Temple Bulletins 2023-2024	20
Undergraduate	21
About This Bulletin	22
About Temple University	23
Admissions Information	24
First-Year	24
International Students	25
Special Admissions Programs	25
Transfer Students	27
Special Programs	32
Credit-Bearing Certificate Programs	33
Non-Credit Programs	35
Off-Campus/Corporate Programs	37
Programs with Academic Credit	37
Registration	39
Student Responsibilities	42
Student Rights	45
Academic Opportunities	48
Honor Societies	61
Academic Support	62
Student Services	70
University Services	79
University Requirements: General Education	83
Analytical Reading & Writing (GW)	89
Arts (GA)	90
Global/World Society (GG)	92
Human Behavior (GB)	93
Intellectual Heritage (GY & GZ)	95
Quantitative Literacy (GQ)	95
Race & Diversity (GD)	96
Science & Technology (GS)	98
U.S. Society (GU)	100
University Requirements: Writing-intensive Courses	102
Schools, Colleges and Divisions	103
Tyler School of Art and Architecture	104
Architecture BSArch	117
Art BA (TUJ)	122
Art Education BSEd	125
Art History BA	130

Art History Minor	135
Art Minor	136
Art Therapy BA	137
BFA Foundation	141
Ceramics BFA	144
Ceramics with Entrepreneurial Studies BFA	151
City and Regional Planning Minor	156
Community Arts Practices Certificate	157
Community Development BS	157
Community Development Minor	162
Creative Entrepreneurship Certificate	164
Ecological Planning and Design Minor	165
Environmental Horticulture Minor	166
Environmental Sustainability Certificate	167
Facilities Management BS	169
Fibers and Material Studies with Entrepreneurial Studies BFA	174
Fibers and Materials Studies BFA	179
Glass BFA	186
Glass with Entrepreneurial Studies BFA	194
Graphic and Interactive Design BFA	198
Graphic and Interactive Design with Entrepreneurial Studies BFA	208
Historic Preservation BS	214
Historic Preservation Certificate	219
Horticultural Therapy Certificate	220
Horticulture AS	221
Horticulture BS	226
Landscape Architecture BS	229
Landscape Architecture BS with Horticulture Concentration	233
Landscape Plants Certificate	237
Landscape Studies Minor	238
Metals/Jewelry/CAD-CAM BFA	239
Metals/Jewelry/CAD-CAM with Entrepreneurial Studies BFA	247
Native Perennial Garden Design Certificate	252
Painting BFA	253
Painting with Entrepreneurial Studies BFA	262
Photography BFA	268
Photography with Entrepreneurial Studies BFA	275
Printmaking BFA	280
Printmaking with Entrepreneurial Studies BFA	287
Sculpture BFA	292
Sculpture with Entrepreneurial Studies BFA	300
Sustainable Food Systems Certificate	305

Sustainable Food Systems Minor	307
Visual Studies BA	308
Center for the Performing and Cinematic Arts	313
Boyer College of Music & Dance	314
Chamber Music Certificate	333
Classical Piano Certificate	334
Classical Voice Certificate	335
Composition BM	336
Dance BFA	339
Dance Certificate	344
Dance Minor	345
Hip Hop Dance and Culture Minor	346
Jazz Arranging Certificate	347
Jazz Improvisation Certificate	348
Jazz Piano Certificate	349
Jazz Studies Composition Certificate	350
Jazz Studies/Composition BM	351
Jazz Studies/Performance BM	358
Jazz Studies/Performance BM with Piano Concentration	362
Jazz Studies/Performance BM with Voice Concentration	366
Jazz Voice Certificate	370
Music BS	371
Music Certificate	374
Music Composition Certificate	376
Music Education BM	377
Music Education/Jazz BM	395
Music History BM	417
Music History Certificate	423
Music Minor	424
Music Performance Certificate	425
Music Technology BS	426
Music Technology BS with Interdisciplinary Studies Concentration	431
Music Technology Certificate	435
Music Theory (Jazz) Certificate	436
Music Theory (Traditional) Certificate	437
Music Therapy BM	438
Music Therapy/Jazz BM	444
Orchestral Music Certificate	449
Performance BM	450
Performance BM with Classical Guitar Concentration	458
Performance BM with Harpsichord Concentration	464
Performance BM with Piano Concentration	467

Performance BM with Voice Concentration	471
Performing Arts Certificate	475
Piano Pedagogy BM	476
Theory BM	478
School of Theater, Film and Media Arts	485
Acting Certificate	489
Entertainment Industry Studies Certificate	490
Film and Media Arts BA	490
Film and Media Arts BA with Cinematography Concentration	495
Film and Media Arts BA with Post Production Concentration	499
Film and Media Arts BA with Producing Concentration	503
Film and Media Arts BA with Screen Studies Concentration	507
Film and Media Arts BFA with Directing Concentration	511
Film and Media Arts BFA with Media Arts Concentration	517
Film and Media Arts BFA with Screenwriting Concentration	521
Film Certificate	525
Media Arts Certificate	526
Musical Theater BFA	527
Screen Studies Certificate	531
Screen Studies Minor	531
Stage Management Certificate	532
Technical Production and Management BFA	533
Theater and Community Engagement Certificate	537
Theater BA	537
Theater Education Certificate	548
Theater Minor	549
Voice and Speech for the Actor Certificate	551
College of Education and Human Development	552
Adult and Organizational Development BA	565
Adult and Organizational Development Minor	569
Applied Behavior Analysis Certificate	569
Career and Technical Education BSEd	570
Career and Technical Education BSEd with Business, Computer and Information Technology Education	574
Career and Technical Education BSEd with Marketing Education Concentration	578
Diversity and Inclusion Certificate	581
Early Childhood-Elementary Education (PreK-4) BSEd	582
Early Childhood-Elementary Education (PreK-4) BSEd with Special Education Concentration	585
Education Minor	589
English Language Teaching Certificate	589
Human Development and Community Engagement BS	590
Human Development and Community Engagement Minor	594
Leadership and Military Science Certificate	595

Middle Grades Education BSEd with Language Arts Concentration	596
Middle Grades Education BSEd with Mathematics and Language Arts Concentration	601
Middle Grades Education BSEd with Mathematics and Science Concentration	605
Middle Grades Education BSEd with Mathematics Concentration	610
Middle Grades Education BSEd with Science and Language Arts Concentration	614
Middle Grades Education BSEd with Science Concentration	619
Middle Grades Education BSEd with Social Studies Concentration	624
Secondary Education / English Education BSEd	629
Secondary Education / Mathematics Education BSEd	632
Secondary Education / Social Studies Education BSEd	636
Secondary Education / World Languages Education BSEd	640
Special Education (Pre-K-12) BSEd	643
College of Engineering	648
Bioengineering BS BIOE with Cellular Engineering Concentration	657
Bioengineering BS BIOE with Engineering Devices Concentration	663
Bioengineering BS BIOE with Pre-Health Concentration	668
Civil Engineering BSCE	674
Civil Engineering BSCE with Cooperative Education Program Concentration	680
Civil Engineering BSCE with Environmental Engineering & Cooperative Education Program Concentrations	686
Civil Engineering BSCE with Environmental Engineering Concentration	691
Construction Engineering Technology BSCET	696
Construction Engineering Technology BSCET with Cooperative Education Program Concentration	701
Electrical Engineering BSEE	706
Electrical Engineering BSEE with Bioelectrical Engineering and Cooperative Education Program	711
Electrical Engineering BSEE with Bioelectrical Engineering Concentration	716
Electrical Engineering BSEE with Computer Engineering and Cooperative Education Program	721
Electrical Engineering BSEE with Computer Engineering Concentration	726
Electrical Engineering BSEE with Cooperative Education Program Concentration	731
Engineering (Undeclared)	736
Engineering BSE	737
Engineering BSE with Electromechanical Engineering Concentration	742
Engineering BSE with Energy and Power Engineering Concentration	747
Engineering Technology BSET	752
Engineering Technology BSET with Cooperative Education Program Concentration	757
Environmental Engineering BSEnvE	762
Environmental Engineering Minor	766
Industrial and Systems Engineering BSISE	767
Mechanical Engineering BSME	772
Mechanical Engineering BSME with Cooperative Education Program Concentration	779
Mechanical Engineering Technology BSMET	784
Fox School of Business and Management	789
Accounting BBA	807

Accounting BBA with Data Analytics Concentration	812
Accounting Minor	816
Actuarial Science BBA	817
Business Analytics Minor	821
Business Basics Certificate	822
Business Management BBA	822
Business Minor	826
Business Plus Certificate	827
Corporate Compliance and Regulatory Policy Minor	828
Digital Marketing Minor	829
Economics BBA	830
Economics Minor	834
Entrepreneurship and Innovation Management BBA	835
Entrepreneurship and Innovation Management Certificate	840
Entrepreneurship and Innovation Management Minor	842
Finance BBA	844
Finance Minor	849
Financial Planning BBA	850
General Business Studies Minor	853
Healthcare Management Minor	855
Human Resource Management BBA	856
International Business Administration Minor	861
International Business BBA with International Economics Concentration	863
International Business BBA with International Entrepreneurship Concentration	867
International Business BBA with International Finance Concentration	872
International Business BBA with International Marketing Concentration	877
International Business BBA with International Sales and Business Development Concentration	881
International Business BBA with International Supply Chain Management, Transportation and Logistics	885
Legal Studies BBA	890
Legal Studies Minor	893
Management Information Systems BBA	894
Management Information Systems Certificate	898
Management Information Systems Minor	899
Marketing BBA	900
Marketing Minor	904
Organizational Leadership Minor	905
Real Estate BBA	906
Real Estate Minor	910
Risk Management and Insurance BBA with Healthcare Risk Management Concentration	911
Risk Management and Insurance BBA with Managing Corporate Risk Concentration	914
Risk Management and Insurance BBA with Managing Human Capital Risk Concentration	917
Sales Minor	921

Statistical Science and Data Analytics BS	922
Statistical Science and Data Analytics Minor	926
Supply Chain Management BBA	927
Supply Chain Management Minor	930
College of Liberal Arts	932
Africology and African American Studies BA	959
Africology and African American Studies Minor	963
American Studies BA	963
American Studies Minor	967
Ancient Mediterranean Studies Minor	969
Anthropology BA	970
Anthropology Minor	973
Arabic Certificate	974
Arabic Minor	975
Asian Business and Society Certificate	975
Asian Studies BA	976
Asian Studies Minor	980
Biomedical Anthropology Minor	981
Chinese BA	982
Chinese Certificate	985
Chinese Minor	986
Classical Languages and Literature Minor	987
Classics BA with Classical Civilizations Concentration	988
Classics BA with Classical Languages and Literature Concentration	992
Clinical and Health Psychology Minor	996
Cognitive Neuroscience Minor	996
Creative Writing Minor	998
Criminal Justice BA	999
Criminal Justice Minor	1003
Cybersecurity and Human Behavior Certificate	1004
Economics BA	1005
Economics Minor	1009
English BA	1010
English Minor	1014
Environmental Studies BA	1014
Environmental Studies Minor	1020
Ethics Certificate	1020
French BA	1021
French Certificate	1024
French Minor	1025
Gender, Sexuality and Women's Studies BA	1026
Gender, Sexuality and Women's Studies Certificate	1032

Gender, Sexuality and Women's Studies Minor	1032
General Program AA	1033
General Program BA	1034
Geographic Information Systems Certificate	1037
Geography and Urban Studies BA	1038
Geography and Urban Studies Minor	1043
German Certificate	1043
German Language and Cultural Studies BA	1044
German Language and Cultural Studies Minor	1048
Global Studies BA	1049
Global Studies Minor	1056
Health Research Certificate	1059
History BA	1060
History Minor	1064
Interdisciplinary German Studies BA	1065
Interdisciplinary German Studies Minor	1068
International Affairs BA	1069
International Business Studies BS	1076
Italian BA	1079
Italian Certificate	1083
Italian Minor	1083
Italian Studies BA	1084
Italian Studies Minor	1087
Japanese BA	1088
Japanese Certificate	1092
Japanese Minor	1092
Jewish Secular Studies Certificate	1093
Jewish Studies BA	1094
Jewish Studies Minor	1097
Language and Cross-Cultural Communication Certificate	1099
Latin American Studies BA	1099
Latin American Studies Certificate	1103
Latin American Studies Minor	1103
Lesbian, Gay, Bisexual and Transgender Studies Minor	1104
Liberal Studies BA	1105
Management Career Certificate	1110
Mathematical Economics BA (CLA)	1112
Neuroscience Research Minor	1116
Neuroscience: Systems, Behavior and Plasticity BS	1117
Philosophy BA	1121
Philosophy Minor	1127
Political Economy Certificate	1127

Political Science BA	1129
Political Science Minor	1135
Portuguese Minor	1136
Professional Writing Certificate	1136
Psychological Studies BA	1137
Psychology BA	1140
Psychology Minor	1147
Public Policy Minor	1148
Religion BA	1150
Religion Minor	1154
Social Science Research Certificate	1154
Sociology BA	1155
Sociology Minor	1163
Sociology of Health Minor	1163
Spanish and Latin American Studies for Business Certificate	1164
Spanish and Latinx Studies for the Health and Human Services Professions Certificate	1165
Spanish BA	1166
Spanish Certificate	1177
Spanish Minor	1177
Sports and Society Certificate	1178
Visual Anthropology Minor	1179
Lew Klein College of Media and Communication	1180
Advertising BA with Account Management Concentration	1189
Advertising BA with Art Direction Concentration	1196
Advertising BA with Brand Strategy and Research Concentration	1204
Advertising BA with Copywriting Concentration	1212
Advertising BA with Media Planning Concentration	1219
Audio and Live Entertainment BA	1227
Children's Media Certificate	1232
Communication and Activism Minor	1234
Communication and Social Influence BA	1235
Communication Studies BA with Communication and Entrepreneurship Track	1242
Communication Studies BA with Communication Studies Thesis Track	1250
Communication Studies BA with Contemporary Media Environments Track	1258
Communication Studies BA with Global Civil Society Track	1266
Communication Studies BA with Policy, Regulation and Advocacy Track	1274
Communication Studies BA with Production Track (TUJ)	1282
Communication Studies Minor	1290
Content Creation Minor	1291
Digital Media Engagement Minor	1291
Digital Media Technologies Minor (KCMC)	1292
Global Communication and Media Arts Minor	1294

International Communication Minor	1295
Journalism BA	1299
Journalism, Society and Culture Minor	1309
Leadership Minor	1310
Media Studies and Production BA with Media Analysis Concentration	1311
Media Studies and Production BA with Media Business Concentration	1320
Media Studies and Production BA with Media Production Concentration	1329
Public Relations BA	1338
Public Relations Minor	1344
Sports Media Certificate	1345
Virtual Media Management BA	1346
College of Public Health	1350
American Sign Language Certificate	1360
Applied Epidemiology Minor	1361
Emergency and Sports Injury Management Certificate	1361
Exercise and Sport Science BS	1362
Global Health Minor	1365
Health Information Management BSHIM	1366
Health Information Management Minor	1370
Health Policy and Management Minor	1371
Health Professions BS	1372
Health Studies BA	1376
Kinesiology BS	1379
Linguistics Certificate	1382
Nursing BSN	1383
Nutrition Minor	1387
Public Health BS	1388
Public Health Minor	1393
Recreational Therapy BS	1394
Speech, Language and Hearing Science BA	1399
School of Social Work	1404
Social Work BSW	1407
College of Science and Technology	1412
Accelerated Programs in CST	1430
Biology BA/MEd	1433
Biology BS/MEd	1433
Chemistry BA/MEd	1434
Chemistry BS/MEd	1435
Chemistry BS/MS	1436
Computer Science, BS/MS	1437
Dental 3+4 Program	1438
Geology BA/MEd	1438

Geology BS/MEd	1439
Information Science and Technology BS/MS	1439
Mathematics BA/MEd	1440
Mathematics BA/MS	1441
Mathematics BS/MEd	1442
Mathematics BS/MS	1442
Medical 3+4 Program	1443
Pharmaceutical Sciences BS	
Pharmacy 3+4 Program	1444
Physical Therapy 3+3 Program	1445
Physics BA/MEd	1445
Physics BA/MS	1446
Physics BS/MEd	1446
Physics BS/MS	1447
Podiatry 3+4 Program	1447
Advanced Core Science Studies Postbaccalaureate Certificate	1448
Applied Mathematics BS	1449
Astrophysics Certificate	1454
Astrophysics Minor	1455
Basic Core Science Studies Postbaccalaureate Certificate	1455
Biochemistry BS	1457
Biology BA	1465
Biology BS	1471
Biology Minor	1476
Biology with Teaching BS	1478
Biophysics BS	1484
Chemistry BA	1489
Chemistry BS	1494
Chemistry Minor	1501
Chemistry with Teaching BS	1503
Computer Science and Physics BS	1509
Computer Science BA	1513
Computer Science BS	1518
Computer Science Minor	1523
Computer Security and Digital Forensics Certificate	1524
Data Science BS with Computation and Modeling Concentration	1526
Data Science BS with Computational Analytics Concentration	1530
Data Science BS with Genomics and Bioinformatics Concentration	1535
Data Science: Computational Analytics Certificate	1540
Data Science: Computational Analytics Minor	1541
Digital Media Technologies Minor (CST)	1543
Earth and Space Science with Teaching BS	1544

Ecology, Evolution and Biodiversity BS	1549
Environmental Professional Training Certificate	1556
Environmental Science BS with Applied Ecology Concentration	1558
Environmental Science BS with Climate Concentration	1564
Environmental Science BS with Environmental Geochemistry Concentration	1569
Environmental Science BS with Hydrology Concentration	1574
Fundamentals of Physics Certificate	1580
Fundamentals of Programming Certificate	1581
General Science and Technology with Teaching BS	1582
General Science with Teaching BS	1587
Genomic Medicine BS	1592
Genomic Medicine BS with Pre-Medicine Concentration	1599
Genomic Medicine Certificate	1605
Geology BA	1608
Geology BS	1612
Geology Minor	1618
Information Science and Technology BA	1619
Information Science and Technology BS	1623
Information Science and Technology Minor	1629
Materials Science BS	1630
Mathematical Economics BA (CST)	1635
Mathematics and Computer Science BS	1640
Mathematics and Computer Science with Teaching BS	1645
Mathematics and Physics BS	1650
Mathematics and Technology with Teaching BS	1654
Mathematics BA	1661
Mathematics BS	1665
Mathematics Minor	1669
Mathematics with Teaching BS	1670
Mobile Application Development Certificate	1676
Natural Sciences BA with Biology Concentration	1677
Natural Sciences BA with Chemistry Concentration	1682
Natural Sciences BA with Earth and Environmental Sciences Concentration	1688
Natural Sciences BA with Physics Concentration	1694
Natural Sciences BS with Biology Concentration	1699
Natural Sciences BS with Chemistry Concentration	1705
Natural Sciences BS with Earth and Environmental Sciences Concentration	1711
Natural Sciences BS with Physics Concentration	1716
Natural Sciences Minor	1722
Neuroscience: Cellular and Molecular BS	1723
Pharmaceutical Sciences BS	1729
Physics BA	1734

Physics BS	1738
Physics Minor	1742
Physics with Teaching BS	1743
Science and Technology Writing Certificate	1748
School of Sport, Tourism and Hospitality Management	1751
Esports Certificate	1758
Event and Entertainment Management BS	1759
Event and Entertainment Management Certificate	1763
Event and Entertainment Management Minor	1764
Sport and Recreation Management BS	1764
Sport Management Certificate	1769
Sport Management Minor	1770
Sport Marketing Certificate	1771
Tourism and Hospitality Management BS	1772
Tourism and Hospitality Management Certificate	1776
Tourism and Hospitality Management Minor	1777
University College	1779
General Studies BGS	1779
Specialized Studies in Science and Mathematics Certificate	1782
Sustainability Certificate	1783
Division of University Studies	1788
Accelerated Degree Programs	1792
Intercollegial Programs	1796
Digital Media Technologies Minor	1796
Environmental Programs	1798
Mathematical Economics	1798
Cost and Aid	1800
Campuses	1816
Ambler Campus	1816
Health Sciences Center	1822
Main Campus	1823
Temple University Center City	1824
Temple University Harrisburg	1826
Temple University, Japan Campus	1827
Academic Policies	1835
Academic Course Load	1836
Academic Forgiveness	1836
Academic Progress for Undergraduate Courses	1837
Academic Residency Requirements	1838
Academic Rights and Responsibilities	1838
Academic Standing	1840
Assessment of Student Learning	1844

Attendance	1844
Audit	1844
Continuing Degree Seeking Students	1845
Course Numbering System	1845
Courses Inapplicable to Graduation	1846
Courses Over Ten Years Old	1846
Credit for Prior Learning	1847
Credit Hours	1847
Credit/No Credit Courses	1848
Dean's List	1849
Declaration of Major and/or Concentration	1849
Disciplinary Action	1850
Double Major Across Colleges	1850
Dropping or Withdrawing from Courses	1850
Family Educational Rights & Privacy Act (FERPA)	1852
Final Examinations	1852
Grade Change	1853
Grade Point Average (GPA)	1853
Grades and Grading	1853
Graduation Procedures	1854
Grievances	1855
Honors for Academic Achievement	1855
Incomplete Coursework	1856
Leave of Absence	1856
Non-Degree Seeking Students	1857
Permission to Complete a Course at another Institution after Matriculation	1858
Placement Assessments	1859
Plagiarism and Academic Cheating	1860
Prerequisites and Co-requisites	1860
Probation and Dismissal	1860
Registration	1860
Repeating a Course	1860
Reverse Transfer	1862
Satisfactory Academic Progress	1862
Second Degrees	1862
Simultaneous Enrollment	1862
Student Conduct Code	1862
Students Called to Military Service Obligation	1863
Study Abroad Approval Procedures for External Programs	1864
Transcripts	1864
Transfer Between Schools/Colleges Within the University (Change of Program)	1864
Transfer Credit	1864

Undergraduates Taking Graduate Level Courses	1864
About Courses	1866
Course Descriptions	1881
Accounting (ACCT)	1884
Actuarial Science (AS)	1890
Adult & Organizational Development (AOD)	1894

Temple Bulletins 2023-2024

The Bulletin provides enrolled students with the information they need regarding their chosen academic path and helps prospective students make important enrollment decisions.

The information in this bulletin is subject to change by Temple University at any time. Neither this bulletin nor any parts of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this bulletin.

Disclaimer: Temple University expressly reserves the right to deliver some or all instruction remotely at its discretion. Tuition, the university services fee and certain other fees are required to be paid in full and will not be refunded regardless of the method of instruction, the inability to access university-maintained facilities, or any disruption to or cancellation of classes, activities, events, services or programs.

Undergraduate Bulletin

The current Undergraduate Bulletin is for students who began school in Fall 2023.

For students who began prior to Fall 2023, see the Archives.

Undergraduate

Welcome to the 2023-2024 Temple University *Undergraduate Bulletin*. Inside, you will find tools to help you map your academic plan and complete your college degree.

There are numerous resources in this *Bulletin*, including:

- A searchable database of more than 4,000 undergraduate courses.
- Overviews of degree programs and requirements for more than 150 undergraduate majors, as well as for minors, concentrations and certificates.
- Information on study abroad and research opportunities.
- Academic policies and procedures.
- A directory of student support services.

We strongly encourage you to take advantage of the opportunities described in this *Bulletin*. You should make it a point to meet with your advisor regularly, participate in rewarding learning experiences, and commit to graduating on time. And if you're an incoming freshman or transfer student, visit fly.temple.edu to learn about Fly in 4, Temple's innovative plan to fast-track your future and limit your debt.

Our first priority is providing you with a well-rounded education that prepares you to be "real world ready." With the tools available in this *Bulletin*, you are well on your way to personal and professional success.

About This Bulletin

The *Undergraduate Bulletin* is produced by the Office of the Provost to present general information about Temple University and specific information about undergraduate academic programs. The information in this *Bulletin* is subject to change by Temple University at any time. Neither this *Bulletin* nor any parts of it may be relied upon as a contract between Temple University and any student, applicant, or other user of this site. All prospective and current students should consult with appropriate University Offices to verify current information and the status of policies, programs, descriptions of curricula, or other information in this *Bulletin*.

Attention New Freshmen and Transfer Students

If you are a new undergraduate student at Temple this year, this *Bulletin* contains the requirements of programs into which you will be enrolling. For that reason, your advisors may refer to Fall 2023 as "your Bulletin year."

All new undergraduate students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

New freshmen are required to complete the GenEd (p. 83) curriculum. Advanced Placement (AP), International Baccalaureate (IB), and Dual Enrollment credits may fulfill GenEd areas. Students who have fewer than 15 transferable credits are considered freshmen. Additionally, students whose transfer credits were earned while in high school, regardless of the number of transfer credits, are considered freshmen.

New transfer students are required to complete some version of the GenEd (p. 83) curriculum. (See the Transfer Students (p. 30) section of this *Bulletin*.) Students who attempted 15 or more transferrable credits after high school and prior to being admitted to Temple University are considered transfer students.

Attention Current Students

Current students who started at Temple University before Fall 2023 should refer to the Archives to find the requirements of their program of study for their Bulletin year.

Other Resources

For a complete list of academic programs offered at Temple University, refer to the Academic Programs List (p. 2908).

Specific information on undergraduate academic programs is located within the individual schools, colleges and divisions (p. 103). Additional information is located in the following sections:

- University General Education Curriculum (p. 83)
- Writing Intensive Course Requirements (p. 102)
- Intercollegial Programs (p. 1796)

In addition to this *Bulletin*, you will also find several other resources that provide important information for Temple University undergraduate students. These resources include, but are not limited to, the Course Descriptions, Course Catalog, Class Schedule, Campus Safety Services, Disability Resources and Services, Military and Veteran Services, Transfer Student Information, and University Housing and Residential Life.

We hope this *Undergraduate Bulletin* will prove informative and useful to you as a Temple student. Questions or suggestions regarding the content of the *Undergraduate Bulletin* may be directed to the Office of Undergraduate Studies (phone: 215-204-2044; e-mail: ug-bulletin@temple.edu).

About Temple University

Founded as a night school by Russell Conwell in 1884, Temple University has evolved into an international powerhouse in higher education and a top-tier research institution with roughly 40,000 undergraduate, graduate and professional students.

As the largest university in one of the nation's most iconic cities, Temple educates diverse future leaders from across Philadelphia, the country and the world who share a common drive to learn, prepare for their careers and make a real impact.

Temple offers students a dynamic and nurturing learning environment with the support of a renowned faculty, dedicated academic advisors focused on setting a clear path to graduation and a broad curriculum of more than 500 academic programs. A longtime leader in professional education, Temple is also among the nation's largest educators in the combined fields of dentistry, law, medicine, pharmacy and podiatry.

Investments in the campus learning environment have elevated the university's capabilities across its 17 schools and colleges with impressive results. In 2015, Temple achieved the R1 Carnegie Classification of Institutions of Higher Education, placing it among the most active research universities in the nation. Temple also recently celebrated several milestones, including a Rhodes scholar, a Goldwater scholar, and its largest and brightest graduating class.

Temple's bustling Main Campus is set against the backdrop of the Philadelphia skyline. Green space, athletic facilities and eclectic architecture ranging from the historic Temple Performing Arts Center to an emerging state-of-the-art Charles Library form a vibrant residential setting. Temple's NCAA Division I athletic programs and hundreds of student organizations thrive on campus.

Philadelphia's public university, Temple provides an unparalleled value to families in the region and serves as an essential resource to the surrounding community. Temple also offers a gateway to the world with long-standing international campuses in Tokyo and Rome and study abroad opportunities across six continents.

Mission Statement

Opportunity. Engagement. Discovery.

Temple University educates a vibrant student body and creates new knowledge through innovative teaching, research and other creative endeavors. Our urban setting provides transformative opportunities for engaged scholarship, experiential learning, and discovery of self, others and the world. We open our doors to a diverse community of learners and scholars who strive to make the possible real.

We are committed to the ideals upon which Temple was founded:

- providing access to an excellent, affordable higher education that prepares students for careers, further learning and active citizenship.
- creating a collaborative community of outstanding faculty and staff who foster inclusion and encourage the aspirations of Temple students.
- promoting service and engagement throughout Philadelphia, the Commonwealth of Pennsylvania, the nation and the world.

President

Temple's president is the public face of the university and is responsible for supporting and managing all of its academic, administrative and financial operations. The President works closely with faculty, administrators, trustees, students and alumni to set the university's goals and uphold its mission. Learn more about the president of Temple University.

Trustees

The Board of Trustees is Temple's governing body, responsible for the educational mission and fiscal policies of the university. The trustees also are responsible for electing the university president, adopting an annual plan of financial operation and establishing degrees to be awarded. Learn more about the Board of Trustees.

Campus Development

Temple is investing millions of dollars into new and upgraded facilities as part of the Visualize Temple campus plan, the complementary Verdant Temple landscaping plan and the newest Boundless Temple campus plan. Temple's vibrant residential campus continues to evolve, with exciting new academic and recreation spaces, as well as significant renovations and upgrades. Learn more about Temple's changing campus.

Community

Temple's ties to its community are strong and deep, dating back to its founding in 1884 as an institution that served working people in the local community. Today, the university has not strayed from its original mission and remains a beacon of public service, social activism and community engagement. Learn more about Temple's community.

Admissions Information

Temple University Office of Undergraduate Admissions
 Conwell Hall 103
 1801 N. Broad Street
 Philadelphia, PA 19122-6096
 phone: 215-204-7200
 toll free: 888-340-2222
 fax: 215-204-5694
 askanowl@temple.edu
 admissions.temple.edu

The Office of Undergraduate Admissions processes all undergraduate applications for admission to the Main and Ambler campuses, as well as the Entry Year Programs at the Rome and Japan campuses of Temple University. First-year applicants are encouraged to apply Early Action through the Common Application and must have a completed application on file before November 1st to receive a decision by January 10th. All other applicants (first-year or transfer) are reviewed on a rolling basis, and candidates are usually notified of decisions four to six weeks after receipt of a completed application.

The web site to apply is admissions.temple.edu/apply.

Students must apply by the stated deadlines on the undergraduate application web site for the semester in which they wish to enroll. Applications received after these dates will be considered on a space-available basis. Applicants must activate a TUportal account and submit any required application materials to the Office of Undergraduate Admissions. The admissions application fee is \$55.00.

Special Requirements for Admission

The following programs have additional requirements for admission: the College of Public Health (Nursing, first-year and transfers), Dance, Music, Musical Theater, and the Tyler School of Art and Architecture. Refer to the individual program description for the details on these special requirements.

Tuition and Residence Hall Deposits

All students admitted to the university must pay a non-refundable tuition deposit of \$200 in order to reserve a place in the incoming class. In addition, students who wish to live in the residence halls must pay a housing deposit of \$250. First-year students are guaranteed on-campus housing if they commit to Temple by May 1.

Applying for Re-enrollment

For further information, see Academic Policy 02.10.16.

Also see the Leave of Absence, Academic Forgiveness, and Academic Standing policies in the Academic Policies (p. 1835) section of this *Bulletin* and the Academic Policies and Regulations section of each school or college. An application for re-enrollment is submitted to the school or college of the intended major.

First-Year

Diploma and Required High School Credits

The university requires that students hold a diploma from an accredited high school with the following recommended distribution of courses:

Subject field	Units
English	4
Mathematics, college preparatory	4
Foreign language (same language/culture)	2
History/Social Studies	3
Science (2 years lab)	3
The Arts	1
Other college preparatory courses	3
Total	20

Students are required to have earned a minimum of 16 units in academic subjects from the above chart. Students 18 years of age and older may submit a high school equivalency diploma earned through the General Education Development Test and the high school transcript for all grades completed.

Test Optional

Temple University offers a test optional path for talented students whose potential for academic success is not accurately captured by standardized test scores. We support the holistic evaluation of our first-year candidates, and we appreciate the many ways they can demonstrate their academic strengths and potential to succeed in college. You have the option of submitting your standardized test scores (SAT or ACT) or choosing to apply as test optional (not sending your test scores). All candidates will be considered for merit scholarships and our Honors Program. For more information, see admissions.temple.edu/apply/first-year-students/test-optional.

College Entrance Examinations

For those applicants who submit test scores, Temple accepts either of the following tests for college entrance:

- Scholastic Aptitude Test (SAT) of the College Entrance Examination Board, Box 592, Princeton, NJ 08540
- American College Test (ACT) of the American College Testing Program, Box 168, Iowa City, IA 52250

Temple suggests that students take either test in the spring of their junior year, as well as in the fall of their senior year. Results should be forwarded directly to the Office of Undergraduate Admissions.

Placement Assessments

Success at Temple University does not follow one particular pathway, as our students are varied and diverse in their backgrounds. For incoming students, it is important that they start on the right track, beginning with determining the appropriate courses for their first semester. Some incoming students may be placed into courses using their SAT or ACT scores while others will need to take placement assessments. Placement Assessments are offered in English, Math, and Foreign Languages. For more information about Placement Assessments, go to the Institutional Research and Assessment web site at ira.temple.edu/placement-assessments.

Orientation for New Students

Following admission to the university and payment of the tuition deposit, students will receive information regarding their orientation requirements. For further information, refer to the Office of New Student and Family Programs.

Immunizations

See Student Health and Wellness for required immunizations.

International Students

Students come to Temple from all over the world. In fact, we have students from more than 100 countries. You're considered an international student if you hold, or will need to obtain, a non-immigrant visa, including a student visa (F-1), or an exchange visitor visa (J-1).

To apply to Temple, use the Common Application. For additional information, see International Students admissions.

If you require a student visa, please review the information for incoming students and contact International Student and Scholar Services with any questions.

Questions can be directed to:

e-mail: international.admissions@temple.edu

phone: 215-204-4900

Orientation and Immunizations

For orientation information see International Student and Scholar Services or the International Student Services (p. 72) section under Student Services.

For immunization requirements see Student Health Services.

Special Admissions Programs

Dual Admissions Programs

See Transfer Students (p. 27).

Pre-Professional Admissions Programs

Pre-Med Health Scholar Program and Accelerated Programs for Dentistry, Pharmacy, Podiatry, Physical Therapy

Pre-Professional Health Advising
Mitten Hall, Suite 110
215-204-2513
healthadvising@temple.edu
<https://undergradstudies.temple.edu/healthadvising>

Pre-Med Health Scholar Program

The Pre-Med Health Scholar Program is offered to highly talented high school seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with the Lewis Katz School of Medicine at Temple University. Applications are accepted from high school seniors and interviews are conducted in February of their senior year of high school. **Health Scholar Program Applications for interested high school seniors are available through the** Pre-Professional Health Advising web site. **Completed applications are due by December of each student's senior year in high school. Students entering Temple University as Pre-Med Health Scholars may consider an Accelerated BA/MD (3+4) Degree option during their first semester of undergraduate studies.**

Accelerated Programs for Dentistry, Pharmacy, Physical Therapy, and Podiatry

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate degrees in a shorter period of time. Bachelor's degrees are conferred after successfully completing three years of undergraduate studies and passing all courses in the first year of professional school. The Accelerated BA/DMD, BA/PharmD, BA/DPM, or DPT Programs are designed for high-achieving students who have distinguished themselves with impressive academic records and a demonstrated interest in their respective field.

Applications are accepted from high school seniors and first year, first semester, freshmen. **Accelerated program Applications are available on the** Pre-Professional Health Advising web site.

Temple Law Scholars Program

<https://undergradstudies.temple.edu/opportunities/lawscholars>

Paul Crowe
Professor of Instruction, Department of Philosophy
College of Liberal Arts
215-204-8591
pcrowe@temple.edu

Leora Eisenstadt
Assistant Professor, Legal Studies Department
Fox School of Business and Management
215-204-6672
leora.eisenstadt@temple.edu

The Temple Law Scholars program provides an opportunity for outstanding students to gain provisional admission to Temple University's Beasley School of Law at the same time they are accepted into an undergraduate program of study. Law Scholars are expected to participate in the University Honors Program while undergraduates, after which they enroll in the Beasley School of Law, leading to the degree of Juris Doctor. For more information or an application, please visit the Temple Law Scholars Program.

University Honors Program

The University Honors Program includes students enrolled in every undergraduate school and college. Incoming first-year students are automatically reviewed upon acceptance to Temple University. Current Temple students or transfer students can apply for admission through the Honors web site. Applications for current Temple students and transfer students are reviewed at the end of each semester.

For more information, please visit the Honors Program.

Also see University Honors Program (p. 58) in the Academic Opportunities section of this *Bulletin*.

Transfer Students

Transfer Admissions

Applicants who wish to be considered for transfer admission must have maintained at least a 2.50 grade point average in 15 or more college-level credits completed after high school at an accredited two- or four-year institution of higher education, although this is no guarantee of admission. The average GPA for entering transfer students is a 3.00+. Temple requires the same high school units of transfer students as of first-year students.

Applicants must submit official transcripts from high schools and each college previously attended. The university defines "official transcript" as that which is sent directly from a high school or college to Temple's Office of Undergraduate Admissions.

An evaluation showing accepted transfer credits and a list of Temple course equivalencies is made available in TUPortal for admitted students. Evaluations are based on the majors students indicate on their applications. The Temple school/college in which they enroll will make the final determination of which transfer credits are applicable to the degree.

Transfer Credit Policy

Generally, Temple accepts academic, college-level courses beyond the developmental level completed with a grade "C" or better from schools with institutional accreditation. College-level coursework completed at an institution that is not accredited by an institutional accrediting agency will be evaluated for course equivalencies. Exceptions may be considered on appeal. Temple also awards limited academic credit for previous academic, employment, military, and/or other learning experiences not earned in a traditional college/university classroom setting. Grades are not assigned to transfer credits and therefore credit awarded will not affect a student's grade point average at Temple.

All transcripts, including dual enrollment in high school, military transcripts and official score reports for standardized exams, such as Advanced Placement, International Baccalaureate, CLEP, etc. should be sent directly to the Office of Undergraduate Admissions (<https://admissions.temple.edu/>). There is an expectation that final transcripts are received prior to the beginning of registration for the next semester after initial matriculation to ensure that students' academic records are up-to-date.

- Evaluation of transfer credits is based on a student's major. Undergraduate Admissions initially determines which credits will transfer to the University; the student's school/college at Temple makes the final determination of which transfer credits are applicable to the student's degree program. Transfer evaluations may change for students who change majors or if additional transcripts or scores are received. All requirements of Temple's schools and colleges and major programs of study remain in force. Students should consult the appropriate sections of the *Bulletin* and their academic advisor about school/college requirements.
- Evaluations of transfer credit will reflect information available to Temple at the time of the evaluation by the Admissions Office (see Appeals Process for information regarding transfer equivalency changes.)

In addition to meeting the accreditation standards of the Middle States Commission, some schools, colleges, and programs at Temple are governed by national accrediting bodies which oversee the number and quality of transfer credits permitted. After matriculation, transfer students should consult with their respective school, college, or program to determine transfer credit eligibility. Go to the Accreditation site at <https://provost.temple.edu/aaair/accreditation> and click "View other Accrediting Bodies" to view the list of other accrediting bodies.

In most instances, credit is awarded:

- in academic subjects with a corresponding/related Temple University department;
- when the official score information or official transcript is received by the Office of Undergraduate Admissions;
- when possible, for courses completed more than 10 years prior to the date of admission. (Individual schools and colleges may have additional limitations, e.g. FSBM and CST. See individual school/college policy page.)

and credit is not awarded

- for the same course twice;
- for a course(s) in progress at the time of application;
- for a course that is equivalent to a course previously attempted (earned a letter grade, CR, CD, NC, P, W, or I) at Temple;
- for courses with non-standard grades such as, but not limited to AU, F, I, P (unless P is equal to a grade of C or higher), or W.

To earn a degree from Temple, students must complete at least 45 semester hours of the last 60 semester hours as a matriculated student at Temple, fulfill all university requirements (the General Education Program) and fulfill all degree requirements of the Temple school or college in which they are enrolled. (See Academic Residency (p. 1838).)

- Transfer credits do not count towards academic residency.

To graduate from Temple with Latin Honors, transfer students must complete at least 60 hours in residence as matriculated students at Temple University. (See Honors for Academic Achievement (p. 1855).)

Non-University/College Credit including Military Credit

Students may earn credits through Dual Enrollment, Advanced Placement Tests, International Baccalaureate Exams, College Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), transcribed military experience and Portfolio Review for work or life experience (CLEX).

Individual schools and colleges may have additional limitations regarding the type and the total number of semester hours granted through non-traditional means. (For an individual school/college policy, refer to https://undergradstudies.temple.edu/sites/undergradstudies/files/Prior_Learning_Credit.pdf.)

Students will receive the equivalency that is in effect at the time of the evaluation by the Admissions Office for the following:

- Credits earned through Dual Enrollment while in high school will be evaluated according to the guidelines established for transfer credits. Courses must be on an official transcript from the post-secondary institution.
 - When students submit dual enrollment credit for an AP course on a university or college transcript and also submit scores for the corresponding AP exam, Temple will only award credit based on the evaluation of the dual enrollment credit presented on the university or college transcript. Duplicate credit will not be awarded for both the university/college credit and the AP score(s), since according to Temple University policy, students cannot receive credit for the same course twice.
 - To see how Dual Enrollment credits might transfer to Temple, refer to Temple's Transfer Equivalency Tool: <https://admissions.temple.edu/apply/transfer-students/transfer-equivalency-tool>.
- For a listing of Advanced Placement equivalencies and required scores refer to <https://undergradstudies.temple.edu/transfer/course-equivalency-tables>.
 - Although the AP credits do not transfer as direct equivalents to Temple GenEd courses, Temple University will allow students to satisfy the designated GenEd area with AP Credits.
 - For a listing of International Baccalaureate (IB) equivalencies refer to <https://undergradstudies.temple.edu/transfer/course-equivalency-tables>.
 - Students who have earned the International Baccalaureate Diploma and meet minimum eligibility requirements complete the IB GenEd Program in place of the full GenEd Program. For more information refer to <https://undergradstudies.temple.edu/transfer/gened>.
 - This program still requires students to complete up to 18-19 credits of the GenEd program.
 - Students may be able to satisfy additional GenEd areas with the IB equivalencies.
- Cambridge International GCE A-Level (British A-Level)
 - GCE A-Levels results are recognized for credit by Temple University. (Grades must be a "C" or higher.)
 - A maximum of 8 semester hours per GCE A Level may be granted with up to one year's credit available.
- College Level Examination Program (CLEP) provides a recognized assessment for students to meet requirements of a class through examination.
 - Temple will only award credit as indicated on the chart provided at <https://undergradstudies.temple.edu/transfer/course-equivalency-tables>. Exams that are not listed are not accepted for credit at Temple University, even if the student received credit for the exam at a previous institution.
 - Credit for CLEP examinations posted on transcripts from other institutions will not be used to update a student's academic record at Temple. Students are responsible for requesting that their scores be sent directly to the Office of Undergraduate Admissions, Temple University, 1801 N. Broad Street, Philadelphia, PA 19122.
 - Currently, all literature, history, and political science CLEP exams require an additional Temple essay in order to receive credit for these tests. For the CLEP credits to be posted to the student's academic record, the student must have both the minimum score on the CLEP test and a grade of "pass" on the essay.
 - CLEP credits completed prior to matriculation at Temple will count towards the 45+ GenEd designation and will apply to the General Education program according to the course attribute.
 - Credits brought in through CLEP exams are considered the same as transfer credits and if completed after matriculation are subject to Policy 02.10.18: Transfer Credit Policy for Matriculated Undergraduate Students.
- Credit is awarded for DANTES Subject Standardized Tests (DSST) completed prior to matriculation according to the American Council on Education (ACE) recommendations.
 - Temple will only award credit as indicated on the chart provided at <https://undergradstudies.temple.edu/transfer/course-equivalency-tables>. For credit to be awarded, the credit must be useful in a student's program of study and is only awarded in academic subjects with a corresponding Temple department.

- Colleges and Schools may have limitations on the type and number of DSST credit that can be applied to a degree. For more information about School and College specific policies refer to https://undergradstudies.temple.edu/sites/undergradstudies/files/Prior_Learning_Credit.pdf.
- Students are responsible for requesting that their scores be sent directly to the Office of Undergraduate Admissions, Temple University, 1801 N. Broad Street, Philadelphia, PA 19122.
- Temple awards college credit for documented military experience according to the ACE guide recommendations. Examples of acceptable electronic documentation include, but are not limited to:
 - Community College of the Air Force Transcript
 - Joint Services Transcript
- Decisions to process a Portfolio Review for Prior Work or Life Experience (CLEX) are made in the individual schools and colleges by a faculty committee. The evaluation may be based on the submission of papers, presentation of a portfolio of completed work, and/or a demonstration of acquired skills.
 - If a student changes his/her program of study after the awarding of CLEX credits, the CLEX credits may not be usable in the new major.
 - CLEX credits will be posted only after the completion of a minimum of 30 credits of formal coursework at Temple University.
- College-level coursework completed at colleges and universities that are not members of one of the six regional accrediting associations may be eligible for Credit by Validation after matriculation.
 - Students will need to provide the syllabus used in each class to be evaluated along with the qualifications of the instructor of the course.
- Temple University accepts for transfer credit most college-level, liberal arts courses taught at institutions participating in Pennsylvania's College Transfer System (PA TRAC).
 - View Temple's Transfer Equivalency Tool Information at <https://admissions.temple.edu/apply/transfer-students/transfer-equivalency-tool>.

Different Credit Systems

Quarter hours are converted to semester hours using the ratio of 3:2:

- 2 quarter hour credits are equivalent to 1.5 semester hour credits;
- 3 quarter hour credits are equivalent to 2.0 semester hour credits;
- 4 quarter hour credits are equivalent to 2.5 semester hour credits.

International Credits

- European Credit Transfer and Accumulation System (ECTS) units are converted using 5 ECTS credit to 3 US semester hour credits.
 - 1.667 ECTS credits = 1 Temple credit
 - Additional equivalencies:
 - 1 ECTS credit = 0.5 semester hour credits
 - 1.5 ECTS credits = 1 semester hour credits
 - 2 ECTS credits = 1 semester hour credits
 - 2.5 ECTS credits = 1.5 semester hour credits
 - 3 ECTS credits = 2 semester hour credits
 - 3.5 ECTS credits = 2 semester hour credits
 - 4 ECTS credits = 2.5 semester hour credits
 - 4.5 ECTS credits = 2.5 semester hour credits
 - 5 ECTS credits = 3 semester hour credits
 - 10 ECTS credits = 6 semester hour credits
 - 20 ECTS credits = 12 semester hour credits
 - 25 ECTS credits = 15 semester hour credits
 - Note: Different US institutions have different conversion ratios for ECTS credits.

Transfer Credit Appeals Process

Initial evaluation of transfer credits is made in the Office of Undergraduate Admissions. Re-evaluation of credits will be done first by Undergraduate Admissions.

Re-evaluation of credits will be facilitated by academic advisors in the student's school/college according to standard Temple policies and procedures. The Office of Undergraduate Studies will assist with the re-evaluation when necessary.

Credit (re)evaluation/appeals process continues if:

1. final transcript(s) received during first semester of matriculation;
2. course(s) needs to be (re)evaluated for General Education (GenEd) Curriculum equivalency;
3. course(s) needs to be (re)evaluated for College/School/Department credit;
4. student changes major, declaration of minor or a second major;
5. original evaluation needs modification;
6. student receives E000 (Elective - needs evaluation) on Credit Evaluation Statement.

Students may have to complete one or more of these processes. The entire process can take as little as a few days to as much as the entire semester, depending on the complexity of each student's situation. Factors that may impact the re-evaluation process are: student's major, student changing major, addition of certificate or minor, missing information, incomplete student record, and transfer institution.

Transfer Agreements

To encourage and facilitate transfer for students from other colleges to Temple University, Temple has established transfer agreements with other institutions:

- Dual Admissions agreements conditionally admit students to Temple while they are enrolled at a partner community college, and provide the opportunity for merit scholarships to Temple for eligible students. To be eligible for Dual Admissions, students must enroll in the Dual Admissions Program at the partner institution before completing 30 college credits, including credit from any colleges previously attended. For a list of Dual Admissions agreements, go to <https://undergradstudies.temple.edu/transfer/agreements>.
- GenEd-to-GenEd Transfer agreements accept the general education requirements of associate degrees from partner institutions in lieu of Temple's GenEd Program requirements. For a list of partner institutions and eligible programs, go to <https://undergradstudies.temple.edu/transfer/agreements>. (All students complete two Writing Intensive courses at Temple.)
- Program-to-program agreements are between Temple's academic schools and/or departments and other two-year and four-year institutions. These agreements align the degree requirements of both institutions, so students know what courses they need to complete prior to earning both an Associate's degree from their community college and a Bachelor's degree from Temple. They provide students with a four-year pathway to degree completion for selected programs. For more information on Program-to-Program agreements, go to <https://undergradstudies.temple.edu/transfer/agreements>.

Transfer Students and the University General Education Curriculum

Every Temple student fulfills the 35-36 credit General Education Program (GenEd (p. 83)) in some way. Transfer students may be able to use their transfer credits to satisfy General Education requirements. The following GenEd policies for transfer students apply only to University GenEd requirements.

Basic GenEd Transfer Policies (for additional information on program details, refer to <https://undergradstudies.temple.edu/about/gened>):

- Initial evaluation of transfer credits will be made in the Temple Office of Undergraduate Admissions. Re-evaluation of credits will be done by the academic advisor in the schools and colleges, in consultation with the General Education Program when necessary, according to standard Temple policies and procedures.
- Transfer courses will be applied to major and minor requirements first and then to GenEd.
- Students cannot use the same course to fulfill a General Education and a major or minor requirement.
- The Analytical Reading and Writing requirement may be met by placing out of Temple's Analytical Reading and Writing through a placement test, by transferring in the equivalent of Temple's Analytical Reading and Writing course, by earning a score of 4 or higher on the AP English: Language & Composition exam, or by placing out of English Composition at a previous institution:
 - Transfer students who completed an English placement test at their previous institution and tested out of their previous institution's English Composition or comparable requirement can be waived from the Analytical Reading and Writing requirement if they have documentation of their placement and have successfully completed a higher-level English/Writing course. Acceptable documentation includes an official letter from the university's registrar, advising unit, a faculty member, or other appropriate university official. If approved, the student's advisor will post a DARS exception after matriculation.
- The Global/World Society requirement (GG) also may be met by participating in an approved Study Abroad program that is a minimum of 28 days in length in-country. Transfer students who completed a study abroad at their previous institution should check with their advisor for additional

information. Foreign National students admitted Fall 2014 or later, whose permanent residence is outside of US boundaries are also eligible for a GG waiver.

- All students are required to take two Writing Intensive courses at Temple University in addition to completing the GenEd requirements. Writing Intensive courses in transfer cannot be used to fulfill this school/college requirement. The two Writing Intensive courses will be designated by the student's major.
- Credit for Prior Learning (completed prior to matriculation at Temple) such as Advanced Placement (AP), International Baccalaureate (IB), College Level Examination Program (CLEP), and DANES Subject Standardized Tests (DSST) will satisfy General Education requirements according to current practice, i.e. using course attributes/core equivalents.
- All requirements of Temple's schools and colleges and major programs of study remain in force. Students should consult the appropriate sections of the *Bulletin* and their academic advisors about school/college major requirements.

GenEd-to-GenEd, 45+ GenEd, and IB GenEd students must still complete the required number of credits for their baccalaureate degree, using courses in transfer as well as credits completed at Temple.

- A GenEd-to-GenEd student has completed the GenEd Program as stipulated in the agreement. For a list of agreements by institution go to <https://undergradstudies.temple.edu/transfer/agreements>.
 - Students must meet the academic residency requirement that requires students to complete 45 of the last 60 credits be taken at Temple University.
- Students with fewer than 45 transfer credits and have not completed an approved degree at a GenEd-to-GenEd partner institution, complete the full GenEd Program. Refer to <https://undergradstudies.temple.edu/transfer/gened>.
- Students with 45 or more transferable credits and have not completed an approved degree at a GenEd-to-GenEd partner institution, complete the 45+ GenEd Program. Refer to <https://undergradstudies.temple.edu/transfer/gened>.

Eligibility Requirements for 45+ GenEd:

- For students new to Temple: The courses have been taken elsewhere before the student matriculates at Temple.
- For reenrolled students: 45 or more transferable credits have been taken elsewhere since the student's last date of enrollment at Temple and before the date of the student's return to Temple.
- Courses taken at Temple as a non-matriculated student are not counted toward eligibility for 45+ GenEd.
- Courses taken elsewhere by students once they are matriculated at Temple are not counted toward eligibility for 45+ GenEd.
- Credits for prior learning (e.g., AP, IB, CLEP, DSST, etc.) are not counted towards eligibility for 45+ GenEd, if completed after matriculation to Temple.
- Students who have earned the International Baccalaureate (IB) Diploma and meet minimum eligibility requirements complete the IB GenEd Program. For more information go to <https://undergradstudies.temple.edu/transfer/gened>.
 - This program still requires students to complete up to 18-19 credits of the GenEd Program.

Special Programs

Temple University offers credit-bearing certificate programs (p. 33), non-credit programs (p. 35), off-campus/corporate programs (p. 37) and programs with academic credit (p. 37) that are available for all students intending to study at Temple University without having to be enrolled in a degree program.

The academic policies and regulations generally apply to all students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Statements of academic policies and regulations apply to both degree and non-degree undergraduates unless explicitly noted otherwise. In addition to the description below, please refer to the Responsibilities (p. 42), Rights (p. 45) and Academic Policies (p. 1835) sections of this *Bulletin* for further information on particular policies that relate to students in these programs.

Temple University provides a broad administrative framework to present and support a wide range of university offerings not falling within the province of typical undergraduate and graduate degree work on Temple campuses. Registration for credit-bearing courses is administered through the Office of Continuing Studies on the various campuses. Registration for non-credit courses is handled through the Office of Non-Credit and Continuing Education. Students taking non-credit courses at Temple University's Ambler and Center City campuses may register and pay online for non-credit courses through the Office of Non-Credit and Continuing Education web site. The online registration and payment system allows for easy registration and payment for non-credit courses anytime of the day or night through a secure network.

Course offerings under special programs respond to the differing needs of adults seeking additional education. Some offerings are of common interest to all, such as writing and general computer skills. Other courses, tailored for those adults who wish to change their work situation, focus on new skill and knowledge development. Coursework is also designed for adults who wish to maintain their current work position in a profession that requires re-certification to maintain appropriate licenses. Course offerings are also geared to those adults seeking personal enrichment as their primary goal.

The form of programming includes credit certificates, non-credit professional certificates, and non-credit personal enrichment courses. The courses are offered at Temple University Ambler, Temple University Center City, Temple University Harrisburg, and a variety of public and private off-campus sites through the auspices of Office of Off-Campus Programs and Training.

Information about the services offered at each campus is presented below.

Main Campus

The Main Campus Office of Continuing Studies is the university's central office for serving non-degree students. Non-degree students are those who have not been formally admitted to a degree program. The office serves a variety of students, including adults returning to school for undergraduate or graduate courses, professionals updating their skills, qualified students seeking undergraduate admission, students taking courses for personal enrichment, and visiting students planning to transfer Temple credits to their home institution. There is no formal application to enroll as a Continuing Studies student; however, first-time enrollers are required to provide documentation of education completed (high school transcript, GED certificate, college transcripts [minimum 2.00 GPA required], or college diploma). Prior to their enrollment, degree-seeking students may be required to take one or more university placement tests.

Services include:

- individual academic advising
- informal evaluation of academic transcripts
- registration and schedule revisions
- referrals to other university services and programs

First-year, non-degree students may register for a maximum of 11 credits per semester. Second-year, non-degree student registrations are based upon academic progress. However, non-degree seeking students are prohibited from registering via Self Service Banner (SSB) and must register through their Continuing Studies office. All non-degree students must maintain satisfactory academic progress in order to continue taking courses through Continuing Studies. Continuing Studies students must apply for admission by the completion of 30 s.h. Pre-admission counseling, academic advising, registration, and other support services are provided for non-degree students.

Refer to the Academic Policies section of this *Bulletin* for more information on non-degree students (p. 1857).

Ambler

Temple University's Ambler campus offers extensive undergraduate, graduate, and non-credit courses and programs that are available during days, evenings, and weekends. The listing of all offerings is available at <https://ambler.temple.edu/>. Students interested in credit courses or programs should contact the Office of Academic Advising and Student Success at Ambler Campus by phone (267-468-8200) or go to the web site at <https://ambler.temple.edu/campus-resources/advising-and-student-success>. This office coordinates the services for students, as described under Main Campus above. For more information on non-credit offerings and registration, see Non-Credit Programs (p. 35).

Center City

In addition to undergraduate and graduate-level programs and courses, Temple University Center City offers a rich selection of non-credit programs and classes. These include courses for your personal enrichment from Music Prep, courses leading to state licensure in the real estate field from the Real Estate Institute, lively classes on every conceivable subject for retirees provided by members of the Osher Lifelong Learning Institute at Temple University (OLLI), and career development seminars and professional certificate programs which are administered through Temple University Ambler campus. For more information on non-credit programs, refer to Non-Credit Programs (p. 35) and/or visit <https://centercity.temple.edu/>.

Health Sciences Center (HSC)

The Lewis Katz School of Medicine (<https://medicine.temple.edu/>), the Maurice H. Kornberg School of Dentistry (<https://dentistry.temple.edu/>), the School of Pharmacy (<https://pharmacy.temple.edu/>), and the College of Public Health (<https://cph.temple.edu/>) sponsor continuing education activities for their graduates as well as for graduates of other institutions. Many programs meet the requirements of professional accrediting agencies to take refresher courses or seminars in order to keep abreast of changes in the field.

Credit-Bearing Certificate Programs

At Temple University, a certificate is a credit-bearing program of courses leading to a credential that recognizes the student's work in a specialized area of knowledge. An undergraduate certificate may be part of a degree program, or it may stand alone. It is distinct from an academic major or minor and should not be confused with the process of professional certification for teaching and other fields. Certificate programs often focus on the acquisition of specific skills recognized in the job market. They are open to undergraduates in all Temple schools and colleges and majors and are particularly useful to students seeking to document their exposure to fields and disciplines outside of their academic major and minor. Some majors recommend particular certificate programs to their students. Non-degree students should contact the school or college offering a certificate, as some certificates are restricted to degree students. Below is a list of undergraduate certificate programs. For detailed information, contact the school or college.

Certificate of Completion	Department	School
Acting	Theater	School of Theater, Film & Media Arts
American Sign Language	Communication Sciences & Disorders	College of Public Health
Applied Behavior Analysis	Teaching & Learning	College of Education & Human Development

Non-Credit Programs

Temple University offers a wide variety of non-credit and continuing education programs. The Office of Non-Credit and Continuing Education, located at the Ambler campus, provides training and seminars in professional development and personal enrichment topics, as well as computer applications. Courses and certificates are offered at all Temple University campuses. For further information on non-credit programs, visit our online registration system. For campus-specific information, visit the web sites of Temple University Ambler, Temple University Center City and Temple University Harrisburg.

Non-Credit Programs: Professional Development and Continuing Education

Professional development certificates and courses can be completed in many areas, including:

- Project Management
- Editing and Business Writing
- Financial Planning
- Floral Design
- Master Home Gardening & Landscape Design
- Interior Design
- Wedding Planning and Consulting
- Digital Advertising

Real Estate Institute

The Real Estate Institute is the largest professional real estate education program in the tri-state area offering pre-licensure or real estate broker courses, as well as a broad spectrum of elective courses, all taught by state-certified real estate instructors. The Real Estate Institute's courses are fully accredited by the Pennsylvania Real Estate Commission and are intended for those seeking state licensure and/or professional advancement, but not an academic degree. The courses allow you to qualify for the Pennsylvania Salesperson Licensing examination and, together with a three-year apprenticeship and additional courses, for the Pennsylvania Real Estate Brokers examination. All students who successfully complete a course of study are awarded Real Estate educational credits and a Temple Real Estate Institute transcript. For more information, call 215-204-1539 and/or visit the Real Estate Institute web site.

Tyler School of Art & Architecture Professional Development

The Tyler School of Art and Architecture offers continuing education opportunities in art topics, including professional development programs in painting and sculpture, graphic and interactive design and educator workshops. For more information, call 215-777-9010, e-mail tylerpce@temple.edu and/or visit the Tyler School of Art and Architecture Professional Development web site.

Act 48 Programs for Educators

Educators can find high quality continuing education at Temple University to upgrade their knowledge and skills in the classroom and to comply with Pennsylvania's Act 48 requirements for certified educators. Temple offers a variety of Act 48 non-credit courses, conferences and workshops

for educators at flexible times and in various formats. For more information, call 215-204-4866, e-mail destiny1@temple.edu and/or visit the Act 48 Continuing Education web site.

Non-Credit Programs: Personal Enrichment

Personal enrichment certificates and courses are offered in a variety of areas, including:

- Digital Photography
- Arts, Literature and History
- Languages
- Food and Entertainment
- Horticulture
- Healthy Lifestyles and Exercise
- College and Test Prep (SAT, GRE, GMAT, LSAT Review Workshops)

For more information about non-credit courses and programs, or to receive catalogs, call the Office of Non-Credit and Continuing Education at 267-468-8500, e-mail nce@temple.edu and/or visit the Non-Credit Programs web site.

Music Prep

Music Prep offers continuing opportunities for musical growth and enrichment for people of all ages and abilities, from the beginner to the experienced musician. There are programs designed for preschool through high school age students who are considering music as a future career or serious avocation and for adults who wish to develop their musical skills and interests. For more information, call 215-204-1512 and/or visit the Music Prep web site.

Pan-African Studies Community Education Program (PASCEP)

The Pan-African Studies Community Education Program (PASCEP) is a low-cost, non-credit continuing education service of the Office of Community Relations. PASCEP has remained a pillar in the community for over 40 years, and is the most unique community education program in Philadelphia. With over 25 volunteer faculty members, PASCEP offers a multitude of diverse courses, including Introduction to Personal Computers, Credit Education, American Sign Language, GED Preparation, Genealogy Research, Etymology, Sewing, Grant Proposal Writing, Hip Hop, Spanish, and much more. For more information, call 215-204-1993, e-mail pascep@temple.edu and/or visit the PASCEP web site.

Tyler School of Art & Architecture Adult Enrichment Programs and Teen/Pre-College Programs

The Tyler School of Art and Architecture offers a variety of adult enrichment programs, including life-long learning, summer workshops and weekend workshops. Class topics range from digital design to painting to working with clay. Tyler also offers teen and pre-college programs. For more information, call 215-777-9010, e-mail tylerpce@temple.edu and/or visit the Tyler School of Art and Architecture Adult Enrichment Programs and Teen/Pre-College Programs web sites.

Pre-College and Youth Programs

Pre-College

Pre-college programs are an excellent opportunity for high school students to experience what life is really like as a student at Temple University. With programs for grades 9-12, high school students can explore potential majors through non-credit workshops, take undergraduate courses at Temple for college credit, experience residential life on Temple's campus, and network with Temple's faculty and potential future classmates. For more information, call 215-204-2712, e-mail precollege@temple.edu and/or visit the Pre-College programs web site.

Summer Camps

Temple Ambler has been offering Summer Education Camps for more than 25 years at its convenient suburban campus. Camps are available for kids, tweens and teens (between the ages of 8 and 17) during the months of June, July and August. Most camps are one-week, full-day camps that run Monday to Friday from 9 a.m. to 4 p.m., although some shorter and longer camp sessions are also available. The Temple University Ambler Summer Education Camps provide a wonderful opportunity for youths to learn about a specific area of interest, experience a college campus and have lots of fun at the same time. For more information, call 267-468-8500, e-mail nce@temple.edu and/or visit the Summer Education Camps web site.

Institute of Reading Development

Reading is a habit that lasts a lifetime. Our reading programs provide students with an engaging curriculum that improves reading and fosters strong language skills. Reading programs are designed and taught by instructors from the Institute of Reading Development and are offered online. For more information, call 1-800-964-8888 and/or visit the Institute of Reading Development web site.

Lifelong Learning

Osher Lifelong Learning Institute at Temple University Ambler and Temple University Center City

The Osher Lifelong Learning Institute at Temple University (OLLI) is an educational program for people who are retired, near retirement or adults with discretionary time to take daytime classes. The organization provides a lively, no-pressure atmosphere and offers a variety of courses. The Osher Lifelong Learning Institute offers courses at the Ambler and Center City campuses. OLLI provides stimulating classes with great teachers, topics and students. Classes are designed for learners 50 and up.

OLLI instructors are also OLLI members, representing many professions, vocations and life experiences. Classes are held Monday to Friday. OLLI also presents the Friday Forum, featuring speakers with diverse and interesting backgrounds. Members may sit in on one undergraduate course each semester, subject to university policy and instructor approval. All classes are held at Temple's Center City campus—convenient for public transportation. For more information, call 215-204-1505, e-mail olli@temple.edu and/or visit the OLLI web site.

Senior Scholars at Temple University

Temple Senior Scholars invites alumni and their spouses or partners age 50 and older to return to Temple's vibrant educational community and sit in on credit classes. For hundreds of Temple alumni each year, the Senior Scholars program means no tests and no grades, just the joy of learning with Temple's diverse students and acclaimed faculty. Choose from a variety of courses in subjects as diverse as American studies and anthropology, history and horticulture, political science and theater. Classes are offered weekdays and evenings at Main Campus, Center City and Ambler. For more information call 215-204-2712, e-mail seniorscholars@temple.edu and/or visit the Senior Scholars web site.

Off-Campus/Corporate Programs

Temple University has been bringing its rich educational resources to off-campus sites for over 60 years. Through the Office of Off-campus Programs and Training, Temple University provides both off-campus and customized corporate programs throughout the Philadelphia region. The Office of Off-campus Programs and Training offers a wide array of credit courses, certificate and full degree programs.

This office develops and customizes training programs designed to be taught on site at the client's workplace while assuring the utmost quality in instruction and customer service. The staff of Off-campus Programs and Training serves as the liaison between the university faculty/trainers and its external customers. They have developed strong affiliations with businesses, school districts, units of government, and non-profit associations in the area, building thriving educational partnerships. For more information, call 215-204-5018 or e-mail customtraining@temple.edu.

Programs with Academic Credit

Temple University offers a variety of special programs with academic credit. For more details, contact the school, college, or campus where the program is offered.

Visiting Students

Temple University welcomes students from other colleges and universities who wish to enroll in courses on any of our campuses. All students must provide a transcript of their previous academic work and must have earned at least a 2.00 cumulative GPA. Students must demonstrate that they have received permission from their home institution, listing the specific Temple courses that have been approved for transfer. If the courses have prerequisites, students must provide proof of having taken and passed them. Some courses may also require special authorization from instructors or departments at Temple (e.g. business courses numbered 2000 and above).

Students may request enrollment as a Visiting Student through the Continuing Studies web site. Further information is available at Summer Programs Visiting Students.

Credit Transfer to Your Home Institution

In order to facilitate the transfer of credits, students should request that an academic transcript be sent from Temple to their home institution. Instructions for requesting a transcript can be found at Temple's Office of the University Registrar web site. The transcript will not be sent out automatically. For further information, please visit the Office of the University Registrar web site, call 215-204-1131, or visit in person on the second floor, Conwell Hall, Broad Street and Montgomery Avenue, on the Main Campus. You may also visit the registration office at your campus of choice.

Undergraduate Non-Degree Students

Students who are not currently enrolled at another institution may be permitted to register for some courses as non-degree students. To enroll in undergraduate courses they must have earned a high school diploma or a G.E.D. certificate. Students who have attended another college or university must provide a transcript of their previous academic work and must have earned at least a 2.00 cumulative GPA. With some exceptions, these students are required to take university placement assessments before they can register. However, meeting these minimum requirements does not

guarantee enrollment as a non-degree student. For more information, and to speak with an academic advisor, please contact the Main Campus Office of Continuing Studies or the office of the campus you wish to attend.

High School Students

High school students who will be entering their senior year may be eligible to register for college-level courses. Before they can register, they must secure and provide written authorization from their guidance counselor or high school principal, specifying the course(s) the student is authorized to take.

Summer Sessions

Temple University welcomes students from other colleges and universities, international students, as well as our own students, to enroll in a summer course at any one of our several campuses. We offer credit, non-credit, day and evening courses at our campuses. We also have several Study Abroad Programs in France, Germany, Italy, Spain and the United Kingdom.

Registration

Office of the University Registrar
200 Conwell Hall
1801 North Broad Street
Philadelphia, PA 19122

215-204-1131

Web: registrar.temple.edu

General Information

Advising is required for students registering at Temple for the first time and is strongly recommended for all students before registering through Self-Service Banner (SSB). Students should contact their school, college, or department advisors for appointments or information. Generally, advisors and students review options and requirements, select courses, and complete and sign a registration form when necessary. For further information on academic advising, please see Advising (p. 62) under the Academic Support section of the *Bulletin*. Detailed course information (day, time, location, instructor) is available on the Class Schedule.

Registration Policies

Registration for courses is not optional, and students must not attend courses for which they are not registered. Once a student registers for a course—or is registered by an advisor at the student's request—the student remains financially obligated for the course unless and until he or she drops the course by the prescribed deadlines for dropping and adding courses. Prior to registering for the first time each semester, students are required to accept Temple University's Financial Responsibility Agreement, which outlines the financial terms and conditions associated with course registration.

Students may drop courses and otherwise modify their registrations in Self-Service Banner (SSB) or by working with an academic advisor. Please see the academic calendar for add/drop and withdrawal deadlines for each semester and summer session.

Once registered, students must pay tuition and fees according to the Bursar's Office billing schedule. Failure to satisfy billing and financial obligations may result in withholding of official transcripts and diplomas, denial of the right to register for future sessions, and the assessment of late fees and collection costs.

Students who are not planning to attend the semester must drop their course registration. Students who do not drop classes by the end of the official drop/add period (see Academic Calendar for specific dates) remain financially obligated for the amount due. Instructors are advised to issue letter grades for students who have not been attending but are on their roster of registered students.

Students who drop classes by the end of the published drop period of a semester or summer session will have their courses deleted. This will relieve the student of academic and financial responsibilities associated with the course.

Students who withdraw from classes after the published drop period are responsible for full payment of all tuition and fees, along with any payment plan fees, and late payment charges. These courses will be recorded on the transcript with the notation of "W," indicating that the student withdrew. Unpaid tuition balances may be referred for collection, and students may be held liable for paying all associated collection costs and/or legal fees.

Disclaimer: Tuition and fees are set annually each summer, regardless of the method of instruction. Temple University expressly reserves the right to deliver some or all instruction remotely at its discretion. Tuition, the university services fee and certain other fees are required to be paid in full and will not be refunded regardless of the method of instruction, the inability to access university-maintained facilities, or any disruption to or cancellation of classes, activities, events, services or programs.

Continuing Student Registration

Continuing (or priority) student registration is the period in which all currently enrolled, degree-seeking students may register. Each semester, currently enrolled students are sent an e-mail containing the registration schedule. This schedule is also available on the Office of the University Registrar web site under "Course Registration." In general, eligibility for priority registration is based upon the number of earned credit hours; however, active duty US servicemembers and veterans are eligible to register on the first day of priority registration, regardless of the number of earned credits.

An installment tuition payment plan is available for students who register for the fall or spring semesters during these periods. See the Tuition and Fees (p. 1800) section of the *Bulletin* for payment information.

Late Registration

Any student registering for the first time after the start of the term will be assessed a \$100.00 late registration fee.

Schedule Revision (Add/Drop)

Students may revise their schedules at any time after they have registered, through the add/drop deadlines. Students who cannot register online but wish to make changes in their course schedules must do so with the assistance of their academic advisor. An approval from the instructor may be required if adding a course after it has begun. Visit the Office of the University Registrar web site for more information.

Students may not add or drop courses after the published deadline. Dropping the course results in the deletion of the class from the student's roster. It also relieves the student of the financial liability associated with the deleted course. If a refund is due, the provisions of the refund policy will apply.

Registration Waitlisting

Students may choose to be placed on a waitlist for closed sections of select courses.

Important considerations:

- Student placement on the waitlist will be on a first-come, first-served basis. Special circumstances may be considered by academic advisors or program coordinators in each school/college.
- Students are not automatically registered for the section but will be notified if a seat becomes available.
- Notified students must act by the action deadline, or they will be dropped from the waitlist.
- Students must meet the course requirements, such as prerequisites, co-requisites, etc.
- Students cannot waitlist for a section of a course while already registered or waitlisted for a different section of the same course.
- Waitlisting ends prior to the start of the classes.

Additional Registration Information

Veterans

A *covered individual* is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits.

Newly admitted or currently enrolled students seeking to use their veteran education benefits towards tuition and fees for the first time should begin by contacting the VA at 1-888-442-4551 or visit VA.GOV for eligibility information.

Prior to enrolling at Temple University, students using Tuition Assistance should discuss the educational plan with their Educational Services Officer (ESO) or the counselor within the military service.

Priority Registration (PA Act 46)

Pennsylvania Act 46 of 2014 requires public institutions of higher education in Pennsylvania to provide veteran students, as defined in the Act, with preference in course scheduling. Active duty US servicemembers and veterans are eligible to register on the first day of priority registration, regardless of the number of earned credits.

Non-compliance may be reported to the Pennsylvania Department of Education by submitting the Higher Education Student Complaint form found at www.education.pa.gov.

Eligible students will receive an email with their priority registration date, time, and a special registration PIN. Eligible students who are on Academic Warning or Probation must meet with an academic advisor prior to registration to have the PIN updated to allow registration on the first day of priority registration.

Residency Status (PA Act 11)

Pennsylvania Act 11 mandates Temple University to charge the in-state tuition rate to out-of-state students living in Pennsylvania and using their GI Bill® benefits under chapters 30, 31, 33, 35 and sections 1606 and 1607. Eligible students will have their student account adjusted to reflect the in-state tuition rate. Temple will also review the financial aid package and make any necessary adjustments based on the in-state tuition rate.

Note: GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government web site at <https://www.benefits.va.gov/gibill/>.

Veteran Education Benefit Certification Process

Servicemembers or veterans may enroll as full-time or part-time students; however, education benefits are based on enrollment status. For newly admitted students or first-time using education benefits, please follow these steps to declare benefit use via GIBenefits in TUportal:

1. Obtain the Certificate of Eligibility* or eBenefits summary* (one-time only)
2. Access GIBenefits in TUportal
3. Submit Servicemember/Dependent information (one-time only)

4. Register for courses
5. Declare to use your benefits for the registered term
6. Upload your certificate of eligibility or eBenefits information (one-time only)

For students receiving Chapter 31/Vocational Rehabilitation benefits, Form VA-1905 will be sent to the Office of the University Registrar by the VA counselor in lieu of Certificate of Eligibility.

Information regarding additional services available for servicemembers and veterans can be found on the Military and Veteran Services Center web site.

Temple University will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrows additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

International Students

If a student is on a non-immigrant visa, enrollment for a minimum of 12 credits each semester is required to meet immigration regulations. Non-resident tuition charges are assessed.

Continuing Studies Students

(Non-degree-seeking students attending Temple prior to formal admission into a degree program)

First-year, non-degree-seeking students may register for a maximum of 11 credits per semester. Second-year, non-degree-seeking student registrations are based upon academic progress. However, undergraduate non-degree-seeking students are prohibited from registering via Self-Service Banner and must register through their Continuing Studies office. **Visit the Continuing Studies web site for more information.**

Student Responsibilities

Every registered student agrees to abide by an overall set of values, principles and regulations mandated by the university. In order for a student to remain in good standing, it is imperative that each student assumes responsibilities throughout his/her enrollment at Temple. Students also have a number of rights (p. 45) which protect their interests. This section details these important responsibilities.

Academic Honesty

The Temple University community believes strongly in academic honesty and integrity. Essential to intellectual growth and the university's core educational mission is the development of independent thought and respect for the thoughts of others. Academic honesty fosters this independence and respect. Academic dishonesty undermines the university's mission and purpose and devalues the work of all members of the Temple community. Every member of the university community is responsible for upholding the highest standards of academic honesty at all times. Students, as members of the community, are responsible for adhering to the principles of academic honesty and integrity.

Plagiarism includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgment. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling or distribution of term papers or other academic materials. Normally, all work done for courses—papers, examinations, homework exercises, laboratory reports, oral presentations—is expected to be the individual effort of the student presenting the work. Any assistance must be reported to the instructor. If the work has entailed consulting other resources—journals, books, or other media—these resources must be cited in a manner appropriate to the course. It is the instructor's responsibility to indicate the appropriate manner of citation. Everything used from other sources—suggestions for organization of ideas, ideas themselves, or actual language—must be cited. Failure to cite borrowed material constitutes plagiarism. Undocumented use of materials from the World Wide Web is plagiarism.

Cheating includes, but is not limited to,

1. use of any unauthorized assistance in taking quizzes, tests, or examinations;
2. use of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments;
3. the acquisition, without permission, of tests or other academic material belonging to a member of the university faculty or staff;
4. engaging in any behavior specifically prohibited by a faculty member in the course syllabus, assignment, or class discussion; or
5. otherwise engaging in behavior that gives the student an unfair academic advantage including, but not limited to, fabrication of data or sources, resubmitting work already submitted for another academic requirement without prior authorization, or other similar behavior.

Refer to the Student Conduct Code (policy # 03.70.12) for more specific definitions of cheating and plagiarism.

The penalty for academic dishonesty can vary from receiving a reprimand and a failing grade for a particular assignment, to a failing grade in the course, to suspension or expulsion from the university. The penalty varies with the nature of the offense, the individual instructor, the department, the school or college, and the Office of Student Conduct and Community Standards.

Students who believe that they have been unfairly accused may appeal through the school or college's academic grievance procedure. For more information see Grievances (p. 47).

Attendance

Enrollment in a course presupposes intention to attend regularly. Attendance requirements should be announced by the instructor at the beginning of the course. The student who is absent for any reason is responsible for work missed. If a pattern of excessive absences develops, the instructor may report this fact to the student's advisor through the department in which the student is enrolled.

The student should understand that excessive absences may, at the option of the instructor, jeopardize the grade and/or continuance in the course. Although attendance is basically a matter between the student and the instructor, either may request the counsel of the advisor or the Office of the Dean in special cases.

Students should consult the policies and regulations of their own school or college for any further specifications of attendance policy.

Clearing Holds

A hold is an action placed on a student's record. Holds may affect a student's ability to register for courses, to apply for graduation, or to receive transcript services or degree audit reports.

Students may receive holds on their records for financial, academic, or disciplinary reasons. Students are obligated to resolve holds as quickly as possible, working with their academic advising office, student financial services, or other offices, as appropriate. Academic holds may be caused by failure to declare a major by the appropriate time, low GPA, or failure to make academic progress. Students receiving a "See College Dean" hold should meet with their academic advisor as soon as possible.

Student Conduct Code

The Temple University *Student Conduct Code* can be viewed at <https://secretary.temple.edu/sites/secretary/files/policies/03.70.12.pdf>.

Temple University has the responsibility to formulate and enforce rules of conduct which are necessary for the furtherance of its educational goals and essential activities. In particular, the university has an obligation to protect itself from any acts which tend to impede, obstruct, or threaten its normal operations. While this authority is inherent, the university attempts to delineate its expectations as clearly as possible and publish its regulations. Students, both as individuals and as members of student organizations, are responsible for apprising themselves of, and complying with, all applicable, existing regulations in the *Undergraduate Bulletin* and any regulations that may be subsequently promulgated through appropriate publications of the university community. Copies of *Student Conduct Code* may be obtained from the Office of the Dean of Students.

The Student Conduct Administrator is responsible for administering the Student Conduct Code. Violations of the university's Code, including, among other things, theft, underage consumption of alcohol, disorderly conduct, plagiarism, sexual assault, dating or domestic violence, stalking and possession of a weapon, can result in a student being brought before a Student Conduct Board. A finding of responsibility may result in, among other sanctions, a fine, suspension, and/or permanent expulsion from the university. A disciplinary hold is placed on the student's record if sanctions are unfulfilled. The hold prevents students from registering for courses, receiving their transcript or graduating.

Financial Obligation to the University

Being a Temple student means incurring a financial obligation to the university. An important part of taking responsibility for your education is to be aware of tuition and fee charges, payment and financial aid procedures, and all relevant deadlines, and to make sure that forms are submitted and balances paid on time. Even if someone else is paying your balance, you are responsible for remaining in good financial standing with the university. Failure to satisfy financial obligations, when due, can result in denial of the right to register for future sessions, delay in graduation, and withholding of official transcripts and diplomas after graduation. Unpaid balances are subject to referral to outside collection agencies.

Prior to registering for the first time each semester, students are required to accept Temple University's Financial Responsibility Agreement, which outlines the financial terms and conditions associated with course registration.

Your registration for courses is not final until all applicable tuition and fees are paid through the Bursar's Office. For information on registration, its financial aspects, and the impact of registration changes on your financial obligation to the university, please see Registration (p. 39).

For current tuition rates and fees, see Tuition and Fees (p. 1800) and the Bursar's Office. For information and instructions concerning your student account, online tuition payments and answers to frequently asked questions, please visit the Bursar's Office.

For information about Financial Aid, Financial Aid requirements for satisfactory academic progress, and the impact of registration changes on your eligibility for aid, see Financial Aid (p. 1809) and Student Financial Services.

For information on campus housing and meal plans, see Student Services (p. 70) and the Office of University Housing and Residential Life.

See your school's or college's policies on graduation procedures for information on the impact of unmet financial obligations on clearance for graduation.

Health and Safety Issues

Alcohol Policy

In accordance with Pennsylvania law, no individual under the age of 21 may possess or consume alcohol on university property. Student organizations may not serve alcohol at campus events. The use of alcohol in the residence halls and university-owned housing is covered in the Proprietary Policies developed by the Office of University Housing and in the Student Conduct Code. Please also see the university's Student Drug and Alcohol Policy, Student Conduct Code and the Rights, Resources & Responsibilities Guide.

Drug Policy

The unlawful manufacture, distribution, dispensation, possession or use of controlled substances in any facility or work site of Temple University is strictly prohibited. Please see the university's Student Drug and Alcohol Policy.

Immunizations

Temple University requires all full time students to receive the Meningococcal (meningitis) vaccine. The required vaccine is MPSV4 (brand name is Menomune) or MCV4 (brand names are Menactra, Menveo or MenHibrix).

In addition, all newly enrolled or re-enrolled students born after 1956 are required by Temple University to show proof of two vaccinations for Measles, Mumps and Rubella (usually given as MMR). Positive Laboratory titer results are acceptable if proof of vaccination is not provided.

All newly enrolled or re-enrolled students should have received the Tetanus/Diphtheria/Pertussis (TDaP) vaccination within 10 years or TDaP older than 10 years and Diphtheria Tetanus (DT) within 10 years.

All newly enrolled or re-enrolled students are required to receive two doses of Varicella (chicken pox) vaccine. Positive Laboratory titer results are acceptable if proof of vaccination is not provided.

Other immunizations that are strongly recommended (but not required) for all Temple students are Hepatitis B vaccine series, Meningococcal B vaccine series, Human Papillomavirus (HPV) series, Hepatitis A vaccine series, Influenza vaccine and COVID-19 vaccine. Note that students working in healthcare settings are required to receive the COVID-19 vaccination.

Students from countries with a high rate of tuberculosis must be screened for the disease. These students will be informed of how to complete this screening. Prior BCG vaccination does not exempt students from this evaluation.

Detailed information about immunizations is available at Student Health Services.

Medical Fees and Insurance

Students are responsible for any medical fees incurred outside of Student Health Services, including those incurred at Temple University Hospital. Group medical insurance is offered at the beginning of each semester through the Benefits Office. Full-time students may enroll for health coverage in the months of September (effective September 1) or February (effective March 1). Students are urged to carry this insurance or a comparable policy. Students who are insured should keep in their possession the receipt of the above group policies or identification cards for other policies. All new and continuing international students in both J-1 and F-1 status are required to carry health insurance that meets certain minimum standards determined by the United States Information Agency (USIA). These students will be enrolled in the Low Option of Blue Cross/Blue Shield Plan, as well as the International Group Services Plan. More information is available on the Benefits web site and by calling 215-204-1321.

International Students

Temple University requires all new and continuing international students in Nonimmigrant Student (both F-1 and J-1) status to carry health insurance that meets certain minimum standards determined by the United States Department of State. Students may purchase before arriving at the university or purchase health insurance upon arrival through the university. For further information, please contact the university's Benefits Office at 215-926-2270, e-mail StudentInsurance@temple.edu, or visit careers.temple.edu/hr-resources/our-functional-areas/benefits-administration/health-insurance-plans/student-health-0.

In addition, some international students may be required to demonstrate that they are free of active tuberculosis by submitting to Student Health Services a Tuberculosis Screening Record which has been certified by a licensed physician. International students may meet this requirement upon arrival at Temple University by taking a PPD test at Student Health Services.

All international students in Nonimmigrant Student (F-1 and J-1) status must maintain their nonimmigrant status insofar as regulations of the United States Citizenship and Immigration Services (USCIS) and the United States Department of State (DOS) are concerned. In general, students in this status must complete a full-time course load each academic term while they remain in the United States and must not accept unauthorized on-campus or off-campus employment. For detailed information, please see iss.temple.edu/students/current-students.

Eligibility for employment for individuals in Nonimmigrant Student (F-1 and J-1) status is based on regulations of the US Citizenship and Immigration Services and the Department of State. For detailed information, please see iss.temple.edu/students/current-students/student-employment-options.

A mandatory orientation session is held for new international students at the beginning of each academic term. For more information, please see the International Student and Scholar Services web site at iss.temple.edu/international-student-affairs/pre-arrival-new-students and the Office of New Student and Family Programs web site at <https://orientation.temple.edu/>.

For more information about maintaining Nonimmigrant Student (F-1 and J-1) status, please see iss.temple.edu/.

Registration

Students must be appropriately registered for courses to receive credits and grades. Students not registered will not receive a grade or credit for a course. Go to Self-Service Banner in the TUportal to confirm your billing and registration status. If you add or drop a course, or revise your class schedule, check Self-Service Banner to make sure that your registration record is accurate. Be warned, if you are registered for a course but don't attend, you will be held financially responsible and receive a grade.

Temple E-mail Accounts

All students are required to obtain a Temple e-mail address and follow guidelines for university use of e-mail; the policy establishes your Temple e-mail account as an approved channel of communication for sending you official university notifications and important information. Visit <https://accounts.temple.edu/> in order to activate your account.

Student Rights

Student and Faculty Academic Rights and Responsibilities

Temple University students who believe that instructors are introducing extraneous material into class discussions or that their grades are being affected by their opinions or views that are unrelated to a course's subject matter can file a complaint under the university's policy on academic rights and responsibilities (Temple Policy 03.70.02).

The policy encourages students to first discuss their concerns with their instructor. If a student is uncomfortable doing so, or if discussions with the instructor do not resolve the student's concerns, an informal complaint can be made to the Student Ombudsperson for the student's school or college. Unresolved complaints may be referred to the dean for handling in accordance with the school or college's established grievance procedure. Final appeals will be determined by the Provost.

Course Syllabus

Instructors are required to supply a detailed syllabus explaining course rules and expectations for courses in which you are enrolled. The content requirements for course syllabi are enumerated in Temple Policy 02.78.13.

Student Feedback Form (SFF)

Each course (with few exceptions) is required to employ a standard form for student evaluation of courses and teaching. Please fill out the Student Feedback Form thoughtfully at the end of your course. (Temple Policy 02.78.14)

FERPA/Privacy Guidelines

As is required by the Family Educational Rights and Privacy Act (FERPA) of 1974, with certain exceptions, generally Temple University cannot disclose a student's education records without the written consent of a student or without proof by a parent that the student is dependent on his/her parents for federal income tax purposes.

FERPA provides the following rights for students and for the parents of dependent students, as described above, attending Temple University:

- The right of a student, with minor limitations, to inspect and review his or her education records;
- The right to request amendment of a student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights;
- The right, with certain exceptions, to consent to disclosures of personally identifiable information contained in the student's education records;
- The right to withhold public disclosure of any or all items of so-called "Directory Information" by written notification to the Office of the Dean of Students within two weeks after publication of this notice. Under current university policy, the item "Directory Information" includes a student's name, street address, e-mail address, confirmation of enrollment status (full-time/part-time), dates of attendance, degree received, awards received (e.g., Dean's List), major field of study, participation in officially-recognized activities and sports, and weight and height of members of athletic teams.
- The right to file a complaint with the United States Department of Education concerning the alleged failure of Temple University to comply with the requirements of FERPA and of the implementing regulations.

