well, of all things!

WOR'S PART

OF THESE EXTRAORDINARY STORIES, TOO

queer signs for streets

Most of the streets in Merida are distinguished in a manner peculiar to Yucatan, by images of birds or beasts set up at the corners. For example, one street is named La Calle del Flamingo, because of a huge red flamingo painted on the corner house. There is the street of the Old Woman and on its corner is the caricature of an aged female, with huge spectacles astride her nose.

By no means queer are the extraordinary results that WOR's women's shows produce for sponsors. Beauteous Barbara Welles, for instance, recently told her listeners that a paint manufacturer would send them a sample. A few casual announcements produced 10,000 requests. For *paint*, mind you. Martha Deane made 4 brief announcements; 25,589 women cried "Gimme!"

the hottest spot on earth

The hottest regions of the earth are along the Persian Gulf, where little or no rain falls. At Bahrain the arid shore has no fresh water, yet a comparatively numerous population manages to live there, thanks to copious springs which burst forth from the bottom of the sea.

The hottest buys in American radio

today are WOR's news programs. One show not only guarantees its sponsor almost 2,000,000 listeners per week, but has a distinguished sales record, too. Another moved one product from 8th to 3rd place in the candy bar field; pulled 82,896 contest entries from 47 states... 351 from California, 196 from Nebraska.

superstitions of the sea

It is unlucky to point with the finger at a ship when at sea.

The nails and hair must not be cut at sea except during a storm.

It is unlucky to sneeze on the left side at the moment of embarking.

A knife stuck in the mast, the killing of a pig, or whistling is believed to bring wind in a calm.

It has been repeatedly proven that luck and great success follow the purchase of WOR. As of today, more than half of WOR's billing is based, as far as its sponsors are concerned, on earned sales increases of merchandise sold. In other words, WOR's got to pay through the cash register, or else...

Let's show you how we do it.

WOR—heard by the most people where the most people are

mutual

"95% of the farmers listen to WLS"

A. J. NESBITT
Hardware Dealer
Savanna, Illinois

Folks in Carroll County, Illinois, have known three generations of Nesbitts in the hardware business. Arthur J. Nesbitt's father was a leading hardware dealer in Savanna about the turn of the century. Arthur has been a Savanna businessman for 30 years, fifteen of them as owner of Nesbitt Hardware Company. Today, his son, Everett, an Army veteran, helps manage the prosperous business.

Both Nesbitts, like most of their customers, are very familiar with WLS. "We sure listen," asserts Everett. "And I bet 95% of the farmers listen to WLS", adds his father.

Farmers are important in Carroll County; they make up 73% of the population. In 1946, retail sales in the county were over 12 million dollars . . . food sales over 2½ million . . . effective buying income 20 million dollars!

Here, 140 miles from Chicago, is a rich county effectively served by WLS, where WLS is intensively *listened to*. Last year we received 4,513 letters from its 5,490 radio homes—82% response! BMB also shows WLS with a high penetration—79% day, 74% night.

For 24 years WLS has been serving the families who make up such prosperous Midwest America communities. Our interest in their problems . . . the service and entertainment we provide them, have made them loyal WLS listeners. And upon loyal listeners depend advertising results.

One of a series. Facts on radio listening in the Intermountain West

58,163 Telephone Calls In 14 Intermountain Cities Reveals:

Intermountain Network Delivers:

36.0% of morning audience

40.4% of afternoon audience

24.5% of evening audience

Hooper's Winter, 1947 survey of 14 intermountain cities was by far the biggest survey ever made in this territory. A total of 58,163 coincidental telephone calls were made, revealing:

- unusually high sets-in-use, especially in the daytime outside of Salt Lake City—
- complete dominance of the Intermountain Network during both the morning and afternoon—exceeded by only one network in the evening.

Hooper based the survey on a weighted basis with weights assigned according to population—43% for Salt Lake City and 57% for 13 other Intermountain Network cities.

Closed Circuit

REPORTS IMPOSSIBLE of confirmation afloat last week that Frank E. Mullen, NBC executive vice president since 1940, and radio veteran of 25-years, has been offered presidency of G. A. (Dick) Richards stations (WJR Detroit, WGAR Cleveland, KMPC Los Angeles). Mr. Richards, who lives in Los Angeles, was in New York last week. His family and his physicians have urged him to retire from active direction of his properties.

ATLANTA'S confused network affiliation situation clarified last week with official notice that CBS switches from WGST, Georgia Tech station, to WAGA, Fort Industry (Storer) outlet, no later than September and possibly in June. WGST in turn is expected to affiliate with MBS, simultaneously. WATL, Woodruff station, now MBS, expected to go independent.

COMPLAINTS already reaching Capitol Hill that FCC action knocking FM out of 44-50 mc band as of Dec. 31 (story, page 21) will seriously impede FM network relaying since manufacturers say tubes and equipment for high-band relays won't be available for year. Modification of order may be broached unless FCC acts.

SENTIMENT is mounting for appropriate recognition of contributions to development of broadcasting art by radio engineers. Plan may jell at NAB Engineering Conference in Los Angeles next week being held in conjunction with broadcasters' annual Management Conference.

SURPRISE of political campaign may be air appeal of President Truman. Always stilted in reading speeches, he startled capital commentators Thursday by ad libbing network pickup. Word now going around he may sway vast numbers of voters if he throws away script and lets loudspeakers transmit sincerity that marks his informal talks.

DESPITE widespread view that Sen. Charles Tobey (R-N.H.), would accept chairmanship of Senate Interstate & Foreign Commerce Committee at next session if Republicans retain majority, he has refused to commit himself. There is ample reason to believe that with his experience and long-time interest in banking matters, he would prefer to retain his current chairmanship of the Banking & Currency Committee. If he passes up Interstate Commerce Committee, chair probably will go to Sen. Clyde M. Reed (R-Kan.), next in rank.

FCC CHAIRMAN Wayne Coy has accepted invitation of CBS President Frank Stanton to fly to NAB convention, where he will be principal speaker, in CBS-owned DC-3, leaving

Upcoming

May 10-13: Radio Parts Equipment Show, Steven Hotel, Chicago.

May 12: RCA-FCC probe, Senate Interstate & Foreign Commerce Committee.

May 15: Retiring NAB Board of Directors, Biltmore Hotel, Los Angeles.

May 17-21: NAB Convention Week, Biltmore Hotel, Los Angeles.

Bulletins

KERR GLASS Mfg. Co., Span Springs, Okla., to sponsor 13-week spot campaign on 65 key stations coast-to-coast. Campaigns to coincide with home-canning season. Agency, Lennen & Mitchell, Beverly Hills.

PLOTKIN TRANSFERRED

HARRY M. PLOTKIN, FCC assistant general counsel in charge of Litigation and Administration Division, named Friday as temporary successor to Vernon L. Wilkinson as assistant general counsel in charge of Broadcast Division [BROADCASTING, April 5]. FCC said he would serve till Sept. 1, by which time permanent successor should be named. Max Goldman, assistant chief of division under Mr. Plotkin, will serve as acting assistant general counsel in charge until Mr. Plotkin resumes regular post.

FCC Libel Ruling Attacked at Hearing

FCC WAS TOLD Friday that Texas, at least, will continue to hold radio stations responsible for libelous remarks contained in political broadcasts despite FCC's WHLS Port Huron decision.

Texas stand opposing Commission's interpretation of Communications Act was stated during oral argument on proposed decision in WHLS renewal case, in which FCC held stations may not censor political broadcasts but will not be held liable for any defamatory material they contain [BROADCASTING, Feb. 2].

Legal arguments challenging FCC were raised by Don Petty, NAB general counsel, and W. Theodore Pierson, Washington attorney, while censorship incidents were detailed by counsel for WGOV Valdosta, Ga., and KIDO Boise, Ida. CBS Executive Vice President Joseph H. Ream sent statement contending Port Huron principles would "go much farther than is necessary or desirable in order to avoid discrimination among candidates—in fact, so far that political discussion on the air may be drastically curtailed."

Rep. Lindley Beckworth (D-Tex.) presented brief by Texas Attorney General Price Daniel

Business Briefly

GENERAL MILLS RENEWS 4 ● General Mills Friday renewed four ABC programs, 52 weeks: *Lone Ranger*, Mon.-Wed.-Fri., 7:30-8 p.m.; *Betty Crocker Magazine of the Air*, weekdays, 10:25-10:45 a.m.; *Famous Jury Trials*, Sat., 8:30-9 p.m.; *Green Hornet*, Tues., 7:30-8 p.m. All effective June 2 except *Famous Jury Trials* (June 5). Knox Reeves Adv., Minneapolis, handling *Famous Jury Trials*, Dancer-Fitzgerald-Sample, Chicago, is agency for others.

CAMEL CHANGE ● R. J. Reynolds Tobacco Co. (Camels) dropping 9:30-10 p.m. Saturday spot on CBS after June 26. Vaughn Monroe, now heard at that time, moves into *Screen Guild* spot, 10:30-11 p.m., Mondays for Camels as summer replacement, starting June 28. Agency, William Esty, N. Y.

SUN TAN LOTION SPOTS ● McKesson & Robbins, New York (Tartan) to start announcements May 15 in some markets, June 1 in others, 8 to 13 weeks, on 53 stations. Agency, Benton & Bowles, New York.

INSURANCE TV TEST

ANALAGRAPH ASSOCIATES, New York, division of New York Mutual Benefit Life Insurance, planning one month test television campaign in New York area, starting mid-May on WABD. Believed first video campaign for insurance firm. Birmingham, Castleman & Pierce is agency; Ray Ovington, account executive.

which contended that under WHLS ruling "every broadcasting station in the state of Texas will be subjected to actions for damages" unless they refuse political broadcasts. Attorney General insists "Texas libel laws are still in effect despite the FCC interpretations" and "radio stations carrying libelous matter will be subject to state laws."

Examples of language WGOV Valdosta would have had to carry under WHLS ruling were cited by Attorney Andrew W. Bennett. Noting that incident arose before WHLS decision, Mr. Bennett said WGOV, now on temporary license, rejected speech by one candidate which contained such personal references as "pistol carrying swaggers," "pistol totin' criminals," "fugitive from justice," "hell-bent," "jail bird" and "big slew-footed ox."

Charles V. Wayland, attorney for KIDO Boise, said KIDO and four other Idaho stations being sued for \$100,000 each as result of transcribed political speech of Sen. Glen Taylor (D-Ida.), who threatened to report stations to FCC if they didn't carry it. He asked clarification of Act.

the sweetest hours on WBZ

7:30—7:45 AM Monday, Wednesday, Friday	Peter Paul, Inc. Walnettos and Mounds
8:30 AM Monday, Tuesday, Wednesday, Thursday, Friday	NECCO Bolster Bars
9:00 AM Wednesday, Friday	Rockwood Bits
5:30 PM Thursday 4:00 PM Friday	Fred W. Amend Company Chuckles

Candy makers are WBZ's sweetest sponsors . . . and among the *smartest*, too. They know that New Englanders have an avid sweet tooth. The Census Bureau agrees: records show that New England candy consumption exceeds the U. S. average by one pound per person, per year.

That's 9,270,000 pounds of candy! And still the rate of consumption swings upward.

If your products adorn the shelves of New England merchants, WBZ will help you move them into the homes of listeners. Our national representatives will tell you the whole story. They'll tell you, too, how WBZ and WBZA reach 80 percent of the rich New England market . . . an advantage simply not obtainable with any other medium.

Yankee home-town stations offer the greatest flexibility in adjusting your selling to changing patterns of distribution and market conditions.

The basically important fact is that everywhere you will receive the full benefit of the local influence and acceptance which every Yankee home-town station has in its service area.

Local programs, plus Yankee programs, plus national

programs assure a ready-made and responsive audience — with local dealer co-operation that provides a firm sales-hold on the market.

Select the stations you need. You can buy one or two, or a larger group, or the whole 23-station network. What you get is controlled local impact when you want it — where you want it — from Bridgeport to Bangor.

It's the Yankee way to sell New England.

"This is The Yankee Network"

*The Nation's
most honored station*

“Chicago’s Showmanship Station”—
50,000-watt WBBM—has won more of
this year’s most coveted Radio Awards
than any other station in America:

THE ALFRED I. DU PONT STATION AWARD
VARIETY PLAQUE AWARD FOR “RESPO-
NSIBILITY TO THE COMMUNITY”

THE GEORGE FOSTER PEABODY AWARD
WBBM was honored six more times for humani-
tarian service to the community during 1947,
including citations by . . .

THE NATIONAL CONFERENCE OF CHRIS-
TIAN AND JEWS

THE NATIONAL ASSOCIATION FOR THE
ADVANCEMENT OF COLORED PEOPLE

A SPECIAL WENDELL L. WILLKIE JOUR-
NALISM AWARD

And WBBM-produced “Melody Lane” was
selected as the best commercial program in
America for “large store advertisers” by the
National Retail Dry Goods Association.

Chicago's most sponsored station

WBBM — the nation's most honored station — carries *more* advertising than any other radio station in Chicago.

... And has every year for 22 consecutive years!

The reason? Local, national spot and network advertisers — like major radio award committees — have found WBBM has a flair for creating programs that command attention. *And get results.*

Credit goes to WBBM's 38 master showmen whose ingenuity and skill make every WBBM-built program a prize contender... whether it's designed to move people to act on a social problem or to move people to *buy* and *buy* and *buy*.

The conclusion is obvious: To get many more Midwesterners to buy much more of *your* merchandise, use WBBM — “Chicago's Showmanship Station.”

On All Accounts

THE PERSONAL crest has gone out of fashion as a symbol of accomplishment. Yet if the vogue were to be revived, Tom Slater, director of programs and talent development and manager of network operations at Ruthrauff & Ryan, New York, could well adopt "crossed hamburgers on a field of clover" as his private insignia of triumph.

While still a young instructor at Miami U., Oxford, Ohio—prior to that he was on the staff of Northwestern U. — Tom first stepped out of his academic robes for an extra-curricular whirl as narrator on a hamburger eating contest aired over the local loud-speaker. With that hamburger-fry, the fat was in the fire and Tom was on his way, with a few detours, toward a career in radio that was to net him national acclaim and at least one international award. Those detours, incidentally, involved a two-year tour with a Chautauqua circuit and a grand opera company, both in business capacities.

Tom's baptism in professional radio took place at WHIO Dayton, after which he moved to the nearby Crossley group, WSAI-WLW in Cincinnati as an announcer and producer. Leaving Cincinnati, he was appointed manager of the

Newark studios of WOR-Mutual in charge of the network's daytime musical shows.

Presently he was named director of special features and sports for MBS and supervisor of the network's war programs. In that capacity he arranged for the broadcast of the first Louis-Conn fight, his first assignment in a job that was to take him to political conventions, inaugurations, forest fires, football games, world series, and eventually to Ruthrauff and Ryan. In his present position with R&R he exercises his radio wisdom in behalf of *Amos 'n Andy*, Dick Haymes, Jim Bacchus, *The Shadow*, *Aunt Jenny* and Gabriel Heatter.

Tom Slater is perhaps best described by the awards he has won. He has been cited by the National Headliner's Club for "Radio's Outstanding Special Events Broadcast in 1946—"Contacting the Moon by Radar." He was chosen by the Sports Broadcasters Assn. "as having done most to bring credit and dignity to his profession." The Treasury Dept. granted him the Silver Award for patriotic service, and the Norwegian government tendered him the King Haakon Liber-

TAKE THESE 10 IOWA COUNTIES, FOR INSTANCE

BALANCED programming—that inimitable blend of good entertainment, timely information and outstanding public service—is the *best* audience-holder any radio station can offer.

Its effectiveness is proved again in the ten counties lifted from the Iowa map at the right. Each of those counties is “home” for at least one good local or regional station with an excellent signal in its own county. Yet the 1947 Iowa Radio Audience Survey shows that from 5:00 a.m. through 6:00 p.m., *WHO* gets an average of 48.9% of all listening in those ten counties!

There is only one answer to such listener-preference. That answer is *Top-Notch Programming*—*Outstanding Public Service*. Write for Survey and see for yourself.

(REPORT 6)

FEBRUARY SPONSORS

DIVERSIFIED business and service groups are buying television time, according to an analysis of 215 TV sponsors based on a questionnaire survey of stations now on the air with visual programs

[BROADCASTING, May 3].

Publication of a list of these sponsors, was begun in the May 3 issue. The list gives name of advertiser, program title, station or stations, program type, ren-

tion, day and hour, and advertising agency.

The TV sponsors were broken down into 28 categories in the summary, with retail stores and shops as the leading users of television.

The first portion of the complete list of TV advertisers, as published in the May 3 issue, covered advertisers from A to J. The second portion, covering from J to Z, follows below.

Video Advertisers in February -- Part B

(Part A Appeared)

Progress

WHIO Keeps in step with Dayton!

Memorandum

WHIO, Dayton, will offer you **ALL THREE**

- **WHIO-AM** long has been the standout station in Dayton among both listeners and radio advertisers. BMB and Hooper show most folks in Dayton and Miami Valley listen to WHIO. Fine programs, originated locally and by CBS, accurate newscasts, plus real public service keeps WHIO first among Dayton stations.
- **WHIO-FM**, Dayton's first FM station, has been winning friends (and customers) since March first. As soon as new transmitter equipment is available, WHIO-FM will broadcast with effective power of 20,000 watts. No program duplication here. WHIO-FM offers listeners an entirely separate program fare, including sports broadcasts, news, music, and other outstanding programs.
- **WHIO-TV** will be a reality before year-end. All the experience, market knowledge and program know-how which go to make WHIO-AM and WHIO-FM first in the Dayton and Miami Valley will be available for WHIO-TV. Then WHIO will offer you all three for your complete sales coverage of this valuable market . . . with AM, FM, and TV.

New Business

MASON, AU & MAGENHEIMER Inc., Brooklyn, N. Y. (candy), signed with Keystone Broadcasting System to sponsor *Keeping Up With the Wigglesworths*, transcribed, quarter-hour, twice weekly, on 80 KBS stations in south and southeastern states. Plans to extend series nationally on KBS in fall. Agency: Moore & Hamm, New York.

COLGATE-PALMOLIVE-PEET May 17 begins intense seasonal spot campaign for Veto, a deodorant. Ted Bates Inc., New York, C-P-P agency, buying one-minute spots on 160 stations in as many markets, five times weekly on each station for 16 weeks.

CLEVELAND DISTRICT FORD DEALERS, Cleveland, Ohio, signed for 16 games of Cleveland Browns football club over WGAR Cleveland. Games to be fed to WBNS Columbus under same sponsorship. Agency: J. Walter Thompson Co., Detroit.

F. & M. SCHAEFER BREWING Co., New York, signed with WPIX(TV) New York for 30 New York Ranger hockey games in Madison Square Garden, November through March. Schaefer is first WPIX sponsor.

COVER GIRL HOSIERY, Newark, N. J., appointed Art-Copy Adv., Newark, to handle advertising. Will use radio.

EVERSHARP INTERNATIONAL Inc., Toronto (pens, pencils, Schick razors), appointed Baker Adv. to handle Canadian advertising. No changes from current campaigns announced as yet.

PHILIP MORRIS & Co., New York, May 17 starts for 42 weeks spot campaign on WABD New York and WTTG Washington, DuMont TV stations. Will use five a week on WABD; three weekly on WTTG. Agency: Biow Co., New York.

GEORGE A. HORMEL & Co., Austin, Minn. (canned meat products), May 1 started half-hour weekly *Hormel Girl Corps* on nine additional California stations; previously heard only on KHJ Los Angeles. New stations: KGB San Diego, KDB Santa Barbara, KVEC San Luis Obispo, KXOA Sacramento, KXOB Stockton. Agency: BBDO, Los Angeles.

SUNBEAM Corp., Chicago (electric products) and **GOODALL Co.**, Cincinnati (clothing), dividing sponsorship of *Dugout Interviews* on WGN-TV Chicago. Former sponsoring one-third, latter two-thirds. Agencies: Perrin-Paus Co., Ruthrauff & Ryan, respectively; both Chicago.

NASH-KELVINATOR May 9 started for 13 weeks film spots, three a week, on WTMJ-TV Milwaukee. Agency: Geyer, Newell & Ganger, New York.

BRADSHAW Co. and **BOB WALTERS CANDY Co.**, New York, appointed Birmingham, Castleman & Pierce, New York, to handle advertising. Both accounts to use spot radio.

BULOVA WATCH Co., New York, contracted for series of seven time signals per week on WGN-TV Chicago. Agency: Biow Co., New York.

STAR UNION PRODUCTS Co., Peru, Ill. (Star Model, Sepp'l Brau beer), appointed W. D. Lyon Co., Cedar Rapids, to handle advertising. Will use radio.

MILLIRON'S, Los Angeles (department store), May 3 started two-week spot campaign, 202 spots, on KECA, KLAC, KFVD Los Angeles; KXLA Pasadena; KIEV Glendale. Agency: Hunter Adv., Los Angeles.

PERFUMERIA LEMAITRE (perfumes, soaps, lotions), and **LABORATORIOS FUENTES** (cough medicine, skin salve), both in Cartagena, appointed McCann-Erickson's office in Bogata, Colombia to handle advertising campaign. Radio will be used.

NATHAN ALBERT & SONS INC., New York (Children's wear), appointed Bliss & Marces Inc., New York, to handle radio campaign; anticipating expanded schedule. No definite plans made.

