Background & New Developments	11
Annex—GDP by Industry main tables	

Economic activity, as measured by Gross Domestic Product (GDP) declined by 0.5% in the **June 2017 quarter**. This was the first negative year-on-year (y-o-y) growth rate recorded since June 2014. Aggregate GDP in real terms amounted to \$445.7 million, making it the lowest quarterly outturn to be achieved in the last eight consecutive quarters. The performance in the period reflects the slow down in economic activities for some of the biggest contributors to Samoa's economy compared to the corresponding quarter of 2016.

#### GDP Growth:

Gross Domestic Product for the **June 2017 Quarter** at constant 2009 prices amounted to \$445.7 million, decreasing by 0.5% compared to the June 2016 quarter. This follows a positive growth rate of 1.5% in the March 2017 quarter.

**Chart 1: Total GDP at constant prices & growth rates, June 2014—June 2017**

Chart 1 shows GDP at constant prices from June 2014 to June 2017 as well as the accompanied year-on-year (y-o-y) growth rates as measured by their percentage change on the same quarter of the previous year.

The decline in the overall level of economic activity in the period under review was a result of a mix of performances by the various sectors with Other manufacturing, Transport, Communication, Fishing, Construction and Business services being the major contributors to the negative performance in June 2017.

**Chart 2: Percentage-point contributions to GDP growth by industry; June 2017 Quarter**

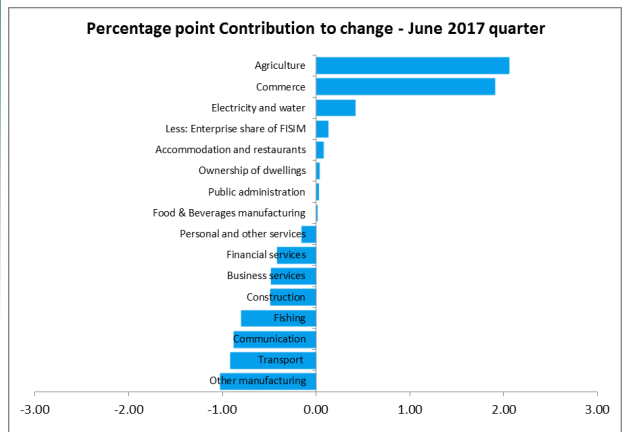

Chart 2 shows the percentage-point (pp) contribution of each industry to the overall growth in the period under review.

Industries that contracted in the period were Other manufacturing, Transport, Communication, Fishing, Construction, Business services, Financial services and Personal & other services with contributions of -1.0 pp, -0.9 pp, -0.9 pp, -0.8 pp, -0.5 pp, -0.5 pp, -0.4 pp and -0.2 pp respectively.

Other Manufacturing registered a total value added at constant prices of \$21.9 million, the lowest ever recorded by the industry since the series begun. It declined by 17.4% in comparison to June 2016. Transport fell 17.7% in the June 2017 quarter follow-

## Overview cont'd

ing a 0.5% increase in March 2017. The poor performance in the period under review was expected considering the slow down in economic activities in the other sectors which depend on the services provided by the Transport sector. Communication has now recorded four consecutive quarters of negative growth.

Fishing industry's value added in June 2017 fell 25.6% following another downturn performance in March 2017. This was consistent with the decline in export of fish by 54.4%. Construction dropped by 6.8%, making it the fifth consecutive quarter of negative growth for the industry. The recent performance by the industry was due to the gradual decrease in construction activities following the completion of major infrastructural developments been undertaken in the previous years.

Despite the decrease in the overall performance by the economy in June 2017, some of the industries that performed well in the period were Agriculture (2.1 pp), Commerce (1.9 pp), Electricity & Water (0.4 pp), Accommodation & Restaurants (0.1 pp) with Public administration and Food & Beverages manufacturing recording less than 0.1 pp.

The notable performance by the Agriculture sector reflects the ongoing commitment by government, business community and individuals to revive agriculture production and increase exports. The sector recorded a 32.1% increase compared to June 2016.

Commerce and Electricity & Water were the second and third biggest contributors with growth rates of 6.1% and 10.5% respectively. Accommodation and restaurant's value added also went up by 3.8% driven by a number of forums and regional conferences that were held locally, thus boosting value added in this particular industry.

