

PASSPORT

Eldorado National - California
Thor Industries Commercial Bus Division

29' and 34' Low Floor Bus

Low Floor, High Value

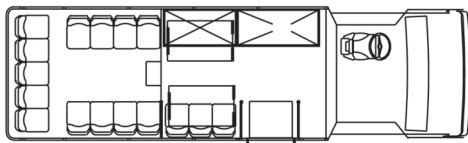

Altoona Tested for 10 Years/350,000 Miles and FMVSS 214D Side Impact Tested

Finally, the perfect combination of low-floor design and transit grade durability at a reasonable price. The Eldorado National Passport is the low-floor transportation solution that doesn't break the bank. The Passport's rear wheel drive design provides unsurpassed durability with the convenience of low-floor.

No more compromises! In the past, small low-floor buses meant light-duty. The Passport changes that. Manufactured with many of the processes used in our 12-year tested, heavy-duty buses, the Passport offers a robust body cage construction and industry leading corrosion protection, allowing it to stand up to your harshest applications.

So many tasks, one solution. The Passport was designed for superior floorplan flexibility with accommodations for up to three ADA-compliant wheelchair positions. Realizing that no two customer applications are the same, the Passport offers a wide array of transit/shuttle options. As with all Eldorado National low-floor buses, the Passport offers unsurpassed fuel flexibility – diesel, gasoline, CNG or propane. The Eldorado National Passport is your easy access to anywhere you want to go!

29' Model

13 Passengers with 2 Wheelchairs or 16 Passengers

18 Passengers with 2 Wheelchairs or 26 Passengers

13 Passengers with 3 Wheelchairs or 22 Passengers

34' Model

25 Passengers with 2 Wheelchairs or 31 Passengers
