bargain and formalisms such as parole evidence and Statute of Frauds are examined in the context of the common law and Article 2 of the Uniform Commercial Code. Further utilizing the Uniform Commercial Code, the common law and other statutory bases, impossibility, change, condition, anticipatory breach, good faith duty to act, judicial remedies, controlling risk and remedy, third party beneficiaries and assignment are examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G414. Legal Research & Writing. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G415. Legal Research and Writing II. 2 to 3 Credit Hours.**

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G422. Introduction to the American Legal System. 2 to 3 Credit Hours.**

Provides the student from a non-common law background with an introduction to the basic concepts, structures and institutions of the American Legal System. Topics include: common law method and its origins; structure of the US government; the Constitution; judicial review, structure, organization and operations of courts in the US; civil litigation, case analysis and precedent; the legislative branch; statutes and legislative history; the executive branch; administrative law; an introduction to basic contract law and tort law.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G460. International Politics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G463. Intrnl Organizations. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G468. Topics in Intl Politics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G500. Non Tax Issues/Est Plang. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may be repeated for additional credit.

**MLTX G501. Introduction to Employee Benefits. 2 Credit Hours.**

This course is an introductory course about employee benefit law which will prepare students for the more specialized courses on welfare plans and qualified retirement plans to be offered in subsequent semesters. This course covers the broad range of all aspects of employee law in an introductory fashion including; the origins and fundamentals of the U.S. pension system; the history of ERISA law making and the basic concepts of vesting and nondiscrimination in employee plans; ERISA fiduciary law; and the application of other related laws such as ADA, ADEA and Title VII to employee benefits. The goal of the course is to equip students with the basic historical and theoretical knowledge of employee benefit law and ready them for more specialized studies in this area.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G502. ERISA/Fiduciary Provsns. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G503. Crim Tax Litigatn/Procdr. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G504. IRS Collections. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G505. State and Local Taxation. 2 Credit Hours.**

Issues relating to state and local income, property and privilege taxes form the basis of discussion in this course. Pennsylvania and Philadelphia laws imposing taxes on individuals and corporations are used as a focus for the treatment of the theoretical concepts involved.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G506. Intl Taxation-Inbound. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G507. Intl Taxation-Outbound. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G509. Taxation of Executive Compensation. 2 Credit Hours.**

This course explores the federal income and social security tax ramifications of special techniques designed to compensate executives including the use of non-qualified deferred compensation plans, rabbi and secular trusts, performance unit plans, phantom stock plans, stock appreciation rights, restricted stock, stock options and other arrangements including golden parachute rules and million-dollar deduction limitations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G512. Income Taxation of Estates and Trusts. 2 Credit Hours.**

This course examines the provisions that determine the income tax liability of trusts, estates and their beneficiaries and emphasizes distributable net income, the distribution deduction and issues involving grantor trusts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G513. Estate Planning I. 2 Credit Hours.**

This course addresses issues of accumulation, conservation and distribution of wealth will be addressed in this course. It examines the applicability of various pre and postmortem estate planning tools and techniques including wills, trusts, life insurance and inter-vivos transfers, together with the tax consequences which arise from their use. The generation skipping tax and the valuation problems encountered in planning and administering an estate are studied.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G514. Taxation of Exempt Organizations. 2 Credit Hours.**

This is in-depth study of organizations exempt from federal income taxation and some related subjects. The conditions of tax exemption under Sections 501 to 503 and the various types of organizations granted exemption under these sections are discussed. Particular attention will focus on Section 501(c)(3) entities, the problems of obtaining and maintaining tax exempt status, unrelated business income, and the classification thereof. The taxation of exempt health-care organizations and their for-profit affiliates, and the tax aspects of charitable contributions to exempt organizations - outright gifts, bargain sales, and gifts of partial interests - will also be covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G515. Estate Planning II. 2 Credit Hours.**

This course examines the advanced planning techniques for charitable giving, the generation-skipping tax, qualified and non-qualified employee benefits, private business buy outs and similar transactions, grantor retained trust interests, use of a business as an estate planning tool, life insurance, elderly and disabled persons and divorce and non-traditional relationships. In addition, the drafting of irrevocable trusts (including Crummey powers), shareholder agreements, partnership agreements and valuation techniques, are covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G516. Business and Estate Planning Involving Closely Held Businesses. 2 to 3 Credit Hours.**

This course will address the factors that must be considered in advising the family owners and operators of a business. A case study will provide the basis for discussions throughout the semester. Each week, various aspects of the planning problems confronting the hypothetical family owners and operators will be explored and potential solutions plotted. The seminar has been designed to provide insight into the interrelationship of various areas of substantive law and the conflicting needs and agendas of the members of our hypothetical family. The substantive areas that will be examined in detail will include: form of business entity; business prerequisites; buy-sell arrangements; transfers to family members; control and operational issues; family investments outside the business; valuation of the business; and family personality dynamics.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600 and (MLTX G513 or MLTX G803)

**MLTX G518. Introduction to Tax and Legal Reasoning. 1 to 3 Credit Hour.**

This course will introduce students to the principles, policies, and structure of the federal income tax system. It covers basic concepts of federal income taxation by studying the Internal Revenue Code, Treasury regulations and sub-regulatory pronouncements, and the judicial opinions, (decisional law) of different courts. Students will examine these authorities in the broader context of the structure of federal government, which informs their relative power and how they interact. Students will develop a foundation of core federal income tax law principles by asking: What is the item? (Does an item of receipt or increase in value constitute income or does an item of expenditure or loss constitute a deduction?) Who is the taxpayer? How is the item of income or deduction characterized? When was the income realized or the deduction allowed? Students will appreciate that the tax Code provides both a source of revenue collection and authority for government to make appropriations to address federal economic and social policy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G520. Real Estate Taxation. 2 Credit Hours.**

In this course, students explore the tax considerations of acquiring, constructing, owning, leasing and disposing of real estate for business use, personal use or as an investment and as a tax shelter. Financing techniques, sale-leaseback transactions, cooperatives, condominiums, certified historic structures, and real estate investment trusts are covered. Emphasis is given to the analysis of tax and economic projections.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G521. Taxation/Partnerships. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G524. Business Planning. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G525. Qualified Employee Benefit Plans. 2 Credit Hours.**

Students will analyze both the tax and non-tax aspects of qualified pension, profit-sharing and stock bonus plans. Particular emphasis is placed on the effect of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, on such plans. Consideration is given both to designing and drafting new plans and to amending existing plans to conform to the law. Filing and disclosure requirements, fiduciary liability and responsibility, and prohibited transactions are also covered. This course examines the consolidated return regulations in detail. The consequences of filing such returns and the effect on net operating losses, basis, intercompany transactions, excess loss accounts and the acquisition, disposition or liquidation of a member of a consolidated group are studied. The course also examines other problems which face affiliated groups of corporations even when they do not file consolidated returns.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G526. Welfare Benefit Plans. 2 Credit Hours.**

This course will cover tax issues employers encounter in providing benefits to their employees. Topics will include tax issues affecting medical, disability, severance and life insurance benefits; tax issues affecting funded welfare plans (such as VEBA's); cafeteria plans; COBRA/HIPPA and other legislation affecting medical plans; coordination of benefits issues including Medicare Secondary Payor rules; and Subrogation rules and other administrative issues.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G527. Tax-Affiliated Corporations. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G528. Civil and Criminal Tax Penalties. 2 to 3 Credit Hours.**

This course will focus on civil penalties and criminal sanctions which the Internal Revenue Service may pursue against a taxpayer as well a tax professional (including attorneys; accountants; and real estate, art, and business valuation appraisers) for running afoul of obligations mandated by the Internal Revenue Code and related statutes.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600.

**MLTX G529. Tax Practice from the In-House Perspective. 1 to 4 Credit Hour.**

It is more common than ever for the modern corporation to participate in global markets. The in-house tax practitioner must be comfortable identifying and addressing a broad range of tax issues across the globe. These include indirect taxes, transfer pricing, new international regimes and foreign local practice. The in-house tax practitioner also needs a command of issues at the intersection of tax and business, such as tax operations and tax reporting on financial statements. This course gives students familiarity with concepts and terminology relevant to in-house practice, allowing students to prepare for and assess the desirability of an in-house career or to interact more effectively with in-house practitioners from a position at a law firm, accounting firm or in government.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0600 or MLTX 0501)

**MLTX G531. Tax Procedure. 2 Credit Hours.**

Students explore various procedural problems involved in practice before the Internal Revenue Service, the Tax Court and the U.S. District and Claims Courts in processing and litigating civil tax cases as well as certain other matters. The organization of the Internal Revenue Service, requests for rulings and the summons power of the Internal Revenue Service also will be reviewed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G534. State and Local Tax Controversy. 2 to 3 Credit Hours.**

This course will examine state and local tax controversies, including audits, administrative and judicial appeals, and important constitutional challenges related to state and local taxes. The first half of the course will focus on managing a state tax audit examination and challenging an audit assessment through the appeals process. Students will analyze common corporate income tax and sales and use tax issues raised in audit examinations. They will also learn the benefits of voluntary disclosure agreements and amnesty programs as options for coming into compliance with state and local tax filing obligations. The second half of the course will focus on constitutional challenges to current state and local tax issues, including issues related to the Commerce Clause, Due Process Clause, Equal Protection Clause, Supremacy Clause and even the First Amendment, which can weave its way into state and local tax cases. This half of the course will also address the prospectivity, retroactivity and remedy that occur once a tax is found to be unconstitutional. Towards the end of the course, students will apply what they have learned throughout the semester in a mock administrative hearing.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0600 (may be taken concurrently)

**MLTX G539. Adv Corporation Taxation. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G540. Adv Partnership Taxation. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G547. Compliance and Penalties. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G548. Tax Treaties. 1 to 4 Credit Hour.**

Tax treaties not only determine what income is subject to tax in a jurisdiction, but they also shape economic decisions and multinational structures. This course will discuss the benefits provided by, and the policies underlying, the US income tax treaty network and provide a framework for analyzing who is eligible for those benefits.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0935 (may be taken concurrently) or MLTX G571 (may be taken concurrently))

**MLTX G549. Business Intelligence. 1 to 4 Credit Hour.**

Data is a core building block of modern organizations; transforming data into information and knowledge enables firms to improve tax compliance and make better planning choices. In this course, students learn best practices for acquiring, assessing, and analyzing data to solve tax-related problems. Students gain hands-on experience with these concepts through case studies and exercises utilizing various hands-on access to technology. Students will also gain skills in understanding the principles of transaction-oriented data, and how information is stored and retrieved from a data source, apply data mining and business intelligence techniques to solve tax-related problems, and understand and select appropriate data visualization techniques to effectively communicate results.

**Class Restrictions:** Must be enrolled in one of the following Classes: Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0600 or MLTX G518)

**MLTX G570. Legal Accounting. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G571. International Taxation. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G572. Intl Tax II: Joint Ventures. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G591. Social Legislation: Law and the Elderly. 2 to 3 Credit Hours.**

This course examines the specific programs and the implications of social politics and principles that affect the elderly. Topics to be considered include public entitlements/benefits programs, income maintenance, health care, guardianship and long term care.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G641. Taxation II. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G651. Accounting for Income Taxes. 2 to 3 Credit Hours.**

Accounting Standards Codification (ASC) 740 is the 2009 codification of Generally Accepted Accounting Principles regarding income taxes. It covers fundamental issues such as how to measure income tax expense each period, how to report the difference between the amount shown as income tax expense on the income statement and the amount of income taxes actually paid based on taxable income, and how to evaluate and reflect tax positions that may or may not be sustained upon examination and subsequent appeal or litigation. This course introduces ASC 740 and provides students with foundational knowledge about preparing and analyzing the financial statement accrual of income taxes considering the applicable accounting standards, tax laws, and financial statement presentation principles for tax expense, deferred taxes, and footnote disclosures. In particular, students will learn about temporary differences, deferred taxes, taxable income, valuation allowance, uncertain tax positions, interim reporting, international tax, and other relevant topics.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Course Attributes:** ANON

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in JUDO 0511.

**MLTX G801. Intro Employee Benefits. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G802. ERISA/Fiduciary Provisions. 2 to 3 Credit Hours.**

This course will focus on the fiduciary and investment management considerations for employee benefit plans under ERISA, primarily on Title I, Part 4 of ERISA.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G803. Estate Planning I. 3 Credit Hours.**

This writing seminar addresses issues of accumulation, conservation and distribution of wealth will be addressed in this course. It examines the applicability of various pre and postmortem estate planning tools and techniques including wills, trusts, life insurance and inter-vivos transfers, together with the tax consequences which arise from their use. The generation skipping tax and the valuation problems encountered in planning and administering an estate are studied.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G804. Tax Provsn Corp Acquistn. 2 or 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G805. Drafting and Analyzing Fundamental Estate Planning Documents. 2 to 3 Credit Hours.**

Students will learn to draft fundamental estate planning documents (wills, trusts, financial and health care powers of attorney and beneficiary designation forms) against the background of state property law, financial institution contracts and the state (and, sometimes, federal) laws concerning testamentary and non-probate distributions.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G806. Orphans Court Pleading and Trial Practice. 2 to 3 Credit Hours.**

This course will cover both petition and accounting practice, and trial practice in the Pennsylvania Orphans' Courts with special attention to will contests. The students will study state and local rules and case law in areas most commonly litigated in the Orphans' Court and will: 1) draft a series of pleading practice documents, 2) learn about the various phases of a trial, and 3) practice their skills in a courtroom setting.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G807. Professional Conduct in Tax Practice. 3 Credit Hours.**

In this course, a student will take a focused look at how professional-conduct norms apply in specific contexts of tax practice.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G860. Employee Benefits Tax Policy. 1 to 3 Credit Hour.**

This seminar examines federal income tax policy as it relates to selected aspects of employee benefits and enables students to explore the social and economic choices that underlie the tax system.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G995. Internatnl Tax Planning. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**MLTX G998. Tax Research and Writing. 1 to 4 Credit Hour.**

Tax practice, unlike subjects grounded on common law, proceeds from statute with distinct contributions from the executive and judicial branches, weaving an intricate web. Taxpayers must self-report, and most taxes are self-assessed. Tax has special professional-conduct rules and penalties. These differences affect how practitioners research, interpret, analyze, and write about tax law. This course focuses on those skills, including consideration of research resources and authorities unique to tax law, and modes for interpreting and analyzing tax authorities. While methods for good writing apply whatever is the content one seeks to explain, the course focuses on some formats and difficulties that are particular to tax practices. The work skills and methods covered are applicable to tax practice generally and specialized knowledge of any practice area is not assumed.

**Class Restrictions:** Must be enrolled in one of the following Classes: Second Year Law Prof, Third Year Law Prof, Fourth Year Law Prof, Law LLM.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate, Law.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of D in (JUDO 0600, MLTX 0501, MLTX G518, JUDO C600, or JUDO J600)

## LLM Trial Advocacy (MLTA)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MLTA 0500. Orientation. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0501. The Art of Advocacy. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0502. Expert Witnesses. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0503. Evidence/Trial Lawyers. 1 to 3 Credit Hour.**

This course reviews evidence fundamentals, advanced evidence concepts, and the use of the Rules of Evidence as tools for both the new and the accomplished litigator. Special emphasis is placed on developing an enriched understanding of the rules and their application, as well as cutting edge topics such as evidence rules applied to young children, electronically stored information, and forensics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLTA 0504. Speechmaking. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0505. Litigation Strategy. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0506. Lecture Series. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0507. Pretrial Strategy & Discovery. 5 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLTA 0508. The Jury Trial. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Law Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Management Information Systems (MIS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MIS 5001. Information Technology Management. 1 to 3 Credit Hour.**

Organizations that strategically select, manage, and deploy digital business models prosper in the global economy. Students will use systems and business process thinking to create and analyze strategies for technology-enabled organizational and industry transformation. They will propose innovative solutions for new and existing business initiatives to leverage enterprise, consumer, and social technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5101. Business Intelligence. 3 Credit Hours.**

Data is a core building block of modern organizations; transforming data into information and knowledge enables firms to compete effectively. In this course, students learn best practices for acquiring, assessing, and analyzing data to solve business problems. Students also learn the technologies that comprise an organization's information infrastructure. Students gain hands-on experience with these concepts through case studies and exercises utilizing various hands on access to technology. Students will also gain skills in understanding the principles of transaction-oriented data, and how information is stored and retrieved from a data source, apply data mining and business intelligence techniques to solve specific business problems, communicate analysis results back to management for ongoing quality assurance and process improvement, understand and select appropriate data visualization techniques to effectively communicate results.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5102. Process Improvement and Innovation. 3 Credit Hours.**

An information system is only valuable to an organization when it enables and supports a useful business process. Students learn to assess, design, and analyze processes that foster innovation. Core concepts include designing effective solutions, identifying metrics for assessment, and communicating plans to management. Students apply these skills through analysis of business problems for actual firms. Throughout the course, students will gain a deeper understanding of the role of process in the functioning of an organization and how to innovate around that process by redesigning workflows and matching requirements with organizational systems. Students will also be able to identify key stakeholders and learn the fundamentals of project management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MIS 5001, MIS 5302, or MIS 5402)

**MIS 5104. Network Centric Applica. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5105. Emerging Technologies. 3 Credit Hours.**

This seminar reviews emerging technologies that will prepare students to effectively leverage new technologies to create business opportunities through innovation. The specific topic of this course varies by semester to accommodate new trends and technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5108. Digital Business Strategy. 3 Credit Hours.**

Information Technology leadership is a critical function in organizations. This course teaches the skills of effective technology strategists. Students develop the business case for new technology initiatives, evaluate the success of existing initiatives and develop plans for technology-enabled organizational change. Through a series of case study analyses, students develop technological and organizational skills required of IT leaders.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MIS 5001, MIS 5302, or MIS 5402)

**MIS 5109. User Experience Design. 3 Credit Hours.**

Today the user experience is the whole system; it is the interface and the experiences that define success, the code and business model are often secondary. Users only bother with activities that are obvious, simple, and pleasing. Perhaps the most challenging and interesting part of digital is the user experience (UX). This course focuses on understanding, evaluating, and designing user experiences. In the context of practical projects, we will learn the human, social, organizational, business model, and technical aspects of UX design. The goals of this course include understanding the role of usability and design principles, evaluating user experiences, and building a complete user experience using innovation to achieve the UX goals.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5112. Business Design and Innovation. 3 Credit Hours.**

Digital business opportunities are no longer limited to the technology itself; they also include the experiences and ecosystems around them. To succeed in this new economy, today's leaders require a broad set of skills that incorporate creative thinking and innovation. Students will learn the tools and methods of Business Design to address real-world business problems. They will apply design inquiry techniques to craft original solutions to a series of practical scenarios.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5121. Enterprise Resource Planning Systems. 3 Credit Hours.**

This course introduces students to the essential concepts of an Enterprise Resource Planning (ERP) system including business processes, security, audit, and control functions. The course looks at how a business' key transactions are executed and how business process operational risks are accounted for and controlled in an ERP environment. Information system and accounting controls to assure confidentiality, integrity and reliability are examined. Finally, the course looks at how transaction processing data is transformed into data for management analysis and financial reporting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5122. Enterprise Architecture for IT Auditors. 3 Credit Hours.**

This course teaches students about the technology concepts and components that are critical for IT auditors to understand. It uses an enterprise architecture framework to introduce students to business data, computer applications and infrastructure necessary to supporting operational business processes. The course introduces students to computer networks, operating systems, servers and applications with a focus on using the command line to audit and identify vulnerabilities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5163. Sys Anal/Rapid App Dev. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5170. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 5182. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 5190. Special Topics in MIS. 1 to 6 Credit Hour.**

Special topics in current developments in the field of information systems are covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 5201. IT Audit Process. 3 Credit Hours.**

This course introduces students to the essential concepts of IT auditing. Students will learn standards and guidelines for performing an IT audit. Topics will include concepts of internal controls. Students will learn to plan and manage an audit as well as how to report on evidence collected during the audit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5202. IT Governance. 3 Credit Hours.**

This course examines the principles of IT governance and management. Understanding IT governance and operations are an integral part of enterprise governance. Effective governance and management of IT consist of leadership, organizational structures and processes that ensure that IT operations sustain and extends the enterprise strategy and objectives. Topics includes IT frameworks, standards, policies, procedures, organizational structures, enterprise architecture, risk management, IT and cyber security management, protection of assets, maturity models, laws, regulations, IT resource management, IT service acquisition and management, quality management and IT performance management. Student will have hands-on experience in exercising IT governance and management and apply topics learned to auditing and risk assessing real organization's policy, procedures, structure and processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5203. Systems and Infrastructure Lifecycle Management 1. 3 Credit Hours.**

This course examines how an organization plans, designs, builds, implements and maintains information systems within an environment of IT risk management and control. Topics include information feasibility and business case assessment, requirements analysis, system design, project planning, IT risk management, development versus acquisition tradeoffs, maintenance support and return of investment analysis to assure technologies deliver value and support the organization's business objectives.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5205. IT Service Delivery and Support. 3 Credit Hours.**

Learn how the operational aspects of an IT organization deliver on the value proposition of the organization. Learn about the technical infrastructure and how this infrastructure provides a reliable and secure platform for applications. Learn about service center management and how these teams are utilized to deliver value to the organization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MIS 5201.

**MIS 5206. Protection of Information Assets. 3 Credit Hours.**

Information is an organization's most precious asset. Inadvertent disclosure of sensitive information, loss of data integrity and availability of information can have significant operational and financial impact on the organization. In this course students learn to apply COBIT and the NIST Risk Management Framework to recognize and manage risks facing information assets of the organization through mitigating controls including logical, physical, and administrative IT security; and business continuity, disaster recovery and contingency strategies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5208. Data Analytics for IT Auditors. 3 Credit Hours.**

This course introduces students to the use of data in the detection and prevention of financial fraud and the detection of cybersecurity threats and attacks. This class relies heavily on data analytics to examine datasets produced by audit and security controls (for instance, network log files). Basic data analysis concepts are presented and then applied to security or audit problems. Audit-specific and more general business intelligence tools will be used to help students better understand the analytics process.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5211. Ethical Hacking. 3 Credit Hours.**

This course introduces students to the hacking strategies and tactics used by ethical or "White Hat" hackers. Methods of vulnerability exploitation to be used primarily in the process of Security Penetration will be explored in theory and in hands on exercises. The course will require simple programming using Open Source scripting languages and hacking tool kits. For that reason some knowledge of and experience with computer programming is required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5212. Penetration Testing. 3 Credit Hours.**

This course introduces students to Penetration Testing. Methods of vulnerability assessment and exploitation are examined as a means of identifying areas requiring improved security and recommended changes. The ethical, business governance and legal implications of penetration testing are examined. Specific techniques are examined in detail with the intent of giving the students a practical understanding of how Penetration Tests are conducted and laboratory-based experience in their actual conduct.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5213. Intrusion Detection & Response. 3 Credit Hours.**

While all businesses work to be as secure as possible, no organization can be completely secure. Preventing attacks, quickly identifying successful attacks, detecting advanced persistent threats and monitoring systems activity in order to deter intrusions can result in significant business benefit. This course examines the variety of tools and techniques used to do this work. This course also examines the process and procedures required for an effective intrusion detection and response through preparation, monitoring, eradication, and compliance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5214. Security Architecture. 3 Credit Hours.**

Examines the methodology by which an organization aligns its business strategy with its security operations. Both the current and desired future states of the business' security efforts are described so that resources can be directed to the security efforts most needed to support the business.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MIS 5206.

**MIS 5215. Operating System Security. 3 Credit Hours.**

This course introduces students to operating system security and tools to secure and audit an organization's computer operating systems. Methods of securing operating systems are explored in theory and through hands-on exercises. The first part of the course focuses on processes used to secure the Microsoft Windows operating system. The second part of the course applies similar techniques to secure the Linux operating system. The course will discuss techniques and tools used to help reduce weaknesses in default installations and configurations of different operating systems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5216. Organizational Forensics. 3 Credit Hours.**

This course provides students with a broad understanding of the investigation of digital data to gather evidence relating to criminal or other legal incidents and events. The class examines how technology and law interact. Lecture and hands-on exercises enable students to gain a practical understanding of: incident response, processing a crime/incident scene and gathering evidence, performing forensics analysis and conducting forensics investigation. This course helps students understand how to respond to computer incidents. Legal issues involved in responding to computer attack are explored, including employee monitoring, working with law enforcement and handling evidence.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5217. Network Security. 3 Credit Hours.**

This course introduces students to network architectures, network security concepts, threats and the methods used to protect network communication, which determine an organization's "Security Posture". Students will perform an in-depth examination of the OSI model and TCP/IP protocol in order to understand the technologies behind protecting network communications (firewalls, routers, switches, virtual private networks, intrusion prevention and detection systems, and highly available architectures). With this fundamental understanding of network communication, students will explore the inherent vulnerabilities related to network communications and the challenges of implementing an enterprise security architecture that aligns with business goals, IT strategy, and Governance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MIS 5206.

**MIS 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MIS 5001.

**MIS 5287. Business Skills for ITACS Professionals. 3 Credit Hours.**

In this course students practice a variety of business skills that are necessary to be effective as an IT auditor. These skills include managerial communications and public speaking skills, interviewing skills, negotiation and personal selling skills, business writing, industrial psychology/behavioral science skills, project/time management and team building skills. The course is delivered through a series of workshops and simulations and include observations of business practices at host IT companies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5411. Business Intelligence and Data Visualization. 3 Credit Hours.**

The first part of this course will focus upon the strategic role of information technology from the perspective of a non-technical manager. Key topics include IT strategy, systems thinking, disruptive innovations and digital transformation, digital business models, cybersecurity, cloud computing, IT governance and ethics. The second part of this course follows completion of an Excel module, and will explore the principles of data literacy and analysis through tools that enable turning data into insight through analysis and visualization. Students will also learn to evaluate visualizations by applying key principles of presenting data effectively.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5603. Social Media Innovation. 1.5 to 3 Credit Hour.**

In Social Media Innovation, students will review concepts and principles related to social and digital media. Through a combination of readings, discussion, presentations and projects, we examine (i) why social media is often a crucial channel for business success; (ii) how organizations are and should be using social media to achieve their goals; and (iii) the role of centralized, decentralized, and crowd-sourced information online. At the end of the course students will have gained deeper knowledge on understanding the tenants of social business governance, be able to analyze how modern marketers navigate the major platforms, explore social media listening and data management best practices, and identify approaches for successful social media campaign planning and implementation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5651. Digital Innovation in Marketing Capstone. 6 Credit Hours.**

In this fully immersive, experiential capstone, students will design and measure the efficacy of a digital marketing strategy across multiple channels, evaluate the suitability for new digital marketing technology such as mobile apps, and manage a portfolio of digital marketing assets such as mobile apps, websites, social media and others. Students will design a fully formed digital marketing campaign around their own team generated idea. Students will spend the semester applying knowledge gained in all previous coursework including building the collateral, analyzing data, developing a UX - culminating in one final presentation of their work.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5687. Business Skills for ITACS Professionals I. 1.5 Credit Hour.**

In this course students develop and practice a variety of business skills that are necessary to be effective as an ITAC professional. These skills include managerial communications and public speaking skills, interviewing skills, negotiation and personal selling skills, business writing, industrial psychology/behavioral science skills, project/time management, leadership and team building skills. The course is delivered through a series of workshops and simulations that enable students to practice leadership, team building, and management communications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5688. Business Skills for ITACS Professionals II. 1.5 Credit Hour.**

In this course, you will increase the business and interpersonal skills necessary to be a competent and successful ITACS Professional. These skills build upon those covered in the previous semester as students learn how to improve their responsive listening skills, achieve intention in communication, clarify their roles as leaders in decision making contexts, build teams, improve their writing effectiveness in IT auditing and security reports and assignments, and build credibility in the ITACS professions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5801. Managing Information in the Enterprise. 3 Credit Hours.**

This course provides an introduction to the strategic role of information technology in today's digital centric world. You will learn how to apply systems thinking to analyze and understand organizational IT strategy and usage. You will also learn how to apply theories of innovation to analyze the disruptive potential of technology. Organizations that strategically select, manage, and deploy digital business models prosper in the global economy. Students will use systems and business process thinking to create and analyze strategies for technology-enabled organizational and industry transformation. They will propose innovative solutions for new and existing business initiatives to leverage enterprise, consumer, and social technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 5901. Capstone in Information Technology. 3 Credit Hours.**

Open only to M.S. in MIS students who must have completed all 4 core courses and 2 electives. For this capstone experience, students select a topic in their area of interest and write a research paper or implement an information system.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5902. IT Auditing Capstone. 3 Credit Hours.**

This is the final course of the ITACS IT Auditing track. This course has two purposes. First, students are guided through an in-depth review of what they learned in prior courses of the track, with emphasis on mastering key points of the five Certified Information Systems Auditor (CISA) knowledge domains while preparing for the CISA exam. Second, students work on a project focused on integrating what they have learned through research of an emerging topic in the field of IT assurance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 5903. Cyber Security Capstone. 3 Credit Hours.**

This is the final course in the ITACS Cyber Security track. This course has two purposes. First, students are guided through an in-depth review of what they learned in prior courses of the track, with emphasis on mastering key points of the eight Certified Information Systems Security Professional (CISSP) knowledge domains while preparing for the CISSP exam. Second, students work on a project focused on integrating what they have learned through research of an emerging topic in the field of IT assurance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 9001. Qual & Interpret Meth-IS. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 9002. Inf Sys Found & Theory. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 9003. Foundations of Electronic Commerce Research. 3 Credit Hours.**

This course offers an overview of electronic commerce research in the domain of Information Systems (IS). An impressive body of work on electronic commerce has developed over the last two decades in IS research, and this course aims at reviewing and integrating this large body of research toward identifying gaps in the literature and proposing new opportunities for research that students can pursue as part of independent research projects. This course overviews the electronic commerce literature in IS research under a framework based on the main entities involved in electronic commerce - businesses and consumers that interact with the aid of Internet technologies, resulting in three broad research areas - (1) Business to Consumer (B2C), (2) Consumer to Consumer (C2C), and (3) Business to Business (B2B). These three broad research areas are further categorized into sixteen specialized topics and sub-areas, which help summarize the literature and integrate the body of work.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 9004. Adv Research Methods-IS. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MIS 9011. Proseminar in Management Information Systems. 1 to 3 Credit Hour.**

This course is required for all first year PhD in Business Administration - MIS students. It offers an overview of electronic commerce research in the domain of Information Systems (IS) under a framework based on the main entities involved in electronic commerce - businesses and consumers that interact with the aid of Internet technologies, resulting in three broad research areas - (1) Business to Consumer (B2C), (2) Consumer to Consumer (C2C), and (3) Business to Business (B2B). These three broad research areas are further categorized into sixteen specialized topics and sub-areas, which help summarize the literature and integrate the body of work. An impressive body of work on electronic commerce has developed over the last two decades in IS research, and this course aims at reviewing and integrating this large body of research toward identifying gaps in the literature and proposing new opportunities for research that students can pursue as part of independent research projects.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Business Administration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School, Sport Tourism Hospitality Mgt.

**Repeatability:** This course may be repeated for additional credit.

**MIS 9090. Contemp Topics & Res-IS. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MIS 9183. Directed Study in MIS. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for additional credit.

## **Management Science/Operations Management (MSOM)**

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MSOM 5001. Operations Management. 1 to 3 Credit Hour.**

The "operations" function is the core of any organization, where inputs such as labor and technology are converted into goods and services. The course provides a survey of several diverse operations topics that are central to both the manufacturing and service sectors of the economy, such as forecasting, inventory control, quality management, production planning, and supply chain management. The emphasis of the course is to apply quantitative models to effectively design and control these operational systems. Software is extensively used to support the operations analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (STAT 5001, STAT 5401, or STAT 5301)

**MSOM 5107. Lean, Six Sigma, and the Science of Improvement. 3 Credit Hours.**

This course provides an outstanding opportunity to learn the basic concepts of improvement science and offers exposure to key tools used in the science and art of improvement. The tools of quality and improvement science are explored, and the student has an opportunity to practice with the tools.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 5108. Project Management. 3 Credit Hours.**

This course follows a life-cycle approach to managing projects, beginning with project initiation concerns and ending with project termination. Project planning and scheduling are given the most emphasis, making use of the PERT and CPM approaches. A course project is required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 5111. Optimization Methods. 3 Credit Hours.**

This course covers optimization models, methods, and software applied to solve business problems focusing on models and methods used in computational finance, ranging from asset allocation to risk management, from option pricing to model calibration. Students gain an understanding of linear, quadratic, integer, dynamic, and stochastic programming methods and the tools for implementing these models in practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 5156. Logistics and Supply Chain Management: Tools, Strategy, and e-Business Issues. 3 Credit Hours.**

One objective of this course is to apprise students of the e-impact on supply chain management (SCM) and, conversely, on how SCM is growing more important as more organizations embrace e-business. The overarching objective, though, is that through this introduction to and survey of the field, students learn what today's issues in logistics and SCM are and how they are treated. That is, the students are expected not only to grasp what typical logistics and SCM problem areas are, but also to become familiar and competent with some of the analysis tools that managers use to address these problems. This course will be taught online.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 5170. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 5175. Multi-Criteria Decision Analysis. 3 Credit Hours.**

Decision-making processes and techniques emphasize that solving problems often entail conflicting criteria. Approaches to incorporating and resolving this conflict are presented.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 5182. Independent Study. 1 to 6 Credit Hour.**

Special study in a particular aspect of operations research, under direct supervision of a graduate faculty member. No more than six semester hours of independent study may be counted toward degree requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 5190. Special Topics - MSOM. 1 to 6 Credit Hour.**

Content varies by semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 5282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 5806. Managing Operations in the Enterprise. 3 Credit Hours.**

This course entails the study of decision-making techniques applicable to operations in both service and manufacturing enterprises. These techniques are examined as they apply to both traditional organizations and those in the dynamic world of new technology and e-business. The techniques are applied in areas such as supply chains, quality management, capacity planning, and resource allocation. Software is used to help students apply these techniques in course projects related to the workplace.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (STAT 5801 or STAT 5001)

**MSOM 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 5890. Special Topics. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSOM 9101. Continuous and Nonlinear Optimization Methods. 3 Credit Hours.**

This course will aim to introduce the basic principles of Continuous Non-Linear Optimization and Optimal Control Theory. Some related Non-Linear Optimization and Optimal Control Theory papers (either existing paper or new idea) will be presented by students after lectures.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 9102. Linear and Discrete Optimization. 3 Credit Hours.**

We will introduce linear programming and integer programming methods in this course. This course will cover how to model large-size problems using linear programming and integer programming and solve them using solvers such as CPLEX. In this course, we will also discuss various research papers with applications of linear programming and integer programming models. This class will also cover the theory and applications of combinatorial optimization. We will introduce graphical and network modeling of problems in transportation and distribution, facility location, communication, scheduling, and staff assignment. Topics include minimum cost spanning trees, the greedy algorithm and matroid theory, network flows, maximal matching, vehicle routing algorithms, computational complexity, total dual integrality, and polyhedral combinatorics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 9103. Combinatorial and Discrete Optimization. 3 Credit Hours.**

This class will cover the theory and applications of combinatorial optimization. We introduce graphical and network modeling of problems in transportation and distribution, facility location, communication, scheduling, and staff assignment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 9104. Stochastic Modeling and Optimization. 3 Credit Hours.**

This class will introduce students to the modeling of stochastic, or random, phenomena and the application of these models to problems in operations and supply chain management. Topics include Poisson processes, binomial and exponential distributions, Markov chains and their applications (in particular to queueing theory), as well as Markov renewal theory and continuous-time Markov processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 9105. Fundamentals of Supply Chain and Operations Management Theory. 3 Credit Hours.**

This is a course on quantitative models and the analysis and optimization of operations and supply chains. Mathematical models designed to support operational designs in production, inventory, service and supply chain will constitute the core of this course. Topics covered include: (1) deterministic inventory model, (2) stochastic inventory model, (3) supply chain coordination and contracting, (4) model of strategic customers, (5) queueing economics, (6) platform and two sided markets, (7) behavioral decision making, and (8) model of social interaction. The course will also pay particular attention to emerging new methodologies and emerging applications in supply chain, e-commerce, innovative marketplaces and platforms, and sharing economy. This course aims to introduce students to the analytical methods required to conduct analytical research in the above area comprehensively and precisely. It provides essential tools and skills for both future technically oriented business analysis, as well as research in supply chain management.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSOM 9106. Dynamic Programming: Theory and Its Applications. 3 Credit Hours.**

In this course, students will learn how to formulate a sequential decision making problem as a dynamic program. They will learn the classical methods to solve finite-horizon and infinite-horizon dynamic optimization problems. For many dynamic optimization problems whose optimal solutions cannot be easily obtained or practically implemented, we will introduce some useful heuristic approaches, such as value function approximation and model predictive control. For cases when decision makers have incomplete knowledge of the system, students will learn some powerful joint learning and optimizing heuristics, such as upper confidence bound algorithm. We will cover several applications of dynamic programming throughout this course, such as revenue management and pricing, and inventory control. This course aims at preparing students to do research in dynamic programming and its related areas, such as reinforcement learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Marketing (MKTG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MKTG 5001. Marketing Management/Strategy. 3 Credit Hours.**

This course is designed to provide students with an understanding of how firms develop marketing strategies to create and manage the creation of meaningful offers that are valued by consumers for the purpose of developing and maintaining customer relationships. Initially, we will address the evolution of market systems at the macroeconomic level and the role that marketing plays in bridging the gap between the production and consumption sectors of the economy. Subsequently, we will explore how firms develop strategies to create customer value through product management, pricing, marketing channels, supply chain management, customer relationship management and communications directed to buyers and also develop an understanding of how buyers acquire, consume and dispose of these goods and services.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5101. Consumer and Buyer Behavior. 3 Credit Hours.**

Use of concepts from the behavioral sciences for identifying market segments, predicting customer response to alternative marketing strategies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001, (MKTG 5401 and MKTG 5402), (MKTG 5301 and MKTG 5302), MKTG 5303, or MKTG 5403)

**MKTG 5103. Marketing Research: Techniques and Application. 3 Credit Hours.**

Basic approaches to planning, collecting, analyzing, and communicating information from the marketplace. Techniques and applications for specific marketing areas.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in STAT 5001 (may be taken concurrently)

**MKTG 5104. Marketing Strategy. 3 Credit Hours.**

Marketing Strategy provides an executive viewpoint of integrated marketing concepts, including: market analysis, segmentation, targeting, and positioning, and the 4Ps (product, price, promotion, and place). Students learn to apply both strategic and tactical elements of these marketing concepts, integrate these into financial models, and make decisions in realistic environments in order to maximize long term firm value. This course emphasizes skills and experiences in analyzing a business' situation and formulating, implementing, and monitoring marketing strategy in a competitive environment. In particular, students will be able to select segments in which to compete, develop meaningful points of differentiation and positioning statements, think critically about product design, set prices in a variety of situations, deal with distribution and channel issues, and understand promotion strategies. There is a heavy emphasis on the link between marketing decisions and financial outcomes, as well as on communicating results of analysis to upper management. Note: Prior to fall 2017, the course title was "Managerial Decision Strategies in Marketing".

