## Finding a Passamaquoddy-Maliseet or English Word

**Search:** In the “Search” box in the right-hand sidebar, type the word you are looking for, in Passamaquoddy-Maliseet or in English. This feature looks for *whole* Passamaquoddy-Maliseet words. For example:

Searching for “[wikuwam](#)” will find the entry for this word, other entries containing *wikuwam*, and video transcripts in which the word is used.

**Search**

---

The Search feature looks for whole English words, too, and also finds the same word with an added *-s*, *-es*, *-ed*, or *-ing*.

Searching for “[sing](#)” will find *sing*, *sings* and *singing* (but not *sang* or *sung*).

**Search**

---

The results of the Search are listed in three columns:

- **Entry:** the dictionary entry or video in which the word is found
- **English Concepts:** the English keywords associated with that entry
- **Excerpt:** places where the word is used in context in the entry

The first results in the list are those most relevant to the search term. The remaining results include videos or entries in which the search term is used in a sentence or somewhere else in the entry, even when the entry word itself is unrelated to your search term ([lahkalusonihikon](#) for example, in the search results below).

**Note:** If you search for a very frequently used English word—such as *on*, *for*, *is*, *this*, *not*—you will get “no results” if the word occurs in too many entries.

Search results		
Entry	English Concept(s)	Excerpt
<a href="#">wikuwams</a>	house, shack, hovel	... (pejorative form of <b>wikuwam</b> ) ... <b>wikuwamsol</b> ... house in poor condition, old house, ugly house ... house ... shack ... hovel ... <b>wikuwams</b> ...

Showing the first five results in the list of 65 entries containing the word “wikuwam”

For some words, this general search produces a large number of results. Click on the **Advanced Search** link to refine your search.

Use the [Advanced Search](#) link to refine your search by entering a search term in one or more of the fields on the page. Advanced Search will find entries with exact matches for **partial words** or **whole words** or **phrases**. The results of an Advanced Search list entry words with their definitions, for the entries in which the search term is found.

**Hint:** Experiment and take time to play with the Advanced Search feature—by using one or more fields—in order to narrow down your search. For example:

Search for [“salt” in the Definition field with “verb” in the Part of Speech field](#) to find *salawehtun* ‘s/he salts it’ and *salawehpukot* ‘it tastes salty.’ If instead you use [“noun”](#) in the Part of Speech field, you will get different results, including *salawey* ‘salt’ and *supeq* ‘salt water.’ You can also search for “salt” in the [Keyword](#) field.

Search for [“hikon”](#) in the Entry field along with “noun” in the Part of Speech field to see how this word-ending is used in Passamaquoddy-Maliseet names of tools and other functional objects.

You can find English or Passamaquoddy-Maliseet words, phrases, and partial words in the Example Phrase fields at the bottom of the Advanced Search page, to see how they are used in sentences and how they are translated into the other language. **Hint:** Partial words usually produce more results than whole words or phrases.

Enter a whole or partial Passamaquoddy-Maliseet word in the Passamaquoddy-Maliseet Example Phrase field. For example, enter “nomiy” or [“nemiy”](#) (a stem of the verb [nomiyal](#)) to see how forms of the verb meaning “see” are used in Passamaquoddy-Maliseet sentences.

Enter a whole or partial English word in the English Example Phrase field. For example, enter “love” to find sentences with *love*, *loved*, *glove*, *plover*, etc.

**Note:** You can search for very frequently used English words—such as *on*, *for*, *is*, *this*, *not*—in the Keywords field.
