

Volume 8
Colleges, Academies and Schools
56 pp., 9 p. index
8" x 13"

Common schools, the Jamestown Academy and Allegheny College are prominent sections of this volume. Included are lists for several years for students of the Jamestown Academy.

The pages in this volume are not numbered consecutively but rather with a number and then parts., i.e., 1a, 1b, 1c.

This will make the index difficult to use. The index was created by Pat McQuiston, April 1979.

FIRST SCHOOL IN THE COUNTY.

Dr. Taylor, of Brocton, Believes it Was Located Just West of the Village of Westfield.

EDITOR JOURNAL:—In your weekly issue two weeks since I noticed an article written by "D. H. P." in relation to *where* and *when* the first school within the bounds of the county of Chautauqua was taught. The writer seems quite sanguine that the first school was taught at Bemus Point as early as the winter of 1806-7. It is not a matter of great importance, yet one of a good deal of interest, and as suggested in that article a proper one for our county historical society. As I am a member of that very excellent and honorable association I will try to antedate the Bemus Point school by at least a few months.

Having occasion to look up facts in this connection a few years since while preparing material for the History of Portland, after a good deal of research and a pretty thorough stirring up of the memories of a large number of the oldest inhabitants, I very unhesitatingly came to the conclusion that this *first school* was taught at the "ancient cross-roads", just west of the present village of Westfield in the summer of 1806. The late David Eaton, so long and favorably known in our county and so long identified with its interests, came to Portland with his family, consisting of a mother and sister, in 1806. In the summer of 1807, the sister of Mr. Eaton, who after ward married Solomon Nichols and removed to Oneida county, taught a school at the Cross Roads, and Mr. Eaton distinctly remembered that this was the second school taught at that point, the first being taught by a lady, whose name he could not recall, in the summer of 1806. No school was taught there in the winter of 1806-7. This *first school*, as also the one taught in the summer of 1807 by Miss Eaton, was "kept" in a room of the house of James McMahan the first *bona fide* settler of the county. A communication, now before me from Mrs. Smith, the wife of the Hon. Austin Smith, of Westfield, and a daughter of Col. McMahan, states that she, Mrs. Smith, often heard her father speak of the first school taught at the Cross Roads, and her impression is that it was in the summer of 1806. Mr. Eaton was quite positive in regard to this, as it was in progress when he came to Portland after the purchase of his land in July of that year.

H. C. TAYLOR.

Brocton, Nov. 13, 1885.

1837*

Presiding Judge Shippen
unmaintained labor in answer

Me adores Jan 7 1834

E. J. F.

Dear Sir

I am become like yourself an earnest advocate
for the manual labor system in Allegheny College - The Board have
deputed Dr Ruten, Judge Barlow & myself as a Com. to go to Harris-
burg to solicit aid to it - We shall set off tomorrow & hope
to meet Mr Galbraith, Banks. M. C. there -

The Board have just transmitted to our Senator & member
of Congress memorial, praying the grant of a township of land
in aid of the same object - & as a committee we have addressed
every Penn^a member, requesting their support & enclosing Mr
Johnson's report on the manual labor system which I presume
you have seen - Dr Ruten suggested this measure & seems
to have strong hopes of success - But this will require all
the cooperation of the friends of an institution that we
can obtain - Could you not aid us by a letter to some
of your acquaintances in Congress -

We are already encouraged in this plan by the readiness
with which the proposition has been met by many young
men of the neighborhood - There are now forty four students
several of them young men above the age of 21 and one of the
age of 28 - and one a married man having a family -
This serves to convince me that many more of our enter-
prising young men would endeavor to obtain a collegiate
education if it was brought within their means & power

I am with high respect & esteem

Yours
Henry Shippen

Dr E. J. Foote -

College by Dear Brother 1855 Meadville

I have just received your letter and say I regret I have not been able to visit Juniata. I intended to have spent last week in your place but when I returned from the West I found my wife sick unto death and for three weeks I have not been able to do any thing in my business. She is some better, but I shall not be able to visit Meadville at their Meeting, but one of the trustees was here yesterday, and made enquiry of my prospects as to means for purchasing a farm, I have instructed him to assure the Board they need not hesitate about the purchase of a farm. The most if not all the Board are decidedly in favour of the Municipal Labour System, but think it would not answer to make Labour a requisition in the present state of their funds, but I verily believe if the health of my family permit, at the close of my agency they shall not complain of want of funds I believe I shall be able to raise \$15,000 at least I have been over but a small portion of the ground and have raised \$3,200 of it. I find the prospects of students very encouraging. I have found 16 young men the most of whom will enter the Preparatory course the 1st of November, I have not visited since any of the Regions lying in or about Meadville. I shall visit the Genesee Conference. and as soon as I return from there move to Meadville after which I shall visit

Wairen and James town but I shall
write some time before, so as to give
you timely notice, I feel deeply interested
in the Prosperity of that Institution, and
shall do all I can for it, I have made some
Inquiry about Land also and find but one
Chance for making the exchange for Land
in Illinois, it is a good farm of rising of 100
acres eight Miles above Meadwell on French
creek, it is under good Improvement, but
cannot be got short of 12 Dollars per acre
one half would be taken in Land in Illinois
I expect the Present meeting of the Board will
be an Important one, and wish you would
attend, I should go but cannot leave my
Family at present from yours in
Love but in haste

J. Barris

on the one hand and needs pass on the other both being ominous of a
failure. The region of country in habitat is pleasant, healthful ^{ish} ~~ish~~
and may of itself supply the institution with 100 or more students in ten or two
years. The labour system must draw many and them too from the wealth
and by ways of life when genius lies under a cloud in its richest abundance.
The ploughboy, the mechanic and the unknown artisan may by this system
be brought to men in spheres of usefulness the extent of which time itself
will never disclose. But it is needless to say more for the present.

I am very respectfully
Yours obediently
David Derickson

COPYRIGHT CHAUTAUQUA COUNTY HISTORICAL SOCIETY WESTFIELD, NY 2012

1833

D. D. Benson Esq Trustee
Hesperus College to
attend meeting of the board

Mea cilleo Sep 24. 1833

Dear Sir,

I have been harrassed and p^{ro}ff^{er}ly distressed in consequence of the property of Messrs Shing & Co. Albany some which I am desirous of acquiring them but cannot for the want of a suitable and safe method. As you expect to be here the 7th of the month would you oblige Messrs Shing & Co. to place to their credit in your bank that amount which I would have you when here. If you could conveniently do this and give Messrs Shing notice of it. I would be very thankful for the personally principal reason for making this request is that my intention to deposit in the Farmers Loan bank to his credit. And as I have money on hand I wish to pay into them of the profitable corner in the paper. Please write me!

I hope we shall have a full meeting of the Board of Trustees the 7th of the month. I have forwarded notice to distant members for this purpose. At our last meeting in July a Committee was appointed to report on the Management of the Agricultural System. The subject will be brought up at the present meeting and I presume maturely considered at the next meeting. I fervently hope some thing effectual may be done since the institution brought into being is a useful operation. What shall prevent it? Let not sectarian prejudice be influenced in this way. For if it had the whole must prove a failure & will depend on the discreet & prudent management of the Trustees & functionaries of the institution in this matter. Let not safety mean inactivity. I hope for a prosperous result. I would advise voluntary and

on the one hand and needs far on the other - both being ominous of a
failure: The region of country in in habit is pleasant, healthful ^{and} fertile
and may of itself supply the institution with 100 or more students in ten or twelve
years. The labor system must draw many and them too from the walls
and by way of life when genius has an air around in its richest abundance.
The ploughboy, the mechanic and the unknown African may by this system
be brought to man in spheres of usefulness the extent of which time itself
will never develop. But it is needless to say more for the present.

I am very respectfully
Yours truly
David Dickinson

COPYRIGHT CHAUTAUQUA COUNTY HISTORICAL SOCIETY WESTFIELD, NY 2012

Dear Brother Jan 4th 1834

After so long a Silence permit
me to say we are all in tolerable
good health, feel some thankful, and
are trying to love and serve God, and
was glad to hear the Prospects were still
good in Jamestown, Religion is rather
low here -

The Prospects of our Collige are flattering
we now have 44 students and others are
expected, Judge Shippen, Barlow and
Dr Ruster start this morning for
Harrisburgh to promote our interest at
the Legislature, we expect aid from there
we have also sent on a petition to Congress
for a grant of their Western Lands, If
you think best please write to some
of the members from your state in
either house at Washington, and thus by united
effort we may succeed -

I think by Spring session we shall have
a large school if we get our farm, and
shops in operation, Pierce and Will are
at school and doing well, I have
100 Dollars subscribed to the funds but
cannot say when I can visit your region
Write in haste and short as I have 8 or 10 other
letters to write this morning
Your friend
J. J. Barris

My little Daughter still labours in
great difficulty at times from the evil
Tonsils I wish you to let me know
she could probably obtain any relief, but
extracting a portion, and if so, point out
me the remedy - and oblige yours

J. S. Barris

NB My Love to your Wife Child
and all friends

J. S. B.

ALLEGHENY COLLEGE.

Location--Meadville, Crawford County, Penn'a.

Easy of Access by Rail Road.-- Beautiful in its surrounding Scenery.-- Noted for its healthfulness.

FACULTY:

- REV. GEORGE LOOMIS, D. D., President, and Chamberlain Professor of Moral and Mental Philosophy.
 REV. JONATHAN HAMNETT, D. D., Vice Pres't, and Bradley Professor of Latin Language and Literature.
 REV. JAMES MARVIN, D. D., Professor of Mathematics and Astronomy.

 REV. AMMI B. HYDE, D. D., Professor of Greek Language and Literature.
 CHARLES W. REID, A. M., Professor of Modern Languages and Literature, and History of the Fine Arts.
 REV. JAMES MARVIN, D. D., Secretary of the Faculty.
 CHARLES W. REID, A. M., Librarian.
 JEREMIAH TINGLEY, A. M., Curator.

Admission.

Candidates for admission to College must present testimonials of good moral character, or certificates of honorable dismissal from other Colleges.

Ladies will be admitted to the college classes subject to the same examination as gentlemen.

An accurate knowledge of the following studies will be required for admission to the Freshman Class :

LATIN	{	Reader and Prose Composition, Harkness. Two Books of Cæsar's Commentaries. Four Books of Virgil's Æneid, and Prosody. Harkness' Grammar.
GREEK	{	Lessons, Reader, and Composition. Two Books of Xenophon's Anabasis. Hadley's Grammar.
MATHEMATICS	{	Arithmetic. Higher Algebra to Quadratic Equations.
ENGLISH	{	Geography. Grammar. History.

For admission to the advanced classes, a knowledge of the previous studies of the course, or their equivalents, will be required.

All members of the Senior Class will be expected to be in attendance during the entire Senior year.

For the present, to accommodate students preparing for the College course, classes will commence Latin the first term of the College year, and Greek and Algebra the second term. The Professors of the College will give instruction to these classes.

Collegiate Classes—Order of Recitations.

†ALTERNATE DAYS.

Astronomical Instruments.

An excellent Telescope, 8 feet Refractor, 7½ inches Object Glass, in power capable of separating minute double stars; manufactured by A. Clark & Son, Cambridge, Mass. Also, a superb Transit from the hands of Stackpole Bros., New York.

Also, Sextant Transit, with Meridian Finder, Prismatic Compass, and other instruments essential to the department of ENGINEERING, all of first class workmanship, and practically used in the field.

Apparatus and Cabinets.

The College is now in possession of extensive cabinets of Mineralogy and Conchology, and complete Chemical and Philosophical apparatus of the most approved forms.

The apparatus, for the most part, has been made to order by manufacturers having the highest reputation for skill in their special departments. It comprises several hundred distinct pieces, affording the most ample means of illustrating every branch of physics and chemistry now taught in Collegiate Institutions.

The Laboratory is stocked with a full assortment of common chemicals, a cabinet of rare preparations, and an abundant supply of apparatus for all chemical purposes—the greater part of which has been imported from Paris and Berlin.

The Cabinet embraces four distinct collections of minerals and shells.

1. THE PRESCOTT CABINET, comprising 2,400 specimens of marine, terrestrial and fresh water shells, and about 3,000 specimens of minerals and fossils collected and mounted by Dr. WILLIAM PRESCOTT, of Concord, N. H.

2. THE HALDEMAN CABINET has 550 excellent and carefully labeled specimens of minerals, and about 2,000 species of shells, and was purchased of S. S. HALDEMAN, of Columbia, Penn'a.

3. THE ALGER CABINET.—This magnificent collection, made by the late FRANCIS ALGER, of Boston, contains 5,000 specimens of minerals, remarkable for their beauty and variety, many of them unique. It embraces also a large number of duplicates, and a handsome suit of about 1,500 specimens of shells. This collection is said to have cost Mr. ALGER over \$35,000.

4. CABINET OF LITHOLOGY AND PALÆONTOLOGY.—Arrangements have been made with Prof. HENRY A. WARD, of the University of Rochester, for a Lithological and Palæontological cabinet of over 11,000 specimens, about 1,000 of which have been received. The Megatherium Cuvierii and six other large casts are mounted in the former chapel, which has been fitted up in elegant style for this Geological Museum.

5. ENTOMOLOGICAL CABINET.—A superior Cabinet of Insects, embracing 3,000 species, carefully and accurately catalogued and classified. It was arranged by W. O. Currier, of Providence, R. I., and donated by a friend of the College.

Museum of Art History.

A commencement has been made in the formation of a Museum to illustrate the history of the Fine Arts. At present the collection contains sixty casts of works of sculpture, two hundred photographs, and the same number of engravings. They are so selected as to represent characteristic features of the different periods of the arts of Architecture, Sculpture and Painting.

THE COLLEGE LIBRARY contains many rare and valuable books and is accessible to all the Students.

THE LITERARY SOCIETIES have their respective halls and libraries.

