The South Bend Market Has Been Redefined by WSBT-TV

Two years ago WSBT-TV erected a 1047' tower and almost doubled its power. The above map shows the increase in range. What it does not show is the work that has gone into station

promotion in the new coverage area. By home town radio and newspaper and by direct mail the word has been spread . . . WSBT-TV has everything to offer. And the promotion program is paying off. Our mail pull from towns 50 to 75 miles from South Bend continues to grow daily . . . we know WSBT-TV programming is making inroads into the Chicago, Ft. Wayne and Kalamazoo markets. Care to join us?

This is a new South Bend market as created by WSBT-TV. For complete details contact WSBT-TV, South Bend.

The gathering and presentation of news; the personality and believability of individual newscasters; and the accuracy and speed of getting the news to the public is the most significant area in which a local TV station can capture and hold the loyalty of the community it serves. The Quad-Cities' viewer acceptance of all of WOC-TV's programming is more than adequate testimony that "news is the magnet that pulls!"

A recent qualitative survey conducted by (but not identified with) WOC was made to find the strengths and weaknesses that exist in WOC-TV's news segments. The compilation of answers showed WOC as the news leader in 28 of 31 categories in this 3-station community.

We invite you to share the benefits of WOC's leadership in this 1½ billion dollar retail sales market.

NEW MOON

over Kansas

The new, moon-shaped area on the map is plus-coverage from WIBW's new tall tower 1614 feet above downtown Topeka—an effective gain of 522 feet. We've moved west 18 miles into the Kansas Flint Hills to create a new moon of coverage, that provides you with *50,000 more TV homes* at no extra cost. The new Topeka market reports will reflect this increased coverage.

The new tower and transmitter, with full power, (316,000 watts), is now in operation! Ask Avery-Knodel to show you the WIBW-TV bonus coverage today!

Tower Height Increase for Baltimore's Channel 2 Adds 13.5% More Population and 25% More Square Miles of Land—in "B" Contour Alone!

NOW . . . Channel 2 delivers more than ever before—5,110,000 total population* and 14,200 square miles of land area within the "B" contour. In addition, WMAR-TV has increased signal strength throughout the Channel 2 coverage area . . . telecasting with maximum facilities authorized under FCC standards. Baltimore's new candelabra tower, tallest structure in Maryland, means increased coverage—improved reception . . . Plus outstanding local and CBS programs!

HOW TO SQUEEZE THE MOST OUT OF A DETROIT MINUTE

In Detroit, the WWJ Stations enjoy an acknowledged **acceptance**. For many reasons: Special emphasis on local affairs and news. A knowledgeable approach to total programming. A sincere devotion to community service. An affiliation with NBC dating back 38 years. And home ownership by The Detroit News.

Because of this **acceptance**, the WWJ Stations provide advertisers with a more receptive atmosphere for their sales messages. Consistent results through the years have proved that the way to squeeze the most out of a Detroit minute is to spend it on the WWJ Stations. Whether you sell oranges or oil.

WWJ and **WWJ-TV**

The spot for spot

If community service is a criterion *in your weighing of a station's influence on people, WSOC-TV will score highly. Outstanding among recent staff-produced documentaries was "Pick Up the Pieces". This program on rehabilitation of emotionally disturbed children at Alexander Children's Center in Charlotte earned high acclaim for WSOC-TV throughout the Carolinas.*

FOR A NEWS-HUNGRY PUBLIC

...THE LARGEST STAFF AND BEST FACILITIES IN OUR PART OF AMERICA

These are the men—and the machines—that collect, photograph, and broadcast WHIO news via AM, FM and TV. There is no comparable service in our part of the nation. The natural consequence: around the clock more news-hungry people listen to WHIO-AM and FM—watch WHIO-TV. Ask George P. Hollingbery to prove it.

Blue chips? The 306-plus blue circles on the 26-county WIS-Television coverage area map are just that. They represent the industries employing 50 or more people in these 26 counties.

The many new blue-chip industries locating here impress the observer—half a million dollars' worth a day coming into the surprising new South Carolina. To be honest, it impresses us, too.