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5107. Product Management. 3 Credit Hours.**

This course examines the analytical, decision making, and planning concepts and tools available to market, product, and brand managers. Specific decisions to be addressed include: product policy, policy formulation, the selection of product market strategies, new product development, product-line modification, and organizational implications. Emphasis is placed on discussion of cases and relevant readings. Because of the heavy emphasis on interaction, regular and frequent participation will be expected.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5108. Data and Financial Driven Marketing. 3 Credit Hours.**

Data and Financial Driven Marketing provides students with an opportunity to analyze data and to recommend business plan implementations of product and commercialization tactics. The class provides a framework for choosing and applying a variety of data and financial analysis driven marketing techniques. The course covers basic methods for determining market level demand, forecasting and pricing models, promotions optimization allocation models, and other elements of ROI/ROMI analysis. The course utilizes CRM and other sources of marketing data base analysis to drive ROI/ROMI forecasts and then uses analyses to discriminate between strategic and tactical alternatives. This course also leverages financial analysis frameworks for customer identification/development, acquisition, satisfaction and retention and for strategy recommendations. Course concepts will be applied to a variety of marketing strategic decisions in both B-2-C and B-2-B situations, including segmentation, targeting, positioning, value proposition determination, new product development, branding, CRM/Loyalty programs and pricing strategies. Note: Prior to fall 2017, the course title was "Data-Driven Marketing."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5109. Mobile Marketing and Communications. 3 Credit Hours.**

Mobile devices are becoming the main means of communication and have expanded beyond talking, texting, emailing, video streaming/sharing and surfing the web. Mobile now serves as an intimate, transactional and social connector to consumers - making it a highly desirable communication vehicle for marketers. In this course, students develop a strong knowledge of mobile marketing and communications and apply this new knowledge in the development of a mobile marketing communications plan. Marketing and communication strategies/plans are developed with mobile devices in mind first followed by all other communication vehicles i.e. OOH, direct mail, TV, radio, social, search, print, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5111. Customer Data Analytics. 3 Credit Hours.**

This course introduces students to methods for analyzing data residing in firms' customer databases. It covers methods for creating profiles of customer segments based on their profitability to the firm, estimate individual customers' lifetime values, and demonstrate how this technique has been used by different organizations. The course also reviews statistical concepts and introduces and uses specialized statistical software, which will be used to conduct a variety of marketing analyses using actual customer databases. Students will acquire skills to construct traditional RFM (recency/frequency/monetary) analyses to maximize response to marketing campaigns. Using these traditional techniques as a foundation, students develop/build more sophisticated models to predict customer response, such as predicting whether a customer will respond to a particular marketing offer (e.g. a direct marketing, mobile marketing, direct mail, etc.). In addition, students construct more advanced models (e.g. logit models, CHAID) to maximize response to marketing campaigns and to compare the effectiveness of alternative models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5118. Marketing MS Capstone. 3 Credit Hours.**

STAM, R&I and EMM students collaborate on a real-world business challenge in the market place. Each student plays a critical role in developing a comprehensive strategic marketing plan. EMM students will own responsibility for accurate segmentation, targeting, positioning, value generation and financial feasibility for a product or product line. STAM students will assess the effectiveness of the same brand's current advertising and communication strategies while guiding EMM and R&I on research that is actionable. R&I students will guide STAM and EMM on sound research planning, survey development, execution, data analysis and identify strategic outcomes. All three disciplines will work together to finalize a commercial grade marketing strategy and plan of tactics worthy of business management approval. All students learn to apply team leadership practices while developing a strategic marketing plan and gaining hands-on experience that can help accelerate a career in their respective fields. Success in this course requires playing an active role through a field research project that facilitates knowledge, skill, and competency in developing a company's product line and robust communication strategy and plan for implementation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5170. Special Topics in Marketing. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5180. Special Topics in Marketing. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5182. Independent Study. 1 to 6 Credit Hour.**

Supervised individual reading and research projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5190. Special Topics in Marketing. 1 to 6 Credit Hour.**

Special topics courses analyze emerging issues or specialized content that are not covered in regular semester courses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5282. Independent Study. 1 to 3 Credit Hour.**

Special study is undertaken in a particular aspect of marketing, under the direct supervision of an appropriate graduate faculty member. No more than six semester hours of independent study may be counted toward degree requirements.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (MKTG 5001 (may be taken concurrently), (MKTG 5401 (may be taken concurrently) and MKTG 5402 (may be taken concurrently)), (MKTG 5301 (may be taken concurrently) and MKTG 5302 (may be taken concurrently)), MKTG 5303 (may be taken concurrently), or MKTG 5403 (may be taken concurrently))

**MKTG 5411. Marketing Management. 3 Credit Hours.**

This course is designed to provide the student with the principles of marketing from the perspective of both buyers and sellers at both the macro (societal) and micro (firm) levels of analysis. Initially, we will address the evolution of market systems (macro level) and the role that marketing plays in bridging the gap between the production and consumption sectors of the economy. Subsequently, we will explore how firms (micro level) develop, price, promote and deliver goods and services to buyers and develop an understanding of how buyers acquire, consume and dispose of these goods and services. Everything that relates to a customer is part of the marketing domain, and the growing demands of stakeholders, news media and data analytics are changing the entire marketing landscape. The key to success for any organization (profit or non-profit) is to optimize how they create and deliver value. Marketing management extends far beyond promotion alone. Promotion is only one aspect of what marketing entails. In short, marketing is about enhancing perceived value of the organization and its products and services to increased willingness to pay vs. competitive offerings. Successful marketing management influences a company's desire and ability to enhance value generation, and thus increase perceived value.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5602. Quantitative Methods in Marketing. 1.5 to 3 Credit Hour.**

This course will emphasize the use and practice of Marketing Metrics: the collection, analysis, and utilization of data for the development of marketing strategies. The course includes the study of data collection, warehousing technologies, marketing information systems, data mining, and customer relationship management. Particular attention is paid to interpretation of quantitative data (marketing dashboards).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 5604. Digital Marketing. 1.5 to 3 Credit Hour.**

This course covers foundational marketing strategy topics within the context of digital marketing innovation. Through the course, we'll look at market research, segmentation and targeting, value proposition development, branding strategies, product development, communications planning, pricing scenarios, and relationship management. Students will gain deeper knowledge of the what, why, and how of digital marketing including online listening and monitoring, search engine optimization, search ads, online promotions and email marketing. The identification of critical success factors and best practices are central to the course, as are methods for analyzing marketing effectiveness. The course focuses on both business-to-consumer (B2C) and business-to-business (B2B) markets.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5605. Digital Innovation in Product Management and Branding. 1.5 to 3 Credit Hour.**

Brands are challenged with meeting the demands of a digital consumer. Now more than ever it's crucial for brands to adapt their current model and embrace marketing through use of data and technology. In this course you will learn how to leverage through the use of data and technology. Topics include developing a brand strategy, the content to support that strategy and how to communicate that content. In this course, students will learn the importance of digital to the overall marketing mix, build a digital brand strategy, develop content that meets the demands of targeted consumers, understand the various distribution platforms for your message and learn how to activate channels into your plans to maximize results.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5606. Digital Innovation in Mobile Marketing and Communication. 1.5 to 3 Credit Hour.**

In this course, students will develop a mobile marketing strategy for different target audiences as well as how to effectively integrate mobile marketing into an overall brand and business strategy. Students will learn how to convert that strategy into an effective campaign using the appropriate mobile tools and finally apply course knowledge to track and measure the effectiveness of digital campaigns. Through a combination of readings, discussion, presentations and projects, students will examine how mobile technologies are changing how we experience media, why a standalone mobile strategy is insufficient, how mobile tools can enhance, expand and transform existing marketing initiatives, how mobile data can help brands more effectively scale their message to new audiences and the ethical and social considerations inherent when personalizing and measuring the consumer experience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5617. Advanced Modalities. 3 Credit Hours.**

This is a mandatory three-credit course in our MS degree program in Marketing Research and Analytics. The course will focus on understanding some of the emerging trends in the marketplace. The course will focus on readings and cases from Harvard Business Publishing. This course uses lectures, exercises, and cases. The lecture portion will introduce concepts, decision frameworks and stimulate discussion. The case assignments offer "real world" experience in analyzing problems and making critical decisions in uncertain environments. This course outlines how companies apply the disciplines of marketing including how social listening fits into an organizational structure, and how to properly respond to social media discussions. Uses industry-leading social media analytics platforms, such as Infegy Atlas, to develop social listening queues for analyzing how customers are talking about specific companies and their products or services. Integrates big data and machine learning and builds upon traditional modalities of data collection by delivering an in-depth understanding of the application of mobile and online techniques and tools in marketing research. Focus on creating and fielding a mobile-specific project, and understanding trends and likely future directions in mobile research. Introduction to online research communities and their most impactful use cases in the research and insights space. Using live hands-on projects focuses on the evolution from merely a faster, cheaper sample solution to a strategic platform for managing continuous conversations with hard-to-reach audiences.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MKTG 5001 (may be taken concurrently)

**MKTG 5618. Quantitative Pricing and Revenue Analytics. 3 Credit Hours.**

The business world is full of examples where companies create great value for their customers, but fail to capture that value in their earnings. A common reason is a failure to integrate their value-creating activities with their pricing decisions. This course provides an in-depth, cross-functional look at the role of price in a firm's value proposition to customers. This course builds upon the foundation in Business Analytics. In previous courses, we saw that data by itself is useless and that it must be transformed into information in order to have value to decision-makers. This course will extend your understanding of the art and science of extracting information from data into increasingly complex and "real world" data. Specifically, we will cover extensions to regression, logistic regression, hierarchical modeling, model selection, and other topics spanning the process of building and evaluating models. In addition, we will practice drawing intuition and insight from models and effectively communicating that insight in a format that can help decision-makers to make better decisions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MKTG 5001 (may be taken concurrently) and STAT 5001 (may be taken concurrently)

**MKTG 5680. Special Topics. 1 to 6 Credit Hour.**

Supervised individual or small group reading, research projects, or experiences based on cutting edge topics in Marketing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 5682. Independent Study. 1 to 6 Credit Hour.**

Supervised individual reading and research projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 5690. Special Topics. 1 to 6 Credit Hour.**

Supervised individual or small group reading, research projects, or experiences based on cutting edge topics in Marketing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 5801. Marketing Management in the Enterprise. 3 Credit Hours.**

Limited to students matriculated in the Executive M.B.A. program. In this course, you'll develop a firmer grasp on the strategic aspects of marketing decisions within the context of the total enterprise. You'll also analyze marketing management practices, organization and decision processes through traditional and internet-based business case studies involving product development, segmentation, pricing, promotion, distribution and implementation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 5882. Independent Study. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 5890. Special Topics in Marketing. 1 to 6 Credit Hour.**

Special topics courses analyze emerging issues or specialized content that are not covered in regular semester courses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 9001. Behavioral Science Seminar. 3 Credit Hours.**

The purpose of this seminar is to provide a solid foundation for critical thinking in the area of consumer behavior. Consumer behavior is interdisciplinary; thus, you will be exposed to theories from a variety of fields. We will discuss the key behavioral theories and focus on how one should think about developing and testing a conceptual model. Further, the course will provide an insight into how to design clever field, lab and online experiments to test your hypotheses. This course is useful for those interested in getting an insight into the key drivers of consumer behaviors, to understand major areas of psychological science as applicable to how people and/or organizations make decisions or to learn more about how to develop and test conceptual models. Specific learning outcomes are: learn about some of the major areas of psychological science as applicable to how people behave; learn how to generate research ideas (relevant for your field) based on the discussed theories; learn how to develop and test conceptual models; improve your ability to present, explain and defend your ideas (and those of others) by giving short but compelling presentations in class; get an insight into how to choose a methodology for your research; and develop your ability to professionally respond to other scholars (and critics) in a tactful but confident manner.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 9002. Seminar on Behavioral Research in Marketing. 3 Credit Hours.**

The major objective of this course is to provide broad coverage of research that has emerged from (largely) psychological approaches to consumer behavior. Among the issues discussed are how people attend to information, how such information is related to prior knowledge, how knowledge guides judgments, how people form attitudes, how people respond to persuasion, how they make decisions, and how emotions affect consumer behavior. The readings cover both classic papers in consumer behavior as well as recent, state-of-the-art research. Thus, you will have a good idea of how the field has developed over the last few decades as well as where it is headed. The emphasis of the course will be on making you strong conceptual thinkers. You will develop critical, analytical, and integrative skills necessary for the conduct of behavioral research. Therefore, it is important for each student to come to class prepared to discuss her/his thoughts about the main ideas, strengths, contributions, and shortcomings of all of the assigned articles.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 9003. Sem-Quant Research-Mktg. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 9005. Seminar in Judgment and Decision Making. 3 Credit Hours.**

This course introduces students to research in the field of Judgment and Decision Making (JDM). In addition to gaining an exposure to this interdisciplinary research area that employs concepts and tools from economics, statistics, as well as the core discipline of psychology, students will also learn to apply these concepts to business problems in management, marketing, operations, accounting, and finance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 9006. Empirical Modeling in Marketing. 3 Credit Hours.**

This is a seminar-based class designed to introduce doctoral students to advanced empirical models and estimation methods. This class addresses models and methods such as brand choice models, hidden Markov models for customer targeting, times series VARX model, marketing mix response model and optimization, machine learning for unstructured text/audio/image data, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MKTG 9011. Proseminar in Marketing. 1 to 3 Credit Hour.**

The Marketing PhD Pro-seminar provides doctoral students with an opportunity to learn about the range of academic research in marketing, and about marketing academic careers. Through critiques of academic research articles and discussions with other students and multiple faculty members, students will gain insights into research process, and the expectations of the marketing academic community. The course assignments and discussions help to build student research capability, and support student development of a research paper proposal on a topic of the student's choice.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Business Administration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Business & Mngmnt, Fox School, Sport Tourism Hospitality Mgt.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 9070. Special Topics in Behavioral Marketing. 3 Credit Hours.**

Special topics courses are developed to cover emerging issues or specialized content and they do not repeat material presented by regular semester courses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 9080. Special Topics in Quantitative Marketing. 3 Credit Hours.**

Special topics courses are developed to cover emerging issues or specialized content and they do not repeat material presented by regular semester courses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 9090. Sem-Sel Topics in Mktg. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MKTG 9183. Directed Study in Marketing. 1 to 6 Credit Hour.**

Directed Study in Marketing

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Master of Liberal Arts (MLA)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MLA 5011. Introduction to Interdisciplinary Studies. 3 Credit Hours.**

This course introduces students to interdisciplinary graduate studies and to cultural analysis by looking at the kinds of questions that can best be answered through an interdisciplinary approach and with various available methodologies. Taking American culture as its primary focus, students read texts in areas such as Visual Culture, American Studies, Women's Studies, and the Arts and Society. Topics include, for example: cultural representations of gender and sexualities, and of race and "whiteness"; the social construction of space and place; technology and its construction of identity; boundaries of culture and consumption (high, low, middlebrow); museums and cultural memory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MLA 5082. Independent Study. 1 to 3 Credit Hour.**

Students who wish to enroll for Independent Study must submit a proposal written under the direction of a faculty member who will supervise the student's work. This proposal must be submitted the semester before the Independent Study is to take place. The proposal should describe the project, indicate a) works to be read, b) frequency of student-instructor meetings, c) student writing to be produced, and d) means of student evaluation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5110. Topics in the Arts and American Culture. 3 Credit Hours.**

This course explores the relationship between the arts and American culture, with an emphasis on how music, literature, and visual arts have reflected social, political, and intellectual concerns. The levels of art, from high to middlebrow to popular, will also be considered, with attention to the cross influences from one to the other, and the question of audience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5120. Topics in Cultural Studies. 3 Credit Hours.**

This course examines topics relating to popular culture, media, and advertising, with an emphasis on how cultural representations reflect social and political interests. The approach embraces various competing disciplines (e.g., literature, anthropology, philosophy) at the intersection of aesthetics and politics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5130. Topics in Visual Culture. 3 Credit Hours.**

An exploration of photography, film, television, and other visual media, in terms of the ways they interpret the world. Some of the issues considered will be: What are the elements of the visual? How are race, ethnicity, gender, and sexuality represented in the media? How do visual media interact with one another?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5140. Topics in Performance Studies. 3 Credit Hours.**

Performance Studies encompasses dance, theater, and mixed media theatrical presentations, from street theater to happenings to public ritual. The course targets specific topics ranging from historical studies to the contemporary.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5150. Topics in Gender Studies. 3 Credit Hours.**

The changing constructions of gender are the subject of this course which will explore such topics as representations of masculinity; feminist theory and the academy; the sexual revolution; society and homosexuality.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5160. Topics in Environmental Studies. 3 Credit Hours.**

This course explores a wide range of environmental issues and the various factors that define those issues, encompassing physical, economic, political, demographic, and ethical considerations. Possible topics include groundwater contamination, suburban sprawl, river basin management, environmental justice, and the greening of abandoned urban spaces. It may also include an examination of the cultural meaning of the environment and its representation in art and literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5190. Topics in Modernism. 3 Credit Hours.**

Modernism was not a single movement but a multiplicity of cultural changes involving issues of perception, identity, memory, culture, and the nature of modernity itself. This course explores the terrain of culture and the arts (e.g., film, art, literature, Cubism, Expressionism, Surrealism) within the context of historical and technological change.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5210. Topics in Political Culture. 3 Credit Hours.**

Public policy has often emerged out of a combination of legal struggle, political negotiation, private wealth, and public interest groups. This course focuses on American political culture, including such topics as civil rights, the conservative right vs. the left, government by plutocracy, national health care, the rights of the poor, and the fate of the middle class.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5220. Topics in Urban Studies. 3 Credit Hours.**

This course explores the way cities have been formed and continue to be formed in relation to parks and neighborhoods, suburbs, and regions. The emphasis is on the way urban culture is shaped through the design of space, architectural form, and through urban planning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5230. Topics in International Studies. 3 Credit Hours.**

After World War II, with the independence of formerly colonial nations, a new world of independent nation states evolved, torn between the pressures of ethnic culture, global communications, and international economies. This course explores issues of cultural identity and cultural conflict, as they surface in literature and film, in global tourism, in efforts at global cooperation and global competition.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 5250. Topics in Science, Technology, and Culture. 3 Credit Hours.**

The impact of science and technology on culture has been pervasive and can be measured in terms of social life and habits, the environment, the arts, and politics. Emphasizing the last hundred years, this course examines some of the more significant changes in science and technology, from the automobile to computers, and explores the ways the individual and society have been redefined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MLA 9995. Master's Project. 1 to 3 Credit Hour.**

This course is to be used for MLA qualifying paper research.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Liberal Arts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Math Education (Elementary) (MAEE)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MAEE 5462. Tchg Math to Child N-6. 3 Credit Hours.**

The purpose of this course is to prepare prospective and beginning teachers to teach reform-based mathematics in early childhood and elementary school settings as suggested in the Principles and Standards for School Mathematics (NCTM, 2000). The intent of the course is to enable prospective and beginning teachers to enhance their mathematical content knowledge and develop pedagogical content knowledge and teacher efficacy. The course will also focus on equity pedagogies (i.e. culturally responsive and culturally specific pedagogies) and teaching for social justice. The course will also stress mathematical thinking and learning by observing video clips of actual classrooms and individual student assessments as well as microteaching of your peers. We explore teaching mathematics in both conceptual and procedural ways with models, manipulatives and advanced technologies to appropriate for teaching mathematics to all children, including underrepresented minority students, linguistically diverse students, and students with learning disabilities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MAEE 5464. C&I in Math Educ N:6. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MAEE 5469. Spec Proj Math Ed. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MAEE 5501. Math/Sci Pedagogy Tchrs. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Math Education (Secondary) (MAES)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MAES 5469. Spec Proj Math Ed. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MAES 5471. Teaching of Mathematics. 3 Credit Hours.**

Methods and models of teaching and assessing mathematics in secondary schools. Key ideas include rigorous instruction for all students, teaching for understanding, eliciting and extending students' mathematical thinking, selecting and using high-quality classroom tasks, and developing effective classroom discourse. Focus on teaching and learning the important secondary content areas of algebra and data analysis, including mathematics modeling and the use of technology in learning these subjects. Problem solving, communication, and mathematical representations and connections are emphasized.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Mathematics (MATH)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MATH 5000. Special Topics in Math. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 5001. Linear Algebra. 3 Credit Hours.**

Vector spaces and subspaces over the real and complex numbers; linear independence and bases; linear mappings; dual and quotient spaces; fields and general vector spaces; polynomials, ideals and factorization of polynomials; determinant; Jordan canonical form. Fundamentals of multilinear algebra.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5003. Professional Development Seminar. 1 Credit Hour.**

This class advances intentional Professional Development by creating an online professional profile and portfolio that allows employers to determine the strength of a student's candidacy for a specific job. Students develop an online professional profile, attend a Professional Development Workshop and write a White paper which demonstrates analytical and technical writing skills on a topic of interest to the student. The White Paper proposes a change in any STEM area where a lack of efficiency in a process, or gap in knowledge, in an area of research, exists. Finally, students organize a networking event by inviting speakers, hiring managers and graduate students in CST.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Prof Science Masters.

**College Restrictions:** Must be enrolled in one of the following Colleges: Science & Technology.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5005. Ethics in Computing. 2 Credit Hours.**

This course will examine the social, legal, and privacy issues applying to scientific data. Students will be given the opportunity to discuss contemporary case studies, in addition to NIH-sanctioned online training modules (Responsible Conduct in Research). The case-study based approach used in class will expose students to ethics of database management and security, open-access and open-source philosophies, the ethics of collecting, storing, and disseminating data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Prof Science Masters.

**College Restrictions:** Must be enrolled in one of the following Colleges: Science & Technology.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5007. Combinatorics. 3 Credit Hours.**

Basic theorems and applications of combinatorial analysis, including generating functions, difference equations, Polya's theory of counting, graph theory, matching, and block diagrams.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5011. Algebra and Functions for Teaching. 3 Credit Hours.**

This class will broaden and deepen our understanding of algebra and functions and their many applications. We will begin with an examination of the concept of function generally and then look at examples. We will consider the usefulness of functions, both in modeling real phenomena and in solving equations. We will carefully develop more advanced concepts from basic principles and logic as we proceed from polynomial functions to rational, radical, exponential, logarithmic, and trigonometric functions. As we do this, we will explore non-traditional teaching techniques and tools such as the practice of inquiry-based learning and the appropriate use of technology. We will also utilize and discuss the eight Mathematical Practice Standards set forth in the Common Core State Standards.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 1042.

**MATH 5012. Introduction to Mathematical Modeling for Teaching. 3 Credit Hours.**

In this course, mathematics will be discussed as the language of science. Many students do not have an adequate picture of mathematics: they see it either as a dry formal list of formulas or a dull study of numbers. Mathematics is in fact a network of intriguing and profound ideas that are deeply connected to reality. As a language, mathematics provides penetrating techniques of thought that allow us to analyze physical reality and to look for answers or solutions to some of the most intriguing real-life questions. Students will be asked to read the material in advance and come prepared for class discussion. The in-class activities will be conducted in an inquiry-minded fashion.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 1042.

**MATH 5013. Geometry for Teaching. 3 Credit Hours.**

This class will provide a deep and complete picture of the underlying concepts needed to teach high school geometry. We'll start by learning about the basic axiomatic method, which is fundamental to all of mathematics. We'll learn about the rigid transformations (reflections, rotations, and translations) and the important role that they can play in defining congruence more generally. We'll finish by looking at some important examples of non-Euclidean geometry, where Euclid's famous parallel postulate does not hold.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 1042.

**MATH 5014. Probability Theory and Applications for Teaching. 3 Credit Hours.**

Probability is a fundamental topic with applications in nearly every aspect of life. The goal for this course is to equip the student with a large and diverse set of tools with which to tackle a wide variety of problems, both theory and application based. We will focus on the ideas behind the important topics e.g. conditioning, averages, binomial distribution, and explain their origins and applications. This will equip the student to teach their own students this material with an emphasis on the "why", which is essential to maintaining attentiveness.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 1042.

**MATH 5015. Modern Algebra for Teaching. 3 Credit Hours.**

Students will understand the integers and polynomial rings over a field as being specific examples of rings. The idea of quotient spaces will be emphasized with the particular examples of the integers modulo  $n$  and factor rings of polynomial rings illustrating and introducing the concept. Moreover, the ability to read and to construct well-written and correct mathematical proofs on these topics is an overarching goal of the course. Written communication skills will also be emphasized.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 2111.

**MATH 5016. Mathematical Analysis for Teaching. 3 Credit Hours.**

This course will start with a discussion of the basic topology of the real line and the creation of the basic tools using the completeness axiom. From there, the course will proceed to sequences and series, limits, continuity, differentiation, Riemann integration, and Taylor series representations of functions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 2043.

**MATH 5017. Number Theory and Proof for Teaching. 3 Credit Hours.**

In this course, we encounter and explore fundamental ideas in number theory. Basic properties of the integers and their two principal operations, addition and multiplication, will form the starting point of our study. Along the way, the course will introduce some basic logic and the rigorous notion of mathematical proof, including mathematical induction, in the context of number theory. Through this elementary foundation, students will experience the richness of mathematics: proof going back as far as Euclid, examples of elementary yet still unproven conjectures, and results that are easy to state and understand but require extremely complicated proofs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MATH 1042.

**MATH 5033. Introduction to Stochastic Processes. 3 Credit Hours.**

This course is typically offered in the Fall.

Markov chains, exponential distribution, Poisson process, continuous time Markov chains, Brownian motion, stationary processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5041. Concepts of Analysis I. 3 Credit Hours.**

Advanced calculus in one and several real variables. Topics include topology of metric spaces, continuity, sequences and series of numbers and functions, convergence, including uniform convergence. Ascoli and Stone-Weierstrass theorems. Integration and Fourier series. Inverse and implicit function theorems, differential forms, Stokes theorem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5042. Concepts of Analysis II. 3 Credit Hours.**

Advanced calculus in one and several real variables. Topics include topology of metric spaces, continuity, sequences and series of numbers and functions, convergence, including uniform convergence. Ascoli and Stone-Weierstrass theorems. Integration and Fourier series. Inverse and implicit function theorems, differential forms, Stokes theorem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 5041.

**MATH 5043. Introduction to Numerical Analysis. 3 Credit Hours.**

Roots of nonlinear equations, errors, their source and propagation, linear systems, approximation and interpolation of functions, numerical integration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5044. Introduction to Numerical Analysis II. 3 Credit Hours.**

This course will cover the following topics: Analysis and numerical solutions of ordinary differential equations, Runge-Kutta, multistep, and Taylor series methods; deferred correction; convergence and stability; stiff problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5045. Ordinary Differential Equations. 3 Credit Hours.**

Existence and uniqueness theorems, continuous and smooth dependence on parameters, linear differential equations, asymptotic behavior of solutions, isolated singularities, nonlinear equations, Sturm-Liouville problems, numerical solution of ODEs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5057. Introduction to Methods in Applied Mathematics I. 3 Credit Hours.**

This is the first semester of a two-semester general overview of mathematical concepts and tools for applied mathematics. Topics to be covered include modeling and derivation of equations of continuum mechanics; solution methods for linear PDE in special domains, such as Fourier and Laplace transforms as well as Green's functions; calculus of variations and control theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5058. Introduction to Methods in Applied Mathematics II. 3 Credit Hours.**

This is the second semester of a two-semester general overview of mathematical concepts and tools for applied mathematics. Topics to be covered include dynamical systems and bifurcation theory; asymptotic analysis and perturbation theory; systems of hyperbolic conservation laws. Material is largely independent of MATH 5057.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5061. Fundamentals of Computer Programming for Scientists and Engineers. 4 Credit Hours.**

Scientists and engineers use computers for a multitude of purposes. Even with ready-to-use applications, some amount of computer programming is commonly required to adapt to changing technology while attaining the rigorous standards of each specific discipline. This course focuses on fundamental computer programming constructs, introducing the languages Python, C++ and Fortran. Through lectures and intensive exercises students will learn to implement fundamental mathematical constructs and solve basic programming problems relevant to scientific applications. The course briefly reviews also the Linux environment, its software development tools and language interoperability. For each programming language, the course focuses on constructs and syntax designed for performance and numerical accuracy, in connection with methods from applied science, mathematics and engineering. The students taking the course are expected to have sufficient mathematical maturity, as evidenced, for example, by having completed an undergraduate Calculus sequence. The majority of the grade is determined by a mid-term and a final exam, both including a combination of questionnaires and supervised programming assignments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5062. High Performance Computer Programming for Scientific Modeling. 3 Credit Hours.**

This course will provide theory and hands-on experience programming high performance computers for the solution of scientific modeling problems. This includes in particular problems arising from the discretizations of differential equations. Topics covered include domain decomposition and mesh partitioning, quantifying the computation and communication cost, communication avoidance methods, Monte Carlo methods, multithreading, benchmarking and optimization of the parallel computations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 5061.

**MATH 5063. Introduction to High-Performance Computing Technology for Scientists. 4 Credit Hours.**

This course is an introduction to the technology used in Linux clusters and supercomputers dedicated to calculations in applied science and engineering. The basic architecture of modern computers (processing units, memory, storage, operating system) is briefly reviewed, emphasizing the role and performance impact of each element in numerical computation. The core of the course focuses on setup and management of computer hardware specialized for scientific computing, and on its impact on commonly used strategies and methods for scientific computation. The material is organized in a combination of lectures and hands-on exercises, using computer hardware hosted at local facilities as well as virtualized resources. The majority of the grade is determined by a mid-term and a final exam, both including a combination of questionnaires and identification of the most efficient solution to common numerical problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 5061 (may be taken concurrently)

**MATH 5065. Topology. 3 Credit Hours.**

Topological and metric spaces. Continuity, compactness, connectedness, convergence. Introduction to algebraic and combinatorial topology. Classification of compact surfaces, fundamental groups and covering spaces.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5066. Mathematical Methods for High Performance Computing. 3 Credit Hours.**

This course presents mathematical methods for the solution of a variety of discrete and algebraic problems which are at the core of many scientific and engineering applications. The methods covered are especially tailored for high performance computing. Topics include large matrix computations, graphs and networks, fast Fourier transforms, geometric and algebraic multi-grid methods, and constrained optimization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 5061, MATH 5062, and MATH 5063.

**MATH 5067. Introduction to Abstract Algebra I. 3 Credit Hours.**

This is the first semester in a year-long abstract algebra sequence MATH 5067 - MATH 5068. It is a thorough introduction to the theory of groups and rings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 5068. Introduction to Abstract Algebra II. 3 Credit Hours.**

This is the second semester of a year-long abstract algebra course. Topics come from theory of rings, fields and modules and from Galois theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8001. Candidates Seminar. 1 to 3 Credit Hour.**

Challenging problems from many different areas of mathematics are posed and discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8002. Candidates Seminar. 1 to 3 Credit Hour.**

Challenging problems from many different areas of mathematics are posed and discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8003. Number Theory. 3 Credit Hours.**

This is an introduction to the ideas and techniques of number theory, elementary, analytic, and algebraic. The object of the course is to demonstrate how real and complex analysis and modern algebra can be applied to classical problems in number theory. References: H. Rademacher, "Lectures on elementary number theory"; H. Davenport, "Multiplicative number theory"; Rosen and Ireland, "A classical introduction to algebraic number theory."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8004. Number Theory. 3 Credit Hours.**

This is an introduction to the ideas and techniques of number theory, elementary, analytic, and algebraic. The object of the course is to demonstrate how real and complex analysis and modern algebra can be applied to classical problems in number theory. References: H. Rademacher, "Lectures on elementary number theory"; H. Davenport, "Multiplicative number theory"; Rosen and Ireland, "A classical introduction to algebraic number theory."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8011. Abstract Algebra I. 3 Credit Hours.**

Groups, rings, modules, fields; Galois theory; linear algebra.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8012. Abstract Algebra II. 3 Credit Hours.**

Groups, rings, modules, fields; Galois theory; linear algebra.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8011.

**MATH 8013. Numerical Linear Algebra I. 3 Credit Hours.**

The syllabus includes iterative methods, classical methods, nonnegative matrices. Semi-iterative methods. Multigrid methods. Conjugate gradient methods. Preconditioning. Domain decomposition. Direct Methods. Sparse Matrix techniques. Graph theory. Eigenvalue Problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8014. Numerical Linear Algebra II. 3 Credit Hours.**

The syllabus includes iterative methods, classical methods, nonnegative matrices. Semi-iterative methods. Multigrid methods. Conjugate gradient methods. Preconditioning. Domain decomposition. Direct Methods. Sparse Matrix techniques. Graph theory. Eigenvalue Problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8013.

**MATH 8023. Numerical Differential Equations I. 3 Credit Hours.**

Analysis and numerical solution of ordinary and partial differential equations. Elliptic, parabolic and hyperbolic systems. Constant and variable coefficients. Finite difference methods. Finite element methods. Convergence analysis. Practical applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8024. Numerical Differential Equations II. 3 Credit Hours.**

Analysis and numerical solution of ordinary and partial differential equations. Elliptic, parabolic and hyperbolic systems. Constant and variable coefficients. Finite difference methods. Finite element methods. Convergence analysis. Practical applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8023.

**MATH 8031. Probability Theory. 3 Credit Hours.**

With a rigorous approach the course covers the axioms, random variables, expectation and variance. Limit theorems are developed through characteristic functions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8032. Stochastic Processes. 3 Credit Hours.**

Random sequences and functions; linear theory; limit theorems; Markov processes; branching processes; queuing processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8031.

**MATH 8041. Real Analysis I. 3 Credit Hours.**

The syllabus coincides with the syllabus for the Ph.D. Examination in Real Analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8042. Real Analysis II. 3 Credit Hours.**

The syllabus coincides with the syllabus for the Ph.D. Examination in Real Analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8041.

**MATH 8051. Functions of a Complex Variable I. 3 Credit Hours.**

Analytic functions. Conformal mapping. Analytic continuation. Topics in univalent functions, elliptic functions, Riemann surfaces, analytic number theory. Nevanlinna theory, several complex variables.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8052. Functions of a Complex Variable II. 3 Credit Hours.**

Analytic functions. Conformal mapping. Analytic continuation. Topics in univalent functions, elliptic functions, Riemann surfaces, analytic number theory. Nevanlinna theory, several complex variables.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8051.

**MATH 8061. Differential Geometry and Topology I. 3 Credit Hours.**

Elementary theory of smooth manifolds. Singular cohomology and DeRham's theorem. Fundamental group and covering spaces. Hodge theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8062. Differential Geometry and Topology II. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8061.

**MATH 8107. Mathematical Modeling for Science, Engineering, and Industry. 3 Credit Hours.**

In this course, students work in groups on projects that arise in industry, engineering, or in other disciplines of science. In addition to being advised by the course instructors, in all projects an external partner is present. The problems are formulated in non-mathematical language, and the final results need to be formulated in a language accessible to the external partner. This means in particular that the mathematical and computational methods must be selected or created by the students themselves. Students disseminate their progress and achievements in weekly presentations, a mid-term and a final project report, and a final presentation. Group work with and without the instructors' involvement is a crucial component in this course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8007 and MATH 8008.

**MATH 8141. Partial Differential Equations I. 3 Credit Hours.**

The classical theory of partial differential equations. Elliptic, parabolic, and hyperbolic operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8142. Partial Differential Equations II. 3 Credit Hours.**

The classical theory of partial differential equations. Elliptic, parabolic, and hyperbolic operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8141.

**MATH 8161. Topology. 3 Credit Hours.**

Point set topology through the Urysohn Metrization Theorem; fundamental group and covering spaces. Differential forms; the DeRham groups.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 5041.

**MATH 8200. Topics in Applied Mathematics. 3 Credit Hours.**

Variable topics, such as control theory and transform theory, will be treated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8210. Topics in Applied Mathematics II. 3 Credit Hours.**

Variable topics, such as control theory and transform theory, will be treated.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8700. Topics Computer Program. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8710. Topics Computer Program. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 8981. Graduate Development Seminar. 1 Credit Hour.**

This course aims to familiarize first-year PhD students with the structure of a PhD in Mathematics. A significant focus of the course is professional development, wherein students learn about important milestones in the program and are trained in the related responsibilities. Students enrolled in this course must attend at least one seminar or colloquium per week, in order to be exposed to research-level mathematics and best practices for communicating mathematics. The seminar itself features a weekly discussion on a topic of interest, led by the Director of Graduate Studies and/or a senior TA. Topics covered in the seminar should include: Basics of departmental structure; effective study techniques for graduate courses and qualifying exams; best practices for professional conduct; creating a professional webpage; written and oral communication of research-level mathematics; research topics studied by faculty in the department; the process of finding a PhD advisor, e.g. through independent study courses; organizing PhD studies with perspective of post-PhD career goals; finding and applying for summer internships in industry and education; and applying for post-PhD employment, in and out of academia.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 8985. Teaching in Higher Education. 1 to 3 Credit Hour.**

This course is required for any student seeking Temple's Teaching in Higher Education Certificate. The course focuses on the research on learning theory and the best teaching practices, with the aim of preparing students for effective higher education teaching. All educational topics will be considered through the lens of teaching mathematics and quantitative thinking.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9000. Topics in Number Theory I. 3 Credit Hours.**

Analytic and algebraic number theory. Classical results and methods and special topics such as partition theory, asymptotic, Zeta functions, transcendence, modular functions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9003. Modular Functions. 3 Credit Hours.**

This course focuses upon the modular group and its subgroups, the corresponding fundamental region and their invariant functions. Included will be a discussion of the basic properties of modular forms and their construction by means of Eisenstein and Poincaré series and theta series. Other topics: the Hecke correspondence between modular forms and Dirichlet series with functional equations, the Petersen inner product, the Hecke's operators. Emphasis will be placed upon applications to number theory. References: M. Knopp, "Modular functions in analytic number theory"; J. Lehner, "A short course in automorphic forms"; B. Schoeneberg, "Elliptic modular forms."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9004. Modular Functions. 3 Credit Hours.**

This course focuses upon the modular group and its subgroups, the corresponding fundamental region and their invariant functions. Included will be a discussion of the basic properties of modular forms and their construction by means of Eisenstein and Poincaré series and theta series. Other topics: the Hecke correspondence between modular forms and Dirichlet series with functional equations, the Petersen inner product, the Hecke's operators. Emphasis will be placed upon applications to number theory. References: M. Knopp, "Modular functions in analytic number theory"; J. Lehner, "A short course in automorphic forms"; B. Schoeneberg, "Elliptic modular forms."

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9005. Combinatorial Mathematics. 3 Credit Hours.**

Topics include: Enumeration, Trees, Graphs, Codes, Matchings, Designs, Chromatic Polynomials, Coloring, Networks.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9010. Topics in Number Theory II. 3 Credit Hours.**

Analytic and algebraic number theory. Classical results and methods and special topics such as partition theory, asymptotic, Zeta functions, transcendence, modular functions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9011. Homological Algebra. 3 Credit Hours.**

Students will learn fundamental notions of homological algebra such as chain complexes, Abelian categories, derived functors, and spectral sequences. A portion of this course is also devoted to rudiments of category theory. Students will learn how to apply constructions of homological algebra and category theory to questions from abstract algebra, topology and deformation theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8011 and MATH 8012.

**MATH 9012. Representation Theory I. 3 Credit Hours.**

This is the first semester of a two-semester course on the principal methods and results of algebraic representation theory. The course will start with an introduction to the fundamental notions, tools and general results of representation theory in the setting of associative algebras. This will be followed by a thorough coverage of the classical representation theory of finite groups over an algebraically closed field of characteristic zero. If time permits, then the semester will conclude with a brief introductory discussion of the representation theory of the general linear group.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8011 and MATH 8012.

**MATH 9013. Representation Theory II. 3 Credit Hours.**

This is the second part of a two-semester course sequence on the principal methods and results of algebraic representation theory. The main focus will be on representations of finite-dimensional Lie algebras, with particular emphasis on the case of semisimple Lie algebras. Time permitting, the course will conclude with an introduction to the representation theory of Hopf algebras.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 9012.

**MATH 9014. Commutative Algebra and Algebraic Geometry I. 3 Credit Hours.**

This is the first semester of a two-semester course on the fundamental concepts of commutative algebra and classical as well as modern algebraic geometry. Topics for the first semester include: ideals of commutative rings, modules, Noetherian and Artinian rings, Noether normalization, Hilbert's Nullstellensatz, rings of fractions, primary decomposition, discrete valuation rings and the rudiments of dimension theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8011 and MATH 8012.

**MATH 9015. Commutative Algebra and Algebraic Geometry II. 3 Credit Hours.**

This is the second semester of a two-semester course on the fundamental concepts of commutative algebra and classical as well as modern algebraic geometry. Topics for the second semester include: affine and projective varieties, morphisms of algebraic varieties, birational equivalence, and basic intersection theory. In the second semester, students will also learn about schemes, morphisms of schemes, coherent sheaves, and divisors.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 9014.

**MATH 9021. Riemannian Geometry. 3 Credit Hours.**

The main goal of this one-semester course is to provide a solid introduction to the two central concepts of Riemannian Geometry, namely, geodesics and curvature and their relationship. After taking this course, students will have an intimate acquaintance with the tools and concepts that are needed for pursuing research in Riemannian Geometry or applying its ideas to other fields of mathematics such as analysis, topology, and algebraic geometry. The topics covered include Riemannian metrics, Riemannian connections, geodesics, curvature (sectional, Ricci, and scalar curvatures), the Jacobi equation, the second fundamental form, and global results such as the Gauss-Bonnet Theorem, the theorems of Hopf-Rinow and Hadamard, variations of energy, the theorems of Bonnet-Myers and of Synge-Weinstein, and the Rauch comparison theorem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8061 and MATH 8062 (may be taken concurrently)

**MATH 9023. Knot Theory and Low-Dimensional Topology I. 3 Credit Hours.**

This is the first semester of a year-long course surveying the modern theory of knots and providing an introduction to some fundamental results and techniques of low-dimensional topology. The course will start at the very beginning of knot theory; it will then proceed to several classical knot invariants (Alexander, Jones, HOMFLY polynomials). The first semester will also touch on braid groups and mapping class groups, and use these groups to show that every (closed, orientable) 3-manifold can be constructed via knots.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8061 and MATH 8062.

**MATH 9024. Knot Theory and Low-Dimensional Topology II. 3 Credit Hours.**

This is the second semester of a year-long course surveying the modern theory of knots and providing an introduction to some fundamental results and techniques of low-dimensional topology. This course will continue the development of knot invariants begun during the first semester, in particular exploring the connection between knots and braid groups. It will also use Dehn surgery techniques to extend construct quantum invariants of closed 3-dimensional manifolds. Finally, the course will survey several results in 4-dimensional topology and their connection to knot theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 9023.

**MATH 9031. Advanced Probability Theory. 3 Credit Hours.**

This course is a continuation of MATH 8031 and is based on measure theory. It covers advanced topics in probability theory: martingales, Brownian motion, Markov chains, continuous time Markov processes, ergodic theory and their applications.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9041. Functional Analysis I. 3 Credit Hours.**

Topics covered include Banach and Hilbert spaces, Banach-Steinhaus theorem, Hahn-Banach theorem, Stone-Weierstrass theorem, Operator theory, self-adjointness, compactness. Also covered are Sobolev spaces, embedding theorems, Schwartz distributions, Paley-Wiener theory. If time permits, Banach and C algebras will be covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8041 and MATH 8042.

**MATH 9042. Functional Analysis II. 3 Credit Hours.**

Topics covered include: Banach and Hilbert spaces, Banach-Steinhaus theorem, Hahn-Banach theorem, Stone-Weierstrass theorem, Operator theory, self-adjointness, compactness. Also covered are Sobolev spaces, embedding theorems, Schwartz distributions, Paley-Wiener theory. If time permits, Banach and C algebras will be covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 9041.

**MATH 9043. Calculus of Variations. 3 Credit Hours.**

First variation and Euler-Lagrange equations. Null-Lagrangians and the Caratheodory's "Royal Road". Geodesic coverings, the eikonal and the Hamilton-Jacobi equation. Second variation and Jacobi's theory of conjugate points. Strong variations and Weierstrass E-function. Hamiltonian formalism and convex duality. Hilbert's invariant integral.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9044. Harmonic Analysis. 3 Credit Hours.**

A year long course to explore the real-variable techniques developed in Harmonic Analysis to study smoothness properties of functions and the behavior of certain spaces under the action of some operators. These techniques are also essential in many applications to PDE's and several complex variables. Offered every two years.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9051. Several Complex Variables I. 3 Credit Hours.**

Holomorphic functions of several complex variables, domains of holomorphy, pseudoconvexity, analytic varieties, CR manifolds.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8051 and MATH 8052.

**MATH 9052. Several Complex Variables II. 3 Credit Hours.**

Holomorphic functions of several complex variables, domains of holomorphy, pseudoconvexity, analytic varieties, CR manifolds.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 9051.

**MATH 9053. Harmonic Analysis. 3 Credit Hours.**

A year long course to explore the real-variable techniques developed in Harmonic Analysis to study smoothness properties of functions and the behavior of certain spaces under the action of some operators. These techniques are also essential in many applications to PDE's and several complex variables. Offered every two years.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9061. Lie Groups. 3 Credit Hours.**

This course develops Lie theory from the ground up. Starting with basic definitions of Lie group-manifolds and Lie algebras, the course develops structure theory, analytic and algebraic aspects, and representation theory. Interactions with other fields, e.g., differential equations and geometry are also discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9062. Lie Groups. 3 Credit Hours.**

This course develops Lie theory from the ground up. Starting with basic definitions of Lie group-manifolds and Lie algebras, the course develops structure theory, analytic and algebraic aspects, and representation theory. Interactions with other fields, e.g., differential equations and geometry are also discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9063. Riemann Surfaces. 3 Credit Hours.**

Introduction to differential geometry, Riemannian manifolds and Hodge theory; classification of complex structures of oriented two-manifolds as conformal classes of Riemannian metrics; covering spaces and the uniformization theorem; the moduli space of the torus; the Riemann-Roch theorem for compact Riemann surfaces; interpretation of the Riemann-Roch theorem as the index of an elliptic operator.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9064. Riemann Surfaces. 3 Credit Hours.**

Moduli and Teichmueller spaces for compact Riemann surfaces; introduction to modular forms; embedding of compact Riemann surfaces in complex projective spaces. Branched coverings and maps onto the Riemann sphere.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9071. Differential Topology. 3 Credit Hours.**

Moduli and Teichmueller spaces for compact Riemann surfaces; introduction to modular forms; embedding of compact Riemann surfaces in complex projective spaces. Branched coverings and maps onto the Riemann sphere.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9072. Differential Topology. 3 Credit Hours.**

Topics and emphasis may vary depending on instructor and may include surgery, handlebodies, cobordism; topological manifolds with smooth structure, manifolds with more than one smooth structures; topology of vector bundles, characteristic classes, index theorem.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MATH 9073. Geometric Group Theory. 3 Credit Hours.**

This semester-long course will survey the rapidly expanding field of geometric group theory, focusing on the role played by negative curvature. We will begin with classical combinatorial techniques used to construct and study infinite discrete groups. After introducing basic concepts in coarse geometry, we will turn our attention to Gromov's notion of hyperbolic groups. In addition to studying geometric, algebraic, and algorithmic properties of these groups, we will keep an eye towards several generalizations of hyperbolicity that have recently played a large role in understanding many geometrically significant groups. As examples, we will also touch on the study of mapping class groups, outer automorphism groups of free groups, and cubical groups.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MATH 8061 and MATH 8062.