A READING ROOM affords access to the leading Periodicals of America and England.

TUITION virtually free.—Incidental Fee, four dollars a Term.

BOARD in the Hall or in private families, will not vary much from four dollars a week.

Midville Sept. 28th / 1833.

Dear George Hoar,

De Sir,

I was much gratified by the perusal of your letter, to find so lively an interest felt in the progress and affairs of Allegheny College, by one living so distant; and fully sensible to the sentiments which it contains. I showed your letter to nearly all the members of the Board living in the place. They heartily accord with your views, and say that something must be done immediately toward accomplishing the desirable object. There is a small flock of \$2 or \$3 Acres, which we shall endeavor to obtain as a beginning. It lies convenient to the College building, and may be had for \$600. This amount, Mr. B. Morris, thinks he can raise by subscription, the present year, for this purpose; as he finds that the object is deeply appreciated by the people generally. The Board appointed a Committee some time ago to collect information concerning the object of a manual ^{labor} institution; and to digest a plan of operation. This Committee will report at the next meeting of the Trustees, which takes place the beginning of the ensuing month. We should all be extremely glad to see you

at this meeting, but I suppose we can scarcely
expect it.

Please write me as often as you can
in it. I shall always esteem & communicate
from you as a favour.

Very respectfully yours,

Wm. J. Clark

Your Obedg^t Servant,

Dr. Sir,

I was much gratified by the perusal of your letter, to find so liberally an interest felt in the prosperity and affairs of Allegheny College, by one living so distant; and fully sensible to the sentiments which it contains. I showed your letter to nearly all the members of the Board living in the place. They heartily accord with your views, and say that something must be done immediately towards accomplishing the desirable object. There is a small flock of \$42. as \$3. does, which we shall endeavor to obtain as a beginning. It is convenient to the college building, and may be had for \$600. This amount, Mr. Bassis, thinks he can raise by subscription, the present year, for this purpose; as he finds that the object is deeply appreciated by the people generally. The Board appointed a committee some time ago to collect information concerning the plan of a manual institution; and to digest a plan of operation. This committee will report at the next meeting of the Trustees, which takes place the beginning of the ensuing month. We should all be extremely glad to see you

at this meeting, but I suppose we can scarcely expect it.

Please write me as often as you can in the future. I shall always esteem a communication from you as a favour.

Very respectfully yours,

Wm. S. Clark

Madville Sept. 1837.

Hon. E. S. Hoole,

~~Dear Sir,~~ I thank you for
your remarks respecting our Catalogue; they are
just — as also your remarks on College books &c.
The College ought to receive expurgated editions of the
classics. They certainly contain some things, a great
deal worse than mere exercises. We shall endeavor
to profit by your suggestions. The Catalogue
is now in the press, a copy of which will be for-
warded to you, as soon as published. But I am
satisfied it will not appear in a day to please
you. It is impossible to get materials or work-
men in this place, to print it neatly; and it is too
late to send abroad. — Forgive us this time,
and we promise to do better in future.

I am very glad you think of sending to
us your brother & sons. We will do what we
can for them. In regard to their studies during
the vacation, I presume such arrangements can
be made, as will enable them to employ their
time profitably. I design being absent part of
the vacation; and the other Professors may also;
but such attentions and directions could be given
to them, as would secure their advancement.
The Board will probably meet the day before
Commencement, which is on the 2^d. We shall be

very glad to have you present. If the funds of the
College would at all justify it, we ought to have
an other professor.

Please write to me as often as you can find
it convenient, and suggest whatever may seem
to you of importance respecting the College.

Very respectfully yours

Wm. S. Clark

John Pierce son of John M. Studer Albany College
New Paltz March 8th 1834

Dear Brother in the Lord having occasion wish to
write you a few lines. I have enjoyed good
health since I left Jamestown I received a
letter from Mr. Crane last week and he writes
as follows concerning my trunk I send you
your trunk and direct it to Mr. Smith who
keeps the stage house. It is a mistake the mans
name who keeps the stage house is J. E. Smith
however he has a son by the name of Andrew Smith
and a brother who is a Merchant by the same name
I have inquired at both places a number of times
and find that it has not come I am therefore
led to fear that it has got mis carried if it is sent
and this is the reason why I write to you thinking
that perhaps some letter might be in the Office
some time and that I should not hear anything about
it in some time if I write to Mr. Crane

I should be very much indebted to you if you
would inquire of Mr. Crane about this affair
and let me know as soon as possible that I may
do something about it. If it is not sent if he
sends it he had better direct it to J. E. Smith
or to myself. With regard to my studies I am prosper
ing as much as could be expected from my circumstan
I have been twice through grammar arithmetic &
geography once nearly. This session closes the last
of march. I have to work over half of my time to pay
my expenses. I am well pleased with the institution
and feel an increased anxiety for my studies.
I should like to hear who are coming from
Jamestown the next session. I expect Hiram Eddy

Samuel and Obed I have found your advice to
be very good and use full to me, in so much that
I am led to ask it ~~again~~ with regard to studying
Latin and Greek I do not know how long I shall stay
it will depend at ~~the~~ on circumstances yet I am resolved
to go a year at least and if much more as I can. In two years
I can get a good English education in ~~2~~ years but if I grad-
uate it will take four years. and if I take only an English
course the studying of Latin will be lost. I should be glad to
get your advice about it as you have always been as a
father to me. Religion is still my all. I have found the
Lord to be my best friend. His promises are still
the same. By grace I am resolved to make my way to
the haven of eternal repose. give me your prayers that
my faith ~~will~~ not. Bro. Babbis is now on tower around
Franklin his wife has been very unwell though she is now some-
better yours in love

John. Pierce Student of Allegheny College.

Hon. E. T. Foot

Sir I have recd your communication
 of the 6th Inst for which please accept my thanks
 we have made a statement of Academy affairs to
 the board of Regents which I hope and trust will be
 satisfactory - we did not get our Academy finished
 for opening the school until last spring. after
 the building was completed we considered it of the
 utmost importance that we should employ
 a teacher of the first rate talents to give a
 character to the institution at its commencement
 For the course of the summer we engaged Mr.
 Austin Smith a gentleman lately graduated at
 Hamilton College at a salary of \$400. with a
 condition if the school should flourish under his
 management his salary to be increased to \$500 -
 the school has so far more than equalled our
 expectations the first quarter commenced with
 about fifteen scholars and ended with fifty
 the second quarter which will close next week
 will average about sixty - we have received
 from the State Treasurer two installments of \$350 -
 each which money is now in the hands of the trustees
 except what has been paid to the teacher for his
 wages, and will be kept inviolably for that purpose
 according to the act of 1825. making the appropriation
 for our Academy we should be very sorry to leave
 the board of Regents unless the payment stopped at this
 time it would very much if not entirely ruin the
 institution in its present infant state and which prom-
 ises so much future usefulness
 we feel very grateful to you for the interest you have taken
 in the business & hope you will continue to assist us as you have

Black Rock, August 5th 1838

Dear Sir,

I take great pleasure in conveying to you the enclosed letter from Mr Suck - and appeal to you as one of the Trustees of our new University, & soliciting your friendly influence in procuring his appointment to one of the Professorships.

Before I was committed to Mr Suck the charge & instruction of my children, I took great pains to satisfy myself that he possessed the various qualifications, moral & intellectual, which would warrant me in confiding to him a trust, than which, in the estimation of a father, none can be more delicate or important.

I have read Mr S's letter attentively, and have no doubt but that the various interesting facts, which it states (many of which have been confirmed by letters of recommendation, which he has shown me, from the distinguished men to whom he refers) are strictly true.

Mr Suck, so far as I was qualified to judge, is an accomplished Scholar and Teacher; and I should deem the Board of Trustees fortunate in being able to avail themselves of his valuable services. I shall cheerfully give him my vote, and hope you may find it expedient to do the same.

I remain, Dear Sir,
very truly yours

manner in every one of all its parts - The joins, Stud
siding & sheeting of the roof to be of hemlock or other hard wood
The cladding and all the outside is to be finished
with good clear white pine lumber - The inside to
be finished with good stuff, ^{sound} except the floors are to be laid
with a good lot of gong boards 5 quarters thick and
not over 10 inches wide well matched but not planed.
The hall and all the rooms are to be ciled up as
high as the windows of like ^{quality} gong boards - All the doors are to
be set framed out from two inch ^{clear} plank each
door to be hung with not less than 3 best heavy iron
bolts with appropriate trimmings & locks, & the doors
of the rooms to be numbered - The outside doors
to have good domestic wrought iron handles
The outside of the building is all to be painted with
three coats of good white lead
and the inside with two good coats of colored paint
as advised by the turtles - Except the doors which
The windows are all to have a good firm window spring
& sash across the lower part to keep out elbows &c, &
the sash are all to be well painted - The plastering
is to be of two good coats of lime & horse lake sand
well finished - Each of the outside doors above the
basement are to have good ^{stone} platforms & steps appropri-
ate to their places, with bonnet stones - There is to be a huttle
door & appropriate moveable stairs to go into the govt
& a ruffage board floor to safely protect the plating of
injury in the govt of from thence ruff stairs to pass
& scuttle in the belfry cupola the deck of the huttle is to
well secured from injury to the building by storms, & to
hold the bell in the cupola if the turtles furnish it

Contract made in 1836

Article of agreement made the 3^d day of August eighteen hundred and thirty six between
"The Trustees of the Jamestown Academy" (by their Committee
Elias T. Fote Samuel Bortt & Moody St. Chondley of
of the one part and Charles L. Bond of the other part
Witnessed that said Bond has agreed to build erect and
finish for said ~~Academy~~ ^{in a faithful workman like manner} Trustees, an Academy building
in Jamestown agreeable to a ^{draft of} plan furnished by
said Harris, the building being two stories high
above the basement and ^{in size} forty by fifty feet high
with a cupola - The mason work of the basement ^{is}
to be of stone ^{is} all to be done by the Trustees & Harris is to finish door
the Carpenter & joiner work of the basement including
door & window frames, doors, windows, ^{& wooden windows} & every thing of a
- toing to the Carpenter work of the outside of said basement
to finish & complete the same including pointing the wood
work; but ^{he} is not to do any thing to the inside
the basement story except to make doors into the
same from the upper part, as the basement is to be used for
the present as a wood house.

The first story of the upper part is to be divided
agreeable to the plan into a hall ~~two~~ rooms & two pair
of stairs with doors at the head & foot of stairs

The upper story is to be finished ^{with a stage} agreeable to the
- tially agreeable to the plan of Mr. Lyndon Ferris & the
he drew for the Academy & submitted to said Harris
with the addition that a part of the partition is to be
to have ^{or roll} trundle ^{or roll} both when deemed proper

The frame is to be constructed in the best form and

and there is to be a corey through the 2^o story for the bell rope top up through down to the hall & the floors & plaster properly fixed for a bell rope to pass through - Building to be shingled with best 19 in ^{split} shingle laid ^{over} 5 in chis to the weather

There are to be two brick Chimneys which commen in the basement walls & run up & with good tops above the ~~roof~~ well second where they pass the roof & the tunnels to be plastered on the inside & there are to be the necessary circles to receive proper stone pipes in each story like circles in partitions where necessary to carry through stone pipes to pass to the chimneys on

There are to be not less than 100 ^{appropriate} clerks ^{& gats} for scholars

All the ^{finishing} timber which is necessary is to be well and thoroughly seasoned - There is to put up a lightning

on the building or contiguous to it if the trustees wish the necessary rod ready ^{to be put up} ^{prepared in all its parts}

It is intended that the whole & entire building in all its parts (except inside of basement) shall be completely finished by ^{said} Harris & ready for use & occupation by ^{the trustees} putting in the stores & it is expressly understood that if any thing in or about the building is omitted to be mentioned that the same shall be done by ^{said} Harris appropriate to the work which is mentioned.

The job is to be finished & completed ready for occupation on or before the first of January next unless from providential accident it should be delayed in which case a reasonable addition time is to be allowed - For the consideration of the Board building & work being completed or ^{for the draft for building} fore said the trustees

agree to and with ^{said} Harris to pay him 2400 \$ or follows He is to take the following subscriptions made to the trustees or agents of them viz (^{inspect see} the list) - and the balance in cash as follows: 1/3 When the outside of the building is finished

1/3 When the building is completed & 1/3rd in one year from this date - It being suggested that for the stockholders may think the price agreed is too low Horne proposes of his own accord to keep a true acc of all his disbursements & expenditures & exhibit to the trustees when the job is done & if it should appear that he has any more than a fair & honorable compensation for his disbursements, time & responsibility in the work, he will make such deductions from his contract as honorable men & workmen shall deem just

R. P. Howlin
Among my correspondents - Albany 18 Decr 1836
Hon. E. T. Foote

Dear Sir

I do not remember whether I have
informed you of the passage of our Academy bill
It has passed through a law just as you sent
it down, I have no particular information
to communicate. We are all very anxious to get
them, we have an immense amount of busi-
-ness on hand. enacted upon, The Clarke
Prin Canal bill had just had its third
reading, & passed Ays 82 Nov 18 1836
Sir I do not believe that this Canal will
Even pay a Cent. to the State, Our R.
R. Loan bill is still in the Senate & Mason
is still speaking, He has been speaking
nearly a week in favor of the bill. The
Sold, Only knows what his object can
be in protracting the debate, They have
managed to get the B. R. Canal ahead
of it and of Banks, Mr. Campbell & myself
have some fears that it is now intended to
kill our bill in the Senate, You need not
be surprised if you hear such a report
tho I still believe it will pass, The question
will be taken I presume within three or four
days, The fate of Banks is very uncertain
tho I still think a few will pass, It is an
embarrassing question, The committee have
reported \$12,000,000, what do
you say to this? Would it not be dangerous
I have thought much this winter upon the subject
of our Currency, I am in favor, ^{under all circumstances} of a moderate
etc increase but I do think & so do you that
they are now permitted to make too much
Money out of the people, This is a tremendous
business ^{in money matters} in the City of New York &
in this City there has been nothing

like it for many years, it must be so
in the very nature of things. The government
deposits have reached nearly or quite \$5
000,000. This is mostly taken from auction sales
and yet a distribution cannot be obtained.
I know many of your party who would
be glad to have the funds distributed, God
only knows what all this state of things will
result in. What do you think of S. Wicks
proposition, to authorize Commissioners
to buy stocks with the public money?
ask you if you do not think under
such propositions, the United States
go into the market with 30 or 40
000,000 (& continually increasing) &
establish a Bankers Office. His project
cannot, will not prevail. The only just
mode is to divide it, as Jackson
a few years ago recommended, as Taylor
has recommended, as Clay now proposes. There
is much deep feeling here on various
subjects that has not yet found a public
utterance.