This is why Columbia is the fastest-growing metropolitan area in both Carolinas. This is why this booming area is a must for any cannily-constructed spot schedule. Only WIS-Television reaches it effectively, without the need for peripheral buys.

WCYB-TV **SALES DEVELOPMENT** **SERVICE**

*provides strong support
for brand name products advertised
on WCYB-TV. The following
free services are available
to qualified brands.*

1

Personal calls are made on wholesale jobbers, chain buyers, and key independent retailers. (a) They are told of product's advertising schedule. (b) They are requested to give special consideration to product because of its TV advertising. (c) Tie-in promotion is suggested. (d) Additional shelf space is requested. (e) Special displays are requested.

2

A bulletin is mailed weekly to wholesale jobbers, chain buyers and store managers. Advance information is given including advertising schedules, start and stop dates, number and length of spots, if day and/or night and nature of advertising.

3

Special "in store" point-of-purchase display in key national and local chain retail stores (where requested.) This service is available for one week during each thirteen weeks of continuous advertising where the product is supported by a sound marketing plan and comparable expenditure in station time. Display on any product contingent upon retail store confirmation.

4

"In store" surveys available. Upon request, "in store" product surveys are made. Surveys include number of shelf facings, shelf inventory, pricing and sales ranking for the survey product and competitive brands.

5

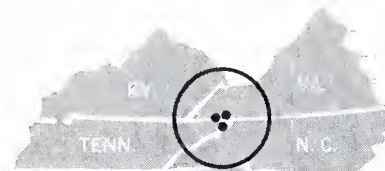

Distribution checks available. Information concerning a product's distribution in the Tri-Cities market can be supplied quickly. Usually the information is available within 72 hours.

6

We work with the manufacturer's representative in detailing the trade.

7

General . . . A constant effort is made to improve the market position of WCYB-TV advertised products. We rework retail departments for better position and increased shelf facings. For the same reason, we help in setting up stock in new and remodeled stores.

Tri-Cities (Bristol, Tenn.-Va.; Johnson City, Tenn.; Kingsport, Tenn.) and surrounding counties within the five-state area of Tennessee, Virginia, North Carolina, Kentucky, and West Virginia. Average Daily Circulation: 99,000 homes.

According to the latest count, there were 89,101 producing oil-wells in the KMID-TV coverage area.

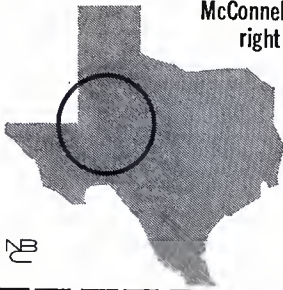

So what's one more among all those others?

As of now, they're producing a billion dollars worth of crude oil per year, and more keeps coming.

With maximum power, a low-frequency channel, and 1137 feet of antenna structure on a 2,912-foot elevation base, KMID-TV's Tall Tower casts a long shadow indeed.

This is high consumer spendable income country. And 91% of all homes have at least one television set.

"Your new plant will succeed in Virginia"
Herman H. Pevler, President

NORFOLK AND WESTERN RAILWAY
ROANOKE, VIRGINIA

"Over the past decade, our Industrial Development Department has assisted scores of national companies in the location of new plant sites within the western Virginia area. These new locations have succeeded because all the ingredients for industrial growth are present — a good, intelligent labor supply; growing consumer markets; a reasonable tax situation; and exceptional community cooperation. These are some of the factors that have contributed to the growth of our railroad — and they will help your company to grow."

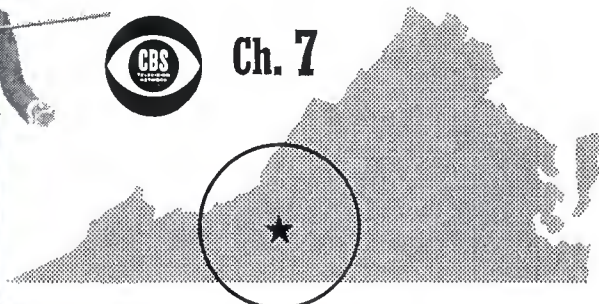

The N&W, America's most prosperous and efficient railroad, is headquartered in Roanoke. It provides fast, dependable distribution throughout the area served by WDBJ Television. We would extend our invitation to manufacturers to locate here, and also to market their products, whether they be "established" or "on test."

