TRUCKLOADS OF FEATURES

COMFORT

Isuzu Giga Trucks are renowned for taking the basic requirements of a durable workhorse and making it more than just the sum of its parts. Here are some of the standard and optional features you can expect to enjoy in an Isuzu Giga Series truck:

- ISRI 6860 air suspension driver's seat with auto weight adjustment and integral pretensioner seat belt.
- Giga Series trucks come standard* with Isuzu DIR6200 Media Centre† including a 6.2" Multi Colour Touchscreen, MP3 connection, Bluetooth Hands Free, Media Ripping with 512MB capacity to store all your music and optional 4 x Reverse Camera, Rear Park Sensors, Tyre Pressure Monitoring System, GPS Sat Nav and Steering Wheel mounted Remote Control unit.
- Integrated Auto AC and electric windows.
- Hot/Cold storage box.
- Lined cab interior with padded roof lining and vinyl floor covering to reduce in cab noise for a comfortable days work.
- Centre console box with storage tray, door mounted storage pockets as well as left hand glove box.
- 2 overhead lockers and CB compatible compartment and 24v power outlet.
- Steel suspension as well as options of Air Suspension on many models.
- Air suspension is lightweight and durable Isuzu 4 bag per axle with remote hand control to raise and lower suspension for loading and coupling. Auto return to factory height over 20km/ph.
- Interior 'document' light.
- Height and reach adjustable steering column with soft feel steering wheel.
- Giga Series Cabs are exceptionally quiet from the inside with only 70db(A) @80km/ph.

2

* Except CYZ400. † Subject to availability DIR4800 may be supplied in lieu.

At the end of the day the Isuzu Giga Series is a durable, cost effective and robust workhorse. Isuzu Giga Series are designed to offer you the comforts of a car and an exceptional driving experience that won't leave you rubbing your lower back when you step out of the cab after a long day on the road.

"Choose Isuzu trucks because they have 13 years as NZ's No1 truck supplier. Their trucks have industry leading safety features, amazing reliability, superior comfort and great resale value. Isuzu's really are a Truck you Can Rely On!"

SAFETY

When it comes to protecting the most valuable load of all including you, your people and those who share the road, you'll find that Isuzu Giga Series Trucks lead the way with both active and passive safety systems. Here are some of the safety features you will receive with your Isuzu Giga Series:

- Isuzu Giga cabs are all steel, monocoque construction with welded strengthening ribs and side door impact beams.
- Driver SRS Airbag.
- 3 point ELR seatbelts in all outboard seating, drivers fitted with pretensioner.
- Brakes are dual circuit/full air/taper roller and auto adjusting with ABS to meet NZ Brake Regulations.
- Auxiliary retardation on all models delivered by Isuzu X Tard (Air controlled butterfly type exhaust) and on selected models a secondary Isuzu Giga Tard is available (Heavy duty permanent magnet driveshaft retarder).
- Side Intrusion Bars to reduce passenger injury in a side impact accident.
- Door mounted heated rearview mirrors.
- DIR6200 Media Centre including as standard Bluetooth Hands Free and optional 4 x Reverse Camera, Rear Park Sensors and Tyre Pressure Monitoring System to increase the safety of operating the vehicle.

EASE OF OPERATION

When designing the current Giga Series Range Isuzu considered the needs and wants of the owner and driver to make a Heavy truck that was as pleasant to operate as a car including standard/optional features:

- All Giga models with steel suspension are equipped with an 18 speed Road Ranger manual gearbox and all Air Suspension models include the 16 speed AMT (Automated Manual) except CXY455 Manual/HAS Air.
- AMT includes optional clutch pedal operation for low speed yard manoeuvring, hitching and docking.
- Cruise Control.
- Multi Display System which includes information relating to fuel consumption, trip meter, instant and total fuel consumption, battery voltage, engine overheat, coolant level oil pressure and more.
- Large door mounted heated and electric mirrors for excellent vision.
- Keyless entry with engine immobilizer.
- Height/reach adjustable steering column with soft feel steering wheel.

GOING THE DISTANCE FOR YOU

PERFORMANCE AND VERSATILITY

- Engines – Isuzu Giga Series Trucks are all offered with the remarkably durable Isuzu 6WG1 engines which deliver between 400 - 530hp.
- By using combinations of Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC) and Diesel Particulate Diffuser (DPD) Isuzu Giga Series trucks are a minimum Euro V and Japan 05 Exhaust Emission Compliant.
- Isuzu Giga Series front axles are Isuzu's durable FO series reverse Elliot I Beams, and rear axles are Isuzu RT series.
- Isuzu Giga Series Chassis are designed to be durable and easy to fit any body type to.
- Wheelbase Options on Isuzu Giga Series from 4300mm – 5980 to allow you to choose the most appropriate body to suit your application.
- Isuzu Giga cabs come in std and high roof configuration.
- Isuzu Giga Series trucks offer you Gross Vehicle Mass (GVM) options from 24,000kg all the way up to 29,000kg and Gross Combination Mass (GCM) up to 55,000kg.

Isuzu Giga Series Trucks are one of the most durable and versatile heavy truck on the NZ market today and offer you many options so that the vehicle you choose will last the distance and suit your requirements. Why not buy a truck that works for you, not the other way round.

WARRANTY AND AFTERSALES

Isuzu Giga Series trucks are designed to be the most durable and dependable heavy trucks in NZ. As with everything mechanical Isuzu Trucks will at some time require servicing, repairs and parts. Isuzu in association with Holden NZ offers superior parts facility to ensure your Isuzu stays on the road as much as possible. Isuzu New Zealand also offer an excellent Warranty on all Giga Series to give you piece of mind and reduce your exposure to unexpected costs, should you have an unexpected failure during the Warranty period.

- Isuzu Giga Series trucks receive a 24 month or 250,000km Vehicle Warranty, 36 month or 250,000km Powertrain as well as 36 month corrosion cover.
- Isuzu NZ has a Service Training Centre in Auckland which is used year round to continually improve the knowledge and skill base of Isuzu truck mechanics and delivers approximately 600 days of training a year on Isuzu engines, transmissions, electrical systems and more.
- Isuzu Parts are distributed across NZ by CEVA Logistics. There are over 10,000 lines with 22,000 part numbers worth approx \$3.5m at Isuzu's Parts Warehouse. These parts can be delivered to all 11 of our master Truck Dealers as standard delivery, or if VOR (Vehicle Off the Road) Isuzu Parts can express ship them and have them anywhere in NZ early the next day.
- Each year Isuzu NZ finds the 3 top mechanics in the Dealer Network and put them through their paces in a week long training program before they go to Japan to compete in a global competition to find the best team of Isuzu mechanics in the world. In November 2012 Isuzu New Zealand beat 26 other countries to win the competition and be crowned the best International Isuzu Technician Team in the world!
