Africa

Juan Pablo Morales / FFI

British Indian Ocean Territories

Island Species Conservation

Support to conservation of biodiversity in the Chagos Archipelago

Cameroon

Community Conservation and sustainable management of the Congo Basin forest areas of Cameroon

- **Support to community forest and gorilla tourism in SE Cameroon**

Support to the Conservation and Sustainable Use of the Takamanda Forest Reserve through partnership with local Environment and Rural Development NGO

DRC

Support to Conservation in Democratic Republic of Congo

- **Support to Garamba National Park**

Critical support to protected areas to ensure management and enforcement in times of crisis and emergency in the Democratic Republic of Congo

- **Community Conservation Strategy for Democratic Republic of Congo**

Piloting community conservation around Garamba National Park in Democratic Republic of Congo to learn effective means of involving local communities in conservation that can then be applied to other protected areas in Democratic Republic of Congo.

Democratic Republic of Congo / Rwanda / Uganda

International Gorilla Conservation Programme

- **International Gorilla Conservation Programme**

Working with long term partners the World Wide Fund for Nature and the Africa Wildlife Foundation to support protected area authorities in three countries to improve gorilla conservation

Support to Conservation in Democratic Republic of Congo

- **Conservation of Eastern Lowland Gorilla**

Critical support to protected areas to ensure management and enforcement in times of crisis and emergency in the Democratic Republic of Congo

Eritrea / Ethiopia

Support to biodiversity conservation in Eritrea

- **Management and conservation of elephant at Gash-Setit Wildlife Reserve**

Developing effective capacity for participatory, community-based conservation and management of elephant and other wild resources in the Gash-Setit area of Zoba Gash-Barka

Support to community-based conservation and development in southern Ethiopia

- **Development of community-based programme of activities in the Rift Valley of southern Ethiopia**

Provide support to community-based conservation and sustainable development in the southern Rift Valley of Ethiopia with links to neighbouring areas in Northern Kenya

Guinea / Liberia / Cote d'Ivoire

Support to Conservation and Sustainable Development of the Mountain Biome of Guinea

- **Capacity building for Biodiversity Conservation in SE Guinea**

Support harmonised conservation and sustainable use of the biodiversity-rich Nimba Mountains of Guinea, Liberia and Ivory Coast in a region characterised by instability and wide-scale movement of refugees

- **Nimba Transboundary Conservation**

Providing transboundary protection to core areas of the Nimba Mountains Biosphere Reserve through capacity building of local NGOs, ecological surveys and livelihoods interventions

- **Raptor Survey and Capacity Building in Guinea**

Survey of the occurrence and relative abundance of diurnal raptors in Guinea subject to international trade

- **Nimba Hunting and Wildlife Monitoring Initiative**

Investigation of bushmeat hunting, its importance to local livelihoods and its impact on wildlife in the Nimba Mountains of Guinea

- **Nimba Biosphere Reserve Biodiversity and Livelihood Monitoring Initiative**

Investigation of means of reducing degradation of the Nimba Biosphere Reserve in South-East Guinea, under threat from uncontrolled logging and agricultural expansion, while ensuring that local livelihoods are not undermined.

Kenya

Support to Community Conservation and Co-management in Northern Kenya

- **Support to the Northern Rangelands Trust**

Support to community based natural resource management and co-management initiatives in the semi-arid landscapes of northern Kenya

- **Conservation and sustainable development interventions based on Ol Pejeta in Laikipia**
Managing the Ol Pejeta property as a wildlife conservancy as part of a greater wildlife landscape

Kenya / Tanzania / Uganda

Support to the Operations and Programme of the East African Wild Life Society

- **East African Wild Life Society – Institutional Development and capacity building**
Develop and strengthen the institutional capacity of the East African Wild Life Society as a viable and self-sustaining conservation organization in East Africa
- **East African Wild Life Society – facilitation of regional conservation programme**
Establish a coherent, balanced and strategically planned regional conservation programme within the East African Wild Life Society
- **East African Wild Life Society – facilitation of East African Marine and Coastal Conservation**
Providing institutional support to the East African Wild Life Society, and assisting with development a marine programme and inputs into Kenyan conservation policy

Regional and Transboundary collaboration on wildlife conservation, including sharing of expertise and resources