The procedures for exercising the above rights are explained in the Policy Regarding Confidentiality of Student Records (Temple Policy 03.20.11), copies of which are available in the Office of the Dean of Students. Included in this policy is a description of the types and locations of educational records maintained by the university.

If you or your parents' primary or home language is not English, upon your request, reasonable efforts will be made to provide you with a translated copy of this "Annual Notice," as well as with "Temple University's Guidelines Pertaining to Confidentiality of Student Records."

Please note that, in compliance with a 1997 federal statute designed to advance military recruiting, Temple may release dates of birth to the military unless the student notifies Temple that he or she wishes this information withheld.

FERPA Waiver

A student may consent to the release of information from education records to parents, guardians or other appropriate persons. The students may provide the university with their consent by completing the FERPA waiver online via TUportal. Once logged into TUportal, click on the "Self-Service Banner" link, then click the "Student" link, and then the "FERPA Contacts" link. After reading the informational text, click the "New Contact" link and enter the requested information before clicking the "Submit Changes" link.

Americans with Disabilities Act (ADA)

Under the Americans with Disabilities Act (ADA), Section 504 of The Rehabilitation Act of 1973, and Section 508 of the Rehabilitation Act of 1998, Temple University strives to make programs, activities and services accessible for persons with disabilities. Disability Resources and Services (DRS) is

the department that facilitates access for students with disabilities at the university. Please see the Student Services (p. 70) section of the *Bulletin* for information on Disability Resources and Services.

Protection from Discrimination and Harassment

Equal Opportunity

Temple University is committed to a policy of equal opportunity for all in every aspect of its operations. The university has pledged not to discriminate on the basis of individuals' protected characteristics or statuses: age, color, disability, marital status, national or ethnic origin, race, religion, sex (including pregnancy), sexual orientation and gender identity, veteran status and genetic information.

Temple University's equal opportunity/affirmative action program has these inclusive objectives: To support the admission and successful participation of disadvantaged students, students with disabilities, and those for whom English is a second language; and to employ and advance in employment qualified women, minorities, individuals with disabilities, Armed Forces service medal veterans, disabled veterans, recently-separated veterans, and other protected veterans.

Temple University's equal opportunity/affirmative action program complies with federal regulations. For more information or to review Temple's Affirmative Action Program, contact the Office of Equal Opportunity Compliance.

Discrimination and Harassment

Students or employees who think they are being discriminated against or harassed because of a protected characteristic or status should contact the Office of Equal Opportunity Compliance. It is this office's responsibility to help the student or employee file a complaint through the appropriate grievance procedures and to investigate complaints of discrimination and harassment.

Complaint Resolution Procedures

Persons who feel they have been victims of discrimination or harassment may make an informal complaint to any Equal Opportunity (EO) Ombudsperson or to the Office of Equal Opportunity Compliance. For a list of the names of the EO Ombudspersons designated in a specific school, college, or administrative unit, contact the Dean's Office or visit the EO Ombudspersons web page, which includes a list of the current EO Ombudspersons.

Students, faculty members, and staff members may bring a formal administrative complaint of discrimination or harassment by filing a complaint directly with the university's Office of Equal Opportunity Compliance.

Title IX Coordinator

Andrea Caporale Seiss
andrea.caporale@temple.edu
215-204-3283

Sexual Misconduct

Temple University is committed to providing a learning and working environment that emphasizes the dignity and worth of every member of its community, free from discriminatory conduct. Sexual harassment in any form or context is contrary to this commitment and will not be tolerated. Sexual harassment subverts the mission and the work of the university and can threaten the career, educational experience, and well-being of students, faculty, and staff.

The university recognizes that sexual harassment includes harassment based on gender, sexual orientation, gender identity, or gender expression and may occur regardless of the formal position or status of each person involved. Sexual harassment is especially offensive, however, when it occurs in relationships between teacher and student or between supervisor and subordinate. In those situations, sexual harassment exploits unfairly the power inherent in the position of the faculty member or supervisor.

Sexual harassment also constitutes a form of sex discrimination that is illegal under Title VII of the Civil Rights Act of 1964, Title IX of the Elementary/Secondary Education Amendments Act of 1972, as amended, and state law. The university recognizes that sexual assault, domestic violence, dating violence, and stalking may also be considered sexual harassment.

University Resources and Complaint Resolution Procedures

Procedures for reporting a complaint of sexual assault are set out in the university policy Preventing and Addressing Sexual Misconduct. This policy, on-campus and community resources for those affected by sexual misconduct, and the university's sexual misconduct education and prevention programs can be viewed at the Title IX web page.

Grievances

Title IX of the Elementary/Secondary Education Amendments Act of 1972 requires that each college or university establish due process for the resolution of academic grievances. Undergraduate students enrolled at Temple University have the right to appeal any academic or non-academic matter in which they feel they have been treated unfairly.

While each school and college at Temple University has established and adheres to its own grievance procedure, all have in common the following steps:

1. Students attempt resolution through discussion with the instructor.
2. Failing agreement, students present appeals to the chair of the department, specifying the nature of the grievance, the result of the previous discussion, and the resolution sought.
3. Failing agreement at the department chair level, students may appeal to the Office of the Dean of the College.
4. When appeals warrant review beyond the school or college, students, faculty members, or the dean's office may appeal to the Vice Provost for Undergraduate Studies.

Details that may vary from school to school include the involvement of a student-ombudsperson; the constitution of grievance hearing committees, which may be a part of either step two or three; and time limits, both for students' filing and for the administrative response.

Students should be advised that filing a formal grievance, that is, beyond the level of the instructor, is serious and should be avoided until all informal methods of adjudication have been used.

For further information on academic grievance procedures, students should inquire in their dean's office or with an advisor or the student-ombudsperson in the relevant school. For non-academic grievances, further information is available in the Dean of Students' Office, 215-204-7188 or the Dean of Students web site. (Temple Policy 03.70.12)

Instructor Office Hours

Full-time faculty are required to hold a minimum of three office hours per week and should schedule one hour immediately before or after one of the scheduled class meeting times for each course. Adjunct instructors are required to schedule one office hour per week for each class they teach and should schedule that hour either immediately before or after one of the scheduled class meeting times for that course. Make it a point to talk with your instructors about your academic work and progress. (Temple Policy 02.78.12)

Smoking and Tobacco Use Policy

Temple University is committed to providing a tobacco-free environment for the entire Temple community. All U.S. university properties are designated as tobacco-free, including the use of all combustible tobacco, electronic smoking devices and smokeless tobacco products, as defined in policy 04.62.11. In addition, all indoor and outdoor university-sponsored activities taking place in facilities not owned or operated by Temple University will be tobacco-free in those areas under the university's control. This policy will be enforced according to established university policies and procedures.

Student Services Office Hours

All Temple University offices directly serving students will maintain uniform business hours (8:30 a.m. to 5:00 p.m.). (Temple Policy 04.31.11)

Academic Opportunities

Experiential Learning and Internships

Internships give students the opportunity to capitalize on what they are learning in the classroom and apply it in a work setting. Internships help students to build and enhance their skills, provide practical experience so often sought by employers, and offer excellent opportunities to establish contacts in their career field. Professional internships are available both on- and off-campus, and may be paid, unpaid and completed for academic credit in many majors. Internships for all academic majors are posted in Handshake, the university-wide internship and professional job database. To access Handshake, go to <https://temple.joinhandshake.com/login>. To obtain information about receiving academic credit for an internship, students should contact their respective school or college.

Temple University's Office of Community Affairs and Engagement is dedicated to providing students with the resources and guidance necessary to immerse themselves in action for positive social change. Through our "Volunteering at Temple" program we work with staff and students to establish strong relationships within and beyond the Temple campus through community service. The office partners very closely with the Temple University Community Service Association and other student organizations to plan and implement short- and long-term opportunities primarily in North Philadelphia where Temple's Main Campus is located. The office also hosts "Scouting at Temple" to connect volunteers with the Boy Scouts and Girls Scouts organizations for engagement. For more information, contact Andrea Swan at aswan@temple.edu or at 215-204-7409.

University Seminar Series

First-Year (Freshman) Student Seminars

First-Year (Freshman) Student Seminars are academic courses designed to support student learning and development in the critical first semester of college. UNVS 1001 can be taken as part of a Learning Community or as a stand-alone course. College-specific seminars are offered by the College of Liberal Arts, College of Science and Technology, the LeW Klein College of Media and Communication, and the Center for the Performing and Cinematic Arts.

UNVS 1001 is a 1-credit course that introduces first-year students to the opportunities and rigors of higher education, as well as to the skills needed to use academic resources successfully in college. The topics covered in the seminar help first-year students articulate and reach their academic goals.

UNVS 1002 is a 1-credit course that introduces first-year students to the opportunities to discover major interests through applied learning and other career-oriented experiences. The course exposes students to career paths and encourages major exploration through discussions with faculty, informational interviews, readings, and opportunities to practice skills needed to be a more effective student.

UNVS 1003 is a 3-credit course that includes instruction in all four language skills (reading, writing, speaking and listening). It also focuses on additional academic skills and strategies necessary for students to succeed in undergraduate courses. Emphasis will be on critical thinking and independent research along with the introduction to technologies that support course requirements.

UNVS 1006 is a 1-credit course that provides students instruction in critical thinking skills. Through the study of historical and contemporary learning theories and research-based cognitive strategies, students will be able to meaningfully reflect upon their learning and have an opportunity to develop and implement techniques to improve their success.

UNVS 1007 is a 2-credit course that introduces first-year students, who are also Cecil B. Moore scholarship recipients, to resources and strategies that contribute to a successful transition into college. The course is designed to develop academic skills and establish a supportive campus network. This course allows students to reflect on their academic and personal experiences and practice new skills to promote student success.

Sophomore Seminar

UNVS 2001 is a 1-credit academic course that provides sophomores opportunities to work on professional planning and development. Topics will include individual strengths exploration, academic majors, potential career paths, internship preparation, research opportunities, campus involvement, graduate school preparation, and career transition preparation.

Transfer Seminar

UNVS 2002 is a 1-credit academic course that introduces new transfer students to the opportunities and resources at Temple University. The course is designed to assist students in their transition as well as assist in preparing them for their future career/educational plans.

Global Citizenship Seminar

UNVS 2003 is a 1-credit academic course that assists students in their development of global perspectives and competencies that are important for successful navigation of the world. This course explores topics and themes related to helping students prepare to move forward as global citizens.

Junior Seminar

UNVS 3001 is a 1-credit academic course that provides junior-level students with an opportunity to work on pre-professional planning and development. It will focus specifically on preparation for post-graduate educational opportunities and entrance exams for graduate and professional programs.

Peer Mentor Development Seminar

UNVS 3002 is a variable credit course (0 to 1 credit) that introduces students to content and communication skills identified as integral to serving as a peer mentor in the college setting. Through this course, students become proficient guides to Temple and community resources, well-versed in college and academic success strategies, and equipped with effective interpersonal communication skills.

Student Staff Development Seminar

UNVS 3003 is a variable credit course (0 to 1 credit) that introduces students to leadership models and theory to prepare them to serve as leaders in their Student Staff roles in University Housing & Residential Life and beyond. In addition, this seminar encourages students to explore key competencies connected to Student Staff leadership roles (e.g. supervision, crisis management, confrontation/mediation, critical thinking, administrative resources, professional development, inclusivity, and student and community engagement).

Learning Communities

A Learning Community consists of two or more linked courses designed to provide students with a more integrated and meaningful learning experience. Learning Communities foster an intellectual environment where learning can flourish and help smooth the transition to college by providing an opportunity for students to form bonds with fellow first-semester students who are in these same classes.

Learning Communities are designed primarily for the special student populations. During New Student Orientation, an academic advisor will help students select the learning communities which best meet their academic interests and needs.

Living Learning Communities (LLCs)

LLCs enhance students' academic, personal, and professional growth by offering dedicated residential communities ranging from thematic to academic interests. LLCs bring together a challenging curriculum with co-curricular experiences that expand learning beyond the classroom and integrate it with daily campus life. For more information go to housing.temple.edu/.

Online Learning

Andrew Lessman
Office of Digital Education
Atlantic Bell Technology Center, Suite 403
215-204-3391
online.temple.edu

Temple University's Online Learning Program is designed to give students a rigorous, high-quality education that provides more flexibility in when and how they attend classes. Courses are offered at both the undergraduate and graduate levels and also for continuing education students.

Continuing degree-seeking (matriculated) students can register online via Self-Service Banner in the TUportal. Non-degree seeking students must register through the Office of Continuing Studies in the Academic Resource Center at Mitten Hall, Suite 110 (215-204-2500). Refer to the request enrollment process for details.

How online learning works: Each week, a student will access Canvas to view assignments and reading materials and participate in collaborative discussions or projects with instructors and classmates. Some online programs and courses require students to meet virtually using live web conference video technologies. Students should understand that online learning experiences are rigorous and require the same level of preparation and effort as traditional courses.

The Online Learning Program provides access to over 500 course titles via online, blended, virtual and videoconferencing formats. Visit online.temple.edu/offerings to view a roster of academic programs that can be completed fully online.

For successful completion of an online course, students are recommended to have daily access to a computer with a fast internet connection. Visit online.temple.edu for more information.

Pre-Professional and Pre-Graduate Programs

Pre-Law Program

Temple offers undergraduates a wide range of courses, programs of study and majors that will contribute to their preparation for law school and for a career in the legal or a related profession. Temple undergraduates will find numerous opportunities to sharpen their critical thinking, reading and writing skills, both in and out of the classroom. Interested students can participate in the Mock Trial Team, get involved in the pre-law organizations (Phi Alpha Delta and the Pre-Law Society), or undertake an internship in the Philadelphia area. Speakers on legal issues, on careers in law and on preparing for the LSAT provide additional opportunities for the Temple student to learn more about the study of law and prepare for the intellectual challenges ahead.

Entering first-year students in the College of Liberal Arts and the Fox School of Business and Management can apply for the Temple Law Scholars Program, an early assurance program offered by Temple University's Beasley School of Law. See the Special Admissions Programs (p. 25) section of the *Bulletin* for details.

Pre-Professional Health Advising

Mitten Hall, Suite 110
215-204-2513
healthadvising@temple.edu
undergradstudies.temple.edu/healthadvising

The office of Pre-Professional Health Advising assists students in their academic and experiential preparation for applying to programs in dentistry, medicine, optometry, pharmacy, podiatry, veterinary medicine, physical therapy, occupational therapy and physician assistant. Advising offered by this office supplements the academic advising (course registration, major requirements and graduation review) provided by the academic advisors in each student's primary college based on their major program of study.

Advising through Pre-Professional Health Advising will help students stay organized as they identify the tracks or programs best suited to their interests in the health care professions. Beginning in their first semester, students can take advantage of our ePortfolio system as well as a special section of the First-Year Seminar designed specifically for students interested in professional school. Temple undergraduates will find numerous opportunities both in and out of the classroom to develop the knowledge, skills and experiences to prepare them for their future endeavors.

Pre-Med Health Scholars

The Pre-Med Health Scholar Program is offered to highly talented high school seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with Lewis Katz School of Medicine at Temple University. Applications are accepted from high school seniors and interviews are conducted in February of their senior year of high school. **Pre-Med Health Scholar Program Applications for interested high school seniors are available through the Pre-Professional Health Advising web site. Completed applications are due by December of each student's senior year in high school. Students entering Temple University as Pre-Med Health Scholars may consider an Accelerated BA/MD (3+4) Degree option during their first semester of undergraduate studies.**

For more information, please visit the Pre-Professional Health Advising web site.

Accelerated Programs for Dentistry, Pharmacy, Physical Therapy and Podiatry

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate degrees in a shorter period of time. Bachelor's degrees are conferred after successfully completing three years of undergraduate studies and passing all courses in the first year of professional school. The Accelerated BA/DMD, BA/PharmD, BA/DPM, or DPT Programs are designed for high-achieving students who have distinguished themselves with impressive academic records and a demonstrated interest in their respective field.

Refer to Accelerated Programs for more information.

Military Science (ROTC) Credits Applicable for Graduation

Undergraduate students whose degree programs allow for free electives (those beyond required course credits needed to satisfy university General Education, school or college, and major requirements) may be able to apply up to 12 credits of upper-division military science courses toward the total number of credits required for graduation. The allowable military science credits applicable toward graduation requirements include four upper-division courses at the 3000- and 4000-level in Aerospace Studies (Air Force ROTC), or Military Science (Army ROTC), or Naval Science (Navy ROTC).

The courses for which credits may be applicable to graduation include:

Department	Course #	Course Name	Credits	Semester
Military Science	MLSC 3001	Applied Leadership & Management I	2	
Military Science	MLSC 3002	Applied Leadership & Management II	2	

Military Science	MLSC 4001	Advanced Leadership & Management I	2	
Military Science	MLSC 4002	Advanced Leadership & Management II	2	
Aerospace Studies	AIRF 3011	Air Force Leadership Studies I	3	
Aerospace Studies	AIRF 3021	Air Force Leadership Studies II	3	
Aerospace Studies	AIRF 4031	National Security Affairs I	3	
Aerospace Studies	AIRF 4041	National Security Affairs II	3	
Naval Science	NAVS 3001	Naval Ships Systems I: Engineering	3	Fall only
Naval Science	NAVS 3002	Naval Ships Systems II: Weapons	3	Spring only
Naval Science	NAVS 3003	Evolution of Welfare	3	Fall only
Naval Science	NAVS 4001	Naval Operations and Seamanship	3	Fall only
Naval Science	NAVS 4002	Leadership & Ethics	3	Spring only
Naval Science	NAVS 4003	Fundamentals of Maneuver Warfare	3	

For more information about the applicability of Army ROTC, Navy ROTC and Air Force ROTC courses for graduation credit, please call the Undergraduate Studies Office (215-204-2044).

Military Science: Army Reserve Officers' Training Corps (Army ROTC)

Raymond A. Maszarose, Lieutenant Colonel

Ritter Hall, Lower Level

215-204-7480 or 215-204-2482

Fax: 215-204-7481

goarmy.com/careers-and-jobs/find-your-path/army-officers/rotc

Through a curriculum offered by the Temple Department of Military Science, qualified full-time students can earn a commission as an Active Duty, Reserve, or National Guard Officer, while concurrently satisfying academic requirements for a baccalaureate or graduate degree. Interested students not convinced that a career in the military is right for them can also learn more about how The Army of the United States selects and trains its future leaders and conducts operations on a day-to-day basis.

Military Science courses are open to all Temple students. There is no requirement for students taking Military Science courses to enroll in the commissioning program. Students taking Military Science courses are under no military service obligation of any kind if not enrolled in the commissioning program.

Students enrolled in the commissioning program incur either an active duty or reserve forces duty commitment commencing upon successful completion of the ROTC Advanced Course program and graduation from college. Temple's Department of Military Science offers both two-year and four-year curricula leading to a commission in the United States Army.

Army Reserve Officers' Training Corps (AROTC) Four-Year Commissioning Program

The Four-Year Program consists of two phases: the Basic Course and the Advanced Course.

In the Basic Course, the student takes one Military Science course each semester during the freshman and sophomore years. This instruction orients the student to activities frequently encountered during military service. Though students may voluntarily participate in weekend exercises and ROTC-sponsored events, they are under no obligation to do so. Additionally, students enrolled in the Basic Course are under no obligation for present or future military duty.

During the Advanced Course (normally the junior and senior years), the student receives instruction designed to enhance leadership abilities; reinforce managerial, supervisory, and accountability skills; and further develop the individual's foundation of military knowledge. The highlight of this instruction is the student's attendance at the five-week Cadet Summer Training Course, usually during the summer between the junior and senior years. The camp is a series of rigorous leadership challenges in which the Temple student competes against students from 272 other colleges and universities. When students complete the Advanced Course, they are obligated to accept a commission as a Second Lieutenant and upon graduation from college, incur either an active duty or reserve forces duty service commitment in the United States Army.

Two-Year Commissioning Program

The Two-Year Program consists of the ROTC Advanced Course and any qualified full-time graduate or undergraduate student who has at least two years of academic study remaining at Temple University and has completed the Basic Course or its equivalent may apply. Basic Course equivalency can be granted for prior active or reserve military service. Additionally, Temple students can receive this equivalency by attending a five-week Cadet Summer Training Program at Fort Knox, Kentucky. Following successful completion of this challenging program, the student is eligible to enter the ROTC Advanced Course. Students attending the Cadet Summer Training can incur a military obligation, and they are required to enroll in the ROTC Advanced Course. Students of exceptional academic accomplishment may qualify for Basic Course Placement Credit without being required to attend Cadet Summer Training. If you are a sophomore or junior with between 54-65 credit hours completed, please contact us for additional information at 215-204-7480/7482/2482.

Scholarships

The Military Science Department administers the Army Scholarship Program, which includes numerous options. The scholarships are awarded based on local and national competitions and are for four, three, and two years. The scholarships pay tuition or room and board, a \$1200 annual allowance for books and lab fees, and a monthly stipend of \$420. The scholarships are awarded based on academic merit, and a student need not be enrolled in Army ROTC to apply. Inquiries should be directed to:

Mr. Marc Young
Enrollment Officer
Department of Military Science/ROTC
Ritter Hall - Lower Level
215-204-7482
myoung01@temple.edu

Course Offerings

Code	Title	Credit Hours

MLSC 4002	Advanced Leadership and Management II (Spring)	2
MLSC 4003	Leadership Lab (All semesters)	0

Enrollment is open to all students, but full participation in some of the military training is limited to students enrolled in the commissioning program. Contact the Military Science Department for details.

Military Science Faculty

Raymond A. Maszarose, Lieutenant Colonel, Armor, Professor of Practice in Military Science, B.A. - United States Military Academy, M.A. - Command and General Staff College, Fort Leavenworth, KS.

Juan R. Urista, Captain, Logistics, Assistant Professor of Practice in Military Science, Battalion Executive Officer, B.S. - University of Las Vegas, Nevada.

Steven K. Van Esch, Sergeant First Class, Infantry, Commandant of Cadets.

Aerospace Studies: Air Force Reserve Officer Training Corps (AFROTC)

Department of Aerospace Studies
Saint Joseph's University
5600 City Avenue
Philadelphia, PA 19131
610-660-3190
rotc@sju.edu
<https://sites.sju.edu/afrotc/>

Students are eligible to participate in the Air Force Reserve Officer Training Corps (AFROTC) through an agreement with Saint Joseph's University. All aerospace studies courses will be held on the Saint Joseph's University campus, although students can register through Temple's Self Service Banner system for their AFROTC courses. The AFROTC program enables highly-qualified college students to earn a commission as an active-duty Air Force or Space Force officer while concurrently satisfying requirements for his or her baccalaureate degree.

AFROTC offers a three- or four-year curriculum leading to a commission as a Second Lieutenant in the United States Air Force (USAF) or United States Space Force (USSF). In the four-year curriculum, a student (cadet) takes General Military Course (GMC) classes during the freshman and sophomore years, attends a two-week summer training program between the sophomore and junior years, and then takes Professional Officer Course (POC) classes during the junior and senior years. Cadets in the three-year curriculum will be dual-enrolled in both GMC classes during the sophomore year, attend a summer training program, and take POC classes during the junior and senior years. A cadet is under no contractual obligation with the USAF until entering the POC or accepting an AFROTC scholarship. The GMC curriculum focuses on the scope, structure, organization and history of the USAF with an emphasis on the development of airpower and its relationship to current events. The POC curriculum concentrates on the concepts and practices of leadership and management, and the role of national security forces in American society.

In addition to the academic portion of the curricula, each cadet participates in a two-hour Leadership Laboratory once a week and physical training twice a week. Leadership Laboratory utilizes the cadet organization designed for the practice of leadership and management techniques.

Further information on the AFROTC program at Saint Joseph's University can be found at <https://sites.sju.edu/afrotc/>, or students can contact detachment personnel directly at:

Recruiting Flight Commander
AFROTC Detachment 750
Saint Joseph's University
Philadelphia PA 19131
610-660-3190

Naval Science: Naval Reserve Officers' Training Corps (NROTC)

Director, Naval Science Department
University of Pennsylvania
NROTC Unit
417 Hollenback Center
3000 South Street
Philadelphia, PA 19104-6399
215-898-7436
Fax: 215-573-2067
nrotc.universitylife.upenn.edu

The Naval Reserve Officer's Training Corps (NROTC) Program enables a college student to earn a commission in the Navy or the Marine Corps while concurrently satisfying requirements for a baccalaureate degree. Temple students are eligible to participate in NROTC through an agreement with the University of Pennsylvania. Scholarship and non-scholarship programs are available and can be tailored to support students who join NROTC after the start of their freshman year or by the beginning of their sophomore year.

All NROTC students are required to enroll in NAVS 1003 during every semester they attend.

Navy-Option scholarship and College Program (non-scholarship) students must enroll in NAVS 1001 and NAVS 1002 during their freshman year, NAVS 2001 and NAVS 2002 during their sophomore year, NAVS 3001 and NAVS 3002 in their junior year, and NAVS 4001 and NAVS 4002 in their senior year.

Those seeking commissions in the Marine Corps will enroll in NAVS 1001 and NAVS 1002 during their freshman year, NAVS 2001 during their sophomore year, NAVS 3003 and NAVS 4003 during either their junior or senior year, and NAVS 4002 during their senior year only.

Temple students register for NROTC classes through the Temple Self Service Banner system and all naval science courses are held on the University of Pennsylvania campus.

Navy scholarship students must complete:

- 6 semester hours of calculus (not required for Nurse Corps candidates)
- 6 semester hours of calculus-based physics (not required for Nurse Corps candidates)
- 3 semester hours of American military history or national security policy (not required for Nurse Corps candidates)
- 3 semester hours of World Culture and Regional Studies
- 6 semester hours of English

Marine-Option scholarship students must complete:

- 3 semester hours of American military history or national security policy
- 6 semester hours of English

College Program students must complete:

- 6 semester hours of college-level algebra or advanced trigonometry (one year of calculus is recommended)
- 6 semester hours of physical science courses (one year of calculus-based physics is recommended)
- 3 semester hours of American military history or national security policy
- 3 semester hours of World Culture and Regional Studies
- 6 semester hours of English

Students must check with their naval science instructors to determine specific courses that fulfill the above requirements and to determine which Naval Science courses receive credit within their degree plan.

In addition to the above, all students are required to attend Naval Science Drill (NAVS 1003), a 2-hour professional laboratory period each week (no academic credit) that emphasizes military drill, physical fitness, professional performance, and leadership topics.

International Education at Temple

International education takes many forms at Temple: learning other languages; spending a summer, semester or year studying abroad; building an international concentration into a major; or enrolling in special programs such as the Latin American Studies Semester. Students are encouraged to consult their school/college and course descriptions for further information on international and language studies.

Education Abroad and Overseas Campuses

200 Tuttleman Learning Center
215-204-0720 | study.abroad@temple.edu
studyabroad.temple.edu

Study abroad is one of the most rewarding and beneficial experiences available to Temple students. Temple's transformative global learning experiences provide a firsthand understanding of cultures and languages, enabling students to better understand and contextualize world issues and develop as engaged global citizens, collective problem-solvers and leaders in their chosen fields.

Temple students have almost limitless options when it comes to studying abroad. Students may spend a semester, academic year or summer participating on one of Temple's numerous programs abroad or may choose to participate in an accredited, approved external program through another university or study abroad provider.

Financing Study Abroad

Students receiving financial aid can usually apply most, if not all, sources of aid to study abroad tuition and fees. Temple offers scholarships for semester, academic year, and summer study abroad for qualified students and advises students for external scholarships, including Gilman and Vira Heinz.

Visit the financial aid, scholarship and financing study abroad sections of Education Abroad's web site for more information.

Temple's Passport Scholarship

Temple provides a scholarship for the cost of a passport to all first-year and transfer students who intend to study abroad and are applying for a passport for the first time. Learn about the passport scholarship and application.

Program Updates and Status

Visit the Education Abroad web site to explore program offerings and to view current program status and waitlist information.

Semester and Academic Year Programs

Temple University, Japan Campus (TUJ)

Matthew J. Wilson, Dean

Undergraduate students from Temple and other universities around the U.S. may study abroad alongside degree-seeking students at Temple University, Japan Campus (TUJ) (p. 1827) for an academic year, semester, and/or summer, choosing from a broad range of courses including GenEd offerings, upper-level courses in a variety of fields, and Japanese language. All coursework, with the exception of language courses, is conducted in English. Many study abroad students also participate in credit-bearing internships coordinated by TUJ's Career Development Office.

To enrich the students' exposure to Tokyo and enhance their understanding of Japanese culture, TUJ organizes several optional field trips and excursions each semester. These include half-day excursions to sites in and around Tokyo, as well as day and overnight excursions to various locations throughout Japan.

Visit the Education Abroad web site for more details about the study abroad program at TUJ, .

In addition to study abroad, the Temple Japan Entry Year (TJEY) program offers incoming first-year students the opportunity to study at the Japan campus for one year and then continue their education at Temple University in Philadelphia. Interested students should select this option when applying to Temple University. Visit the Temple Japan web site for more information about the TJEY option.

Temple University Rome

Emilia Zankina, Dean

Temple University Rome was founded in 1966 and is one of the oldest and largest study abroad programs in Italy. Students from Temple and other universities around the U.S. may study abroad at Temple Rome for an academic year, semester and/or summer.

At Temple Rome, students enroll in courses designed to take advantage of the city's rich resources. With a broad range of courses offered in architecture, biology, business, communication, engineering, the humanities and social sciences, sports and tourism hospitality management, and visual arts, students can take an interdisciplinary approach to learning. GenEd courses are also available. Semester students who have not studied Italian previously must enroll in an elementary Italian language course to take best advantage of their stay in Italy. Study abroad students often participate in credit-bearing internships coordinated by Temple Rome.

An extensive field study program complements the traditional classroom and studio curricula. Classes make regular trips to museums, architectural sites, and other points of interest in Rome, and many courses include excursions outside of Rome. Several courses include opportunities to study and engage with Roman university students. Temple Rome arranges optional programs and volunteer opportunities each semester that further introduce students to life in Rome.

Visit the Education Abroad web site for more details about the study abroad program at Temple Rome.

In addition to study abroad, the Temple Rome Entry Year (TREY) program offers incoming first-year students the opportunity to study at the Rome campus for one year and then continue their education at Temple University in Philadelphia or Japan. Interested students should select this option when applying to Temple University. Visit the Temple Rome web site for more information about the TREY option.

Temple University in Spain

Dr. Jamie Durán, Program Director

The Temple in Spain program is based at the University of Oviedo in the northern province of Asturias. Students from Temple and other universities around the U.S. may study abroad at Temple Spain for a semester and/or summer.

Removed from the heavy tourism of some other Spanish towns, Oviedo, the capital of Asturias, is rich in Spanish history and culture and offers easy access to nearby cities, the mountains and the coast. This off-the-beaten-path location provides students with a truly immersive experience in northern Spanish culture. Students not only improve their language skills, but also learn about the region's traditions, history and cuisine, while studying at a world-class institution.

During spring and summer, students are enrolled in the Cursos de Lengua y Cultura Españolas para Extranjeros program at the University of Oviedo's humanities campus, El Milán. Courses are taught by native Spanish-speaking professors of the University of Oviedo, Temple faculty member, Dr. Jaime Durán, and in the summer, additional visiting Temple faculty.

As a complement to academic courses, cultural programming opportunities, organized leisure activities, and homestays help students acquire in-depth knowledge of various aspects of Spanish and Asturian culture, as well as strengthen students' Spanish language proficiency outside of a formal classroom setting.

Spring Semester Program

The spring semester program is designed for students with at least four semesters of college level Spanish, or the equivalent, who are committed to furthering their Spanish language skills. All students enroll in one of two tracks, intermediate or advanced, depending on their Spanish language background, and choose from coursework in Spanish language, literature, translation, history and art. The university also coordinates a one-week non-credit enrichment workshop, cultural activities, and organized visits to sites of interest studied in class.

Summer Program

The 4.5-week summer program includes coursework in Spanish language, literature, and cultural studies taught in Spanish. An additional course taught in English may be offered, such as a GenEd course (these additional courses vary). All students enroll in two courses.

To be eligible for the program, students are required to have successfully completed at least one or two semesters of university-level Spanish (or the equivalent). Language requirements may be lower for students planning to take the English-taught course.

Fall Semester Program

The fall semester program offers the option to take English-taught courses alongside local degree-seeking students at the University of Oviedo, while beginning or improving their Spanish language skills. The English-taught courses will be offered by University of Oviedo faculty in their degree programs, while Spanish courses will be taught by Temple Program Director Jaime Durán, as well as faculty in the La Casa de las Lenguas, the university's Spanish language center. The fall semester is ideal for students who have completed one or two semesters of Spanish, but it is open to students at any language level.

Students take a full course load of four to five classes, including Spanish language as well as other degree requirements, for 12–18 credits. Students proficient in Spanish may be eligible to take courses in additional subject areas.

Visit the Education Abroad web site for full details about Temple in Spain programs.

Exchange Programs

Temple University students may study for a semester or academic year in countries around the world, including Australia, England, France, Germany, Hong Kong, South Korea, Spain and Taiwan on Temple's university-wide exchange programs. Through Temple's established partnerships with a number of universities, Temple students study at an overseas university while paying Temple tuition, and "in exchange" give a student from the same university an opportunity to study at Temple. Exchanges provide a full immersion experience at the host university. In most cases, exchange students take classes with students from the host country and have opportunities to get involved in campus clubs, organizations, and activities.

Given the fully immersive nature of exchanges and the challenge of adapting to what is often a different, more autonomous educational structure, exchanges are most appropriate for an independent, highly motivated student with a strong academic history. Exchange participants take a full-time course load while abroad and earn transfer credit.

Visit the Education Abroad web site for detailed information about Exchange Programs.

Summer Programs Abroad

Each year, several Temple faculty members direct summer programs abroad for academic credit. Some programs change annually; others have been part of Temple's summer curriculum for many years. The programs generally last four to eight weeks, admit qualified students from Temple as well as other universities, and charge Temple's regular tuition rates. In recent years, summer programs have been planned for the Czech Republic, France, Germany, Ghana, Greece, India, Italy, Jamaica, Japan, Korea, Serbia, Spain, Taiwan and the UK.

Visit the Education Abroad web site for detailed information about Summer programs.

Klein College of Media and Communication, Global Opportunities

Allie K. Miller, Director
Klein College of Media and Communication
7 Annenberg Hall
215-204-2354
kleingo@temple.edu

The Global Opportunities programs are open to all Temple students regardless of their major. Credit offered on programs is available in Advertising, Communication and Social Influence, Journalism, Media Studies and Production, and Public Relations.

Temple University Dublin

Dublin is a modern metropolis and sophisticated European city on the forefront of innovations in film, design, music and architecture. Klein College is partnered with Dublin City University to send students for the spring term. Students will enroll in coursework with Irish and international students at Dublin City University; course topics include analyzing media content, digital marketing, ethics of journalism, and media's relationship with technology and society.

Visit the Klein College Global Opportunities web site for more information on Dublin.

Summer Programs

Klein College Global Opportunities offers several options for students in the summer, ranging from faculty-led programs to full-time internship programs, all for academic credit. Locations vary each summer and include both U.S. and international destinations. The specific topics change each summer but generally focus on intercultural communication, advertising, journalism, public relations, film, theater, media, storytelling and more and all integrate their host city as the classroom. Students can participate in summer programs that offer academic credit for full-time internships across the globe.

Global Internship Program: The Global Internship Program is offered every summer in over 15 major cities throughout the world. Regardless of their destination, students participating in the program will spend two weeks in May enrolled in *Intercultural Communication in the Workplace*, then after departure to their new city students complete an online internship course to supplement their in-person experience.

As part of this program, students will work one-on-one with an industry expert who will help refine interviewing skills, perfect résumés and help students secure an internship in their desired field. Each program destination combines exciting events, learning and travel with a résumé-building internship.

Children's Media Industry: Trends & Opportunities: The children's media industry is now a global, multi-billion-dollar industry. In addition to the legacy children's media brands of Nickelodeon, Disney and Cartoon Network, major digital and social media companies have invested heavily in creating content for kids, including Netflix, Amazon, YouTube, Universal Kids, Snapchat, HBO, KizBop and others. This course will "map" the children's media industry by blending articles and scholarship on the topic with on-site experiences at companies creating the content and meetings with the executives deciding the future of this industry.

Over two weeks in Los Angeles students will engage in class meetings that will include lectures, visits to the children's media companies, guest speakers and screenings on site in Los Angeles.

Visit the Klein College Global Opportunities web site for more information on Klein College's summer programs.

Short Term & Break Programs

Recognizing that not everyone can dedicate an entire semester to studying away, Klein Global Opportunities has created a variety of courses that incorporate an immersive short-term travel experience. A sampling of opportunities includes the following:

Rocking the World: Disrupting Stereotypes of Race, Class and Religion in Washington D.C.: Led by a team of Klein instructors, students will examine and gain an in-depth understanding of three caste systems: the history of slavery and racism in the United States, the history of the caste system in India, and the history of the Holocaust and Nazi Germany during World War II. Students will travel to Washington D.C. for three days to explore museums dedicated to these topics and create multimedia projects to educate others on the course subject matter.

The Art of Visual Storytelling in Puerto Rico: Over 7 weeks on campus followed by a week immersion in Puerto Rico over spring break, students will explore the Puerto Rican community of visual storytelling and the artists telling those stories. Examine the various channels through which these artists navigate. Investigate, experience and create content that examines both Philadelphia and Puerto Rico's vibrant art communities.

For more details and to apply for programs, visit the Klein College Global Opportunities Portal.

Other Education Abroad Programs

Several other schools and colleges at Temple offer options specifically designed for their students, including:

- Boyer College of Music and Dance
- College of Liberal Arts
- School of Theater, Film and Media Arts
- Fox School of Business and Management
- School of Sport, Tourism and Hospitality Management

Contact the schools and colleges to learn more about the education abroad opportunities they offer.

University Honors Program

Amanda Neuber, Director
204 Tuttleman Learning Center
215-204-0710
honors@temple.edu
admissions.temple.edu/honors

Temple Honors is an interdisciplinary hub of the university, promoting Intellectual Curiosity, Inclusive Community, Social Courage and Integrity in Leadership.

Our goal for students is that they leave Temple as well-rounded creators of knowledge with the confidence to advocate for themselves and others as engaged, global citizens.

To accomplish this, we provide enriching academic and co-curricular opportunities, cultivate a dynamic and inclusive community, and offer holistic advising, strong encouragement, and support.

Honors Program Admissions

Incoming first-year students are automatically reviewed upon acceptance to Temple University. Current Temple students or transfer students can apply for admission through the Honors web site. Applications for current Temple students and transfer students are reviewed at the end of each semester (dates available on our web site).

Honors Certificate Requirements

To earn the Honors certificate and transcript notation upon graduation, students must complete Honors course requirements (outlined below) and have at least a 3.25 cumulative GPA at the time of graduation.

- **Incoming First-Year Honors Student Course Requirements:**
 - All Honors students who enter the program as first-time, first-year students must successfully pass at least ten Honors courses at Temple to complete Honors Program requirements.
 - **English 0902 Requirement:** If a student needs to complete the English 0802 General Education requirement, they must take the Honors version, English 0902. If they are waived from this requirement for any reason (e.g., AP, placement test, dual enrollment), they must replace English 0902 with any other Honors course (the final number of Honors courses must equal 10 to complete requirements).
 - **Intellectual Heritage (IH) Requirement:** Intellectual Heritage 0951 and 0952 are required. If a student only needs one IH course (e.g., 45+ students (p. 27)), it must be taken in Honors and the other IH requirement can be replaced with any Honors course (the final number of Honors courses must equal 10 to complete the requirements).
 - **Upper-Level Requirement:** Four of the ten Honors courses must be at or above the 2000 level.
 - Students are permitted to take as many Honors courses as they wish.
- **Program Requirements for Transfer Students:**
 - Students admitted to Honors after their first college semester with **fewer than 30 credits** must complete ten Honors courses at Temple (four of the ten must be at or above the 2000 level).
 - Students admitted to Honors after their first college semester who have accrued between **30 and 59 credits** must complete eight Honors courses at Temple (four of which must be at or above the 2000 level).
 - Students admitted to Honors after their first college semester with **60 or more credits** need to complete six Honors courses at Temple (four of which must be at or above the 2000 level).
 - The English and Intellectual Heritage requirements listed above also apply.

Definition of an Honors Course

- Any three-credit designated Honors course will automatically satisfy an Honors course requirement (lower-level courses = 0900-1999 / upper level courses = 2900-4999). All Honors courses can be identified by the following course numbering system:
 - **0900 - 0999 General Education Honors Courses:** Courses numbered 0900-0999 are appropriate for any undergraduate General Education Honors course requirements.
 - **x9xx Honors Courses:** Undergraduate Honors courses will be identified by a 9 as the second digit of the course number and will have "Honors" as the first word of the title. The 9 in the second position will not be used by any non-Honors undergraduate course. General Education Honors courses are designated 09xx.
- One-credit Honors Labs (e.g. Chem 1953) do not count towards Honors course totals.
- Other courses that will satisfy Honors course requirements:
 - HNRS 1901 Honors First Year Seminar I - Honors REACT (as of Fall 2021) will satisfy 1 lower-level Honors course requirement. Any HNRS 1901 taken prior to Fall 2021 will not count.
 - HNRS 3902 Honors Peer Mentor Development (as of Spring 2023) will satisfy 1 upper-level Honors course requirement.
 - **Completion of Honors Thesis Course Sequence** (HNRS 4901 Creating Knowledge: Honors Thesis Project Design and HNRS 4999 Honors Thesis) will satisfy 1 upper-level Honors course requirement.
- Most Honors courses are designed to be taken outside of a student's major, field or college. As a center for interdisciplinary learning, it is imperative that Honors students receive a well-rounded education in and out of their chosen domain. Honors students are encouraged to take as many Honors courses as possible.
- Honors has a set of standards that articulates the philosophy and goals of an Honors course.

Suggested Academic Progress

To complete Honors courses in a timely manner, the following academic progress is suggested:

- Minimum of **3** total Honors courses completed by the end of your First year.
- Minimum of **6** total Honors courses completed by the end of your Second year or 30 earned Temple credits.
- Minimum of **8** total Honors courses completed by the end of your Third year or 60 earned Temple credits.
- Minimum of **10** total Honors courses completed by the time of graduation.

Honors Thesis (Optional)

The Honors Thesis Project is designed for Junior/Senior year Honors students who want to complete an advanced research project in addition to their other Honors Program requirements. This project is meant to be an interdisciplinary exercise—we ask that students collaborate with faculty outside of their primary field of study or incorporate multiple disciplines in the research design. Students will work closely with a faculty mentor and an outside reader to research, write, revise, and present their work prior to graduation. Your faculty mentor will ultimately be the arbiter of your success with this project.

Required courses:

- HNRS 4901 Creating Knowledge: Honors Thesis Project Design - To be taken spring semester of Junior Year.
- HNRS 4999 Honors Thesis - To be completed fall semester of your Senior year.

Students who wish to amend the Honors Thesis timeline may discuss possibilities with a member of the Honors staff.

Temple Honors Advising

Students can make an appointment with an Honors advisor through their TUPortal and/or may visit the Honors Program Office in Tuttleman Learning Center, Room 201.

Honors Advisors can help you with Honors Program requirements, 4-year planning, major selection, academic coaching, study abroad planning, professional development, and more.

If you have a specific question about your major or degree requirements, it is best to contact your school/college advisor.

Learn more about Temple Honors advising.

Temple Honors Community Experience

The Honors Student Forum is a selected group of Honors students who work to improve and uplift the Honors Program. Feel free to contact a member of the board or complete the suggestion box for any feedback for the Honors Program.

All students are welcome to utilize the Honors community spaces on the 2nd floor of Tuttleman Learning Center.

- 201 Tuttleman: The Huddle
- 204 Tuttleman: The Lounge

Honors Space Reservations

Students, faculty and staff may reserve 5 different spaces of various sizes for group events in the Honors spaces. Availability includes a small conference room (201), large classroom (201D), The Huddle main room (201), the Honors Lounge (204), and Tuttleman 202. Learn more about Honors spaces.

Undergraduate Research and Peer Teaching

Emily A. Moerer, Associate Vice Provost
500 Conwell Hall
215-204-4991
emoerer@temple.edu

Creative Arts, Research and Scholarship Program

The Creative Arts, Research and Scholarship (CARAS) Program provides funding to encourage and support undergraduate students engaged in scholarly, creative, and research projects that contribute to advancing their field of study. Two types of grants are made through the CARAS Program: Research/Creative Project Grants provide undergraduate students support for scholarly, research or creative arts projects undertaken with the supervision of a faculty mentor. Travel Grants provide funds for undergraduate travel to present research or creative work at professional conferences. Visit CARAS for more information.

Diamond Peer Teachers Program

The Diamond Peer Teachers Program is a competitive program providing upper division undergraduates at Temple University the opportunity to experience the challenges and rewards of college-level teaching, to develop their own pedagogical skills by working closely with their faculty mentors, and to provide supplemental instruction in lower-level and GenEd courses. Peer Teachers earn a stipend and one (1) internship credit. Visit Diamond Peer Teachers Program for more information.

Diamond Research Scholars Program

The Diamond Research Scholars Program offers a seven-month long funded research experience under the direction of a faculty mentor. Participants receive a summer stipend and register for a research or independent study course in the fall for their research or creative arts project. Scholars are expected to participate in Temple's annual Symposium for Undergraduate Research and Creativity. Visit Diamond Research Scholars Program for more information.

Symposium for Undergraduate Research and Creativity

The Symposium for Undergraduate Research and Creativity, held annually in the spring, provides ambitious, intellectually-motivated undergraduate students the opportunity to present and defend their original research or creative work among peers, faculty, family, and friends. Through its emphasis on original research and creative work, the Symposium seeks to inspire undergraduate students to analyze, critique, and engage with the world around them. Visit the Symposium for more information.

Honor Societies

Phi Beta Kappa

Phi Beta Kappa is an honor society open to juniors and seniors in the College of Liberal Arts, the College of Science and Technology, and the Department of Art History. To qualify for Phi Beta Kappa, a student must maintain a high grade point average in a broad, rigorous program of study in the liberal arts, including mathematics and foreign language. For a complete and detailed description of Phi Beta Kappa's requirements, visit <https://sites.temple.edu/phibetakappa/>.

For more information, please contact Chris Wolfgang, Secretary and Membership Chair (cwolfgan@temple.edu).

Golden Key

Golden Key is an international honor society whose mission is to enable members to realize their potential through the advancement of academics, leadership and service. Golden Key is interdisciplinary and unites the talents of the brightest undergraduate and graduate students. Golden Key also provides service opportunities for all university students.

Membership into Golden Key is by invitation only and applies to the top 15% of college and university sophomores, juniors and seniors, as well as top-performing graduate students in all fields of study, based solely on their academic achievements.

Contact Information:

Tuttleman Counseling Services, 1810 Liacouras Walk - 5th Floor, Philadelphia PA 19122
goldkey@temple.edu

<https://goldenkey.org/chapter/?id=280>

https://temple.campuslabs.com/engage/organization/golden_key_international_honour_society

Alpha Lambda Delta

Alpha Lambda Delta is a national society that honors academic excellence during a student's first year at college. For further information, visit <https://www.nationalald.org/>.

Additional Honor Societies

Check the pages for each school and college within this *Bulletin* for additional information on honor societies that are specific to each school / college's departments and programs. Additional honor societies may be listed at <https://temple.campuslabs.com/engage/organizations>.

Academic Support

Academic Resource Center

The Academic Resource Center serves non-degree students taking courses for university credit, international students, and matriculated undergraduate students who have not yet decided on a school/college or major, or who are in transition between academic programs. The team of professionally trained and dedicated academic advisors will assist students in navigating the transition to campus life as well as provide academic and career exploration assistance to our students. Services include individual and group advising appointments, academic success workshops, and major exploration programs all tailored to support personal growth and to promote scholastic achievement.

Appointments with academic advisors are scheduled Monday through Friday from 9:00 a.m. - 4:00 p.m., and on a walk-in basis during designated times, such as the add/drop period and priority registration. Appointments can be held in-person or remotely via video-conference. For assistance, please visit the Academic Resource Center web site where you will find a link to our virtual front desk, call 215-204-2500, or stop by the office at Mitten Hall, Suite 110.

Advising

Each school, college, and campus of the university offers a range of academic advising services for students. Professional advisors help students choose majors, plan curriculum, make vocational and post-graduate plans, connect students to university resources, and help resolve a variety of academic issues. Many schools and colleges offer the services of faculty advisors and peer advisors as well. Students should consult the specific advising unit in their school or college section of this *Bulletin* for locations and specific information about these units.

Students who are active in the Fly in 4 program agree to consult with an academic advisor in their school or college at least once per semester for academic planning. Advisors review proposed coursework and refer students to appropriate information regarding graduation requirements. In addition, advisors help students achieve breadth in the curriculum and provide other assistance as needed.

Students are required to meet with an advisor when they do not meet the academic standards set by the University. See the Academic Standing (p. 1840) policy in the Academic Policies section of the *Bulletin* for detailed information.

Academic advisors strive to teach students how to make the most informed decisions when planning their academic program, while satisfying all university, college, and major requirements. Students assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Some of the services offered by the advising centers are listed below:

- **New Student Orientation:** for freshmen and first semester transfer students.
- **Registration Assistance:** This includes online processing of original registrations, schedule revisions, and course withdrawals, in accordance with deadlines published on the University Registrar web site.
- **Academic counseling:** Students work with advisors to develop a meaningful education plan compatible with life goals and current needs. Through contact with departmental faculty, students gain an in-depth appreciation of a specific discipline and discover opportunities associated with their field of interest.
- **Problem solving:** Students can meet with advisors to discuss a variety of academic concerns and develop some possible solutions. Students experiencing academic difficulty work with advisors to learn strategies for overcoming the obstacles to success.
- **Policy clarification:** The advising centers help students understand the policies and procedures integral to achieving a successful and fluid transition through university life. This includes such things as academic progress, academic standing, grievance procedures, and registration policies, including add/drop/withdrawal policies.
- **Honors advising:** In addition to receiving advising from their college, students enrolled in the University Honors Program may also be advised in the Honors Office in Tuttleman Learning Center until they have completed 60 semester hours, with the exception of the Fox School of Business and Management students, whose Honors program advising is conducted within the school.
- **Change of Program (CoP) advising:** Students changing programs or campuses at Temple meet in groups or individual sessions, by appointment. (Formerly referred to as Intra-University Transfer, or IUT).
- **Re-enrollment interviews:** Students may meet with advisors if they have taken time away from Temple University and wish to return.
- **Graduation Reviews:** Students meet with advisors prior to the start of their senior year to plan for graduation and beyond.
- **Petition processing:** Advisors facilitate processing of petition requests including completing a course at another institution, third registration for a course, withdrawal with approved excuse, registering for an academic overload, evaluating life experience credit and credit by examination, reviewing of transfer credit evaluation, considering DARS exceptions, academic forgiveness for re-enrolling students, and receiving approval for an exception to policy.
- **Referrals:** Advisors make referrals to such services as financial aid, career development, study abroad advising, counseling, tutoring, disability services, and testing.

- **Pre-registration advising:** Advisors work with students prior to fall and spring registration periods to review outstanding requirements and develop a registration plan. Prior to their pre-registration advising, students should review their DARS and course selections for the upcoming semester. DARS for all students are available on the web through dars.temple.edu.
- **Student retention initiatives:** Each school and college provides focused support for students to enhance their level of engagement with the school or college, and with the university. Advising units reach out to students to increase their awareness of the support services and resources available to all Temple students.

Academic Advising Mission

In support of the mission of Temple University, academic advisors work collaboratively with students, faculty, staff, and community partners to meet the diverse, evolving goals of students within our university community. It is our purpose to provide quality advising programs and services that support students in achieving their academic and career goals.

Nancy & Donald Resnick Academic Support Center for Student-Athletes

Tara Evans, Director, Resnick Academic Support Center for Student-Athletes
1800 N. Broad Street
Pearson Hall 150
215-204-9002
studentathlete.temple.edu

Hours of Operation

Monday-Thursday: 8:00 a.m. - 9:00 p.m.

Friday: 8:00 a.m. - 5:00 p.m.

Sunday: 5:00 p.m. - 8:00 p.m.

Temple University's Nancy and Donald Resnick Academic Support Center for Student-Athletes (RASC) provides superior academic, personal and professional guidance to support all Temple University student-athletes. Through core values of diversity, integrity and collaboration across the University, the Center strives to inspire student-athletes to learn and succeed to their greatest academic and professional potential.

Service Philosophy

The Nancy and Donald Resnick Academic Support Center for Student Athletes (RASC) and its staff of advisors, learning specialists, tutors, and academic coaches are in place to help ensure the academic success of Temple's student-athletes. The staff seeks to encourage and motivate each and every student-athlete to reach their academic potential, while meeting NCAA eligibility benchmarks and progressing towards graduation.

Resnick Academic Support Center Facilities

The RASC is located on the first floor of 150 Pearson. The RASC is open Monday - Thursday 8 a.m. - 9 p.m., Friday 8 a.m. - 5 p.m. and Sunday 5 p.m. - 8 p.m. during the fall and spring semesters (summer hours are Monday – Friday 9 a.m. - 5 p.m.). There is a computer lab which houses Macs and Dell computers, as well as a printing station. There is a space dedicated to tutor and academic coach appointments, with the additional option to reserve a breakout room to complete study hall hours, group meetings, academic coach or tutor session, etc. Student-athletes are encouraged to utilize the RASC for all academic and computing needs.

Academic Advisors

Each intercollegiate sport at Temple University is assigned an academic advisor within the RASC, who provides day-to-day academic support for members of that team. Advisors within the RASC work very closely with not only student-athletes, but also coaches and athletic administrators to ensure that each individual team member is fulfilling their obligation as a student-athlete.

Learning Enhancement and Academic Development (LEAD)

Learning Enhancement and Academic Development (LEAD) is a unique program at the Resnick Academic Support Center designed to provide in-depth learning strategies for student-athletes who want to reach their fullest academic potential. All incoming student-athletes complete an online needs assessment to determine educational experiences and expectations. An individualized learning profile/plan is created. Academic advisors, learning specialists, and students collaborate to implement and review their plan. LEAD also collaborates with Disability Resources and Services to ensure students receive appropriate accommodations if, and when applicable. Students who participate in LEAD are paired with a learning specialist with experience in school psychology and secondary education. The two work closely to identify the student's strengths and areas that need improvement.

Academic Advising and Priority Registration

Student-athletes are expected to meet with their on-campus school or college academic advisor each semester to ensure the student-athlete is making satisfactory progress towards their degree and meeting university benchmarks. Student-athletes at Temple University have been granted priority registration in order to best accommodate the demands of academic and athletic schedules. Student-athletes are expected to register for classes during the priority registration period to ensure they get the most accommodating schedule for the semester. Student-athletes are expected to register for 15-17 credits per semester in order to stay on track for graduation. Student-athletes should work with college advisors and athletic academic advisors to assist

with graduation and degree completion goals. Additionally, student-athletes must meet with their athletic academic advisor prior to registration to ensure the student-athlete is registering for the appropriate courses.

Tutoring

Tutoring is a service offered to student-athletes to serve as a supplement to classroom instruction. Tutorial services are available on a 1-on-1 or small group basis during scheduled study sessions. Review sessions for courses with high student-athlete enrollment are also offered throughout each semester. Tutoring provides the student-athlete with the assistance and encouragement to facilitate learning, excel academically, and develop into an active and independent learner. Tutoring is appropriate for situations in which students are having trouble with classroom material or wish to advance their knowledge of material.

Academic Coach Program

Academic coaches are an integral part of the Nancy and Donald Resnick Academic Support Center for Student-Athletes and subsequently are an extension of the academic advisor. An academic coach acts as a guide and assists a student-athlete with their transition from high school to college, guides the student-athlete through the rigors of collegiate level academic work and assists with academic skill building—all with a goal of helping the student-athlete develop autonomous academic skills.

Career Development

The Resnick Academic Support Center staff works closely with the Temple University Career Center. A Career Center career coach holds office hours in the RASC one time per week during the fall and spring semester. During these scheduled one-on-one sessions, the career coach assists the student-athlete with résumé development, cover letter creation, updating a LinkedIn profile as well as searching and applying for internship and job opportunities.

First Year Seminar

First Year Seminar / Student-Athlete Development and Professionalism is a course required for all incoming freshman student-athletes. Student-athletes have the option of taking the course during the fall or spring semester. The course is taught by the RASC academic advisors. This course introduces first-year students to the opportunities and rigors of higher education, as well as to the skills needed to use academic resources successfully in college. Topics also include Name, Image and Likeness (NIL) and personal branding. The topics covered in the seminar help first-year students reach their academic goals.

Degree Audit Reporting System (DARS)

Debbie Bennett-Kenney, DARS and Transfer Systems Coordinator

Sheila Brogden, DARS/Technical Support Specialist

Benton Wilson, Technical Support Specialist Assistant

dars@temple.edu

<https://sites.temple.edu/degreeaudit/>

DARS stands for the Degree Audit Reporting System. Students and advisors can use DARS to track and plan students' academic progress toward completion of an undergraduate degree in their declared major(s), minor(s) and concentration(s). DARS shows students how their Temple University courses, transfer courses, and courses in progress apply toward degree requirements. It gives detailed and accurate information about the student's academic record.

The information on the audit comes from the Banner Student information system. This is the same system students use to register for classes and to check their grades at the end of the term. Since DARS accesses the actual database where students' information is stored, it is current as of the moment an audit is processed.

The Degree Audit system offers students and advisors an interactive Roadmap from which students can build a semester-by-semester Plan to define a clear path to graduation. These plans work as a powerful advising and planning tool to provide a clear and individually-customized path to meet graduation goals. The Self-Service site is also used to request audits of degree requirements, view course history and review transfer credit evaluations.

A new feature in the DARS is the What-If audit. Students and their advisors can run a What-If audit to see how courses will apply toward a different major. This gives students who are considering changing degree programs a powerful tool that provides information on how close a student would be to graduation in the new major, letting students make more-informed decisions about their academic futures.

Students can request a degree audit by clicking on the Student Tools tab in TUportal and then, in the Records channel, clicking on Degree Audit. The direct link is dars.temple.edu.

Students can learn more about DARS on the DARS web site, including information about how to interpret the degree audit, documentation about the Self-Service site, general resources available in the DARS office and information about the system.

Fly in 4

Fly in 4 is Temple University's innovative plan to fast-track students' futures and limit student loan debt by ensuring students complete their degrees on time. Under the Fly in 4 partnership, eligible students are encouraged to satisfy checkpoints each year, keeping them on track to complete their degrees

on time. If students meet all of the agreement's checkpoints and still cannot graduate in four years due to the unavailability of necessary courses, they may be able to complete the courses required for their degree, free of any tuition and comprehensive fee charges. To limit students' obligation to work for pay while in school, Temple will award a limited number of Fly in 4 grants per entering class to students with high financial need. Eligibility is based on the Free Application for Federal Student Aid (FAFSA). Learn more about Fly in 4.

Information Technology Services

Computer Labs

Students can take advantage of a number of first-class technology resources available at Temple University, including the TECH (Teaching, Education, Collaboration, Help) Center, a state-of-the-art facility with resources that cater to current learning styles. The TECH Center is located on Main Campus in the Bell Building at 12th Street and Montgomery Avenue. It is designed with a variety of workspaces to enable students to work collaboratively or individually. This dynamic facility allows students to meet, study, collaborate, relax, and take advantage of the following resources:

- a student computer center containing PC and Mac workstations, wireless loaner laptops and scanners;
- high-speed duplex, color laser, inkjet, poster and 3D printers;
- Breakout rooms and MediaScape tables for collaboration and group study;
- two GamrPods for remote classes, video/audio calls, and gaming;
- specialized labs, including specialty printing, video editing, recording booths, multimedia studio, graphic design, music composition, advanced technology lab, and "quiet" zones;
- social space for students with lounge areas; and
- a Help Desk for students, faculty, and staff with extensive hours throughout the year.

In addition, for the convenience of students, with the exception of holidays, the TECH Center is open seven days a week. For more information, see the TECH Center web site.

In addition to the TECH Center, Temple offers school and college computer labs on Main Campus, as well as at Temple's other campuses, such as the Health Sciences Center (HSC) TECH Center and the Ambler Learning Center. Most labs feature workstations with general and specialized software and wireless printing for lab workstations, laptops and other wireless devices.

Technical Support

At the Help Desk, professional consultants and technical student workers offer assistance on a wide range of technical topics. To contact the Help Desk, students can call 215-204-8000, submit a help request (<https://tuhelp.temple.edu/>), connect with live Help Chat, or send an e-mail to help@temple.edu.

Course Materials Online

Canvas enables faculty and students to share coursework materials and discuss topics online.

Resource Hub

In order to use the computer resources at the TECH Center as well as Temple's numerous applications and systems available online, you will need your AccessNet username and password. With this login information, you can gain entry to TUportal (<https://tuportal.temple.edu/>), a single gateway to the university's most popular services, including TUmail, Canvas, Self Service Banner, Diamond Dollars and My Housing.

In TUportal, Self Service Banner allows students to view course prerequisites and register for classes, view rosters, check grades, view account balances and financial aid information, and pay bills, all on the web.

For more resources and up-to-date information on the rapidly-changing nature of technology at Temple, including Print on the Go, wireless access and security awareness initiatives, visit the Information Technology Services web site.

Pre-Professional Health Advising: Advising & Programs

Mitten Hall, Suite 110

215-204-2513

healthadvising@temple.edu

<https://undergradstudies.temple.edu/healthadvising>

Pre-Professional Health Advising at Temple University provides advising and application support for students interested in preparing for specific careers in health care. Advising offered by the office supplements the academic advising (course registration, major requirements and graduation review) provided by the academic advisors in the student's primary college which is based on their major program of study.

Specifically, Pre-Professional Health Advising advises students preparing for the following health professions or graduate programs:

Health Professional schools for:

- Dentistry
- Medicine
- Occupational Therapy
- Optometry
- Pharmacy
- Physical Therapy
- Physician Assistant
- Podiatry
- Veterinary Medicine

Pre-Professional Health Advising provides advising support to help students identify their academic strengths and interests and the paths that will best prepare them to fulfill their career aspirations within the health professions. Specifically, the office provides:

- individual, group, and electronic (ePortfolio) advising to help students stay organized as they identify tracks / programs best suited to their interests in the health care professions;
- seminars, colloquia, and speakers on issues and concerns central to understanding the complexities of the health care profession in the twenty-first century;
- information on student organizations focused on health care issues and concerns that students can get involved in early and stay involved in throughout their undergraduate career;
- information on opportunities for internships, service learning, and other experiential learning activities key to the professional development of the individual interested in a career in the health-care professions; and
- Pre-Health Evaluation Committee Process for letters of recommendation in support of applications.

Special Admissions Programs

Pre-Med Health Scholar Program

The Pre-Med Health Scholar Program is offered to highly talented high school seniors interested in pursuing a career as a physician. It is designed to recruit exceptional students to Temple University by offering a Linkage Agreement with Lewis Katz School of Medicine at Temple University. Students entering Temple University as Pre-Med Health Scholars have the option to consider an **Accelerated BA/MD (3+4) Degree**.

Accelerated Programs for Dentistry, Pharmacy, Podiatry, or Physical Therapy

Accelerated Programs allow Pre: Dentistry, Pharmacy, and Podiatry (3+4 Tracks) as well as Physical Therapy (3+3 Track) students the option of earning both their Bachelor of Arts and Graduate degrees in a shorter period of time. After successfully passing all courses in their first three years as undergraduates, accelerated students are eligible for a Linkage Agreement with the corresponding Temple University professional school or graduate program. Once accelerated students pass all courses in their first year of professional school, a Bachelor's degree is conferred. The Accelerated BA/ DMD, BA/PharmD, BA/DPM, or DPT Programs are designed for high-achieving students who have distinguished themselves with impressive academic records and a demonstrated interest in their respective field.

Scholar Development and Fellowships Advising

Tuttleman Learning Center, Suite 201

215-204-0708

<https://undergradstudies.temple.edu/fellowships>

Scholar Development and Fellowships Advising offers assistance to Temple students in all stages of the application process for merit-based fellowships and other funded opportunities. We provide information on available programs, advice, opportunities for strategic planning and reflection, and guidance for completing a competitive application.

Student Success Center (SSC)

Lori Salem, Director

<https://studentsuccess.temple.edu/>

Main Campus Locations:

Student Success Center

Charles Library, Rooms 230 and 340

1900 N. 13th Street

Philadelphia, PA 19122

215-204-0702

Fall/Spring Hours:

Monday - Thursday, 8:30 a.m. to 8:30 p.m.

Friday, 8:30 a.m. to 4:30 p.m.
Saturday, 10:00 a.m. to 4:00 p.m.

The Student Success Center (SSC) is a comprehensive, "one-stop-shop" academic support center serving graduate and undergraduate students at Temple University.

The Center provides the following services and programs:

- **Academic Coaching:** The Academic Coaching program is an appointment-based service that helps students develop effective learning habits and strategies, including skills related to studying, test taking, time-management and more. Academic coaches meet one-on-one with students to help them hone specific skills related to the students' individual academic goals.
- **Language Tutoring:** The Language Tutoring program gives students who are learning English, Spanish, Arabic, Italian, Russian, French, Chinese and/or Japanese the opportunity to meet one-on-one with a proficient speaker of the target language who can help them practice listening, speaking and reading comprehension, and who serves as a mentor related to issues of intercultural communication. The program also sponsors workshops for guided language practice, and social events and off-campus cultural excursions for English language learners. Upcoming events and workshops can be found on the events page of our web site.
- **Peer Assisted Study Sessions (PASS):** PASS sessions are weekly study meetings that provide students in select challenging courses with an opportunity to learn and explore course content in an interactive, small-group setting. The groups meet twice per week, and they are guided by trained peer leaders. A complete list of the PASS sessions offered each semester can be found on the SSC web site.
- **STEM Learning Lab:** The main service of the STEM Learning Lab is STEM Tutoring which provides support for students enrolled in Math, Chemistry, Physics, Biology, Engineering, Economics and Statistics courses. Tutors meet one-on-one with students in these courses, and help them review and practice course content. In addition to tutoring, the STEM Learning Lab offers study studios for students who are preparing for high-stakes exams in foundational math and science courses. Course-specific study studios give students an opportunity to practice solving problems, to ask questions, and to work collaboratively with peers and trained SSC tutors on the topics covered in their exams. A list of study studios by course is available on our web site along with materials to help students prepare for exams.
- **The Writing Center:** Writing Center tutoring services help students develop as writers. Writing tutors work collaboratively with students on many aspects of their writing, including organization, argument, editing sentences for clarity and grammar, incorporating outside sources, and citation. The Writing Center is also the administrative home of the university's writing-intensive course program, described on the Writing Intensive Courses page (p. 102) and on the SSC web site.

Online Services:

All SSC services are available online as well as in person. Students can use the SSC's interactive web site to access online tutoring, to make appointments for services, and to access academic support resources, including videos and downloadable handouts.

The University Libraries

<https://library.temple.edu/>

The Temple University Libraries form an extensive network of services and resources to support the educational and research needs of the university's students, faculty and staff.

The combined collections comprise more than 4 million volumes, including 2 million e-books, 150,000+ streaming film and music titles, over 600 research databases, and thousands of journal subscriptions. The Libraries also have robust collection sharing partnerships with other institutions allowing for even greater access to needed research materials.

Charles Library is a state-of-the-art facility that supports student learning and intellectual engagement. Upon entering Charles Library, you will find specialized spaces including the Loretta C. Duckworth Scholars Studio, the Special Collections Research Center, and the Student Success Center. You can also visit the One Stop Assistance desk or watch the BookBot in action. Explore the hundreds of seats for study and abundance of study and gathering spaces, including the 24/7 study area, large and small group study rooms, the 3rd floor open reading area, the 4th floor quiet reading room, the 1st floor event space, and Stella's Café. Pick up laptops and battery packs for loan from conveniently-located kiosks throughout the building.

The Special Collections Research Center includes the Urban Archives and the Philadelphia Jewish Archives collections, which document the social, economic, and physical development of the greater Philadelphia region since the mid-19th century; rare books, artists books, and manuscripts collections; the Contemporary Culture Collection; the Science Fiction and Fantasy collections; the Philadelphia Dance Collection; and the University Archives. The Charles L. Blockson Afro-American Collection documents the history and culture of people of African descent. The Libraries serve as a depository for both Pennsylvania and federal documents.

Information Retrieval

Research databases, full-text resources, the Library Search, electronic references, and other information and services are at library.temple.edu. The Library Search is the gateway to discover books, journal articles, newspapers, archival material, images, library research guides, and much more. The Library Search lists library holdings and their circulation status, and links directly to electronic books and streaming movies and music. Students have access to course-specific library material and research guides through integrated modules in the Canvas course system.

Expert assistance in using the library resources is provided by subject specialists. Students are introduced to basic information literacy skills through the University General Education (p. 83) program. Librarians support faculty to help students build the research skills in demand by employers. General education courses, such as the freshman *Analytical Reading and Writing* course, are where many students learn these skills. Librarians also provide instruction tailored to individual courses. Individual questions are answered in person, as well as by phone, e-mail, text message, and online chat. The Libraries' Contact Page is the starting point for submitting questions and retrieving information.

When local resources do not supply needed material, Temple students and faculty may directly request books from other universities and colleges through the E-Z Borrow Program, or request article copies and books through the Temple Libraries' interlibrary loan service.

Locations

The resources of the University Libraries are housed in Charles Library (the main library) and in a number of separate facilities serving specific disciplines and campus locations. Hours and information for the following are on the libraries' web site:

- Ambler Campus Library, 580 Meetinghouse Road, Ambler, PA 19002, 267-468-8648
- Charles L. Blockson Afro-American Collection, Sullivan Hall, Main Campus, 215-204-6632
- Harrisburg Library, 234 Strawberry Square, Harrisburg, PA 17101, 717-231-3646
- Ginsburg Health Sciences Library, 3500 N. Broad Street, Health Science Campus, 215-707-2665
- Charles E. Krausz Library of Podiatric Medicine, School of Podiatric Medicine, 8th and Race Streets, Philadelphia, PA 19107, 215-625-5205
- Law Library, Charles Klein Law Building, Main Campus, 215-204-7891
- Charles Library, 1900 N. 13th St., Main Campus, 215-204-0744

Reading rooms and libraries are also maintained by several academic programs. The following facilities are located on the Main Campus:

- College of Liberal Arts Educational Technology Center, AL-21 Mazur Hall, 215-204-3213
- Esther Boyer College of Music Listening Library, 100 Presser Hall, 215-204-8338

Tutoring Services

The following is a list of tutoring services available in various schools, colleges, and departments. This list is subject to change, so students should consult with their academic advisors or contact the Student Success Center for assistance in finding a tutor.

Main Campus

Accounting
403 Alter Hall
215-204-8110

Actuarial Science
215-204-6183

Alliance for Minority Participation (AMP) Bridges to Baccalaureate Program
215-204-4073 or 215-204-6390

Business Communications
Business Communications Center, 1810 Liacouras Walk, Room 290
215-204-5959

Engineering (Statics, Dynamics, & Mechanics of Solids)
Engineering Building, Room 349
215-204-7800

Finance
401 Alter Hall
215-204-8451

FGIS (French, German, Italian, Slavic), Middle Eastern Languages, Asian Studies, and Greek and Roman Classics
Mazur Hall, Room 539
215-204-1261

Intellectual Heritage
IH Lounge, 215 Mazur Hall
215-204-5625

Marketing

501 Alter Hall
215-204-8111

Praxis Tests (Basic Skills Assessment Exams)
College of Education and Human Development, Shimada Resource Center, Ritter Annex 150
215-204-8011, edadvising@temple.edu

Risk Management and Insurance (RMI)
215-204-2046

Statistics
215-204-3505

Student Success Center

Ambler Campus

Academic Advising and Student Success
Learning Center
267-468-8200
<https://ambler.temple.edu/campus-resources/advising-and-student-success>

Temple Ambler students have access to a wide variety of virtual tutoring services for writing, math and science through the Student Success Center at Main Campus. Learn more about the services, workshops and programs offered.

Other Tutoring Sources

- Instructors may be able to recommend tutors, often graduate students working toward master's or doctoral degrees in the department.
- Departmental offices generally have lists of qualified tutors available to work with undergraduates.
- The Student Assistance Center, first floor, Student Center, Main Campus, maintains a list of students available to tutor in a variety of subjects. These tutoring services often are available for a nominal hourly fee, arranged with the tutor.

Student Services

Temple University Career Center

220 Mitten Hall
1913 N. Broad Street
215-204-7981
careercenter@temple.edu
careercenter.temple.edu

The Temple University Career Center serves all Temple students. We build collaborative relationships among the Temple community and empower students and alumni through comprehensive career development services, ultimately driving them towards successful careers.

Every Temple student can own their future with our services. Students can meet with our career coaches virtually and in person to receive the tools and guidance to explore their career options, build their professional brand, gain experience, and make their path for life-long career success. The Career Center also provides popular in-person services such as professional headshots and opportunities to reserve space for interviews. Additionally, the Career Center hosts a variety of events virtually and in person, including career fairs and professional development and networking events which allow students to connect with employers and industry experts. Students can apply to thousands of job and internship opportunities on Handshake, and access a variety of free online professional development resources to develop their skills and explore a diverse array of career paths.

Meet with a Career Coach for a 30-minute appointment, which can be booked by visiting temple.joinhandshake.com/appointments. Appointments are available virtually and in person. Temple students should also be aware of the career services resources within their school or college. For a complete list of the university's career services offerings, visit careercenter.temple.edu/about/careernetwork. Contact the Career Center at 215-204-7981 or careercenter@temple.edu.

Disability Resources and Services

Howard Gittis Student Center South
4th Floor, Room 420
215-204-1280
267-314-8670 (VP)
215-204-6794 (Fax)
drs@temple.edu
disabilityresources.temple.edu

Temple University is committed to the full inclusion of students with a disability in all programs and services. Disability Resources and Services (DRS) facilitates access and accommodations on an individualized basis and provides opportunities for students with a disability to grow and develop. We work to build a learning community where people with diverse abilities are valued and included in all facets of life at the university.

Our dedicated, knowledgeable staff meets with students to determine eligibility for accommodations and discuss strategies for college success. DRS develops programs and workshops to support student retention and provides training and awareness about access and inclusion to the entire university community.

Students who connect with DRS include those with physical, visual, hearing, and speech disabilities, health, mental health, and autism spectrum conditions, attention deficits, brain injuries, and learning disabilities. We value students of all backgrounds. Many student veterans, student-athletes, honors students, and international students who have a disability connect with DRS. DRS is a free, confidential service.

Services are available at all Temple University campuses. All students, regardless of their home campus, should contact DRS on Main Campus to register. Each campus has an identified DRS liaison.

Disability Resources and Services provides the following services:

- Pre-College Information
- Intake Assessment
- Accessible housing
- Orientation and placement test accommodations
- Classroom and testing accommodations, including:
 - Note-taking support
 - Testing accommodations
 - Alternate format materials
 - Sign language interpreters and CART services
- Assistive Technology
 - Assessment, training, and short-term equipment loans

- Scholarships
- Career Development
- Mentoring and leadership development opportunities

Visit disabilityresources.temple.edu to explore our programs and services.

Military and Veteran Services Center

601 Conwell Hall
Philadelphia, PA 19122
215-204-8387
mvsc@temple.edu
Web: veterans.temple.edu

A *covered individual* is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill[®] benefits.

Newly admitted or currently enrolled students seeking to use their veteran education benefits towards tuition and fees for the first time should begin by contacting the VA at 1-888-442-4551 or visit VA.GOV for eligibility information.

Prior to enrolling at Temple University, students using Tuition Assistance should discuss the educational plan with their Educational Services Officer (ESO) or the counselor within the military service.

The Military and Veteran Services Center (MVSC) serves as a centralized resource for prospective and currently enrolled military-affiliated students seeking guidance and assistance regarding admissions to Temple, GI Bill[®] benefits, Temple's certification process, access to support services, and event coordination. Additionally, the shared physical space serves as a dedicated space for student-veterans.

The primary mission of the Military and Veterans Services Center is to provide, facilitate, or coordinate programs, events, and services for military-affiliated students. Military-affiliated students are defined as student veterans, military service members, and their family members (spouse and/or child).

See Registration (p. 40) for additional information.

Note: GI Bill[®] is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government web site at <https://www.benefits.va.gov/gibill/>.

Campus Recreation

Pearson and McGonigle Halls 048-02
Suite 303, 1800 N. Broad Street
215-204-1267
215-204-3800 (Fax)
campusrec@temple.edu
www.temple.edu/campus-recreation
twitter.com/TempleCampusRec
www.facebook.com/templecrec

Temple University Campus Recreation is the coordinating office for recreational sports programs at Main Campus. More than 4,000 students, faculty, and staff participate daily in one or more of the various activities offered by our office. These activities include intramurals (men's, women's, co-rec), sports clubs, informal recreation, special events and programs, group fitness, adapted recreation, aquatics, and student staff development.

Facilities

Independence Blue Cross Student Center (IBC) - 1701 N. 15th Street

The 59,000 square foot Independence Blue Cross Student Center (IBC) provides participants with a first-class environment for fitness conditioning, group fitness, and racquetball. The IBC also has an indoor jogging track and an outdoor multi-purpose court.

Pearson and McGonigle Halls - 1800 N. Broad Street, 3rd Floor Rec Court Area

This space provides opportunities for activities such as basketball, volleyball, badminton, table tennis, as well as an indoor golf driving range. The courts are divided by three and a half mechanical curtains that can section off specific court areas or be raised to allow for full area events.

Pearson and McGonigle Halls Pool (30) - 1800 N. Broad Street, Ground Level

Aquatics programs are held in Pearson Hall Pool 30. Pool 30 is available for scheduled recreational swimming hours with some specific hours identified for lap swimming. Other aquatics events throughout the semester include: *Swim into Shape*, *Water Aerobics*, and *Learn to Swim/Guard Classes*.

Aramark Student Training and Recreation Complex (STAR) - 1800 N. 15th Street at Montgomery Avenue, Weight Room

This space provides opportunities for a variety of fitness activities, and is the primary weight room facility on Main Campus. This location provides 8,000 sq. ft. of weight room space with state of the art equipment.

Aramark Student Training and Recreation Complex (STAR) - 1800 N. 15th Street at Montgomery Avenue, Climbing Wall

Recreational climbing is available in the Aramark Student Training and Recreation (STAR) Complex Atrium, featuring a 31 foot climbing wall and a 14 foot bouldering wall. Hours of operation will be listed on the Campus Recreation web site each semester. Equipment available for recreational use will include harnesses, carabiners, and climbing shoes. Orientations, belay certifications and climbing clinics will be offered at specified times throughout the semester. ID with valid recreation access is required to enter the climbing wall area. Limited space is available in the climbing wall area for patron access. Please Note: Due to the nature of climbing wall activities and the safety orientations required to use the wall, guest pass holders are not permitted entry into the climbing wall area. Special event activities are offered throughout the semester as well. Alterations to the normal schedule will be posted in the facilities and on the web site in advance.

Informal Recreation

Informal Recreation provides the opportunity to pursue recreational activities on an unstructured and voluntary basis. Run, swim, lift weights, or participate in other recreational activities at designated times. With fitness as the overriding theme, informal recreation is a very popular amenity available to the campus community.

Group Fitness

Group Fitness programs provide participants with a variety of choices ranging from aerobics and yoga to body toning and spinning. More than 55 sessions per week are offered by certified leaders. Campus Recreation provides participants with a dynamic array of sessions in a first-class aerobic facility.

Adapted Recreation

Extracurricular opportunities exist for students with physical disabilities. The goals of the Adapted Recreation program are to introduce students to lifelong leisure skills and to promote total participation in college life. The main focus of the program is a workout buddy program that matches students with disabilities with an able-bodied assistant to help them in their selected workout. Tennis, hand cycling, rowing and fitness conditioning are some of the available activities. If you seek advisement on recreational concerns in this area, contact our office to make an appointment.

Intramural Sports

The Intramural Program provides students with a flexible, yet structured, environment in which to participate in sport activities. Sport activities include basketball, dodgeball, flag football, field hockey, floor hockey, handball, indoor and outdoor soccer, softball, and volleyball. The sports are administered in league format with various divisions servicing men's, women's, and co-recreational teams. Teams and individuals must formally register for activities.

Sport Clubs

Sport Clubs are groups of individuals who share a common interest in a sport activity and have gained university recognition via registration procedures governed by Campus Recreation. Sport Clubs differ in scope and purpose and are classified as highly-competitive, instructional, and/or recreational. The key element to the program is that it is student-initiated and organized with an emphasis placed on participation and interest in the same activity. There are currently 31 active clubs: Badminton, Baseball, Bowling, Climbing, Cycling, Equestrian, Fencing, Field Hockey, Co-ed Gymnastics, Men's Gymnastics, Karate, Ice Hockey, Lacrosse (Men's & Women's), Paintball, Powerlifting, Roller Hockey, Rugby (Men's & Women's), Softball, Soccer (Men's & Women's), Swimming, Taekwondo, Tennis, Owls Track Club, Ultimate Frisbee (Men's and Women's), Volleyball (Men's & Women's) and Wrestling. Additional clubs are not being added at this present time. Sport Club Interest Forms and Club Contact Lists may be obtained by visiting the Campus Recreation web site or the main office in Suite 303 of Pearson and McGonigle Halls.

For further information, call Campus Recreation at 215-204-1267, or visit the department web site at www.temple.edu/campus-recreation.

Ambler Campus Recreation

The Recreation, Outdoor Education & Wellness (ROW) program at Temple Ambler offers a holistic approach to health and wellness through a range of programs including open recreation, intramural sports, teambuilding programs and special events. Facilities include a multi-purpose gymnasium and a fitness room with both cardiovascular and free-weight equipment. Outdoor facilities include the new 15-element challenge course lab, a swimming pool, and basketball, tennis and volleyball courts. The campus also has more than two miles of wooded trails for walking and running. Students may also participate in Main Campus recreational activities.

For information about Ambler Campus recreation programming and Red Barn Gym hours, email tua_row@temple.edu or call 267-468-8151.

International Student and Scholar Services

Joan McGinley, Director for Immigration Services
1938 Liacouras Walk, Suite 202
Philadelphia, PA 19122
215-204-7708 (Phone)
215-204-6166 (Fax)

iss@temple.edu | iss.temple.edu

International Student Affairs

Leah Hetzell, EdD, Director for International Student Affairs

1938 Liacouras Walk, Suite 202

Philadelphia, PA 19122

215-204-9573 (Phone)

215-204-9572 (Fax)

intl@temple.edu | iss.temple.edu/international-student-affairs

International Student and Scholar Services (ISSS) and International Student Affairs provide services and support to Temple University's international students, scholars and researchers. Serving the university's international community, these offices generate all legal documents required for nonimmigrant students and scholars; provide advisory and counseling services; serve as liaisons to university departments, U.S. and foreign government agencies, and the greater community; facilitate the orientation and acclimatization of international students and scholars into the larger Temple community; and contribute to the international community's cross-cultural understanding and appreciation. Detailed information on programs and services offered by ISSS is available from the office in 1938 Liacouras Walk, Suite 202, or the office's web site at iss.temple.edu.

Temple University requires all new and continuing international students in Nonimmigrant Student (both F-1 and J-1) status to carry health insurance that meets certain minimum standards determined by the United States Department of State. Students may purchase before arriving at the university or purchase health insurance upon arrival through the university. For further information, please contact the university's Benefits Office at 215-926-2270, e-mail StudentInsurance@temple.edu, or visit careers.temple.edu/hr-resources/our-functional-areas/benefits-administration/health-insurance-plans/student-health-0.

In addition, some international students may be required to demonstrate that they are free of active tuberculosis by submitting to Student Health Services a Tuberculosis Screening Record which has been certified by a licensed physician. International students may meet this requirement upon arrival at Temple University by taking a PPD test at Student Health Services.

All international students in Nonimmigrant Student (F-1 and J-1) status must maintain their nonimmigrant status insofar as regulations of the United States Citizenship and Immigration Services (USCIS) and the United States Department of State (DOS) are concerned. In general, students in this status must complete a full-time course load each academic term while they remain in the United States and must not accept unauthorized on-campus or off-campus employment. For detailed information, please see iss.temple.edu/students/current-students.

Eligibility for employment for individuals in Nonimmigrant Student (F-1 and J-1) status is based on regulations of the US Citizenship and Immigration Services and the Department of State. For detailed information, please see iss.temple.edu/students/current-students/student-employment-options.

A mandatory orientation session is held for new international students at the beginning of each academic term. For more information, please see the International Student and Scholar Services web site at iss.temple.edu/international-student-affairs/pre-arrival-new-students and the Office of New Student and Family Programs web site at <https://orientation.temple.edu/>.

For more information about maintaining Nonimmigrant Student (F-1 and J-1) status, please see iss.temple.edu/.

Center for American Language and Culture

Jacqueline McCafferty, Director

1938 Liacouras Walk, Suite 303

Philadelphia, PA 19122

215-204-7899 (Phone)

215-204-3892 (Fax)

tcalc@temple.edu | tcalc.temple.edu

The Center for American Language and Culture (TCALC) provides multiple English-language programs to individuals seeking to improve their English language skills to achieve academic, career or personal goals. Programs include Intensive English, Conditional Admission, Graduate Academic English, Short-term Programs, and more. In-person and online courses are available. Detailed information on programs offered by TCALC is available from the office in 1938 Liacouras Walk, Suite 303, or the office's web site at tcalc.temple.edu.

Department of Intercollegiate Athletics

owlsports.com

The Department of Intercollegiate Athletics is committed to pursuing excellence at the Division I Football Bowl Subdivision (FBS) level and providing opportunities for its diverse student-athletes to maximize their athletic, academic and life-skill potential. The department sponsors 19 sports and provides high-level coaches and administrators, whose goal is to instill a winning attitude on and off the field of play through core values such as teamwork, leadership and service to others. As one of the most visible messengers of the Temple story, the Department of Intercollegiate Athletics strives to be a unifying force for the University with the city of Philadelphia, The Commonwealth of Pennsylvania, as well as the nation. Temple University is a proud member of the National Collegiate Athletic Association, the American Athletic Conference, the Big East Conference and the EAGL.

Office of the Dean of Students

Howard Gittis Student Center, Room 304
215-204-7188
215-204-1663 (Fax)
deanofstudents.temple.edu

The mission of the Office of the Dean of Students is to engage, develop, and retain Temple students by providing them with holistic support, advocacy, and education, equipping students to succeed and thrive at Temple University. The Dean of Students office provides assistance to students and their parents/families in an effort to ensure co-curricular learning and overall collegiate success. The Dean's office also leads the University's CARE (Crisis Assessment Response and Education) Team and serves as a resource to faculty and staff who have concerns about a student. The areas which report through the Dean of Students are: CARE Team, Disability Resources and Services, New Student and Family Programs, Student Activities (including Greek Life and student government), and Student Conduct and Community Standards. The Cherry Pantry, Student Emergency Aid Fund, and transfer disciplinary checks are also managed through this office.

Office of Student Media

Howard Gittis Student Center
1755 N. 13th Street, Room 243
Philadelphia, PA 19122

Students on the Main Campus produce their own editorially-independent newspaper, *The Temple News*, during the academic year. *The Temple News* is published biweekly in print—every other Tuesday during the fall and spring semesters—and provides daily updated content online at temple-news.com, which also includes photo slide shows, videos and two podcasts: RePrint and The Playbook. The staff has continued to win prestigious regional and national awards for its work from professional organizations like the Pennsylvania Newsmedia Association, the Associated Collegiate Press, College Media Association, the Society of Professional Journalists and Editor & Publisher. Readers can follow *The Temple News* on Twitter @TheTempleNews.

