Programs granted this status are reviewed by the CoA on an annual basis. Dates listed are for the program's next site visit and are omitted if the program has a scheduled closure date preceding the next scheduled visit.

³ Whenever it is deemed appropriate, the CoA may defer making a decision about a program in order to obtain more information due to a lack of information or specific concerns about the information provided. The CoA will notify the program in writing and specify what additional information is needed and/or what concerns need to be addressed in order to determine the program's consistency with the SoA.
