

E. T. Foote Collection

indexed by Pat McQuiston 1979

(Gebbie Foundation Grant)

Explanation

- 1) This index is general, including people and subject. It is cross-indexed where possible.
- 2) I have included non-local names only when the relationship is pertinent to the local scene.
- 3) Notations are on the left of the card, with volume number (which would indicate subject matter) preceding page number [e.g. V-1/2, 3, 4]

Subject

- 1) For easier cross-reference, I have listed collectively and individually (eg. "Academics", "Newspapers")
- 2) All index cards pertinent to one subject (eg. "Economy", "Education") are listed under the heading "Group Cards" preceding the alphabetically listed index cards.

People

- 1) Different name spellings are in parenthesis to the left of the surname.
- 2) Maiden name - in parenthesis - precedes christian name of wife.
- 3) In complex genealogies I have made separate "family" cards, placed behind individual cards.
- 4) Partnership & business cards are placed ahead of individual cards.
