WORLD AND CONTINENTAL RECORDS

(as at June 21, 2009)

ABBREVIATIONS & KEY (See also page 7)

IAAF = IAAF World Record; **IAAF-J** = IAAF World Junior Record; **W** = Unratified World Best; **WJ** = Unratified World Junior Best; **WY** = Unratified World Youth (under-18) Best; **W35** = World (Masters) over-35 best; **W40** = World Masters best; **AFR** = Africa; **ASI** = Asia; **C** = Commonwealth; **CAC** = Central America & Caribbean (included the countries with borders to Caribbean though not the USA); **EUR** = Europe; **NAM** = North America; **OCE** = Oceania; **SAM** = South America

NOTES

A = made at altitude of 1000m or higher; a = aided road course according to IAAF rule 260.28 (separation between start and finish points more than 50% of race distance or the decrease in elevation greater than one in a thousand); est = estimate; h = hand timing; ! = timing by photo-electric cell; * = awaiting ratification but otherwise valid; # = not officially ratified outdoors (some ratified indoor marks have this symbol); X = unratified due to no doping control

Where relevant, the pace is given for world record performances. Where known, the time given is that of the runner who set the record, rather than the pacemaker

From 2000, IAAF Rule 260.18a (formerly 260.6.a) was revised to allow world records to be set at a facility with or without a roof (i.e. indoors or outdoors); Accordingly, indoor marks superior to outdoor records and set since 2000 are listed on these pages in addition to outdoor bests

Included again are the individual road events which were given world record status from January 1, 2004. These feature many unratified, unofficial and unconfirmed marks for three main reasons. Firstly, most of the IAAF's area federations have not yet established records at these events. Second, several of the world's major long distance races do not take official times en-route for runners and finally – though the final distance not be regarded as aided (see note above) – the intermediate distance may well be.

It should also be noted that some federations have ratified road records even though the marks were set on courses such as Boston which do not fulfill IAAF criteria. Any comments and amendments to these records will be gratefully received by the editor.

NATIONAL RECORDS

These lists mainly include official records as recognised by various national federations. In a few cases, federations recognise invalid performances, such as wind-assisted sprints, javelin throws with old implement specifications, and combined events scores on outdated tables. In such cases the best statistically valid mark is given though the ratified mark does appear in the footnotes. No sprint or jump marks obtained with a following wind of more than 2 m/s are included, nor are any which were definitely unsubstantiated. Indoor records are not included except in footnotes (see below). Where known, all marks set up to June 21, 2009 are included. Those set in 2009 are given in bold characters.

Winfried Kramer

NATIONALITIES

Caribbean and Pacific athletes with double nationality have been listed according to their eligibility at international championships, but such decisions are open to debate. Tahiti, formerly French Polynesia, accepts records by athletes who are of non-Polynesian origin and who were non-permanent residents. Ex-USSR Republics and former Yugoslav Republics accept records affiliated to domestic clubs. Vanuatu has decided to eliminate records by non-citizens before independence.

AUTOMATIC TIMES

Following the policy of the IAAF, automatic times are given to hundredths of a second wherever possible. For sprint events, manual marks are listed only if they are least 0.24 seconds better than the automatic record. Please note that these marks are given for information only and may not be officially recognised by the respective federations. For 400m and 400m hurdles, automatic records only are given.

WALK RECORDS

Please note that these are not necessarily track marks.

FOOTNOTES

These are included for each event to explain the decisions of the compilers and to present problems they felt unable to solve. Asterisks are given against records where there is a relevant footnote for that country.

RECORDS FOR SUSPENDED NATIONS

Records are listed for Cambodia and South Africa even though the performances may have occurred while those countries were suspended by the IAAF.

EQUALLED RECORDS

Please note that some records equalled by the same athlete or country may not have been included due to the policy of the federation.

ILLEGITIMATE MARKS

Some countries have chosen to ratify records which the IAAF would regard as illegal because of doping violation or wind assistance. These have been relegated to footnotes with the best legitimate mark given in the main list. However ratified records set by women in mixed races are shown in the main list with the best non-mixed mark footnoted.