### *GDP at Current Prices (Nominal):*

Gross Domestic Product for **June 2017 quarter** at current market prices or nominal prices stood at \$509.4 million. This was a slight increase of 0.2% compared to the same quarter of the previous year. Major contributors to this increase were Electricity & Water, Commerce, Fishing, Accommodation & restaurants, Agriculture and Public administration with respective increases of 18.6%, 7.8%, 7.4%, 6.9%, 5.2% and 3.9%.

GDP per capita in the June 2017 quarter amounted to \$2,595, decreasing by 0.5% when compared to the June 2016 quarter.

### *GDP Composition (in Current Prices):*

**Chart 3: Composition of GDP; June 2017 Quarter**

The industry composition of GDP at current market prices in the June 2017 quarter is shown in Chart 3. The largest sector was the Tertiary or the Services sector comprising a total share of 58.9% of aggregate GDP, decreasing by 0.1% compared to its share in June 2016. Secondary or goods-producing sector remained the second largest with a total share of 21.7%, declining by 0.7% compared to the same period of the previous year. The decrease in the sector was mainly driven by the poor performances by Construction, Other manufacturing and Food & Beverages manufacturing.

The Primary sector recorded a share of 11.1%, widening its share by 0.6% compared to the June 2016 quarter due to the increase in both Fishing and Agriculture's share.

The Public Administration sector produced a share of 8.3%, up by 3.6% over the same period of 2016.

# Overview cont'd

## Twelve Month Review, FY2016/17 (July 16 - June 17):

GDP for the year ended June 2017 (July 2016—June 2017) at current market prices was \$2,132.3 million, increasing by 3.7% over the \$2,055.3 million recorded in the year ended June 2016. In constant 2009 prices, GDP stood at \$1,886.3 million in the year ended June 2017, increasing by 2.4% over the \$1,841.4 million recorded in the year ended June 2016. This makes it the highest value added ever achieved by the economy in the last ten Financial Years (FY).

GDP per capita in FY16/17 amounted to \$10,901, increasing by 3.0% over the FY15/16.

**Chart 4: Percentage change over the previous year in constant 2009 prices, FY 2012/13—2016/17**

Chart 4 shows the economic growth rates in the last 5 financial years ending June. According to the chart, the economy has now recorded four consecutive years of positive growth. The outcome in the current FY was attributed to the good performances by industries such as Commerce, Agriculture, Personal & other services and Other manufacturing with positive contributions of 2.1, 1.2, 0.6 and 0.4 percentage points respectively.

The increase in wholesaling and retailing activities of food, beverages and tobacco, stationeries, hardware products and sale of motor vehicles contributed significantly to the overall performance of the Commerce industry. The result was consistent with the 5.0% increase in taxes on goods and services collected in the period which comprised of taxes on good and services (VAGST), excises, taxes on income as well as customs and other import duties. This was assisted with the 3.6% increase in remittances in the year.

The Agriculture sector recovered remarkably in the period recording a 17.6% increase following two consecutive years of negative growths. Other industries with positive contributions were Food & beverages manufacturing, Electricity & water, Financial services, Business services and Accommodation & restaurants.

On the other hand, industries that weighed down growth in the year were Construction, Communication, Fishing, Transport and Public administration.

**Chart 5: Composition of GDP (Current Prices), FY 2016/17**

The leading sector was the Services sector, recording a 58.5% share of the total GDP at current prices. It remained unchanged compared to the previous year. The sector consists of Commerce, Transport, Communication, Financial services, Business services and Personal & other services.

The Secondary sector's share dropped by 1.4%. The decline in Construction activities, Food & beverage manufacturing and Electricity & water contributed to the sector's performance.

The Primary sector share of aggregate current price GDP on the other hand increased by 0.4% with Agriculture being the biggest contributor to this increase. Agriculture recorded positive growth rates in the four consecutive FY13/14—FY16/17.

Public administration share to nominal GDP was 7.0%, down by 0.2% compared to its share in FY15/16.