ELGIN NATIONAL WATCH Co., Elgin, Ill., contracted for time signals on WGN-TV Chicago, Thurs., Fri., precede sports telecasts. Firm now has film spots on six TV stations: WGN-TV, WCBS-TV, WNBT New

Cowan Executive Finds Changes Helpful

EDITOR, BROADCASTING:

I have been out ill for a number of weeks and consequently had not had a chance to read BROADCASTING. Last night for the first time I picked up a copy, and I received one of the most pleasant surprises of my life.

The changes in the magazine were startling, and I must say I don't think I have ever enjoyed reading a copy of the magazine as much as I did the current issue. Pictorially, it was splendid, and from a typographical standpoint, such columns as "Agencies" and "New Business" were so legible and interesting looking that I couldn't help but read every word of them.

Congratulations are certainly due to you for this forward step, and in view of the tremendous excitement I am sure the new copies

Open Mike

(Letters are welcomed. The editors reserve the right to use only the most pertinent portions.)

are causing, I hope you will go even farther along the same lines. I will certainly look forward to reading BROADCASTING now more than ever before.

Alfred L. Hollender
Louis G. Cowan Inc.

Drenner Praised Tape Recorders 3 Years Ago

EDITOR, BROADCASTING:

The item on ABC's use of the Ampex tape recorder [BROADCASTING, April 26], is encouraging, but hardly revolutionary. My original article on the Magnetophon in

BROADCASTING nearly three years ago not only emphasized utilization of magnetic tape recording for direct playback, but also indicated that the reproducing head acted as an almost instantaneous monitor of the material being recorded. At a tape speed of 77 cm. sec. the tape passes from the recording head to the reproducing head (a physical distance of only about 5 cm.) at a rate which to the ear is not discernible.

Further, this original article emphasized that the German R. R. G. used tape recordings almost exclusively for all important broadcasts, because of the editing and

editorial feature. The BBC has for years used the Marconi-Stelli tape machine as a direct playback mechanism, as well as Phillips-Miller embossed tape machine for the same purpose: both these machines have the instantaneous monitoring and playback feature which you mention in your item on the Ampex device.

It is interesting to note the wide acclaim and the seemingly open-awed acceptance of magnetic tape recording now, when my article in BROADCASTING brought me many letters expressing polite disbelief at the claims I made for it. That's what is encouraging: I'm glad other people are beginning to enjoy what I've had for four years.

I might mention that the first German machine which to my knowledge was examined by U. S. personnel was that which I found at Radio Luxembourg in September 1944. This was one of the early models, but differed little in essentials from that described in BROADCASTING.

Don V. R. Drenner
Engineer
KGGF Coffeyville, Kan.

Says Westinghouse, Not F & P, Gay Luncheon

EDITOR, BROADCASTING:

There is an erroneous impression received from the release in BROADCASTING Magazine, issue of April 26, regarding the Westinghouse luncheon given on April 13 at the Ambassador Hotel [Los Angeles]. This particular luncheon was definitely sponsored by the Westinghouse organization and not by Free & Peters . . .

MORE TV CHANNELS

By RUFUS CRATER

FAR-REACHING CHANGES in television allocations were set in motion by FCC last week in a series of actions topped off by an unheralded order calling for hearings starting Sept. 20 on the prospects for early video use of the band above 475 mc.

Acting to bring the concededly inadequate 1945 allocations abreast of television's unexpectedly swift development and to rid present low-band video of interference from other services using the frequencies, the Commission, simultaneously with its call for the high band hearing, also:

- Ordered into effect its proposal [BROADCASTING, Aug. 18, 1947] to abolish "sharing" on television channels and assign Channel 1 (44-50 mc) for the sole use of non-government fixed and mobile services displaced by elimination of the sharing plan.

- Handed down a new and expanded television channel allocation plan (see table, starting this page) covering the remaining 12 channels and encompassing more than three times the number of cities and twice as many potential stations as the existing "major markets" allocations. Hearings on the allocations plan were set for June 14.

- Refused FM spokesmen's pleas for TV Channel 1 (44-50 mc) for use in FM network relaying, but proposed to permit such operations in the 940-952 mc band allocated for FM studio-transmitter links.

- Gave FM stations now operating between 44 and 50 mc until Dec. 31 to move to the regular 88-108 mc area (almost all of them are operating in the high band now), "or until a sub-allocation of this band [44-50] has been made final and effective by the Commission, whichever date is earlier." (See station list, page 22.)

- Aside from allocations, proposed a new rule governing the operating hours of television stations, graduating minimum hours from 12 a week for the first 18 months to 28 hours after 36 months (see story, page 22).

- Allocated the 72-76 mc band, between TV Channels 4 and 5, to fixed services "on an engineering basis which will not be a source of interference to television," but provided that mobile land stations now operating there may continue for five years to amortize equipment.

The move toward possible opening of the 475-890 mc band was

precipitated by recognition of the fact that demand for stations in the presently allocated area below 216 mc "far exceeds" the supply of frequencies and, as FCC noted in its 1945 allocations report, that "there is insufficient spectrum space available below 300 mc to make possible a truly nationwide and competitive television system."

The hearing will deal with the feasibility of using the 475-890 mc area—or any part of it—for either black-and-white television or color, or for both, and with any suggestions and proposed standards that may be offered. Any available data on interference to television in the channels below 216 mc also will be considered.

In calling the hearing the Commission apparently was motivated by information that tubes and equipment have now been developed that will propagate sufficient power to make operation practical in the lower portions of the "upstairs" band. One of the issues

requests pertinent data compiled since the close of the allocations proceedings and the hearing on which FCC turned down the CBS petition for high-band color video a little more than a year ago.

The Commission's actions, all announced Thursday, were regarded as almost certain to provoke Capitol Hill rumblings that may resound for months. The television orders came in the face of preparations by Acting Chairman Charles W. Tobey (R-N. H.) of the Senate Interstate Commerce Committee for an investigation this week which will center to a great extent on television (story page 24). And refusal to give 44-50 mc to FM runs directly against the grain of the directive contained in the Lemke Bill (HJ-Res. 78), which is still under study by the House Interstate Commerce Committee after heated hearings.

One Unaccounted

With its deletion of TV Channel 1 the Commission noted that only one of the 96 outstanding TV authorizations is for that channel (KPRO Riverside, Calif., for which no provision is made in the proposed reallocation table), and that only two of 229 pending applicants

request the deleted frequency.

Of the 140 major markets in the existing allocations table, 23 would gain one channel, two would gain two, and 12 would lose one.

One big question the Commission didn't answer is the effect the new allocations plan will have on hearings already scheduled for communities where the demand for channels exceeds the supply. A large number have been set for hearing before June 14, the date when FCC will start hearing argument on the allocations proposal.

Whether these will be postponed, authorities said, has not been decided. But it appeared probable that those involving communities whose allocations are unchanged will go ahead as scheduled, but that those in which allocation's changes are proposed will be delayed until after final action on the new table.

The allocations plan incorporates several changes previously proposed, including requests thus far received from applicants for channels not in accordance with the present table. Action on these requests in the general hearing will make unnecessary a number of rule-making proceedings which
(Continued on page 64)

PROPOSED TV CHANNEL ALLOCATIONS

PROPOSED NEW and greatly expanded table of television channel allocations, announced by FCC last week (see story this page), is reprinted below. Hearings are slated to start June 14 before the Commission *en banc*, with participants due to have their statements filed by May 28.

The proposed table covers some 461 areas, providing for more than 900 stations. The existing table, by comparison, is limited to the 140 major markets and provides for about 405 stations. Aside from the areas which the new plan adds to the table for the first time, 37 metropolitan areas would gain or lose channels under the proposal: 23 would gain one, two would gain two, and 12 would lose one. These are:

Gain One—Birmingham and Montgomery, Ala.; Phoenix, Ariz.; Stockton, Calif.; Miami-Fort Lauderdale, and Tampa-St. Petersburg, Fla.; South Bend-Elkhart, and Terre Haute, Ind.; Louisville, Ky.; Shreveport, La.; Minneapolis-St. Paul, Minn.; Kansas City,

Mo.; Binghamton, N. Y.; Charlotte, N. C.; Toledo, Ohio; Knoxville and Nashville, Tenn.; Amarillo, Dallas, and San Antonio, Tex.; Charleston, W. Va., and Huntington-Ashland (Ky.); Madison, Wis.

Gain Two—Altoona, Pa., and El Paso, Tex.

Lose One—Riverside, Calif.; Pueblo, Colo.; Chicago, Ill.; Indianapolis, Ind.; Cedar Rapids and Waterloo, Iowa; Boston, and Springfield-Holyoke, Mass.; Buffalo-Niagara Falls, N. Y.; Cleveland and Columbus, Ohio; Portland, Ore.

These 37 metropolitan areas do not include those in which changes are proposed with respect to the channel numbers without changing the total number of channel availabilities. Nor do they include those in which community channels are substituted for metropolitan frequencies without affecting the total number of availabilities.

Each area named in the new table, FCC explained, includes "all communities located within the same metropolitan district as the principal city or cities named in the table, and in addition [includes] all other communities with-

in 15 miles from the city boundary line of the named city or cities, provided that the assignment is otherwise consistent" with FCC's rules and standards.

Many relatively small cities would be given as many or more channels than larger cities. This, FCC noted, is due to the fact that these smaller cities are so located that such assignments are engineeringly possible. It was stressed that FCC does not necessarily expect each city to have a station for each channel shown, but only that number of stations would be engineeringly feasible.

The proposed new table:

COMMUNITY	PROPOSED ALLOCATION PLAN CHANNELS
ALABAMA	
Anniston	6(c)
Birmingham	2, 4, 9, 13
Decatur	8
Dothan	4, 11
Gadsden	11(c)

(Continued on page 64)

FCC CHAIRMAN Wayne Coy left White House by side door, where Commission station wagon was parked, after conference with President Truman Monday.

He Didn't Say

"I CAN'T say," said Wayne Coy, FCC chairman, when asked the purpose of his White House call Monday noon. "Did you discuss the FCC vacancy?" he was asked. "I can't say." Did you discuss legislation?" persistent newsmen continued. "I can't say." "Did you talk about radio?" "I can't say." "Did you suggest someone for Commissioner Durr's vacancy?" "I can't say." Chairman Coy visited the White House Executive Offices at the President's request.

24 FM OUTLETS MOVE BY 44-50 MC CHANGE

TWENTY-FOUR FM stations, currently operating in the "low band," would be affected by FCC's decision to assign that area—44-50 mc, formerly TV Channel 1—to the non-government fixed and mobile services (story page 21).

Announcing its decision last week, the Commission said these stations' "continued temporary operation . . . may be authorized until Dec. 31, 1948, or until a sub-allocation of this band to the fixed and mobile services has been made final and effective by the Commission, whichever date is earlier."

The stations were listed by FCC as follows (all of the commercial and some of the non-commercial stations already are operating in the high band as well as in low):

WTIC-FM and WDRC-FM Hartford, Conn.; WGMB and WEFM Chicago; WOWO-FM Ft. Wayne; WABW Indianapolis; WMNE Portland, Me.; WBZ-FM Boston; WBZA-FM Springfield, and WGTR Worcester, Mass.; WWJ-FM Detroit; FM Inventor Edwin H. Armstrong's W2XMN Alpine, N. J.; WNBK-FM Binghamton, N. Y.; WQXR-FM and WABF New York; WHFM Rochester; WBCA Schenectady; WELD Columbus, Ohio; WFIL-FM Philadelphia, and KDKA-FM Pittsburgh.

Non-commercial FM stations: KALW San Francisco; WBEZ Chicago; WBKY Lexington, Ky., and WBOE Cleveland, Ohio.

TV HOURS

THE GRADUATED scale of minimum operating hours for television stations proposed by FCC last week to replace the present blanket "28-hour rule" (see story, page 21) is as follows:

First 18 months of operations—Not less than two hours daily in any five broadcast days per week and not less than a total of 12 hours per week.

Next six months—Not less than two hours daily in any five broadcast days per week and not less than a total of 16 hours per week.

Next six months—Not less than two hours daily in any five broadcast days per week and not less than a total of 20 hours per week.

Next six months—Not less than two hours daily in each of the seven days of the week and not less than a total of 24 hours per week.

Thereafter—Not less than two hours daily in each of the seven days of the week and not less than a total of 28 hours per week.

The proposed new rule would define "operation" as including "the period during which a station is operated pursuant to special temporary authority or during program tests, as well as during the license period." The rule would continue:

Time devoted to test patterns, or to aural presentations accompanied by the incidental use of fixed visual images which have no substantial relationship to the subject matter of such aural presentation, shall not be con-

General Mills Renewing Four Programs on ABC

SIMULTANEOUS renewal by General Mills Inc., Minneapolis, of four ABC programs was announced May 5 by Gil Berry, sales manager of ABC Central Division. Each was renewed for 52 weeks.

Programs were: *The Lone Ranger*, Mon.-Wed.-Fri., 6:30-7 p.m. CDT, effective June 2; *The Green Hornet*, Tuesday, 6:30-7 p.m. CDT, effective June 2; *Famous Jury Trials*, Saturday, 7:30-8 p.m. CDT, effective June 5; *Betty Crocker Magazine of the Air*, Monday through Friday, 9:25-9:45 a.m. CDT, effective June 2.

Agency for *Jury* program is Knox Reeves, Minneapolis; others are handled through Dancer-Fitzgerald-Sample Inc., Chicago.

NEW M.C. for "Breakfast in Hollywood," Garry Moore (second from r), meets program officials in New York. Briefing him on the show as replacement for the late Tom Breneman are (l to r) Charles C. Barry, ABC vice president in charge of programs; Gail Smith, Procter & Gamble manager of daytime radio; Len Erickson, vice president of Kenyon & Eckhardt, agency.

Graduated Minimum Scale Proposed by FCC

sidered in computing periods of program service.

If, in the event of an emergency due to causes beyond the control of a licensee, it becomes impossible to continue operation, the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops and immediately after the emergency ceases and operation is resumed.

FCC said it would accept statements in opposition to the proposal through May 28, and would then call oral argument if comments had been received which appeared to warrant it.

The existing rule requires a minimum 28 hours of weekly operation by all stations, but has been consistently waived by the Commission.

AHLERT REIGN New ASCAP Head Termed 'Old Guardist'

THE ELECTION of Fred E. Ahlert to the \$25,000 a year presidency of ASCAP succeeding Deems Taylor [BROADCASTING, April 5] appeared last week to be regarded with some foreboding by the radio industry.

Although there was a faint tinge of optimism among some observers that the new ASCAP president would approach the problems of radio and music rights with an open mind, the consensus among broadcasters was that Mr. Ahlert would be a tough man to do business with.

His ascendancy to the top of the ASCAP heap was viewed by one qualified spokesman as presaging a swing to the extreme right in society policy. Described as an "old guardist" and "very Tin Pan Alley," Mr. Ahlert was said to regard radio as "an emanation of the power trust," and something to be approached with suspicion.

However, Mr. Ahlert is no newcomer as far as ASCAP's radio matters are concerned. A director of the society since 1933, he has been a member of ASCAP's radio committee for several years. He is expected to take a more active hand in ASCAP management than his predecessor, Mr. Taylor. The latter,

a "long-hair" composer and musical commentator whose background is rather esoteric by Tin-Pan Alley standards, was regarded as something of an outsider during his six-year tenure as ASCAP president.

Mr. Ahlert, on the other hand, is "one of the boys" from "way back," since 1920, when he joined ASCAP as a writer (i.e., composer) member. Although inactive creatively since the recent war, he turned out scores of popular songs in the two decades between wars, including these hits of the twenties and thirties: "I'll Get By," "Mean to Me," "Walking My Baby Back Home," "I Don't Know Why," "Where the Blue of the Night Meets the Gold of the Day," and "Life Is a Song."

Mr. Ahlert attended Fordham Law School for three years before abandoning his studies to devote full time to music. He began his professional career as an arranger for vocal and orchestral groups. He has a reputation for being a good business man, and of turning his early legal training to practical use in ASCAP matters.

Mr. Ahlert's current term of office as ASCAP president extends for one year, from May 1.

Sponsor Grid Playoff

GENERAL MILLS Inc., and Wilson Sporting Goods Co. this fall will sponsor for the sixth consecutive season the National Professional Football League championship game on the full ABC network, Gil Berry, Central Division sales manager, announced last week. Contracts were signed through Knox Reeves Advertising Agency, Minneapolis, for General Mills, and through Ewell and Thurber Associates, for Wilson.

CODE REVAMPING

By J. FRANK BEATTY

FOURTH version of the NAB Standards of Practice, personally restyled by President Justin Miller on the eve of convention week in Los Angeles, faces industry debate with many disputed points deleted (see text page 36).

Latest draft is completely suggestive in tone, with "shall" changed to "should" in all cases. This draft is strengthened by emphasizing the right of broadcasters to program political and public affairs as they deem proper. It comes as the FCC continues to study its future course under the disputed Mayflower decision.

Though the third edition of the code [BROADCASTING, March 29] had indicated minor restyling could be expected prior to the convention, analysis of the new language shows that important changes have been made by Judge Miller as chairman of a restyling committee authorized by the NAB board Feb. 26 [BROADCASTING, March 1].

Available to Members

The board had specified that its own changes, as adopted Feb. 26, should be made available to members at least a month before the May 17-21 convention week.

Five key revisions appear in the newest draft:

- Limitation on religious offers is dropped entirely.
- Enforcement pledge is discarded.

- A new Creed replaces the original Foreword and Creed.
- In case persons are unfairly attacked, time for reply is favored.

- Originating stations are expected to conform to the code in multiple-station programs.

The revisions apparently were designed to achieve three objectives—meet some of the louder industry objections to the March 29 version prior to convention debate on the standards; refine the language, and emphasize that broadcasters should decide themselves how they will handle political and public affairs.

Many delegates already were en route to the convention as the newest version of the code was completed and sent to the printer by NAB.

What effect the new changes will have on convention debate cannot be foreseen at this time, but it is known that many broadcasters who denounced the code at Atlantic City and were also critical of the board's November version, considered the March 29 language acceptable.

There remains, however, a substantial industry element, especially among independents, still opposed to anything stronger than

an industry creed. (See NAB District 2 story, page 24.)

Many of these anti-code broadcasters are from Southern California, and they are expected to be out in full strength when the convention agenda reaches the subject Monday afternoon. Whether opposition will be strong enough to force further delay in adoption of the standards cannot be foretold.

Even opponents concede, however, that the March 29 edition is much less objectionable than the 6,000-word document handed them at Atlantic City a few hours before convention debate.

This surprise element, which had thrown the convention into an uproar, appears again in announcement of the latest version. However, the membership has had over a month to study the March 29 edition and the new changes, while important, involve only a fourth of the language.

One of the main revisions is found in the section on Public Affairs and Issues. Here a complete paragraph is added, rounding out the provisions to insure fairness. The paragraph reads:

If a person has suffered an unfair attack by a commentator, analyst or other speaker, a reasonable time for reply should be made available to him.

One of the sources of resentment at Atlantic City last September, the religious program section, has

now been softened in line with suggestions from stations in the "Bible Belt." Judge Miller dropped lines 12-13-14 from the section titled "Religious Programs."

This section had limited offers to free copies of religious literature or free mementos of a religious nature. Stations carrying commercial religious programs had objected because the former code drafts cramped the style of sponsors in this field, many of whom solicit funds on their broadcasts.

The section still opposes attacks on religion and controversial views not directly related to religion or morality.

More Acceptable

As now written, the religious section is expected to be acceptable to those who attacked its provisions last year, increasing the chances of industry approval of the code at the Los Angeles convention May 17-18. The code will be discussed by NAB members at the Monday afternoon session. This discussion, along with any resolution or vote, will be an important factor in whatever action the new NAB board takes at its May 19 meeting. The board has full authority to adopt and enforce a code.

Opposition to the code was centered last week in the petition to

amend the By-Laws, which has been circulated by Edward Breen, KVFD Fort Dodge, Iowa, director-elect for small stations. Mr. Breen proposes that the By-Laws be changed to take away the board's power to promulgate a code.

Response to the petition, Mr. Breen told BROADCASTING, is in line with a private poll taken last fall in cooperation with Ralph L. Atlass, WIND Chicago. At that time stations voted overwhelmingly against the code although many members contended the questions were "leading" and that the responses did not indicate how stations would vote on actual code adoption. NAB officials indicate the board will give serious study to any industry expression on the code such as the petition circulated by Mr. Breen.

In releasing the fourth version of the code, as many members already were heading toward Los Angeles, NAB went farther than it had indicated in releasing the third version [BROADCASTING, March 29].

The March draft, based on board action in February, was only about 3,000 words or half the length of the Atlantic City code. It opened with a Foreword and a Creed, then went into affirmative recommendations as against the original negative proscriptions.

As now written the Creed, replacing the original Foreword and Creed, states more emphatically the rights of broadcasters under the First Amendment to the Constitution.

Key in Creed

Key to the new code theme in which "shall" becomes "should," is the end of the Creed, which reads, "As a guide for the achievement of our purposes, we subscribe to the following Standards of Practice."

In restyling the code Judge Miller removed mandatory words in the paragraph on political broadcasts and crime-mystery programs. Portions of the children's program section involving torture, terror and kidnaping were deleted (lines 10 through 14) and inserted in the crime-mystery section.

Under "general" a complete paragraph was added to specify that originating stations should be responsible for conformance of multiple-station programs to the code.