Students also produce and publish *Templar*, Temple's undergraduate annual yearbook. *Templar* has been recognized by the American Scholastic Press Association with multiple national first place awards. Visit templaryearbook.com. Follow *Templar* on Twitter @TemplarYearbook.

The Claire Smith Center for Sports Media at Temple University's Klein College of Media and Communication is a world-class academic center focused on teaching, training and research in the areas of sports journalism, advertising, public relations and production. For more information: klein.temple.edu/sports-media-center.

The Office of Student Media also advises WHIP, Temple's student-run Internet radio station that broadcasts out of its studio in room 108 of the TECH Center. WHIP is an acronym that stands for "We Have Infinite Potential." The station broadcasts a wide array of programming, from news to sports to a diverse musical format, and is one of 34 featured college radio stations in iHeart Radio College Radio category. Listeners can follow WHIP on Twitter @WhipRadio and listen online at www.iheart.com/live/whip-radio-5254/.

Student Activities

Howard Gittis Student Center
1755 N. 13th Street, Room 219M
Philadelphia, PA 19122
215-204-7131
<https://studentactivities.temple.edu/owlconnect.temple.edu>
Follow us on social media @TUActivities

If you are looking for something to do on or off campus, you are in the right place! Student Activities enhances the student experience by developing and empowering students, creating opportunities for meaningful interpersonal relationships, supporting student organizations, and providing fun, engaging programs for the diverse campus community.

Student Organizations

One of the best ways to get involved is to become a member of one of our 400+ registered organizations! Student Activities works to support and empower student organizations as they enhance campus culture with their events, ideas, and leadership. The staff aims to serve as a resource and provide a path of development for students outside the classroom. With groups devoted to everything from culture to competitive dance to community service, chances are we have a registered organization for you. Our office provides these organizations with meeting spaces, financial management, programming assistance, and anything else they need to contribute to student life at Temple University. Take a look at our registered student organizations and their events by visiting owlconnect.temple.edu.

Fraternity and Sorority Life

Through fraternity or sorority involvement, students gain an opportunity for empowering one another, engaging with our community, exploring our identities, ensuring health and safety, and enhancing the co-curricular experience. The creeds and rituals that guide each individual organization are based

on values that foster an understanding of community and social responsibility. Each chapter falls under the umbrella of the Interfraternity Council, the Multicultural Greek Council, the National Pan-Hellenic Council, and the College Panhellenic.

Student Activities serves as a liaison between recognized fraternities and sororities and the greater Temple University community. We are dedicated to the holistic development of students throughout their fraternal experience and welcome you to explore the possibilities offered by involvement in fraternity and sorority life at Temple University. Follow us on Instagram at @TempleFSL.

Main Campus Program Board (MCPB)

MCPB is a student-led organization that plans the largest events on campus. From road trips to Broadway shows to campus concerts, you can help us plan any event you would like to see on campus. Follow us on Twitter @TempleMCPB or go to www.templemcpb.com to learn more about the events that will become the highlight of every Temple student's college experience!

Along with Student Activities, we help plan and implement the following University events:

- Weeks of Welcome (W.o.W.): The entire campus joins together to welcome all new and returning students to campus. A carnival, hypnotist and a 100-foot banana split have been highlights from past years!
- Homecoming and Family Weekend: Enjoy pep rallies, a golf cart parade, pageants, famous speakers and great sporting events.

Temple Student Government (TSG)

TSG serves the student body by advocating and representing their voice for the benefit of the university community while providing access to resources. All students are welcome to explore their interests through TSG and are asked to create a progressive environment by participating in university life. For more information, visit the TSG web site or follow TSG on Twitter @TempleTSG.

Student Activities Events

Interested in learning more about Student Activities' events? We've listed a few of our best programs right here!

Night Owl Events

Visit the second floor of the Student Center most Fridays from 9 PM to 12 AM for your dose of fun, food and entertainment. The events on tap for the evening are different each week, but you are guaranteed a chance to win prizes, listen to your favorite music, and eat a fulfilling snack!

Memorable Moments

Memorable Moments offers students the opportunity to meet others and explore a new country through a cultural exhibition and food at a Philadelphia restaurant. Visit one of three countries each semester and go on a memorable mini-tour of that country's offerings in or near Philadelphia. Check out our web site to find the upcoming dates.

Service Immersion Program

The Service Immersion Program is designed to actively engage Temple University students in meaningful experiences that foster cultural awareness and social responsibility through service, learning, and reflection. Service Immersion Programs include at least 6 weeks of learning sessions culminating in a 5-7 day immersive experience. The destination of each experience varies as does the social justice issue explored by each group. Program descriptions and application instructions are updated each fall and provided on our web site. Students interested in participating are encouraged to apply in the fall semester for our programs that take place in the spring semester.

Clifton Strengths

Our CliftonStrengths programming encourages students to reach their full potential through helping them identify, understand, and apply their Strengths. CliftonStrengths stems from a growth mindset, encouraging students to develop their strengths rather than focusing on their weaknesses. Gallup's CliftonStrengths Assessment is a 45-minute web-based assessment that measures natural patterns of thinking, feeling and behaving, which indicate an individual's Top Five talents out of a list of 34. This assessment provides the knowledge and vocabulary to describe an individual's strengths and the areas in which they excel. Our role is to help students further understand their top five strengths and how they can play out in their day-to-day life. Through this exploration, we can be intentional in investing in our strengths and using this knowledge to better ourselves and the world. For more information, reach out to studentactivities@temple.edu.

Ambler Campus - Student Activities and Student Government

Temple University Ambler campus offers a variety of student activities. Please visit <https://ambler.temple.edu/campus-resources/student-life>, or contact the Office of Student Life (osl@temple.edu, 267-468-8425) in Bright Hall, Room 101, for further information.

Temple University Ambler Student Government Association (ASGA) is an active student government association that oversees student concerns, policies, interests and activities. The officers of ASGA serve as a liaison between students at Ambler and the administration. Elections are held in the spring for various offices, giving students the opportunity to participate in election campaigns and promotions. For more information about ASGA, visit the Student Activities Office in Bright Hall Lounge, visit <https://ambler.temple.edu/campus-resources/student-life> or call 267-468-8429.

Student Center Operations and Conferences

Main Campus

Second Floor Mezzanine, Howard Gittis Student Center
215-204-7131
studentcenter.temple.edu/howard-gittis-student-center

Health Sciences Center

First Floor, Student Faculty Center
215-707-4017
studentcenter.temple.edu/sfc/student-faculty-center

Student Center Operations and Conferences is responsible for the management and operation of the Howard Gittis Student Center and a variety of other student-focused spaces on Temple's Main Campus, as well as the Student Faculty Center Activities and Operations office on the Health Sciences Center Campus. Our role is to fulfill the living, dining, meeting, event, programming and recreation needs for the greater campus community. To foster engagement, we offer flexible student-focused spaces, opportunities for student leadership through employment, and for student organizations to host events, programs, and meetings, and on the HSC Campus, recreation and activities programming.

On Main Campus, in the Howard Gittis Student Center, we manage the Game Room, the "Reel" Cinema, the Information Desk, the Graphics Media Center, and the Student Organizations Village. Additionally, just off the Atrium you will find the Book Store (Barnes & Noble), Philadelphia Federal Credit Union (PFCU), the UPS Store, the Office of Sustainability, and the Walker Food Court. Additionally, we manage the Great Court in Mitten Hall, multiple event spaces in Morgan Hall, and a variety of outdoor spaces including the Bell Tower and Liacouras Walk. Each year the Operations team manages, coordinates and supports over 12,000 bookings in 30 event spaces across campus.

On the Health Sciences Campus, just north on Broad Street, in the Student Faculty Center (SFC), you will find another comprehensive student center facility. The SFC manages both activities and operations with a primary focus on Health Science students, but all are welcome to attend events or programs and use our services in the building. Our office operates the HSC Recreation Center and manages all conference services needs for the SFC Conference Center and special events in the Lewis Katz School of Medicine. Student Center facilities are designed and managed with a specific focus on students; we provide avenues for leadership through employment, and facilities which foster both formal and informal involvement.

The Main Campus Student Center offers a three-story atrium as a grand entrance to a variety of Student Affairs offices and services within the building. The Dean of Students; Student Activities; Disability Resources and Services; Temple Student Government; Temple News (student newspaper); *Templar* (student yearbook); and the Cherry Pantry are all housed in the Student Center.

The Student Faculty Center also offers a Barnes & Noble bookstore location; study and informal lounges; conference rooms; game spaces; a television lounge; fitness studios; cardio, plyo and weight rooms; and intramural sports in the gymnasium. Your Temple Owl Card affords you access to the facility.

If you are interested in getting involved, finding a great place to meet and relax, or using space for your event, program or meeting, please visit us on the web at studentcenter.temple.edu, or stop by one of our offices.

Student Health and Wellness

Student Health Services

1700 N. Broad Street, Fourth Floor
215-204-7500
215-204-4660 (Fax)
studenthealth.temple.edu

Student Health Services strives to promote a high standard of health among Temple University students through programs in preventive medicine and health education, in addition to diagnosis and treatment of injury and illness. Care providers include doctors, nurse practitioners, and nurses. Services offered at the Main and Health Sciences Center campuses include basic medical care, an immunization/allergy injection clinic, sexual health services, nutritional consultation and a self-care center. Rapid COVID-19 Testing for those with symptoms of COVID-19 is available. All services are by appointment only. For appointments, please go to the Patient Health Portal or call 215-204-7500.

Student Health Fee

As part of the University Services Fee, students are charged each semester during the academic year to help subsidize the basic diagnostic and treatment services provided by health care providers at all campus locations. There are charges for services not covered by the Student Health Fee such as dispensed medications, orthopedic supplies, and immunizations. Office laboratory tests can be performed at Main and Health Sciences Center offices. At Ambler there will be a self-care area located in West Hall. Please check the Student Responsibilities (p. 42) section for further information on health fee and insurance.

Tuttleman Counseling Services

Andrew J. Lee, Psy.D., Director

1700 N. Broad Street, Second Floor
215-204-7276
215-204-5419 (Fax)
counseling.temple.edu

Tuttleman Counseling Services (TCS) is the comprehensive mental health service for Temple students. Our mission is to provide culturally informed mental health services that support the psychological health of the diverse community of Temple students. This is designed to improve students' academic success and retention. It is clear that students are dealing with a variety of major life issues as they pursue their education. These issues can include preexisting mental health concerns, questions surrounding their multiple identities, relationship problems, traumatic life experiences, and concerns about their career choices.

TCS provides time-limited and focused individual and group counseling services that are designed to help students be the best students that they can be. Psychoeducational drop-in and process groups, therapeutic yoga, mindfulness meditation groups, and the Resiliency Resource Center are available at TCS. Psychiatric services are also available for students that may benefit from medication. This foundation provides students with support and guidance for a wide variety of problems, from adjustment issues and transitory difficulties to more serious psychological problems and even severe mental illness. TCS may also provide referrals to community resources for students who require more specialized or intensive care.

TCS provides services in the following areas:

Psychological Services: Psychological Services is staffed by licensed clinicians (psychologists, social workers, and counselors) who provide brief individual, couple, and group counseling, as well as referral, consultation, and educational workshops. Some common issues that are addressed, either individually or in groups, include:

- relationship problems
- stress, depression, anxiety
- eating disorders
- loss and/or grief
- procrastination
- shyness
- academic performance
- career decisions
- family problems
- sexuality and sexually transmitted diseases
- gay, lesbian, bisexual, and transgender issues
- racism, sexism, and other forms of prejudice

The Psychological Services staff will also assist students in locating resources and other services available on campus or locally that are specific to their needs.

Psychiatric Services: Psychiatric Services is committed to caring for the mental health needs of Temple University students by providing psychiatric evaluations, medication consultations, and short-term individual psychotherapy. TCS psychiatrists will also respond to referrals from other TCS units and serve as a liaison to the Health Sciences Center. Students are seen by appointment, except in emergency situations when immediate care is required.

CASA (Campus Alcohol and Substance Awareness): The Campus Alcohol and Substance Awareness (CASA) program is a comprehensive program focusing on all aspects of alcohol and other drug use and abuse. The CASA program is staffed by counselors who work with students individually and in groups.

SACE (Sexual Assault Counseling and Education): The SACE staff provides crisis intervention, survivor advocacy, individual counseling, and groups for survivors of assault, child sexual abuse, domestic violence, and sexual harassment.

TCS is open Monday - Friday, 8:00 a.m. to 5:00 p.m. and students are able to register for services daily through our web site at counseling.temple.edu. After registering through our web portal, students will be contacted regarding next steps. TCS also offers evening hours to accommodate students who are unable to attend appointments during normal business hours. Students are generally seen by appointment, except in emergency situations when immediate care is required. Services are free and confidential for all registered Temple students. Please call 215-204-7276 for more information.

Wellness Resource Center

Alison McKee, M.Ed., Director
Student Center, Suite 201
1755 N. 13th Street
215-204-8436
tuwellness@temple.edu

wellness.temple.edu

The Wellness Resource Center (WRC) is Temple University's health promotion office, focused on helping the campus community understand wellness and ways to flourish. We do this by offering intentional learning opportunities around four areas: alcohol and other drug prevention, interpersonal violence prevention, mental well-being promotion, and sexual health promotion.

We are a team of experienced and dedicated professionals and Certified Peer Educators who work to promote wellness and create connectedness through a variety of programming and services. The Wellness Resource Center is a part of Temple University's Division of Student Affairs and strives to help students become their best selves and positively transform society.

Our Vision

Temple University students are empowered to make decisions that enable them to thrive.

Our Mission

The Wellness Resource Center offers intentional learning opportunities to promote student well-being and cultivate community.

The Wellness Resource Center team is committed to offering creative and innovative programs that give students an opportunity to learn and grow. Our services include:

- Educational workshops facilitated by HEART Certified Peer Educators.
- Organizing campus events such as WalkTU, Self-Care Fair, LoveTU, and the Clothesline Project.
- Offering free safer sex products (such as condoms and latex dams).
- Teaching a 3-credit Public Health class as training for students to become HEART Certified Peer Educators.
- Providing individual wellness consultations with our professional staff.
- Coordinating with other Temple departments to promote a healthier campus environment.
- Working with Student Conduct and Community Standards to support students assigned to CHOICES, an alcohol education workshop and BASICS, a research-based educational intervention.
- Partnering with University Housing & Residential Life to provide THRIVE: Wellness Living Learning Community.

The Wellness Resource Center also offers students opportunities to get involved as HEART peer educators. Peer education promotes well-being, cultivates community, and elevates student voices to help create change on our campus. Temple students receive influential messages from peer educators who facilitate wellness programs, participate in campus outreach, and support Wellness Resource Center initiatives. HEART Peers are nationally certified after taking SBS 2304, a 3-credit course held at the WRC each semester.

Hours are 8:30 a.m. to 5:00 p.m., Monday - Friday. Please call 215-204-8436 for more information or visit wellness.temple.edu.

Student Identification Cards

OWL Cards (student IDs) are produced on the Main Campus by the Office of New Student and Family Programs during New Student Orientation. At other times throughout the semester, ID cards are produced by the Diamond Dollars Office, located in the Howard Gittis Student Center, Suite 101. The cost of a replacement ID card is \$20.00.

An OWL Card is needed for entry into buildings, library privileges, and many university services.

ID cards also are issued on the Ambler Campus, Health Sciences Center, and on scheduled days and times at the Center City Campus.

University Services

Temple University Alumni Association

Sullivan Hall, Garden Level
Main Campus
215-204-7521
alumni@temple.edu
alumni.temple.edu

As a current Temple student, embrace your role as an alumnus/a-in-residence and plug into the Temple University Alumni Association's (TUAA) global network of more than 340,000 living alumni now—before you don a cap and gown!

Here's what it means for you:

- Opportunities to connect with alumni at upcoming events including Homecoming & Family Weekend and Temple Made Days.
- Access to the Student Alumni Association, Regional Alumni Chapters, Alumni Groups and Societies, Temple University Young Alumni Association (TUYAA) and meaningful alumni volunteer opportunities.
- Exclusive Owls-only benefits, including special offers on auto and home insurance, Temple License Plates (currently available to individuals living in Delaware, Maryland, New Jersey, or Pennsylvania), discounts on entertainment travel and access to campus recreation and the library.

Learn more about how the Student Alumni Association and TUAA provides student resources to enhance your on-campus experience. Call 215-204-7521, e-mail alumni@temple.edu, or visit alumni.temple.edu.

Bookstore

There are three Temple University Bookstore locations. Each store stocks the required books and supplies for the campus it serves. Course materials may be purchased through the bookstore's web site for home delivery or pick-up in store. A student's booklist is accessible via a link on the Student Roster in Self-Service Banner. The majority of textbooks may also be rented instead of purchased. Price Matching to various on-line retailers is also available. Please contact the store for more details. In order to maximize the number of used books available to students, the bookstore buys back from students books at the highest possible prices throughout the year. In addition to housing required course materials, all stores feature clothing, souvenirs, and giftware imprinted with the Temple name. Graduation rings can be ordered at any time. Academic regalia are available in the months preceding graduation.

You will also find a large selection of snacks, soft drinks, greeting cards, gift-wrap, posters, and health and beauty items.

During the first weeks of classes, store hours are extended at all locations. See signs posted at each location for specific hours during rush periods and semester breaks.

During the summer and semester breaks, store hours may vary. Visit the bookstore web site for more details.

Regular hours of operation are:

Main Campus

13th St. and Montgomery Ave.
The Gittis Student Center, lower level; 215-204-5578
Monday – Friday: 9:00 a.m. – 5:00 p.m.
Saturday: 11:00 a.m. – 3:00 p.m.

Law School

Barnes & Noble @ Temple University Law School Bookstore
1700 N. Broad St., Ground Floor; 215-204-0514
Monday – Thursday: 8:00 a.m. – 4:00 p.m.
Friday: 8:00 a.m. – 3:00 p.m.

Health Sciences Center

Broad and Ontario Streets
Student Faculty Center, First Floor; 215-707-3157
Monday – Friday: 9:00 a.m. – 4:00 p.m.

Department of Public Safety

Jennifer D. Griffin, Ph.D.
Vice President of Public Safety at Temple University

Temple Police Locations

Temple Police Administration, 1101 W. Montgomery Avenue, Philadelphia, PA

Temple Police Patrol/Police Headquarters, 1801 N. 11th Street, Philadelphia, PA

Temple Police Center Station, Corner of Beasley and Polett Walks, Philadelphia, PA

Temple Public Safety Station, 1513 Cecil B. Moore Avenue, Philadelphia, PA

Temple Police Mini Station, 1600 N. Park Avenue, Philadelphia, PA

Temple Police at Health Sciences Center Campus, Parkinson Pavilion, Broad and Tioga Streets, Philadelphia, PA

Temple Police at Ambler Campus, Bright Hall, Upper Dublin, PA

Emergency Phone Number for all Campuses

On Campus: 1-1234

Off Campus: 215-204-1234

The Department of Public Safety provides support to the Temple community 24 hours a day, 365 days a year. Public Safety is a multi-faceted team consisting of law enforcement officers, security personnel and certified dispatchers. Police officers are visible patrolling the campus and surrounding vicinity on foot, on bike and in vehicles. Security officers work closely with police officers to monitor the patrol area and are on bicycles, as well as stationed in all university buildings to monitor access and provide assistance to staff, students, and guests. In our communication center, dispatchers coordinate operations in responding to service requests and emergency calls using state-of-the-art technology and a directly integrated system with the Philadelphia Police 911 system.

The Department of Public Safety also offers a variety of programs and services to support you, including the Flight shuttle service and Walking Escort Program. Visit Campus Safety Services for further information.

We encourage you to sign up for emergency notifications and become familiar with emergency preparedness and evacuation procedures. The Annual Security and Fire Safety Report contains information about policies, procedures, safety awareness planning and Clery compliance.

e-mail: police@temple.edu

University Housing & Residential Life

1910 Liacouras Walk

(P) 215-204-7184, option #2

(F) 215-204-3261

housing.temple.edu

Residence halls on Main campus provide an opportunity to extend your learning experiences beyond the classroom, library, and laboratory.

Living on campus provides opportunities for you to intentionally explore yourself, others, and the world around you. University Housing & Residential Life works to create living environments in which each student is encouraged to develop as an individual in an atmosphere that promotes emotional, social, and intellectual growth. In addition, University Housing & Residential Life is committed to creating community-living environments that value and promote an appreciation for diversity of cultures, lifestyles, and people. Campus leaders in the residence halls want to get to know you, help connect you to Temple, and connect you to the community around you.

Please check the University Housing & Residential Life web site for additional information on residential services available. The University Housing & Residential Life web site also provides online resources to assist with locating off-campus housing.

All students are also able to purchase meal plans. All new students living in residence halls are required to purchase meal plans. For more information, visit the Dining and Meal Plan section of the housing web site. Additional information is available in the Temple Culinary Services section below and on our food service provider's web site.

Temple Culinary Services

temple.campusdish.com/

Temple Culinary Services offers a variety of meal plans and dining locations to accommodate every student's unique schedule and dining needs.

Locations

We have a variety of dining locations for students to enjoy, offering two dining halls, two food courts, coffee shops, and cafés—all conveniently located across campus. For a list of all locations and hours of operation, visit www.temple.campusdish.com/locationsandmenus.

Meal Plans

A campus meal plan will help keep you focused on the things that matter most, like your coursework. It will also make your experience easier without having to plan, shop, cook, and clean up after every meal. Signing up in the beginning of the semester through the TU Portal gives you peace of mind knowing you have a plan in place.

Meal plans offer access to J&H and Morgan dining halls; they also allow you to dine in retail locations like Chick-fil-A®, Panda Express®, Saladworks®, Starbucks®, and more!

Meal plans offer several functions to give you flexibility—no matter where you get hungry on campus: *Board Swipes* for Dining Halls, *Meal Equivalencies* for select retail locations, and *Diamond Dollars* to cover additional balances.

What kind of meal plans are available?

- **Meals per Week Plans** offer a set number of meals to be used each week during the semester.
- **Block Plans** provide a set number of meals to be used the entire semester.

For more information about our meal plans options, visit temple.campusdish.com/mealplans.

Am I required to have a meal plan?

If you are a first year student living in on-campus housing, or a transfer student residing on-campus, you are required to purchase a minimum meal plan of 10 meals per week.

Parking Services

Office of Parking Services
Montgomery Garage, First Floor (Main Campus)
1859 North 11th Street
Philadelphia, PA 19122
215-204-5301
parking@temple.edu
campusoperations.temple.edu/parking-transportation

Temple University has a variety of parking options at its Main, Health Sciences Center, and Ambler campuses. For its Center City campus, Temple has negotiated parking discounts with nearby garages.

Semester Parking is available for students who park frequently and/or need overnight parking.

Commuter Parking is best for students who need daily parking but do not need overnight access. These permits provide access to one assigned facility Monday–Friday 7:00 AM to 10:45 PM and are \$266 per semester. We also offer 7-day commuter permits, which provide weekend parking with the same time constraints and are \$306. Commuters can park in the Diamond Street Lot, Norris Street Lot, Temple Towers Lot, Bell Garage, Liacouras Garage or Montgomery Garage on Main Campus, or the Battersby Lot at the Health Sciences Center.

Overnight Parking is available for students who need 24/7 parking access. These permits are \$426 per semester and are assigned to the Tyler Lot, Temple Towers Lot, Bell Garage, Liacouras Garage, or Montgomery Garage on Main Campus, or the Carlisle West Garage at the Health Sciences Center.

Flex parking is available for students who park infrequently.

Flex Parking is our pay-per-entrance option, best for students who come to campus no more than twice a week. These parkers are assigned to either the 15th Street Lot, Norris Street Lot, the Liacouras Garage, or the Montgomery Garage. Flex parkers pay \$12 per entry, which is automatically deducted from their TU Parking Account when they swipe or tap their Temple OWLcard or use the mobile OWLcard. Funds must be added to the parking account prior to use. Attempting to park without sufficient funds on the parking account will result in the assessment of the daily rate. Funds can be managed on the TU Parking Account site.

Please note: Flex parkers must renew their parking semiannually in July and January. Parking Services will notify students prior to expiration.

Ambler Campus parkers must purchase a permit.

Ambler students have the option to pay \$95 for the entire academic year (September through August) or \$65 per semester. Students with semester parking at Main or HSC campuses receive complimentary parking at Ambler campus. However, students with only Ambler permits will need to register for Flex parking if they need to park at Main or HSC campuses occasionally.

Parking Guidelines

Your parking permit and Temple OWLcard (or mobile OWLcard) are the mechanisms that control access to your assigned parking area. Failure to display your permit may result in a citation. Availability of areas and parking assignments are subject to change during summer, holidays, inclement weather, and some special events.

You can sign up for parking by visiting the TU Parking Account.

Visitor Parking

Visitors to Main Campus have **hourly parking** options in the Montgomery Garage or the Cecil B. Moore Lot for \$6 per hour, or the Tuttleman Lot for \$7 per hour. Additionally, **daily parking** is available in the Liacouras Garage, Diamond Street, Norris Street and Temple Towers Lots when you pull a ticket and pay upon exit. The 15th Street Lot requires you to pay upon entrance to the parking attendant.

We pride ourselves in providing affordable, convenient, and secure parking to the Temple community, and look forward to having you as a customer!

All parking rates are subject to change. Parking Services reserves the right to close facilities due to underutilization and reassign parkers as needed.

Shuttle Services

Shuttle Operations Department
215-204-7955
shuttle@temple.edu
campusoperations.temple.edu/parking-transportation/shuttle-services

Shuttles transport students, faculty and staff members within Temple University's Main Campus patrol zone (via Flight) and among Main Campus, the Health Sciences Center (HSC) Campus, and Ambler Campus.

Flight is Temple's nighttime fixed-route shuttle loop service. Flight-branded shuttles circulate throughout the areas within and surrounding the Main Campus patrol zone, and pick up and drop off students, faculty and staff members at each of its over 40 stops. The shuttles arrive approximately every 15 minutes at each stop. Shuttles operate 7 days per week from 6 p.m. to 2 a.m. from August 26, 2023 through the end of the spring semester. The service continues to operate in a modified form during university breaks. More information can be found at campusoperations.temple.edu/parking-transportation/shuttle-services/flight.

Temple University also provides daily shuttle transit services to and from Ambler Campus, Health Sciences Center and Main Campus during the fall and spring semesters, but there is no service during the fall break, winter break, spring break or during the summer. The service is offered at no charge to all students, faculty and staff of the University with a valid Temple ID. All scheduled departures, in addition to the Main and Ambler Campuses, stop at the Health Sciences Center on Broad Street. Please check the Shuttle Services web page for a schedule of shuttle services for each route. Information on these schedules may also be obtained at the Office of Parking Services or Campus Safety Services.

University Requirements: General Education

The General Education (GenEd) curriculum is the required curriculum for undergraduate students. Every Temple undergrad completes GenEd requirements in order to graduate. GenEd requirements:

- prepare students for college-level studies;
- give students an opportunity to explore new ideas, different perspectives on important topics, and possible majors, minors and certificates;
- and prepare students for career success following graduation.

In a survey of over 500 business executives and hiring managers, respondents reported that skills and knowledge that cut across disciplines are critical for career advancement. Competencies identified by employers as most important for schools and colleges to develop include oral and written communication, critical thinking, ethical judgment and applying skills and knowledge across a variety of contexts. These are the very competencies the GenEd curriculum is designed to promote.

In this section:

- Program Competencies (p. 83)
- Program Framework (p. 84)
- General Education Policies and Requirements (p. 85)
- General Education Waivers (p. 86)
- List of GenEd Courses by Area (p. 89)

Program Competencies

GenEd facilitates linkages by stressing the development of eight competencies rather than content knowledge. GenEd provides opportunities for students to engage in:

Critical Thinking

Think critically

Within GenEd, students who think critically recognize an object of investigation, frame questions about it, and interrogate assumptions—explicit or implicit. Critical thinking includes the evaluation of evidence, analysis and synthesis of multiple sources, and reflection on varied perspectives. Critical thinking generates a well-developed investigation that incorporates supporting and countering claims. A student engaged in critical thinking produces an informed account, a hypothesis for further study, or the solution to a problem.

Contextualized Learning

Understand historical and contemporary issues in context

Within GenEd, students who contextualize learning understand and integrate historical, contemporary, and cultural phenomena and their underlying principles in two broad applications. First, contextual learners recognize the interaction of complex forces that give rise to specific phenomena. Second, contextual learners understand and analyze related events, artifacts, practices and concepts across geographic, chronological and cultural boundaries.

Interdisciplinary Thinking

Understand and apply knowledge in and across disciplines

Within GenEd, students who use interdisciplinary thinking recognize the world presents problems, topics, or issues too complex to be satisfactorily addressed through a single lens. Thus, interdisciplinary thinkers apply multiple perspectives, paradigms, and frameworks to problems, topics, or issues.

Communication Skills

Communicate effectively orally and in writing

Within GenEd, students who communicate effectively use spoken and written language to construct a message that demonstrates the communicator has established clear goals and has considered their audience. Effective messages are organized and presented in a style appropriate to the context.

Scientific & Quantitative Reasoning

Identify and solve problems using scientific and quantitative reasoning

Within GenEd, students who exercise quantitative and scientific reasoning use and apply these reasoning processes to explain phenomena in the context of everyday life. Quantitative reasoning includes statistical and/or logical problem-solving, the relationships between quantities, and the use

and misuse of quantitative data. Scientific reasoning introduces students to the evolution and interdependence of science and technology and includes problem identification, hypothesis evaluation, experimentation, interpretation of results and the use and misuse of scientific data.

Civic Engagement

Function as an engaged citizen in a diverse and globalized world

Within GenEd, students open to civic engagement view themselves as connected to local and global communities where they participate in activities that address issues of public concern. Critically engaged students define issues, pose, probe, and solve problems with an awareness of and an inclusion of diverse values and interests.

Information Literacy

Identify, access and evaluate sources of information

Within GenEd, information literacy encompasses a broad spectrum of abilities, including the ability to recognize and articulate information needs; to locate, critically evaluate, and organize information for a specific purpose; and to recognize and reflect on the ethical use of information.

Lifelong Learning

Promote a lasting curiosity

GenEd cultivates these skills and abilities throughout the required undergraduate curriculum, and students will experience these ways of being through readings, discussions, activities, and classes throughout GenEd.

Program Framework

The General Education curriculum introduces students to nine areas of learning and a total of eleven courses, divided into Foundation courses and Breadth courses.

Foundation Courses

General Education Attribute	Area	Requirement
GW	Analytical Reading & Writing	1 course, 4 credit hours
GQ	Quantitative Literacy	1 course, 4 credit hours
GY	Intellectual Heritage I	1 course, 3 credit hours
GZ	Intellectual Heritage II	1 course, 3 credit hours

Course Sequencing

Students are advised to take the three-semester sequence formed by *Analytical Reading & Writing*, *Intellectual Heritage I* and *Intellectual Heritage II* as soon as possible after entering Temple. Students normally complete their *Intellectual Heritage* requirements soon after completing *Analytical Reading & Writing*. Students may take *Intellectual Heritage I* and *Intellectual Heritage II* in any order.

GenEd also considers Quantitative Literacy a foundational course. Accordingly, students are advised to take a GenEd Quantitative Literacy course as soon as possible after entering Temple and before enrolling in Science & Technology courses.

Breadth Courses

General Education Attribute	Area	Requirement
GA	Arts	1 course, 3 or 4 credit hours
GB	Human Behavior	1 course, 3 credit hours
GD	Race & Diversity	1 course, 3 credit hours
GG	World Society	1 course, 3 credit hours
GS	Science & Technology	2 courses, 3 credit hours each
GU	U.S. Society	1 course, 3 credit hours

Finding GenEd Courses

Each General Education area has a list of courses that satisfy the requirements for that area. Click on the GenEd area in this list (p. 89) to find a description of the area and the list of courses approved to fulfill that area requirement.

To find GenEd courses offered in a given semester or term, students may locate the information in two primary ways:

- Go directly to the Class Schedule Search page on the university's web site. Select a semester and click Advanced Search. Use the Attribute filter to find GenEd courses that are available in each GenEd area.

- Go to the TUportal. Students must log onto the TUportal with their username and password. Select the **Student** tab. Select **Browse Class Schedule** in the Registration channel. Select a semester and click Advanced Search. Use the Attribute filter to find GenEd courses that are available in each GenEd area.

Click here for a tutorial on searching for GenEds.

General Education Policies and Requirements

In general, students should be aware of the following:

Every Temple undergraduate fulfills the requirements of the General Education Curriculum in some way.

- Students entering Temple with fewer than 45 transfer credits complete the full General Education Curriculum.
- Students with 45 or more transferable credits satisfy the 45+ GenEd Curriculum. (See Transfer Students and the University General Education Curriculum (p. 27))
- Students with an Associate degree approved for GenEd-to-GenEd, Core-to-GenEd, or Core-to-Core Transfer meet most GenEd requirements with the general education courses taken for the Associate degree. Associate degrees are approved for GenEd-to-GenEd, Core-to-GenEd, and Core-to-Core Transfer by two university-wide faculty committees. See Transfer Students and the University General Education Curriculum (p. 27) for information on the policy and a list of approved community college Associate degrees.

A GenEd course counts in one GenEd area only.

All GenEd courses must be completed with a grade of C- or higher to satisfy a GenEd requirement.

All GenEd course numbers begin with "08XX." GenEd Honors course numbers begin with "09XX." Students may use only Temple University courses at the 0800- and 0900-levels or specified waiver courses to satisfy General Education requirements. See the Transfer Students and the University General Education Curriculum (p. 27) section of this *Bulletin* for information on completing GenEd requirements with transfer credits.

In GenEd, courses may be offered in multiple departments. These courses, regardless of the sponsoring department, are the same course and will have the same number and course title.

Repeat & Withdraw Policy

Students should be aware that opportunities are limited for repeating a course to replace a failing grade under University policy. Repeating a Course (#02.10.12) prohibits students from retaking a course more than twice unless the course is specifically designated as a course that may be taken for credit multiple times.

If in the allotted number of repeats, undergraduate students are unable to successfully complete the following university requirements (including their course equivalencies), they will be required to meet with their advisor prior to registering for any further classes:

- **GW Analytical Reading & Writing**
- **GY Intellectual Heritage I**
- **GZ Intellectual Heritage II**

If a student drops a class after the official drop/add period, a "W" will appear on the student's transcript to indicate the student withdrew from the course. A course withdrawal or a "W" is counted as an attempted repeat.

Departments, Majors, Minors and GenEd

GenEd courses may not be **required** introductions to a specific major or minor. A GenEd course may be accepted by a major or minor to fulfill elective requirements.

Departments and colleges may not single out a specific GenEd course as a requirement.

A curriculum or degree program may identify a GenEd course as part of an array for its majors or minors. (An array is defined as a set of options from which the student may choose. The array must present at least three alternate options for any one GenEd course chosen.) Courses in an approved array may satisfy both the General Education requirement and the degree, minor or certificate requirement.

A student may use no more than two courses from a single department to satisfy GenEd requirements. (Foundation and transfer courses are excluded.)

Early Progress Reports

All GenEd course instructors will submit Academic Progress Reports.

Credit/No Credit

Students may not take GenEd courses for credit/no credit.

Limited Edition GenEd Courses

Beginning spring 2019 and thereafter, students may fulfill GenEd requirements by completing Limited Edition GenEd courses. Limited Edition GenEd courses are designed to encourage innovation in teaching, and to accommodate special topics such as guest lecture series or classes involving community partnerships. They are approved to be offered no more than three times. For this reason, there is no guarantee that a student will be able to repeat a GenEd Limited Edition course. In some cases, it may be possible for a student to repeat a Limited Edition course that is in its second or final semester of offering, however, students must be registered by an advisor.

General Education Waivers

Select waivers have been adopted in recognition of repetitive and substantial exposure to key habits of mind, skills, and/or bodies of knowledge and for which programs have submitted requests.

Once a student fulfills a GenEd requirement with an approved waiver—a placement test, course or series of courses—the waiver follows the student. Advisors will need to process DARS exceptions for students who complete a waiver identified with a particular major/school/college but are not in the identified major/school/college.

If a waiver for a GenEd requirement is comprised of a series of courses, students must successfully complete all courses to receive the waiver. Courses must be completed with a C- or better to satisfy GenEd waiver requirements. Departments, schools and/or colleges may stipulate a higher grade to satisfy its own requirements.

Quantitative Literacy (GQ)

Students considering undergraduate degrees with advanced mathematical or statistical requirements may satisfy the GenEd Quantitative Literacy requirement through alternative coursework.

This requirement may be satisfied by successfully completing one of the following:

- Any General Education Quantitative Literacy (GQ) course.
- MATH 1031, MATH 1038, MATH 1041, MATH 1042, MATH 1941, MATH 1942, or MATH 2043.
- STAT 2101, STAT 2103, STAT 2901, STAT 2903 or an equivalent transfer course (primarily for FSBM and STHM majors and FSBM minors).
- Completion of a three-course sequence to include 1) MATH 1015, 2) MATH 1021 or EDUC 1016 and 3) ECED 3107 (primarily for Early Childhood Education majors). *All courses must be completed to receive waiver with a C- or better.*
- Completion of a four-course sequence to include MATH 1015, MATH 1021, MATH 1022, and MGSE 3404 (primarily for Middle Grades Education majors concentrating in Language Arts, Science, Science and Language Arts, and Social Studies). *All courses must be completed to receive waiver.*

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for more information.

Arts (GA)

Students pursuing undergraduate degrees in the Boyer College of Music and Dance and the Tyler School of Art and Architecture may be exempted from the GenEd Arts requirement upon completion of collegiate requirements.

Boyer College of Music and Dance

Students may satisfy the GA requirement by completing one of the following four-course sequences:

- DANC 1811, DANC 2813, DANC 2814 and DANC 3812. *All courses must be completed to receive waiver.*
- MUST 1711, MUST 1712, MUST 2711, and MUST 2712. *All courses must be completed to receive waiver.*
- A transfer course or courses equivalent to the waivers described in the bullets above.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for more information.

Tyler School of Art and Architecture

Students in the following degree programs at Tyler School of Art and Architecture may satisfy the GA requirement by successfully completing a specified multi-course sequence:

Bachelor of Arts in Art Therapy
Bachelor of Arts in Visual Studies
Bachelor of Science in Education in Art Education
Bachelor of Fine Arts

ARTH 1156, and FDPR 1511 or VS 1151. *All courses must be completed with a C- or better to receive waiver.*

TUJ students in the BA in Art degree program may satisfy the GA requirement by successfully completing the following set of courses:

ARTU 1201, ARTU 1401, ARTU 1402 and ARTU 1501. *All courses must be completed with a C- or better to receive waiver. Note that this specific waiver is only for TUJ students in the BA in Art degree program.*

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements. Consult an academic advisor for details.

School of Theater, Film and Media Arts

Students may satisfy the GA requirement by successfully completing the following three-course sequence:

Theater Majors:

THTR 1003, THTR 1096, and THTR 1231. *All courses must be completed with a C- or better to receive the waiver.*

Musical Theater Majors:

THTR 1096, THTR 1202, and THTR 1231. *All courses must be completed with a C- or better to receive the waiver.*

Human Behavior (GB)

Students pursuing undergraduate and/or professional degrees in education may be exempted from the GenEd Human Behavior requirement upon completion of collegiate and/or degree requirements.

A student successfully satisfies the GenEd Human Behavior requirement upon completion of one of the following multi-course sequences:

- EDUC 2109, SPED 2231, and TESL 3631. All courses must be completed with a C- or better to receive the waiver.
- ECED 2101, SPED 2231, and TESL 3631. All courses must be completed with a C- or better to receive the waiver.
- EDUC 2179, MGSE 2189, MGSE 4189, and MGSE 3796. All courses must be completed with a C- or better to receive waiver.

Consult an academic advisor for more information.

Science & Technology (GS)

Many majors and programs of study require substantive studies of science to develop the expertise necessary in their fields. The sciences include studies of anatomy and physiology in human health, chemistry as the basis of human health, matter and motion, and natural phenomena. General Education would like to accommodate those students interested in pursuing such studies and have developed, in conjunction with the College of Science & Technology, a number of two-semester course sequences that would exempt students from the GenEd Science & Technology requirement.

Therefore, students considering undergraduate degrees with scientific, engineering or technical components may satisfy the GenEd Science & Technology requirement through alternative coursework. (See waiver information below.)

A student successfully satisfies the GenEd Science & Technology requirement upon completion with a C- or better any of the following two-course sequences:

- BOT 1111 — HORT 2114
- BIOL 1011 — BIOL 1012
- BIOL 1111 — BIOL 1112
- BIOL 1111 — BIOL 2112
- BIOL 1911 — BIOL 1912 (honors)
- BIOL 1911 — BIOL 2912 (honors)
- CHEM 1021 & CHEM 1023 — CHEM 1022 & CHEM 1024
- CHEM 1031 & CHEM 1033 — CHEM 1032 & CHEM 1034
- CHEM 1951 & CHEM 1953 — CHEM 1952 & CHEM 1954 (honors)
- EES 1001 — EES 2011
- EES 1001 — EES 2021
- EES 1001 — EES 2022
- EES 1001 — EES 2061

- EES 2001 — EES 2011
- EES 2001 — EES 2021
- EES 2001 — EES 2022
- EES 2001 — EES 2061
- KINS 1221 — KINS 1222
- KINS 1223 — KINS 1224
- PHYS 1001 — PHYS 1004
- PHYS 1021 — PHYS 1022
- PHYS 1061 — PHYS 1062
- PHYS 2021 — PHYS 2022
- PHYS 2921 — PHYS 2922

Students who change their course of study prior to completing the second course of any of the specified two-course sequences may complete their GenEd Science & Technology requirement by earning a C- or better with:

- One GenEd GS course and one course from either **List I** or **List II**, or
- One course from **List I** and one course from **List II**

List I

- BOT 1111
- BIOL 1011
- BIOL 1111
- BIOL 1911 (honors)
- CHEM 1021 & CHEM 1023
- CHEM 1031 & CHEM 1033
- CHEM 1951 & CHEM 1953 (honors)
- EES 1001
- EES 2001
- KINS 1221
- KINS 1223
- PHYS 1001
- PHYS 1021
- PHYS 1061
- PHYS 2021
- PHYS 2921

List II

- HORT 2114
- BIOL 1012
- BIOL 1112
- BIOL 1912 (honors)
- BIOL 2112
- BIOL 2912 (honors)
- CHEM 1022 & CHEM 1024
- CHEM 1032 & CHEM 1034
- CHEM 1952 & CHEM 1954 (honors)
- EES 2011
- EES 2021
- EES 2022
- EES 2061
- KINS 1222
- KINS 1224
- PHYS 1004
- PHYS 1022

- PHYS 1062
- PHYS 2022
- PHYS 2922

Consult an academic advisor for more information.

Global/World Society (GG)

The Global/World Society requirement may be waived if any of the following guidelines have been met:

- a student enrolled at any Temple campus successfully completes (with a C- or better) credit-bearing coursework worth at least three semester hours in an approved summer or semester study abroad program with a minimum stay abroad of 28 days.
- a student who has participated in a credit-bearing study abroad program with a minimum stay abroad of 28 days before matriculation to Temple provides a transcript with evidence of transferable college-level credit (with a C- or better).
- a student enrolled at Temple Japan successfully completes (with a C- or better) credit-bearing coursework worth at least three semester hours at a Temple U.S. campus with a minimum stay abroad of 28 days.
- a student enrolled at any campus provides a transcript with an international study abroad experience in which at least three semester hours of coursework (with a C- or better) transferred to Temple.
- a U.S. campus admit is a Foreign National student whose permanent residence at the point of admission is outside of U.S. boundaries.
- a Japan campus admit is a Foreign National student whose permanent residence at the point of admission is outside of Japanese boundaries.
- a Temple Rome Entry Year student enrolls at Temple Japan or a Temple U.S. campus after having successfully completed (with a C- or better) credit-bearing coursework at Temple Rome worth at least three semester hours with a minimum stay abroad of 28 days.
- a student successfully completes (with a C- or better) the Latin American Studies Semester (LASS).

Consult an academic advisor for details.

List of GenEd Courses by Area

- Analytical Reading and Writing (GW) (p. 89)
- Intellectual Heritage I and II (GY & GZ) (p. 95)
- Quantitative Literacy (GQ) (p. 95)
- Arts (GA) (p. 90)
- Global/World Society (GG) (p. 92)
- Human Behavior (GB) (p. 93)
- Race & Diversity (GD) (p. 96)
- Science & Technology (GS) (p. 98)
- U.S. Society (GU) (p. 100)

Analytical Reading & Writing (GW)

Requirement: One 4-credit hour course.

Writing Placement: Detailed information on placement into ENG 0701, ENG 0711, ENG 0802, and ENG 0812 can be found on the Placement Assessments page (p. 1859) of the *Bulletin*.

This course should be taken as soon as possible—ideally in the first semester, but certainly in the first year.

This course addresses the following competencies:

Critical Reading and Thinking

Students can read for the purposes of careful analysis and critique, evaluate both the evidence and reasoning in an academic text, and see relationships (explicit and implicit) between and among multiple texts; they can raise meaningful questions, compare ideas, and extract underlying assumptions.

Self-reflection

Students are able to reflect, seriously and critically, on their own writing processes as well as their written work.

Rhetorical Strategies

In academic writing, students can:

- Define key terms for specific purposes.
- Summarize the ideas and arguments of others.
- Make meaningful comparisons between ideas.
- Analyze and respond to the needs of a specific task/audience.

Argumentation

Students can take a position, marshal and organize relevant evidence, and respond to opposing views.

Revision

Students can substantively revise earlier written work.

Correctness

In their finished papers, students demonstrate a reasonable degree of both fluency and competence with Standard English, and ESL students should demonstrate marked improvement in these areas. All students should be able to effectively edit their own work.

Analytical Reading & Writing Courses

- Analytical Reading & Writing ENG 0802
- English as a Second Language (ESL) Analytical Reading & Writing ENG 0812
- Honors Writing About Literature ENG 0902

Find out more about Analytical Reading and Writing at <https://liberalarts.temple.edu/academics/departments-and-programs/english/undergraduate/first-year-writing-program>.

Arts (GA)

Requirement: One 3-credit or 4-credit hour course.

GenEd Arts courses develop artistic literacy. Courses may be centered on one of the arts (e.g. dance, fine arts, music), may be interdisciplinary in nature (e.g. creative writing and theater, film and dance), or may address larger themes (e.g. creativity, the arts and political statement, technology and the arts), but all Arts courses make some connection to other perspectives, disciplines, or subject areas.

GenEd Arts courses are intended to teach students how to:

- Experience and respond to a work of art or creative process;
- Recognize or interpret a work of art or creative process in its social, historical and cultural context;
- Describe or evaluate a work of art or creative process using appropriate terminology;
- Demonstrate an "appreciation" for the value of art in our lives and in society; and
- Function as a member of an audience.

Arts Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

- Art Matters: Ideas in Art and Architecture ARTH 0808

Waiver

Students pursuing undergraduate degrees in the Boyer College of Music and Dance and the Tyler School of Art and Architecture may be exempted from the GenEd Arts requirement upon completion of collegiate requirements.

Boyer College of Music and Dance

Students may satisfy the GA requirement by successfully completing one of the following four-course sequences:

- DANC 1811, DANC 2813, DANC 2814, and DANC 3812. All courses must be completed to receive waiver.
- MUST 1711, MUST 1712, MUST 2711, and MUST 2712. All courses must be completed to receive waiver.
- A transfer course or courses equivalent to the waivers described in the bullets above.

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Tyler School of Art and Architecture

Students in the following degree programs at Tyler School of Art and Architecture may satisfy the GA requirement by successfully completing a specified multi-course sequence:

Bachelor of Arts in Art Therapy

Bachelor of Arts in Visual Studies

Bachelor of Science in Education in Art Education

Bachelor of Fine Arts

ARTH 1156, and FDPR 1511 or VS 1151. All courses must be completed with a C- or better to receive waiver.

TUJ students in the BA in Art degree program may satisfy the GA requirement by successfully completing the following set of courses:

ARTU 1201, ARTU 1401, ARTU 1402 and ARTU 1501. All courses must be completed with a C- or better to receive waiver. Note that this specific waiver is only for TUJ students in the BA in Art degree program.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Consult an academic advisor for details.

School of Theater, Film and Media Arts

Students may satisfy the GA requirement by successfully completing the following three-course sequence:

Theater Majors:

THTR 1003, THTR 1096, and THTR 1231. All courses must be completed with a C- or better to receive the waiver.

Musical Theater Majors:

THTR 1096, THTR 1202, and THTR 1231. All courses must be completed with a C- or better to receive the waiver.

Global/World Society (GG)

Requirement: One 3-credit hour course.

GenEd Global/World Society courses explore societies and cultures outside of the United States. These courses take one of two approaches. Some concentrate on a single nation or region, examining in depth its political, social, historical, cultural, artistic, literary, geographic, and/or economic landscape. Others investigate globalization and its effects across nations and regions.

Global/World Society courses are intended to teach students how to:

- Understand the influences (e.g. political, social, historical, cultural, artistic, literary, geographic, economic) on world societies or processes (e.g. globalization) linking world societies;
- Access and analyze materials related to world societies and cultures;
- Develop observations and conclusions about selected themes in world societies and cultures;
- Construct interpretations using evidence and critical analysis; and
- Communicate and defend interpretations.

Global/World Society Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

- a Temple Rome Entry Year student enrolls at Temple Japan or a Temple U.S. campus after having successfully completed (with a C- or better) credit-bearing coursework at Temple Rome worth at least three semester hours with a minimum stay abroad of 28 days.
- a student successfully completes (with a C- or better) the Latin American Studies Semester (LASS).

Consult an academic advisor for details.

Human Behavior (GB)

Requirement: One 3-credit hour course.

GenEd Human Behavior courses address the relationships between individuals and communities. Courses may focus on the relationship between individuals and communities in general or may engage those relationships from specific perspectives (such as art, music, education, religion, economics, politics or education), or look at them within specific themes (such as food & eating, crime, crisis, sexuality, or adolescence).

Human Behavior courses are intended to teach students how to:

- Understand relationships between individuals and communities;
- Understand theories or explanations of human behavior used to describe social phenomena;
- Examine the development of individuals' beliefs, behaviors, and assumptions and how these affect individuals and communities;
- Apply one disciplinary method to understand human behavior or explain social phenomena;
- Access and analyze materials related to individuals, communities or social phenomena; and
- Compare and contrast similar social phenomena across individuals or communities.

Human Behavior Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

Waiver

Students pursuing undergraduate degrees in education, including art, middle or secondary certifications, may be exempted from the GenEd Human Behavior requirement upon completion of collegiate requirements.

A student will be waived from the GenEd Human Behavior requirement upon completion of one of the following multi-course sequences:

- EDUC 2109, SPED 2231, and TESL 3631. All courses must be completed with a C- or better to receive waiver.
- ECED 2101, SPED 2231, and TESL 3631. All courses must be completed with a C- or better to receive waiver.
- EDUC 2179, MGSE 2189, MGSE 4189, and MGSE 3796. All courses must be completed with a C- or better to receive waiver.

Consult an academic advisor for more information.

Intellectual Heritage (GY & GZ)

Requirement: *Intellectual Heritage I: The Good Life* (3 credits) and *Intellectual Heritage II: The Common Good* (3 credits). Students normally complete their Intellectual Heritage requirements soon after completing Analytical Reading & Writing. Students may take Intellectual Heritage I and Intellectual Heritage II in any order.

The Intellectual Heritage (IH) curriculum introduces students to intellectually and artistically influential works, both ancient and modern, from cultures around the world. In small seminars, students read and discuss books that have shaped the ways people think and act, working together to interpret their historical significance, their relation to one another, and their relevance today. IH asks students to discover and debate timeless questions of human experience, to face different values and viewpoints fairly, and to examine the present in relation to the past. The attitudes cultivated in IH — thoroughness, open-mindedness, intellectual courage, and vision — prepare today's students, tomorrow's citizens, for lasting learning and engaged lives.

Intellectual Heritage courses are defined by the following area competencies:

- The seminar experience: Students will share ideas, ask questions, and actively listen to peers in a free and honest exchange of multiple viewpoints.
- Communication and critical thinking: Students will sharpen analysis and argumentation skills through a variety of expressive modes.
- Ethical reasoning: Students will evaluate the historical, social, and cultural bases of prevailing beliefs.
- Diversity & Universality: Students will investigate fundamental questions of human experience from a variety of perspectives.
- Connecting texts to world: Students will make connections between historical texts about human existence and current moral, social, and political issues.

Intellectual Heritage Courses

- Intellectual Heritage I: The Good Life IH 0851
- Intellectual Heritage II: The Common Good IH 0852
- Honors Intellectual Heritage I: The Good Life IH 0951
- Honors Intellectual Heritage II: The Common Good IH 0952

Find out more about Intellectual Heritage at <https://liberalarts.temple.edu/academics/departments-and-programs/intellectual-heritage>.

Quantitative Literacy (GQ)

Requirement: One 4-credit hour course.

Math Placement: Detailed information on placement into MATH 0701/MATH 0702, and GenEd Quantitative Literacy (GQ) can be found on the *Bulletin's* Placement Assessments page (p. 1859).

A student placed in MATH 0701/MATH 0702 is required to complete successfully MATH 0701 or MATH 0702 (for students who need to take a higher course in the MATH sequence) before enrolling in a GenEd Quantitative Literacy course or GenEd Science & Technology courses, as these courses require students to understand and perform basic computational skills.

GenEd Quantitative Literacy courses present mathematical thinking as a tool for solving everyday problems and as a way of understanding how to represent aspects of a complex world. They are designed to prepare students as citizens and voters to have the ability to think critically about quantitative statements, to recognize when they are misleading or false, and to appreciate how they relate to significant social or political issues. While computation may be part of a Quantitative Literacy course, the primary focus is not computational skills.

Quantitative Literacy courses are intended to teach students how to:

- Understand quantitative models that describe real world phenomena and recognize limitations of those models;
- Perform simple mathematical computations associated with a quantitative model and make conclusions based on the results;

- Recognize, use, and appreciate mathematical thinking for solving problems that are part of everyday life;
- Understand the various sources of uncertainty and error in empirical data;
- Retrieve, organize, and analyze data associated with a quantitative model; and
- Communicate logical arguments and their conclusions.

Quantitative Literacy Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

- Albums and Algorithms EDUC 0865

Waivers

Students considering undergraduate degrees with advanced mathematical or statistical requirements may satisfy the GenEd Quantitative Literacy requirement through alternative coursework.

A student will be waived from the GenEd Quantitative Literacy requirement upon completion of any of the following:

- MATH 1031, MATH 1038, MATH 1041, MATH 1042, MATH 1941, MATH 1942, or MATH 2043.
- STAT 2101, STAT 2103, STAT 2901, STAT 2903 or an equivalent transfer course (primarily for FSBM and STHM majors and FSBM minors).
- Completion of a three-course sequence to include 1) MATH 1015, 2) MATH 1021 or EDUC 1016, and 3) ECED 3107 (primarily for Early Childhood Education majors). *All courses must be completed with a C- or better to receive waiver.*
- Completion of a four-course sequence to include MATH 1015, MATH 1021, MATH 1022, and MGSE 3404 (primarily for Middle Grades Education majors concentrating in Language Arts, Science, Science and Language Arts, and Social Studies). *All courses must be completed to receive waiver.*

Courses must be completed with a C- or better to satisfy GenEd waiver requirements.

Department/schools/colleges may stipulate a higher grade to satisfy department/school/college requirements.

Consult an academic advisor for details.

Race & Diversity (GD)

Requirement: One 3-credit hour course.

Race & Diversity courses develop a sophisticated understanding of race and racism as dynamic concepts, pointing to the ways in which race intersects with other group identifications such as gender, class, ethnicity, religion, age, sexual orientation or disability.

Race & Diversity courses are intended to teach students how to:

- Recognize the ways in which race intersects with other group identifications or ascriptions, including gender, class, ethnicity, sexual orientation, religion, disability, age;
- Understand the relationships among diversity, justice and power;
- Explore what it means for individuals and institutions to exist in a multi-racial, multi-cultural world;
- Investigate the various forms race and racism has taken in different places and times; and
- Discuss race matters with diverse others in relation to personal experience.

Race & Diversity Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

Science & Technology (GS)

Requirement: Two 3-credit hour courses.

GenEd Science & Technology courses present scientific process in context, helping students understand how scientific phenomena and/or technological change affects human life and the planet.

Science & Technology courses are intended to teach students how to:

- Understand and describe the scientific process;
- Understand the sequential nature of science and technology;
- Recognize, use and appreciate scientific or technological thinking for solving problems that are part of everyday life;
- Understand and communicate how technology encourages the process of discovery in science and related disciplines; and
- Retrieve, organize, and analyze data associated with a scientific or technological model.

Science & Technology Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

Waiver

Students considering undergraduate degrees with scientific, engineering or technical components may satisfy the GenEd Science & Technology requirement through alternative coursework identified below.

A student will be waived from the GenEd Science & Technology requirement upon completion of any of the following two-course sequences:

- BOT 1111 — HORT 2114
- BIOL 1011 — BIOL 1012
- BIOL 1111 — BIOL 1112
- BIOL 1111 — BIOL 2112
- BIOL 1911 — BIOL 1912 (honors)
- BIOL 1911 — BIOL 2912 (honors)
- CHEM 1021 & CHEM 1023 — CHEM 1022 & CHEM 1024
- CHEM 1031 & CHEM 1033 — CHEM 1032 & CHEM 1034
- CHEM 1951 & CHEM 1953 — CHEM 1952 & CHEM 1954 (honors)
- EES 1001 — EES 2011
- EES 1001 — EES 2021
- EES 1001 — EES 2022
- EES 1001 — EES 2061
- EES 2001 — EES 2011
- EES 2001 — EES 2021
- EES 2001 — EES 2022
- EES 2001 — EES 2061
- KINS 1221 — KINS 1222
- KINS 1223 — KINS 1224
- PHYS 1001 — PHYS 1004
- PHYS 1021 — PHYS 1022
- PHYS 1061 — PHYS 1062
- PHYS 2021 — PHYS 2022
- PHYS 2921 — PHYS 2922

Students who change their course of study prior to completing the second course of any of the specified two-course sequence may complete their GenEd Science & Technology requirement in two ways:

- One GenEd GS course and one course from either **List I** or **List II**
- One course from **List I** and one course from **List II**

List I

- BOT 1111
- BIOL 1011
- BIOL 1111
- BIOL 1911 (honors)
- CHEM 1021 & CHEM 1023
- CHEM 1031 & CHEM 1033
- CHEM 1951 & CHEM 1953 (honors)
- EES 1001
- EES 2001
- KINS 1221
- KINS 1223
- PHYS 1001

- PHYS 1021
- PHYS 1061
- PHYS 2021
- PHYS 2921

List II

- HORT 2114
- BIOL 1012
- BIOL 1112
- BIOL 1912 (honors)
- BIOL 2112
- BIOL 2912 (honors)
- CHEM 1022 & CHEM 1024
- CHEM 1032 & CHEM 1034
- CHEM 1952 & CHEM 1954 (honors)
- EES 2011
- EES 2021
- EES 2022
- EES 2061
- KINS 1222
- KINS 1224
- PHYS 1004
- PHYS 1022
- PHYS 1062
- PHYS 2022
- PHYS 2922

Consult an academic advisor for more information.

U.S. Society (GU)

Requirement: One 3-credit hour course.

GenEd U.S. Society courses strengthen students' understanding of the history, society, culture and political systems of the United States.

They are intended to teach students how to:

- Access and analyze historical, analytical, and cultural materials;
- Develop observations and conclusions about selected themes in U.S. society and culture;
- Construct interpretations using evidence and critical analysis;
- Communicate and defend interpretations; and
- Analyze the ways difference and heterogeneity have shaped the culture and society of the U.S.

U.S. Society Courses

Below, you will find a list of GenEd courses in this area.

Please be advised that GenEd offerings vary from semester to semester and that all GenEd courses will not be offered every semester. For the most current list of GenEd offerings, please consult the Class Schedule.

In addition, a single GenEd course may be offered by more than one department. GenEd courses offered by more than one department will have the same course number and the same course title. A student may not take the same course from multiple departments and earn credit toward graduation. However, if a student wishes to replace their grade in a GenEd course, they may replace the grade with any course bearing the same course number and the same course title regardless of department.

University Requirements: Writing-intensive Courses

For most professionals—doctors, accountants, social workers, educators, policy-makers, performers, etc.—writing is an important part of work-life, and writing well often paves the way to professional success. But the kinds of writing that are valued in the professions are typically different from the kinds of writing that students use in school. The writing-intensive course program at Temple University is designed to provide students with a window into the types of writing they may be expected to produce after graduation. To this end, departments and programs have designated specific writing-intensive courses that are part of the major; in these writing courses, students study, write and revise texts that are similar to what they will encounter in their post-Temple careers.

All undergraduate students must complete at least two writing-intensive courses for a total of at least six credits. Students must complete the writing-intensive courses that are specified by their major. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits.

The specific courses that are required for particular majors can be found within this *Undergraduate Bulletin*. Writing-intensive courses are identified by the last two digits of the course number: courses numbered xx96, xx97, and xx98 are writing-intensive. These courses can also be identified by the Course Attribute of "WI" (Writing Intensive).

The writing-intensive courses must be completed at Temple University. Students may not transfer in credits to satisfy this requirement. Students who have problems completing their writing-intensive course requirements should contact their advisors.

Since not all writing-intensive courses are offered every semester, students are advised to search the Class Schedule for course availability each semester.

More information about the writing-intensive course program is available at the Student Success Center.

Schools, Colleges and Divisions

Temple University consists of the following schools and colleges:

- Tyler School of Art and Architecture (p. 104)
- Center for the Performing and Cinematic Arts (p. 313)
 - Boyer College of Music and Dance (p. 314)
 - School of Theater, Film and Media Arts (p. 485)
- College of Education and Human Development (p. 552)
- College of Engineering (p. 648)
- Fox School of Business and Management (p. 789)
- College of Liberal Arts (p. 932)
- Low Klein College of Media and Communication (p. 1180)
- College of Public Health (p. 1350)
- School of Social Work (p. 1404)
- College of Science and Technology (p. 1412)
- School of Sport, Tourism and Hospitality Management (p. 1751)

The following are academic units within the university:

- University College (p. 1779)
- Division of University Studies (p. 1788)
- Temple University, Japan Campus (p. 1827)

How to find Academic Plans

To find academic plans for a specific program, go to the Academic Programs List (p. 2908) and select the hyperlinked degree next to the program name.

An alternate route to academic plans is to select one of the schools or colleges listed above. Once on the selected school or college, navigate to its Programs tab and select the program from the list.

Tyler School of Art and Architecture

Overview

Mission

The Tyler School of Art and Architecture educates, motivates and inspires individuals who will enter society as artists, architects, art historians, designers and educators with the highest aspirations for achievement, producing innovative work that is publicly presented and critically considered. Founded upon the ideals of progressive education emphasizing exposure to a variety of experiences before selecting a major, attention to each student's mastery of technique, and the shaping of a personal artistic vision within the framework of a research university, the objective of the Tyler School of Art and Architecture is to create an engaging and critical environment that

- Promotes cutting edge curriculum initiatives through a broad spectrum of philosophical and aesthetic approaches;
- Through its relationship with Temple University, provides access to students who otherwise would not consider art and design as a career path;
- Fosters interdisciplinary insights and collaborations promoting artistic and intellectual freedom, creativity and experimentation in a diverse and heterogeneous environment;
- Demonstrates to students, through the faculty's own practice and scholarship, that the study of art and design is process-oriented and research-based;
- Interacts with a broad spectrum of local, national and international artists, scholars and communities in the exploration of art and its role in society; and
- Builds upon our outreach to the Temple University community, to the local neighborhoods and to cultural organizations.

History

Artist and arts patron Stella Elkins Tyler donated her estate to Temple University in the early 1930s. With an interest in progressive education and a deep appreciation of her mentor, the sculptor Boris Blai, Mrs. Tyler offered her estate with the expressed wish that, through Boris Blai, it would become an environment for the advancement of the fine arts, scholarly study in the arts, and individual creativity.

As founding Dean of what was then known as the Stella Elkins Tyler School of Fine Arts, Blai was committed to art as a socially engaged practice. "It is the principle of the school that students in the fields of art are not to be set apart," he wrote in Tyler's 1945 catalogue, "but that they are individuals who must contribute to the life and developments of society at large."

Blai instilled within the school a commitment to progressive education, emphasizing personal expression and technical expertise within the framework of a liberal arts curriculum. He insisted upon individual attention to each student's needs as the basis of successful teaching, and established the tenet that every student entering the school must be acquainted with all media of artistic expression. During his 25-year tenure as dean, Blai shaped the school into one of the finest visual arts centers in the country, and his founding ideals still remain paramount to Tyler's educational philosophy.

In 1960, Dean Charles Le Clair succeeded Blai. Under Le Clair, the school was first accredited by the National Association of Schools of Art, and in 1965, the school's name was changed to the Tyler School of Art. Dean Le Clair founded the Tyler Study Abroad program in Rome, Italy. Today, Temple University Rome remains among the most respected fine arts study abroad programs in Europe, now fully integrated into Temple University with expanded course offerings in a range of liberal arts and science disciplines.

Over the decades, Tyler advanced its programs in response to new definitions of art-making and the role of art in society. Programs have been developed in Art History, Community Arts Practices, Visual Studies and Art Therapy. Today, the curriculum at Tyler continues to evolve by incorporating digital technology, video, installation and performance.

In 1998, Tyler welcomed Temple's Department of Architecture. The Department had been founded in 1969, initiated by the Philadelphia Chapter of the American Institute of Architects as a means of expanding architectural education in the city of Philadelphia. Temple's Department of Landscape Architecture & Horticulture joined the school in 2016. This department traces its origins to the Pennsylvania School of Horticulture for Women, founded in 1911 at the Ambler Campus. Also in 2016, the Department of Planning & Community Development, founded in 2002 in affiliation with the Temple Center for Sustainable Communities, became part of Tyler. Currently, and for the first time in Temple's history, all of the built-environment disciplines at the University are unified in one academic unit.

In January 2009, Tyler moved from the Elkins estate to a new facility on Main Campus designed by award-winning architect Carlos Jimenez. A new Tyler Architecture building, which adjoins the Art building, opened in 2012. This physical unification of the arts-related disciplines with architecture and environmental design fields facilitates the cross-disciplinary approaches to education that are increasingly viewed as key to the development of critical thinking skills, deep learning, and teamwork, and are consistent with the founding vision of Tyler.

In 2019, the Tyler School of Art expanded its name to the Tyler School of Art and Architecture to capture the breadth of its programs and its evolving vision in which the strengths of its individual disciplines are complemented by enhanced interaction between them. From its modest enrollment of 12 students in the first freshman class in 1935, Tyler now enrolls more than 1,500 students who learn to be well-versed, nimble thinkers prepared to face complexity and forge original ideas within and across a range of fields.

Departments

Tyler School of Art and Architecture consists of the following departments:

- Architecture and Environmental Design
- Art
- Art Education and Community Arts Practices
- Art History
- Foundations
- Graphic and Interactive Design

Accreditation

The Tyler School of Art and Architecture at Temple University has degree programs accredited by the International Facility Management Association (IFMA), Landscape Architectural Accreditation Board of the American Society of Landscape Architects (LAAB), Middle States Association of Colleges and Schools, National Architectural Accrediting Board (NAAB), National Association of Schools of Art and Design (NASAD) and the Planning Accreditation Board (PAB). Please refer to specific degree programs for more information.

Admissions Information

Tyler Admissions Office
Tyler Art Building, Suite 100
2001 N. 13th Street
Philadelphia, PA 19122
215-777-9090
tyleradmissions@temple.edu

The Tyler Admissions Offices provides comprehensive admissions information and deadlines.

General Information for Intra-University Transfer Students

Temple students who wish to transfer into a Tyler program or Tyler students who wish to transfer into a different Tyler program should contact the Tyler Admissions Office for policies and procedures.

Financial Aid and Scholarships

Student Financial Services
Carnell Hall, Ground Floor
1803 N. Broad Street
215-204-2244

Financial Aid

Please see the Student Financial Aid (p. 1809) section of the *Bulletin*. Detailed information can also be found at Student Financial Services. Applications for financial aid (Free Application for Federal Student Aid) are available through the Student Financial Services office, 215-204-2244.

Scholarships

Tyler offers merit-based and merit/financial need-based scholarships for incoming students dependent upon available funding. A limited number of portfolio scholarships, ranging from \$1000 to \$10,000, are awarded to undergraduate students entering in the fall semester. Some of these scholarships may continue dependent upon available funds, cumulative grade point average, and/or demonstrated financial need. Learn more about scholarships and guidelines for consideration.

Students who wish to compete for portfolio scholarships must follow the deadlines and application procedures indicated on the Tyler Admissions site.

In addition to portfolio-based scholarships, a number of scholarships for entering students based on academic achievement are awarded through Temple University to Tyler School of Art and Architecture. For more information about these awards, please contact the Temple University Office of Undergraduate Admissions or Student Financial Services.

Matriculated students also have the opportunity to compete for Tyler-specific scholarships. Information about merit scholarships for continuing students are posted annually.

Facilities

The Tyler School of Art and Architecture experience is defined in part by access to unparalleled facilities. Students have the space, the technology and the tools they need to go wherever their creative vision takes them.

Tyler's 255,000-square-foot, state-of-the-art facility on Temple University's Main Campus in Philadelphia is home to maker spaces of all shapes and sizes. Spaces include classrooms, lecture halls, collaboration spaces, an expansive green courtyard, an academic advising center, a cafe, exhibition spaces, and Temple Contemporary—Tyler's visionary center for public programming. Tyler's 50,000-square-foot Architecture Building features three floors of studios and digital and analog and research fabrication. Tyler's Landscape Architecture and Horticulture programs are based at Temple's expansive, suburban Ambler Campus, where students have access to greenhouses, a 187-acre arboretum, an innovation center and more.

Learn more about Tyler's discipline-specific facilities.

Study Away Programs

Education Abroad and Overseas Campuses
200 Tuttleman Learning Center
1809 N. 13th Street
215-204-0720

Many Tyler students take advantage of the opportunity to study abroad. To determine the best time to go and to make sure that studying away from Main Campus will not impede time to graduation, students need to meet with an academic advisor, and are strongly advised to do so prior to their sophomore year. BFA students who plan to study abroad or away should ensure that all sophomore prerequisites for their major are met in the fall semester of their sophomore year.

Rome

Housed in the Villa Caproni, facing the Tiber River just north of the Piazza del Popolo, the school offers courses in painting, drawing, photography, printmaking, sculpture, architecture, and art history. Facilities include a library, an art gallery, private work areas, a computer lab and full equipment in studio disciplines. Art history is taught through direct observation of original works and historic sites. The student also may elect to take courses in the liberal arts including Italian and limited GenEd options. For more information about Study Abroad options, see Education Abroad (p. 55). Depending on their major, students may elect to enroll in a summer program, spend a semester, or full academic year in Rome.

Japan

Temple Japan offers the BA in Art, exclusively taught in Tokyo. Current Tyler students seeking to study in Japan should consult their Tyler academic advisor to select appropriate coursework.

Special Programs in the USA

Special summer residency and program opportunities in the USA are advertised in the weekly Tyler e-newsletter, *The WHAT (Week Here at Tyler)*, as well as posted in the studio areas in the Tyler building.

Career Center

Temple University Career Center
220 Mitten Hall, 1913 N. Broad Street
215-204-7981

The Career Center provides students and alumni with up-to-date material on career planning, résumé preparation, interviewing skills, and job search techniques. Students are encouraged to schedule appointments for career conversation and advisement. For more information, see the Career Center (p. 70) section of the *Bulletin*, go to their web site at <https://careercenter.temple.edu/> or telephone the office at 215-204-7981.

The Tyler Student Life Blog posts networking and career events and advertises career events and employment and internship opportunities through the weekly e-newsletter, *The WHAT (Week Here At Tyler)*. Review *The WHAT* archives on the Tyler web site: <https://tyler.temple.edu>.

Résumé development and internship search support is also available through appointment with Evan Hertzog, Professional Programs Administrator (evan.hertzog@temple.edu).

Student Organizations

Temple Student Government

Two elected Tyler representatives participate in the Temple Student Government. This organization provides an integral link between students on all campuses and assures an ongoing dialogue with the administration.

Dean's Student Advisory Committee (DSAC)

Students who seek leadership opportunities may join the Tyler School of Art and Architecture Dean's Student Advisory Committee. Recent DSAC projects include the Philadelphia Art School Mixer reception for the Annual Student Exhibition, an all Philadelphia art school exhibition at the Comcast Center, and "Craft and Create," a community service event. The DSAC also serves as Tyler's GAF advisory committee to help determine how activity funds Tyler receives from the University are used for arts and cultural enrichment for the University.

In addition, all students may participate in other student organizations. Students in Landscape Architecture and Horticulture are encouraged to participate in other Ambler Campus student organizations. Further information about these opportunities may be found in the Ambler Campus (p. 1816) section of this *Bulletin*.

School Address

Tyler School of Art and Architecture
2001 N. 13th St.
Philadelphia, PA 19122

Academic Policies and Regulations

Temple University's policies and regulations (p. 1835) generally apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Policies specific to Tyler School of Art and Architecture are as follows:

Academic Credit

A credit hour is a measure of the amount of work represented in intended learning outcomes and verified by evidence of student achievement. A credit hour is an institutionally established equivalency that reasonably approximates:

1. not less than one hour of classroom instruction or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester of credit or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other academic activities such as studio work. For example, a three-credit studio course allows for not less than nine hours of work which can include five hours of in-class studio and at least four hours of out-of-class student work.

Additional academic credit hour (p. 1847) information may be found in the Academic Policies section of this *Bulletin*.

Academic Residency Requirements

All undergraduates must take at least 45 of their last 60 semester hours at Temple University. While candidates for a degree at Temple, students wishing to take academic work at another institution, either classroom or online courses offered during the regular year or in summer sessions, must

have an advisor's prior approval before enrolling at the other institution. Refer to the policy on Permission to Complete a Course at another Institution after Matriculation (p. 1858).

Courses Inapplicable to Graduation

Credits earned in Mathematics 0015 and lower-level courses in Military Science are not included in the minimum number of credits required for graduation. A maximum of 4 courses or up to 12 semester hours for upper-level Military Science (Army ROTC), Naval Science (Navy ROTC), or Aerospace Studies (Air Force ROTC) courses will be applicable toward graduation credits.

Courses transferred from other institutions or taken at Temple University that do not satisfy studio, art history, College or General Education requirements are elective. Tyler programs vary in the number of elective credits applicable toward the degree. If the elective credits are in excess of the amount needed for the degree, a student will need additional credits to graduate beyond the minimum number stated for the curriculum. Students should check with their advisor when selecting courses.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 1849) policy for specific GPA and credit-hour requirements.

Double Major within Tyler

Some undergraduate students may be interested in pursuing a double major within Tyler. Students within Tyler need to fulfill all the major requirements for each major including the required Capstone courses. In majors where the same course is required in both curricula, the course applies towards both majors. Please check with an academic advisor to discuss the course requirements for each major to see if double majoring works with your academic plan. See the Double Major (p. 1850) policy for more information regarding second majors outside of Tyler.

Grievances

Please refer to the University grievance policy (p. 47), located in the Student Rights section of this *Bulletin*.

Student Academic Grievance Policy and Procedure

Title IX of the Education Amendments Act of 1972 requires that each college or university establish due process for the resolution of academic grievances. Students enrolled at Temple University have the right to appeal academic decisions that they dispute. Each school and college at Temple University has established and adheres to its own grievance procedure. The following procedures are specifically applicable to all degree programs of Tyler School of Art and Architecture.

The Tyler School of Art and Architecture attempts to provide students with the best learning experience possible. We understand that on occasion, a disagreement may arise between instructors and students over academic issues. These written procedures are meant to provide both faculty and students the proper course of action to resolve an academic grievance arising from a course offered at Tyler. At any time, a student may withdraw their grievance, halting the grievance process. Once the grievance has been halted, it cannot be reinstated on the same basis. The following procedure is based on the Temple University Grievance Guidelines.

1. The student must first attempt resolution of the grievance by a discussion with the instructor of the course. Should the parties reach an agreement about the dispute, they will write and sign a document showing the steps each party will take to resolve the dispute. If the instructor is no longer in the employ of Temple University or is for any reason unavailable, the student will meet with the department or program chair. Students wishing to grieve regarding a fall semester course must do so by February 15 of the calendar year following the end of the given fall semester. Students wishing to grieve a summer or spring course must do so by October 1 of the same calendar year in which the courses were taken. Students cannot appeal grades after they have graduated. Note that students are discouraged from moving beyond this step during the summer unless the grade being grieved will affect the student's warning or probation status; participation in a study abroad program in the fall semester immediately following; or their August graduation. All aspects of the grievance are to remain confidential, except to the student making the grievance.
2. If the grievance is not resolved to the student's satisfaction, the student will contact the chair of the department in writing within 7 calendar days from the date of the last meeting with the instructor; the student will provide documentation of the grievance. The chair will make a decision on the grievance within 14 calendar days (note: if the grievance is occurring in the summer, the decision must be made expeditiously, if possible, within 14 calendar days).
3. If the grievance is still not resolved to the student's satisfaction, the student will contact the Tyler Ombudsperson, who will be listed on the Tyler web site, within 7 calendar days of the chair's decision, providing all documentation of the dispute. The Ombudsperson will make a decision on the grievance within 14 calendar days (note: if the grievance is occurring in the summer, the decision must be made expeditiously, if possible, within 14 calendar days) and notify the student, chair of the department and instructor being grieved.
4. If the grievance is not resolved to the student's satisfaction, the Ombudsperson will then act as a mediator for the student and call together a Student Appeals and Grievance Committee. This committee shall consist of one full-time faculty member from the grieved instructor's department (although not the instructor) and two full-time faculty members, at least one of whom must be from outside the grieved instructor's department, with one faculty member acting as administrator. The Ombudsperson should form this committee within 14 calendar days of the step 3 decision to the student (note: if the grievance is occurring in the summer, the decision must be made expeditiously, if possible, within 14 calendar days). The Committee will meet within 7 calendar days of the referral from the Ombudsperson. If greater flexibility in time is required, all parties must be notified by the administrator

of the Committee. The written decision of the committee will be provided to the student, the instructor being grieved, the chair of the department, the Ombudsperson and the Dean. This decision should be made expeditiously, no more than 14 calendar days after the committee was called.

5. If the grievance is still not resolved to the student's satisfaction, the student may appeal in writing to the Dean. The Dean will communicate the decision about the grievance to the student, members of the Student Appeals and Grievance Committee, Ombudsperson, chair of the department and instructor being grieved.
6. This decision of the Dean may be appealed to the Vice Provost for Undergraduate Studies.

Fall and Spring Semester Time Limit For Academic Appeals

The time limit within which a grade grievance can be entered is one (1) semester after the grade has been made a part of the student's transcript.

Summer Session Time Limit For Academic Appeals

Due to the condensed schedule of the summer sessions, the limit within which summer grade grievances can be entered is two (2) weeks after the grade has been made a part of the student's transcript.

For further information on academic grievance procedures, please inquire in the Assistant Dean's Office.

Grievances Other Than Academic Appeals

- Students who believe they have been discriminated against because of gender, race, national origin, age or disability, should consult the Office of Equal Opportunity Compliance, Sandra A. Foehl, Director, Equal Opportunity Compliance 215-204-8890 or sandra.foehl@temple.edu. You may also contact one of the University Ombudspersons; Tyler's designated Ombudsperson is Wanda Odom (215-777-3721 or wanda.odom@temple.edu). You may contact any Temple Ombudsperson regardless of department.
- Students who have other non-academic complaints about a faculty member's conduct (without regard to grading) should refer those concerns in writing to the Chair of the Department or, if the faculty member is also the chair, to the Dean.

Students are welcome to contact David Logan, Advising Director, at david.logan@temple.edu or 215-777-9229 to discuss grievance policies and procedures.

Incomplete Coursework Policy

An instructor will file an "I" (Incomplete) only if the student has completed the majority (51% or more) of the work of the course at a passing level, and only for reasons beyond the student's control. This may include severe illness, broken limbs, family situation, etc. An incomplete may not be used to give students extra time to improve their grades. There must be a compelling reason behind each incomplete grade assigned. An instructor may file an "I" when a student has not completed the work of a course by the time grades must be submitted but has completed the majority of the work at a passing level and has a written agreement with the instructor and the department regarding completion of the work, including the nature of the work to be completed. The completion date may be no later than one year from the end of the semester in which the student took the course. The agreement shall also specify a default grade to be received if the work is not completed by the date indicated. Four copies of the agreement must be made: One copy shall be retained by the instructor, one shall be given to the student, one shall be filed with the department office and one shall be filed in the Tyler Academic Advising office in the student's record file (note that the University form states that one copy goes to the Dean's office - Tyler holds those copies in the student's file in Advising).

When reporting the grade of "I" for a student, the instructor shall also file a report of the default grade. If the instructor does not change the grade of "I", pursuant to the agreement with the student, by the end of one year from the time the grade of "I" was awarded, the appropriate University official shall automatically change the grade of "I" to the reported default grade and the default grade shall appear on the transcript and be used for all other grading purposes as the actual grade received in the course.

Faculty advisors and staff advisors have the option of not permitting a student to register for an "overload" if the student is carrying one or more active incomplete courses, or for a "full load" if the student is carrying two or more active incompletes.

Independent Study Policy

The following are the guidelines and standards for "Independent Study" Undergraduate credit in Studio, Art History and Art Education for students and faculty at Tyler School of Art and Architecture:

- There will be a maximum of 1 student in Independent Study per full-time faculty per fall and spring semester.
- The intended area of study must supplement, not supplant, existing studio, art history and art education courses, and curriculum.
- An Independent Study course shall count for 1–3 credits, with a maximum of 6 credits applicable toward the degree. You may not take more than two Independent Study courses in your career.
- Independent Study courses shall carry upper level numbers. Students must be classified as Juniors or Seniors. Students should have prior experience with the faculty member teaching the Independent Study course.
- A written proposal must be developed and agreed upon in advance of the beginning of the semester, describing the intended area of the investigation. At the end of the Independent Study, a paper must be submitted describing the outcome of the learning experience.
- Only after the student receives written permission from the faculty member and the department chair may they register for the class.

Display and Installation Policy

Students or faculty who wish to have work or performances installed outside the studio must complete an Installation form, and have it approved by the appropriate University personnel. Students or faculty must also have an approved installation form to place work outside the building, anywhere on campus. Tyler Exhibitions requires a minimum of 7 business days to ensure enough time to get the appropriate approvals. In many cases extra time is needed to revise a proposal due to safety issues or otherwise unavailable space. Forms filed less than seven (7) days will risk being denied. The Associate Director of Academic Enrichment Programs will work with the student and faculty and University personnel to locate appropriate space for student installations. Please note that approvals are not automatic and can be denied on the basis of non-compliance with University policies.

Students who place projects without approval, or who abandon or incompletely de-install projects, or who do not properly restore sites, buildings, or other university property will be subject to fine and, potentially, disciplinary action. Please refer any questions or concerns to Kati Gegenheimer via e-mail (kati@temple.edu).

Leave of Absence/Re-Enrollment Policy

Tyler School of Art and Architecture students who wish to voluntarily withdraw from the university for one or two semesters (fall and/or spring) are strongly encouraged to apply for a Leave of Absence (LOA). If approved, these students remain eligible for the same requirements as when they declared their major and will have access to Temple e-mail, university library systems, and priority and self registration for the approved semester of return.

If a student leaves the university without notice or does not return the semester following an approved Leave of Absence (LOA), the student must apply for re-enrollment to the university. All students who wish to be considered for readmission (re-enrollment) to Tyler must fill out the request to re-enroll form. Students should contact the Tyler Admissions Office for more information at 215-777-9090.

For those students who have left Tyler in academic good standing and apply for re-enrollment into a semester within three years of the last completed semester, no portfolio review or interview is required. A portfolio uploaded to temple.slideroom.com is required for those BFA (see additional information for BFA in Graphic & Interactive Design majors below), BA in Art, BA in Visual Studies, or BSEd in Art Education students who have not attended Tyler for more than three years from the semester in which they intend to apply for re-enrollment. SlideRoom charges a fee for this service. *Please note: We are no longer accepting students for re-enrollment into the BA in Art on the Main campus; the BA in Art will only be available at the Japan campus.* Students previously enrolled in that program may seek admission into the BA in Visual Studies. Students who seek re-enrollment will be considered for matriculation into the current catalog year.

Students who are dismissed from Tyler or who left on academic probation must review the academic standing policy (p. 1840) located in the Academic Policies section of this *Bulletin*.

A portfolio uploaded to temple.slideroom.com is also required of all BFA, BA in Art, BA in Visual Studies, or BSEd in Art Education students who were dismissed or who left Tyler on academic probation. It must include twenty (20) images of your studio work, ten (10) completed at Tyler, and ten (10) after leaving Tyler that demonstrate studio progress.

Any student who attends another college or university and has taken studio art credits must submit a portfolio uploaded to temple.slideroom.com to represent completed studio coursework in order to have those credits considered for transfer credit into the Tyler BFA, BA in Visual Studies, or BSEd in Art Education programs or one of the Architecture programs. Academic credits will be accepted into the Tyler degree programs as determined by Temple University policy for the semester in which the student is applying for readmission.

The final decision regarding readmission will depend both on the recommendation of the transfer committee as well as the review of academic credentials by the Tyler Admissions Office. Please note well: Any student applying for readmission must be aware that Tyler may not accept studio credits that are more than 10 years old into any Tyler curriculum from transfer or readmission applicants regardless of where those credits were completed.

Graphic and Interactive Design (GAID) Re-Enrollment Policy

Leave of Absence Policy

Graphic & Interactive Design (GAID) students can apply to take a Leave of Absence (LOA) from Temple University/Tyler School of Art and Architecture for up to 2 consecutive semesters. At the end of the LOA, a GAID major can return to school and resume their progress through the design program.

- Although every effort will be made to get GAID majors into courses they need when they return to Temple/Tyler, seats in required Graphic and Interactive Design courses cannot be guaranteed to students who return after a LOA or an extended period when they are not enrolled at Temple/Tyler. Returning students will not be added to sections that have filled which may mean additional time at Tyler will be required in order to complete the BFA in Graphic & Interactive Design.
- GAID majors who remain out of school longer than 2 consecutive semesters are required to re-enroll in the school and the program. The re-enrollment process includes a portfolio requirement to determine if the student will be readmitted to the GAID major. **Re-enrollment into the GAID major is not guaranteed.**

Portfolio Review

- Students re-applying to the GAID program must show a portfolio consisting of the work they originally submitted to get into the major through the **Sophomore Portfolio Review** as well as work from any additional GAID classes they took. Students who were admitted into the major prior to the implementation of the GAID portfolio review in fall 2014 will need to submit a portfolio of work representing work completed in GAD 2001 and GAD 2021. Students who are out of school for more than 3 years also need to include 10 design pieces that they produced during the time they were not enrolled at Temple/Tyler.
- Students who are not re-enrolled on the basis of the portfolio have the option to re-take the prerequisites for the major (GAD 2001 and GAD 2021) to develop a new portfolio for submission to the **Sophomore Portfolio Review**. These students will be reviewed as second-time applicants to the GAID program. Students who have completed sophomore prerequisites for other majors may also consider re-enrollment into those majors (after discussion with an academic advisor) or seek re-enrollment into the University into a different Tyler or Temple program.

Loss or Damage

Temple University is not responsible for loss of property of any student or other individual due to fire, theft, or other cause. The university may require residence hall students to present proof of insurance against loss by fire, theft, or other cause before assignment to any university housing.

Permission to Take Courses at Another Institution

Consistent with University policy, students will not receive transfer credit for courses taken at another institution while they are matriculated (Degree Seeking) at Temple University unless prior permission has been obtained from Tyler Advising. The required Permission to Take Courses Elsewhere form is available under the University Forms Channel on TUPortal. Full instructions regarding the permission process are available at: <https://undergradstudies.temple.edu/sites/undergradstudies/files/StudentPermissionTakeCoursesElsewhereDirections.pdf>.

