

2012 POPULATION & HOUSING CENSUS PRELIMINARY REPORT

St. Vincent & The Grenadines
Population & Housing

CENSUS 2012

YOUR NUMBER MATTERS TO US

The logo for the 2012 Census features a stylized house shape with a green roof and a yellow interior. Inside the house, there is a silhouette of a family consisting of a man, a woman, and two children. The text 'St. Vincent & The Grenadines Population & Housing' is positioned above the house, and 'CENSUS 2012' is written in large blue letters across the middle. Below the house, the slogan 'YOUR NUMBER MATTERS TO US' is written in black capital letters.

THIS PRELIMINARY REPORT WAS PREPARED BY:

CENSUS DIVISION BOUNDARIES

There are 13 Census Divisions in St Vincent and the Grenadines:-

- Census Division 01** - The City of **Kingstown**.
- Census Division 02** - **Suburbs and Environs of Kingstown**, from Rillan Hill to the Kingstown town boundary.
- Census Division 03** - **Calliaqua**, from Bute's Corner to Mile House (near Colonel Anderson's House) to Mt. Pleasant Beach.
- Census Division 04** - **Marriaqua**, from Mile House (near Colonel Anderson House) to Mt. Pleasant to Escape Church and the whole of the Marriaqua Valley.
- Census Division 05** - **Bridgetown**, from Escape Church to North Union River.
- Census Division 06** - **Colonarie**, from North Union River to Byera River.
- Census Division 07** - **Georgetown**, from Byera River to Karo River next to Sandy Bay.
- Census Division 08** - **Sandy Bay**, from Karo River to Booby Rock at Fancy.
- Census Division 09** - **Layou**, from Rillan Hill to Mt. Wynne.
- Census Division 10** - **Barrouallie**, from Mt. Wynne to Coull's Hill Ridge.
- Census Division 11** - **Chateaubelair**, from Coull's Hill Ridge to Booby Rock at Fancy.

Map of St Vincent and the Grenadines by Census Division

DESCRIPTION OF CENSUS DIVISIONS

For census purposes, St. Vincent is divided into 11 divisions and the Grenadines into 2 divisions as follows:

DIVISION 1 Kingstown:

Comprising all lands and lots of lands and the buildings thereon and all roads and ways lying within a line commencing from the point from where the Sion Hill/ Arnos Vale Crown Lands' boundary meets the sea, along this boundary to the Windward Highway; thence northerly along the Windward Highway to a point on Ronald Llewellyn's boundary and long a straight line to the junction at Hunte/David Seales boundary with the Dorsetshire Hill road, following the Dorsetshire Hill road where it meets the Leonard Phillips/Thomas Mascoll boundary; thence in a straight line to Gibson Corner, along the Leeward highway in a northerly direction to its intersection with the St. George/St. Andrew Parish boundary and along this boundary to the sea.

DIVISION 2 Suburbs and Environs of Kingstown:

Comprising that area outside the Town Boundary from Cooper's Ridge north of the Clare Valley then to "Plantation" and up Rilland Gutter (which crosses the Leeward Highway up the deep bend culvert a few yards below the Rilland Hill Standpipe) to the head of the Rilland Gutter and to Agout Ridge, thence along the spur to Mt. St. Andrew, thence along the Fenton Ridge, Green Hill and Orange Grove to where Dorsetshire Hill meets the Leonard Phillips/Thomas Mascoll Boundary at Millar's Gate, thence along the Town Boundary to the sea at Ross Castle and along the sea coast to the starting point.

DIVISION 3 Calliaqua:

From Mt. St. Andrew northward along the Main Ridge, then along the Ponsonby Ridge to the "Kennedy Trail", along this trail passed the Eryr Ridge to its junction with the Vigie Highway, then along the Vigie Highway to its junction with the road to Akers, along the latter road to Crick's Corner, thence along the deep gully (Cologne) between Calder and Akers to the Argyle dam, thence along the gully north of New (Rescue) Village to the deep bend and culvert of the Windward Highway near the ninth mile pillar (Breadfruit Gutter) then down this gutter to the sea.

DIVISION 4

Marriaqua:

Comprising the whole of the natural basin from Ponsonby Ridge along the Main Ridge to Grand Bonhome, thence to Petit Bonhome and along the ridge to Maroon Hill, thence along the ridge forming the northern boundaries of Hopewell, Sayers and Argyle Estates to the Escape R. C. Church and sea.

DIVISION 5

Bridgetown:

From Petit Bonhome along a spur to the head of the Julie Gutter, then along the Julie Gutter to its junction with the Union River, thence along Union River to the sea.

DIVISION 6

Colonarie:

From Grand Bonhome along the Main Ridge Hill 3404, then along the eastern spur (and along Mt. William Estate northern boundary) to Byrea Ridge on the Windward highway and along the stream to the sea.

DIVISION 7

Georgetown:

Along the Morne Garu Range to a point nearest the head of the Karo River, thence along the Karo River to the sea.

DIVISION 8

Sandy Bay:

Along the Main Ridge through Hills 3421, 3150, 2405, 1474 and 185 of the 1889 Admiralty Chart to the Rocky Promontory opposite Booby Rock.

DIVISION 9

Layout:

From Bambaroo Point along ridge north of Ruthland Vale Estate, through Happy Hill to the Main Ridge, thence south along the latter to Mt. St. Andrew.

DIVISION 10

Barrouallie:

Along the northern boundary Cumberland Estate, thence along the spur north of Spring Village to Mount 3404, then south along the Morne Garu Range.

DIVISION 11

Chateaubelair:

Comprising the rest of the north-western portion of the island to the rocky promontory opposite Booby Rock.