Roanoke television is a primary advertising force . . . when you market your product within this rich and economically fertile area.

where can you find a station that
Colorcasts
 92 programs a week?

**You Found It—
 WTMJ-TV in Milwaukee!**

WTMJ-TV is now colorcasting 37% locally produced programs. And in the 6-12 P.M. prime viewing hours 75% are in color. Number one color station in Milwaukee, WTMJ-TV has been a leader in color television since its inception. On December 20, 1953, WTMJ-TV offered the first colorcast by a Wisconsin station. In 1954, WTMJ-TV broadcast the first locally produced live color program in Wisconsin and within two days of this broadcast the first commercially sponsored color program in Wisconsin.

Now, 12 years later, WTMJ-TV continues to build its leading position in color television by broadcasting 92 color programs a week. In order to continue broadcasting the best in color, WTMJ-TV has the latest in color equipment: two indoor and one outdoor color studios, three color television cameras, color slide, film and video tape equipment. And a new \$1½ million round studio is now under construction. During the 1965 season WTMJ-TV anticipates a further increase in color programming.

Community Antenna TV Systems

Individual CATV systems are listed alphabetically by state and city. Firms or persons owning two or more systems are listed in the Multiple Ownership directory, page A-139. Information on CATV systems is in this sequence: firm name, street address and/or post office box number followed by ZIP code, telephone number (preceded by area code), name of executive in charge with title, number of subscribers, number of estimated potential subscribers, installation charge, monthly charge, call letters and locations of TV stations and FM stations carried by CATV (other services provided such as weather channel or background music are listed, and if CATV originates programming or commercials, this is noted), date system began operation, name of principal owner(s) and indication whether owner has other CATV or media interests.

Omitted information was not furnished by owners before publication.

For complete list of abbreviations, see page D-36. Asterisk (*) indicates member of National Community Television Association for CATV's; symbols before TV's indicates noncommercial.

MR. BROADCASTER: You belong at both ends of the signal

More and more broadcasters are finding that the operation of community-antenna systems is a natural business for them.

Like broadcasting, CATV is a public service, demanding a management familiar with and sensitive to the needs and desires of the public for high-quality television pictures regardless of the distance from the transmitter.

And so, to assure studio-quality reception and a rich variety of programs to homes in your broadcast area, you should investigate the advantages of entering community-antenna television (CATV).

Consult the leader • To make your entrance into CATV uncomplicated and economical, Jerrold—pioneer and

leader in this field—offers you a range and depth of technical and management services unmatched anywhere. Jerrold's tremendous experience and nationwide organization can help in any or every stage of setting up a new community system—in conducting signal surveys; engineering the system; supplying all electronic equipment, including microwave; constructing the entire plant, from antenna site to house-drop; training your personnel; arranging financing to meet your needs; and, finally, turning over the key to an operating system to your system manager.

Make the first move into a profitable extension of your own business—contact the Jerrold Community Systems Division today.

I THINK I NEED TVC'S CATALOG

If you don't have our catalog, you're missing a good bet. A 5c stamp brings you THE finest catalog going . . . over 100 pages, indexed and fully illustrated. It offers you everything you could need to build, operate, or maintain a CATV system. It opens the door to the highest quality and the fastest service. If a 5c stamp is too expensive, use a 4c postcard.

TV programming: live, film, video tape

Analyses of programming, based on questionnaire returns from U. S. television stations and networks, have been a continuing feature of BROADCASTING since 1953. The cur-

rent statistics cover the week of June 7-13, 1964.

The accompanying tables afford comparisons between figures for 1964; the previous year, five years ago (1959) and ten years ago (1954). Survey for 1954 was made in December 1953.