**MATH 9082. Independent Study. 1 to 3 Credit Hour.**

Independent research supervised by a Mathematics faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9083. Independent Study. 1 to 3 Credit Hour.**

Independent research supervised by a Mathematics faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9100. Topics in Algebra. 3 Credit Hours.**

Variable topics in theory of commutative and non-commutative rings, groups, algebraic number theory, algebraic geometry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9110. Topics in Algebra. 3 Credit Hours.**

Variable topics in theory of commutative and non-commutative rings, groups, algebraic number theory, algebraic geometry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9120. Seminar in Algebra. 3 Credit Hours.**

The seminar aims to lead participating students up to the frontier of current research in algebra. The typical formats are single lectures or short series of lectures by students or the instructor on various topics in algebra, including noncommutative algebra, representation theory, group theory, operads and connections to mathematical physics. Occasionally, slightly longer mini-courses are presented in the framework of the seminar or an entire semester is devoted to a single topic of particular interest.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9200. Topics in Numerical Analysis. 3 Credit Hours.**

These courses cover some basic, as well as advanced topics in numerical analysis. The topics can be changed from time to time. The usual topics include: scientific computing, numerical methods for differential equations, computational fluid dynamics, Monte Carlo simulation, Optimization, Sparse matrices, Fast Fourier transform and applications, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9210. Topics in Numerical Analysis. 3 Credit Hours.**

These courses cover some basic, as well as advanced topics in numerical analysis. The topics can be changed from time to time. The usual topics include: scientific computing, numerical methods for differential equations, computational fluid dynamics, Monte Carlo simulation, Optimization, Sparse matrices, Fast Fourier transform and applications, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9300. Seminar in Probability. 3 Credit Hours.**

Research topics related to probability theory are presented in the seminar. Topics vary depending on the interests of the students and the instructor. Current topics include stochastic calculus with applications in mathematical finance, statistical mechanics, interacting particle systems, percolation, and probability models in mathematical physics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9310. Seminar in Probability. 3 Credit Hours.**

Research topics related to probability theory are presented in the seminar. Topics vary depending on the interests of the students and the instructor. Current topics include stochastic calculus with applications in mathematical finance, statistical mechanics, interacting particle systems, percolation, and probability models in mathematical physics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9400. Topics in Analysis. 3 Credit Hours.**

Variable content course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9410. Topics in Functional Analysis. 3 Credit Hours.**

This is a year-long sequence. The content varies from time to time depending on the interests of the students. Typical topics include some of the following: pseudodifferential operators, Fourier integral operators, singular integral operators, applications to partial differential equations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9420. Topics in Differential Equations II. 3 Credit Hours.**

This is a year-long sequence. Topics covered may include the theory of elliptic partial differential equations in divergence form and non-divergence form, and nonlinear PDEs. These courses may also focus on pseudodifferential operators and Fourier integral operators.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9500. Topics in Differential Geometry and Topology I. 3 Credit Hours.**

Variable topics in geometric topology and related areas. Topics include: surfaces and their diffeomorphisms, mapping class groups, braids, 3-dimensional manifolds, geometric structures on manifolds, and group actions on geometric objects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MATH 8061 and MATH 8062.

**MATH 9510. Topics in Differential Geometry and Topology II. 3 Credit Hours.**

Variable topics in geometric topology and related areas. Topics include: surfaces and their diffeomorphisms, mapping class groups, braids, 3-dimensional manifolds, geometric structures on manifolds, and group actions on geometric objects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MATH 8061 and MATH 8062.

**MATH 9991. Master's Research Projects. 1 to 6 Credit Hour.**

Short-term, limited research project or laboratory project in the field. This course is not the capstone project course, nor can it be used for thesis based research. The course is for master's students only, including PSM, MA or MS. This class will not confer full-time program status unless nine credits are taken.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Arts, Master of Science, Prof Science Masters.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

This course is required for students who are preparing for the preliminary or candidacy examination. Students should enroll after coursework is completed or when preparing for the candidacy exam until the time that the preliminary or candidacy examination is completed. This course will confer full-time status at the minimum credit hour registration limit of one credit. All students must complete a minimum of one credit of this course. Students must complete a total of 6 credit hours of 9994, 9998 and 9999.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9995. Capstone Project. 1 to 6 Credit Hour.**

Capstone project for master's students including students in PSM, MA or MS. This class will provide full-time status. Students in PSM programs need to register for at least one credit of this course to fulfill program requirements. Additional credits may be required for specific programs. This course will confer full-time status at the minimum credit hour registration limit of one credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Arts, Master of Science, Prof Science Masters.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9996. Master's Thesis Research. 1 to 6 Credit Hour.**

Course for master's thesis research. Only intended for students in thesis bearing master's programs. A minimum of one credit is required. This course will confer full-time status at the minimum credit hour registration limit of one credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9998. Pre-Dissertation Research / Elevation to Candidacy. 1 to 6 Credit Hour.**

This course is intended for students who are performing research prior to candidacy. Students can register for this course after required courses are completed. This course will confer full-time status at the minimum credit hour registration limit of one credit. Students must be registered for this course during the semester that they are to be elevated to candidacy examination. Students must complete a total of 6 credit hours of 9994, 9998 and 9999.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MATH 9999. Dissertation Research. 1 to 6 Credit Hour.**

The course is for Ph.D. students who have been elevated to candidacy. During the course of their candidacy students must complete a minimum of two credits of dissertation research. This course will confer full-time status at the minimum credit hour registration limit of one credit. Students must complete a total of 6 credit hours of 9994, 9998 and 9999.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Mechanical Engineering (MEE)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MEE 5110. Special Topics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 5117. Finite Element Analysis. 3 Credit Hours.**

Concepts and techniques of finite element and finite difference methods; mesh generation techniques; computer graphics presentation methods. Application to solids, liquids, and gases in the areas of stress, strain, deflection elasticity, heat transfer, fluid flow, and combustion.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5172. High-Speed Imaging and Analysis for Engineering Applications. 3 Credit Hours.**

This course will introduce students to high-speed imaging and analysis techniques widely used in academia, industry, and government to solve complex engineering problems. Students will first learn key digital imaging concepts, followed by the fundamentals of optics, lensing and lighting. Then, they will learn how to process images to track and quantify the motion of points. This will naturally evolve into discussions on techniques including 3D point tracking, Digital Image Correlation (DIC), and Particle Image Velocity (PIV). Students will also be introduced to non-invasive imaging techniques for characterizing transparent flows, namely shadowgraphy and schlieren imaging. Finally, students will utilize software packages to perform digital processing steps such as filtering, pyrometry, correlations, tracking and more.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5201. Thermodynamics of Materials. 3 Credit Hours.**

An introductory master's level course that explores materials from a thermodynamic perspective: Includes the laws of thermodynamics, free energy, chemical potential, stability, etc. A detailed analysis of phase diagrams is presented in the second half of the course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5203. Advanced Materials Science. 3 Credit Hours.**

Chemical bonding, crystallography, defects and their effects on material properties, nucleation, growth, and microstructure development.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5205. Microscopy and Microanalysis of Materials. 3 Credit Hours.**

This course will cover various Microscopy and Microanalysis techniques which are widely used in research labs and in industries to characterize micro and nano structure and chemical composition of solid matter. Among them are visual light, scanning probe and electron beam microscopy and associated spectroscopy. The primary focus will be on fundamental aspects and experimental methods of Scanning Electron Microscopy (SEM) and associated spectroscopy. The SEM facility will be used for individual student projects. Particular attention will be given to the selection criteria used for choosing the appropriate technique for materials characterization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5211. Frontiers in Mechanical Engineering. 3 Credit Hours.**

This is a survey course designed to introduce graduate students to cutting-edge research in the mechanical-engineering sciences. Topics will be taken from active research areas in the Mechanical Engineering Department, including (but not limited to) biomechanics, multifunctional materials, materials processing and/or manufacturing, acoustic sensors, nano/micro-technologies, and robotics. The course will have a coordinator, but the lectures will be given by a variety of mechanical-engineering faculty selected for their research expertise.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Engineering, Science & Technology.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5212. Tribology and Surface Engineering. 3 Credit Hours.**

Tribology encompasses the interdisciplinary science and engineering of interacting surfaces in relative motion. Tribology is in every aspect of our lives and has a tremendous impact on manufacturing, energy production and use, transportation vehicles, health care, mining safety and reliability, and space exploration. This course introduces the nature of engineering surfaces, methods of surface characterization, modes of friction and wear, theories of contacts, and lubrication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5312. Mechanics of Composite Materials. 3 Credit Hours.**

Introduction to the behavior of composite materials and their use in engineering structures: behavior and properties of the constituent fibers and matrices, micromechanical predictions of composite properties, anisotropic elasticity, behavior of composite laminae, classical lamination theory; fracture mechanisms, failure theories; behavior of composite plates and beams.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5314. Impact and Crashworthiness. 3 Credit Hours.**

This course is an advanced course on impact mechanics, impact biomechanics, as well as vehicle crashworthiness standards and accident data analysis. Students will learn about FMVSS and NCAP crash tests, FARS and NASS real world accident databases, and methods to analyze crash and accident data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5411. Introduction to Mobile Robotics. 3 Credit Hours.**

Introduction to Mobile Robotics will teach you, through the use of project-based learning, fundamental concepts in mapping, planning, control, and dynamics that are used in mobile robotics. By the end of this course you will be able to program both a ground and aerial robot to autonomously and safely navigate through an obstacle-filled environment. You will work with both simulated and real robots and use both off-the-shelf software and write code from scratch using ROS.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (MEE 4412 or MEE 5412)

**MEE 5412. Modern Dynamics for Robotics. 3 Credit Hours.**

This course focuses on the algebraic and differential equations governing the static and dynamic 3D motion of rigid bodies, including vectors, vector differentiation, and dyads. The equations of motion for multibody systems will be derived using Newton-Euler, Lagrange, and Kane's methods. Computational tools for 3D force and motion analysis will be used to simulate physical systems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5413. Robotic Manipulation. 3 Credit Hours.**

This course is an introduction to the design, modeling and control of robot manipulators, using modern dynamic formulations for multi-degree of freedom, 3D rigid body systems. This course covers 3D spatial transformations, forward and inverse kinematics, Jacobians, joint space and operational space control, and force control. This course also introduces ROS for communication and control of 2 6 axis robotic arms.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in (MEE 5412 or ENGR 5334)

**MEE 5414. Optimization and Control of Mechanical Systems. 3 Credit Hours.**

This course focuses on designing optimal controllers for constrained and unconstrained dynamical systems. Topics include optimization, calculus of variations, dynamic programming, linear optimal control, trajectory optimization, optimal estimation, and model predictive control. Applications of the course concepts in classical problems as well as in modern systems will be discussed through several examples.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5423. Engineering Acoustics and Continuum-System Vibration. 3 Credit Hours.**

This graduate level course introduces the fundamentals of engineering acoustics and will help students establish a deep understanding of the physics of acoustic-wave propagation. Students will also be able to acquire knowledge on computational tools used to study acoustic systems, and explore emerging areas in acoustics including acoustic metamaterial and bio-inspired acoustic sensors.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in ENGR 5012 (may be taken concurrently)

**MEE 5511. Thermodynamic Properties. 3 Credit Hours.**

Review of quantum mechanics and introduction to statistical mechanics. Statistical thermodynamics and various models of matter. Accuracy and trends of the predicted properties of various materials.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5512. Compressible Fluid Dynamics. 3 Credit Hours.**

This course introduces students to the subject of high speed gas dynamics. Compressible flows exhibit fundamentally different behavior from those in low speed, constant density fluids. Such flows are found in aerodynamics, combustors, turbines, jets, gas pipelines, and wind tunnel facilities. Students study phenomena associated with supersonic flows, including normal and oblique shocks, expansion fans, and compressible flows with friction and/or heat transfer. An introduction to high temperature and rarified gas dynamics is also included.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5513. Aerodynamics. 3 Credit Hours.**

The forces and moments exerted by moving fluids on solid bodies are of concern in numerous applications. While the performance of flight vehicles is of particular interest, aerodynamics is also a subject of importance in passenger and race car design, wind turbines, structures, sea vessels, etc. Students will study various topics in low speed aerodynamics, including thin airfoil theory and airfoil nomenclature, finite wing theory, high lift and drag reduction devices, separated and vortical flows, and rotating blades. An introduction to transonic flows and computational aerodynamics will also be included. Students will explore Joukowski transformations, the Blasius solution, and vortex lattice methods for lift prediction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5574. Heating, Ventilation and Air Conditioning. 3 Credit Hours.**

Overview of psychrometric and air conditioning processes, preparation of the energy balance, heat losses due to transmission and ventilation, the effect of solar radiation, heat gains, load calculations and simulations, design of heating, cooling, ventilating, and air conditioning (HVAC) systems, building energy system design, simulation, and control, duct, and piping system design, room air distribution and the air diffuser performance index, ADPI, including CFD analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5575. Renewable and Alternative Energy. 3 Credit Hours.**

This survey course considers current technologies for renewable and alternative energy, including: different scenarios of producing energy; mechanical heat engines; ocean thermal energy converters; thermoelectricity; solar radiation; biomass; photovoltaic converters; wind energy; and ocean engines. The course will also consider the design of hydrogen-powered systems and of polymer electrolyte-membrane fuel cells.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SF

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5577. Power Generation and Storage Technologies. 3 Credit Hours.**

This course will give an overview of electric power generation technologies including coal, gas, and nuclear power plants, as well as some emerging technologies such as photovoltaic. This course will also discuss technologies used in power transmission and distribution such as overhead power line conductors. Power storage technologies will also be introduced including compressed air, flywheel, hydrogen, and batteries.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5578. Fundamentals of Combustion. 3 Credit Hours.**

This course is focused on concepts and applications of chemically reacting systems. Topics include heat of reaction, chemical equilibrium, chemical kinetics, chemical mechanisms, coupling chemical and thermal analyses of reacting systems, laminar premixed and diffusion flames, turbulent flames and pollutant emissions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5643. Manufacturing Engineering. 3 Credit Hours.**

This course will provide an overview of existing and emerging manufacturing technologies in the modern society. Topics include state-of-the-art processing methods for metals and alloys, ceramics and powder metallurgy, polymers and composites, additive manufacturing of a wide range of solid materials, as well as micro- and nano- fabrications.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Mechanical Engineering.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5731. Cardiovascular Fluid Dynamics. 3 Credit Hours.**

Mechanics of blood circulation, fluid mechanics of the heart, blood flow in arteries, unsteady flow in veins, current concepts in circulatory assist devices, biofluidics, and other selected topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5732. Tissue Biomechanics. 3 Credit Hours.**

Tissue Biomechanics course is an introductory course about the mechanical properties of living tissues. The emphasis of the course is on the meaning of constitutive models for bio-solids and bio-fluids. Topics include a review of elastic, viscous, and viscoelastic constitutive models; bioviscoelastic solids; mechanical properties of blood vessels; mechanics of skeletal and heart muscles.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 5733. Viscoelasticity. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MEE 8110. Special Topics. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 8315. Fracture Mechanics. 3 Credit Hours.**

This course will cover essential topics of fracture mechanics such as elastic stress intensity factor and Griffith energy balance, determination of the elastic field at a sharp crack tip via eigenfunction expansion methods, elastic-plastic crack tip fields, J integrals analysis, fatigue crack growth, and experimental determination of fracture toughness. Emphasis will be given to calculation of stress intensity factors using modern numerical methods, determination of critical crack sizes, and prediction of fatigue crack propagation rate.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in ENGR 5314 and MEE 5203.

**MEE 8411. Probabilistic Robotics. 3 Credit Hours.**

This course will introduce students to various techniques for probabilistic state estimation and discuss their application to problems such as robot localization, navigation, mapping, and multi-object tracking. The course will provide students with a problem-oriented introduction to the material, and it may also cover related material from machine learning and computer vision. Students will conduct a final project on a subject of their choice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MEE 5411, ECE 5033, or CIS 5526)

**MEE 9182. Independent Study I. 3 Credit Hours.**

Special study in a particular aspect of engineering under the direct supervision of a graduate faculty member. May be taken once by MS/MSE students and once by Ph.D. students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9282. Independent Study II. 3 Credit Hours.**

Special study in a particular aspect of engineering under the direct supervision of a graduate faculty member. May be taken once by Ph.D. students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9991. Directed Research. 1 to 6 Credit Hour.**

Under the guidance of a faculty member, the student will conduct independent research on a selected topic in engineering.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

This course is intended for Ph.D. students who have completed their coursework but who have not yet passed both the Ph.D. Preliminary Examination.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9995. Project. 1 to 3 Credit Hour.**

A project assigned with the approval of the Mechanical Engineering Graduate Committee and conducted under the supervision of a graduate faculty advisor. An oral presentation in an open seminar and a written report are required to complete the independent project. Projects related to industrial applications are encouraged. For non-thesis students only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9996. Thesis. 1 to 3 Credit Hour.**

Master's thesis. May be taken twice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

This course is intended for Ph.D. students who have passed both the Preliminary and Qualifying Examinations but who have not been elevated to candidacy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MEE 9999. Dissertation Research. 1 to 6 Credit Hour.**

This course is intended only for those students who have achieved Ph.D. Candidacy status. A minimum of 6 semester hours is required for graduation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Media and Communication (MMC)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MMC 8985. Teaching in Higher Education: Communications. 3 Credit Hours.**

A practical course in pedagogical methods. Students learn to plan course objectives, design syllabi, develop classroom techniques, establish assessment methods, and acquire polish as instructors of communications. Required course for all MM&C students. Requisite course to earn Temple's teaching in higher education certificate.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9001. Communication Theory I. 3 Credit Hours.**

Introduction to the field through a review of theoretical frameworks that have served as foundations for and shaped the study of mass communication. Required course for MM&C students in their first semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Mass Media and Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9002. Researching Communication I. 3 Credit Hours.**

Introduction to the processes of communication research, common quantitative research methodologies, and concepts of statistical literacy. Required course for MM&C students in their first semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Mass Media and Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9003. Doctoral Colloquium. 1 Credit Hour.**

Introduction to doctoral study, the field of communication, and the MM&C program. Fall semester: Current problems and opportunities in the field, discussions and presentations of current research, and presentations by senior scholars and students. Spring semester: writing workshop. Required of MM&C students in fall and spring of their first year.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Mass Media and Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9004. Teaching Communication. 3 Credit Hours.**

A practical course in pedagogical methods, i.e., how to teach communication. Students learn to plan course objectives, design syllabi, develop classroom techniques, establish assessment methods, and acquire polish as instructors. Required course for all MM&C students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9005. Colloquium II. 1 Credit Hour.**

Following Colloquium I, this course is designed to deepen M&C doctoral students' understanding of the field of media and communication, to facilitate their progress through the PhD program, and to prepare them for success in their post-degree career. It is designed for students in their 2nd and 3rd years in the program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for a total of 2 credit.

**Pre-requisites:** Minimum grade of B- in MMC 9003.

**MMC 9087. Cultural Analytics Practicum. 0 to 1 Credit Hours.**

This course is the concluding experience for students enrolled in the Cultural Analytics graduate certificate program. The Practicum brings together all students and guides them toward completion of their final project. Because students come from multiple disciplines and their projects are varied in nature, the course instructor will assign a mentor from staff in the Digital Scholarship Center to work with the student on the technical skills required to complete their project. This includes active consultation on scoping the project, recommendations and introductory training for specific tools, and ongoing consultations to ensure the work is completed successfully by the end of the semester. In addition, all students participate in a weekly meeting with the course instructor to receive information on best practices for data management, intellectual property issues, and other topics of importance to the full group. One student will give a detailed presentation on their project each week, so they can receive feedback from the full practicum group, and so that all members of the group can learn how to successfully structure a research or creative project in cultural analytics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (CLA 5019 or HIST 5152)

**MMC 9101. Communication Theory II. 3 Credit Hours.**

Survey of the principal social sciences and humanities approaches that have led to the emergence of mass communication as a field in the modern academy. Includes review of the history of the study of the modern media as well as the perspectives guiding behavioral and social effects studies related to mass communication. Required course for MM&C students in their second semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MMC 9001 and MMC 9002)

**MMC 9102. Researching Communication II. 3 Credit Hours.**

Introduction to qualitative research approaches applicable to the study of mass communication. Includes consideration of philosophical and conceptual approaches, epistemological and ethical concerns, and practical methodologies and tools. Required course for MM&C students in their second semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Mass Media and Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MMC 9001 and MMC 9002)

**MMC 9202. Statistics II. 3 Credit Hours.**

This course is designed to offer students a foundation in advanced statistics. This course builds directly off of MMC 9002. MMC 9002 focused on analyses of no more than four variables. A quick review of the literature will indicate that most statistical analyses undertaken by communication scientists involve the use of more than four variables simultaneously. This course will offer students a foundation in conducting analyses of this kind, with movement from data reduction procedures (e.g., PCA, EFA, CFA) to hybrid (i.e., combination of measurement and path estimates) structural equation modeling. A quick overview of meta-analysis is also provided.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9002.

**MMC 9203. Survey Design. 3 Credit Hours.**

This course is constructed to offer students an up-to-date account of major issues associated with survey research design. The class begins with a summary of core measurement issues (e.g., concept explication, open- and closed-ended items). Attention is given to sampling frames and current difficulties with generating quality probability-based samples. Focus then turns to various types of survey designs (e.g., cross-sectional, rolling cross-sectional, panel), with summaries offered of their strengths and weaknesses. Special attention is then given to web-based survey designs given their prevalence in today's research environment. The course closes with a summary of approaching survey research from a Total Survey Error (TSE) perspective.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9002 and MMC 9202.

**MMC 9204. Experimental Design. 3 Credit Hours.**

The course will offer the basics in traditional lab experimentation. A range of designs and factors will be focused on in the opening weeks. In addition, the course will cover such advanced topics as nested models and split-plot designs. In addition, the latter portion of the course will focus on field experimentation, a technique growing in popularity in the social and behavioral sciences given its ability to maximize internal and external validity. Finally, students will wrestle with and debate the relative strengths and weaknesses in traditional lab and field experimentation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9002 and MMC 9202.

**MMC 9205. Content Analysis. 3 Credit Hours.**

This seminar-style course explores various approaches to analyzing the content and potential effects of documented communications--written materials (such as news articles, print ads, or transcripts of conversations), audio/visual forms (such as movies, TV programs, commercials, photographs, or videos of nonverbal behaviors), and interactive media (such as gaming and online applications). Content analysis is a systematic way of analyzing message content. In addition to "human coding" of topics such as TV violence, this course introduces you to a number of software options for computer text analysis, an evolving set of techniques for analyzing the written word in an era of unprecedented digital retrieval capability. The course's emphasis is on the design and execution of actual content analysis studies--methods of producing meaningful data to answer critical questions about all types of messages.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9001.

**MMC 9206. Digital Qualitative Research Methods. 3 Credit Hours.**

This course is designed to introduce students to the specific theoretical, methodological, ethical, and technical aspects of conducting qualitative research both on and in digital realms. It will draw on humanistic and social science approaches to studying the internet broadly, virtual worlds, social media, digital media and cultures, digital distribution technologies, etc. We will consider the challenges posed by digital technologies to traditional forms of textual analysis, ethnography, interviewing, and historical analysis. The course will cover studies of digital texts/objects, audiences, and producers, as well as consider how new technologies blur these traditional media and communication boundaries. In addition, we will look at how digital tools can aid analysis of qualitative data and offer new forms of research dissemination and publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9102.

**MMC 9207. Critical Textual Analysis. 3 Credit Hours.**

The text is a foundational object in the study of media: it is what we consume as audiences, what our educations and professional routines are organized around producing, and the artifacts that carry the various meanings of culture that persist over time. The purpose of this course is to introduce you to the various methodological approaches that take texts as their central point of inquiry, and to develop your skill and expertise in deploying these methods, with the goal of producing your own conference-ready piece of research by the end of the semester. Textual approaches to the analysis of media have developed in diverse fields such as anthropology, history, literature, rhetoric and philosophy; mass communication has been one place of their intellectual convergence. Therefore, readings in this class will span Modernist through Post-Modernist movements focusing, not on progress from one approach to another, but on the spiral interplay of those movements, intellectual frameworks, and their uptakes in various disciplines. There is a deep convergence of theory and method here, and as such, a robust interest theory is needed in order to guide the interpretation of media texts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9208. Historical Methods for Media and Communication Research. 3 Credit Hours.**

This is a graduate class in which students learn about and analyze the methods with which scholars investigate the media past. We will survey how researchers have approached a range of types of public communication, including but not only journalism, advertising, persuasive communication, photography, broadcasting, etc. Whenever possible, we will examine actual historical media artifacts, so that we can get a more tangible and audiovisual sense of what researchers encounter. We also will discuss how digitization of historical artifacts has transformed the nature and possibilities of historical research. We will pay special attention to both the digital and the material artifacts held in Temple University's Urban Archives. During most weeks, we'll be reading original works of media-history research, and our goal will be to assess what those scholars have done methodologically. This scholarship will include studies of historical media content, oral-history research done with media producers and audiences, and analyses of industry data and business records. We'll also explore logistical and ethical issues of the preservation, accessibility, and uses of historical evidence. Finally, we'll consider how media themselves are increasingly sources of public knowledge about history. This learning process will lead to the final assignment: a work of original historical research on a topic relevant to each student's individual interests.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9102.

**MMC 9209. Media Ethnography. 3 Credit Hours.**

This advanced topic course is designed to help students deepen their knowledge of the purpose, politics and practices of ethnography for the study of media and communication. Focusing on key methodological, epistemological and ethical questions, the course digs deep into how ethnography can be employed in different ways to study media institutions, on-line interpretive communities, and media reception and use in various cultural settings. While touching on the multiple and diverse influences in the theoretical development of ethnography, this course is organized primarily around the practical challenges and dilemmas of "doing" media ethnography, such as initiating a study, establishing ethnographic authority, the politics of representation, conducting fieldwork, observation versus participant observation, the practice of taking fieldnotes, the writing of media ethnographies, the difference between "thin" and "thick" description, and "traditional" versus "virtual" ethnographic inquiry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9102.

**MMC 9503. Advanced Quantitative Methods. 3 Credit Hours.**

Study of parametric and non-parametric statistics and electronic data processing in the context of mass communication research problems, with an emphasis on multivariate analyses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9002.

**MMC 9505. Psychological Proc/Media. 3 Credit Hours.**

Research and theory concerning the contemporary psychological significance of media. Topics include attention, memory, comprehension, emotional response, arousal, picture perception, unconscious processing, and person perception as they relate to traditional (radio, TV, print, film) and emerging (virtual reality, teleconferencing) media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9525. Communications Institutions. 3 Credit Hours.**

Examination of the structure and function of the media in today's global society, including consideration of patterns of corporate ownership and control, political economy of media, democratic theory, globalization, governmental regulation of media, new technologies, and the nature of various media industries.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9605. Visual Communication. 3 Credit Hours.**

Critical examination of the ways photographs inform our everyday lives, focusing on photography's relationship with "truth" and "reality." Consideration of the uses of photographs for informative, interpretive and persuasive communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9612. Critical Analysis of Mass Media. 3 Credit Hours.**

Examination and application of sociological, anthropological, literary studies, historical and cultural studies approaches to the analysis of media. The course surveys the major theoretical perspectives and explores content themes that have shaped contemporary media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9625. Sem/Communication Abroad. 3 Credit Hours.**

Participation in one of Temple University's study abroad programs, including Temple/London, Temple/Japan, etc.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9647. Political Communication. 3 Credit Hours.**

Introduction to how communication scholars study politics and the media. The course considers prevalent political communication theories and trends, the relationship between political institutions and the press in the US and in other countries, elections, debates, political campaigning and advertising, new media and politics, political socialization, education, politics and popular culture.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9700. Advanced Topic/MMC I. 3 Credit Hours.**

Consideration of advanced and timely topics in Mass Media and Communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MMC 9707. Social Influence. 3 Credit Hours.**

This course is concerned with understanding social influence, including the determinants of and models of attitude, belief, and behavior change, and norms, social networks, and interpersonal strategies. Students will become familiar with some current theoretical and empirical studies of social influence, including problems of measurement and research design, as well as some models of attitude and influence. Students should become aware of the tactics of social influence, their theoretical basis, and their effectiveness when that information is available. Current research being done by the instructor will be presented as relevant.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9709. Media Globalization. 3 Credit Hours.**

This course examines the role of the media in the economic, political and cultural transformations that have come to be known as globalization. We will review and examine key concepts central to the understanding of globalization and explore the relationship between these concepts and the media. We will also discuss the historical and cultural debates that have shaped the development of global media studies and the theories that have emerged from these debates.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MMC 9101.

**MMC 9725. Media, Identity and Representation. 3 Credit Hours.**

This course examines the relationship between representation and the production of meaning as it relates to identity, both individual and community identity. This is achieved through analyzing of a diverse range of contemporary socio-cultural themes, sites and texts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9735. Emerging Media and Communication. 3 Credit Hours.**

Examination of theory and research related to emerging media and technology. This course will examine theories related to the design and affordances of new media technologies, new forms of communication that are made possible by these technologies, and ways of understanding the economic, social, cultural, and political dimensions of new media technologies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9744. Public Information Campaign. 3 Credit Hours.**

Exploration of techniques and issues used in information campaigns regarding health, energy conservation, environmental protection, and other topics, and the effects of campaigns on public knowledge and behavior. Students conduct an actual campaign on campus.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9748. Media and Social Memory. 3 Credit Hours.**

Examination of the role of mass media in the creation and revision of collective (or "social") memory and the role of collective memory in the creation and revision of mass media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9749. Social Media Analytics. 3 Credit Hours.**

The seminar offers an introduction to theoretical and methodological procedures for social scientific research that relies on social media and online content as primary data. Students will learn how to conceptualize a social scientific research project that uses online media as a main source of data about human behaviors, attitudes, and communication processes. Students will also learn how to use specific tools (R, NodeXL, scrapers, QDA Miner, etc.) to download content from social media (Twitter, Facebook, Instagram, etc.), organize it as datasets, and analyze it using simple statistical, text mining, and qualitative techniques. A brief introduction to downloading data from secondary data sources will also be provided. Student proficiency in basic statistical analysis and a higher level of computer literacy are expected. The main goal of the graduate seminar is to help budding social scientists step over their disciplinary boundaries when collecting and analyzing data generated by social media. At the same time, the seminar learning activities will ensure that procedures and methods reflect sound and theoretically grounded research practices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9882. Directed Projects/Comm. 1 to 8 Credit Hour.**

Tutorial course supervised by a specific MM&C faculty member. Obtain required form from SCAT Graduate Office (344 Annenberg Hall).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MMC 9883. Directed Readings/Comm. 1 to 4 Credit Hour.**

Tutorial course supervised by a specific MM&C faculty member. Obtain required form from SCAT Graduate Office (344 Annenberg Hall).

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MMC 9946. Theory and Research Seminar (STARSS). 1 Credit Hour.**

Students attend the SCT Theory and Research Seminar Series (STARSS) and write a short paper. May be repeated for credit.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MMC 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

Students prepare to take preliminary examinations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MMC 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

Students write their dissertation proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MMC 9999. Dissertation Research. 1 to 6 Credit Hour.**

Open only to Ph.D. candidates in MM&C. Students may register only after a dissertation proposal is officially approved. At least one credit must be taken each semester until the dissertation is successfully defended.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Media Studies and Production (MSP)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **MSP 5011. Introduction to Communication Concepts. 3 Credit Hours.**

This class reviews various theoretical frameworks that have served as foundations for and have shaped the study of human communicative behavior in the form of mediated communication. It will sort out pivotal traditions of study, topics of debate, and conceptual problems in media studies, concentrating on theory development in the United States and Europe. Whether you are interested in pursuing a Ph.D. or in developing skills as a media practitioner, this course provides the necessary background to acquiring a deep understanding of the nature and practices of mediated communication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **MSP 5021. Media Institutions. 3 Credit Hours.**

History and societal role of the mass media with an emphasis on the internal structure and workings of the mass media industries and their interaction with government and the public.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

### **MSP 5041. Communication Content and Behavior. 3 Credit Hours.**

Study of parametric and nonparametric statistics and electronic data processing in the context of mass communication research problems, with an emphasis on multivariate analyses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

### **MSP 5042. Media Technology and Culture. 3 Credit Hours.**

This course examines the relationships between technological developments and artifacts and cultural transformations. With a grounding in critical texts addressing the complex interplay between culture and media technologies, the course investigates the significance of both in social power, human agency, consciousness, identity, socio-political realities, public policy, knowledge, and the environment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MSP 5011 (may be taken concurrently) and MSP 5114 (may be taken concurrently)

### **MSP 5110. Introductory Topics in Media Studies & Production. 1 to 4 Credit Hour.**

Specific topic varies each semester. Please view course subtitle or consult with instructor for details.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

### **MSP 5114. Communication Research Methods. 3 Credit Hours.**

The underlying philosophy and survey of research methods as tailored to media issues. Topics include market research, rating systems, polling, surveys, depth interviews, content analysis, focus groups, ethnography, and field and laboratory experiments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **MSP 5246. Social History Mass Comm. 4 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 5310. Introductory Topics in Media Studies & Production. 1 to 4 Credit Hour.**

Specific topic varies each semester. Please view course subtitle or consult with instructor for details.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 5547. MA Project Workshop. 3 Credit Hours.**

This workshop-style course gives students the preproduction and previsualization tools needed to design and produce a well-crafted, well-researched media production for their Media Studies and Production Master of Arts final graduate project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in MSP 5011 (may be taken concurrently) and MSP 5114 (may be taken concurrently)

**MSP 5551. New Media Literacies. 3 Credit Hours.**

Examines intersection of education and participatory culture, literacy and technology change, the knowledge gap, informal learning and knowledge communities, emerging social skills and cultural competencies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 5655. Communication in Media Organizations. 3 Credit Hours.**

Whether managing the department of a television station or network, a broadband content site, a radio station or other media company, understanding how to work and lead within media organizations means understanding how to be an effective communicator for this unique field. This course is designed to blend the scholarship and foundational research on communication to explore communication skills within today's media organizations. It focuses on communication from leader to worker(s), from worker to leader(s), from peer to peer, within teams, inside the structures and outside. It also covers differences in communication styles and their effectiveness in large organizations, moderate and small businesses, team settings, cyber teams and when working independently. Topics include conflict resolution, managing cross-cultural workplaces, the impact of technology, online communication, emotions in the workplace, and current global trends. As an online class, work will consist of independent readings, weekly postings to a course online discussion board, online live chats, writing video commentaries, content review exams and a final project on a related topic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 5663. Art and Business of Recording. 3 Credit Hours.**

An examination of the creative, business, and legal issues involved in the process of a music recording project from the perspective of the Record Producer. Students develop skills related to the understanding of music industry contracts, project budgeting and financing, copyright and publishing. Significant time is also spent analyzing current industry trends, developing leadership skills, and individual growth of a unique production style within an historical perspective.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 5701. Producing and Directing. 4 Credit Hours.**

The theory and practice of television producing and directing techniques. Students will pitch original project ideas and work in small groups as a production company, focusing on longform works of TV/video production and will produce a quality television program from inception to completion. Students will also engage in writing for TV, casting, and editing in order to develop a professional and creative portfolio piece.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 5702. MA Documentary Production and Studies. 3 or 4 Credit Hours.**

This course is designed to help students create informative, engaging, thoroughly researched short documentary video from inception through creation. Students will gain experience as producers, directors, and editors of nonfiction audio/visual media. To provide practical and authentic experiences, most classes will mix topical class discussions with screenings, hands-on practice in areas of idea generation, research tools, production basics, editorial logic, interview design, production management, legal and fiscal responsibility, rights, clearance, fair use, funding, and distribution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 5788. Television Production Workshop. 8 Credit Hours.**

Development of weekly half hour television programs exploring Philadelphia. Focuses on meeting professional standards in content, form, and technical quality. Summer only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 5887. Graduate Radio Practicum. 1 to 4 Credit Hour.**

Students design and produce radio announcing and talk show projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 8010. Intermediate Topics in Media Studies and Production. 3 Credit Hours.**

Topic varies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 8110. Intermediate Topics in Media Studies and Production. 4 Credit Hours.**

Topics vary.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 8221. History of Electronic Media. 3 Credit Hours.**

Examination of the social, political, and technological history of electrical communications in the U.S., from forerunners of the telegraph through the modern telephone and integrated services of digital and broadband networks.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MSP 5021.

**MSP 8252. Law and Ethics of Digital Media. 3 Credit Hours.**

Discussion of the legal and ethical issues facing the media in an online environment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 8254. Public Information Media Campaigns. 3 Credit Hours.**

An examination of the use of theory and research in the design, implementation and evaluation of public information campaigns conducted via mass and other media. Students learn about key theories and research techniques regarding campaigns to affect knowledge, attitudes and behaviors on issues related to the individual and social good such as smoking, drug abuse, safe sex, recycling, animal welfare, disaster relief and many others. They then apply this knowledge by creating, conducting and evaluating a complete campaign conducted on campus.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 8275. #ourmedia: Community, Activist, Citizens' and Radical Media. 3 Credit Hours.**

All over the world, people are taking media technologies out of the hands of corporations and using them in their own unique ways: neighbors in Germantown, Philadelphia run their own radio station; the Maori of New Zealand write, direct, and produce films and TV series that reflect their realities and dreams; young women and men in Egypt and Tunisia use social media to mobilize against authoritarian regimes; and indigenous people in rural Mexico developed their own cell phone network. This course will take you on a journey around the world, exploring indigenous media in Mexico, New Zealand and Canada; radical media in Egypt and Tunisia; citizens' media in Colombia, Chile, Brazil, and Argentina; and immigrant media in Europe and the U.S. We will consider what it means for communities to create new narratives about and for themselves, outside of dominant corporate media structures. Along the way, the course will introduce issues of production, funding, regulation, technology, and design relevant to community/alternative/citizens' media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MSP 5011 and MSP 5014.

**MSP 8441. Media and Children. 3 Credit Hours.**

Influence of the media on children's development. Includes problems of studying socialization effects, media usage patterns, functions of the media, effects on family interaction, social class and race, political socialization, sexual behavior, consumer behavior, music, and aggression.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 8446. Psychological Processing of Media. 3 Credit Hours.**

Research and theory concerning the contemporary psychological significance of media. Topics include attention, memory, comprehension, emotional response, arousal, picture perception, unconscious processing, and person perception as they relate to traditional (radio, TV, print, film) and emerging (virtual reality, teleconferencing) media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 8457. Political Communication. 4 Credit Hours.**

Covers political communication theories, modes, means and institutions and serves as an introduction to how communication scholars study politics and the media.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 8471. Global Media. 3 Credit Hours.**

Study of the economic policy and technology of the emerging global communication system. Specific issues include transborder data flow, international organizations, and issues of cultural and national sovereignty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MSP 5021.

**MSP 8473. Information Society. 3 Credit Hours.**

Covers origins of the information society, information as a commodity, micro and macro economics of information, globalization, identity and community online, privacy, security, intellectual property and new media, democracy online, and how to think about the future.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MSP 5011 and MSP 5114)

**MSP 8614. Creating a Media Business. 4 Credit Hours.**

Principles of building one's own media business. Planning for a profit or non-profit media organization including market assessment, financing, and contracting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 8641. Broadcast and Cable Management. 4 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 8657. Current Issues in Media Management. 3 Credit Hours.**

Marketing strategies for networks, stations, and cable systems. Topics included relationships with government, networks, employee groups, and ownership; personnel policies and supervision, budgets and reports.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MSP 5655.