Another change occurs in the time standards section, where the words "excluding station breaks" have been added at the end of line 27. The words were inadvertently omitted in the March 29 official printing. The paragraph limits commercial time in multiple-sponsored or announcement programs to three minutes in 15, in addition to station breaks between programs.

L. A. AGENDA

NAB Completes Program For Convention

PROGRAM for the NAB Convention Week (Management Conference May 17-18, Engineering Conference May 19-20) was completed last week with announcement of participants in a panel titled "Broadcasting—Horizons Unlimited" and an addition to the engineering session.

NAB is operating from convention offices in the Hotel Biltmore, Los Angeles, where meetings will be held. A. D. Willard Jr., executive vice president, will leave in mid-week for Los Angeles. President Justin Miller and Secretary-Treasurer C. E. Arney Jr. are operating from the Biltmore.

Taking part in the horizons panel, to be held Tuesday afternoon, with Judge Miller as moderator:

Lewis Allen Weiss, MBS board chairman and Don Lee vice president and general manager; Mark Woods, ABC president; Noran E. Kersta, NBC TV director; Frank Stanton, CBS president; Everett L. Dillard, FM Assn. president and owner of WASH Washington and NAB board member-elect; Roger W. Clipp, general manager of WFIL Philadelphia; Frederic R. Gamble, AAAA president; Clair R. McCollough, WGAL Lancaster, Pa., NAB board member; Charles G. Mortimer, chairman of board, Advertising Council, and General Foods Corp., vice president; A. J. Hoffman, Hoffman Radio Co., Los Angeles, representing Radio Manufacturers Assn.

Paramount Pictures Inc. will demonstrate its 66-second system of film recording of TV programs from off-the-air pickups during the Thursday engineering luncheon. Richard Hodson, director of technical operations of Paramount's TV

division, will be in charge of the demonstration and explain the operation, according to Royal V. Howard, NAB engineering director, in charge of the two-day technical conference.

NAB last week announced the membership of the convention resolutions committee. It consists of W. J. Scripps, WWJ Detroit, chairman; Arthur Westlund, KRE Berkeley, Calif.; Rex G. Howell, KFXJ Grand Junction, Col.; James Woodruff Jr., WRBL Columbus, Ga.; Leslie Johnson, WHBF Rock Island, Ill.

Harry Maizlish, KFWB Hollywood, chairman of the Southern California Broadcasters Assn., said NAB will open registrations at the Biltmore at noon Saturday so delegates may obtain tickets and badges for admission to the Fiesta at the Atwater Kent estate. Busses will transport guests to the Fiesta. All guests must have tickets and badges.

ABC western affiliates will meet Saturday at the Ambassador Hotel, Los Angeles, according to Don Searle, West Coast vice president.

CENSUS

STEPS to put the combined weight of the broadcasting, advertising and related industries behind a campaign to include a radio set question in the 1950 U. S. Census were taken last week [BROADCASTING, May 3].

Broadcast Measurement Bureau announced it will petition the Census Bureau to include a question on radio and television set ownership in its 1950 survey. It will urge the NAB, American Assn. of Advertising Agencies, Assn. of National Advertisers and other groups to take similar action.

Second organization to get behind the move formally was Region 4 of FM Assn. The region adopted a resolution at its Washington meeting Thursday calling upon the FMA board to submit a petition to the Census Bureau. The resolution asked for specific listing of the number of FM, television, facsimile and AM receiving sets by families (see separate FMA story page 25).

The FMA board, meeting Thursday night in Washington, approved the resolution but specified "usable radios."

The decision to press for Census inquiry into radio and television set distribution was taken by the BMB executive committee at a meeting in New York May 5. The executive committee action followed a recommendation by the BMB technical committee which had met May 3.

The BMB executive committee

THREE NARBA NATIONS FAVOR POSTPONEMENT

THREE of the eight adherents to the North American Regional Broadcasting Agreement (NARBA) have indicated their willingness to postpone the new NARBA conference, which had been slated for August this year, to September 1949.

In addition to the U. S., which originated the proposal when delay in issuance of FCC's decision in the clear-channel case made it impossible to meet the deadline for proposed changes in the treaty, the nations are Newfoundland and Mexico. State Dept. officials said the replies of other NARBA adherents have not yet been received. These are Cuba, Canada, Haiti, the Dominican Republic, and the Bahamas.

Mexico suggested that the existing NARBA Interim Agreement, due to expire next March 28, be extended for two years instead of the 18 months proposed by the U. S. But authorities said this difference was expected to pose no problem because the new treaty probably would be made to take effect whenever ratified.

BMB to Press for Radio, TV Set Query

deploring the reported reluctance of the Census Bureau to investigate radio and television [BROADCASTING May 3] and pointed out that a 1950 survey on the subject was "important not only to broadcasters and advertisers but also to government agencies, which use radio increasingly to disseminate information."

BMB called for a mobilization of all elements of the radio industry to urge upon the Census Bureau importance of the project.

The text of the resolution adopted by the executive committee:

"Whereas wide variances exist in radio ownership by counties and as between urban and rural areas, and

"Whereas a census count of radio ownership is important not only to broadcasters and advertisers but also to government agencies, which use radio increasingly to disseminate information, and

"Whereas television, as a new radio adjunct, requires a measurement of its growth in terms of television set owners, and

"Whereas the BMB technical committee regards Census Bureau data on radio and television ownership extremely valuable in determining radio and television station audiences, and

"Whereas an increasing number

of radio and television stations require radio and television ownership data as well as BMB station audience information to guide their programming and commercial decisions, and

"Whereas a question on radio ownership having been included in the 1930 general census, the 1940 general census and the 1945 agricultural census, 1950 data would have the dual value of showing both position and trend, and

"Whereas the Census Bureau has indicated a reluctance to include a question on radio ownership in its 1950 census, now therefore be it

"Resolved that BMB request the three BMB member associations to petition the Census Bureau to include such a question, and urge their members to request the inclusion of such a question, and be it further

"Resolved that BMB request such other organizations as AMA and RMA to urge the inclusion of such a question and to solicit their members to urge the inclusion of such a question in the 1950 census."

Executive committee members at the meeting were J. Harold Ryan, senior vice president of Fort Industry Co., chairman; Roger W. Clipp, general manager of WPIL Philadelphia; Paul West, president

Long Tobey Probe Prospect Lessening

PROSPECT that the probe by Sen. Charles Tobey (R-N. H.) into RCA and FCC policies [BROADCASTING, May 3] will be long or extensive diminished last week, with latest indications pointing to a one- or two-day hearing beginning Wednesday (May 12).

C. B. Jolliffe, RCA executive vice president in charge of RCA Labs, is slated to be the main witness. He is expected to answer a series of questions propounded by Sen. Tobey at an earlier hearing in regard to patent ownership and FM policy.

Sen. Tobey, acting chairman of the Senate Interstate Commerce Committee, had given an extensive quizzing to Raymond Guy, NBC manager of radio and allocations engineering, during the closing session of Johnson Bill (S-2231) hearings. When Mr. Guy was unable to answer many of the policy questions, Sen. Tobey demanded that RCA send "somebody who knows."

RCA is also expected to furnish a list of all TV sets "on loan" to public officials. Sen. Tobey requested the list after charging that RCA had given sets to six FCC Commissioners and other staff members.

of ANA; Joseph Allen, vice president and advertising manager of Bristol-Myers Co., and Frederic Gamble, AAAA president.

NAB DISTRICT 2

Suggest Code Revisions

CHANGES in NAB's proposed Standards of Practice, including the elimination of differences between daytime and nighttime categories in limitations of advertising copy times, were recommended last week at a meeting of NAB District 2 members in New York.

The meeting, under the chairmanship of Michael R. Hanna, general manager of WHCU Ithaca, N. Y., and NAB director from District 2, was held Monday at New York's Roosevelt Hotel. A score of members attended.

Changes voted by the members in the proposed code will presumably be submitted to the NAB board by Mr. Hanna. They were:

1. To eliminate the distinction between daytime and nighttime classes in limiting time for advertising messages in programs of varying lengths. The proposed code would allow more time to commercials in daylight hours than at night. The District 2 members did not specify which of the classes they preferred to adopt as the single measure.

2. To eliminate the first paragraph under the general heading "Contests." That paragraph reads: "Any broadcasting designed to 'buy' the radio audience, by requiring it to listen in the hope of reward, rather than for the quality of its entertainment should be avoided."

3. To eliminate the last paragraph under the same general heading which, as proposed by the NAB, reads: "All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided."

Commercial Time Changes

4. To insert one word and amend another in the last paragraph under the heading "Time Standards for Advertising Copy" in the proposed code. The paragraph follows (the inserted word is in italics, the amended word, changing 10 to 15, is in quotations):

"The placement of more than one commercial announcement between two *commercial* programs should not be permitted except in those instances when one of the two announcements is a sponsored time signal, weather report, station promotion, identification, ownership or location announcement

of not to exceed a total of '15 seconds in length.'

5. To eliminate the "pledge" at the conclusion of the proposed code. The pledge, as proposed, reads: "We pledge ourselves faithfully to observe these Standards, and thus to bring our audiences programs which will perpetuate America's traditional leadership in the broadcasting art." [EDITOR'S NOTE: The pledge has been eliminated from the latest NAB version (see code story page 23).]

The action by District 2 members was regarded as a forecast of arguments to be advanced during the discussion of the code at the NAB convention.

The de-emphasis of the proposed section on contests evoked particular discussion at the New York meeting, it being argued that the paragraph concerning contests "designed to 'buy'" audiences was misleading and that any contest which entertained was good programming.

Objections raised against the "pledge" in the proposed code hinged on two points: That it was redundant and that it might be construed as an inflexible binder upon those subscribing to the code.

On other matters, District 2
(Continued on page 60)

FM—PRODUCE

Silvernail Tells FMA Region 4

FM STATIONS desiring national business must supply audience and market data comparable to that of AM stations, Frank Silvernail, head timebuyer of BBDO, New York, told the FM Assn. Region 4 meeting in Washington last Thursday (see story this page).

Talking bluntly to FM operators, many of whom are in the early audience-building stages, Mr. Silvernail said BBDO timebuyers want to know "how your cost per listener compares with your AM competitor's cost, and if there are any special advantages if the cost is higher."

He offered this timebuying formula for FM stations to use in checking their appeals:

"In any one given case, with a specific product bought by a specific type of user, distributed in a specific manner, and usually bought under specific conditions of time or place, is a specific FM station or group of FM stations the most economical, or the most

effective means of reaching the most important circulation?"

FM's two main arguments, tone quality and freedom from static, are not enough to convince timebuyers. Who must make the most efficient use of available media, Mr. Silvernail said, adding that many listeners like their old tinny sets and reminding that "we don't have thunderstorms every day."

Budgets can't grow as fast as the number of stations, he said. Going into station data, he said timebuyers have difficulty getting the number of FM sets in the area from station operators, along with listener habits, breakdowns by hours, and program diversification. Timebuyers, he said, "must know all about your coverage, circulation, sets-in-use, age, sex, income levels and similar facts."

"You are competitors not an

additional medium," he concluded.

Answering a question by Maurice Mitchell, WTOP Washington,

FM ASSN. OFFICERS of Region 4 greeted Marion Claire, WGNB Chicago, Region 3 chairman, during Washington meeting. L to r: C. M. Jansky Jr., FMA engineering counsel; Everett L. Dillard, WASH Washington and KOZY Kansas City, president; Miss Claire; Ben Strouse, WWDC-FM Washington, new Region 4 chairman.

FMA REGION 4

Coy Speaks on Duplication

POLICIES of major networks in allowing duplication of programs on FM stations may become the subject of a formal proceeding, with FCC rules amended to cover the subject, Chairman Wayne Coy told the FM Assn. Region 4 conference Wednesday at the Statler Hotel, Washington.

Speaking at a question-answer session during the opening day luncheon, Chairman Coy also indicated the FCC some day may have to act "on its own" in the matter of permitting television above 400 mc.

With the 12 channels now available, many areas will want

TV service and not be able to have it, he said. Many will want to get in the TV business but can't, he continued, with one or the other perhaps forcing experimentation in the high band.

Chairman Coy reminded that in

1945 allocations and at other times the FCC has encouraged industry experiments in the high band, but added there has been "damn little experimental work done as a result" aside from TV color work.

Comr. Coy said: Decision can be expected soon on the 44-50 mc FM band; multiple ownership of AM and FM won't come under FCC rules so long as FM broadcasters are undecided on duplication; the FCC has not been asked for its position on transit radio or aural broadcasting by TV stations. Benedict Cottone, FCC general counsel said FCC rules do not forbid aural programming if a TV signal accompanies it. Commissioner Sterling said a survey by field offices indicated there was little broadcasting of aural type (see story on FCC 44-50 mc action, page 21; TV upper band hearing, page 21).

Acting Chairman Charles W. Tobey (R-N. H.) of the Senate Interstate Commerce Committee told

(Continued on page 62)

FCC COMMISSIONERS and Acting Chairman of Senate Interstate & Foreign Commerce Committee got together at FMA convention last week. Group seated around the dinner table includes (l to

r): Leonard H. Marks, FMA general counsel; Wayne Coy, FCC chairman; Sen. Tobey; Commissioners Paul A. Walker, Rosel H. Hyde and George E. Sterling.

RIVER DIDN'T stay 'way from WMGA's door. It flowed right into the Moultrie, Ga., station's studios to a depth of eight inches. Wandell Murphy (l), commercial manager, and Tom Cowen, chief engineer, paddle up the front lawn. WMGA lost only 44 minutes of airtime despite flood.

EACH Fisher Biskit Mix boxtop means flour for Europe. Counting returns (l to r): Robert Erzinger, Fisher adv. mgr.; Jas. Abbe, AB commentator; A. Bonner, Fisher.

GETTING a lift from Ungles Baking Co. sports contract on KRNT Des Moines is Herbert B. Ungles, firm v.p. Lifter is Al Couppee, KRNT sports director.

MBS New York program clinic included (l to r) Richard Fairbanks, WIBC Indianapolis; John Lee, WROW Albany; Robert Gifford, WWSC Glens Falls, N. Y.; Ann Fleniken, WKDK Newberry, S. C.; Bob Schmid, MBS station rel. v.p.

LOOKS LIKE Gayle Grubb (l), manager of KGO San Francisco, is lobbying with Edward Arnold, ABC's "Mr. President."

THAT'S QUITE a railroad built and operated by Erle Smith, managing news editor of KMBC-KFRM Kansas City. Products advertised along road bed are station news sponsors.

DISCUSSING new GE equipment for KTNT (FM) Tacoma, Wash., are (l to r) Leonard Higgins, KTNT manager; Frank Baker, publisher, "News Tribune," licensee; George Russell, "Tribune" treasurer; J. E. Hogg, GE.

AS WORK starts on Peoria's Exposition Gardens Bob Carlton (l), announcer, and Brooks Watson, news director of WMBD, describe it.

COMMERCIALS are auditioned for National Premium and National Bohemian beer telecasts by brewery officials (l to r) Norman Almony and David Halpern, and Charles Chappell, of Owen & Chappell agency.

AL BLAND (r), program director of KMOX-CBS St. Louis, visits brother Lee, CBS special events director, before Lee's news-gathering trip to Caribbean.

PILOT Life Ins. Co. will sponsor "The Briarhoppers" on WBT Charlotte, N. C. Seated, (l to r) Keith Byerly, WBT sales manager; O. F. Stafford, Pilot president. Standing, T. H. Lind, Pilot v.p.; J. M. Waddell, Pilot v.p.; Larry Walker, WBT program director; Kurt Webster, announcer; Ken Tredwell, production chief.

CORNERSTONE layer for WPTR Albany is Leonard L. Asch, v.p. Others (l to r) W. R. David, engineering v.p.; W. Graham, construction expert; Herbert Duval, sales v.p.

CUTTING CAKE for first anniversary of WHIM Providence are (l to r) Co-Owners Robert T. Engles, general manager, and C. George Taylor, program director.

BEARD intensity measurements are taken on Al Godwin, WNDR Syracuse manager, at MBS program clinic. Eleanor Glogau, MBS press, measures growth.

CBS TELEVISION 4 Executives Promoted In Video Expansion

Mr. SMITH Mr. VAN VOLKENBURG Mr. LOWMAN

NBC Video Signs Three in Midwest

A 16-STATION NBC television network by the end of 1948, expanding to 90 stations in mid-1952, was predicted last week by Frank E. Mullen, NBC executive vice president, when he announced the signing of three Midwest affiliates to the video hookup.

Contracts were signed with KSD-TV St. Louis, WWJ-TV Detroit, and WTMJ-TV Milwaukee. Station managers are George M. Burbach, Harry Bannister and Walter J. Damm, respectively. All three outlets have parent sound broadcasting stations affiliated with NBC.

Mr. Mullen said that the Central States network, to be operating by October, will be linked with the East Coast hookup later in the fall. Other plans for 1948 call for an east coast link from Massachusetts to Virginia, and in the Central States from Missouri to Western New York, Mr. Mullen said. Both networks are to be interconnected by December through a circuit from Philadelphia through Pittsburgh to Cleveland.

By the end of 1949 Boston, Providence, Hartford in New England are to link with New York. New Hampshire and Maine stations are to be added later. In the South the line will extend through Washington into Charlotte, N. C.

Meanwhile, Mr. Mullen disclosed, interconnection will be available by October 1948 from Buffalo west through Cleveland, Toledo, Detroit, Chicago, Milwaukee, and St. Louis.

AM-TV Series

NEGOTIATIONS are almost complete for the first dual sponsorship simultaneously of AM and TV program series. Gulf Oil will present its *We the People* program, Tuesdays, 9-9:30 p.m. concurrently on CBS and WCBS-TV. Plans are tentatively aiming toward a June 1 starting date. Young & Rubicam, New York, is the agency. Dwight Weist will be the master of ceremonies on the show, with Oscar Bradley and his orchestra. Rod Erickson produces and Jimmy Sheldon directs. Same cast will be used for both AM and TV shows.

OGILBY NAMED PHILCO VIDEO SALES MANAGER

FREDERICK D. OGILBY, sales manager for the past year of Radio Division of Philco Corp., has been appointed to the newly-created position of manager of television sales, according to an announcement May 6 by John M. Otter, general sales manager of Philco.

In making the announcement, Mr. Otter said:

"With the tremendously rapid growth of the television industry, in which Philco research, engineering and production are playing a part in proportion to the \$15 million invested in television by the company since 1928, we have selected Mr. Ogilby to be responsible for the new and expanding television sales program of Philco. He will not only be in charge of receiver sales but will also coordinate the activities in television of such other departments as advertising and sales promotion."

Mr. Ogilby joined Philco in 1931. He became sales manager in Brooklyn four years later, and in 1936 was named New Jersey sales manager for the branch. The next year he was placed in charge of sales of Philco Distributors in New York.

From 1938 to 1945 he was general manager of the Philadelphia Division of Philco Distributors, and in October 1945 returned to New York as general manager of that branch.

CBS last Wednesday announced four executive promotions linked with the network's rapidly expanding television operations.

Lawrence W. Lowman, formerly vice president in charge of television, becomes a vice president and general executive. J. L. Van Volkenburg, who was director of station administration, is now a vice president and director of television operations. J. Kelly Smith, formerly director of station relations, becomes vice president in charge of station administration. The appointments were effective last Thursday, May 6.

Mr. Lowman, in addition to overall supervision of video coordination for CBS, will supervise the personnel relations, reference, and shortwave departments of the network in his new capacity.

Mr. Van Volkenburg will be responsible for all television operations, programming and sales. Mr. Smith's new duties as chief of CBS station administration will include supervision of CBS-owned stations, Radio Sales, co-operative program sales, and Housewives Protective League programs.

William A. Schudt Jr., formerly Eastern Division manager of station relations for CBS, succeeds Mr. Smith as director of station relations for the network. Edward

UNIFORM PLAN FOR TV SET COUNTING URGED

THE URGENT NEED for a uniform system of computing television set distribution figures was stressed last Thursday by Hugh M. Beville, NBC research director, at a luncheon meeting of the American Marketing Assn.'s New York chapter.

To underline this need Mr. Beville quoted figures from several industry sources for set distribution in New York and elsewhere, which varied widely.

NBC's estimate of the number of video sets now in use throughout the U. S. is 275,000, he said. Mr. Beville gauged the current set production rate at 50,000 a month, with 27 manufacturers represented. There are 130,000 home sets in use in the New York area alone, according to NBC figures, with an additional 20,000 in bars and other public places.

Figures which may disprove the contention that television is hurting attendance at sports events and movies also were cited by Mr. Beville. These, he said, show that "listener availability" for video shows is no greater, relatively, than for radio shows in the same survey area. This seems to undermine the argument that people are staying home in great numbers to see events by television, Mr. Beville said.

MAIN STUDIO of WATV Newark, N. J., now under construction, is shown in artist's conception as it will appear when operating. Gallery for audiences is at right, control rooms at left. Studio will measure 84 by 82 feet. WATV, which will be New York area outlet for many ABC television shows pending construction of ABC's New York station, expects to begin programming May 15.

FCC 'EXPOSE'

By JOE SITRICK

AN "EXPOSE" of FCC and its action in granting five permits to Edward Lamb of Toledo [BROADCASTING, April 26] will be undertaken by the House Un-American Activities Committee, Rep. F. Edward Hébert (D-La.), a member of the committee, told BROADCASTING last week.

