

CMG Homework #147

How Plants Grow

Answer the following questions

1. Why is it important to use technical terms in conversations about plant care and plant disorders?
2. Why is it important to use scientific names for plants rather than just common names?
3. What observational skills are important in plant identification and diagnosis?
4. What is the value of using a key rather than trying to match pictures in a book?

5. List five questions that you could ask a client to gain understanding on the environmental conditions important to plant health in their landscape.