**MSP 8741. Emergent Media Production. 3 Credit Hours.**

A hands-on production studio/theory course in which students use new and emerging software and technologies to create web-based and mobile productions. Course involves lecture, discussion, demos, weekly blogs and project critiques.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 8985. Teach in Higher Ed: Comm. 3 Credit Hours.**

Teaching in Higher Education: Communications. This course focuses on learning theory and the best teaching practices, with the aim of preparing students for effective higher education teaching.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 9333. Master Colloq/Comp Exam. 2 Credit Hours.**

Comprehensive examination colloquium required for all MA students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 9787. Television Practicum. 4 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 9841. Seminar in Comm. 6 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 9845. Masters Colloquium. 1 Credit Hour.**

Current problems and opportunities in the field, discussions and presentations of current research, and lectures by senior scholars.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MSP 9983. Directed Readings in Communication. 1 to 4 Credit Hour.**

Tutorial course supervised by a specific MSP faculty member. Obtain required form from SMC Graduate Office in 344 Annenberg Hall.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 9985. Internship. 1 to 4 Credit Hour.**

Open only to MSP MA students with at least 20 semester hours completed. Students work as unpaid interns at compatible media industries and organizations. Enrollment limited to availability.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 9991. Directed Projects in Communication. 1 to 4 Credit Hour.**

Tutorial course supervised by a specific MSP faculty member. Obtain required form from SMC Graduate Office in 344 Annenberg Hall.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MSP 9996. MA Thesis/Project. 1 to 8 Credit Hour.**

MA Thesis/Project. No more than six credits may be counted toward the degree. See MSP Policies and Procedures.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Middle Grades & Secondary Education (MGSE)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MGSE 5146. Teaching Science, Technology, Engineering and Math Through Project Based Instruction. 3 Credit Hours.**

Project-Based Instruction (PBI) engages learners in exploring authentic, important, and meaningful questions of real concern to students. Through a dynamic process of investigation and collaboration and using the same processes and technologies that scientists, mathematicians, and engineers use, students work in teams to formulate questions, make predictions, design investigations, collect and analyze data, make products and share ideas. Students learn fundamental science and mathematical concepts and principles that they apply to their daily lives. PBI promotes equitable and diverse participation and engages students in learning. PBI is very well suited to align with inquiry-oriented teaching and learning as recommended in education policy documents such as the National Science Education Standards, Next Generation Science Standards, and the Principles and Standards for School Mathematics. PBI is also consistent with social constructivist learning theory and with learning sciences research about how people learn. The PBI course supports your continued development as a teacher, building on your previous courses. PBI provides opportunities for you to observe and teach in the secondary science or mathematics classroom, continuing your field experiences from the prior science and mathematics methods courses. PBI also seeks to build on the theoretical knowledge base you acquired in Child and Adolescent Development. This course will also provide opportunities for you to generate artifacts for a professional portfolio to meet requirements for certification. This course aims to help close the research-practice gap by developing your capacity to identify and evaluate best teaching practices as presented in research literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5196. Reading and Writing in the Middle Grades. 3 Credit Hours.**

The purpose of this course is to prepare pre-service teachers to teach reading and writing in the upper elementary and middle level settings. Students will be introduced to theories and current views of practice in the literacy field. The areas of language, listening, reading and writing are presented throughout this course as interrelated and integrated literacy processes. Emphasis will be on providing pre-service teachers with the competencies to implement strategic instructional practices and engage in ongoing assessment for a diverse middle grades population. We will also identify ways to build classroom communities through literacy practices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5296. Citizenship, Cultures, and Social Studies Education. 3 Credit Hours.**

This course examines ways to teach about diversity and dialogue in the practice of democracy. Using the social studies content areas and research in social justice, special attention is paid to the areas of multicultural and citizenship education as well as other compelling topics that influence the public or common good in a diverse society such as race relations, gender socialization, language differences, immigration, religious freedom, equality of economic and social opportunities, and global interdependence.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5404. Teaching Math in the Middle Grades. 3 Credit Hours.**

This course will focus on numbers, operations, and algebra, as appropriate for the middle grades. Special attention will be paid to understanding the conceptual difficulties students have in moving from whole numbers to rational numbers, additive thinking to multiplicative thinking, and arithmetic to algebra. Problem-solving, connections, and concrete models are emphasized. The particular content knowledge needed for teaching will be integrated in this course with general and content-specific pedagogies. Issues of planning, instruction, and assessment will be discussed. Field experiences in the form of small group instruction will support these discussions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5405. Teaching Science in the Middle Grades. 3 Credit Hours.**

This three-credit graduate course will draw on current methods (e.g., scientific inquiry and collaborative activities) to explore effective teaching and learning of science in the middle grades classroom. It is very important that children and adolescents develop scientific habits of mind. As a result, this course will be based on developing these habits of mind while giving students an understanding of the "Big Ideas" in science. This course will examine these big ideas in science as a whole, focusing heavily on scientific inquiry both as a pedagogical approach and a learning goal. Throughout the course, investigating the preconceptions that children and adolescents bring to the science classroom will be emphasized, as well as discovering the pedagogical approaches to uncovering and addressing them. Students will apply, evaluate, and reflect upon science teaching methods through class activities and field experience assignments that address the interdisciplinary nature of science.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5427. Curriculum and Methods of Foreign Language Education. 3 Credit Hours.**

This course is focused on methods of teaching foreign languages to young learners. The course is also focused on the American Council of Foreign Language Teachers (ACTFL) proficiency guidelines and content standards. There will be a theoretical component to the course, investigating issues related to child and adolescent language learning, and how it differs from post-adolescent language learning. There will also be a very practical component to the course, in which students will have numerous opportunities to apply their learning by creating foreign language lesson units, lesson plans, and assessments for in K-8 grade language learners. There will also be a very strong assessment component to the course, focusing on how teachers can integrate authentic, formative assessments to help guide instructional planning. The overall goals of the course are to deepen students' understanding of how foreign language instruction affects child and adolescent language learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Education & Human Development.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5428. Innovations in Foreign Language Education. 3 Credit Hours.**

This course seeks to allow foreign language teachers in training to examine methods and techniques of teaching language for communicative competence, and acquire practical knowledge of teaching. Featured are lesson and unit planning, teaching tasks, teaching strategies, materials development, teaching observations, and assessment based upon standards and learner performance guidelines. The course is also focused on the American Council of Foreign Language Teachers proficiency guidelines and Pennsylvania Department of Education World Languages content standards. The Intermediate Performance Assessment is also a focus of the course, and thus the 6 Temple University Teacher Education Program Performance Standards will be examined and applied extensively to foreign language teaching. Finally, a review of second language acquisition in relation to FL pedagogy is given. The goal of the course is to allow students to apply their pedagogical and content knowledge to a middle or high school foreign language teaching context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Education & Human Development.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5465. Methods and Materials in Secondary Social Studies. 3 Credit Hours.**

The purpose of this course is to develop an understanding of teaching the four major content areas of the social studies (history, geography, economics, and civics and government). The goal is to help prepare candidates to teach these areas in terms of designing curriculum and assessment; adapting strategies from the field; and considering innovative ways to teach by drawing on available resources. The course will cover the important theories of social education and the developmental course of learning history, economics, civics, geography, psychology, sociology, and anthropology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5466. Teaching for Understanding in Secondary Social Studies. 3 Credit Hours.**

This course focuses on applied social studies methods; the course objectives are (1) that pre-service social studies teachers will learn about the rich resources found at museums, archives, and historic sites and (2) that they will have an opportunity to apply what they have learned in the program to developing curricular materials. There is a required field experience for which students are placed at Philadelphia area cultural institutions. Students will be developing collections and curriculum materials for schools and teachers in general and for National History Day. Class time will be devoted to strengthening and supporting the field experience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in EDUC 5402.

**MGSE 5641. Teaching Written Composition in the Secondary School. 3 Credit Hours.**

An examination of the knowledge that writers employ when they compose different kinds of texts, of the instructional contexts that are most effective in helping secondary students develop that knowledge, of the extent to which different student populations require different approaches, and of the research and theory that informs effective practice. NOTE: As part of the course, students spend 2-3 hours each week assisting in a language arts classroom. Clearances are required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5642. Teaching Literature and Reading in the Secondary School. 3 Credit Hours.**

An investigation of the research and theory that informs what texts ought to be taught in secondary schools, how to teach them most effectively, and the extent to which different student populations require different approaches. NOTE: As part of the course, students spend 2-3 hours each week assisting in a language arts classroom. Clearances are required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MGSE 5796. Literacy and Differentiation in the Academic Areas, 7-12. 3 Credit Hours.**

This course examines ways in which secondary teachers can support students' engagement with reading and writing in the disciplines, including Mathematics, History & Social Studies, the Sciences, Foreign Language, English, and Career and Technical Education. How can we teach all students the concepts, facts, and skills that they need to do well in our discipline? What kinds of reading and writing issues can inhibit students' progress? How do we identify the kinds of difficulties that different text organizations may pose for students? How can we address these issues without taking time away from teaching our discipline? What kinds of reading and writing tasks can we use as resources for helping students to learn in our discipline? How do current state and national emphases on standards and teacher accountability affect our responsibilities in the classroom?

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Middle Grades Education (MGRE)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MGRE 5101. Citizenship, Cultures, and Social Studies Education. 3 Credit Hours.**

This course examines ways to teach about diversity and dialogue in the practice of democracy. Using the social studies content areas and research in social justice, special attention is paid to the areas of multicultural and citizenship education as well as other compelling topics that influence the public or common good in a diverse society such as race relations, gender socialization, language differences, immigration, religious freedom, equality of economic and social opportunities, and global interdependence.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGRE 5102. Reading and Writing in the Middle Grades. 2 to 3 Credit Hours.**

The purpose of this course is to prepare pre-service teachers to teach reading and writing in the upper elementary and middle level settings. Students will be introduced to theories and current views of practice in the literacy field. The areas of language, listening, reading and writing are presented throughout this course as interrelated and integrated literacy processes. Emphasis will be on providing pre-service teachers with the competencies to implement strategic instructional practices and engage in ongoing assessment for a diverse middle grades population. We will also identify ways to build classroom communities through literacy practices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGRE 5404. Teaching Math in the Middle Grades. 3 Credit Hours.**

This course will focus on numbers, operations, and algebra, as appropriate for the middle grades. Special attention will be paid to understanding the conceptual difficulties students have in moving from whole numbers to rational numbers, additive thinking to multiplicative thinking, and arithmetic to algebra. Problem-solving, connections, and concrete models are emphasized. The particular content knowledge needed for teaching will be integrated in this course with general and content-specific pedagogies. Issues of planning, instruction, and assessment will be discussed. Field experiences in the form of small group instruction will support these discussions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MGRE 5405. Teaching Science in the Middle Grades. 3 Credit Hours.**

This course will focus on the "big ideas" in the sciences as appropriate for the middle grades. Special attention will be paid to understanding the pre- and mis-conceptions that middle-level students hold. Scientific inquiry and its associated process skills will be emphasized. The particular content knowledge needed for teaching will be integrated in this course with general and content-specific pedagogies. Issues of planning, instruction, and assessment will be discussed. Field experiences in the form of small-group instruction and isolated whole-group instruction will support these discussions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Music (MUSC)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MUSC 5000. Recital Extension. 2 Credit Hours.**

Extension of private applied lessons beyond performance curriculum requirements on both undergraduate and graduate levels in order to complete preparation for the graduation recital. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses. NOTE: Not applicable toward degree. Offered on pass/fail basis only. Private lesson fee: \$500.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5152. Swing Owls Campus Community Jazz Band. 1 Credit Hour.**

The Swing Owls is a jazz band comprised of Temple University students (majors and non-majors) and members of the Greater Philadelphia Community. No audition is required for membership. The ensemble meets one evening per week, totaling two hours of rehearsal, and performs a concert at the end of each semester. Members may elect to participate for Temple University academic credit or pay a nominal fee to join as a community member (course credit is not transcribed in the latter choice). NOTE: Ability to read music is required; personally owned instrument or rental needed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5201. Applied Vocal Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5202. Applied Vocal Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5203. Applied Vocal Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5279. Career Planning for the Classical Singer. 1 Credit Hour.**

To pursue a career as a professional classical singing actor, an extensive range of skills is demanded of the singer. It is only through high caliber training, unshakeable dedication, a commitment to musical and artistic excellence, and effective management that those careers are made. This course will provide a comprehensive survey of the varied extra-musical skills and knowledge one needs to plan a career as a viable, professional singer.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5310. Choral Ensemble. 1 Credit Hour.**

Advanced performance of standard choral literature. At least one public performance per semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5352. Singing Owls Campus/Community Choir. 0 to 1 Credit Hours.**

The Singing Owls is a chorus comprised of Temple University students and members of the Greater Philadelphia community, and is open to all without audition. The ensemble rehearses once weekly and performs once per semester. Repertoire is varied and diverse. Members may elect to participate for Temple University academic credit or pay a nominal fee to join as a community member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5401. Applied Keyboard Graduate Minor. 2 Credit Hours.**

Advanced private keyboard instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5402. Applied Keyboard Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5403. Applied Keyboard Graduate Minor. 2 Credit Hours.**

Advanced studio private instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B in MUSC 5402.

**MUSC 5431. Alexander Technique Introduction. 1 Credit Hour.**

This course offers a basic understanding of the history and principles of the Alexander Technique. It is designed to enable the student to enhance expression and performance skills, prevent injuries, and develop healthy practice and rehearsal techniques. The technique offers a practical solution to ongoing issues with pain and fatigue, effective expression and intonation, breath support and stage presence. The principles can be applied to all areas of creative expression, from instrumental, vocal and dance technique, to acting, writing, painting and sculpting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5480. Special Topics in Music. 1 to 3 Credit Hour.**

Advanced study in a faculty-and-department-approved performance area/topic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5501. Applied Instrumental Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5502. Applied Instrumental Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5503. Applied Instrumental Graduate Minor. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5524. Advanced Conducting. 2 Credit Hours.**

Advanced ensemble conducting techniques for various ensemble formats. Score study and preparation. Conducting of varied ensembles with repertoire at varying levels of difficulty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 5552. Samba Owls. 1 Credit Hour.**

A fun, high-energy musical ensemble exploring the rhythms, sounds, and movement of Brazil's samba schools. Participants will learn actively as a performing member of a *batucada*, the traditional percussion ensemble of the samba groups. Students are involved in rhythm, drumming, movement, and singing/vocalization. There are no musical prerequisites - anyone is welcome to join.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5556. Hand Percussion Techniques for Drummers, Dancers and Concert Percussionists. 1 to 2 Credit Hour.**

The course will cover techniques and basic patterns for the conga drums, bongos, timbal, and afro-cuban accessory percussion instruments. Students will be introduced to concepts from the Latin and Caribbean musical traditions, receive hands-on training and develop practical performance skills on a variety of instruments, and increase their awareness and understanding of the appropriate use of these instruments in different musical ensembles.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5560. Seminar in Guitar Performance and Literature. 1 to 2 Credit Hour.**

Advanced exploration of issues related to performance. Advanced analysis of representative works. Attention to problems of transcription and performance practice. Student researched presentations on historical topics. Performance of representative guitar chamber and ensemble literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5571. International Exchange Applied Instrumental Lesson. 3 Credit Hours.**

Weekly advanced private instrumental studio lessons with a major teacher for graduate international exchange students. Culminates in an end-of-semester jury. Open only to International Exchange students. Students are required to perform in various formats/venues outside the university.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5572. International Exchange Applied Voice Lesson. 3 Credit Hours.**

Weekly advanced voice private lesson with major teacher. Open only to International Exchange students. Culminates in an end-of-semester jury. Students are required to perform outside the university.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5573. International Exchange Large Ensemble. 1 Credit Hour.**

Large ensemble with scheduled rehearsals and public performances. May include: symphony orchestra, wind symphony, symphonic band, choral ensembles, jazz band, jazz lab band, vocal jazz ensemble, early music ensemble, and new music ensemble.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5574. International Exchange Small Ensemble. 1 Credit Hour.**

Small ensembles with scheduled rehearsals and public performances. May include: chamber ensembles, percussion ensemble, new music ensemble, choral ensembles, and jazz ensembles.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 5652. Owlchestra Campus Community String Orchestra. 1 Credit Hour.**

The Owlchestra is a string orchestra comprised of Temple University students (majors and non-majors) and members of the Greater Philadelphia Community. No audition is required for membership. The ensemble meets one evening per week, totaling two hours of rehearsal, and performs a concert at the end of each semester. Members may elect to participate for Temple University academic credit or pay a nominal fee to join as a community member (course credit is not transcribed in the latter choice). NOTE: Ability to read music is required; personally owned instrument or rental needed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8000. Continuing Registration Status. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8004. Piano Major Concentration in Pedagogy. 2 Credit Hours.**

Private lessons for graduate Piano Pedagogy majors. One-hour lesson each week plus performance class. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8014. Piano Major Concentration in Pedagogy. 2 Credit Hours.**

Private lessons for graduate Piano Pedagogy majors. One-hour lesson each week plus performance class. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8004.

**MUSC 8024. Piano Major Concentration in Pedagogy. 2 Credit Hours.**

Private lessons for graduate Piano Pedagogy majors. One-hour lesson each week plus performance class. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8014.

**MUSC 8084. Piano Major Concentration in Pedagogy (Recital). 3 Credit Hours.**

Private lessons for graduate Piano Pedagogy majors culminating in a recital. One-hour private lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8024.

**MUSC 8180. Special Topics in Percussion. 1 to 3 Credit Hour.**

This course is designed to provide the opportunity for students to acquire important and practical knowledge and experience in areas of percussion not covered in other courses. Subjects include instrument design, maintenance and repair, and Latin Percussion. Content may vary each semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8204. Voice Major. 3 Credit Hours.**

Private lessons for graduate Voice majors. One-hour private lesson each week plus performance class. Jury at the end of the semester. Full recital during final year of study.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8205. Musical Theater Voice and Acting. 1 to 3 Credit Hour.**

Advanced work in the application of performance techniques to specific songs from the American Musical Theater of the first half of the 20th century. The incorporation of truthful acting with attention to given circumstances and objectives is blended with principles of healthy, supported singing.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8206. Musical Theater Scene Study. 1 to 3 Credit Hour.**

Advanced work in the application of performance techniques to specific scenes from the American Musical Theater provides further development for the student of musical theater. Vocal and acting skills are combined with the development of character in musical play scene-work including both song and dialogue. Students spend the semester in collaboration with fellow students on notable and challenging scenes from the musical theater.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8207. Vocal Pedagogy for the Choral Conductor. 2 Credit Hours.**

Topics will be relevant to teaching singing. The history of singers, singing styles, teachers, and teaching styles will be discussed. The basic science of singing, anatomy, health and basic acoustical models will be covered. There will be an exploration of methods of studio teaching and the application of these methods to private students. Graduate students in choral conducting will apply concepts and knowledge toward preparing choral rehearsals and preparing teaching materials for an undergraduate voice class.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8210. Opera Ensemble. 0 to 1 Credit Hours.**

Required for singers cast in Temple University Opera Theater productions.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8211. Opera Coaching. 2 Credit Hours.**

Private lessons for graduate Opera majors. One-hour private lesson each week. Emphasis on interpretation, diction, and style through study of operatic aria repertoire and/or operatic role study. May be taken one time only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8212. Coaching Skills. 2 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8213. Opera Diction. 2 Credit Hours.**

Designed to apply general knowledge about the International Phonetic Alphabet and the flavors of French, Italian, German, and English diction directly to repertoire. Emphasis on the expressive projection of text in singing. Singers must prepare at least one aria in each language.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8214. Voice Major. 3 Credit Hours.**

Private lessons for graduate Voice majors. One-hour private lesson each week plus performance class. Jury at the end of the semester. Full recital during final year of study.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8204.

**MUSC 8215. Vocal Coaching. 2 Credit Hours.**

Emphasis on style, diction, phrasing, and performance traditions in preparation for the master's degree recital. May be taken one time only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8216. Aria Repertoire. 2 Credit Hours.**

Required course for all Opera majors; others by permission of the instructor.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8217. Vocal Pedagogy for the Choral Conductor. 2 Credit Hours.**

To equip choral conductors with the understanding of the vocal mechanism and the need to promote healthy singing through the choral experience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8220. Opera Workshop. 2 Credit Hours.**

Voice and Opera majors only. Gives singers practical experience on the stage and performance of operatic roles.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8224. Voice Major. 3 Credit Hours.**

Private lessons for graduate Voice majors. One-hour private lesson each week plus performance class. Jury at the end of the semester. Full recital during final year of study.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8214.

**MUSC 8231. Opera Role Preparation. 3 Credit Hours.**

For Professional Studies majors only. Preparation for performances of Opera roles directed by the Temple University Opera Theater faculty, with laboratory experience through participation in Opera Theater.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8232. Opera Role Preparation. 3 Credit Hours.**

For Professional Studies majors only. Preparation for performances of Opera roles directed by the Temple University Opera Theater faculty, with laboratory experience through participation in Opera Theater.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8233. Vocal Coaching: Professional Studies. 2 Credit Hours.**

Vocal coaching for Professional Studies Voice or Opera majors only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8234. Opera Major. 2 Credit Hours.**

Private lessons for graduate Opera majors. One-hour lesson each week plus performance class. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8235. Opera Vocal Lessons. 2 Credit Hours.**

For Professional Studies majors only. One-hour private lesson each week. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8236. Opera Vocal Lessons. 2 Credit Hours.**

For Professional Studies majors only. One-hour private lesson each week. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8235.

**MUSC 8244. Opera Major. 2 Credit Hours.**

Private lessons for graduate Opera majors. One-hour lesson each week plus performance class. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8234.

**MUSC 8245. Vocal Literature: Renaissance and Baroque. 2 Credit Hours.**

A singer's examination of repertoire for solo voice beginning with the song literature of the Middle Ages and concluding with Baroque Opera.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8246. Vocal Literature: Classical/Bel Canto. 2 Credit Hours.**

Examination of opera and concert repertoire in the bel canto style, with emphasis on Mozart, Bellini, Donizetti, and Rossini. Art of vocal embellishment and cadenza writing. Opportunity to implement skills through class performance. Studies in historical context as well as harmonic and textual analysis.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8247. Vocal Literature: German Romantic. 2 Credit Hours.**

Survey of the German solo vocal repertoire of the Romantic period, with detailed studies of the major works.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8248. Vocal Literature: French Romantic. 2 Credit Hours.**

Survey of the French solo vocal repertoire of the Romantic period, with detailed studies of the major works.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8249. Vocal Literature: Contemporary. 2 Credit Hours.**

The foundation for this course is an overview of the vocal repertoire of the 20th and 21st centuries, which will examine the changing role of the singer in contemporary music.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8254. Opera Major. 2 Credit Hours.**

Private lessons for graduate Opera majors. One-hour lesson each week plus performance class. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8244.

**MUSC 8264. Opera Major. 2 Credit Hours.**

Private lessons for graduate Opera majors. One-hour lesson each week plus performance class. Jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8254.

**MUSC 8274. Opera Role Performance. 1 Credit Hour.**

Master's degree students in Opera must demonstrate mastery of the music/characterization of two adjudicated opera roles. This is fulfilled through performance of a role in Temple University Opera Theater productions designated as a major role or by passing a pre-approved performance examination.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8279. Career Planning for the Classical Singer. 1 Credit Hour.**

To pursue a career as a professional classical singing actor, an extensive range of advanced skills is required. It is only through high caliber training, unshakeable dedication, a commitment to musical and artistic excellence, and effective management that those careers are made. This course will provide a comprehensive survey of the varied extra-musical skills and advanced knowledge needed to plan a career as a viable, professional singer.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8284. Voice Major-Recital. 3 Credit Hours.**

Private lessons for graduate Voice majors. One-hour private lesson each week. Jury at the end of the semester. Full recital during final year of study.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8224.

**MUSC 8300. Concert Choir. 0 to 1 Credit Hours.**

By audition only. Select ensemble with significant performance schedule, including tours.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8310. Choral Ensemble. 1 Credit Hour.**

Advanced performance of standard choral literature. At least one public performance per semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8320. Special Topics: Choral Music. 1 to 3 Credit Hour.**

Literature, analysis, conducting, and related skills.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8351. Choral Conducting Seminar I. 2 Credit Hours.**

Advanced course for the graduate student who is active in the choral field. Designed to refine skills of conducting technique, rehearsal and program planning, research and analysis, observation, and practical application.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8352. Choral Conducting Seminar II. 2 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8351.

**MUSC 8353. Choral Conducting Seminar III. 2 Credit Hours.**

Culminates in the first of two public recitals.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8352.

**MUSC 8354. Choral Conducting Seminar IV. 2 Credit Hours.**

Culminates in the second of two public recitals.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8353.

**MUSC 8356. Choral Literature: Early Period. 2 Credit Hours.**

Study of choral works from the 15th century through Renaissance period. Emphasis on analysis, conducting, interpretation, and performance practices.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8357. Choral Literature: Classic and Romantic Periods. 2 Credit Hours.**

Study of choral works from the Classic and Romantic periods. Analysis, conducting, interpretation, performance practices, and historical context emphasized.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8358. Choral Literature: Baroque Period. 2 Credit Hours.**

Study of choral works from the Baroque period. Survey plus in-depth study of several major works.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8359. Choral Literature: 1910 to the Present. 2 Credit Hours.**

Study of choral works from precursors to Impressionism to the current avant garde.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8361. Choral Literature 1450-1610. 2 Credit Hours.**

Study of choral works from the 15th century through Renaissance period. Emphasis on analysis, conducting, interpretation, and performance practices.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8362. Choral Literature 1610-1910. 2 Credit Hours.**

Study of choral works from the Classic and Romantic periods. Analysis, conducting, interpretation, performance practices, and historical context emphasized.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8363. Choral Literature 1910-Present. 2 Credit Hours.**

Advanced study of major and minor choral works from Impressionism to current practice which expands engagement with choral literature to include music outside the Western European canon and enables comprehensive advanced conducting skills development.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8364. Choral Literature in the Global Community. 2 Credit Hours.**

A survey of choral music from different cultures throughout the world including North America, Latin America, Eastern Europe and Israel, West and Central Asia, East Asia, South and Southeastern Asia, Oceania, and Africa. Choral music outside the classical canon will include works in jazz and gospel styles, African-American spirituals, and music by women composers. Additionally, topics concerning today's global choral community will also be discussed.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8384. Private Lesson: Choral Conducting Major. 1 Credit Hour.**

For graduate Choral Conducting majors only. Private lessons in preparation for graduation recital performances with the Graduate Conductors' Chorus and the Recital Chorus.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Choral Conducting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MUSC 8351.

**MUSC 8404. Piano Major. 3 Credit Hours.**

Private lessons for graduate Piano majors. One-hour lesson each week plus performance class. Full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8414. Piano Major. 3 Credit Hours.**

Private lessons for graduate Piano majors. One-hour lesson each week plus performance class. Full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8404.

**MUSC 8416. Piano for Accompanying and Chamber Music Majors. 2 Credit Hours.**

Private lessons for graduate Piano Accompanying and Chamber Music majors. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. One-hour lesson each week plus performance class.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8417. Piano for Accompanying and Chamber Music Majors. 2 Credit Hours.**

Private lessons for graduate Piano Accompanying and Chamber Music majors. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. One-hour lesson each week plus performance class.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8416.

**MUSC 8418. Piano for Accompanying and Chamber Music Majors. 2 Credit Hours.**

Private lessons for graduate Piano Accompanying and Chamber Music majors. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. One-hour lesson each week plus performance class.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8417.

**MUSC 8419. Piano for Accompanying and Chamber Music Majors. 2 Credit Hours.**

Private lessons for graduate Piano Accompanying and Chamber Music majors. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. One-hour lesson each week plus performance class.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8418.

**MUSC 8424. Piano Major. 3 Credit Hours.**

Private lessons for graduate Piano majors. One-hour lesson each week plus performance class. Full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8414.

**MUSC 8441. Seminar in Early Keyboard Instruments I. 3 Credit Hours.**

For harpsichordists interested in expanding their knowledge of the repertoire as well as pianists wishing to gain harpsichord experience. The study, preparation, and performance of harpsichord and fortepiano literature in relation to the instrument itself and the historical context.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8442. Seminar in Early Keyboard Instruments II. 3 Credit Hours.**

Harpichord study focusing on the works of J.S. Bach. Fortepiano study will begin before midterm, with a study of the instrument itself and performance of classical piano works of Haydn, Mozart, Beethoven, and lesser-known composers of the period.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8441.

**MUSC 8443. Listening/Learning Skills: Piano I. 3 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8444. Listening/Learning Skills: Piano II. 3 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8461. Piano Pedagogy I. 2 Credit Hours.**

Designed to equip teachers to train intermediate and advanced piano students. Investigation of materials relevant to teaching at this level.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8462. Class Piano Pedagogy. 2 Credit Hours.**

Techniques involved in teaching group piano; survey of available methods and materials; student teaching under supervision of instructor.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8463. Class Piano Practice Teaching II. 2 Credit Hours.**

Practicum in class piano teaching under supervision of professor, with weekly meetings on methodology and materials.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8462.

**MUSC 8464. Pedagogy of Technique. 2 Credit Hours.**

Developing clear and intelligent pedagogical methods for all aspects of piano technique. Historical development of keyboard technique is reviewed; an overview of fundamental physiological principles involved in playing the piano is presented.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8465. Piano Pedagogy II. 2 Credit Hours.**

Exploration of advanced topics in teaching piano to students at intermediate to advanced levels of ability.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8461.

**MUSC 8466. Piano Pedagogy. 2 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8467. American Piano Pedagogy. 1 Credit Hour.**

A series of six one-semester independent studies to be taken by international graduate piano students, both master's and doctoral level, who received the major share of their training outside of the United States. Lessons familiarize them with: 1. American pedagogical method books; 2. American technical approaches; 3. American teaching materials for children; 4. American teaching materials for adults; 5. contemporary American keyboard literature; 6. how American competitions and job interviews are conducted. 7. how American pianists engage different pedagogical situations in various settings beyond the university which include teaching, conducting, and accompanying both individuals and groups. In addition to researching the above subjects through reading assignments, students are required to teach the piano actively outside the university and to write a paper at the end of the course summarizing differences between American methods and materials and those of their native lands.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Performance, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8471. Recital Accompanying. 1 Credit Hour.**

Practical experience in vocal and/or instrumental accompanying and chamber music.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8472. Recital Accompanying. 1 Credit Hour.**

Practical experience in vocal and/or instrumental accompanying and chamber music.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8471.

**MUSC 8473. Recital Accompanying. 1 Credit Hour.**

Practical experience in vocal and/or instrumental accompanying and chamber music.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8472.

**MUSC 8474. Recital Accompanying. 1 Credit Hour.**

Practical experience in vocal and/or instrumental accompanying and chamber music.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8473.

**MUSC 8475. Studio Accompanying. 1 Credit Hour.**

Practical accompanying experience in voice studio, with emphasis on repertoire building.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Accp-Chmbr Music, Piano Accp-Opera Coach, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8476. Suzuki for Pianists. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8477. Baroque Keyboard Performance Practice. 3 Credit Hours.**

A workshop approach to seeking ideas and solutions for stylistic and artistic performance of Baroque keyboard music. The writings of Frescobaldi, Couperin, and Quantz are compared to their musical compositions for direct experience in applying historical concepts to performance. Additional readings and music address general topics, such as embellishment, touch, and rhythmic conventions in the music of J.S. Bach.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8478. Classical Keyboard Performance Practice. 3 Credit Hours.**

A workshop approach to seeking ideas and solutions for stylistic and artistic performance of Classical keyboard music. The writings of C.P.E. Bach, Turk, and Clementi are compared to their musical compositions for direct experience in applying historical concepts to performance. Additional readings and music address general topics, such as ornamentation, pedaling, and tempo in the music of Haydn, Mozart, and Beethoven.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8479. Romantic Performance Practice: The Schumanns, Chopin, and Brahms. 3 Credit Hours.**

This seminar will focus on historically aware interpretations of keyboard, vocal, and chamber music by the Schumanns, Chopin, and Brahms. Special attention will be paid to the roles of improvisation, dance, and earlier instruments, along with questions of tempo, articulation, and rubato. Assignments will include reading, listening, and class performance.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8480. Special Topics in Music. 1 to 3 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8484. Piano Major-Recital. 3 Credit Hours.**

Private lessons for graduate Piano majors. One-hour lesson each week plus performance class. Full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Piano Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8424.

**MUSC 8500. Instrumental Ensemble. 1 Credit Hour.**

By audition only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8504. Instrumental Major. 3 Credit Hours.**

Private lessons for graduate Instrumental majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8510. Instrumental Ensemble. 1 Credit Hour.**

By audition only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8514. Instrumental Major. 3 Credit Hours.**

Private lessons for graduate Instrumental majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8504.

**MUSC 8520. Wind Chamber Symphony. 1 Credit Hour.**

Singers selected from Concert Choir. Stipend may be available. Two performances per semester with graduate Conducting majors.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8524. Instrumental Major. 3 Credit Hours.**

Private lessons for graduate Instrumental majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8414.

**MUSC 8535. Private Lessons: Instrumental Conducting Major. 2 Credit Hours.**

Private lessons and work with the Wind Symphony and Symphonic Band will lead to two public performances—one including large chamber wind pieces with select members of winds, brass, strings, and percussion students, and the other including several concert band pieces with the Wind Symphony and Symphonic Band. Performance schedule will extend across the academic year.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Instrument Conductng Wind Band.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Music.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8536. Private Lessons: Instrumental Conducting Major. 2 Credit Hours.**

Private lessons and work with the Wind Symphony and Symphonic Band will lead to two public performances—one including large chamber wind pieces with select members of winds, brass, strings, and percussion students, and the other including several concert band pieces with the Wind Symphony and Symphonic Band. Performance schedule will extend across the academic year.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Instrument Conductng Wind Band.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Music.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8535.

**MUSC 8537. Private Lessons: Instrumental Conducting Major. 2 Credit Hours.**

Private lessons and work with the Wind Symphony and Symphonic Band will lead to two public performances—one including large chamber wind pieces with select members of winds, brass, strings, and percussion students, and the other including several concert band pieces with the Wind Symphony and Symphonic Band. Performance schedule will extend across the academic year.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Instrument Conductng Wind Band.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Music.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8535 and MUSC 8536.

**MUSC 8538. Private Lessons: Instrumental Conducting Major. 2 Credit Hours.**

Private lessons and work with the Wind Symphony and Symphonic Band will lead to two public performances—one including large chamber wind pieces with select members of winds, brass, strings, and percussion students, and the other including several concert band pieces with the Wind Symphony and Symphonic Band. Performance schedule will extend across the academic year.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Instrument Conductng Wind Band.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Music.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8535, MUSC 8536, and MUSC 8537.

**MUSC 8539. Instrumental Conducting Seminar: Score Analysis, Programming & Interpretation of Wind Ensemble Lit. 2 Credit Hours.**

Focus on score study, programming, rehearsal techniques and advancement of personal interpretation specifically related to the wind ensemble and its literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8541. Advanced Orchestral Conducting I-II. 2 Credit Hours.**

Rehearsal techniques of the symphony orchestra: gestures, right and left hand techniques. Emphasis on advanced repertoire. Methods of preparation of a score for concert performance. Introduction of concepts of string bowings and their applications. Opportunities to rehearse an orchestra.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8544. Wind Repertory in History: European Antiquity through the 21st Century. 2 Credit Hours.**

This course will survey the development and repertory of wind-band music from European Antiquity through the present day. Course topics will include the examination and analysis of the development of instruments, cornerstone pieces in each period, performance practice considerations, commissioning projects, current state of wind-band performance opportunities, varied styles of concert programming, audio identification, and developing strategies to determine quality repertory for the medium.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8545. History of Wind and Brass Chamber Music. 2 or 3 Credit Hours.**

This class traces the use and development of small wind/brass chamber ensembles from the Middle Ages to the present. Consort types to be studied include the medieval waits; renaissance stadtpfeiffers; baroque oboe bands; classical harmonie, especially the Vienna Octet; 19th- and 20th-century woodwind and brass ensembles, especially quintets; and works for combinations of winds and brass. Emphasis is placed on their literature and listening to repertoire.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8546. Viola for Violinists. 1 Credit Hour.**

Designed for Violin Performance or Education majors. Covers basic differences between playing violin and viola. Students should provide their own viola if possible.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8551. Percussion History, Development and Performance Practices. 2 to 3 Credit Hours.**

The course is designed to enable students to engage the informational resources, general history, and performance practice of percussion in the traditional, Non-Western and contemporary contexts.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8552. Percussion Pedagogy. 2 to 3 Credit Hours.**

This course is designed to enable students to develop the necessary knowledge and skills to make intelligent and informed decisions about the teaching of percussion instruments. Students analyze, compare, and critique curricula, teaching modalities, performance practices, methods, materials, and literature.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8553. Multi-Percussion in the Orchestra. 1 to 2 Credit Hour.**

This course enables students to develop the complex skills necessary to perform multi-percussion and drum set parts in the symphony and chamber orchestra settings. Sample works to be covered include Creation of the World (Milhaud), L'Histoire du Soldat (Stravinsky), West Side Story Suite (Berstein), Facade (Walton), American in Paris (Gershwin), and works from the jazz and popular music styles.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8554. Orchestral Repertoire: Percussion. 1 or 2 Credit Hour.**

Orchestra repertoire is designed to prepare students at a professional level for the specific demands of orchestral performance and auditions.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8555. Orchestral Repertoire. 1 Credit Hour.**

Weekly reading workshop to acquaint orchestral players with standard orchestral repertoire and playing techniques.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8556. Afro-Cuban Percussion Techniques. 2 Credit Hours.**

A practical study in the musical language and percussive traditions of Afro-Cuban and Latin American music. The goal is to equip the learner with greater knowledge, understanding, and practical performance skills with regard to percussion instruments of the Afro-Cuban musical traditions. Students will engage in group performance and improvisation and will hone ensemble and presentation skills. The course experience is largely a "hands-on" lab; therefore, students are required to attend the weekly meetings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8561. Lower String Pedagogy. 2 to 3 Credit Hours.**

Examination of problems in playing and presentation of developmental and remedial teaching techniques; exploration of solo literature and available teaching materials from beginning through advanced levels.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8562. Upper String Pedagogy. 2 to 3 Credit Hours.**

Examines problems and teaching techniques, solo and ensemble literature, and available teaching materials at beginning through advanced levels.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8566. String Major/Pedagogy. 2 Credit Hours.**

Private lessons for graduate String Pedagogy majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8567. String Major/Pedagogy. 2 Credit Hours.**

Private lessons for graduate String Pedagogy majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8566.

**MUSC 8568. String Major/Pedagogy. 2 Credit Hours.**

Private lessons for graduate String Pedagogy majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8567.

**MUSC 8569. String Major/Pedagogy. 2 Credit Hours.**

Private lessons for graduate String Pedagogy majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8568.

**MUSC 8571. Studio Ensemble Pedagogy I. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8579. Orchestra Audition Prep. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 8584. Instrumental Major (Recital). 3 Credit Hours.**

Private lessons for graduate Instrumental majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8524.

**MUSC 8611. Harpsichord for Pianists. 3 Credit Hours.**

A practical introduction to performance on the harpsichord for pianists with little or no experience with historical keyboards. Topics include history, technique and repertoire from ca. 1500-present.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8904. Harpsichord Major. 3 Credit Hours.**

Private lessons for graduate Harpsichord majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 8914. Harpsichord Major. 3 Credit Hours.**

Private lessons for graduate Harpsichord majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8904.

**MUSC 8924. Harpsichord Major. 3 Credit Hours.**

Private lessons for graduate Harpsichord majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8914.

**MUSC 8984. Harpsichord Major. 3 Credit Hours.**

Private lessons for graduate Harpsichord majors. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 8924.

**MUSC 9001. Appl Music-Prof Studies. 4 Credit Hours.**

Private lessons for graduate Professional Studies majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9002. Appl Music-Prof Studies. 4 Credit Hours.**

Private lessons for graduate Professional Studies majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9001.

**MUSC 9004. Doctoral String Major. 3 Credit Hours.**

Private lessons for doctoral String majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9011. Doctoral Chamber Music. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9012. Doctoral Chamber Music. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9013. Doctoral Chamber Music. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9014. Doctoral String Major. 3 Credit Hours.**

Private lessons for doctoral String majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9004.

**MUSC 9021. Chamber Music. 1 Credit Hour.**

Advanced performance activities in small ensembles of various sizes and instrumentation.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9024. Doctoral String Major. 3 Credit Hours.**

Private lessons for doctoral String majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9014.

**MUSC 9034. String Major Doctorate. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9024.

**MUSC 9101. Professional Studies. 4 Credit Hours.**

Private lessons for graduate Professional Studies majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUSC 9001 and MUSC 9002)

**MUSC 9102. Professional Studies. 4 Credit Hours.**

Private lessons for graduate Professional Studies majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUSC 9001, MUSC 9002, and MUSC 9101)

**MUSC 9104. Historical Keyboard Instruments Major/Doctoral. 3 Credit Hours.**

Private lessons for doctoral Historical Keyboard majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. This course emphasizes the preparation of advanced performers who specialize in historic performance on period keyboard instruments. The goals are performance at the highest professional level and the incorporation of historical performance and advanced theoretical skills. This course is a central component of the major.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9114. Historical Keyboard Instruments Major/Doctoral. 3 Credit Hours.**

Private lessons for doctoral Historical Keyboard majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. This course emphasizes the preparation of advanced performers who specialize in historic performance on period keyboard instruments. The goals are performance at the highest professional level and the incorporation of historical performance and advanced theoretical skills. This course is a central component of the major.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUSC 9104.

**MUSC 9124. Historical Keyboard Instruments Major/Doctoral. 3 Credit Hours.**

Private lessons for doctoral Historical Keyboard majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. This course emphasizes the preparation of advanced performers who specialize in historic performance on period keyboard instruments. The goals are performance at the highest professional level and the incorporation of historical performance and advanced theoretical skills. This course is a central component of the major.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUSC 9114.

**MUSC 9134. Historical Keyboard Instruments Major/Doctoral. 3 Credit Hours.**

Private lessons for doctoral Historical Keyboard majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations. This course emphasizes the preparation of advanced performers who specialize in historic performance on period keyboard instruments. The goals are performance at the highest professional level and the incorporation of historical performance and advanced theoretical skills. This course is a central component of the major.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUSC 9124.

**MUSC 9182. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9184. DMA Solo Public Recital. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9204. Voice Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson for matriculated doctoral students only. Diagnostic jury at the end of the semester.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9210. Special Topics in Voice. 3 Credit Hours.**

For DMA Voice Performance majors only. A seminar for singers. Emphasizes vocal technique as it relates to performance practice. Detailed examination of repertoire from selected historical periods.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9214. Voice Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson for matriculated doctoral students only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9024.

**MUSC 9220. Special Topics in Voice. 3 Credit Hours.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9224. Voice Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson for matriculated doctoral students only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9214.

**MUSC 9230. Special Topics in Voice. 2 Credit Hours.**

For DMA Voice Performance majors only. A seminar for singers. Emphasizes vocal technique as it relates to performance practice. Detailed examination of repertoire from selected historical periods.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9234. Voice Major Doctorate. 3 Credit Hours.**

One-hour weekly lesson for matriculated doctoral students only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9224.

**MUSC 9240. Special Topics in Voice. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9250. Special Topics in Vocal Pedagogy. 2 or 3 Credit Hours.**

For DMA Voice Performance majors only. Specialized research regarding various aspects of vocal pedagogy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9251. Voice Pedagogy. 2 Credit Hours.**

For DMA Voice Performance majors only. A survey of vocal pedagogical literature combined with studies in the elements of voice science.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9261. Vocal Pedagogy I. 2 Credit Hours.**

For DMA Voice Performance majors only. Detailed studies of pedagogical literature combined with studies in the elements of voice science.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9262. Vocal Pedagogy II. 2 or 3 Credit Hours.**

For DMA Voice Performance majors only. A continuation of MUSIC 9261.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9263. Advanced Vocal Pedagogy. 2 or 3 Credit Hours.**

For DMA Voice Performance majors only. Examines problems in teaching techniques as applied to solo vocal literature.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9282. Independent Study. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9351. Performance Traditions. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9384. DMA Chamber Recital. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9404. Piano Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson plus performance class for matriculated doctoral students only. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9414. Piano Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson plus performance class for matriculated doctoral students only. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9404.

**MUSC 9424. Piano Major/Doctoral. 3 Credit Hours.**

One-hour weekly lesson plus performance class for matriculated doctoral students only. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9414.

**MUSC 9434. Piano Major Doctorate. 3 Credit Hours.**

One-hour weekly lesson plus performance class for matriculated doctoral students only. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9424.

**MUSC 9451. Keyboard Literature-Doctoral. 2 Credit Hours.**

An intensive study of problem areas of piano literature: stylistic transitional periods, composers' notational idiosyncrasies, tempo concepts, etc.; the relationship of piano music to music for other media and to other art forms; the role of analysis in interpretation. Specific composers' output is examined in depth.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9452. Keyboard Literature-Doctoral. 2 Credit Hours.**

An intensive study of problem areas of piano literature: stylistic transitional periods, composers' notational idiosyncrasies, tempo concepts, etc.; the relationship of piano music to music for other media and to other art forms; the role of analysis in interpretation. Specific composers' output is examined in depth.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9453. Keyboard Literature-Doctoral. 2 Credit Hours.**

An intensive study of problem areas of piano literature: stylistic transitional periods, composers' notational idiosyncrasies, tempo concepts, etc.; the relationship of piano music to music for other media and to other art forms; the role of analysis in interpretation. Specific composers' output is examined in depth.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9454. Keyboard Literature-Doctoral. 2 Credit Hours.**

An intensive study of problem areas of piano literature: stylistic transitional periods, composers' notational idiosyncrasies, tempo concepts, etc.; the relationship of piano music to music for other media and to other art forms; the role of analysis in interpretation. Specific composers' output is examined in depth.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9461. Piano Pedagogy. 2 Credit Hours.**

Study of the teaching of difficult works of piano literature: virtuoso pieces, large-scale concertos, sonatas, and other works. Style, structure, and technique are explored.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9504. Doctoral Instrumental Major. 3 Credit Hours.**

Private lessons for doctoral Instrumental majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9514. Doctoral Instrumental Major. 3 Credit Hours.**

Private lessons for doctoral Instrumental majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9504.