Program Performance

Matriculating (Degree-seeking) Tyler School of Art and Architecture students (with the exception of those seeking the Art Education concentration) must maintain a minimum grade point average (GPA) of 2.0 or may be subject to academic action including academic warning, probation, and dismissal from the university. Please consult the academic standing (p. 1840) policy within this *Bulletin* for further information.

Students pursuing the BFA with Art Education Concentration and the BSEd in Art Education program must maintain a minimum grade point average (GPA) of 3.0 to be eligible to take required Education and Art Education coursework.

Second Degrees

Tyler School of Art and Architecture does award second bachelor's degrees if the first degree is unrelated to the field of study. Students with limited studio experience often do not have a portfolio of work and required studio credits to enter a Master's degree program so a second Bachelor's degree provides time and space to develop skills and build a body of artwork. The BFA degree prepares students to be practicing artists and thus a graduate degree may not be required for many vocational aspirations. Students interested in Art History should consider the MA in Art History degree program instead of a second bachelor's degree. Students who do not meet the minimum admissions criteria for the MA in Art History should discuss their interest in the program with Tyler Admissions, the Art History MA Program Director or the Art History Department Chair to explore their options.

See Second Degrees (p. 1862) in the Academic Policies section. For information on graduate programs, refer to the Graduate and Professional Bulletin.

Student Work

The school reserves the right to keep work submitted for course credit. In practice, this privilege is exercised sparingly.

Tyler School of Art and Architecture records images of student work for use in Tyler publications and web sites. Tyler reserves the right to reproduce without notification such images of any artwork produced by students while attending Tyler for promotional or other purposes, including in print publications, institutional web sites, e-communications, multimedia presentations, and documents about Tyler or Temple University for admission recruitment, fundraising, or institutional informational purposes.

When the student art work is reproduced in Tyler publications, either in print form or electronic form, every effort will be made to give credit to the student artist. No compensation is provided to students for such uses of images of student work.

Please see the Installation Policy (p. 111) above regarding placing student art work in the public spaces at Tyler and in any Temple building or on Temple grounds. Please note that any work installed without permission is subject to removal and disposal.

General College Graduation Requirements

Students in the Tyler School of Art and Architecture must meet all degree requirements mandated by Temple University, as well as requirements from individual departments and programs.

All students complete the General Education (GenEd (p. 83)) program requirements.

Students are responsible for following the course requirements and department policies as listed in the *Undergraduate Bulletin* and in departmental handbooks, curriculum and advising publications. Please note that Tyler has minimum grade requirements for required courses for the majors. Current students should refer to their DARS and advising check sheets to review progress towards the degree.

Program Requirements

Planning a Program of Study

The information in the following requirements sections is designed to provide students with guidance in planning their program of study. The requirements and sequences are detailed. If students do not follow their program as designed, they may face conflicts or not have required prerequisites that will necessitate enrolling for additional semesters to complete their requirements.

Transfer students should meet with an academic advisor to review progress after their initial orientation session to create an academic plan for subsequent semesters and to determine length of time to earn their degree.

Second Major Rules

Some undergraduate students may be interested in pursuing a double major within Tyler. Students within Tyler need to fulfill all the major requirements for each major including the required Capstone courses. In majors where the same course is required in both curricula, the course applies towards both majors. Please check with an academic advisor to discuss the course requirements for each major to see if double majoring works with your academic plan. See the Double Major (p. 1850) policy for more information regarding second majors outside of Tyler

Additional Notes

The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.

Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisites and Co-requisites Policy (p. 1860) in the university-wide Academic Policies section of this *Bulletin*.

Academic Advising Information

Tyler Advising provides holistic support for the constantly evolving needs of a unique student body, faculty, and staff of artists, designers, innovators, historians, educators and agents for change. Our approach focuses on efficient, collaborative problem solving tailored to the individual. We aspire to build upon the spirit of empowerment within our community.

The Tyler Advising team is made up of a team of professional advisors that assist students by helping them navigate their academic curriculum and provide them with awareness of university resources that can support them on their way to graduation. In addition to academic planning, our team assists students with study abroad planning, adding minors and certificates, referrals to campus resources, understanding the breadth of courses and experiences that are available to them.

Academic Advising Office
Tyler Art Building, Suite 212
215-777-9229
tyler.advising@temple.edu

Ambler Campus Advising

The Office of Academic Advising and Career Development at the Ambler Campus may advise Tyler students majoring in Landscape Architecture and Horticulture. Students pursuing these majors take a substantial amount of their coursework at the Ambler campus. Having professional advisors available for appointments at Ambler allows a student to take advantage of their time on campus.

Academic Advising and Career Development - Ambler Campus
West Hall, Room 109
267-468-8200
tuaadvis@temple.edu

Art Education Advising

Renee Jackson
Tyler Art Building, Room B090C
215-777-9258
renee.jackson@temple.edu

The Art Education staff provides additional advising for students in the BSEd in Art Education and BFA with Art Education Concentration. Students should routinely meet with an Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted.

Faculty Advising

In collaboration with the professional advising team, faculty often assist students with major information, opportunities in the field, and career planning. Students are encouraged to meet and discuss curriculum selection with their faculty members, so that electives relative to the student's research can be identified.

Faculty

Learn more about Tyler School of Art and Architecture's faculty.

Mariola Alvarez, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of California.

Stephen M. Anderson, Associate Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, University of Pennsylvania.

Kate E. Benisek, Assistant Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, Cornell University.

Philip P. Betancourt, Professor Emeritus, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Sonja Bijelic, Associate Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, New Jersey Institute of Technology.

Gerard F. Brown, Associate Professor, Department of Art, Tyler School of Art and Architecture; MA, School of the Art Institute of Chicago.

Douglas J. Bucci, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

Susan E. Cahan, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Graduate Center, City University of New York.

Joshua S. Caplan, Research Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture.

William J. Cohen, Associate Professor of Practice, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Tracy E. Cooper, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Princeton University.

Chad D. Curtis, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Alfred University, New York State College of Ceramics.

Delaney K. DeMott, Assistant Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, School of the Art Institute of Chicago.

Ryan Devlin, Assistant Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of California Berkeley.

Therese A. Dolan, Professor Emerita, Department of Art History, Tyler School of Art and Architecture; PhD, Bryn Mawr College.

Jeffrey Doshna, Associate Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Rutgers University.

Müge Durusu-Tanrıöver, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Brown University.

Linda Earle, Professor of Practice, Department of Art History, Tyler School of Art and Architecture; MFA, Columbia University.

Sasha Eisenman, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Rutgers University.

Amze J. Emmons, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, University of Washington.

Jane DeRose Evans, Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Clifton R. Fordham, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Yale University.

Samuel C. Fritch, Assistant Professor of Instruction, Department of Foundations, Tyler School of Art and Architecture; MFA, Temple University.

Mark T. Gibson, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Yale University.

Philip Glahn, Associate Professor, Department of Art, Tyler School of Art and Architecture; PhD, City University of New York.

Abby Ryan Guido, Assistant Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MBA, Temple University.

Marcia B. Hall, Laura H. Carnell Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Harvard University.

Sally W. Harrison, Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Massachusetts Institute of Technology.

Jesse Harrod, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, School of the Art Institute of Chicago.

Nathan Heavers, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

David Herman Jr., Assistant Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; PhD, University of North Texas.

Kelly A. Holohan, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Temple University.

Richard D. Hricko, Professor Emeritus, Department of Art, Tyler School of Art and Architecture; MFA, University of Iowa.

Pauline Hurley-Kurtz, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

Renee E. Jackson, Assistant Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; PhD, Concordia University.

Simona M. Josan-Barkley, Associate Professor of Instruction, Department of Foundations, Tyler School of Art and Architecture; MFA, Pennsylvania Academy of the Fine Arts.

Jessica Jane Julius, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, Rochester Institute of Technology.

Gabriel Kaprielian, Assistant Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, University of California Berkeley.

Lisa Kay, Associate Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; EdD, Northern Illinois University.

Nichola Kinch, Associate Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, Temple University.

Joseph R. Kopta, Assistant Professor of Instruction, Department of Art History, Tyler School of Art and Architecture; PhD, Temple University.

Jenny Kowalski, Assistant Professor of Instruction, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Temple University.

Robert T. Kuper, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, Auburn University.

Baldev S. Lamba, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MLA, University of Pennsylvania.

Scott R. Laserow, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, Temple University.

Roberto Lugo, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, The Pennsylvania State University.

Dermot MacCormack, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, National College of Art and Design, Dublin.

Martha Madigan, Professor Emerita, Department of Art, Tyler School of Art and Architecture; MFA, School of the Art Institute of Chicago.

Lynn A. Mandarano, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Christopher McAdams, Assistant Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, University of Pennsylvania.

Pablo Meninato, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Universidade Federal do Rio Grande do Sul.

Rebecca Michaels, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

Leah Modigliani, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, State University of New York at Stony Brook.

Dona R. Nelson, Professor, Department of Art, Tyler School of Art and Architecture; BFA, The Ohio State University.

Jeffrey Nesbit, Assistant Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; DDes, Harvard University, Graduate School of Design.

Emily Neumeier, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Rachel Grace Newman, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Stanford University.

Sharyn A. O'Mara, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Rhode Island School of Design.

Odili Donald Odita, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Bennington College.

Karyn Olivier, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Cranbrook Academy of Art.

Michael Olszewski, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, University of Delaware.

Eric Oskey, Associate Professor of Practice, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Cornell University.

Pepón Osorio, Laura H. Carnell Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; MA, Columbia University.

Alpesh Patel, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Manchester.

Erin Pauwels, Assistant Professor, Department of Art History, Tyler School of Art and Architecture; PhD, Indiana University, Bloomington.

Andrea Ray, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; PhD, Lund University.

Jeffrey Richards, Assistant Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Yale University.

Fauzia Sadiq Garcia, Assistant Professor of Instruction, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Harvard University, Graduate School of Design.

Lauren Sandler, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, The Pennsylvania State University.

Bryan Martin Satalino, Associate Professor of Instruction, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Temple University.

Mark Shaver, Associate Professor of Instruction, Department of Foundations, Tyler School of Art and Architecture; MFA, University of Georgia.

Paul E. Sheriff, Professor, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; BFA, Temple University.

Mark Shetabi, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, Pennsylvania Academy of the Fine Arts.

Robert Z. Shuman Jr., Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; BArch, Temple University.

Gerald D. Silk, Professor Emeritus, Department of Art History, Tyler School of Art and Architecture; PhD, University of Virginia.

Samantha Simpson, Associate Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, San Francisco Art Institute.

Hester Stinnett, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Temple University.

Alexandra Strada, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Columbia University.

Kim D. Strommen, Professor, Department of Foundations, Tyler School of Art and Architecture; MFA, Washington University.

Lolly Tai, Professor Emerita, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; PhD, Heriot-Watt University, Edinburgh College of Art.

Christian Tomaszewski, Assistant Professor, Department of Art, Tyler School of Art and Architecture; MFA, Academy of Fine Arts in Poznan, Poland.

Ulysses Sean Vance III, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, North Carolina State University.

Jessica Vaughn, Associate Professor, Department of Art, Tyler School of Art and Architecture; MFA, University of Pennsylvania.

Ashley West, Associate Professor, Department of Art History, Tyler School of Art and Architecture; PhD, University of Pennsylvania.

Mallory Weston, Associate Professor of Instruction, Department of Art, Tyler School of Art and Architecture; MFA, Rhode Island School of Design.

M. Katherine Wingert-Playdon, Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MS, The Pennsylvania State University.

Andrew Wit, Associate Professor, Department of Architecture and Environmental Design, Tyler School of Art and Architecture; MArch, Massachusetts Institute of Technology.

Byron Wolfe, Professor, Department of Art, Tyler School of Art and Architecture; MFA, Arizona State University.

William Yalowitz, Associate Professor, Department of Art Education and Community Arts Practices, Tyler School of Art and Architecture; EdD, Temple University.

Nathan W. Young, Assistant Professor of Instruction, Department of Graphic and Interactive Design, Tyler School of Art and Architecture; MFA, Rhode Island School of Design.

Jennifer Zarro, Assistant Professor of Instruction, Department of Foundations, Tyler School of Art and Architecture; PhD, Rutgers University.

Architecture BSArch

Overview

The **Bachelor of Science in Architecture**, offered by the Department of Architecture and Environmental Design (AED), is a 4-year pre-professional program. Architectural design studios that focus on the integration of thinking and making through design are central to the curriculum. Students take courses in the architecture foundation program for the first two years of study then focus on architectural design in the third and fourth year. Sequential studio courses provide the means for integration and synthesis of academic and professional knowledge that is learned in courses in building technology, architectural history and theory, and representation. Dedicated studio, woodshop, digital fabrication, and digital lab spaces allow for in-house drawing, modeling, and digital visualization.

Campus Location: Main

Program Code: TA-ARCH-BSAR

Admissions

For more information on how to apply, please visit Tyler's Architecture and Environmental Design admissions page.

Accelerated Program

Students in the Bachelor of Science in Architecture program are eligible to apply for the +1 accelerated undergraduate-graduate program. The program enables qualified and eligible students to complete the 60-credit Master of Architecture (MArch) degree within a year after graduation with the Bachelor of Science in Architecture pre-professional degree. Eligible undergraduate students use up to 12 specified graduate credits to fulfill requirements for their undergraduate degree. Upon graduation from their undergraduate program, students move seamlessly into their graduate program. At the end of the contiguous fifth year (including two summer semesters), students will receive a Master of Architecture degree. To be eligible for the program, students must be declared Architecture majors; have a minimum 3.25 cumulative GPA in at least 45 credits of coursework taken at Temple; be able to complete their undergraduate degree in four full-time semesters (beginning with their first semester taking a graduate course as an undergraduate); and be able to complete the graduate degree in one additional year including two summer semesters of graduate coursework.

Study Abroad

All AED Department students have the opportunity to study abroad for a semester at Temple Rome or Temple Japan. Admission to these programs is competitive. Applications are made through the Temple Education Abroad and Overseas Campuses office.

Students who plan to study abroad should arrange to meet with an academic advisor as early as possible, preferably during the freshman year, in order to plan the sequence of courses that would be most appropriate. While students majoring in Architecture may study in Rome in the fall or spring semester, Japan is only an option for the spring.

Career Opportunities

Graduates are qualified for a variety of positions in architecture and related fields for which a professional degree and registration are not requirements for advancement. Graduates are prepared to apply for a professional degree in architecture at the graduate level or a related discipline.

Continuing Studies

All of Tyler's undergraduate architecture programs prepare students for continued study in the National Architectural Accrediting Board (NAAB) accredited Master of Architecture (MArch) professional program which the following tracks to accommodate students from different undergraduate majors:

- A 2-year track for students with a 4-year pre-professional bachelor's degree program in architecture.
- A 3-year track for students with a bachelor's degree in other disciplines or in a non-pre-professional architecture program.
- An accelerated track for eligible Temple pre-professional students.

For more information on NAAB accreditation, please visit our NAAB Professional Program Information page.

Accreditation

Students in Tyler's +1 and +2 programs can continue on to the professional degree, the MArch. The BSArch and MArch degrees in a sequence meets the National Architectural Accrediting Board's standards for an accredited professional education.

Architecture Laptop Policy

Laptops are required for all students entering Architecture, Facilities Management, and Historic Preservation programs. The computer and its corresponding digital tools, such as laser cutters, 3D printers, and digital fabrication machines, have become an integral part of architectural pedagogy and the design studio environment. All architecture, facilities management, and historic preservation students begin working digitally in their freshman representation courses within the Architecture Foundations program. This Laptop Policy has been implemented to provide advantageous learning environments that guide students towards the acquisition of tools and skillsets that are most appropriate for the furthering of both their academic and professional journeys. Students should purchase a Windows-compatible laptop.

For full device and software requirements and recommendations, please see the Architecture Program Laptop Policy.

Learn more about the Bachelor of Science in Architecture.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Science in Architecture degree in Architecture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum cumulative 2.00 GPA.

University Requirements

All students are required to complete the General Education (GenEd) requirements. Go to the General Education (p. 83) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3296 and ARCH 4596.

Program Requirements

All required Architecture courses, MATH 1031, and PHYS 1021 or ECE 2142 must be completed with a C- or better to fulfill major requirements.

Code	Title	Credit Hours
MATH 1031	Differential and Integral Calculus	4
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ¹	
Freshman Requirements		
ARCH 1011	Visual Literacy for Architects 1	3
ARCH 1001	Introduction to Design and the Environment	3
ARCH 1012	Visual Literacy for Architects 2	3
Sophomore Requirements		
ARCH 2121	Foundation Architectural Design 1	4
ARCH 2141	Architectural History: Ancient through Renaissance	3
ARCH 2151	Architecture, Technology, and the Environment	3
ARCH 2122	Foundation Architectural Design 2	4
ARCH 2142	Architectural History: 17th Century through 20th Century	3
Junior Requirements		
ARCH 3231	Architectural Design III	6
ARCH 3152	Materials and Methods	4
ARCH 3296	Movements in Modern Architecture	3
ARCH 3232	Architectural Design IV	6
ARCH 3354	Sustainability and Architecture	3
Senior Requirements		
ARCH 4331	Architectural Design V	6
ARCH 3251	Structural Analysis for Architects	3
ARCH 4332	Architectural Design VI	6
ARCH 4596	Seminar in Architectural Theory	3
ARCH Electives		9

1

If ECE 2142 is selected, students will need another GenEd Science and Technology (GS) course to satisfy the GenEd requirement.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Science in Architecture

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Architecture Foundation Studies Courses (Year 1 & 2)

Year 1		Credit Hours
Fall		
ARCH 1011	Visual Literacy for Architects 1 ¹	3
ENG 0802 or ENG 0812 or ENG 0902	Analytical Reading and Writing or Analytical Reading and Writing: ESL or Honors Writing About Literature	4
MATH 1031	Differential and Integral Calculus	4
GenEd Breadth Course		3
Credit Hours		14
Spring		
ARCH 1001	Introduction to Design and the Environment	3
ARCH 1012	Visual Literacy for Architects 2 (spring only)	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ²	
GenEd Breadth Course		3
Credit Hours		16
Year 2		
Fall		
ARCH 2121	Foundation Architectural Design 1 (fall only) ³	4
ARCH 2141	Architectural History: Ancient through Renaissance (fall only)	3
ARCH 2151	Architecture, Technology, and the Environment	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
GenEd Breadth Course		3
Credit Hours		16
Spring		
ARCH 2122	Foundation Architectural Design 2 ((spring only)) ⁴	4
ARCH 2142	Architectural History: 17th Century through 20th Century	3
GenEd Breadth Course		3
Free Elective ⁵		3
Free Elective ⁵		3
Credit Hours		16
Total Credit Hours		62

¹ Although not required, freshman students registered for ARCH 1011 should also take ARCH 1502.

² If ECE 2142 is selected, students will need another GenEd Science and Technology (GS) course to satisfy the GenEd requirement.

³ Option to take ARCH 2123 / ARCH 2153 instead of ARCH 2121 for BS in Facilities Management.

⁴ Option to take ARCH 2124 / ARCH 2154 instead of ARCH 2122 for BS in Facilities Management.

⁵ Students planning to study abroad should substitute the Free Elective for a required course available only on main campus. For more information, please see your advisor.

Note: The Architecture Foundation is common to all three undergraduate degrees. In the spring of the sophomore year, students declare a major in one of the degrees offered. A place in the BS in Facilities Management or the BS in Historic Preservation is guaranteed for all students in good standing with the University. Admission to the Bachelor of Science in Architecture is competitive. Typically, students have a cumulative GPA of 3.0 or higher and an excellent portfolio. Students in all three programs can apply to the Master of Architecture program. Bachelor of Science in Architecture students are eligible for the 2-year, 60 credit track. BS in Historic Preservation and BS in Facilities Management students may be required to take additional coursework (between 60-90 credits) at the graduate level. Students can meet with an advisor to plan ahead and can refer to the Temple University Graduate Bulletin.

Note: Students who plan on applying to the +1 Bachelor of Science in Architecture + Master of Architecture Accelerated Program should plan on taking ARCH 3251 and ARCH 3354 in the second or third year of study and should consult with an academic advisor.

Bachelor of Science in Architecture (Year 3 & 4)

Year 3

Code	Title	Credit Hours
Total Credits for the BSArch in Architecture:		123

Rome Option

Bachelor of Science in Architecture students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year or the fall of senior year on Main campus are completed before the semester abroad. ARCH 3234 can substitute for ARCH 4331; ARCH 3241 counts as an Architecture elective.

Code	Title	Credit Hours
ARCH 3234	Architectural Design Studio in Rome	6
ARCH 3241	Seminar Analysis of Urban Structure in Rome	3
Free Elective		3

Free Elective	3
Total Credit Hours	15

Japan Option

Bachelor of Science in Architecture students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year or fall of senior year on Main campus are completed before the semester abroad.

GenEd courses are offered at the Japan campus and can be substituted where appropriate for Free electives. ARCH 3233 can substitute for ARCH 4331; ARCH 3242 counts as an Architecture elective.

Art BA (TUJ)

Overview

The **Bachelor of Arts in Art** is awarded by the Tyler School of Art and Architecture and is available only at Temple University, Japan Campus. The BA in Art is the only degree-conferring U.S.-style art program in Tokyo, offering a curriculum that situates visual practice in a liberal arts context with art historical reference, critical perspectives and theoretical insight. With an emphasis on traditional fine art media, photography and digital technology, the coursework prepares students for a variety of practices in visual art. Tokyo's unique urban environment and its numerous art galleries and museums offer context, inspiration and stimuli for student learning.

The Art major focuses on visual art practice within a liberal arts context. Courses include design, drawing, painting, three-dimensional design, printmaking, digital photography, digital imaging, Internet imaging, moving images, motion graphics, media arts and art history. The faculty teaches studio art from the viewpoint of its connection to such disciplines as psychology, literature, philosophy, mathematics, biology and physics.

Campus Location: Japan

Program Code: TA-ARTU-BA

An Art minor (p. 136) and an Art History minor (p. 135) are also offered at both Main Campus and Japan Campus.

Contact Information

Kaoru Sakurai, MFA, Major Coordinator
ksakurai@tuj.temple.edu

Taro Nettleton, PhD, Major Coordinator
taro.nettleton@tuj.temple.edu

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Arts degree may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum 2.0 cumulative GPA.

There may be minimum grade requirements of C- or better in required courses - students should refer to the DARS and their advisor.

Students who are seeking admission into the BA in Art degree program must review the requirements and procedures outlined on the TUJ web site: www.tuj.ac.jp/admissions/index.html.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Study abroad for a summer or semester will satisfy the Global/World Society requirement.
- The GenEd Arts requirement is waived if all of the following courses are completed with a C- or better: ARTU 1201, ARTU 1401, ARTU 1402 and ARTU 1501. If the student changes majors before completing all four courses, they must complete a GenEd Arts course to satisfy the requirement for General Education.

Major Requirements for BA in Art

- Students must complete successfully the second semester of a foreign language.
- Students must complete at least 15 semester hours in upper-level Liberal Arts courses.

Code	Title	Credit Hours

Art Education BSEd

Overview

The **Bachelor of Science in Education in Art Education**, offered by the Department of Art Education and Community Arts Practices, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Fine Arts in any studio arts major with an optional Concentration in Art Education.

The BSEd in Art Education—a NASAD-accredited program leading to Pennsylvania Certification in Art, K-12—offers Tyler students the rigorous, well-rounded, personal and community-based training needed to prepare for careers in art teaching and becoming a teaching artist, all with an urban focus.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach art to children of all ages.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

The Art Education program ensures a fully-rounded preparation for the elementary and secondary school teacher. This program provides content study for art teacher preparation and teacher certification to teach art in kindergarten through twelfth grade. The requirements for the degree total 122 credits.

The Art Education program requires students to maintain a minimum cumulative GPA of 3.0 to enroll in Art Education courses and to graduate with the Bachelor of Science in Education degree in Art Education.

BSEd in Art Education students should routinely meet with an Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. Application for ARTE 3096 and ARTE 4003/ARTE 4088 must be submitted by the deadline communicated to students by the Art Education department.

Campus Location: Main

Program Code: TA-ARTE-BSED

Admissions

A portfolio is required for admission into the BSEd in Art Education program. If you have completed college-level studio courses and are seeking studio equivalency credit, you must complete a transfer portfolio review. The department will only accept up to 24 transfer credits of studio work toward the major. Students who are seeking admission into the BSEd in Art Education program must contact the Tyler Admissions Office (215-777-9090) for portfolio requirements.

For more information on how to apply, please visit Tyler's Art Education admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Oversees Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Licensure/Certification

Teacher certification is the process used in the U.S. to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Learn more about the Bachelor of Science in Education in Art Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Science in Education degree in Art Education may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 122 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

Completion of the university's General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum grade of C-) in both FDPR 1511 and ARTH 1156 will waive the GenEd Arts (GA) requirement.
- Successful completion (minimum grade of C-) in EDUC 2109, SPED 2231, and TESL 3631 will waive the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

Major Requirements

- A minimum 3.0 cumulative GPA is required for registration in all Art Education courses.
- ARTE 1001, ARTE 2001, ARTE 3096, ARTE 4003, and ARTE 4088 must be completed with a C or better to fulfill major requirements.
- Students must earn minimum grade of C- in required Studio courses, College of Education coursework and additional mathematics requirement.

Art History BA

Overview

The **Bachelor of Arts in Art History**, offered by the Department of Art History, teaches students how to think critically and conduct research about the history of culture—all with a visual, interdisciplinary and global perspective—preparing students for a wide range of careers or further study at the graduate level.

The program is designed to foster a lifelong interest in and sensitivity to the arts as a fundamental form of human expression and communication, equipping students with strong skills in a world in which visual literacy is vitally important. Based at one of the nation's top art schools, Tyler's Art History major offers access to dynamic faculty members with a diverse range of interests; the resources of a large research university; study abroad programs in Rome and Tokyo; and opportunities for field trips, research, internships and enrichment in Philadelphia, a vibrant center of art, culture and history located near both New York and Washington, D.C.

Campus Location: Main

Program Code: TA-ARTH-BA

Admissions

For information on how to apply, please visit Tyler's Art History admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

Tyler Art History students find jobs in the non-profit and for-profit sectors, including museums, galleries, libraries, auction houses, publishers and more, and earn placements in the most competitive graduate programs. To prepare for careers in the arts, students are encouraged to participate in internships at museums and galleries.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Learn more about the Bachelor of Art in Art History.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The degree of Bachelor of Arts in Art History may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major.

Grades below a C- in Art History and General Education courses do not fulfill requirements for the degree.

University Requirements

Students must complete the requirements of the General Education (GenEd (p. 83)) program.

- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

Program Requirements

- A minimum of 66 credits must be taken outside of Tyler departments to earn the degree
- A minimum of 45 semester hours in upper level courses (CLA 2000 to 4999; CST 2000 to 4999) must be completed with a passing grade.
 - Two 2000+ courses (minimum 6 credits) must be taken from Social or Natural Sciences.
 - Upper-level Art History courses are categorized as upper-level Liberal Arts (CLA) courses.
- Students must complete the second level of a foreign language:

All upper-level Art History courses are categorized as upper-level Liberal Arts courses.

1

ARTH 2897 is strongly recommended.

2

ARTH 3097 Art History Capstone is a senior-level course in historiography and research methods, offered only during Spring semesters. Students may take Capstone in either the third or fourth year, but should not enroll until after they have completed at least four upper-level art history courses.

Art History Minor

Overview

Temple University students majoring in other subjects—including Tyler students pursuing Bachelor of Fine Arts degrees—may pursue a **Minor in Art History**. Students may complete much of the minor at the Rome campus or all of the minor at the Temple University Main or Japan Campus.

A minor in Art History is intended to provide the student with a deepened understanding of critical theory and the history of art, to develop skills in the discipline of the study of art history, to allow the pursuit of an interdisciplinary course of study, or to prepare themselves for an advanced degree.

Campus Locations: Main and Japan

Art Minor

Overview

The **Minor in Art** is an opportunity for both Main Campus and Temple University Japan Campus students to study the visual arts, whether the goal is to build on previous experience in the visual arts, develop technical skills, enhance creativity and critical thinking skills to apply to their major area of study, or all of the above.

On Main Campus, Temple University students can pursue the visual arts in world-class facilities at one of the nation's top-ranked art schools with access to the region's vibrant contemporary art scene in Philadelphia and nearby cities like New York and Washington, D.C. Temple University Japan Campus, the only degree-conferring United States-style art program in Tokyo, offers a curriculum that situates visual practice in a liberal arts context with art historical reference, critical perspectives and theoretical insight. Tokyo's unique urban environment and its numerous art galleries and museums offer context, inspiration and stimuli for student learning. Both options provide unique opportunities available to Temple students.

Main Campus courses can be found in the class schedule under the subjects of *Art*, *Community Arts*, *Graphic Arts and Design*, and *Visual Studies*. Temple University Japan Campus courses can be found in the class schedule under the subject of *Art (Japan Campus)*.

Campus Locations: Main and Japan

1

Many Tyler courses are open to non-major students. Be sure to review the course description and select an appropriate course. A list of courses currently open to non-majors is listed on the Tyler School of Art and Architecture Advising web site.

Note: The department will accept a maximum of 9 s.h. of transfer studio credits towards the minor. A portfolio of work must be submitted for review by department faculty.

Students who are matriculated in the Tyler BA in Art, BA in Art Therapy, BA in Visual Studies, BSED or BFA degree programs may not declare an Art minor.

Art Therapy BA

Overview

The **Bachelor of Arts in Art Therapy**, offered by the Department of Art Education and Community Arts Practices, introduces students to a professional pathway that integrates mental health, human services and the creative process. The program supports students' development of a broad range of skills needed to succeed in careers from art therapy to counseling, enriching the lives of individuals, families and communities.

While a master's degree is required in the professional field of art therapy, this program rigorously prepares students who are interested in pursuing advanced studies in art therapy at the graduate level or art therapy-related jobs. Students learn communication and collaboration, creative design and planning, critical observation and research and self-awareness and cultural responsiveness—skills that can be applied in many kinds of work and master's-level study in a variety of fields.

Tyler Art Therapy offers students access to the resources of a world-class art school; a large, urban, public research university; and faculty who are committed to the power of healing through art. Students benefit from the school's location in Philadelphia and the city's rich array of schools, communities, clinics, museums and galleries near Temple, opening up opportunities for networking, internships, jobs and graduate school.

Campus Location: Main

Program Code: TA-ARTT-BA

Admissions

For information on how to apply, please visit Tyler's Art Therapy admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Learn about the Bachelor of Art in Art Therapy.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The degree of Bachelor of Arts in Art Therapy may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 120 semester hours of credit with a 2.0 GPA.

University Requirements

Students must complete the requirements of the General Education (GenEd (p. 83)) program (32 credits).

- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.
- Successful completion (minimum grade of C-) in both FDPR 1511 and ARTH 1156 will waive the GenEd Arts (GA) requirement.

All Temple students must take a minimum of two writing-intensive courses at Temple University as part of the major. Writing-intensive courses are identified by the last two digits of the course number (xx96, xx97, xx98). These courses are also identified by the Course Attribute of "WI."

Foreign Language Requirement

Students must complete the second level of a foreign language (4-8 credits).

Major Requirements

ARTE 1001, ARTT 2011, ARTT 3004, ARTE 3202, and ARTT 4289 must be completed with a C or better to fulfill major requirements.

Students will be expected to complete a portfolio of artwork that shows advanced skills in at least one studio area.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

If second level language (1002) is not required as determined by placement testing, these credits must be taken as academic elective.

3

Students must take a 3000-level studio course or higher in order to build advanced skills in at least one studio area.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Art Therapy majors interested in studying abroad should consult with an academic advisor to discuss how a semester or a summer program fits in the program to remain on track for graduation.

BFA Foundation

Tyler's BFA curriculum is designed to give sound preparation to the future artist through coursework that provides a variety of approaches, practices, skills and goals. The BFA Foundation Program and introductory courses in each studio area develop a thorough understanding of fundamental processes and information. Advanced courses in the major stress the development of an individual idiom and preparation for the professional world. At Tyler, art students find an atmosphere of aesthetic freedom that encourages personal experimentation and the exploration of visual concepts.

Freshman Year

The Foundation Program is highly structured and intensive; it forms the base that establishes the fundamental studio practice and principles for all visual art expression. In addition to presenting traditional vocabulary, theory, media, and technique, the Foundation Program develops creative thinking and problem solving, visual thinking, and perceptual and imaginative abilities. Faculty members from across the art and design areas teach the Foundation courses, assuring a broad range of experience and diverse viewpoints.

Sophomore Year

Sophomore studio electives serve as prerequisites to enter the major, of which one or two specific courses are required in each major. During the sophomore year, students are offered the opportunity to explore a wide range of studio areas. This experience gives the necessary background with which to make an informed selection of a major and adds to the overall breadth of the educational experience. Requirements are six 2000-level studio courses (18 s.h.), not to exceed three courses from any one major area and additional credits in Art History electives and/or General Education.

Junior and Senior Years

The Bachelor of Fine Arts degree is completed after a final two-year focus in a major studio area. Because expressive work is often achieved by synthesis of disparate media, studio work outside the major is encouraged. Requirements are the specified major courses (21-24 s.h. depending on the major) and one major capstone course (3 s.h.), with a minimum grade of C- required in each course; a minimum of three studio electives which may be taken outside the major (9-12 s.h. depending on the major); and additional credits in Art History, General Education and elective courses.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in one of the studio arts majors (i.e., Ceramics, Fibers and Materials Studies, Glass, Graphic and Interactive Design, Metals/Jewelry/CAD-CAM, Painting, Photography, Printmaking, or Sculpture) may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00.

General Education, courses waiving General Education requirements, and major courses all must be completed with a minimum grade of C- to fulfill requirements. Please confer with the advising staff and review your DARS for further information.

BFA Curriculum

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a grade of C- or better.

2

See academic advisor for details.

3

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Students may elect to take a second writing intensive course within their majors (if available), but must still fulfill a total of 13-14 credits in Art History - see academic advisor for details.

5

In some majors, the Capstone is taken in the junior year.

Ceramics BFA

Overview

The **Bachelor of Fine Arts in Ceramics**, offered by the Department of Art at the Tyler School of Art and Architecture, welcomes students into a diverse community of thinkers and makers who challenge traditional processes in a forward-looking way.

Led by a faculty of practicing artists in state-of-the-art facilities, Ceramics majors work in a close-knit environment, side-by-side with graduate students, as they explore traditional and experimental clay techniques. The program draws on the energy and resources of the urban landscape of Philadelphia—a city with a longstanding clay culture and vibrant visual art scene—to forge community partnerships that lead to broader, inclusive perspectives, conversations and exchanges of ideas.

Students learn product design and production, studio management and gallery installation, as well as critical thinking and problem solving—transferable skills that help prepare them for success in any artistic discipline or profession, including as educators, gallery operators, architectural designers, curators and more. Students also have opportunities for internships in Philadelphia's densely networked clay community.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-CRME-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 147).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Ceramics.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Ceramics may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Ceramics majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2101 and ART 2102 to enter the Ceramics major.
- The eight required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

2

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Ceramics majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation. If a student is spending a traditional semester abroad, ART 2101 must be completed prior to studying abroad. To remain on track for graduation, permission may be granted to substitute an additional specialized ceramics course in lieu of an advanced ceramics course.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a

Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

3

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Ceramics with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Ceramics with Entrepreneurial Studies**, offered by the Department of Art, welcomes students into a diverse community of thinkers and makers who challenge traditional processes in a forward-looking way.

Led by a faculty of practicing artists in state-of-the-art facilities, Ceramics majors work in a close-knit environment, side-by-side with graduate students, as they explore traditional and experimental clay techniques. The program draws on the energy and resources of the urban landscape of Philadelphia—a city with a longstanding clay culture and vibrant visual art scene—to forge community partnerships that lead to broader, inclusive perspectives, conversations and exchanges of ideas.

Students learn product design and production, studio management and gallery installation, as well as critical thinking and problem solving—transferable skills that help prepare them for success in any artistic discipline or profession, including as educators, gallery operators, architectural designers, curators and more. Students also have opportunities for internships in Philadelphia's densely networked clay community.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-CREN-BFA

Admissions

Admission to Tyler's BFA in studio art majors is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Ceramics with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Ceramics with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2101 and ART 2102 to enter the Ceramics with Entrepreneurial Studies major.
- The eight required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Only three 2xxx level courses can be taken in any one subject area in order to count for sophomore studio credit.

3

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

These courses cannot fulfill both a requirement for the major and a requirement for this category.

5

Students who select a WI from the Tyler entrepreneurship courses may elect to take a non-WI 4-credit Art History course.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Ceramics majors interested in studying

abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation. If a student is spending a traditional semester abroad, ART 2101 must be completed prior to studying abroad. To remain on track for graduation, permission may be granted to substitute an additional specialized ceramics course in lieu of an advanced ceramics course.

City and Regional Planning Minor

Overview

The **Minor in City and Regional Planning**, offered by the Department of Architecture and Environmental Design (AED), is available to all undergraduate matriculating Temple University students (except for students pursuing the Community Development major or minor). Through this minor students undertake formal studies about public planning, thereby preparing themselves for contributions as informed citizens, civically engaged professionals, or ultimately as professional planners.

In this 18-credit minor, the required courses provide common background in the basics of planning, including history, theory, comprehensive planning and its components, ethics and principles of planning practice with particular emphasis on citizen participation, and exposure to a range of analytical methods for understanding community planning issues. The four electives allow students to explore interests in different facets of city planning: land use; housing; economic development; transportation; sustainability and environmental planning.

The minor provides students with the background and with stronger credentials to apply for graduate level work in planning.

Requirements

Students must earn a minimum grade of C- in courses satisfying minor requirements and must have a minimum 2.0 grade point average in the required 18 credits to earn the minor.

- A student may not double count any course for the Minor in City & Regional Planning toward any other major, minor, or certificate.
- At least half of the courses for the minor must be taken at Temple University.
- Courses for the minor must be completed prior to graduation.

One of the four electives may be a course from another subject approved by the Department Chair for Planning and Community Development.

Community Arts Practices Certificate

This certificate is not open for enrollment for the 2023-2024 academic year.

Overview

The **Certificate in Community Arts Practices** is offered by the Department of Art Education and Community Arts Practices.

The Community Arts Practices Program is committed to the many and varied communities in Philadelphia and to Tyler students' education as artists to combine artistic disciplines with skills and knowledge in community organizing, positioning them for an expanded civic role in the 21st century. The Community Arts Practices Program develops and delivers university courses, after-school workshops, inter-generational forums, inter-disciplinary performances and site-specific installations.

At the heart of the program are community partnerships and internships that enable Tyler/Temple students to expand their art disciplines as community collaborators. During the last several years, the Community Arts Practices Program has created a body of community-based arts works, establishing a network of relationships and ongoing presence in neighborhoods that translates into continued projects. During this time, we have worked with youths and adults, organizations and families, in North Philadelphia neighborhoods and beyond, building a broad range of community arts partnerships that stimulate dialogue and share history to create exhibitions and interdisciplinary performances based on community lives and stories and shared student experiences.

Total Credit Hours**12**

Community Development BS

Overview

The **Bachelor of Science in Community Development**, offered by the Department of Architecture and Environmental Design (AED), prepares students to learn to understand and think critically about the social, political, economic, and cultural dynamics shaping various types of communities. Particular emphasis is given to empowering disadvantaged communities to address inequalities and improve their long-term social, economic, and environmental sustainability. The program enables students to lead efforts to create and maintain healthy, sustainable communities by providing a

broad-based understanding and awareness of multi-dimensional aspects of urban and suburban community challenges in a metropolitan regional context and the means of effecting change from both grass-roots and public policy perspectives.

Students will learn how to engage stakeholders; assess a community's assets, needs and opportunities; plan what the community wants to achieve; and develop strategies, programs, and policies to improve quality of life. Learning will extend beyond the classroom with hands-on experience through service learning, field research, informal gatherings, and workshops.

Campus Location: Main

Program Code: TA-CMDV-BS

Admissions

For more information on how to apply, please visit Tyler's Community Development admissions page.

Accelerated Program

Eligible undergraduate students can also choose the +1 accelerated BS in Community Development and MS in City and Regional Planning program. The accelerated degree program enables students to complete both degree programs in 5 years by taking up to 12 specified graduate credits to fulfill the undergraduate degree requirements. Upon graduation from their undergraduate program, students move seamlessly into their graduate program, which they complete in one additional year.

To be eligible for the program, students must be declared Community Development majors; have a minimum of 3.25 cumulative GPA in at least 45 credits of coursework taken at Temple; be able to complete their undergraduate degree according to the specified academic plan; and be able to complete the graduate degree in one additional year including two summer semesters of graduate coursework. Community Development majors apply to the +1 accelerated program in March of their sophomore year.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

In the Community Development program students prepare to tackle the challenges of the community development worker in the 21st century, specifically how to empower culturally, economically or geographically disadvantaged communities to address inequalities and improve their long-term social, economic and environmental sustainability. Graduates are prepared to serve as the critical link between communities, local governments, and state and federal programs in various positions including community organizing, nonprofit organizations, private foundations, community development corporations, community investment specialists and more.

Learn more about the Bachelor of Science in Community Development.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The degree of Bachelor of Science in Community Development may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 122 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major.

At least half of the courses required for the major must be completed at Temple University.

University Requirements

- MATH 0701 (4 s.h.) and/or ENG 0701 (4 s.h.), if required by placement assessment.
- Students must complete requirements of the university General Education (GenEd (p. 83)) program.
 - Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

Program Requirements

- The courses fulfilling requirements for the Community Development major must be completed with a minimum grade of C- to apply towards degree requirements.
- All Temple students must take a minimum of two writing-intensive courses as part of the major. CDEV 2596 and CDEV 3197 are the specific writing-intensive courses that are required for Community Development majors.

1

This course has a prerequisite(s) or registration restriction(s).

2

4+1 students will take the approved graduate level CTRP courses in lieu of free electives in years 3 and 4. These students should consult with advisor before taking CTRP courses to fulfill Methods and Practice electives, to avoid conflicts with the graduate curriculum requirements.

3

Students should consult with their advisor before enrolling in Special Topics courses as topics may vary.

Note: CDEV students are not eligible for the minors in Community Development or City and Regional Planning.

2

If one of the CDEV Interdisciplinary Electives is taken for 2 credits, then the second CDEV Interdisciplinary Elective must be 4 credits in order to meet the 6-credit CDEV Interdisciplinary Electives requirement for the major.

Community Development Minor

Overview

The **Minor in Community Development**, offered by the Department of Architecture and Environmental Design (AED), is available to all undergraduate matriculating Temple University students (except for students majoring in Community Development). Community Development as a field embraces both citizen activists and professionals in planned efforts to identify, enhance and create social and physical assets that increase the capacity of residents to improve their quality of life. Through this minor, students undertake formal studies about community development, thereby preparing themselves for contributions as informed citizens and civically engaged professionals.

In this 18-credit minor, students will learn to understand and think critically about the social, political, economic, historic, and cultural dynamics shaping various types of communities. Courses provide important knowledge, values, and skills necessary for community development work. The three electives allow students to explore interests in different facets of community development.

The minor provides students with stronger credentials to apply for graduate level work in planning and other related fields.

Requirements

Students must earn a minimum grade of C- in courses satisfying minor requirements and must have a minimum 2.0 grade point average in the required 18 credits to earn the minor.

- A student may not double count any course for the Minor in Community Development toward any other major, minor, or certificate.
- At least half of the courses for the minor must be taken at Temple University.
- Courses for the minor must be completed prior to graduation.

Creative Entrepreneurship Certificate

Overview

The **Certificate in Creative Entrepreneurship** will aid students interested in art to acquire the requisite skills to support themselves as visual artists or entrepreneurs in art or related fields. This certificate is a collaboration between the Tyler School of Art and Architecture and the Fox School of Business and Management. The certificate is an attractive option for those who seek entrepreneurship skills with which to support their creative practice but do not wish to pursue a graduate degree.

The certificate requires 12 credits: 9 credits of Fox Entrepreneurship coursework and a 3-credit Tyler entrepreneurship, business practices or internship course.

The certificate is available for alumni, continuing education / non-matriculating students, and students in other Tyler and non-Tyler degree programs (with the exception of the BFA in Studio with Entrepreneurship degree programs).

Ecological Planning and Design Minor

Overview

The **Minor in Ecological Planning and Design**, offered by the Department of Architecture and Environmental Design (AED), provides all Temple University undergraduate students the opportunity to deepen their understanding of the concept of ecological planning and design. The minor enhances students' understanding of the impact of development on natural resources and processes while gaining an appreciation of ecologically sensitive design and development. Students will develop leadership and decision-making skills relevant to ensuring that design and development takes into consideration ecological, social, political, economic and governance factors. This minor prepares students for lifelong contributions to the sustainability of the communities in which they live and work.

The Minor in Ecological Planning and Design consists of 18 credits, with two required foundation courses and four elective courses. The two foundation courses ensure that all students understand the fundamentals of natural and built systems and ecological planning. The electives allow students to develop a deeper understanding of ecologically sensitive development from the perspective of city planning, horticulture and/or landscape architecture.

Environmental Horticulture Minor

Overview

The **Minor in Environmental Horticulture**, offered by the Department of Architecture and Environmental Design (AED), is available to all undergraduate matriculating Temple University students. Students complete courses related to horticultural concepts and practices which allow them to develop an understanding of the science and practice of protecting, restoring, and managing existing and natural landscape resources.

The curriculum involves 18 credits, with two required courses and at least four elective courses. The required courses give students a solid basis for understanding the fundamentals of horticulture, botany, and plant identification. The electives allow students to explore their own interests in different facets of horticulture, including soils, plantscaping and food crops. The majority of courses are offered on the Ambler Campus.

The coursework completed for the minor allows students the opportunity to consider pursuing a graduate-level degree in Landscape Architecture.

Campus Location: Ambler

Environmental Sustainability Certificate

Overview

The **Certificate in Environmental Sustainability**, offered by the Department of Architecture and Environmental Design (AED), allows students at Temple University to enhance their major with focused coursework on environmental sustainability. This certificate provides students with an interdisciplinary perspective that draws from the fields of botany, city planning, community development, horticulture and landscape architecture. Students will gain basic knowledge needed to evaluate environmental problems and to draw environmentally-, socially- and economically-sound solutions.

The certificate is available to all undergraduate degree students and non-degree students. Consult with an academic advisor about how the required courses fit into academic and career plans.

Facilities Management BS

Overview

The **Bachelor of Science in Facilities Management**, offered by the Department of Architecture and Environmental Design (AED), prepares students for a career in the profession of facility management. This profession encompasses multiple disciplines to ensure functionality of the built environment by integrating people, place, process and technology.

Students take courses in the architecture foundation program for the first two years of study then focus on facilities management practice in the third and fourth year. The program features theoretical and applied learning and real world experience. The Facilities Management courses include industry connections and/or partnerships with professionals coming into the classroom and students visiting them on sites, thus building professional networks. The Facilities Management Lab is a dedicated workspace for Facilities Management students to utilize resources and engage in hands-on projects related to facility design and installation. Dedicated group work areas, studio, woodshop, digital fabrication, and digital lab spaces allow for in-house research drawing, modeling, and digital visualization.

Campus Location: Main

Program Code: TA-ARFM-BS

Admissions

For more information on how to apply, please visit Tyler's Architecture and Environmental Design admissions page.

Study Abroad

All AED department students have the opportunity to study abroad for a semester at Temple Rome or Temple Japan. Admission to these programs is competitive. Applications are made through the Temple Education Abroad and Overseas Campuses office.

Students who plan to study abroad should arrange to meet with an academic advisor as early as possible, preferably during the freshman year, in order to plan the sequence of courses that would be most appropriate. Because of program requirements in the fall semesters of junior and senior years, Historic Preservation and Facilities Management majors should consider attending the Rome or Japan program only during the spring semester of the junior year.

Career Opportunities

Graduates of the program are equipped to work in a range of facility management specializations including government, healthcare, higher education, corporate and real estate. Graduates are prepared to apply for graduate studies in architecture, facilities management or a related discipline, and can pursue facility management certification after entering into the profession.

Continuing Studies

All of Tyler's undergraduate architecture programs prepare students for continued study in the National Architectural Accrediting Board (NAAB) accredited Master of Architecture (MArch) professional program which has the following tracks to accommodate students from different undergraduate majors:

- A 2-year track for students with a 4-year pre-professional bachelor's degree program in architecture.
- A 3-year track for students with a bachelor's degree in other disciplines or in a non-pre-professional architecture program.

For more information on NAAB accreditation, please visit our NAAB Professional Program Information page.

Licensure/Certification

Certification for Facility Managers is a professional credential that indicates career experience and preparedness that is achieved through professional experience. The certification process is administered by the International Facilities Management Association (IFMA). The Tyler Bachelor of Science in Facilities Management prepares students for a career in Facility Management and a number of facilities career-related certifications.

The Tyler program is accredited by the Applied and Natural Science Accreditation Commission (ANSAC) of the Accreditation Board of Engineering and Technology (ABET). IFMA has joined ABET as a member society with lead responsibilities for facility management programs accredited by ANSAC. IFMA provides professional credentials and opportunities for facility managers including Facilities Management Professional (FMP), Sustainability Facility Professional (SFP), and Certified Facility Manager (CFM). While IFMA does not require accredited degrees or particular coursework in order to receive IFMA certification or their other credentials and continuing education opportunities, earning an accredited degree supports a Facilities Management graduate entry to IFMA Certification (FMP, SFP and CFM). The Bachelor of Science in Facilities Management provides a pathway from education to the profession. The degree provides the fastest path to certification.

Architecture Laptop Policy

Laptops are required for all students entering Architecture, Facilities Management, and Historic Preservation programs. The computer and its corresponding digital tools, such as laser cutters, 3D printers, and digital fabrication machines, have become an integral part of architectural pedagogy and the design studio environment. All architecture, facilities management, and historic preservation students begin working digitally in their freshman representation courses within the Architecture Foundations program. This Laptop Policy has been implemented to provide advantageous learning environments that guide students towards the acquisition of tools and skillsets that are most appropriate for the furthering of both their academic and professional journeys. Students should purchase a Windows-compatible laptop.

For full device and software requirements and recommendations, please see the Architecture Program Laptop Policy.

Learn more about the Bachelor of Science in Facilities Management.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the General Education (GenEd) requirements. Go to the General Education (p. 83) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3097 and ARCH 4296.

Program Requirements

A total of 122 s.h. is required for completion of the Bachelor of Science in Facilities Management.

Code	Title	Credit Hours
MATH 1031	Differential and Integral Calculus	4
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ¹	
Freshman Requirements		
ARCH 1011	Visual Literacy for Architects 1	3
ARCH 1001	Introduction to Design and the Environment	3

1

If ECE 2142 is selected, students will need two GenEd Science and Technology (GS) courses to satisfy the GenEd requirement.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Science in Facilities Management

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Architecture Foundation Studies Courses (Year 1 & 2)

Year 1		Credit Hours
Fall		
ARCH 1011	Visual Literacy for Architects 1 ¹	3
ENG 0802 or ENG 0812 or ENG 0902	Analytical Reading and Writing or Analytical Reading and Writing: ESL or Honors Writing About Literature	4
MATH 1031	Differential and Integral Calculus	4
GenEd Breadth Course		3
Credit Hours		14
Spring		
ARCH 1001	Introduction to Design and the Environment	3
ARCH 1012	Visual Literacy for Architects 2 (spring only)	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ²	
GenEd Breadth Course		3
Credit Hours		16
Year 2		
Fall		
ARCH 2121	Foundation Architectural Design 1 (fall only) ³	4
ARCH 2141	Architectural History: Ancient through Renaissance (fall only)	3
ARCH 2151	Architecture, Technology, and the Environment	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
GenEd Breadth Course		3
Credit Hours		16
Spring		
ARCH 2122	Foundation Architectural Design 2 ((spring only)) ⁴	4
ARCH 2142	Architectural History: 17th Century through 20th Century	3
GenEd Breadth Course		3
Free Elective ⁵		3
Free Elective ⁵		3
Credit Hours		16
Total Credit Hours		62

¹ Although not required, freshman students registered for ARCH 1011 should also take ARCH 1502.

² If ECE 2142 is selected, students will need two GenEd Science and Technology (GS) courses to satisfy the GenEd requirement.

³ Option to take ARCH 2123 / ARCH 2153 instead of ARCH 2121 for BS in Facilities Management.

⁴ Option to take ARCH 2124 / ARCH 2154 instead of ARCH 2122 for BS in Facilities Management.

⁵ Students planning to study abroad should substitute the Free Elective for a required course available only on main campus. For more information, please see your advisor.

Note: The Architecture Foundation is common to all three undergraduate degrees. In the spring of the sophomore year, students declare a major in one of the degrees offered. A place in the BS in Facilities Management or the BS in Historic Preservation is guaranteed for all students in good standing with the University. Admission to the Bachelor of Science in Architecture is competitive. Typically, students have a cumulative GPA of 3.0 or higher and an excellent portfolio. Students in all three programs can apply to the Master of Architecture program. Bachelor of Science in Architecture students are eligible for the 2-year, 60 credit track. BS in Historic Preservation and BS in Facilities Management students may be required to take additional coursework (between 60-90 credits) at the graduate level. Students can meet with an advisor to plan ahead and can refer to the Temple University Graduate Bulletin.

Bachelor of Science in Facilities Management (Year 3 & 4)

Year 3		Credit Hours
Fall

Code	Title	Credit Hours
Total Credits for the BS in Facilities Management:		122

Rome Option

Students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year on Main campus are completed before the semester abroad. ARCH 3241 counts as an Architecture elective.

Code	Title	Credit Hours
ARCH 3241	Seminar Analysis of Urban Structure in Rome	3
Free Elective		3
Free Elective		3

Free Elective	3

Fibers and Material Studies with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Fibers and Material Studies with Entrepreneurial Studies**, offered by the Department of Art, introduces students to a bold, interdisciplinary approach to the exploration of one of the world's oldest and most accessible traditions: working with fibers. Students explore the expressive potential and social meaning of fiber materials as they learn technical skills that prepare them for focused, graduate-level study and a variety of careers.

Tyler Fibers and Materials Studies majors join a close-knit, inclusive community led by a strong, diverse faculty that pushes students to experiment and collaborate. Students learn traditional skills and activate them in a contemporary context, contributing to vital discussions on history, identity, current social issues and more. Through dynamic events and projects such as the annual Wearable Art Show and the Natural Dye Garden, Fibers and Materials Studies majors create exciting conversations with artists and students throughout Tyler.

Students take full advantage of Philadelphia's vibrant fibers community and DIY scene and opportunities to engage global social challenges, working closely with professors to engage in community-based projects that challenge them as critical, reflective participants in a broader creative culture. These experiences prepare Fibers and Materials Studies majors to flourish in top graduate programs and production design careers.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-FMSE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Fibers and Material Studies.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Fibers and Material Studies with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Fibers and Material Studies with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2201 and ART 2202 to enter the Fibers and Material Studies with Entrepreneurial Studies major.
- The required Junior/Senior studio courses, ART 4205 and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

3

Students selecting a WI Tyler entrepreneurship course may elect to take a non-WI Art History course.

4

ART 4205 may be taken in spring of third or fourth year.

5

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Fibers and Materials Studies BFA

Overview

The **Bachelor of Fine Arts in Fibers and Materials Studies**, offered by the Department of Art, introduces students to a bold, interdisciplinary approach to the exploration of one of the world's oldest and most accessible traditions: working with fibers. Students explore the expressive potential and social meaning of fiber materials as they learn technical skills that prepare them for focused, graduate-level study and a variety of careers.

Tyler Fibers and Materials Studies majors join a close-knit, inclusive community led by a strong, diverse faculty that pushes students to experiment and collaborate. Students learn traditional skills and activate them in a contemporary context, contributing to vital discussions on history, identity, current social issues and more. Through dynamic events and projects such as the annual Wearable Art Show and the Natural Dye Garden, Fibers and Materials Studies majors create exciting conversations with artists and students throughout Tyler.

Students take full advantage of Philadelphia's vibrant fibers community and DIY scene and opportunities to engage global social challenges, working closely with professors to engage in community-based projects that challenge them as critical, reflective participants in a broader creative culture. These experiences prepare Fibers and Materials Studies majors to flourish in top graduate programs and production design careers.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-FIBR-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 182).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Total Credit Hours	126
---------------------------	------------

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

3

ART 4096 and ART 4205 may be taken in spring of third or fourth year.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Fibers and Materials Studies majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

renee.jackson@temple.edu

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

3

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Glass BFA

Overview

The **Bachelor of Fine Arts in Glass**, offered by the Department of Art, is recognized as one of the nation's top programs in the discipline. It offers students access to unparalleled facilities and prepares them as artists and designers who understand the history, chemistry, technical and aesthetic aspects of working with glass.

Glass majors at Tyler join a welcoming, high-energy community of artists and educators who work in expansive studios that provide opportunities to learn the full range of glass processes: glassblowing, hot-casting, kiln-casting, flame-working, performance and more. In addition to learning traditional and innovative techniques, students learn how to think critically and solve problems—all while enjoying Tyler Glass traditions from Blow-a-thons to "Pumpkinferno."

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center with a strong glass art tradition, and its proximity to New York to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in the most competitive graduate programs.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-GLSS-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 190).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Glass.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Glass may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Glass majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2301 and ART 2302 to enter the Glass major.
- The eight required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking Glass courses in excess of the minimum required. These additional courses count towards required studio electives.

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

Code	Title	Credit Hours
Studio Courses		74
Foundation Program (20 credits)		
2000 level Sophomore studios including major prerequisites (18 credits)		
Major studio requirements (24-27 credits, varies depending on major)		
Studio electives (9-12 credits, varies depending on major)		
Art History Courses		12-13
ARTH 1155 or ARTH 1955	Arts of the World I: Prehistoric to 1300 Honors Arts of the World I: Prehistoric to 1300	
ARTH 1156 or ARTH 1956	Arts of the World II: 1300 to the 21st Century Honors Arts of the World II: 1300 to the 21st Century	
2000+ ARTH elective		
2000+ ARTH elective

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

3

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Glass with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Glass with Entrepreneurial Studies**, offered by the Department of Art, is recognized as one of the nation's top programs in the discipline. It offers students access to unparalleled facilities and prepares them as artists and designers who understand the history, chemistry, technical and aesthetic aspects of working with glass.

Glass majors at Tyler join a welcoming, high-energy community of artists and educators who work in expansive studios that provide opportunities to learn the full range of glass processes: glassblowing, hot-casting, kiln-casting, flame-working, performance and more. In addition to learning traditional and innovative techniques, students learn how to think critically and solve problems—all while enjoying Tyler Glass traditions from Blow-a-thons to "Pumpkinferno."

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center with a strong glass art tradition, and its proximity to New York to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in the most competitive graduate programs.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-GLEN-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Glass.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Glass with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Glass with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2301 and ART 2302 to enter the Glass with Entrepreneurial Studies major.
- The required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

Major Requirements for the BFA in Glass with Entrepreneurial Studies

Credit Hours		15
Total Credit Hours		126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students need one Hot Glass course (ART 3301 or ART 3306) and one Cold Construction course (ART 3303 or ART 3304) at the Junior level.

3

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Students taking a WI course from the list of Tyler entrepreneurship courses may take a non-WI Art History elective.

5

Students need one Hot Glass course (ART 4301 or ART 4306) and one Cold Construction course (ART 4303 or ART 4304) at the Senior level.

6

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Graphic and Interactive Design BFA

Overview

The **Bachelor of Fine Arts in Graphic and Interactive Design** (GAID), offered by the Department of Graphic and Interactive Design, does more than prepare students for careers in print and screen-based design—it teaches them how to create unforgettable experiences that make the world a better place.

Tyler GAID majors join a tight-knit network of students, teachers and alumni that embraces the power of design to open minds, move hearts, shape environments and heal communities. Tyler's faculty help students find their unique voice and wield it to solve complex social challenges that impact

us all, from poster campaigns that spotlight the effects of climate change to apps that address the problem of physical exercise for individuals who are visually impaired. Students are pushed to experiment and create original, research-driven concepts across all platforms, including illustration, typography, packaging, web sites, social media, virtual reality and real-life spaces.

Students at Tyler get the best of both worlds: an intimate community with small classes and personal mentorship; and access to the facilities, academic experts and resources of Temple, a leading public research university based in Philadelphia, with its dynamic arts and culture scene and opportunities for professional advancement.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-GID-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 204).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Because of the demand for a limited number of spaces in the Graphic and Interactive Design major, all BFA students who are not yet declared majors in Graphic and Interactive Design will have to apply for the Sophomore Portfolio Review in GAID in order to get into the major, regardless of when that student started at Tyler or when they took Graphic Design (GAD 2001) and Computers for Design (GAD 2021).

The review process is required for any Tyler student seeking to enter the major. Because the GAID program follows a strict fall/spring sequence, students may only begin as GAID majors in the fall semester. Students must complete the program in sequence as the capstone courses are offered only in the spring. Admitted students must begin taking required courses in the major at the junior (3xxx) level in the academic year immediately following official admission to the major or their admission to the major will be forfeited.

It is strongly recommended that potential applicants for admission to the GAID major attend one of the official sophomore advising meetings with the GAID Program Head where the application process will be explained. The process will also be explained by the instructors in each section of GAD 2001.

Laptop Requirement for GAID Majors

The Graphic and Interactive Design department is committed to excellence in design and the full integration of technologies within our discipline to best educate and prepare our students to become leaders in this field. A thorough understanding of the changing nature of design and the integral role that technology plays in it is essential for all our students to be active participants in this ever-changing environment.

For full device and software requirements and recommendations, please see the Graphic and Interactive Design Laptop Requirements.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Graphic and Interactive Design.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Graphic and Interactive Design may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Graphic and Interactive Design majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

The required Junior/Senior courses must be completed with a C- or better to fulfill major requirements.

Requirements for BFA in Graphic and Interactive Design

Sophomore Requirements

Code	Title	Credit Hours
GAD 2001	Graphic Design	3
GAD 2021	Computers for Design	3

Note:

- A minimum final grade of C- in GAD 2001 and in GAD 2021 along with the approved portfolio review is required to be accepted to the major.
- Graphic and Interactive Design majors who plan to study abroad should do so in the second semester of their sophomore year if they plan to graduate in four years. These students should see the Area Head for advising prior to leaving.

GAID Protocol for Portfolio Reviews

There will be two portfolio review cycles in Graphic and Interactive Design (GAID) each academic year: the end of the Fall semester (December) and the end of the Spring semester (May). The portfolio reviews will take place in the week after final studio course reviews. Specific dates for the reviews will be announced at the beginning of each semester in the GAD 2001 classes. They will also be posted on Canvas and in the GAID suite. All full-time GAID faculty will serve on the GAID Portfolio Review Admissions Committee.

Applicants must have completed all Tyler Foundations courses (or had approved transfer courses as noted by the Tyler Admissions Office) and the 2 prerequisites for the major: GAD 2001 and GAD 2021 with a C-minus or better.

Application and Notification

The complete policy and application process is detailed on the Graphic and Interactive Design web site at <https://tyler.temple.edu/programs/graphic-interactive-design>.

Application forms will be available for eligible students on Canvas.

Students who have completed or who are currently enrolled in the two prerequisites for the GAID major (GAD 2001 and GAD 2021) and intend to submit an application for the Portfolio Review will be able to obtain an application form, portfolio template and detailed application instructions on Canvas by mid-semester.

Students who fail to submit all of the required materials for the Portfolio Review will be disqualified, but may re-apply at the next review cycle as a first-time submitter. Late submissions will not be reviewed.

Applicants to the GAID major will receive one of the following decisions from the committee after the review is completed: (i) accepted, (ii) not accepted, or (iii) revise and submit. Students who receive a "(iii) revise and submit" evaluation should re-apply in the next portfolio review cycle.

Students who pass the portfolio review for admission to the GAID major will be informed via TUmail. Within 2 weeks of receiving this e-mail, admitted students must reply to the acceptance e-mail to confirm that they definitively want to major in GAID. Students who do not confirm by that deadline will forfeit their admission to the major and will need to re-apply in the next GAID portfolio review cycle as a second-time submitter. Students are limited to no more than two applications to the major.

Junior Requirements

Code	Title	Credit Hours
GAD 3001	Advanced Graphic Design (fall only)	3
GAD 3002	Advanced Graphic Design (spring only)	3

GAD 3011	Typography	3
GAD 3021	Intermediate Computer Graphics	3
Electives strongly recommended		
GAD 3013 or GAD 3015	Advanced Typography	3
GAD 3023 or GAD 3025	Interactive Design	3
GAD 3027	Digital Narratives	3
GAD 3031 or GAD 3033	Illustration	3
GAD 3041	Advertising Design	3
GAD 3096	The Business of Design (WI)	3
GAD 3101	Collaborative Design Workshop in Rome	3

Note:

- In the junior year, *Advanced Graphic Design* must be taken in sequence (GAD 3001 in Fall / GAD 3002 in Spring).
- The prerequisites for Senior level design courses are the four required courses at the junior level: GAD 3001 (Fall), GAD 3002 (Spring), GAD 3011 (Fall or Spring), and GAD 3021 (Fall or Spring). GAD 3023 or GAD 3025 is strongly recommended for students taking GAD 3027. GAD 3023 or GAD 3025 is required for GAD 4007.
- Students who plan to have an interactive portfolio only should take GAD 3023 or GAD 3025. GAD 3021 is the prerequisite for this course.
- GAD 3096 (Fall or Spring) is Writing Intensive and must be passed with a C- or better to be recognized as Writing Intensive credit. It can replace a Writing Intensive requirement in Art History. In that case the Art History requirement can be fulfilled with an Art History course that is not Writing Intensive.

Senior Requirements

Open Elective ³		3
Credit Hours		15
Total Credit Hours		126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Courses offered in Fall only.

3

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Courses offered in Spring only.

5

OR GAD 3096 to fulfill the Writing Intensive requirement. If taken, a *non*-Writing Intensive Art History course will fulfill the Art History requirement.

6

A minimum of 2 senior studios must be successfully completed before taking GAD 4196. Senior studios are GAD 3013 (if taken in the senior year), GAD 3015 (if taken in the senior year), GAD 3027 (if taken in the senior year), GAD 3041 (if taken in the senior year), GAD 4000, GAD 4001, GAD 4002, GAD 4003, GAD 4004, GAD 4005, GAD 4006, GAD 4007, GAD 4008, GAD 4009, GAD 4010, GAD 4011, GAD 4111 and GAD 4112.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Graphic and Interactive Design majors interested in studying abroad should plan to spend either spring semester of their second year, after completing the sophomore prerequisites for the major in the fall, or a summer semester to remain on track with required courses. Please see an academic advisor for more details.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

renee.jackson@temple.edu

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

3

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Graphic and Interactive Design with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Graphic and Interactive Design with Entrepreneurial Studies**, offered by the Department of Graphic and Interactive Design (GAID), does more than prepare students for careers in print and screen-based design—it teaches them how to create unforgettable experiences that make the world a better place.

Tyler GAID majors join a tight-knit network of students, teachers and alumni that embraces the power of design to open minds, move hearts, shape environments and heal communities. Tyler's faculty help students find their unique voice and wield it to solve complex social challenges that impact us all, from poster campaigns that spotlight the effects of climate change to apps that address the problem of physical exercise for individuals who are visually impaired. Students are pushed to experiment and create original, research-driven concepts across all platforms, including illustration, typography, packaging, web sites, social media, virtual reality and real-life spaces.

Students at Tyler get the best of both worlds: an intimate community with small classes and personal mentorship; and access to the facilities, academic experts and resources of Temple, a leading public research university based in Philadelphia, with its dynamic arts and culture scene and opportunities for professional advancement.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-GIDE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Because of the demand for a limited number of spaces in the Graphic and Interactive Design major, all BFA students who are not yet declared majors in Graphic and Interactive Design will have to apply for the Sophomore Portfolio Review in GAID in order to get into the major, regardless of when that student started at Tyler or when they took Graphic Design (GAD 2001) and Computers for Design (GAD 2021).

The review process is required for any Tyler student seeking to enter the major. Because the GAID program follows a strict fall/spring sequence, students may only begin as GAID majors in the fall semester. Students must complete the program in sequence as the capstone courses are offered only in the spring. Admitted students must begin taking required courses in the major at the junior (3xxx) level in the academic year immediately following official admission to the major or their admission to the major will be forfeited.

It is strongly recommended that potential applicants for admission to the GAID major attend one of the official sophomore advising meetings with the GAID Program Head where the application process will be explained. The process will also be explained by the instructors in each section of GAD 2001.

Laptop Requirement for GAID Majors

The Graphic and Interactive Design department is committed to excellence in design and the full integration of technologies within our discipline to best educate and prepare our students to become leaders in this field. A thorough understanding of the changing nature of design and the integral role that technology plays in it is essential for all our students to be active participants in this ever-changing environment.

For full device and software requirements and recommendations, please see the Graphic and Interactive Design Laptop Requirements.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Graphic and Interactive Design.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Graphic and Interactive Design with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Graphic and Interactive Design with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

The required Junior/Senior courses must be completed with a C- or better to fulfill major requirements.

Major Requirements for BFA in Graphic and Interactive Design with Entrepreneurial Studies

Sophomore Requirements

Code	Title	Credit Hours
GAD 2001	Graphic Design	3
GAD 2021	Computers for Design	3

Note:

- A minimum final grade of C- in GAD 2001 and in GAD 2021 along with the approved portfolio review is required to be accepted to the major.
- Graphic and Interactive Design majors who plan to study abroad should do so in the second semester of their sophomore year if they plan to graduate in four years. These students should see the Area Head for advising prior to leaving.

GAID Protocol for Portfolio Reviews

There will be two portfolio review cycles in Graphic and Interactive Design (GAID) each academic year: the end of the Fall semester (December) and the end of the Spring semester (May). The portfolio reviews will take place in the week after final studio course reviews. Specific dates for the reviews will be announced at the beginning of each semester in the GAD 2001 classes. They will also be posted on Canvas and in the GAID suite. All full-time GAID faculty will serve on the GAID Portfolio Review Admissions Committee.

Applicants must have completed all Tyler Foundations courses (or had approved transfer courses as noted by the Tyler Admissions Office) and the 2 prerequisites for the major: GAD 2001 and GAD 2021 with a C-minus or better.

Application and Notification

The complete policy and application process is detailed on the Graphic and Interactive Design web site at <https://tyler.temple.edu/programs/graphic-interactive-design>.

Application forms will be available for eligible students on Canvas.

Students who have completed or who are currently enrolled in the two prerequisites for the GAID major (GAD 2001 and GAD 2021) and intend to submit an application for the Portfolio Review will be able to obtain an application form, portfolio template and detailed application instructions on Canvas by mid-semester.

Students who fail to submit all of the required materials for the Portfolio Review will be disqualified, but may re-apply at the next review cycle as a first-time submitter. Late submissions will not be reviewed.

Applicants to the GAID major will receive one of the following decisions from the committee after the review is completed: (i) accepted; (ii) not accepted; or (iii) revise and submit. Students who receive a "(iii) revise and submit" evaluation should re-apply in the next portfolio review cycle.

Students who pass the portfolio review for admission to the GAID major will be informed via TUmail. Within 2 weeks of receiving this e-mail, admitted students must reply to the acceptance e-mail to confirm that they definitively want to major in GAID. Students who do not confirm by that deadline will forfeit their admission to the major and will need to re-apply in the next GAID portfolio review cycle as a second-time submitter. Students are limited to no more than two applications to the major.

Junior Requirements

Code	Title	Credit Hours
GAD 3001	Advanced Graphic Design (fall only)	3
GAD 3002	Advanced Graphic Design (spring only)	3
GAD 3011	Typography	3
GAD 3021	Intermediate Computer Graphics	3
Electives strongly recommended		
GAD 3013 or GAD 3015	Advanced Typography	3
GAD 3023 or GAD 3025	Interactive Design	3
GAD 3027	Digital Narratives	3
GAD 3031 or GAD 3033	Illustration	3
GAD 3041	Advertising Design	3
GAD 3096	The Business of Design (WI)	3
GAD 3101	Collaborative Design Workshop in Rome	3

Note:

- In the junior year, *Advanced Graphic Design* must be taken in sequence (GAD 3001 in Fall / GAD 3002 in Spring).
- The prerequisites for Senior level design courses are the four required courses at the junior level: GAD 3001 (Fall), GAD 3002 (Spring), GAD 3011 (Fall or Spring), and GAD 3021 (Fall or Spring). GAD 3023 or GAD 3025 is strongly recommended for students taking GAD 3027. GAD 3023 or GAD 3025 is required for GAD 4007.
- Students who plan to have an interactive portfolio only should take GAD 3023 or GAD 3025. GAD 3021 is the prerequisite for this course.
- GAD 3096 (Fall or Spring) is Writing Intensive and must be passed with a C- or better to be recognized as Writing Intensive credit. It can replace a Writing Intensive requirement in Art History. In that case the Art History requirement can be fulfilled with an Art History course that is not Writing Intensive.

Senior Requirements

Code	Title	Credit Hours
Select two specialized courses in Senior Graphic Design from the following:		6
GAD 3013 or GAD 3015	Advanced Typography	
GAD 3027	Digital Narratives	
GAD 3041	Advertising Design	
GAD 4000 or GAD 4010	Senior Design: Special Topics	
GAD 4001	Senior Graphic Design: Senior Design Workshop	
GAD 4002	Senior Graphic Design: Hybrid Design	
GAD 4003	Senior Graphic Design: Art Direction	
GAD 4004	Senior Graphic Design: Packaging	
GAD 4005	Senior Graphic Design: Publishing	
GAD 4006	Senior Graphic Design: Brand Identity	

GAD 4007	Senior Interactive Design	
GAD 4008	Senior Graphic Design: Projects in Authorship	
GAD 4011	Senior Graphic Design: Design for the Public Good	
GAD 4111	Senior Illustration	
or GAD 4112	Senior Illustration	
Select one specialized course from the Senior Graphic Design list or one of the following:		3
GAD 3031	Illustration	
or GAD 3033	Illustration	
GAD 3023	Interactive Design	
or GAD 3025	Interactive Design	
GAD 3096	The Business of Design (WI)	
GAD 3101	Collaborative Design Workshop in Rome	
Specialized Course Requirement		
GAD 4009	Senior Graphic Design: Projects in Authorship (spring only)	3
Capstone Requirement		
GAD 4196	Senior Portfolio (Capstone, WI, spring only)	3

Note:

- An additional 3xxx or 4xxx level GAD course may be taken as studio elective.
- The capstone GAD 4196 Senior Portfolio and GAD 4009 Senior Graphic Design: Projects in Authorship are offered in spring semesters only. These two courses must be taken in addition to the three required senior (or equivalent) GAD courses listed above.

Entrepreneurship Courses

Code	Title	Credit Hours
Select three of the following:		9
SGM 3002	Planning to Start Your Own Business	
SGM 3501	Entrepreneurial and Innovative Thinking	
SGM 3503	Lean Startup: Fast and Inexpensive Ways to Test and Launch Your Ideas	
SGM 3504	Launch a New Venture in 100 Days	
SGM 3511	Doing Well by Doing Good: Where Innovation and Entrepreneurship Meet Social Impact	
SGM 3521	Pitching and Funding Entrepreneurial Ventures	
SGM 3580	Special Topics - Strategic Management	
SGM 3585	Social Impact Internship - Work with Benefit/B-corps, Non-profits, or Multi-bottom-line Ventures	
or SGM 3685	New Venture Internship: Learning to be a High-Value Employee, Manager, or Founder	
Select one of the following: ¹		3
ART 3085	Field Internship	
ART 4096	Professional Practices in Art (WI)	
GAD 3053	Art Careers Promotion	
GAD 3096	The Business of Design (WI)

Open Elective ³	3
Credit Hours	15
Total Credit Hours	126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Course offered in fall only.

3

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Courses offered in spring only.

5

Students who complete GAD 3096 or another WI entrepreneurship course from the approved list may take a non-WI Art History elective.

6

A minimum of 2 senior studios must be successfully completed before taking GAD 4196. Senior studios are GAD 3013 (if taken in the senior year), GAD 3015 (if taken in the senior year), GAD 3027 (if taken in the senior year), GAD 3041 (if taken in the senior year), GAD 4000, GAD 4001, GAD 4002, GAD 4003, GAD 4004, GAD 4005, GAD 4006, GAD 4007, GAD 4008, GAD 4009, GAD 4010, GAD 4011, GAD 4111 and GAD 4112.

7

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Historic Preservation BS

Overview

The **Bachelor of Science in Historic Preservation**, offered by the Department of Architecture and Environmental Design (AED), centers on current practices related to cultural heritage and community based preservation. Students take courses in the architecture foundation program for the first two years of study then focus on preservation theory and practice in the third and fourth year. This program is well suited for students interested in research and application of architectural and historical knowledge. The program offers an introduction to historic preservation and the agencies and frameworks within which preservation is carried out locally, nationally and internationally. Coursework examines a number of global, national and local case studies. Students undertake an in-depth capstone research investigation of a selected case study to employ research methods utilized in preservation. Dedicated group work areas, woodshop, digital fabrication, and digital lab spaces allow for in-house research drawing, modeling, and digital visualization.

Campus Location: Main

Program Code: TA-HIPR-BS

Admissions

For more information on how to apply, please visit Tyler's Architecture and Environmental Design admissions page.

Study Abroad

All AED Department students have the opportunity to study abroad for a semester at Temple Rome or Temple Japan. Admission to these programs is competitive. Applications are made through the Temple Education Abroad and Overseas Campuses office.

Students who plan to study abroad should arrange to meet with an academic advisor as early as possible, preferably during the freshman year, in order to plan the sequence of courses that would be most appropriate. Because of program requirements in the fall semesters of junior and senior years, Historic Preservation and Facilities Management majors should consider attending the Rome or Japan program only during the spring semester of the junior year.

Career Opportunities

Graduates of the program will be equipped to work under the supervision of an architect or an architectural historian to document historical buildings, undertake archival research or other more general aspects of architectural practice not requiring licensure. Graduates are prepared to apply for graduate studies in architecture, historic preservation or a related discipline.

Continuing Studies

All of Tyler's undergraduate architecture programs prepare students for continued study in the National Architectural Accrediting Board (NAAB) accredited Master of Architecture (MArch) professional program which has the following tracks to accommodate students from different undergraduate majors:

- A 2-year track for students with a 4-year pre-professional bachelor's degree program in architecture.
- A 3-year track for students with a bachelor's degree in other disciplines or in a non-pre-professional architecture program.

For more information on NAAB accreditation, please visit our NAAB Professional Program Information page.

Architecture Laptop Policy

Laptops are required for all students entering Architecture, Facilities Management, and Historic Preservation programs. The computer and its corresponding digital tools, such as laser cutters, 3D printers, and digital fabrication machines, have become an integral part of architectural pedagogy and the design studio environment. All architecture, facilities management, and historic preservation students begin working digitally in their freshman representation courses within the Architecture Foundations program. This Laptop Policy has been implemented to provide advantageous learning environments that guide students towards the acquisition of tools and skillsets that are most appropriate for the furthering of both their academic and professional journeys. Students should purchase a Windows-compatible laptop.

For full device and software requirements and recommendations, please see the Architecture Program Laptop Policy.

Learn more about the Bachelor of Science in Historic Preservation.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the General Education (GenEd) requirements. Go to the General Education (p. 83) section for more information.

Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

All Temple students must take a minimum of two writing-intensive courses as part of the major. The specific writing-intensive courses required for this major are ARCH 3296 and ARCH 4596.

Program Requirements

A total of 122 s.h. is required for completion of the Bachelor of Science in Historic Preservation.

Code	Title	Credit Hours
MATH 1031	Differential and Integral Calculus	4
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ¹	
Select one of the following:		3
CHEM 1021	Introduction to Chemistry I

1

If ECE 2142 is selected, students will need two GenEd Science and Technology (GS) courses to satisfy the GenEd requirement.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Science in Historic Preservation

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Architecture Foundation Studies Courses (Year 1 & 2)

Year 1		Credit Hours
Fall		
ARCH 1011	Visual Literacy for Architects 1 ¹	3
ENG 0802	Analytical Reading and Writing	4
or ENG 0812	or Analytical Reading and Writing: ESL	
or ENG 0902	or Honors Writing About Literature	
MATH 1031	Differential and Integral Calculus	4
GenEd Breadth Course		3
Credit Hours		14

Spring		
ARCH 1001	Introduction to Design and the Environment	3
ARCH 1012	Visual Literacy for Architects 2 (spring only)	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
Select one of the following:		4
PHYS 1021	Introduction to General Physics I	
ECE 2142	Engineering Principles for Building Science ²	
GenEd Breadth Course		3
Credit Hours		16
Year 2		
Fall		
ARCH 2121	Foundation Architectural Design 1 (fall only) ³	4
ARCH 2141	Architectural History: Ancient through Renaissance (fall only)	3
ARCH 2151	Architecture, Technology, and the Environment	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
GenEd Breadth Course		3
Credit Hours		16
Spring		
ARCH 2122	Foundation Architectural Design 2 ((spring only)) ⁴	4
ARCH 2142	Architectural History: 17th Century through 20th Century	3
GenEd Breadth Course		3
Free Elective ⁵		3
Free Elective ⁵		3
Credit Hours		16
Total Credit Hours		62

1

Although not required, freshman students registered for ARCH 1011 should also take ARCH 1502.

2

If ECE 2142 is selected, students will need two GenEd Science and Technology (GS) courses to satisfy the GenEd requirement.

3

Option to take ARCH 2123 / ARCH 2153 instead of ARCH 2121 for BS in Facilities Management.

4

Option to take ARCH 2124 / ARCH 2154 instead of ARCH 2122 for BS in Facilities Management.

5

Students planning to study abroad should substitute the Free Elective for a required course available only on main campus. For more information, please see your advisor.

Note: The Architecture Foundation is common to all three undergraduate degrees. In the spring of the sophomore year, students declare a major in one of the degrees offered. A place in the BS in Facilities Management or the BS in Historic Preservation is guaranteed for all students in good standing with the University. Admission to the Bachelor of Science in Architecture is competitive. Typically, students have a cumulative GPA of 3.0 or higher and an excellent portfolio. Students in all three programs can apply to the Master of Architecture program. Bachelor of Science in Architecture students are eligible for the 2-year, 60 credit track. BS in Historic Preservation and BS in Facilities Management students may be required to take additional coursework (between 60-90 credits) at the graduate level. Students can meet with an advisor to plan ahead and can refer to the Temple University Graduate Bulletin.

Bachelor of Science in Historic Preservation (Year 3 & 4)

Year 3		Credit Hours
Fall		
ARCH 3111	Introduction to Historic Preservation	3
ARCH 3152	Materials and Methods	4
ARCH 3296	Movements in Modern Architecture	3

Select one of the following: ¹		3
CHEM 1021	Introduction to Chemistry I	
CHEM 1031	General Chemistry I	
CHEM 1035	Chemistry for Engineers	
CHEM 1951	Honors General Chemical Science I	
Free Elective		4
Credit Hours		17
Spring		
ARCH 3251	Structural Analysis for Architects	3
ARCH 4141	Global Preservation Practice	3
ARCH 4145	Research Methods for Historic Preservation	3
GenEd Breadth Course		3

Architecture Elective		3
Elective		3
GenEd Breadth Course		3
Free Elective		3
Credit Hours		15
Spring		
ARCH 4199	Capstone Research Seminar for Historic Preservation	4
ARCH 4596	Seminar in Architectural Theory	3
Architecture Elective		3
Free Elective		3
Credit Hours		13
Total Credit Hours		60
Code	Title	Credit Hours
Total Credits for the BS in Historic Preservation:		122

1

Students may opt to take the lab course (CHEM 1023, CHEM 1033, or CHEM 1953) that complements the lecture course (if available) and select a 3 credit elective course to reach the minimum number of credits for graduation.

Rome Option

Students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the plan below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. For a historic preservation major, the best time to study abroad is fall of the fourth year. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the fall of fourth year on Main campus are completed before the semester abroad. ARCH 3234 and ARTH 2005 can be taken in place of free electives and ARCH 3241 counts as an Architecture elective.

Code	Title	Credit Hours
ARCH 3241	Seminar Analysis of Urban Structure in Rome (Arch Elective)	3
ARCH 3234	Architectural Design Studio in Rome (or Free Electives)	6
ARTH 2005	Cultural Heritage Preservation (or Free Elective)	4
Free Elective or GenEd		3
Total Credit Hours		16

Japan Option

Students who plan to study abroad are encouraged to meet with an advisor as early as the freshman year. While the grid below suggests appropriate coursework, a semester abroad would require using free electives that ordinarily would be taken in other semesters. It will take careful planning with an advisor to ensure that the degree is completed as efficiently as possible, and that courses normally taken in the spring of junior year on Main campus are completed before the semester abroad.

GenEd courses are offered at the Japan campus and can be substituted where appropriate for Free electives. ARCH 3242 counts as an Architecture elective (spring only). Note that students can study abroad in Japan in either fall or spring semester.

Code	Title	Credit Hours
ARCH 3242	Urban Seminar in Tokyo (Undergraduate) (for students attending in spring only)	3
Free Elective or GenEd		3
Free Elective or GenEd		3
Free Elective		3
Free Elective		3
Total Credit Hours		15

Historic Preservation Certificate

Overview

The **Certificate in Historic Preservation**, offered by the Department of Architecture and Environmental Design (AED), creates an opportunity for students from many disciplines who are interested in increasing their knowledge about architectural history and knowing more about how this knowledge can be applied in historical contexts in the built environment. This certificate is available to all undergraduate degree students, except students pursuing the Architecture major or the Historic Preservation major. Students majoring in disciplines such as community development where students learn to work with communities and public policy, art history where students are educated to understand the broad scope of art and architectural historical knowledge, or public history where students focus on the cultural dimension of history, may find the certificate's coursework is a valuable complement to their degree programs.

The Certificate in Historic Preservation requires 15 credits of coursework that includes the Architectural History survey sequence and core Preservation courses. The certificate gives students an overview of the preservation field and an opportunity to work on projects that address current issues of historic preservation in contextual settings.

Campus Location: Main

Program Code: TA-HIPR-CERT

ARCH 2142	Architectural History: 17th Century through 20th Century (S)	3
ARCH 3111	Introduction to Historic Preservation (F) ¹	3
ARCH 4145	Research Methods for Historic Preservation (F) ²	3
Total Credit Hours		15

1

Students must declare the certificate prior to taking ARCH 3111.

2

This course has a prerequisite.

Horticultural Therapy Certificate

Overview

The **Certificate in Horticultural Therapy**, offered by the Department of Architecture and Environmental Design (AED), is available to all undergraduate degree students and non-degree-seeking students. Consult an academic advisor about how the required courses fit into academic and career plans.

The majority of courses are offered on the Ambler Campus.

Campus Location: Ambler

Program Code: TA-HOTH-CERT

Licensure/Certification

Registration as a Horticultural Therapist serves as a voluntary indicator of commitment to the professional standards of horticultural therapy. The registration process is administered by the American Horticultural Therapy Association (AHTA). Registration ensures that professional competencies have been achieved based on the verification of standardized academic requirements, professional training, and commitment to a professional code of ethics.

Temple University's Undergraduate Certificate in Horticultural Therapy meets the educational requirements for registration with the AHTA. In addition to the program's coursework, graduates must also become a member of AHTA at the Associate level; have a baccalaureate degree in horticulture with a concentration in horticultural therapy or an equivalent degree; complete horticulture coursework as outlined by AHTA; and successfully complete a 480-hour internship in horticultural therapy or meet the work experience criteria defined by AHTA.

Learn more about AHTA Professional Registration Policies and Procedures.

Horticulture AS

Overview

The **Associate in Science in Horticulture** is offered by the department of Architecture and Environmental Design (AED). The majority of courses for the Associate in Science in Horticulture are offered on the Ambler Campus.

Students pursuing the Associate's degree in Horticulture learn core organismal and horticultural science, landscape plant material, and installation and management techniques. The curriculum is designed to prepare students for entry into the rapidly expanding horticultural industry and the coursework allows students to participate in valuable hands-on experience.