I have no doubt but that the act to
repeal the restraining law in part, would
pass if it could come up under other
circumstances, but as it is it will be
lost in our house. Mr. Cutting who
introduced it, is opposed to Banks &
is rather an able monopolist, he is a man
of good talents, but the party has succeeded
in fastening upon him the name "Sec
foco" though he disclaims any connection with
that faction in N.Y. When I was in N.Y.
I did not think of writing you a dozen
lines but I have scribbled on, some of it
are suggestions for you alone
Yours
R. P. Mason

Mr. Root

Sir

Will you allow me to trouble you with a
your question respecting the Academy in your village. ---
I intend to devote myself to teaching for a few years if I
can find an eligible situation.

I do not know that there is a vacancy in your school, but
as the Academical Year commonly closes about this time, I
have ventured to trouble you, supposing such an event very
probable.

I have some experience in the business of teaching. I can
present testimonials of character & scholarship from the Officers
of Middlebury College Vermont, where I was graduated, & from
Professor Hart, late of the New Jersey College, under whom I have
been engaged in the Edgehill Seminary, (Princeton N.J.) the past
year.

If you are in want of a teacher, you will oblige me, by
writing me upon the subject, - stating the situation & prospects of
your Academy. In any event, I trust you will excuse my
intruding myself, perhaps unreasonably, upon you. I should have
made my application to the Trustees of the School had I known
any of them by name.

- I am Sir

E. P. Root Esq.

Your Obedient Servant George H. Parker

Select School D-1833 little "ye new school house"

Mrs. Stenman proposes to continue her school in the school house near E. J. Foster, the ensuing winter, and to commence on Monday the fourteenth at twelve shillings per quarter; the finding her own wood and board. Limiting her scholars to twenty five. We hereby agree to send the number of scholars set opposite our names, & agree to pay for the same quarterly.

WEIGHT COUNTY HISTORICAL SOCIETY WESTFIELD, NY 2012

Meadville Nov. 5th 1838.

Hon. E. S. Fane,

Dear Sir, your last communication was received some time since, for which I thank you. The object I have in writing at this time is to submit to your judgment, a project which a few individuals here been thinking and talking about, for some time.

We have always had a number of little boys in college, to whom I have long felt, we were unable to do entire justice, on account of their age. They are too young to be subjected to college discipline. In the first place, they necessarily have the control of too large a portion of their time; and in the next place, they are associated with others older than themselves, who are superior to them both in capacity & habits of study, and consequently, qualified to advance more rapidly than they are. The effect is, that these younger students are often driven along by the class, over ground, which they understand but superficially.

The plan proposed, is to connect with this college, what might be called either a grammar school, or a primary department, designed for this class of students, and to be conducted on the plan of common schools. If need for the purpose, we could probably, obtain the Academic building in the village.

But there is another part to the plan. It is to connect with this new institution, a female department. In a word, to endeavor to establish

-lish, under the general supervision of the College
-faculty, a female Seminary of the first order, un-
-der all the branches of an extensive and accom-
-plished female education. The design would be to
-have it entirely separated from the College, in loca-
-tion and its internal arrangements.

"What think you of the nation? Please com-
-municate to me, as early as convenient, your views
-in relation to it. If it should be thought advisa-
-ble to adopt the measure, it would perhaps be des-
-ireable to publish our plan at the close of the
-present term.

There is now a prospect of our receiving
-further pecuniary aid, from our Legislature. There
-is a general bill before it, to make an annual
-appropriation to all the Colleges of the State hav-
-ing two students or over, of \$1600 for an indef-
-inite term. It is thought this bill will pass. If
-it should not, there is a bill reported in favour
-of this College, for \$20,000, which we therefore
-hope may not fail. "Have our agents the Soc-
-ceeding I cannot say, we have written to them, but
-have not yet been answered. I agree with you
-in thinking, our preachers do not do all for the
-College, they might. I intend shortly addressing a
-word to them on the subject.

Please give my respects to your fam-
-ily. We were sorry his health did not permit
-it his remaining to the close of the Session.
-Yours sincerely

W. J. Clarke

Jamestown Academy

To the people of the village of Jamestown

The term for which Mr Ferrar, the Principal of the Jamestown Academy, was employed having expired, he is about to retire from the station -

The trustees, now have an opportunity of employing Mr George W. Parker, a graduate of Middlebury College, and who is highly recommended and has had experience in teaching in one of the best institutions in the United States.

It is to be feared that the Academy, will stop for the want of scholars patronage, which the trustees believe would be a disgrace to our village

The trustees therefore submit this subscription to the inhabitants, for them to decide whether this village with a good Academy building & a larger population than six of our neighboring villages (that sustain Academies) shall suffer our Academy to go down for the want of public spirit & patronage.

To determine the question the trustees submit the following subscription to the people -

The undersigned propose to send to the Jamestown Academy the number of scholars set opposite their respective names & pay the tuition agreeable to the terms & regulations hereunto annexed

Tuition Per term

For the ordinary branches of an English Education, as Arithmetic, Grammar, Geography, together with Composition, the principles of Education, &c. — \$4.00.
For Chemistry, Natural and mental Philosophy, the higher branches of mathematics, and the Latin, Greek, and French Languages — \$6.00.

Three terms in a year

Jamestown Sept- 6th 1837

-lish, under the general supervision of the College
-faculty, a female Seminary of the first order, and
-acing all the branches of an extensive and accom-
-lished female education. The design would be to
have it entirely separated from the College, in loca-
-tion and its internal arrangements.

"What think you of the nation? Please com-
-municate to me, as early as convenient, your views
-in relation to it. If it should be thought advis-
-able to adopt the measure, it would perhaps be des-
-ireable to publish our plan at the close of the
-present term.

There is now a prospect of our receiving
-further pecuniary aid, from our Legislature. There
-is a general bill before it, to make an annual

Albany: June 5. 1837

Dr Sir

Your letter of the 28th ult. was received a day or two since - but - because of other business presented an earlier answer -

As your Academy is already incorporated by the Legislature you have only to show that you propose the building funds be required by the Regents on an original application to them for incorporation - For the building of funds that require Acts Instructions of Regents in the Pamphlet I sent you page 30 - As to the form of your application it may be a simple affidavit statement of facts (supported by oaths) showing incorporation by Legislature & description of building funds &c so as to bring you within the provisions in the resolutions of the Regents in the Instructions above referred to

Your obedient servant
G Hawley

If your building or repair funds are by the Regents
before the 1st of January next I think you will be
enabled to receive the funds in a better manner than
at present

Hon E. D. Foste

Dear Sir

Your letter in relation to the literature fund
It was near some days since I have taken time
to learn something in relation to this subject
and have become satisfied that all ~~good~~ academies
with good buildings and in which classical studies
are pursued and which are out of debt ought
to share in the literature fund — I have conversed
with the chairman of the committee in col-
leges & academies &c and I am inclined to think he
will bring in a bill in compliance with your
views and if so I think it will pass

The restraining ^{law} is expected as you will
have observed — The subject of a general Bank law
for this state is seriously agitated here and if we
in the assembly can agree on the details of a bill
I think we shall pass such a law ~~if~~ how it may
pass in the senate I dare not predict — I
cannot see any more difficulty in framing
a bill for a general law than for a local
Bank charter; nor do I conceive any more
change under the provisions of a general law so far
as the bill holder or currency is concerned than under
our present Banking system — It certainly would

Hon P Spencer in
Assembly from Oct. 60
on Academics - Bank

Law de la

of the slow manner of
collecting tuition

Larnestown August 2, 1830

Doct. E. J. Fother, Sir

An apology may be due for
my intruding on time on your notice — You
are probably aware that I have received no money
for Miss Wheeler's board. It may be unnecessary
to say that we really need the money. I wish to buy
some of the books now circulating in the village for
the benefit of my family. And we need some
too for other purposes. You must be aware that
the scarcity of money, makes it very hard for labor-
ing people to provide bread for their families. And
there are a thousand necessities to provide for a family
like ours, besides bread. If you can comply with
my request and pay me some money this morning
you will greatly oblige. Yours Respectfully

Judge Fote

Sir, I have ascertained from a Barnestown paper which I have seen to day, that I am expected to resume my place in your Academy during next term. I had expected to have been written to, on the subject, and as I received no communication from either the Trustees or Principal I supposed my services were not required; but as I have indirectly learned that they are expected, I drop this line to Judge Fote, requesting him to apprise the Principal and Senior Students that I shall not be able to be present at opening of term, but shall probably arrive there next Sat. on Mon.

On account of my Sister's continued ill health I had hoped my return would not be deemed necessary, but as it is, I will cheerfully (if not willingly) resume my labours in school; though I am not prepared to come in at the commencement as I should have been had I been informed at an earlier hour.

Yours with Esteem & Respect

Clarissa Wheeler

Hon. C. D. Fote

Palmer

Owego, September 13, 1837.

E. J. Pratt Esq^r

Dear Sir,

I have just rec^d yours of the 9th instant containing the communication of the Trustees of your Academy. Please to signify to them my acceptance of the invitation.

I shall not be able to leave here so early as to reach Saunton in time to commence the school on Monday next: but will be there in readiness ^{to open the school} the Monday following - (Sept 27th).

I am happy to learn that I have relatives in Saunton. I have hoped to find them some where in Chautauque or Cattaraugus County, but was ignorant of their more particular locality. Please to remember me to my aunt & cousins when you see them. It affords to me no slight gratification that I shall not be situated among utter strangers.

With much respect

Wm. L. Geo. N. Parker

1837

Circular relative to the
distribution of literature fund

(CIRCULAR.)

JAMESTOWN, CHAUT. Co. Jan. 12, 1837.

SIR—

The present unequal mode of distributing the revenue of the literature fund, has long been a source of complaint on the part of the incorporated Academies, which by the rules of the Regents of the University, are not permitted to subject themselves to their visitation, and participate in the benefit of said funds, unless they have an annual income (arising from a permanent investment) of \$250 a year. Many of the most flourishing Academies in this state are by these rules excluded from the benefits of the literature fund and great injustice done. His Excellency, the Governor, in his recent message, has very justly adverted to this subject. The matter has been discussed in this county, and the Academies not subject to the visitation of the Regents and the people are about petitioning the Legislature to correct this evil; and that *all incorporated academies which have the necessary buildings, &c. free of incumbrance, and a regular classical school, have the privilege of subjecting themselves to such visitation, and have their just proportion of such funds.* We therefore suggest the propriety of your also petitioning the Legislature upon this subject *without delay*, and that the people in your vicinity do the same; and urge upon your representatives their co-operation in procuring the passage of the law, and an addition to the literature fund from the interest of the surplus revenue.— From an examination of the reports of the *favored* Academies, it will be seen that in many cases their permanent investment is a mere show, yielding no income whatever, and their buildings and apparatus are not unfrequently much inferior to other Academies not under the Regents.

Very respectfully, your most obedient.

Copy of Petition 1837

To the Hon. the Legislature of the State of New York -

The petition of the undersigned officers of Academies and citizens of the county of Chautauque respectfully represent that in their opinion the present unequal mode of distribution of the revenue of the Literature fund is an evil demanding the interposition of the Legislature to remedy. By the present rules of the Regents of the University no Academy is entitled to subject themselves to their visitation without having an annual income arising from permanent funds to the amount of two hundred and fifty dollars. No Academy not subject to such visitation is allowed any participation in the public moneys - While such are the standing rules of the Regents yet by the operation of special laws incorporating the several institutions and from other causes but very few of the Academies sharing in the benefits of the fund are within the rule thus established - Most of them have no annual income whatever arising from the permanent funds - While such is the situation of the participating Academies, then many incorporated by the legislative authority, having large permanent investments in buildings and Real Estate furnished with Libraries and Philosophical apparatus and which every study is pursued which is taught in the most favoured institutions and yet are excluded from all share in the public funds - There is particularly the case in this county - But one Academy receives a distributive share of the Literature fund while others with large permanent investments receive nothing -

The undersigned can see no reason why a classical scholar taught in Fredonia Academy should draw a portion of the people's money while another pursuing the same studies in the Mayville or Amstovon Academies is denied a share - Entertaining such views we saw, with pleasure the just notice taken by his excellency the

Governor in his Message to your body in relation to
this subject, and believing with him that if successful
constitutes any claim to a share in those funds all
Academies incorporated by the Legislature ought to be
permitted a participation therein we respectfully
solicit the passage of a law authorizing all incorporated
Academies not now subject to the visitation of the Regents
of the University and which have the necessary buildings
and appertinances for and clear of all incumbrances
and a regular classical school to subject themselves to
such visitation by a resolution of their respective Trustees and
thereafter be entitled to receive their distributive shares of
the literature fund and your petitions as de-
-clined Amstern January 13th 1857-

Albany Feb 4. 1837

Dear Sir

Col Young has introduced
a bill into the Senate giving to all
incorporated Academies in this State that
shall hold in real estate and personal
property to the amount of \$5000 a par-
ticipation in the literature fund -
How will this do? - I called upon
Col Young to say I told him that I
thought \$4000 should suit us better
He said that he had a doubt which was
the sum whether \$4 or \$5000 - You will
get a greater sum the larger the sum upon
which academies are permitted to draw
for enlargement will be made to
the literature fund unless it is aban-
ded in its benefits - I presume that
our house will be inclined to reduce
the sum below \$4000 - It seems to
be conceded by both Mr Clinch & Col
Young the two chairmen on this subject
that some rule is necessary, the ques-
tion is what sum will best suit our
country

Respectfully
Your obedient servant

Amos Abney Lewis

1838

Albany: April 13th 1838.

