# Legendary Innovation— Yesterday, Today and Tomorrow.

With a rich history dating back more than 80 years, Beechcraft Corporation continues to design, build and support a versatile and globally renowned fleet of aircraft. Each decade has seen products that established benchmarks for the industry, and today, Beechcraft continues the tradition of quality, safety and value. Each day our 5,400 highly skilled employees are producing the airplanes that have set themselves apart from the competition: King Air turboprops, piston-engine Barons and Bonanzas, and the T-6 trainers and AT-6 light attack military aircraft. In business since 1932, Beechcraft has built more than 54,000 aircraft with a remarkable 36,000 still flying today. From our headquarters and major manufacturing facilities in Wichita, Kansas, to our more than 90 factory-owned and authorized service centers around the world, Beechcraft is redefining the aircraft manufacturing industry.