Campus Location: Ambler

Program Code: TA-HORT-AS

Study Paths

General Horticulture Option

This option is for students interested in developing a well-rounded background in all areas of horticulture or specializing in a particular area of interest such as floral design, integrated pest management or arboriculture.

Horticulture Business Option

This option is for students interested in developing a background in landscape horticulture and in business.

Admissions

For information on how to apply, please visit Tyler's Landscape Architecture and Horticulture admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

Careers in horticulture are available in both the public and private sector. Graduates with a degree in horticulture could be involved in the production, use, installation and management of plants. They may:

- Work in public horticulture in arboreta, botanic gardens, parks or golf courses;
- Teach in a high school, community college or at the university level;
- Pursue an advanced degree and conduct research in plant propagation or stormwater management;
- Produce plants in greenhouses and nurseries for sale and landscape use;
- Design, install and/or maintain residential, commercial or public landscapes;
- Research new technologies and plants in private and public institutions;
- Work toward registration as a horticultural therapist;
- Write about plants and horticulture for articles, books and copy on web sites;

- Work as an extension agent or specialist helping residential and commercial clients;
- Work in interior landscaping or floral design;
- Work as a sales representative for horticultural or allied industries; and/or
- Own and operate their own business.

Continuing Studies

The Department of Architecture and Environmental Design offers a variety of credit courses and certificate programs. These courses and certificates are available to degree-seeking students as well as others interested in horticulture. For many, these courses are a means of advancing careers; for others, they are a source of personal enrichment. It is also possible, over a period of years, to complete all of the requirements for some credit certificate programs and for the associate's and the bachelor's degrees in Horticulture by attending late afternoon, evening and weekend classes.

Learn more about the Associate in Science in Horticulture.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The degree of Associate in Science in Horticulture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 60 semester hours with a minimum cumulative GPA of 2.0 overall and in the major.

No more than one grade below a C- is allowed in any course in either Landscape Architecture or Horticulture.

Program Requirements for General Horticulture Option

Horticulture BS

Overview

The **Bachelor of Science in Horticulture** is offered by the Department of Architecture and Environmental Design (AED). Courses for the BS in Horticulture are offered at the Ambler Campus with a portion of the coursework also available on Temple's Main and Center City campuses. The Horticulture program has access to the Ambler Arboretum of Temple University, Temple Ambler Field Station, and the Temple University Ambler Campus Greenhouse Education and Research Complex. Faculty and students use these resources in coursework and research.

Horticulture is a broad discipline that encompasses the science, art, technology and business of plant cultivation. Careers in the field of horticulture can be in the built landscape or in natural environments and encompasses a myriad of different occupational opportunities. The Temple horticulture curriculum includes both technical coursework and hands-on learning experiences and is designed to educate students using a broad array of courses that encompasses the breadth of the discipline. In order to further broaden and deepen knowledge and understanding of the natural and cultural world, students also receive solid education in the liberal arts.

Students learn the relationships between horticulture, technology and natural ecological processes, and develop a responsible horticultural approach toward the environment. The department encourages students to consider ways to eliminate many outmoded, environmentally damaging practices.

Campus Location: Ambler

Program Code: TA-HORT-BS

Admissions

For information on how to apply, please visit Tyler's Landscape Architecture and Horticulture admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

Careers in horticulture are available in both the public and private sector. Graduates with a degree in horticulture could be involved in the production, use, installation and management of plants. They may:

- Work in public horticulture in arboreta, botanic gardens, parks or golf courses;
- Teach in a high school, community college or at the university level;
- Pursue an advanced degree and conduct research in plant propagation or stormwater management;
- Produce plants in greenhouses and nurseries for sale and landscape use;
- Design, install and/or maintain residential, commercial or public landscapes;
- Research new technologies and plants in private and public institutions;
- Work toward registration as a horticultural therapist;
- Write about plants and horticulture for articles, books and copy on web sites;
- Work as an extension agent or specialist helping residential and commercial clients;
- Work in interior landscaping or floral design;
- Work as a sales representative for horticultural or allied industries; and/or
- Own and operate their own business.

Continuing Studies

The Department of Architecture and Environmental Design offers a variety of credit courses and certificate programs. These courses and certificates are available to degree-seeking students as well as others interested in horticulture. For many, these courses are a means of advancing careers; for others, they are a source of personal enrichment. It is also possible, over a period of years, to complete all of the requirements for some credit certificate programs and for the associate's and the bachelor's degrees in Horticulture by attending late afternoon, evening and weekend classes.

The Certificate in Horticultural Therapy (p. 220) can be completed as part of the Bachelor of Science in Horticulture. Consult an academic advisor about how the required courses fit into specific academic and career plans.

Learn more about the Bachelor of Science in Horticulture.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements for the Degree

The degree of Bachelor of Science in Horticulture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major.

University Requirements

- MATH 0701 (4 s.h.) and/or ENG 0701 (4 s.h.), if required by placement assessment.
- All Temple students must take a minimum of two writing-intensive courses as part of the major. LARC 2496 and HORT 4896 are the specific writing-intensive courses required for Horticulture majors.
- Students must complete the requirements of the General Education (GenEd (p. 83)) program (29-30 s.h.)
 - Earning a minimum grade of C- in CHEM 1021 & CHEM 1023 and CHEM 1022 & CHEM 1024 will waive both GenEd Science & Technology (GS) requirements.
 - Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

Major Requirements

No more than one grade below a C- is allowed in any course in either Landscape Architecture or Horticulture.

Landscape Architecture BS

Overview

The **Bachelor of Science in Landscape Architecture** is offered by the Department of Architecture and Environmental Design (AED). Courses for the BS in Landscape Architecture are offered at the Ambler Campus with a portion of the coursework also available on Temple's Main campus. The

Landscape Architecture Program has access to the Ambler Arboretum of Temple University, Temple Ambler Field Station, and the Temple University Ambler Campus Greenhouse Education and Research Complex. Faculty and students use these resources in coursework and research.

Landscape Architecture is the art of planning the appropriate use of land and designing the built environment based on an understanding of natural and cultural site characteristics, human need, and sound artistic and technical competence.

The scope of landscape architecture includes site design, land use and urban planning at all scales. A landscape architect is responsible for the organization and placement of buildings, recreational facilities, roads, grading, and planting design. Temple's curriculum focuses on appropriate functional and ecological "fit," by using a design approach and techniques that work with and protect the natural environment.

Campus Location: Ambler

Program Code: TA-LARC-BS

Concentration

Landscape Architecture students may pursue the optional Concentration in Horticulture (p. 233).

Admissions

For information on how to apply, please visit Tyler's Landscape Architecture and Horticulture admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

Careers in landscape architecture are available in both the public and private sector. For landscape architecture graduates, there are a variety of employment options including:

- Careers in the public sector in landscape architecture design and management positions. These might be affiliated with regional, county or city planning commissions.
- Careers in private practice including the design of open space in relation to recreational, residential, commercial, institutional and industrial projects, as well as the overall planning of new communities.
- Work on parks, recreation, trails, and open space planning and design.
- Work in environmental protection, historic preservation, landscape restoration, land reclamation and green infrastructure.

Continuing Studies

The AED department offers a variety of credit courses and certificate programs. These courses and certificates are available to degree-seeking students as well as others interested in horticulture. For many, these courses are a means of advancing careers; for others, they are a source of personal enrichment. It is also possible, over a period of years, to complete all of the requirements for some credit certificate programs and for the associate's and the bachelor's degrees in Horticulture by attending late afternoon, evening and weekend classes.

Licensure/Certification

Licensure in Landscape Architecture is required to use the title "landscape architect" in all 50 U.S. states and the District of Columbia. Licensure for landscape architects is state regulated and must be obtained through achievement of three necessary components: (i) education; (ii) professional practice experience; and (iii) examination requirements. To obtain licensure, all states require candidates to pass the Landscape Architectural Registration Exam, which is administered by the Council of Landscape Architectural Registration Boards (CLARB). Additionally, a majority of states require a degree that is accredited by the Landscape Architectural Accrediting Board (LAAB). Temple University's Bachelor of Science in Landscape Architecture and Master of Landscape Architecture are accredited by LAAB, and prepares students to sit for the Landscape Architectural Registration Exam.

Additional requirements (such as exams, questionnaires or training) may be required based on the individual requirements of the state in which you intend to become licensed.

<https://www.asla.org/StateGovtAffairsLicensure.aspx>

Landscape Architecture Laptop Policy

Laptops are required for all students entering Landscape Architecture programs. The computer and its corresponding digital tools, such as laser cutters, 3D printers, and digital fabrication machines, have become an integral part of architectural pedagogy and the design studio environment. All landscape architecture students begin working digitally in their freshman representation courses. This Laptop Policy has been implemented to provide

advantageous learning environments that guide students towards the acquisition of tools and skillsets that are most appropriate for the furthering of both their academic and professional journeys. Students should purchase a Windows-compatible laptop.

For full device and software requirements and recommendations, please see the Landscape Architecture Laptop Policy.

Landscape Architecture BS with Horticulture Concentration

Overview

The **Bachelor of Science in Landscape Architecture with an optional Concentration in Horticulture** is offered by the Department of Architecture and Environmental Design (AED). Courses for the BS in Landscape Architecture with an optional Concentration in Horticulture are offered at the Ambler Campus with a portion of the coursework also available on Temple's Main campus. The Landscape Architecture Program has access to the Ambler Arboretum of Temple University, Temple Ambler Field Station, and the Temple University Ambler Campus Greenhouse Education and Research Complex. Faculty and students use these resources in coursework and research.

Landscape Architecture is the art of planning the appropriate use of land and designing the built environment based on an understanding of natural and cultural site characteristics, human need, and sound artistic and technical competence. The BS in Landscape Architecture with Horticulture concentration allows students the opportunity to more fully integrate horticultural knowledge into the landscape architecture professional degree.

The scope of landscape architecture includes site design, land use and urban planning at all scales. A landscape architect normally is responsible for the organization and placement of buildings, recreational facilities, roads, grading and planting design. Temple's curriculum focuses on appropriate functional and ecological "fit," by using a design approach and techniques that work with and protect the natural environment.

Learn more about the Bachelor of Science in Landscape Architecture.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements for the Degree

The degree of Bachelor of Science in Landscape Architecture with a concentration in Horticulture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 semester hours of credit with a minimum cumulative GPA of 2.0 overall and in the major.

University Requirements

- MATH 0701 (4 s.h.) and/or ENG 0701 (4 s.h.), if required by placement assessment.
- All Temple students must take a minimum of two writing-intensive courses as part of the major. LARC 2496 and LARC 4198 are the specific writing-intensive courses that are required for Landscape Architecture majors.
- Students must complete the requirements of the General Education (GenEd (p. 83)) program (29-20 s.h.).
 - Satisfactory completion of BOT 1111 and HORT 2114 will waive the two-course GenEd Science & Technology (GS) requirements.
 - Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

Major Requirements

No more than one grade below a C- is allowed in any course in either Landscape Architecture or Horticulture.

Code	Title	Credit Hours
BOT 1111	General Botany	4
BOT 1112	Plant Ecology	3
HORT 1211	Woody Plants I	3
HORT 1212	Woody Plants II	3
HORT 2114	Soils	3
HORT 2221	Herbaceous Plants I	3
HORT 3514	Landscape Restoration	3

Satisfactory completion of BOT 1111 and HORT 2114 will waive the two-course GenEd Science & Technology (GS) requirement.

Landscape Plants Certificate

Overview

The **Certificate in Landscape Plants**, offered by the Department of Architecture and Environmental Design (AED), provides a brief introduction to the areas of horticulture and an intensive learning experience in both woody and herbaceous landscape plants. Learning the names and usage of plants provides a deeper understanding for anyone interested in gardening and landscaping. For the professional, it provides the essential knowledge of plants needed to design high-quality landscapes for clients. For the hobbyist, it provides information that enriches the gardening experience.

This certificate is available to all undergraduate degree students and non-degree-seeking students. Consult an academic advisor about how the required courses fit into academic and career plans.

The majority of courses are offered on the Ambler Campus.

Campus Location: Ambler

Program Code: TA-LAPL-CERT

Landscape Studies Minor

Overview

The **Minor in Landscape Studies**, offered by the Department of Architecture and Environmental Design (AED), is available to all undergraduate matriculating Temple University students. Through this minor, students complete courses that deepen their understanding of the relationship between the natural landscape and the human-made environment, but without the professional focus of the bachelor's degree in Landscape Architecture. The minor prepares students for lifelong contributions as informed, civically engaged, and environmentally conscious citizens.

The curriculum for the Minor in Landscape Studies involves 18 credits, with one required course and at least five elective courses. The required course ensures that all students have a solid understanding of the fundamentals of Landscape Studies, including history, theory, and the relationship between the natural and built environments. The electives allow students to explore their own interests in different facets of Landscape Studies. The majority of courses are offered on the Ambler Campus.

The coursework completed for the minor allows students the opportunity to consider majoring in Landscape Architecture.

Campus Location: Ambler

Requirements

Students must earn a minimum grade of C- in courses satisfying minor requirements and must have a minimum 2.0 grade point average in the required 18 credits to earn the minor.

- A student may not double count any course for the Minor in Landscape Studies toward any other major, minor, or certificate.
- At least half of the courses for the minor must be taken at Temple University.
- Courses for the minor must be completed prior to graduation.

Metals/Jewelry/CAD-CAM BFA

Overview

The **Bachelor of Fine Arts in Metals/Jewelry/CAD-CAM**, offered by the Department of Art, is recognized as a national leader in the discipline, offering students access to world-class facilities, emergent technology and mentorship.

Students learn both traditional techniques and cutting-edge digital practice and theory in jewelry, metals and computer-aided design and computer-aided manufacturing (CAD-CAM, one of several technologies pioneered for use in metals at Tyler).

Students have access to the resources of Temple, a large, public research university, and Philadelphia, a premier center of jewelry making and a home base for exploring museums and galleries. Leveraging the expertise and professional networks of Tyler faculty—all practicing artists and leaders in the field—students find internships and connect with the regional and national metals and jewelry community.

Tyler students graduate with a broad base of knowledge, critical thinking skills and the technological proficiency needed for success in the jewelry industry, artistic practice or top graduate schools. The proof is in the long list of Tyler MJCC alumni who are thriving at employers ranging from David Yurman to Tiffany & Co.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-METL-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 243).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Metals/Jewelry/CAD-CAM.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Metals/Jewelry/CAD-CAM may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Metals/Jewelry/CAD-CAM majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2401, and ART 2402 or ART 3402 to enter the Metals/Jewelry/CAD-CAM major.
- The seven required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking Metals/Jewelry/CAD-CAM courses in excess of the minimum required. These additional courses count towards required studio electives.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. MJC-C majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

renee.jackson@temple.edu

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

2

These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

3

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Metals/Jewelry/CAD-CAM with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Metals/Jewelry/CAD-CAM with Entrepreneurial Studies**, offered by the Department of Art, is recognized as a national leader in the discipline, offering students access to world-class facilities, emergent technology and mentorship.

Students learn both traditional techniques and cutting-edge digital practice and theory in jewelry, metals and computer-aided design and computer-aided manufacturing (CAD-CAM, one of several technologies pioneered for use in metals at Tyler).

Students have access to the resources of Temple, a large, public research university, and Philadelphia, a premier center of jewelry making and a home base for exploring museums and galleries. Leveraging the expertise and professional networks of Tyler faculty—all practicing artists and leaders in the field—students find internships and connect with the regional and national metals and jewelry community.

Tyler students graduate with a broad base of knowledge, critical thinking skills and the technological proficiency needed for success in the jewelry industry, artistic practice or top graduate schools. The proof is in the long list of Tyler MJCC alumni who are thriving at employers ranging from David Yurman to Tiffany & Co.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-MJCE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Metals/Jewelry/CAD-CAM.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Metals/Jewelry/CAD-CAM with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Metals/Jewelry/CAD-CAM with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2401, and ART 2402 or ART 3402 to enter the Metals/Jewelry/CAD-CAM with Entrepreneurial Studies major.
- The required Junior/Senior studio courses and ART 4096 (capstone) must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking Metals/Jewelry/CAD-CAM courses in excess of the minimum required. These additional courses count towards required studio electives.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

3

Students completing a Tyler WI entrepreneurship course may elect a non-WI Art History course.

4

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Native Perennial Garden Design Certificate

Overview

The **Certificate in Native Perennial Garden Design**, offered by the Department of Architecture and Environmental Design (AED), provides information that enriches the residential planting design experience. Certificate courses provide learning experiences with fundamentals of horticulture, herbaceous plants, and planting design. The skills necessary for a well designed and maintained residential perennial garden will be gained from learning plant identification, cultural conditions, and appropriate use of plants and planting design.

This certificate is available to all undergraduate degree students and non-degree-seeking students. Consult an academic advisor about how the required courses fit into academic and career plans. The majority of courses are offered on the Ambler Campus.

Campus Location: Ambler

Program Code: TA-NPG-CERT

Requirements

Credit certificates may be conferred upon a student by recommendation of the faculty and upon satisfactory completion of the required credits for the specific topic area with a minimum cumulative GPA of 2.0 overall.

At least half of the courses required for the certificate must be completed at Temple University.

Painting BFA

Overview

The **Bachelor of Fine Arts in Painting**, offered by the Department of Art, is recognized as one of the nation's top programs in the discipline, offering students access to world-class facilities and teaching.

Tyler Painting majors are pushed to grow as artists and critical thinkers by a diverse faculty—all of whom are practicing artists themselves—with a broad range of expertise and a commitment to being engaged, passionate mentors. Students learn technique, theory and perhaps the most powerful tool of all: how to teach themselves to be self-critical.

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center, to explore museums and galleries, find internships, earn placements in competitive graduate programs and launch creative practices. When they graduate, they join an alumni community that includes some of the most influential artists, thought leaders and teachers of their time.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PNTG-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 258).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Painting.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Painting may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Painting majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in Painting (ART 2501 or ART 2503) and Intermediate or Digital Drawing (ART 2502, ART 2504, ART 2507, ART 2508 or ART 3511) to enter the Painting major.
- The eight required Junior/Senior courses and ART 3896 must be completed with a C- or better to fulfill major requirements.

Major Requirements for BFA in Painting

Sophomore Requirements

Code	Title	Credit Hours

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

ART 2502 can be taken in either fall or spring. ART 2508 is offered in fall only.

3

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Art History WI Elective may be taken either fall or spring semester.

5

ART 3896 PDS Seminar can be taken either fall or spring semester.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Painting majors interested in studying abroad may elect to study abroad in a summer program, for a semester or an entire academic year. Please see an academic advisor for more details.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

renee.jackson@temple.edu

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

¹
These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

²
These 3 courses constitute the waiver for the GenEd Human Behavior category if the courses are completed with a C- or better.

³
Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Painting with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Painting with Entrepreneurial Studies**, offered by the Department of Art, is recognized as one of the nation's top programs in the discipline, offering students access to world-class facilities and teaching.

Tyler Painting majors are pushed to grow as artists and critical thinkers by a diverse faculty—all of whom are practicing artists themselves—with a broad range of expertise and a commitment to being engaged, passionate mentors. Students learn technique, theory and perhaps the most powerful tool of all: how to teach themselves to be self-critical.

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center, to explore museums and galleries, find internships, earn placements in competitive graduate programs and launch creative practices. When they graduate, they join an alumni community that includes some of the most influential artists, thought leaders and teachers of their time.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PNTE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Painting.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Painting with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Painting with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in Painting (ART 2501 or ART 2503) and Intermediate or Digital Drawing (ART 2502, ART 2504, ART 2507, ART 2508 or ART 3511) to enter the Painting with Entrepreneurial Studies major.
- The required Junior/Senior studio courses and ART 3896 must be completed with a C- or better to fulfill major requirements.

Major Requirements for BFA in Painting with Entrepreneurial Studies

Sophomore Requirements

Code	Title	Credit Hours
Painting		
ART 2501	Painting	3
or ART 2503	Painting	
Drawing		
Select one of the following:		3
ART 2502	Intermediate Drawing	
ART 2504	Intermediate Drawing	
ART 2507	Intermediate Figure Drawing	
ART 2508	Digital Drawing	
ART 3511	Digital Drawing	

Notes:

- ART 2505 is suggested, but not required, for those interested in becoming a Painting major.
- ART 2806 is strongly recommended for students interested in Painting or Sculpture as a major.
- Students may only take 3 Painting/Drawing courses in the sophomore year; other 2500-level ART courses may be used as electives for the junior/senior year.

Junior and Senior Requirements

Code	Title	Credit Hours
Four (4) Advanced Level Painting courses (see Painting list below)		12
Two (2) Advanced Level Drawing courses (see Drawing list below)		6
Two (2) Advanced Level Painting or Drawing courses (see Painting/Drawing list below)		6
ART 3896	PDS Seminar (Capstone) ¹	3

1

ART 3896 counts as one of the two required writing intensive courses. The other writing intensive course must be an Art History course.

Advanced Level Painting Courses

Code	Title	Credit Hours
ART 2505	Painting Materials and Techniques	3
ART 3503	Landscape ¹	3
or ART 4503	Landscape	
ART 3505	Color	3
or ART 3506	Color	
or ART 4505	Color	
ART 3504	Figure Painting	3
or ART 4504	Figure Painting	
ART 3507	Painting on Paper	3
or ART 3508	Painting on Paper	
ART 3501	Advanced Painting	3
or ART 3502	Advanced Painting	
or ART 3519	Advanced Painting: Rome	
or ART 4501	Advanced Painting	
or ART 4502	Advanced Painting	

ART 4506	Senior Painting Studio ²	3
ART 4507	Senior Painting Studio ²	3

1

ART 3503 and ART 4503 may be taken for Painting and/or Drawing Credit.

2

Students wishing to enroll in ART 4506 or ART 4507 must be jury-selected by the faculty and special approval is needed to register.

Advanced Level Drawing Courses

Code	Title	Credit Hours
ART 3503	Landscape ¹	3
or ART 4503	Landscape	
ART 3511	Digital Drawing	3
ART 3512	Rome Sketchbook	3
ART 3514	Advanced Drawing	3
or ART 3515	Advanced Drawing: Rome	
or ART 3516	Advanced Drawing	
or ART 4514	Advanced Drawing	
ART 3517	Figure Drawing	3
or ART 3518	Figure Drawing	
or ART 4517	Figure Drawing	
or ART 4518	Figure Drawing	
ART 3011	Interactive Projects	3

1

ART 3503 and ART 4503 may be taken for Painting and/or Drawing Credit.

Additional Advanced Level Painting/Drawing Courses

Code	Title	Credit Hours
ART 2505	Painting Materials and Techniques	3
ART 3501	Advanced Painting	3
or ART 3502	Advanced Painting	
or ART 3519	Advanced Painting: Rome	
or ART 4501	Advanced Painting	
or ART 4502	Advanced Painting	
ART 3504	Figure Painting	3
or ART 3517	Figure Drawing	
or ART 3518	Figure Drawing	
or ART 4504	Figure Painting	
ART 3512	Rome Sketchbook	3
ART 3514	Advanced Drawing	3
or ART 3515	Advanced Drawing: Rome	
or ART 3516	Advanced Drawing	
or ART 4514	Advanced Drawing	
ART 3521	Fresco Painting	3
ART 4506	Senior Painting Studio ¹	3
ART 4507	Senior Painting Studio ¹	3

1

Students wishing to enroll in ART 4506 or ART 4507 must be jury-selected by the faculty and special approval is needed to register.

Notes:

- Do not duplicate any courses previously taken for Drawing or Painting credit.
- Painting or Drawing courses taken in excess of the required eight courses will count as studio electives. This is a common practice encouraged by the Painting Faculty.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

ART 2502 can be taken in either fall or spring. ART 2508 is offered in fall only.

3

Only three 2xxx level courses can be taken in any one subject area in order to count for sophomore studio credit.

4

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

5

Students taking a WI course from the list of Tyler entrepreneurship courses may take a non-WI Art History elective.

6

ART 3896 PDS Seminar can be taken either fall or spring semester.

7

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Photography BFA

Overview

The **Bachelor of Fine Arts in Photography**, offered by the Department of Art, provides students access to state-of-the-art facilities and prepares them to find their voices as artists, photojournalists and image-makers in traditional and emerging technologies.

Tyler Photography provides access to a wide range of faculty expertise, generously equipped photography studios and an interdisciplinary spirit, making it possible for all types of undergraduates to develop their skills as problem solvers and find pathways to meaningful expression and success. Whether students are interested in deep exploration of cutting-edge digital techniques, historic darkroom processes or incorporating methods from other artistic disciplines, Tyler's faculty offer personal guidance.

Tyler BFA students can take advantage of the school's location at a large research university in Philadelphia, a vibrant art center with a pioneering photography tradition, to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in competitive graduate programs.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PHOT-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 271).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Photography may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Photography majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in ART 2601 or ART 2603, and ART 2602 to enter the Photography major.
- The nine required Junior/Senior Photography courses must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking Photography courses in excess of the minimum required. These additional courses count towards required studio credits.

Credit Hours		15
Total Credit Hours		126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

3

Choose from: ART 3085, ART 3602, ART 3606, ART 3607, ART 3610, ART 3796.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Photography majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Photography with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Photography with Entrepreneurial Studies**, offered by the Department of Art, provides students access to state-of-the-art facilities and prepares them to find their voices as artists, photojournalists and image-makers in traditional and emerging technologies.

Tyler Photography provides access to a wide range of faculty expertise, generously equipped photography studios and an interdisciplinary spirit, making it possible for all types of undergraduates to develop their skills as problem solvers and find pathways to meaningful expression and success. Whether students are interested in deep exploration of cutting-edge digital techniques, historic darkroom processes or incorporating methods from other artistic disciplines, Tyler's faculty offer personal guidance.

Tyler BFA students can take advantage of the school's location at a large research university in Philadelphia, a vibrant art center with a pioneering photography tradition, to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in competitive graduate programs.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PHOE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Students selecting a WI course from the list of Tyler entrepreneurship courses may elect to take a non-WI Art History course.

3

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Choose from: ART 3085, ART 3602, ART 3606, ART 3607, ART 3610.

5

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad

should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Printmaking BFA

Overview

The **Bachelor of Fine Arts in Printmaking**, offered by the Department of Art, is one of the nation's top programs in the discipline and provides students access to exceptional faculty, world-class facilities, and strong regional and national professional networks.

Tyler Printmaking majors join a welcoming community of artists and educators. Bridging tradition and innovation, students learn the full range of printmaking techniques from the simplest to the most technically advanced. Students learn how to think critically and solve problems, working with professors, and side-by-side with graduate students. Tyler provides access to the resources of a large, public research university combined with the intimacy of an art school.

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center with a strong printmaking tradition, to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in the most competitive graduate programs.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PRNT-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 283).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Printmaking.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Printmaking may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Printmaking majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in either ART 2701 or ART 2702 and one of the introductory printmaking courses (ART 2704, ART 2705/ART 2706, ART 2707) to enter the Printmaking major.
- The required Junior/Senior studio courses and ART 3796 Art Career Workshop (capstone) must be completed with a C- or better to fulfill major requirements.

Major Requirements for BFA in Printmaking

Code	Title	Credit Hours
Sophomore Prerequisites		
Select one Survey of Printmaking course from the following:		3
ART 2701	Survey of Lithography and Serigraphy	
ART 2702	Survey of Etching and Relief	
Select one introductory Printmaking course from the following:		3
ART 2704	Serigraphy ¹	
ART 2705	Etching ²	
or ART 2706	Intaglio Printmaking	
ART 2707	Lithography ³	
Junior and Senior Requirements		
Select two of the following (not taken as sophomore prerequisite):		6
ART 2704	Serigraphy ¹	
ART 2705	Etching ²	
or ART 2706	Intaglio Printmaking	
ART 2707	Lithography ³	
Select two Advanced Printmaking courses from the following:		6
ART 3704	Advanced Serigraphy (fall only)	
ART 3705	Advanced Etching (fall only)	
ART 3706	Advanced Lithography (spring only)	
Select three Specialized Printmaking courses from the following:		9
ART 3701	Printmaking Workshop (Intermedia, fall only)	
ART 3702	Relief and Monoprint Workshop (spring only)	
ART 3703	Color Print Workshop (Intermedia, spring only)	
ART 4602	Senior Projects Workshop/Seminar (spring only)	
ART 3796	Art Career Workshop (WI, Capstone)	3

1

Prerequisite for ART 3704.

2

Prerequisite for ART 3705.

3

Prerequisite for ART 3706.

Credit Hours	15
Total Credit Hours	126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Prerequisite for ART 3704.

3

Prerequisite for ART 3705.

4

Prerequisite for ART 3706.

5

Choose from ART 3704 (fall only), ART 3705 (fall only), and ART 3706 (spring only). Two different advanced courses are required.

6

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

7

Choose from ART 3701 (fall only), ART 3702 (spring only), ART 3703 (spring only) and ART 4602 (spring only). Three distinct specialized courses are required.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Printmaking majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

Printmaking with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Printmaking with Entrepreneurial Studies**, offered by the Department of Art, is one of the nation's top programs in the discipline and provides students access to exceptional faculty, world-class facilities, and strong regional and national professional networks.

Tyler Printmaking majors join a welcoming community of artists and educators. Bridging tradition and innovation, students learn the full range of printmaking techniques from the simplest to the most technically advanced. Students learn how to think critically and solve problems, working with professors, and side-by-side with graduate students. Tyler provides access to the resources of a large, public research university combined with the intimacy of an art school.

Tyler BFA students take full advantage of the school's location in Philadelphia, a vibrant art center with a strong printmaking tradition, to find internships and jobs, explore museums and galleries, launch creative practices, start businesses and earn placements in the most competitive graduate programs.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-PRNE-BFA

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Printmaking.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Printmaking with Entrepreneurial Studies may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Printmaking with Entrepreneurial Studies majors must complete the General Education (p. 83) requirements.

- Students must earn a C- or better in either ART 2701 or ART 2702 and one of the introductory printmaking courses (ART 2704, ART 2705/ART 2706, ART 2707) to enter the Printmaking with Entrepreneurial Studies major.
- The required Junior/Senior studio courses and ART 3796 (capstone) must be completed with a C- or better to fulfill major requirements.

Major Requirements for BFA in Printmaking with Entrepreneurial Studies

Code	Title	Credit Hours
Sophomore Prerequisites		
Select one Survey of Printmaking course from the following:		3
ART 2701	Survey of Lithography and Serigraphy	
ART 2702	Survey of Etching and Relief	
Select one introductory Printmaking course from the following:		3
ART 2704	Serigraphy ¹	
ART 2705	Etching ²	
or ART 2706	Intaglio Printmaking	
ART 2707	Lithography ³	
Junior and Senior Requirements		
Select two of the following (not taken as sophomore prerequisites):		6
ART 2704	Serigraphy ¹	
ART 2705	Etching ²	
or ART 2706	Intaglio Printmaking	
ART 2707	Lithography ³	

Select two Advanced Printmaking courses from the following:		6
ART 3704	Advanced Serigraphy (fall only)	
ART 3705	Advanced Etching (fall only)	
ART 3706	Advanced Lithography (spring only)	
Select three Specialized Printmaking courses from the following:		9
ART 3701	Printmaking Workshop (Intermedia, fall only)	
ART 3702	Relief and Monoprint Workshop (spring only)	
ART 3703	Color Print Workshop (Intermedia, spring only)	
ART 4602	Senior Projects Workshop/Seminar (spring only)	
ART 3796	Art Career Workshop (WI, Capstone)	3
Entrepreneurship Courses		
Select three of the following:		9
SGM 3002	Planning to Start Your Own Business	
SGM 3501	Entrepreneurial and Innovative Thinking	
SGM 3503	Lean Startup: Fast and Inexpensive Ways to Test and Launch Your Ideas	
SGM 3504	Launch a New Venture in 100 Days	
SGM 3511	Doing Well by Doing Good: Where Innovation and Entrepreneurship Meet Social Impact	
SGM 3521	Pitching and Funding Entrepreneurial Ventures	
SGM 3580	Special Topics - Strategic Management	
SGM 3585	Social Impact Internship - Work with Benefit/B-corps, Non-profits, or Multi-bottom-line Ventures	
or SGM 3685	New Venture Internship: Learning to be a High-Value Employee, Manager, or Founder	
Select one of the following: ⁴		3
ART 3085	Field Internship	
ART 4096	Professional Practices in Art	
GAD 3053	Art Careers Promotion	
GAD 3096	The Business of Design (WI)	
GAD 3185	Field Internship	
TYLE 3211	Creative Cottage Industrialist	
TYLE 4285	Rome Internship	

1

Prerequisite for ART 3704.

2

Prerequisite for ART 3705.

3

Prerequisite for ART 3706.

4

These courses cannot fulfill both a requirement for the major and a requirement for this category.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Prerequisite for ART 3704.

3

Prerequisite for ART 3705.

4

Prerequisite for ART 3706.

5

Students taking a WI course from the list of Tyler entrepreneurship courses may take a non-WI Art History elective.

6

Choose from ART 3704 (fall only), ART 3705 (fall only), and ART 3706 (spring only). Two different advanced courses are required.

7

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

8

Choose from ART 3701 (fall only), ART 3702 (spring only), ART 3703 (spring only) and ART 4602 (spring only). Three distinct specialized courses are required.

9

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Sculpture BFA

Overview

The **Bachelor of Fine Arts in Sculpture**, offered by the Department of Art, helps students develop creative, intellectual and practical skills in expansive, state-of-the-art facilities and prepares them for successful careers as artists and professionals in a range of industries.

Tyler Sculpture majors join a warm community of bold thinkers and makers who, through intense study of theory and the exploration of materials and media, become critical thinkers and problem solvers. Students develop technical proficiency and gain practical knowledge of technology, including robotics, digital fabrication, video editing, woodworking, metalworking and more.

Tyler offers access to the region's vibrant contemporary art scene in Philadelphia and nearby cities like New York and Washington, D.C. Students graduate to become socially-conscious practicing artists, find employment in education, industrial design, fabrication and more and earn placements in top graduate programs.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-SCLP-BFA

Concentration

Students may complete an **optional** Concentration in Art Education (p. 296).

Admissions

Admission to Tyler's Studio Art (Bachelor of Fine Arts) programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Fine Arts in Sculpture.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Fine Arts degree in Sculpture may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126 semester hours of credit with a minimum cumulative GPA of 2.00. All Sculpture majors must complete the BFA curriculum (p. 141) and General Education (p. 83) requirements.

- Students must earn a C- or better in Sculpture (ART 2801 or ART 2807) to enter the major.
- The eight required Junior/Senior courses and ART 3896 must be completed with a C- or better to fulfill major requirements.

The faculty encourages taking sculpture courses in excess of the minimum required. These additional courses count towards required studio electives.

Major Requirements for BFA in Sculpture

Sophomore Prerequisite

Code	Title	Credit Hours
ART 2801 or ART 2807	Sculpture Sculpture: Rome	3

Students are encouraged to take *Installation* or *Mold Making* in the second semester of the sophomore year after *Sophomore Sculpture*.

Total Credit Hours	126

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

ART 2807 also fulfills the prerequisite to enter the Sculpture major; however it is only offered in Rome.

3

Students completing a 3 credit Art History 2000+ elective **must** select a 4 credit open elective to reach the minimum 126 credits to earn the BFA degree.

4

Select two Drawing courses from the following: ART 2502/ART 2504, ART 2508/ART 3511, ART 2802/ART 3802, ART 3512, ART 3514/ART 3515/ART 3516/ART 4514, ART 3517/ART 3518/ART 4517/ART 4518, and ART 3011. Some courses have a sophomore level prerequisite. Check the course descriptions for more details.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. Sculpture majors interested in studying abroad may elect to study abroad for a semester or attend a summer program. Please see an academic advisor for more details.

Art Education Concentration

The **Bachelor of Fine Arts with an optional Concentration in Art Education**, offered by the Department of Art, is one of two pathways at the Tyler School of Art and Architecture to earning art teaching certification in Pennsylvania and becoming a teaching artist. Students may also become certified teachers through the Bachelor of Science in Education in Art Education (p. 125).

Tyler offers students seeking a BFA degree an opportunity to earn Pennsylvania Teacher Certification in Art, K-12. The BFA with Art Education Concentration combines Tyler's art curriculum with approved courses in education and the liberal arts—all with Tyler's uniquely urban, community-based approach.

Offering students access to the resources of both a world-class art school and a large, public research university, Tyler's undergraduate Art Education programs prepare students to become thoughtful art teachers with the extensive knowledge and skills to teach kindergarten through twelfth grade.

Tyler students take full advantage of the school's location in Philadelphia and the city's rich array of schools, communities, museums, galleries and artists, opening up opportunities for artistic growth, research, networking and jobs.

The Tyler faculty is committed to urban art education and the power of collaborating with communities. Tyler students don't just learn how to teach art and grow as artists—they learn how to affect positive change in the communities where they work.

Students must complete BFA requirements (p. 141) along with a three-year sequence in Education and Art Education that begins in the sophomore year. Typically five years are necessary to fulfill all requirements. Students work with both the Art Education faculty advisors and the Tyler academic advisors regarding completion of requirements.

Campus Location: Main

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational, and other art/design-related endeavors.

Licensure/Certification

Teacher certification is the process used in the US to ensure that prospective K-12 teachers are qualified and prepared to teach at the levels and in the subjects that they intend to teach. Certification in Art Education prepares graduates to teach art to students from K-12. Certification is not always required by private institutions, but some may prefer to hire certified teachers.

In order to become certified in Art Education, students must complete a bachelor's degree from a regionally accredited institution of higher education, pass the Praxis exams required in their state of employment, and satisfy other state-licensing examinations, as applicable.

Temple University is a Pennsylvania state-approved teacher preparation program for K-12 Art. Completion of Temple University's Bachelor of Science in Education in Art Education or Master of Education in Art Education with Teaching Certification satisfies the necessary requirements for graduates to sit for the Praxis Core Academic Skills for Educators, Praxis Subject Assessments, and Praxis Fundamentals.

For certification in some states, students may need to take the Praxis Principles of Learning and Teaching (PLT) exam for their desired grade levels, which they are prepared for through their field placements, classroom observations, and study of human development and pedagogy.

Admission

Admission to Tyler's Bachelor of Fine Arts programs is based on a review of academic credentials and portfolio review. For detailed information on how to apply, please visit Tyler's Studio Art admissions page.

Contact Information

Renee Jackson, Program Head for Art Education
Tyler Building, Art Education and Community Arts Practices Suite B090C
215-777-9258
renee.jackson@temple.edu

Summary of Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

The Bachelor of Fine Arts degree with the Art Education Concentration may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 155 semester hours of credit with a minimum cumulative GPA of 3.0.

University Requirements

All Temple students are required to complete the General Education (GenEd (p. 83)) curriculum.

- Successful completion (minimum C-) of FDPR 1511 and ARTH 1156 satisfies the GenEd Arts (GA) requirement.
- Successful completion (minimum C-) of EDUC 2109, SPED 2231, and TESL 3631 satisfies the GenEd Human Behavior (GB) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society (GG) requirement.

BFA with Art Education Concentration Requirements

ARTE 2001, ARTE 3096, ARTE 4003, ARTE 4088, and ARTE 1001 must be completed with a C or better to fulfill concentration requirements.

Students must earn a minimum grade of C- in required College of Education coursework and additional mathematics requirement to fulfill concentration requirements.

Students in the BFA degree with the Art Education Concentration are required to take a Ceramics studio course and an additional studio course in Glass, Metals/Jewelry/CAD-CAM, or Fibers and Materials Studies; a Painting studio course and an additional studio course in Painting or Sculpture; a Printmaking studio course and an additional studio course in Photography or Graphic Design. These courses may include prerequisite, sophomore, and/or studio courses within the student's chosen BFA major.

Any BFA student who wishes to pursue the Art Education Concentration must arrange to meet with the Art Education faculty advisor to discuss field placement, clearances, and requirements, as the state of Pennsylvania may change requirements after the *Bulletin* information has been posted. It is strongly suggested that students do so during their freshman year.

Code	Title	Credit Hours
Studio Courses		74

Students need to complete either a 4-credit Art History 2000+ elective **or** a 4-credit second Mathematics course to reach the minimum 155 credits to earn the BFA degree with Art Education Concentration.

Sculpture with Entrepreneurial Studies BFA

Overview

The **Bachelor of Fine Arts in Sculpture with Entrepreneurial Studies**, offered by the Department of Art, helps students develop creative, intellectual and practical skills in expansive, state-of-the-art facilities and prepares them for successful careers as artists and professionals in a range of industries.

Tyler Sculpture majors join a warm community of bold thinkers and makers who, through intense study of theory and the exploration of materials and media, become critical thinkers and problem solvers. Students develop technical proficiency and gain practical knowledge of technology, including robotics, digital fabrication, video editing, woodworking, metalworking and more.

Tyler offers access to the region's vibrant contemporary art scene in Philadelphia and nearby cities like New York and Washington, D.C. Students graduate to become socially-conscious practicing artists, find employment in education, industrial design, fabrication and more and earn placements in top graduate programs.

Designed to complement the studio experience with tools to support a studio practice or pursue graduate studies, the Entrepreneurship coursework enhances students' career options. Graduates of this degree program will possess requisite business skills to support themselves as visual artists or entrepreneurs in art and related fields.

Each student moves from a common foundation curriculum (p. 141) that introduces materials and processes and prepares them for success in a range of fields of study. Those who select Art as their major will work side-by-side with majors in Visual Studies, Art Education and Art Therapy. The dynamic exchange of ideas that result from these interdisciplinary conversations spur intellectual risk and drive research-based creative concepts.

Upon graduation, students have the practical skill sets and honed aesthetic for successful careers in studio art, art education and design, as well as attend top-tier graduate programs.

Campus Location: Main

Program Code: TA-SCLE-BFA

Total Credit Hours**12**

1

Advanced Sculpture courses include special topics in sound, performance, metal fabrication and robotics. These topics vary each semester.

2

These courses have a sophomore level prerequisite. Check the course descriptions for more information.

3

Students are advised to take the capstone in their junior year.

4

These courses cannot fulfill both a requirement for the major and for this category.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

ART 2807 also fulfills the prerequisite to enter the Sculpture major; however it is only offered in Rome.

3

Students taking a WI course from the list of Tyler entrepreneurship courses may take a non-WI Art History elective.

4

Select two Drawing courses from the following: ART 2502/ART 2504, ART 2508/ART 3511, ART 2802/ART 3802, ART 3512, ART 3514/ART 3515/ART 3516/ART 4514, ART 3517/ART 3518/ART 4517/ART 4518, and ART 3011. Some courses have a sophomore level prerequisite. Check the course descriptions for more details.

5

Students completing a 3-credit Art History 2000+ elective must select a 4-credit open elective to reach the minimum 126 credits to earn the BFA degree.

6

These courses cannot fulfill both a requirement for the major and a requirement for this category.

Please Note: An approved study abroad program waives the GenEd Global/World Society (GG) requirement; however, these credits must be made up with academic coursework taken outside of Tyler departments to be in compliance with BFA accreditation. BFA majors interested in studying abroad should consult with an academic advisor to determine if a semester (generally spring semester of second year) or a summer program would be the best option to remain on track for graduation.

Sustainable Food Systems Certificate

Overview

The **Certificate in Sustainable Food Systems**, offered by the Department of Architecture and Environmental Design (AED), provides students the opportunity to enhance their majors with an interdisciplinary approach to investigate the complexities of food systems that includes horticulture, city planning, and public health. Courses in the certificate explore the relationship of farmland preservation, food production practices, and supply alternatives that improve local economies, reduce energy consumption, lower environmental impact, and ensure widespread access to affordable and healthy food. This prepares students to contribute to the overall sustainability of the communities in which they live and work and strengthens students' preparation to work as professionals in environmentally-oriented fields or as citizen activists.

The certificate is available to all undergraduate degree students and non-degree students. Consult with an academic advisor about how the required courses fit into academic and career plans.

Campus Locations: Ambler, Main

Program Code: TA-SUFS-CERT

1

If HORT 1001 is taken as one of the required courses, students must complete 7 credits of elective coursework.

2

Consult with an advisor to make certain topic is relevant for the certificate.

Sustainable Food Systems Minor

Overview

The **Minor in Sustainable Food Systems**, offered by the Department of Architecture and Environmental Design (AED), provides all Temple University undergraduate students the opportunity to enhance their majors with an interdisciplinary approach to investigate the complexities of food systems that includes horticulture, city planning and public health. Courses in the minor explore the relationship of farmland preservation, food production practices and supply alternatives that improve local economies, reduce energy consumption, lower environmental impact, and ensure widespread access to affordable and healthy food. This prepares students to contribute to the overall sustainability of the communities in which they live and work and strengthens students' preparation to work as professionals in environmentally-oriented fields or as citizen activists.

The Minor in Sustainable Food Systems consists of 18 credits, with two required foundation courses and four elective courses. The required courses ensure that students have a strong foundation for the study of food systems including food crops, planning for food systems, and nutrition. The electives allow students to delve deeper into different facets of food systems planning from the perspective of city planning and/or horticulture.

Campus Locations: Ambler, Main

 eisenman@temple.edu

Requirements

Students must earn a minimum grade of C- in courses satisfying minor requirements and must have a minimum 2.0 grade point average in the required 18 credits to earn the minor.

- A student may not double count any course for the Minor in Sustainable Food Systems toward any other major, minor, or certificate.
- At least half of the courses for the minor must be taken at Temple University.
- Courses for the minor must be completed prior to graduation.

Code	Title	Credit Hours

If HORT 1001 is taken as one of the required courses, students must complete 13 credits of elective coursework.

²

Consult with an advisor to make certain topic is relevant for the minor.

Visual Studies BA

Overview

The **Bachelor of Arts in Visual Studies**, offered by the Department of Art History, is ideal for socially-conscious artists who want to utilize the resources of a larger research university while accessing the historic studio traditions of Tyler School of Art and Architecture. The BA in Visual Studies is complemented by its situation in the Art History department, where art historians and contemporary artists work together to foster historical and contemporary understandings about global art and visual culture, and the power of image-making.

Visual Studies students develop skills as makers and thinkers in an equal ratio of studio and academic classes, and the curriculum allows for a higher-than-average number of electives that can be chosen according to the student's particular needs and interests. Our curriculum is consciously interdisciplinary, and not oriented towards specialization, so that students can explore the theoretical and technical aspects of art making outside the traditional restrictions of a single studio area. The skills needed to succeed today in the arts are not the same as previous generations. Today young artists need to be able to write about their own work in relation to contemporary visual culture, be able to find and work with collaborators in many different related occupations, know how to find and take advantage of opportunities, know how to access financial and social resources from many different places, and use and adapt to rapidly evolving tools, technology and data effectively.

Campus Location: Main

Program Code: TA-VISS-BA

Admissions

For more information on how to apply, please visit Tyler's Visual Studies admissions page.

Study Abroad

Students who plan to study abroad should arrange to meet with their academic advisor and the Education Abroad and Overseas Campuses office as early as possible, preferably during the freshman year, in order to explore options and plan the sequence of courses that would be most appropriate.

Career Opportunities

Graduates of Visual Studies are well prepared for a wide-range of careers in the cultural sphere as exhibiting artists and published writers, museum and gallery work, as curators, positions in design and media industries, as small business owners and entrepreneurs, and in the non-profit sectors of education, political advocacy, and community leadership.

Continuing Studies

Graduates are well prepared for advanced academic training, and recent students have gone on to complete graduate degrees in fine arts, art therapy, textile design, book restoration, art history, curatorial studies and art education.

Accreditation

Temple University is a non-profit accredited member of the National Association of Schools of Art and Design (NASAD). NASAD establishes national standards for undergraduate and graduate degrees and other credentials for art and design and art/design-related disciplines, and provides assistance to institutions and individuals engaged in artistic, scholarly, educational and other art/design-related endeavors.

Learn more about the Bachelor of Art in Visual Studies.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Arts degree may be conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 122 semester hours of credit with a minimum cumulative 2.00 GPA.

University Requirements

Students must complete the university's General Education (p. 83) curriculum.

- Successful completion (minimum grade of C-) in both FDPR 1511 and ARTH 1156 will waive the GenEd Arts (GA) requirement.
- Summer or semester study abroad will satisfy the GenEd Global/World Society requirement.

Major Requirements

- Required courses in the Visual Studies program must be completed with a minimum grade of C- to apply towards degree requirements.
- All Temple students must take a minimum of two writing-intensive courses at Temple University as part of the major. The specific writing-intensive courses required for this major are ART 3796 and VS 4096.

Code	Title	Credit Hours

1

These studio electives must be taken in two or more areas within the subject codes ART, ARCH, ARTE, CART, GAD, or LARC but may not include ART 2011, CART 3011, or CART 3911.

2

Academic Electives may not be fulfilled with studio classes or courses with the subject code of ART or GAD.

3

If Language 1001 level is required per placement test results, this will apply towards one of the required academic elective courses.

4

If Language 1002 is not required as determined by placement testing, these credits must be taken as academic elective.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

1

These 2 courses constitute the waiver for the GenEd Arts category if the courses are completed with a C- or better.

2

Select 2000+ level studio electives ART, ARCH, ARTE, CART, GAD, LARC, but not ART 2011. These studio electives must be from two or more areas.

3

If first level language (1001) is not required as determined by placement testing, these credits must be taken as academic elective.

4

If second level language (1002) is not required as determined by placement testing, these credits must be taken as academic elective.

Please Note: An approved study abroad program will waive the GenEd Global/World Society (GG) requirement. Visual Studies majors interested in studying abroad should consult with an academic advisor to discuss how a semester or a summer program fits in the program to remain on track for graduation.

Center for the Performing and Cinematic Arts

The Center for the Performing and Cinematic Arts at Temple University is a comprehensive and unified academic unit consisting of the Boyer College of Music and Dance and the School of Theater, Film and Media Arts.

The Center for the Performing and Cinematic Arts offers the BA, BS, BM, BFA, MA, MM, MS, MFA, MMT, DMA and PhD degrees and a collaboratively oriented community of award-winning faculty and professionals within the context of an urban major research university located in one of the most culturally vital cities in the United States.

Sharing the Center's vision of growth and sustainability as a cultural leader in the 21st century, its donors and alumni serve as ambassadors to the mission and represent some of the most prolific and noted individuals in national and international cultural arenas.

The Center for the Performing and Cinematic Arts at Temple University serves its neighboring communities in addition to national and international audiences through more than 1,400 performances, lectures, screenings, master classes, productions and exhibits each year—all open to the public and most of which are free.

The Center for the Performing and Cinematic Arts is overseen by its Dean and the Vice Provost for the Arts at Temple University, Robert T. Stroker.

arts.temple.edu

Boyer College of Music and Dance

Overview

The Boyer College of Music and Dance was founded in 1962.

Mission

The Boyer College of Music and Dance is committed to nurturing and advancing music as a form of human expression, as an art, and as a subject for intellectual inquiry. Recognizing that music possesses unique powers—to move the spirit, to excite the mind, to reveal the past, to chart the future, to instruct, to heal, and to foster communication—the college seeks to perpetuate music in its myriad forms through creative and scholarly work, teaching, and service, according to the highest artistic and academic standards.

As an integral part of Temple University, the Boyer College shares the ideals of Russell Conwell upon which Temple was founded: to recognize talent and personal potential wherever they may be found; to provide educational opportunities for meritorious students of limited financial means; and to serve as a constructive presence in the wider Philadelphia community.

In carrying out its mission, the Boyer College seeks both to continue the long tradition of artistry and scholarship that we have inherited and to develop new insights, perspectives, and practices. This dual objective—to explore both past and future, old and new—should be broadly reflected in the life of the college: in curricula and instruction; institutional policy; professional activities of faculty; advisement of students; and musical performances.

For the art of music to remain vital, our culture must develop both highly trained, professional musicians and informed, perceptive listeners. Accordingly, the college recognizes its responsibility to administer professional education to the student seeking a career in music, provide opportunities for the general university student to study and experience music, and share its musical life with the public.

The Boyer College provides a distinctive union of the best conservatory-type training with intense academically oriented classroom teaching. Coupled with the performance opportunities of the university and the culturally rich Philadelphia area, the Boyer College offers students the competitive edge in complete, comprehensive musical preparation. Many programs throughout the university offer minors. Students who wish to pursue a minor outside of music should contact the appropriate department.

Accreditation

Boyer College of Music and Dance is accredited by the National Association of Schools of Music, National Association of Schools of Dance, Middle States Association, National Council for Accreditation of Teacher Education, Pennsylvania Department of Education, and American Music Therapy Association.

Music Admissions

The following requirements for admission to the college are to be considered minimal. Applicants who pass the following examinations may be recommended to the Director of Admissions as eligible for admission to the college. In addition, candidates must meet general requirements set by the Office of Undergraduate Admissions.

- An audition in the major performing medium must be completed before an applicant can be accepted into the Boyer College of Music and Dance.
- After submitting the completed application, the applicant is responsible for scheduling his/her audition. E-mail music@temple.edu to schedule your audition. Refer to Boyer College for audition dates, pre-screening requirements, and audition requirements.
- The freshman application deadline is March 1. Applications for admission to the spring semester must be received no later than November 1.
- If the applicant is unable to be present because of distance, applicants should upload a video audition to Acceptd. Refer to Boyer College for specific video audition details.
- Prescreening audition recordings are required for jazz guitar; prescreening portfolio submissions are required for the BM in Composition program.
- BS in Music applicants must submit a statement of goals to music@temple.edu, and take a theory test.
- BS in Music Technology applicants should refer to Boyer's audition requirements for additional admissions information.

Dance Admissions

Admission into the dance program requires the submission of four items:

- A general university application submitted to the Office of Undergraduate Admissions.
- Official transcripts / standardized test scores submitted to the Office of Undergraduate Admissions.
- A dance application submitted to the Department of Dance.
- Attendance at an audition located on Temple University Main Campus in Philadelphia, or other arrangements to complete the audition requirements.

A dance audition cannot be scheduled until all other required application materials have been submitted. Please note that Temple University will not make an admission decision until applicants attend a dance audition.

The dance audition consists of technique classes divided into sections of ballet, modern, and African dance; a one-minute solo of an applicant's own choreography; and an interview. The faculty attempts to choose students with physical, artistic, and intellectual potential to enter and complete the dance program and the university curriculum. The faculty is concerned that potential students' goals and aspirations are supported by the department philosophy, maximizing success in the program.

For additional information regarding dance admissions and for an application, please visit Boyer Admissions.

Academic Departments

Boyer College of Music and Dance consists of the following departments:

- Dance
- Instrumental Studies
- Keyboard Instruction
- Music Education and Music Therapy
- Music Studies
- Vocal Arts

Transfer Credits

In addition to the university's statement regarding transfer credit (see Transfer Students (p. 27)), the Boyer College of Music and Dance will, during New Student Orientation, determine all transferred music credits through placement exams. Where deemed necessary, students may be tested in music theory, music history, and secondary piano. Tests in other music areas may be arranged through individual departments.

Financial Aid

See Financial Aid (p. 1809) in the *Bulletin*.

Financial aid is available to full-time undergraduates in the form of music grants, academic scholarships, loans, grants, music grants-in-aid, and work-study programs. No separate application is necessary.

Music Grants are awarded based on merit. The Boyer College has application and audition deadlines for priority music scholarship consideration. No separate application is required.

Entering Student Scholarships are offered by the Dance Department following successful entrance auditions and are based on artistic talent and potential for success in the dance curriculum. No separate application is necessary.

Financial aid awards are made after the student has been admitted as a fully matriculated student. Students are to be enrolled full-time, unless prior permission is granted to do otherwise by the Associate Dean.

Music and Dance scholarships and awards for currently enrolled and graduating undergraduate and graduate students include, but are not limited, to the following:

Voice/Opera

Florence Berggren Voice Scholarship
 Philip Y. Cho Voice Scholarship Fund
 John T. Douglas Award for Young Artists
 Else Fink Memorial Scholarship
 Professor Robert Grooters Memorial Scholarship
 Klara Meyers Scholarship
 Morton C. Meyers Memorial Scholarship
 Sidney and Mindelle Weinberg Voice Scholarship

Choral Conducting

Robert Page Graduate Choral Conducting Scholarship

Music Therapy

Anni Baker Scholarship in Music Therapy

Instrumental

Max Aronoff Prize
 Stuart J. Best Memorial Scholarship
 Fred Schrader Memorial Scholarship Fund
 Elizabeth Smith String Scholarship
 Glenn Steele Percussion Scholarship

Keyboard

Olga Gagliardi Getto Award
Jacobs Music Company Steinway Award
Louis and Peter Vennett Scholarship

Jazz

Paul Beller Memorial Scholarship
David M. Katz Scholarship
Julian F. King Jazz Studies Award
Billy Strayhorn Jazz Education Scholarship Award

Diamond Band

H. E. Pike Memorial Award

Music Studies

Bruce Archibald Memorial Fund
Dr. B. Stimson Carrow Award
Dr. Milton J. Sutter, Jr. Memorial Award

Music Education

Dorothy Albert Bogusz Scholarship
Ruth M. Lafferty Memorial Award
Frances G. Lumsden Memorial Scholarship
William T. and Carmen T. Middleberg Scholarship

General

Irving Berlin Scholarship
Esther Boyer Scholarship Fund
Elaine Brown Tribute Fund
Dr. Jeffrey M. Cornelius Tribute Fund Award
Rida C. Davis Memorial Scholarship
Douty Foundation Scholarship
Richard M. Duris Scholarship for Excellence in Classical Music
Elizabeth K. Frescoln Award
Frances Hutton Memorial Award
Helen Laird Tribute Award
Dr. Arthur Bennett Lipkin Memorial Fund
Esther M. Schultz Award
William M. Singer Memorial
Alice Tully Scholarship
David L. Stone Tribute Scholarship
E. M. Yarnell Scholarship
Boyer College Alumni Association Award
Dr. Jeffrey M. Cornelius Tribute Fund Award
Edwin B. Garrigues Scholarships
Jill D. Hamm Memorial Scholarship
Michael S. Kavalhuna Scholarship
New School Scholarship
Presser Foundation Scholarships
Janet M. Yamron Scholarship

Dance

Terese Benzwie Dance in Education Award
Frances Bowden Scholarship
The Katherine Dunham Award for Creative Dance Research
Edrie Ferdun Award
Sarah Hilsendager Award
Rose Vernick Award

Special Programs

Music Preparatory Division and Community Music Scholars Program

Mark Huxsoll, Director

215-204-1512

Temple Music Prep provides lifelong, non-credit learning opportunities in music and dance to the Greater Philadelphia community and surrounding areas. As a division of Temple University's Boyer College of Music and Dance, Music Prep is uniquely able to combine university expertise with Philadelphia's outstanding cultural assets, assuring excellence in experience and results.

Programming includes Early Childhood Music Foundations beginning with newborns through 4 years of age, Movement and Dance Classes for children 3 years old through teens, individual instruction in all instruments and voice for children and adults, and classes specially designed for adults. Music Prep is also an authorized provider of Act 48 credits for Pennsylvania educators.

A major component is the Center for Gifted Young Musicians, which serves those students with exceptional ability and motivation. The Community Music Scholars Program serves students with need from over fifty public schools, allowing access to affordable quality instruction.

Temple Music Prep is a member of the National Guild for Community Arts Education and the Greater Philadelphia Cultural Alliance.

Key Program Components

- **Individual lessons** from an outstanding faculty in orchestral instruments, piano, guitar, voice, composition and jazz techniques are offered for children and adults.

Suzuki instruction in violin, cello, guitar, and piano is also offered for young children. In the "talent education method" of Dr. Shinichi Suzuki, children learn to play music with the same enjoyment and fluency with which they learn language.

- **Early Childhood Music Foundations** is an innovative program in early childhood music education (newborns through children 4 years of age) that has a national reputation for excellence. In a carefully planned sequence of music learning, the program uses the natural human inclination for chanting, singing and movement as the first steps in the musical understanding of melody and rhythm.
- **Movement and Dance** classes take children through a sequential, age-specific dance program. Offerings include: Creative Movement (3 & 4 yrs.), Music and Movement (5 yrs. in kindergarten through 7 yrs.), Modern Dance (8 yrs. through teens in three levels) and Ballet Technique (pre-teens & teens).
- **Basic Musicianship** classes are offered in three progressive levels. The goal of these classes is to develop musicianship by integrating aural, written, vocal, and tactile skills. By using movable "Do" solfege, students learn to make the connection between musical notation and sound. A one-week summer music theory intensive course is offered for those students preparing to enter a college music degree program.
- **Adult classes** are designed to provide opportunities for personal growth and professional development. Offerings include: classes in learning to play piano, learning to play guitar, learning to sing, jazz improvisation, or in Suzuki piano teacher training; participation in a community band or a community choir during the academic year or week-long music workshops offered at the Boyer College; as well as individual study in instruments and voice. Pennsylvania educators are eligible to receive Act 48 credit for most of these offerings.
- The **Center for Gifted Young Musicians** is the component of Music Prep that focuses on the training of exceptionally gifted students who have the ability and willingness to make a serious commitment to music. By audition only.

Instrumental Division (for strings)

The Center's instrumental program provides a comprehensive package of music instruction and performance for young musicians who have demonstrated the greatest potential for musical achievement. Emphasis in this program is placed on the development of superior musical skills through large and small ensemble performance. The faculty is made up of the finest artist/teachers in the region, including members of The Philadelphia Orchestra and professors from Temple's own Boyer College of Music and Dance.

Young Artists Harp Ensemble

The Young Artists Harp Ensemble offers pedal and lever harp students ages 10 through high school the opportunity to participate in a group ensemble experience with a conductor as well as in student-led chamber music settings. Participants are also eligible to attend monthly studio master classes by Philadelphia Orchestra principal harpist, Elizabeth Hainen at the Boyer College of Music and Dance. Students may also have the opportunity to collaborate with other Temple Music Prep ensemble groups.

The Festival of Young Musicians

The Festival of Young Musicians has long been the centerpiece of the Center for Gifted Young Musicians. Held annually in late April/early May, it consists of a series of concerts throughout the region that feature all the performers in the Center.

- **The Community Music Scholars Program: Upper Division** provides weekly individual instruction, music theory and ensemble experience at a nominal fee for young instrumentalists. These Philadelphia school students with need are nominated by their school music teachers and accepted by audition.
- **The Philadelphia String Project at Temple University** is aligned with the National String Project Consortium (NSPC) a coalition of String Project sites at universities across the United States that exchange ideas and learn from each other but operate completely independently. The NSPC is dedicated to increasing the number of children playing stringed instruments, addressing the critical shortage of string teachers in the US and

supporting public school string programs. Participating students receive twice weekly instruction taught by a Master Teacher and supported by Temple University undergraduate music education and performance string interns.

The Boyer College of Music Preparatory and Extension Division is located at Temple University's Center City Campus, 1515 Market Street, in the heart of metropolitan Philadelphia at the hub of the Regional Transit System.

Facilities

Presser Hall, opened in 1967, is the center of musical activity at Temple University. This building houses practice rooms, classrooms, ensemble rehearsal rooms, teaching studios, faculty offices, a 16-station computer classroom, student and faculty lounges, a large listening and viewing library, and the Presser Learning Center. Presser Hall's performance facilities include Klein Recital Hall and Arronson Rehearsal Hall. Presser Hall houses the Music Studies Department, the Music Education Department, the wind, brass, and Percussion programs of the Instrumental Department, the Choral Activities Department, the Department of Voice and Opera, and the programs in Music Therapy and Jazz Studies. Presser Hall is fully Wi-Fi enabled.

The nationally recognized Presser Center for Research and Creativity in Music, located on the first floor of Presser Hall, houses over 6,000 books, recordings, periodicals, videotapes, audio tapes, classroom instruments, and other materials used in the preparation of music teachers and music therapists. Included in the computer classroom is the hardware and software necessary for future teachers and therapists to become knowledgeable about the role of computers in music and administration.

The Presser Hall Listening Library houses a collection of more than 20,000 recordings and tapes, 10,000 compact discs, hundreds of video tapes and DVDs, reference books, and scores. Music listening and viewing assignments for courses in music history, theory, composition, jazz, education, and literature can be completed with this collection, which spans music history and performance from the earliest times to the present. This facility also contains general use computer stations, cell-phone and laptop charging stations, searchable databases of digital audio tracks, iPad stations, and multiple LP/CD/DVD media stations. A larger collection of music books and scores is found in Charles Library.

The Boyer College's Rock Hall was extensively renovated for music and dedicated in 1994 in recognition of the generous support of Dr. Milton Rock and the late Mrs. Shirley Rock. Located at Broad Street and Cecil B. Moore Avenue on Temple University's Main Campus, Rock Hall houses the Office of the Dean, the string and chamber music programs of the New School Institute, the programs in Music Composition, the Keyboard Department, the Early Music Program, the Alice Tully Library, three state-of-the-art computer/electronic laboratories for music and dance, practice rooms, classrooms, and a 325-seat chamber music recital hall. Rock Hall is fully Wi-Fi enabled.

The visual video/film scoring studio in Rock Hall features a variety of voice modules controlled by a computer workstation, a multi-channel mixer, 5:1 surround sound, and digital and analog recording facilities. Students are encouraged to design their own libraries of timbres for use in composition. The computer synthesis studio uses several computer workstations with expanded disk memory, digital and analog recording equipment, and a broad range of software for music synthesis. Most hardware and software titles in the Boyer College Computer Labs are identical to those in the TECH Center's dedicated Music Lab, enabling students to work on projects in multiple venues.

The Boyer College added a three-story addition to Presser Hall in 2009 which contains 21 additional practice rooms, three large classrooms, teaching studios, administrative offices, the Center for Arts and Quality of Life, and a 24-track ProTools recording studio.

The Boyer College's Department of Dance has its administrative, faculty, institute, and student offices housed in 1700 North Broad Street. Dance classes are held in three large dance studios in Pearson Hall where there are additional support spaces as well as two small teaching studios for smaller groups. Dance classes and performances are held in Conwell Dance Theater in Conwell Hall, a 125-seat black box theater. All Dance Department spaces are Wi-Fi enabled.

As of the 2011-2012 academic year, the College presents its largest ensembles in performance in the Temple Performing Arts Center. This iconic building—formerly the Baptist Temple of Philadelphia—was specifically converted into a performing arts complex capable of housing a full symphony orchestra and choir. Boyer's symphony orchestra, choirs, wind symphony, percussion ensemble and other large ensembles all perform in this venue. In addition, the Temple Performing Arts Center is also available to the College for recording sessions, rehearsals, faculty concerts and other significant events.

Also utilized by the Boyer College is the third floor of Mitten Hall where the Temple Opera Theater's rehearsal, administrative and faculty offices are housed along with the Opera Listening and Study Library, and the scene, costume, and prop shops. Tomlinson Theater, located across the street from Presser Hall, is used for on-campus large ensemble performances and for the twice yearly staged opera productions. A 55-seat smart classroom for music and dance instruction is housed in the Tuttleman Learning Center.

The Boyer College is able to loan professional equipment to students in the form of instruments (violins, violas, celli, basses, all woodwinds, all brasses, all percussion), audio gear (JBL, Yamaha and Peavey), portable digital recording units, iPads, and video gear. Also available for use are unique vintage instruments: Hammond B3 Organ with Leslie Speaker, Fender Rhodes 73 synthesizer, Yamaha and Kurzweil synthesizers.

In July of 2012, the Boyer College of Music and Dance became part of Temple University's Center for the Arts, a comprehensive administrative restructuring of all of the Arts programs on Temple's campus. The combined programs included the Boyer College of Music and Dance, Tyler School of Art, and the Division of Theater, Film and Media Arts. With the oversight of all these areas by the Vice Provost for the Arts and Dean of the Center, Dr. Robert Stroker, the possibilities for collaborations among all of the arts programs on Temple's campus have significantly increased.

In October 2015, the Center for the Arts was renamed the Center for the Performing and Cinematic Arts; the Division of Theater, Film and Media Arts was renamed the School of Theater, Film and Media Arts; and the Tyler School of Art became an independent school.

Policies

For university-wide academic policies, refer to Undergraduate Academic Policies (p. 1835).

Note that the policies for music students and dance students are listed in separate sections below.

- Music policies (p. 322)
- Dance policies (p. 324)

Boyer College Policies for Music Students

Students are responsible for complying with all university-wide academic policies as well as those of the Boyer College of Music and Dance that appear below.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 1849) policy for specific GPA and credit-hour requirements.

Band Camp and Choir Retreat Policy

Each fall, prior to the opening of school, the Temple University Marching Band holds its annual band camp. In addition to having a concentrated four-day work period to prepare for the coming season, students get to know each other in both a working and social relationship. They also become acquainted with the group directors at both the personal and professional levels. Attendance at band camp is mandatory for group participation.

The Temple University Concert Choir often meets a few days prior to fall classes or during the first weekend of fall classes for extensive rehearsals.

Ensemble Requirements

- Undergraduate students with a major or concentration in voice or keyboard are required to participate in a choral ensemble, as determined by the Director of Choral Activities, throughout the undergraduate degree program where indicated by the curriculum. Participation begins in the first semester and continues until a baccalaureate degree is obtained. The requirement is waived during the semester of senior recital, internship, or student teaching.
- Music Education/Jazz majors whose concentration is voice are required to participate in both classical and jazz vocal ensembles. After advisement to determine which kind of ensemble is appropriate, these students should go to the Director of Choral Activities to be placed in a classical ensemble and to the Director of Jazz Studies to be placed in a jazz ensemble.
- Undergraduate students with a major or concentration in strings are required to play in the Temple University Symphony Orchestra. Participation begins in the first semester and continues until a baccalaureate degree is obtained. Qualified jazz strings and upright bass students are required to audition. This requirement is waived during the semester of student teaching or internship.
- All woodwind, brass, and percussion performance majors and/or concentrations must audition for instrumental ensembles, large and small, at the beginning of the fall semester for placement during the academic year. Continuing students will audition for ensemble placement through juries at the end of each semester. New students will audition for ensemble placement at the beginning of the first semester of study.

- Music education majors whose principal instrument is woodwind, brass, or percussion are required to play in the marching band for one semester, normally during the fall semester of the freshman and sophomore years. Transfer students in this category must also register for Marching Band for one semester unless they can show evidence of equivalent undergraduate experience at another college or university as determined by the Director of Bands.
- All students taking private lessons (major or concentration) or Recital Extensions are required to participate in an ensemble each semester in attendance.
- Percussion majors are required to participate in Percussion Ensemble.
- Any instrumental student who does not play for a private lesson jury at the end of each semester must arrange for an audition for ensemble placement for the succeeding semester with the Department of Instrumental Studies.
- Students may perform in more than two ensembles only with permission of their advisor.
- All students must show evidence of ensemble experience in their performance medium.
- All students who are registered for applied and concentration lessons must arrange their schedules in order to attend regularly scheduled master/studio classes. Failure to do so may result in the lowering of the applied lesson grade.

Independent Study Policy

Independent Study provides a special opportunity for juniors and seniors to work in a highly individualized setting with one or more faculty members.

Those who wish to design an Independent Study project must prepare a written proposal six months in advance of the semester in which the study is to be accomplished. This proposal is then submitted for the approval of a special Honors subcommittee of the Academic Planning and Review Committee, which includes the dean and associate dean. Private lessons beyond those required in the curriculum are not an appropriate form of Independent Study.

Professional Development Policy

All students in the college, in addition to passing the required subjects toward their degrees, are obligated to serve in a number of capacities in order to enrich their academic and musical expertise. The Boyer College believes that such experiences give impetus to successful professional careers. Among the duties that may be required are conducting laboratory classes, tutoring, teaching private lessons, coaching, participating in the distribution and inventory control of university-owned musical instruments and instructional materials, participating in ensembles, accompanying, supervising performance classes, performing at admission and open house events, and other academically related activities. The Boyer College performances must be given priority over non-college commitments.

Instrumental Jury Policy

All instrumental students, both performance majors and instrumental concentration students, must play a jury at the conclusion of each semester to show evidence of progress on their instrument. For string performance majors, the jury at the end of the sophomore year is the "Junior Standing Jury," which must be successfully passed in order for the student to continue in the performance program.

Recital and Concert Attendance Policy

The dean and faculty of the Boyer College of Music and Dance consider recital and concert attendance to be a significant educational activity in the training of a musician. It is largely through the process of active listening that the young musician develops powers of discrimination and critical judgment with relation to musical performance. Therefore, attendance at a minimum of sixteen college recitals or concerts throughout the course of an academic year is mandatory for full-time undergraduate students. A maximum of 56 recitals is needed to complete the requirement. Of the eight required recitals attended in each semester by full-time students, one must be an official Boyer College World Music Recital or Multicultural Music Lecture-Performance. Part-time, matriculated undergraduate students are also responsible for attending a specific number of concerts with the same World Music Recital or Multicultural Music Lecture-Performance requirement. For part-time students the number of required recitals in a semester will be in a direct ratio to the number of credits for which they are registered. During student teaching, therapy internship, or senior recital, this requirement is waived. The requirement for full-time transfer students will be based on the number of semesters they attended the Boyer College. Failure to comply with this ruling may result in delay of graduation from the college.

Senior Recital Policy

Students in the following curriculums are required to perform a senior recital:

- Piano Performance
- Piano Pedagogy
- Instrumental Performance
- Voice Performance
- Jazz Instrumental Performance

- Jazz Voice Performance
- Jazz Arranging/Composition

The senior recital provides the opportunity for the performance major to display his or her development and potential as a professional musician and should be considered the focal point for the semesters of private lessons which precede it. Before the senior recital is scheduled, the student

1. must have successfully completed private lessons during **each semester** prior to the recital and
2. must have achieved senior status academically.

All grades of "incomplete" in private lessons must be cleared before the student may apply for the senior recital. Students should refer to the Boyer College of Music and Dance Undergraduate Handbook for further details and policies governing recitals.

After receiving approval from the jury and the major teacher in the applied area, a student should apply for the Senior Recital date and complete the necessary recital arrangements through the recital coordinator.

For students enrolled in the Instrumental Studies Department, the recital approval jury serves to demonstrate the student's ability to perform the degree recital successfully. Normally, this occurs at the preceding semester's jury. If by departmental approval this jury does not occur, then a jury must be scheduled at least four weeks prior to the recital. **If the jury is not successfully completed by that time, the Instrumental Studies Department reserves the right to cancel the recital date.** Most of the recital repertoire, with the exception of chamber ensemble works, should be available for performance at the jury and accompanied by the recital accompanist. Recital approval is dependent upon the time remaining between the approval jury and the actual recital date, as well as the degree of preparedness of the repertoire.

Except for non-sonata and complicated contemporary repertoire, string performance majors should perform from memory (and the recital program should include some portion that will be performed from memory). Students who wish an exception to this memorization policy must obtain prior approval from the department by indicating the request on the recital repertoire form when it is submitted to the department for approval of the program.

Senior Recitals are usually presented Monday through Friday at 5:15 PM or 7:30 PM. Performance time should be 45 to 50 minutes, exclusive of an optional intermission of no more than 10 minutes.

Recital Extension Policy

Some students may need to extend their applied study beyond the required number of semesters in order to complete the preparation for the Senior Recital. Students who do not present a recital during the recital semester will receive the grade of "Incomplete" and must register for MUSC 5000 for 2 semester hours of non-degree credit. *Recital Extension* must be taken each semester until the recital has been presented. The sole exceptions to this rule are as follows:

- Students who give their recitals during the first three weeks of the spring semester are not required to register for *Recital Extension* that semester.
- Students who register for *Recital Extension* or for private lessons during the summer may give their recitals during the first three weeks of the fall semester. However, if a student does not register for either *Recital Extension* or lessons during the summer, he or she may not present the recital in the fall semester—regardless of the date—without also registering for that semester of lessons or *Recital Extension*.
- Private applied lessons beyond the eight-semester requirement currently in effect for undergraduate performance majors may be taken by permission of the jury and/or the appropriate performance department chairman. MUSC 5000 carries a \$500 fee (subject to change without notice). Tuition scholarships do not cover this private lesson fee.

Program Performance Policy

All music departments reserve the right to dismiss an undergraduate student at any time from a given undergraduate degree program, regardless of grade point average, if in the opinion of the major department, he or she is unable to meet departmental standards. The decision will receive automatic review by the Academic Review and Planning Committee. The student has the right to appeal the dismissal to the Academic Review and Planning Committee of the Boyer College of Music and Dance.

Undergraduate Private Lesson Policy

Weekly one-hour private lessons are arranged for full-time matriculated undergraduates in the Boyer College for as many semesters as required by the particular curriculum. (A full-time student must be registered for at least 12 credits each semester.) A per semester lesson fee of \$250 (subject to change without notice)—above and beyond the regular tuition—will be automatically added to the tuition charge of each student for this study. Students who do not complete a minimum of 12 semester hours must pay a private lesson fee of \$500 for the succeeding semester of private lessons. Students who are accepted for a double concentration or a double major in performance must be fully accepted by both departments by audition. A private lesson fee of \$500 is assessed for the second instrument. Approval of the associate dean is required for all students desiring a double major or double concentration. Tuition scholarships granted by the Boyer College do not cover the private lesson fees.

Boyer College Policies for Dance Students

Students are responsible for complying with all university-wide academic policies that apply to their individual academic status. Additional and unique policies, or exceptions for the Boyer College of Music, Department of Dance, appear below.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 1849) policy for specific GPA and credit-hour requirements.

Leave of Absence

Full-time students may apply for a Leave of Absence (LOA), as per the LOA policy (p. 1856). However, the Dance department requires students to meet with the Undergraduate Program Coordinator and Department Chairperson in advance of the semester in which the leave of absence is to take place to discuss the reason(s) why the leave is necessary. (Policy # 02.10.16)

Injury Policy

An injury may affect a student's ability to successfully continue in a course. A student who is injured is expected to immediately contact their instructor and the Undergraduate Program Coordinator to discuss the possibility of continuance in the course. Injured students are responsible for seeking appropriate medical attention for their injuries. Students must provide an official doctor's note recommending non-participation in class to their instructors. Failure to provide a doctor's note verifying an injury may result in the student's violation of applicable absence policies or may otherwise impact the student's grade.

Any student who is advised by a doctor to refrain from dancing for three weeks or more may be required to withdraw from studio courses that focus on dance technique, composition, repertory and improvisation. For students who will miss fewer than three weeks of classes due to their injury, and who are physically able to do so, must attend all classes to observe and take notes. Instructors may assign additional written work if appropriate. If a student is unable to participate in midterm or final examinations due to an injury, the student is responsible for working with their instructor to develop alternate assignments at the discretion of the faculty member.

Persons subject to this policy may have the option for a medical withdrawal or an incomplete in their courses. Students should review Temple University's Withdrawal from Classes Policy (02.10.14) and Incomplete Coursework Policy (02.10.13).

Independent Study and Field Experience

Students who wish to register for Independent Study or Field Experience must submit a written proposal to the Undergraduate Program Coordinator no later than two months in advance of the semester in which the study is to be accomplished. A student who is on academic probation may not register for Independent Study or Field Experience. Credits will not be granted retroactively, and no more than 4 credits will be awarded over the course of a student's undergraduate study.

Full-Time/Part-Time Status

The maximum semester load for full-time undergraduate students is 18 credits. Undergraduate students must carry at least 12 credit hours to be classified as full-time. The Bachelor of Fine Arts (BFA) in Dance requires matriculated students to attend on a full-time basis each semester. Students who have been full-time for at least four semesters may petition the Undergraduate Program Coordinator no later than two months in advance for approval to enroll in the subsequent semester on a part-time basis. All requests for part-time status must be approved by the dance faculty. Part-time status is granted for one semester only. Students who are on academic probation are not eligible for part-time status. If a student is granted part-time status and is then placed on academic probation, part-time status will be revoked.

Academic Overloads (19 or more semester hours)

Academic overloads need special approval from the Associate Dean for Student Affairs. Students interested in pursuing an academic overload should contact their Faculty Advisor no later than 2 months prior to the start of the semester in which they desire to overload. Students who are on academic probation are not eligible for academic overloads.

Technique Standards

Temple University's Department of Dance recognizes the necessity of technical training in building professional quality performers, choreographers, and teachers. Our technique classes focus on contemporary dance practice and draw on styles rooted in African diasporic dance, ballet, and modern dance. Each of our technique teachers draws from an array of influences and styles, preparing students for the eclecticism found within the contemporary dance world today. Through four years of technical training, our students gain an understanding of and apply the following principles in reaching their expressive potential and minimizing injury:

- Alignment and Core Connection
- Physical Strength and Flexibility
- Upper and Lower Body Integration
- Clarity in Articulating Various Body Parts
- Sensitivity to Qualitative Range and Expressivity Inside Movement
- Rhythmic Awareness and Musicality
- Incorporation of Weight and Breath

- Spatial Awareness
- Critical Thinking
- Self-Motivation and Discipline

Contemporary Dance Practices represent the core of our students' technical training. In all technique classes, video evaluations are recommended at the mid-term and final periods of each semester. Following these evaluations, students receive verbal and written feedback from their instructors. This process provides a method of looking at a student's progress in developing the target competencies for each level of technique.

Technique Placement Class

All entering undergraduates are usually placed into the foundation/introductory technique levels (DANC 1834, DANC 1835, DANC 1836), but may occasionally be placed in a higher level based on their audition and supplemental dance application. Adjustments to level placement may be made during the first week of classes. Returning undergraduates should consult with their faculty advisor about level placement prior to registering for classes. Students may repeat a level up to two times, and are not allowed to regress in level.

First Semester Program Review

At the end of the first semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program.

Academic Progress

Students must successfully complete the following dance courses:

Code	Title	Credit Hours
DANC 1801	First Year Seminar in Dance	1
DANC 1811	Movement Improvisation I	2
DANC 1813 or DANC 1819	Dance Repertory I Dance Production	2
DANC 1841	Music for Dancers	2

Three Contemporary Dance Practices courses

Technical Growth

Students must be able to demonstrate and articulate verbally a conceptual understanding of alignment, strength, and mobility. They must be able to assimilate sequential movement materials and successfully perform basic movement phrases.

Improvisation

Students must demonstrate their ability to spontaneously create solo movement and demonstrate their understanding of basic partnering techniques and improvising in groups. Students will be able to generate movement material that both explores and expands their expressive range as dancers.

Creative Engagement

Over the course of the first semester, students must:

- Participate in one performance or audition one finished work for the student concert.
- Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches, as reflected in faculty evaluations of student coursework.
- Demonstrate receptivity to feedback and in-class evaluation from instructors, and apply this information in subsequent work.
- Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
- Maintain positive professional interactions with peers and faculty.

Second Semester Program Review

At the end of the second semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program.

Academic Progress

Students must successfully complete the following dance courses:

Code	Title	Credit Hours
DANC 1801	First Year Seminar in Dance	1
DANC 1813	Dance Repertory I	2
DANC 1819	Dance Production	1
DANC 1841	Music for Dancers	2
DANC 1852	Ways of Knowing Dance	2
Six Contemporary Dance Practices courses		

Technical Growth

Students must be able to apply, demonstrate, and articulate verbally a conceptual understanding of alignment, strength, and mobility. They must be able to assimilate sequential movement materials, and successfully perform movement phrases that deal with the following elements:

- Movement efficiency and proper alignment
- Shifting off the vertical line of balance and returning to center
- Basic rhythmic structures and patterns
- Basic locomotor movement and some inverted movement
- Variable spatial planes, directions, and levels
- Assimilation of sequential movement material
- Concepts of body organization: such as breath support, core to distal/head to tail patterning, upper-lower/body half integration, and cross-lateral patterning
- Differing energy qualities: how energy is directed within the body and projected out into space

Creative Engagement

Over the course of the second semester, students must:

- Participate in one performance or audition one finished work for the student concert.
- Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches, as reflected in faculty evaluations of student coursework.
- Demonstrate receptivity to feedback and in-class evaluation from instructors and apply this information in subsequent work.
- Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
- Maintain positive professional interactions with peers and faculty.

Third Semester Program Review

At the end of the third semester, each student's progress will be formally evaluated in the following categories to determine suitability for continued study within the dance program.

Academic Progress

Students must successfully complete the following dance courses, in addition to those listed for the first and second semester reviews:

Code	Title	Credit Hours
DANC 2813	Dance Composition I	2
DANC 3851	Lighting Design for Dance	3
DANC 4861	Dance Science and Somatics	3
Nine Contemporary Dance Practices courses		

Technical Growth

Students must demonstrate awareness of alignment issues and articulate personal strategies for addressing them. They must be able to assimilate and retain movement material sequentially and qualitatively, and successfully perform movement phrases that deal with the following elements:

- Increased movement efficiency and proper alignment
- Basic kinesiological principles in technique and conditioning contexts
- Increased facility in shifting off the vertical line of balance and returning to center
- Incorporation of weight into on-balance and off-balance movement involving momentum and weight release
- Increased rhythmic acuity: ability to work with shifting accents, structures & patterns

- Embodiment of musicality and more complex phrasing
- Movement initiation and follow-through
- Ability to risk and expand one's spatial parameters: demonstration of an increased drive through space
- Modulation between different energy states with breath support inside metric and non-metric phrasing
- Developing confidence in one's creative engagement with movement material
- Ability to adapt when experiencing new teaching methods and styles

Choreography

Students must also be able to discuss their work and the process by which they created it. Students must be able to create and perform a dance that:

- Successfully communicates an idea of personal significance;
- Demonstrates the ability to develop thematic movement material;
- Investigates movement imaginatively;
- Explores a range of dynamic qualities; and,
- Reflects a basic understanding of choreographic structure.

Creative Engagement

By the end of the third semester, students must:

- Audition one piece of their choreography for a student concert and participate in three performances.
- Demonstrate consistent attendance, focus, intellectual curiosity, and openness to new approaches as reflected in faculty evaluations of student coursework.
- Demonstrate receptivity to feedback and in-class evaluations from instructors and apply this information in subsequent work.
- Maintain positive, professional interactions with peers and faculty.
- Demonstrate healthy life practices as part of a disciplined approach towards one's work as a dancer.
- Participate in one audition or recruitment event.

Special Course Sequences

The courses listed below must be taken in the specified sequence and cannot be taken out of order or during the same semester. All courses must be completed before students register for Senior Choreographic Project or Dance Education Project.

- Composition: Movement Improvisation I, Movement Improvisation II, Composition I, Composition II, Creative Process in Dance
- Creating Dance Histories, Dancing Cultures, Making Meaning in Dance
- Repertory: Dance Repertory I, Dance Repertory II, Dance Repertory III
- Technical Theater: Dance Production, Lighting Design for Dance

College Requirements

Note that the general college graduation requirements for music students and dance students are listed in separate sections below.

- Music graduation requirements (p. 328)
- Dance graduation requirements (p. 329)

University Requirements

- All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All Temple students must take a minimum of two writing-intensive courses as part of the major.

General College Graduation Requirements - Music

- All music education students must maintain a 3.0 GPA to obtain permission to student teach and qualify for state teacher certification.
- All music therapy students must receive a grade of C or better in all music therapy classes. Grades below C in any music therapy course may not be applied toward degree requirements in music therapy. All students are permitted to repeat a course one time. Students who need to repeat a course a second time must obtain the approval of the dean/designee of their home school or college and be registered with assistance. Except as permitted by this policy, no students may repeat a course a third time. Students who have exhausted course attempts for course(s) required for their major will be required to change majors.
- All Boyer College music students must attend a minimum number of college recitals each semester to qualify for graduation. Refer to the Recital and Concert Attendance Policy for more detailed information.
- All Boyer College music students are required to participate in specific ensembles as determined by their department and program. Refer to the Ensemble Requirement Policy for more detailed information.

- Students in the following curriculums are required to perform a senior recital prior to graduation: Piano Performance, Piano Pedagogy, Instrumental Performance, Voice Performance, Jazz Instrumental Performance, Jazz Voice Performance, and Jazz Arranging/Composition. Refer to the Senior Recital Policy for more detailed information.
- All undergraduate music students must be cleared by the Assistant Director of Advising for graduation by the end of their junior year.

Please refer to the Boyer College Policies section for a complete list of policies. Detailed requirements for each degree program are listed within the curriculum section of the *Bulletin*.

