Foreword

Dear Reader

One of Shepway District Council's priorities is to provide opportunities for elected members and local residents to work together to influence decisions and shape their local community. We know how important good information is in helping people to understand local issues, identify service need and find ways to improve local services and amenities. That is why I am proud to present the ward profile for the new electoral ward of Cheriton, which I hope you will find an interesting and informative read.

The purpose of the ward profile is to:

- Provide a shared resource for people wanting to find out about their local community;
- Support elected members with their community role as civic leaders and community champions;
- Provide elected members with useful information about their new ward;
- Assist elected members with identifying priorities that could potentially be included in their ward plan;
- Provide a resource that is made publically available for wider use by the public and voluntary / community groups (e.g. to support funding bids).

Our intention is for ward profiles to be used as widely as possible and to be made available to Councillors, council officers, Town and Parish Councils, voluntary and community groups, as well as the general public on the council website www.shepway.gov.uk

This ward profile contains a variety of information on demographics (e.g. population, deprivation); population outcomes; the level of service provision and local community facilities and amenities. This

information is grouped by themes in order to make it as easy as possible to find the information you want.

The information on community assets for this profile was gathered by working in collaboration with partners and by engaging with local community and voluntary groups. I would like to personally thank everyone who has contributed to this document. The statistical information was primarily drawn from the 2011 Census, unless otherwise stated. Other sources include:

- 2013 Midyear population estimates from the Office of National Statistics¹
- Acorn Customer Insight Profiler²
- Kent and Medway Public Health Observatory³
- Kent County Council Research and Intelligence Team⁴

Some of the data within this profiler was specially commissioned by Shepway District Council so it may not be publically available elsewhere in the displayed format. The data will evolve and expand as government agencies recalibrate their data publishing to the new ward boundaries within Shepway.

We will develop our ward profiles over time and we would really appreciate your feedback on this ward profile so we can make sure it is as up-to-date and relevant as possible. Please provide any feedback to policy@shepway.gov.uk.

Cheriton

*‘Urban area with village feel’*⁵

The new Cheriton Ward is made up of the two former wards of Cheriton and Morehall. The map on the opposite page⁶ shows the new Cheriton Ward boundary.

The name Cheriton derives from the Old English words ‘Cirice tun’ meaning church farmstead⁷. Although some may argue that its name was Cherry Town after the number of Cherry Orchards once present in Cheriton.

The location of Cheriton in the North Downs has been of strategic importance since ancient times. The Normans built Folkestone Castle on a spur of Cheriton Hill. The Church of St. Martin dates back to Saxon times.⁸

The historical area of Cheriton, which included the Shorncliffe area to the north of the Cheriton Road, was originally a civil parish in its own right, and part of Elham Rural District from 1894 to 1898, when it became a separate urban district. The area continued to grow with the large army barracks being nearby and it gradually became indistinguishable from Folkestone. The parish was abolished in 1934 under a County Review Order, and divided between Folkestone and Hythe.

Although historically Cheriton was a far larger area taking in parts of the area which is now referred to as Hythe, Sandgate and Folkestone West, the area is still popularly known as Cheriton today despite being part of the governance arrangements of Folkestone Town Council and Shepway District Council.⁹ Cheriton is a northern suburb of Folkestone in Kent. North Cheriton is home to the Eurotunnel Channel Tunnelⁱ terminal, which provides

regular services to continental Europe. The Channel Tunnel is one of the biggest engineering projects ever undertaken in the UK; the tunnel has been named one of the seven wonders of the modern world.¹⁰ Folkestone West (FWK) is one of the two railway stations in Folkestone in Kent, managed by Southeasternⁱⁱ. The Venice Simplon Orient Express service uses the new facility at Folkestone West station.¹¹

Cheriton is the location of the major army barracks of Shorncliffe Camp: the 2nd Battalion the Royal Gurkha Riflesⁱⁱⁱ occupy Shorncliffe Camp. Cheriton is home to one of the main local area landmarks, the Folkestone White Horse, which is carved into Cheriton Hill.

Cheriton High Street has many small local businesses, charity shops, takeaways, betting shop and local retailers. Cheriton has enviable transport links with the M20 motorway being accessible via Junction 12, facilitating connection to the national motorway network, the major airports and greater London.

Major contributors to the Cheriton community are Cheriton Baptist Church¹², The Community Network¹³, Age UK Folkestone¹⁴, Cheriton Library¹⁵ and Caterpillars Children Centre¹⁶.

Ethnicity

Cheriton varies significantly from Kent or Shepway for the proportion of people classified as 'other Asian' in the 2011 Census. This increased level is likely to be the Nepalese population that resides in within Cheriton due to their links with the Royal Gurkha Riflesⁱⁱⁱ who are stationed at the nearby Shorncliffe garrison. The Nepalese population in Cheriton is over 1,500.

Cheriton has lower levels of 'other white' than found across Kent and Shepway. This is likely to be people from Europe (see section 4.f).
