

Ham Wall

Finding your way around

■ Ham Wall loop

On this 1.7 mile circular walk from the car park, you'll follow a scenic rough grass trail alongside the Glastonbury Canal through the reserve. You'll then cross the canal via a bridge to return along the old railway track. In summer, look out for different kinds of dragonflies, butterflies and bumblebees. As you walk, you might see roe deer, or if you are really lucky, an otter!

■ The Reedbed trail

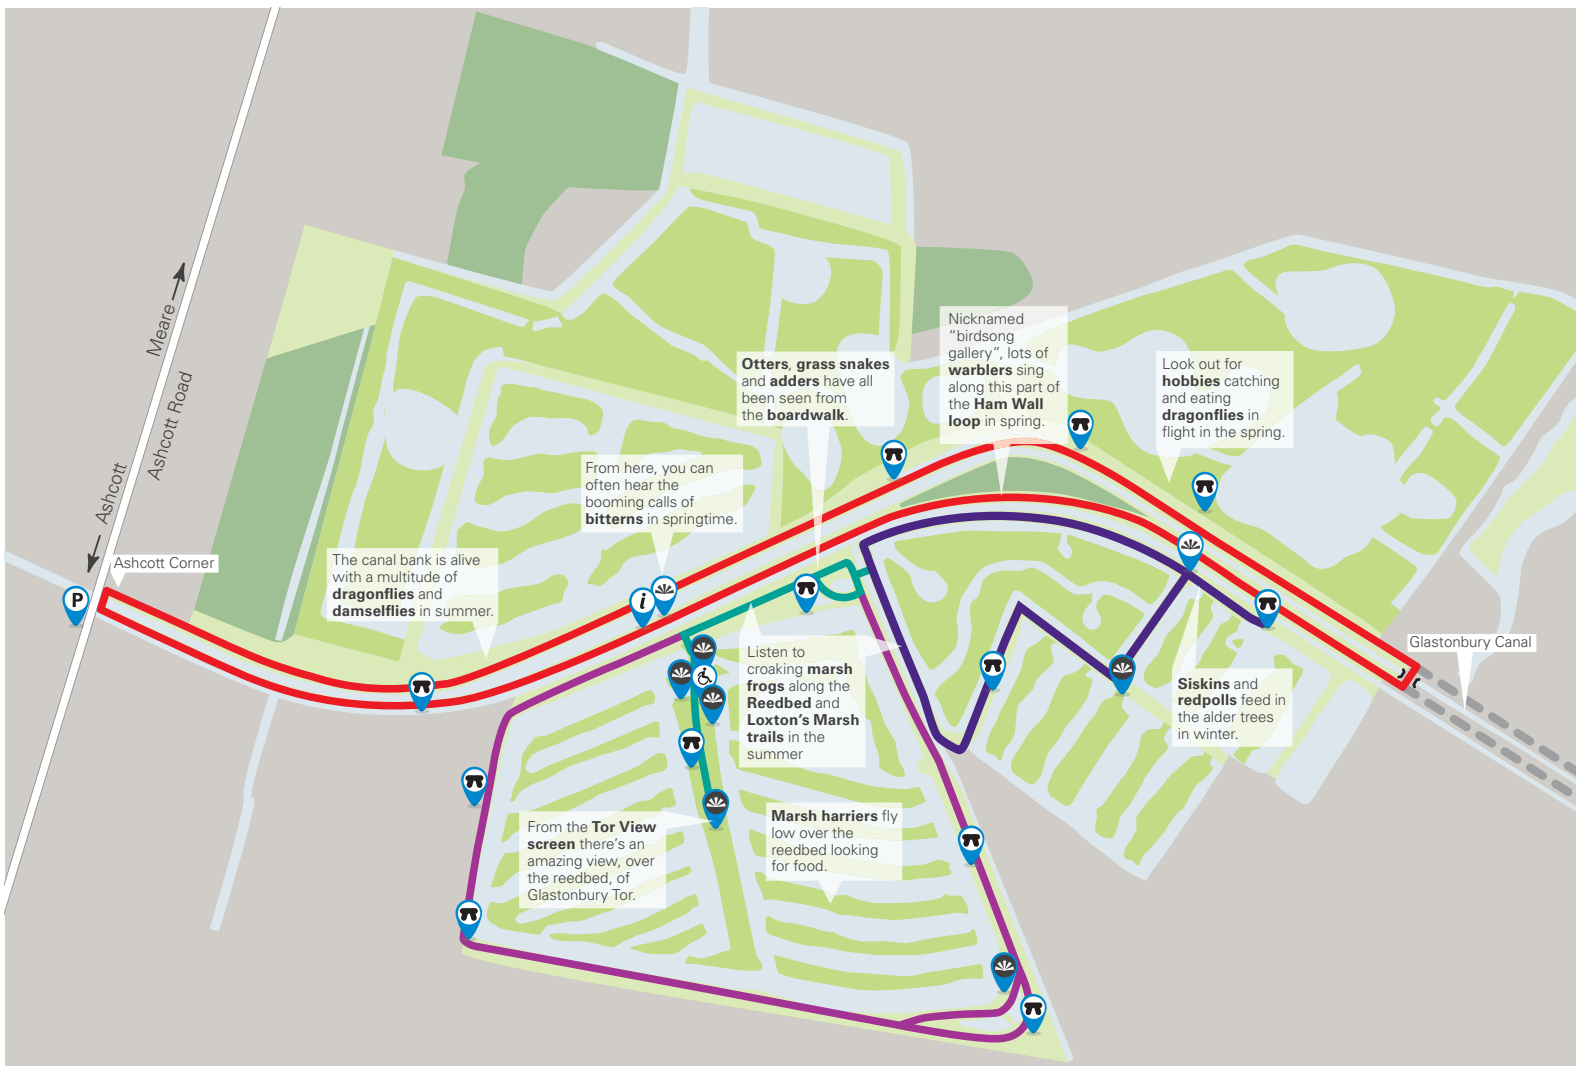

This trail is accessible by wheelchair users and children's buggies and leads to the Tor View viewing screen. Look out for marsh harriers hunting for prey in the reedbed – they'll be flying low. And amongst the reeds, try to spot bearded tits or a water vole.

■ Walton Heath trail

Stroll along 1.1 miles of grass track and enjoy quiet, secluded places to sit and watch for wildlife like grass snakes, dragonflies and roe deer. Listen out for loud bursts of Cetti's warblers too.

■ Loxton's Marsh trail

On this 0.8 mile trail, walk around one of the more secluded areas of reedbed and scrub. A chance to glimpse elusive wildlife like bitterns from the viewing screen. Listen for woodpeckers drumming on the trees and look out for fantastic fungi in autumn. Take care on this trail, as the grass tracks may be wet during the winter.

Key

	Water		Viewing platform
	Grassland		Viewing screen
	Woodland		Car park
	Reedbeds		Information
	Footpath		Disabled parking
			Seat

- Dogs are allowed on the Ham Wall loop but please keep them on a lead. Registered assistance dogs are allowed on all parts of the reserve.