Rep. Hébert's statement followed a long speech on the House floor in which he described the Commission's grants to Mr. Lamb as "the story of a man saturated and drenched in Communist writings, associations and affiliations, given five radio permits in a period of two weeks by FCC, which keeps untainted, red-blooded Americans cooling their heels outside their corridors, waiting for decisions and issuances of permits which are never reached."

The files of his committee, Rep. Hébert related, show that Mr. Lamb has "one of the most expansive records of association with the Communist Party in America, front organizations, and fellow travelers, of anybody to come to the committee's attention."

The Louisiana Democrat charged that testimony to that effect was given FCC "so we cannot say they did not know anything about it."

The legislator declared that FCC's action "makes me wonder just how many Edward Lambs in this country today are the recipients of such favors from the FCC, and why."

Praises Comr. Jones

Speaking of Comr. Robert Jones, a former Congressman, Rep. Hébert said that "he alone stood against these practices." Mr. Jones, he continued, "has brought clear thinking, dignity, and courage to that body (FCC) since he became a member."

Rep. E. E. Cox (D-Ga.), who headed the select committee investigation of FCC in 1944, concurred with Rep. Hébert's statements and remarked that "it looks as though you have to be a Communist to get anywhere with the Commission."

FCC Chairman Wayne Coy stated Friday an investigation found no information to support a charge that Mr. Lamb was a Communist.

Rep. Hébert told BROADCASTING that he felt exposure through publicity was the best way to handle such a matter. He said he thought he could get prompter action through the Un-American Activities Committee than through the Interstate Commerce Committee, which normally handles radio matters.

The Mansfield (Ohio) Journal, whose AM and FM applications have been given proposed denials by FCC (see story this page) has been protesting against the grants to Mr. Lamb and his associates

Promised on Grants to Lamb

[BROADCASTING, April 5].

The Catholic War Veterans, Dept. of Ohio, also has protested and has demanded an investigation [BROADCASTING, April 26].

The Erie (Pa.) Dispatch, partly owned by Mr. Lamb, has been carrying on an editorial battle with the owners of the Mansfield paper which is accused by the Dispatch of "suppressing news" and dragging in a "phony red issue to smear individuals."

Organizations associated with Mr. Lamb operate WTOD and WTOD-FM Toledo and have FM grants for Erie, Pa., and Mans-

field and Springfield, Ohio, and television grants for Erie and Columbus, Ohio.

FCC Chairman Wayne Coy said Thursday that the Commission will study Rep. Hébert's charges. He indicated that the Commission had called in the FBI in an attempt to check information or source of information "that Lamb was a Communist . . ." but failed to confirm such information.

Mr. Lamb lodged strong protests against the charges. He said the "violent falsehoods" were initiated by business competitors. Charges were described by Mr. Lamb as repetition of "rank lies."

MANSFIELD CASE FCC's Program Logs Stand Attacked

DENIAL of a newspaper's radio application because the paper refused to carry another station's program logs is a direct violation of the Constitutional guarantees of free speech, FCC was told last week.

The claim was made by George O. Sutton, Washington attorney, during oral argument on the Commission's proposal to deny AM and FM applications of the Mansfield (Ohio) Journal Co. and an AM application of the commonly owned Lorain (Ohio) Journal Co. [BROADCASTING, Jan. 19].

"Under what theory," Mr. Sutton asked the Commission, "are you the judges of what is legitimate news?"

He also maintained that FCC, in its proposed finding that the Mansfield company had sought to suppress competition, had found the firm guilty of practices which are criminal in nature and which the courts, not FCC, should handle.

In reply to this, Chairman Wayne Coy cited a Supreme Court decision which held that a licensee who violates the anti-trust laws may not continue to hold a license merely because he has not been accused and convicted in court.

Mr. Sutton also argued that

FCC has no jurisdiction over "control of the media of mass communication."

William Thomson, Mr. Sutton's associate, who also appeared for the Mansfield and Lorain companies, denied the papers had ever used exclusive advertising contracts, and claimed that opposition to their applications had come either from "disgruntled" citizens or merchants who had failed to meet their financial obligations, or from WMAN, the existing station in Mansfield.

At the outset Mr. Sutton renewed his motion, previously denied [BROADCASTING, May 3], for postponement of the oral argument pending disposition of an appeal taken by Mansfield Journal Co. in a related FM case [BROADCASTING, April 5]. The motion again was denied.

The proposed decision's anti-

MEET IN HOLLYWOOD SET BY NBC WESTERN

THREE DAY meeting of representatives of 31 NBC Western stations will convene in Hollywood, May 12, 13, 14 at the Hollywood Roosevelt Hotel to discuss programs, publicity promotion and engineering.

First day will be devoted to programs. Thomas McCray, national program manager, will discuss overall programming with emphasis upon sustaining programs and summer replacements; Jennings Pierce, public service director of Western network, will discuss public affairs and education; John Thompson, KNBC publicity and public service director, will cover news and special events as well as publicity through public service; Burton Adams, New York program department, will cover cooperative programming.

Hugh M. Beville, director of NBC research, will discuss program research Thursday, as part of the advertising and promotion workshop. The following also will be heard: James Nelson, director of advertising and promotion, will cover the types of newspaper advertising; Jacob Evans, manager of audience promotion, "The Parade of Stars for '48."

Friday: publicity workshop led by Leslie Raddatz, Western network publicity director concurrent with an engineering workshop in publicity. Thomas Knode, manager NBC press department New York, will use slides to demonstrate publicity campaigns.

pated denial of the third application in the proceeding, Fostoria Broadcasting Co.'s bid for 1510 kc at Fostoria, Ohio, was attacked by William A. Porter, Washington attorney for Fostoria. The company is owned by Laurence W. Harry, owner of WFOB (FM) Fostoria.

Hyde, Jones Dissent

The Mansfield Journal and Fostoria Broadcasting are both seeking 250-w daytime stations on 1510 kc. Lorain Journal Co. requests 1140 kc with 250 w daytime only. The two newspaper companies are owned by S. A. and Isadore Horvitz, brothers. The proposed decision, on a 5-to-2 vote with Comrs. Rosel H. Hyde and Robert F. Jones dissenting, concluded that all three applications should be denied and that the denial should extend also to the Mansfield Journal's FM application.

Meanwhile, FCC last Monday filed a motion to dismiss the Mansfield company's appeal to the Court of Appeals for the District of Columbia from the Commission's Jan. 10 actions severing and granting the Class B FM application of WMAN Mansfield while leaving, for independent consideration, the Mansfield FM bids of

Drawn for BROADCASTING by Sid Hix

"Sorry, Mr. President, but Senator Tobey says your loan time is up."

Va.; Gary Weigand, KSTP St. Paul; Betsy Pitt, Radio Service, USDA; Miguel Lopez, Puerto Rico Extension Service; Howard Kany, PA, Washington; Howard Hill, Iowa Farm Bureau; Keith Himebaugh, Dir. of Information, USDA; Dana Reynolds, Radio Service, USDA.

COVERAGE SERVICE

Listening Area Index Offered

A NEW C. E. Hooper Inc. service for stations, the "Listening Area Coverage Index," was announced last week in New York.

The new service, whose technique is fundamentally not unlike that which Mr. Hooper offered to conduct for Broadcast Measurement Bureau last summer, is available to individual stations and was described by Mr. Hooper as an extension of the Hooper city ratings now available in 86 cities.

The Listening Area Coverage Index, Mr. Hooper said at a news conference, is a "measure of the distribution of the audience to respective stations."

It is developed solely by mailed ballots, distributed in proportion to radio families distribution in whatever area the client station desires to measure, Mr. Hooper said.

It extends Hooper measurements of station audience distribution outside city limits, to which his station data have heretofore been confined by his coincidental telephone technique.

Recipients of the ballots are asked: "To what station do you and your family listen most frequently or the most time?" Tabulations of the responses, which must average 55% return to be statistically reliable, according to Mr. Hooper, show a "percent of mentions" which can be quoted for an entire area under survey or for individual counties or localities.

The area to be measured is selected by the client station, Mr. Hooper pointed out. Observers noted that the Hooper system does not seek to measure the total effective coverage of a station but only its audience distribution in areas which the station wishes to survey.

The measurements for any station may be made as frequently as the station desires, Mr. Hooper said. The precise time at which ballots are mailed, however, is controlled by the Hooper firm to minimize the chance of developing inflated ratings which might occur if ballots were out coincidentally with a particularly popular program feature, like the World Series.

The presentation which Mr. Hooper made to BMB last summer differed from the Listening Area Coverage Index in that the former would attempt to define limits of coverage. The Hooper proposal to BMB contemplated mailing ballots throughout the nation.

To serve individual clients, Mr. Hooper pointed out last week, "we have to look to some other authority for station contours." The authority which the company is accepting in its area index is the station itself.

Thirteen Listening Area Coverage Indexes have been completed or are in progress, Mr. Hooper said. He specifically mentioned two which were completed for WBEN Buffalo and WHO Des Moines. He surveyed eight counties for WBEN and 116 counties for WHO.

Mr. Hooper said the minimum rate for the area index was \$375. He charges \$2 for each mail ballot over 259, he said.

The Listening Area Coverage In-

AP Honors KSD

NO. 1 RADIO certificate of associate membership in the Associated Press, heading a list of 809 stations thus far granted such memberships, has been issued to KSD St. Louis. The certificate was issued to KSD because it was the first station to contract for regular AP service for commercial use and in appreciation of the cooperation given the AP in establishing its service. KSD began using AP dispatches on a commercial program basis in October 1935.

dex presentation will be made by the Hooper firm twice daily in its Biltmore Hotel suite in Los Angeles during the NAB convention.

Transfer Now Completed; WOOD to Grandwood

WXYZ Inc. Detroit, an ABC subsidiary, and Grandwood Broadcasting Co. last week completed the transfer of WOOD Grand Rapids, Mich., to Grandwood Broadcasting Co. ABC had acquired WOOD and WXYZ in 1946 with the purchase of the King-Trendle Broadcasting Corp., later named WXYZ Inc.

FCC approved the acquisition with the provision that the network later divest itself of WOOD. WXYZ Inc. was partially liquidated, with stock worth \$850,000 being turned over to the minority stockholder, the Grandwood Broadcasting Co. WOOD manager is Stanley Barnett.

RADIO GIVES ECONOMY OF U. S. LITTLE PLAY

NOT MORE THAN 10% of radio facilities are being utilized to increase public understanding of the nation's economic system, according to speakers at last week's three day seminar in New York, sponsored by the joint committee of the Assn. of National Advertisers and the American Assn. of Advertising Agencies.

Ken Wells, the committee's director of operations, in summing up the sessions, declared that almost every community is expected to intensify its use of the media. For example, he said, the third day's session in a forum in Somerset County, N. J., will be aired in the *Town Meeting of the Air* series, to be broadcast on ABC June 22, 8:30-9:30 p.m. Civic, social, business, religious, labor and industrial organizations of Somerset County will sponsor the forum.

About 60 representatives from 40 companies attended the "test" seminar. The joint committee was formed last year to increase knowledge of the economic system. Problems of disseminating ideas and techniques which industries can apply to broaden employe and community understanding of their operations were stressed during the seminar.

CBS Dividend

THE CBS BOARD last week declared a cash dividend of 50 cents a share on the present Class A and B stock of \$2.50 par value. The dividend is payable June 4, 1948, to stockholders of record at the close of business May 21, 1948.

PRINCIPAL SPEAKER at IER's annual dinner May 2 was Dr. Brock Chisholm (r), executive secretary of the United Nations World Health Organization and a prominent Canadian psychiatrist. Dr. Chisholm was introduced by Olga Druce of Benton and Bowles.

FCC COMMISSIONER DURR was honored May 2 at Ohio State U. when Dr. I. Keith Tyler (r), director of the IER, gave him a lifetime membership in the institute on the occasion of Mr. Durr's retirement from FCC.

IER

By BILL THOMPSON

THE SHOT in the arm needed to revitalize a weak and ailing Ohio State U. Institute for Education by Radio was unfortunately late in arriving. It came May 2, and, ironically, not in a speech of a broadcaster, but from Dr. Brock Chisholm, executive secretary of the United Nations World Health, and a leading Canadian psychiatrist.

Dr. Chisholm sparked the closing sessions of the April 30-May 3 Columbus meeting with a stimulating rebuke and a challenge to irresponsible broadcasters to recognize the importance of their words that travel over a medium that covers the world. (See story page 58.) He was accorded a rousing ovation.

It was difficult to diagnose the chronic languor that hung over the institute previous to the Sunday night meeting.

It was not the fault of a panel

Chisholm Scores Irresponsibility

of six producers, headed by Ted Cott, director of programs of WNEW New York. At the institute's opening session, this group chided the "educators" unmercifully, yet drew no fire from the floor.

Nor was the Committee on National Organizations to blame because the institute's earlier sessions fell flat. This group, headed by Lucille Clarke, radio chief of the Red Cross (North Atlantic Area), decided after seeing advance prints of the institute program that television was not given sufficient play. On short notice, the committee imported Paul Mowrey, ABC's director of television, and Albert G. Zink, program supervisor of WRGB Schenectady to discuss TV as a new factor in interpreting community agencies.

Apparently, the program drafters had assumed television has not yet arrived, for only a pre-conference TV session originally was scheduled. Asked about this reluctance to welcome television into

the radio family, Dr. I. Keith Tyler, director of the Institute, promised "it will be a different story next year."

Dr. Tyler, in a move not included on the agenda, presented FCC Comr. Clifford J. Durr, with a special citation on behalf of his long support of the IER. His statement at the annual banquet May 2 follows:

"Through the press we have all been informed that Clifford J. Durr has seen fit not to accept reappointment as a Commissioner of the Federal Communications Commission. This, then, is the last Institute which Commissioner Durr will attend in his official capacity. I think I speak for all Institute members in expressing the hope that he will continue to attend and participate as an individual in future Institutes.

"It seems to me highly appropriate to express at this time the sentiment which I believe is shared by all who have known Clifford Durr and observed him in action here at these annual meetings. His contribution to clarity of thinking has been immeasurable. His courage and integrity, his willingness to 'stick out his neck' on matters of belief and conviction have won the respect and admiration of all whether or not they share his views. His deep devotion to the democratic process of discussion has been constantly exemplified by his own unstinted participation in innumerable sessions here. The many friends and admirers whom he has won by his activities here will not lightly face the prospect of future Institutes without Mr. Durr.

"Therefore, on behalf of the Institute for Education by Radio, I am happy to present to retiring Commissioner Clifford J. Durr this lifetime membership in the Insti-

tute. It conveys respect, admiration, and warm appreciation of past performance and a fervent hope that it will encourage future participation in these annual meetings."

Comr. Durr's reply was brief: "The appreciation you've shown me goes far beyond what I deserve. If it had not been for this Institute, my life on the FCC would have been more placid. Ever since I first came to the Institute for Education by Radio and learned of your problems, I've been in trouble.

"But I assure you I haven't been bored."

IER awards were announced Friday at the 12th American Exhibition of Educational Radio Programs. (See awards, this page.)

Highlights of each day's institute sessions follow:

FRIDAY

Nathan M. Rudich, director of television, Gainsborough Assoc., told a pre-conference TV forum that development of the video art will lead to decentralization of the theatre away from New York and Hollywood. "Here's an opportunity for communities to set up professional companies of players and musical units that will find great support through appearances on local TV stations, paid for by local sponsorship, receiving the benefits accumulated by local promotion and publicity via the very same performances they do on TV," he explained.

Mr. Rudich warned educational broadcasters not to be "caught short" by failing to prepare at once for utilization of TV.

TV personnel problems were discussed by Martin Gosch, producer of the CBS television show *Tonight on Broadway*, who pointed out that radio, stage, or motion picture backgrounds, by themselves, are "pitifully inadequate."

Mr. Gosch recommended taking the present television director out from behind the master-control panel and putting him in the studio "where he belongs."

"In order to replace him, we

(Continued on page 56)

Awards at 18th Annual IER, Ohio State U.

National Networks and Organizations

(Network Awards, BROADCASTING, May 3)

Religious—"The Eternal Light" (NBC). "The Greatest Story Ever Told" (ABC). "Family Theatre" (MBS)—all first awards.

Agricultural—"The Garden Gate" (CBS) and "National Farm and Home Hour" (NBC)—both first awards.

Cultural—General—"CBS Is There" (CBS)—first award; "State 48" (CBC) and "Quiet Please" (MBS)—honorable mention.

Cultural—Musical—No first awards, due to these facts: (1) The educational potentialities of radio in the field of music are not being realized fully; (2) Programs are not always designed for radio, but are regular concert programs picked up for broadcast; (3) Some of these programs, while high in the field of entertainment, are not considered as

contributing to education in the field of music; (4) The scheduling of certain programs either at unimportant radio times or around midnight in certain localities is considered detrimental. "NBC Symphony Orchestra" and "Orchestras of the Nation" (both NBC)—honorable mention.

Public Affairs—"Doorway to Life" and CBS Documentary Unit Series (both CBS)—both first awards; MBS Documentary Programs (MBS)—honorable mention; Howard K. Smith from London (CBS) and "The United Nations Today" (United Nations Network for Peace)—both special citations.

Children's Programs—"Magic Adventures" (CBC) and "Melody Theatre" (MBS)—both first awards. "Tales of Adventure" and "Let's Pretend" (both CBS), "The Story to Order" (NBC), and "Adventure Parade" (MBS)—all honorable mention.

One-Time Broadcasts—"The Friend

(Continued on page 56)

TELEVISION was discussed by this trio at a pre-conference session of the IER. Nathan M. Rudich (center), director of television of Gainsborough Assoc., is describing a miniature TV studio setting to Martin Gosch (r), producer of the New York television show "Tonight On Broadway," and Milton S. Allison of WLWT Cincinnati, the Crosley TV station.

Always good for a laugh!

This is a "bread and butter" shot for a professional photographer. Newspapers and magazines always buy them . . . because they're always good for a laugh.

We know another item that's always good for a laugh.

That's the coverage figures some high-wattage stations get out.

According to some we've seen, only two-headed idiots listen to any station but theirs!

What a joke!

What an *expensive* joke for buyers who fall for it!

We don't claim everybody in Baltimore listens to W-I-T-H all the time.

But we do claim this: *W-I-T-H delivers more listeners-per-dollar than any other station in town!*

It costs you less . . . to sell more . . . on W-I-T-H! W-I-T-H is the big independent with the BIG audience! So if you're looking for *low-cost* sales in the nation's 6th largest market, get in touch with your Headley-Reed man today.

RCA INCOME

Shows 15% Increase Over Last Year

A 15% INCREASE in consolidated gross income of RCA in the first quarter of 1948 compared with a similar period last year was reported by Brig. Gen. David Sarnoff, president and chairman of the board of RCA, at a stockholders' meeting May 4 in New York.

Gen. Sarnoff also outlined the progress and future plans of RCA, emphasizing the rapid expansion of television manufacturing and operations.

Consolidated gross income of the company in the first three months of 1948 was \$88,053,297, or \$11,493,201 more than the \$76,560,096 income in a similar period in 1947. In the first quarter of 1948 profit before federal income taxes was \$9,631,498. Net profit after taxes was \$5,764,498, an increase of \$1,084,433, or 23% over the same period of 1947.

Earnings per share of common stock in the first quarter of 1948 were 36 cents, compared with 28 cents per share in the first quarter of 1947.

Gen. Sarnoff reported that the demand for television sets continued to exceed supply, despite expansion of manufacturing facilities.

He announced that the 16-inch television picture tube, which will "supplement" the 10-inch direct viewing tube now used in most RCA television sets, will be introduced "late this year." The new tube is a metal kinescope. Its development, although reported early this year, has not been widely publicized.

RCA is continuing vigorous scientific research, Gen. Sarnoff said, and has "commenced work in atomic physics because it is related to electronics."

"Our men of science are keenly interested not only in the electron, which to a great degree they have harnessed," he said, "but also in the atom, which holds such fascinating promise as a new form of energy."

Nuclear Energy

It is possible, he said, that nuclear energy may become an important source of power in communication.

"It is no idle dream to envisage that radio sets of the future may take their power from tiny capsules of atomic energy," he said, "or even from small particles of such material."

"Should this miniature power supply become possible, smaller and more compact radio and television sets may be built."

As for television, he said, its "outstanding advances" had "amply justified the optimism expressed at our meeting last year and on other occasions."

"As the years pass," said Gen. Sarnoff, "we shall witness the gradual fusion of sound broadcasting with television, just as sight and sound combined in motion pictures. While television continues to extend its operation, sound

broadcasting alone will continue to serve millions of people. There is need and opportunity for both.

"Ultimately, however, the majority of the 37,000,000 American homes now equipped with radio sets should also have television. Television holds the greatest promise for the future of radio."

Gen. Sarnoff spoke of the also rapid, but less spectacular development of FM. He pointed out that about 50 new FM stations per month were developing. RCA, he said, had delivered 167 FM transmitters and had orders for 138 more.

The financial report of NBC, RCA's broadcasting subsidiary, for the first quarter of 1948 was included in the consolidated report of RCA but not revealed individually.

NBC's 1947 Volume

Gen. Sarnoff in his report said, however, that NBC's business volume in 1947 was the largest in its 21-year history. An independent report, issued by the network, announced that the principal reason for increased time sales in 1947 was a boost in the number of affiliated stations carrying network programs.