Hon. E. L. Fitch.

Dear Sir -

It is now eleven o'clock at night - we have just passed in Committee of the whole, the Education bill. It appropriates forty thousand dollars in addition to the thirteen thousand not distributed among the academies in this State - by having a building, library, and philosophical apparatus, valued at 2500 dollars - We shall cast the "Monopoly" to the four winds. There was a proposition to increase the number of "School Master Manufactories" in the State to 24, with an annual appropriation to each of them of four hundred dollars, & which in the morning session was defeated, but through the drilling and bargaining at dinner was reconsidered and passed - creating sixteen more "Monopolies" - We then went about it to make appropriations for every object we could think of until the friends of these "Monopolies" found that we were not to be "squeezed out" and they proposed to stop and back out, and appropriate the whole amount among

all the incorporated academies
of the State - Tomorrow we shall
probably take the question in the
house, establishing the matter, as
it stands at present. This will,
without doubt be passed promptly
in the ~~house~~ senate, as the main
features of the bill will be
in all other respects as propo-
sed to us by the Senate - I think
we have achieved a great victory
in this matter - I can now edu-
cate School teachers in our own
Academy with the assistance of
the public funds - without send-
ing them to be manufactured else-
where. When I shall see you I
will give you a more full
history of the modus Operandi
which we adopted to carry this meas-
ure. We have had three sessions
to-day, as we frequently have done,
which has just closed ~~at~~

The time of adjournment draws

high, and I am anxious to return
home, though I am quite willing to
remain here till we shall have dis-
posed of the important business
we have on hand. There will be
a proposition tomorrow to prolong,
for a short time, the session, which
I am of opinion will be adopted, though
I am not quite sure.

I you can read my scrawl-
ing it is well.

Yours truly
Abner Seiver

Sir,

Your letter was received this morning, & I am happy to be able to recommend a young gentleman for your Academy, in whose qualifications, I have great confidence. He is a sound & accurate scholar, a consistent Christian, & acquainted with the business of teaching. He will be graduated next Wednesday, & then will return to his native town. He has consented to take the Academy, if the terms are favorable. I have to write as soon as practicable; & direct to Mr. Norman H. Wright.

W. Rupert, Secy.

He expects to visit friend, he says in about ten days, & wishes

Therefore to receive any com.
which you may make, without
any unnecessary delay. I am
persuaded you cannot do better,
than to apply to him.

M. H. West

Joshua Bates

Albany March 16th 1839

Judge Facete

My Dear Sir - Many thanks for the letters you were so kind as to send me by Mr Lewis the morning I left Saratoga - Mr Comptroller Flagg I am told is out of town at the present time, in consequence of which I have not yet seen him. - The letter to Mr McClellan I presented a day or two ago & found him a very pleasant and agreeable man - He made considerable enquiry in reference to a petition from Chen. Co. lately presented, in the Senate praying for the removal of the public buildings to Otsego - This petition has been referred to a Committee of one from each Senate District and has produced considerable excitement among the good citizens of Albany - Mr McClellan expressed a good deal of surprise that Judge Facete should have signed such a paper -

I have succeeded in securing a place in Steven's office as I intended when I left Saratoga. There are two clerks besides myself in the office one of whom was a classmate in college - The office is doing a large business both in Courts of Law & Equity, and the opportunity for acquiring a knowledge of practice in all the different

branches of the profession are perhaps as good
as in any office in the state - Stevens has two
partners; one of whom attends exclusively to the City
business, the other to Chancery business and himself
exclusively to counselling - Stevens I think stands decidedly
at the head of the bar Albany bar, and is without
a very clever, comfortable sort of a man -

Marvin has been here some days - He contemplates
leaving in company with his wife for Saratoga,
the first of next week -

Should any letters come to your office for
me, will you do me the favour to send
them down here by some Merchant going
to N. B. for goods, and I will send the postage
to you by them, or you can charge it
to be paid on my return to Saratoga in
August -

Please give my kind regards to all
my good friends in Saratoga, and accept
for yourself assurances of the highest respect and
esteem

Hastily Yours
S. Ferris

P.S. Please make use of mine while I am
in Albany for any purpose whatsoever I
can be of service to you - I see by
report of the Regents, our Academy has
received near \$400. - This will put the

Institution upon a basis that with proper
 Management cannot fail to be permanent
 This must be particularly encouraging to Mr Parker
 He must not suffer himself to be troubled with the
 "blues" while he is connected with the Institution

Dear Sir

I am happy to inform you that by a recent act of the Legislature for the distribution of the Deposit Money your Academy at Iamsterdam will no longer find any difficulty in coming in for a full share in the distribution. The amount to be annually distributed is \$40,000.

A new edition of Instructions to Academies is now in course of publication. I shall in the course of the next month send you a copy from which you will learn all that will be required to be done by you.

How Pleasant
in Assembly
and Librarian

Albany March 23 1837

Dear Sir

Yours of the 17th has been
received - The members of the Academy
has become aware the following is
the copy of the

S1 It shall be lawful for the trustees
of the Junius Harris Academy in their
discretions from time to time to increase
the capital stock of said Academy to
an amount not exceeding five thousand dollars

S2 The Legislature may alter or

I wrote you a short note informing you
of the repeal of the non-residence
to 33 in stating that it would
be repealed, the bill has passed our
house and will doubtless pass the
Senate. The amendment will be passed
without success. I presume -
as to the prospects of the Librarian
fund I can say but little, I think the

bill as it passed the Senate with
no material amendments will pass our
house requiring each academy to have
buildings and property of \$3000 in 10
ten days before me shall have the bill
up as I now think - You will see
that the present fund divided into among
all the academies in the State would leave
but a very small sum for each one.
The great struggle will be over the
of the Librarian fund by a share of the
surplus, I fear that our house will not
consent to any or very little increase, I
am inclined to think in case and will be
increased by hard pushing -

Our house will have the ground that
common schools are the foundation and
basis of education - then next they
will regard academies as having more
immediate effect - upon common schools
and colleges will be last in order as
they very properly are -

Mr. Clark is right
the subject and I have no doubt of
the passage of the academy bill from
the Senate - the increase of the fund is
the thing of the greatest difficulty and
by far the most doubtful, I shall
endeavor to do what I can for both.

We are now upon the bill to loan
the surplus, shall finish to morrow.

We shall then go upon a general
bank to loan, the fate of which
I conceive to be doubtful -

We shall adjourn about the
1st or 5th of May -

The report of the Regents I am
sent you in a day or two

Respectfully

I am Sir

C. F. Foote Esq

All Cole
August 27th 1835-

Dear Sir

The examination of the students of All
College will take place upon the 21st-2^d-3^d-4th days
of Sept. The commencement exercises will take place
upon the twenty fourth. Fearing that you might not
be aware that the examination was is so near at hand
I take the liberty of sending this short note.

The commencement exercises will be
interesting; the senior class consists of four members.
One has been elected within a few weeks, formerly a
member of Jackson College. He is a minister; his
name is Clark. The college is doing well, and
surpasses the most sanguine expectations of its
friends. A catalogue will be printed in a few
days; I will send you one, as soon as it can
be procured.

I am very pleased with my situation

I remain

With respect -

E. J. F. Esq -
Larnestown N. Y. -

E. W. Hartline -

W. Rupert Sept 5th 1839

Mr. Foster Sir

About two weeks since I received information from Dr. Bates that a teacher was wanted for Jamistown Academy. After consulting Mr. Levy from the same place I consented to take the Academy if the terms were favorable. I have the letter you wrote to Dr. Bates, in that Mr. Reynolds is spoken of, but as he then was already engaged the Dr. immediately applied to me, & accordingly wrote a recommendation. According to his letter you was to have directed me a letter at W. Rupert, within ten days, I have anxiously awaited an answer the past week, & have also declined another offer equally as good, account for the delay however by supposing that you might have expected an answer from Reynolds who told me yesterday that you had given him the offer of the school, but that he did not receive the letter until last Friday, I shall be in Syracuse N. Y. a week hence, & if a letter is already on the way to Rupert arrangement has been made that it may reach me at Syracuse. If you have not another pleasure on the receipt of this, to direct me a letter to Syracuse N. Y. I am willing to take the Academy if the terms are what you expressed in your letter to Reynolds, if you wish me as your teacher, I will be on as soon as practicable, if not, I shall be much disappointed.

Respectfully yours

Norman H. Wright

Doct. Goot

Some considerations influence me to inform you Sir,
but the price of board in our family for pupils, will be 82 instead
of 83 per week. When our terms were fixed, we were influenced entirely
by the notes here, whom we thought good judges. The price of some articles
has fallen a trifle since that time, and I father, who is now with us,
can make more advantageous purchases than ladies, thinks it
fit to reduce the price, washing is not included in the above sum,
you will oblige me by informing those in your way whom you know
interested in this information.

With regards to Mrs. Goot and daughter, I am

Yours &c.

COPYRIGHTED BY THE ALBANY COUNTY HISTORICAL SOCIETY WESTFIELD, NY 2012

1835 Hamilton College Nov. 28th 1835

Dear Brother

I have made inquiry concerning an
instructed for your academic school in Jastow
but I find none or hear of none who I think would
fill the station requiring in your school. I have
made inquiry of those who are the most acquainted
with the particulars of the plan, who say that they know
of none who are capable of assuming the responsibility
if you wish them to. I am very sorry for this; for
I do wish you more than ordinary success in the
enterprise; for surely it is benevolent; & you must
have a good school in Jamustown. There are
splendid materials for an academic school; & I have
thought, that those having influence there, were
incurring not a small degree of guilt by paying so
little of their influence & time to the education of
their numerous classes of youth. Many missionaries
ministers, patriots, philanthropists, & pillars of society
ought to come from Jamustown polished & well
armed for that illustrious battle with the heart and

God's promise. How then will they be excited to this, unless
there be a school established on firm footing? Affairs
are now very prosperous here ~~and~~; more so, ~~and~~
since the College was founded I am told. New students are
coming on ~~now~~ every day since Mr. Perry has been
elected & accepted the Presidency. He is expected on every
day ~~now~~. By what I hear of him I conclude he is
a fine man, well calculated for the station. ~~He~~
this ~~is~~ ~~my~~ ~~purpose~~ ~~is~~ ~~to~~ ~~send~~ ~~for~~ ~~the~~ ~~present~~. I ~~will~~ ~~bid~~ ~~Mr~~ ~~to~~
return to me. I would like to speak upon all the
interesting items in your letter now, but I cannot.
Vacation is near, when I shall have nothing else
to do but to send you my broken thoughts. Be assured
your letter was read with the greatest avidity, & my heart
swells with gratitude at your condescending to communicate
with me, a mere school boy. It will always give me
the highest satisfaction to read your letters & to enjoy
your good counsel & advice; and if in return I can
scribble anything which will be in the least acceptable
to you, it will be done with commingled feelings of
joy & gratitude. My best respects & love to all inquiring
for them. Yours most affectionately & truly
Hiram Child

ASSOCIATIONS FOR IMPROVEMENT IN USEFUL KNOWLEDGE.

Among the numerous subjects connected with the interests of men, none is of greater importance, or more justly claims their attention, than the acquisition of scientific and useful knowledge. Arguments are unnecessary to prove that the pecuniary interests—the social—the intellectual and the moral condition of society, would be greatly promoted by the general diffusion of scientific and other useful knowledge; the great question is, what measures are best calculated to accomplish an object so evident and so important?

In addition to our Schools, Academies and Colleges, the establishment of well-organized Associations for mutual improvement in Science and Literature, would do much towards the accomplishment of this most desirable object.

Every town in the Union possesses the ability to establish an Association which would exert a most salutary influence upon the whole community. Unlike other institutions of learning, which are confined to the young, such an Association would be open to all classes; and while it would furnish intellectual amusement, and the most valuable instruction to the rising generation in those departments of knowledge best calculated to subserve the great purposes of a useful and happy life, while it would furnish a place of pleasant resort for the young and the aged, and inspire a taste for scientific and literary pursuits, it would throw around society a refining, elevating and moralizing influence.

That such Associations may carry out and sustain with interest their proposed operations, collections in natural history, and libraries, would be important,—and Instruments to illustrate and make an application of the principles of science, would be indispensable. Such Instruments would not only furnish great facilities in the acquisition of scientific knowledge, but would enable the Associations to reach, interest and benefit a portion of every community which they otherwise could not.