**MUSC 9515. Technical and Interpretive Seminar-Strings. 2 Credit Hours.**

Comprehensive analysis of 17th- and 18th-century works for unaccompanied strings.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9516. Seminar for String Literature. 2 Credit Hours.**

Comprehensive study of the major string works of selected composers and genres. Solo and chamber works.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9517. Advanced Conducting-Doctoral. 2 Credit Hours.**

Detailed analysis of scores as if in preparation for a concert. Emphasis on interpretation and refinement of baton technique. Practical rehearsal procedures are covered, and Philadelphia Orchestra rehearsals are attended when possible.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9524. Doctoral Instrumental Major. 3 Credit Hours.**

Private lessons for doctoral Instrumental majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9514.

**MUSC 9534. Doctoral Instrumental Major. 3 Credit Hours.**

Private lessons for doctoral Instrumental majors. One-hour lesson each week. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUSC 9524.

**MUSC 9561. Single Reed Woodwind Ped. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9562. Double Reed Woodwind Pedagogy. 2 Credit Hours.**

Designed to apply principles of private instruction to the major instrument of study with regard to methodology, literature, stylistic concepts, technique, and transcription.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9563. Upper String Pedagogy. 3 Credit Hours.**

Examination of problems in playing and teaching techniques. Explores solo and ensemble literature, as well as available teaching materials at beginning through advanced levels.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9564. Flute Pedagogy. 2 Credit Hours.**

Designed to apply principles of private instruction to the major instrument of study with regard to methodology, literature, stylistic concepts, technique, and transcription.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9565. Lower Brass Pedagogy. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9566. Upper Brass Pedagogy. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9567. Lower String Pedagogy. 2 to 3 Credit Hours.**

Advanced examination of problems in playing and teaching techniques. Explores solo and ensemble literature, as well as available teaching materials at beginning through advanced levels.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Performance, String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9587. Practicum: String Pedagogy. 2 Credit Hours.**

For String Pedagogy majors only. Application of methods and repertoire to the teaching of String students in actual classroom and private settings.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance, String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9684. DMA Lecture-Recital. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9701. Doct Perf Practice I. 2 or 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9702. Doct Perf Practice II. 2 or 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9784. DMA Performance with Orchestra. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9884. DMA Major Opera Role. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9984. DMA Final Recital. 1 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9995. Final Project in Music. 0 to 2 Credit Hours.**

Designed with assistance of the advisor. Demonstrates specialized study in a specific area but may include a lecture/recital, teaching demonstration, research paper, or article.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUSC 9996. Final Project: String Pedagogy. 2 Credit Hours.**

Final project for master's String Pedagogy majors, designed with assistance of the advisor. Demonstrates specialized study in a specific pedagogical area. Final presentations vary among majors, but typically include a lecture/recital, teaching demonstration, research paper, article, or method book.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: String Pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

Registration required each semester after Preliminary Examinations while researching the dissertation proposal.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUSC 9999. Monograph Research. 1 to 6 Credit Hour.**

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Music Education (MUED)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MUED 5168. Student Teaching Seminar. 2 Credit Hours.**

Seminar for graduate certificate music education students enrolled in Music Education 5189 and/or Music Education 5289. Minimum GPA 3.00 in all MUED coursework. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5189. Student Teaching Elementary. 2 Credit Hours.**

Field experience in elementary grades for graduate music education certificate students enrolled in MUED 5168. Minimum GPA 3.00 in all MUED coursework. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5289. Student Teaching Secondary. 2 Credit Hours.**

Field experience in secondary grades for graduate music education certificate students. Minimum GPA 3.00 in all MUED coursework.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5389. Fieldwork in Music Therapy I. 1 to 3 Credit Hour.**

Supervised field placements where students learn how to plan and conduct music therapy sessions with different client populations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5489. Fieldwork in Music Therapy II. 1 to 3 Credit Hour.**

Supervised field placements where students learn how to plan and conduct music therapy sessions with different client populations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B in MUED 5389.

**MUED 5551. Percussion. 1 Credit Hour.**

Advanced methods for teaching percussion skills to students in a school setting. Topics may include but are not limited to: literature selection, various instrument performance idiosyncrasies, hand position and posture, maintenance, repair, proactive teaching and troubleshooting, methods and materials; instrument makes, accessories. Students are required to develop playing knowledge of instruments and literature.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5552. Woodwinds I. 1 Credit Hour.**

Methods for teaching woodwind skills to students in a school setting. Topics may include but are not limited to: literature selection, instrument assembly, hand position and posture, maintenance, assembling, embouchure, tone production, transposition, fingerings, range; proactive teaching and troubleshooting, methods and materials; instrument makes, and accessories. Students are required to develop a fundamental playing knowledge of instruments. NOTE: Required for all MPC majors.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5553. Upper Strings. 1 Credit Hour.**

Methods for teaching string skills to students in a school setting. Topics may include but are not limited to: literature selection, fingering and bowing patterns, shifting, vibrato, hand position and posture, maintenance, tone production, proactive teaching and troubleshooting, methods and materials; instrument makes, and accessories. Students are required to develop a fundamental playing knowledge of instruments.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5554. Lower Strings. 1 Credit Hour.**

Methods for teaching string skills to students in a school setting. Topics may include but are not limited to: literature selection, fingering and bowing patterns, shifting, vibrato, hand position and posture, maintenance, tone production, proactive teaching and troubleshooting, methods and materials; instrument makes, accessories. Students are required to develop a fundamental playing knowledge of instruments.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5555. Brass I. 1 Credit Hour.**

Methods for teaching brass skills to students in a school setting. Topics may include but are not limited to: literature selection, instrument assembly, hand position and posture, maintenance, embouchure, tone production, transposition, fingerings, range; proactive teaching and troubleshooting, methods and materials; instrument makes, accessories. Students are required to develop a fundamental playing knowledge of instruments.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5556. Brass II. 1 Credit Hour.**

Advanced methods for teaching brass skills to students in a school setting. Topics may include but are not limited to: literature selection, instrument assembly, hand position and posture, maintenance, embouchure, tone production, transposition, fingerings, range; proactive teaching and troubleshooting, methods and materials; instrument makes, accessories, and repairs. Students are required to develop a fundamental playing knowledge of instruments.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5557. Woodwinds II. 1 Credit Hour.**

Methods for teaching double reed skills to students in a school setting. Topics may include but are not limited to: literature selection, instrument assembly, hand position and posture, maintenance, embouchure, tone production, transposition, fingerings, range; proactive teaching and troubleshooting, methods and materials; instrument makes, and accessories. Students are required to develop a fundamental playing knowledge of instruments.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5558. Guitar I. 1 Credit Hour.**

Carefully sequenced developmental technical exercises designed to achieve competency with basic chord formations in all keys.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5559. Guitar II. 1 Credit Hour.**

A continuation of Music Education 5558 in which skills are further developed to include positions and more advanced folk and popular accompaniment techniques.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C- in MUED 5558.

**MUED 5589. Fieldwork in Music Therapy III. 1 to 3 Credit Hour.**

Supervised field placements where students plan and conduct music therapy sessions with different client populations and different settings.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B in MUED 5389 and MUED 5489.

**MUED 5611. Music Therapy Graduate Overview. 3 Credit Hours.**

Advanced survey of music therapy theory and practice. Clinical case studies will be used to illustrate general principles of assessment, goal planning, treatment and evaluation.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5613. Music Therapy Foundations. 3 Credit Hours.**

Advanced survey and examination of philosophical, psychological, biological and sociological foundations for the use of music as therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5614. Psychiatric Music Therapy. 3 Credit Hours.**

Advanced survey and examination of music therapy practice with psychiatric populations (e.g., schizophrenia, affective disorders, PTSD), with laboratory training in how to design and implement music experiences to meet therapeutic goals.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5615. Rehabilitative Music Therapy. 3 Credit Hours.**

Advanced survey of music therapy literature based on physical rehabilitation (e.g., brain injury, stroke, cerebral palsy, neuromotor disease), with laboratory training in how to design and implement music experiences to meet therapeutic goals.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5616. Developmental Music Therapy. 3 Credit Hours.**

Advanced examination of music therapy methods used with children who have developmental problems (e.g., mental retardation, learning disabilities, behavior problems, sensory disorders) with laboratory training in how to design and implement music experiences to meet therapeutic needs.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5611.

**MUED 5617. Medical Music Therapy. 3 Credit Hours.**

Advanced survey of music therapy literature based on medical applications (e.g., general hospital, surgery, chronic and terminal illness), with laboratory training in how to design and implement music experiences to meet therapeutic goals.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5618. Music Therapy Ethics. 1 to 2 Credit Hour.**

Advanced survey and examination of ethical issues in music therapy practice, research, education, and supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5619. Medical/Rehabilitative Music Therapy. 3 Credit Hours.**

Advanced survey and examination of music therapy treatment in physical rehabilitation treatment (e.g., brain injury, stroke, cerebral palsy, neuromotor disease) and medical issues (surgery, diabetes, cancer, AIDS) with laboratory training in how to design and implement music experiences to meet therapeutic goals.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5631. Advanced Functional Voice I. 1 Credit Hour.**

Advanced voice development for various clinical situations utilizing standard clinical repertoire.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5632. Advanced Functional Voice II. 1 Credit Hour.**

Advanced vocal techniques for eliciting singing responses from various client populations in various clinical settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5631.

**MUED 5633. Advanced Functional Piano I. 1 Credit Hour.**

Advanced skill and repertoire development for leading and accompanying vocal and instrumental activities in various music therapy settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5634. Advanced Functional Piano II. 1 Credit Hour.**

More advanced functional piano skills for accompanying music therapy sessions in various settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5633.

**MUED 5635. Advanced Functional Guitar I. 1 Credit Hour.**

Advanced functional singing and accompanying skills on guitar with a focus upon music therapy song literature utilized in various settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5636. Advanced Functional Guitar II. 1 Credit Hour.**

Various advanced guitar techniques for accompaniment focusing on standard music therapy literature as utilized in various clinical settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUED 5635.

**MUED 5641. Music Therapy Experiences I: Creative Methods. 1 Credit Hour.**

Advanced survey and analysis of the therapeutic potential of creative methods in Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5611.

**MUED 5642. Music Therapy Experiences II: Recreative Methods. 1 Credit Hour.**

Advanced survey and analysis of recreative methods of Music Therapy and an exploration of their therapeutic potential.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5611.

**MUED 5643. Music Therapy Experiences III: Receptive Methods. 1 Credit Hour.**

Advanced survey and analysis of receptive methods of Music Therapy and an exploration of their therapeutic potential.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B in MUED 5611.

**MUED 5646. Music Therapy Research. 3 Credit Hours.**

Advanced survey of music therapy research in skill development in formulating research questions, reviewing the literature, designing a study, analyzing and interpreting data, and writing reports. Ethical issues are considered.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5649. Of Sound Mind and Body: Musical and Nonmusical Strategies for Optimal Resiliency and Wellness. 1 Credit Hour.**

This course will explore how the expressive arts, and especially music, can enhance the process of becoming aware of, making choices toward, and engaging in practices that result in a resilient, healthy and fulfilling life.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5650. Contemporary Problems in Music Education: Individual Study. 1 to 3 Credit Hour.**

Study of recent trends and issues in Music Education through critical examination of research and practical application of selected techniques.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5651. Performance Anxiety. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5652. Night Owls Campus/Community Band. 0 or 1 Credit Hours.**

The Night Owls Campus/Community Band is a large concert wind band that is comprised of Temple University students (majors and non-majors) and community members from the Greater Philadelphia area. No audition is required for membership. The ensemble meets one evening per week, totaling two hours of rehearsal, and performs a concert at the end of each semester. Repertory performed includes standard wind literature and crowd-pleasing favorites. Members may elect to participate for Temple University academic credit or pay a nominal fee to join as a community member (course credit is not transcribed in the latter choice). NOTE: Ability to read music is required; personally owned instrument or rental needed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5653. Effective Arts Education Environments: Managing the Classroom. 3 Credit Hours.**

This course focuses on effective and efficient methods for engaging and teaching students of all ages in a variety of arts education environments (including but not limited to music, art, theater, and dance). Calling upon content knowledge and skills in arts education fields, students will be introduced to established and innovative teaching techniques that favor the advancement of student learner through shaping of the learning environment. Emphases will include current trends and research-based practices, diversity among learners, implementation of novel and efficient techniques, observation and analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5661. Teaching Students with Special Needs. 3 Credit Hours.**

For MPC graduate music education majors. Advanced exploration and analysis of the characteristics of exceptional children and the implications of these characteristics for music education. A variety of music materials especially designed or adaptable for teaching music to handicapped children discussed in terms of their practical use for classroom instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5662. Advanced Keyboard Harmony. 3 Credit Hours.**

Advanced skills development in use of the keyboard as a classroom tool. Advanced focus on chord progressions, sequences, modulations, harmonizations of small forms, transposition, extemporization, score reading.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5665. Music Learning and Development. 3 Credit Hours.**

For MPC graduate music education majors. Advanced exploration and analysis of how learners develop and how individual learners' needs affect music learning to inform teachers how to teach. Preservice music teachers study music development from the learners' perspective and begin to process ways in which music learning theories, approaches, processes, and methods can guide learners' development. NOTE: Includes field observations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5667. Teaching Instrumental Music to Inclusive Populations (TIMIP). 3 Credit Hours.**

For MPC graduate music education majors. For the prospective teacher of instrumental music in the elementary and secondary schools, this advanced synthesis of all previous work in instrumental music courses will emphasize: efficient rehearsal and teaching techniques for small and large group settings; developing musical and technical skills of instrumental music students; recruiting; repertoire; programming; performance issues; evaluation; administration.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5668. Student Teaching Seminar. 3 Credit Hours.**

Seminar for MPC graduate music education majors enrolled in Music Education 5689 and/or Music Education 5789. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5669. Teaching Choral Music to Inclusive Populations (TCMIP). 3 Credit Hours.**

For MPC graduate music education majors. Advanced exploration and analysis for the prospective teacher of vocal music; solutions for problems of audition procedures, development of musical skills within the choral rehearsal, repertoire and programming, voice classes, performance planning and execution, the changing voice, and needs of special learners.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5671. School Choral Ensembles. 2 Credit Hours.**

Preservice music teachers increase their understanding of vocal development, inclusive vocal settings, diverse music repertoire and transfer of music across in-school and out-of-school settings. Preservice music teachers consider a variety of approaches to ensemble formations (e.g.: non-select/select-implications of inclusion/exclusion; curricular/extra-curricular) and ways in which types of school ensembles (e.g.: Jazz, Show Choir, Barbershop, Gospel, Women's Chorus, Men's Chorus, Mixed Chorus) have traditionally been established and maintained. Contemporary research and practice, with implications for new types of vocal and choral ensembles in Pre-K-12 school settings, also will be considered. Emphasis is on building a course of study for choral music in schools. In-class performances and peer evaluations, and observations (in-class) required. This course is for majors only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5672. School Choral Ensembles. 2 Credit Hours.**

In this advanced course, preservice music teachers increase their understanding of vocal development, inclusive vocal settings, diverse music repertoire and transfer of music across in-school and out-of-school settings. Preservice music teachers consider a variety of approaches to ensemble formations (e.g.: non-select/select-implications of inclusion/exclusion; curricular/extra-curricular) and ways in which types of school ensembles (e.g.: Jazz, Show Choir, Barbershop, Gospel, Women's Chorus, Men's Chorus, Mixed Chorus) have traditionally been established and maintained. Contemporary research and practice, with implications for new types of vocal and choral ensembles in Pre-K-12 school settings, also will be considered. Emphasis is on building a course of study for choral music in schools. In-class performances and peer evaluations, and observations (in-class) required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5673. Jazz Education - Instrumental. 2 Credit Hours.**

For MPC graduate music education majors. Advanced survey and analysis of strategies for the development of the instrumental jazz ensemble in secondary school settings. Topics will include (but not be limited to): instrumentation, rehearsal techniques, literature, listening, improvisation, styles, rhythm, articulation, rhythm section, and programming. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5674. Jazz Education - Vocal. 2 Credit Hours.**

For MPC graduate music education majors. Advanced survey and analysis of the strategies for the development of the vocal jazz ensemble in secondary school settings. Topics will include (but not be limited to): Swing and show choirs, balancing voices, rehearsal techniques, literature, listening, improvisation, styles, rhythm, articulation, rhythm section, and programming. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5675. Inclusive Vocal Development: Pre-Kindergarten - Secondary. 2 Credit Hours.**

In this course, preservice music teachers learn to guide their future students through stages of vocal development. Emphases include presentation of an exemplary vocal model for one's students, voice care for choral musicians and teachers, and considerations for selecting repertoire appropriate for Pre-Kindergarten, elementary, and secondary school choral musicians. In-class performances and peer evaluations, and observations (in-class) required. This course is for majors only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5676. Audiation and Music Learning. 3 Credit Hours.**

The course covers music learning theory, music aptitude and achievement, sequential acquisition of tonal and rhythm skill and content, tonal and rhythm solfeggio, learning sequence activities, whole-part-whole organization of curriculum and teaching, and satisfies music learning theory requirements for completion of Professional Development Level 1 by the Gordon Institute for Music Learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5677. Music Learning Theory in Context: Early Childhood, Instrumental, and General Music Applications. 3 Credit Hours.**

The course covers contextual and practical application techniques for music learning theory in early childhood, instrumental and general music settings. Students will learn about informal guidance and formal instruction in music, develop musicianship and composition and improvisation skills in a variety of tonalities and meters, learn to use movement in music instructional settings, learn and teach an MLT based rote song teaching and evaluation procedure, teach learning sequence activities relevant to specific genres, peer-teach, and develop classroom activities based on MLT and audiation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5678. Inclusive Vocal Development. 2 Credit Hours.**

In this advanced course, preservice music teachers learn to guide students through stages of vocal development. Emphases include presentation of an exemplary vocal model, voice care for choral musicians and teachers, and considerations for selecting repertoire appropriate for Pre-Kindergarten, elementary, and secondary school choral musicians. In-class performances and peer evaluations, and observations (in-class) required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5680. Music Therapy: Special Topics. 2 Credit Hours.**

An in-depth examination of a particular advisor-approved aspect of Music Therapy practice, research or theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5685. Music Therapy Clinical Internship. 1 to 6 Credit Hour.**

Advanced supervision of clinical experiences in music therapy with various client populations and in various settings.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**MUED 5689. Student Teaching - Elementary. 3 Credit Hours.**

Field experience in elementary grades for MPC graduate music education majors. NOTE: Special authorization only.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may be repeated for additional credit.

**MUED 5696. Teaching General Music to Inclusive Populations (TGMIP). 3 Credit Hours.**

For MPC graduate music education majors. Advanced exploration and analysis of the principles, practices, and materials central to the general music program in elementary and secondary education. NOTE: Special authorization only. Includes Field Experience.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5712. MT Experiences II Recreative Methods. 1 Credit Hour.**

Students experience advanced recreative methods of Music Therapy and explore their therapeutic potential. NOTE: This course is for majors only.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 5789. Student Teaching - Secondary. 3 Credit Hours.**

Field experience in secondary grades for MPC graduate music education majors.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Clearance for Education.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8325. Apprenticeship in Music Therapy Education and Supervision II. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8425. Apprenticeship in Music Therapy Education and Supervision III. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8525. Apprenticeship in Music Therapy Education and Supervision IV. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8566. Qualitative Res: Mus Ed. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8601. Qualitative Research in Music Therapy. 1 to 9 Credit Hour.**

Students learn to conceive, design, and write a qualitative research study in Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8602. Quantitative Research in Music Therapy. 1 to 9 Credit Hour.**

Students learn to conceive, design, and write a quantitative research study in Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8603. Theories of Music Psychotherapy. 1 to 9 Credit Hour.**

An examination of how Music Psychotherapy is practiced within various theoretical orientations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8611. Music Therapy Research. 3 Credit Hours.**

An introduction to quantitative and qualitative research in Music Therapy, with emphasis on developing skills in reading and evaluating studies.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8612. Music Therapy Foundation. 3 Credit Hours.**

An examination of musicological, philosophical, psychological, biological, and sociological foundations for Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8613. Songs in Psychotherapy. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8614. Guided Imagery and Music I. 3 Credit Hours.**

An introduction to GIM through demonstrations, lectures, and personal experiences. Topics include the role of music, relaxation procedures, types of imagery, and basic guiding techniques.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8615. Adv Mus Thrpy Clin Trng. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8616. MT Foundations. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8617. Multicultural Music Therapy. 2 to 3 Credit Hours.**

An examination of the specific needs of multicultural clients, with training in specialized Music Therapy approaches and methods. Emphasis is given to the acquisition of skills in ethnic musical forms and multicultural empathy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8618. Music in Medicine. 1 to 9 Credit Hour.**

An examination of research and clinical practice concerning the mind-body-social-spirit relationships and the acquisition of knowledge and skill in Music Therapy approaches to promote biopsychosocial health.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8619. Music Therapy Education and Training. 1 to 2 Credit Hour.**

An introduction to accreditation and approval, curriculum planning, syllabus design, teaching, academic supervision, and the challenges presented in each of these areas of Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8621. Music Therapy Ethics. 2 Credit Hours.**

An examination of ethical issues in Music Therapy practice, research, education, and supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8622. Res Mus Psychotherapy. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8623. Research in Music Psychotherapy. 3 Credit Hours.**

For doctoral students only. A critical examination of foundational, process-oriented, and efficacy research on the use of music in psychotherapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8624. Research in Music Medicine. 3 Credit Hours.**

For doctoral students only. A critical examination of foundational and efficacy research on the use of music in medicine.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8625. Apprenticeship in Music Therapy Education and Supervision. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8626. Models of Clinical Supervision in Music Therapy. 2 Credit Hours.**

An in-depth examination of various models of Music Therapy supervision appropriate for pre-professional and professional clinical work, including psychodynamic, humanistic, and behavioral models. Emphasis is given to the use of Music and Music Therapy techniques as forms of supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8627. Apprentice MT Ed/Slp II. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8650. Special Topics in Music Education. 1 to 3 Credit Hour.**

This variable-credit course offers students a granular look at a number of specialized topics in music education. Its content varies. Areas of study can include, but are not limited to: administration, arts education, choral music education, early childhood, inclusion and diversity, performance development, current trends, implementing and applying research, creativity, and music industry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College, Education & Human Development.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8651. Psych Music Lrn & Behav. 3 Credit Hours.**

Simple acoustic principles and the physiology of hearing lay groundwork for investigation into issues of perception, measurement, and performance of rhythm, melody, and harmony. Aural acquisition of musical information and understanding notation follow. Human propensities in preference, affect, and aesthetics are covered, as well as extra-musical objectives as an outcome of musical training.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8652. Measurement and Evaluation in Music. 3 Credit Hours.**

Measurement and evaluation appropriate to music study are reviewed. A primary focus is the development of appropriate and effective measurement tools for use in music instructional programs. The value, delivery, use, and interpretation of tests of musical behavior are examined. Technical aspects of measurement are given necessary pragmatic consideration.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8653. Learning Theory in Music. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8654. Adv Methods Instrum MUED. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8655. Quantitative Res: Mus Ed. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8656. Academic Writing Skills. 3 Credit Hours.**

The focus is on honing writing skills toward the development of skills necessary for successful completion of a thesis, monograph, or dissertation. Topics include common writing flaws, identifying systematic flaws in the student's writing, improvement of sentence and paragraph composition, development of appreciation for revision, and practice in oral presentation.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8657. Create/Devel a Rock Band. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8658. Res 21st C Prac Gen Mus. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8659. Select/Rehearse Band Lit. 2 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8660. Music Education in a New Key. 2 to 3 Credit Hours.**

As the world evolves, music educators look to improve ways in which the musical needs of students and the community are met. This course targets innovation and tradition. Students will explore contemporary thought and practice in the field as well as revisit effective and established traditions, towards the strengthening of personal and professional goals. Topics may include but are not limited to: Collaboration, Creation, Performance, Musical Responses, Community Connections, Curiosities and Inquiry, Social Interactions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8661. Research in Music Education. 3 Credit Hours.**

Study of research design, quantitative and qualitative analysis, and modern investigative techniques in Music and Music Education. Required of all candidates for the Master of Music degree majoring in Music Education. Strongly recommended for Ph.D. candidates in Music Education.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8662. Informal Music Learning. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8663. Interactive Multimedia I. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8664. Interactiv Multimedia II. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8665. Jazz Instrumental Education. 3 Credit Hours.**

Focus will be upon jazz instrumental education in jazz ensemble rehearsals and jazz composition/arranging courses. Emphasis on forming jazz combos and small jazz ensembles; devising efficient rehearsals for various instrument groupings; composing and arranging selections to meet the needs of jazz ensemble instrumentation; and experiencing and evaluating methods of learning in jazz.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8666. Qualitative Res: Mus Ed. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8667. Music and the Mind: Understanding Music Perception and Cognition. 3 Credit Hours.**

The burgeoning field of neuroscience provides the opportunity for greater understanding of human perception and cognition in many areas of learning. This course focuses on the intersection of the brain and music as revealed through current research. Topics may include (but are not limited to): emotion, memory, cognition, language, music skills development, aesthetics, and well-being.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8668. History and Philosophy of Music Education. 3 Credit Hours.**

The purpose of this course is to synthesize diverse viewpoints regarding the history and philosophy of American music education. Students will analyze philosophical writings that have guided the decision-making of individuals and groups regarding why, what, and how music is taught in the public schools. Students will also gain facility with historical movements and educational policies as a contextual lens toward participating in future music education practices with regard to curriculum, instruction, and assessment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8670. Special Topics: Instrumental Music Education. 1 to 3 Credit Hour.**

For the creative and innovative graduate music education student. A synthesis of previous work in instrumental and vocal music courses, composition/arranging courses, and chamber rehearsals. Emphasis on forming combos and small ensembles of contemporary musical styles; devising an efficient rehearsal for various instrument groupings; developing minor instrument performance skills; composing and arranging selections to meet the needs of ensemble instrumentation; and experiencing and evaluating methods of informal learning in music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8671. Sociology of Music Education. 3 Credit Hours.**

The purpose of this course is to critically examine the interrelationship of music and society in the United States and prominent interpersonal and intergroup dynamics in music education contexts. Students will explore uses of music in school and community, music professions, and current research on the sociology of music. The goal is for students to engage with local and global social issues related to music teaching and learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8672. Supervsed Univ Music Tch. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8673. Music Tch in Higher Educ. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8674. Sem Grad Music Education. 1 to 3 Credit Hour.**

Advanced exploration of topics related to the field of music education, including but not limited to: teaching, learning, research, and creativity.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8675. Choral Pedagogy Seminar. 2 to 3 Credit Hours.**

Choral music education and choral conducting majors will increase their understanding of current research and pedagogical systems that are directly related to teaching choral music to inclusive populations in a variety of settings. Students will be challenged to study various philosophical, pedagogical, and programmatic concepts as a basis for becoming a proficient rehearsal technician and choral scholar. Content varies from semester to semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8676. Seminar in Secondary School Music Teaching. 3 Credit Hours.**

Advanced study of educational practice specific to the secondary level (6-12). Seminar subject areas may include current trends in secondary education literature, formal and informal music learning, traditional and alternative ensembles, administration and leadership, classroom management, repertoire, rehearsal technique, and others.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8677. Seminar in Elementary School Music Teaching. 3 Credit Hours.**

Advanced study of educational practice specific to the elementary level (P-5). Seminar subject areas may include current trends in elementary education literature, formal and informal music learning, ensembles, musical development, diversity, classroom management, repertoire, rehearsal technique, and others.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8680. Contemporary Problems in Music Education: Individual Study. 1 to 3 Credit Hour.**

Study of recent trends and issues in Music Education through critical examination of research and practical application of selected techniques.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8690. Contemporary Problems in Music Education: Individual Study. 1 to 3 Credit Hour.**

Study of recent trends and issues in Music Education through critical examination of research and practical application of selected techniques.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 8691. Research Seminar in Music Education. 3 Credit Hours.**

Planning and execution of pre-dissertation research projects are discussed. Participants work independently and in small groups to acquire skills necessary for completion of the dissertation.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8725. Apprenticeship in Music Therapy Education and Supervision V. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 8825. Apprenticeship in Music Therapy Education and Supervision VI. 1 Credit Hour.**

Faculty provide doctoral students with close supervision as they assist in the teaching and supervision of Music Therapy students.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 9601. Basic Sk: Comm/Dig Media. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9611. Theory Development in Music Therapy. 3 Credit Hours.**

For doctoral students only. An examination of the nature of theory and the theorizing process in music therapy, based on a comparison of existing theories. Emphasis is given to developing a theory based on practice and/or research.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUED 9641. Music Therapy Doctoral Seminar. 1 to 3 Credit Hour.**

For doctoral students only. Seminar on examining current issues in Music Therapy theory, practice, research, education, training, and supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9642. Music Therapy Research Apprenticeship. 1 to 3 Credit Hour.**

Graduate students conduct Music Therapy research under faculty supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9643. Music Therapy Research Apprenticeship. 1 to 3 Credit Hour.**

Graduate students conduct Music Therapy research under faculty supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9660. Advanced Topics in Music Psychotherapy. 1 to 4 Credit Hour.**

An in-depth examination of practice, research, and/or theory in areas of specialization in Music Psychotherapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9670. Advanced Topics in Music Medicine. 1 to 4 Credit Hour.**

An in-depth examination of practice, research, and/or theory in areas of specialization in Music Medicine.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9680. Music Therapy: Special Topics. 1 to 9 Credit Hour.**

An in-depth examination of a particular topic in Music Therapy practice, research, or theory.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9687. Advanced Music Therapy Practicum. 1 to 3 Credit Hour.**

Individual and group supervision of initial professional clinical work in Music Therapy.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9690. Music Therapy: Special Topics. 1 to 3 Credit Hour.**

An exploration of interdisciplinary topics in art, dance, music, drama and poetry therapies.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9994. Preliminary Examination Preparation. 1 to 6 Credit Hour.**

For doctoral students in Music Education readying themselves to take the Preliminary Examinations.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9995. Master's Final Project. 1 to 3 Credit Hour.**

For master's degree candidates in Music Therapy and Music Education only. Students complete the master's degree final project under faculty supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Therapy, Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9996. Master's Thesis Music Education. 1 to 3 Credit Hour.**

For master's degree candidates in Music Education only. Students complete the master's thesis under faculty supervision.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

For doctoral students in Music Education who have passed the Preliminary Examinations and who do not yet have an approved dissertation proposal.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUED 9999. Doctoral Dissertation. 1 to 6 Credit Hour.**

Registration is limited to Ph.D. candidates in Music Education. Continuous registration in the Fall and Spring semesters is required until the oral defense has been passed.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Education.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Music Studies (MUST)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**MUST 5001. Diatonic Harm. Review. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5002. Chromatic Harm. Review. 2 Credit Hours.**

A review of chromatic harmony as it appears in the works of composers during the period of approximately 1650-1900. Emphasis will be placed on advanced components of analysis. Additional emphasis will be placed on form analysis including phrase structures and sonata-allegro form.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5003. Counterpoint Review. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5004. Grad Aural Theory Review. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5005. Remedial Studies in Music History. 1 to 5 Credit Hour.**

Designed as remedial study in Music History for graduate students. May be taken by undergraduate Music majors with approval of the advisor and instructor. Variable scheduling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5006. Sound Recording and Editing Techniques. 3 Credit Hours.**

This course is an intensive, semester-long course that integrates both sound recording and sound editing concepts for Master of Science students in Music Technology who do not pass the entering Diagnostic Examinations in Sound Recording and Sound Editing. The course utilizes online learning videos, self-guided learning activities, as well as recording studio and class lecture time.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5105. Remedial Studies in Jazz History. 1 to 5 Credit Hour.**

Designed as remedial study in Jazz History for graduate students. Variable scheduling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5106. Remedial Studies in Jazz Theory. 1 to 5 Credit Hour.**

Designed as remedial study in Music Jazz Theory for graduate students. Variable scheduling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5111. Seminar in Jazz History. 3 Credit Hours.**

A detailed advanced survey of issues current in the research and scholarship of Jazz History. The focus is upon the completion of an individual research project suitable for publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5115. Seminar in Jazz Arranging. 3 Credit Hours.**

An advanced survey of the current trends and traditional practices in jazz arranging with an emphasis upon theoretical and practical approaches and applications in small and large ensembles of various sizes and instrumental groupings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5212. Arranging I. 3 Credit Hours.**

A survey of the current trends and traditional practices in arranging for both jazz and non-jazz groups (vocal and instrumental) with an emphasis upon theoretical and practical approaches and applications in small and large ensembles of various sizes and instrumental groupings. Since students will have performed already in numerous small and large ensembles, this course will provide the opportunity for understanding how those varied experiences worked were conceived, evolved, and implemented. Assignments will vary according to sizes and types of groups.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5213. Arranging II. 3 Credit Hours.**

An advanced survey of the current trends and traditional practices in arranging for both jazz and non-jazz groups (vocal and instrumental) with an emphasis upon advanced theoretical and practical approaches and applications in small and large ensembles of various sizes and instrumental groupings. Students will have performed in numerous small and large ensembles. This course will provide the opportunity for understanding how those varied experiences worked musically. Assignments will vary according to sizes and types of groups.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUST 5212.

**MUST 5214. Orchestration. 3 Credit Hours.**

Students will explore varied instrumental characteristics and encounter scoring problems for both jazz and non-jazz ensembles including sectional, ensemble, small and large bands, and orchestral scoring. Laboratory work possible in connection with various rehearsal ensembles, bands, and orchestra. Assignments will vary according to sizes and types of groups.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5701. Research in Music. 3 Credit Hours.**

Survey of primary reference tools, monumental editions and collected works, periodicals, histories, theoretical treatises, iconography, organology, and other bibliographic materials. Term paper written under supervision.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5704. Music in History. 3 Credit Hours.**

Advanced survey of the music of the Classic and Romantic periods and the 20th century.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5705. Music in History. 3 Credit Hours.**

Advanced survey of the history, style, and musical forms from antiquity through the Renaissance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5706. Live Recording and Mixing for Broadcast. 3 Credit Hours.**

This course explores fundamental planning and procedures for capturing live music for video broadcast. Topics include planning, staging, preparation and execution of a live performance recording, followed by procedures for effective and cohesive mixing for broadcast. We will initiate and complete a typical "real world" music performance broadcast delivery project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUST 4713 or MUST 5729) and (MUST 4714 or MUST 5714)

**MUST 5707. Computer Programming for Musicians. 3 Credit Hours.**

This course is an introduction to computer programming specifically designed to enable making music with a computer. Through a combination of creative activities and projects using the Python programming language, one of the most common languages used today for making music with computers, students learn foundational pedagogical concepts of computer programming and computational thinking, all within a musical context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5713. Canon and Fugue. 3 Credit Hours.**

The development of technique in imitative style and an ability to construct phrase and sectional forms in canonic and fugal style.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5714. Sound Editing. 3 Credit Hours.**

A course in digital audio editing that applies principles and techniques learned in Sound Recording. Students work with ProTools software and complete a series of projects to develop listening and editing skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5716. Composing Music for Films. 3 Credit Hours.**

Students use MIDI equipment and software to compose music for synchronization to film and video. Vocabulary and technology of film production and an understanding of the function of music in documentary and experimental film and video are taught. Includes lab component to develop sequencing skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5719. MIDI. 3 Credit Hours.**

An introduction to advanced use of MIDI technology, including basic synthesis, sound design, sequencing, and sampling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5720. New Music Seminar. 2 Credit Hours.**

Seminar in the use of electronic devices such as cellphones, tablets, and laptop computers for music creation and performance. For students enrolled in the 4+1 option in Music Technology.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Bachelor of Science, Master of Science.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5721. Computer Music Studio. 3 Credit Hours.**

Extensive, independent compositional activity with computer synthesis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5724. Printing Musical Scores and Parts. 3 Credit Hours.**

This course is for music students, particularly composers, who wish to become proficient with music engraving software. At the conclusion of the course, a student should be able to create scores and parts that conform to prevailing professional standards for music engraving. Course topics include a brief history of musical notation, historical methods of music printing, computer concepts such as scalable fonts and PostScript, score layout, and formatting conventions. In addition to periodic assignments, the course requires a written mid-term examination and a final project. Additional projects required for graduate students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5725. Computers in Music Applications. 3 Credit Hours.**

Advanced theory and practice of digital synthesis of musical sound. Sampling theory, additive synthesis, and modulation synthesis are examined using models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5726. Computer Synthesis. 3 Credit Hours.**

Certain musical applications of digital computers, including digital recording, digital sound synthesis, speech synthesis, and various real-time applications. The Csound and PureData applications are used throughout.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5728. Advanced Audio Production. 3 Credit Hours.**

Advanced Audio Production will focus on advanced skills of audio production, based on skills learned in Sound Editing (MUST 4714). Work will be done on the most common Digital Audio Workstation, Pro Tools, but is applicable to all DAWs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5729. Sound Recording. 3 Credit Hours.**

A course in concert hall recording of live music including topics such as room acoustics, electrical signals, microphones, recording decks and editing systems. A quantitative approach to theory will be balanced by practical laboratory instruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5730. Electronic Music Ensemble. 1 Credit Hour.**

An opportunity to perform electro-acoustic and digital music using laptops, tablets, various sensors, controllers, synths and multi-channel speakers. Members act as performers, researchers, composers and software developers.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5732. Programming in Max. 3 Credit Hours.**

This course will use the visual programming language Max to explore and implement various topics in electro-acoustic music and digital media. Topics covered will include digital sound synthesis (additive, subtractive and modulation synthesis), signal processing and sequencing. Students will learn mathematical and programming techniques for expressive digital audio signal processing and software design. Topics covered will include spectral audio programming, algorithmic synthesis, compiling, MIDI, OSC, mobile applications, live processing, and software architecture. Students will create their own interactive programs and algorithms modeled after course concepts and use these to compose a series of "etudes". Additionally, a working history of electronic music will complement course topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5733. Music Mixing in Pro Tools. 3 Credit Hours.**

This course explores fundamental planning and procedures for creating a functional and sharable music mixing session in Pro Tools. Pro Tools basic structure, importing audio, mixing basics, and final mix delivery are covered. A new song or music project will be introduced with each class, with a mix delivery due prior to the next week's class.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUST 4713 or MUST 5729) and (MUST 4714 or MUST 5714)

**MUST 5740. Seminar in Composition. 3 Credit Hours.**

Guidance toward realization of individual creative concepts in music and critical evaluation of the results.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5741. Analytical Techniques. 3 Credit Hours.**

This course develops techniques for the analysis and understanding of music's expressive structure. Its primary goal is to develop greater comprehension of frequently encountered compositional forms and devices as found in great works of literature. A second goal is to provide a basic introduction to some of the current methods of theoretical analysis of music (which will probably be new or less familiar to most students). A third goal is to relate analysis to performance; in other words, how can analysis lead to a more informed performance? The course is divided into eight parts of primarily 2-week sections—I: Contrapuntal Procedures; II: Harmonic Forms; III: Schenkerian Analysis; IV: Rhythm, Meter, and Hypermeter; V: Hermeneutic Approaches; VI. Twentieth-Century Techniques and Jazz; VII. Set Theory and Twelve-Tone Theory; VIII. Grand Finale.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5742. Seminar in Theoretical Analysis. 3 Credit Hours.**

Investigation of theoretical and analytical problems in music, including theories of Heinrich Schenker and others as pertinent to particular faculty concerns.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5743. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5744. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5745. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5746. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5749. Current Topics in Musicology and Theory. 3 Credit Hours.**

A detailed survey of issues driving current research in musicology and music theory. A required foundation course for graduate students in musicology/theory, Current Topics is also open to other graduate students with an interest in these disciplines. Although the course begins with a brief history of these two disciplines, the emphasis for most of the semester is on the various methodologies and issues now in circulation. The conclusion of the course focuses on individual research projects, where students begin an intense study of an area of interest to them. This study culminates in the writing of a proposal, suitable to form the basis of a thesis paper or publishable research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5750. Special Topics in Music Technology. 3 Credit Hours.**

Advanced focus on one or more topics related to the field of Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5754. Music in the Classical Period. 3 Credit Hours.**

Examination of stylistic trends and representative works of pre-classic composers; detailed study of Haydn and Mozart.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5755. Music in the Romantic Period. 3 Credit Hours.**

An examination of music from the first half of the 19th century in the context of new social conditions, literary Romanticism, bourgeois audiences, and the changing role of the artist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5756. Music in the Twentieth Century 1900-1945. 3 Credit Hours.**

An examination of stylistic trends in vocal and instrumental music composed from 1900 through World War II.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5760. Special Topics in Music Technology. 3 Credit Hours.**

Advanced focus on one or more topics related to the field of Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 5762. Music Technology. 3 Credit Hours.**

Advanced exploration of hardware and software that can be used to create, teach, and interact with music. Provides systematic, hands-on applications of computer hardware and software to music-specific activities and tasks, including audio editing, music notation, and multimedia presentations. The Final Project demonstrates the student's ability to create and store on CD-ROM and/or DVD a complete musical project using a variety of file formats, and audio and video production software.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5763. Analog and Modular Sound Synthesis. 3 Credit Hours.**

This class examines the history and techniques of making music with analog and modular synthesizers. Students gain sound sculpting and composition skills using several analog and modular synthesizers. Skills include learning how the modules in an analog synthesizer work and can be linked together and into a larger system to produce a vast palette of timbres. Students also develop an ability to recognize different analog synthesis techniques by ear, and compose several short pieces of music using sounds they create. Students acquire an understanding of how analog synthesizers are used in and have shaped many musical genres.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5764. Scoring for Film and Digital Media. 3 Credit Hours.**

Students will learn the aesthetics, terminology, procedures, and technical aspects of scoring for the visual medium. They will develop an understanding of the software used to synchronize original music to film and video, including MIDI, sample libraries, and sequencing. Students will complete projects that focus on a broad range of techniques, such as spotting, click tracks, understanding dramatic narrative, and scoring under dialogue. Further understanding of scoring techniques will occur through analysis of significant examples from the film music literature. Students will gain a fundamental understanding of the film industry, including how to identify and secure opportunities for scoring, the basics of how to approach the logistics of a feature-length film, budgeting, and the personnel involved in projects large and small. The role of music in other visual media, such as video games, theatrical production, and interactive media, will be briefly explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5765. Scoring and Audio Design for Video Games. 3 Credit Hours.**

