

Matsue City Cancer Screening

Matsue City covers the roughly 80% of the costs of cancer screening within the city.

Cancer Screening

Period: June~March

Regular screening is necessary for early detection and treatment of cancer.

Applicable candidates will be sent a "Cancer / Periodontitis screening ticket (postcard)" at the end of may. It can be used for cancer screening within the current fiscal year so please check it soon.

Screened cancers: gastric, bowel, lung, uterine, breast and prostate
Details on the other side of this pamphlet

★Shimane International Centre offers free interpretation services.

Please use them for making reservations/receiving screening. (English, Chinese, Tagalog, Portuguese)

You need to apply via the request form <https://www.sic-info.org/en/support/community-interpreter/> at least 4 days before interpretation is required. (If you could not give 4 days notice please call instead). If you send a request, you will get an automatic email from tsuuyaku@sic-info.org. Please check to confirm the information is correct.

Shimane International Centre will coordinate community volunteer interpreters based on dispatch requests. Volunteers will make their own way to the location they are needed.

**This postcard is
necessary to receive**