The average number of stations employed by network sponsors was 134, as compared to 127 for 1946. For daytime programs the figure was 119, against 102 for 1946. Commercial programs occupied 51.8% of program hours last year, with the remaining 48.2% devoted mostly to public affairs, news, music, religion and education.

A special review, prepared by Horton Heath, NBC director of information, includes a report of the industry-wide code of good practice promoted by President Niles Trammell. Sections also were devoted to the growth of television, network employees and management, program highlights in 1947, etc.

Of the approximate 7447 hours of network programs broadcast in 1947, 36.9%, or 2746 hours, were devoted to musical programs. Drama placed second in the list with 2013 hours, or 27%, and news and special events, third, with 1191 hours, or 16%.

Copies of the review were mailed last week to all network officials and employees, affiliated stations, clients, advertising agencies, members of Congress, libraries, etc.

FACSIMILE newsroom of the Philadelphia Inquirer has been moved from its original location in the Inquirer Bldg. to the site of the main offices and studios of WFIL in the Widener Bldg.

Russia Up to Old Tricks at HF Meet

Soviet Group Balks on Question Of Channel Priorities

RUSSIAN delegation has attempted to set up roadblocks or most major issues which have arisen thus far in the High Frequency Broadcasting Conference at Geneva, with the question of priorities as one of the principal problems, according to reports from the conference last week.

The Russians are insisting that national service be given priority on the channels, in order to use high frequencies instead of the domestic band for coverage of the extensive areas of Russia. The U. S., on the other hand, claims these frequencies should be used for international broadcasting. The French want priority for colonial services.

Soviet Cooperation

The reports said Soviet uncooperativeness has been evidenced most by USSR Delegation Chairman Oleg Macarov in formal meetings, but that the Russian delegates have been cooperative and congenial in the "working groups" and in outside contacts.

Among the Russian demands—both defeated 4-to-1 on U. S. resolutions—have been insistence on unanimity on all decisions, and a procedure whereby decisions would be reached only in plenary sessions.

The Soviet group also has submitted its own proposals with respect to engineering standards while the four other nations—U. S., United Kingdom, France and India—are adhering to the Atlantic City standards.

Forney A. Rankin, associate chief of the State Dept.'s International Broadcasting Division heads the U. S. delegation and has led in debates with Chairman Macarov of the Soviet delegation.

The conference is preparing a proposed high-frequency allocation plan for submission to the Mexico City Conference which convenes in October.

WHAT'S NEW IN TELEVISION?
Take a Look at WPTZ!

Many
Happy
Returns,
**HANDY
MAN!**

Just a year ago Jack Creamer, the Handy Man, pushed his fix-it cart onto the Gimbels' set for his first telecast over WPTZ, Philadelphia. The anniversary is something of an event because very few television programs—certainly none in Philadelphia—have run 52 consecutive weeks on the basis of same time, same station, same show and same sponsor.

The longevity of the Handy Man program is undoubtedly a direct result of the returns that the program has produced for Gimbels... returns that have made the Handy Man program an industry-wide success story. Time after time his merchandise demonstrations have sold Gimbel Brothers out of stock—to the point that a sell-out is no longer news.

In renewing the Handy Man contract on WPTZ, David Arons, Gimbel Brothers' publicity director made a statement that may become something of a milestone in development of commercial television:

"Gimbels is through experimenting in television," he said, "we are now buying television as an advertising medium."

We'd like to put WPTZ's experience and facilities to work doing the same kind of job for you. Drop us a line—you'll be interested in what WPTZ and the television audience in Philadelphia have to offer.

PHILCO TELEVISION BROADCASTING CORPORATION

WPTZ

FIRST IN TELEVISION IN PHILADELPHIA

Stars like Paul Muni in
"The Amazing Dr. Clitterhouse"...
James Mason in "Painted Veils"...
Dane Clark in "Golden Boy"...
Madeleine Carroll in "Farewell to Arms"...
these and many others are stars
for "Studio One." All are chosen from
the top ranks of stage and screen...
all are able to lend added lustre
and meaning to the show in
"Studio One," whether it's a classic
charmer like "Pride and Prejudice"
or a fast-paced modern tale like
"Young Man of Manhattan."

Glossy perfection of "Studio One" comes from surrounding
the distinguished guest stars with a supporting cast
invariably made up of radio's ablest, most polished performers.

This is Big Radio

*...for an advertiser whose product
is also the best of its kind*

Every week, some 9 million people tune right past top-rated Tuesday-night comedy to find their way to "Studio One."

Today "Studio One" is not only Radio's top dramatic show available for sponsorship, but also one of the most rewarding programs at any time on anybody's air.

For this is indeed Big Radio...big stars and big stories, and performance and production that week after week come comfortably close to perfection.

Within the framework of a full hour, "Studio One" is able to bring to the air the much-loved novels and plays that radio's always wanted to do but seldom can... the stories that are too big and too powerful for anything *but* a full sixty minutes of radio.

And by some sort of magic, probably known only to brilliant director-producer Fletcher Markle and his writing and acting company, these stories come out pure Radio, with a brilliance of polish and dramatic rightness that make millions of people, every week, glad that they listened.

To an advertiser whose own product is best of its kind, there could be no better showcase, no more effective background for selling, than a radio show which is also best of its kind.

A CBS PACKAGE PROGRAM

*Critics go out of their way
to heap bouquets on the
perceptive musical settings of "Studio One."
Responsible party is Alexander Semmler,
for years one of radio's top composer-conductors.*

*He hates to have people call him a "genius," but
they go on doing it, because he's Fletcher Markle,
writer, producer, director, actor...and good!*

**THE BROADCASTERS' CREED
WE BELIEVE**

That the American Broadcasting is a living symbol of democracy; a significant and necessary instrument for maintaining freedom of expression, as established by the First Amendment to the Constitution of the United States;

That its influence in the arts, in science, in commerce and upon the public welfare, generally, is of such magnitude that the only proper measure of its responsibility is the common good of the whole people;

That it is our obligation to serve the people in such manner as to reflect credit upon our profession and to encourage aspiration toward a better estate for all mankind; by making available to every person in America, such programs as will perpetuate the traditional leadership of the United States in all phases of the broadcasting art.

Text of Restyled NAB Code

(See Story Page 23)

That we should exercise critical and discerning judgment concerning all broadcasting operations, to the end that we may, intelligently and sympathetically:

Observe the proprieties and customs of civilized society;

Respect the rights and sensitivities of all people;

Honor the sanctity of marriage and the home;

Protect and uphold the dignity and brotherhood of all mankind;

Enrich the daily life of the people through the factual reporting and analysis of the news, and through education, entertainment and information, by the full and ingenious use of man's store of knowledge, his talents and his skills;

Provide for the fair discussion

of matters of general public concern; engage in works directed toward the common good; and volunteer our aid and comfort in times of stress and emergency;

Contribute to the economic welfare of all, by expanding the channels of trade; by encouraging the development and conservation of natural resources; and by bringing together the buyer and seller through the broadcasting of information pertaining to goods and services.

THEREFORE:

As a guide for the achievement

Standards for broadcasting can never be final or complete. It is a creative art still in the process of development, and as such it must always seek new ways to achieve greater advances. Therefore, any standards promulgated must be subject to change.

of our purposes, we subscribe to the following:

NEWS

News reporting should be factual, fair and without bias. Commentary and analysis should be clearly identified as such.

Good taste should prevail in the selection and handling of news. Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be broadcast in such a manner as to avoid panic and unnecessary alarm.

Broadcasters should exercise due care in their control and supervision of content, format, and presentation of news, commentary, and news-analysis broadcasts originated by them; and in their selection of newscasters, commentators and analysts.

Broadcasters should exercise particular discrimination in the acceptance and placement of advertising in news programs. Such advertising should be appropriate to the program, both as to content and presentation, and should be distinctly set apart from the news content.

In programs of news, news commentary and news analysis which are less than ten minutes in length, no more than two commercial announcements should be used and they should be given at or near the beginning and end of the program.

Agricultural and market newscasts should be governed by the same general standards applicable to news broadcasts.

POLITICAL BROADCASTS **

Political broadcasts, or the dramatization of political issues designed to influence an election, should be properly identified as such.

PUBLIC AFFAIRS AND ISSUES

A broadcaster, in allotting time for the presentation of public questions, including those of a controversial nature, should use his best efforts to insure fair presentation. Such time should be allotted with due regard to all other elements of balanced program schedules, and to the degree of interest on the part of the public in the questions to be presented.

Discussions of controversial public issues should be presented on programs specifically intended for that purpose, and they should be clearly identified as such.

The presentation of controversial public issues should be made by properly identified persons or groups.

Broadcasts of controversial public issues should be free from censorship, but the right should be reserved to refuse them for non-compliance with laws such as those

(Continued on page 51)

** Because of the present confusion concerning the laws with respect to political broadcasts, broadcasters are advised to consult their lawyers in all cases where they have the least doubt as to the proper method of handling.

Loucks & Scharfeld Plan Own Practices

13-Year Partners Are Continuing Radio Law in D. C.

PLANS for the establishment of separate law offices by Philip G. Loucks and Arthur W. Scharfeld, partners in the Washington radio law firm of Loucks & Scharfeld for the last 13 years, were announced last week, effective June 1.

Mr. Scharfeld is withdrawing from the firm to set up his own practice, while Mr. Loucks is forming a new firm of Loucks, Zias, Young & Jansky, composed of himself and the remaining associates of the present organization: Joseph F. Zias, Verne R. Young and Maurice M. Jansky.

Mr. Loucks' new firm will have offices in the American Bldg., 1317 F St. N.W., while Mr. Scharfeld will retain the present firm's quarters in the National Press Bldg., 14th and F Sts.

Mr. Loucks has been engaged in radio practice in Washington for the past 20 years, except for a five-year period in which he served as managing director of the NAB (1930-35). He also served as general counsel of FM Broadcasters Inc. from 1940-45, is a past president of the Federal Communications Bar Assn. and an associate member of the Institute of Radio Engineers.

In Old FRC

He and Mr. Scharfeld, who served in the law department of the old Federal Radio Commission from 1928 to 1930, when he began private practice, formed the partnership of Loucks & Scharfeld in 1935. During World War II, Mr. Scharfeld served in the Army's Military Government branch, assigned to the Target Force. He spent almost two years in Europe, attaining the rank of major. In the early 1930's, he was editor of the *Journal of Radio Law*.

Mr. Zias, who covered the Supreme Court for the *U. S. Law Week* for a year after graduating from George Washington Law School in 1936, has been with Loucks & Scharfeld since March 1937 except for four and a half years in the Navy as special assistant to the Chief of Naval Commun-

PHILLY STRIKE

MEMBERS of the engineering staff of the *Philadelphia Inquirer* stations—WFIL-TV WFIL-FM and WFIL Facsimile—went out on strike at 1:19 p.m., Saturday, May 1, and engineers were still deadlocked.

The engineers, members of the American Communications Association (CIO), put pickets at the central city studios in the Widener Building, at the television studios at 45th and Market, and at the WFIL transmitter at Whitmarsh. Meanwhile the stations, with some departures from schedules, were able to continue on the air with executives serving as engineers. The union charged in leaflets given out by pickets, that workers have been hired from outside Philadelphia to serve as strikebreakers. No comment on the latter charge was made by the stations.

Roger W. Clipp, general manager of WFIL stations, attributed the strike to jurisdictional difference between the CIO union and Local 804 of the Television Broadcasting Studio Employees, an affiliate of the International Alliance of Theatrical Stage Employees and Motion Picture Operators (AFL). Management takes the position it can not legally enter into a contract with either union until the National Labor Relations Board has determined which represents a majority of the engineers.

Said the company statement:

This is strictly a jurisdictional dispute between the two unions, each of which claims to represent our engineering staff; consequently WFIL is involved in a jurisdictional dispute over which it has no control.

We have offered a deal with which ever union is properly certified by the board as the bargaining agency of our engineering staff. We further offered in the presence of Federal Mediator Thomas Martin to guarantee our employees no loss of wages as a result of any delay which might occur, regardless of which union ultimately was designated by the board as the bargaining agency.

The ACA, on the other hand, has claimed that there is no bona fide jurisdictional issue involved. It claims that there is no question of which union represents all the men since the entire engineering staff of 43 walked out of control room. The ACA claims that in 1936

ications in which he reached the rank of lieutenant commander.

Mr. Young, a 1938 graduate of Washington College of Law and later a postgraduate student of administrative, communications and labor law, was minute clerk of the Federal Radio Commission and FCC from 1931 to September 1935, when he resigned to become associated with Mr. Loucks.

Mr. Jansky, whose background includes engineering as well as legal training and practice, graduated from the U. of Wisconsin Law School in 1938 and has been with Loucks & Scharfeld since July 1945. He formerly was engaged in law practice with other Washington firms and served as an attorney with the Interior Dept.'s Bureau of Reclamation.

Engineers Still Out At WFIL Stations

★ it was certified as the bargaining agent, that it has continued to be so ever since and that in fact it does represent all the engineers.

The union claimed the issue involved is wages. William Bender, International representative of Broadcast Local 1, ACA, said negotiations started 70 days before the strike, that demands were made to obtain \$75 to \$130 weekly in a four-year progression for the engineers, who currently make \$57 to \$97 over eight years. These figures the company has confirmed.

Bender Statement

Mr. Bender stated, however, that the demands were for bargaining purposes, asserting that such demands also were made on six other Philadelphia stations, five of which settled for a top of \$105 over a six-year progression while the sixth settled for \$107 over a six-year progression. WFIL stations, on the other hand, never made any offer although a promise was made that it would, Mr. Bender stated. Failure to make offer after the contract ran out caused the strike, the union said. The company disputes that no offer was made.

The strike is believed the first against a television and facsimile operation. Effect on operations has not been so drastic as might have been expected, although some changes and improvisations have had to be made by management to keep operating the facsimile operation.

NEWS SERVICE

BOARD of directors of Chicago's City News Bureau has given the green light to a proposed plan whereby it would furnish local news coverage to Chicago radio stations. Right of way followed the completion of a three-month's survey by CNB to determine several factors relative to setting up such a service [BROADCASTING, Feb. 9].

Art Kozelka, assistant city editor of the 58-year-old bureau, who undertook the survey at the request of WBKB, Balaban & Katz TV station, currently is calling on station prospects. Pertinent data on individual stations will be submitted to the board this week, Mr. Kozelka said.

Meanwhile, Richard Finnegan, editor of the *Sun-Times* and CNB board chairman, said the plan is "still in the exploratory stage" pending presentation of Mr. Kozelka's report.

CNB's decision to go ahead on the plan was believed to have been prompted by a disclosure last week that Community News Service was viewing along similar lines. Earl

Ad Award Contest Includes 41 Entries

TV Group Entered in Chicago Club's Competition

TOTAL of 41 entries—four of them in the television category—have been submitted in the sixth annual advertising awards competition held by the Chicago Federated Advertising Club, it was learned last week. Awards will be made May 27 [BROADCASTING, April 19].

In the television group competitors include one station—WBKB, Balaban & Katz Chicago outlet—and three agencies—Burton Browne Advertising, J. R. Pershall Co., and Reincke, Meyer & Finn Inc. Deadline for entries in the group was extended from April 30 to May 5.

Aural radio awards will be made to winners in each of three classifications. Breakdown of entries is as follows:

Programs—drama, variety and music (15); special features (12); spot announcements (10).

Partial list of entrants includes: network and station—ABC, WMAQ, WBBM; agencies—J. Walter Thompson Co.; Mitchell-Faust; Foote, Cone & Belding; George H. Hartman Co.; Earle Ludgin & Co.; Needham, Louis & Broby; Schwimmer and Scott; Kuttner and Kuttner, and Olian Advertising Co. (of St. Louis); department store—Wieboldt's.

The CFAC competition differs from that of last year when 15 citations, including special awards and honorable mentions, were passed out, with distinctions drawn between Chicago-originated network and local programs in the drama and variety groups. This year Chicago radio, listed in two of the eight divisions set aside, is eligible for four of the 29 awards.

Entries were accepted for all advertising produced in the Chicago area between January 1947 and April 30, 1948.

CNB Coverage Survey Proves Favorable

CITY NEWS BUREAU has given the green light to a proposed plan whereby it would furnish local news coverage to Chicago radio stations. Right of way followed the completion of a three-month's survey by CNB to determine several factors relative to setting up such a service [BROADCASTING, Feb. 9].

★ Bush, a CNB alumnus operating CNS, told BROADCASTING he has arranged to furnish WBBM and WIND with news for one month on a "trial basis." CNS expects to announce signing of three more shortly and seven in all by the end of May [BROADCASTING, May 3].

Dudley Williamson

DUDLEY WILLIAMSON, 45, m.c. of MBS *What's The Name of That Song* program, died May 2 of a heart attack at the home of friends at Lido Beach, Calif. Mr. Williamson lived at Huntington Beach, Calif., with his wife, Rita, and a daughter, Lane, 8, who survive him. As he had requested, money for flowers was sent to American Heart Assn.

Mr. Scharfeld (l) and Mr. Loucks.

INK SPOTS

And Sen. Johnston Doesn't Remember Applications

SEN. OLIN D. JOHNSTON (D-S. C.) told BROADCASTING last Wednesday that he doesn't remember and has "nothing to do" with the applications of Southern Broadcasters Inc. for a combined FM-TV station at Richmond, Va. He said he did not recall signing the letter of transmittal to FCC which bears his name and accompanied the video request [BROADCASTING, April 19].

But York L. Wilson, Washington business consultant and secretary and part owner of the radio firm, indicated Thursday that he thought the Senator might have been forgetful. Mr. Wilson said he would visit the Senator, refresh his memory and secure a letter of explanation if necessary to clear up the mounting confusion in the matter. The Southern Broadcasters representative emphasized his desire to protect all innocent parties in the situation and said if his firm made a mistake at all it was "of the head and not of the heart."

Mr. Wilson deplored the "unethical conduct" of certain interests which he claimed have been spreading misleading allegations concerning the case during the past week.

The misunderstanding appeared to stem from markings upon the television application and on a request to modify the permit for FM station WRMV Richmond, owned by Southern Broadcasters. On both requests a typewritten designation that Sen. Johnston was legal representative for the radio firm is stricken out by hand in ink. The same correction is also upon duplicates of both applications as well as over two photostatic copies of the FM modification request.

Wilson Version

According to Mr. Wilson, Sen. Johnston had said he would be glad to transmit the applications to FCC for the firm and so when they were ready on April 8 the documents were taken to the Senator's office. It was here, Mr. Wilson explained, that a stenographer's error in inserting the name of Sen. Johnston as legal representative was caught and the questioned correction made. He reaffirmed that the Senator was not legal representative.

Mr. Wilson said the record would speak for itself and that he expects to have the matter of confusion or controversy "settled" before the TV request goes into hearing before FCC with other pending competitive applications.

He acknowledged that a great amount of detailed matters flows over a Congressman's desk and that there is a high chance of not remembering some things.

Sen. Johnston said he knew the principals of Southern Broadcasters Inc. as they were from South Carolina, but that he did not talk with them or see them regarding the applications. He indicated that, as many similar matters do, the documents may have come to his office by mail and that his staff perhaps prepared and signed the

★ routine letter of transmittal to the Commission.

The Senator unequivocally emphasized regarding the filing of the application: "I am not connected with it; I have nothing to do with it; I am not a stockholder; I am not their legal representative, and I don't remember seeing the application."

Southern Broadcasters' television request at Richmond is for Channel 8 (180-186 mc) with 18.5 kw visual and 19.3 kw aural power. The WRMV modification requested is a change in frequency from Channel 295 (106.9 mc) to Channel 225 (92.9 mc) to effect a better triplex operation of the FM and TV outlets.

Principals in the firm are:

Richard R. Hutcheson, owner and director of The Washington (D.C.) Academy of Speech, president and treasurer; York L. Wilson, business consultant, secretary, and William H. Brawley, Federal Trade Commission investigator, vice president.

Firm has authorized 10,000 shares 5% cumulative preferred stock, \$10 par, not yet issued; 8,000 shares Class A common voting stock, \$2 par, with 5,200 shares issued, and 72,000 shares Class B common non-voting stock, \$2 par, with 20,710 shares issued. Dr. Hutcheson holds 1,750 shares Class A (21.9%) and 6,584 shares Class B. Mr. Wilson holds 3,500 shares Class A (43.7%) and 13,166 shares Class B while Mr. Brawley has subscribed to 833 shares of A and 7,500 shares B.

According to the application the common stock is being offered in units of 100 shares (4 shares A, 96 shares B) as reported in a prospectus dated Dec. 8, 1947. Price of the unit is \$267 with 20% or \$53.40 payable down and a balance of \$233.36, including 6% interest sum of \$19.76, payable in 36 monthly installments of \$6.48. The application listed names of eight parties holding 100 share units and one party holding a 50-share unit. Subscribers listed covered four 100-share units and 11 50-share units.

Messrs. Hutcheson and Wilson also hold interests in Cincco Broadcasting Co., conditional grantee of WOYO (FM) Cincinnati, and Tropical Broadcasting Co., conditional grantee of WFYE Miami, Fla. Mr. Wilson's sister, Fannie B. Wilson, is owner of WMFI (FM) Memphis, Tenn. Mr. Hutcheson is interested in Mansfield Broadcasting Co. Inc., AM applicant at Mansfield, Pa.

Things that make KGNC
the *Tuned-in* station
throughout the fabulous Panhandle...

If you live in New York, Chicago or Los Angeles you probably never heard of Uncle Jay.

