## SAMOA BUREAU OF STATISTICS

## MERCHANDISE TRADE

June 2015 quarter

## Highlights of the quarter

- Exports value rose 18.3 percent to $\$ 28.4$ million from the March 2015 quarter.
- Imports value fell 0.1 percent to $\$ 202.6$ million from the March 2015 quarter
- There was a trade deficit of $\$ 174.2$ million

## Overview

## Value of Exports

The total value of exports in the June 2015 quarter increased 18.3 percent ( $\$ 4.4$ million) to $\$ 28.4$ million from the March 2015 quarter. The increase was mainly driven by higher values of fish exports (up $\$ 4.9$ million). In comparison with the June 2014 quarter, the current value of exports increased 7.8 percent.

At $\$ 28.4$ million, domestic exports were valued at $\$ 19.6$ million and re-exports were valued at $\$ 8.8$ million. (See table 1 and graph 1)

Source: Samoa Bureau of Statistics
The four quarters ending June 2015 showed a decrease of 11.1 percent in the total value of
exports compared to the four quarters ending June 2014.

## Top export commodities ${ }^{\mathbf{1}}$

Petroleum oils ${ }^{2}$ other than crude oil exports became the top commodities exported in the reference quarter, contributing 27.8 percent of total exports ( $\$ 7.9$ million). This value was 2.5 percent higher than the March 2015 quarter but 26.6 percent lower than the June 2014 quarter.

Ignition wiring sets and other wiring sets for vehicles exports followed with its value decreasing to $\$ 7.7$ million from the March 2015 quarter, contributing 27.0 percent of total exports. In comparison with June 2014 quarter, the current value decreased 17.2 percent.

Fish exports was third with a total of $\$ 6.5$ million (23.1 percent of total exports) which four times higher than the March 2015 quarter and eight times higher than the June 2014 quarter. The current rise was mainly due to higher values of fish exported to Japan.

Beer and fruit juices exports were accounted for 3.6 percent each. The current value of beer exports was 19.9 percent lower than previous quarter but 85.5 percent higher than the June 2014 quarter. The current value of fruit juices was 86.3 percent higher than the previous quarter and 7.4 percent higher than the corresponding quarter of 2014.

Taro exports accounted for 3.5 percent, decreasing 15.3 percent from the March 2015 quarter but five times higher than its value in the June 2014 quarter.

[^0]Coconut oil exports accounted for 3.4 percent, decreasing 12.3 percent from the March 2015 quarter but 65.3 percent higher than the June 2014 quarter.

Tobacco, fresh drinking coconuts, coconuts and crisp savoury food products exports accounted for 0.6 percent, 0.3 percent, 0.3 percent and 0.1 percent respectively. Relatively lower share recorded for mineral water while other commodities accounted for 6.6 percent share. (See table 2 and graph 2)

Source: Samoa Bureau of Statistics

## Country of Destination for Exports

Australia maintained the largest export market in the June 2015 quarter, despite the 8.0 percent decrease in its value from the March 2015 quarter, contributing 43.7 percent of all exports. The decrease was mainly due to lower values of ignition wiring sets and other wiring sets for vehicles exported during the reference quarter. In comparison with the June 2014 quarter, the current value of exports to Australia decreased 15.8 percent.

Exports to American Samoa increased by $\$ 3$ million to $\$ 5.3$ million from the March 2015 quarter, accounting for 18.8 percent of total exports. Mainly responsible for the increase was higher values of fish exports (up $\$ 3.8$ million). In comparison with the June 2014 quarter, the current value of exports to American Samoa was four times higher (up $\$ 4.2$ million).

Exports to New Zealand accounted for 16.3 percent of total exports, increasing 6.8 percent from the March 2015 quarter, but decreased 27.6 percent when compared with the June 2014 quarter.

Exports to Japan accounted for 4.6 percent (\$1.3 million) of total exports, with fish the main driver of higher value of exports to Japan during the reference quarter.

Exports to Tokelau and USA were also increased accounted for 4.1 percent and 3.1 percent respectively while exports to Fiji and Singapore decreased, accounting for 2.5 percent and 1.1 percent of total exports respectively. Other countries of destination for exports accounted for 5.8 percent share of total exports. (See table 4 and graph 3)

Source: Samoa Bureau of Statistics

## Value of Imports

The total value of imports in the June 2015 quarter showed a slight decrease of 0.1 percent from the March 2015 quarter. In comparison with the June 2014 quarter, the current value of imports decreased 7.2 percent. (See table 1 and graph 4)

Source: Samoa Bureau of Statistics

The four quarters ending June 2015 showed a decrease of 0.5 percent in the total value of imports compared to the four quarters ending June 2014.

## Composition of Imports

Mineral products maintained the largest share of all commodity groups imported in the June 2015 quarter, contributing 19.3 percent of total imports ( $\$ 25.5$ million). This value was 53.3 percent higher than the March 2015 quarter but 32.6 percent lower than the June 2014 quarter.

Imports of live animals and animal products rose 37.2 percent from the March 2015 quarter, accounting for 12.2 percent of total imports ( $\$ 24.8$ million). In comparison with the June 2014 quarter, the current value of live animals and animal products increased 15.7 percent

Prepared foodstuffs, beverages, spirits \& tobacco imports accounted for 11.5 percent of total imports ( $\$ 23.3$ million), increasing 8.8 percent from the March 2015 quarter and 21.7 percent from the June 2014 quarter.

Imports of machinery \& mechanical \& electrical appliances \& parts thereof accounted for 10.3 percent of total imports ( $\$ 20.8$ million), decreasing 10.7 percent from the March 2015 quarter and 17.7 percent from the June 2014 quarter.