- Support to Rhino Conservation in East Africa

Liberia

Rebuilding Forest Management and Biodiversity Conservation in Liberia

Assist post-conflict Liberia to revise and manage its protected forest network integrating social, economic and biological considerations

- **Strengthening Forest Management in Post-Conflict Liberia (EC)**
- **Programme de conservation de la Biodiversité autour du Parc National de Sapo, Libéria**
- **Establishing the Basis for Biodiversity Conservation in Sapo National Park and in South-East Liberia**
- **Core support to Conservation in Liberia**
- **Piloting Communal Forests around Sapo Park**

Mozambique

Support to Conservation and Sustainable Use in Northern Mozambique

- **Support to the development and management of Niassa Reserve (Arcadia)**
Increase the efficiency of the conservation management activities in Niassa Reserve through supporting the basic operations and improving infrastructure
- **Support to the development and management of Niassa Reserve (USFW)**

Reduce poaching to a minimum level in the core and buffer areas of Niassa reserve

- **Support agricultural production to support livelihoods in Niassa**
- **Support to land-use processes and development activities in Niassa Province**

Providing capacity building and support to the managing institution (a partnership between the Government of Mozambique and a private company) for improved management of one of the largest protected areas in Africa

Nigeria / Cameroon

Conservation and Sustainable Use in the Forests of Eastern Nigeria and Western Cameroon

- **Support to Management of the Afi Mountain Wildlife Sanctuary**
Protection of the fauna, flora and overall ecosystem function of the Afi Mountain Wildlife Sanctuary through locally integrated and effective management without external assistance
- **Support to Gorilla Conservation in SW Cameroon**
Promote the conservation and sustainable management of forest resources around the Afi Mountain Wildlife Sanctuary

South Africa

Support to Conservation and Sustainable Development in South Africa

- **Incentives on private land in Southern Africa**
Assist in planning and development of government programmes for conservation and sustainable use of key biodiversity areas

Support to the conservation of the Cape Floral Kingdom

- **Development of Flower Valley Conservation Trust**
Developing biodiversity conservation and community empowerment in the Cape Floral Kingdom through sustainable harvest and marketing of fynbos flora
- **Support to the Walker Bay Fynbos Conservancy**
Supporting the conservation and management of this privately-owned conservancy
- **Development and Implementation of the Agulhas Biodiversity Initiative**
Enhancing biodiversity conservation and socio-economic development on the Agulhas Plain through effective management and coordinated multi-sector stakeholder involvement
- **Strategic development of private nature reserves as a conservation strategy in the Cape Floral Kingdom**

Assist a process of transition in governance and management which will result in a financially and ecologically sustainable programme of conservation based on the commercial use of wild fynbos flora in a South African landscape

Support to the Operations and Programme of Resource Africa

- **Support to ResourceAfrica**
Providing institutional capacity building and support to establish ResourceAfrica as one of the region's foremost biodiversity conservation and rural development NGOs

Tanzania

Support to Conservation and Land-use Processes in Tanzania

- **Conservation of Indigenous Forest and Endemic Species on Pemba Island**

Assisting the local government department to effectively improve conservation of species such as the endemic Pemba Flying Fox, with community participation

- **Establishment and development of the Kwakuchinja Ushoroba Wildlife Corridor**

Securing a migration corridor between Tarangire National Park and northern wildlife dispersal areas using participatory methods and incentive-driven conservation

- **Land use and conservation planning in Maasailand, Northern Tanzania**

Support to integrated conservation and resolving land use issues in Maasailand of Tanzania

Uganda

Support to Conservation and Sustainable Development in Uganda

- **Culture, values and conservation: Using local cultural values to build support for protected areas in Uganda**

Building on previous work on the cultural importance local people give to their “beautiful cows” – the Ankole cattle around Lake Mburo – to incorporate local cultural values into the understanding and management of protected area authorities in Uganda

Zimbabwe, Zambia, Mozambique, Angola

- **Support to carnivore conservation in the Zambezi Basin**

Provide assistance for surveys, protection, HAC mitigation and resolution

Zimbabwe

- **Support to Conservation and Sustainable Development in Zimbabwe**

Development of conservation support in the lowveld of southern Zimbabwe

Juan Pablo Morales / FFI

Americas

Juan Pablo Morales / FFI

Belize

Building local indigenous institutional capacity for conservation management and sustainable development in southern Belize