IAAF RULE 260.18.a

The 2000 change to this rule (formerly 260.6a), which allows indoor marks to be recognised as “absolute” records, has not been incorporated into this section although certain significant marks in this category (i.e. Australian pole vaults) are shown as footnotes. See pages 389 and 546 for further notes.

Readers are invited to send any corrections to Winfried Kramer (Fax: 49 - 6821 932101; email: kramer@hom.saar.de) or any other compiler (see page 6 for all compilers' addresses)

PROGRESSION OF OFFICIAL WORLD RECORDS

This section lists progressive world record performances as ratified by the IAAF or the Fédération Sportive Féminine Internationale (FSFI), which was absorbed by the IAAF in 1936. Though the IAAF was founded in 1912, its first list of world records contained marks which were set as early as 1870.

AUTOMATIC TIMING

From 1975, the IAAF accepted separate, automatic electrically timed records for events up to and including 400m. From 1977 only automatic timing was considered for world records in these events. Automatic timing to hundredths was accepted for events up to and including 10,000m from 1981. Where known, unofficial automatic times are given – in a smaller typeface – next to the ratified “tenth” time. Ratified automatic times are always given in larger type.

INDOOR WORLD RECORDS

From 2000, IAAF rule 260.18a (formerly 260.6.a) was amended to state that world records (as opposed to indoor world records) can be set at a facility “with or without” a roof. So far only one event – the women’s pole vault – has been affected by this change, which was not applied retrospectively. Therefore world indoor records set in 2000 and 2001 by Stacy Dragila and Svetlana Feofanova can be regarded as “absolute” and appear in these lists.

A similar rule change occurred in the late 1980s, when the 2.42 high jump of Carlo Thränhardt (FRG), made indoors, was accepted as equalling the existing world (outdoor) record. However this mark was subsequently deleted as a world record and is not included in this section.

ROAD RECORDS

From January 1, 2004 the IAAF has recognised official world records at 10Km, 15Km, 20Km, Half Marathon, 25Km, 30Km, Marathon, 100Km, Road (Ekiden) Relay and also the 20Km and 50Km Walks. Progressions are also given here for best performances in the road running and walking events prior to their acceptance as official world record events.

OMISSIONS

Except for road events, excluded from this section are unrated marks, performances which were originally accepted as world records then annulled, and indoor-only world records.

The data in this section is based on “Progression of World Best Performances and Official World Records”, edited on behalf of the IAAF originally by Richard Hymans and then Imre Matrahazi.

Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. Listed is the progression of world bests prior to official acceptance and superior unrated marks thereafter. Indented are marks set on uncertified or aided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Records ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances

Notes

ARG/PER These automatic records have caused arguments for years. After some investigation, the South American Confederation approved these records. So did eye-witnesses such as Almeida and Vinker

CAN 22.25 Angella Taylor Colorado Springs 20 Jul 82 – no longer recognised by federation due to doping revelations

KAZ 23.01 Anastasiya Pilipenko Bishkek, 21 Jun 08 – unknown irregularity

LUX Mirjam Hess has dual citizenship of Luxembourg and Switzerland

Road events – world bests and world records

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. Listed is the progression of world bests prior to official acceptance and superior unrated marks thereafter. Indented are marks set on uncertified or unaided courses which do not fulfill the criteria specified in IAAF Rule 260.28.b (separation between start and finish points should not be more than 50% of race distance) or 260.28.c (the decrease in elevation should not be greater than one in a thousand). Record ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances

NOTES

BIOGRAPHICAL SUMMARIES

Here are summarised biographies of more than 400 of the world's leading athletes – in alphabetical order – who are likely to be leading contenders at the 2009 World Championships. The athletes's name, birthdate, country and principal events are shown along with their personal bests (in bold for key events), most significant achievements (international then domestic) and other data. The athlete's main achievement is summarised in the first lines after their name. Heights and weights are shown where most relevant. Marks set up to June 21, 2009 are included.