Descriptions

1. Certain courses fulfill multiple requirements. In consultation with an advisor, students will be able to plan their curriculum more effectively.
2. The total number of credit hours required for graduation may be greater for some students based on placement exams, transfer evaluations, individual curricular choices, and academic progress.
3. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisites and Co-requisites Policy (p. 1860) in the University-wide Academic Policies section of this *Bulletin*.

General College Graduation Requirements - Dance

See the Dance Major (p. 339) page for the specific courses that are required for dance majors.

1. Dance required GPA for graduation: 2.0 cumulative, 2.0 in dance major courses.
2. Dance Contact Information:
1700 N. Broad Street, Suite 309
Main Office Phone: 215-204-8710
3. Dance Requirements and Special Course Sequences (see dance major page for details):
 - a. Must be taken in the required sequence
 - b. Cannot be taken out of order or during the same semester
 - c. All must be completed before students register for *Senior Choreographic Projects*.

Academic Advising

The advising team in the Center for the Performing and Cinematic Arts (CPCA) serves all undergraduate students in the Boyer College of Music and Dance. We have lead advisors in each area that specialize in helping you navigate your undergraduate curriculum.

The advising team is in Mitten Hall, Suite 200 West. Our office follows the university schedule, meaning it is closed on the days the university is not open for business.

While academic advisors can help you make an academic plan, register for classes each semester and navigate Temple University, students must assume primary responsibility for understanding the requirements for their degree and acquiring current information about their academic status.

Boyer College of Music and Dance - Advising Contacts

Marguerite Jackson, Academic Advisor
200 Mitten Hall West Balcony
215-204-2229
margo@temple.edu

Bradley Pearson, Director of Advising, Center for the Performing and Cinematic Arts
200 Mitten Hall West Balcony
215-204-8372
bradley.pearson@temple.edu

Cooper Creal, Academic Advisor
200 Mitten Hall West Balcony
215-204-3437

Students also have access to faculty advisors in their major.

Departmental Faculty Advisors

Dance

Karen Bond, Dance Department Chair and Associate Professor of Dance
215-204-6280
kbond003@temple.edu

Sherril Dodds, Professor of Dance
215-204-4959
sherril.dodds@temple.edu

Jillian Harris, Associate Professor of Dance
215-204-5114
jhdan2@temple.edu

Laura Katz Rizzo, Assistant Professor of Dance and Undergraduate Program Coordinator for Dance
215-204-6279
laura.katz@temple.edu

Merian Soto, Professor of Dance
215-204-8301
msoto@temple.edu

Instrumental

Matthew Brunner, Director of Athletic Bands
215-204-2162
brunnerm@temple.edu

Patricia Cornett, Director of Bands
215-204-8335
patricia.cornett@temple.edu

Phillip O'Banion, Associate Professor, Artist Director for Percussion
215-204-8329
obanion@temple.edu

Jazz Studies

Terell Stafford, Professor, Director of Jazz Studies
215-204-8036
terell.stafford@temple.edu

Music Education and Music Therapy

Rollo Dilworth, Associate Professor of Music Education
215-204-8317
rollo.dilworth@temple.edu

Deborah Confredo, Professor of Music Education
215-204-8649
debconfredo@temple.edu

Beth Bolton, Vice Dean for Faculty and Academic Affairs, and Associate Professor of Music Education
215-204-8474
bbolton@temple.edu

Alison Reynolds, Chair and Professor of Music Education
215-204-1660
alison.reynolds@temple.edu

Nathan Buonviri, Associate Professor of Music Education
215-204-8328
buonviri@temple.edu

Darlene Brooks, Associate Professor of Music Therapy
215-204-8301
darlene.brooks@temple.edu

Music Studies

Music Studies

Edward Latham, Music Studies Department Chair
215-204-8498
elatham@temple.edu

Composition

Maurice Wright, Composition Coordinator
215-204-8016
wright@temple.edu

Music History

Steven Zohn, Music History Coordinator
215-204-5096
szohn@temple.edu

Music Theory

Edward Latham, Music Studies Department Chair
215-204-8498
elatham@temple.edu

Keyboard Instruction

Charles Abramovic, Keyboard Instruction Department Chair and Professor of Piano
215-204-7388
charles.abramovic@temple.edu

Vocal Arts

Paul Rardin, Vocal Arts Department Chair and Associate Professor of Vocal Arts
215-204-4742
rardin@temple.edu

Change of Program for Boyer Majors

Students wishing to change their concentration or major within Boyer should meet with their academic advisor to discuss the steps needed.

Change of Program to Music or Dance

If you are considering changing your major to Music or Dance from another major at Temple University, please contact boyer@temple.edu for audition and application information.

Faculty

Charles Abramovic, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; DMA, Temple University.

Mitos Andaya Hart, Associate Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, University of Kansas.

Christine L. Anderson, Associate Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, University of Cincinnati College-Conservatory of Music.

Beth Bolton, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

Karen E. Bond, Associate Professor, Department of Dance, Boyer College of Music and Dance; PhD, La Trobe University.

Darlene M. Brooks, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

Matthew Brunner, Assistant Professor of Instruction, Department of Instrumental Studies, Boyer College of Music and Dance; DMA, Indiana University.

Sara Buechner, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; DMA, Manhattan School of Music.

Nathan Buonviri, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

David B. Cannata, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, New York University.

Dustin Cates, Assistant Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, University of Missouri-Kansas City Conservatory of Music and Dance.

Deborah A. Confredo, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Florida State University.

Patricia Cornett, Assistant Professor, Department of Instrumental Studies, Boyer College of Music and Dance; DMA, University of Michigan.

Marcus DeLoach, Associate Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, Rice University.

Alexander deVaron, Associate Professor of Instruction, Department of Music Studies, Boyer College of Music and Dance; DMA, Temple University.

Rollo A. Dilworth, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; DMA, Northwestern University.

Sherril Dodds, Professor, Department of Dance, Boyer College of Music and Dance; PhD, University of Surrey.

Stephanie Doktor, Assistant Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, University of Virginia.

Lillian Eyre, Visiting Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

Edward Flanagan, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, Temple University.

Rachelle Fleming, Associate Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, University of Miami.

Mark Franko, Laura H. Carnell Professor, Department of Dance, Boyer College of Music and Dance; PhD, Columbia University.

Shana Goldin-Perschbacher, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, University of Virginia.

Lorie A. Gratis Harris, Assistant Professor of Instruction, Department of Vocal Arts, Boyer College of Music and Dance; DMA, Temple University.

Matthew J. Greenbaum, Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, City University of New York.

Suzanne Hall, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, University of Memphis.

Jillian Harris, Associate Professor, Department of Dance, Boyer College of Music and Dance; MFA, New York University Tisch School of the Arts.

yaTande Whitney V. Hunter, Assistant Professor, Department of Dance, Boyer College of Music and Dance; PhD, Institute for Doctoral Studies in the Visual Arts.

Lawrence R. Indik, Associate Professor of Practice, Department of Vocal Arts, Boyer College of Music and Dance; DMA, Manhattan School of Music.

Laura E. Katz Rizzo, Associate Professor, Department of Dance, Boyer College of Music and Dance; PhD, Temple University.

Gregory S. Kettinger, Instructor, Department of Music Studies, Boyer College of Music and Dance; BM, Temple University.

Joann M. Kirchner, Assistant Professor of Instruction, Department of Keyboard Studies, Boyer College of Music and Dance; PhD, University of Oklahoma.

Michael Klein, Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, State University of New York at Buffalo.

Jan L. Krzywicki, Professor, Department of Music Studies, Boyer College of Music and Dance; MM, Philadelphia Musical Academy.

Edward D. Latham, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, Yale University.

Kathryn Leemhuis, Assistant Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, University of Cincinnati College-Conservatory of Music.

Joyce Z. Lindorff, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; DMA, The Juilliard School.

Wendy Magee, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, University of Sheffield.

Noriko Manabe, Associate Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, Graduate Center, City University of New York.

David McDonnell, Assistant Professor of Instruction, Department of Music Studies, Boyer College of Music and Dance; DMA, University of Cincinnati College-Conservatory of Music.

Alisha C. Nypaver, Instructor, Department of Music Studies, Boyer College of Music and Dance; MM, Temple University.

Phillip R. O'Banion, Associate Professor, Department of Instrumental Studies, Boyer College of Music and Dance; MM, University of Colorado.

Richard D. Oatts, Professor, Department of Music Studies, Boyer College of Music and Dance.

Lambert T. Orkis, Professor, Department of Keyboard Studies, Boyer College of Music and Dance; MM, Temple University.

Elizabeth C. Parker, Associate Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, University of Nebraska-Lincoln.

David Pasbrig, Associate Professor of Instruction, Department of Music Studies, Boyer College of Music and Dance; DMA, Temple University.

Paul Rardin, Elaine Brown Chair in Choral Music and Associate Professor, Department of Vocal Arts, Boyer College of Music and Dance; DMA, University of Michigan.

Alison M. Reynolds, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

Eduard Schmieder, Laura H. Carnell Professor, Department of Instrumental Studies, Boyer College of Music and Dance; DMA equiv., Gneissen Russian Academy of Music.

Helen Shoemark, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, University of Melbourne.

Jeffrey G. Solow, Professor, Department of Instrumental Studies, Boyer College of Music and Dance; BA, University of California Los Angeles.

Merián Soto, Professor, Department of Dance, Boyer College of Music and Dance; MA, Columbia University.

Terrell L. Stafford, Laura H. Carnell Professor, Department of Music Studies, Boyer College of Music and Dance; MM, Rutgers University.

Robert T. Stroker, Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Michigan State University.

Christopher Turbessi, Instructor, Department of Vocal Arts, Boyer College of Music and Dance; MM, University of Michigan.

Adam Vidiksis, Assistant Professor, Department of Music Studies, Boyer College of Music and Dance; DMA, Temple University.

Timothy Warfield, Visiting Professor, Department of Music Studies, Boyer College of Music and Dance.

Lindsay Weightman, Associate Professor of Instruction, Department of Music Studies, Boyer College of Music and Dance; DMA, Manhattan School of Music.

Samuel Wells, Assistant Professor of Instruction, Department of Music Studies, Boyer College of Music and Dance; DMA, California Institute of the Arts.

Maurice W. Wright, Laura H. Carnell Professor, Department of Music Studies, Boyer College of Music and Dance; DMA, Columbia University.

Xiang Xu, Assistant Professor, Department of Dance, Boyer College of Music and Dance; MFA, New York University Tisch School of the Arts.

Michael L. Zanders, Assistant Professor, Department of Music Education and Music Therapy, Boyer College of Music and Dance; PhD, Temple University.

Steven D. Zohn, Laura H. Carnell Professor, Department of Music Studies, Boyer College of Music and Dance; PhD, Cornell University.

Chamber Music Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Chamber Music** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also submit a video recording (DVD) of one movement of a solo work from standard classical repertoire.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-CHMU-CERT

Learn more about the undergraduate certificate in Chamber Music.

Requirements

The Certificate in Chamber Music will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
MUST 3770	Topics in Music Theory (take 2 times for 2 credits each)	4
MUSC 3551	Applied Lesson - Instrumental (take 2 times for 3 credits each)	6
MUSC 4510	Instrumental Ensemble (take 2 times for 1 credit each)	2
MUSC 4520	Ensemble (take 2 times for 1 credit each)	2
Total Credit Hours		14

Classical Piano Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Classical Piano** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also successfully complete MUSC 1411 (classical section) or submit a video recording (DVD) of a short selection from the standard classical repertoire.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Classical Voice Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Classical Voice** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also successfully complete MUSC 1256 (classical section) or submit a video recording (DVD) of one song or aria from the standard classical repertoire.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Composition BM

Overview

The **Bachelor of Music in Composition**, offered by the Department of Music Studies, covers courses in composition for various media, including electronic music. Creativity, the development of personal expression through music, and the assessment of music's role in the 21st-century societal context are the focal points for composition majors.

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

Dance BFA

Overview

Offered by the Department of Dance, the **Bachelor of Fine Arts in Dance** emphasizes modern dance technique, performance, choreography and dance theory. The Bachelor of Fine Arts (BFA) in Dance at Temple is focused on building well-rounded, versatile artists who are not only technically proficient, but also have a broad range and a deep understanding of their work. The BFA program focuses on modern dance technique and choreography, but with a broad curriculum that includes requirements in ballet, which follows the AMERICAN BALLET THEATRE® National Training Curriculum, African dance and other technique electives. Other course requirements include composition, repertory, creative process, improvisation and dance science, in addition to courses that explore cultural, historical and analytical approaches to the study of dance.

The BFA in Dance aims to

- Guide students toward a balance of cognitive, analytic, intuitive and creative skills.
- Aid students in development of their creative potential through technique, choreography, performance, research and other creative media.
- Educate students about the various forms and purposes of dance within their historical, social and cultural contexts.
- Provide intensive training in a range of dance techniques and styles as represented by the faculty and selected guest artists.
- Prepare students for professional careers as performing artists, choreographers, teachers, scholars, and informed and responsible leaders in academic and other professional settings.

The Bachelor of Fine Arts degree in Dance is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 semester hours of credit and completion of the required Dance and university requirements.

Campus Location: Main

Program Code: BC-DANC-BFA

Special Admissions Requirements

See Dance Admissions information (p. 314) on the Boyer College of Music and Dance page.

Mission

The Department of Dance is committed to artistic and scholarly excellence through fostering a creative, reflective and inclusive learning environment. Through embodied practice, the Dance faculty and students seek to honor traditions while exploring new ways of knowing dance. In recognition that we experience through the body, the programs encourage students to consider how bodies in motion contribute to knowledge, transform our social world and facilitate community engagement.

Dance Resources

The Dance Department, with its three studios, rehearsal room, Pilates room, black-box theater, video library and assorted classrooms, embraces a broad array of activities. The Philadelphia Dance Collection at Temple University (PDCAT) provides access to the dance legacy of the region through a permanent collection of multi-format archival resources related to the history of Philadelphia dance.

Special Opportunities

The Conwell Dance Theater season provides many opportunities for students to perform and choreograph. A typical season features two student concerts, two Master of Fine Arts thesis concerts, two Bachelor of Fine Arts senior concerts, a faculty dance concert and an alumni concert. Added to this are performances by guest artists, repertory showings and informal student choreography performances. Recent guest artists have included Kyle Abraham; Rennie Harris Puremovement; Cornelius Carter; Ruth Andrien, former soloist with the Paul Taylor Dance Company; and Nina Watt, member of the José Limón Dance Company.

Accreditation

Full accredited Member of the National Association of Schools of Dance (NASD).

Dance Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Dance**, which is offered by the Department of Dance, must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also submit a video recording (DVD) of a self-choreographed solo (two minutes maximum) which demonstrates the applicant's ability to develop movement ideas using some basic elements of composition.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Total Credit Hours**12**

Dance Minor

Overview

Offered by the Department of Dance, the **Minor in Dance** is a 22-credit hour program available to undergraduate students in other departments and colleges. The minor provides a foundation in technique, followed by a small amount of specialization in dance theory. The course requirements consist of:

Code	Title	Credit Hours
Technique Courses		14
Dance Production Course		1
Theory Courses		7
Total Credit Hours		22

A limited number of slots are available each semester, and an interview and audition are required to begin this program. Interested students are advised to contact the Dance Department via email at dance@temple.edu for further information.

Once accepted, students must follow the academic policies and procedures of the Dance Department for all dance courses. Minor credit will not be awarded for grades below a B- in Dance coursework. Upon graduation, a notation on the undergraduate transcript will indicate successful completion of the minor.

Course Limitations/Restrictions: All technique courses are repeatable two times only, which will allow a student to enroll in the same level of technique for two semesters thus ensuring opportunity to develop full competencies associated with that level. Theory courses are not repeatable, although students may enroll in courses other than those listed in the requirements with permission of the instructor.

Transfer Students: Students transferring large numbers of credits in dance who wish to complete the Dance Minor must secure an evaluation of these credits prior to beginning their course of study. All students in this category must complete a minimum of 9 credits of dance courses at Temple including one theory course and three technique courses.

Hip Hop Dance and Culture Minor

Overview

Offered by the Department of Dance, the **Minor in Hip Hop Dance and Culture** is a 22-credit hour program available to beginning and experienced dancers across the university. Studies in hip hop dance will invite undergraduate students to address broader social concepts, including race and racism, cultural appropriation and commodification, oral history traditions, and African American heritage and values. Applicants must have completed one semester of coursework at Temple University before official acceptance to the Dance minor can occur.

The course requirements consist of:

Code	Title	Credit Hours
Technique Courses		14
Dance Production Course		1
Theory Courses		7
Total Credit Hours		22

Availability: A limited number of slots are available each semester, and an interview and audition are required to begin this program. Interested students are advised to contact the Dance Department via email at dance@temple.edu for further information.

Once accepted, students must follow the academic policies and procedures of the Dance Department for all dance courses. Minor credit will not be awarded for grades below a B- in Dance coursework. Upon graduation, a notation on the undergraduate transcript will indicate successful completion of the minor.

Course Limitations/Restrictions: All technique courses are repeatable two times only, which will allow a student to enroll in the same level of technique for two semesters thus ensuring opportunity to develop full competencies associated with that level. Theory courses are not repeatable, although students may enroll in courses other than those listed in the requirements with permission of the instructor.

Transfer Students: Students transferring large numbers of credits in dance who wish to complete the Dance Minor must secure an evaluation of these credits prior to beginning their course of study. All students in this category must complete a minimum of 9 credits of dance courses at Temple including one theory course and three technique courses.

Jazz Arranging Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Jazz Arranging** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also submit one original jazz arrangement (minimum 12 measures, PDF format) to boyer@temple.edu.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Jazz Studies/Composition BM

Overview

The **Bachelor of Music in Jazz Studies/Composition** is offered by the Department of Music Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Double Bass
- Euphonium
- Flute
- French Horn
- Guitar
- Harp
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Students of Temple's Jazz Studies program have the opportunity to participate in various large and small ensembles, including Jazz Band, Lab Band, Percussion Ensemble and Jazz Vocal Ensemble. These ensembles provide comprehensive performance experience in solo as well as ensemble playing for both instrumentalists and vocalists. All the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers and composers.

Special Admissions Requirements

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Jazz Studies/Composition is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 123 credits. This major requires a concentration; the available concentrations are Instrumental (options include Bassoon, Cello, Clarinet, Double Bass, Euphonium, Flute, French Horn, Guitar, Harp, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba, Viola, and Violin), Piano and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are MUST 3196 and MUST 3896.

Piano concentration students should not take the 4 credits of Secondary Piano shown in this Academic Plan. They should instead take 4 additional credits of free electives.

Jazz Studies/Performance BM

Overview

The **Bachelor of Music in Jazz Studies/Performance** is offered by the Department of Music Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Double Bass
- Euphonium
- Flute
- French Horn
- Guitar

- Harp
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

The following information pertains to all concentrations except for Piano and Voice. Refer to the Piano (p. 362) and Voice (p. 366) pages for their requirements.

Students of Temple's Jazz Studies program can participate in both large and small ensembles. Jazz Band, Lab Band, Percussion Ensemble and Vocal Ensemble provide comprehensive performance experiences in solo as well as ensemble playing for both instrumentalists and vocalists. All the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

Jazz Studies/Performance BM with Piano Concentration

Overview

The **Bachelor of Music in Jazz Studies/Performance** is offered by the Department of Music Studies.

Students **must select one of the following concentrations**:

- Bassoon,
- Cello,
- Clarinet,
- Double Bass,
- Euphonium,
- Flute,
- French Horn,
- Guitar,
- Harp,
- Oboe,
- Percussion,
- Piano,
- Saxophone,
- Trombone,
- Trumpet,
- Tuba,
- Viola,

- Violin, and
- Voice.

Piano Concentration

The following information pertains to the **Piano concentration**. Refer to Voice (p. 366) and the other instruments (p. 358) pages for their requirements.

Students of Temple's Jazz Studies program can participate in both large and small ensembles. Jazz Band, Lab Band, Percussion Ensemble and Vocal Ensemble provide comprehensive performance experiences in solo as well as ensemble playing for both instrumentalists and vocalists. All the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

Weekly private lessons are reinforced by regular performance classes, and a series of master classes taught by faculty members and guests artists focuses on special topics essential to the keyboard performer.

Special Admissions Requirements

Jazz Studies/Performance BM with Voice Concentration

Overview

The **Bachelor of Music in Jazz Studies/Performance** is offered by the Department of Music Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Double Bass
- Euphonium
- Flute
- French Horn
- Guitar
- Harp
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba

- Viola
- Violin
- Voice

Voice Concentration

The following information pertains to the **Voice concentration**. Refer to Piano (p. 362) and the other instruments (p. 358) pages for their requirements.

Students of Temple's Jazz Studies program have the opportunity to participate in both large and small ensembles. Jazz Band, Lab Band, Percussion Ensemble and Vocal Ensemble provide comprehensive performance experiences in solo as well as ensemble playing for both instrumentalists and vocalists. All the performing groups are coached by an experienced faculty of musician-educators. Graduates are prepared to begin a career as professional performers.

The training provided by the Jazz Studies Program emphasizes vocal technique and repertoire in a challenging program of vocal development. Performance progress is closely guided through private lessons, juries and recital performances. The program of study prepares singers for careers in concert and recital performances with jazz ensembles.

Jazz Voice Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing

these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Jazz Voice** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also successfully complete MUSC 1256 (Jazz section) or submit a video recording (DVD) of one jazz standard (with improvisation) from *The New Real Book*.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-JZVC-CERT

Learn more about the undergraduate certificate in Jazz Voice.

Requirements

The Certificate in Jazz Voice will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
MUSC 1256	Private Voice for Non-Music Majors	1
MUSC 1257	Private Voice for Non-Music Majors	1
MUST 3770	Topics in Music Theory (take 2 times for 2 credits each)	4
MUSC 3100	Small Jazz Ensemble (take 4 times for 1 credit each)	4
MUSC 3300	Choral Ensemble (take 2 times for 1 credit each)	2
Total Credit Hours		12

Music BS

Overview

The **Bachelor of Science in Music** is offered by the Department of Music Studies.

This program is designed to prepare students for such fields as library science, the publishing industry, communications, the computer software industry, and other new and diverse areas of the music profession.

Music Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Music** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

Students must complete the online application and other requirements listed below. No audition or portfolio is required.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-MUSC-CERT

Learn more about the undergraduate certificate in Music.

Requirements

The Certificate in Music will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course.

There are two course completion options for the Certificate in Music: Music A and Music B.

Code	Title	Credit Hours
Music A Course Requirements		
MUST 3770	Topics in Music Theory	2
MUST 2703	Music in History	3
Choose one of the following:		3
MUSC 3300	Choral Ensemble (take 3 times for 1 credit each)	
MUSC 1411	Private Piano for Non-Music Majors (take 3 times for 1 credit each)	
MUSC 4520	Ensemble (take 3 times for 1 credit each)	
MUST 2704	Music in History	3
MUST 2733	American Musical Theater	3
Total Credit Hours		14

Code	Title	Credit Hours
Music B Course Requirements		
MUST 1701	Music Theory for Non-Music Majors	2
MUST 1763	American Popular Music	2
Select one of the following:		3
MUSC 3300	Choral Ensemble (take 3 times for 1 credit each)	
MUSC 1411	Private Piano for Non-Music Majors (take 3 times for 1 credit each)	
MUSC 4520	Ensemble (take 3 times for 1 credit each)	
MUST 2112	Pop Song Writing	2

Music Composition Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Music Composition** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also submit one original composition (minimum 16 measures, PDF format) to boyer@temple.edu.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Code	Title	Credit Hours
MUST 3770	Topics in Music Theory (take 2 times for 3 credits each)	6
MUST 2748	Composition I	2
MUST 2749	Composition II	2
MUST 4717	Counterpoint	3
Total Credit Hours		13

Music Education BM

Overview

Offered by the Department of Music Education and Music Therapy, the **Bachelor of Music in Music Education** focuses on developing music educators at the undergraduate level who will be ready for successful entry into the teaching profession.

Faculty recommendations for student teaching are not automatic. They must be earned by the student through demonstrated potential in the field, a 3.0 GPA, passing an approved Basic Skill Assessment, and passing Praxis exam II. Students not recommended for student teaching may be permitted to graduate after successful completion of additional coursework, but will not be recommended for Pennsylvania State Music Teacher Certification.

Upon successful completion of the four-year program of study, the five-year double major program of study, or the five-year program with Jazz Component, and upon achieving passing scores on the Praxis Series Assessments (Professional Assessments for Beginning Teachers), students qualify for Pennsylvania state certification for public school music teachers, K-12.

Students **must select one of the following concentrations:**

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Music Education is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 126-128 credits (depending on the concentration). This major requires a concentration; the available concentrations are Bassoon, Cello, Clarinet, Classical Guitar, Double Bass, Euphonium, Flute, French Horn, Harp, Harpsichord, Oboe, Percussion, Piano, Saxophone, Trombone, Trumpet, Tuba, Viola, Violin and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses for the major are MUED 2696 and MUST 3696.

Music Education/Jazz BM

Overview

Offered by the Department of Music Education and Music Therapy, the **Bachelor of Music in Music Education/Jazz** focuses on developing music educators at the undergraduate level who will be ready for successful entry into the teaching profession.

Faculty recommendations for student teaching are not automatic. They must be earned by the student through demonstrated potential in the field, a 3.0 GPA, and passing of Praxis exams I and II. Students not recommended for student teaching may be permitted to graduate after successful completion of additional coursework but will not be recommended for Pennsylvania State Music Teacher Certification.

Upon successful completion of this five-year program and upon achieving passing scores on the Praxis Series Assessments (Professional Assessments for Beginning Teachers), students qualify for Pennsylvania state certification for public school music teachers, K-12.

Students **must select one of the following concentrations:**

- Bassoon
- Cello
- Clarinet
- Double Bass
- Euphonium
- Flute
- French Horn
- Guitar
- Harp
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

Campus Location: Main

Program Code: BC-MEJZ-BMUS

Learn more about the Bachelor of Music in Music Education/Jazz.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Music Education/Jazz is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 158-161 credits (depending on concentration). This major requires a concentration; the available concentrations are Bassoon, Cello, Clarinet, Double Bass, Euphonium, Flute, French Horn, Guitar, Harp, Oboe, Percussion, Piano, Saxophone, Trombone, Trumpet, Tuba, Viola, Violin and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are MUED 2696, MUST 3196, and MUST 3696.

Program Requirements (Bassoon, Cello, Clarinet, Double Bass, Euphonium, Flute, French Horn, Guitar, Harp, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba, Viola and Violin)

MUST 4110	Seminar in Jazz Composition and Arranging	
MUST 4111	Jazz Style and Analysis	
MUST 4114	Jazz Improvisation: Theory and Practice II	
MUST 4115	Jazz Arranging II	
MUST 4120	Seminar in Advanced Jazz Composition and Arranging	

Instrumental Pedagogy

Select any combination of the following seven courses for a total of 6 credits:		6
MUED 1651	Percussion	
MUED 1652	Woodwinds I	
MUED 1653	Upper Strings	
MUED 1654	Lower Strings	
MUED 1655	Brass I	
MUED 1656	Brass II	
MUED 1657	Woodwinds II	

Instrumental Concentration

MUSC 1501	Instrumental Concentration	2
MUSC 1502	Instrumental Concentration	2
MUSC 2501	Instrumental Concentration	2
MUSC 2502	Instrumental Concentration	2
MUSC 3501	Instrumental Concentration	2
MUSC 3502	Instrumental Concentration	2
MUSC 4501	Instrumental Concentration	2
MUSC 4502	Instrumental Concentration	2

Vocal Pedagogy

Select one of the following:		2
MUED 2671	School Choral Ensembles	
MUED 2674	Jazz Education - Vocal	
MUED 2675	Inclusive Vocal Development: Pre-Kindergarten - Secondary	

Secondary Piano

MUSC 1405	Secondary Piano for Music Majors	1
MUST 1106	Jazz Secondary Piano	1
MUST 2105	Jazz Secondary Piano	1
MUST 2106	Jazz Secondary Piano	1

Jazz Education

MUED 2673	Jazz Education - Instrumental	2
-----------	-------------------------------	---

Instrumental Conducting

MUSC 2323	Basic Conducting	1
MUSC 2324	Conducting Intermediate	1
MUSC 4324	Conducting (Instrumental)	2

Ensembles

MUSC 3510	Marching Band	1
-----------	---------------	---

Select one of the following:		1
------------------------------	--	---

MUSC 3300	Choral Ensemble	
MUSC 4300	Concert Choir	
MUSC 4310	Graduate Conductors Choir	
Select any combination of the following four courses for a total of 3 credits:		3
MUSC 3500	Collegiate Band	
MUSC 3510	Marching Band	
MUSC 4500	Instrumental Ensemble	
MUSC 4510	Instrumental Ensemble	
Select any combination of the following three courses for a total of 4 credits:		4
MUSC 3100	Small Jazz Ensemble	
MUSC 3110	Large Jazz Ensemble	
MUSC 4520	Ensemble

Year 3		
Fall		
MUSC 3501	Instrumental Concentration	2
MUST 2711	Theory III (Traditional)	4
Select one of the following Jazz Ensembles: ²		1
MUSC 3100	Small Jazz Ensemble	
MUSC 3110	Large Jazz Ensemble	
MUSC 4520	Ensemble	
MUSC 2323	Basic Conducting	1
Select two of the following Instrumental Pedagogy courses, but do not select the same courses taken in previous semesters:		2
MUED 1651	Percussion	
MUED 1652	Woodwinds I	
MUED 1653	Upper Strings	
MUED 1654	Lower Strings	
MUED 1655	Brass I	
MUED 1656	Brass II	
MUED 1657	Woodwinds II	
MUED 2696	Teaching General Music to Inclusive Populations (TGMIP)	3
MUST 4717	Counterpoint	3
Credit Hours		16
Spring		
MUSC 3502	Instrumental Concentration	2
MUST 3696	Music in History	3
Select one of the following Jazz Ensembles: ²		1
MUSC 3100	Small Jazz Ensemble	
MUSC 3110	Large Jazz Ensemble	
MUSC 4520	Ensemble	
MUSC 2324	Conducting Intermediate	1
Select two of the following Instrumental Pedagogy courses, but do not select the same courses taken in previous semesters:		2
MUED 1651	Percussion	

MUED 1652	Woodwinds I	
MUED 1653	Upper Strings	
MUED 1654	Lower Strings	
MUED 1655	Brass I	
MUED 1656	Brass II	
MUED 1657	Woodwinds II	
MUED 4669	Teaching Choral Music to Inclusive Populations	3
MUST 4113	Jazz Improvisation: Theory and Practice I	2
GenEd Breadth Course		3

Credit Hours	17
---------------------	-----------

Year 4**Fall**

MUSC 4501	Instrumental Concentration	2
MUST 4112	Jazz Arranging I	3
Select one of the following Jazz Ensembles: ²		1
MUSC 3100	Small Jazz Ensemble	
MUSC 3110	Large Jazz Ensemble	
MUSC 4520	Ensemble	
MUST 3196	History of Pop	3
MUED 1671	Collaboration & Creativity in the New Music Community	3
MUSC 4324	Conducting (Instrumental)	2
Take three credits from the following Jazz Elective list:		3
MUST 3770	Topics in Music Theory	
MUST 4110	Seminar in Jazz Composition and Arranging	
MUST 4111	Jazz Style and Analysis	
MUST 4114	Jazz Improvisation: Theory and Practice II	
MUST 4115	Jazz Arranging II	
MUST 4120	Seminar in Advanced Jazz Composition and Arranging	

Credit Hours	17
---------------------	-----------

Spring

MUSC 4502	Instrumental Concentration	2
Select one of the following Jazz Ensembles: ²		1
MUSC 3100	Small Jazz Ensemble	
MUSC 3110	Large Jazz Ensemble	
MUSC 4510	Instrumental Ensemble	
MUED 3662	Keyboard Harmony - Music Education	3
MUED 4667	Teaching Instrumental Music to Inclusive Populations	3
MUST 2114	History of Jazz	3
Select one of the following Music Technology electives:		3
MUST 4712	Computer Synthesis of Music	
MUST 4713	Sound Recording	
MUST 4714	Sound Editing	
MUST 4716	Composing Music for Films	
MUST 4719	MIDI	
MUST 4762	Introduction to Music Technology for Non-Majors	
MUED 2673	Jazz Education - Instrumental	2
Senior Project		0

Credit Hours	17
---------------------	-----------

Year 5**Fall**

MUST 3713	Orchestration	3
Select one of the following Choral Ensembles: ²		1

MUSC 3300	Choral Ensemble	
MUSC 4300	Concert Choir	
MUSC 4310	Graduate Conductors Choir	
GenEd Breadth Course		3
GenEd Breadth Course		3

Credit Hours		16
Spring		
MUED 4668	Senior Student Teaching Seminar	3
MUED 4689	Student Teaching-Elementary	3
MUED 4789	Student Teaching - Secondary	3
Credit Hours		9
Total Credit Hours		160

1

One semester of MUSC 3510 Marching Band is required. Normally this requirement is fulfilled in the fall term of the freshman year. Although the requirement is only one semester, students may register for Marching Band as often as they would like.

2

A total of 8 credit hours of instrumental ensembles are required: 4 credit hours of Traditional Ensembles, including 1 credit hour of MUSC 3510 Marching Band; and 4 credit hours of Jazz Ensembles. A total of 1 credit hour of Choral Ensemble is required.

Bachelor of Music (5 Year) in Music Education/Jazz with a Concentration in Piano - Band/Orchestra Emphasis

Music History BM

Overview

The **Bachelor of Music in Music History** is offered by the Department of Music Studies.

The Bachelor in Music in Music History emphasizes a historic and analytical approach to the study of music and the development of scholarly research skills.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

Campus Location: Main

Program Code: BC-MHIS-BMUS

Learn more about the Bachelor of Music in Music History.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Music History is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 credits. This major requires a concentration; the available concentrations are Instrumental (options include Bassoon, Cello, Clarinet, Classical Guitar, Double Bass, Euphonium, Flute, French Horn, Harp, Harpsichord, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba, Viola, and Violin), Piano, and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are MUST 3696 and MUST 3796.

Bachelor of Music in Music History

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Year 1		Credit Hours
Fall		
MUSC 1405	Secondary Piano for Music Majors ¹	1
Choral/Instrumental Ensemble		1
MUST 1711	Theory I	4
ENG 0802	Analytical Reading and Writing	4
or ENG 0812	or Analytical Reading and Writing: ESL	
or ENG 0902	or Honors Writing About Literature	
GenEd Quantitative Literacy Course ^{GQ}		4
Select one of the following:		2
MUSC 1201	Voice Concentration	
MUSC 1401	Piano Concentration	
MUSC 1501	Instrumental Concentration	
Credit Hours		16

Spring		
MUSC 1406	Secondary Piano for Music Majors ¹	1
Choral/Instrumental Ensemble		1
MUST 1712	Theory II	4
GenEd Breadth Course		3
GenEd Breadth Course		3
GenEd Breadth Course		3
Select one of the following:		2
MUSC 1202	Voice Concentration	
MUSC 1402	Piano Concentration	
MUSC 1502	Instrumental Concentration	
Credit Hours		17
Year 2		
Fall		
MUSC 2405	Secondary Piano for Music Majors ¹	1
Choral/Instrumental Ensemble		1
MUST 2711	Theory III	4
MUST 2703	Music in History	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
GenEd Breadth Course		3
Select one of the following:		2
MUSC 2201	Voice Concentration	
MUSC 2401	Piano Concentration	
MUSC 2501	Instrumental Concentration	
Credit Hours		17
Spring		
MUSC 2406	Secondary Piano for Music Majors ¹	1
Choral/Instrumental Ensemble		1
MUST 2712	Theory IV	4
MUST 2704	Music in History	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
GenEd Breadth Course		3
Select one of the following:		2
MUSC 2202	Voice Concentration	
MUSC 2402	Piano Concentration	
MUSC 2502	Instrumental Concentration	
Credit Hours		17
Year 3		
Fall		
MUST 4701	Music in Global Cultures	3
MUST 4717	Counterpoint	3
MUST 3696	Music in History	3
Foreign Language I		4
GenEd Breadth Course		3
Credit Hours		16
Spring		
MUST 3796	Music in History	3
MUST 4718	Analysis	3
Music Elective (select from MUSC, MUED and MUST 1000-4999) ²		3
Foreign Language II		4

Free Elective ³		3
Credit Hours		16
Year 4		
Fall		
Music History Elective		3
MUSC 2323	Basic Conducting	1
MUST 4799	Music History: Final Project	3
Foreign Language III		3
Free Elective		3
Credit Hours		13
Spring		
Music History Elective		3
Foreign Language IV		3
Non-Canonical Elective - Select one of the following:		3
MUST 1762	Music in Movie Epics	
MUST 2114	History of Jazz	
MUST 3196	History of Pop	
MUST 4715	World Music	
Free Elective		3
Credit Hours		12
Total Credit Hours		124

1

Piano concentration students should not take the 4 credits of Secondary Piano shown in this Academic Plan. They should instead take 4 additional credits of free electives.

2

MUST 3741 Keyboard Harmony or MUST 3713 Orchestration are recommended.

3

Art History strongly recommended.

Music History Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Music History** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

Students must complete the online application and other requirements that may be listed below. No audition or portfolio is required.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-MHIS-CERT

Learn more about the undergraduate certificate in Music History.

Requirements

The Certificate in Music History will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
MUST 3770	Topics in Music Theory (take 2 times for 2 credits each)	4
MUST 2703	Music in History	3
MUST 2704	Music in History	3
MUST 3696	Music in History	3
Total Credit Hours		13

Music Minor

Overview

The **Minor in Music**, offered by the Department of Music Studies, is a 20-credit hour program for undergraduate students who are not music majors, but wish to enjoy music in the Boyer College of Music and Dance as part of their Temple experience. Students complete 5 credits in music theory for non-majors and then may select from an array of courses in music theory, music history, jazz, technology, private lessons or performance ensembles.

Special Admissions Requirements

Applicants must have completed one semester of coursework at Temple University before official acceptance can occur.

Campus Location: Main

Contact Information

Edward Flanagan, Senior Associate Dean for Student Affairs

20

Music Performance Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

The **Certificate in Music Performance** is open to Music Technology majors only. For acceptance into this certificate program, applicants must audition for lessons at the Boyer College concentration level. These lessons, once approved, need to be completed in four consecutive semesters. Additionally, students must be enrolled in one required ensemble in each semester in which lessons are received.

Students are accepted to one concentration (Voice, Piano or Instrumental), which cannot be changed. Once begun, lessons and ensembles related to the concentration choice must be completed in four consecutive semesters. All lessons require an end-of-semester jury. The ensembles in this certificate are in addition to any required by the Bachelor of Science in Music Technology program and cannot replace any existing ensemble requirements.

The program's required courses are intended to be completed concurrently with baccalaureate coursework. The program must be completed within four consecutive semesters. There are no exit requirements for the certificate. Certificates cannot be awarded either as a stand-alone program of study or after completion of the bachelor's degree. Certificate completion will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree and will be acknowledged on the official transcript provided that a student successfully completed the program with a grade of C- or better in each course.

The tuition for this certificate program is based on Boyer College tuition rates, degree program and level, course load and residency status.

Students must complete the online application and other requirements as listed below. Boyer College Music Technology major undergraduates in good standing who have completed 15 credits at Temple University may apply.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-MPER-CERT

Learn more about the undergraduate certificate in Music Performance.

Requirements

The Certificate in Music Performance will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
Select one of the following: ¹		2
MUSC 1201	Voice Concentration	
MUSC 1401	Piano Concentration	
MUSC 1501	Instrumental Concentration	
Select one of the following: ¹		2
MUSC 1202	Voice Concentration	
MUSC 1402	Piano Concentration	
MUSC 1502	Instrumental Concentration	
Select one of the following: ¹		2
MUSC 2201	Voice Concentration	
MUSC 2401	Piano Concentration	
MUSC 2501	Instrumental Concentration	
Select one of the following: ¹		2
MUSC 2202	Voice Concentration	
MUSC 2402	Piano Concentration	
MUSC 2502	Instrumental Concentration	
Select one of the following:		4
MUSC 1428 & MUSC 1429	Accompanying and Piano Ensemble and Accompanying and Piano Ensemble ²	
MUSC 3100	Small Jazz Ensemble ³	
or MUSC 3120	Vocal Jazz Ensemble	
or MUSC 3300	Choral Ensemble	
or MUSC 4500	Instrumental Ensemble	
Total Credit Hours		12

¹

All four courses must be selected in the same concentration (Voice, Piano or Instrumental).

²

Both courses must be taken two times for a total of 4 credits.

³

One of these courses selected according to the chosen concentration must be taken four times for a total of 4 credits.

Music Technology BS

Overview

The **Bachelor of Science in Music Technology** and its optional concentration in Interdisciplinary Studies (p. 431) are offered by the Department of Music Studies.

Music technology fuses musical skill and technological knowledge to create works, or to pursue employment or graduate education in an extremely wide variety of areas. Some of these include music production, performance, composition, recording and editing, software and hardware development, systems design, equipment installation, video gaming, music editing and publishing, as well as numerous audio fields such as recording and editing concerts, events, films, television and video games, among others. It is not an exaggeration to state that virtually every area of the music industry has been influenced by technology.

The Bachelor of Science degree in Music Technology offers a sequence of courses in general education, music, music performance, music studies, recording technology, music technology, mathematics and computer science. Students who complete the program will be prepared for entry level jobs in the field or to pursue graduate education in music technology at top graduate programs nationally.

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Science in Music Technology is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 credits.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are MUST 3196 and either MUST 3696 or MUST 3796.

Music Technology BS with Interdisciplinary Studies Concentration

Overview

The **Bachelor of Science in Music Technology with an optional concentration in Interdisciplinary Studies** is offered by the Department of Music Studies.

Music Technology fuses musical skill and technological knowledge to create works, or to pursue employment or graduate education in an extremely wide variety of areas. Some of these include music production, performance, composition, recording and editing, software and hardware development, systems design, equipment installation, video gaming, music editing and publishing, as well as numerous audio fields such as recording and editing concerts, events, films, television and video games, among others. It is not an exaggeration to state that virtually every area of the music industry has been influenced by technology.

The Bachelor of Science degree in Music Technology with **optional concentration in Interdisciplinary Studies** offers a sequence of courses in general education, music, music performance, music studies, recording technology and music technology, along with a generous number of electives to provide flexibility within the curriculum to shape the program in ways that complement individual professional interests within the field. Students who complete the program will be prepared for entry level jobs in the field or to pursue graduate education in music technology at top graduate programs nationally.

1

Pending a successful audition for the respective department, students may select any combination of the following courses for a total of 2 credits: Small Jazz Ensemble (MUSC 3100), Large Jazz Ensemble (MUSC 3110), Choral Ensemble (MUSC 3300), Marching Band (MUSC 3510), Concert Choir (MUSC 4300), Instrumental Ensemble (MUSC 4500, MUSC 4510, MUSC 4520), Latin American Ensemble (MUST 4700), Early Music Ensemble (MUST 4710). In subsequent semesters, up to 3 additional credits of ensemble (counted as General Studies Electives or Music and Performance Electives) may be taken with re-audition and Departmental permission for a grand total of up to 5 credits of ensemble at 1 credit each.

2

A student placing into MATH 0701 is required to complete successfully MATH 0701 before enrolling in a GenEd Quantitative Literacy (GQ) course or GenEd Science & Technology (GS1, GS2) course.

3

Electives may be selected in any academic discipline.

4

Any permissible Boyer course numbered 1000 – 4999 in departments Music (MUSC), Music Education (MUED), or Music Studies (MUST), including the following Music Technology elective courses: Live Recording and Mixing for Broadcast (MUST 4706), MIDI (MUST 4719), Computer Music Studio (MUST 4721), Printing Music Scores and Parts (MUST 4724), Electronic Music Composition: Practice, History, Theory (MUST 4727), Programming in Max (MUST 4732), Special Topics Music Studies (MUST 4780) (Music Technology Topic), Music Industry Internship (MUST 4785), Music Industry Internship (MUST 4786)

Music Technology Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Music Technology** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

Students must complete the online application and other requirements that may be listed below. No audition or portfolio is required.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-MUTE-CERT

Learn more about the undergraduate certificate in Music Technology.

Requirements for non-Boyer Students

The Certificate in Music Technology will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the non-Boyer student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
FMA 1172	Introduction to Film and Video Analysis	3
MUST 4713	Sound Recording	3
MUST 4714	Sound Editing	3
MUST 4725	Advanced Audio Production	3
Total Credit Hours		12

Requirements for Boyer Students

The Certificate in Music Technology will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the Boyer student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
MUST 4713	Sound Recording	3
MUST 4714	Sound Editing	3
MUST 4762	Introduction to Music Technology for Non-Majors	3
Select one of the following:		3
MUST 3764	Scoring for Film and Digital Media	
MUST 3765	Scoring and Audio Design for Video Games	
MUST 4725	Advanced Audio Production	
MUST 4731	Arts Enterprise	
MUST 4732	Programming in Max	
Total Credit Hours		12

Music Theory (Jazz) Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Music Therapy BM

Overview

The **Bachelor of Music in Music Therapy** is offered by the Department of Music Education and Music Therapy. This program, fully approved by the American Music Therapy Association, is designed to prepare students for entry-level clinical positions in music therapy. Upon successful completion of the degree, graduates are eligible to take the national examination of the Certification Board for Music Therapists and thereby qualify for professional certification in the field.

Music Therapy is a **four-and-a-half-year** degree program, including post-academic clinical training. The Music Therapy clinical training continues one semester beyond the second semester of the senior year.

Students **must select one of the following concentrations:**

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion

- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Clinical Training

A total of 1200 hours of supervised clinical training is required prior to graduation. Refer to the program requirements (p. 439) for details.

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

Campus Location: Main

Program Code: BC-MTHE-BMUS

Licensure/Certification

Board Certification as a Music Therapist demonstrates that you have completed comprehensive competency testing based on your education and clinical training and that you have met an objective standard that ensures you are prepared to practice music therapy. Certification is required to practice as a music therapist in the following states: California, Connecticut, Georgia, Nevada, New Jersey, New York, North Dakota, Oklahoma, Oregon, Rhode Island, Utah, Virginia, and Wisconsin.

The Certification Board of Music Therapists administers an examination that students must pass in order to become certified. Temple University's Bachelor of Music in Music Therapy and Master of Music in Music Therapy programs, both accredited by the American Music Therapy Association (AMTA), meet the educational requirements to sit for the certification examination. Students must also complete a clinical internship following graduation before sitting for the certification examination.

Learn more about the Bachelor of Music in Music Therapy.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Music Therapy is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 130 credits. This major requires a concentration; the available concentrations are Bassoon, Cello, Clarinet, Classical Guitar, Double Bass, Euphonium, Flute, French Horn, Harp, Harpsichord, Oboe, Percussion, Piano, Saxophone, Trombone, Trumpet, Tuba, Viola, Violin, and Voice.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses for the major are MUST 3196, MUST 3696, and MUED 4696.

Clinical Training

A total of 1200 hours of supervised clinical training is required prior to graduation.

Students must be continually enrolled in MUED 4685 Music Therapy Clinical Internship for a total of 1000 hours. A student beginning an internship in Year 4 Spring will also need to register for this in the Year 4 Summer session and possibly Year 5 Fall; credits can be distributed across semesters differently but must total 6.

Music Therapy Grades

Grades below C in any music therapy course may not be applied toward degree requirements in music therapy. All students are permitted to repeat a course one time. Students who need to repeat a course a second time must obtain the approval of the dean/designee of their home school or college and be registered with assistance. Except as permitted by this policy, no students may repeat a course a third time.

Students who have exhausted course attempts for course(s) required for their major will be required to change majors.

Clinical Training

A total of 1200 hours of supervised clinical training is required prior to graduation.

Students must be continually enrolled in MUED 4685 Music Therapy Clinical Internship for a total of 1000 hours. A student beginning an internship in Year 4 Spring will also need to register for this in the Year 4 Summer session and possibly Year 5 Fall; credits can be distributed across semesters differently but must total 6.

Music Therapy Grades

Grades below C in any music therapy course may not be applied toward degree requirements in music therapy. All students are permitted to repeat a course one time. Students who need to repeat a course a second time must obtain the approval of the dean/designee of their home school or college and be registered with assistance. Except as permitted by this policy, no students may repeat a course a third time.

Students who have exhausted course attempts for course(s) required for their major will be required to change majors.

Orchestral Music Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing

these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Orchestral Music** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

In addition to the online application and other requirements listed below, students must also submit a video recording (DVD) of one movement of a solo work from standard classical repertoire.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-ORMU-CERT

Learn more about the undergraduate certificate in Orchestral Music.

Requirements

The Certificate in Orchestral Music will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
MUST 3770	Topics in Music Theory (take 2 times for 2 credits each)	4
MUSC 3551	Applied Lesson - Instrumental (take 2 times for 3 credits each)	6
MUSC 4500	Instrumental Ensemble (take 2 times for 1 credit each)	2
MUSC 4520	Ensemble (take 2 times for 1 credit each)	2
Total Credit Hours		14

Performance BM

Overview

The **Bachelor of Music in Performance** is offered by the Department of Instrumental Studies.

Students **must select one of the following concentrations:**

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass

- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

The following information pertains to all concentrations **except for** Classical Guitar, Harpsichord, Piano and Voice. Refer to the Classical Guitar (p. 458), Harpsichord (p. 464), Piano (p. 467) and Voice (p. 471) pages for their requirements.

The instrumental concentrations within the Performance Major center on intensive coaching and private study with a renowned faculty of teachers, many of whom are members of The Philadelphia Orchestra and other professional performing organizations. Opportunity to perform a vast repertoire abounds in the number and types of ensemble experiences available. The programs of study provide the training necessary to compete in the professional performance world.

Special Admissions Requirements

See Music Admissions information (p. 314) on the Boyer College of Music and Dance page.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

The Bachelor of Music in Performance with an Instrumental Concentration (options include Bassoon, Cello, Clarinet, Double Bass, Euphonium, Flute, French Horn, Harp, Oboe, Percussion, Saxophone, Trombone, Trumpet, Tuba, Viola, and Violin) is conferred upon a student by recommendation of the faculty and upon the satisfactory completion of a minimum of 124 credits.

University Requirements

- All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for the major are MUST 3696 and MUST 3796.

MUST 4722	Advanced Orchestration	2
MUST 4762	Introduction to Music Technology for Non-Majors	3

Double Bass performance majors must enroll for 8 credit hours of MUSC 4500 and 4 credit hours of any combination of MUSC 4510, MUSC 4520, and MUST 4710. It is suggested that MUST 4710 Early Music Ensemble be one of these credit hours. Instead of the other 4 credit hours of ensemble shown in the above Academic Plan, Double Bass majors must take 4 credit hours of music electives.

Saxophone performance majors may register for up to 4 credit hours of ensembles in MUSC 3110 with prior approval of the Instrumental Department chair and director of the Jazz program. The 2 credit hours of MUSC 4570 Orchestral Repertoire classes are to be replaced by music elective(s).

Performance BM with Classical Guitar Concentration

Overview

The **Bachelor of Music in Performance** is offered by the Department of Instrumental Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord

- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Classical Guitar Concentration

The following information pertains to the **Classical Guitar concentration**. Refer to the Harpsichord (p. 464), Piano, (p. 467) Voice (p. 471) and the other instruments (p. 450) pages for their requirements.

The instrumental concentrations within the Performance Major center on intensive coaching and private study with a renowned faculty of teachers, many of whom are members of The Philadelphia Orchestra and other professional performing organizations. Opportunity to perform a vast repertoire abounds in the number and types of ensemble experiences available. The programs of study provide the training necessary to compete in the professional performance world.

Special Admissions Requirements

See Music Admissions information (p. 314) on Boyer College of Music and Dance page.

Performance BM with Harpsichord Concentration

Overview

The **Bachelor of Music in Performance** is offered by the Department of Instrumental Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Harpsichord Concentration

The following information pertains to the **Harpsichord concentration**. Refer to the Classical Guitar (p. 458), Piano, (p. 467) Voice (p. 471) and the other instruments (p. 450) pages for their requirements.

The Harpsichord Concentration is administered by the Department of Keyboard Instruction.

The Department of Keyboard Instruction offers a variety of programs of study to meet the individual needs of potential solo artists, chamber musicians, accompanists and teachers, and provides a keyboard concentration for those majoring in music education, music therapy, music history, music theory, composition and jazz studies. Weekly private lessons are reinforced by regular performance classes, and a series of master classes taught by faculty members and guest artists focuses on special topics essential to the keyboard performer.

The Department of Keyboard Instruction emphasizes training for careers in performance and collaborative piano in both chamber music and opera coaching.

Special Admissions Requirements

See Music Admissions information (p. 314) on Boyer College of Music and Dance page.

Performance BM with Voice Concentration

Overview

The **Bachelor of Music in Performance** is offered by the Department of Instrumental Studies.

Students **must select one of the following concentrations**:

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

Voice Concentration

The following information pertains to the **Voice concentration**. Refer to the Classical Guitar (p. 458), Harpsichord (p. 464), Piano (p. 467) and the other instruments (p. 450) pages for their requirements.

The Voice concentration, which is administered by the Department of Vocal Arts, is for performance students who elect a concentration in Voice. The training, provided by the Vocal Arts Department, emphasizes vocal technique and repertoire in a challenging program of vocal development. Performance progress is closely guided through private lessons, participation in various Boyer College choirs, juries and recital performances. The program of study prepares singers for careers in concert and recital performance, opera and private teaching.

Special Admissions Requirements

See Music Admissions information (p. 314) on Boyer College of Music and Dance page.

Performing Arts Certificate

Overview

Undergraduate certificate programs in Performance (Performing Arts, Classical and Jazz, and Dance), Music Studies (Theory, History, Composition, and Jazz Studies), and Technology provide opportunities to experience the excitement of Center for the Performing and Cinematic Arts courses. Completing these certificate programs will culminate in significant music and dance knowledge and performance experience. Each of the certificate programs offers a coherent disciplinary context beyond that which is possible in random course election. Graded experiences will be recognized on the final transcript.

Undergraduate students interested in the **Certificate in Performing Arts** must be in good standing and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

Students must complete the online application and other requirements that may be listed below. No audition or portfolio is required.

Coursework may be completed in four semesters if the program permits. Most students should complete all requirements within six semesters. Accepted students may delay certain required coursework by one semester or take courses out of sequence only with Boyer College advisor approval.

There are no exit requirements, comprehensive exams, theses, or practica required. Grading will consist of standard letter grades awarded according to Boyer College and university policy for all coursework. The minimum grade for all coursework is C-. There will be no course auditing, pass/fail grades, or CR options. Evidence of student success will be indicated by courses completed and grades earned.

Admission

Applicants must complete an online application. Admission requires students to be in good standing, and have completed at least 15 credits at Temple University by the initial requested semester of certificate coursework.

All application materials must be submitted by November 30 for Spring semester matriculation and May 15 for Fall semester matriculation.

Only one program may be selected. There will be no concurrent multiple program admission.

Advising and course selection will occur after admission. A grade of C- or higher must be earned in all required courses to receive the certificate.

No certificate program will be recognized as stand-alone.

No certificate program will be available to any applicant after completion of the bachelor's degree.

Certificate completion will be acknowledged on the official transcript only at the time of the awarding of the bachelor's degree.

Campus Location: Main

Program Code: BC-PFAR-CERT

Learn more about the undergraduate certificate in Performing Arts.

Requirements

The Certificate in Performing Arts will be acknowledged on the official transcript at the time of the awarding of the bachelor's degree provided that the student successfully completes the following courses with a grade of C- or better in each course:

Code	Title	Credit Hours
THTR 1008	Poetry as Performance	3
Select one of the following:		3
FMA 1171	Media & Culture	
FMA 1172	Introduction to Film and Video Analysis

Theory BM

Overview

The **Bachelor of Music in Theory** is offered by the Department of Music Studies.

The Bachelor in Music in Theory program prepares its majors to be well-rounded practical musicians able to apply skills and knowledge to performance, composition, analysis, research and teaching.

Students **must select one of the following concentrations:**

- Bassoon
- Cello
- Clarinet
- Classical Guitar
- Double Bass
- Euphonium
- Flute
- French Horn
- Harp
- Harpsichord
- Oboe
- Percussion
- Piano
- Saxophone
- Trombone
- Trumpet
- Tuba
- Viola
- Violin
- Voice

School of Theater, Film and Media Arts

Overview

The School of Theater, Film and Media Arts is part of the Center for the Performing and Cinematic Arts at Temple University.

History

The School of Theater, Film and Media Arts, comprised of the Department of Theater and the Department of Film and Media Arts, was initially formed as the Division of Theater, Film and Media Arts (DTFMA) during the summer of 2012 as part of a university-wide academic realignment initiative. All of Temple's distinguished fine and performing arts schools and programs were aligned under a new administrative consortium, the Center for the Arts, linking DTFMA with the distinguished Boyer College of Music and Dance and the renowned Tyler School of Art.

Theater was initially organized as an extracurricular activity at Temple until 1931, when formal courses in the discipline were developed and offered, gaining full status as the Department of Theater in 1967.

Radio-Television became an instructional division in 1947, and extensive film offerings were added in 1967. That year, both Radio-Television-Film and Theater became part of a new School of Communications and Theater which also included Journalism, Advertising and Strategic Communication. The school was restructured in 1995 and Radio-Television-Film became two departments: the Department of Broadcast, Television and Mass Media (BTMM) and the Department of Film and Media Arts.

On July 1, 2012, as a part of the realignment, the School of Communications and Theater was renamed the School of Media and Communication and the Division of Theater, Film and Media Arts was created.

In October 2015, the Center for the Arts was renamed the Center for the Performing and Cinematic Arts and DTFMA was renamed the School of Theater, Film and Media Arts.

The School of Theater, Film and Media Arts houses two outstanding departments with professional and undergraduate degree programs historically ranked in the top tier nationally and internationally.

Department Information

The Department of Film and Media Arts is located in Annenberg Hall, which includes television and film production areas (studios and editing, graphics, and film labs) as well as extensive video and film editing areas, a 75-seat multimedia screening room, photographic labs, two news writing labs and smart classrooms. The Film and Media Arts department offers both the BFA and BA degrees, as well as a minor in Screen Studies. FMA faculty have received the Oscar, Emmy, Guggenheim, Rockefeller, NEA, Fulbright, Sundance and international film awards and are authors of some of the important texts in the field. The department also brings in guest media makers and visiting professors from diverse backgrounds for special lectures and workshops. Students may select elective courses from throughout the university, including in such areas as creative writing, theater and fine arts. A highly-recognized graduate program offers undergraduates numerous opportunities to work on advanced productions and participate in advanced research, exhibition and creative work in the field.

The Department of Theater is located in Tomlinson Hall, which features two theaters, as well as rehearsal rooms, costume, and scene shops. With both graduate and undergraduate programs, the Department of Theater offers countless opportunities for creative and academic collaboration between all levels. These include the BA in Theater which features optional strong professional concentrations in Acting, Directing, and Design and Production, the BFA in Musical Theater, the BFA in Technical Production and Management, and an accelerated +1 program in Theater Education that culminates in a BA in Theater and a MEd in Secondary Education. In addition, Master of Fine Arts degrees are offered in Acting, Design, Directing, Playwriting, and Musical Theater Collaboration. The graduate program has distinguished itself as one of the foremost theater training and performance institutions in the nation, and as an important contributor to the Philadelphia theater landscape.

Special Programs

Internship Program

Although the requirements may vary, internships are available to junior and senior students. Internships are for academic credit and must involve professional activity related to the student's course of study. The internships must be approved by the administrator or faculty member charged with supervising internships.

Los Angeles Internship & Study Program

Offered by the Film and Media Arts Department, the Los Angeles Internship and Study Program is open to students from any major on both the upper-level undergraduate (63 credit hours completed) and graduate levels who have an interest in working within the Hollywood entertainment industry. This program is offered as an 8-credit summer program that runs from May through the end of July. It includes an on-site internship and ten weeks of concurrent coursework. Additionally, the program is offered in the fall and spring semesters as a full-time program of study combined with an internship component. For more information, please contact Alison Crouse at 215-204-5910.

Academic Policies and Regulations

Please see the Undergraduate Academic Policies (p. 1835) section of this *Bulletin*. Students are responsible for complying with all university-wide academic policies as well as those of the School of Theater, Film and Media Arts in the Center for the Performing and Cinematic Arts that appear below.

Academic Standing

A matriculated undergraduate student in the university is in Academic Good Standing if enrolled in a baccalaureate degree-seeking program.

Please see the University's policy on Academic Standing (p. 1840) for detailed information about Academic Warning, Academic Probation, and Academic Dismissal.

Credits Not Applied Toward the Degree

Credits earned in the following courses are not applied toward a degree in the Center for the Performing and Cinematic Arts' School of Theater, Film & Media Arts: lower-level courses in Military Science, Topical Studies, RCC, ELECT, and Mathematics 0015.

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 1849) policy for specific GPA and credit-hour requirements.

Re-enrollment

Students returning to Temple University after an absence of one semester (unless an approved Leave of Absence application was filed prior to the leave) must use the *Undergraduate Bulletin* in effect at the time of readmission or any subsequent *Undergraduate Bulletin*. Credits more than 10 years old may not be applied toward a degree. For the re-enrollment form, please visit: <https://admissions.temple.edu/apply/request-re-enroll>.

Transfer Students

Refer to the Undergraduate Admissions (p. 27) section of this *Bulletin* for general information on transferring courses to Temple. In addition to these criteria, each department will evaluate any credit to be transferred into a major. This evaluation generally is done at the first meeting with a faculty advisor during the first semester. The maximum number of credit hours allowed to transfer in the major are: 21 hours in Film and Media Arts and 20 hours in Theater.

Requirements for Graduation

The School of Theater, Film and Media Arts requires 124 credits to graduate; completion of the university General Education (GenEd) (p. 83) requirements; and completion of departmental requirements, including two writing-intensive courses in the major.

Minimum and maximum credit requirements within each major are listed with the departmental requirements.

Students who are planning to graduate must schedule an official graduation review with an academic advisor and complete the application for graduation one semester prior to the anticipated graduation date. Appointments may be made in the Center for the Performing and Cinematic Arts Academic Advising Office, Mitten Hall, Suite 200 W.

Program Descriptions

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.
2. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisites and Co-requisites Policy (p. 1860) in the university-wide Academic Policies section of this *Bulletin*.

Advising

Center for the Performing and Cinematic Arts Academic Advising
Mitten Hall, Suite 200 W
1913 N. Broad Street
Philadelphia, PA 19122
215-204-2227

Students can schedule appointments through the "Appointment System" box in Student Tools on TUPortal.

Academic advisors attempt to avoid errors when advising students about their program requirements, but schools and colleges cannot assume liability for errors in advising. Therefore, students must assume primary responsibility for knowing the requirements for their degree and for acquiring current information about their academic status.

Most students will be eligible to register for classes online via Self Service Banner through the TUportal. All students should meet with an advisor prior to their eligible registration period.

Students preparing to graduate must confer with an academic advisor to ensure degree completion. It is strongly recommended that students meet with an advisor in their junior year to complete a graduation review.

Faculty Advising and Mentoring

Students in Theater and Film and Media Arts are advised by professional academic advisors and faculty advisors. Students make advising appointments in the Center for the Performing and Cinematic Arts Academic Advising Office located on the second floor of Mitten Hall, Suite 200 W. Consult the Directors of Undergraduate Affairs in Film and Media Arts or Theater for assignment to the appropriate advisor.

Faculty

Mounia Akl, Assistant Professor of Instruction, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Columbia University.

Nora Alter, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; PhD, University of Pennsylvania.

Warren F. Bass, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Columbia University.

Chris Cagle, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; PhD, Brown University.

Marie Anne Chiment, Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, New York University Tisch School of the Arts.

Roderick L. Coover, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; PhD, University of Chicago.

Peter P. d'Agostino, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MA, San Francisco State University.

Neal Dhand, Assistant Professor of Instruction, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Rochester Institute of Technology.

Sarah Drury, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MA, New York University Tisch School of the Arts.

Fred M. Duer, Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, Ohio University.

LeAnn Erickson, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, University of Iowa.

Marcus Giamatti, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, Yale University.

Lindsay Goss, Assistant Professor, Department of Theater, School of Theater, Film and Media Arts; PhD, Brown University.

Steven Gross, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; PhD, Yale University.

David Ingram, Associate Professor of Instruction, Department of Theater, School of Theater, Film and Media Arts; MFA, New York University Tisch School of the Arts.

Lynne Innerst, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, University of Southern California.

Melanie Julian, Associate Professor of Practice, Department of Theater, School of Theater, Film and Media Arts; MFA, Point Park University.

Michael J. Kuetemeyer, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Temple University.

Andrew Laine, Associate Professor of Practice, Department of Theater, School of Theater, Film and Media Arts; MFA, University of Texas at Austin.

King Lu, Assistant Professor of Instruction, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Columbia University.

Brandon McShaffrey, Assistant Professor of Instruction, Department of Theater, School of Theater, Film and Media Arts; MFA, Temple University.

Matthew Miller, Professor of Practice, Department of Theater, School of Theater, Film and Media Arts; MFA, University of North Carolina at Chapel Hill.

Kartik Nair, Assistant Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; PhD, New York University.

Jason Norris, Instructor, Department of Theater, School of Theater, Film and Media Arts; MFA, University of Texas at Austin.

Amy R. Olk, Assistant Professor of Instruction, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Temple University.

Chet Pancake, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, School of the Art Institute of Chicago.

David A. Parry, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MS, Massachusetts Institute of Technology.

Louis J. Pepe, Associate Professor of Instruction, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, Temple University.

Peter R. Reynolds, Associate Professor of Practice, Department of Theater, School of Theater, Film and Media Arts; MFA, Temple University.

Amina S. Robinson, Assistant Professor of Instruction, Department of Theater, School of Theater, Film and Media Arts; MFA, Temple University.

Donna Snow, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, American Conservatory Theater.

Jennifer Stafford, Assistant Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, New York University Tisch School of the Arts.

Elisabeth Subrin, Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, School of the Art Institute of Chicago.

Rea Tajiri, Associate Professor, Department of Film and Media Arts, School of Theater, Film and Media Arts; MFA, California Institute of the Arts.

Douglas C. Wager, Professor, Department of Theater, School of Theater, Film and Media Arts; MFA, Boston University.

Kimmika Williams-Witherspoon, Associate Professor, Department of Theater, School of Theater, Film and Media Arts; PhD, Temple University.

Ashley S. Young, Instructor, Department of Film and Media Arts, School of Theater, Film and Media Arts; PhD, University of Southern California.

Acting Certificate

Overview

The **Certificate in Acting**, offered by the Department of Theater, allows undergraduates from other disciplines to pursue their interest in acting. For myriad reasons, interested undergraduates pursue a major outside of Theater and the performing arts, but their passion for acting remains from experiences in middle school and high school productions, clubs, camps and childhood. The Certificate in Acting allows a student to continue acting training with professional actors and faculty from the Department of Theater at Temple University and the rich theatrical community of Philadelphia. Skills acquired from the Certificate in Acting complement requisite expertise in most professions. Confidence in public speaking and presentation, creativity, collaboration, professionalism and empathy are just some of the qualities enhanced through the study of acting.

Theater offers the undergraduate Certificate in Acting on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Campus Location: Main

Program Code: CA-ACTG-CERT

Contact Information

Students interested in declaring this certificate in the Department of Theater can do so by contacting a TFMA advisor for next steps.

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Melanie Julian (melanie.julian@temple.edu, 215-204-1324). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Learn more about the undergraduate certificate in Acting.

Requirements

A grade of C- or higher must be earned in all required courses.

Code	Title	Credit Hours
THTR 1211	Fundamentals of Acting	3
Select one of the following:		3
THTR 2241	Basic Movement	
THTR 2251	Dance for the Actor

Entertainment Industry Studies Certificate

Overview

The **Certificate in Entertainment Industry Studies**, offered by the Department of Film and Media Arts, offers students both an overview of and an internship in the Los Angeles Entertainment Industries, as well as two introductory film courses in Philadelphia. Students will gain first-hand entertainment industry experience in addition to two hands-on filmmaking or film studies courses in the Film and Media Arts program. The certificate requires four courses, two of which must be taken in the Los Angeles Study Away Program.

FMA students are not eligible for this certificate.

Campus Location: Main

Program Code: CA-EIS-CERT

Contact Information

TFMA Academic Advising
Mitten Hall, Suite 200 West
cpcaadvising@temple.edu

Requirements

Code	Title	Credit Hours
Students take the following two courses in the Film and Media Arts Summer Los Angeles Study Away program (they must apply to the program):		
FMA 3085	Internship	4
FMA 3770	Topics in Film Study (Entertainment Industry Perspectives)	4
Students take two of the following courses on Main Campus:		6-8
FMA 1141	Film, Video and Interactive Foundations I	
FMA 1142	Film, Video and Interactive Foundations II ¹	
FMA 1171	Media & Culture	
FMA 1172	Introduction to Film and Video Analysis	
Total Credit Hours		14-16

1

Students must earn a 'C' in FMA 1141 in order to enroll in FMA 1142.

Students may take the two out of the four courses on Main Campus at anytime.

Students may only attend the Film and Media Arts Summer Los Angeles Study Away program after they have completed 60 credits. Information about the Film and Media Arts Summer Los Angeles Study Away program is available at <https://tfma.temple.edu/study-away/la>.

Film and Media Arts BA

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Arts in Film and Media Arts** is designed for students who wish to have a more general approach to the major. After completing the FMA core, students must take one production or writing course in either Filmmaking, Videography, Experimental Video or Screenwriting, along with one 2000-level or higher studies course. Students then design their own program with approval of their advisors, choosing a range of middle- and upper-level courses that complete a balanced approach to media study and production or a self directed emphasis in camera, lighting, sound, animation, directing, writing, producing or new media studies or production. The program requires at least one middle-level writing-intensive course, one advanced writing-intensive course, one advanced studies course and one advanced course in studies or production.

Campus Location: Main

Program Code: CA-FMA-BA

To Apply for a BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BFA application to the department, and provide a portfolio. The BFA application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses or who have only completed five of the six courses may petition the department for admission to one of the BFA concentrations. (See concentration faculty advisor.) Students who were not admitted to one of the BFA concentrations can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three upper-level BA concentrations.

To Apply for a BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BA with Concentration application to the department, and provide a portfolio. The BA with Concentration application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. If a student has less than an average of 3.0 in these courses, the student may petition the department for admission into one of the three upper-level concentrations or choose to remain in their initial program—either the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies.

Transfer Students Applying to the BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting, or the BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

All internal and external transfer students who have transferred no equivalent FMA courses may apply to the BFA or the BA with an upper-level concentration in their second year as a Film and Media Arts student, provided they have completed all application requirements and a creative portfolio. Transfer students who have courses equivalent to the FMA core will be evaluated on a case-by-case basis and may be able to apply for the BFA or the BA with an upper-level concentration in their first year as a Film and Media Arts student. Please see advisor for a long-term academic plan. All transfer students should be aware that completing either the BFA or the BA with an upper-level concentration may extend their time at Temple.

Exceptional cases for direct admission to the BFA or BA with upper-level concentrations will be evaluated on a case-by-case basis by the Concentration Faculty Advisor.

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood Head Start*, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Special Considerations for Directing and Screenwriting BFA Students

Because it is a more structured curriculum than that of the other Film and Media Arts sequences, students in the BFA in FMA's concentrations in Directing and Screenwriting who wish to participate in the Los Angeles Program must carefully plan ahead. They should meet with the BFA Director

well before the semester they plan to attend the Los Angeles Program. BFA in FMA students in the Directing and Screenwriting concentrations have the following options:

- **Option 1** is open to BFA students in the **Directing and Screenwriting concentrations**. They may attend the Los Angeles Program during the summer semester after their junior or senior years. To reduce summer cost, students may earn four of the eight hours normally required for the summer semester by completing an online course, FMA 2670 with the topic *Hollywood Head Start*, during the fall or spring semesters. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.
- **Option 2** is open to BFA students in the **Directing concentration**. These students may seek permission from the Director to attend the Los Angeles Program during the spring of their junior year. They must 1) find a Los Angeles internship that will replace the normally required FMA 3241 BFA Junior Directing Projects, 2) demonstrate from their performance in prior BFA courses that they can complete online the required FMA 3343 Screenwriting II, and 3) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.
- **Option 3** is open to BFA students in the **Screenwriting concentration**. These students may seek permission from the BFA Director to attend the Los Angeles Program during the spring of their junior year, or the fall or spring of their senior year. They must 1) demonstrate from their performance in prior BFA courses that they can complete online the required FMA 3343 Screenwriting II, and 2) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Contact Information

Chet Pancake, Department Chair
Annenberg Hall, Room 14B
2020 N. 13th Street
Philadelphia, PA 19122
tue89498@temple.edu

Learn more about the Bachelor of Arts in Film and Media Arts.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Bachelor of Arts in Film and Media Arts

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 121 credit hours. Students must complete:

1. University requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. Students must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count at least 42 FMA credits and a maximum of 66 FMA credits toward the 121 credit hours required for the degree.

Meeting 42 Credit Requirement

The following represents requirements for completing the BA in Film and Media Arts. Because some of these courses are variable credits, they may not add up to the 42 credits required for the degree. In that case, students must take additional FMA electives at the 2000+ level to reach the required 42 credits.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3

Major Requirements

Code	Title	Credit Hours
Select one of the following:		4
FMA 2241	Filmmaking	
FMA 2242	Videography	
FMA 2451	Experimental Video and Multi-Media	
FMA 2396	Screenwriting I ¹	
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
Two FMA 2000+ level Studies or Production Electives ¹		6-8
FMA 3000+ Writing-Intensive Elective (WI)		4
FMA 3000+ level Studies Elective ²		3-4
FMA 3000+ level Production or Studies Elective ²		3-4
Total FMA Credit Hours		42

¹
If FMA 2396 is not taken, then one of the 2000+ Studies or Production electives must be Writing Intensive.

²
For which the student has completed the prerequisites.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Arts in Film and Media Arts

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Year 1		Credit Hours
Fall		
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1171	Media & Culture	3
ENG 0802 or ENG 0812 or ENG 0902	Analytical Reading and Writing or Analytical Reading and Writing: ESL or Honors Writing About Literature	4
GenEd Quantitative Literacy Course ^{GQ}		4
Credit Hours		15
Spring		
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1172	Introduction to Film and Video Analysis	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
GenEd Breadth Course		3
Elective		3
Credit Hours		16

Year 2**Fall**

Select one of the following: 3-4

FMA 1451	Survey of New Media
FMA 2675	Film History I (1895-1950)
FMA 2676	Film History II (1950-Present)
FMA 2678	History of Experimental Film and Video Art

Select one of the following: 4

FMA 2241	Filmmaking	
FMA 2242	Videography	
FMA 2451	Experimental Video and Multi-Media	
FMA 2396	Screenwriting I	
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3

Film and Media Arts BA with Cinematography Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Arts in Film and Media Arts with an optional Concentration in Cinematography** is a liberal arts degree that prepares students to enter graduate film programs or pursue professional careers in the film and television production with a focus on Cinematography. Students will complete advanced work in Cinematography in a two-semester master class capstone.

Students interested in the Cinematography Concentration must have the following courses completed by the end of their sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3
FMA 2241	Filmmaking	4
FMA 2242	Videography	4

Campus Location: Main

Program Code: CA-FMA-BA

To Apply for a BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BA with Concentration application to the department, and provide a portfolio. The BA with Concentration application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. If a student has less than an average of 3.0 in these courses, the student may petition the department for admission into one of the three upper-level concentrations or choose to remain in their initial program—either the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies.

Transfer Students Applying to the BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting, or the BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post-Production

All internal and external transfer students who have transferred no equivalent FMA courses may apply to the BFA or the BA with an upper-level concentration in their second year as a Film and Media Arts student, provided they have completed all application requirements and a creative portfolio. Transfer students who have courses equivalent to the FMA core will be evaluated on a case-by-case basis and may be able to apply for the BFA or the BA with an upper-level concentration in their first year as a Film and Media Arts student. Please see advisor for a long-term academic plan. All transfer students should be aware that completing either the BFA or the BA with an upper-level concentration may extend their time at Temple.

Exceptional cases for direct admission to the BFA or BA with upper-level concentrations will be evaluated on a case-by-case basis by the Concentration Faculty Advisor.

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood*

Head Start, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Bachelor of Arts in Film and Media Arts with Concentration in Cinematography

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Cinematography by recommendation of the faculty and upon satisfactory completion of a minimum of 120 credit hours. Students must complete:

- University requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
- No more than 21 FMA credits can be transferred to the major.
- A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
- Students may take up to 8 internship credits in Film and Media Arts. An LA internship may be taken in lieu of FMA 4246 Cinematography Master Class II in the final spring semester, although the recommended time for those who intend to go to Los Angeles would be summer following the spring semester of the junior or senior year.
- Students may count a maximum of 66 FMA credit hours toward the 120 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Code	Title	Credit Hours
FMA 2241	Filmmaking	4
FMA 2242	Videography	4
Select one of the following:		4
FMA 2551	Editing Film and Video	
FMA 2396	Screenwriting I (WI) ¹	
Select one of the following:		3-4
THTR 2512	Lighting Design I	
THTR 2431	Lighting and Sound Technology	

FMA 4341	Screen Directing	
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
FMA 2000+ Free Elective ¹		3-4
FMA 3000+ Writing Intensive Elective (WI)		4
FMA 3244	Lighting for Film and Video	4
Select one of the following:		4
FMA 3000+ Major Elective ²		
FMA 3246	Documentary Workshop I	
FMA 2674	History of Photography	
FMA 3085	Internship	
FMA 2244	Still Photography for Filmmakers	
FMA 3473	Moving Camera	4
FMA 4245	Cinematography Master Class I	4
FMA 4246	Cinematography Master Class II ³	4
Total FMA Credit Hours		59-62

1

If FMA 2396 is not taken, then free elective must be Writing Intensive.

2

It is strongly recommended that students complete FMA 3245 in the spring of their junior year.

3

Students can participate in the LA Internship Program in lieu of a second semester of master class.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Bachelor of Arts in Film and Media Arts with Concentration in Cinematography

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Year 1		Credit Hours
Fall		
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1171	Media & Culture	3
ENG 0802 or ENG 0812 or ENG 0902	Analytical Reading and Writing or Analytical Reading and Writing: ESL or Honors Writing About Literature	4
GenEd Quantitative Literacy Course ^{GQ}		4
Credit Hours		15
Spring		
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1172	Introduction to Film and Video Analysis	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
GenEd Breadth Course		3
Elective		3
Credit Hours		16
Year 2		
Fall		
FMA 2241	Filmmaking	4

IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
GenEd Breadth Course		3
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
Credit Hours		13-14
Spring		
FMA 2242	Videography	4
Elective		3
GenEd Breadth Course		3
GenEd Breadth Course		3
Select one of the following:		4
FMA 2551	Editing Film and Video ¹	
FMA 2396	Screenwriting I ¹	
Credit Hours		17
Year 3		
Fall		
FMA 3244	Lighting for Film and Video	4
Elective		3
GenEd Breadth Course		3
Select one of the following:		4
FMA 3000+ Major Elective		
FMA 3246	Documentary Workshop I	
FMA 2674	History of Photography	
FMA 2244	Still Photography for Filmmakers	
FMA 3085	Internship	
Credit Hours		14
Spring		
FMA 3473	Moving Camera	4
FMA 2000+ Writing Intensive Studies Elective ^{WI 2}		4
GenEd Breadth Course		3
GenEd Breadth Course		3
Select one of the following:		3-4
THTR 2512	Lighting Design I	
THTR 2431	Lighting and Sound Technology	
FMA 4341	Screen Directing	
Credit Hours		17-18
Year 4		
Fall		
FMA 4245	Cinematography Master Class I	4
FMA 3000+ Advanced Writing Intensive Course ^{WI}		4
Electives		6
Credit Hours		14
Spring		
FMA 4246	Cinematography Master Class II ³	4
FMA 2000+ Free Elective		4

Electives	6
Credit Hours	14
Total Credit Hours	120-122

1
FMA 2396 Screenwriting I counts as a Writing Intensive course. FMA 2551 Editing Film and Video does not.

2
Students who have already completed their 2000-level Writing Intensive requirement by taking FMA 2396 Screenwriting I may take any 2000+ FMA course as an elective. Students who have not completed their 2000-level Writing Intensive requirement must take a 2000-level Writing Intensive course.

3
Students can participate in the LA Internship Program in lieu of a second semester of master class.

Film and Media Arts BA with Post Production Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Arts in Film and Media Arts with an optional Concentration in Post Production** is a liberal arts degree that prepares students to enter graduate film programs or pursue professional careers in the film and television production with a focus on Post Production. Students will complete intermediate and advanced work in Post Production in a master class capstone experience.

Students interested in the Post Production Concentration must complete the following courses by the end of their sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3
FMA 2551	Editing Film and Video	4
One of the following:		4
FMA 2241	Filmmaking	
FMA 2242	Videography	

Campus Location: Main

Program Code: CA-FMA-BA

To Apply for a BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BA with Concentration application to the department, and provide a portfolio. The BA with Concentration application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Code	Title	Credit Hours
FMA 2771	Producing (required)	4
Select one of the following:		4
FMA 2241	Filmmaking	
FMA 2242	Videography	
Select one of the following:		4
FMA 2551	Editing Film and Video	
FMA 2396	Screenwriting I (recommended) ¹	
FMA 3771	Exhibition and Distribution of Independent Media (required)	3
FMA 3772	Fundraising for Independent Media (required)	3
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
FMA 2000+ Free Elective ¹		3-4
FMA 3000+ Writing Intensive Elective (WI)		4
FMA 3085	Internship (may be split over two or three different internships)	4-6
Select one of the following:		4
FMA 3242	Experimental Media Workshop	
FMA 3246	Documentary Workshop I	
FMA 3341	Scene Analysis for Writers and Directors	
FMA 4341	Screen Directing	
FMA 4251	Producing Master Class I (required in fall semester of senior year)	4
Select one of the following:		4
FMA 4252	Producing Master Class II (optional in spring semester of senior year)	
Attend LA Study Away		
Independent Study (to continue BFA/BA producing)		
Any other 4-credit FMA 3000+ level course		
Total FMA Credit Hours:		58-62

1

If FMA 2396 is not taken, then free elective must be Writing Intensive.

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your situation, your academic plan may look different.

Transfer students and juniors may be eligible to add this concentration - please check with an FMA advisor.

Bachelor of Arts in Film and Media Arts with Concentration in Producing

Suggested Plan for New Students Starting in the 2023-2024 Academic Year

Year 1		Credit Hours
Fall		
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1171	Media & Culture	3

Independent Study (to continue BFA/BA producing)		
Any other 4-credit FMA 3000+ level course		
Electives		12
Credit Hours		16
Total Credit Hours		120-122

1

Students who have already completed their 2000-level Writing Intensive requirement by taking FMA 2396 may take any 2000+ FMA course as an elective. Students who have not completed their 2000-level Writing Intensive requirement must take a 2000-level Writing Intensive course.

2

FMA 2396 Screenwriting I counts as a Writing Intensive course. FMA 2551 Editing Film and Video does not.

3

FMA 2771 may be taken fall or spring semester.

4

FMA 3771 Exhibition and Distribution of Independent Media and FMA 3772 Fundraising for Independent Media are both required, but may be taken in either fall or spring semester.

5

For transfer students or juniors, FMA 2771 Producing may be taken in conjunction with FMA 3771 or FMA 3772.

Film and Media Arts BA with Screen Studies Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies** is a liberal arts degree that allows students to study in depth the aesthetics, history and cultural significance of moving-image media. It draws upon the fields of cinema studies and humanities-based

disciplines of media studies and media arts theory, while also encouraging students to approach screen cultures from neighboring disciplines, such as cultural studies, area studies, art history or visual studies.

Students who are interested in declaring a concentration in Screen Studies may do so at any time; please see an academic advisor for assistance. We encourage students from all disciplines to consider Screen Studies as a double major.

Campus Location: Main

Program Code: CA-FMA-BA

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood Head Start*, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Bachelor of Arts in Film and Media Arts with Concentration in Screen Studies

Summary of Requirements for the Degree

The Bachelor of Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Screen Studies by recommendation of the faculty and upon satisfactory completion of a minimum of 121 credit hours. Students must complete:

1. University requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 8 internship credits in Film and Media Arts.
5. Students may count a maximum of 66 FMA credit hours toward the 121 credit hours required for the degree.
6. As noted below, students in the Screen Studies concentration must fulfill a foreign language requirement in addition to the FMA coursework and general university requirements.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
Select one of the following:		
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1144	Media Arts for Non-Production Majors	
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3
Total Credit Hours		10

Concentration Requirements

Foreign Language Requirement

Students must complete or test out of the first and second levels of a foreign language - these courses are numbered 1001 and 1002. Ideally this requirement should be completed in the first or second year.

Students are strongly encouraged to take the third level of a foreign language (numbered 1003 in French, German, Spanish, and Portuguese and numbered 2001 in all other foreign language subjects) and/or pursue a Study Abroad opportunity.

Required Courses

Courses required after completion of Screen Studies Foundation Courses:

Code	Title	Credit Hours
Select two history surveys:		7-8
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
Select one theory course:		4
FMA 3671	Theory and Practice of Media Culture	
FMA 3871	Film Theory	
Select two courses on film and culture:		7-8
FMA 3677	American Film	
FMA 3773	Contemporary Screen Studies	
FMA 4673	International Cinema	
FMA 4674	Anthropological Film/Media	
FMA 4675	Women Film/Video Artists	
FMA 3670	Topics in Media Culture	
Select one 2000+ FMA elective		3-4
Select two 3000+ writing-intensive courses:		8
FMA 3696	Writing-Intensive Seminar: Film Directors, Periods, and Genres	
FMA 4697	Advanced Film History	
FMA 4698	Writing-Intensive Study in Documentary Film	
Two semesters of Foreign Language ¹		8
Total Credit Hours		37-40

1

Students may place out of part or all of the language requirement with tested proficiency.

Film and Media Arts BFA with Directing Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Fine Arts in Film and Media Arts with an optional Concentration in Directing** is an intensive, professional degree that prepares students to enter graduate Film programs or pursue professional careers in screen directing. It focuses on both fictional and non-fictional directing. Studies will culminate in the direction of an advanced creative production in the BFA Directing Project Classes. Narrative and documentary students will take the same curriculum except as follows. Narrative students will choose two from a list of three courses: *Screen Directing*, *Screen Performance*, and *Scene Analysis*. Documentary students will choose two from a list of four courses: *Making Documentaries*, *Experimental Media Workshop*, *Anthropological Film/Media* or *Researching and Developing Documentaries*.

Students interested in applying for the Directing concentration must complete the following courses by the end of their sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3
FMA 2396	Screenwriting I	4
One of the following:		4
FMA 2241	Filmmaking	
FMA 2242	Videography	

Campus Location: Main

Program Code: CA-FMA-BFA

To Apply for a BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BFA application to the department, and provide a portfolio. The BFA application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses or who have only completed five of the six courses may petition the department for admission to one of the BFA concentrations. (See concentration faculty advisor.) Students who were not admitted to one of the BFA concentrations can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three upper-level BA concentrations.

Transfer Students Applying to the BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting, or the BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

All internal and external transfer students who have transferred no equivalent FMA courses may apply to the BFA or the BA with an upper-level concentration in their second year as a Film and Media Arts student, provided they have completed all application requirements and a creative portfolio. Transfer students who have courses equivalent to the FMA core will be evaluated on a case-by-case basis and may be able to apply for the BFA or the BA with an upper-level concentration in their first year as a Film and Media Arts student. Please see advisor for a long-term academic plan. All transfer students should be aware that completing either the BFA or the BA with an upper-level concentration may extend their time at Temple.

Exceptional cases for direct admission to the BFA or BA with upper-level concentrations will be evaluated on a case-by-case basis by the Concentration Faculty Advisor.