Students gain a basic understanding of composing interactive music and designing audio for video games. Students will become proficient in the software involved in this process, including a DAW, middleware, and game distribution. The vocabulary and technology of audio production are taught, as well as an understanding of the function of music in interactive media. The business skills necessary to enter and develop a successful career in game audio will be explored. The course contains a laboratory component in which students develop sequencing skills and work with synchronized animation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5773. Digital Signal Processing for Music. 3 Credit Hours.**

An investigation of Digital Signal Processing for Music. This course employs lectures, demonstrations, and interactive software to enable students to understand the ways sound is represented by digital signals, and how to transform those signals through mathematical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5774. Hearing Music: Acoustics and Psychoacoustics of Music. 3 Credit Hours.**

A seminar on the psychoacoustics of music, based partly on Perry Cook's collection of essays: "Music, Cognition and Computerized Sound." This course employs lectures and demonstrations to enable students to understand the physics of sound and the perceptual characteristics of the Human Auditory System. Taken together, acoustics and psychoacoustics provide the student with an understanding of why music has the qualities it has, and how sound makers can utilize that knowledge to be more successful in their chosen fields.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5775. Seminar in Audio Software Design. 4 Credit Hours.**

Students will learn advanced mathematical and programming techniques for digital audio signal processing and software design. Topics covered will include spectral audio programming, algorithmic synthesis, compiling, MIDI, OSC, mobile applications, live processing, and software architecture.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Bachelor of Science, Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 5776. Seminar in Physical Computing and Electronic Instrument Design. 4 Credit Hours.**

Students will learn the advanced concepts needed for physical computing and electronic instrument design, including basic circuitry and programming. Topics covered will include direct digital synthesis, audio input and output, MIDI, sensors, microcontrollers, and real-time control.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Bachelor of Science, Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8100. Jazz Ensemble. 1 Credit Hour.**

Weekly rehearsals of variously-sized groups culminating in an end of semester performance. Advanced course material from the standard jazz canon and new compositions.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8104. Jazz Major. 3 Credit Hours.**

Private lessons for graduate jazz studies majors, instrumental, vocal, composition or arranging. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8110. Jazz Ensemble II. 1 Credit Hour.**

Weekly rehearsals culminating in an end of semester performance. Course material from the standard jazz canon and new compositions.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8111. Seminar in Jazz History. 3 Credit Hours.**

A detailed advanced survey of issues current in the research and scholarship of Jazz History. The focus is upon the completion of an individual research project suitable for publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8112. Seminar in Jazz Improvisation. 3 Credit Hours.**

An advanced survey of the current trends and traditional practices in jazz improvisation with an emphasis upon theoretical approaches and applications in small ensembles of various sizes and instrumental groupings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8113. Seminar in Jazz Composition. 3 Credit Hours.**

An advanced survey of the current trends and traditional practices in jazz composition with an emphasis upon theoretical and practical approaches and applications in small ensembles of various sizes and instrumental groupings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8114. Jazz Major. 3 Credit Hours.**

Private lessons for graduate jazz studies majors, instrumental, vocal, composition or arranging. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8115. Seminar in Jazz Arranging. 3 Credit Hours.**

An advanced survey of the current trends and traditional practices in jazz arranging with an emphasis upon theoretical and practical approaches and applications in small and large ensembles of various sizes and instrumental groupings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8120. Special Topics in Jazz History. 1 to 3 Credit Hour.**

Advanced focus upon the work of a jazz artist or composer or a particular style or period culminating in a paper suitable for publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8124. Jazz Major. 3 Credit Hours.**

Private lessons for graduate jazz studies majors, instrumental, vocal, composition or arranging. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8130. Special Topics in Jazz Theory. 1 to 3 Credit Hour.**

Advanced theoretical analysis of the work of a composer or a stylistic period culminating in a paper suitable for publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8140. Special Topics in Jazz Improvisation. 1 to 3 Credit Hour.**

Advanced concepts of jazz improvisation for use in small ensembles of various sizes and instrumental groupings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8150. Special Topics in Jazz Composition. 1 to 3 Credit Hour.**

Advanced focus upon the development of a portfolio of jazz compositions suitable for publication.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8160. Special Topics in Jazz Pedagogy. 1 to 3 Credit Hour.**

Advanced analysis and application of current techniques and practices in jazz pedagogy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8170. Special Topics in the Business of Music. 1 to 3 Credit Hour.**

Advanced business and entrepreneurship strategies for music performers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8180. Special Topics in Music. 1 to 3 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8184. Jazz Major (Recital). 3 Credit Hours.**

Private lessons for graduate jazz studies majors, instrumental, vocal, composition or arranging. One-hour lesson each week. Culminates in full recital during final year of study. Students are required to perform or teach private lessons outside the university, subject to availability and/or scheduling conflicts with other Boyer courses or obligations.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Jazz Studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8220. Special Topics in Jazz Voice. 2 to 3 Credit Hours.**

Advanced concepts in jazz vocal practice for use in both large and small ensembles of various sizes and instrumental groupings. Course material will be from both the standard and jazz repertoires.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8230. Special Topics in the American Songbook. 2 to 3 Credit Hours.**

Advanced concepts in vocal practice for use in both large and small ensembles of various sizes and instrumental groupings. Course material will focus exclusively upon standard repertoire.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8480. Special Topics in Music. 1 to 3 Credit Hour.**

Special authorization required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8602. Intro to Ethnomusicology. 2 to 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8700. Latin American Ensemble. 0 to 1 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8701. Research in Music. 3 Credit Hours.**

Survey of primary reference tools, monumental editions and collected works, periodicals, histories, theoretical treatises, iconography, organology, and other bibliographic materials. Term paper written under supervision.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8702. Introduction to Ethnomusicology. 2 to 3 Credit Hours.**

An overview of the history of ethnomusicology rather than an introduction to the specific musical practices of various countries. Focuses on the origins of the discipline at the turn of the 20th century, various interests of ethnomusicologists over the years, and internal debates within the field about their relative importance. Attention is given to anthropology and cultural studies on ethnomusicology since the 1970s and its growing interdisciplinary orientation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8703. Studies in Ethnomusicology. 3 Credit Hours.**

Seminar focusing on issues prominent in present-day ethnomusicological research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8704. Music in History. 3 Credit Hours.**

Advanced survey of the music of the Classic and Romantic periods and music of the 20th century.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8705. Music in History. 3 Credit Hours.**

Advanced survey of the history, style, and musical forms from antiquity through the Renaissance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8706. Live Recording and Mixing for Broadcast. 3 Credit Hours.**

This course explores fundamental planning and procedures for capturing live music for video broadcast. Topics include planning, staging, preparation and execution of a live performance recording, followed by procedures for effective and cohesive mixing for broadcast. We will initiate and complete a typical "real world" music performance broadcast delivery project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUST 4713, MUST 5729, or MUST 8729) and (MUST 4714, MUST 5714, or MUST 8712)

**MUST 8707. Computer Programming for Musicians. 3 Credit Hours.**

This course is an introduction to computer programming specifically designed to enable making music with a computer. Through a combination of creative activities and projects using the Python programming language, one of the most common languages used today for making music with computers, students learn foundational pedagogical concepts of computer programming and computational thinking, all within a musical context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8708. History of Opera. 2 to 3 Credit Hours.**

A history of opera from 1600-1790. An expanded paper and/or project is assigned for students seeking 3 credits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8709. History of Opera. 2 to 3 Credit Hours.**

A continuation of MUSIC STUDIES 8708. An expanded paper and/or project is assigned for students seeking 3 credits.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8710. Early Music Ensemble. 1 Credit Hour.**

An opportunity to perform music from medieval through preclassic times. Reproduction of original instruments, principles of performance practice in original form and as they emerge through modern efforts at reconstruction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8712. Sound Editing. 3 Credit Hours.**

A course in digital audio editing that applies principles and techniques learned in Sound Recording. Students work with ProTools software and complete a series of projects to develop listening and editing skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8713. Canon and Fugue. 3 Credit Hours.**

The development of technique in imitative style and an ability to construct phrase and sectional forms in canonic and fugal style.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8714. Contemporary Music. 3 Credit Hours.**

Late 19th- through 20th-century compositional theories and practices. Includes labs and practicums.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8715. Composition I. 1 to 2 Credit Hour.**

Original composition. Development of inventive ability through compositional modeling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8716. Composing Music for Films. 3 Credit Hours.**

Students use MIDI equipment and software to compose music for synchronization to film and video. Vocabulary and technology of film production and an understanding of the function of music in documentary and experimental film and video are taught. Includes lab component to develop sequencing skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8717. Composition II. 1 to 2 Credit Hour.**

Original composition. Development of inventive ability through performance in a compositional laboratory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8719. MIDI. 3 Credit Hours.**

An introduction to the use of MIDI technology, including basic synthesis, sound design, sequencing, and sampling.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8720. New Music Seminar. 2 Credit Hours.**

Seminar in the use of electronic devices such as cellphones, tablets, and laptop computers for music creation and performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8721. Computer Music Studio. 3 Credit Hours.**

Extensive, independent compositional activity with computer synthesis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8722. Scoring for Film and Digital Media. 3 Credit Hours.**

Students will learn the aesthetics, terminology, procedures, and technical aspects of scoring for the visual medium. They will develop an understanding of the software used to synchronize original music to film and video, including MIDI, sample libraries, and sequencing. Students will complete projects that focus on a broad range of techniques, such as spotting, click tracks, understanding dramatic narrative, and scoring under dialogue. Further understanding of scoring techniques will occur through analysis of significant examples from the film music literature. Students will gain a fundamental understanding of the film industry, including how to identify and secure opportunities for scoring, the basics of how to approach the logistics of a feature-length film, budgeting, and the personnel involved in projects large and small. The role of music in other visual media, such as video games, theatrical production, and interactive media, will be briefly explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8724. Printing Musical Scores and Parts. 3 Credit Hours.**

This is course for music students, particularly composers, who wish to become proficient with music engraving software. At the conclusion of the course, a student should be able to create scores and parts that conform to prevailing professional standards for music engraving. Course topics include a brief history of musical notation, historical methods of music printing, computer concepts such as scalable fonts and PostScript, score layout, and formatting conventions. In addition to periodic assignments, the course requires a written mid-term examination and a final project. Additional projects required for graduate students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8725. Computers in Mus Applications. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8726. Computer Synthesis. 3 Credit Hours.**

Certain musical applications of digital computers, including digital recording, digital sound synthesis, speech synthesis, and various real-time applications. The Csound and PureData applications are used throughout.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8727. Electronic Music Composition: Practice, History, Theory. 3 Credit Hours.**

The history of electro-acoustic music, which is essential to music in the 20th century. Composers who wrote for electronic instruments include Edgard Varèse, Olivier Messaien and Paul Hindemith, the "musique concrète" school (Pierre Schaeffer, Pierre Henry, Edgard Varèse, etc.), Karlheinz Stockhausen, Gyorgi Ligeti, Luciano Berio, Milton Babbitt, John Cage, Iannis Xenakis, and Mario Davidovsky. These composers used unique and varied technologies in their music. New technologies soon crossed over into pop music, and now dominate commercial music and film. A dialogue between composers and engineers is now crucial in order to make all aspects of sound available to composers. This is available to composers, theorists, historians, and instrumentalists, who must master the extended techniques that are now an essential part of new music performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8728. Advanced Audio Production. 3 Credit Hours.**

Advanced Audio Production will focus on advanced skills of audio production. Work will be done on the most common Digital Audio Workstation, Pro Tools, but is applicable to all DAWs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8729. Sound Recording. 3 Credit Hours.**

A course in concert hall recording of live music including topics such as room acoustics, electrical signals, microphones, recording decks and editing systems. A quantitative approach to theory will be balanced by practical laboratory instruction. NOTE: The course is required for students who have elected the Music Technology Component.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8730. Electronic Music Ensemble. 1 Credit Hour.**

An opportunity to perform electro-acoustic and digital music using laptops, tablets, various sensors, controllers, synths and multi-channel speakers. Members act as performers, researchers, composers and software developers.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8731. The Pedagogy of Music Theory. 3 Credit Hours.**

This course covers the methodologies for teaching both written and aural music theory. Course work includes a survey of current and past textbooks in music theory. In addition, the course covers how to create a syllabus, how to write a lesson plan, how to manage class time, and how to deal with different learning styles among students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8732. Programming in Max. 3 Credit Hours.**

This course will use the visual programming language Max to explore and implement various topics in electro-acoustic music and digital media. Topics covered will include digital sound synthesis (additive, subtractive and modulation synthesis), signal processing and sequencing. Students will learn mathematical and programming techniques for expressive digital audio signal processing and software design. Topics covered will include spectral audio programming, algorithmic synthesis, compiling, MIDI, OSC, mobile applications, live processing, and software architecture. Students will create their own interactive programs and algorithms modeled after course concepts and use these to compose a series of "etudes". Additionally, a working history of electronic music will complement course topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8733. Music Mixing in Pro Tools. 3 Credit Hours.**

This course explores fundamental planning and procedures for creating a functional and sharable music mixing session in Pro Tools. Pro Tools basic structure, importing audio, mixing basics, and final mix delivery are covered. A new song or music project will be introduced with each class, with a mix delivery due prior to the next week's class.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in (MUST 4713, MUST 5729, or MUST 8729) and (MUST 4714, MUST 5714, or MUST 8712)

**MUST 8737. History and Pedagogy of Musicology. 3 Credit Hours.**

History and Pedagogy of Musicology studies the major figures and methodologies in the history of musicology. In addition, the course examines the growing field of pedagogical methods in play for teaching music history for both non-music majors and music majors at the undergraduate level.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUST 8701.

**MUST 8738. Schenkerian Analysis 1. 3 Credit Hours.**

This course is an introduction to the theories of Heinrich Schenker. The course will begin with a review of harmony (Stufen theory) and counterpoint (Species) as conceived by Schenker. The primary concern of the course, however, is to learn how to create Schenkerian analyses, starting with analysis at the level of the musical phrase and culminating in the analysis of a sonata form. Weekly assignments will include analyses of excerpts drawn from 18th- and 19th-century music

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8739. Schenkerian Analysis 2. 3 Credit Hours.**

This course continues the study of Schenkerian Analysis first through study of his three major works: Schenker's Harmony text, his Counterpoint text, and his Free Composition. The course also includes analysis of longer forms, chromatic music, and extensions of his theory in rhythmic analysis, and music after 1900.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUST 8738.

**MUST 8740. Seminar in Composition. 3 Credit Hours.**

Enrollment limited to composition majors. For students enrolled in M.M. and D.M.A. programs in Composition. Guidance toward realization of individual creative concepts in music and critical evaluation of the results.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8741. Analytical Techniques. 3 Credit Hours.**

This course develops techniques for the analysis and understanding of music's expressive structure. Its primary goal is to develop greater comprehension of frequently encountered compositional forms and devices as found in great works of literature. A second goal is to provide a basic introduction to some of the current methods of theoretical analysis of music (which will probably be new or less familiar to most students). A third goal is to relate analysis to performance; in other words, how can analysis lead to a more informed performance? The course is divided into eight parts of primarily 2-week sections—I: Contrapuntal Procedures; II: Harmonic Forms; III: Schenkerian Analysis; IV: Rhythm, Meter, and Hypermeter; V: Hermeneutic Approaches; VI. Twentieth-Century Techniques and Jazz; VII. Set Theory and Twelve-Tone Theory; VIII. Grand Finale.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8742. Seminar in Theoretical Analysis. 3 Credit Hours.**

Investigation of theoretical and analytical problems in music, including theories of Heinrich Schenker and others as pertinent to particular faculty concerns.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8743. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8744. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8745. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8746. Seminar in Stylistic Analysis. 3 Credit Hours.**

Advanced study of compositional techniques, composers, analytical techniques, and/or genres. Seminar subject areas may include Bartok's theory and practice, Stravinsky's Russian Period, Analytical Techniques, Lied, Analysis of Opera, Mozart's Piano Concerti, Music of Debussy and Messaien, current trends in analysis, American Neo-classicism, serialists, and others.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8747. Aesthetics of Music. 3 Credit Hours.**

Aesthetic principles as applied to music. Problems in making value judgments. Historical survey of aesthetic theories. Individual investigation of topics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8748. Seminar in Post-Tonal Theory. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8749. Current Topics in Musicology and Theory. 3 Credit Hours.**

A detailed survey of issues driving current research in musicology and music theory. A required foundation-course for graduate students in musicology/theory, Current Topics is also open to other graduate students with an interest in these disciplines. Although the course begins with a brief history of these two disciplines, the emphasis for most of the semester is on the various methodologies and issues now in circulation. The conclusion of the course focuses on individual research projects, where students begin an intense study of an area of interest to them. This study culminates in the writing of a proposal, suitable to form the basis of a thesis paper or publishable research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8750. Special Topics in Music Technology. 3 Credit Hours.**

Advanced focus on one or more topics related to the field of Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8751. Singing on Record. 2 to 3 Credit Hours.**

A survey of the most notable recorded vocal performances. Emphasis is on vocal categories, repertoire, the operatic career, changing vocal styles, performance traditions, and vocal practices throughout the decades.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8752. Studies in Renaissance Music. 3 Credit Hours.**

Selected topics from sacred and secular polyphony and early instrumental music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8753. Music in the Baroque Era: Seventeenth Century. 3 Credit Hours.**

A study of the major stylistic development in the instrumental and vocal music from 1600 to 1700.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8754. Music in the Classical Period. 3 Credit Hours.**

Examination of stylistic trends and representative works of pre-classic composers; detailed study of Haydn and Mozart.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8755. Music in the Romantic Period I. 3 Credit Hours.**

An examination of music from the first half of the 19th century in the context of new social conditions, literary Romanticism, bourgeois audiences, and the changing role of the artist.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8756. Music in the 20th Century: 1900-1945. 3 Credit Hours.**

An examination of stylistic trends in vocal and instrumental music composed from 1900 through World War II.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8757. Music of the Late Baroque. 3 Credit Hours.**

Study of selected works: Vivaldi, Rameau, Bach, Handel, and other composers of the late Baroque period.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8758. Sons of J.S. Bach. 3 Credit Hours.**

Seminar on music composed by several sons of J.S. Bach: Carl Philipp Emanuel, Johann Christian, and Wilhelm Friedemann.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8759. Trad/Pop Mus of Latin Am. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8760. Special Topics in Music Technology. 3 Credit Hours.**

Advanced focus on one or more topics related to the field of Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8761. Nineteenth-Century Program Music. 3 Credit Hours.**

A study of the development of instrumental program music in the 19th century. Readings, analysis and individual research are required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8762. Introduction to Music Technology for Non-Majors. 3 Credit Hours.**

Introduction to the ways in which computer software and hardware can be used to create, edit, and produce audio, music, and multimedia files. Various music styles and genres, such as hip hop, house, techno, ambient, drum and bass, EDM, experimental, and trap, will be explored through lectures, demonstrations, and hands-on individual and group projects. Additional topics will include working with loops, mixing audio, and the differences between various file formats. A final project is required that demonstrates the student's ability to create a complete musical project using a variety of audio software and file formats. The course is open to all students at Temple with the exception of Music Technology majors. A basic knowledge of music notation and the ability to read music are strongly recommended, though not required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8763. Studies in Performance Practice. 3 Credit Hours.**

An exploration of major issues surrounding the performance of instrumental and vocal music from 1600 to the early 20th century. Through the study of historical treatises and tutors, modern secondary literature, recordings, and the music itself, this seminar seeks to broaden the range of performance options available to contemporary performers interested in creating historically informed interpretations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8764. Studies in Performance Practice. 3 Credit Hours.**

A continuation of Studies in Performance Practice 8763.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8765. Late Nineteenth-Century Russian Music. 3 Credit Hours.**

The Russian, Post-Wagnerian tradition in the music of Tchaikovsky and Rachmaninoff. Genres include symphony, concerto, song, and piano music.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8766. Music of the Caribbean. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8767. Nineteenth Century Piano Music. 3 Credit Hours.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8768. Renaissance Performance Practice. 3 Credit Hours.**

Problems confronting performers of both vocal and instrumental music (ca. 1450-1600): improvisation and ornamentation, modal theory, and music ficta.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8769. Verdi Seminar. 3 Credit Hours.**

A chronological survey of the major works of Verdi, focusing on changing styles and performance practices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8771. Post-Tonal Theory II. 3 Credit Hours.**

This course extends the studies begun in Post-Tonal Theory through readings and analysis. It is organized into 3-week sessions: 1. Explorations of Atonal Theory; 2. Explorations in Transformational Theory; 3. Explorations in Twelve-Tone Theory; 4. Explorations in Rhythm. The course concludes with student presentations and a final scholarly paper.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in MUST 8748.

**MUST 8773. Digital Signal Processing for Music. 3 Credit Hours.**

An investigation of Digital Signal Processing for Music. This course employs lectures, demonstrations, and interactive software to enable students to understand the ways sound is represented by digital signals, and how to transform those signals through mathematical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8774. Hearing Music: Acoustics and Psychoacoustics of Music. 3 Credit Hours.**

A seminar on the psychoacoustics of music, based partly on Perry Cook's collection of essays: "Music, Cognition and Computerized Sound." This course employs lectures and demonstrations to enable students to understand the physics of sound and the perceptual characteristics of the Human Auditory System. Taken together, acoustics and psychoacoustics provide the student with an understanding of why music has the qualities it has, and how sound makers can utilize that knowledge to be more successful in their chosen fields.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8775. Seminar in Audio Software Design. 4 Credit Hours.**

Students will learn advanced mathematical and programming techniques for digital audio signal processing and software design. Topics covered will include spectral audio programming, algorithmic synthesis, compiling, MIDI, OSC, mobile applications, live processing, and software architecture.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8776. Seminar in Physical Computing and Electronic Instrument Design. 4 Credit Hours.**

Students will learn the advanced concepts needed for physical computing and electronic instrument design, including basic circuitry and programming. Topics covered will include direct digital synthesis, audio input and output, MIDI, sensors, microcontrollers, and real-time control.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8777. American Popular Music. 3 Credit Hours.**

Advanced exploration of the roots and transitions of American popular music in the 20th and early 21st centuries. Particular focus upon: cultural, political, and economic contexts; various artists, recordings, and styles; identity with regard to music (e.g. class, gender, race, ethnicity, etc.); and how popular music embodies, and even affects, these cultural tendencies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 8778. Scoring and Audio Design for Video Games. 3 Credit Hours.**

Students gain an understanding of composing interactive music and designing audio for video games. Students will become proficient in the software involved in this process, including a DAW, middleware, and game distribution. The vocabulary and technology of audio production are taught, as well as an understanding of the function of music in interactive media. The business skills necessary to enter and develop a successful career in game audio will be explored. The course contains a laboratory component in which students develop sequencing skills and work with synchronized animation.

**Field of Study Restrictions:** Must be enrolled in one of the following Fields of study: Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8779. Romantic Performance Practice: The Schumanns, Chopin, and Brahms. 3 Credit Hours.**

This seminar will focus on historically aware interpretations of keyboard, vocal, and chamber music by the Schumanns, Chopin, and Brahms. Special attention will be paid to the roles of improvisation, dance, and earlier instruments, along with questions of tempo, articulation, and rubato. Assignments will include reading, listening, and class performance.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 8783. Analog and Modular Sound Synthesis. 3 Credit Hours.**

This hands-on class examines techniques of making music with analog and modular/semi-modular synthesizers within a historical framework. Students will first be introduced to the personalities and machines behind early electronic music. Historical and contemporary techniques of sound synthesis, patch creation/documentation and modulation will be discussed and employed using a variety of hardware and software synthesizers with an emphasis on in-house hardware. Students will record and upload clips to a sample catalog that they will use as a basis for compositional studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 9182. Independent Study. 1 to 3 Credit Hour.**

Special authorization required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9282. Independent Study. 1 to 3 Credit Hour.**

Special authorization required.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9701. Doctoral Seminar Analysis, Interpretation, and Performance. 3 Credit Hours.**

For doctoral students only; master's with permission. An inquiry in broad context and across media into some fundamental issues of performance. Analysis, readings, discussions, performance, and critique.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may not be repeated for additional credits.

**MUST 9702. Doctoral Seminar in Music Studies: Music Theory. 3 Credit Hours.**

This course is a directed-research course focused on a sub-topic in the field of music theory. The course includes intensive reading and writing about that sub-topic. The course includes discussions about how to develop a working thesis (proposal), how to write an abstract, how to write a lecture, and how to develop that lecture into a seminar paper and into a publishable article.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MUST 8701.

**MUST 9703. Doctoral Seminar in Music Studies: Music History. 3 Credit Hours.**

This course is a directed-research course focused on a sub-topic in the field of music history. The course includes intensive reading and writing about that sub-topic. The course includes discussions about how to develop a working thesis (proposal), how to write an abstract, how to write a lecture, and how to develop that lecture into a seminar paper and into a publishable article.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MUST 8701.

**MUST 9704. Doctoral Seminar in Music Studies: Music Composition. 3 Credit Hours.**

This course is a directed-research course focused on a sub-topic in the field of music composition. The course includes intensive reading and writing about that sub-topic. The course includes discussions about how to develop a working thesis (proposal), how to write an abstract, how to write a lecture, and how to develop that lecture into a seminar paper and into a publishable article.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Philosophy.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in MUST 8701.

**MUST 9994. Preliminary Exam Preparation. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9995. Final Project: Music Technology. 1 to 3 Credit Hour.**

Under departmental approval and faculty supervision, the student will design and implement a substantial project in music technology. The project will include a written paper with supporting documentation and appropriate bibliographic references that explain the project in detail. The project and paper will require that the student demonstrate an ability to integrate and synthesize advanced technological knowledge and skills in the conceptualization and creation of the final outcome, such as a piece of software, hardware, media project, or multimedia product. Students projects will be showcased and discussed by each student as a capstone event, open to the public.

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9996. Final Written Project: Music Theory. 1 Credit Hour.**

A minimum of one semester is required of all M.M. candidates in the Music Theory program

**Field of Study Restrictions:** Must be enrolled in one of the following Majors: Music Theory.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9998. Pre-Dissertation Research. 1 to 6 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Repeatability:** This course may be repeated for additional credit.

**MUST 9999. Dissertation/Monograph Research. 1 to 6 Credit Hour.**

Dissertation research or monograph research for doctoral candidates. Dissertation/Monograph Research credit maintains the continuous enrollment as required by the University.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Music & Dance, Boyer College.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

## Narrative Medicine (NMED)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**NMED 8101. Introduction to Narrative Medicine (Professional Students). 3 Credit Hours.**

Introduction to Narrative Medicine is designed to introduce students to narrative medicine in close observation of the human experience especially as it relates to sickness and to health. In a small seminar format using lecture, careful analysis of literature, writing exercises, course discussion and shadowing in the hospital, students will explore the role of narrative in medicine and the vast expanse of human stories. The course will focus on the discipline of narrative medicine and the role of narrative in health care; narratives of illness and health; and narratives written by doctors. During this course, students will learn methods of observation and communication and hone their ability to hear stories and to tell them. The course will include one short and one longer shadowing experience most likely in the Emergency Department or Intensive Care Unit of Temple University Hospital to connect our students to the practice of medicine.

**Repeatability:** This course may not be repeated for additional credits.

**NMED 8102. Literature and Medicine (Professional Students). 2 Credit Hours.**

The goal of this course is to use literature and reflective writing to deepen students' understanding of human experience in healthcare, including the experiences of patients and those that influence their own professional identity development. Students will be divided into groups of 4-6 members who will collectively select three books from a suggested reading list. One or two will be about being or becoming a doctor or other health practitioner and one or two will be about the experience of being a patient. Students will also write two reflective essays. Discussion of the books and student essays will be done both in the classroom and online.

**Repeatability:** This course may not be repeated for additional credits.

**NMED 8103. Narrative Medicine and Clinical Practice (Professional Students). 2 Credit Hours.**

Narrative Medicine and Clinical Practice for Professional Students is designed for LKSOM MD Program enrolled students. Narrative Medicine and Clinical Practice for Professional Students will align with the clinical rotations of third year LKSOM MD students and offer an opportunity to metabolize the experiences of modern medicine. This course will meet in small groups for 12 sessions that are 2.5 hours. Meetings will take place at convenient times based on the clinical schedules of the students enrolled aiming for one course meeting during each clinical block. In this course we will use close reading of fiction and non-fiction literature alongside current clinical experiences to explore a range of topics relevant to the professional development of all doctors.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in NMED 8101 and NMED 8102.

**NMED 8200. Special Topic in Narrative Medicine (Graduate Students). 1 Credit Hour.**

Students may select from the Narrative Medicine Elective courses offered as part of the LKSOM MD Program. Students should contact the Dean of Students Office at LKSOM to determine the specific courses offered each semester. Examples of LKSOM MD Program Narrative Medicine Elective courses currently offered are: MEDS M240 - An Exploration of Narrative Medicine, MEDS M243 - Humans of North Philly, MEDS M270 - Artful Thinking, MEDS M226 - Arts Workshop, MEDS M227 - Fundamentals of Improvisational Theater, MEDS M241 - An Exploration of Meaning Through Stories, Poems, and Plays, MEDS M234 - Yoga and Writing, MEDS M143 - Medical Humanities, PSYM M266 - Psychiatry: A Narrative Pursuit, and MEDS M130 - Reflections on Gross Anatomy.

**Repeatability:** This course may be repeated for additional credit.

**NMED 8201. Introduction to Narrative Medicine (Graduate Students). 3 Credit Hours.**

Introduction to Narrative Medicine is designed to introduce students to narrative medicine in close observation of the human experience especially as it relates to sickness and to health. In a small seminar format using lecture, careful analysis of literature, writing exercises, course discussion and shadowing in the hospital, students will explore the role of narrative in medicine and the vast expanse of human stories. The course will focus on the discipline of narrative medicine and the role of narrative in health care; narratives of illness and health; and narratives written by doctors. During this course, students will learn methods of observation and communication and hone their ability to hear stories and to tell them. The course will include one short and one longer shadowing experience most likely in the Emergency Department or Intensive Care Unit of Temple University Hospital to connect our students to the practice of medicine.

**Repeatability:** This course may not be repeated for additional credits.

**NMED 8202. Literature and Medicine (Graduate Students). 2 Credit Hours.**

The goal of this course is to use literature and reflective writing to deepen students' understanding of human experience in healthcare, including the experiences of patients and those that influence their own professional identity development. Students will be divided into groups of 4-6 members who will collectively select three books from a suggested reading list. One or two will be about being or becoming a doctor or other health practitioner and one or two will be about the experience of being a patient. Students will also write two reflective essays. Discussion of the books and student essays will be done both in the classroom and online.

**Repeatability:** This course may not be repeated for additional credits.

**NMED 8204. Narrative Medicine and Clinical Practice (Graduate Students). 2 Credit Hours.**

Narrative Medicine and Clinical Practice for Graduate Students is designed for the non-LKSOM MD Program enrolled students. Narrative Medicine and Clinical Practice for Graduate Students will offer students an opportunity to metabolize the experiences of modern medicine as experienced by the patient and the caregiver. This course will meet in small groups for 12 sessions that are 2.5 hours each. Meetings will take place at convenient times based on the schedules of the students enrolled aiming for one course meeting every 2 weeks. In this course we will use close reading of fiction and non-fiction literature alongside current clinical experiences to explore a range of topics relevant to the professional development of all caregivers. Students enrolled working in clinical fields (social work, nursing, dental, etc.) will use their current clinical experiences. Those not currently in a patient-facing field will be given time to shadow in hospital and clinical settings as arranged by the course director to provide relevant experience for in-class discussion.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in NMED 8201 and NMED 8202.

**NMED 9182. Narrative Medicine Capstone Project (Professional Students). 3 Credit Hours.**

Working in conjunction with an advisor from the core narrative medicine faculty, the student will craft and complete an independent project on a narrative medicine topic/area of particular interest. The student will collaborate with academic, medical, and community mentors as appropriate to conceive, develop, undertake and complete the project. This may involve, but is not limited to, creation of a capstone paper, a creative writing project, a research study, curriculum development, or photo essay. Its final form should be in a manner that can be shared - in publication, display, performance, grand rounds presentation or some other manner suitable to the project.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in NMED 8103.

**NMED 9282. Narrative Medicine Capstone Project (Graduate Students). 3 Credit Hours.**

Working in conjunction with an advisor from the core narrative medicine faculty, the student will craft and complete an independent project on a narrative medicine topic/area of particular interest. The student will collaborate with academic, medical, and community mentors as appropriate to conceive, develop, undertake and complete the project. This may involve, but is not limited to, creation of a capstone paper, a creative writing project, a research study, curriculum development, or photo essay. Its final form should be in a manner that can be shared - in publication, display, performance, grand rounds presentation or some other manner suitable to the project.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in NMED 8204.

## Neurology (NEUR)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**NEUR M239. Clinical Neurology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**NEUR M250. Neurology of Behavior. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**NEUR M300. Neurology Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**NEUR M370. Neurology. 0 Credit Hours.**

**Course Attributes:** M1

**Repeatability:** This course may not be repeated for additional credits.

**NEUR M471. Vascular Neurology Elective. 0 Credit Hours.**

The Vascular Neurology Elective is designed to give the student increased exposure and autonomy in care of the neurology patient. It is further designed to give the student additional experience and increased knowledge of vascular neurological disorders.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in NEUR M370.

**NEUR M472. Neuromuscular Elective. 0 Credit Hours.**

The purpose of the Neuromuscular Elective is to provide medical students with a greater depth and breadth of exposure to neurology patients who have a primary neuromuscular disorder. During this rotation, students will have the opportunity to: 1) Participate in the care of patients with ALS, muscular dystrophy, and neuropathy in a multidisciplinary clinic, 2) Evaluate and participate in the diagnosis and treatment of a broad spectrum of neuromuscular disorders, 3) Observe electrophysiological testing (electromyography and nerve conduction studies) and interpret the results, and 4) Interpret nerve and muscle biopsies. The students will also participate in the multidisciplinary MDA clinic at Good Shepard Hospital in Allentown, PA.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in NEUR M370.

**NEUR M473. Clinical Neuropsychology. 0 Credit Hours.**

This elective is housed within the Neuropsychology Department of SLUHN's Center for Neuroscience. Students will learn a broad range of neuropsychological assessment procedures and are exposed to virtually every neuropathological condition including the full spectrum of neurodegenerative disease processes, movement disorders, closed and penetrating head injuries, sports concussion, epilepsy, cerebrovascular diseases and accidents, neoplastic disease, and cognitive change due to other complex medical or neurologic conditions. This elective will give the student exposure to the full process of a comprehensive neuropsychological evaluation, including clinical interviewing, test selection and administration, scoring and interpretation, report writing, and delivering feedback to the patient.

**Repeatability:** This course may be repeated for additional credit.

**NEUR M600. Neurological ICU (NICU) - Critical Care. 0 Credit Hours.**

The required critical care course will introduce students to the management of critically ill patients. Students are expected to follow their patients' progress and contribute to their care with supervision. Students will observe and assist as possible in procedures being performed in the ICU. Students will obtain exposure to assisted ventilation, palliative and end-of life care.

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P in INTM M301, OBGY M320, PEDI M330, PSYM M340, SURG M350, NEUR M370, and FAMP M360.

**NEUR M601. Neurology. 0 Credit Hours.**

**Course Attributes:** M2

**NEUR M602. Clinical Epilepsy & EEG. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**NEUR M612. Neuro-Ophthalmology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**NEUR M613. Neuroimmunology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

## Neuromotor Science (NMS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**NMS 9621. Neuromotor Science 1: Neural Factors. 3 Credit Hours.**

Current theories and research pertaining to the neural mechanisms underlying motor control, sensorimotor integration and motor learning will be introduced as a foundation for understanding functional movement and motor deficits. The roles of selected brain regions as they relate to different aspects of motor behavior will be discussed. Lesions studies will be presented to further demonstrate the impact of neural impairments on movement performance and motor learning. Application of neurophysiologic methods that evaluate the relationship between neural circuitry and human movement (e.g., EMG, MRI, PET, EEG, TMS) will be discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9622. Neuromotor Science: Instrumentation. 3 Credit Hours.**

Instrumentation is an introduction to electrical components and circuits, and their role in the function of laboratory instrumentation. The main goal of this class is to develop the student's competence in managing the instrumentation and the quality of resultant data for motion analyses through an understanding of data acquisition equipment that is appropriate to their chosen research area. The student will be exposed to basic electronic design of filters, amplifiers, and A/D sampling as well as selected pieces of laboratory instrumentation. The class is organized in a lecture/lab structure.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9623. Neuromotor Science: Programming. 3 Credit Hours.**

This course is designed for students with little to no programming skills to help them with a general understanding of computer hardware, software, and the interaction between the two. Factors that make the use of the computer useful to neuromotor research will be presented. Basic computer architecture and operating systems will be discussed in this class. The student will gain a basic understanding of software programming logic and structures as well as signal processing techniques for analysis of human movement data. The goal of this course is for students to gain skills in basic programming for scientific data analysis of time series data with Matlab. In addition, students will also be exposed to software packages commonly used for movement analysis such as LabView, C, Visual-3D, and OpenSIM. The class is organized in a lecture/lab structure.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9624. Neuromotor Science 2: Mechanics and Models. 3 Credit Hours.**

Application of mechanical principles to static and dynamic models of human posture and movement and of the mechanical properties of the link-segment systems and biological tissue are introduced in this course. Theoretical frameworks, computational, and statistical models (e.g., dynamical systems, equilibrium point, control theory, and Bayesian) are introduced as a basis for understanding the organization of complex movement patterns. Interpretation of the model predictions is based on both healthy individuals and those with movement deficits. The first half of the course will focus on the development of the tools necessary to conduct biomechanics research, process the data, and perform biomechanical data analysis. The second half of the course will work through common biomechanics questions related to human movement in three dimensions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9627. Neuromotor Science 3: Cognition and Learning. 3 Credit Hours.**

This course focuses on current theories and research related to cognitive and learning processes that influence motor behavior. Objectives include examination of lifespan motor development and learning, attentional mechanisms, perceptual effects on motor output, implicit and procedural memory effects on motor control, automatic compensatory responses and/or strategies following injury or disease, and the factors that influence adaptation and learning to long- and short-term changes in the body or environment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9653. Grantsmanship. 3 Credit Hours.**

This course exposes the Ph.D. level student to the mechanisms and methods of acquiring funding for Behavioral and Somatic Science Research. Students will learn Grantsmanship - the skills required to write a grant proposal. Learning experiences consist of literature review, writing key sections of a grant application, and if applicable, subject recruitment. Class time will be divided into lectures and discussion of assignments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NMS 9654. Neuromotor Science: Laboratory Rotation and Seminar. 1 to 3 Credit Hour.**

This course provides the student with an in-depth exposure to the laboratory methods and focus of a faculty member. Students will learn the conceptual basis for the research as well as technical skills such as instrumentation and data analyses pertinent to the areas of research that are core to the NMS program or in a cognate area of interest to the student. Two rotations (6 credit hours) are required for the Ph.D. degree students and a single rotation (3 credit hours) for the MS degree students.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NMS 9682. Neuromotor Science: Independent Study. 1 to 3 Credit Hour.**

This course provides an opportunity for independent investigation and analysis of the intellectual, physical, social, psychological, and ethical bases of human movement. An independent study allows students to explore a well-defined area within Neuromotor Science and related fields in greater depth providing an opportunity for independent investigation and analyses of topics that enrich their academic and research training.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NMS 9994. Doctoral Preliminary Exams. 1 Credit Hour.**

This course supports preparation for taking the preliminary examinations in the Neuromotor Science program. To enroll, students must have completed all required coursework for the Ph.D. and obtain the approval of the Ph.D. Program Director. Students must be enrolled to take the required preliminary examinations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NMS 9998. Dissertation Proposal. 1 to 2 Credit Hour.**

This course supports preparation of the dissertation proposal. The course is required for students who have passed the preliminary examinations for their programs and who have not yet defended the dissertation proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in NMS 9994.

**NMS 9999. Dissertation Research. 1 to 3 Credit Hour.**

This course is limited to Ph.D. candidates who have completed and defended a dissertation proposal that is filed with the Graduate School by the last day to add a course in the semester. Continuous registration in 9999 fall and spring is required until the dissertation is successfully defended.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Student Attribute Restrictions:** Must be enrolled in one of the following Student Attributes: Dissertation Writing Student.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in NMS 9994.

## Neuroscience (CLA) (NSCI)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**NSCI 5001. Systems and Behavioral Neuroscience. 3 Credit Hours.**

The goals of this class are to expose Master's degree students to topics in systems and behavioral neuroscience. In addition, students will also be introduced to methods and techniques used for the analysis of neural and behavioral data. Through intensive instruction of systems underpinning sensory, motor, and integrative functions, as well as motivation, students will gain a thorough understanding of brain function/behavior and its neuronal correlates.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 5002. Neurochemistry. 3 Credit Hours.**

This course explores the major areas of cellular and molecular neurobiology, including cellular and subcellular components of the nervous system, neuronal excitability and molecular properties of ion channels, biochemistry of synaptic transmission, intracellular signaling, neurochemistry of learning and memory, cell injury and inflammation and psychiatric/neurodegenerative disorders. Material includes lectures, presentations and discussion of primary literature and journal articles that cover recent advances in the field. Additionally, students will get the opportunity to gain hands-on experience with some of the research methodologies used to study neurochemical processes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 5016. Professional Development in Neuroscience. 3 Credit Hours.**

This course will help prepare you for the remainder of your master's degree by providing the required laboratory and animal training, laboratory technique training, research and presentation skills training, and discussion of ethical issues in the field. The first module of this course will cover all the necessary laboratory and animal training and the second module will expose students to contemporary neuroscience techniques. The third module will provide training in research and presentation skills including how to design a research study, write a research paper and presenting your results. In the fourth module, we will discuss the ethical issues in neuroscience and consider the future challenges that may arise from the evolving study of the genetic and neurobiological determinants of behavior.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 8007. Neuroendocrinology. 3 Credit Hours.**

This course will provide an in-depth exploration of the interactions between the endocrine system and the nervous system. The role of hormones in modulating behaviors and mental processes will be covered with the following topics: sex determination and differentiation, reproduction, parental behavior, social behavior, homeostasis, biological rhythms, stress, learning and memory, and affect. Multidisciplinary approaches to understand neuroendocrine function and dysfunction from the molecular to systems level will be covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 8008. Neuropsychopathology. 3 Credit Hours.**

This course will provide an in-depth exploration of neuropsychopathology. Students will learn about recent advances in the understanding of the neurobiology mechanisms that underlie psychiatric disease, neurodegenerative, and neurological disorders. How available and experimental treatments for these disorders work also will be covered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 8009. Neuroscience Drug Discovery. 3 Credit Hours.**

This course will consist of a series of didactic sessions and seminar-style discussions on topics that cover major aspects of the drug discovery process including lead/target identification, validation, preclinical pharmacology, toxicity and clinical trials. The course will also address unique challenges of research translation from preclinical to early and late phases of clinical development. Additionally, the technical and clinical aspects of biomarker validation needed to be applied to the different aspects of drug development process will be discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NSCI 8010. Topical Seminar in Neuroscience. 3 Credit Hours.**

This seminar course will expose graduate students to contemporary issues in a specific area of neuroscience. Students will examine different topics through interactive lectures, discussion of research papers in a seminar-like format, and critical analysis of research studies. Importantly, this course will allow students to develop perspectives on recent advances in diverse areas including cellular and molecular neuroscience, systems and behavioral neuroscience, developmental neuroscience, social neuroscience, cognitive neuroscience, and overlapping cross-cutting themes across these areas. The course topics/themes will vary from semester to semester.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NSCI 9381. Readings in Neuroscience. 1 Credit Hour.**

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NSCI 9991. Directed Research. 1 to 6 Credit Hour.**

This course is intended to meet the needs of students who desire to carry on an individual investigation while working towards the Master's degree in Neuroscience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Neurosurgery (NESU)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **NESU M199. Neurosurgery/Elective. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

### **NESU M300. Neurosurgery Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

### **NESU M311. Career Exploration of Neurosurgery. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

### **NESU M611. Neurosurgery. 0 Credit Hours.**

**Course Attributes:** M2

### **NESU M612. Cranial Neurosurgery. 0 Credit Hours.**

This course is for students applying for a Neurosurgery Residency to get a more in-depth experience in Neurosurgery. They will focus on Cranial Neurosurgery. They will participate in the OR, inpatient and outpatient.