# Individual Industry Quarterly Performance

AGRICULTURE	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from June 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	39,981	43,437	42,047	-3.2	5.2
Value added (constant 2009 prices) WST (thousands)	28,773	37,505	37,997	1.3	32.1
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	-0.3	1.5	2.1	<b>Chart 6: Percentage change in Agriculture real value added; Jun 2014 — Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	7.9	8.1	8.3		

Agriculture recorded a total value added of \$38 million at constant prices in June 2017. It grew 32.1% compared to June 2016 quarter, making it the second positive y-o-y growth for the sector. This follows ten consecutive quarters of negative growth. Agriculture's value added in the current period was the highest since December 2013. This performance was consistent with the increase in fresh produce supplied to the markets by farmers across the country. Taro supplied to the market in June 2017 was almost four times its volume supplied in June 2016. Banana and taamu were almost twice their volume in June 2016. Other produce including breadfruit, coconut, head cabbages, tomatoes and cucumber recorded increases of 24.8%, 26.8%, 44.5%, 30.0%, 46.2% and 631.9% respectively. In addition, export of taro was more than twice its volume exported in June 2016. It contributed 2.1 percentage points to overall growth, increasing its share to total GDP by 0.2% on a y-o-y basis.

FISHING	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from June 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	13,298	16,978	14,287	-15.8	7.4
Value added (constant 2009 prices) WST (thousands)	14,034	9,670	10,437	7.9	-25.6
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.0	-1.4	-0.8	<b>Chart 7: Percentage change in Fishing real value added; Jun 2014— Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	2.6	3.2	2.8		

Total value added for the Fishing industry was \$10.4 million at constant 2009 prices, dropping by 25.6% in comparison to June 2016. The industry contributed a -0.8 percentage points to the aggregate growth rate in the quarter under review, decreasing its share to total GDP by 0.2%. This was consistent with the significant 54.4% decrease recorded in the export of fish to overseas markets. However, the industry's outturn was 7.9% higher when compared to the previous quarter (March 2017).

# Individual Industry Quarterly Performance

FOOD & BEVERAGE MANUFACTURING	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from June 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	18,950	18,799	17,840	-5.1	-5.9
Value added (constant 2009 prices) WST (thousands)	14,779	15,903	14,841	-6.7	0.4
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.7	0.1	0.0	<b>Chart 8: Food &amp; Beverage Manufacturing quarterly value added at constant prices &amp; % change over the same period of the previous year; Jun 2014 — Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	3.7	3.5	3.5		

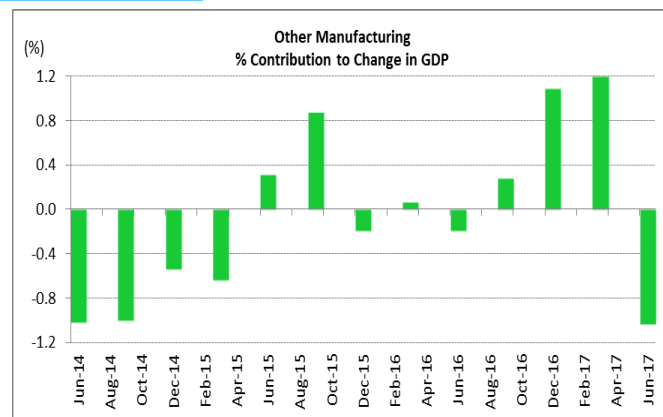

At constant 2009 prices, Food & beverage manufacturing accumulated total value-added of \$14.8 million, up by 0.4% over June 2016. The slight increase in the industry's value added in the period reflects the 61.1% increase in the export of beer compared to June 2016. However, when compared to March 2017, the industry's outturn was 6.7% lower.

As portrayed by Chart 7, the industry has now recorded its first negative growth following seven consecutive quarters of positive growth. It's share to total GDP went down by 0.2% on a y-o-y basis.

OTHER MANUFACTURING	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from June 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	29,999	32,232	25,301	-21.5	-15.7
Value added (constant 2009 prices) WST (thousands)	26,488	28,298	21,888	-22.7	-17.4
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	-0.2	1.2	-1.0	<b>Chart 9: Contribution to change in Other Manufacturing real value added; Jun 2014 — Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	5.9	6.0	5.0		

Other manufacturing generated a value added in constant prices of \$21.9 million, this was 17.4% lower than its output generated in June 2016. It further went down by 22.7% when compared to March 2017. The industry registered a negative 1.0 percentage points contribution to overall growth. As illustrated by the Chart, the performance in June 2017 makes it the first y-o-y quarter of negative performance for the industry. This was consistent with the decreased production of locally made products such as tobacco and construction materials.