- **Integrating Protected Area and Landscape Management in the Golden Stream Watershed**
4 yr project - aimed at Integrated Management of Golden Stream and adjacent watersheds with Ya'axché Conservation Trust and other partners
 - 1) Promoting effective management of 4 Protected Areas within the Golden Stream Watershed
 - 2) Forming partnerships for sustainable development of watersheds and financing of Protected Areas
 - 3) Developing infrastructure
 - 4) Replication of the model at the national level
- **Community Small Business Development**
Working with Maya communities to develop biodiversity-friendly products including cacao and value-added wood products. Exploration of use of ornamental palms/xate
- **Protected Area Management of Golden Stream corridor preserve**
Partnership with Ya'axché Conservation Trust to conserve the preserve. Ranger patrols and biological monitoring. Reforestation post-hurricane Iris, etc.
- **Community Awareness Raising**
Outreach in communities; demonstration plots and training at Community Field Center

Brazil

Southern Amazon Teles Pires Conservation Corridor

- **Cristalino State Park (CSP)**

Working with Cristalino Ecological Foundation (CEF) for effective management and conservation of Cristalino State Park, do demonstrate the value of the Protected Area ecosystem to communities and decision makers

- **Brazil - CEF Cristalino project**

Land purchase for protected area with community management and livelihoods interventions

- **Escola do Amazonia**

Supporting CEF's innovative environmental awareness programme, targeting children of loggers and poachers surrounding the CSP. Immersing students in the 'forest classroom' for an interactive education experience. Teachers develop their own education materials

- **Jaguar conflict research and conservation**

Supporting CEF's Sylvio Marchini to research the cultural drivers of Human-Jaguar Conflict, and develop mitigation strategies on the Amazonian frontier

Landscape conservation of Brazilian Atlantic Forest in & around Carlos Botelho State Park

- **Support to Pro Muriqui**

Within PA: Improving the management of Carlos Botelho and surrounding Protected Areas. Using Flagship Species Fund support to explore Muriqui (monkey) as a flagship

- **Cairu - coastal Atlantic forest conservation**

Supporting local NGO; tree nursery, mapping and a volunteer programme

Argentina

- **Condor Conservancy Initiative**

Establishing a model for ecosystem protection and management on private land

Ecuador

- **Awacachi Corridor Programme**

Establishing long term for protection of Awacachi Corridor, addressing issues such as land tenure and livelihoods

Nicaragua

- **Nicaragua Turtle Programme**

Protection of Leatherback turtles patrols, education and awareness raising, alternative livelihoods

- **Pacific Turtle Strategy**

Participatory Development of a National Marine Turtle Conservation Strategy for Nicaragua

Caribbean

- **Antiguan Racers**

Conserving the critically endangered Antiguan Racer snake through an integrated programme of research, public awareness and education, local capacity building, ecological restoration, re-introduction, and habitat management

- **Caribbean Cruise Liners**

Assessing the impact of the Caribbean Cruise Liner industry to identify key areas for biodiversity protection

Asia Pacific

Cambodia

- **Cambodian Crocodiles**
Community based protection of endangered species and habitat
- **Cambodian Elephant Conservation Programme**
Supporting conservation of endangered Asian elephant through protection, survey, land use planning and livelihoods interventions
- **Cardamom Mountains**
Conservation of Cardamom Mountains protected areas complex by addressing the many anthropological threats
- **University Capacity Building**
Building Cambodia's capacity for environmental conservation by establishing an MSc course
- **Veal Veng Community Conservation programme**
Strongly connected to the Cambodian crocodile project; improving livelihoods and food security as an incentive to conserve forest and marshland

China

- **Capacity building for Ecological Impact Assessment**

Building capacity for local conservation NGO

- **Ganzi NGOs - Sustainable Tibetan Communities**

Developing rangeland and natural resource management plans with Tibetan communities

- **Guizhou/ Grey Snub Nosed Monkey**

Conducting a survey and census of this endangered primate to create a conservation plan

- **Hainan Gibbon**

Raising awareness and supporting protected areas management for improved conservation of Eastern Black Crested Gibbon

- **Qinghai-Tibetan Plateau (Tibetan Antelope Survey)**

Conducting research and survey work, and improving capacity for conservation of the Qinghai-Tibetan Plateau

Indonesia

- **Aceh Land Use Planning**

Working with a wide range of local partners, development agencies and local communities in Aceh - the area worst hit by the tsunami - to ensure sustainable reconstruction of the area (education and awareness; sustainable livelihoods and reconstruction efforts; land use planning and protection)