The following list of Instruments are best adapted for the use of such Associations, viz:

<p>Mechanics,</p> <p>20 Embracing a complete set of Mechanical Powers, well finished, price.....\$30 00</p> <p>Pneumatics, Hydrostatics and Hydraulics combined,</p> <p>Embracing a double cylinder Air Pump for exhausting and condensing, with a large Receiver—Air Chamber, with revolving jet, Cup and Parchment, Vanos, Fountain in Vacuo, Bell in Vacuo, Hemispherical Cups, Article for weighing air, Syphon, Lifting Pump, Forcing Pump, Archimedes' Spiral Pump, Hydrostatic Bellows, Hydrometer, Equal Pressure article—price.....100 00</p> <p>Optics.</p> <p>12 A set of beautiful Models of the Human Eye, in three parts—price.. 12 00</p> <p>Acoustics.</p> <p>A set of Models of the Ear—price..... 12 00</p> <p>Astronomy,</p> <p>52 Embracing an Orrery, Tellurian or Seasons Machine, Tide Dial, Movable Planisphere, and a pair of 12 inch Globes—price..... 52 00</p>	<p>Electricity,</p> <p>Embracing a primo Machine, Leyden Jar, Chains, Jointed Discharger, Universal Discharger, Battery, Insulating Stool, Plates for Dancing Images, Electrical Saw Mill, Chimo of Bells, Long Hair'd Man, Electrical Sportsman and Birds, Electrical Fly, Electrical Tellurian, Spiral Tube, and Aurora Borealis—price..150 00</p> <p>Galvanism.</p> <p>A Galvanic Battery of 100 pairs—price..... 50 00</p> <p>Magnetism.</p> <p>Two Horseshoe Magnets, large and good—price..... 10 00</p> <p>Chemistry,</p> <p>Embracing a Pneumatic Cistern made of Zinc, Compound Blow Pipe, Single Blow Pipe, 2 Lamp and Retort Stands, 2 Iron Retorts, 6 Glass Retorts, 6 Glass Receivers, 4 Mattresses, 2 Bell Glasses, 4 Evaporating Dishes, 1 Alembic, 1 Dropping Tube, 4 Florence Flasks, 1 set of Crucibles, 1 Table Furnace, 1 Pyrometer, 1 Gas Bag, 1 Gas Conductor, 1 Gas Pistol, 1 set of Tin Reflectors on stands, 1 small Cannon, 1 Hydrogen Apparatus, 1 Spirit Lamp, 1 Thermometer, 6 small Bottles, ground stoppers, 6 Test Tubes—price.....100 00</p>
---	---

The above named Instruments are all manufactured of the best of materials, and in a very thorough manner, expressly for the use of Lyceums and Scientific Associations, and furnished by the subscribers for the sum of \$500. Also, a larger set, embracing the same Instruments, on a much larger scale, together with others, for \$1,000; or, any of the Instruments can be had separately.

BROWN & FRANCIS, *Manufacturers of Philosophical Apparatus,*
252 Broadway, New-York.

To procure such an apparatus, the following plan has been successfully adopted by many Associations, viz:

The amount to be raised for the purchase of the Instruments to be divided into 50 or 100 shares of \$5 or \$10 each, to be paid to the treasurer of the Association, in two or three instalments; this amount to be received by the Association as a loan from the individuals subscribing for the stock, and to be reimbursed by the receipts accruing from Public Lectures, to be instituted by the Association, after which the apparatus is to revert to the Association.

By the adoption of the above plan, an Association can at once come in possession of a complete apparatus, without laying a heavy tax upon any of its members.

Wm. C. F. Foote

Dear Sir Under the different
circumstances in which I have been associated
with Mr. James Boutelle as an inmate in my
family, as the instructor of my children, and a brother
or in the Church of Christ I feel warranted
in commending him to your civilities & Christian
fellowship. In taking his leave of us Mr. Boutelle
leaves us all his friends - he leaves at his own
suggestion, as he believes he cannot be as profita-
ble to the pupils of the Academy as he could wish
from the circumstance of his being the early suc-
cessor of the late lamented Mr. Taylor whose pu-
pils seemed to manifest a settled purpose at the
time of the arrival of Mr. B. among us to dislike a
my teacher with whom they might be provided, other
than these & especially with the young ^{gentlemen} pursuing classic
studies of whom there were about fifteen Mr. Bou-
telle was exceedingly popular - Yours very sincerely
E. R. Thompson

J. O. Taylor 1838

S. S. N. York. Jan 22. 1844

I had the pleasure of receiving your 3 letters - & indeed Sir, it has been a pleasure - Your kind done me a good in the laborious effort I am making - To have the encouraging sympathy of intelligent friends, is one of the best possible aids -

I send you to day 2 copies of the "Common School Almanac" - out this morning - I think you will say that it is the thing to work upon our schools with - for many will read an "almanac" that will not even our paper - We intend to publish 500,000 copies & must look to our friends for a gift to circulate them -

Town's New Spelling Book does immensely - It is taking the place of all others here in the best schools -

I will see that the teachers qualifications & pay are duly dwelt upon in the paper - They are 2 of the most important subjects I know of - I wish you could visit my class of teachers in the "Misses" office - I have 50 preparing for this great

I have as yet not received your Journal - I hope I shall however, I shall be pleased to receive your order for books, as it is by these little sales that I am able to publish & give away many works on education -

Respectfully me to Mr Fenton if you please, & accept of my best wishes for your health & success.

With great respect
J. O. Taylor

Judge Foote -

Le Roy Female Seminary,

In reply to frequent inquiries relative to this recently organized institution, we take this method of stating to its friends our terms and design.

Its object is to benefit such as seek to gain a useful, moral, and intellectual education. The building will be enlarged, and open for the reception of pupils on the 5th of November.

The year is divided into two terms of 22 weeks each, and hereafter will commence on the first Wednesdays of May and November. It is highly desirable that all the pupils be present at the formation of classes. No deduction will be made for ordinary cases of absence.

TERMS OF TUITION, ETC.

Regular Course—Primary Department, \$2 and \$3. Junior and Senior Classes, \$4.50 and \$6.00 per quarter.

Extra Charges—Greek, French and Painting, each \$5. Drawing \$3. Music on Piano Forte and Organ, each \$10. Use of the same \$2 per quarter; Vocal Music and Callisthenics are a part of general exercises without charge.

The bill for Board and Tuition, including lights and fuel, will be \$110 per year, if paid semi-annually in advance. Board in the institution in winter \$2.25; in summer \$2 per week, exclusive of washing.

In the teachers department particular attention will be paid to the preparation of teachers for the ensuing summer.

The domestic boarding house has been established not only to test the advantages of the domestic system on the health and habits of the student, but chiefly to bring the means of a thorough education within the reach of an interesting class in community who are not able to meet all the ordinary expenses. The simple costs of consumption and rent are shared equally by the boarders. The amount is about \$7½ cents each per week. The private rooms are furnished only with bedsteads and tables.

This is considered a branch of the other family and governed by the same general regulations, and will be under the supervision of a competent matron.

The yearly bill of board (in this department) and tuition in Junior Class can be made out at \$55 or \$60.

Hon. E. T. Foote,

Dear Sir,

I am unable to attend the meeting to be convened at the Court next Monday on the subject of Common Schools: But I beg leave to assure you that I am heart and hand with you, in promoting so desirable an Object -

If the views contained in the notice can be carried into effect, (of which I have no reason to doubt,) we shall soon see the youth of our County, rapidly advancing in knowledge & morality.

Your Obedt. Servt

Jacob Houghton.

JAMESTOWN ACADEMY

Is believed to be one of the most flourishing institutions in the country. For the accommodation of the Academy, a large three story building has been recently erected and furnished. The studies pursued comprise all those usually taught in Academies, including a regular course of classical studies, preparatory to an admission into either class, in any College in the Union. No effort is spared on the part of the Teachers, to give their pupils a thorough acquaintance with the studies pursued—to this end there are frequent and critical examinations of the several classes. The Academy has a Library of well selected books, for the use of the students, now containing about 200 volumes, and soon to be enlarged.

At the close of the last term, Mr. Farrar, resigned his station as principal, to pursue the study of Law. He had discharged his duties, with great ability and to the entire satisfaction of the Trustees and students, and it was feared by the Board, that his place could

not be well supplied. Mr. George W. Parker, A. B. was appointed Principal, on the resignation of Mr. Farrar, and from the fidelity and ability, with which he has discharged the duties of the station, during the present term, the Board feel fully satisfied in giving the most positive assurance that he will fully sustain the high reputation which the Institution has acquired under his predecessor. Additional assistance will be employed if the interest of the school shall demand it.

The Academic year is divided into terms of fifteen weeks each—instead of eleven or twelve weeks. The former arrangement being deemed more advantageous to the Institution.

TUITION PER TERM.

- Primary Department, \$2.50
- For the ordinary branches of an English Education—as Arithmetic, Grammar, Geography, together with Composition, and the Elements of Elocution, &c.) \$4.00
- For Chemistry, Natural and Mental Philosophy, the higher branches of Mathematics, and the Latin, Greek and French Languages. \$6.00

No extra charge will be made, except for damage done to the Rooms or Building.

Special attention will be paid to students who wish to prepare themselves for teaching in Common Schools.

Composition and Declamation are made regular exercises in the School.

The Text Books used are Smith's Arithmetic, Day's Algebra, Legendre's Geometry and Trigonometry, Gould's Adam's Latin Grammar, Jacob's Latin Reader, Cicero's Select Orations, Sallust, Virgil, Goodrich's Greek Grammar, Jacob's Greek Reader, Xenophon's Anabasis, Comstock's Natural Philosophy, and Chemistry, Abercrombie's "Inquiries concerning Intellectual Powers," and Philosophy of the Moral Feelings.

Those who are desirous of taking lessons on the Piano or Organ can receive instruction on either by competent instructors.

The next term of this Institution will commence on Thursday the 25th January inst.

Am - Coll. July 2nd - 1841.

Dear Sir,

I have laid your application for a teacher before Mr. Rowland Ayer, one of the first scholars & most promising young men in our Senior Class. He is a professor of religion, & has the ministry in view. Being low in funds, he is anxious to get what he can earn. Five hundred dollars is about a fair average of what our first rate graduates generally receive. Mr. Ayer is willing to go, however, upon a salary of \$450 & his necessary expenses in going to Jamaica Town. I hope the proprietors of your school will not hesitate to accede to his proposals, for I think he is just such a man as you want. If not will you ^{immediate} your answer, directed to Lima at Granby Mass & state the best proposals you can make. I am very sincerely yours obt^d
Wm. Ch. Thompson.

our opinion, to accomplish the object. In some of the counties in this state County meetings or Conventions have been held & even if school societies have been organized for the advancement of common school education, and the beneficial results have been manifest. Shall the people of our county longer remain indifferent to this all important subject? We trust they will not. - Then let meetings be held, societies organized & publications circulated which have a bearing on this subject. - Let the editors of our papers take decided ground on this question & the work will move forward.

An invaluable monthly paper is now published in the city of New York, by J. Orville Taylor, entitled the "Common School Spirit" at 50 cents a year & we enthusiastically give it as our opinion that it should be in the hands of every parent, school officer & teacher in the county. - The price of the paper is very low & the paper is short its title indicates. - It is free from all political or sectarian discussions, & if generally circulated is calculated to do much good. - We ask for it the patronage of the people, & do not believe that any citizen could better spend 50 cents a year than to obtain the paper.

In accordance with the sentiments we have advanced, we respectfully invite the school officers & friends of education from every town in the county to meet at the Court House in Mayville, on Monday the day of July next (day before the circuit Court) at 2 o'clock P.M., to take into consideration the subjects embraced herein, & if deemed expedient form a "County Common School Society" & to transact such business as may be deemed expedient. - We earnestly wish a full representation from every town in the county. - One or more public addresses may be expected, & it is believed that no intelligent man or friend of education will regret the time spent in attending the convention.

but prompt action can save us "

"Why are the 500 000 children of this state (or the 28,000 in our own county) though attending school, for the most part uneducated?"

We would repeat, and we would if possible, teach every parent in the state to repeat after all courses the pregnant maxim

- "As ^{is} the master so is the school". It is simply because the schools are not supplied with good teachers that we have not good schools."

Hence the time of those attending them are in many cases nearly or wholly lost - We again repeat that the law and the means at command is amply sufficient but in the language of the editor of the common school apostle one thing is wanted, and it must be had or the work will not be accomplished.

"Public sentiment must be enlightened - An informed public opinion must work for the cause of popular education what it has done for the cause of temperance - We might have legislated on intemperance up to the present moment, but what good would it have done? There were laws to guard against vice before the public voice was heard but what influence had these laws? Let the history of the past give these answers How inefficient will these ^{best} laws be when public opinion is wrong? Laws seldom change public opinion, but opinions change laws - get the public sentiment there is no fear, but what the laws will be well administered - There must be light poured on the public mind - The indifference & apathy of parents - the want of preparation to teachers - the tacitly ~~un~~birthfulness of school officers must be published till they are heard & felt by every citizen - Every thing must be done that will induce the people to cooperate with the school system - The people as a body have been criminally negligent - Parents should be made to feel the responsibility resting upon them - Public opinion alone can reach the internal affairs of our schools - We aver that there are no insurmountable obstacles in the way of reformation - Concert of action is the first step, in

Mr. Foots

Sir

I received yours of the 22^d instant. I was
last evening and am very favorably impressed with
the situation & prospects of your school as detailed in
your letter.

If the Board of Trustees are disposed to make
an arrangement with me on condition that my testi-
monials are satisfactory, I will take the Academy upon
the terms the present Principal holds it.

Mr Leonard has today shown me a letter from the
Hon. Mr. Bagotine - having reference to my application to you.
I have not the honour of much acquaintance with
Mr Leonard, having been but a short time a resident of this
village. He has however examined my testimonials & kindly
offered to write Mr B. upon the subject.

I believe I informed you in my former letter, from
what sources they were derived - from the Officers of the
College where I was graduated & from the Gentlemen
in connection, with whom I have been engaged in
teaching.

It is of some consequence to me to have your
application at your earliest convenience. If you decide
to make the engagement please to inform me when you
wish the next term to commence. I only add, that if I
obtain the charge of your school my best energies will be
devoted to sustain its reputation & render it worthy of con-
tinued patronage.

Very respectfully Yours &c
George W. Parker

Mr. Leonard

Dear Judge W.

Your two former letters
duly came - & found me overwhelmed
with matters & matters etc's - The first
of June you know so

Coffee was here - is gone - has
left a deep mark behind him -
scoundrel of our stout hearts quarrel
before him - we gave him 112 new
names - & will I don't not make
of 100 Records - He is a horse
plum for this work

I am just getting off to Albany
can I do any thing for you -
make free of you - write & write me
there.

