Notes:

- Names in bold indicate entries in the main text. Page numbers in bold indicate the page on which the entry appears.
- Given the absence of standardisation of names (cf. 'Spelling' in *Explanatory Notes*, pg 14) it is entirely possible that the same person may be mentioned more than once in the index, or two persons with the same name combined into a single entry. Extensive use of 'aka' ('also known as'), 'see' and query marks, as well as further specifications of date and language have been used to help out readers.
- Both the indexes that follow, of names and film titles, have been sorted on MS-Word protocols.
