Departmental Notice #1

Effective Nov. 1, 2012

(R18 / 11-12)

IMPORTANT NOTICE: *The rates in this notice are effective for withholding purposes for periods beginning on or after Nov. 1, 2012.*

How to Compute Withholding for State and County Income Tax

This document does not meet the definition of a "statement" required to be published in the Indiana Register under IC 4-22-7-7. The purpose of this document is to assist withholding agents in determining the correct amount of Indiana county income tax to withhold from an employee's wages by providing the tax rate for each county. A county name that is in bold and underlined has adopted a new county income tax. An asterisk (*) beside a county name indicates that there has been a change to the rate(s) during 2012. The rates given in this document apply to wages paid after Oct. 31, 2012, and the tax is withheld and paid at the same time and in the same manner as the state income tax.

The residence, principal place of business, or employment of an individual is determined on January 1 of the calendar year in which the individual's taxable year commences. An individual cannot be subject to both a resident rate and a nonresident rate at the same time. If a person resides in an adopting county on January 1, he or she is subject to that county's resident rate. If a person resides in a non-adopting county (including out-of-state), but works in an Indiana adopting county, he or she is subject to the nonresident rate corresponding to his or her county of principal employment.

The deduction constant tables have been developed to help calculate state and county income tax. These tables divide the dollar amount of the exemption/dependent exemption by the number of pay periods. This will determine the deduction constant or the dollar amount of the exemption you should deduct each pay period from the employee's gross income.

Table A is used to figure personal exemptions. Each employee is entitled to deduct \$1,000 per year per exemption claimed on line 5 of his/her Form WH-4 (Revised 8-08). Personal exemptions include additional exemptions if you or your spouse are age 65 or older and/or blind. The WH-4 is available at www.in.gov/dor/4100.htm.

Table B is used to figure dependent exemptions. Most employees are entitled to deduct \$1,500 per year per qualifying dependent exemption claimed on line 6 of his/her Form WH-4 (Revised 8-08).

Deduction Constant Tables					
Table A	Daily	Weekly	Bi-Weekly	Semi-Monthly	Monthly
1	2.74	19.23	38.46	41.67	83.33
2	5.48	38.46	76.92	83.33	166.67
3	8.22	57.69	115.38	125.00	250.00
4	10.96	76.92	153.85	166.67	333.33
5	13.70	96.15	192.31	208.33	416.67
6	16.44	115.38	230.77	250.00	500.00
Table B	Daily	Weekly	Bi-Weekly	Semi-Monthly	Monthly
1	4.11	28.85	57.69	62.50	125.00
2	8.22	57.70	115.38	125.00	250.00
3	12.33	86.55	173.07	187.50	375.00
4	16.44	115.40	230.76	250.00	500.00
5	20.55	144.25	288.45	312.50	625.00

Locate the deduction constant for the personal exemptions in Table A. Add to that the deduction constant for the dependent exemptions in Table B. This is the net amount that should be deducted each pay period from the employee's gross income.

Example: An employee is paid a weekly salary of \$800, he/she claims 5 personal exemptions and is subject to county tax at the rate of .0125. He/she claims 3 dependent exemptions. The taxable income of \$617.30 is the amount on which state and county tax should be calculated.

If you have any questions about the withholding of state or county taxes, please contact the department at (317) 233-4016.