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood Head Start*, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Special Considerations for Directing and Screenwriting BFA Students

Because it is a more structured curriculum than that of the other Film and Media Arts sequences, students in the BFA in FMA's concentrations in Directing and Screenwriting who wish to participate in the Los Angeles Program must carefully plan ahead. They should meet with the BFA Director well before the semester they plan to attend the Los Angeles Program. BFA in FMA students in the Directing and Screenwriting concentrations have the following options:

- **Option 1** is open to BFA students in the **Directing and Screenwriting concentrations**. They may attend the Los Angeles Program during the summer semester after their junior or senior years. To reduce summer cost, students may earn four of the eight hours normally required for the summer semester by completing an online course, FMA 2670 with the topic *Hollywood Head Start*, during the fall or spring semesters. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.
- **Option 2** is open to BFA students in the **Directing concentration**. These students may seek permission from the Director to attend the Los Angeles Program during the spring of their junior year. They must 1) find a Los Angeles internship that will replace the normally required , 2) demonstrate from their performance in prior BFA courses that they can complete online the required , and 3) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.
- **Option 3** is open to BFA students in the **Screenwriting concentration**. These students may seek permission from the BFA Director to attend the Los Angeles Program during the spring of their junior year, or the fall or spring of their senior year. They must 1) demonstrate from their performance in prior BFA courses that they can complete online the required , and 2) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Bachelor of Fine Arts in Film and Media Studies with Concentration in Directing

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Directing by recommendation of the faculty and upon satisfactory completion of a minimum of 122 credit hours. Students must complete:

1. University Requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 122 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Code	Title	Credit Hours
FMA 2241	Filmmaking	4
FMA 2242	Videography	4
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
FMA 2396	Screenwriting I	4
FMA 2551	Editing Film and Video	4
FMA 2771	Producing	4

Film and Media Arts BFA with Media Arts Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Fine Arts in Film and Media Arts with an optional Concentration in Media Arts** is an intensive, professional degree that prepares students to enter graduate Media Arts programs or pursue artistic careers in the media arts or in the creative industries. Areas of study include video installation, video art, media projection design for performance/sculpture/public space, interactive narrative, location-based media and mobile augmented reality, sensor-based interactive media, 2D and 3D digital animation, video game theory/design/programming, web design and net art, social practice, and other forms of experimental media. Studies will culminate in the completion and exhibition of an advanced creative project in the capstone Media Arts Project Classes.

Students interested in the Media Arts concentration must complete the following courses by the end of their sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1451	Survey of New Media	3
FMA 2242	Videography	4
FMA 2451	Experimental Video and Multi-Media	4
One of the following:		4
FMA 2396	Screenwriting I	
FMA 4441	Physical Computing	
FMA 4451	Digital Animation, Compositing and Modeling	

Campus Location: Main

Program Code: CA-FMA-BFA

To Apply for a BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BFA application to the department, and provide a portfolio. The BFA application must be

submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses or who have only completed five of the six courses may petition the department for admission to one of the BFA concentrations. (See concentration faculty advisor.) Students who were not admitted to one of the BFA concentrations can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three upper-level BA concentrations.

Transfer Students Applying to the BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting, or the BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

All internal and external transfer students who have transferred no equivalent FMA courses may apply to the BFA or the BA with an upper-level concentration in their second year as a Film and Media Arts student, provided they have completed all application requirements and a creative portfolio. Transfer students who have courses equivalent to the FMA core will be evaluated on a case-by-case basis and may be able to apply for the BFA or the BA with an upper-level concentration in their first year as a Film and Media Arts student. Please see advisor for a long-term academic plan. All transfer students should be aware that completing either the BFA or the BA with an upper-level concentration may extend their time at Temple.

Exceptional cases for direct admission to the BFA or BA with upper-level concentrations will be evaluated on a case-by-case basis by the Concentration Faculty Advisor.

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood Head Start*, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Learn more about the Bachelor of Fine Arts in Film and Media Arts.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Bachelor of Fine Arts in Film and Media Arts with Concentration in Media Arts

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Media Arts by recommendation of the faculty and upon satisfactory completion of a minimum of 120 credit hours. Students must complete:

1. University Requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 8 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 120 credit hours required for the degree.

FMA Foundation Courses

Students seeking to enter the BFA with a Concentration in Media Arts will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1451	Survey of New Media	3

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Code	Title	Credit Hours
FMA 2242	Videography	4
FMA 3453	Interdisciplinary Media Studio	4
Select one of the following:		4
FMA 2452	Web Art & Design	
FMA 4441	Physical Computing	
FMA 4451	Digital Animation, Compositing and Modeling	
FMA 2451	Experimental Video and Multi-Media	4
FMA 2000+	Writing Intensive Elective (WI)	3-4
Select four of the following:		16
FMA 4248	Introduction to 3D: Modeling	
FMA 4249	Introduction to 3D: Animation	
FMA 2243	Audio: Production and Aesthetics	
FMA 4441	Physical Computing	
FMA 3242	Experimental Media Workshop	
FMA 4461	Interactive Narrative	
FMA 4462	Video Game Theory and Writing	
FMA 3452	New Technologies Lab	4
FMA	Studies Elective in Digital Arts	3-4
FMA	Media History Studies Elective	3
FMA 3000+	Advanced Writing Intensive Elective (WI)	4
FMA 4442	BFA Media Arts Project I (This course can be retaken)	4
FMA 4443	BFA Media Arts Project II (This course can be retaken)	4
Total FMA Credit Hours:		71-73

Film and Media Arts BFA with Screenwriting Concentration

Overview

The Department of Film and Media Arts offers both the Bachelor of Arts (BA) and Bachelor of Fine Arts (BFA) in Film and Media Arts (FMA). The FMA program focuses on the development of creative expression and technical skills in film, video, audio, digital media, and new technologies, and the theoretical understanding of media and culture. The program recognizes and explores the creative tension between individual expression and the social, political and economic forces that shape culture at large through the creation and study of film, video and new media.

Students are trained in developing meaningful content as well as craft, theory and practice. In learning independent and mainstream approaches to production and theory, graduates will be prepared to develop their own independent productions and to assume a creative role in the motion picture, television and media industries.

Initially students declare either the Bachelor of Arts in Film and Media Arts or the Bachelor of Arts in Film and Media Arts with an optional Concentration in Screen Studies. In the spring of their sophomore year (60 credits), students may apply to enter one of three upper-level optional BFA concentrations in Directing, Media Arts or Screenwriting or one of three upper-level optional BA concentrations in Cinematography, Producing or Post Production.

The **Bachelor of Fine Arts in Film and Media Arts with an optional Concentration in Screenwriting** is an intensive, professional degree that prepares students to enter graduate Film programs or pursue professional careers in Film and Serial writing. It focuses on narrative feature-film and serial writing. Studies will culminate in the writing and polishing of a feature screenplay or long-form television serial bible in the BFA Screenwriting Final Project Classes.

Students interested in applying for the Screenwriting concentration should complete the following classes by the end of their sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3
FMA 2396	Screenwriting I	4
One of the following:		4
FMA 2551	Editing Film and Video	
FMA 2771	Producing	

Campus Location: Main

Program Code: CA-FMA-BFA

To Apply for a BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting

To be considered, students need to complete 60 credits by the end of their sophomore year, earn an average of 3.0 in six foundational and intermediate courses (see each program page for details), submit a BFA application to the department, and provide a portfolio. The BFA application must be submitted to the department no later than the deadline announced on the Film and Media Studies Undergraduate Listserv in the spring semester in which the student reaches sixty credits. Students with less than an average of 3.0 in the six courses or who have only completed five of the six courses may petition the department for admission to one of the BFA concentrations. (See concentration faculty advisor.) Students who were not admitted to one of the BFA concentrations can continue in the BA in Film and Media Arts or the BA in Film and Media Arts with a Concentration in Screen Studies or apply for one of the three upper-level BA concentrations.

Transfer Students Applying to the BFA in Film and Media Arts with Concentrations in Directing, Media Arts or Screenwriting, or the BA in Film and Media Arts with Concentrations in Cinematography, Producing or Post Production

All internal and external transfer students who have transferred no equivalent FMA courses may apply to the BFA or the BA with an upper-level concentration in their second year as a Film and Media Arts student, provided they have completed all application requirements and a creative portfolio. Transfer students who have courses equivalent to the FMA core will be evaluated on a case-by-case basis and may be able to apply for the BFA or the BA with an upper-level concentration in their first year as a Film and Media Arts student. Please see advisor for a long-term academic plan. All transfer students should be aware that completing either the BFA or the BA with an upper-level concentration may extend their time at Temple.

Exceptional cases for direct admission to the BFA or BA with upper-level concentrations will be evaluated on a case-by-case basis by the Concentration Faculty Advisor.

Los Angeles Study-Away Program

The Department of Film and Media Arts offers a department-run study-away academic and internship program in Los Angeles every semester. Students may apply to attend in fall, spring and summer of their junior and senior years. They may complete an online course, FMA 2670 with the topic *Hollywood Head Start*, before attending the Los Angeles Program, which may reduce program costs. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.

Special Considerations for Directing and Screenwriting BFA Students

Because it is a more structured curriculum than that of the other Film and Media Arts sequences, students in the BFA in FMA's concentrations in Directing and Screenwriting who wish to participate in the Los Angeles Program must carefully plan ahead. They should meet with the BFA Director well before the semester they plan to attend the Los Angeles Program. BFA in FMA students in the Directing and Screenwriting concentrations have the following options:

- **Option 1** is open to BFA students in the **Directing and Screenwriting concentrations**. They may attend the Los Angeles Program during the summer semester after their junior or senior years. To reduce summer cost, students may earn four of the eight hours normally required for the summer semester by completing an online course, with the topic *Hollywood Head Start*, during the fall or spring semesters. Students interested in this option should apply to the Los Angeles Program through the Study-Away Office.
- **Option 2** is open to BFA students in the **Directing concentration**. These students may seek permission from the Director to attend the Los Angeles Program during the spring of their junior year. They must 1) find a Los Angeles internship that will replace the normally required , 2) demonstrate from their performance in prior BFA courses that they can complete online the required , and 3) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.
- **Option 3** is open to BFA students in the **Screenwriting concentration**. These students may seek permission from the BFA Director to attend the Los Angeles Program during the spring of their junior year, or the fall or spring of their senior year. They must 1) demonstrate from their performance in prior BFA courses that they can complete online the required , and 2) submit a plan to complete all otherwise required courses and credits to earn the BFA. These must be approved by the BFA Director.

Other Internships and Special Programs

FMA has an extensive internship program throughout the year in Philadelphia. Additionally, many organizations in New York, New Jersey, Delaware and Washington, D.C. provide regular opportunities for student professional internships. Temple University offers Temple-run special programs for study and research in Rome and Tokyo.

Learn more about the Bachelor of Fine Arts in Film and Media Arts.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Bachelor of Fine Arts in Film and Media Arts with Concentration in Screenwriting Summary of Requirements for the Degree

The Bachelor of Fine Arts degree may be conferred upon a student majoring in Film and Media Arts with a concentration in Screenwriting by recommendation of the faculty and upon satisfactory completion of a minimum of 122 credit hours. Students must complete:

1. University Requirements:
 - New students are required to complete the General Education (GenEd (p. 83)) curriculum.
 - All students must take a minimum of two writing-intensive courses specified by the major. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
2. No more than 21 FMA credits can be transferred to the major.
3. A student must earn a grade of "C-" or better in all Film and Media Arts courses that count towards the degree.
4. Students may take up to 6 internship credits in Film and Media Arts.
5. Students may count a maximum of 84 FMA credit hours toward the 122 credit hours required for the degree.

FMA Foundation Courses

Film and Media Arts students will complete the following courses by the end of the sophomore year:

Code	Title	Credit Hours
FMA 1141	Film, Video and Interactive Foundations I	4
FMA 1142	Film, Video and Interactive Foundations II	4
FMA 1171	Media & Culture	3
FMA 1172	Introduction to Film and Video Analysis	3

Concentration Requirements

Courses required after completion of FMA Foundation Courses:

Code	Title	Credit Hours
FMA 2241	Filmmaking	4
Select one of the following:		3
ENG 2004	Creative Writing: Fiction	
THTR 3801	Playwriting	
Select one of the following:		3-4
FMA 1451	Survey of New Media	
FMA 2675	Film History I (1895-1950)	
FMA 2676	Film History II (1950-Present)	
FMA 2678	History of Experimental Film and Video Art	
FMA 2396	Screenwriting I	4
FMA 2551	Editing Film and Video	4
FMA 2771	Producing	4
FMA 3000+	Studies Elective	3-4

Film Certificate

Overview

The **Certificate in Film**, offered by the Department of Film and Media Arts, introduces students to both the study and production of film. It is open to all Temple University undergraduates. The certificate requires four courses:

- FMA 1141 Film, Video and Interactive Foundations I, which is an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
- FMA 1142 Film, Video and Interactive Foundations II, which is a second-level production course that adds an increased emphasis on aesthetics, genres, writing, and project design;
- FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts; and,
- FMA 1172 Introduction to Film and Video Analysis, which introduces students to the conceptual and theoretical tools to analyze film, television and video.

All four courses count toward the Film and Media Arts major if students decide they want to continue on.

Students who complete the certificate will achieve the following learning outcomes:

- Experience translating creative, personal vision into audio and video projects;
- Consideration of personal work in the context of larger aesthetic theories;
- Initial experience in writing for film as well as working from a script;
- An overview of the role of film, video and media arts in the larger American culture; and,
- Experience analyzing film, television and video from a number of critical perspectives.

Assessment is based on creative audio, video and media arts projects; written scripts; written papers and examinations.

Students must first receive at least a C in FMA 1141 before enrolling in FMA 1142.

Media Arts Certificate

Overview

The **Certificate in Media Arts**, offered by the Department of Film and Media Arts, introduces students to both the study and production of media arts. It is open to all Temple University undergraduates. The certificate requires four courses:

- FMA 1141 Film, Video and Interactive Foundations I, which is an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
- FMA 1142 Film, Video and Interactive Foundations II, which is a second-level production course that adds an increased emphasis on aesthetics, genres, writing and project design;
- FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts; and,
- FMA 1451 Survey of New Media, which introduces students to the history, theory and aesthetics of digital and networked media arts.

All four courses count toward the Film and Media Arts major if students decide they want to continue on.

Students who complete the certificate will achieve the following learning outcomes:

- Experience translating creative, personal vision into audio, video and media arts projects;
- Consideration of personal work in the context of larger aesthetic theories;
- Initial experience in writing for film as well as working from a script;
- An overview of the role of film, video and media arts in the larger American culture; and,
- Critical perspectives on how new technologies have shaped our world, as well as aesthetic and interactional strategies for alternative ways of seeing, understanding and reconfiguring our world via digital media.

Assessment is based on creative audio, video and media arts projects; written scripts; written papers, blogs, and examinations.

Musical Theater BFA

Overview

Temple Theaters has established itself as one of the finest theater training programs in the nation. The faculty are accomplished professionals and scholars who generously offer their expertise and great passion for the craft and creation of theater. As a theater department in the culturally rich city of Philadelphia, Temple University's Department of Theater is immersed in and among some of the most important regional and national theaters in the country.

The **Bachelor of Fine Arts in Musical Theater** is focused on building well-rounded, versatile "triple-threat" artists who have developed the prerequisite skills and tools necessary for a life as a theater professional. The training provided in the degree ensures technical aptitude and an immersion into the genre, history and artistry of musical theater, while foundational theater courses guarantee a broad knowledge of theater. Furthermore, Temple's excellent general education requirements safeguard that BFA students receive a well-rounded, comprehensive experience to accompany their training in musical theater.

The Theater department boasts a half century of excellence in theater training, and BFA candidates also benefit from interdisciplinary training in the Boyer College of Music and Dance, as both are housed in the Center for the Performing and Cinematic Arts. Other course requirements include Acting I–III, Senior Cabaret Workshop, Fitzmaurice Voice Technique, Musical Theater: Dress Rehearsal, Ballet, Jazz, Tap, Musical Theater Dance Techniques, Music Theory, Ear Training, Choral Ensemble and Theater as a Profession.

Students have the chance to participate in productions including musicals, student-directed productions, dramas, showcases, singing ensembles, dance performances and workshops conducted by visiting artists. Recent on-campus productions include *Sunday in the Park with George*, *Side Show*, *Guys and Dolls*, *Merrily We Roll Along*, *Brigadoon*, *Hair*, *Oklahoma!*, *Spring Awakening*, *A Chorus Line*, *Rent*, *Urinetown*, and *Sweeney Todd*. Guest artists have included: Telly Leung, Shoshana Bean, Adam Gwon, Chad Beguelin, Barbara Cook, David Garrison, Jonathan Groff, Marc Kudisch, Baayork Lee, John McDaniel, Marcia Milgrom-Dodge, Melba Moore, Hugh Panaro (a Temple alum), Pasek and Paul, and Lauren Worsham.

The successful theater student graduates from our program with excellent communication and collaboration skills, a broad-based and substantive liberal arts background, developed abilities within the discipline of theater, a peerless commitment to achieving and appreciating artistic excellence, and a passion for life-long learning that will enable success in a wide variety of future endeavors. Our alumni are not only successful artists in theater and all of the entertainment industries, but they are also leaders in many other fields. We strive to graduate well-educated and enlightened "Citizen Artists" who possess the creative capacity and commitment to make a difference in the quality of community life regardless of their chosen field of endeavor.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements for the Degree

The Bachelor of Fine Arts degree in Musical Theater may be conferred upon a student by recommendation of the faculty and by satisfactory completion of a minimum of 124 credit hours.

- University Requirements: All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- There will be no requirement to take the GenEd Arts course if all of the following courses are completed with a C- or better: THTR 1096 , THTR 1202 and THTR 1231. If the student changes majors before completing all three courses, s/he must complete a GenEd Arts course to satisfy the requirement for General Education.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
- Students must complete Theater Department foundation courses with a grade of C or better in each course.
- No more than 20 credits of work in the major field may be transferred from another institution. Students must complete at least 16 semester hours in Theater courses at Temple University.
- All Theater majors must take placement tests in English and mathematics. If a student places into ENG 0701 or MATH 0701 or MATH 0702, these courses must be completed prior to taking the General Education requirement for English and Quantitative Literacy.

Screen Studies Certificate

Overview

The **Certificate in Screen Studies**, offered by the Department of Film and Media Arts, introduces students to the study and the history of film, experimental film, video art and/or media arts. The certificate requires four courses:

- FMA 1141 Film, Video and Interactive Foundations I, which is an introductory production course that emphasizes individual students' rigorous exploration of creative, personal visions, along with mainstream applications;
- FMA 1171 Media & Culture, which concentrates on the cultural production, distribution, and reception of film and media arts;
- FMA 1172 Introduction to Film and Video Analysis, which introduces students to the conceptual and theoretical tools to analyze film, television, and video; and,
- A Film or Media Arts History course selected from a specific list.

Students who complete the certificate will achieve the following learning outcomes:

- Experience translating creative, personal vision into audio and video projects;
- Consideration of personal work in the context of larger aesthetic theories;
- An overview of the role of film, video and media arts in the larger American culture;
- Experience analyzing film, television and video from a number of critical perspectives; and,
- An historical awareness of the development of Film and Video, of New Media, or of Experimental Film and Video Art.

Assessment is based on creative audio, video and media arts projects; blogs; critical papers and/or examinations.

Students must first receive at least a C in FMA 1171 and FMA 1172 before enrolling in this course.

Screen Studies Minor

Overview

The **Minor in Screen Studies**, offered by the Department of Film and Media Arts, provides students the opportunity to sample the aesthetics, history and cultural significance of moving-image media. It draws upon the fields of cinema studies and humanities-based disciplines of media studies and media arts theory, while also encouraging students to approach screen cultures from neighboring disciplines, such as cultural studies, area studies, art history or visual studies.

The Minor in Screen Studies requires a minimum of 19 credits and is open to all undergraduate students across the university.

Stage Management Certificate

Overview

The **Certificate in Stage Management**, offered by the Department of Theater, allows undergraduates from other disciplines to pursue their interest in the backstage organization of live theater; adds to student's self-confidence, leadership, and presentation skills; and allows the student to participate in Department of Theater productions for academic credit.

While students may not be outright Theater majors, they may have a desire to be involved with productions. Skills acquired from the Certificate in Stage Management include confidence in public speaking and presentation, creativity, collaboration, professionalism and many more, enhanced through the study within the Department of Theater coursework.

Theater offers the undergraduate Certificate in Stage Management on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Campus Location: Main

Program Code: CA-STMA-CERT

Contact Information

Students interested in declaring this certificate in the Department of Theater can do so by contacting a TFMA advisor for next steps.

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Matthew Miller (mbmiller@temple.edu, 215-204-4263). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Technical Production and Management BFA

Overview

Temple Theaters has established itself as one of the finest theater training programs in the nation. The faculty are accomplished professionals and scholars who generously offer their expertise and great passion for the craft and creation of theater. As a theater department in the culturally rich city of Philadelphia, Temple University's Department of Theater is immersed in and among some of the most important regional and national theaters in the country.

The **Bachelor of Fine Arts in Technical Production and Management** is designed to prepare students for professional work in the theater industry or top tier graduate program as Technical Directors, Production Managers or Stage Managers. Stage Managers will be work-ready at the end of the four-year program, while Technical Directors and Production Managers may or may not opt to explore graduate programs to further develop their skills. Students take a variety of courses to prepare them for the professional world, including courses in Design, Stagecraft, Technical Direction, Structural Design for the Stage, Sound, Lighting and Projection Technology, The Job Market, Theater Management, Theater Safety and Management, and Music Theory; all which lead to a capstone project, where students take on a leadership position on one of the musicals, plays or operas that Temple Theaters produces each year. The program has a strong emphasis on experiential learning, and between Temple Theaters productions and internships with theaters in the Philadelphia region, students learn critical skills from a wide variety of professionals and mentors.

The successful theater student graduates from our program with excellent communication and collaboration skills, a broad-based and substantive liberal arts background, developed abilities within the discipline of theater, a peerless commitment to achieving and appreciating artistic excellence, and a passion for life-long learning that will enable success in a wide variety of future endeavors. Our alumni are not only successful artists in theater and all of the entertainment industries, but they are also leaders in many other fields. We strive to graduate well-educated and enlightened "Citizen Artists" who possess the creative capacity and commitment to make a difference in the quality of community life regardless of their chosen field of endeavor.

Theater and Community Engagement Certificate

Overview

The **Certificate in Theater and Community Engagement**, offered by the Department of Theater, allows undergraduates from other disciplines to pursue their interest in theater and how it relates to the world at large. The required course for the certificate, *Community Engaged Theater*, gives students the opportunity to explore how theater companies and individual artists from the United States and abroad have used performance to address local to global social issues. Students can then choose among a menu of courses that address more specific issues of identity, representation and oppression including gender, race and sexuality. This certificate allows students to utilize art and creativity to address issues that impact their lives and the lives of those in their communities. This certificate develops skills in creativity and community organization; enhances students' experience at Temple University; prepares them for graduate-level work and increases their awareness of social issues that are relevant in the workplace, in the classroom and in our daily lives.

Theater offers this undergraduate Certificate in Theater and Community Engagement on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Campus Location: Main

Program Code: CA-TCEN-CERT

Contact Information

Students interested in declaring this certificate in the Department of Theater can do so by contacting a TFMA advisor for next steps.

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Kimmika Williams-Witherspoon (kwilli01@temple.edu, 215-204-8417). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Theater BA

Overview

Temple Theaters has established itself as one of the finest theater training programs in the nation. The faculty are accomplished professionals and scholars who generously offer their expertise and great passion for the craft and creation of theater. As a theater department in the culturally rich city of Philadelphia, Temple University's Department of Theater is immersed in and among some of the most important regional and national theaters in the country.

The production program is at the center of the pedagogy, serving as a creative laboratory for experiential learning across disciplines. Temple Theaters offers a full season of productions each year, bringing exciting, contemporary theater to a diverse audience. Temple Theaters has been noted for premiering many new works for Philadelphians as well as producing vital stagings of classic works. Past productions have included big musicals -

Sunday in the Park with George, Ragtime, Spring Awakening; classic dramas - *Romeo and Juliet, Our Town, Enemy of the People*; new American plays - *The Brother/Sister Plays, Reggie Hoops, Blood at the Root*; and original devised works - *In Conflict* and *Odd Girl Out*.

Students in the **Bachelor of Arts in Theater** are advised to select courses that will best prepare them to succeed in the future. Toward this end, **students may select** courses according to their particular interests through the **Theater Studies Sequence** or **choose from one of the following three optional concentrations**:

- Acting;
- Design and Production; or,
- Directing.

The successful theater student graduates from our program with excellent communication and collaboration skills, a broad-based and substantive liberal arts background, developed abilities within the discipline of theater, a peerless commitment to achieving and appreciating artistic excellence, and a passion for life-long learning that will enable success in a wide variety of future endeavors. Our alumni are not only successful artists in theater and all of the entertainment industries, but they are also leaders in many other fields. We strive to graduate well-educated and enlightened "Citizen Artists" who possess the creative capacity and commitment to make a difference in the quality of community life regardless of their chosen field of endeavor.

Special Admissions Information

An audition is required for acceptance into the Acting Concentration (see audition information). Acceptance into the Design and Production Concentration and the Directing Concentration requires an interview with the Head of the Area.

Theater Studies Sequence

The Theater Studies Sequence prepares students to enter graduate programs or pursue careers in theater, other entertainment industries, or other fields. It is within this sequence that entrepreneurial students, the student who wishes to explore future interdisciplinary linkages, or those most interested in playwriting, might best fit. The student who follows the Theater Studies Sequence may select any courses offered by the department as long as required prerequisites are completed with applicable proficiencies as indicated in some courses by a grade of C or better.

Theater Studies Sequence students must complete the Theater Foundation Courses. However, they are encouraged to meet with a Theater Department faculty member to discuss their goals and what selection of courses might best prepare them to achieve their professional aspirations after graduation.

Acting Concentration

The Acting Concentration prepares students to enter graduate acting programs or pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possible within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes in acting, combined with experiential work in minimalist to full-scale productions, students develop the skills needed for creative communication and artistic leadership—tools they will need to pursue their professional goals.

Notes:

1. In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.
2. A student is not officially a part of the Acting Concentration until successfully auditioning before the Acting Faculty. These auditions are held every semester and are announced in advance by the Head of Undergraduate Acting.
3. Some Voice, Movement, Speech, and Acting classes may be repeated for credit.
4. Performance courses are available to those students electing the Acting Concentration and to other students in the department who meet the prerequisite requirements.
5. Certification officials from the Society of Fight Directors are invited to the final projects of *Swordplay for the Actor* classes, and some students receive certification in various combat specialties.

Design and Production Concentration

The Design and Production Concentration prepares students to enter graduate Design or Production programs or to pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possibilities within the context of a liberal arts education, so students can thrive either in a graduate conservatory program or in the profession. Through intensive and varied classes in design and production, combined with experiential hands-on work with creative teams for full-scale and minimalist productions, students develop the skills needed for creative communication and artistic leadership—tools they will need to pursue their professional goals.

Note: In order for the student to progress to the next level of study, prerequisites for admission to some classes are required.

Directing Concentration

The Directing Concentration prepares students to enter graduate directing programs or pursue professional careers in theater, television and film. The coursework provides the highest caliber of training possible within the context of a liberal arts education, so students can thrive either in a graduate

conservatory program or in the profession. Through intensive and varied classes combined with experiential work in minimalist to full-scale productions, students develop the skills needed for creative communication and artistic leadership—tools they will need to pursue their professional goals.

Note: Admission to the Directing concentration is highly selective. To be admitted to the concentration, a student must:

- Have completed the following coursework: THTR 1003 Creativity: Basic, THTR 1096 Introduction to Theater Process, THTR 1231 Acting I, THTR 1411 Welcome Backstage, and THTR 2411 Introduction to Design.
- Have a cumulative GPA of 3.5 or higher. To continue in the concentration, student must maintain this GPA to graduation.
- Meet with the Head of Directing to review the application process.
- Prepare a personal portfolio and a list of plays. Notify the Head of Directing that portfolio is ready, and send the list.
- Complete the portfolio review and interview.

Campus Location: Main

Program Code: CA-THTR-BA

Accreditation

The Theater Department is accredited by the National Association of Schools of Theatre (NAST) and is a member of the University Resident Theater Association (U/RTA). These affiliations characterize it as amongst an elite group of highly-recognized Theater Programs. The Theater Department was recently ranked by *U.S. News & World Report* among the top 25 theater programs in the nation.

Accelerated Program

The +1 accelerated program allows students to earn a BA in Theater and an MEd in Secondary Education with a Concentration in English Education by taking graduate-level courses in their junior and senior year, thus leaving only 19 credits of graduate work in the final year after earning the BA degree. Learn more about the accelerated program.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Requirements

Summary of Requirements for the Degree

The Bachelor of Arts degree in Theater may be conferred upon a student by recommendation of the faculty and by satisfactory completion of a minimum of 124 credit hours. Students must complete:

- University requirements: All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.
- There will be no requirement to take the GenEd Arts course if all of the following courses are completed with a C- or better: THTR 1003, THTR 1096 and THTR 1231. If the student changes majors before completing all three courses, s/he must complete a GenEd Arts course to satisfy the requirement for General Education.
- All students must take a minimum of two writing-intensive courses. The specific writing-intensive courses required for this major are listed below and identified with the code "WI".
- Students must complete Theater Department foundation courses with a grade of C or better in each course.
- No more than 20 credits of work in the major field may be transferred from another institution. Students must complete at least 16 semester hours in Theater courses at Temple University.

- All Theater majors must take placement tests in English and mathematics. If a student places into ENG 0701 or MATH 0701 or MATH 0702, these courses must be completed prior to taking the General Education requirement for English and Quantitative Literacy.

Theater Foundation Courses

Code	Title	Credit Hours
THTR 1003	Creativity: Basic	3
THTR 1096	Introduction to Theater Process (WI)	3
THTR 1231	Acting I	3
THTR 1411	Welcome Backstage	3
THTR 2411	Introduction to Design	3
THTR 3001	History of the Theater I	3
THTR 3002	History of the Theater II	3
THTR 4097	World of the Play (WI)	3
THTR 1087	Production Practicum (1 s.h. each semester the student is enrolled as a major)	1-8
Art History Elective		3
Required Elective (in non-dramatic literature)		3
Required Elective Concentration ^{1,2}		9
Total Credit Hours		40-47

1

The 9 semester hours of the required elective concentration may be in any one department, preferably in the Arts or an interdisciplinary study approved by the Theater Department advisor or chair.

2

The concentration may include the required course in art history or the required course in non-dramatic literature. It may not include ENG 0802, ENG 0812, or ENG 0902.

Acting Concentration

Required Courses in addition to the Foundation Courses

Code	Title	Credit Hours
Required Courses		
THTR 2221	Voice for the Actor	3

Theater Education Certificate

Overview

The **Certificate in Theater Education**, offered by the Department of Theater, allows undergraduates from other disciplines to pursue their interest in education combined with Theater courses, adds to student's self-confidence and presentation skills, and makes the student doubly marketable and employable because they have an extra skill set applicable to classes, after-school activities, and a better classroom presence. While students may not be outright Theater majors, they may have a desire to teach drama or lead drama after-school programs in a K-12 setting. Their desire to one day enter the classroom—even teaching some other area such as math, science, social studies or special education—is what drives them to also go for the Certificate in Theater Education. The Certificate in Theater Education allows a student to gain theater training which would enable them to take on additional responsibilities once attaining a job teaching another area. Skills acquired from the Certificate in Theater Education include confidence

in public speaking and presentation, creativity, collaboration, professionalism and empathy, which are qualities enhanced through the study within the Department of Theater coursework.

Theater offers the undergraduate Certificate in Theater Education on the Main Campus only. The certificate consists of a five-course, 15-credit sequence, which includes courses that satisfy the PA State Department of Education Endorsement in Drama/Theater.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Campus Location: Main

Program Code: CA-THED-CERT

Contact Information

Students interested in declaring this certificate in the Department of Theater can do so by contacting a TFMA advisor for next steps.

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Matthew Miller (mbmiller@temple.edu, 215-204-4263). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Learn more about the undergraduate certificate in Theater Education.

Requirements

A grade of C- or higher must be earned in all required courses, except where noted.

Code	Title	Credit Hours
THTR 1231	Acting I	3
THTR 1411	Welcome Backstage (must earn a grade of C or higher)	3
THTR 2441	Stage Management I ¹	3

THTR 4097	World of the Play	3
Total Credit Hours		15

1

The prerequisite for this course is THTR 1411 with a grade of C or higher.

Theater Minor

Overview

The **Minor in Theater**, offered by the Department of Theater, is available to undergraduate students in other departments and colleges. The minor is intended to give some broad introduction in theater followed by a small amount of specialization. A notation on the transcript will indicate successful completion of the minor.

Students electing the Theater minor may apply up to six transfer credits toward the twenty credits required for the minor. THTR 1087 is not available as an equivalency for any articulated credit in transfer. Students must receive the permission of their advisor before starting in this program. Once the minor has been approved, students must follow the academic rules of the Department of Theater for all Theater courses. Minor credit is not given for Theater grades below C. Students must maintain at least a 2.0 GPA in the minor. Students with theater averages under 2.0 GPA for more than two semesters will be dropped from the program. Students with averages under 2.0 GPA may not begin the program. Students minoring in Theater should collaborate with a Theater department advisor in the selection of coursework.

THTR 2441	Stage Management I	
THTR 3301	Introduction to the Director's Art	
THTR 3442	Theater Management I	
Total Credit Hours		20

Voice and Speech for the Actor Certificate

Overview

The **Certificate in Voice and Speech for the Actor**, offered by the Department of Theater, allows undergraduates from other disciplines to pursue their interest in voice and speech. The Department of Theater at Temple University boasts two master teachers and one associate teacher of the renowned Fitzmaurice voice method. Participants in the Certificate in Voice and Speech for the Actor study with these teachers and with instructors trained by them. For myriad reasons, interested undergraduates pursue a major outside of Theater and the performing arts, but their passion for performance and hunger for training remains. The Certificate in Voice and Speech for the Actor allows a student to continue training with professional actors and faculty from the Department of Theater at Temple University and the rich theatrical community of Philadelphia. Skills acquired from the Certificate in Voice and Speech for the Actor complement requisite expertise in most professions. Confidence in public speaking and presentation, creativity, collaboration, professionalism and communication are just some of the qualities enhanced through the study of voice and speech.

Theater offers the undergraduate Certificate in Voice and Speech for the Actor on the Main Campus only. The certificate consists of a four-course, 12-credit sequence.

Students must be concurrently enrolled in a baccalaureate degree and the certificate to earn the certificate.

Campus Location: Main

Program Code: CA-VSA-CERT

Contact Information

Students interested in declaring this certificate in the Department of Theater can do so by contacting a TFMA advisor for next steps.

To seek assistance in monitoring their progress with the certificate declared, students are asked to meet with Melanie Julian (melanie.julian@temple.edu, 215-204-1324). Meetings should take place regularly from the time of declaration to applying for graduation within their home school/college.

Learn more about the undergraduate certificate in Voice and Speech for the Actor.

Requirements

A grade of C- or higher must be earned in all required courses.

Code	Title	Credit Hours
THTR 2221	Voice for the Actor	3
THTR 2231	Speech for the Actor	3
THTR 2233	Advanced Speech for the Actor	3
Select one of the following:		3
THTR 1008	Poetry as Performance	
THTR 1211	Fundamentals of Acting

THTR 2271	Dialects for the Actor	
THTR 3231	Acting for Commercials, Industrials and Voice-Overs	
Total Credit Hours		12

College of Education and Human Development

Overview

Mission Statement

The College of Education and Human Development at Temple University promotes education as a primary mechanism for social mobility and social justice for all learners. Our mission is to prepare all of our students as educational leaders and agents of change who employ leading-edge understandings and evidence-based practices in whatever setting they work. In our research, we conduct well-designed investigations that have the potential to improve learning and teaching, especially for historically underserved populations, and provide effective mentorship of doctoral students so that they can engage in similar kinds of investigations on their own. In our teaching, we strive to infuse our findings and those of other investigators into our coursework in ways that provide practitioners and prospective practitioners with deep understandings both of research and theory, and of how to bring research and theory into effective practice. In our service, we endeavor to create and implement an infrastructure, policies, and procedures that facilitate and enhance the implementation of the teaching and research missions of the college. Our students come from backgrounds that are economically and culturally diverse, but have in common the desire to acquire the skills they need to become the kind of teacher and/or researcher who can improve the lives of others through education.

History

While the official date for the founding of the College of Education and Human Development is usually given as 1919, the college has included teacher preparation as part of its curricula almost from its inception. It is clear from Temple's history that the unofficial founder of the college was Laura Carnell, who began a program for the preparation of kindergarten teachers as early as 1895. The college was founded in 1919 as Teachers College. Its initial programs in elementary and then secondary education were offered largely in response to the Philadelphia School District's decision that higher positions in the city's school system would be open only to those with a college degree. As a consequence, the college began offering two, three, and four-year programs to teachers, as well as extension work, day and evening courses, five days a week and on Saturday mornings. This intimate relationship between the college and the School District of Philadelphia characterizes almost all of the college's history. Programs of graduate study at the master's level were introduced in 1923, with the Doctor of Education degree being first awarded in 1931.

Historically, Temple's College of Education and Human Development has had a significant impact on local and regional practice. The college continues to be a large provider of teachers for the Philadelphia School District and for many suburban districts. Many principals and superintendents of the neighboring regions have received their degrees from Temple. Many of the school psychologists, counselors, educational researchers, and other education professionals have been prepared at Temple. In a very real sense, the College of Education and Human Development has helped to shape the educational direction of the region. In addition, recognizing that education occurs both in and out of school, the college has in recent years diversified its programs to provide preparation to those who plan to work with learners across the lifespan not only in schools but also in businesses and community-based organizations.

Academic Departments

The College of Education and Human Development consists of the following departments:

- Policy, Organizational and Leadership Studies (POLS)
- Psychological Studies in Education (PSE)
- Teaching and Learning (T&L)

Accreditation

The College of Education and Human Development is an accredited member of the Middle States Accreditation.

The college offers programs approved by the Pennsylvania Department of Education that are designed for students seeking certificates to teach in early childhood/elementary, middle-grades, secondary, special education and business education settings.

Academic Opportunities

+1 Programs

The College of Education and Human Development offers many +1 programs for CEHD students as well as students in all majors at Temple University. Eligible undergraduate students begin graduate courses while completing their bachelor's degree. The graduate coursework, if successfully completed, will appear on a graduate transcript and will usually count toward the master's degree requirements if the student matriculates into the graduate year immediately upon completion of the bachelor's degree.*

Academic advisors in the Office of Undergraduate and Graduate Affairs work closely with +1 students as they progress through their +1 program, guiding and supporting them from the application period through completion of their bachelor's and then master's degrees. Each student is provided with an academic plan that reflects the graduate coursework. Students can read more about available +1 programs (p. 1792) in this *Bulletin* and should contact plus1@temple.edu with inquiries.

*

In some cases, degree requirements for the intended master's degree may change during a student's undergraduate semesters, and this could result in the need for additional courses/an adjusted academic plan. In cases when students delay matriculation, degree requirements may change and therefore may affect whether graduate courses fulfill degree requirements.

Diamond Research Scholars Program

The Diamond Research Scholars Program provides Temple undergraduates the opportunity to engage in a focused, mentored research or creative arts project during the summer and fall. The program requires that students participate in the two-day Undergraduate Research Institute, devote ten weeks during the summer to develop a research project in their area of interest under the direction of their faculty mentor, and complete the project during the fall semester while registered for an independent study/research course. For eligibility and other information, please visit <https://undergradstudies.temple.edu/research/diamond>. Students can also view research opportunities within the college.

English Language Teaching Certificate

The undergraduate English Language Teaching Certificate (p. 589) (ELT) prepares students who are interested in teaching English to adult immigrant learners, international college students, and/or students overseas. Some may already be involved in teaching English as a second language (ESL) in the Writing Center, serve as conversation partners in ESL programs, or volunteer as teachers in community-based ESL programs. Others may anticipate going abroad and teaching English as a foreign language (EFL). For more information and to add this certificate, students should meet with their advisor to discuss adding the certificate and how the requirements fit into their degree program; students not in the College of Education and Human Development must then meet with a College of Education and Human Development undergraduate advisor to add this certificate. (Note: Students in teacher education programs should not declare the ELT certificate; such students should meet with a College of Education and Human Development undergraduate advisor to discuss completing coursework that leads to ESL certification.)

Minors and Certificates

The college offers a variety of minors and certificates (p. 554) available to all Temple students.

Student Organizations and Engagement

The college offers a variety of opportunities for students to become engaged in their field of study. Participating in student groups provides peer support and future professional contacts. It also presents opportunities to give back to the community, either locally or globally. Among the opportunities are:

- The Human Development and Community Engagement Club, which provides networking opportunities, professional development workshops, career exploration, and social events;
- Jumpstart, which is a national early education organization that trains students to work with preschool children in low-income neighborhoods; and
- Kappa Delta Pi Honor Society, which promotes academic excellence and a network for those who are committed to teaching.

Study Away Opportunities

All CEHD students are encouraged to explore study away/education abroad opportunities. Numerous courses required for degree completion are available at Temple campuses in Rome and Tokyo, and at programs in places such as Oviedo, Spain. Education majors can also gain experience teaching English overseas in Chile, China, South Korea and other countries.

Secondary Education World Language majors are encouraged to study overseas, when possible, in relevant foreign language-speaking areas through Temple or external study abroad programs. Temple offers semester and year-long programs at Temple campuses in Rome and Oviedo, Spain, as well as exchange options at the University of Puerto Rico and Universities of Hamburg and Tübingen in Germany. Temple offers various summer language programs in Rome, Germany, Spain, and France. The Latin American Studies Semester program is an immersion experience available at Temple's Main Campus to all Spanish majors during spring semesters.

CEHD first-year students majoring in Secondary Education English, Social Studies (History), or World Languages; Human Development and Community Engagement; or Adult and Organizational Development can opt to begin their Temple academic career in Rome through the Temple Rome Entry Year Program.

Learn more about studying abroad and explore a list of government-sponsored teaching abroad scholarships.

Career Development

The College of Education and Human Development is committed to preparing students with the professional knowledge, skills and experiences necessary for today's competitive job market. Career planning is an ongoing process that begins from the moment students join our college, with workshops, counseling, guest speakers, internships/clinical practice, and connections to clubs/organizations affiliated with the university and college. As students approach graduation, the college, in partnership with the University Career Center, offers a range of individualized support and organized events to help them conduct a successful career search, including career fairs, networking with professional associations and employment agencies, professional development days, mock interviews, resume workshops, and more. For additional information or to schedule an appointment, please visit Handshake.

The college's Career Development Office services include:

- Career counseling to select and refine goals and interests;
- Résumés, cover letters and thank you letters coaching;
- Guidance in locating and applying for internships, full-time, and/or part-time employment opportunities;
- Job alerts;
- Interview practice;
- Networking strategies and opportunities; and
- Professional skills workshops.

Scholarships and Awards

Through the generous support of our loyal alumni, faculty, staff and friends of the College of Education and Human Development, we are able to offer a limited number of scholarships to our incoming and current students based on merit and/or financial need. Current students are notified via their Temple e-mail address early in the spring semester about available scholarships. Learn more about the College of Education and Human Development's scholarship terms and conditions.

Academic Policies and Regulations

Students are responsible for complying with all university (p. 1835) and college policies and procedures. Teacher education students are responsible for understanding additional policies related to Pennsylvania Department of Education (PDE) requirements for teacher certification.

Academic Responsibility

The College of Education and Human Development expects students to take responsibility for understanding the requirements for their degrees. Students should review all degree requirements for their catalog term and should follow the academic plan as set forth in the *Bulletin* that corresponds to their catalog term. Academic advisors work with students to develop individual academic plans based on students' goals and needs. All students are expected to consult with an academic advisor each semester to discuss questions and concerns regarding timely degree completion.

Academic Overload Requests

Students in the College of Education and Human Development must petition through an academic advisor when requesting permission to take more than 18 credits in either the fall or spring semesters or more than 8 credits in either summer session. Each petition is evaluated individually, and a decision rendered. Criteria considered when reviewing an overload petition include but are not limited to: current cumulative GPA; total number of credits attempted and earned; previous semesters, if any, in which a student took an academic overload and the GPA earned in such semesters; amount of overload credits requested; and specific courses the student will be taking in that semester. Decisions are made at the discretion of the college; submission of a petition does not guarantee approval. Students will be notified via their TEmail address of the decision.

Attendance

Attendance policies for College of Education and Human Development courses are established at the discretion of the instructor. Supplementing the university's Attendance policy (p. 1844), the college requires all students to adhere to instructors' attendance policies as set forth in each course's syllabus.

Awarding of Bachelor Degrees

The College of Education and Human Development does not award Bachelor of Arts or Bachelor of Science degrees to students who have already completed an accredited first Bachelor's, Master's, or PhD degree, regardless of when the degree was completed.

Candidacy

The Pennsylvania Department of Education requires that undergraduate teacher education students meet specific requirements in order to take upper-level education courses, such as teaching methods and student teaching. When a student has met all of these requirements, based on review of their application, they achieve "candidacy" in the teacher preparation program. Students can find information about Candidacy in the College Requirements (p. 559) section of this *Bulletin* and on the college's Teacher Education Canvas site.

Change of Program (COP)

Changing into a College of Education and Human Development Major From Another College at Temple

Students in other colleges/schools at Temple who wish to change their major (program) to a College of Education and Human Development (CEHD) must complete the Change of Program (COP) course in Canvas. After completing this course, students are eligible to schedule an appointment with a

CEHD academic advisor to complete the change of major (program). To be enrolled in the Change of Program course, students should self-enroll in the Canvas site or can e-mail edadvising@temple.edu.

IMPORTANT NOTE: Changing programs *may*:

1. mean that courses taken in the previous major (program) do not fulfill degree requirements of the new major (program), and
2. result in additional time to degree completion.

Both of these factors should be taken into consideration by the student when making the decision to change the major (program). Students should be aware that all requirements of the university-approved curricula (as per the eight-semester plans that appear in this *Bulletin*) must be fulfilled. Students should consult with a College of Education and Human Development academic advisor to create an academic plan that identifies courses/requirements that need to be fulfilled and to determine the anticipated graduation date.

GPA Requirements for COP

Students seeking to transfer into a teacher education/certification program *must* have a minimum cumulative GPA of 3.0; no exceptions are made to this GPA requirement.¹ Students interested in a teacher education program who do not yet have a 3.0 or who are still deciding if the program is right for them are eligible to take certain courses prior to officially changing their program; students interested in taking classes prior to declaring the new program must complete the CEHD Change of Program Canvas course and must meet with an academic advisor to discuss which courses they are eligible to take that would apply to their prospective program.

Students wishing to change their program to a non-certification program [Adult and Organizational Development (AOD) or Human Development and Community Engagement (HDCE)] must have a minimum cumulative GPA of 2.0.¹

1

Students in their first semester at Temple University who have not yet established a GPA are eligible to change their majors.

Changing Programs Within the College of Education and Human Development

Students must be in good academic standing to change their current CEHD major (program) to another CEHD major (program). Students must schedule a Change of Program appointment with an academic advisor to complete the process, develop a new academic plan, and determine if there is a change to the anticipated graduation date.

Clearances

The College of Education and Human Development's clearances policy requires that all students enrolled in CEHD courses that require fieldwork submit updated copies of the following clearances to the college annually (each summer), via its online platform, EdPortal:

1. Pennsylvania State Police Criminal History Record (Act 34),
2. Pennsylvania Department of Public Welfare Child Abuse History Clearance (Act 151),
3. Federal Criminal History Background Check (FBI/fingerprint check) (Act 114), and
4. P.P.D. (TB) Test (School Health regulations, 28 PA Code, Section 23.44).

In limited circumstances, a student's place of current employment may be approved by their program as their site to complete their fieldwork. Students who have been approved by their program to complete their fieldwork in their place of employment may submit an Employer Clearances Verification for On-the-Job Fieldwork form (pdf) in lieu of annually renewed clearances (see On-the-Job Fieldwork for details). Typically, students who receive this approval are enrolled in Career and Technical Education, select postbaccalaureate certification programs, emergency certification programs, and add-on certification programs.

For questions about these requirements, contact the Office of Field Placement and Professional Experiences in the Shimada Resource Center at edfield@temple.edu.

Completion of Degree

All students must complete the entirety of the degree program in which they are enrolled to graduate from that major. Students who cannot or do not want to complete all degree requirements must change their major (program); students should consult with an academic advisor to discuss this decision and options.

Co-requisites and Prerequisites

Students should be aware of all prerequisites and co-requisites; they may be administratively dropped from classes for which they do not meet prerequisites and co-requisites. (Candidacy approval is considered a prerequisite to all upper-level teaching methods courses.)

Courses Over Five and Ten Years Old

Courses over five years old are subject to review to fulfill requirements. Courses over ten years old will not count toward degree requirements nor certification requirements.

Dean's List

Each fall and spring semester those undergraduates who have met the credit hour and academic criteria established for their school or college are placed on the Dean's List. For specific GPA and credit-hour requirements for each college, see the university's Dean's List policy (p. 1849). Dean's List letters are sent from the University Registrar.

Educators' Code of Professional Conduct

The College of Education and Human Development at Temple University promotes education as a primary mechanism for social mobility and social justice for all learners. Our mission is to prepare all of our students to be ethical and effective professionals who will employ leading-edge understandings and evidence-based practices in whatever setting they work. In order for us to achieve that mission, we have to have high expectations for our students from the onset of their studies. Our Code of Professional Conduct articulates those expectations and delineates the process the college employs when they are not met. This is a supplement, not a substitution, for the university's Code of Conduct.

I. Expectations for ethical behaviors in Temple courses include the following:

1. Students must demonstrate professional responsibility through full participation in all course activities and compliance with academic and attendance policies as described in each course syllabus.
2. Students must not attend class under the influence of any non-prescribed drugs or medications or alcohol.
3. Students must manifest respect for others regardless of race, culture, gender, social class, sexual orientation, religion, disability or ability level.
4. Students must avoid classroom behaviors that interfere with the learning of others, including, but not limited to, irresponsible use of cell phones, laptops or Ipads, or regularly making negative or disruptive comments.
5. Students must exhibit a professional level of respect for both professors and classmates and shall not engage in physical intimidation or any other inappropriately aggressive behavior.
6. Students must submit only their original work.
7. Students must obtain permission to use and shall give appropriate citations for any work of another person used in her/his assignments, including classmates.
8. Students shall not submit work done for another class without the express approval of an instructor.
9. Students must comply with all fair use and copyright requirements when installing and using software on any computer.
10. Students must use electronic communication in a responsible and professional manner at all times and shall not display, send, or forward any sexually explicit or other inappropriate materials or any harassing or discriminatory communications.
11. Students must not falsify or misrepresent any information to faculty, supervising teachers, and university supervisors.

II. Expectations for ethical behavior in field placements include the following:

1. Students must adhere to Pennsylvania's Code of Professional Practice and Conduct for Educators (<https://www.pacodeandbulletin.gov/Display/pacode?file=/secure/pacode/data/022/chapter235/chap235toc.html&d=>).
2. Students must comply with all policies, statutes, rules and procedures established by Temple University, state and local agencies, and any school or other institution in which the student is doing any field experience.
3. Students must treat supervising teachers; other school faculty, administrators, and staff; university supervisors; and their own students with respect at all times.
4. Student shall recognize, respect, and plan for the diversity that exists in the classroom and greater community.
5. The student shall develop and adhere to appropriate professional boundaries in all relationships. Developing a romantic and/or sexual relationship with a student, instructor, staff member, or supervisor is unacceptable.
6. Students must exhibit a professional commitment to their work in schools and must not demonstrate unprofessional behavior through poorly prepared lessons, unprofessional appearance, or low expectations for self and others.
7. Students must not attend field assignments under the influence of any non-prescribed drugs or medications or alcohol.
8. Students shall become knowledgeable about and abide by rules set forth by all schools in which they are doing field experience.

Field Experience

Students in teacher education programs should be aware there are numerous processes and policies governing field placements, all of which can be found in the current year's Teacher Education Field Handbook in the Teacher Education resources of the College of Education and Human Development section on TUPortal and on the Office of Field Placement and Professional Experiences web site. Contact edfield@temple.edu with inquiries.

Grievances

Students with grievances must first address concerns with the professor to seek a resolution. When a resolution cannot be achieved, the student should contact the Ombudsperson to begin the formal Appeal process: education.ombudsperson@temple.edu.

College of Education and Human Development students with grade grievances in courses outside of the college must follow the process in the college/school who manages the course.

Letters of Completion

Any student who has 1) successfully completed all requirements of the degree program and 2) whose degree has been officially *conferred* by the University Registrar may request a "Letter of Completion". As per university and college policy, no final Letter of Completion can be provided to a student until after the university's graduation clearance and degree conferral process is completed (as per established university deadlines). Students must request a Letter of Completion.

Non-Traditional Credits

The CEHD accepts credit for prior learning in the form of Advanced Placement (AP), International Baccalaureate (IB), College Level Exam Program (CLEP), Dantes Subject Standardized Test (DSST), Military Science Courses, and certain Professional Certifications/Licensures. Non-traditional credits maximums are as follows:

- AP and IB are unlimited.
- Generally, a maximum of 12 credits combined from CLEP, DSST, and/or Upper-Level Military Science credits, with generally no more than 8 credits in any single type. Certain programs may be eligible for more than these maximums, at the discretion of the college. Certain programs may also allow Professional Certification or Licensure credits, at the discretion of the college.

Participation in the College of Education and Human Development Graduation Ceremony

The College of Education and Human Development recognizes that in certain circumstances students who have not yet completed all degree requirements may wish to participate in the University Commencement and/or the college graduation ceremony. The following guidelines outline the circumstances under which undergraduate students may be allowed to participate in the CEHD graduation ceremony. For policy related to participation in the University Commencement, students should refer to the university's Petition for Permission for Non-Graduates to Participate in Commencement. Students may participate in the CEHD graduation ceremony only once. Students with an approved petition to participate as a non-graduate forfeit their right to participate when they actually complete their degrees.

CEHD students with no more than fifteen credits remaining in their degree *and* who will complete their degree requirements in the immediate summer or fall semester(s) may *petition* to participate in the May CEHD graduation ceremony. Students intending to petition must work with an academic advisor to develop a valid academic plan and must submit that academic plan along with a petition to the academic advisor. Decisions are at the discretion of the college.

Submission of a petition does not guarantee approval. Petitions will be reviewed by college administration and students will be notified of the decision via TUmail.

Prerequisites

See Co-requisites and Prerequisites, above.

Re-enrollment

A student who has not been registered for one (or more) semesters and who is not on an approved Leave of Absence is no longer an active student as per university policy. Former students must initiate the re-enrollment process. The College of Education and Human Development reviews Re-enrollment Requests on a rolling basis and students are alerted of the decision via the e-mail address provided on their Re-enrollment Request form. University policy dictates a student **must** re-enroll into the current version of the selected curriculum. This can impact degree requirements, how prior coursework may/may not apply to the degree requirements, and might impact expected time to degree. Students approved for re-enrollment must meet with an academic advisor to discuss remaining requirements and anticipated graduation date.

University-established deadlines for Re-enrollment Requests are:

- For the fall semester: August 1*
- For the spring semester: December 1*
- For summer sessions: April 1*

*

Any Re-enrollment Requests received after these dates are reviewed at the discretion of the College of Education and Human Development.

Important Note about Transcripts and Holds for Students wishing to Re-enroll:

- Students who have attended another institution since last enrolled at Temple are required to submit all transcripts with the Re-enrollment Request form; failure to submit all transcripts will result in a denial of the re-enrollment request. When transcripts are provided, a new Re-enrollment Request must be submitted. If transcripts are provided after the university-established deadlines noted above, review of the Re-enrollment Request will be at the discretion of the CEHD.

- Students with any type of hold on their record must clear the hold prior to submitting a Re-enrollment Request; failure to clear all holds will result in a denial of the re-enrollment request. When all holds are cleared, a new Re-enrollment Request must be submitted. If a hold is not cleared until after the university-established deadlines noted above, review of the Re-enrollment Request will be at the discretion of the CEHD.

Repeating a Course

It is recommended that any student who must repeat a course for any reason meet with an academic advisor prior to reattempting a course. Academic advisors will work with the student to identify strategies/resources that may support success and will help the student review his/her academic plan. As per university policy, students making a third attempt at a course cannot self-register; they must meet with an academic advisor and must submit a petition. Petitions for a third attempt of a course are reviewed and the student is notified of the decision via their TUMail account. Submission of a petition does not guarantee approval. Approvals of third attempt petitions may come with stipulations. Students should refer to the university policy on Repeating a Course (p. 1860) for further information.

Student Teaching Policies

- Students are not permitted to take any academic class along with student teaching unless that course is indicated on their curriculum sheet in the 8th (student teaching) semester.
- Repeating student teaching: Students must meet with the Office of Field Placement to discuss eligibility to repeat student teaching after failing it. Students are only allowed to take student teaching and the affiliated seminar a total of two times. The college determines a student's eligibility for repeating student teaching.
- Students in teacher education programs should be aware there are numerous processes and policies governing student teaching, all of which can be found in the current year's *Student Teaching Handbook* in the Student Teaching Channel found on the College of Education and Human Development tab in TUPortal.

Temple University Requirements

- All students must successfully complete Temple University's General Education (GenEd (p. 83)) curriculum, making sure they are informed of any GenEd waivers (p. 86) that may be included in their program. Students should consult with an academic advisor if they have any questions about GenEd requirements for their degree.
- All students must successfully complete a minimum of two writing-intensive courses at Temple University (including transfer students).

Teacher Education Programs: Bachelor of Science in Education Degree

Early Childhood-Elementary Education (with optional Special Education Concentration), Middle Grades Education, Secondary Education, Special Education, and Career and Technical Education

Areas of Certification within the College of Education and Human Development ¹

All curricula leading to Pennsylvania certification have been approved by Temple University's Board of Trustees and the Pennsylvania Department of Education.

- Career and Technical Education, concentration options:
 - Business, Computer, and Information Technology Education K-12
 - Marketing Education K-12
- Early Childhood-Elementary Education (Pre K to 4)
- Early Childhood-Elementary Education (Pre K to 4) with Special Education (Pre K to 12)
- Middle Grades Education (grades 4-8)
 - Mathematics
 - Science
 - Language Arts
 - Social Studies
 - Mathematics and Science
 - Mathematics and Language Arts
 - Science and Language Arts
- Special Education (Pre K to 12)
- Secondary Education (grades 7-12)
 - English
 - Mathematics
 - Social Studies
- World Languages (grades K-12)

- Chinese
- French
- German
- Italian
- Latin
- Spanish

Students can find further details and updates about all certifications on the College of Education and Human Development web site.

College of Education and Human Development Graduation Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum requirements:

- Completion of program requirements as detailed on the 8-semester academic plan;²
- Earn a "C-" or above in all required Education Courses
- Earn a "C-" or above in all required University General Education Courses.

Meeting the minimum credits required for a degree does not mean the degree is complete as the student may have taken additional courses/credits not applicable to the student's program/degree requirements. Students must successfully complete all requirements as indicated in their program's requirements. Some credits from ROTC and preparatory/remedial courses do not count towards the total number of semester hours needed to graduate.

College of Education and Human Development Teacher Certification Requirements Candidacy

The Pennsylvania Department of Education requires that undergraduate teacher education students meet specific requirements in order to take upper-level education courses, such as teaching methods and student teaching. When a student has met all of these requirements, based on review of their application, they achieve "candidacy" in the teacher preparation program. Students can find information about Candidacy on the college's Teacher Education Canvas site. Students cannot register for teaching methods courses without achieving Candidacy.

To achieve Candidacy, students must:

- Submit an application to the College of Education and Human Development Academic Advising Office.
- Generally, successfully complete:
 - six credits of *college-level* math to be approved for Candidacy;*
 - three credits of *college-level* English;**
 - three credits of English/college composition.**
- Complete a minimum of 48 credits (transfer included).
- Earn a C- or higher in all courses identified as pre-candidacy courses on the 8-semester program plan.
- Earn a minimum cumulative GPA of 3.00. Students whose GPA is below a 3.00, but above a 2.80 are eligible to petition for a GPA appeal and should schedule an appointment with an academic advisor to discuss this.
 - Secondary Education students must earn a minimum cumulative 2.0 GPA in the content courses (i.e. second major courses). Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all content area courses.
 - Middle Grades students must earn a minimum cumulative 2.0 GPA in the concentration area. Students must earn a minimum of "C-" (or higher, where stipulated by the program) in all concentration area courses.
- Demonstrate Proficiency in Basic Skills: Pennsylvania legislation requires undergraduate certification candidates to pass the basic skills assessments in math, reading and writing prior to formal admission into a program. This requirement is waived, covering the period of this academic year (2023-2024). Specifically, Act 55 of 2022 signed into law by Governor Wolf requires the Secretary of Education to waive the requirement to satisfactorily complete the assessment of basic skills for 3 years from July 8, 2022 through July 8, 2025. This applies to all students who enter preparation programs during this period as well as otherwise qualified candidates who submit their certification application during this period.
- Students can consult the PDE web site for updates and current requirements.

*Developmental courses, pre-college courses, MATH 0701, and MATH 0702 are not applicable to this requirement.

**Developmental courses, pre-college courses, ENG 0701, and ENG 0711 are not applicable to this requirement.

Certification Requirements

Successful completion of a teacher preparation program is one step towards teaching certification in Pennsylvania. Upon successful completion of a program, all teacher education students seeking PA certification must apply directly to the Pennsylvania Department of Education through TIMS.

CEHD Recommendation for Certification

As part of the TIMS application, the college verifies program completion and recommends the student for certification. Students must meet all of the following requirements to secure the college's recommendation on TIMS.

- Complete all the requirements for their specific Teacher Education Certification Program, including:
 - If applicable, meeting Basic Skills requirements in Reading, Writing and Mathematics (see Candidacy).
 - Completing all field and course requirements as specified for their program.
 - Successfully completing student teaching, when applicable, (with a minimal score of 4 on the PDE 430).
 - Earn a minimum cumulative GPA of 3.0, generally.
- Submit an online application through the PATeacher Information Management System (TIMS).
- Complete the online Temple University Request for Recommendation. This applies to all applicants for certification, including those who completed a program in the past but did not file for certification at that time.

Additional PA Requirements for Certification:

- Be a United States citizen or a legal permanent resident holding a valid Green Card. (Special note: Foreign Educated Certification Applicants.)
- Demonstration of General Knowledge, Professional Knowledge and/or Subject Area Knowledge as required by their specific area of certification.
NOTE: Students may complete these requirements before or after the college submits their recommendation.

For more information see Pennsylvania Department of Education's Testing Requirements.

Field Experience, Practicum and Student Teaching

The Pennsylvania Department of Education (PDE) has detailed four stages of field experience(s) for teacher preparation programs. To meet Stages 1-3, CEHD partners with schools and districts to arrange relevant, diverse, and supported field experiences, to advance students' analytic and teaching skills, reflexive practice, and professional network-building. These experiences are built into methods courses and practicum courses. Students are not permitted to engage in any fieldwork with or near minors without annually updated clearances.

For student teaching (Stage 4), candidates enroll in Supervised Teaching. Through this experience, they receive coaching and guidance from school-based teacher mentors and university-assigned supervisors, as they take the lead of classroom instruction.

To be eligible for student teaching, candidates are required to have:

- 3.0 GPA (Students with a 2.80 or higher and who have taken certification exams might be eligible for an appeal process; see an academic advisor);
- A minimum of C- in all required courses;
- No academic or financial holds;
- No Incompletes;
- Updated clearances on Edportal, valid through the end of their student teaching; and,
- Completed application submitted to Associate Directors of Clinical Practice one year prior to student teaching.

Students in teacher education programs are expected to abide by the processes and policies governing field placements and student teaching. Details can be found on the Teacher Education Channel of the College of Education and Human Development tab on TUPortal and on the Office of Field Placement and Professional Experiences web site.

Programs that do not lead to Teacher Certification: Bachelor of Arts/Bachelor of Science

Adult and Organizational Development (BA) and Human Development and Community Engagement (BS)

Students receive a BA in Adult and Organizational Development or a BS in Human Development and Community Engagement by meeting the following minimum college requirements:

- Completion of program requirements as detailed on the 8-semester matrix.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Earn a minimum cumulative GPA of 2.0.
- Earn the minimum credits required for the degree.

Minors and Certificates

Refer to the College of Education and Human Development's Programs section (p. 554) of this *Bulletin* for a list of minors and certificates.

1

Students seeking Teacher Education Certification in other areas should contact the school/college listed below. Information about these teacher education certification programs can also be found within that school or college's section of this *Undergraduate Bulletin*:

- Art - Tyler School of Art and Architecture
- Music - Boyer College of Music and Dance
- In addition to the Secondary Math and Science Education programs offered in the College of Education and Human Development, students can earn teacher certification through TUteach, a joint program between the College of Science and Technology and the College of Education and Human Development. This program is housed in the College of Science and Technology.

2

The required total credit hours vary depending on the course of study. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements
2. Foundational Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Elective courses, as noted in each program of study.

Academic Advising Information

edadvising@temple.edu

Undergraduate Academic Advising Services

All students in the College of Education and Human Development have the flexibility to meet with any of the academic advisors. CEHD advisors utilize best practices in guiding students from pre-admission to degree completion to provide students with an understanding of their degree requirements, policies, and college/university resources. Advisors work with students to create academic plans, encouraging students to take ownership of their academic choices as they work to achieve their academic and related goals.

The undergraduate academic advising staff in the College of Education and Human Development supports students in a variety of areas, including, but not limited to:

- Collaborate with students to develop an individual academic plan to support student goals, and on-time graduation;
- Orientations and advising for new students (freshmen) and transfer students;
- Advising for students facing academic challenges;
- Change of program (major);
- Petitions;
- Workshops/Group Advising;
- Candidacy applications;
- Pennsylvania Department of Education (PDE) guidelines and requirements for teacher education students;
- Auditing and tracking of students (i.e.; pre-student teaching, Fly in 4, pre-graduation);
- Graduation processing; and
- Registration assistance.

Undergraduate Advising Appointment Scheduling

Schedule online via the Student Tools tab in TUPortal or e-mail edadvising@temple.edu.

Academic Responsibility Policy

The College of Education and Human Development expects students to assume primary responsibility for knowing the requirements for their degrees and for acquiring current information about their academic status. All students are expected to collaborate with an academic advisor each semester to

discuss questions and concerns, review their academic plans, and ensure timely degree completion. College of Education and Human Development academic advisors are trained to provide sound advice aligned with university and college policies and practice.

Faculty

For additional information on the College of Education and Human Development's faculty please visit the college's faculty directory.

Gregory Anderson, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, City University of New York.

Crystal L. Austin, Assistant Professor of Instruction, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University at Albany, State University of New York.

Janelle M. Bailey, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Arizona.

Julie L. Booth, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Carnegie Mellon University.

Jean A. Boyer, Assistant Professor of Instruction, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Cincinnati.

Joseph Boyle, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Kansas.

Carol B. Brandt, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of New Mexico.

Wanda M. Brooks, Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, University of Pennsylvania.

Kathryn Burke, Research Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Kansas.

James P. Byrnes, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

Sarah A. Cordes, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, New York University.

Maia Bloomfield Cucchiara, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Pennsylvania.

James Earl Davis, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Cornell University.

Sarah Elizabeth Diamond, Associate Professor of Practice, Department of Teaching and Learning, College of Education and Human Development; PhD, Auburn University.

Meixia Ding, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Texas A and M University.

Arthur G. Dowdy, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

Joseph P. DuCette, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Cornell University.

Richard M. Englert, Professor and Chancellor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; EdD, University of California Los Angeles.

Armando X. Estrada, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Texas at El Paso.

Frank H. Farley, Professor Emeritus, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of London.

Catherine A. Fiorello, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Kentucky.

Judith Flanigan, Associate Professor of Instruction, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

Timothy P. Fukawa-Connelly, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Maryland.

Allison Gilmour, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Vanderbilt University.

Sally A. Gould-Taylor, Research Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

John Hall, Assistant Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of California Berkeley.

Insook Han, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Columbia University, Teachers College.

Shanta Hattikudur, Associate Professor of Instruction, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Wisconsin-Madison.

Annemarie H. Hindman, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Michigan.

Heidi Hutman, Assistant Professor of Instruction, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Albany.

Xu (Lilya) Jiang, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of South Carolina.

Jennifer Johnson, Assistant Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Maryland College Park.

Paul Jones, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

Avshalom Kaplan, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Michigan.

Suzanne Kelley, Clinical Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

Julie Beth Kessler, Associate Professor of Instruction, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

Janice H. Laurence, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, George Mason University.

Di Liu, Assistant Professor of Instruction, Department of Teaching and Learning, College of Education and Human Development; EdD, Boston University.

Christopher W. McGinley, Professor of Practice, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; EdD, University of Pennsylvania.

Kelly M. McGinn, Assistant Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

Sabina Neugebauer, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

Kristie Jones Newton, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Maryland College Park.

Beth Olanoff, Associate Professor of Instruction, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; JD, University of Pennsylvania.

Timothy J. Patterson, Assistant Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, Columbia University, Teachers College.

Laura Pendergast, Associate Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, The Pennsylvania State University.

Charles Price, Associate Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Graduate Center, City University of New York.

M. Meghan Raisch, Assistant Professor of Instruction, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Temple University.

Jessica Reinhardt, Associate Professor of Practice, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Denver.

Jayminn S. Sanford-DeShields, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

W. Joel Schneider, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Texas A and M University.

Lori A. Shorr, Associate Professor of Instruction, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of Pittsburgh.

Michael W. Smith, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Chicago.

Judith C. Stull, Research Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Boston College.

Jill May Swavelly, Professor of Instruction, Department of Teaching and Learning, College of Education and Human Development; EdD, Temple University.

Matthew J. Tincani, Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, The Ohio State University.

Renee M. Tobin, Professor, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Texas A and M University.

Benjamin Torsney, Assistant Professor of Instruction, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, Temple University.

Jason C. Travers, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; PhD, University of Nevada, Las Vegas.

Matthew J. Elvis Wagner, Associate Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Columbia University, Teachers College.

Daniel Walinsky, Associate Professor of Instruction, Department of Psychological Studies in Education, College of Education and Human Development; PhD, University of North Dakota.

Barbara A. Wasik, Professor and the PNC Chair in Early Childhood Education, Department of Teaching and Learning, College of Education and Human Development; PhD, Temple University.

Diana L. Wildermuth, Associate Professor of Practice, Department of Psychological Studies in Education, College of Education and Human Development; PhD, Temple University.

Jason Wingard, Professor, Department of Policy, Organizational and Leadership Studies, College of Education and Human Development; PhD, University of Pennsylvania.

Christine A. Woyshner, Professor, Department of Teaching and Learning, College of Education and Human Development; EdD, Harvard University.

Adult and Organizational Development BA

Overview

The **Bachelor of Arts in Adult and Organizational Development**, offered by the Department of Policy, Organizational and Leadership Studies, is comprehensive and systems-focused, and will help students develop the skills and knowledge needed to be an effective change agent in any organization.

The Adult and Organizational Development program pushes students to:

- conquer the complexity of communication styles to identify different styles and what they can reveal about the roots of conflicts;
- develop effective instructional strategies to facilitate adult and team learning, and then design and implement effective training programs; and
- master the peacemaking process, in order to recognize and mediate different conflict types and negotiate appropriate resolutions for communities, families, organizations and schools.

Students will finish the degree program by completing a field assignment at one of the hundreds of community groups, corporations, government agencies, schools and social service agencies in the Philadelphia area. In addition, students will observe how management and staff lead teams, manage change, mediate conflicts, and train adults in the social context of a bustling, culturally diverse region.

Campus Location: Main

Program Code: ED-AOD-BA

Accelerated +1 Programs

The College of Education and Human Development offers accelerated programs, including the opportunity for Adult and Organizational Development majors to pursue the following +1 Accelerated Programs:

- +1 Accelerated Program in Any Temple Major + Advocacy and Organizational Development MEd
- +1 Accelerated Program in Any Temple Major + Higher Education MEd
- +1 Accelerated Program in Any Temple Major + Teaching English to Speakers of Other Languages MEd

Qualified students earn a bachelor's and a master's degree in a five-year course of study. Learn more about the College of Education and Human Development's +1 Accelerated Programs.

Contact Information

Undergraduate Advising, College of Education and Human Development
 edadvising@temple.edu

Armando Estrada, Program Coordinator
 armando.x.estrada@temple.edu

Christopher McGinley, Policy, Organizational and Leadership Studies Department Chair
 christopher.mcginley@temple.edu

Learn more about the Bachelor of Arts in Adult and Organizational Development.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

- All students must complete Temple University's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses at Temple University (including transfer students). The specific writing-intensive courses required for this major are AOD 3396 and AOD 4396.

College Requirements

Refer to the College Requirements (p. 559) for specific information.

Program Requirements

- Students must complete 34 credit hours in the major.
- All courses in the major must be passed with a grade of "C-" or better; students must earn a 2.0 cumulative GPA.
- Complete the following course requirements in Adult and Organizational Development:

Code	Title	Credit Hours
Required Courses		
AOD 1001	Practical Application in Adult and Organizational Development	1
AOD 1016	Introduction to Adult Learning and Training	3
AOD 1166	Interpersonal Processes through the Life Span	3

AOD 2176	Team Process in Education	3
AOD 2201	Research Methods	3
AOD 2214	Conflict Processes	3
or AOD 2215	Mediation: Principles and Practice	
AOD 2218	Leadership in Organizations	3
AOD 3317	Adult and Workforce Development	3
AOD 3318	Systems Approach to Organizational Change	3
AOD 3396	Organizational Processes (WI)	3
AOD 4016	Advanced Adult Learning and Training	3
AOD 4396	Field Research: Practice in Professional Settings (WI)	3
Total Credit Hours		34

AOD strives to be a flexible and dynamic program that accommodates students transitioning in from other majors. AOD courses are offered both at Main campus and at Ambler. Although flexible, a minimum of three semesters is necessary to complete the AOD BA degree requirements. We strongly advise that no more than two other AOD courses be taken along with AOD 4396 Field Research: Practice in Professional Settings, the "capstone" course that is completed during the final semester prior to graduation. This capstone course requires the reflection on and application of AOD principles gained in prior courses.

Adult and Organizational Development Minor

Overview

A **Minor in Adult and Organizational Development (AOD)**, offered by the Department of Policy, Organizational and Leadership Studies, can complement a range of existing majors across Temple, including, among others: Human Resource Management, Psychology, Education, Business Management, Communication Management, and Social Work. The AOD minor can open up expanded career opportunities for students through our applied focus on organizational skill development, training and adult learning.

Campus Location: Main

Contact Information

Undergraduate Advising, College of Education and Human Development
edadvising@temple.edu

Armando Estrada, Program Coordinator
armando.x.estrada@temple.edu

Requirements

The minor in Adult and Organizational Development consists of 15 credit hours in Adult & Organizational Development coursework.

Students must complete the following courses:

Code	Title	Credit Hours
AOD 1016	Introduction to Adult Learning and Training	3
AOD 1166	Interpersonal Processes through the Life Span	3
AOD 2176	Team Process in Education	3
AOD 2214	Conflict Processes	3
Select one of the following:		3
AOD 2215	Mediation: Principles and Practice	
AOD 3316	Negotiation Processes	
AOD 3319	Skill Building for Social Entrepreneurship and Community Engagement	
Total Credit Hours		15

All courses must be completed with a minimum grade of C-.

Applied Behavior Analysis Certificate

Overview

The undergraduate **Certificate in Applied Behavior Analysis (ABA)**, offered by the Department of Teaching and Learning, is designed for students who would like to work in human service industries implementing interventions based in the science of behavior analysis. The undergraduate program is designed to meet the coursework requirements for the Board Certified assistant Behavior Analyst (BCaBA) credential awarded by the BACB. BCaBAs work under the supervision of BCBAAs. This program would also prepare students to apply to the MSEd in ABA program should they desire to further their studies in ABA and/or obtain the coursework required for the BCBA credential.

The program's mission is to enable its students to work proficiently with the coherent system of concepts and principles of behavior analysis, preparing them for professional careers in a variety of environments. The core principles and techniques of ABA are broadly applicable; hence, the interdisciplinary character of this program. Demand for individuals with applied behavior-analytic competencies is intense and growing, especially in social service agencies and educational institutions that serve individuals with autism or with developmental disabilities and functional deficits resulting from head injury. The program also provides competencies for diverse types of work, such as implementing effective instruction and classroom management, teaching strategies for effective behavior management in home settings, and designing and improving performance, productivity, and safety in organizations. The program is anchored upon fundamentals of the behavior analytic approach.

Number of Credits Required to Complete the Certificate: 15

The following courses must be completed with a minimum grade of C-:

Code	Title	Credit Hours
ABA 3301	Understanding Autism	3
ABA 3302	Analyzing and Changing Behavior	3
ABA 3303	Evaluating Behavior Change Intervention	3
ABA 3304	Ethics and Applied Behavior Analysis	3
Select one of the following:		3
PSY 2103	Foundations of Learning and Behavior Analysis	
ABA 2103	Concepts and Principles of Behavior Analysis	
Total Credit Hours		15

Career and Technical Education BSEd

Overview

Offered by the Department of Teaching and Learning, the **Bachelor of Science in Education in Career and Technical Education** (BSEd in CTE) is designed to prepare students who expect to teach career and technical education subjects in grades 7-12 and at the 2-year college level in public and private schools. Subject area content (occupational competency assessment credit for industry experience) and professional education content are combined with general education content (university curriculum) in order to provide the student with a general education, a field of specialization, and professional training. Moreover, the curriculum aims to combine these elements in such proportions as to give students the balanced perspective of the relation that industrial education bears to education as a whole.

BSEd in CTE students may complete one of the following **optional concentrations**:

- Business, Computer and Information Technology Education
- Marketing Education

Note: All students enrolling in the Business, Computer and Information Technology Education or Marketing Education concentrations are advised by the Office of Undergraduate Advising (edadvising@temple.edu) in the College of Education and Human Development and should meet with an advisor each semester. All other students are advised through the Center for Professional Development in Career and Technical Education (cteadv@temple.edu) in the College of Education and Human Development and should meet with an advisor each semester.

Campus Locations: Main and Online

Program Code: ED-CTE-BSED

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Occupational Competency Assessment

For both the BSEd in Career and Technical Education program as well as career and technical teacher certification, there is an occupational experience and an occupational competency testing requirement which must be met. The student must pass an occupational competency assessment (or the equivalent) and have completed four years of occupational wage-earning experience (or 8,000 hours) beyond the time needed to learn the occupation. Learn more about eligibility requirements and how to apply for the OCA exam or credential review.

Licensure/Certification

The BSEd in Career and Technical Education program consists of a total of 123 credits, of which sixty (60) of those credits may be used to secure a Career and Technical Instructional I and Career and Technical Instructional II certification. In addition, the student can also be awarded 24 credits for passing an Occupational Competency Assessment.

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices, and academic progress.
2. Certain courses fulfill multiple requirements. In consultation with the advisor, students will be able to plan their curriculum more effectively.
3. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisites and Co-requisites Policy (p. 1860) in the university-wide Academic Policies section in this Bulletin.

Career and Technical Certification Options for Practicing Teachers

Cooperative Education Certification

School personnel interested in teaching and supervising students in work-based settings in Pennsylvania must be certified in Cooperative Education. This certification covers a variety of work-based settings for secondary students, including capstone programs, diversified occupations programs, shadowing experiences, work experience programs, internships, and job shadowing. The skill and knowledge included in this certification program also has application to post-secondary and adult settings.

Persons wishing to become teachers of cooperative education must apply to the program and provide information about their education and experiential backgrounds. Based on the information provided, a program of studies, which includes an internship, is prepared. Persons who enter this program holding a valid teaching certificate will work toward earning an "add-on" certificate in Cooperative Education, while others will work toward a "stand-alone" certificate. Persons wishing to enroll in this program should contact an advisor.

Learn more about cooperative education certification.

Career & Technical Certification Program

This curriculum, which is offered in cooperation with the Pennsylvania Department of Education, is designed to prepare in-service teachers of career and technical education (industrial) subjects at the secondary, post-secondary, and 2-year college levels in public and private schools. Career and Technical Teacher Education courses may be taken on three levels: certification, undergraduate, and graduate. Persons who meet Pennsylvania Statutory requirements and who have at least four years (or 8,000 hours) of work experience beyond the learning period in a trade, technical, or other selected occupation may prepare for certification to teach occupational subjects or related classes in secondary level schools in Pennsylvania.

This program prepares students for Career and Technical Instructional I certification in Pennsylvania and, in general, is acceptable in other states. Work taken toward the certification objective may be applied to the undergraduate degree program. The courses are offered on a part-time basis for those who are employed as secondary level teachers in Pennsylvania.

Learn more about the undergraduate non-degree Career and Technical Education program requirements.

1

General Education course requirements can be found in the University Bulletin.

2

Completion of 1) SPED 2231, 2) EDUC 2109 and 3) TESL 3631 constitute a wavier for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

Cooperative Education Certification:

1. This program completes 2 of the 3 course requirements for the Cooperative Education Certification.
2. The Cooperative Education NOCTI exam must also be passed.
3. See the Cooperative Education Program Coordinator for more details.

Career and Technical Education BSEd with Business, Computer and Information Technology Education

Overview

The **Bachelor of Science in Education in Career and Technical Education** (BSEd in CTE) is offered by the Department of Teaching and Learning.

Students may complete one of the following **optional concentrations**:

- Business, Computer and Information Technology Education
- Marketing Education

The **BSEd in CTE with the optional concentration in Business, Computer and Information Technology Education** (BCITE) is designed to prepare students who expect to teach business subjects in K-12 and at the 2-year college level in public and private schools. Subject area content (academic specialization) and professional education content are combined with general education content (university curriculum) in order to provide the student with a general education, a field of specialization, and professional training. Moreover, the curriculum aims to combine these elements in such proportions as to give students the balanced perspective of the relation that business education bears to education as a whole.

Note: All students enrolling in the Business, Computer and Information Technology Education or Marketing Education concentrations are advised by the Office of Undergraduate Advising (edadvising@temple.edu) in the College of Education and Human Development and should meet with an advisor each semester. All other students are advised through the Center for Professional Development in Career and Technical Education (cteadv@temple.edu) in the College of Education and Human Development and should meet with an advisor each semester.

Campus Location: Main

Program Code: ED-CTE-BSED

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

3. See the Cooperative Education Program Coordinator for more details.

Diversity and Inclusion Certificate

Overview

The **Certificate in Diversity and Inclusion** is offered by the Department of Psychological Studies in Education. Students who earn this certificate will be able to negotiate issues of power in a variety of settings, and will be positioned to act as advocates and organizers for people who have been systemically marginalized based on a variety of socially constructed characteristics including race, socioeconomic status, disability, immigration status and ethnicity. A certificate in Diversity and Inclusion enables and empowers our students to be leaders in both public and private sectors. Requirements of the certificate include four three-credit courses, and a comprehensive reflective paper.

Early Childhood-Elementary Education (PreK-4) BSEd

Overview

Offered by the Department of Teaching and Learning, the **Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4)** is designed to prepare teachers to work in programs serving children in pre-kindergarten, kindergarten, primary and early intermediate grades. The program aims to help students gain an appreciation and understanding of child development and learning, build conceptual and practical expertise about effective instruction, acquire a sound philosophy of education, and develop personally and professionally.

One hallmark of the program is the variety of exciting and diverse field experiences. By working directly with children many times over the course of several semesters prior to student teaching, students in the program gain hands-on experience with children of various ages and backgrounds, gaining insight into the creation of effective learning situations which meet the needs of all learners.

Students may complete the **optional concentration** in Special Education.

Campus Location: Main

Program Code: ED-ECED-BSED

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Accelerated +1 Programs

The College of Education and Human Development offers accelerated programs, including the opportunity for Early Childhood-Elementary Education (PreK-4) majors to pursue the Early Childhood-Elementary Education (PreK-4) BSEd and Special Education MEd accelerated program. Qualified students earn a bachelor's and a master's degree in a five-year course of study. Learn more about the College of Education and Human Development's +1 Accelerated Programs.

Summary of Requirements

University Requirements

- All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum (except where a waiver is noted).
- All students must take a minimum of two writing-intensive (WI) courses at Temple University. The specific writing-intensive courses required for this major are ECED 3296 and SPED 4198.

College Requirements

- Students must be accepted into the certification program prior to taking methods courses; for further details, see "Candidacy" under College Requirements (p. 559).
- Additional University and College requirements are located on the College of Education and Human Development's Academic Policies and Regulations (p. 555) page in this *Bulletin*.

1

Completion of 1) MATH 1015, 2) MATH 1021 or EDUC 1016 and 3) ECED 3107 constitute the waiver for the GenEd Quantitative Literacy (GQ) category if the courses are completed with a C- or better.

2

Completion of 1) SPED 2231, 2) ECED 2101 and 3) TESL 3631 constitute the waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits (Intellectual Heritage I: The Good Life or Intellectual Heritage II: The Common Good); no 0700 or pre-college level courses can count toward these requirements.

4

Students selecting MATH 1021 should do so in consultation with a CEHD academic advisor.

Early Childhood-Elementary Education (PreK-4) BSEd with Special Education Concentration

Overview

Offered by the Department of Teaching and Learning, the **Bachelor of Science in Education in Early Childhood-Elementary Education (PreK-4) with optional Concentration in Special Education (K-8)** is designed to prepare teachers to work in programs serving diverse learners in a variety of settings in grades pre-kindergarten through four. In addition to certification in early childhood-elementary education, students in this concentration will learn to implement evidence-based instructional practices in classrooms with students of diverse abilities. Furthermore, students will apply their skills in a variety of field experiences including a practicum for diverse learners focused on addressing the needs of special education students and English language learners.

Note: Students must declare the special education concentration (a.k.a. dual certification) prior to the sixth semester as it appears in the eight-semester matrix.

Campus Location: Main

Program Code: ED-ECED-BSED

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Accelerated +1 Programs

The College of Education and Human Development offers accelerated programs, including the opportunity for Early Childhood-Elementary Education (PreK-4) majors to pursue the Early Childhood-Elementary Education (PreK-4) BSEd and Special Education MEd accelerated program. Qualified students earn a bachelor's and a master's degree in a five-year course of study. Note: Students majoring in Early Childhood-Elementary Education (PreK-4) with the optional concentration in Special Education are **not eligible** for the Early Childhood-Elementary Education (PreK-4) BSEd and Special Education MEd accelerated program. If students are interested in the accelerated program, they should meet with an academic advisor.

Education Minor

Overview

The **Minor in Education** is designed for Temple University undergraduate students who have either a professional or personal interest in education, urban schools, or children but are majoring in another discipline. The Education minor provides undergraduate students with broad, foundational knowledge about the state of education, adolescent development, and community and school relationships. Students whose research interests are content-based, such as political science, history, and geography and urban studies, but have connections to education will benefit from exposure to schools through field placements and education theory. This minor is also ideal for students who plan to enter occupations in fields such as policy, counseling, and child psychology, which have connections to education. Finally, this minor is an opportunity for students to investigate careers in education. Through coursework and field experiences students will be interacting with education majors and working in schools, thus providing them with a sample of some of the work that pre-service teachers do. This carefully designed sequence of courses includes field experiences such as tutoring, observations in after school programs, and work in community centers to support in-class learning.

Campus Location: Main

Contact Information

Undergraduate Advising, College of Education and Human Development
edadvising@temple.edu

Tim Fukawa-Connelly, Program Coordinator
tim.fc@temple.edu

Requirements

This minor consists of 18 credits. Students must take the following six courses:

Code	Title	Credit Hours
EDUC 2103	Socio-cultural Foundations of Education in the United States	3
EDUC 2109	Adolescent Development for Educators	3
ECED 4106	The Learning Community: Family and Community Relationships	3
EDUC 4441	Discourse Practices in Diverse Communities	3
URBE 4496	Understanding Urban Communities	3
EDUC 4091	Capstone Project: Minor in Education	3
Total Credit Hours		18

English Language Teaching Certificate

Overview

Designed for students in almost any program throughout the university, the **Certificate in English Language Teaching**, offered by the Department of Teaching and Learning, equips participants with a foundational understanding of language structure and development and strategies for teaching and working with English language learners beyond the K-12 classroom (in the U.S.).¹ Grounded in a socio-cultural perspective, the program provides first-hand practical experience to build language teaching skills, including lesson planning/delivery, curriculum development, and assessment. Upon completion, students will find themselves knowledgeable of the cultural, social, and political complexities of language education, learning and use, and be able to skillfully draw on this awareness in a broad range of international, professional, and teaching contexts. This program is ideal for those who want to develop a solid foundation for teaching English to non-native speakers.