# Individual Industry Quarterly Performance

CONSTRUCTION	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	46,219	45,911	45,136	-1.7	-2.3
Value added (constant 2009 prices) WST (thousands)	44,117	41,986	41,934	-0.1	-4.9
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	-0.3	-2.2	-0.5	<b>Chart 10: Construction quarterly value added at constant prices &amp; % change over the same period of the previous year; Jun 2014 – Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	9.1	8.6	8.9		

Construction declined by 4.9% in real terms when compared to the same period of the previous year. This was translated into a contribution of – 0.5 percentage points to the overall GDP growth. The industry has now recorded five consecutive quarters of negative performances.

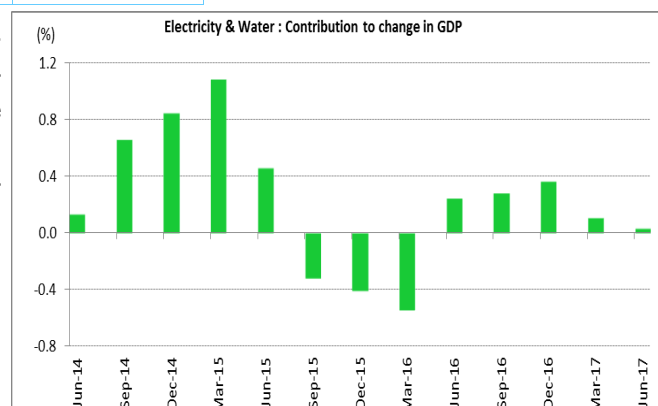

The decrease in construction output in the current quarter was consistent with a slow down in construction activities following major infrastructural and business developments taking place in the year 2015.

The industry share to total GDP decreased by 0.2%.

ELECTRICITY AND WATER	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	18,743	22,248	22,238	0.0	18.6
Value added (constant 2009 prices) WST (thousands)	17,809	19,326	19,686	1.9	10.5
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.3	0.0	0.4	<b>Chart 11: Contribution to change in GDP at constant 2009 prices, Jun 2014 – Jun 2017</b>	
Contribution to aggregate nominal GDP: <i>percent</i>	3.7	4.2	4.4		

Electricity & Water generated a total value added of \$19.7 million at constant prices in the June 2017 quarter. On a year on year basis, the industry's value added was up by 10.5%. The industry has now recorded five consecutive quarters of positive growths. On a quarter on quarter basis, it's value added went up by 1.9%. The positive performance by the industry reflects the 2.7% increase in the production of Electricity by 2.7% in the current quarter compared to its corresponding quarter in 2016.

# Individual Industry Quarterly Performance

COMMERCE	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	155,360	171,983	167,491	-2.6	7.8
Value added (constant 2009 prices) WST (thousands)	140,944	154,220	149,487	-3.1	6.1
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	3.6	2.3	1.9		
Contribution to aggregate nominal GDP: <i>percent</i>	30.6	32.3	32.9		

**Chart 12: Commerce quarterly real value added & % change over the same period of the previous year; Jun 2014 – Jun 2017**

In real terms, the Commerce industry was up by 6.1% with a recorded value added of \$149.5 million compared to its corresponding quarter in 2016. The industry contributed a positive 1.9 percentage points to the GDP growth. The performance by the industry correlates with the notable increase of 6.0% in taxes collected on goods and services. Taxes on goods and services made up more than 50% of total revenue for the country. This was expected considering the rise in wholesaling and retailing activities in the period under review. This was also assisted by the 4.5% increase in remittances.

The Industry remains the largest contributor to the total GDP with a share of 32.9%.

ACCOMMODATION AND RESTAURANTS	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	10,006	7,624	10,699	40.3	6.9
Value added (constant 2009 prices) WST (thousands)	9,114	6,767	9,462	39.8	3.8
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.5	-0.1	0.1		
Contribution to aggregate nominal	2.0	1.4	2.1		

**Chart 13: Accommodation & Restaurants, percentage change in real value added over the same period of the previous year; Jun 2014 – Jun 2017**

Accommodation & restaurant registered a real value added of \$9.5 million in the June 2017 quarter, up by 3.8% compared to the same quarter of the previous year. On a quarter on quarter basis, the industry further went up by 39.8%. The positive performance by the industry correlates with an increase in number of people employed in the industry by 6.9%.

