P 250 DCc

when it counts

SIG SAUER

P 250 DCc

Developed in close cooperation with top police experts, SIG SAUER proudly presents an outstanding new generation of service pistols, setting new standards worldwide.

Various innovations of the P250 ensure that this service pistol meets today's most difficult challenges in terms of handling, function and safety.

Unique modular system

- 3 different grip modules accommodate hand size
- 2 different trigger sizes accommodate finger length
- Picatinny rail

Completely Ambidextrous

- All levers and controls are ambidextrous and optimized for duty
- Magazine release can be changed from left to right side
- Ideal for left- and right-handed shooters

Consistent Safety Concept

- Double Action Only trigger system
- Smooth trigger stroke
- Light trigger pull weight
- Totally decocked after every shot
- Internal drop safety
- Disconnect
- External hammer
- Pistol slide must be locked open, chamber visible, to disassemble
- Tested high quality material

Easy to use and maintain

- Fast and easy disassembly and assembly without tools
- Pistol consists of few parts

Reduced Training Time

- Minimal controls: trigger, slide catch lever and magazine release
- Simple and safe: just draw, shoot and holster