But just ask anyone in the Panhandle of Texas, Eastern New Mexico, Western Oklahoma or Southern Kansas if they know Uncle Jay and they'll likely spend the next hour telling you what Uncle Jay has done for them.

Uncle Jay, through KGNC, has become practically an institution. The Trading Post, a 15-minute six a week program is Uncle Jay's main feature. It's a "country newspaper of the air" advertising livestock, chickens, hogs, used farm and ranches as well as market quota-

tions, items of trade interest, farm shows or anything else of interest to the farmer and rancher, and it's all free to them. The tremendous daily response attests to the tremendous audience of this worthwhile service.

Uncle Jay's popularity is also high as a public speaker. He is in constant demand by civic organizations, schools, churches, as well as farm and ranch organizations.

With personalities such as Uncle Jay there is little wonder why most folks in the great Panhandle area keep turned to KGNC—now 10,000 watts.

Uncle Jay's Trading Post is sponsored, and has been for over 9 years, but there is another good show on KGNC that will do the same job for you.

since its transmitter house is erected on two Army surplus pontoons [BROADCASTING, July 22, 1947]. It rode out the flood. When the river got ten feet above flood stage the house started to float and transmission was still going strong when the 13-foot mark was reached.

As the river reached flood crest the tuning box on the tower was partly under water. This eliminated use of the tower but a temporary antenna was rigged by S. A. Cisler, station vice president, and Karl Haberman, chief engineer. They climbed about half way up the tower and lashed a heavy copper wire which was secured to the floating transmitter house. FCC approved the arrangement and transmission was continued in this manner until the water receded and the tuning unit was dried and cleaned and back in service.

The pontoons are mounted on a six-foot concrete foundation with plenty of slack left in power and telephone lines to prevent their breaking as the house floats up with the flood waters.

WISN Milwaukee has begun extensive remodeling of radio properties which, when completed, will house television, AM and FM studios. To be known as WISN Radio Center, the remodeled building (architect's sketch above) will be located on W. Wisconsin Ave. at 37th St., Milwaukee. Extra floor will be added to present three-story building. There will be six studios, two of them equipped to handle all three types of broadcasts and the remainder capable of handling both AM and FM, according to G. W. Grignon, WISN general manager.

While things were a little damp under foot, engineers were ferried by boat borrowed from the Coast Guard and skippered by the station president, Eugene Sandford.

NESBITT SHOW ON MBS HAS FIFTIETH SPONSOR

CONTRACT signed by Yowell-Drew Ivey department store, Daytona Beach, Fla., for sponsorship of John Nesbitt's *Passing Parade* on WROD marked the 100th commercial outlet for the series and the 50th new sponsor since its debut Feb. 2. More than 350 MBS stations carry the 15-minute, five-a-week, story-telling feature.

Described by Edgar Kobak, Mutual's president, as the "perfect transcribed cooperative show," the new series was organized by MBS' co-op department after steady pursuit of Mr. Nesbitt radio-wise. The show originally was introduced to network audiences in 1937.

Currently sponsoring the series is a diversified group of firms, including drug, food, department and furniture stores; auto sales or accessory organizations, bakery manufacturers, radio shops, banks, laundries, utility companies and jewelry firms.

WHDH Boston, May 2 added 55 minutes of time to its broadcast schedule seven days weekly. New features include news at 12:30 a.m. and 12:55 a.m., and "Music at Midnight."

WCKY REBUTS

WCKY Cincinnati, answering FCC's efforts to have the Court of Appeals' daytime-skywave ruling upset [BROADCASTING, April 19, May 3], argued last week that the Commission actually is objecting to "being informed before it acts."

The skywave ruling, handed down by the Court of Appeals for the District of Columbia, upheld WCKY's contention that as a 1-B station it was entitled to be heard on its claims of daytime-skywave interference before FCC acted on Patrick Joseph Stanton's application for a 10-kw daytime station at Philadelphia on WCKY's 1530-ke channel. FCC, which argued that its rules do not recognize the existence of daytime skywave, is seeking a re-hearing.

In its reply to the FCC, filed with the court last Monday by the Washington law firm of

FCC Said To Prefer Acting Blindly

Spearman & Roberson, WCKY said:

What we cannot understand is why the Commission should even want the right to deny or dismiss such petitions [charging interference] without listening to argument first on any question directed at their legal sufficiency as to allegations, and secondly, to the facts that might be adduced at a full hearing with respect to the matter before the Commission for decision.

The decision of this Honorable Court simply holds that the Commission should listen to argument before dismissing or denying such a petition and that it should as a matter of law have the facts before it before acting if the petition contains sufficient allegations of fact to show that petitioner is a party who would be ag-

grieved, or whose legal interests would be adversely affected if the Commission should decide the matter in question one way or the other.

We cannot understand why any agency exercising quasi-judicial functions should object to being informed before it acts, and yet when the position of the Commission is stripped of all surplusage and fairly analyzed, that is exactly what it contends for.

WCKY maintained that FCC's defense relies upon the Commission's failure to promulgate "a definite and specific theoretical yardstick with which to calculate or estimate skywave interference during daytime hours." This position, the station contended, "is untenable if not indeed ridiculous" since FCC Standards give actual measurements precedence over "any theoretical yardstick," and since WCKY's claims of interference were based on actual measurements.

Slap at Newspaper By Cisler Clarified

STEPHEN A. CISLER, vice president of WKYW Louisville, made plain last week that his criticism of the Louisville *Courier-Journal*, during Congressional hearings on the Johnson Bill [BROADCASTING, April 12, 19, 26], was directed at the paper's advertising policy with respect to stations, not its handling of station news.

His comments were contained in a letter to Sen. Charles W. Tobey (R-N.H.), acting chairman of the Senate Interstate and Foreign Commerce Committee, in reply to testimony in which Victor A. Sholis, director of the *Courier-Journal's* clear-channel WHAS, claimed Mr. Cisler was "unfair" in his criticisms.

Mr. Cisler said WKYW "was refused space to announce its inauguration as a fifth local station in March 1947 and has been refused space to advertise any of its local programs thereafter."

He claimed "it is hypocrisy to continue to blame discrimination against station advertising versus other types on newsprint shortage," and that "the plain fact is that the advertising manager of the papers is personally anxious to block all radio station copy in ad columns, and I believe this also takes in his own company's radio station as well as mine." He added:

With due appreciation for the fairness of the *Courier-Journal* editorial treatment, I still condemn their arbitrary blocking of my being able to buy advertising space on the same terms as other accounts, and charge this is an evil of a monopoly that is one of the reasons the Johnson Bill [S-223], to break down clear channels and keep the power limit at 50 kw] is being endorsed by increasing numbers of independent broadcasters. The same situation can extend to radio if the super-power stations win their claims as radio's elite.

NEW YORK FM OUTLETS FORM REGIONAL CHAIN

ARTICLES of incorporation were filed May 4 with the Secretary of State of New York for the Colonial Network Inc.

The network will be composed of a group of independent FM stations in Central and Western New York state and will employ off-the-air relay rather than telephone lines.

Gerald Mayer, Washington and Cortland, N. Y., attorney, and leading figure in the new organization, announced that the organization meeting will be held May 15 at the Hotel Syracuse, Syracuse, N. Y. Mr. Mayer is also president and general manager of WKRT-FM Cortland with auxiliary studios planned for Syracuse. Following the meeting the directors, officers and policy of the network will be announced. Offices of the network are expected to be established in Syracuse about June 1.

There was formerly a Colonial Network (AM) in New England which was operated in conjunction with the Yankee Network.

ANNOUNCING

WJZ

FM

**Now all five of ABC's owned-and-operated stations
offer their listeners the advantages of FM**

Beginning with the broadcast of the Boston "Pops" Concert last Tuesday night, May 4, the WJZ—FM signal was broadcast for the first time. Now *all* WJZ programs, sponsored and sustaining, network and local, are broadcast over both AM and FM. Thus, WJZ, ABC's key station in New York City, joins network-owned WENR (Chicago), KGO (San Francisco), KECA (Los Angeles) and WXYZ (Detroit) in giving this extra service. Listeners in these areas can now choose between the two signals in order to get the clearest possible reception. Sixty-seven of the network's affiliates have already added FM — and 116 others are planning to do so as soon as possible.

Editorial

TV Arithmetic

IN THIS giddy era of television's comeup-ance, we're all prone to lose our sense of values and proportions. People take off on fanciful flights about all sound broadcasting going to pot, with FM by-passed before it gets off the ground. Television, which lurked around that corner for two decades, suddenly becomes *Mr. Radio* to the exclusion of everything else—in the minds of our contemporary Jules Vernes.

Certainly TV is setting the radio world on fire. Certainly it is destined to become a primary service and unquestionably will be the most effective advertising and selling medium extant. Certainly it is the heritage of the sound broadcaster.

But we overlook the period of gestation. Let's slow down and indulge in a little simple arithmetic, with feet solidly on the ground, the allocations tables before us, and a look at the production lines.

There are 1,650 standard stations on the air. There are 500 FM stations in operation. There are 23 TV stations in operation.

And there are 66 million *sound* radio receivers in use in 37 million homes and in 9 million automobiles.

How long will it be before those same 37 million homes, or any significant percentage of them, are TV-equipped?

The simple arithmetic dispels the fog.

Today there are upwards of 300,000 TV receivers in use. The most optimistic estimates place the aggregate at 800,000 tele sets by the end of 1948. There will be possibly 50 TV stations on the air by the year's end in about half that number of markets.

Let's assume that the set manufacturers outdo themselves and produce 2 million sets in 1949 and step it up to 3 million in 1950. If that pace were maintained (and that presupposes no war production diversions which would reduce civilian electronics output) we would have by 1955 an aggregate of about 17 million TV receivers in the nation's homes.

A far cry from the 66 million sound receivers in use today?

And from the stepped-up production and sales of FM receivers, which are bound to accelerate as FM programming progresses and service improves?

So don't sell sound broadcasting short. It is here for many a year. It is still the most potent medium extant, with the mass circulation and the public's confidence. It is the breadwinner because it provides the least expensive way of reaching the nation's fireside as the invited guest.

TV is in the Rolls Royce era. Ask the man who owns one. Its development really follows the established radio pattern. It is a dynamic, glamorous medium. It is off to a fabulous start in the major markets—present allocations cover only 140 of them. It will permeate the lesser markets as new vistas in the upper bands are opened. Simultaneously, a sounder economic and programming base will be developed.

TV will serve increasing thousands and millions of urban dwellers in the months ahead. Sound broadcasting will serve millions and millions of urban and suburban and rural dwellers for years and years ahead.

That is so because you can't dramatize or exaggerate simple arithmetic.

Census-Shocked

OFFICIAL WORD, published in last week's issue, that the Census Bureau does not plan to include a set ownership question in the 1950 count must have struck radio a resounding blow. Evidently it had been taken for granted that Uncle Sam would do in 1950 what had been done in 1940 and in 1930.

The fault, of course, lies with radio and its gremlin, inertia. The Census Bureau says simply there isn't any demand for the figures. It blithely comments that since set ownership is so near saturation, a nose count won't show anything significant.

What about multiple sets? FM and television? What about radio as an index to buying power? And what about knowing where sets are located in a national emergency, when radio is used as the swiftest and most direct means of alerting the nation? Is it more important to count bathtubs and refrigerators?

Twenty years ago and 10 years ago, the Bureau yielded to widespread demand for a radio question in the decennial census. The Bureau's officials, as well as the advisory committee on which they depend for guidance, conceded it was important to know the extent to which radio had penetrated the American scene.

The importance of those past censuses is strikingly evident. Every current statistic having to do with radio selling is drawn from the 1940 census. It is radio's basic selling tool—the master standard of all radio measurements. Without it BMB, Hooper, Nielsen, Conlan, and all other yardsticks would be meaningless. Without another census the more or less exact science of audience measurement will become distorted by pyramiding of projections from an antiquated base.

In short, it will make it easier for competitive media to sell against radio.

Executives of the calibre of Gordon Hughes, General Mills marketing research head, and Dr. Vergil Reed, of J. Walter Thompson Co., are members of the main Census Bureau advisory committee. They were opposed to a 1950 radio question because they didn't see the need. And that's because radio hasn't told the story of the need.

The advertising art today is a \$3 billion budgetary matter. Radio is an increasingly important factor in that structure. It is destined to become the most important single medium, with television as its running-mate.

What's to be done? The answer is just as simple as the Census Bureau's explanation.

So far the Bureau has received "a few" letters from networks and others. That's all.

From now until the final forms and census budgets are approved, broadcasters, advertisers, agencies, schools and allied radio enterprises, should hammer away with the sound logic inherent in the need for an all-encompassing set census. Don't let George do it. Let Congress know the need too, so that the Bureau can procure the necessary funds for the census.

Already the warning in our last issue has been heeded. BMB's technical committee resolved last week in favor of a question on radio and television set ownership. The NAB Convention in Los Angeles next week certainly will be derelict if it doesn't respond with unequivocal action, backed up by an integrated follow-through plan. Let the AAAA and ANA and AFA resolve too.

That's the only way the job can be done.

Our Respects To—

WILLIAM EDWARD JONES

LOOKING OVER the executive roster at Henri, Hurst & McDonald agency, Chicago, you see names like Krautter, Semones, Zeh, Nounnan, Pumpian and Tulp. When "Bill Jones, Radio Director" pops into view, it looks like a mistake.

William Edward Jones joined the agency five years ago with wide experience in radio. He had been on speaking terms with the microphone and had wrestled with program and production problems for 14 years.

Mr. Jones made his first splash in metropolitan radio in 1934 when he became director of production at WLS Chicago. Alka-Seltzer's *National Barn Dance*, then only three months old, came under his direction, and A-S thought so much of the Jones talents that they lured him away from WLS less than two years after he had joined the station. But he didn't leave the *National Barn Dance* cold. Moving over to Wade Advertising, the Alka-Seltzer agency, he concentrated on the one-hour A-S segment of the *Barn Dance* show.

During five of his seven years with Wade, Mr. Jones handled the Morris B. Sachs *Amateur Hour* (WENR) in addition to *National Barn Dance*. Few agency men have produced two full-hour shows weekly for any length of time, and to shoulder such a burden for five years is even more uncommon. But Mr. Jones was able to stand the gaff because of his youth and rugged physique.

Born 38 years ago in Miami, Mo., HH&M's radio director is the son of a country preacher. The Rev. George E. Jones, whose grandfather was a circuit-rider, ministers to four small-town congregations.

While attending high school in Hannibal, Mo., young Mr. Jones made a crystal set, but by the time he had enrolled at Culver-Stockton College (Canton, Mo.), his interest in the engineering side of radio had given way to performing. After going on the air at WTAD Quincy, Ill., with a group of college musicians in 1928, he "resolved to become a radio artist." A year later, he left college to join the St. Louis Municipal Opera Co., as a basso. On the side, he campaigned for a job at KMOX St. Louis.

In 1929 at the age of 20 he "broke down the KMOX resistance," getting on the payroll as an announcer and later as a producer of cut-down versions of famous operettas—"mostly by Gilbert and Sullivan." He also helped produce the station's *Farm Service Hour*.

Two years later he heard that WTAX Springfield, Ill., was looking for an announcer-

(Continued on page 48)

More Drug Sales THAN ST. LOUIS

By Ewing Galloway, N. Y.

Yes, the people in WOAI's huge daytime primary area spend \$32,490,000* annually in drug sales alone . . . a greater amount than is spent in the big midwestern metropolis of St. Louis, Missouri.

As the saying goes, "There is more where that came from!" Texas leads the nation in the production of many things—and WOAI's primary area is a huge Texas producer.

Texas leads the nation in cotton production, for instance . . . and WOAI's primary area leads Texas with 971,233 square bales harvested according to the 1945 census of the Department of Agriculture. Yet the income from cotton is only a part of the total effective buying power of this territory . . . \$1,088,542,000.*

See your Petry man today for the details on WOAI's sales punch in this rich market.

*Sales Management 1947 Survey of Buying Power

*By any check
you use—it's
WOAI*

Represented by EDWARD PETRY & CO., INC. -- New York, Chicago, Los Angeles, Detroit, St. Louis, San Francisco, Atlanta, Boston

Respects

(Continued from page 46)

producer. He applied for the job and was hired. Six months later a programming-production job lured him to KFRU Columbia, Mo., home of the U. of Missouri. He married attractive Lilian Lawless, the station's business manager, in January 1934, and together the couple plotted ways and means of crashing Chicago. Mrs. Jones had been enthusiastic about radio since deserting school teaching in 1931 to become a radio researcher for Procter & Gamble. This led to the KFRU job.

Mr. Jones' success at both WLS and the Wade agency convinced him that he had something to sell on his own, so in August 1942 he started packaging shows. He opened offices on Chicago's Michigan Blvd. Fifteen months later, however, he was ready to pick up the agency thread where he had dropped it at Wade Advertising.

Henri, Hurst & McDonald's offer of the radio director's post, plus a chance to be account executive for Ballard & Ballard, large Kentucky milling concern, seemed the best bet. Among radio programs supervised by Mr. Jones since joining HH&M are *Nick Carter* (Mutual), which once won an 11.2 Hooper; *Lassie* (ABC), *Shopping With the Missus* (WBBM Chicago), Alex

Dreier (NBC), and *Renfro Valley Folks* (CBS). On Memorial Day he will handle the Indianapolis Speedway Races for *Perfect Circle* (Mutual) for the third successive year.

As a joiner Mr. Jones rates an absolute zero. When not working, he's at his home 55 miles northwest of Chicago on the Fox River. He plays "a bit of piano," toys with a home recording set, or occasionally drops a dry fly from his outboard-motor boat.

"In short, I love my work," he says.

10 AND 20 YEAR CLUBS OF NBC ADD MEMBERS

NBC's 20 and 10 Year Clubs installed 36 and 21 new members, respectively, at the annual veterans' dinner May 3 in the Waldorf-Astoria, New York. Network President Niles Trammell and Executive Vice President Frank E. Mullen welcomed the new members.

Twenty Year Club members installed were: Charles L. Bennis, Claude Clayton, Theodore Clements, Reid Davis, Theodore Hahn, Gerald Hastings, Loyal L. Lane, Lester Looney, Waldo MacQueen, George Nixon, Edward Prince, John Rodenbach, Fernando Rojas, Evangelo Sangas, Gerald Sellar, DeWitt C. Shultis, Andrew Thomson, Stephen Varley, Arthur Walsh, Ferdinand Wankel, William McMillin, Stanley Peck and Richard Pickard, all engineering.

Also Madge Boyton, program; John deMaio, controllers; Mary Louise Hanley, press; Edward Hitz, network sales; Beulah Jarvis, Helen Kelle and Margaret O'Connor, television; Lewis Lane, script; Robert P. Myers, legal; Walter E. Myers, network sales; Thomas Tart and Frances Mellan, general service, and Rudolph Teichner, treasurers.

New 10 Year Club members: Thomas Knode, director of press; George Anderson, William Carson, Harold Flood, Harold Pietsch, Frank Somers, Roland Paradis and Joseph Pettit, all engineering; Thomas Bennett, Agnew Horine, Robert Sosman, Walter Toscanini and Elizabeth Gilbert, program; C. Donald Bogert, personnel; Robert Burholt, controllers; William Buschgen, national spot sales; Albert Rhodes, research; Adolph Schneider, news; Walter Scott, network sales, and John Robert Myers, executive.

Dr. James Rowland Angell, public service counselor, was toastmaster, and Robert Magidoff, NBC's former Moscow correspondent, was guest speaker.

FAMILY LIVING AWARDS ARE WON BY NBC, ABC

AWARDS to four NBC shows and one ABC program for broadcasts "most conducive to good family living" were made last week by the International Council of Religious Education, acting as representative of the nation's Protestant churches.

Given as "1948 National Family Week Radio Citations," the awards went to NBC's *Fibber McGee & Molly*, *One Man's Family*, *The Aldrich Family* and *Pepper Young's Family* and to ABC's *Greatest Story Ever Told*.

Programs were selected by Protestant laymen throughout the U. S. and Canada. Joining in the citation were the Federal Council of Churches and the United Council of Church Women, as well as the International Council.

Management

ROLLO H. BERGESON, Iowa Secretary of State, has been appointed vice president of Capital City Broadcasting Co., in charge of operations of KCBC Des Moines. He will join station when his term ends next January. **ALLAN CURNUTT** will continue as KCBC general manager. Mr. Bergeson served as deputy Secretary of State under the late Earl G. Miller before going into Navy during the war.

Mr. Bergeson **ALLAN DALE** formerly with KFH Wichita, Kan., has been appointed general manager of KURV and KURV-FM Endinburg, Tex., replacing **LOUIS**

AIKEN, resigned [BROADCASTING, May 3]. Mr. Dale previously was with MBS in New York and St. Louis.

HARRY WITT, assistant general manager of CBS Western division, is in New York for several weeks conferences.

GRAEME ZIMMER, promotion director of WCSI (FM) Columbus, Ind., has been named station manager, replacing **PAUL**

E. WAGNER, resigned. Mr. Zimmer previously was with WPAV Portsmouth, Ohio, and did freelance announcing in New York. During the war he served with OWI as program director of its Manila station. **CLYDE D. LAKE**, program director of WOBT Rhinelander, Wis., has been named general manager, succeeding **RALPH D. KANNA**.

Mr. Zimmer

Mr. Lake formerly was with Chicago office of Foote, Cone & Belding.