89 We have concluded to write
letters to send in the name
& allow us to send you books
for Com. S. Loomis - The Ex. Com
will I hope attend to it.

Yours
Prof. Sumner

E. T. Foote Esq.

Dear Sir, I send you a few numbers of the report of the Com. recommending uniformity of School Books & Curricula adjoined to the same - There are about 1600 of these pamphlets printed & they are to be distributed in the different Towns in the County - The Com. Committee have appointed Horace Couch an agent for the Co. Institute, to visit the different Towns in Co. to get up meetings - to form & forward Town Societies; explain Laws of 1835 & 1838 relative to Libraries - raise funds for Institute - procure subscriptions for Com. School Assistant, appoint an active & gratuitous Agent in each Town to circulate subscrip. for Com. School Assistant H. H. to inform the Towns & districts, that Co. Institute have appointed three Gentlemen at Larnestown, three at Fondaonia & three at Westfield, to whom, the districts when they receive their Library Money, may make application for a Library, & these Gentlemen will on such application procure the same for them - & in other respects to advance the cause of Com. School Education - Something of this kind seems desirable & necessary - Mr Couch will do much good - To me it seems, that the Institute should be active & doing something, as the different Towns are looking to it, for direction in most ^{matters} appertaining to Common Schools - I intended to have had a long talk with you when I saw you a Court, but did not see you again after I left the stead - What are you doing in your Town? Charlotte is doing wonders - we intend to have a Town Com. School celebration next month - Will you make choice of three gentlemen at your place for the purposes above mentioned & give them ^{managers} a good string of advice in matters connected with Com. Schools in this Co. & what action the Institute should assume H. H.

I much oblige your friend
J. G. Hambley

(CIRCULAR.)

JAMESTOWN, CHAUT. Co. Jan. 12, 1837.

SIR—

The present unequal mode of distributing the revenue of the literature fund, has long been a source of complaint on the part of the incorporated Academies, which by the rules of the Regents of the University, are not permitted to subject themselves to their visitation, and participate in the benefit of said funds, unless they have an annual income (arising from a permanent investment) of \$250 a year. Many of the most flourishing Academies in this state are by these rules excluded from the benefits of the literature fund and great injustice done. His Excellency, the Governor, in his recent message, has very justly adverted to this subject. The matter has been discussed in this county, and the Academies not subject to the visitation of the Regents and the people are about petitioning the Legislature to correct this evil; and that all incorporated academies which have the necessary buildings &c. free of incumbrance, and a regular classical school, have the privilege of subjecting themselves to such visitation, and have their just proportion of such funds. We therefore suggest the propriety of your also petitioning the Legislature upon this subject *without delay*, and that the people in your vicinity do the same; and urge upon your representatives their co-operation in procuring the passage of the law, and an addition to the literature fund from the interest of the surplus revenue.— From an examination of the reports of the *favoured* Academies, it will be seen that in many cases their permanent investment is a mere show, yielding no income whatever, and their buildings and apparatus are not unfrequently much inferior to other Academies not under the Regents.

Very respectfully, your most obedient.

Shreve Dec. 12. 1835.

Wm. C. G. G. Dear Sir

I rec^d your letter of the 7th inst and also the C. G. Almanac You sent me for which I am much obliged. It is the first I have seen, I am much pleased with it I am very glad to learn that so many are already in our Co. I have sent to your office for 25 which if rec^d I will circulate by my scholars. We do not use Towns Spelling Book, I have not perused it but from description I presume it to be excellent. I shall use my influence in bringing it into use here, Our school is furnished with Websters Spelling Book & The English Reader as usual, with a few of the Improved Reader. I should have recommended a new selection of books, but dare not take the responsibility. The district being made wholly unable to raise the funds on account of the enormous wages they have to pay for tuition to Mt. 26 dolls for mo. Teacher board himself. Great effort was made by some who might be the strongest in elevating our common schools to get a private school and thereby break up the district school entirely but it proved a failure and now I have 70 scholars the trustees having let in from out the district several in anticipation of the success of the opposition, last winter a teacher was employed for 18 dolls & board which was quite too extravagant for Ashville and after staying 4 days with some 1/2 doz. scholars he left charged the trustees \$8.00 which was paid out of the public moneys, as I must not talk about my neighbors I will only say the right spirit is not here and something must be done. we want a new school house & some one for dividing the district I say keep together and separate the large scholars from the small ones in the house having two rooms and a right. My plan would be if there is no better to build sufficiently large on the ground with two rooms with folding doors which might be thrown open at pleasure

The advantages of separating the small from the large schools, ^{and} many ~~think~~ that the teacher qualified to teach the higher branches may devote his whole time to the best advantage, while some female may do as good justice to the little ones for 6 or 8 dollars per mo. under the supervision of the principal as he could for 20 or 30 dolls per mo. If so there is a great saving of money which might be laid out in furnishing ^{the} house with such apparatus as necessary in the teaching of the higher branches, and why not make them what our Academies now are. One advantage in sending the scholars all to one house is that the large ones ~~shall~~ have charge in going & coming of the little ones of the same family. This is an item not to be overlooked. I don't know but the people will wake up in this place but they are not properly engaged now. I do not know of but one man who takes the C. S. Assistant Educationally in this town. We must have some help here. I believe it would be a great benefit to have some one come here from some other part of the Co. and lecture on the subject. Will not some one come up from your place some evening. If so send me word when and I will try to have a general turnout. I think it would have a good effect. I do believe we are behind every other village in the Co. If the patriot is known by the interest he takes in common schools I am afraid we have more whigs than patriots in this town.

Respectfully Yours
Henry Gifford

Albany Feb 20th 1836

U. J. Fane Esq. & others

I wrote you yesterday we passed the bill in Committee after whole 61 to 51, our opponents have renewed their attacks to day in other forms the bill has been read the third time & speech after speech has been made against it. It is perfectly understood that the Enemies of the bill are determined to carry it over to next week, we are determined to get the question to day if possible, new efforts have been made by the Enemies to adjourn we voted it down 59 to 50. A third vote is now made thro' Clark & Calling the yeas & Nays Aye 42 noes 54. Parker has been speaking two hours. It is now nearly three o'clock Parker refused to debate it in Committee after whole, we rose day before yesterday for the very purpose of giving him an opportunity to speak & he was expensively refused to, his Cause is condemned even by ^{some of} those who vote with him, the truth is that several of our friends want to go home, we have kept them with great difficulty for several days, & they have some votes now absent, who will be back for four parts of the week, indeed if we do not get the vote to day, we have great doubt of the result, by the way to adjourn, Aye 41 noes 54. A call of the house & a vote to lay it on the table and the yeas & noes are ordered Aye 28 noes 27. So the Motion lies on the table, Parker is going on, when

all this will end I know I write as things are
taking place, Parker talks of the U. States Bank
& matters & things in general, they feed ^{him} Parker
with crackers while the eyes & nose are taking. It is
perfectly understood that he is speaking against
time, the speaker goes with us in all the above votes
& since they have him in the Chair, they are putting it on to
him, Stetson has just risen to ask Parker
how long it would be before he should conclude
& Parker has given away to him so he is
speaking. It seems to be understood by those
gent, Parker had become fatigued, Stetson
will keep us probably till dark! - 4th vote Stetson
has set down, Judd, a friend has the floor & will
~~probably~~ & is exposing Parker's course, & will I think
call the previous question, he has done it. Then
Ayes and Nays are called, & ~~as~~ it will be I think
sustained, Sibley is speaking with great
elegance, he says he never before voted for
the previous question, but he will now do
so, from the course the result is how to
previous question sustained Ayes 59 Nays 44

Main question - Ayes 63 Nays 45, The speaker
decides ^{that} the bill has passed, and an appeal
is taken, on the ground that it is a 2/3 bill.
No. to lay on the table, then No. to adjourn
ayes & nays ordered. Ayes 42 Nays 66. No. to
lay on the table withdrawn, Ayes & nays ordered
on the appeal, No. to lay on the table renewed
last. No. to adjourn renewed, Ayes & nays are ordered
Ayes 44 Nays 62. Debating the Constitutional
question, on the question to sustain the speaker
deciding, the bill has passed, Caudle brought
in, the debate is continued with ability & warmth

Ayes 44 Nays 62. Debating the Constitutional
question, on the question to sustain the speaker
deciding, the bill has passed, Caudle brought
in, the debate is continued with ability & warmth

Sibley is able & eloquently answering all
objections,

The question to sustain the decision of the
Chair is taking effect. I don't know the exact
date it is that a two thirds bill,
and it was passed, I have had no
dissent, and I quite usually,

There has not been such a violent
oppression of opposition for years
if ever. Now to adjourn good bye

R. P. Merrill

Here in the Spring to assist us
in building our new school buildings
& will take charge of the schools
when in operation. He leaves
home ~~today~~ ^{this week} for the purpose of
visiting several of schools of that
kind in this State, he will also
visit Boston & on his return
will stop in New Haven to see
your schools. I give him a letter
of introduction to you, he will
probably be in your place in
the first or middle of next week,
I hope he will find you at home
and at leisure to introduce him
into your schools, you will find
him a gentleman that will give
you great pleasure to become
acquainted with.

We are making some preparation
for building, have got quite a
pile of bricks piled in front of

your old residence (Pier place).

Our board of Trustees are
unanimous in the opinion that
we ought to build something
that will be a credit to the
place, large & substantial and
many of the citizens are of the
same opinion, but we have
only \$10,000 voted, which we do
not deem sufficient for the purpose,
we are about to apply to the
Legislature for an act to allow
us to borrow money, should we
succeed we hope to build a
building that will cost from
\$15,000 to 20,000.

I should be very glad to hear
from you any time when convenient

Very Truly &
Respectfully Yours

M. M. Jones

1839

To the Hon the Senators for the 8th District & the members of Assembly from the County of Chautauque

Gentlemen, We have just perused Mr. Bernards bill (Assembly doc No 214) brought in today & feel called on to object to ~~any~~ of its provisions relative to the Academies. From the title it will be seen that \$6,000 annually is to be added to the fund now distributed by the regents to the Academies which with ^{about} \$18,000 now annually at their command will place at their disposal about \$24,000 to be distributed to the favoured Academies, while the bill provides but \$12,000 to be placed in the hands of the Regents for all other incorporated Academies that are deemed meritorious, by ~~having~~ owing the requisite building having competent teachers &c. There is no doubt that nearly if not perhaps a majority of the meritorious Academies in this State are not under the Regents & derive no advantage from the public bounty which alike belongs to the entire people. If Mr. Bernards bill would give the favoured Academies \$24,000 a year, & only \$12,000 to the balance of the Academies - This would be adding insult to long continued favoritism, & injustice.

Why keep up the present odious monopoly & distinction when it is an undeniable fact that ~~a large~~ ^{many} ~~of~~ the Academies under the Regents have not as good buildings teachers or as well conducted as many of those not under the Regents & many of those inferior Academies have been liberally endowed by the State & aided in library & apparatus by the Regents. Why have separate funds & why not have all meritorious Academies under the Regents directions & supervision of the Regents if it is necessary to continue that body & let all make the reports, subject to like regulations, & receive the same benefits. If there are any advantages, ~~for~~ Academies being placed under the Regents, we believe that all incorporated Academies

1939

To the Hon the Senators for the 8th District & the members of Assembly from the County of Chautauque

Gentlemen, We have just perused Mr. Bernards bill (Assembly doc No 214) ~~concerning~~ ^{in title} & feel called on to object to ~~many~~ of its provisions relative to the Academies

From the title it will be seen that \$6,000 annually is to be added to the fund now distributed by the regents to the Academies which with ^{about} \$18,000 now annually at their command will place at their disposal about \$24,000 to be distributed to the favored Academies, while the bill provides but \$12,000 to be placed in the hands of the Regents for all other incorporated Academies that are deemed meritorious, by ~~having~~ giving the regents but a very having competent teachers &c.

There is no doubt that nearly if perhaps a majority of the meritorious Academies in this state are not under the Regents & derive no advantage from the public bounty which alike belongs to the entire people. If Mr. Bernards bill would give the favored Academies \$24,000, a year, & only \$12,000, to the balance of the Academies - This would be adding insult to long continued favoritism, & injustice -

Why keep up the present odious monopoly ^{in this} ~~in this~~ ^{many} ~~of~~ ^{of} the Academies under the Regents have not as good buildings, teachers or as well conducted as many of those not under the Regents & many of those inferior Academies have been liberally endowed by the state & aided in library & apparatus by the Regents.

Why have separate funds why not have all meritorious Academies under the Regents direction & supervision of the Regents (it is necessary to continue that body) & let all make the reports, subject to like regulations, & receive the same benefits. If there are any advantages, ~~by~~ Academies being placed under the Regents, we believe that all incorporated Academies

1834

To the Hon the Senators for the 8th District & the members of Assembly from the County of Chautauque

Gentlemen, We have just perused Mr. Bernards bill (Assembly doc No 214) brought in table & called on to object to ~~any~~ of its provisions relative to the Academies. From the bill it will be seen that \$6,000 annually is to be added to the fund now distributed by the regents to their Academies. ~~which with~~ ^{about} \$18,000 now annually at their command will place at their disposal about \$24,000 to be distributed to the favored Academies, while the bill provides but \$12,000 to be placed in the hands of the Regents for all other incorporated Academies that are deemed meritorious, by ~~having~~ owing the requisite building having competent teachers &c. There is no doubt that nearly if not perhaps a majority of the meritorious Academies in this State are not under the Regents & derive no advantage from the public bounty, which alike belongs to the entire people. If Mr. Putnam's bill would give the favored Academies \$24,000, a year, & only \$12,000, to the balance of the Academies - This would be adding insult to long continued favoritism & injustice -

Why keep up the present odious monopoly & distinction when it is an undeniable fact that ~~a large~~ ^{many} ~~of the~~ Academies under the Regents have not as good buildings & teachers or as well conducted as many of those not under the Regents. ~~yet~~ many of those inferior Academies have been liberally endowed by the State & assisted in liberality & supported by the Regents. Why have separate funds & why not have all meritorious Academies under the Regents direction & supervision of the Regent (if it is necessary to continue that body) & let all make the reports, subject to like regulations, & receive the same benefit. If there are any advantages, ~~for~~ Academies being placed under the Regents, we believe that all incorporated Academies

owning proper buildings & retaining competent teachers should show in proportion to their classical students, in all the benefits of the public bounty, & make like reports & returns to the Regents. It should also be borne in mind that those Academies that have been under the Regents have been aided in procuring libraries & apparatus & other meritorious Academies ought in justice to be equally aided by the Regents.