- **Aceh Coastal and Marine Conservation Project**

Working with Nature Conservation Agency and other partners to rebuild livelihoods by empowering poor families to rebuild sustainable small tourism-related businesses, while protecting coastal ecosystems

- **Kalimantan Orangutans**

Protecting orangutans and habitat using community patrol teams, education and awareness

- **Kerinci Tigers**

Protecting tigers and habitat using community patrol teams, education and awareness

- **Sumatran Elephants (SECP)**

Conservation of endangered Asian elephant through protection, survey, land use planning and livelihoods interventions

Philippines

- **Cebu Biodiversity Conservation Programme**

Supporting the Cebu Biodiversity Conservation Foundation

- **Philippines Biodiversity Conservation Programme**

Wide range of conservation interventions from research to habitat protection to awareness raising to captive breeding of endangered species

- **Polillo Biodiversity Conservation Programme**

Working with local municipal governments to identify, declare and protect new priority conservation sites in the Polillo archipelago

Vietnam

- **Eastern Black Crested Gibbon (Cao Vit gibbon)**

Supporting community-based patrol teams; research; community livelihood interventions for improved conservation of Eastern Black Crested Gibbon

- **Ha Long Bay Ecoboat project**

Environmental education for local and international children using the Eco-Boat: a floating class-room

- **Hoang Lien Son**

CBNRM to assist communities to maintain the cultural and biological diversity of the Hoang Lien Son mountain forests within an appropriate cross-provincial legal and policy framework

- **Phong Nha Ke Bang (Forest Gardens)**

Supporting Community based sustainable management of forest to meet both economic needs of communities and biodiversity conservation needs

- **Pu Luong Cuc Phuong**

Developing and enforcing protected areas, and public awareness and CBNRM

- **Tonkin Snub-Nosed Monkey**

Working with the Government forest protection department to increasing protection, reduce threats and raise conservation awareness through community based interventions

SEBINC Unterthiner

Eurasia

Juan Pablo Morales / FFI

Croatia

- **Croatia Grasslands**

Working with local Park Authority and communities for traditional management of Croatia's grasslands

Georgia

- **Support to biodiversity conservation in Georgia**

Support to the technical capacity of Georgian NGO 'NACRES'

Italy

- **Biodiversity support for ENI, the Italian-based energy company**

Assisting ENI to develop a position on biodiversity issues, and site-level advisory work

Kazakhstan

- **Saiga**

Small grants programme in rural communities; developing enterprise as a disincentive to poaching of the endangered Saiga antelope

Kyrgyzstan

- **Community Business Forum Capacity building**

Support to the technical capacity of the Kyrgyz Community Business Forum

Jean-Francois Legout

- **Community Business Forum Small Grants Programme**

Small grants programme to develop enterprise, with the aim of reducing pressure on biodiversity, and involving community in conservation

- **Fruit & nut forest conservation**

Working with local government and communities for the sustainable management of valuable ancient fruit and nut forest

Portugal & Spain

- **Iberian lynx Programme**

Working with land owners and other stakeholders to secure contiguous habitat for the Iberian lynx

Turkey

- **Technical Assistance to Igneada Protected Area**

Assisting with the development of a management plan for the protected area

Regional

- **Snow Leopard conservation**

With the Asia Pacific programme and other partners, developing a strategy for the protection of this endangered species across its range states of Uzbekistan, Kyrgyzstan, Kazakhstan and China

Conservation Partnerships

Biodiversity and Human Needs

- **Resources for Improved Livelihoods**

Mainstreaming FFI's approach to livelihoods across our conservation portfolio, using a variety of means, and capturing the learning from these interventions

- **Rapid Response Facility**

Providing rapidly-deployed emergency small grants to World Heritage Sites afflicted by conflict or natural disasters

- **Cross-Sectoral Partnerships – 'Life on the Edge'**

Learning from and enhancing our partnerships with humanitarian and development agencies, government bodies, community groups and the private sector in areas afflicted by conflict or natural disasters

- **Mpingo Conservation Project**

Assisting local government and communities in Southern Tanzania to implement sustainable forest management, particularly of high-value mpingo timber used in musical instrument making