WILLIAM H. KRIER has been elected vice president and controller of WVET Rochester, N. Y.

BENEDICT GIMBEL Jr., president of WIP Philadelphia, has joined Olympic Committee of Middle Atlantic Amateur Union, working directly with National Amateur Union for Olympics to be held this year in London.

W. VICTOR GEORGE, veteran of some 25 years in Canadian radio, has been appointed broadcasting manager of

Mr. George

Canadian Marconi Co., effective May 15. He will be responsible for all broadcasting services of the company, with headquarters at CFCF Montreal. Mr. George joined Marconi as manager of CFCF, position he has held for four years. He later created Whitehall Broadcasting Ltd. which he has directed for 13 years.

FRED HENRY, assistant general manager and program director of KLAC Hollywood, was awarded special U. S. Marine Corps Award of Merit from Brig. Gen. William Clement for fostering and promoting interest in Marines.

NEW PUBLIC service series of four roundtable discussions on air power has been produced by National Air Council for nation-wide distribution. Stations interested in broadcasting the series are to contact the council, Empire State Bldg., New York.

Goggin Named TV Chief Of ABC In Los Angeles

RICHARD GOGGIN, ABC New York television production staff, will become network's Los Angeles director of video programs in July, according to an announcement last week by Don Searle, Western Division vice president.

As such, Mr. Searle explained that the new video head will report to J. Donald Wilson, Western head of all programming for the network. This appointment followed three weeks of conferences in New York by Mr. Searle, relative to television. In addition to duties in Los Angeles, Mr. Goggin will also assist Mr. Wilson with programming of KGO-TV San Francisco.

Philip J. Konkle

PHILIP J. KONKLE, 46, ABC facilities engineer since February, died of a heart attack in New York City May 1. He was stricken after returning from Lodi, N. J., where he had been working on a transmitter installation. Mr. Konkle had been in engineering since 1925.

Californians

WHO LIKE COLLINS BEST

Here's a chart to show you some of the California broadcasting stations which have recently chosen Collins transmitters as best—and the Collins types they have bought. Visit our booth at the NAB convention next week. See examples of Collins quality first hand, in transmitters, speech equipment, and station accessories.

KCRW and KMRA chose the Collins 731A, a beautifully designed 250 watt FM transmitter using the Phasitron modulator circuit. They could increase power to 50 kw by adding available Collins integrated amplifiers.

KCOK, KDAC, KHUM, KSPA, and KVEN have bought sparkling new Collins 300G 250 watt AM transmitters, which provide high performance and complete reliability at low operating and maintenance cost.

To KROP, KSGN, KTED, and KVEN, modern, thoroughly engineered Collins 20T one kilowatt AM transmitters featuring outstanding fidelity, vertical chassis construction, complete accessibility, high safety factors, and the utmost of economy in operation and maintenance. To KPRO, a one kilowatt Collins 20K, and to KAGH, a one Kilowatt 20H.

KKLA's selection was a Collins 734A. This fine 10 kilowatt FM transmitter, employing the Phasitron modulator circuit, uses only 10 different tube types in its total of 33 tubes, and is acclaimed by a significantly high percentage of fans as "putting out the best FM signal in the Los Angeles listening area."

RCA-8D21, used in 5-kw television transmitters

RCA covers the field

RCA has the most complete and up-to-date line of tubes in the broadcast field.

RCA's years of experience in tube research and development have resulted in new and improved types for AM, FM, and TV broadcasting . . . tubes that have advanced the art of broadcasting in all its phases.

Year after year, RCA tubes have set the pace in quality, performance, and value. They have won an unequalled reputation for engineering excellence, dependability, and

true operating economy. That's why experienced broadcasters buy RCA tubes.

For your convenience, RCA tubes are now available from your local RCA Tube Distributor or directly from RCA. For information on any RCA tube, write RCA, Commercial Engineering, Section EP36-1, Harrison, N.J.

prohibiting defamation and sedition.

If a person has suffered an unfair attack by a commentator, analyst or other speaker, a reasonable time for reply should be made available to him.

RELIGIOUS PROGRAMS

Broadcasting, which reaches men of all creeds simultaneously, should avoid attacks upon religion.

Religious programs should be presented respectfully and accurately, and without prejudice.

Religious programs should be presented by responsible individuals and groups and organizations.

Religious programs should place emphasis on broad religious truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

CHILDREN'S PROGRAMS

Children's programs should be based upon sound social concepts and should reflect respect for parents, law and order, clean living, high morals, fair play and honorable behavior.

They should convey the commonly accepted moral, social and ethical ideals characteristic of American life.

They should contribute to the healthy development of personality and character.

There should be no appeals urging children to purchase the product in order to keep the program on the air.

Since contests and offers which encourage children to enter strange places and to converse with strangers in an effort to collect box tops or wrappers may present a definite element of danger to the children, they should not be accepted.

CRIME AND MYSTERY PROGRAMS

In determining the acceptability of any program containing any element of crime, horror or mystery, due consideration should be given to the possible effect on all members of the family.

If the techniques and methods of crime are presented it should be done in such a way as not to en-

courage imitation; criminals should be punished, specifically or by implication; and programs which tend to make the commission of crime attractive should not be permitted.

Such programs should avoid the following subject matter:

Detailed presentation of brutal killings, torture or physical agony, horror, the use of supernatural or climactic incidents likely to terrify or excite unduly.

Episodes involving the kidnaping of children.

Sound effects calculated to mislead, shock or unduly alarm the listener.

Disrespectful portrayal of law enforcement; and characterization of officers of the law as stupid or ridiculous.

Suicide as a satisfactory solution to any problem.

GENERAL

Sound effects and expressions characteristically associated with news broadcasts (such as "bulletin," "flash," etc.) should be reserved for announcement of news,

and the use of any deceptive devices in connection with fictional events and non-news programs should be unacceptable.

When plot development requires the use of material which depends upon physical or mental handicaps it should be used in such a way as to spare the sensibilities of sufferers from similar defects.

The regular and recurrent broadcasting, in advance of sports events, of information relating to prevailing odds, the effect of which could be expected to encourage gambling, should not be permitted.

Simulation of court atmosphere or use of the term "Court" in a program title should be done only in such a manner as to eliminate the possibility of creating the false impression that the proceedings broadcast are vested with judicial or official authority.

In cases of programs broadcast over multiple station facilities, the originating station should assume responsibility for conforming such programs to these Standards of Practice.

ADVERTISING STANDARDS

Advertising is the life blood of the free, competitive American system of broadcasting. It makes possible the presentation to all the American people of the finest programs of entertainment, information and culture.

Discretion should be exercised to determine that advertising copy offered for broadcasting complies with pertinent federal, state and local laws. Acceptance of advertising should be predicated upon such considerations as the integrity of the advertiser, the quality of the product, the value of service, and the validity of claims made.

In accepting advertising the broadcaster should exercise great care that he is not conveying to his audience information which is misleading, dangerous to health or character, distasteful or contrary to the proprieties and customs characteristic of his audience, or in violation of business and professional ethics.

Advertising copy should contain

John McNeil Quits Post With DuMont Television

JOHN McNEIL has announced his resignation, effective April 30, as manager of commercial operations for DuMont Television, a position he held since joining the video network a year ago.

Although his new position has not been revealed, it is understood he will enter the advertising agency field after a short vacation.

Mr. McNeil, a graduate of the U. of Wisconsin, was with *Liberty Magazine* and NBC. He later was station manager of WJZ New York. Mr. McNeil left WJZ in May 1947 to join DuMont.

10,000 Watts Daytime
5,000 Watts Nighttime

JOHN BOLER, President of KIOA, is widely known as a pioneer in the development of broadcasting. He brings a wealth of experience and broad knowledge of all phases of radio to KIOA.

New Mutual-Don Lee Studios

MASTER CONTROL CENTER, one of the largest and most complete ever designed, features pre-set switching, which allows operator to re-align circuits in advance. "Delay Master" automatically does switching at proper time.

MUTUAL-DON LEE'S brand new 3 million dollar Hollywood studios serve as the heart of the network's West Coast AM-FM-TV activities. The block-square building is as modern as tomorrow, and its audio facilities are unexcelled anywhere in completeness and flexibility.

The impressive Master Control—custom-built by Western Electric—is one of the world's largest and most complete control centers. It contains equipment for simultaneous multiple dispatching to 10 outgoing networks and 4 recording channels of programs originating in the 12 studios, 3 announce booths, 96 remote pick-up lines and 7 incoming networks. Many extra circuits are provided to handle special requirements and a complete monitor system makes all programs available to managerial, sales, and public rooms. Through the use of pre-set program control with auto-

matic switching, only one master operator is required.

Besides the Master Control equipment, Western Electric supplied for the studios 14 custom audio desks of the three types shown on the opposite page.

The "king size" of this installation is indicated by the number of components in Master Control and the 14 desks: 212 amplifiers, 67 rectifiers, 996 relays and 6,999 jacks, joined by 145,500 feet of wire with 108,074 soldered connections.

Western Electric and Bell Laboratories engineers are experts in the design and construction of custom-built audio and switching systems for stations of every size—as simple or complex as you require. For details see your Graybar Broadcast Representative, or write to Graybar Electric Company, 420 Lexington Avenue, New York 17, N. Y.

KSDJ SALE

FCC Grants Its Consent; Other Transactions

CONSENT has been granted by FCC to sale of KSDJ San Diego, Calif., for \$283,890 by Clinton D. McKinnon to McKinnon Publications Inc., of which he is one-third owner.

Mr. McKinnon last fall sold 51% of the publishing firm for \$500,000 to Charleston Broadcasting Co., licensee of WCHS Charleston, W. Va., and headed by John A. Kennedy [BROADCASTING, Oct. 13, 1947]. Employees of McKinnon Publications, which publishes the *San Diego Journal*, hold 12.6% interest. KSDJ is a CBS affiliate, assigned 500 w on 1170 kc. Comr. Rosel H. Hyde voted for hearing in the transfer.

KBGS St. Louis (690 kc, 1 kw day) was granted assignment of permit from partnership of James H. Grove and Edwin W. Grove 3d (47.5% each) and Willaim Blum Jr. (5%) to a new corporation including the same individuals plus Frank Pellegrin, 50% owner of WATO Oak Ridge, Tenn.; Edward Haverstick Jr. and Franklin Salisbury. Sellers were reimbursed for expenses to date totaling \$8,363.97. Ownership now is: E. W. Grove 27%, J. H. Grove 30%, Mr. Blum 3%, Mr. Pellegrin 30% and Messrs. Haverstick and Salisbury 5% each.

KTOP Topeka, Kan. (1490 kc, 250 w), was granted assignment of license from Collinson & Wingate, partnership, to T. Hall Collinson as individual. Norville G. Wingate received \$34,027.75 for his half-interest.

Call of Houston Inc., permittee of KCOH (1 kw day, 1430 kc) and KCOH-FM Houston, Tex., was granted relinquishment of control by William A. Smith, sole owner, to Mr. Smith and E. C. Hughes and E. F. Hoffman as equal owners. Mr. Smith receives \$16,539 consideration. Mr. Hughes is general manager and 25% owner of

★ KEYS Corpus Christi and is to manage KCOH. Mr. Hoffman is a local auto dealer.

The Commission also approved assignment of license of KBRO Bremerton, Wash. (1490 kc, 250 w) from Bruce Bartley and F. L. Pruitt (deceased) to Mr. Bartley, 95% owner. Mrs. Ethel R. Pruitt, executrix, transfers the 5% holding for release of the estate to a \$30,000 obligation jointly held by her late husband and Mr. Bartley.

Walker to Stockholm

FCC COMR. Paul A. Walker is slated to leave about May 24 for Stockholm, where he will head the U. S. observers at the Consultative Committee on International Telephone which convenes there from June 7 to 22. He is expected to return about July 7.

Dress rehearsal shows WBEN-TV ready to go on its formal dedication. Announcer Fred Keller (with bow tie) and Producer Roy Black (center foreground) stage an experimental telecast featuring exhibits from Telephone Pioneers' Hobby Show.

Sun Ray Drug Co., WPEN Owner Shows Sales Up

SUN RAY DRUG Co., owner of WPEN and WPEN-FM Philadelphia, announced that sales for the current fiscal year, which started Feb. 1, are up over last year. The report was made by Harry S. Sylk, president, following a meeting of stockholders in Philadelphia. During the last fiscal year sales set a new high record of \$22,025,164.

WPEN and WPEN-FM, purchased by the company last year from the *Philadelphia Evening Bulletin*, are making progress in advertising volume and earnings, Mr. Sylk said.

RCA VICTOR has announced a \$10 reduction in its 1948 version of its lightweight aluminum Globe Trotter portable radio. The three-way performer, AC-DC-battery, is expected to retail for \$49.95.

WBEN-TV COMMERCIAL SHOWS START FRIDAY

WBEN-TV Buffalo, which has been test telecasting for three months, will start commercial programming Friday, May 14, with a dedicatory program and a wrestling and variety show originating in Buffalo's Memorial Auditorium.

Station officials participating in the program will include Edward H. Butler, president, and Alfred H. Kirchofer, vice president. Mayor Bernard J. Dowd of Buffalo and other city, state and federal officials also will participate.

Final experimental telecast will be a presentation Thursday, May 13, of the consecration of Dr. Lauriston L. Scaife as bishop of the Episcopal diocese of Western New York at St. Paul's Cathedral, Buffalo.

With studio cameras yet to be assembled, WBEN-TV is going on the air with two field cameras and its film and slide camera. It plans a program schedule of a few hours a day, Wednesday through Sunday, but program service will be expanded as soon as additional equipment is available, station officials have announced. The station is on Channel 4 (66-72 mc) with an effective radiated power of 20.1 kw visual and 12 kw aural.

ADVERTISING
MERCHANDISING
PUBLICITY **

699 MADISON AVE. — REGENT 7-3500

February 17, 1948

Mr. Fletcher Wiley
Housewives' Protective League Productions
Columbia Broadcasting System, Inc.
485 Madison Avenue
New York, New York

Dear Fletcher:

I think I owe you a report of just what we have been doing on your various Housewives' Protective League shows.

Currently we are using every single one of your shows for various of our clients. In the mail-order business where every time purchase must show exactly how many dollars it has brought back, any schedule is a combination of some profitable and some unprofitable stations, times and programs. No client of ours would ever expect to have any more than a fairly good proportion of the total number of stations, programs, and times used pay off profitably.

Therefore, it is a remarkable fact that every single Housewives' Protective League program in the country is paying off. We have never before found a selling formula so precise that it could be counted on to work like a charm regardless of the area. This is even more impressive when we consider that we went on in San Francisco the second week your Housewives' Protective League went on the air; that we went on in Washington the second week and in Minneapolis the fourth week the Housewives' Protective League was on the air!

Paul Gibson has always been an old reliable for us and has always turned in a good job for us in Chicago. John Trent in Minneapolis which has always been a difficult place for us, secured orders for us in the first week at an advertising cost of 1/3 that of any other station in the U.S.. When we bought Galen Drake we were a little concerned over the fact that for the first time a Housewives' Protective League show was going on at 11:30 to 12:30 at night, a time in which no other organization had ever dreamed of setting up a participation program before. Galen, as usual, did a terrific job! Lee Adams of St. Louis also turned in a fine job.

Not only have you people always got us a low cost per order, but also a higher calibre of order. Our big problem now is when are you going to start some more Housewives' Protective League shows for us! *

Very truly yours,

HUBER HOGE AND SONS

should go to Hollywood and obtain the services of a highly skilled film editor, or cutter, who for years has been doing little else but selecting the shots and the angles best suited to the screen," he said.

At the official opening of the institute Friday night, WNEW New York's Vice President Ted Cott, and a panel of producers, sought to get a rise out of the educator-delegates, but to no avail.

"This conference should be American broadcasting's cheering section, but instead, it's our sneering section," said Mr. Cott. "Educational radio is an intellectual dictatorship. With your too-much-of-this, and too-much-of-that you're doing an academic strip-tease."

Ben Park, producer of WBBM Chicago's prize-winning documentary, *Report Uncensored*, observed that commercial radio is educating the public every hour it is on the air "for better or for worse." He suggested that college stations could do a better job for educational radio by "forgetting about the Mayflower decision and putting facts and the truth on the air."

Arnold Hartley, program director of WOV New York, inquired why universities haven't applied for the many available FM fre-

quencies "so they can grapple themselves with the problems commercial stations have to face every day."

SATURDAY

A session on "International Radio" featured Librarian of Congress Luther Evans, chairman of the mass media committee of the the National Commission for UNESCO, and Charles Thayer, acting chief of the State Department's International Broadcast Division. However, Dr. Arno Huth, director of the first U. S. courses on foreign broadcasting at New York's New School for Social Research, appeared to have a better grasp of the problems of world radio than any at this session.

Dr. Huth charted the course a world association of broadcasters should follow to ensure cooperation between international broadcasters and promote a world exchange of programs for recon-

struction and understanding. He deplored the fact that world radio development has been arrested by a lack of trained personnel. A world plan for short-wave transmissions is expected to come out of the International High Frequency Broadcasting Conference in Mexico City next October, he disclosed.

A forum on radio councils brought out the fact that in Wisconsin last year a state listening project had nearly 2,000 observers who listened to some 10,000 programs. At this session, R. Y. Davis, radio chairman of the Ohio Congress of Parents and Teachers, ripped into network commercialism, asking: "Is commercial gain so dear that the networks will sell the ideals of youth down the river of horror and crime?" He advocated a campaign among parents to "condition the child's listening."

Charles Cleaver, director of news and special events of WRRN War-

Religious—"All Aboard for Adventure" (Joint Religious Radio Council)—first award. "Building for Peace" (Joint Religious Radio Council)—honorable mention.

Cultural—"Report to the Rockies" (Rocky Mountain Radio Council)—first award. "Adventures in Research" (Westinghouse Electric Corp.)—honorable mention.

Personal and Social Problems—"Lest We Forget—the American Dream" (Institute for Democratic Action)—first award. "It Can Happen to You" (American Cancer Society) and "The Tenth Man" (National Mental Health Foundation)—both honorable mention.

Presenting Public Issues—"Town Meeting in Canada" (Town Meeting, Ltd.)—first award. "Freedom—Bill of Rights" (U. S. Army) and "Bing Crosby Sings for Safety" (National Safety Council)—both honorable mention.

Furthering International Understanding—"To You in America" (Joint Religious Radio Council)—first award.

YOU HAVE A *DATE* for the

NAB CONVENTION

AT THE *LOS ANGELES*
BILTMORE HOTEL

Yes, be sure to see the big display of Gates equipment at the NAB Convention — the most modern, usefully designed and pleasingly styled apparatus available to broadcasters.

You will see new transmitters, — AM and FM, studio equipment (don't miss the SA line. It has many new ideas) — a new FM antenna and many other accessories.

Here will be equipment that you didn't know could be built, — of such high quality, — yet low in price.

And it does things for you — saves time and money — just because of the way it's built.

So remember that date — May 17th thru 20th, — to see that display of Gates Equipment.

Western Electric
— QUALITY COUNTS —

IER

(Continued from page 56)

ren, Ohio, enlivened a session on radio news with the admission that his station, in hot competition with a local newspaper, "not only produces six local newscasts daily but editorializes as well." One news program, aired at the odd hour of 1:45 p.m.—"just to beat the newspaper's deadline"—has a 13.6 Hooper, Mr. Cleaver reported.

One of the surprises of the institute was the acknowledgement by an educator that universities have fallen down on the job of adult education. Noting that commercial stations and networks "obviously are not going to take the initiative in adult education," Dr. Harry J. Skornia, Indiana U. radio director, declared:

"If this job is to be done, universities, the source of the very things needed, must do it. Professors must be convinced that ivory towers must allow microphones, or they may not be here tomorrow."

SUNDAY

In addition to the annual banquet, two important Sunday sessions were held. A special *Columbus Town Meeting* program was aired over WBNS, featuring a debate on the question "Should FCC Have Any Control Over Programs?" Prof. Odegard defended the Commission's Blue Book as "simply undertaking to define in more specific terms the standards to be applied in the licensing of radio stations."

"What do the critics of the Commission want?" he asked. "Do they deny the public responsibility of the radio industry? Do they deny the necessity for licensing control in the federal government?"

Pierson Disagrees
In disagreement, W. Theodore Pierson, Washington radio attorney, asked "Should our people see or hear nothing by radio except at the pleasure of the government?" He described the primary duty of a licensee as the broadcasting of programs that in the licensee's "carefully exercised and deliberate judgment" the people want to hear.

"The licensee cannot legally free himself of this responsibility by delegating his duties to advertisers, networks, or the Commission," Mr. Pierson contended.

The Institute's most popular "added attraction" was the television forum sponsored by the National Organizations Committee. ABC's Paul Mowrey admitted that 1948 is a "test-pattern" year for TV, but warned that Americans will not tolerate indefinitely televisioners who "indulge their caprices" into 1949.

WRGB Schenectady's Al Zink submitted a list of additions which television may make to community relations, concluding with the fact

RESPONSIBILITY Chisholm Says Radio Can Save Humanity

Also see IER story, page 30

RADIO CAN SAVE humanity from the "suicide of another war" by molding the "nationally loyal" youth of today into the "world citizen" of tomorrow. Dr. Brock Chisholm, executive secretary of the United Nations World Health Organization, declared May 2 at Ohio State U.'s Institute for Education by Radio.