We solemnly protest against the old distinction as discriminatory, odious, & partial. The regulations of the Regents are peculiarly oppressive to the newer portions of the state & ought to be abandoned & no longer tolerated.

We know that the Regents & Abolitionists have generally clung to the monopoly, but we hope to see it broken up and forever abandoned.

There are 5 incorporated Academies in this country, but one of them under the care of the Regents. We believe it to be true that those not under the Regents have much better buildings & equally good teachers, with the same aid would be equally ^{or more} prosperous. Yet the one under the Regents only values her building & lot at \$2000 supports no permanent funds or income although she has had thousands from the state, in addition to the dividend from the lit. fund & appropriations for library & apparatus.

We do not mention these facts to derogate from the standing of the Troy Academy, but to show the injustice of the present system & that its longer continuance should not be tolerated by the Representatives of a free people.

So far as we understand the bill which has passed the Senate we approve of its general provisions & equally & decidedly condemn Mr. Barnard's bill in the Assembly.

We earnestly entreat of you as our Representatives
-to prevent a continuance of the present odious
distinction, & that the present Legislature may not
adjourn without the passage of a law similar in
provisions to the bill from the Senate; Nor can we
see any good reason for taking so large a sum from
the fund which by comment ^{should be appropriated} is to be used for the purpose
of education, to increase the State Library which is
in fact chiefly for the benefit of the citizens of Albany
& from which the people of the State derive but little advantage.

We have the honor to be Very Respectfully your
Constituents &c

ALBANY COUNTY HISTORICAL SOCIETY WESTFIELD, NY 2012

Not can we see any good reason for giving to any one head
money in every county \$400 for apparatus & \$500. annually for the
purpose of teaching instructing teachers when it would be more than
pay the tuition of all teachers that would attend such Academy - May
not out of house & require each Academy aided to ^{repay} a year's tuition
of every student who should teach a district school for one year
for having attended such Academy - This would ensure the services of
those who were willing to teach. I would not compel any
one to go to a distance to qualify themselves to teach

REGULATIONS OF
WILLISTON SEMINARY

All who are admitted as members of Williston Seminary, are required to observe the following Regulations as the condition of membership.

1. No one admitted as a member of the Seminary, can leave town, or dissolve his relation to the Institution, or be absent from it or its duties, without the permission of the Principal.
2. All the students are required to be present at morning and evening prayers, and at the various places of study or recitation assigned them, respectively; and none are allowed to leave Seminary ground during the hours of study without permission.
3. Whenever a particular study or exercise has been assigned to a student, he will pursue that study or exercise till allowed by a teacher to give it up or exchange it for another.
4. If any one expects to be necessarily absent from any recitation or duty assigned, permission must be previously obtained, if practicable; if not, the excuse for such absence must be rendered voluntarily by the pupil to the Principal, the first convenient opportunity.
5. Whenever the bell rings for study in the evening, all the students are required to retire, without delay, to their respective rooms for study, and are not allowed to visit each other's rooms again till the next day, without the permission of one of the teachers. This rule is equally applicable to all who room in private families as to those who room in the Seminary Buildings.
6. On Saturday evening and during the Lord's day, visiting from room to room, or standing in groups of several together for continued conversation in the halls or entries of the Buildings, or around them, or walking abroad for exercise, cannot be allowed, in view of the tendency of such practices.
7. All the students are required to attend Divine service both parts of the day, on the Sabbath, and all public Thanksgiving and Fast-days, unless previously excused by one of the teachers. All in the Seminary Buildings and those in the immediate vicinity are required to be present at prayer Sabbath morning and at the Bible exercise in the afternoon, in the Seminary Building.
8. No student is allowed to keep in, or carry into, any apartment of the Seminary Buildings, powder or fire-arms of any description whatever.
9. If a student do any damage to any part of the Seminary Buildings, as in breaking of glass, or in any other way, he is required to report the same, immediately, to a teacher, and to repair said damage at his own expense. If he conceal the damage, or if it be concealed by others who are aware of it, such conduct is regarded as very dishonorable.
10. Tuition is always regarded as due for a whole term on the admission of the pupil into the Seminary. If he enters the Seminary after the term has half expired, and shall choose to pay for what remains of that term and the next, he may be permitted to do so. No deduction of tuition is ever made except in case of the sickness of the pupil, or of some afflictive dispensation of Divine Providence.

The Students occupying rooms in the Seminary Buildings, are required to observe, particularly, the following regulations.

11. As it will be the duty of one individual to remove the ashes from the stoves once or twice in a week, no other one is allowed to perform this service, in any case whatever.
 12. Every student on leaving his room, in every instance, and when he retires at night, will notice especially whether his stove door is shut.
 13. No one is permitted to carry an uncovered light into the basement story.
 14. Convenient and elegant rooms having been provided for the accommodation of the students, it is earnestly hoped, that all the occupants will take special pleasure in keeping them and the furniture in a neat and cleanly condition. All should regard their characters and future success in the honorable pursuits of life, as in an important degree intimately connected with their own personal appearance and the ordinary condition of their rooms and furniture.
 15. It is expected that no student, for any purpose whatever, will drive a nail in any room or closet in the Building, or lean back his chair, or place his feet against the wall, or on the bedstead.
 16. Spitting on the floor or on the wall, or any other similar slovenly practice, will meet with disapprobation.
 17. Smoking in any apartment of the Building, or about it, is wholly forbidden.
 18. It is hoped no one who may have already unhappily formed the filthy habit of using tobacco in any way, will continue it while he occupies one of these rooms.
 19. Writing with pen or pencil in any room, hall, or entry in the Building, or on the outside of it, or on the desks or seats in the school-rooms—marking, cutting, defacing or injuring the same in any manner, is strictly prohibited; and any offender will be liable to pay any damage that may be assessed.
 20. No wrestling, scuffling, jumping, or any other violent sport is allowed, at any time, in any room or hall of the Building.
 21. In the hours of study no unnecessary noise is expected; and, at all other times, every student is required to abstain, in the rooms and the halls, from all boisterous mirth and tumult, and any deportment which does not comport with the character of young gentlemen, and that of the Seminary.
 22. If any of the students are permitted to study, during the day, in the private rooms of the Seminary Buildings, they are not allowed, during study hours, to visit each other's rooms, without the permission of a teacher, nor in any manner to interrupt or annoy each other.
 23. A due observance of the Sabbath is considered as a concern of the highest importance. All the members of the Seminary are, therefore, particularly enjoined to regard most sacredly the Divine command, "Remember the Sabbath day to keep it holy."
- * By a strict compliance with the above regulations, it is confidently believed, that the interests of all concerned will be greatly promoted.

To the Commissioners of Common Schools in the town of Ellipton
 The petitioners of inhabitants of school district No 1, 2, & 16
 The town of Ellipton respectfully represent that in the opinion
 of your petitioners that some alterations in said districts are re-
 quired for the benefit of said districts. The petitioners therefore
 propose to divide school district No 16, leaving Dixtonville
 such adjacent territory as you may deem reasonable to con-
 pose district No 16; and that the west part of district No 16
 about the sash factory & old distillery with a portion of district
 No one (leaving the line near the Methodist meeting house) be
 formed into a new district. That the line between district
 No one & two be removed westerly to make the schoolers
 in said districts No one & two more equal. ^{By} This alteration
 the districts will be equalized & no alteration of ^{District} school
 houses will take place except the red school between
 Chondlers & Dixtonville, we think there can be no reasonable
 objections to such alterations - Decr 15 1837

Albany Feb 20th 1836

U. J. Foote Esq & others

I wrote you yesterday we passed the bill in Committee after the whole 61 to 51, our opponents have renewed their attacks to day in other found the bill had been read the third time & speech after speech had been made against it. It is perfectly understood that the Enemies of the bill are determined to carry it over to next week, we are determined to get the question to day if possible, new efforts have been made by the Enemies to adjourn we voted it down 59 to 50 a third motion is now made & the Clerk & Calling the Ayes & Noes Ayes 42 Noes 54 Parker had been speaking two hours. It is now nearly three o'clock Parker refused to debate it in Committee of the whole, we rose day before yesterday for the very purpose of giving him an opportunity to speak & he was expressly refused to, his cause is condemned even by ^{some of} those who vote with him, the truth is that several of our friends want to go home, we have kept them with great difficulty for several days & they have some votes near absent who will be back the fore part of the week, indeed if we do not get the vote to day, we have great doubt of the result, 4th mo to adjourn, Ayes 41 Noes 54 A call after house & a mo to lay it on the table and the ayes & noes are ordered Ayes 58 Noes 27 so the Motion lies on the table, Parker is going on, where

all this will end I know I write as things are
taking place, Parker talks of the U. States Bank
& matters & things in general, they feed ^{him} Parker
with crackers while the eyes & noses are taking. It is
perfectly understood that he is speaking against
time, the speaker goes with us in all the above votes
& since they have him in the Chair, they are putting it on to
him, Stetson has just risen to advise Parker
how long it would be before he should conclude
& Parker has given away to him so he now is
speaking. It seems to be understood by those
present, Parker had become fatigued, Stetson
will keep us probably till dark! - 4th o'clock Stetson
has set down, just, a friend has the floor & will
~~probably~~ & is exposing Parkers course, & will I think
call the previous question, he had done it. Then
Ayes and Noes are called, & ~~as~~ it will be I think
not sustained, Sibley is speaking with great
elegance, he says he never before voted for
the previous question, but he will vote to
do, from the course the previous has taken.
Previous question sustained Ayes 89 Noes 47
Main question - Ayes 63 Noes 45, ^(18 in voting) The speaker
decides ^{that} the bill has passed, and an appeal
is taken, on the ground that it is a 2/3 bill.
No. to lay on the table, then No. to adjourn
ayes & noes ordered. Ayes 42 Noes 66, No. to
lay on the table withdrawn, Ayes & noes ordered
on the appeal, No. to lay on the table renewed
- last No. to adjourn renewed, Ayes & noes are ordered
Ayes 44 Noes 62, debating the Constitutional
question, on the question to sustain the speaker
deciding the bill has passed, Candles brought
in, the debate is continued with ability & warmth.

Sibley is able & eloquently answering all
objections,

The question to sustain the decision of the
Chair is taking effect. I voted ²⁹ for the
decision it is that a two thirds bill
and it was passed, I have had no
dissens, and I quite unwell,

There has not been such a volent
& persevering opposition for years
of our. Not to adjourn good by

Senator Lucas letter

In my papers of the 24th of Feb last reached this, during my absence (planned in my desk being in
combination with the other papers was not discovered by
me) I wrote to say I was issuing an apology for the delay
of my reply to the Sen. Com. on the subject. I am
in favor of a liberal endowment to the Academies so
to add to the literature fund about \$40,000 allow of
no numerous destruction or accident of educating com-
petent teachers let participate that places all
modest well more or less - I am opposed to
of charity scholars let all pay alike make the
inducement as general as possible that all
participate in the benefits you receive are good. There
should not be any favoritism we are but the
children of one family - monopolies created by
legislation is truly objectionable it is an effort
legislating one party over the other poor this is not only
wrong but barely correct should always be guarded
against - the Academies should be well endowed
is the first step between the common schools & the
colleges we have no doubt two many colleges
I think a small endowment to two or three when one
in a crippled condition in my opinion is required

This time there are various opinions however
upon this subject. The amt of Int. from the
Superior Division is \$321. we propose to
appropriate for the benefit of Geneva - Hamilton &
the Oswego University five thousand dollars each
for five years - \$40.000 to the Academies leaving the
sum of \$266.000 to the benefit of the common schools

The Resolution offered by Mr Edwards to amend
the constitution so as to allow of creating a
batch of chancery judges and two Supreme Court Judges
in addition to what we now have I decidedly opposed
I think in case we were to be truly bound the law so
as to allow no costs or writs of error unless the
sum in controversy of \$500.000 or under and limit
the right to charge costs pro forma new higher
courts would soon be revived. I am much
pleas'd to hear from you often. This has
been writ at my desk in much haste

With much esteem yours &c

Williams College Aug 20th 1839

Judge Foot Esq

Dear Sir.

Your's of Aug 19th came duly to hand, & in accordance with your request I will reply to it without delay. Since its reception I have made reference to Mr C. Harrington, in regard to the location of the Academy &c. & from his description I think there will be no objection.

I have now finished my College course & intend to devote my attention wholly to teaching for the present. Should the Board of Trustees of which I understand you are Pres^{de} & consider to employ me & should my services prove acceptable & the pecuniary compensation satisfactory I think I should be willing to continue in the school for a term of years. I have taught schools of different character four or five seasons & I think I may safely say that my employes have always appeared to be satisfied.

Should I engage in your school I think I should like to be quite sure of receiving as much as \$450 or 500. I know nothing now to prevent me from being with you near the last part of Sept: & should I engage in the school I shall endeavor to do what shall be in my power to sustain the present high character of your Academy.

Dr. Hopkins, informs me that he has furnished sufficient testimonials. I have liberty to refer to any other Member of the Faculty of this College should it be necessary. I should like to know of the result to this matter as soon as possible.