**Repeatability:** This course may be repeated for additional credit.

### **NESU M811. Neurosurgery Sub-I. 0 Credit Hours.**

Neurosurgery Sub-I satisfies the sub-I requirement for 4th year. Students will participate on the Neurosurgery service, in both the inpatient and outpatient setting. They will take on the role of an intern, including seeing consults, following patients, seeing patients in clinic and participating in OR cases. They will develop assessment and plans for the patients they are seeing.

**Repeatability:** This course may be repeated for additional credit.

## Nursing (NURS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **NURS 5101. Translation of Evidence in Healthcare. 3 Credit Hours.**

The course provides the basis for clinical scholarship development by focusing on essential skills for applying evidence into advanced nursing practice and healthcare systems. Conceptualization, definition, theoretical rationale, and models of evidence-based practice will be evaluated. Students will explore the concept of practice-based knowledge and the process of translation of research into practice. Students will perform a critical review and synthesis of knowledge in their own area of concentration and will identify key concepts and relationships for their practice change that will become the foundation for their scholarly project proposal.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **NURS 5401. Advanced Physiology and Pathophysiology. 4 Credit Hours.**

A systems approach is used to review normal physiology and analyze selected acute and chronic pathophysiologic states across the life span to provide the scientific rationale for safe and effective advanced nursing practice. Pathophysiologic processes of diseases across the lifespan are explored within the context of health promotion, disease prevention, and evidence-based practice.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 5402. Advanced Pharmacotherapeutics. 4 Credit Hours.**

This course will explore the principles of advanced pharmacology as they apply to various disease states with consideration of medication selection factors, client adherence, and ethical implications of prescribing. The pharmacokinetics, pharmacodynamics, adverse drug effects, precautions, and drug interactions of broad categories of drugs are examined. Safe prescribing of therapeutic agents is addressed within the context of specific populations.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 5401.

**NURS 5501. Theories for Advanced Practice Nursing of Families and Individuals. 3 Credit Hours.**

Advanced Practice Nursing students in this course will gain an understanding of families and current family theories (e.g., systems theory, developmental, communication, and stress theories) in detail. They will examine the interaction of family structure, function, traits, processes, and health for diverse families using a life-cycle approach. Case studies will focus on individuals, families, and communities dealing with health protection, health promotion, disease prevention, and acute and chronic illnesses. Students will plan assessments and empirically-based interventions for diverse, traditionally underserved families. Students will have the opportunity to present their application of a specific family theory to a selected clinical situation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 5552. Advanced Health Assessment and Clinical Reasoning. 4 Credit Hours.**

This course focuses on developing advanced health assessment skills needed to formulate differential diagnoses in the care of individuals across the lifespan. Students will use clinical reasoning to distinguish abnormal from normal findings using advanced assessment techniques for culturally diverse patients.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 5402.

**NURS 8101. DNP Project Development I. 1 Credit Hour.**

This course is the first in a series of three. Utilizing a systems or population focus, the student identifies an issue that impacts healthcare outcomes either through direct or indirect care. The PICOT question format is used to frame and answer the clinical or health care related question, guided by the evidence base. In partnership with an appointed faculty mentor the student identifies a community partner with similar interests and establishes a collaborative agreement for future project-related work to address the question of interest as applied in the community setting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 5101.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 8102. DNP Project Development II. 1 Credit Hour.**

This course is the second in a series and focuses on the partnership with the identified community partner to develop and refine the Doctor of Nursing Practice (DNP) project. The student collaborates with the partner to finalize the overall project plan, design the implementation, and establish the evaluation process including identifying outcome measures. Further work on the scholarly product will continue through to the DNP Implementation course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 8302.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 8101.

**NURS 8103. DNP Project Implementation. 3 Credit Hours.**

This is the final course in the series. Students incorporated previously acquired knowledge and skills to demonstrate integration of the advanced practice nurse role and successful execution of the Doctor of Nursing Practice (DNP) project. The project is derived from evidence-based research and evolves from a student-initiated area of interest, informed by coursework, the clinical practice experience and collaboration with a community partner. Project execution included evaluation and dissemination of the findings that includes a public presentation and scholarly paper.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 8102.

**NURS 8201. Health Indices of Urban Populations in Primary Health Care. 3 Credit Hours.**

This course examines factors critical to the health status of diverse populations across settings, with particular emphasis on urban environments.

Variables explored include, but are not limited to, the dynamically interacting systems of education, housing, architecture, transportation, health care delivery, government, economics, law, religion, and culture. The relationships among these potential influences on health status are explored within the context of class and economics as key drivers of health indices. Students engage in course requirements that generate critical analysis of environmental systems that perpetuate poor health indices, particularly among minorities. Students engage in nursing-focused case analyses, problem-based exercises, class discussion, and debates as vehicles for understanding the key constructs explicated in this course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in NURS 5901.

**NURS 8204. Policy: Health Care Advocacy in Advanced Nursing Practice. 2 Credit Hours.**

Health policy and the processes and procedures that inform development and implementation are analyzed to assess impact on individual and population health. Social, cultural, economic, and demographic factors are considered. Students discuss and debate principles of equity, quality care, and health promotion and illness prevention within the broad context of access, insurance and delivery of advanced practice nursing, comparing and contrasting US and international practices. The roles and responsibilities of the health care team are dissected, with a focus on collaboration and delegation as a means to achieve cost effective quality care. Nursing's advocacy role in policy evolution is explored and evaluated.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 8205. Nursing Leadership for Systems and Communities. 2 Credit Hours.**

This seminar is the core leadership course for all DNP students. It is designed to help students appreciate and understand the impact of their own strengths and biases, reflect on the importance of diversity in healthcare, and prepare to function and lead effectively within teams to meet the needs of the community. Students will learn about team science and critically analyze various approaches to promoting high-impact teams. They will become self-aware leaders and begin reflective leadership practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**NURS 8206. Health Economics and Business Practices in Primary Healthcare. 2 Credit Hours.**

Concepts that influence quality, access, and equity are explored to assess impact on the delivery of healthcare in the US. Reimbursement systems are examined to assess the impact on care decisions made at individual, family, community, and population levels. Gaps in healthcare financing resulting in compromises in health delivery are analyzed, with alternative models of healthcare coverage explored. The integration of business and financial principles into health care delivery is evaluated. Multiple data sets are analyzed to identify variations in health outcomes and to inform the system enhancements students propose to improve outcomes.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 8207. Advancing Health Through Information Technology. 2 Credit Hours.**

Course content emphasizes the role of information technology in supporting the advanced practice nurse as healthcare provider, administrative/financial manager, client educator and researcher, in a variety of health care settings. Foundational concepts in nursing informatics, and its applications in point-of-care technology, data management and analytics, and patient safety and quality are reviewed. Emerging developments in nanotechnology, genomics, and the harnessing of social media in healthcare delivery are explored.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 8302. Managing Quality Initiatives Through Nursing Quality Initiatives. 3 Credit Hours.**

This course focuses on improving health outcomes for individuals and populations through analysis of health reports and implementation of quality initiatives. Organizational systems are analyzed to identify barriers to achieving quality outcomes, including practice patterns, perceived incongruence between productivity and quality, and issues of sustainability. Using the principles of evidence-based practice, we will also discuss programmatic initiatives and policy changes that may lead to improved health outcomes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9182. Independent Study. 1 to 6 Credit Hour.**

This course is an independent study arranged by a student with a faculty member who has an area of expertise consistent with the project the student wants to develop.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**NURS 9189. Collaborative Partnerships: Interdisciplinary. 1 Credit Hour.**

Interactions between health care professional teams within a health care delivery system are explored through case study methodology and fieldwork, relative to a health-related issue. Leadership, communication and team practice capabilities will be compared and contrasted among teams with and without a nurse working in an advanced nursing practice role.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9289. Collaborative Partnerships: Transdisciplinary. 1 Credit Hour.**

Moving beyond discipline-specific approaches, the advanced practice nursing student will partner with professionals from other fields, such as engineering, criminal justice and education to identify a community issue with health implications and propose an intervention to address the issue that considers and integrates concepts, theory and methodology from nursing as well as other disciplines.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9377. Primary Care of Adults I Theory. 3 Credit Hours.**

This course focuses on a holistic approach to primary care for the young, middle-aged and older adult patient. National guidelines inform the primary, secondary, and tertiary prevention of acute and chronic health problems, as well as health concerns that commonly occur in this population, considerate of age, race/ethnicity and gender, as well as the social determinants of health. Evidence-based health promotion strategies that support patients to establish and maintain healthy habits are explored. Clinical reasoning is further refined by incorporating nursing, biomedical, and complementary models of care delivery to achieve optimal health outcomes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9387.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 5552, NURS 5401, and NURS 5402.

**NURS 9387. Primary Care of Adults I Practicum. 2 Credit Hours.**

This clinical course focuses on knowledge derived from core and advanced core courses as well as the concurrent NURS 9377 theory course to provide primary care to the young, middle-aged and older adult patient. Clinical experiences focus on care of the individual within the context of family and the health care community.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9377.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9389. DNP I Practicum. 2 to 4 Credit Hours.**

In this supervised immersion practicum experience, the post-masters nursing student will integrate and demonstrate new skills and knowledge consistent with the Doctor of Nursing Practice Essentials and an advanced nursing practice framework. The practicum experience occurs within a variety of health-related environments and focused areas of specialization under the supervision of a preceptor(s), identified in collaboration with academic program faculty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in NURS 8302, NURS 8102, NURS 8204, and NURS 8205.

**NURS 9477. Primary Care of Adults II Theory. 3 Credit Hours.**

This course continues to develop the content introduced in the Primary Care of Adults I course that focuses on a holistic approach to primary care of the young, middle-aged and older adult patient. Evidence-based management of increasingly complex and co-morbid conditions is reviewed with a focus on further development of competency, advocacy and appropriate engagement of others on the health care team. Strategies to enhance meaningful family and community engagement are explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9487.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 9377.

**NURS 9487. Primary Care of Adults II Practicum. 2 Credit Hours.**

Further development of critical thinking and clinical judgment and decision making skills occur in the primary care setting with a continued focus on young, middle-aged and older adults with increasingly complex acute and chronic conditions. There is increased participation by the advanced practice nursing student as a valued member of the care team. Family and community engagement is prioritized.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9477.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9489. DNP II Practicum. 2 to 4 Credit Hours.**

In this supervised immersion practicum experience, further development and integration of the DNP role occurs as the post-masters student continues to build and assimilate knowledge and skill for advanced specialty practice at a high level of complexity. The practicum experience may occur within a variety of health-related environment/s and focused area/s of specialization under the supervision of a preceptor/s, identified in collaboration with academic program faculty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in NURS 9389.

**NURS 9577. Primary Care of the Elderly I Theory. 3 Credit Hours.**

This introductory theory course incorporates a holistic approach to healthy aging of the elderly population. Students are introduced to the primary, secondary and tertiary prevention of acute and chronic health conditions that commonly affect this population. Interventions that support healthy, therapeutic lifestyles and symptom management of the elderly are reviewed. Advocacy for elders in general and those living in urban poverty is explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9587.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 9477.

**NURS 9587. Primary Care of the Elderly I Practicum. 2 Credit Hours.**

In this clinical fieldwork experience, knowledge and skill development is applied to the primary care management of the elderly. The focus includes health maintenance, health promotion, improving health outcomes, reducing health risks, and preventing disease and/or disease progression, within the context of family, community and team practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9577.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9677. Primary Care of the Elderly II Theory. 3 Credit Hours.**

Approaches to engaging and collaborating with formal and informal health care delivery systems to ensure quality care for elderly populations are discussed. Strategies to optimize functional status, quality of life, and improve health related outcomes are explored with attention to maximizing proficient use of cognitive, psycho-motor, and affective abilities. Management of common and complex health care problems is reviewed relative to normal changes associated with aging and pathological changes that occur with disease. The impact chronic illness has on the individual, family and community is considered. Challenges implementing preventive health recommendations and treating illness when working with under-served urban populations are discussed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9687.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 9577.

**NURS 9687. Primary Care of the Elderly II Practicum. 2 Credit Hours.**

The clinical fieldwork experience provides opportunities to further develop knowledge and skill in the care of older adults with increasingly complex acute and chronic conditions. There is increased participation by the advanced practice nursing student as a valued member of the care team. Family and community engagement is prioritized.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9677.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9777. Primary Care of Children and Youth Theory. 3 Credit Hours.**

This course focuses on a holistic approach to primary care for children, adolescents and family. National guidelines that inform primary, secondary, and tertiary prevention of common acute and chronic health problems are reviewed, with a focus on the unique needs of families affected by urban poverty. Through the delivery of primary care, the child and family are supported to establish healthy habits and achieve maximum potential, considerate of developmental stage, anticipatory guidance needs and community resources. Clinical reasoning skills are refined by incorporating nursing, biomedical, and complementary models to foster optimal health outcomes.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9787.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NURS 9577.

**NURS 9787. Primary Care of Children and Youth Practicum. 2 Credit Hours.**

This clinical course focuses on knowledge derived from core and advanced core courses as well as the concurrent NURS 9777 theory course to provide primary care to pediatric populations. Clinical experiences focus on care of the individual and family within the health care delivery system and the community.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Co-requisites:** NURS 9777.

**Repeatability:** This course may not be repeated for additional credits.

**NURS 9885. DNP Clinical Capstone. 3 Credit Hours.**

This course facilitates students' integration of evidence-based research and leadership within their fieldwork practicum. Through critical analysis of knowledge supportive of their practice, students progress from the role of novice provider to more sophisticated and skilled advanced practitioners. The program's systems orientation is explicated in practice through seminars, assignments, fieldwork, and professional presentations. Working in concert with one or more fieldwork preceptors, students practice in their selected specialty track and implement complex clinical reasoning in the provision of care appropriate to the client: an individual, family, community, or the public at large. Students' fieldwork, seminars, and course requirements culminate in nursing expertise in our culture's evolving health care delivery system.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in (NURS 8302 and NURS 5903)

**NURS 9886. DNP Evidence-Based Practice Project Implementation. 3 Credit Hours.**

This course is a culminating experience for students as they incorporate leadership attributes into their professional repertoire, assuming roles demanding evidence-based change in a selected field. Integrating previously acquired knowledge and skills, students demonstrate successful execution of a fieldwork project in concert with their project mentor(s). Such projects, derived from evidence-based research, evolve from needs identified in the fieldwork experience. Through faculty and mentor-guided seminars, students design and implement projects, providing their fieldwork agencies with final presentations. In cooperation with fieldwork mentors, strategic plans to integrate and evaluate project results are incorporated in final projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Nursing Practice.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in NURS 9885.

## Nutrition (NUTR)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**NUTR 5015. Nutrition Education and Counseling. 3 Credit Hours.**

Nutrition Education and Counseling is an introductory public health course that explores the role individual and community factors on food and nutrition behaviors. Students will learn about individual influences on nutrition behavior and the application of behavioral change theory to individual nutrition counseling and group education. Course assignments will include counseling simulations and developing and presenting a nutrition education session. After completing this course, students will be prepared to work with a diverse range of people in individual and community settings.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NUTR 5025. Food Preparation and Management I. 1.5 Credit Hour.**

Food Preparation and Management I is an introductory food service course that provides students with food preparation and management skills. In the first half of the course, students will develop culinary skills and apply food science principles in the cooking lab. In the second half of the course, students will develop food management skills, such as menu planning, food safety and food storage and budget management. After completing the course, students will have the food planning, preparation and management skills needed for food service Supervised Experiential Learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NUTR 5035. Nutritional Biochemistry. 3 Credit Hours.**

Nutritional Biochemistry is an introductory clinical nutrition course that provides students with foundational knowledge about nutrient metabolism. Students will learn about the role of micro- and macro-nutrients in the maintenance of health and the progression of disease. After completing this course, students will be able to describe the physiology and pathophysiology of micro- and macro-nutrients.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**NUTR 5087. Food Preparation and Management I. 1.5 Credit Hour.**

Food Preparation and Management I is an introductory food service course that provides students with principles of food science and techniques of food preparation. This course entails a minimum of 140 hours of supervised experiential learning hours in a food service facility. It includes development of food service skills, application of culinary techniques, and joint supervision by a preceptor and faculty member. Completion of the ServSafe Manager Certification is required for all students prior to starting the course.

**Repeatability:** This course may not be repeated for additional credits.

**NUTR 5387. Dietetics Experiential Learning. 3 Credit Hours.**

This practicum course consists of two components: Supervised Experiential Learning in the field, accompanied by classroom sessions. Students will spend a minimum of 280 hours rotating through inpatient and outpatient clinical nutrition settings. Students will observe and assist preceptors in providing nutrition services, including nutrition assessments, diagnosis, intervention, and monitoring of patients across disease states. Classroom sessions will involve discussions about relevant nutrition issues and student presentations.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NUTR 5535.

**NUTR 5525. Food Preparation and Management II. 1.5 Credit Hour.**

Food Preparation and Management II is an upper-level food service course that provides students advanced food service and management skills. Students will develop a deeper understanding of food systems by reflecting on their food service Supervised Experiential Learning and completing collaborative assignments. The course culminates in a Capstone Meal, a project that requires the application of advanced food service knowledge and skills. After completing this course, students will be competent in large-scale menu planning, food safety principles, food storage practices and food distribution.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NUTR 5387.

**NUTR 5535. Medical Nutrition Therapy. 3 Credit Hours.**

Medical Nutrition Therapy is an intermediate clinical nutrition course that provides students with the skills to diagnose and treat nutrition-related diseases. Students will apply their nutritional biochemistry background as they explore the role of nutrition in treating disease. After learning about the key components of Nutrition Care Process, students will complete case studies in which they assess, diagnose, treat and monitor mock patients. After completing this course, students will have the knowledge and skills needed for clinical Supervised Experiential Learning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NUTR 5035.

**NUTR 5815. Cultural and Community Nutrition. 3 Credit Hours.**

Cultural and Community Nutrition is an advanced public health course that explores the social determinants of health. Students will explore the role of cultural identity, social and physical environment and economic status on food and nutrition behaviors. Assignments will involve engaging with the community and reflecting on this experience. After taking this course, students will have skills for practicing cultural responsiveness and have a deep understanding of environmental influences on health.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Course Attributes:** SI

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NUTR 5387.

**NUTR 5835. Nutrition Through the Lifecycle. 3 Credit Hours.**

Nutrition Through the Lifecycle is an advanced clinical nutrition course that draws on students' existing clinical knowledge, skills and judgement. Students will explore acute nutrition conditions at each stage of the lifecycle, as well as the longitudinal effect of chronic diseases. After completing this course, students will be competent in applying the Nutrition Care Process in health promotion and disease treatment at all stages of the lifecycle.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in NUTR 5387.

**NUTR 9289. MPH Fieldwork I. 3 Credit Hours.**

This course entails a fieldwork project or internship in a public health agency. It includes seminars, oral and written reports of progress, and joint supervision by a preceptor and faculty member.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in EPBI 5006, EPBI 5101, HPM 5006, SBS 5001, and NUTR 5015.

**NUTR 9389. MPH Fieldwork II. 3 Credit Hours.**

This course is an evaluation of the fieldwork project or internship using a full range of research methodologies. Data are collected, analyzed, and reported in a comprehensive final report. Oral and/or poster presentations are presented to public health organizations. The course includes a final oral defense of the project or internship.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in EPBI 5006, EPBI 5101, HPM 5006, SBS 5001, NUTR 5015, and NUTR 9289.

## **Obstetrics, Gynecology & Reproduction (OBGY)**

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**OBGY M289. Intro to Clin OB/GYN. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**OBYG M300. Obstetrics/Gynecology Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**OBYG M307. Career Exploration of Gynecological Oncology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**OBYG M320. Obstetrics/Gynecology. 0 Credit Hours.**

**Course Attributes:** M7

**Repeatability:** This course may not be repeated for additional credits.

**OBYG M325. Career Exploration of Reproductive Endocrinology and Infertility. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**OBYG M433. Family Planning and Public Policy. 0 Credit Hours.**

This elective will provide medical students with an overview on Family Planning as a subspecialty of Obstetrics and Gynecology, with particular focus on elective pregnancy termination. Students will participate in an online curriculum which will cover the epidemiology, political and cultural barriers, as well as national and international health inequities of abortion. Through online pre-recorded lectures and live zoom sessions, students will develop a firm understanding of how to approach counseling patients with unintended pregnancy, the abortion methods used in the first and second trimesters, and how to manage basic complications. They'll read the landmark studies contrasting outcomes of women having access to and those being denied an abortion in the United States and around the world. The student will write an essay that may be op-ed style, poetry, or a personal narrative highlighting an area of family planning for bioethical discussion. They'll submit their work for publication with support from the Ob/Gyn faculty.

**Repeatability:** This course may be repeated for additional credit.

**OBYG M800. General Obstetrics/Gynecology. 0 Credit Hours.**

**Course Attributes:** M2

**OBYG M802. Gynecology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**OBYG M803. Obstetrics. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**OBYG M805. Maternal Fetal Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**OBYG M807. Gynecological Oncology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**OBYG M815. Repro. Endocrin & Infertility. 0 Credit Hours.**

**Course Attributes:** M2

**OBYG M820. Urogynecology and Pelvic Reconstructive Surgery. 0 Credit Hours.**

A four-week elective clinical experience in both ambulatory and inpatient setting addressing medical and surgical problems of a urogynecologic nature.

**OBYG M895. OB/GYN Subinternship. 0 Credit Hours.**

**Course Attributes:** M1

**Repeatability:** This course may be repeated for additional credit.

## Occupational Therapy (OTHR)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

### **OTHR 5001. Developmental Perspectives in Occupational Therapy. 2 Credit Hours.**

This course explores human development and the relation to occupational performance. A study of sensory, physical, cognitive, emotional and sociocultural aspects of human development is emphasized to analyze occupational performance. Lecture, small group, and active learning experiences enhance the analysis and synthesis of developmental perspectives with occupational therapy practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5014.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5002 and OTHR 5005.

### **OTHR 5002. Theoretical Perspectives of Occupation. 2 Credit Hours.**

This course will explore the meaning and purpose of human occupation. Theoretical perspectives of occupation will analyze the construction of skills, habits, roles, and occupations for individuals and populations within various social and cultural contexts. Lecture, small group, and active learning experiences enhance the analysis and synthesis of theoretical perspectives of occupation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **OTHR 5003. Group Dynamics in Occupational Therapy. 3 Credit Hours.**

This course examines teams, social systems, and interdepartmental and intradepartmental relationships in the health care delivery process. A combination of lecture, discussion and training will be used to explore concepts and theories of interdisciplinary group process, group formation, development, and structure and their application within the context of occupational therapy. In assigned groups, students will develop healthcare group protocols to monitor progress, measure outcomes, set goals, and engage in group leadership roles. Students learn to employ constructive feedback to modify and enhance their ability to function as group members and group leaders. This course affords students the opportunity to analyze and apply theories of group dynamics and current literature regarding the use of groups in occupational therapy.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5019.

### **OTHR 5005. Neuroscience Perspectives in Occupational Therapy. 4 Credit Hours.**

This course examines nervous system structures and function to analyze neurobehavioral performance. Lecture, small group, and active learning experiences enhance the analysis and synthesis of neuroscience perspectives with occupational therapy practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

### **OTHR 5008. Kinesiology Perspectives in Occupational Therapy. 4 Credit Hours.**

This course covers the most important features of gross anatomy including detailed study of bones, muscles, blood vessels, and peripheral nerves. Emphasis is placed on functional anatomy of the extremities, head, neck, and back. Additionally, biomechanical principles of joint and muscle structure and function are applied to occupational performance. Students will learn assessments and techniques most commonly used in occupational therapy practice including goniometry of range of motion (ROM), manual muscle testing (MMT), muscle palpation, and body transfers.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 8003.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5005.

**OTHR 5009. Entrepreneurship in Health Professions. 3 Credit Hours.**

The course is designed to introduce students in health professions to entrepreneurship. The goal of the course is to demonstrate the links between knowledge, experience, skills and commercial possibilities.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 5013. Medical Perspectives in Occupational Therapy. 3 Credit Hours.**

General medicine diagnoses that are leading causes of disability in children, adolescents, adults, and older adults are defined and described. Etiology, signs, symptoms, clinical course, medical management, morbidity, and prognosis are reviewed. The influence of medical pathology on activities of daily living, life routines, social participation, and occupational performance is examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5005.

**OTHR 5014. Person-Environment Dynamics in Occupation. 1 Credit Hour.**

This course will apply theoretical, developmental, and kinesiology perspectives of occupational performance within experiential learning opportunities. This course introduces the synthesizing of perspectives for designing and implementing meaningful activities and occupations for individuals or populations considering the reciprocal and dynamic nature of person-environment interactions. This course introduces activity adaptation and behavioral documentation through participation in meaningful occupation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5001.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5002.

**OTHR 5015. Human Dynamics in Occupational Therapy. 3 Credit Hours.**

This course focuses on the concepts of professional development and group dynamics. An overview of the history, philosophy, ethics, and core values of the profession is discussed as orientation to professional identity. Students learn basic interpersonal and clinical skills in preparation for OT practice. Students are introduced to the principles of the interdisciplinary group process, through task and developmental analysis groups. Students will develop healthcare group protocols to monitor progress, measure outcomes, set goals, and engage and communicate in varied group roles. The course is designed to familiarize the student with the basic principles underlying group behavior, dynamics, and process within clinical contexts, and the evolution of professional role identity.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 5019. Theoretical Perspectives in Occupational Therapy. 2 Credit Hours.**

This course examines the theories that guide occupational therapy practice. Through didactic and experiential learning activities, the student analyzes activity, performance, and contextual demands, and analyzes theoretical and clinical reasoning to situations across medical, educational, and community settings for clients, populations, and organizations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5151.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5002.

**OTHR 5104. Occupational Therapy Practice: Mental Health. 5 Credit Hours.**

This course will explore the history of mental illness in our society as well as the impact of laws on treatment and access to occupational therapy services. Students will examine and build skills in psychosocial interventions used in occupational therapy. Students will examine the theoretical basis, evaluation tools and practice application of individual, group and consultation psychosocial interventions used by occupational therapists. In small groups, students will design and implement evidence based therapeutic activity groups which are developmentally sensitive to social participation as well as adhere to a theoretical base. The role of Occupational Therapy in psychosocial intervention as it relates to public health will also be explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5222.

**OTHR 5105. Occupational Therapy Practice: Children & Youth. 5 Credit Hours.**

This course applies occupational therapy domains and processes for therapeutic interactions with children and youth participating in medical, educational, and community contexts.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5185.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5001 and OTHR 5019.

**OTHR 5123. Occupational Therapy Practice: Assistive Technology. 4 Credit Hours.**

Assistive technology devices and services have the potential to impact the lives of persons with disabilities, resulting in increased independence and participation in their daily activities and to support occupational performance, participation, health and well-being. This course focuses on learning about the various types of assistive technology devices and occupational therapy services including but not limited to evaluation and assessment, selection and training, procurement, legislation and funding. Students gain basic understanding, knowledge and skills of these applications as they pertain to communication, learning, and environmental issues encountered by people with disabilities including wheeled mobility and positioning issues, virtual environments, and telehealth.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5286.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5219.

**OTHR 5151. Research I: Evidence-Based Practice in Occupational Therapy. 3 Credit Hours.**

This course emphasizes the use of current research evidence in healthcare evaluation, decision making, and intervention; the process of evidence-based practice. Research 1 provides foundational knowledge that allows students to articulate and interpret the OT professional, appraise new knowledge, contribute new knowledge, and interpret and apply this knowledge to OT practice. An introduction through in-depth examination of research and its relationship to OT practice will be facilitated. Students will gain an understanding of why OT practitioners need to comprehend research, finding and reading evidence, understanding variables as a foundation to evaluating evidence, what statistics reveal and how they are applied in OT practice, validity as an indicator of strong evidence, efficacy indicators for selecting intervention, the role of descriptive and predictive research in understanding conditions and outcomes prediction, qualitative designs for exploration of lived experience, systematic reviews and practice guideline and the integration of evidence from multiple resources.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5019.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5002.

**OTHR 5152. Research II: Design and Methodologies in Occupational Therapy. 2 Credit Hours.**

This course provides an introduction and an in-depth examination of research and its relationship to practice. Students will gain an understanding of theory-based research, methodological considerations in the design of research, ways of evaluating practice, and approaches to understanding and analyzing research results. Based on knowledge obtained in this course, students will critique and synthesize research on a variety of OT-related topics. Course assignments will provide students with the requisite skills for critically reviewing and incorporating research evidence into clinical decision-making. Learning will occur through pre-class readings and online activities, lectures, course activities, discussions, and assignments. Knowledge gained through this course can be used in the evaluation of OT services and in designing and implementing beginning level research projects.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5105, OTHR 5222.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5151.

**OTHR 5161. Occupational Therapy Service Delivery & Management. 3 Credit Hours.**

The principles of management, leadership and administration in the provision of occupational therapy services will be considered in depth, including principles of organizing, planning, directing, controlling, budgeting and communication. A variety of systems and models will be examined in relation to the marketing and delivery of occupational therapy services, including medical, community, education and social models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5285.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5003.

**OTHR 5185. Occupational Therapy Practice: Fieldwork IA. 1 Credit Hour.**

Students are assigned to a variety of clinical sites with opportunities to observe clients and practitioners, practice clinical skills and professional behaviors. Students will interact with clients across the life span and with various diagnoses and disabilities. Students are supervised by an occupational therapy practitioner or other qualified professional. Students will have the opportunity to apply classroom knowledge and experience that is co-occurring in the OTHR 5105 and OTHR 5222 courses as well as bring fieldwork examples into the classroom for enhanced learning via discussion and assignments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5105, OTHR 5222.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5008, OTHR 5014, and OTHR 5019.

**OTHR 5219. Occupational Therapy Practice: Community and Social Participation. 3 Credit Hours.**

This course explores, examines, and innovates occupational therapy's role in promoting community and social participation. The student gains an understanding of how to embed community and social participation in the therapeutic process, and distinguish the difference between therapy participation and community and social participation. Basic concepts of public health are also examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5285.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5105.

**OTHR 5221. Health & Wellness in the Community. 3 Credit Hours.**

This course explores, examines, and innovates the occupational therapist's role in health and wellness in the community. The student learns how to promote health and wellness programs for individuals, populations, and organizations using contemporary occupational therapy and health behavior models.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5219.

**OTHR 5222. Occupational Therapy Practice: Adults and Older Adults. 5 Credit Hours.**

This course presents an overview of the evaluation process, treatment planning and documentation of occupational therapy services for adults/older adults across the continuum of practice settings. Students will examine the theoretical basis, evaluation tools and occupational therapy interventions for adults/older adults as individuals, groups and populations. Students will design evidence based interventions to promote performance in occupations based on the client's unique needs and environment. Students will gain skills in the utilization of professional resources for evaluation and intervention planning. Through this process, students will gain experiences in integrating theory/frames of reference, activity analysis, theories of human development and human occupation. Students will identify and apply clinical reasoning and therapeutic use of self in evaluation, delivery and documentation of occupational therapy services. Students will also have the opportunity to apply classroom knowledge and experience to the Fieldwork Level I experience that is a co-occurring course as well as bring fieldwork examples into the classroom for enhanced learning via discussion and assignments.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5185.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5008, OTHR 5019, and OTHR 8003.

**OTHR 5251. Research III: Implementation in Occupational Therapy. 1 Credit Hour.**

This course is a follow-up to Research II: Proposal Development. Students implement the research study developed in Research II. Data collection sites are established, and data are collected, organized, analyzed, and interpreted in this course under the guidance of a research mentor.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5152.

**OTHR 5252. Research IV: Outcomes & Dissemination Promoting Occupational Therapy. 1 Credit Hour.**

This course is a follow-up to Research II: Proposal Development and Research III: Implementation in Occupational Therapy. Students write a research paper that summarizes and presents the information obtained from Research II and III. This information is written as a journal manuscript and is presented to an audience of students and faculty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5251.

**OTHR 5285. Occupational Therapy Practice: Fieldwork IB. 1 Credit Hour.**

Students are assigned to non-traditional fieldwork settings at varied community sites. They have an on-site supervisor, who is not an occupational therapist, but a leader and role model within their community setting. Students also meet weekly with a faculty fieldwork preceptor to assist with professional skill development including, but not limited to, clinical reasoning, reflection, collaboration, and problem-solving. Together they discuss the role and need of occupational therapy in their assigned sites and the factors effecting occupational performance, treatment, and meeting goals.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5161, OTHR 5219.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P in OTHR 5185.

**OTHR 5286. Occupational Therapy Practice: Fieldwork IC. 1 Credit Hour.**

Students are assigned to a variety of clinical sites with opportunities to observe clients and practitioners, practice clinical skills and professional behaviors. Students interact with clients across the lifespan and with various diagnoses and disabilities. Students are supervised by an occupational therapy practitioner or a Level II occupational therapy student.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P in OTHR 5285.

**OTHR 5287. Intensive Occupational Therapy Practice: Fieldwork IIA. 1 to 9 Credit Hour.**

This course entails three months of full-time supervised fieldwork experience with the opportunity to treat individuals with a variety of diagnoses across the lifespan and to complete a professional reasoning master's project. Fieldwork Level II is an in-depth experiential learning experience that is critical to occupational therapy education. In supervised settings, students apply their academically acquired body of knowledge in varied settings where occupational therapy services are provided. A facilitated professional reasoning experience requires students to examine the application of theories and evidence to support evaluation and intervention in the occupational therapy process. A master's project culminates in a needs analysis and project implementation serving the needs of the clients or setting of the fieldwork experience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- (except where noted) in OTHR 5123, OTHR 5222, and OTHR 5286 (P or higher)

**OTHR 5288. Intensive Occupational Therapy Practice: Fieldwork IIB. 9 Credit Hours.**

This course entails three months of full-time supervised fieldwork experience with the opportunity to treat individuals with a variety of diagnoses across the lifespan and to complete a professional reasoning master's project. Fieldwork Level II is an in-depth experiential learning experience that is critical to occupational therapy education. In supervised settings, students apply their academically acquired body of knowledge in varied settings where occupational therapy services are provided. A facilitated professional reasoning experience requires students to examine the application of theories and evidence to support evaluation and intervention in the occupational therapy process. A master's project culminates in a needs analysis and project implementation serving the needs of the clients or setting of the fieldwork experience.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in OTHR 5287.

**OTHR 5301. Professional Development and Learning in OT Education. 1 Credit Hour.**

This course will explore professional development in occupational therapy practice and post-professional education. Students will develop professional and academic plans in relation to curricular development, adult learning, professional and scientific writing, and professional association engagement.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5019.

**OTHR 8002. Clinical Skills I: Perspectives in Occupational Therapy. 2 Credit Hours.**

In this course, an overview of the history, philosophy, ethics, and core values of the profession is discussed as orientation to professional identity. Students are also introduced to knowledge of the social determinants of health for persons, groups, and populations with or at risk for disabilities and chronic health conditions. Students are introduced to the principles of evidence-based practice, clinical reasoning, and ethical decision making. Students are familiarized with the use of documentation procedures to set goals, monitor progress, and measure outcomes. Basic interpersonal and clinical skills in preparation for OT practice will also be learned.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8003. Clinical Skills II: Fundamentals of Practice. 2 Credit Hours.**

This course is designed to familiarize students with the fundamental skills that are required in traditional, emerging, and community-based practice settings. Students will develop interview and observation skills, learn basic health monitoring skills, and acquire fundamental skills for supporting clients. Students will continue to develop evaluation, documentation and goal-setting skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5008.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5005 and OTHR 8002.

**OTHR 8100. Topics in Occupational Therapy Specialty. 1 to 3 Credit Hour.**

Advanced knowledge from academic, administrative, and/or clinical management perspectives in occupational therapy area of specialty.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OTHR 8104. Clinical Skills III: Specialty Skills in Occupational Therapy. 2 Credit Hours.**

In this course, students will develop a basic understanding of procedures and intervention strategies associated with the application of physical agent modalities and will review state regulations regarding the use of these modalities. Students will also be introduced to the fundamentals of orthotic design and assessment in preparation for practice. Students will have the opportunity to develop hands-on skills in an interactive laboratory to apply, fit and train orthotic devices.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8003 and OTHR 5222.

**OTHR 8105. Clinical Skills IV: Professional Reasoning in Occupational Therapy. 2 Credit Hours.**

Through the use of case studies representing traditional, emerging, and community-based practice areas, students will apply previously acquired knowledge to the clinical reasoning process. Students will describe clinical reasoning processes used to develop person, group, and population intervention plans and strategies for implementation.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 5123.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8104.

**OTHR 8107. International Health Perspectives in Occupational Therapy. 2 Credit Hours.**

This course focuses on the major factors influencing global health issues and the interdependence of the industrialized and developing world in addressing health problems from a global perspective. Commonality and differences in disease burden between the two will be emphasized. Students will also be aware of many of the major health issues affecting developing countries and the opportunities and problems that may be encountered in various health-related endeavors. Health system policy responses will also be considered.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5161.

**OTHR 8121. Environmental Adaptations. 3 Credit Hours.**

This course has two modules: 1) Ergonomics: the student learns the principles of ergonomics from both pre-and post-injury perspectives and will apply these principles in assessment and recommendations for people with and without disabilities. 2) Computer access and learning software address a range of computer access adaptations and software for the differently-abled client in the home, educational setting, and work environment.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8122. Studies in Assistive Technology. 3 Credit Hours.**

The course has three modules: 1) Introduction to the range and scope of assistive technology for work, school, and play. Using a cross disability perspective, students learn about high and low tech devices and solutions for functional challenges across settings. 2) Principles and technologies for postural control, deformity, and pressure management as well as seating comfort. Types of switches and switch activation for mobility are explored. 3) Addresses major public funding sources for financing technology including medical assistance, special education, and vocational rehabilitation as well as the process for obtaining and implementing assistive technology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8131. Assessment Tools for Pediatric Occupational Therapy Practice. 3 Credit Hours.**

Hands-on comparison and analysis of selected assessment tools common in pediatric practice are expanded to goal setting and treatment planning.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8132. Occupational Therapy Intervention in Pediatrics. 3 Credit Hours.**

Concepts in occupational therapy intervention in pediatrics are explored and related to treatment planning and intervention procedures in the varying contexts in which pediatric occupational therapists are employed.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8133. Family Centered Care. 3 Credit Hours.**

Students have the opportunity to explore family systems, parent/caregiver professional partnerships, family centered services, family centered teams, and interagency collaboration. They explore models of self help, empowerment, and service delivery as well as techniques for eliciting and developing family service plans and interagency networking.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8134. Developmental Issues in the Early Years: An Occupational Therapy Perspective. 3 Credit Hours.**

Current social, cultural, legal, and economic trends affecting developmental dysfunction and occupational therapy intervention in physical, sensory, perceptual, cognitive, and psychosocial areas, from neonatal to adolescence are explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8141. Concepts of Gerontological Rehabilitation I. 3 Credit Hours.**

An introduction to the fields of geriatrics and gerontology, with special emphasis given to the review of theoretical perspectives and research in gerontological rehabilitation, as well as biological, social, medical, psychological/psychiatric, and environmental factors that influence the aging process.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8162. Advanced Management in Health Related Service Delivery. 3 Credit Hours.**

An examination of management, administrative, economic, legal, and social issues as they impact upon the provision of occupational therapy services and other health related professions. This course illuminates the unique facet health care occupies within the free market and how occupational therapy and other health related services fit within that definition. Particular emphasis will be placed upon economics and the application of these concepts in optimizing service delivery.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8172. Neurobiological Foundations of Sensory Integration. 3 Credit Hours.**

The development of the theory of sensory integration is presented. The neurobiological foundations of the theory are examined in light of current research. The application of this information to the therapeutic intervention is addressed and demonstrated through videotapes and practice sessions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8173. Sensory Integration and Praxis Test (SIPT) Administration and Interpretation. 3 Credit Hours.**

The standardization methods, reliability, and validity of the 17 tests of the SIPT battery are analyzed. The mechanics of each test are presented and practiced in a supervised setting. Students are individually observed in test administration. The testing of sensory processing as one aspect of sensory integration is included. The interpretation of findings, report writing and establishment of treatment goals are practiced. Gathering evidence of sensory integration and sensory processing problems based on a variety of measurement instruments is also addressed. Students are eligible for Sensory Integration International certification on completion of OTHR 8172 and OTHR 8173 and successful completion of the SIPT certification examination.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8174. Sensory Integration Practice Applications. 3 Credit Hours.**

The application of sensory integration and sensory processing principles to occupational therapy intervention are presented. Techniques used in various settings and with various conditions are addressed and demonstrated through videotapes, clinic visits, practice sessions, and case presentations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8206. Clinical Skills V: Clinical Leadership. 2 Credit Hours.**

Students will explore leadership theories applicable to a variety of practice settings. Through self-assessment, self-reflection, and didactic and experiential learning activities, students will identify personal skills and behaviors that will enable them to become leaders in clinical practice, academia, and/or research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8105.

**OTHR 8286. Doctoral Capstone in Occupational Therapy I: Topic Development. 2 Credit Hours.**

Students will explore the doctoral capstone, become familiar with the goals, processes and procedures, and anticipated outcomes of project completion, and reflect on the importance of professional development. Through this course, students will explore theories of change in preparation to address new, evolving, or longstanding challenges to the health and wellness of persons, groups, and populations and identify a topic of interest and one or more focus areas as outlined by the Accreditation Council for Occupational Therapy Education (ACOTE) for their project. Using previously acquired knowledge, they will develop a research question to guide their literature review and identify a theoretical model to ground their capstone project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 5152.