The industry contributed a positive 0.1 percentage points to the overall GDP growth and comprised a total share of 2.1% of aggregated GDP.

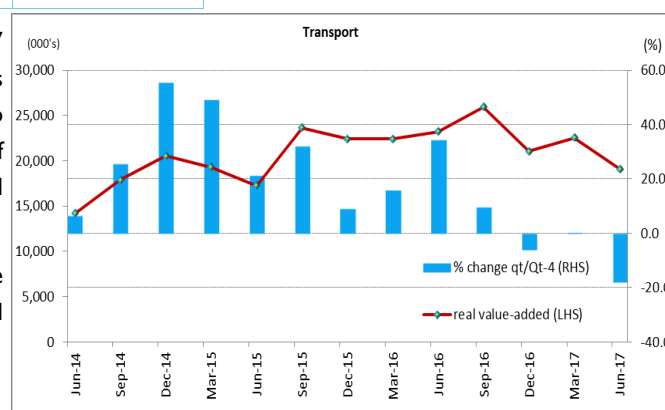

# Individual Industry Quarterly Performance

TRANSPORT	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	25,867	25,797	21,586	-16.3	-16.6
Value added (constant 2009 prices) WST (thousands)	23,210	22,544	19,101	-15.3	-17.7
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	1.4	0.0	-0.9		
Contribution to aggregate nominal GDP: <i>percent</i>	5.1	4.8	4.2		

**Chart 14: Transport quarterly growth rates with total value added at constant 2009 prices, Jun 2014 – Jun 2017**

The value added at constant prices of the Transport industry in June 2017 stood at \$19.1 million, dropping by 17.7% over June 2016 quarter. This was translated into a contribution of negative 0.9 percentage points to the overall GDP growth. This makes it the third consecutive quarter of negative growth for the industry. The sector's performance in the period under review was the lowest ever recorded since June 2015.

The poor performance by the industry was expected considering the slow down in economic activities in other sectors which mostly depend on the services provided by the Transport sector.

COMMUNICATION	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	25,823	21,989	20,338	-7.5	-21.2
Value added (constant 2009 prices) WST (thousands)	21,758	19,105	17,832	-6.7	-18.0
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.2	-0.4	-0.9		
Contribution to aggregate nominal GDP: <i>percent</i>	5.1	4.1	4.0		

**Chart 15: Communication percentage change in real GDP from the same quarter of the previous year, Jun 2014 – Jun 2017**

In nominal terms, Communication recorded a \$20.3 million in value added, down by 21.2% in comparison to the June 2016 quarter.

In real terms, the industry registered a total value added of \$17.8 million, declining by 18.0% on a year on year basis. The industry contributed a negative 0.9 percentage points to the overall growth of GDP. The industry has now recorded four consecutive quarters of negative growths.

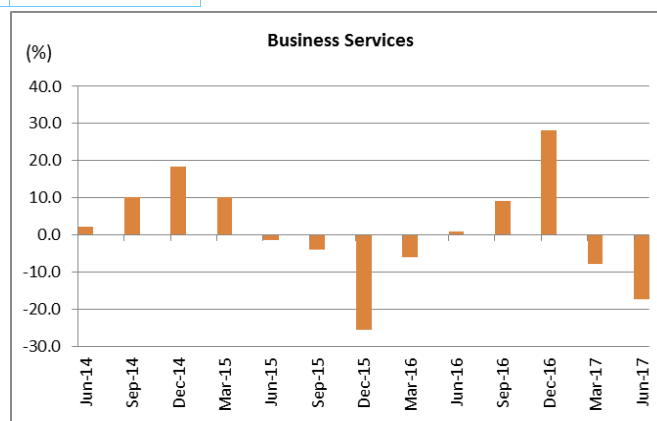

# Individual Industry Quarterly Performance

BUSINESS SERVICES	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)
Value Added (current prices) WST (thousands)	12,597	11,876	10,309	-13.2	-18.2

Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	0.0	-0.2	-0.5		
Contribution to aggregate nominal GDP: <i>percent</i>	2.5	2.2	2.0		

**Chart 16: Business Services, % change in value-added at constant 2009 prices from Jun 2014 – Jun 2017**

Business Services generated a total value added of \$10.4 million at constant 2009 prices in the period under review. It decreased by 17.2% compared to its outturn in the same quarter of the previous year. The industry was amongst the negative contributors of the overall growth of 0.5%. It further dropped by 12.7% in comparison to the March 2017 quarter.