DIVISION 12 Northern Grenadines:

Comprising Bequia, Battawia, Balliceaux, Mustique, Petit Mustique and Savan - that chain of island extending from Bequia to Savan Rock - north of Latitude 12° 47' 48" N.

DIVISION 13 Southern Grenadines:

Comprising Canouan, Mayreau, Union Island and Petit Canouan to Petit St. Vincent - between Latitude 12° 32' 00" N.

INTRODUCTION

A Population and Housing Census is the process of collecting, compiling, analysing and publishing Demographic, Socio-economic and other data pertaining to all persons and the national housing stock in a specific country. The National Population and Housing Census is the single most extensive statistical operation undertaken by the Statistical Office. Processing census data and producing a detailed census report is time consuming. However, data users need current information for decision making. Therefore, the Statistical Office has produced this report of the 2012 preliminary Population and Housing Census Information.

The data presented in this report was obtained from Visitation Records (VRs), one of the data collection tools used in the 2012 Population and Housing Census. It must be noted, that the 2012 information presented in this report are preliminary and will be revised when the data processing phase of the Census is completed. Data users are advised to use these preliminary findings only as provisional figures.

DEFINITIONS AND TERMS

1. Visitation Record

It is a log of the Enumeration summary which includes information about each building, dwelling unit and household visited in a specific enumeration district.

2. Total Population

St Vincent and the Grenadines 2012 Population and Housing Census counted the country's *de jure* and *de facto* population. This means that the census counted the total number of persons who were usual residents in the country during the enumeration period (*de jure* population), as well as all persons who were present in the country on census night (*de facto* population).

In this preliminary report, the total population refers to the *de jure* population, this includes:

- (a) Persons living in private dwellings (households),
- (b) Persons living in non-private dwellings, group dwellings and institutions,
- (c) Persons with no fixed place of abode (e.g. Homeless)
- (d) Persons at work (e.g. Vincentian workers on cruise ships), on vacation, at school or seeking medical treatment outside of St Vincent and the Grenadines for less than six (6) months.

3. Household/Non Institutional Population

The household population includes all persons who reside in private dwellings in St Vincent and the Grenadines. It is important to note that a member of the household is not necessarily a relative of the main family. A boarder or a domestic employee, for example, who sleeps most nights (4 nights or more) per week and shares at least one of the daily meals at the house where they work, is also included as a member of that household.

The concept of the household and family is not the same. It is possible to encounter more than one family constituting a single household once they live together for most nights of the week and share at least one meal.

4. Census Division (CD)

The largest geographic areas into which, St Vincent and the Grenadines is divided for the purpose of the census administration.

5. Enumeration District (ED)

This is the smallest geographical area into which each Census Division is subdivided to facilitate data collection. Each area should be just large enough for one (1) Enumerator to canvas within a reasonable time.

6. Household

One or more persons living together (i.e. sleeping most nights of a week; 4 to 7 days) and sharing at least one daily meal. Members of a household do not have to be related.

7. Institution

Living quarters in which the occupants live collectively for disciplinary, health, educational, religious or other purposes. The institutional population comprises persons who are not members of households. These include those in university dorms, religious institutions, prisons and so forth.

8. Sex Ratio

This is the ratio of males to females within the population.

THE PRELIMINARY DATA

POPULATION SIZE, GROWTH, DISTRIBUTION AND DENSITY

Population Size

The total population in 2012 stood at **109 991**. This includes an Institutional Population of **718** and a homeless population of **85** persons and is comprised of **53 353** females and **55 835** males. These data reflect a **0.89** percent increase in the household population since the 2001 Population and Housing Census. On average, the 2012 household population reflects an annual increase of **81** persons per year between 2001 and 2012 (Table 5).

Population Distribution and Change

The largest household populations are found in the most southerly part of mainland St Vincent. These are the Calliaqua, Kingstown and the Suburbs of Kingstown Census Divisions (see table 3). These three Census Divisions accounts for 46 percent of the country's total household population compared with 45 percent in 2001.

The preliminary count of the 2012 population reveal that population change was evident in all Census Divisions. Table 4 shows that six (6) of the thirteen (13) Census Divisions have shown positive growth since the 2001 Population and Housing Census. Between 2001 and 2012, household population increased in Calliaqua and the Suburbs of Kingstown Census Divisions by 7.0 and 5.8 percent respectively; whereas, there was a 6.0 percent decline in the household population of the Kingstown Census Division. This pattern of population change for these three Census Divisions is also reflected in the inter-censal period 1991 to 2001.

Since 2001, the proportion of persons residing in the Grenadines has increased. Overall, the Grenadines experienced the largest percentage increase (**16.7**), with the Southern Grenadines registering a **20.8** percent increase.

Population Density

The population density for St Vincent and the Grenadines in 2012 was 732 persons per square mile. The most densely populated area is the Kingstown Census Division where there are 6,794 persons per square mile. This represents a reduction of 499 persons per square mile from the 2001 Population and Housing Census which registered a density of 7,293 for this Census Division.

The Census Divisions of Calliaqua and Suburbs of Kingstown are also very densely populated. The data shows that the population density in these two Census Divisions increased between June 2001 and June 2012. The least densely populated area is the Chateaubelair Census Division.

HOUSEHOLDS

The number of non-institutional (private) households in St Vincent and the Grenadines at June 12th 2012 was **36,829**, an increase of **20.5** percent over 2001. Additionally, the average household size declined from 3.5 in 2001 to 3.0 persons per household in 2012 (Table 8).

There was a decline in the average household size for all Census Divisions over the last three censuses. The smallest households recorded were in the Northern Grenadines and the largest in the Sandy Bay Census Division.