**OTHR 8287. Doctoral Capstone in Occupational Therapy II: Capstone Site and Project Proposal. 3 Credit Hours.**

This course will provide students with an in-depth understanding of the needs assessment and program evaluation processes related to their topic of interest. Students will complete a capstone proposal outlining the components of their capstone project and how the project will be integrated into the capstone site. Additionally, students will finalize a professional development plan establishing goals for professional development to be achieved through completion of their capstone project, methods of attainment, and outcome criteria.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8286.

**OTHR 8288. Doctoral Capstone in Occupational Therapy III: Capstone Experience. 9 Credit Hours.**

In conjunction with OTHR 8289 and with the support of faculty and site mentors, students will engage in on-site, actionable components of their individual capstone projects including completion of a needs assessment, refinement of a plan for implementation of their capstone project, and implementation and evaluation of their plan.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 8289.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8287.

**OTHR 8289. Doctoral Capstone in Occupational Therapy IV: Implementation and Evaluation. 3 Credit Hours.**

Using information gathered in OTHR 8288, students will compile and document the results of site and project specific needs assessment, refine and finalize their project plan, document the implementation process of their plan, and compile and document project evaluation results.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Co-requisites:** OTHR 8288.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8287.

**OTHR 8291. Doctoral Capstone in Occupational Therapy V: Analysis and Dissemination. 3 Credit Hours.**

In this course, students will analyze, interpret, and document project evaluation results gathered during OTHR 8288 and OTHR 8289 and develop sustainability plans to maintain and/or build on their work. Students will identify appropriate venues for the dissemination of their capstone project and its results and prepare the necessary documents or proposals for these venues.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of P (except where noted) in OTHR 8288 and OTHR 8289 (B- or higher)

**OTHR 8509. Leadership in the Health Professions: The Art and Science of Influence. 3 Credit Hours.**

Health professionals, both clinical and academic, have the responsibility to exercise leadership in the advocacy for safe, effective, and quality health services. The accountability for this leadership is shared by all health professionals at all organizational levels. The competitive health care market presents professionals with a variety of leadership challenges. Artful and evidence-based leadership is a critical element for all those who aspire to be thought leaders/entrepreneurs in health professions education, health-related research, health policy and practices and the delivery of health care. This online course is designed to introduce students to the process of leadership: a process by which influence is exercised. A variety of active learning techniques and case study analyses will be used to explore theoretical concepts of leadership and the practical application of these concepts into daily life. An important outcome of the course is the development of a leadership portfolio that will contain items such as case studies, class presentations, and a personal leadership plan.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: College of Public Health.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8511. Clinical Education and Fieldwork Supervision. 3 Credit Hours.**

This course allows occupational therapists who have been, or who would like to be involved with clinical education, to acquire foundational knowledge within the triad of domains comprising clinical fieldwork education: teaching and learning, the mentoring/supervisory relationship, and administration. Students evaluate selected learning theories and learning style assessments, are introduced to models of supervision, and have an opportunity to apply them as part of a final course project. An administrative component provides opportunities to design site-specific goals and to explore available resources for establishing and improving clinicians' respective fieldwork programs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8512. Studies in Outcome Measures and Analysis. 3 Credit Hours.**

This course will explore outcome measurement theories and practices, and the development of competence in the application of these concepts to evidence-based clinical practice and program management. Analysis of outcome measures is the primary focus in the second half of the course including applied statistical procedures. Outcome measurement, analysis, and program evaluation is core to the practice of Occupational Therapy. Evaluation of the results of clinical interventions and overall client reaction has long been held as a core value of occupational therapy practice. Current international health care trends reflect the concepts of participation in meaningful life experiences within the environmental and sociocultural context.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of B- in OTHR 8513.

**OTHR 8513. Evidence-Based Practice and Clinical Research. 3 Credit Hours.**

Students will explore the most appropriate research designs and methodologies for clinical research and apply these in their clinical practice area. They will implement the four main steps of evidence-based practice including developing a clear clinical question related to client problems, completing a search of the literature, critiquing the evidence, and applying findings to clinical practice. The implications for evidence-based practice in the profession of occupational therapy will be explored.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8514. Occupational Based Theories and Participation. 3 Credit Hours.**

This seminar traces the historical foundations of occupation as the central paradigm of the profession. It explores literature across professions which explicate the underlying principles including foundations laid by the Occupational Behavior paradigm and the Model of Human Occupation, the Models of Occupational Adaptation, Ecology of Human Performance, and Person - Environment - Occupation in their usefulness in addressing the issues in the disabled and well populations. Principles of Occupational Science are explored and applied as a foundation for these approaches. The concept of participation is discussed as a key component of health according to the International Classification of Functioning (ICF) (World Health Organization) and a major outcome of the Occupational Therapy Practice Framework. It includes the importance, performance, and satisfaction with the involvement in life roles. The student examines environmental factors that facilitate physical access, improve psychological awareness and empowerment, and utilize advocacy for positive social change across the lifespan.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OTHR 8901. Capstone Project. 3 Credit Hours.**

Each student completes a capstone project while enrolled in the course. The capstone project reflects the goals of the program as well as the goals of the student as structured by the student's learning objectives as directed and informed by the development of a professional portfolio. The advisor recommends resources and provides guidance within a class forum. The project must be founded in evidence-based practice and either be supported by evidence in peer-reviewed literature or provide outcomes identifying the effectiveness of the project. Students start exploring the literature for their projects in the Evidence-Based Practice and Clinical Research course and explore possible outcome measures for the project if appropriate in the Studies in Outcome Measures and Analysis core course. The field study may provide opportunities for implementation of their project or clinical experiences in areas related to the project. The results of the capstone project are disseminated to the appropriate audiences through presentations, demonstrations, publications, and/or incorporation into a program.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** (OTHR 8512, OTHR 8513, OTHR 8514, and OTHR 9089)

**OTHR 8902. Capstone Project Inquiry. 1 Credit Hour.**

This course is the first in the capstone series that focuses on identifying an occupational therapy focused clinical problem and gaining skills to comprehensively understand the literature surrounding the area of interest. The course will include the development of a capstone question and literature review for an area of development in occupational therapy. Each student will have a faculty mentor to guide the capstone development.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OTHR 8903. Capstone Project Proposal. 1 Credit Hour.**

The second capstone series course will evaluate a research methodology or program development plan based on the first capstone series inquiry. Directed readings, individualized sessions, research and evaluation ethics, institutional research board protocol with a faculty advisor will culminate in a proposal presentation in preparation for the third capstone implementation course.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in OTHR 8902 and OTHR 8512.

**OTHR 8904. Capstone Project Proposal and Implementation. 1 Credit Hour.**

The second capstone series course will evaluate a research methodology or program development plan based on the first capstone series inquiry. Directed readings, individualized sessions, research and evaluation ethics, institutional research board protocol with a faculty advisor will culminate in a proposal presentation in preparation for implementation. The course will culminate in data collection and analysis of research or program evaluation data.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in OTHR 8902.

**OTHR 8905. Capstone Project. 1 Credit Hour.**

The third capstone series course will conclude the series with future implications and dissemination of capstone results. The course will focus on capstone project results and its integration and implication for occupational therapy practice. Directed readings and individualized sessions with a faculty advisor will culminate in dissemination of the capstone project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in OTHR 8904.

**OTHR 9082. Independent Study. 1 to 6 Credit Hour.**

Focus is on furthering the student's knowledge and skills in a specialized area of individualized study.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OTHR 9089. Field Study and Professional Portfolios. 3 Credit Hours.**

This is a mentored field study experience. The field study requires the student to complete 4 weeks or 160 hours of mentored experience with experts in the area of exploration or development. The field study is directed and informed by the student's leadership objectives and are reflected in a portfolio required for degree completion. Master's clinicians, researchers, or educators will be identified by the student and the faculty advisor for the field study. The mentor does not have to be an occupational therapist although must specialize in an area related to the profession. The student along with the mentor or mentors and the faculty advisor identify specific goals for the field study related to the student's specialty practice area. The field study may focus on expanding specialty clinical skills, collecting data for the capstone project, or expanding skills related to clinical education. As part of this course, students participate in a professional portfolio seminar with a Temple faculty member where they learn the uses, types, and content of professional portfolios in order to best develop their own portfolio reflecting learning experiences within the doctoral program. Students learn to evaluate and organize the evidence of learning related to their experiences with the field study, coursework, and the capstone project. The end product of the course is the completion of at least 4 weeks or 160 hours of mentored experience, along with an extensive portfolio and e-portfolio reflecting a professional development plan.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

## Ophthalmology (OPHT)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**OPHT M164. Intro to Ophthalmology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**OPHT M322. Career Exploration of Ophthalmology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**OPHT M620. Ophthalmology. 0 Credit Hours.**

**Course Attributes:** M2

**OPHT M630. Advanced Ophthalmology. 0 Credit Hours.**

This course is for students applying for ophthalmology residency. Students will be assigned to work closely with 1-2 faculty in the clinical setting.

**Co-requisites:** OPHT M322, OPHT M620.

**Repeatability:** This course may be repeated for additional credit.

## Oral Biology (ORBG)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ORBG 5001. Introduction to Dental Assisting. 2 Credit Hours.**

Designed to provide the student with an introduction to the dental profession, the dental team and the roles and responsibilities of each member of the team, infection control procedures, sterilization and patient confidentiality. Students will also receive basic knowledge of dental terminology, anatomical structures of the oral cavity, and classification of occlusion. Emphasis is placed on applying information to the clinical setting.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 5002. Chairside Dental Assisting. 3 Credit Hours.**

Designed to give the student an introduction to dental terminology, medical-dental histories, dental instruments, charting, oral evacuation, instrument transfer and procedure specific tray set-ups. Emphasis is placed on utilization of four handed dentistry skills.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 5004. Dental Radiology Lecture and Lab. 2 Credit Hours.**

Designed to provide the student with basic knowledge of the principles of radiology and radiographic techniques including the principles and methods employed in the paralleling technique and radiographic interpretation. Emphasis is placed on the practice of exposing, processing, mounting, and interpreting intraoral radiographs.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 5005. Dental Anatomy. 1 Credit Hour.**

Designed to provide students a basic knowledge of dental terminology, anatomical structures of the oral cavity, head and neck region, classification of occlusion and oral pathology of the head and soft tissue.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8021. Microbiome. 3 Credit Hours.**

Course will focus on the biology, ecology, and cell behaviors in the human microbiome in the whole body with a specific emphasis on the oral cavity. Course will also cover the epigenetic changes that may occur in the microbiome and the range of health issues such as obesity, infections, and risk of developing dental and oral mucosal diseases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8022. Microbiome Techniques. 2 Credit Hours.**

This course will cover topics related to laboratory techniques employed to study microorganisms in general and the human microbiome in particular. The topics will range from basic techniques including microscopy, cultivation and biochemical and immunological identification to advanced molecular techniques including nucleic acid amplification, hybridization and sequencing, with particular focus on microbiome analysis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8023. Craniofacial Bone Biology and Maxillofacial/Dental Orthopedic Care. 2 Credit Hours.**

This introductory course will review bone biology and how bone develops and remodels in orthodontic and orthopedic care.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8024. Regeneration of Bone and Dental Hard Tissues. 1 Credit Hour.**

This course will focus on dentin and bone regeneration research already being conducted at the dental school and Temple University Center for Bioengineering Research.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8025. Temporomandibular Joint Biology. 2 Credit Hours.**

This course will cover the anatomy, mechanics, and function of the temporomandibular joint (TMJ) and associated muscles and ligaments. The course will also cover the dysfunctions commonly diagnosed in dental practice and how they may be manifested in the operation of the TMJ complex.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8026. Neuroscience of Pain. 2 Credit Hours.**

This course will focus on the understanding of the biology of pain and how the transmission of pain signals throughout the central and peripheral nervous system. The course will also cover the mechanisms involved in determining pain thresholds and the myriad of psychological responses to pain sensations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8027. Biology of Drug Delivery Mechanisms. 2 Credit Hours.**

This course will focus on how the oral cavity and salivary glands can be used as bioreactors that may be used to deliver drugs, genes, proteins and other molecules to treat a variety of oral and systemic conditions. The course will also cover the mechanisms involved in determining pain thresholds and the myriad of psychological responses to pain sensations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8028. Basic and Advanced Statistical Methods. 3 Credit Hours.**

An introduction to statistical theory and applied methods, including modeling techniques, to analyze dental data. The course will describe the impact of clustering effects of data points in the oral cavity; correction for design effects; methods of analysis of different dental outcomes; and appropriate statistical modeling methods useful in contemporary studies.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8029. Behavioral Change Theories and Practice. 2 Credit Hours.**

This course will review and apply selected behavioral change theories in addressing common behavioral problems including addiction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8031. Biomaterials. 2 Credit Hours.**

Developing materials for use in dentistry and medicine is a challenging interdisciplinary process and requires an understanding of material bulk and surface properties, the various biological responses to materials, the clinical context of their use, manufacturing processes, cost, sterilization, packaging, and regulatory issues. This course is designed to introduce students to the various classes of biomaterials in use, their analysis and regulation, and examination of some of their applications in selected subspecialties of dentistry and medicine.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8032. Practical Clinical Practice. 3 Credit Hours.**

Students will be assigned as dental assistants, quality evaluators, or patient advocates in the dental school clinics.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**Pre-requisites:** Minimum grade of C in ORBG 5001, ORBG 5002, ORBG 5004, and ORBG 5005.

**ORBG 8034. Advanced Practical Clinical Practice. 3 Credit Hours.**

This is an advanced course where students will continue to be assigned as dental assistants, quality evaluators or patient advocates throughout the dental school clinic.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8035. Introduction to Orthodontics. 2 Credit Hours.**

The objective of the course is to introduce the post baccalaureate student to the processes of normal craniofacial growth and development in order to recognize and identify deviations from normal. The course emphasizes developmental dentistry, application to clinical orthodontics and postnatal craniofacial growth. Foundation knowledge in orthodontic diagnosis will be developed to allow systematic description of clinical orthodontic problems, orthodontic diagnosis and generation of an orthodontic patient clinical problem list.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8036. Molecular Technology for Translation to the Dental Clinic. 2 Credit Hours.**

Molecular Biology research holds great promise for translation to clinical Medicine and Dentistry. This course is a survey of molecular technology along with its contemporary applications to clinical diagnosis and treatment. The course consists of didactic presentations to review basic concepts and student group discussions to address the importance of new technology for clinical applications, particularly in Dentistry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8037. Science of Taste Sensation and Relation with Oral Conditions. 1 Credit Hour.**

The "taste" is one of the chemosensory senses (taste, smell, and chemesthesis (or chemical feel, including burn from hot chili peppers and cooling from menthol)). Taste receptors convert gustatory stimuli into signals that sensory afferent fibers could transport to the brain where we have sensory experience of foods and beverages. This course is designed to give students a basic understanding of the anatomy, physiology, and biochemistry of this process. This course is intended to give students a working understanding of the taste cells and taste sensation systems important in dentistry.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8038. Inflammation and Oral Disease. 2 Credit Hours.**

This course will review all aspects of the inflammatory processes and how they relate to pulpal, periapical and periodontal disease. The course topics will include surveys of the cells and the chemical mediators responsible for the inflammatory processes. In addition, as the primary initiators of the body's inflammatory systems, the organisms comprising the microbial world will be surveyed in order to define the characteristics that distinguish each of the different microbiological groups, including those associated with pulpal, periapical and periodontal inflammatory disease. Finally, the inflammatory manifestations exhibited in oral diseases (pulpal inflammation, periapical periodontitis, and marginal periodontitis) will be examined.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate, Postbaccalaureate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8039. Introduction to Dental Biochemistry and Oral Health Sciences. 3 Credit Hours.**

The Introduction to Dental Biochemistry and Oral Health Sciences course is designed for postbaccalaureate and dental school students. The main lecture part of this course is designed to be an introduction to biochemical compounds, processes, and concepts for students in the dental and related health professions. The broad goal of the teaching of introductory dental biochemistry is to make students understand the scientific basis of the life processes at the biochemical and molecular level and to orient them towards the application of the knowledge acquired in solving dental-oriented clinical problems.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 8042. Introduction to Dental Biological and Oral Health Sciences. 3 Credit Hours.**

The Introduction to Dental Biological and Oral Health Sciences course is designed for postbaccalaureate and dental school students. It will provide students advanced understanding and appreciation of current topics in molecular and cellular biology, while developing skills in critical thinking. The course will provide strong information about application of contemporary biology knowledge and techniques to understand molecular and biological background of human oral health and diseases. Course topics include classical and contemporary issues of biological and molecular techniques related to dental clinics such as stem cells and tissue engineering. The roles of recent progress made in biology and related disciplines in the diagnosis and treatment of oral diseases and oral health issues are examined. In addition, students will gain knowledge in the application of molecular and biological techniques in diagnosis of human oral health and diseases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**ORBG 9885. Pre-clinical Dental Experience for the Kuwaiti Program I. 6 Credit Hours.**

This course is for selected post-graduate students enrolled in the Kuwaiti Program at Temple University Kornberg School of Dentistry. Prior to participation in assigned clinics, the resident's knowledge and skills in the disciplines of direct and indirect restorative dentistry, prosthodontics, and endodontics are assessed. Needed review or update of skills and knowledge are obtained with either assigned exercises in the pre-clinic laboratory, assigned assisting in the AEGD clinic, or with assigned literature reviews.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**ORBG 9886. Pre-clinical Dental Experience for the Kuwaiti Program II. 6 Credit Hours.**

This course is for selected post-graduate students enrolled in the Kuwaiti Program at Temple University Kornberg School of Dentistry. Prior to participation in assigned clinics, the resident's knowledge and skills in the disciplines of direct and indirect restorative dentistry, prosthodontics, and endodontics are assessed. Needed review or update of skills and knowledge are obtained with either assigned exercises in the pre-clinic laboratory, assigned assisting in the AEGD clinic, or with assigned literature reviews.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

## Oral Health Sciences (OHSC)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**OHSC 8011. Molecular Oral and Craniofacial Biology. 1 Credit Hour.**

Basic concepts of physiology, biochemistry, and cell biology related to the oral cavity and craniofacial complex are explored. Topics include connective tissue biology, the role of saliva in health and disease, muscle function, taste, smell, and other sensory functions, with emphasis on current research. These seminars are designed for first-year students in postdoctoral programs in which advanced courses are combined with specialty training. The course outlines scientific information about molecular biology that contributes to our understanding of normal structures and disease processes. Wherever possible, it indicates how this information is useful or impinges on clinical dentistry. This course presupposes a broad background in the basic sciences and interrelates much recently acquired scientific information about the oral cavity that has not been attempted at the predoctoral level.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8012. Advanced Dental Pharmacology and Therapeutics. 1 Credit Hour.**

Pharmacotherapeutics of drugs most often used in dentistry, with emphasis on mechanisms, interactions, and effects of drugs used in prevention, diagnosis, and treatment of oral diseases, and drugs used for systemic diseases that may influence the progression or management of oral diseases.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8013. Introduction to Evidence-Based Dentistry. 1 Credit Hour.**

Contemporary topics and research presentations on oral and craniofacial biology.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8014. Clinical Anatomy of the Head and Neck. 1 Credit Hour.**

Growth and development of the head and neck in relation to general gross anatomy; surgical anatomy of the head and neck region with neuroanatomic studies of cranial nerve anatomy, function and pathology; temporomandibular joint structure, function and dysfunction.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8015. Research Methodology and Study Design. 1 Credit Hour.**

Fundamental principles involved in planning, conducting, analyzing, and reporting of scientific research studies, including classification of study designs, hypothesis testing, clinical trial requirements, protocol and grant preparation, scientific writing, analysis and interpretation of data, and approaches to critical evaluation of the scientific literature.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8016. Cases in Oral and Maxillofacial Pathology. 1 Credit Hour.**

Students are taught to formulate appropriate clinical and radiographic differential diagnoses for common soft and hard tissue abnormalities of the oral and perioral region via case based discussions. Students receive instruction in the management of patients with common oral mucosal diseases. Indications for patient referral to medical or dental specialists for diagnostic evaluation or disease management are presented. Critical thinking is emphasized in case-based modules. During the case based discussions, students will be asked to describe the lesions using appropriate terminology, offer a prioritized differential diagnosis, suggest a diagnostic plan and recommend management strategies for the entities discussed. The use of a SOAP note format for documenting problem focused patient encounters in oral and maxillofacial pathology will be applied.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8017. Oral Microbiology and Immunology. 1 Credit Hour.**

Study of microorganisms and host responses important in oral microbial ecology, oral infectious processes, and the pathogenesis of dental caries, periodontal diseases, dental implant infections, endodontic infections, oral mucosal lesions, and dental focal infections at non-oral body sites.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8018. Biostatistics. 1 Credit Hour.**

Introduction to statistical analysis as it applies to biomedical research, including descriptive and inferential statistics. Topics include summarizing and displaying data, theory of measurements and distribution, significance testing, and basic concepts of probability and association.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8019. Advanced Oral and Maxillofacial Radiology. 1 Credit Hour.**

Applications of digital dental radiography, panoramic radiology, tomographic imaging for dental implants, computed tomography (CT), and magnetic resonance imaging (MRI); differential interpretations of clinically significant oral and maxillofacial lesions.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8033. Bioethics and Critical Thinking in Dentistry. 1 Credit Hour.**

This course introduces dental residents to the theoretical and practical foundations of bioethics. After an introduction to the history of bioethics and its theories, tools, and strategies for identifying and resolving ethical dilemmas, students will critically explore four key components of contemporary dental ethics: 'Ethics at the Chairside' covering topics such as confidentiality, truth telling, and cultural competency; 'Oral Health Disparities' which introduces the social determinants of health into the oral health equation; 'Research and Industry' designed to teach residents to critically think about conflicts of interest and professionalism; and 'Policy Perspectives' which covers oral health and social justice and the relationships between dental practitioners, health care reform, and oral health.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8041. Evidence-Based Health Care. 2 Credit Hours.**

Evidence-based health care has been defined as the practice of health care that integrates the best available evidence with clinical experience and what a patient prefers in making clinical decisions. It is vital that all clinicians are trained to adopt a constructively and professionally critical mindset in making their own assessments of published work. The Evidence-Based Health Care course is designed to provide foundation knowledge and practical experience in five main domains: 1) Asking evidence-based questions (framing an answerable question from a clinical problem); 2) Searching for the best evidence; 3) Reviewing and critically appraising the evidence; 4) Applying this information in a way to help the clinical practice and 5) Managing existing data and conducting basic statistical analyses.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8056. Oral and Maxillofacial Pathology for Non-Clinicians. 1 Credit Hour.**

Students learn to formulate differential diagnoses for common soft and hard tissue abnormalities of the oral and perioral region via case-based discussions. Students receive instruction in the management of patients with common oral mucosal diseases. Indications for patient referral to medical or dental specialists for diagnostic evaluation or disease management are presented. Critical thinking is emphasized in case-based modules. The use of a SOAP note format for documenting problem-focused patient encounters in oral and maxillofacial pathology will be applied.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8059. Oral Radiology for Non-Clinicians. 1 Credit Hour.**

This course provides the information and experience necessary for non-clinical graduate students to be contemporary with the concepts and practices of oral and maxillofacial radiology. Clinical applications, position guidelines, anatomy, and imaging findings of cone-beam computed tomography (CBCT), the latest development of three dimensional dental image, will be presented. Diagnostic imaging for dental implants and other advanced oral and maxillofacial imaging systems, such as conventional CT and magnetic resonance imaging (MRI) will be demonstrated. Differential interpretations of common oral and maxillofacial lesions (radiolucencies and radiopacities) are discussed.

**Repeatability:** This course may not be repeated for additional credits.

**OHSC 8111. Endodontology Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8112. General Dentistry Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. These clinics include pre-doctoral general dentistry clinic and the Advanced Education in General Dentistry (AEGD) program, a CODA-recognized advanced training program beyond a dental degree. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8113. Oral Surgery Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8114. Orthodontics Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8115. Pediatric Dentistry Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8116. Periodontology Clinical Rotation. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program. Participation in the course requires prior approval by the course director and clinic supervisor. Master's students will participate in a clinical rotation to observe clinical operations and delivery of patient care, and may include chairside assisting for students with appropriate qualifications. Master's students on the Clinical Internship track with appropriate qualifications may be considered on a case-by-case basis to participate in limited direct patient care at the sole discretion of the department chair and program director. A wealth of clinical information and learning can be gleaned from this experience, as well as establishing a level of familiarity and comfort with clinical and logistical operations.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8150. Fundamentals of General Dentistry. 1 Credit Hour.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program and will present lectures on the various topics in general dentistry organized by discipline. Both general dentists and faculty members with advanced education certificates will lecture on their specific area of interest.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8151. Advanced General Dentistry. 2 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program and will present lectures on advanced topics in general dentistry and medicine. Both general dentists and faculty members with advanced education certificates will lecture on their specific area of interest. Students will present lecture topics on the medical implications in dentistry. Lecture topics will be of either greater depth or higher degree of specialization.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8152. General Dentistry Literature Review. 1 Credit Hour.**

This course is designed to develop a knowledge of pertinent topics in general dentistry in addition to an understanding of how to assess the validity of scientific articles published in peer-reviewed professional journals. Specific topics are assigned for each seminar with relevant articles assigned prior to each class. Articles are reviewed by students and the course is directed by a faculty member. Individual students will review and report on each article. The review will be a synopsis of each article identifying all pertinent points discussed. The student must determine the clinical significance of each article and how it affects their clinical practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8153. General Dentistry Implant Literature Review. 1 Credit Hour.**

This course is designed to develop a knowledge of pertinent topics in Implantology for the general dentist, in addition to an understanding of how to assess the validity of scientific articles published in peer-reviewed professional journals. Specific topics are assigned for each seminar with relevant articles assigned prior to each class. Articles are reviewed by students and the lecture is directed by a faculty member. Individual students will review and report on each article. The review will be a synopsis of each article identifying all pertinent points discussed. The student must determine the clinical significance of each article and how it affects their clinical practice.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8250. Periodontology and Prosthodontic Treatment Planning. .5 Credit Hours.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program and will present clinical cases for discussion on advanced topics in the unique interaction between periodontology and oral implantology and prosthodontics. Basic science and evidence-based treatment prescriptions will be used at each session to support the clinic case scenarios presented. The course will teach how data collection will support a diagnosis, and how treatment prescriptions will address a diagnosis.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 8350. Interdisciplinary Treatment Planning. 1 Credit Hour.**

This course is intended for students enrolled in the Master of Science in Oral Health Sciences program and will present clinical cases for discussion on advanced topics in dentistry across all dental specialties/disciplines. Basic science and evidence-based treatment prescriptions used at each session to support the clinic case scenario presented.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Master of Science.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**OHSC 9991. Research in Oral Health Sciences. 1 to 6 Credit Hour.**

Limited to M.S. in Oral Health Sciences degree students with graduate program approval.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in OHSC 9993.

**OHSC 9993. Master's Research Qualifying Examination. 1 Credit Hour.**

The Masters project must be formally accepted by the student's advisory committee prior to commencing the project. A comprehensive proposal will be reviewed by the student's mentor and advisors, and will be presented in a qualifying exam presentation to demonstrate appropriate understanding of the project. This proposal contains an introduction, theories, hypotheses, scholarly literature review, research methods, proposed alternatives and any other issues relevant to the project.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**College Restrictions:** Must be enrolled in one of the following Colleges: Dentistry, Kornberg School.

**Course Attributes:** DI

**Repeatability:** This course may be repeated for additional credit.

**OHSC 9996. Master's Thesis in Oral Health Sciences. 1 Credit Hour.**

Limited to, and required of, M.S. in Oral Health Sciences degree students with graduate program approval.

**Level Registration Restrictions:** Must be enrolled in one of the following Levels: Graduate.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of B- in OHSC 9993 and 4 credits in OHSC 9991.

## Orthopedic Surgery (ORTS)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**ORTS M152. Intro Orthopaedic Surg. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**ORTS M261. Introduction to Sports Medicine. 0 Credit Hours.**

The sports medicine elective will give the student an overview of the epidemiology, anatomy, pathophysiology, treatment and management of common sports related injuries. Additionally, this course will include Emergency Medicine based resuscitation lectures and active learning sessions. Students will have the opportunity to learn intubation skills, splinting and fracture reduction, Ultrasound, wrapping/taping of injuries, applying cervical spine precautions, and much more. This course is designed for first and second year medical students with an interest in the care of injured athletes. There are several pathways into Sports Medicine and this course will focus on the knowledge and skills that are learned in emergency medicine and utilized in sports medicine.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M296. Orthopaedics Summer Research Elective. 0 Credit Hours.**

The purpose of this course is to fill a void in the current curriculum. It will provide the student the tools to perform a clinical research study or comprehensive literature review.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M300. Orthopedic Surgery Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M342. Principles of Orthopedic Surgery. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M345. Career Exploration of Hand Surgery. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M621. Global Orthopaedic Surgery. 0 Credit Hours.**

The global burden of orthopaedic surgery is continuing to grow, with the majority of the need in the developing world. As an institution that has a history of providing medical care to the poor, exposing students to training in a developing world location is an important aspect of their professional development. This elective will be a 4-week elective, with 2 weeks at Temple University Hospital and 2 weeks at an international site. The current site is Kijabe, Kenya. During the time overseas, the student will be able to participate in the care of patients, including taking a history, performing a physical exam, performing low risk procedures, suggesting diagnostic studies, interpreting studies and developing treatment plans. This will be under the close supervision of Temple LKSOM Orthopaedic Surgery faculty.

**Repeatability:** This course may be repeated for additional credit.

**ORTS M639. Sports Medicine. 0 Credit Hours.**

Students will gain experience in the field of sports medicine including exposure to the disciplines of primary care sports medicine, orthopedic sports medicine, sports physical therapy, and athletic training. There will be opportunity for participation in the treatment of sports injuries and illnesses in the following venues: Outpatient Sports Medicine Clinics with both Orthopedic Sports Medicine and Primary Care Sports Medicine Physicians; Outpatient Orthopedic Sports Medicine Surgical Procedures; Sports Physical Therapy Rehabilitation; Sports Medicine Didactic Sessions which include: Sports Medicine Journal Club, Orthopedic Grand Rounds, small group lectures given by Sports Medicine faculty; Independent review of the course materials which include: textbooks, articles, and web-based resources.

**Class Restrictions:** Must be enrolled in one of the following Classes: Third Year Medical, Fourth Year Medical.

**Degree Restrictions:** Must be enrolled in one of the following Degrees: Doctor of Medicine.

**College Restrictions:** Must be enrolled in one of the following Colleges: Medicine, Lewis Katz School.

**Repeatability:** This course may not be repeated for additional credits.

**ORTS M640. Orthopedic Surgery. 0 Credit Hours.**

**Course Attributes:** M2

**ORTS M645. Hand Surgery. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**ORTS M825. Orthopaedic Trauma - Sub-internship. 0 Credit Hours.**

The student will have the opportunity to function as an integral part of the Orthopaedic trauma team on a sub-internship level and will rotate with Drs. William De Long, Patrick Brogle, and Chinenye Nwachuku (fellowship-trained Orthopaedic trauma surgeons) at the Bethlehem hospital campus of St. Luke's University Hospital. The student will participate actively in the care of patients seen in the Operating Room, Emergency Room and Trauma Bay, and on the floors. He/she will gain exposure to the emergent care of patients, fracture reduction techniques, application of casts and splints, and participating in the daily work effort. The student will also be exposed to cold trauma such as nonunions, malunions, and osteomyelitis. The opportunity to get involved in Orthopaedic trauma research projects also exists. The student will take Trauma call with the Orthopaedic residents.

**Repeatability:** This course may not be repeated for additional credits.

## Otorhinology (OTOR)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**OTOR M160. M1/M2 Otolaryngology (ENT) Clinical Elective. 0 Credit Hours.**

This course is designed to introduce students early in the pre-clinical years to otolaryngology-head and neck surgery (ENT) in the setting of the LKSOM mission of excellence in education, research and patient care. Students will expand their knowledge base through elective lectures and skills sessions. Group sessions to include case based learning and practical labs will solidify clinical and interpersonal skills. By interacting with the department chair and other motivated upperclassmen, residents, and faculty, students have the opportunity to model professional behavior and receive feedback regarding wellness and professional development. The ENT specialty is complex and closely linked with other departments and ancillary staff the elective also so serves as an ideal vehicle to teach systems-based practice and interprofessional collaboration.

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**OTOR M235. Pediatric Otolaryn. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**OTOR M331. Career Exploration of Otolaryngology/ENT. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**OTOR M629. General Practice Otolaryngology. 0 Credit Hours.**

General Practice Otolaryngology is a clinical elective course offered to fourth-year medical students. During their time on our service, students can expect to evaluate new patients in the office with General Otolaryngology practitioners. The emphasis will be on outpatient and office-based otolaryngology treatments and procedures. Occasionally, students will accompany patients they are following to OR. Additionally, students will present a critical review of a peer-reviewed publication and attend conferences and grand rounds. This course will be graded Honors, High Pass, Pass, Fail.

**Repeatability:** This course may not be repeated for additional credits.

**OTOR M630. Otolaryngology/ENT. 0 Credit Hours.**

**Course Attributes:** M2

**OTOR M730. Otolaryngology Preceptorship. 0 Credit Hours.**

This course was created in light of the COVID19 Pandemic to give 4th year medical students applying to Otolaryngology more exposure to the field and to strengthen their applications.

**Repeatability:** This course may be repeated for additional credit.

**Pre-requisites:** Minimum grade of P in OTOR M630.

**OTOR M830. Otolaryngology (ENT) Sub-I. 0 Credit Hours.**

Otolaryngology/ENT Sub-I satisfies the sub-I requirement for 4th year. Students will participate on the ENT service, in both the inpatient and outpatient setting. They will take on the role of an intern, including seeing consults, following patients, seeing patients in clinic and participating in OR cases. They will develop assessment and plans for the patients they are seeing.

**Repeatability:** This course may be repeated for additional credit.

## Pathology & Lab Medicine (PATH)

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**PATH M195. Interp Clin Lab Tests. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M201. Hematopathology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M202. Endocrine Pathology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M203. Neuropathology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M204. Clinical Cytogenetics. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M205. Cytopathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M206. Liver & Kidney Pathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M207. Renal Path Elec. Micro. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M208. Oral Pathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M209. Gyn Pathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M211. Clin Micro/Imm/Vir. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M213. Blood Bank. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M215. Clinical Coagulation. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M219. Cardiac Pathology. 0 Credit Hours.**

Students will participate in the diagnosis of the preceptor's current cases, review material from the files of the department or preceptor, and discuss with the preceptor his/her clinical research. The goals are to (1) increase the student's knowledge in the area of expertise of the preceptor and (2) show the student how the practicing pathologist or laboratory scientist contributes to the evaluation of clinical problems.

**Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M221. Dermopathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M223. GI and Liver Pathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M225. Immunogen & Flow Cytom. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.**PATH M227. Lab Hem & Surg Pathology. 0 Credit Hours.****Course Attributes:** M5**Repeatability:** This course may not be repeated for additional credits.

**PATH M228. Lung Pathology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M229. Surgical Pathology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M230. Soph. Elect in Path.. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M231. Interpr Clin Lab Tests. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M232. Head/Neck Pathology Preceptorship. 0 Credit Hours.**

This course targets MS1 and MS2 students who show an independent interest in head and neck pathology. Students will sit with a Head and Neck pathologist, reviewing concepts and cases from the arrival of the specimen in the gross room to sign out. Participation in weekly Head and Neck multidisciplinary conference is encouraged. The student is asked to participate in an independent head and neck pathology research project during the course of the preceptorship.

**Repeatability:** This course may be repeated for additional credit.

**PATH M233. Molecular Pathology and Immunogenetics Preceptorship. 0 Credit Hours.**

This course targets MS1 and MS2 students to facilitate early integration of basic science and clinical testing principles, by incorporating pathology competencies for medical education to promote life-long learning and understanding of medical practice. Students participate in case studies, transplant patient conferences and articles, learn HLA testing procedures, and Quality Management. The students also get an opportunity to see how transplant patients are evaluated for a lifesaving transplant. The students learn to use molecular techniques to interrogate disease processes. Using current or retrospective cases, the students learn the principles of a variety of assays used for oncology, genetics, and infectious diseases. They participate in clinical genomics data interpretation and learn emerging applications in the field of molecular pathology.

**Repeatability:** This course may be repeated for additional credit.

**PATH M234. Neoplastic and Non-neoplastic Pulmonary Pathology Preceptorship. 0 Credit Hours.**

This course targets MS1 and MS2 students to facilitate early integration of basic science principles and incorporates pathology competencies for medical education to promote life-long learning and understanding of the principles of medical practice. Students participate in the diagnosis of the preceptor's current cases, review material from the files of the department or preceptor, and discuss with the preceptor his/her clinical research. During this course, the students also get a first-hand opportunity to see real-time tissue specimens for both gross and histopathologic examination and follow the case till sign out with final results and the impact on management.

**Repeatability:** This course may be repeated for additional credit.

**PATH M235. Clinical Chemistry. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PATH M300. Pathology Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M358. Career Exploration of General Pathology. 0 Credit Hours.**

This elective will allow students to gain exposure to the specialty and the types of health conditions experienced by patients seen by providers in this specialty as healthcare team members.

**Repeatability:** This course may be repeated for additional credit.

**PATH M361. Principles of Molecular Pathology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M362. Principles of Renal Pathology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M365. Principles of Cytopathology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M366. Principles of Surgical Pathology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M371. Principles of Transfusion Medicine. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M372. Principles of Histocompatibility. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M373. Principles of Hematopathology. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PATH M658. General Pathology. 0 Credit Hours.**

**Course Attributes:** M2

**PATH M660. Surgical Pathology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M661. Molecular Pathology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M662. Renal Pathology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M665. Cytopathology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M971. Transfusion Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M972. Histocompatibility. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PATH M973. Hematopathology. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

## **Pediatrics (PEDI)**

Course information contained within the Bulletin is accurate at the time of publication in August 2023 but is subject to change. For the most up-to-date course information, please refer to the Course Catalog.

**PEDI M201. Introductory Elective. 0 Credit Hours.**

This generic first and second year Pediatric elective serves as an introduction to a special topic in the Department of Pediatrics. Topics vary from semester to semester and may include an extension of a content area already covered in the required curriculum, an introduction to a new topic or research issue, or exposure to a clinical discipline. First and second year electives are optional and do not impact graduation requirements. Electives are scheduled for seven two-hour sessions each, for a total of fourteen contact hours. Student interest and faculty availability determine topics offered each semester.

**PEDI M272. Ambulatory Pediatrics. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M273. Intro to Adolescent Med. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M274. Intro to Pediatrics. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M280. Neonatology. 0 Credit Hours.**

**Course Attributes:** M5

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M300. Pediatric Elective. 0 Credit Hours.**

This course will enable students to develop a basic understanding of the fund of knowledge and types of medical problems seen in this specialty; to develop a basic understanding of the medical decision making process involved in the practice; and to develop an understanding of and practice of medical interpersonal communication and professionalism.

**Repeatability:** This course may be repeated for additional credit.

**PEDI M330. Pediatrics. 0 Credit Hours.**

**Course Attributes:** M7

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M418. Application of Data Science to Clinical Medicine and Medical Research. 0 Credit Hours.**

Data science, at the intersection of statistics and computer science, provides cutting edge tools for analyzing large data sets to provide predictive and causal models. These tools have been used extensively in the fields of econometrics and advertising (e.g. Google and Facebook); the application of data science to medicine is in its infancy, however, with the increasing availability of large clinical data sets, the opportunity to mine these sets for information has never been greater. While software engineers and applied mathematicians have the skills to use and develop these tools, they lack the content expertise needed to apply this knowledge to medicine. The purpose of this course is to provide medical students, graduate students, and medical researchers an opportunity to develop sufficient skills in modern data science to carryout research using large databases. It is assumed that the student has no training beyond introductory courses in statistics and/or epidemiology; no significant programming experience is required.

**Repeatability:** This course may be repeated for additional credit.

**PEDI M610. Pediatric Hematology/Oncology. 0 Credit Hours.**

Pediatric hematology and oncology -- common or interesting diseases. The following topics will be covered including detailed pathophysiology and available clinical and diagnostic studies. Recent advances in therapy and molecular diagnosis, as well as specialized studies will be discussed. The purpose of enrolling patients on therapeutic randomized protocols will be addressed - anemia, the most common referral to hematology Clinic - Bleeding diathesis focusing on Von Willerand Disease -- the most common coagulopathy. Acute leukemia -- the most common malignancy in children. Sickle Cell disease --as an example of hemolytic disorder. Neutropenia in childhood. Chronic Disease -- overall management strategies.

**Repeatability:** This course may be repeated for additional credit.

**PEDI M649. Pediatric Gastroenterology. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M670. Pediatric Emergency Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M671. General Pediatrics/Inpatient. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M672. General Pediatrics/Ambulatory. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M673. Pediatric Allergy. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M674. Pediatric Anesthesiology. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M675. Pediatric Cardiology. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M676. Pediatric Endocrine/Metabolism. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M677. Adolescent Medicine. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M678. Pediatric Subspecialties. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M679. Pediatric Surgery. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M681. Pediatric Immunology(HIV/AIDS). 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M682. Pediatric Infectious Diseases. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M683. Pediatric Rheumatology. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M685. Neonatal ICU (ICN) - Critical Care. 0 Credit Hours.**

The required critical care course will introduce students to the management of critically ill patients. Students are expected to follow their patients' progress and contribute to their care with supervision. Students will observe and assist as possible in procedures being performed in the ICU. Students will obtain exposure to assisted ventilation, palliative and end-of-life care.

**Course Attributes:** M2

**Pre-requisites:** Minimum grade of P in INTM M301, OBGY M320, PEDI M330, PSYM M340, SURG M350, NEUR M370, and FAMP M360.

**PEDI M686. Child Maltreat & Neglect. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M689. Pediatric Pulmonary. 0 Credit Hours.**

**Course Attributes:** M2

**PEDI M690. Pediatric Pulmonary ICU/PICU. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M691. Community Pediatric Health. 0 Credit Hours.**

The student will be exposed to outpatient pediatric patients in a private office setting. The student will learn about community resources and how physicians utilize these resources. In addition, experience will be gained in the management of both well and sick children who present to a pediatric practice. This rotation is primarily for the student who is interested in pursuing a residency in pediatrics. 2 weeks with a private practice in Coopersburg, PA; 2 weeks with a well established practice in Stroudsburg, PA. In addition, opportunities may be available for students to see families with the Visiting Nurse Association.

**Repeatability:** This course may be repeated for additional credit.

**PEDI M694. Ped Plastic & Recon Surgery. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M695. Pediatric Neurology. 0 Credit Hours.**

A 4-week clinical rotation at St. Christopher's Hospital for Children (Philadelphia, PA) providing the student with direct patient care experience and participation in didactic and discussion sessions related to the spectrum of neurological disorders in children and young adults.

**Course Attributes:** M2

**Repeatability:** This course may be repeated for additional credit.

**PEDI M697. Ped Orthopedic Surgery. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M698. Pediatrics. 0 Credit Hours.**

**Course Attributes:** M2

**Repeatability:** This course may not be repeated for additional credits.

**PEDI M700. Outpatient Pediatric Sub-I. 0 Credit Hours.**