International Policy

- **Probioprise**

Developing research agenda addressing the business instrument of the EU's Strategy for Sustainable Development; identifying the specific business opportunities and constraints for sustainable use by Small-Medium Sized Enterprises

- **Convention on International Trade in Endangered Species (CITES) and CBD synergies**

Assessing the synergies between two international conventions to identify areas for improved synergy and collaboration

- **CITES and Livelihoods**

Working to ensure that CITES takes account of the impacts of its regulatory measures on the livelihoods of the poor

Juan Pablo Arreola / FFI

Science

- **University project**

Assessing the interactions, collaborations and liaisons between different conservation organisations

Global Trees

- **Conservation of Chinese Magnoliaceae**

With leading Chinese botanical institutions, assessing the status of and threats to these charismatic tree species, and developing conservation initiatives to improve their status in the wild

- **Restoration of threatened conifers in Vietnam**

Working with a partner institute in Vietnam to set up a Conifer Conservation Centre and reinforce wild populations in this hotspot for conifer diversity and threat

- **Wild pears in the Caucasus**

Working with botanists from Georgia, Armenia and Azerbaijan to assess the native populations of wild pear species and identify required conservation actions for these economically important species

Paul Matthew / FFI

- **Threatened trees in Madagascar**

Protection and conservation for four critically threatened tree species in the littoral forest of eastern Madagascar

Corporate Affairs

- **Building the capacity of young conservationists with the BP Conservation Programme**

Building the capacity of young conservation professionals in countries where BP has a strong presence

- **Technology for conservation and development**

Promoting and implementing appropriate application of certain technologies to conservation and development issues to deliver clear biodiversity and livelihoods gains

- **Working with the palm oil industry**

Working to test methods to identify and secure the conservation of high conservation value forest area in West Kalimantan, Borneo

- **Testing the concept of biodiversity offsets**

Developing methodology to identify, manage and monitor biodiversity offsets as a means of balancing environmental and development needs

- **Working with ENI to understand and monitor their biodiversity impacts**

Helping ENI to understand and monitor the biodiversity impacts of its operations at site (Italy and Ecuador) and company levels following methodologies and approaches set out in the Energy and Biodiversity Initiative

- **Native forest restoration in Sri Lanka**

Working with the Ceylon Tobacco company and the University of Peradeniya to convert 500 hectares of redundant eucalypt forest back to native forest

- **Integrated land use planning in Mozambique**

Developing an integrated regional plan funded by Imperial Tobacco for forest conservation and agriculture in the Niassa Reserve, Mozambique

Rio Tinto

- **Working with Rio Tinto to implement their commitment to have a net positive impact on biodiversity**

- **Advising Rio Tinto on biodiversity impacts, issues and solutions in Madagascar**

- **Developing a framework for managing biodiversity at Rio Tinto's operations in Brazil**

- **Helping Rio Tinto develop internal guidance on developing and implementing biodiversity action plans**

BAT Biodiversity Partnership

- **Advising on biodiversity policy and strategy**

Advising BAT on the development of a position statement on biodiversity and key activities to implement it

- **Development of biodiversity risk assessment tools**

Producing a biodiversity impact and risk assessment methodology (currently being trialled at BAT Uganda and Indonesia) to be rolled out to all BAT operations

- **Sustainable fuel use in tobacco curing, Indonesia**

Undertaking a feasibility study for BAT Indonesia to look at biodiversity-friendly alternatives to kerosene and coal. Examining the potential for using biogas by farmers for domestic use and tobacco curing as an alternative to tree growing and also to reduce impact on the few remaining areas of natural forests on the island

- **Development of a green corridor in Parana State, Brazil**

Working with two local NGOs and BAT Brazil to develop a green corridor in an area of fragmented Atlantic Forest in Parana State, where BAT sources tobacco from contract farmers

- **Development of a private protected nature reserve in Parana State, Brazil**

Working with BAT Brazil and a local NGO to purchase an area of land within the Parana state, to be managed as a permanent protected area, securing an area of recognised high biodiversity against the threats of illegal logging

- **Forest restoration in Chile**

Working with BAT's Chilean operations to return a block of eucalypt forest (which plays a role in controlling access to water required for their nearby factory) to native woodland

Vision

A sustainable future for the planet, where biodiversity is effectively conserved by the people who live closest to it, supported by the global community.

Mission

To conserve threatened species and ecosystems worldwide, choosing solutions that are sustainable, based on sound science and take account of human needs.