The y-o-y performance was reflective of the decrease in the demand for professional services such as legal and accountancy firms, business management consultancy, real estates and other professional services.

PERSONAL & OTHER SERVICES	GDP Jun 2016 Quarter	GDP Mar 2017 Quarter	GDP Jun 2017 Quarter	% change from Mar 2017 quarter (q-o-q)	% change from Jun 2016 quarter (y-o-y)

Contribution to aggregate nominal GDP: <i>percent</i>	5.7	5.4	5.5		

**Chart 17: Personal & Other Services quarterly value added at constant prices & % change over the same period of the previous year; Jun 2014 – Jun 2017**

On a year-on-year basis, the industry's outturn declined by 2.7 percent compared to its value added in June 2016 quarter. As it stood, the industry's value added at constant 2009 prices was \$25.4 million. Personal & other services was amongst the negative contributors to overall GDP growth recording a contribution of negative 0.2% percentage points.

The industry registered a share to total GDP of 5.5%, dropping by 0.2% in comparison to its share in June 2016. This coincides with a 3.2 percent drop in employment for the industry as compared to the same quarter of the previous year.

**Chart 19: Financial Services value added at constant prices & % change over the same period of the previous year; Jun 2014 — Jun 2017**

Value added at constant 2009 for Finance services stood at \$15.0 million for the quarter under review, dropping by 11.1 percent from its outturn of \$16.8 million recorded in the June 2016 quarter. This current performance by the industry was the lowest ever recorded. The industry contributed a -0.4 percentage points to the overall growth in June 2017. This further declined by 13.9% in comparison to the previous quarter.

# NATIONAL ACCOUNTS REVISIONS & NEW DEVELOPMENTS

## INTRODUCTION

The compilation of national accounts statistics is a dynamic process, and therefore needs to adapt to reflect a variety of measures and indicators consistent with developments and structural changes in the economy over a period of time. It is therefore expected that revisions and updates are made to the historical series on a quarterly or annual basis as new data sources are brought into the model and as various benchmarks and assumptions are validated and updated.

This quarterly report is the fourteenth release of the new quarterly series of GDP estimates at constant 2009 prices. This report is an ongoing publication and can also be downloaded from our website [www.sbs.gov.ws](http://www.sbs.gov.ws).

## REVISIONS

Minor revision in the Accommodation & restaurant industry for the March 2015 quarter due to the availability of the actual visitors arrival in the period.

## ABOUT GROSS DOMESTIC PRODUCT

Gross domestic product (GDP) is Samoa's official measure of economic growth. GDP is compiled and published using the **production approach**, this approach measures the total value of goods and services produced in Samoa, after deducting the cost of goods and services used in the production process. This is also known as the value-added approach.

**Broad industry groups:** The GDP tables attached to this report follows the broad groupings based on the International Standard Industry Classification (ISIC), Revision 3.1. Classification of economic activity is important in the determination of the extent and nature of the information collected and the quality of the data compiled.

- primary industries (agriculture and fishing)
- secondary or goods-producing industries (manufacturing, construction, electricity & water);
- tertiary or service industries (wholesale trade; retail trade and accommodation; transport, postal, and warehousing; information media and telecommunications; finance and insurance

services; rental, hiring, and real estate services; professional, scientific, technical, administrative, and support services; public administration and safety; education and training; health care and social assistance; arts, recreation, and other services).

## NEW DEVELOPMENT

### Rebasing

The 2013 rebasing of the whole national accounts estimates is currently in process, so further revisions are to be expected once the Rebasing is completed. This will incorporate the latest available information from the year 2013 such as the Household Income and Expenditure Survey, the Business Activity Survey and other benchmark information. Initial work has already been conducted to ensure a smooth transition in the Rebasing Period.