Plastic, rubber \& articles thereof imports rose 6.4 percent from the March 2015, representing 6.7 percent of total imports ( $\$ 13.5$ million). In comparison with the June 2014 quarter, the current value of plastic, rubber \& articles thereof imports increased 25.2 percent.

Imports of wood, cork \& articles thereof \& plaiting material accounted for 6.5 percent of total imports ( $\$ 13.3$ million), increasing by $\$ 7.4$ million from the March 2015 quarter.

Imports of base metals \& articles thereof and chemicals \& allied products both decreased from the March 2015 quarter, representing 6.4 percent ( $\$ 12.9$ million) and 6.3 percent ( $\$ 12.7$ million) of total imports respectively while imports of vegetable products increased 35.2 percent from the March 2015 quarter, accounting for 5.6 percent of total imports. The remaining HS Sections accounted for less than 5 percent each with a combined total of 15.2 percent. (See table 5 and graph 5)

Source: Samoa Bureau of Statistics

## Imports by Broad Economic Categories

For the three main broad economic categories, consumption goods increased in value in the June 2015 quarter, capital and intermediate goods decreased.

Imports of capital goods fell 41.5 percent from the March 2015 quarter, reflecting lower values of transport equipments (down $\$ 10.1$ million). In comparison with the June 2014 quarter, the current value of capital goods decreased 36.9 percent.

Imports of intermediate goods fell 12.2 percent from March 2015 quarter, mainly driven by lower values of processed industrial supplies. In comparison with the June 2014 quarter, the current value of intermediate goods increased 11.4 percent.

Imports of consumption goods rose 14.6 percent from the March 2015 quarter, reflecting higher values of processed food and beverages for household consumption commodities. In comparison with June 2014 quarter, the current value of consumption goods increased 14.1 percent.

In other categories of goods, passenger motor cars imports rose 5.3 percent while petrol \& avgas imports increased 74.1 percent from the March 2015 quarter. (See table 6 and graph 6)

Source: Samoa Bureau of Statistics

## Major Source Markets of Imports

By major source markets of imports, New Zealand continued to be the leading source market of imports in the June 2015 quarter with its value decreasing to $\$ 57.3$ million (28.3 percent of all imports) from $\$ 62.6$ million in the March 2015 quarter. When compared to the June 2014 quarter, the current value increased 5.8 percent.

Imports from Singapore had a total value of \$35.2 million (17.4 percent of total imports), increasing 43.1 percent from the March 2015 quarter but decreasing 35.6 percent from the June 2014 quarter.

Imports from USA contributed 12.1 percent of total imports ( $\$ 24.4$ million). This value was 57.3 percent and 7.1 percent higher than the March 2015 quarter and the June 2014 quarter respectively.

Imports from Australia accounted for 11.9 percent of total imports ( $\$ 24.0$ million), increasing 15.6 percent from the March 2015 quarter and 44.2 percent from the June 2014 quarter.

Imports from China decreased 25.4 percent from the March 2015 quarter, representing 11.8 percent of total imports ( $\$ 23.9$ million). In comparison with the June 2014 quarter, the current value of imports to China decreased 30.0 percent.

Imports to Fiji accounted for 6.8 percent of total imports ( $\$ 13.7$ million). This value was 26.0 percent higher than the March 2015 quarter and 19.2 percent higher than the June 2014 quarter.

All other countries of imports accounted for less than 5.0 percent each with a combined total of 11.9 percent. (See table 7 graph 7).

Source: Samoa Bureau of Statistics

## Merchandise Trade Balance

In the June 2015 quarter, the value of imports ( $\$ 202.6$ million) exceeded that of exports (\$28.4 million), resulting in a trade deficit of $\$ 174.2$ million. (See table 1 and graph 8)

Source: Samoa Bureau of Statistics

The attached tables provide the user with more detailed information.

The September 2015 quarter Merchandise trade report is expected to be available on December $25^{\text {th }} 2015$.

[^1]
## Technical Notes

The main source of imports and exports data comes from the administrative document, a completed customs form (Single Administrative data) required to be filled in by importers and exporters or customs agents when clearing merchandise inward and outward through the Ministry for Revenue (Custom Department)

## Definitions

Capital goods: are produced assets that are used repeatedly or continuously, for longer than one year, in industrial production processes. Examples are machinery, trucks, and aircraft.
cif: is the cost of goods, including insurance and freight to Samoa.

Consumption goods: are goods used (without further transformation in industrial production processes) by households, government, or non-profit institutions serving households.

Exports (including re-exports): are goods of domestic origin exported from Samoa to another country. Exports in this release are valued fob and are shown in Samoan tala.
fob: is free on board (the value of goods at Samoa ports before export).

Imports: are goods imported into Samoa. Imports in this release are valued at cif and are shown in Samoan tala.

Intermediate goods: are goods used up, or transformed in, industrial production processes.

Merchandise trade: covers exports or imports of goods that alter the nation's stock of material resources.

Provisional: statistics for the latest three months are provisional, to allow late data and amendments to be included.

Re-exports: are exports of foreign goods which were previously recorded as Samoa's imports.

Trade balance: is calculated by deducting imports (cif) from exports (fob). These two valuations are not entirely comparable, because the cif valuation includes insurance and freight to Samoa, while the fob valuation excludes insurance and freight from Samoa.

Trade deficit: occurs when the value of imports is more than the value of exports.

Trade surplus: occurs when the value of exports is more than the value of imports.