J. Foot Esq

Yours Respectfully, E. A. Dickinson

Ruff. Apr. 2 1832

Mrs. Foster

My Dear

Your favor with order sheet, in rec^d and the book sent up. And will state in the days with the letter to your chief but me \$4.80, a charge of 20 Cts for collect.

I am very glad to hear of your encouragement at the Sabbath school, we do not any of us do enough, Christians do not consider what a great privilege it is to work for the cause of Christ.

I can not tell you any thing good in our city, neither, the nor Sunday Sch. nor Temperance seems to attract much attention and it requires all our exertions to keep them afloat.

Your books ordered we have not on hand but expect a new supply in the Spring, and hope to hear from you again. Wish you would help the circulation of the Sunday Sch. Journal. I feel that a good deal depends on its support.

I had to put in some books not exactly ordered, which if they do not suit you can return, and we will exchange with pleasure, for any thing on hand.

You speak favorably of your Infants School. Last Wednesday we had an examination of ours in town here. The Presbyterian Church was once more crowded and I think a very favorable impression made in its behalf. I hope yours will succeed - do push it ahead as far as you like - perhaps this and the Sunday School is the only thing we can truly depend upon - for it seems so hard for one who has spent 30 years in sin to repent - that we must begin to look around and see what is to become of our children, whether they will reach that time before brought down.

I hope the Lord will answer your prayer and I shall hear from you often, Yours in Christian fellowship J. Belcher

Albany Jan 16 1836

Wm. F. Foster Esq

Dear Sir - your opinion on the
 subject of the academy at Forestburg
 was in a few days since, & yesterday the
 petition & law came on - I presented the
 petition yesterday & today heard the law
 to Mr. G. P. Barker who is one of the Com-
 mittee on Colleges &c. The Chairman is now
 absent, Barker said he would try to
 have it reported on Monday or Tuesday
 I need not say to you & my friends
 in J. that it shall receive my thorough
 attention, I think I shall have no
 difficulty in getting it through
 I find myself much engaged just
 now in getting acquainted with
 members, & attending to matters pertain-
 ing to our County, I have just been
 at work drawing out the request
 of Judge Campbell, your bill for an
 incorporation of the Company to be
 called the "Portland Harbor Company"
 your petition & prayer are so short that!

To the Board of Trustees of the Jamstown Academy
Gentlemen:

Having, ^{determined} on leaving the village of Jamstown, at least for ~~at least~~ ^{at least} ~~some~~ ^{at least} a brief period of years, I have convened you to tender you my resignation as President of your Board and also my office of Trustee.

In retiring from the stations which I have held by annual elections since the organization of our institution, I should do injustice to my feelings, not to tender you my sincere thanks for the kind and cordial manner, I have been treated by the Board as its Presiding Officer.

At the organization of our new institution, in a comparatively new country, dependent entirely upon voluntary contributions to sustain our operations, we have necessarily been burdened with personal sacrifices as trustees to sustain it, which I fondly hope is nearly at an end, and that with due care the Board may be enabled to discharge its liabilities and advance the standing of the Academy, until it shall assume a rank which it seems justly entitled to from its location and natural advantages. That the Academy has already been the means of doing much good to the youth of our village and surrounding country, is undeniable.

In the Jamstown Academy many youth in indigent circumstances have been the recipients of a good English, or even a classical education, who but for our Academy must have been denied the blessings of the education they now enjoy. Still a portion of our population as able in pecuniary means and as deeply interested as any of us, have been most wonderful backward in contributing to the erection of our Academic edifice, or the operations of the institution, as our stock books and subscriptions abundantly show. And all our cares and ours our brethren as trustees, we have been blessed with peace and harmony among ourselves and mutual confidence and cooperation. Gentlemen, you have my best wishes for the prosperity of the institution we have labored for many years to promote its prosperity, and please accept for yourselves my kind regards.

Your most obedient
E. J. Fote

48

A7 Allen Library 1863.

San Francisco Sept. 17th 1863

Mr C. G. Felt

Your much esteemed favor of
 20th ult was recd in due time & I have
 in my reply the result of a conference with the
 Trustees for the Union School, & that location
 is your old home now owned by B. W. Rice
 My intention is if it is made
 & understood it is or will be to suggest
 the location of a Library Building, at such
 a place as to be safe from fire from other
 buildings - I believe we could get an act
 of incorporation the coming winter, & then
 become organized under it, & from that we
 could build up such an Association as
 would be creditable to those interested - I do
 hope you will be in with us I feel that
 we ought to have your collection & that
 it would be both more valuable to
 us than most places mentioned - If you
 will give us an opportunity I will be
 & stop. You of our good intentions
 & determination, I hope you will so dignify
 It is true but fear if our
 citizens are left & while that is so, that fear
 more more & ahead - but time will tell

determine that few in number, been here
have left many of our best & valuable
during the past year. It should admit
that our language that soon they will
be called. I have several calls which he
troubled me that I hardly know what have
written. There is much been done on Henry
Street not as much beyond the Esplanade
line as I could wish. I hope to get it done
that trees & the jobs may be set. In relation
to the fence around the Cemetery - It is almost
impossible to get labour done - there is
such a demand around the buildings
that it is hard to get labour - It ought to be
done - I hope you will consider us
in your decision if when you shall come
& deposit your valuable Collection of Manuscripts
& allow us time once more, if you will I
will try to see that this is done - please incline
to me what necessary effects - Remember me to your

beloved Sir & family - Mrs A is away for a

Yours truly
A. F. Allen

Le Roy Female Seminary.

In reply to frequent inquiries relative to this recently organized institution, we take this method of stating to its friends our terms and design.

Its object is to benefit such as seek to gain a useful, moral, and intellectual education. The building will be enlarged, and open for the reception of pupils on the 8th of November.

The year is divided into two terms of 22 weeks each, and hereafter will commence on the first Wednesdays of May and November. It is highly desirable that all the pupils be present at the formation of classes. No deduction will be made for ordinary cases of absence.

TERMS OF TUITION, ETC.

Regular Course—Primary Department, \$2 and \$3. Junior and Senior Classes, \$4.50 and \$6.00 per quarter.

Extra Charges—Greek, French and Painting, each \$5. Drawing \$3. Music on Piano Forte and Organ, each \$10. Use of the same \$2 per quarter; Vocal Music and Callisthenics are a part of general exercises without charge.

The bill for Board and Tuition, including lights and fuel, will be \$110 per year, if paid semi-annually in advance. Board in the institution in winter \$2.25; in summer \$2 per week, exclusive of washing.

In the teachers department particular attention will be paid to the preparation of teachers for the ensuing summer.

The domestic boarding house has been established not only to test the advantages of the domestic system on the health and habits of the student, but chiefly to bring the means of a thorough education within the reach of an interesting class in community who are not able to meet all the ordinary expenses. The simple costs of consumption and rent are shared equally by the boarders. The amount is about 87½ cents each per week. The private rooms are furnished only with bedsteads and tables.

This is considered a branch of the other family and governed by the same general regulations, and will be under the supervision of a competent matron.

The yearly bill of board (in this department) and tuition in Junior Class can be made out at \$55 or \$60.

Fredonia Female Seminary.

The second Term of this Institution will commence on Wednesday, the 20th September next.

COURSE OF INSTRUCTION.

IN the Elementary Department—Reading, Writing, Dictation, Grammar, Colburn's and Smith's Arithmetic, Parley's Works, Commerce and Composition.
Remaining Course of Studies,—English Grammar, Arithmetic, Ancient and Modern Geography, Comstock's Natural Philosophy, Blair's Universal and American Histories, Blair's Rhetoric, Hedge's Logic, Watt's on the Mind, Wayland's Moral Science, James' Elements of Criticism, Day's and Colburn's Algebra, Playfair's Euclid, Comstock's Chemistry, Lincoln's Botany and Stewart's Philosophy.

TERMS OF TUITION.

Elementary Studies,	per Quarter,	\$3 50
Remaining Course of English Studies,	"	5 00
Extra charges for French,	"	3 00
" " for Drawing & use of Patterns,	"	5 00
A Music Teacher will be employed, if a sufficient number of Pupils wishing to take lessons can be obtained.		
For Boarders, including instruction in the English studies, board, furnished rooms, fuel, lights and washing, per term of twenty-three weeks,		\$70 00

For Boarders, including instruction in the English studies, board, furnished rooms, fuel, lights and washing, per term of twenty-three weeks, one half to be paid in advance, and the other at the end of the term. A special contract will be made with any who will furnish any part themselves.
Young Ladies received into the Seminary as Boarders, will be admitted as members of the family—will enjoy its privileges and be subject to its discipline. They will be required at their entrance to specify what church they wish to attend.
The Academic year will be divided into two Terms of twenty-three weeks each, and no extra charge will be made to those who remain during vacation.—The whole will be under the special care of Mr. and Mrs. Bliss, assisted by other teachers.
We would remind our patrons and the public, that this is an individual effort, to establish an Institution for Female Education.

Fredonia; August 14, 1837.

C. T. BLISS, Principal.

Jamistown Feb 20th 1850

Dear Sir

I address a line to you to
 let you know what we are doing with the
 Academy — A. J. & the N. V. Cunningham &
 myself were appointed a committee to
 raise new stock, we have taken up some
 we have in contemplation to procure the
 portraits of a few of the first officers &
 patrons of the institution to hang up in the
 library for after generations to look at —
 May. Barrett Esqrs Brown & Hadfield
 yourself are desired — They each present
 a portrait to the Academy & Mr
 Arnold paints them & they pay for
 them — He will do them for \$15
 a piece — You have friends here who
 would be pleased to have you there
 with the rest & believe you
 have been a great benefactor to the
 Academy notwithstanding the late
 difference — Mr. Arnold has a good
 portrait of you which I can get —
 I would ask if I will get it will
 you credit the Academy \$15 on
 amount to me for that amount
 through Crosby or otherwise —
 & Mr. Park sent a picture of you

Yours
 H. J. J.

which would pay for it on any other way
 you choose — It is a general time
 of health & people act as if they
 were never a going to die — Mrs
 Lansing died of consumption a few days ago
 & also Mrs Glinn wife of the physician
 recently — Solomon Jones & his wife lies at
 the point of death — P. Fuller — Harriet
 Simmons & Latus Burtus wife with
 the same complaint — Religion is in
 a decline here — I fear it has got the
 consumption also at least it has got the
 word given — My family are well as
 also your friend — I have not yet
 all but my horse & do not know what
 I shall do about — It is of but
 little consequence what we do for the few
 days we have to stay — I am still trying to lay
 up my treasure in a better world —

Old friends are swiftly passing away
 I cherish their memories & think of them with
 pleasure & of past friendly associations —
 Among the first who intended to me the hand
 of friendship here was yourself & subsequent
 to them are not forgotten —

We all have our enemies — we all
 have our imperfections — & we too have
 our good qualities & fast friends —
 I did not visit New Haven the last

The Clerk
 of the Court

Now or I should have called on you
it has been cold within a few days the
thermometer down to 6 deg. above zero

Please reply to me —

Be please to present my
respects to your wife & mine for
yourself with the assurance of Respect
continued

ERIE FEMALE SEMINARY:

THIS INSTITUTION was established about two years since, and is still in successful operation. The repeated declaration of satisfaction, made by those who have given their patronage, induces the Teachers to request and expect liberal encouragement in future. All are assured that no exertions shall be spared to place this Institution on an equality with the most respectable of its kind. An additional inducement is now offered to those who wish to place their daughters under our care. The superintendence of the Boarding Department will hereafter devolve upon the parents of the Principal, who will unite with them in extending that guardianship and parental watchfulness, so grateful and necessary to youth, when absent from relatives.

TERMS.

Tuition in Reading, Writing, Grammar, Composition and Rhetoric ; Arithmetic, mental and written; Geometry and Algebra ; Geography, Ancient and Modern ; History and Botany; Logic ; Natural, Moral, and Mental Philosophy, and Chemistry, per Quarter, from	\$3 to \$6 00.
Tuition in French, per Quarter,	5 00.
" Latin, " "	3 00.
" Painting, " "	3 00.
" Music on Organ and Piano,	10 00.
Board, including washing, ironing and lights, per week,	2 50.
Board, exclusive of washing, &c.,	2 00.

Boarders are requested to procure bedding, beds and towels, if convenient.

Arrangements will be continued for the accommodation of young pupils.

The Summer Term will commence on *Wednesday, 17th of May next*, and continue twelve weeks. It is desirable that early applications should be made, and, for the purpose of organizing classes, punctual attendance is requested.

No deduction will be made for absence of pupils, except for protracted illness, and no scholar will be received for less than half a Term.

E. D. & C. A. FIELD, *United Principal.*

M. M. FIELD, *Assistant Teacher.*

HENRY HYDE, *Teacher of Music.*

ERIE, March 22, 1837.

Andover 1842

Saturday May 5th 1842.

Judge Foot.
Sir.

Your letter of April 12th was duly rec^d and would have had an early answer, if I could have received earlier intelligence, from the young lady I wished to recommend. Yesterday I ascertain Mrs Walter was most positively engaged for the summer, and as I am with a good degree of confidence say, I think her possession of the qualifications enumerated in your communication as being requisite for the station proposed, I presume if the salary should suit, she would be glad of the situation. Miss Ann Walter graduated from this institution two years since, had taught previous to her connection with the school, as well as the two years past: she has always given satisfaction wherever she has taught. Is a member of the Presbyterian Church, a lovely christian, amiable, and retiring in her character, which last trait I might almost say, is all she has, if it be a fault: Last term seven young ladies graduated and rec^d diploma's, but as they have had no experience in teaching I could not confidently recommend them, knowing the responsible situation you wish a teacher to fill. I think Miss Walter would suit you, except it be in the matter of time which she does not understand. She would like to know
