## COMPETITION FORMAT AND RULES FENCING

As of 23 JUN 2014

### Youth Olympic Competition Format

#### Individual Events

Each individual event consists of two phases: a pool round and a direct elimination phase.

Two days before the start of the individual competition there will be a public draw during the Team Managers' meeting for the order of the weapons during a team match. Genders and weapons will be alternated. For example, the draw starts with one of the three female weapons, the Women's Foil. From the male weapons, there will be a draw between the Men's Epée and Men's Sabre to alternate gender and weapon, etc.

Each of the individual events will start with a pool round. All fencers will be allocated into pools according to his/her ranking based on the 2014 Cadet World Championships final ranking and with a maximum of seven fencers in each pool. Fencers will compete against all others in their pool. A pool ranking will then be calculated based on standard FIE rules. This overall pool rank will be used to seed fencers into the direct elimination bracket.

The direct elimination phase in the individual events is divided into the following rounds: round of 16, quarterfinals, semifinals and finals (gold and bronze medal matches). Each individual bout continues until 15 hits or until the total bout time of three times three minutes has elapsed. Winners of the semifinals will compete for the gold medal, and losers for the bronze medal. The final ranking of the other fencers will be determined by their overall pool ranking. If more than 16 fencers are entered in an individual event, a round of 32 format will be used.

#### Team Event

In the team event, competition is a direct elimination divided into the following rounds: round of 16, quarterfinals, semifinals and finals. A team consists of three men, three women and all three weapons. In a team match each fencer weapon specialist will compete against the fencer weapon specialist from the other team of the same gender.

A match between two teams therefore consists of six bouts:

- The first bout will finish when the first fencer makes five hits, or after three minutes if neither of them has made five hits
- The second bout will finish when the first fencer reaches the team cumulative score of ten, or after six minutes
- The third bout will finish when the first fencer reaches the team cumulative score of 15, or after nine minutes; and so on

A team match is finished either after 30 hits or after the sixth bout. Winners of the semifinals will compete for the gold medal, and losers for the bronze medal. The final rank of the other teams will be determined by the classification matches that will be organised before the final matches.

### Differences between the FIE Cadet World Championships and the Youth Olympic Games

Team composition for the FIE Cadet World Championships is based on NOC level. On Youth Olympic Games team level is continent and teams are mixed gender mixed weapon.

### Changes since the Singapore 2010 Youth Olympic Games

None

### Sport Rules and Procedures

#### Individual Bouts

During the pool round phase each bout consists of one period of three minutes. The fencer who first scores five valid hits on the opponent or scores the most hits by the end of the bout is the winner. If the fencers are tied at the end of normal bout time, one minute extra time is played. The first fencer to score a hit on the opponent is the winner.

Prior to the start of extra time a draw will be held to determine the winner, if neither fencer scores during the extra time period.

During the direct elimination phase, each bout consists of three periods of three minutes each, with an interval of one minute between periods. The fencer who first scores 15 valid hits on the opponent or scores the most hits by the end of the bout is the winner. If the fencers are tied at the end of normal bout time, one minute extra time is played. The first fencer to score a hit on the opponent is the winner.

Prior to the start of extra time a draw will be held to determine the winner, if neither fencer scores during the extra time period.

#### **Team Matches**

A team consists of three men and three women. The winning team is the one that first scores a total of 30 hits on the fencers of the opposing team, or the one that has scored the greatest number of hits by the end of the match. If the teams are tied at the end of regulation time, there is one minute of extra time, and the team which scores the first hit wins the match.

Prior to the start of extra time a draw will be held to determine the winner, if neither team scores during the extra time period.

#### **Expected duration of competitions**

Each of the individual events will start with a pool round to establish the ranking for the direct elimination competition. The team event consists of a direct elimination competition only.

#### **Tie Break Rules**

In case of a tie after the bout/match time has run out, the so called "Golden Goal" rule appears. In that case, the referee adds sixty seconds. Before starting this last minute, the referee conducts a draw to determine the winner if no hit is made during the extra minute. The first hit within the sixty seconds determines the winner immediately, and ends the bout/match.

#### **Penalties/Disqualification Rules**

Depending on the offence, a fencer could be warned (yellow card), warned with a supplementary point for his opponent (red card), or excluded (black card) from a bout or the entire competition.

#### **Protests/Appeals**

Protests must be made immediately. For example, protests concerning the world ranking must be made before the head of the Delegations Leaders' meeting, protests about incorrect results must be made by the fencer. If there is a mistake afterwards, the Delegation Leader must protest before the start of the next round.

DT Decision

Item: 1

**Selection for Mixed Continental Team Competition**

**Summary:**

A "Protest for Clarification" has been made by the delegations from the following NOC's: USA, Mexico, Canada and Brazil. In the protest the following arguments are put forward:

**Details:**

"The grounds for this protest are:

- 1) There is no written rule to determine how to select team members in the event of a tie.
- 2) Although we understand a computer lottery was used to select di Pietro over Karol Metryka, there were no witnesses to this lottery.

In the absence of a written and approved FIE rule, in fairness, this mistake must be corrected."

The Directoire technique acknowledges the fact that the case, where there is a tie in the result list from the individual competition between two fencers belonging to the same continental zone, is not regulated in the Special Rules for the Youth Olympic Games. Furthermore, it shares the opinion of the delegations behind the present protest that this could have been communicated more clearly.

However, the Directoire technique sees no possibility to improve the situation by any action.

The Directoire technique have decided that, in the absence of a clear rule, this situation should be solved by random selection. This random selection is made automatically by the OVR, the On-Venue Results System, provided by Omega.

The Directoire technique can see no plausible reason to doubt the randomness of this method, since random selection is used in many cases in the competition and the integrity of this process cannot be put in question.

To make once more a random selection in public – when a random selection has already been made – is not desirable. The Directoire technique has therefore decided

**to** take no further action.