1

This certificate does not lead to Pennsylvania Department of Education teacher certification; it is not intended for teacher education students. Students enrolled in teacher education majors (programs) are advised to enroll in courses that lead to Pennsylvania Department of Education certification in Teaching English (ESL) K-12. Students enrolled in a teacher education program leading towards Pennsylvania Instructional I certification (and those who currently hold this certification) should contact College of Education and Human Development advising at edadvising@temple.edu for information on courses toward Teaching English K-12 (ESL).

Human Development and Community Engagement BS

Overview

Offered by the Department of Psychological Studies in Education, the **Bachelor of Science in Human Development and Community Engagement** (HDCE) prepares students to influence the programs, policies and practices of schools, agencies and governmental bodies. Graduates with this major will be prepared for careers in areas such as non-profit programming, human services, and other fields that require the application and understanding of human development. This program provides the training needed to understand factors that impede or facilitate the cognitive, social and physical development of individuals, particularly in urban communities.

This program includes coursework in child development, intercultural communication, research and program evaluation methods, organizational development, urban education, and leadership. The HDCE major nurtures future professionals who are committed to serving their community. A unique feature of the major is the opportunity for undergraduate students to gain practical, hands-on experience through a year-long practicum and internship at a local community organization.

In order to tailor the degree to students' interests and goals, students **are required to select and complete courses in one of the following concentrations:**

- **Applied Behavior Analysis:** Students will specialize their knowledge in Applied Behavior Analysis. They will learn to apply behavior analytic skills to tackle problems important to society in a variety of settings such as educational institutions, behavioral health, and community organizations. This coursework meets the coursework requirements for the Board-Certified assistant Behavior Analyst Examination® and is a BACB verified course sequence.
- **Community Education:** Students concentrating in Community Education are interested in working in community related educational settings. They will master the theories and the techniques of teaching effectively outside the classroom. They will learn to tailor instructional approaches to the unique circumstances of widely diverse communities. Students with this concentration are interested in pursuing job opportunities at out-of-school-time programs, early learning centers, community and recreation centers, museums and more.
- **Human Services:** Human services is a broadly defined field that seeks to improve the overall quality of life of individuals (with particular focus on children and vulnerable populations) through the prevention and remediation of problems. Students will gain theoretical and practical understanding

of various psychological constructs at the individual and societal levels. This concentration prepares students for entry-level positions and graduate degree programs in fields such as school psychology, counseling psychology, and social work.

- **Non-Profit Management and Social Entrepreneurship:** Students concentrating in Non-Profit Management and Social Entrepreneurship will gain an understanding of the non-profit sector and for-profits focused on social, cultural, and environmental change. They will gain insight about the issues that leaders face in this growing field and learn how to communicate in order to lead systemic change in communities and organizations. They will also learn about the design and structure of financial management, nonprofit and social enterprise organizations, revenue generation, and strategic and project-based management.

Campus Location: Main

Program Code: ED-HDCE-BS

Accelerated +1 Programs

The College of Education and Human Development offers accelerated programs, including the opportunity for Human Development and Community Engagement majors to pursue the following +1 Accelerated Programs:

- +1 Accelerated Program in Human Development and Community Engagement BS + Applied Behavior Analysis MEd
- +1 Accelerated Program in Any Temple Major + Advocacy and Organizational Development MEd
- +1 Accelerated Program in Any Temple Major + Higher Education MEd
- +1 Accelerated Program in Any Temple Major + Teaching English to Speakers of Other Languages MEd

Qualified students earn a bachelor's and a master's degree in a five-year course of study. Learn more about the College of Education and Human Development's +1 Accelerated Programs.

Summary Of Requirements

University Requirements

- All students must complete Temple University's General Education (GenEd (p. 83)) curriculum.
- All students must take a minimum of two writing-intensive courses at Temple University (including transfer students). The specific writing-intensive courses required for this major are AOD 3396 and URBE 4496.

College Requirements

- Refer to the College Requirements (p. 559) for specific information.

Program Requirements

- Students must complete 42 credit hours in the major, including a community internship of 6-12 credits.
- All courses in the major must be passed with a grade of "C-" or better and students must maintain a 2.0 cumulative GPA.

Code	Title	Credit Hours
AOD 1166	Interpersonal Processes through the Life Span	3

1

A content course is a course that is part of any program/major offered in the University. All four content courses must come from the same program/major.

2

All Professional Seminars (HDCE 3332, HDCE 3333, and HDCE 3334) must be completed before taking the Practicum in Applied Development (HDCE 4187).

3

Students are able to elect to take an Internship for 6/9/12 credits and must earn at least 122 credits for this degree.

Students are required to choose one of the following concentrations:

Applied Behavior Analysis Concentration:

Code	Title	Credit Hours
ABA 2103	Concepts and Principles of Behavior Analysis	3
ABA 3301	Understanding Autism	3
ABA 3302	Analyzing and Changing Behavior	3
ABA 3303	Evaluating Behavior Change Intervention	3
ABA 3304	Ethics and Applied Behavior Analysis	3
Total Credit Hours		15

Community Education Concentration:

Code	Title	Credit Hours
AOD 2218	Leadership in Organizations	3
SPED 2231	Introduction to Special Education	3
EDUC 2296	Effective Teaching: Theory and Practice	3
URBE 4301	Partnerships between Schools and Communities	3
HDCE 4302	Economics for Education	3
Total Credit Hours		15

Human Services Concentration:

Code	Title	Credit Hours
SPED 2231	Introduction to Special Education	3
CPSY 2301	Helping Professions for Diverse Populations	3
CPSY 2302	Can We Talk? Real World Interviewing	3
SPSY 2303	The Impact of Trauma on the Individual and Society	3
ABA 3301	Understanding Autism	3
Total Credit Hours		15

Non-Profit Management and Social Entrepreneurship Concentration:

Code	Title	Credit Hours
AOD 2176	Team Process in Education	3
AOD 2218	Leadership in Organizations	3
AOD 3318	Systems Approach to Organizational Change	3
AOD 3319	Skill Building for Social Entrepreneurship and Community Engagement	3
AOD 4376	Innovation and Mission-Driven Organizations	3
Total Credit Hours		15

Human Development and Community Engagement Minor

Overview

The **Minor in Human Development and Community Engagement** (HDCE) is designed for Temple University undergraduate students who have either a professional or personal interest in influencing the programs, policies and practices of schools, agencies, non-profit organizations and governmental bodies. This minor is also ideal for students who plan to enter occupations related to applied child development, such as child psychology, teaching,

public health, counseling and social work. Courses in applied statistics and program evaluation equip students with the skills needed to evaluate and improve community programs.

Campus Location: Main

Contact Information

Undergraduate Advising, College of Education and Human Development

Kelly McGinn, Program Coordinator
kelly.mcginn@temple.edu

Requirements

The minor in Human Development and Community Engagement consists of 18 credit hours in coursework from programs across the College of Education and Human Development.

Students must complete the following courses:

Code	Title	Credit Hours
Required Courses		
HDCE 2304	Families and the Community	3
URBE 4496	Understanding Urban Communities	3
EPSY 2325	Statistics for Decision Making	3
HDCE 4333	Program Evaluation	3
Development Course		
Select one of the following:		3
ECED 2101	Child Development, Birth to Nine	
EDUC 2109	Adolescent Development for Educators	
AOD 3317	Adult and Workforce Development	
Communication Course		
Select one of the following:		3
AOD 1166	Interpersonal Processes through the Life Span	
EDUC 4441	Discourse Practices in Diverse Communities	
Total Credit Hours		18

All courses must be completed with a minimum grade of C-.

Leadership and Military Science Certificate

Overview

The 14-credit **Certificate in Leadership and Military Science**, offered by the Department of Policy, Organizational and Leadership Studies, is designed for Temple University undergraduate students who participate in the United States Army Reserve Officer Training Corps (ROTC) program. These students have invested a large portion of time in and out of the classroom to prepare themselves to lead soldiers. This academic certificate along with their Army leadership experience makes them highly competitive and marketable to employers.

Middle Grades Education BSEd with Language Arts Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations:**

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Language Arts** will pursue certification for 7-8th grades in the area of language arts.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Learn more about the Bachelor of Science in Education in Middle Grades Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a **minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education's qualifying Praxis score standards**. All students seeking to graduate with the recommendation for certification must also meet the requirements for Candidacy.

The required total minimum credit hours for the Middle Grades Education concentration in Language Arts is 124. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

Major Requirements

Code	Title	Credit Hours
EDUC 2103	Socio-cultural Foundations of Education in the United States ¹	3
EDUC 2109	Adolescent Development for Educators ¹	3

1

The sequence of either 1) BIOL 1011 and BIOL 1012 or 2) PHYS 1021 and PHYS 1022 constitutes a waiver for both of the GenEd Science and Technology (GS) courses required in the GenEd Science and Technology (GS) category if the courses are completed with a C- or better. Students must successfully complete all requirements in one sequence or the other.

2

Completion of 1) SPED 2231, 2) EDUC 2109 and 3) TESL 3631 constitute the waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

Completion of 1) MATH 1015, 2) MATH 1021, 3) MATH 1022, and 4) MGSE 3404 constitutes a waiver for the GenEd Quantitative Literacy (GQ) category if the courses are completed with a C- or better.

4

These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits: Intellectual Heritage I: The Good Life, Intellectual Heritage II: The Common Good, or an ENG 2000 level course as specified in footnote 6; no 0700 or pre-college level courses can count toward these requirements.

5

Suggested GenEd courses: Global/World Society (GG) = ANTH 0867 or GUS 0867; Race & Diversity (GD) = AAAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929; U.S. Society (GU) = AMST 0848 or HIST 0848.

6

Choose one ENG 2000 level course from the following: ENG 2001, ENG 2003, ENG 2004, ENG 2112, ENG 2115, ENG 2501, ENG 2502, ENG 2503, ENG 2831.

Middle Grades Education BSEd with Mathematics and Language Arts Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers, particularly in math and science education, are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations:**

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Mathematics and Language Arts** will pursue dual certification for 7-8th grades in the areas of mathematics and language arts. The required minimum number of credit hours is 126.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. SPED 4103	Classroom Management and Positive Behavior Support	3
	Credit Hours	15
	Total Credit Hours	126

1

The sequence of either 1) BIOL 1011 and BIOL 1012 or 2) PHYS 1021 and PHYS 1022 constitute a waiver for both of the GenEd Science and Technology (GS) courses required in the GenEd Science and Technology (GS) category if the courses are completed with a C- or better. Students must successfully complete all requirements in one sequence or the other.

2

Completion of 1) SPED 2231, 2) EDUC 2109 and 3) TESL 3631 constitute the waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

Completion of either 1) MATH 1041/MATH 1941 or 2) MATH 1042/MATH 1942 constitutes a waiver for the GenEd Quantitative Literacy (GQ) category if the course is completed with a C- or better.

4

These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits: Intellectual Heritage I: The Good Life, Intellectual Heritage II: The Common Good, or an ENG 2000 level course as specified in footnote 6; no 0700 or pre-college level courses can count toward these requirements.

5

Suggested GenEd courses: Global/World Society (GG) = ANTH 0867 or GUS 0867; Race & Diversity (GD) = AAAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929; U.S. Society (GU) = AMST 0848 or HIST 0848.

6

Choose one ENG 2000 level course from the following: ENG 2001, ENG 2003, ENG 2004, ENG 2112, ENG 2115, ENG 2501, ENG 2502, ENG 2503, ENG 2831.

Middle Grades Education BSEd with Mathematics and Science Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers, particularly in math and science education, are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations:**

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Mathematics and Science** will pursue dual certification for 7-8th grades in the areas of math and science. The required number of credit hours is 127 credits for this concentration.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Learn more about the Bachelor of Science in Education in Middle Grades Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a **minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education's qualifying Praxis score standards.**

The required total minimum credit hours for the Middle Grades Education concentration in Mathematics and Science is 127. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses

3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

All students seeking to graduate with the recommendation for Instructional I Certification from Pennsylvania must also meet the requirements for Candidacy.

Major Requirements

Code	Title	Credit Hours
EDUC 2103	Socio-cultural Foundations of Education in the United States ¹	3

Middle Grades Education BSEd with Science and Language Arts Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades).

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop

a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations:**

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Science and Language Arts** will pursue dual certification for 7-8th grades in the ;areas of science and language arts. The required number of credit hours is 126 credits for this concentration.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Learn more about the Bachelor of Science in Education in Middle Grades Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All students must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree with a recommendation for Pennsylvania teacher certification upon the successful completion of their program requirements with a **minimum cumulative GPA of 3.0 or must meet the Pennsylvania Department of Education's qualifying Praxis score standards.**

The required total minimum credit hours for Middle Grades Education concentration in Science and Language Arts is 126. These credit hours are satisfied by taking courses in four categories:

1. University General Education requirements (General Education)
2. Education courses
3. Teacher Education Certification Courses (i.e. methods and student teaching)
4. Concentration courses

All students seeking to graduate with the recommendation for Instructional I Certification from Pennsylvania must also meet the requirements for Candidacy.

Major Requirements

Code	Title	Credit Hours
EDUC 2103	Socio-cultural Foundations of Education in the United States ¹	3
EDUC 2109	Adolescent Development for Educators ¹	3
MGSE 2111	Applications of Teaching and Learning Theories to Classroom Practice (grades 4-12)	3

1

The sequence of either 1) BIOL 1011 and BIOL 1012 or 2) CHEM 1021 + CHEM 1023 and CHEM 1022 + CHEM 1024 constitutes the waiver for both of the GenEd Science and Technology (GS) courses required in the GenEd Science and Technology (GS) category if the courses are completed with a C- or better. Students must successfully complete all requirements in one sequence or the other. Completion of PHYS 1004 with a C- or better constitutes a waiver for one (1) of the two courses required in the GenEd Science and Technology (GS) category. Completion of PHYS 1021 with a C- or better constitutes a waiver for one (1) of the two courses required in the GenEd Science and Technology (GS) category. Completion of EES 1001 with a C- or better constitutes a waiver for one (1) of the two courses required in the GenEd Science and Technology (GS) category.

2

Completion of 1) SPED 2231, 2) EDUC 2109 and 3) TESL 3631 constitutes the waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

Completion of 1) MATH 1015, 2) MATH 1021, 3) MATH 1022, and 4) MGSE 3404 constitutes a waiver for the GenEd Quantitative Literacy (GQ) category if the courses are completed with a C- or better.

4

These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits: Intellectual Heritage I: The Good Life, Intellectual Heritage II: The Common Good, or an ENG 2000 level course as specified in footnote 6; no 0700 or pre-college level courses can count toward these requirements.

5

Suggested GenEd courses: Global/World Society (GG) = ANTH 0867 or GUS 0867; Race & Diversity (GD) = AAAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929; U.S. Society (GU) = AMST 0848 or HIST 0848.

6

Choose one ENG 2000 level course from the following: ENG 2001, ENG 2003, ENG 2004, ENG 2112, ENG 2115, ENG 2501, ENG 2502, ENG 2503, ENG 2831.

Middle Grades Education BSEd with Science Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations:**

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Science** will pursue certification for 7-8th grades in the area of science.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Middle Grades Education BSEd with Social Studies Concentration

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Middle Grades Education** prepares undergraduate students for middle level teaching (fourth to eighth grades). Middle grades teachers are increasingly sought out and in high-demand in Pennsylvania as well as across the country.

The College of Education and Human Development's program in Middle Grades Education is designed to ensure not only that there are certified teachers to fill the growing vacancies, but that our students graduate highly knowledgeable about learning and teaching as well as committed to pre/adolescent learners from diverse ethnic, economic and geographic backgrounds. To that end, our program focuses on building deep content-specific pedagogical knowledge aligned to the breadth of academic standards and the wide-ranging developmental needs of middle grades students. To develop a strong link between learning theories and actual pedagogical practice, we also require that our students engage in early, often and strategic field/clinical education experiences in middle grades settings.

Our program stands out as cutting-edge because we prepare undergraduate students to teach in both the upper elementary and middle grades classrooms.

Middle Grades Education students **must select one of the following concentrations**:

- Language Arts
- Mathematics
- Mathematics and Language Arts
- Mathematics and Science
- Science
- Science and Language Arts
- Social Studies

In addition to becoming certified to teach all elementary subjects in 4-6th grades, all students in the **BSEd in Middle Grades Education with a Concentration in Social Studies** will pursue certification for 7-8th grades in the area of social studies.

Campus Location: Main

Program Code: ED-MGRE-BSED

GPA Requirements

In order to maintain good standing in Middle Grades Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their concentration area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

1

The sequence of either 1) BIOL 1011 and BIOL 1012 or 2) PHYS 1021 and PHYS 1022 constitutes a waiver for both of the GenEd Science and Technology (GS) courses required in the GenEd Science and Technology (GS) category if the courses are completed with a C- or better. Students must successfully complete all requirements in one sequence or the other.

2

Completion of 1) SPED 2231, 2) EDUC 2109, and 3) TESL 3631 constitutes the waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

3

Completion of 1) MATH 1015, 2) MATH 1021, 3) MATH 1022, and 4) MGSE 3404 constitutes a waiver for the GenEd Quantitative Literacy (GQ) category if the courses are completed with a C- or better.

4

These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits: Intellectual Heritage I: The Good Life, Intellectual Heritage II: The Common Good, or an ENG 2000 level course, as specified; no 0700 or pre-college level courses can count toward these requirements.

5

Suggested GenEd courses: Global/World Society (GG) = ANTH 0867 or GUS 0867; Race & Diversity (GD) = AAAS 0829, ANTH 0829, GUS 0829, HIST 0829, POLS 0829, SOC 0829 or SOC 0929; U.S. Society (GU) = AMST 0848 or HIST 0848.

Secondary Education / English Education BSEd

Overview

The **Bachelor of Science in Education in Secondary Education / English Education** is offered by the Department of Teaching and Learning.

Students must complete all coursework and fieldwork requirements needed to make them eligible for Pennsylvania certification in Secondary Education: English. Passing the required Praxis exam(s) as stipulated by the Pennsylvania Department of Education is required to apply for Pennsylvania certification.

Students wishing to complete the full English major should meet with a College of Education and Human Development academic advisor to declare English as a second major; students may need to take additional courses as defined by the English BA (p. 1010) in the College of Liberal Arts (CLA).

In order to assure that students gain the content knowledge specified by the Pennsylvania Department of Education, we strongly recommend students choose English electives that include the following areas: Linguistics, Shakespeare and African American literature.

Campus Location: Main

Program Code: ED-SEEN-BSED

GPA Requirements

In order to maintain good standing in Secondary Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their content area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Learn more about the Bachelor of Science in Education in Secondary Education / English Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their content area courses.

For additional college and certification requirements, refer to the College Requirements page (p. 559).

Overview

The **Bachelor of Science in Education in Secondary Education / Social Studies Education** is offered by the Department of Teaching and Learning.

Students must complete all coursework and fieldwork requirements needed to make them eligible for Pennsylvania certification in Secondary Education: Social Studies. Passing the required Praxis exam(s) as stipulated by the Pennsylvania Department of Education is required to apply for Pennsylvania certification.

Students wishing to complete a second major in History, Political Science, Economics, Sociology or Geography and Urban Studies should meet with a College of Education and Human Development academic advisor to declare the desired second major; students may need to take additional courses as defined by the College of Liberal Arts (CLA).

Campus Location: Main

Program Code: ED-SESS-BSED

GPA Requirements

In order to maintain good standing in Secondary Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their content area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

Learn more about the Bachelor of Science in Education in Secondary Education / Social Studies Education.

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All students (including transfer students) must take a minimum of two writing-intensive (WI) courses at Temple University. Writing intensive course numbers end in 96, 97 and 98.

College Requirements

Students receive a Bachelor of Science in Education degree by meeting the following minimum College requirements:

- Completion of program requirements as detailed on the academic plan.
- Earn a "C-" or above in all required Education Courses.
- Earn a "C-" or above in all required University General Education Courses.
- Students in Secondary Education must maintain a 3.0 cumulative GPA and a 2.0 GPA in their second program (major) courses.

For additional college and certification requirements, refer to the College Requirements page (p. 559).

¹
Second Program (Major) course selection must be aligned with the degree requirements of the Bachelor of Arts degree as specified in the College of Liberal Arts degree requirements; courses should be selected so that the second major can be completed.

²
Completion of 1) SPED 2231, 2) EDUC 2109 and 3) TESL 3631 constitute a waiver for the GenEd Human Behavior (GB) category if the courses are completed with a C- or better.

³
These courses must be completed with a C- or better to be eligible for Candidacy approval. Pre-Candidacy coursework includes a variety of courses, including a minimum of 1) two college-level math courses totaling at least six credits, 2) one college-level writing/composition course with a minimum of three credits (GenEd Analytical Reading and Writing), and 3) one literature course with a minimum of three credits (Intellectual Heritage I: The Good Life, Intellectual Heritage II: The Common Good, or an ENG (literature, but not children's literature) course). No 0700 or pre-college level course can count.

Students selecting MATH 1021 should do so in consultation with a CEHD academic advisor.

Secondary Education / World Languages Education BSEd

Overview

The **Bachelor of Science in Education in Secondary Education / World Languages Education** is offered by the Department of Teaching and Learning.

In the state of Pennsylvania, certification in a world language is a K-12 certificate. World Language certification at Temple University College of Education and Human Development is available in Chinese, French, German, Italian, Latin, and Spanish.

Students must complete all coursework and fieldwork requirements needed to make them eligible for Pennsylvania certification in Secondary Education: World Languages. Passing the required Praxis exam(s) as stipulated by the Pennsylvania Department of Education is required to apply for Pennsylvania certification.

Students wishing to complete a second major in Chinese (p. 982), French (p. 1021), German, Italian (p. 1079), Latin (p. 992), or Spanish (p. 1166) should meet with a College of Education and Human Development academic advisor to declare the desired second major; students may need to take additional courses as defined by the College of Liberal Arts (CLA).

Study Abroad

Secondary Education / World Languages Education majors are encouraged to study overseas, when possible, in relevant foreign language speaking areas through Temple or external study abroad programs. Temple offers semester and year-long programs at Temple campuses in Rome and Oviedo, Spain, as well as exchange options at the University of Puerto Rico and Universities of Hamburg and Tübingen in Germany. Temple offers various summer language programs in Rome, Germany, Spain and France. The Latin American Studies Semester program is an immersion experience available at Temple's Main Campus to all Spanish majors during spring semesters. Students interested in study abroad should consult with the office of Education Abroad and Overseas Campuses and College of Education and Human Development Academic Advising to explore program options and develop a study abroad academic plan in advance.

Campus Location: Main

Program Code: ED-SEWL-BSED

GPA Requirements

In order to maintain good standing in Secondary Education, students must maintain a 3.0 cumulative grade point average and a 2.0 grade point average in the course work in their content area.

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Special Education (Pre-K-12) BSEd

Overview

Offered by the the Department of Teaching and Learning, the **Bachelor of Science in Education in Special Education (Pre-K-12)** equips teachers with deep understandings of the sociocultural context of education, high-impact instructional practices, and empirically-supported, preventative approaches to provide equitable education to children with disabilities.

The program features uphold and further both the College of Education and Human Development's and the university's mission in the following ways:

- Promoting evidence-based practice and effective implementation in the classroom;
- Recognizing and ameliorating the impact of socio-cultural factors on the education of children with disabilities;
- Advocating inclusive practices both within schools and within society as a whole; and,
- Emphasizing preventative approaches to support improved teaching and learning.

Campus Location: Main

Program Code: ED-SPPK-BSED

Accreditation

The program is approved as a teacher preparation program by the Pennsylvania Department of Education.

Licensure/Certification

Upon successful completion of the program requirements, candidates may apply for a Pennsylvania Instructional I Teaching Certificate. Please note, Pennsylvania requires assessment of candidates in General Knowledge, Professional Knowledge and/or Subject Area Knowledge prior to issuance of a certificate. Please refer to the PDE web site for testing requirements.

4

Students selecting MATH 1021 should do so in consultation with a CEHD advisor.

College of Engineering

Overview

This is a time of tremendous opportunity for engineers. The demand for professionals with the capability to make a difference to our planet, improve our infrastructure, make health-related advances and innovate technology have never been greater.

Temple's College of Engineering (COE) is a rising institution—consistently improving in the rankings and with rapid expansion of research. The college offers the best of both worlds, a tight knit community and small class sizes with large university amenities. While the college is experiencing rapid changes, one thing has been constant—the commitment to provide a high-quality education to a diverse and vibrant student population.

The college's programs are accredited by the national accreditation board, ABET. Upgrades to the curriculum are always ongoing so that students receive the best cutting-edge and relevant knowledge. This is evident in the excellent job placement rates—among the highest at the University—with our graduates hired by companies like Comcast, GE, Johnson & Johnson, Verizon, Boeing, Lockheed Martin, Pennoni Construction, NASA, PennDot, PGW, Turner Construction, Metrologic and many more.

Mission

The College of Engineering's mission is to provide students with a high-quality and globally-competitive learning experience in engineering, engineering technology and the applied sciences. We aim to equip our engineering graduates to be confident professionals with the technical, problem-solving and communication skills required to succeed in industry and contribute to the betterment of our society.

The college fosters the creation of knowledge through engineering and cross-disciplinary applied research. Great value is placed on scholarship, integrity, practice and service aimed at improving the quality of life and the economic viability of our society. This value system is reflected in how we assess faculty for promotion and tenure and how we grade student work.

We strive to pursue these objectives in a learning environment that celebrates ethnic and gender diversity, respects experience and encourages problem-solving through teamwork.

The college offers undergraduate curricula in engineering and engineering technology. Our engineering programs, leading to the Bachelor of Science in Engineering degree, prepare students for positions in engineering that require a broad preparation in mathematics and the engineering sciences at the entry level. They are recommended for those who expect to become registered professional engineers, pursue an advanced degree, or become involved in conceptual design, planning, research and development in industry. The programs in engineering technology, which lead to the Bachelor of Science in Engineering Technology degree, educate students for careers as applied engineering professionals, translating concepts into functioning systems and supervising subsequent implementation by technicians and craftsmen.

Academic Departments

The College of Engineering consists of the following departments:

- Bioengineering
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Engineering, Technology and Management
- Mechanical Engineering

Accreditation

The Bioengineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs.

The Civil Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs.

The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.

The Environmental Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Environmental Engineering and Similarly Named Engineering Programs.

The Mechanical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Mechanical and Similarly Named Engineering Programs.

The Construction Engineering Technology (BS) program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Construction Engineering Technology and Similarly Named Programs.

The Engineering Technology (BS) program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria.

ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

Study Abroad at Temple Rome

Temple engineering students have an exciting opportunity to take a semester abroad in Rome, Italy. Sophomore Mechanical and Civil Engineering majors may study at the Temple Rome campus, with access to cultural activities and organized outings, located just north of Piazza del Popolo—a short distance from the Spanish steps. This unique study abroad program allows you to take the same classes in Rome as you would on main campus—three engineering classes—plus Italian I. Temple's College of Engineering is one of the few able to offer engineering coursework so that you won't miss a beat in the demanding engineering curriculum.

Cooperative Education and Internship

Students in the cooperative education (co-op) program work a minimum of 35 hours a week in positions related to their degree, while considered full-time students, gaining at least one semester of professional relevant work experience. These students have the same course requirements so it may take additional time to complete the degree. College of Engineering students may register and receive technical elective credits for their work experience with the co-op courses (ENGR 2181, ENGR 3181).

Relevant work experience may also be gained through internships. The positions are typically available during the summer terms, allowing students to stay on the traditional four-year academic plan while obtaining professional engineering experience.

A dedicated career development team in the College of Engineering Dean's Office helps guide students through the co-op program and advises on career resources. For more information contact Michael Madera by phone at 215-204-2537 or by e-mail at michael.madera@temple.edu.

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study.

The +1 program is offered in the following areas:

- Bachelor of Science in Bioengineering and Master of Science in Bioengineering
- Bachelor of Science in Civil Engineering and Master of Science in Civil Engineering
- Bachelor of Science in Civil Engineering and Master of Science in Environmental Engineering
- Bachelor of Science in Electrical Engineering and Master of Science in Electrical Engineering
- Bachelor of Science in Electrical Engineering (Computer Engineering concentration) and Master of Science in Electrical Engineering
- Bachelor of Science in Environmental Engineering and Master of Science in Environmental Engineering
- Bachelor of Science in Mechanical Engineering and Master of Science in Mechanical Engineering

Learn more about the admissions requirements and how to apply.

Student Organizations

The following are a few of the professional societies and organizations located within the College of Engineering:

- American Society of Heating, Refrigeration, and Air Conditioning
- American Society of Civil Engineers
- American Society of Highway Engineers
- American Society of Mechanical Engineers
- Biomedical Engineering Society
- Construction Management Association of America
- Engineers Without Borders
- Eta Kappa Nu Honor Society - (IEEE-HKN)
- Institute of Electrical and Electronics Engineers
- Institute of Industrial and Systems Engineers
- Materials Research Society of Temple University
- National Society of Black Engineers
- Society of Asian Scientists and Engineers

- Society of Automotive Engineers (Temple Formula Racing)
- Society of Environmental Engineers and Scientists
- Society of Hispanic Professional Engineers
- Society of Women Engineers
- TUARC - K3TU: The Temple University Amateur Radio Club
- Temple Prosthetics and Orthotics
- Temple Robotics
- Theta Tau Colony

Special Facilities

The college is continuously investing in resources in order to provide the best education and advancements through research. Our more than 20 labs, institutes and centers and more than a dozen teaching labs are home to state-of-the-art equipment and tools. Temple Engineering recently debuted the **Innovation, Design, Engineering and Applied Science (IDEAS) Hub**, a 7,000 square-foot renovation that is part of a collaborative ecosystem in the college. The IDEAS Hub will empower students to use engineering for good. From 3D printing, motion capture and drone stations to robotics, soldering an circuitry, our students and faculty have the tools to do more than learn engineering, they can now make their ideas for changing the world a reality. Learn more about our research and lab facilities.

Additionally, students have access to the Ambler Arboretum at Temple University, the Temple University Field Station at Ambler, and the Temple University Ambler Campus Greenhouse Education and Research Complex where faculty and students can use these resources in coursework and research.

- Mechanical Engineering BSME (p. 772)
- Mechanical Engineering BSME with Cooperative Education Program Concentration (p. 779)
- Mechanical Engineering Technology BSMET (p. 784)

Academic Policies and Regulations

Please see the full listing of university-wide Academic Policies (p. 1835). The university policies and regulations generally apply to all undergraduate students and provide a framework within which schools and colleges may specify further conditions or variations appropriate to students in their courses or programs. Students are responsible for complying with all university-wide academic policies that apply to their individual academic status.

Changing Majors

Current students within the College of Engineering should schedule an academic advising appointment to discuss changing their major. Advisors will review how major changes might impact the student's overall graduation plan.

Students outside of the College of Engineering must complete the Change of Program (COP) form found on the Temple University COP Canvas. Students wishing to transfer into the College of Engineering should be in Academic Good Standing with a cumulative GPA of 2.0 or higher.

Co-requisites and Prerequisites

Students may be de-enrolled from courses for which they do not meet prerequisites and co-requisites. (Please see the Prerequisites and Co-requisites (p. 1860) policy for more information.) Students are responsible for reviewing and abiding by all course prerequisites and co-requisites in the Course Catalog. The requirements are designed to assure that students are appropriately prepared to be successful in their courses. Prerequisites provide an efficient manner for students to register for the next course in a sequence for which they are prepared. Students who appropriately satisfy prerequisites are permitted to register for a first and second attempt. Completion of a prerequisite does not permit a student to enroll in the third attempt of a repeated course. Students may attempt a course for the third time only if they have received permission from the college, which is not guaranteed and may require additional coursework (See the Repeating a Course Policy below).

Courses Inapplicable to Graduation

Lower-level military science (ROTC) and RCC-enhanced courses are not credited toward the minimum semester hours required for graduation.

Students will not be awarded duplicate credit for courses that are repeated in transfer or at Temple.

Credit for Life Experience

Degree seeking students may be granted academic credits for work experience if it is judged to be an adequate substitute for all or part of particular courses required of the student. Experience must be related to a specific course in the curriculum offered by the college. Work experience must be acquired before entering Temple University. Credit will only be granted after completion of 30 semester hours of coursework. Application forms are available in the Center for Academic Advising and Student Affairs (Engineering Building, Room 349).

Dean's List

Each fall and spring semester, those undergraduates who have met the credit hour and academic criteria for their school or college are placed on the Dean's List. See the Dean's List (p. 1849) policy for specific GPA and credit-hour requirements.

Fly in 4

Fly in 4 is a partnership between incoming freshmen and the University. It limits the number of hours per week that students have to work for pay and guarantees that students can graduate in four years, potentially saving them thousands of dollars in debt. For more information on this program, see Undergraduate Admissions.

Graduation Procedures

All College of Engineering students should complete a graduation review with an advisor in the Center for Academic Advising and Student Affairs prior to or at the start of their senior year. Students should schedule a review once they have completed 85 semester hours. The graduation review involves a detailing of the courses and credits completed and those that remain to be completed for graduation. Students are expected to be active participants in the review and have equal responsibility for assuring the accuracy and completeness of the review.

Early in the semester in which students will complete their degree requirements, they must apply online via Self-Service Banner (SSB). For application deadlines, see the university's Undergraduate Graduation Procedures (p. 1854).

Non-Traditional Credits

A maximum of 12 semester hours of credit will be allowed by the COE in cooperative education, relevant work experience, approved ROTC courses, and Advanced Placement or CLEP examinations. No other non-traditional credit will be granted.

Overload Requests

Students within the College of Engineering may seek approval to overload by petitioning through the Center for Academic Advising and Student Affairs. An overload petition is required when requesting to take more than 18 credits in either the fall or spring semesters or more than 8 credits in either summer session. Credits over 18 carry additional tuition charges (p. 1800). The following items are considered when reviewing an overload petition:

- Current Academic Standing
- The number of credits successfully completed in previous semesters
- Rigor of the course load requested

Permission to Take Courses at Another Institution

Students in the College of Engineering who wish to take courses at another institution must petition the Center for Academic Advising and Student Affairs for approval prior to enrolling in such a course. Petition forms are available in the Center for Academic Advising and Student Affairs, Engineering Building, Room 349. The student is responsible for obtaining a course description from the other institution and attaching it to the petition form. The student takes the petition to the corresponding Temple department for faculty review and then submits the petition to the Center for Academic Advising and Student Affairs for final approval.

Courses taken without prior approval will not be transferable toward the Temple degree. In addition, students must have completed the prerequisites and have completed or be completing any listed co-requisites of both the Temple equivalent course and course at the host institution.

Please see the University policy on Permission to Complete a Course at Another Institution after Matriculation (p. 1858) for more information.

Plagiarism and Academic Dishonesty

Plagiarism and academic dishonesty are prohibited by the College of Engineering. The development of independent thought and a respect for the thoughts of others is essential to intellectual growth. The prohibition of plagiarism and cheating is intended to foster this independence and respect. See the policy on Plagiarism (p. 1860) in this *Bulletin*.

The penalty for plagiarism or cheating as a first offense is normally an F in the course in which the offense is committed. In such cases, the instructor can either write a report or complete the Settlement of a Charge of Academic Dishonesty form and send it to the Center for Academic Advising and Student Affairs. The Center for Academic Advising and Student Affairs will forward to the Office of Student Conduct and Community Standards. The Office of Student Conduct and Community Standards generally adjudicates all cases and student appeals.

Repeating a Course

Students may attempt a course two times without restriction. Students in the College of Engineering are encouraged to meet with an advisor prior to attempting a course for the second time. A third attempt of any course is not guaranteed and requires permission of the student's home college. Petitions for a third attempt may require additional coursework, remediation and/or academic/personal planning. Please refer to the University policy on Repeating a Course (p. 1860) for further information.

College Graduation Requirements

Anticipation of Graduation

All College of Engineering (COE) students who intend to graduate in May, August or January must complete a graduation review. Students must also submit a graduation application at the beginning of their final semester.

College Requirements for all Majors

Engineering Program

- 30 minimum credits in Math and Science
- 25 minimum credits in University General Education
- 50-65 credits in major (varies with major), minimum 2.0 GPA in the major
- 128 minimum credits total

Engineering Technology (CET, ET, & MET) programs

- 24 minimum credits in Math and Science
- 25 minimum credits in University General Education
- 50-60 credits in major (varies with major), minimum 2.0 GPA in the major
- 124 minimum credits total

Notes:

1. The total number of credit hours at graduation may be greater for some students based on initial placement exams, transfer evaluations, individual curricular choices and academic progress.
2. Students must fulfill the necessary prerequisites for any given course or course sequence. See the Prerequisite and Co-requisite Policy (p. 1860) in the university-wide Academic Policies section in this *Bulletin*.
3. The engineering programs are structured to prepare students for the professional practice of engineering and/or graduate study. The curricula emphasize a rigorous treatment of the mathematical and scientific approaches to the solution of engineering problems.
4. The final two years of study stress the synthesis of unique solutions rooted in the fundamental principles mastered during the first two years. These final years culminate in a design project.

Program Performance

A minimum cumulative GPA of 2.0 is required for graduation. Students majoring in engineering must attain a minimum GPA of 2.0 in their major courses in order to graduate. Students majoring in engineering technology and construction management technology must have a minimum GPA of 2.0 in their major courses.

Independent Research

Independent student work on a laboratory investigation or design project must be approved by the chairperson of the respective department and the assigned faculty supervisor. Work is graded on research methodology, research results and a report. Typically juniors or seniors with a minimum GPA of 3.0 may apply for independent research. Approved projects must be completed in one academic year.

Independent Study

A student is permitted to take no more than two independent study courses. Permission is granted only if a student needs the course to complete his/her studies. They can be taken typically in the junior and senior years. The content of the independent study work must cover the material in one of the courses listed in the curriculum. Students must complete an independent study form in their department prior to registration for the independent study.

Transfer Credit

Transfer credit to the COE can be granted only from an accredited institution of higher learning. Co-op education and credit for life experience are not transferable from other institutions. Advanced placement credits must follow Temple's advanced placement credit policy and equivalencies. Transfer credits are not granted after a student has matriculated into a degree program. Students may take courses at other institutions and have transfer credits awarded provided they are meeting Temple's Permission to Complete Courses at Another Institution After Matriculation (p. 1858) guidelines. The dean must approve permission for such arrangements in advance. *Senior Design Projects or Capstone courses* are not transferable to the college.

Academic Advising

All students in the College of Engineering (COE) have the flexibility to meet with any of the academic advisors in the Center for Academic Advising and Student Affairs once they have officially matriculated in the College of Engineering. The student's academic advisor will confirm that the courses selected yield credits toward a degree and that the requirements of Temple University, COE, and the academic department are being met. Reference should be made to this *Bulletin* and to DARS in planning programs.

Academic advisors attempt to avoid errors when advising students about their program requirements, but schools and colleges cannot assume liability for errors in advising. Therefore, students must assume primary responsibility for knowing the requirements for their degrees and for acquiring current information about their academic status.

Faculty

Bechara E. Abboud, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Drexel University.

Fauzia Ahmad, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Pennsylvania.

Mohammad Ali Al-Adaileh, Assistant Professor of Instruction, Department of Engineering, Technology, and Management, College of Engineering; PhD, Ohio University.

Maryam Alibeik, Assistant Professor of Instruction, Department of Electrical and Computer Engineering, College of Engineering; PhD, Purdue University.

Gangadhar Andaluri, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Temple University.

Berk Ayranci, Instructor, Department of Engineering, Technology, and Management, College of Engineering; MSME, Temple University.

Li Bai, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Drexel University.

Evangelia Bellas, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Tufts University.

Saroj K. Biswas, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Ottawa.

Achinta Bordoloi, Research Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of Canterbury.

Robert M. Brooks, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Indian Institute of Technology.

Cory Budischak, Associate Professor of Instruction, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Delaware.

Shih-Jiun Chen, Professor, Department of Mechanical Engineering, College of Engineering; PhD, Drexel University.

Harsh Deep Chopra, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Maryland College Park.

Joseph Thomas Coe Jr., Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of California Los Angeles.

Richard S. Cohen, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Princeton University.

Philip Dames, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Pennsylvania.

Kurosh Darvish, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Virginia.

Zdenka J. Delalic, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Pennsylvania.

Yasir Demiryurek, Assistant Professor of Instruction, Department of Mechanical Engineering, College of Engineering; MS, Rutgers University.

Dmitriy A. Dikin, Research Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, National Academy of Sciences of Ukraine, Institute for Low Temperature Physics and Engineering.

Julie Drzymalski, Professor of Instruction, Department of Engineering, Technology, and Management, College of Engineering; PhD, Lehigh University.

Liang Du, Assistant Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Georgia Institute of Technology.

Thomas V. Edwards, Associate Professor of Instruction, Department of Engineering, Technology, and Management, College of Engineering; DPS, Pace University.

Ahmed Faheem, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of Wisconsin.

James A. Fumato, Assistant Professor of Instruction, Department of Bioengineering, College of Engineering; PhD, Drexel University.

Jonathan Arye Gerstenhaber, Assistant Professor of Instruction, Department of Bioengineering, College of Engineering; PhD, Temple University.

Bojana Gligorijevic, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Georgetown University.

Yah-el Har-el, Associate Professor of Instruction, Department of Bioengineering, College of Engineering; PhD, Johns Hopkins University.

John J. Helferty, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Drexel University.

Hamid Heravi, Assistant Professor of Instruction, Department of Mechanical Engineering, College of Engineering; PhD, University of Cardiff.

Parsaoran Hutapea, Professor, Department of Mechanical Engineering, College of Engineering; PhD, North Carolina State University.

Daniel A. Jacobs, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, Stanford University.

Dimitri Karagiannis, Assistant Professor of Instruction, Department of Mechanical Engineering, College of Engineering; PhD, Villanova University.

Mehdi Khanzadeh Moradillo, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Oklahoma State University.

Mohammad F. Kiani, Professor, Department of Mechanical Engineering, College of Engineering; PhD, Louisiana Tech University.

Sanghun Kim, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Syracuse University.

Paul A. Laviola, Instructor, Department of Engineering, Technology, and Management, College of Engineering; MS, Widener University.

Peter Lelkes, Laura H. Carnell Professor, Department of Bioengineering, College of Engineering; PhD, RWTH Aachen University.

Michel Lemay, Professor, Department of Bioengineering, College of Engineering; PhD, Case Western Reserve University.

Haijun Liu, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Maryland College Park.

Ling Liu, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Columbia University.

Erica R. McKenzie, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of California Davis.

Iyad Obeid, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Duke University.

Ruth Ochia, Professor of Instruction, Department of Bioengineering, College of Engineering; PhD, University of Washington.

Chetan A. Patil, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Vanderbilt University.

Vallorie J. Peridier, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Lehigh University.

Joseph Picone, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, Illinois Institute of Technology.

Alex Pillapakkam, Associate Professor of Instruction, Department of Mechanical Engineering, College of Engineering; PhD, New Jersey Institute of Technology.

Nancy Pleshko, Laura H. Carnell Professor, Department of Bioengineering, College of Engineering; PhD, Rutgers University.

William Querido Maciel, Research Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Université de Haute-Alsace Mulhouse-Colmar.

Fei Ren, Associate Professor, Department of Mechanical Engineering, College of Engineering; PhD, Michigan State University.

Laura D. Riggio, Assistant Professor of Instruction, Department of Mechanical Engineering, College of Engineering; PhD, Lehigh University.

Robert J. Ryan, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Drexel University.

Keyanoush Sadeghipour, Professor, Department of Mechanical Engineering, College of Engineering; PhD, University of Manchester Institute of Science and Technology.

Elham Sahraei, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, George Washington University.

Liliana Schwartz, Associate Professor of Instruction, Department of Engineering, Technology, and Management, College of Engineering; PhD, Ben-Gurion University of the Negev.

Anita Singh, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Wayne State University.

Damoon Soudbakhsh, Assistant Professor, Department of Mechanical Engineering, College of Engineering; PhD, George Washington University.

Andrew Spence, Associate Professor, Department of Bioengineering, College of Engineering; PhD, Cornell University.

Rominder Suri, Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Michigan Technological University.

Rouzbeh Tehrani, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Temple University.

Brian F. Thomson, Associate Professor of Instruction, Department of Electrical and Computer Engineering, College of Engineering; PhD, The Pennsylvania State University.

Erkan Tüzel, Associate Professor, Department of Bioengineering, College of Engineering; PhD, University of Minnesota.

Philip D. Udo-Inyang, Associate Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, University of Missouri-Columbia.

Felix F. Udoeyo, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Abubakar Tafawa Balewa University.

Evelyn Walters, Associate Professor of Instruction, Department of Civil and Environmental Engineering, College of Engineering; PhD, Technische Universität München.

Han Wang, Assistant Professor, Department of Electrical and Computer Engineering, College of Engineering.

Karin Wang, Assistant Professor, Department of Bioengineering, College of Engineering; PhD, Cornell University.

Chang-Hee Won, Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Notre Dame.

Heyang Yuan, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Virginia Polytechnic Institute and State University.

Yimin Daniel Zhang, Associate Professor, Department of Electrical and Computer Engineering, College of Engineering; PhD, University of Tsukuba.

Yichuan Zhu, Assistant Professor, Department of Civil and Environmental Engineering, College of Engineering; PhD, Texas A and M University.

Bioengineering BS BIOE with Cellular Engineering Concentration

Overview

The **Bachelor of Science in Bioengineering** is offered by the Department of Bioengineering.

The Bioengineering program integrates engineering science, rigorous mathematical tools and a quantitative approach to the life sciences and applies this spectrum of knowledge in an interdisciplinary fashion to provide solutions to basic and applied biological and medical problems. This goal will be accomplished by offering to the students an integrated set of courses aimed at providing a thorough introduction to the complex and interdisciplinary field of Bioengineering:

- Teach engineering science, analysis, and design in the context of quantitative approaches to solving life science and medicine-related problems.
- Integrate interdisciplinary aspects of biology, physiology, and engineering within courses and design projects.
- Emphasize the interdisciplinary nature of Bioengineering, in terms of problem solving, design, within the framework of interdisciplinary teams focusing on the dialogue between "biology-inspired engineering" and "biology as a specific arm of applied engineering principles."
- Immerse students in key life science and medical principles, while focusing on understanding cell/molecular-level events through quantitative analysis and modeling.
- Provide an exceptional learning environment with significant instruction by Bioengineering faculty and researchers in collaboration with experts from other fields, especially the Health Science Campus.

In this curriculum, incoming students will first and foremost be trained as solid Temple engineers, focusing on applying engineering science, design, and analysis to real life problems specifically in the areas of biology and medicine. Hands-on engineering experience will be gained through intense laboratory coursework and by solving real-life biomedical problems.

Bioengineering study leads to careers in several fields.

Students **must select** from one of three **concentrations** in:

- Cellular Engineering,
- Engineering Devices, or
- Pre-Health.

Cellular Engineering Concentration

A **concentration in Cellular Engineering** provides students with the skills to apply quantitative approaches to problem solving in cellular and molecular engineering, particularly as they relate to human health. A range of courses include design, development and uses of biomaterials; building functional tissues using cells and scaffolds; and repairing diseased tissues and organs at the cellular and molecular level. It also explores the host-biomaterial interface and interactions.

Campus Location: Main

Program Code: EN-BIOE-BSBE

Accreditation

The Bioengineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Bioengineering and Master of Science in Bioengineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Department and Major Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2043 or MATH 2943	Calculus III Honors Calculus III	4
Select one of the following:		3
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	
MATH 3041 or MATH 3941	Differential Equations I Honors Differential Equations I	
Select one of the following:		4
BIOL 2112 or BIOL 2912	Introduction to Cellular and Molecular Biology Honors Introduction to Cellular and Molecular Biology	
BIOL 1112	Introduction to Biomolecules, Cells and Genomes	
CHEM 1031 or CHEM 1951	General Chemistry I Honors General Chemical Science I	3
CHEM 1033 or CHEM 1953	General Chemistry Laboratory I Honors Chemical Science Laboratory I	1
Select one of the following:		4
PHYS 1061 or PHYS 1961	Elementary Classical Physics I Honors Elementary Classical Physics I	
PHYS 2021	General Physics I	

or PHYS 2921	Honors General Physics I	
Select one of the following:		4
PHYS 1062	Elementary Classical Physics II	
or PHYS 1962	Honors Elementary Classical Physics II	
PHYS 2022	General Physics II	
or PHYS 2922	Honors General Physics II	
Required General Education Courses		
Select one of the following:		4
ENG 0802	Analytical Reading and Writing	
ENG 0812	Analytical Reading and Writing: ESL	
ENG 0902	Honors Writing About Literature	
IH 0851	Intellectual Heritage I: The Good Life	3
or IH 0951	Honors Intellectual Heritage I: The Good Life	
IH 0852	Intellectual Heritage II: The Common Good	3
or IH 0952	Honors Intellectual Heritage II: The Common Good	
GenEd 08xx or 09xx (Human Behavior)		3
GenEd 08xx or 09xx (Race and Diversity)		3
GenEd 08xx or 09xx (Global/World Society)		3
GenEd 08xx or 09xx (U.S. Society)		3
GenEd 08xx or 09xx (Arts)		3
Required Bioengineering & Engineering Courses (Common for all Pathways)		
BIOE 2001	Frontiers in Bioengineering	2
BIOE 2101	Engineering Principles of Physiological Systems	3
BIOE 3001	Research Design and Methods in Bioengineering	2
BIOE 3101	Bioelectrical Engineering Lab	3
BIOE 3102	Biomaterials Lab	3
BIOE 3201	Biomedical Instrumentation	2
BIOE 4101	Biomechanics Lab	3
BIOE 4311	The Entrepreneurial Bioengineer	3
ENGR 1101	Introduction to Engineering & Engineering Technology	3
or ENGR 1901	Honors Introduction to Engineering	
ENGR 1102	Introduction to Engineering Problem Solving	3
ENGR 2196	Technical Communication (WI)	3
or ENGR 2996	Honors Technical Communication	
ENGR 3571	Classical and Statistical Thermodynamics	3
Bioengineering Design Course - select one of the following:		3
BIOE 3402	Design Elective: Biodesign	
BIOE 3512		
BIOE 4279		
ENGR 4296	Capstone Senior Design Project (WI)	3
or ENGR 4996	Honors Capstone Senior Design Project	
Required Bioengineering Electives (minimum of 9 credits)		
BIOE 2201	Modeling Fundamentals in Bioengineering	1.5
BIOE 2202	Programming Fundamentals in Bioengineering	1.5
BIOE 3303	Biotransport Phenomena	3
Select from the following list:		3
BIOE 2312	Mechanics for Bioengineering I	
BIOE 2401	Biodesign - Needs and Ideation	
BIOE 3302	Drug Delivery	
BIOE 3331	Principles of Macromolecular Science	
BIOE 3401	Biodesign - Testing and Validation	
BIOE 3511	Interactions of Biomaterials with Living Tissues	

BIOE 3725	Cell Biology for Engineers	
BIOE 4278	Cardiac Devices	
BIOE 3301	Biomedical Signals and Systems (with additional prerequisites)	
Required Technical Electives		
CHEM 1032	General Chemistry II	3
or CHEM 1952	Honors General Chemical Science II	
CHEM 1034	General Chemistry Laboratory II	1
or CHEM 1954	Honors Chemical Science Laboratory II	
CHEM 2201	Organic Chemistry I	3
or CHEM 2921	Organic Chemistry for Honors I	
CHEM 2203	Organic Chemistry Laboratory I	1
or CHEM 2923	Organic Honors Laboratory I	
CHEM 2202	Organic Chemistry II	3
or CHEM 2922	Organic Chemistry for Honors II	
CHEM 2204	Organic Chemistry Laboratory II	1
or CHEM 2924	Organic Honors Laboratory II	
CHEM 3401	Applications of Biochemistry	3
Bioengineering Capstone Course		
Select one of the following:		3
BIOE 4333	Capstone Elective: Applied Biospectroscopy	
BIOE 4411	Capstone Elective: Biomaterials	
BIOE 4431	Capstone Elective: Neuroengineering	
BIOE 4461	Capstone Elective: Principles of Tissue Engineering	
BIOE 4501	Capstone Elective: Regenerative Engineering	
BIOE 4555	Capstone Elective - Biophotonics: Seeing is Believing	
Free Electives		
Free Elective #1		3
Free Elective #2		3
Total Credit Hours		128

Bioengineering BS BIOE with Engineering Devices Concentration

Overview

The **Bachelor of Science in Bioengineering** is offered by the Department of Bioengineering.

The Bioengineering program integrates engineering science, rigorous mathematical tools and a quantitative approach to the life sciences and applies this spectrum of knowledge in an interdisciplinary fashion to provide solutions to basic and applied biological and medical problems. This goal will be accomplished by offering to the students an integrated set of courses aimed at providing a thorough introduction to the complex and interdisciplinary field of Bioengineering:

- Teach engineering science, analysis, and design in the context of quantitative approaches to solving life science and medicine-related problems.
- Integrate interdisciplinary aspects of biology, physiology, and engineering within courses and design projects.
- Emphasize the interdisciplinary nature of Bioengineering, in terms of problem solving, design, within the framework of interdisciplinary teams focusing on the dialogue between "biology-inspired engineering" and "biology as a specific arm of applied engineering principles."
- Immerse students in key life science and medical principles, while focusing on understanding cell/molecular-level events through quantitative analysis and modeling.
- Provide an exceptional learning environment with significant instruction by Bioengineering faculty and researchers in collaboration with experts from other fields, especially the Health Science Campus.

In this curriculum, incoming students will first and foremost be trained as solid Temple engineers, focusing on applying engineering science, design, and analysis to real life problems specifically in the areas of biology and medicine. Hands-on engineering experience will be gained through intense laboratory coursework and by solving real-life biomedical problems.

Bioengineering study leads to careers in several fields.

Students **must select** from one of three **concentrations** in:

- Cellular Engineering,
- Engineering Devices, or
- Pre-Health.

Engineering Devices Concentration

A **concentration in Engineering Devices** provides students with the skills to apply engineering principles to design and develop instruments, implants and imaging modalities. A range of courses include topics covering biomechanics, bioinstrumentation and bioimaging.

Campus Location: Main

Program Code: EN-BIOE-BSBE

Accreditation

The Bioengineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Bioengineering and Master of Science in Bioengineering

Bioengineering BS BIOE with Pre-Health Concentration

Overview

The **Bachelor of Science in Bioengineering** is offered by the Department of Bioengineering.

The Bioengineering program integrates engineering science, rigorous mathematical tools and a quantitative approach to the life sciences and applies this spectrum of knowledge in an interdisciplinary fashion to provide solutions to basic and applied biological and medical problems. This goal will be accomplished by offering to the students an integrated set of courses aimed at providing a thorough introduction to the complex and interdisciplinary field of Bioengineering:

- Teach engineering science, analysis, and design in the context of quantitative approaches to solving life science and medicine-related problems.
- Integrate interdisciplinary aspects of biology, physiology, and engineering within courses and design projects.
- Emphasize the interdisciplinary nature of Bioengineering, in terms of problem solving, design, within the framework of interdisciplinary teams focusing on the dialogue between "biology-inspired engineering" and "biology as a specific arm of applied engineering principles."
- Immerse students in key life science and medical principles, while focusing on understanding cell/molecular-level events through quantitative analysis and modeling.
- Provide an exceptional learning environment with significant instruction by Bioengineering faculty and researchers in collaboration with experts from other fields, especially the Health Science Campus.

In this curriculum, incoming students will first and foremost be trained as solid Temple engineers, focusing on applying engineering science, design, and analysis to real life problems specifically in the areas of biology and medicine. Hands-on engineering experience will be gained through intense laboratory coursework and by solving real-life biomedical problems.

Bioengineering study leads to careers in several fields.

Students **must select** from one of three **concentrations** in:

- Cellular Engineering,
- Engineering Devices, or
- Pre-Health.

Pre-Health Concentration

A **concentration in Pre-Health** provides students with much of the coursework needed to prepare to take national tests such as the MCAT and DCAT for entrance to graduate school in medicine, dentistry or in other health-related studies. The Pre-Health concentration contains similar courses as Cellular Engineering with the ability for students to pursue the specific coursework requirements for their desired postbaccalaureate program.

Campus Location: Main

Program Code: EN-BIOE-BSBE

Accreditation

The Bioengineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Bioengineering and Biomedical and Similarly Named Engineering Programs. ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Department and Major Requirements

Code	Title	Credit Hours
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2043 or MATH 2943	Calculus III Honors Calculus III	4
Select one of the following:		3
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	

MATH 3041 or MATH 3941	Differential Equations I Honors Differential Equations I	
BIOL 2112 or BIOL 2912 or BIOL 1112	Introduction to Cellular and Molecular Biology Honors Introduction to Cellular and Molecular Biology Introduction to Biomolecules, Cells and Genomes	4
CHEM 1031 or CHEM 1951	General Chemistry I Honors General Chemical Science I	3
CHEM 1033 or CHEM 1953	General Chemistry Laboratory I Honors Chemical Science Laboratory I	1
PHYS 2021 or PHYS 2921 or PHYS 1061 or PHYS 1961	General Physics I Honors General Physics I Elementary Classical Physics I Honors Elementary Classical Physics I	4
PHYS 2022 or PHYS 2922 or PHYS 1062 or PHYS 1962	General Physics II Honors General Physics II Elementary Classical Physics II Honors Elementary Classical Physics II	4
Required General Education Courses		
Select one of the following:		4
ENG 0802	Analytical Reading and Writing	
ENG 0812	Analytical Reading and Writing: ESL	
ENG 0902	Honors Writing About Literature	
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life Honors Intellectual Heritage I: The Good Life	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good Honors Intellectual Heritage II: The Common Good	3
GenEd 08xx or 09xx (Human Behavior)		3
GenEd 08xx or 09xx (Race and Diversity)		3
GenEd 08xx or 09xx (Global/World Society)		3
GenEd 08xx or 09xx (U.S. Society)		3
GenEd 08xx or 09xx (Arts)		3
Required Bioengineering & Engineering Courses (Common for all Pathways)		
BIOE 2001	Frontiers in Bioengineering	2
BIOE 2101	Engineering Principles of Physiological Systems	3
BIOE 3001	Research Design and Methods in Bioengineering	2
BIOE 3101	Bioelectrical Engineering Lab	3
BIOE 3102	Biomaterials Lab	3
BIOE 3201	Biomedical Instrumentation	2
BIOE 4101	Biomechanics Lab	3
BIOE 4311	The Entrepreneurial Bioengineer	3
ENGR 1101 or ENGR 1901	Introduction to Engineering & Engineering Technology Honors Introduction to Engineering	3
ENGR 1102	Introduction to Engineering Problem Solving	3
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 3571	Classical and Statistical Thermodynamics	3
Bioengineering Design Course - select one of the following:		3
BIOE 3402	Design Elective: Biodesign	
BIOE 3512		
BIOE 4279		
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Required Bioengineering Electives (minimum 9 credits)

BIOE 2201	Modeling Fundamentals in Bioengineering	1.5
BIOE 2202	Programming Fundamentals in Bioengineering	1.5
BIOE 3303	Biotransport Phenomena	3
Select from the following list:		3
BIOE 2312	Mechanics for Bioengineering I	
BIOE 2401	Biodesign - Needs and Ideation	
BIOE 3302	Drug Delivery	
BIOE 3331	Principles of Macromolecular Science	
BIOE 3401	Biodesign - Testing and Validation	
BIOE 3511	Interactions of Biomaterials with Living Tissues	
BIOE 3725	Cell Biology for Engineers	
BIOE 4278	Cardiac Devices	
Any other approved bioengineering electives (note additional prerequisite courses may need to be taken)		

Required Technical Electives

BIOL 1111	Introduction to Organismal Biology	4
or BIOL 1911	Honors Introduction to Organismal Biology	
CHEM 1032	General Chemistry II	3
or CHEM 1952	Honors General Chemical Science II	
CHEM 1034	General Chemistry Laboratory II	1
or CHEM 1954	Honors Chemical Science Laboratory II	
CHEM 2201	Organic Chemistry I	3
or CHEM 2921	Organic Chemistry for Honors I	
CHEM 2203	Organic Chemistry Laboratory I	1
or CHEM 2923	Organic Honors Laboratory I	
CHEM 2202	Organic Chemistry II	3
or CHEM 2922	Organic Chemistry for Honors II	
CHEM 2204	Organic Chemistry Laboratory II	1
or CHEM 2924	Organic Honors Laboratory II	
CHEM 3401	Applications of Biochemistry	3

Bioengineering Capstone Course

Select one of the following:		3
BIOE 4333	Capstone Elective: Applied Biospectroscopy	
BIOE 4411	Capstone Elective: Biomaterials	
BIOE 4431	Capstone Elective: Neuroengineering	
BIOE 4461	Capstone Elective: Principles of Tissue Engineering	
BIOE 4501	Capstone Elective: Regenerative Engineering	
BIOE 4555	Capstone Elective - Biophotonics: Seeing is Believing	
Other Bioengineering Capstone courses (note additional prerequisite courses may need to be taken)		

Free Elective		2

Civil Engineering BSCE

Overview

The **Bachelor of Science in Civil Engineering** is offered by the Department of Civil and Environmental Engineering. The program prepares students for professional engineering careers in the design, construction and maintenance of the built environment.

Civil Engineering professionals plan, design, construct, and operate facilities which are essential to the quality of modern life. The Civil Engineering curriculum is based upon providing a fully-integrated design experience by beginning with introductory courses in the study of engineering history and economics, then progressing through a broad coverage of the primary areas of practice within Civil Engineering (surveying, structures, geotechnical engineering, construction engineering, water resources, transportation and environmental engineering), and finishing with a year-long capstone Civil Engineering senior design project. The goal of the Civil Engineering program is to prepare students to pursue graduate education in their specific areas of interest, to pass the Fundamental of Engineering and Professional Engineer exams in the areas of practice within Civil Engineering, and become involved in design, project planning and research.

Civil Engineering students may complete one or more **optional concentrations** in

- Environmental Engineering
- Cooperative Education Program

Campus Location: Main

Program Code: EN-CEE-BSCE

Accreditation

The Civil Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Civil Engineering and Master of Science in Civil Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Civil Engineering BSCE with Cooperative Education Program Concentration

Overview

The **Bachelor of Science in Civil Engineering** is offered by the Department of Civil and Environmental Engineering. The program prepares students for professional engineering careers in the design, construction and maintenance of the built environment.

Civil Engineering professionals plan, design, construct, and operate facilities which are essential to the quality of modern life. The Civil Engineering curriculum is based upon providing a fully-integrated design experience by beginning with introductory courses in the study of engineering history and

economics, then progressing through a broad coverage of the primary areas of practice within Civil Engineering (surveying, structures, geotechnical engineering, construction engineering, water resources, transportation and environmental engineering), and finishing with a year-long capstone Civil Engineering senior design project. The goal of the Civil Engineering program is to prepare students to pursue graduate education in their specific areas of interest, pass the Fundamental of Engineering and Professional Engineer exams in the areas of practice within Civil Engineering, and become involved in design, project planning and research.

Civil Engineering students may complete one or more **optional concentrations** in

- Environmental Engineering
- Cooperative Education Program

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Program Code: EN-CEE-BSCE

Accreditation

The Civil Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Civil Engineering and Master of Science in Civil Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Department Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2043 or MATH 2943	Calculus III Honors Calculus III	4
MATH 2041 or MATH 2941 or MATH 3041 or MATH 3941	Differential Equations I Honors Differential Equations I Differential Equations I Honors Differential Equations I	3
CEE 3048	Probability, Statistics & Stochastic Methods	3
PHYS 1061 or PHYS 1961	Elementary Classical Physics I Honors Elementary Classical Physics I	4

Civil Engineering BSCE with Environmental Engineering & Cooperative Education Program Concentrations

Overview

The **Bachelor of Science in Civil Engineering** is offered by the Department of Civil and Environmental Engineering. The program prepares students for professional engineering careers in the design, construction and maintenance of the built environment.

Civil Engineering professionals plan, design, construct, and operate facilities which are essential to the quality of modern life. The Civil Engineering curriculum is based upon providing a fully-integrated design experience by beginning with introductory courses in the study of engineering history and economics, then progressing through a broad coverage of the primary areas of practice within Civil Engineering (surveying, structures, geotechnical engineering, construction engineering, water resources, transportation and environmental engineering), and finishing with a year-long capstone Civil Engineering senior design project. The goal of the Civil Engineering program is to prepare students to pursue graduate education in their specific areas of interest, pass the Fundamental of Engineering and Professional Engineer exams in the areas of practice within Civil Engineering, and become involved in design, project planning and research.

Civil Engineering students may complete one or more **optional concentrations** in

- Environmental Engineering
- Cooperative Education Program

Environmental Engineering Concentration

The objective of the **concentration in Environmental Engineering** within the Civil Engineering program at Temple University is to provide students with the skills needed to understand environmental problems and to design environmental systems to reduce and/or mitigate pollution. Environmental Engineering is a hybrid of Civil Engineering and Chemical Engineering, and it is thus natural for a civil engineer to broaden his/her knowledge in Environmental Engineering. Students in this concentration would be in a program that satisfies ABET accreditation for civil engineers, but they are more equipped to pass the Fundamental of Engineering and the Professional Engineer exams in the Environmental Engineering Category.

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Program Code: EN-CEE-BSCE

Accreditation

The Civil Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Civil Engineering and Master of Science in Civil Engineering

Construction Engineering Technology BSCET

Overview

Offered by the Department of Civil and Environmental Engineering, the **Bachelor of Science in Construction Engineering Technology** prepares students for a practitioner's role in industry, government or institution in the area of construction management. Their work involves the translation of the design engineer's blueprints into physical and functional reality. These professionals combine aspects of business, construction and engineering and oversee the implementation of large or small construction projects and their safety and compliance with project requirements.

Graduates are qualified for jobs as construction field supervisors, estimators, expeditors, construction cost analysts, schedulers, plan examiners for government agencies that control construction, and in safety. Graduates can communicate effectively and have the necessary teamwork and leadership skills to work and participate effectively in a team environment. Also, graduates will have professional growth and life-long learning skills that engineering technologists need to succeed in both the workplace and the society in general.

Construction Engineering Technology students may complete an **optional concentration** in Cooperative Education Program (Co-Op).

Campus Location: Main

Day and evening courses are available; however, most technical courses are offered in the evening only.

Program Code: EN-CNET-BSCT

Accreditation

The Construction Engineering Technology (BS) program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Construction Engineering Technology and Similarly Named Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's

degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Construction Engineering Technology and Master of Science in Civil Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
CMT 4396	Capstone in Construction	3
ENG 2696	Technical Writing	3

Construction Engineering Technology BSCET with Cooperative Education Program Concentration

Overview

Offered by the Department of Civil and Environmental Engineering, the **Bachelor of Science in Construction Engineering Technology** prepares students for a practitioner's role in industry, government or institution in the area of construction management. Their work involves the translation of the design engineer's blueprints into physical and functional reality. These professionals combine aspects of business, construction and engineering and oversee the implementation of large or small construction projects and their safety and compliance with project requirements.

Graduates are qualified for jobs as construction field supervisors, estimators, expeditors, construction cost analysts, schedulers, plan examiners for government agencies that control construction, and in safety. Graduates can communicate effectively and have the necessary teamwork and leadership skills to work and participate effectively in a team environment. Also, graduates will have professional growth and life-long learning skills that engineering technologists need to succeed in both the workplace and the society in general.

Construction Engineering Technology students may complete an **optional concentration** in Cooperative Education Program (Co-Op).

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Day and evening courses are available; however, most technical courses are offered in the evening only.

Program Code: EN-CNET-BSCT

Accreditation

The Construction Engineering Technology (BS) program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Construction Engineering Technology and Similarly Named Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

Electrical Engineering BSEE

Overview

The **Bachelor of Science in Electrical Engineering** is offered by the Department of Electrical and Computer Engineering. The program prepares students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.

Electrical Engineering students may complete one or more **optional concentrations** in

- Bioelectrical Engineering,
- Computer Engineering, and/or
- Cooperative Education Program.

Campus Location: Main

Program Code: EN-ECE-BSEE

Accreditation

The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Electrical Engineering and Master of Science in Electrical Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

College Requirements

The degree of Bachelor of Science in Electrical Engineering may be conferred upon satisfactory completion of a minimum of 128 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

Code	Title	Credit Hours
ECE 2342	Circuits and Electronics I	5
ECE 2612	Digital Circuit Design	3
ECE 3516 or ECE 3916	Signals and Systems Honors Signals and Systems	5

Program Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	3
ECE 3522	Stochastic Processes in Signals and Systems	3
ENGR 2011	Engineering Analysis & Applications	3
ENGR 2013	Engineering Analysis and Applications Lab	1
PHYS 1061 or PHYS 1961	Elementary Classical Physics I Honors Elementary Classical Physics I	4
PHYS 1062 or PHYS 1962	Elementary Classical Physics II Honors Elementary Classical Physics II	4
CHEM 1035	Chemistry for Engineers	3
CHEM 1033 or CHEM 1953	General Chemistry Laboratory I Honors Chemical Science Laboratory I	1
Required General Education Courses		
Select one of the following:		4
ENG 0802	Analytical Reading and Writing	
ENG 0812	Analytical Reading and Writing: ESL	
ENG 0902	Honors Writing About Literature	
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life Honors Intellectual Heritage I: The Good Life	3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good Honors Intellectual Heritage II: The Common Good	3
GenEd 08xx or 09xx (U.S. Society)		3
GenEd 08xx or 09xx (Global/World Society)		3

GenEd 08xx or 09xx (Human Behavior)	3
GenEd 08xx or 09xx (The Arts)	3
GenEd 08xx or 09xx (Race and Diversity)	3
Required Electrical Engineering Courses	
ECE 1111 Engineering Computation I	4
ECE 2342 Circuits and Electronics I	5
ECE 2352 Circuits and Electronics II	5
ECE 2612 Digital Circuit Design	3
ECE 2613 Digital Circuit Design Laboratory	1
ECE 3516 Signals and Systems	5
or ECE 3916 Honors Signals and Systems	
ECE 3612 Processor Systems	3
or ECE 3914 Honors Microprocessor Systems	
ECE 3613 Processor Systems Laboratory	1
or ECE 3915 Honors Microprocessor Systems Lab	
ECE 3712 Introduction to Electromagnetic Fields and Waves	3
ECE 3822 Engineering Computation II	3
Required Engineering Courses	
ENGR 1001 College of Engineering First Year Seminar	1
ENGR 1101 Introduction to Engineering & Engineering Technology	3
or ENGR 1901 Honors Introduction to Engineering	
ENGR 1102 Introduction to Engineering Problem Solving	3
ENGR 2196 Technical Communication (WI)	3
or ENGR 2996 Honors Technical Communication	
ECE 4176 Senior Design Project I: ECE	3
ENGR 4296 Capstone Senior Design Project (WI)	3
or ENGR 4996 Honors Capstone Senior Design Project	
Required Elective Courses	
ECE Technical Electives - may use a combination of 3 credit and/or 4 credit courses	16
Math, Science, or Engineering Electives	6
Free Elective	2
Total Credit Hours	128

Electrical Engineering BSEE with Bioelectrical Engineering and Cooperative Education Program

Overview

The **Bachelor of Science in Electrical Engineering** is offered by the Department of Electrical and Computer Engineering. The program prepares students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.

Electrical Engineering students may complete one or more **optional concentrations** in

- Bioelectrical Engineering,
- Computer Engineering, and/or
- Cooperative Education Program.

Bioelectrical Engineering Concentration

The **concentration in Bioelectrical Engineering** prepares students for careers in the emerging areas of biomedical signal and image processing, assistive devices for the impaired, and bioelectronics. The Bioelectrical Engineering concentration utilizes courses in Biology, and Mammalian Anatomy and Physiology from the Department of Kinesiology at Temple University as part of the curriculum.

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Program Code: EN-ECE-BSEE

Accreditation

The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

Electrical Engineering BSEE with Computer Engineering and Cooperative Education Program

Overview

The **Bachelor of Science in Electrical Engineering** is offered by the Department of Electrical and Computer Engineering. The program prepares students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.

Electrical Engineering students may complete one or more **optional concentrations** in

- Bioelectrical Engineering,
- Computer Engineering, and/or
- Cooperative Education Program.

Computer Engineering Concentration

The **concentration in Computer Engineering** prepares students for a career in the area of Computer Engineering as it relates to the design of integrated software/hardware systems with both high- and low-level computer systems programming and applications to electrical systems. Computer engineers are responsible for the design, implementation, and application of computers and digital systems. The field covers hardware, software, and the interaction between them.

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Program Code: EN-ECE-BSEE

Accreditation

The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's

degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Electrical Engineering with Computer Engineering Concentration and Master of Science in Electrical Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

College Requirements

The degree of Bachelor of Science in Electrical Engineering with a concentration in Computer Engineering and the optional Cooperative Education Program may be conferred upon satisfactory completion of a minimum of 134 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

Code	Title	Credit Hours
ECE 2342	Circuits and Electronics I	5
ECE 2612	Digital Circuit Design	3
ECE 3516 or ECE 3916	Signals and Systems Honors Signals and Systems	5

Program Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	3

Electrical Engineering BSEE with Cooperative Education Program Concentration

Overview

The **Bachelor of Science in Electrical Engineering** is offered by the Department of Electrical and Computer Engineering. The program prepares students for careers as practicing engineers in areas such as digital systems, embedded processor applications, digital communications, control systems, sensor networks, biomedical signal processing, microelectronics, computer security and power networks. These careers are in applications, development, research, and design of electric and electronic systems and devices. Electrical Engineers are involved in the design and development of telecommunications networks, cellular telephones, computer and other microprocessor-based devices, consumer electronics, control systems for space vehicles and robots, and in many aspects of the power and automotive industries.

Electrical Engineering students may complete one or more **optional concentrations** in

- Bioelectrical Engineering,
- Computer Engineering, and/or
- Cooperative Education Program.

Cooperative Education Program

A **Cooperative Education** (Co-Op) is an optional program available at the College of Engineering where you have the opportunity to gain professional work experience before graduation. It is designed to give you the chance to apply the knowledge learned in the classroom to real life problems. You will be exposed to the latest technology and new ideas at a worksite helping you understand your field of work more extensively. During the Co-Op, you will make valuable connections with professionals in your field. A cooperative education can enhance and strengthen you academically, professionally and personally.

Campus Location: Main

Program Code: EN-ECE-BSEE

Accreditation

The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs. ABET is a non-profit and non-governmental accrediting agency for academic programs in the disciplines of applied science, computing, engineering, and engineering technology recognized by the Council for Higher Education Accreditation (CHEA).

+1 Bachelor to Master's Accelerated Degree Program

High-achieving undergraduates can earn both a bachelor's degree and a master's degree within five years. Students apply for this program in sophomore year, and four graduate-level courses are taken in place of undergraduate requirements during junior and senior years. After the bachelor's degree is earned, one graduate-level course is taken in the summer followed by full-time study in the subsequent Fall and Spring semesters to complete the master's degree study. The following accelerated program is available:

- Bachelor of Science in Electrical Engineering and Master of Science in Electrical Engineering

These requirements are for students who matriculated in academic year 2023-2024. Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Degree Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

College Requirements

The degree of Bachelor of Science in Electrical Engineering with the optional Cooperative Education Program may be conferred upon satisfactory completion of a minimum of 134 semester hours of credit with a minimum GPA of 2.0 overall and in the major. Students must also score a minimum grade of C- in each of the following courses before they can take other junior and senior level courses:

Code	Title	Credit Hours
ECE 2342	Circuits and Electronics I	5
ECE 2612	Digital Circuit Design	3
ECE 3516 or ECE 3916	Signals and Systems Honors Signals and Systems	5

Program Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	3
ECE 3522	Stochastic Processes in Signals and Systems	3
ENGR 2011	Engineering Analysis & Applications	3
ENGR 2013	Engineering Analysis and Applications Lab	1
PHYS 1061 or PHYS 1961	Elementary Classical Physics I Honors Elementary Classical Physics I	4
PHYS 1062 or PHYS 1962	Elementary Classical Physics II Honors Elementary Classical Physics II	4
CHEM 1035	Chemistry for Engineers	3
CHEM 1033 or CHEM 1953	General Chemistry Laboratory I Honors Chemical Science Laboratory I	1
Required General Education Courses

Engineering (Undeclared)

Overview

The College of Engineering admits students in the **undeclared** engineering program when they are interested in engineering but undecided on a particular field of study. Courses in this program have been determined for the first year only, since it is assumed that students will choose a curriculum following their first year of study.

CIS 1057	Computer Programming in C (Electrical)	

Engineering BSE

Note: This program is not accepting applications for the 2023-2024 academic year.

The following information is for students who matriculated into this program in the 2022-2023 academic year.

Overview

The cross-disciplinary 128-credit **Bachelor of Science in Engineering**, offered by the Department of Engineering, Technology and Management, combines learning from several areas to create unique skill sets that are highly marketable. The curriculum not only takes courses from several departments and offers concentrations or study plans in engineering but also provides a basis for further study in business, law, medicine or further study in an engineering graduate program. The optional interdisciplinary concentrations and study plans include:

- Computer Hardware and Software Engineering (study plan)
- Electromechanical Engineering (concentration)
- Energy and Power Engineering (concentration)
- Engineering Fundamentals (study plan)

To give students the opportunity to understand these specialties, the College provides a strong foundation in the basic sciences and mathematics in a common first year. The Department of Engineering, Technology, and Management then aims to bring together the in-demand cross-functional skill sets desired in many industries, including the analysis, design and development of systems for diverse applications. The curriculum emphasizes a rigorous treatment of the mathematical and scientific approach to the solution of engineering problems. The program has design across the curriculum and is capped with an integrated design experience in the form of a senior project.

The Bachelor of Science in Engineering program shall produce graduates who:

1. will be employed in industries, academia and state or federal government agencies;
2. will advance their professional standing through graduate and/or professional degrees or lifelong learning; and
3. will contribute to their profession and to society.

Students should consult with the Director of the BSE Program when selecting courses from these subject areas.

Engineering BSE with Electromechanical Engineering Concentration

Note: This program is not accepting applications for the 2023-2024 academic year.

The following information is for students who matriculated into this program in the 2022-2023 academic year.

Overview

The cross-disciplinary 128-credit **Bachelor of Science in Engineering**, offered by the Department of Engineering, Technology and Management, combines learning from several areas to create unique skill sets that are highly marketable. The curriculum not only takes courses from several departments and offers concentrations or study plans in engineering but also provides a basis for further study in business, law, medicine or further study in an engineering graduate program. The optional interdisciplinary concentrations and study plans include:

- Computer Hardware and Software Engineering (study plan)
- Electromechanical Engineering (concentration)
- Energy and Power Engineering (concentration)
- Engineering Fundamentals (study plan)

To give students the opportunity to understand these specialties, the College provides a strong foundation in the basic sciences and mathematics in a common first year. The Department of Engineering, Technology, and Management then aims to bring together the in-demand cross-functional skill sets desired in many industries, including the analysis, design and development of systems for diverse applications. The curriculum emphasizes a rigorous treatment of the mathematical and scientific approach to the solution of engineering problems. The program has design across the curriculum and is capped with an integrated design experience in the form of a senior project.

The Bachelor of Science in Engineering program shall produce graduates who:

1. will be employed in industries, academia and state or federal government agencies;
2. will advance their professional standing through graduate and/or professional degrees or lifelong learning; and
3. will contribute to their profession and to society.

Electromechanical Engineering Concentration

The Bachelor of Science in Engineering with the **optional concentration in Electromechanical Engineering (BSE-EME)** integrates the tenets of Electrical Engineering and Mechanical Engineering to provide an interdisciplinary professional career in this burgeoning area. The program offers a relevant, stimulating and effective course of undergraduate study to produce electromechanical engineers to meet the needs of the new century in robotics, process control and automation. The program emphasizes all aspects of electromagnetics, transducers, sensors, electronics, digital processing and mechanical principles to integrate these components into electromechanical devices and systems for automated manufacturing processes. Professional employment includes the analysis, design and installation of robotics and automation for diverse industries. The intent of the BSE-EME program is to provide better and more efficient electromechanical systems which will have a profound impact on the global society.

Campus Location: Main

Program Code: EN-ENGR-BSEN

Students who matriculated prior to fall 2023 should refer to the Archives to view the requirements for their Bulletin year.

Summary of Requirements

University Requirements

All new students are required to complete the university's General Education (GenEd (p. 83)) curriculum.

All Temple students must take a minimum of two writing-intensive courses for a total of at least six credits. The writing-intensive course credits are counted as part of the major; they are not General Education (GenEd) or elective credits. The writing-intensive courses must be completed at Temple University and students may not transfer in credits to satisfy this requirement. The specific writing-intensive courses required for this major are:

Code	Title	Credit Hours
ENGR 2196 or ENGR 2996	Technical Communication Honors Technical Communication	3
ENGR 4296 or ENGR 4996	Capstone Senior Design Project Honors Capstone Senior Design Project	3

Department and Major Requirements

Code	Title	Credit Hours
Required Math & Basic Science Courses		
MATH 1041 or MATH 1941	Calculus I Honors Calculus I	4
MATH 1042 or MATH 1942	Calculus II Honors Calculus II	4
MATH 2041 or MATH 2941	Differential Equations I Honors Differential Equations I	3
MATH 2043 or MATH 2943	Calculus III Honors Calculus III	4
Select one of the following:		3
ENGR 2011	Engineering Analysis & Applications	
MEE 3011	Analysis and Computation of Linear Systems in Mechanical Engineering	
Select one of the following:		3
CEE 3048	Probability, Statistics & Stochastic Methods	
ISE 2101	Applied Statistical Methods for Industrial and System Engineers	
PHYS 1061 or PHYS 1961	Elementary Classical Physics I Honors Elementary Classical Physics I	4
PHYS 1062 or PHYS 1962	Elementary Classical Physics II Honors Elementary Classical Physics II	4
CHEM 1035	Chemistry for Engineers	3
CHEM 1033	General Chemistry Laboratory I	1

or CHEM 1953 Honors Chemical Science Laboratory I

Required General Education Courses

Select one of the following: 4

ENG 0802	Analytical Reading and Writing	
ENG 0812	Analytical Reading and Writing: ESL	
ENG 0902	Honors Writing About Literature	
IH 0851	Intellectual Heritage I: The Good Life	3
or IH 0951	Honors Intellectual Heritage I: The Good Life	
IH 0852	Intellectual Heritage II: The Common Good	3
or IH 0952	Honors Intellectual Heritage II: The Common Good	
GenEd 08xx or 09xx (U.S. Society)		3
GenEd 08xx or 09xx (Global/World Society)		3
GenEd 08xx or 09xx (Human Behavior)		3
GenEd 08xx or 09xx (The Arts)		3
GenEd 08xx or 09xx (Race and Diversity)		3

Required Engineering Courses

ENGR 1101	Introduction to Engineering & Engineering Technology	3
or ENGR 1901	Honors Introduction to Engineering	
ENGR 1102	Introduction to Engineering Problem Solving	3
ENGR 1117	Engineering Graphics	2
or MEE 1117	Fundamentals of Mechanical Engineering Design	
ENGR 2196	Technical Communication	3
or ENGR 2996	Honors Technical Communication	
ENGR 2331	Engineering Statics	3
or ENGR 2931	Honors Engineering Statics	
ENGR 2332	Engineering Dynamics	3
ENGR 2333	Mechanics of Solids	3
or ENGR 2933	Honors Mechanics of Solids	
ENGR 3001	Engineering Economics	3
ENGR 4169	Engineering Seminar	1
ENGR 4172	Senior Design Project I for Engineering	2
ENGR 4296	Capstone Senior Design Project	3
or ENGR 4996	Honors Capstone Senior Design Project	
ECE 2332	Principles of Electric Circuits	4
ECE 2333	Principles of Electric Circuits Lab	1
ECE 2612	Digital Circuit Design	3
ECE 2613	Digital Circuit Design Laboratory	1
ECE 3612	Processor Systems	3
or ECE 3914	Honors Microprocessor Systems	
ECE 3613	Processor Systems Laboratory	1
or ECE 3915	Honors Microprocessor Systems Lab	
ECE 3732	Electromechanical Energy Systems	3
ECE 3733	Electromechanical Energy Systems Laboratory	1
MEE 3301	Machine Theory and Design	3
ECE 1111	Engineering Computation I	4
or CIS 1057	Computer Programming in C	

Technical Elective #1 3

Technical Elective #2 3

Technical Elective #3 3

Required Business Elective Courses

Select two of the following 6

ACCT 2101 Financial Accounting

or ACCT 2901	Honors Financial Accounting
ACCT 2102	Managerial Accounting
or ACCT 2902	Honors Managerial Accounting
ECON 1101	Macroeconomic Principles
or ECON 1901	Honors Macroeconomic Principles
ECON 1102	Microeconomic Principles
or ECON 1902	Honors Microeconomic Principles
HRM 1101	Leadership and Organizational Management
or HRM 1901	Honors Leadership and Organizational Management
HRM 2501	Introduction to Human Resource Management
MKTG 2101	Marketing Management
or MKTG 2901	Honors Marketing Management
MSOM 3101	Operations Management
RMI 2101	Introduction to Risk Management
or RMI 2901	Honors Introduction to Risk Management

Required Additional Electives

Free Elective	2

Total Credit Hours	128
---------------------------	------------

Suggested Academic Plan

Please note that this is a **suggested** academic plan. Depending on your study plan, your academic plan may look different.

Bachelor of Science in Engineering with Concentration in Electromechanical Engineering

Year 1		Credit Hours
Fall		
ENGR 1101 or ENGR 1901	Introduction to Engineering & Engineering Technology or Honors Introduction to Engineering	3
MATH 1041 or MATH 1941	Calculus I or Honors Calculus I	4
CHEM 1035	Chemistry for Engineers	3
CHEM 1033 or CHEM 1953	General Chemistry Laboratory I or Honors Chemical Science Laboratory I	1
ENG 0802 or ENG 0812 or ENG 0902	Analytical Reading and Writing or Analytical Reading and Writing: ESL or Honors Writing About Literature	4
Credit Hours		15
Spring		
MATH 1042 or MATH 1942	Calculus II or Honors Calculus II	4
PHYS 1061 or PHYS 1961	Elementary Classical Physics I or Honors Elementary Classical Physics I	4
ENGR 1102	Introduction to Engineering Problem Solving	3
Select one of the following:		2
ENGR 1117	Engineering Graphics	
MEE 1117	Fundamentals of Mechanical Engineering Design	
Select one of the following:		4
CIS 1057	Computer Programming in C	
ECE 1111	Engineering Computation I	
Credit Hours		17

Year 2		Credit Hours
Fall		
MATH 2043 or MATH 2943	Calculus III or Honors Calculus III	4

PHYS 1062 or PHYS 1962	Elementary Classical Physics II or Honors Elementary Classical Physics II	4
ECE 2332	Principles of Electric Circuits	4
ENGR 2331 or ENGR 2931	Engineering Statics or Honors Engineering Statics	3
IH 0851 or IH 0951	Intellectual Heritage I: The Good Life or Honors Intellectual Heritage I: The Good Life	3
Credit Hours		18
Spring		
MATH 2041 or MATH 2941	Differential Equations I or Honors Differential Equations I	3
ENGR 2332	Engineering Dynamics	3
ENGR 2333 or ENGR 2933	Mechanics of Solids or Honors Mechanics of Solids	3
Business Elective #1		3
IH 0852 or IH 0952	Intellectual Heritage II: The Common Good or Honors Intellectual Heritage II: The Common Good	3
ECE 2333	Principles of Electric Circuits Lab	1
Credit Hours		16
Year 3		
Fall		
ECE 2612	Digital Circuit Design	3
ECE 2613	Digital Circuit Design Laboratory	1
ECE 3732	Electromechanical Energy Systems	3
ECE 3733	Electromechanical Energy Systems Laboratory	1
ENGR 2196 or ENGR 2996	Technical Communication or Honors Technical Communication	3
GenEd Breadth Course		3
