

# Bio·IT World

Next-Gen Technology • Big Data • Personalized Medicine

## EDITORIAL CALENDAR

	Editorial Coverage	Industry Events	Inside Bio-IT World (eBook)
July 2014	Systems Biology	Clinical Trials & Innovation Exchange	
	Gene, Protein, Metabolite Networks		
August 2014	Cancer Genetics and Diagnostics	<b>NextGen DX Summit (Aug. 19-21)</b>	Changing Face of Cancer Genomics & Cancer Research - <b>Sold Out!</b>
September 2014	Genomic Data Analysis	Biorepositories and Sample Management Conference	Clinical Genomics Business Models
		Cancer Diagnosis at the Crossroads: Precision Medicine Driving Change	
		Conference on Translational Medicine (EUTSM-2014)	
October 2014	Best Practices Call for Entries	4 <sup>th</sup> Annual Next Generation Sequencing Asia Congress 2014	Celebrating Outstanding Design in Bio IT
	Cloud Technologies	2 <sup>nd</sup> Annual Single Cell Genomics & Transcriptomics Asia Congress 2014	
		<b>Discovery on Target</b>	
November 2014	Answering the Big Question (Things We Don't Know, Variants, Ref Genome)	Supercomputing 14	
		<b>Advances in Prenatal Molecular Diagnostics</b>	
		6 <sup>th</sup> Annual Next Generation Sequencing Congress 2014	
December 2014	IT Hardware: Processors and Supercomputers		
February 2015	Personalized Medicine	<b>Molecular Medicine Tri-Conference</b>	eHealth and Consumer Devices
	Patient Stratification		
March 2015	Really Big Data (The Moonshots)		
April 2015	Discovery Informatics	<b>Prenatal Europe</b>	Really Big Data (The Moonshots)
		<b>Bio·IT World</b>	
May 2015	Best of Show Winners		
June 2015	Best Practices Winners	<b>TCGC: Clinical Genome Conference</b>	Answering the Big Question (Things We Don't Know, Variants, Ref Genome)
	Metabolomics & Proteomics		

Cambridge Healthtech Institute Events