In an address climaxing the 18th annual institute at Columbus, Dr. Chisholm, one of Canada's best known psychiatrists, warned:

"The human race cannot survive the effects of recently discovered biological weapons unless we develop a loyalty to all people of the world. Radio, a tremendously powerful medium for education, has only begun to play the part of which it is capable. Its writers, producers, and sponsors must influence the concepts and behavior patterns of youth, or all humanity may go the way of the dinosaur."

Dr. Chisholm spoke at the annual banquet on the eve of the fourth and last day of the institute. Up to this point, many delegates had described the conference as one of the least exciting in the 18-year series.

After Dr. Chisholm had brought the 1,200 delegates to their feet Sunday night and received an ovation, the conference continued to run in high gear during the closing sessions.

He said he hoped for the time when every person speaking on that family life will be reestablished, making the home again a place for family living and enjoyment.

MONDAY

A brief session on Radio Writing, with Erik Barnouw, president of the Radio Writers Guild, as chairman, and demonstrations of how music appreciation programs may be developed, were held Monday morning preceding the Institute's closing meeting. Charles W. Siverston, program director of WHAM Rochester, presided at the music appreciation session.

radio will think in terms of how his words may affect "the people listening or to whom they will be relayed or reported in newspaper headlines on the other side of the world."

Two-Sided World

"From both sides of the world—unfortunately there are now two sides of a round world—bits and pieces are picked out of context for reporting because they can be used to illustrate an antagonistic point," he noted. "It is very difficult to explain the functioning of people in another country. It is very difficult in Europe sometimes to try to laugh off an irresponsible utterance on the radio on the part of some person in another country who has not considered at all the effect of what he is saying on other kinds of people."

"In many countries it is taken for granted that all news releases, all broadcasts, are purposeful—that they are organized for a national purpose. It is extremely difficult to help some people to understand that there are such things as utterly internationally irresponsible politicians or radio commentators, who say things for local consumption, things which may be very damaging to their own country when reaching somewhere else."

Dr. Chisholm cited one "excessively bad illustration" of an American commentator who suggested on a widely heard program that a cholera epidemic raging in Egypt was reported to be an experiment in biological warfare by the Russians.

JACK BENNY and his NBC cast will make personal appearance tour in Detroit on June 10 and in Cleveland June 18. Radio program will be heard from Detroit June 13, Cleveland June 20, and New York June 27.

TV BIDS

PUBLISHER Marshall Field and a subsidiary of Twentieth Century-Fox Film Corp. figured in applications filed last week with FCC for eight new commercial television stations.

Totem Broadcasters Inc., of which Mr. Field is president, requests Channel 7 (174-180 mc) in Seattle. Totem is licensee of KJR Seattle. The applicant corporation is owned 100% by Field Enterprises Inc., Chicago, owning through subsidiaries WSAI Cincinnati, KOIN Portland, Ore., and WJJD Chicago.

Seattle has been assigned Channels 2, 5, 7 and 11. Only Channel 11 has not been applied for. Radio Sales Corp. (KRSC) has been issued a construction permit for Channel 5 and Fishers' Blend Station Inc. (KOMO) has applied for Channel 2.

Requesting Channel 11 (198-204 mc) in San Francisco, which was assigned Channels 2, 4, 5, 7, 9 and 11, is Twentieth Century-Fox of California Inc., organized as a million-dollar subsidiary to Twentieth Century-Fox Film Corp. on April 12.

Twentieth Century plans to enter video on a 35-hour weekly basis with programming approximately 40% studio, 40% remote and 20% film. Entertainment films are to be scheduled on a regular basis and feature films would be used when they conformed with program for-

Publisher, Film Firm Seek Channels

mat. The parent firm would draw on its library of more than 77 million feet of film to implement programming. Firm also proposes to create original TV film programs.

Twentieth Century proposes to erect a 200-ft. RCA six-element superturnstile antenna at 2,378 ft. above sea level on Mount Tamalpais, near San Rafael, Calif.

Subsidiary companies of Twentieth Century-Fox Film Corp. previously applied for TV facilities in New York and Los Angeles, but subsequently withdrew those bids. One application for Boston was denied and another there, that of Twentieth Century-Fox of New England Inc., is in hearing.

Twentieth Century-Fox Film Corp. has purchased 1,000 shares of Twentieth Century-Fox of California at \$100 per share with option to buy remaining 9,000 shares. Studios of the station would be in the Fox Theatre Bldg., 1350 Market St.

CPs have been granted in San Francisco to ABC (KGO) for Channel 7; Associated Broadcasters (KSFO), Channel 5; *The San Francisco Chronicle*, Channel 4. Applications have been received from CBS for Channel 9; Leland Holzer, Channel 11; KROW Inc., Oakland, Channel 11; Don Lee Broadcasting Co. (KFRC), Channel 2; S. H. Patterson (KSAN), Channel 9; Television of California, Channel 11, and Television Products Inc., Channel 9.

New applicants and facilities requested:

Fort Worth, Tex.—Television Enterprises, Channel 10 (192-198 mc), 25.16 kw visual, 12.58 kw aural, antenna 504 ft. above average terrain. Initial cost \$181,070, first year operating cost \$120,000, estimated revenue first year \$60,000. Applicant is partnership composed of O. C. Whitaker, Robert Thomas and J. C. Briscoe, all officers of O. C. Whitaker Co. (construction firm) at Fort Worth. Stock in both the construction and television companies are held 50% by Mr. Whitaker; 35%, Mr. Thomas; 15%, Mr. Briscoe. Channels assigned Fort Worth are 2, 10 and 15. CP for Channel 15 has been issued to Carter Publications Inc. (WBAP); Channel 2 not applied for.

Lansing, Mich.—WJIM Inc., Channel 6 (82-88 mc), 20.6 kw visual, 10.3 kw aural, antenna 420 ft. Initial cost \$193,500, first year \$120,000, revenue unknown. Harold F. Gross, president, treasurer and 80% owner of applicant firm is also owner of WGFG Kalamazoo, Mich. Applicant is owner of WJIM Lansing. First application received for only frequency allocated to Lansing.

Nashville, Tenn.—WSM Inc., Chan-

R. R. Scoop

BOW for fast reporting can be taken by Ray Henle, editor-in-chief of the ABC *Sunoco Five Star Extra*, last Thursday on the 6:45 p.m. program. Mr. Henle reported the eastern railroads had agreed to shut down if the railroad strike went through. Five hours later, Southern Railway announced it would take that course; and at 6 a.m. and noon, Friday, Pennsylvania and B&O, respectively, confirmed that procedure.

nel 4 (66-72 mc), 14.4 kw visual, 7.2 kw aural, antenna 763 ft. Initial cost \$365,155, first year \$250,000, revenue \$100,000. Plans for programming: live studio 35%; live remote 35%; local and national film 30%. First application received. Nashville allotted Channels 4, 5, 7 and 9. Applicant owns WSM there.

San Francisco—Twentieth Century-Fox of California Inc., Channel 11 (198-204 mc), 28.2 kw visual, 14.9 kw aural, antenna 2,378 ft. Initial cost \$563,014, first year \$600,000, revenue \$360,000.

Seattle, Wash.—Totem Broadcasters Inc., Channel 7 (174-180 mc), 26 kw visual, 13.8 kw aural, antenna 1,260 ft. Initial cost \$241,700, first year \$120,000, revenue unknown. Applicant owns KJR Seattle.

Shreveport, La.—W. Harry Johnson doing business as Mid-South Television and Broadcasting Co., Channel 6 (82-88 mc), 18.3 kw visual, 9.1 kw aural, antenna 522 ft. Initial cost \$159,500, first year \$100,000, revenue \$75,000. Applicant plans to file promptly for TV stations at Memphis, Oklahoma City, Jackson, Miss., and Little Rock, Ark. Applicant is a raiser of livestock, owner of real estate companies, brick and tile plants in Waskom, Tex. and Jackson, Miss., and substantial owner in several bus lines and Chicago and Southern Airlines. Studios would be in Johnson Bldg. Programming would be 75% commercial. Channels assigned Shreveport are 2, 4, 6 and 8. Homer W. Snowden, d/b as Shreveport Television Co. has applied for Channel 8.

St. Petersburg, Fla.—Pinellas Broadcasting Co., Channel 5 (76-82 mc), 16.8 kw visual, 8.64 kw aural, antenna 417 ft. Initial cost \$239,500, first year \$30,000, revenue unknown. Applicant corporation, owned by Times Pub. Co., is licensee of WTSP and permittee of WTSP-FM St. Petersburg. Channel assignments for St. Petersburg and Tampa are 2, 4, 5 and 7. Sunshine Television Corp. has been issued CP for Channel 7. The Tribune Co. has applied for Channel 4. Channel 2 not applied for.

NAB District 2

(Continued from page 24)

members approved a resolution introduced by Ted Cott, vice president and program director of WNEW New York, to permit districts of the NAB to draw upon NAB funds for expenses incurred for district meetings.

Mr. Cott's resolution read: "Whereas, the vital activities of the NAB on the level of district meetings and district activities are essential to the successful operation of the association as a whole, we, the members of the 2d District, do hereby resolve that sufficient funds for carrying on meetings and other necessary expenses be allocated for each district of the NAB."

The meeting also approved a letter from Mr. Hanna to John W. MacDonald, executive secretary and director of the New York State Law Revision Commission, urging that radio be given equal protection with press in a bill contemplated by the New York legislature to protect sources of news.

An explanation of the "all radio presentation," the \$200,000 promotional project approved by NAB, was given to the 2d District members by Victor Ratner, CBS vice president, and Eugene Thomas, sales manager of WOR New York.

Mr. Thomas distributed lists of subscription schedules and urged the broadcasters to participate in the project.

The meeting was also addressed by Benjamin Cohen, assistant secretary general of the United Nations in charge of public information. Upon conclusion of his speech, the members adopted a resolution urging stations to give "greater coverage" to the UN, "not only by means of headline news, but also with information and discussion programs which provide a most appropriate means of bringing to the attention of the public the less spectacular, but important and constructive work, which is being done by many UN organs and agencies."

Meet the MAGNETONE...
 the latest news in wire recording!

Broadcasting stations will find this magnetic recorder ideal for remote pickup and delayed broadcast work. Especially suited for conference recording, case history study, educational training, opera recording, dispatchers' monitoring, police radio monitoring and many other long period recording usages.

The "MAGNETONE" uses plated brass wire and makes permanent magnetic recordings of unsurpassed quality. Recordings may be "erased" and the wire reused any desired number of times. "Erasure" is automatic as a new recording is made. Life of the magnetic wire is unlimited. Reels of wire in 1/2, 1, 2 and 3 hour time periods are available. The "MAGNETONE" is portable, durable in attractive metal or black leatherette case.

Outstanding features include:

- ✓ Fast rewind
- ✓ Fast forward speed
- ✓ Constant recording speed which permits any section of a recording to be spliced into any other section at no reproduction loss.
- ✓ AVAILABLE WITH HIGH AND LOW IMPEDANCE INPUTS & 500 OHM BALANCED-LINE OUTPUT.

FMA

(Continued from page 25)

the luncheon FM and AM are as far apart as heaven and hell. He lavishly praised Dr. Edwin Armstrong for his FM pioneering "which no opponents could keep down," and shouted that "today FM is triumphant." Sen. Tobey suggested to FM broadcasters, "While you make a dollar, also make souls and work on behalf of humanity."

At the opening session Wednesday morning FMA President Everett L. Dillard, WASH Washington, said that by the end of 1948 1,000 FM stations will be serving over 100,000,000 listeners. He said some manufacturers are not co-operating with FM in production of sets and promotion of the medium, and pointed to a decline in output of AM-only sets.

Bill Bailey, FMA executive director, described work of the headquarters office and urged stations to promote FM actively and bring in new members.

Leonard H. Marks, FMA general counsel, reviewed the negotiations with AT&T and FCC actions on high-fidelity transmission lines. He said FMA will not take part in the FCC's June 15 hearing on new TV line rates.

Cleveland E. Giddings, of Capital Transit Co., Washington, advised FM operators that most transit companies would install FM sets in vehicles if they could get any profit out of it. He said they favored a percentage contract, with broadcasters supplying and installing equipment and providing programs.

Mr. Giddings indicated many firms would rewrite car-card contracts to eliminate exclusive rights to cards and permit FM advertising. He predicted many advertisers using cards would buy both cards and FM, perhaps diverting money from present broadcast budgets.

Theodore Granik, WHMB (FM) Washington, was moderator of a forum on FM programming. Participating were Harold Essex,

WSJS-FM Winston-Salem, N. C.; James H. Moore, WSLF-FM Roanoke, Va.; George Sutherland, WAMS-FM Wilmington, Del.; E. J. Hodel, WCFC Beckley, W. Va. The forum developed into a discussion of FM duplication and commercial policies.

At the afternoon session Lee McCanne, executive vice president and general manager, Stromberg-Carlson Co., speaking for Radio Manufacturers Assn., said FM stations were not adequately promoting FM. He contended they sell sets and programs rather than the idea.

Small FM sets are slowing down at the factories, he said, with big models up 40%. He said production of cheap FM sets has pushed down the price of AM models as low as \$19. FM must sell elimination of static and interference, he said.

C. M. Jansky Jr., FMA engineering director, presided at a roundtable on set problems during the afternoon. Panel participants were Frank A. Gunther, Radio Engineering Labs., and L. W. Haessler, RCA. F. R. Meyer, assistant to the manager, Stewart-Warner

Corp. Radio Division, offered to sell table sets in quantity direct to FM stations at a substantial discount, with stations using the receivers for promotional and similar purposes.

Mitchell Talk

At a Thursday morning continuation of the program panel, Maurice Mitchell, WTOP Washington, after hearing complaints that FM stations were being slighted in some of the program award projects, said he was reminded of the oft-heard axiom, "If you win, you've got a darn good program; if you lose you're not a good advertiser." Frank Gunther, Radio Engineering Labs., presided at the panel.

Robert F. Wolfe, WFRO Fremont, Ohio, told how his station started from scratch and built up a substantial local following by community programming and extensive local promotion. "You've got to get listeners," he said. "It doesn't matter whether you have an AM, FM or PM station."

Marion Claire, manager of WGNB Chicago, was toastmistress at the Thursday lunch, at which FCC Commissioner Robert F.

Jones was a guest. Millard D. Faught, executive vice president of Young & Faught, New York, chided stations for program quality and lack of energetic promotion. He told what he would do if he operated an FM station, stressing the community aspect.

An afternoon panel on selling FM time was presided over by R. C. (Jake) Embry, WITH-FM Baltimore. Participating were Thomas F. McNulty, WMCP Baltimore; Edward A. Wheeler, WEAW Evanston, Ill.; Fred Dodge, WRAL-FM Raleigh, N. C.; Hudson Eldridge, WASH Washington.

Resolutions were adopted urging national networks to use lines with 8000 cycles minimum, and 15,000 where possible; asking the board to call on Radio Manufacturers Assn. and set makers to produce FM portables and auto sets in quantity; urging steps be taken to bring about more equitable rates for 15,000 cycle lines and encourage microwave relays; calling on the board to petition the U. S. Census Bureau to include a set ownership question in the 1950 census, breaking down FM, TV, facsimile and AM ownership; voicing appreciation to RMA for efforts to improve set quality; advocating a study of FMA By-Laws prior to the Sept. 27 convention; expressing thanks to Ben Strouse, WWDC-FM Washington, for handling Region 4 convention plans (he was elected region chairman); thanking FCC members and Senator Tobey for their participation.

PORTER

THE PROBLEMS created by this nation's preparations for military emergency without simultaneous imposition of restraints on the domestic economy are of "profound importance" to the expanding communications industry, Paul A. Porter, former FCC chairman, said last week.

Mr. Porter, now in private practice in Washington, addressed the Radio Executives Club of New York at a luncheon meeting in the Hotel Roosevelt May 6.

Mr. Porter

Asserting that America was taking "a reckless and unwarranted risk in attempting to prepare for a possible war emergency without seeking appreciable sacrifices

Says Preparedness Plans May Retard Video

from any of its citizens except the youth . . . whom it intends to call up for limited service," Mr. Porter took a gloomy view of the future.

"In a political year," he said, "we are seeking to create the illusion of 'guns' and at the same time indulge in the luxurious reality of 'butter' with the very real prospect that, in the event of a genuine emergency, we may have neither or forfeit both."

"Television, the bright and elusive hope of a day not far distant, can be seriously retarded by the steady march toward a war or near-war economy," he said. "The planning of receiver and transmitter manufacturers for a large-scale production can be drastically altered, in my opinion, by developments even short of a shooting war."

Mr. Porter was one of three former FCC chairmen who attended the REC meeting. The others were James Lawrence Fly, now in private law practice in New York, and Charles R. Denny, now vice president of NBC.

The meeting was the last of the present season. Retiring president of the club, William S. Hedges, NBC vice president, turned the gavel over to Carl Haverlin, president of Broadcast Music Inc., who succeeds him.

WHIM Providence, R. I., has reported 272% increase in business for first two weeks of its second year of operating over first two weeks of first year.

MARION CLAIRE NAMED AS FMA BOARD MEMBER

MARION CLAIRE, director of WGNB (FM) Chicago, was named Thursday by the FM Assn. Board of Directors to fill the vacancy created by resignation of Leonard L. Asch, WBCA Schenectady.

Miss Claire, who was toastmistress at the Thursday luncheon meeting of FMA Region 4 in Washington, was named by the board to be chairman of the 1948 FM Assn. national convention Sept. 27-29 at the Hotel Sheraton, Chicago.

The board acted favorably on resolutions adopted at the Region 4 meeting (see story, page 25).

More TV Channels

(Continued from page 21)

otherwise would be held separately.

The new table sets aside channels for 461 different areas, providing for a total of more than 900 stations as compared with the existing allocations plan covering only the 140 major markets and providing for 405 stations.

FCC made plain that the city-by-city allocations in the proposed table represent "simply a determination by the Commission that it is engineeringly possible to have that number of television stations in such cities." It does not mean that the various cities "will, or will not, have" the number of stations indicated by the allocations. The Commission anticipated changes from time to time.

Comr. Robert F. Jones, dissenting in part from the Commission's decision on frequency-sharing and the deletion of TV Channel 1, maintained that "the time has come when the Commission should provide more than a temporary home for not only [safety and special services] but for the FM service and the television service and other services incidental thereto."

Allocations hearings and changes in the past, he said, have "not resulted in the stability necessary for the proper promotion of the new services"—particularly FM and television. Thus he felt it "would

be unwise now to make any sub-allocation of the 44-50 mc band until a thorough and careful hearing is held and a determination reached regarding the interference problems that may be experienced on all of the frequencies below 300 mc."

In eliminating "sharing," FCC noted that hearings on the question "showed beyond any doubt that the shared use of television channels was not feasible."

FCC recognized that its decision to delete TV Channel 1 instead of No. 2—which the American Radio Relay League had suggested—would "cause some misgivings to the amateurs operating in the 28-29.7 mc band whose harmonics may cause interference to television channel 2." But the Commission gave its assurance that it would not require an "unrealistic" or inequitable degree of suppression by the amateurs.

With respect to FM's plea for use of 44-50 mc, the report said:

The public welfare and national security necessitate arriving at an allocation at the earliest possible date for the fixed and mobile services engaged in safety and protective activities. Hence, it is essential that FM stations dependent upon certain other FM stations in the 44-50 mc band as a program relay facility must look to other facilities for program relaying. Therefore, the band 44-50 mc is allocated to the fixed and mobile service. . . .

So far as network programming of FM stations is concerned, the Commission believes that, in general, common carrier facilities will be used for this purpose. Moreover, as in the case of television, the Commission is proposing a modification of its rules so as to permit intercity relaying of FM programs on frequencies allocated for FM STL purposes, 940-952 mc. Finally, it should be pointed out that nothing in the Commission's Rules prevents FM stations in the band 88-108 mc from re-broadcasting the programs of other FM stations as is presently being done.

FCC said objections to the proposed revision of rules to permit relaying in the 940-952 mc band would be accepted until June 7, and that oral argument would be held thereafter if warranted.

Changes in the allocations to non-government services in the 25-30 and 450-460 mc bands also were proposed, with June 14 set as deadline for objections in each case. The same deadline was provided in the sub-allocations proposals issued in connection with the allocation of 44-50 mc to fixed and mobile services (proposed for land mobile exclusively) of 72-76 mc for fixed services (public safety, land transportation, industrial).

Issues announced for the Sept. 20 hearing on video use of the 475-890 mc, now used for television experimentation, were as follows:

1. To obtain full information concerning interference to the reception of television stations operating on Channels 2 through 13 resulting from adjacent-channel operation of other services, from harmonic radiations, and from man-made noise.
2. To receive such additional data as may be available since the close of the hearing in Dockets 6651 and 7896 [allocations and color television, respective ly] concerning the propagation characteristics of the band 475 to 890 mc.
3. To obtain full information concerning the state of development of transmitting and receiving equipment for either monochrome or color television broadcasting, or both, capable of operating in the band 475 to 890 mc.
4. To obtain full information con-

Blaw-Knox TOWERS

FM Supporting Tower—WMGM

"Towering Strength" would be a true title for this picture, because Blaw-Knox vertical radiators combine calculated structural stamina with maximum radiating efficiency. (Blaw-Knox engineers have learned a lot from designing several hundred thousand radio and transmission-line towers!)

Both guyed and self-supporting towers are available through your near-by Graybar "service station."

Graybar has *everything* you need in broadcast equipment . . . PLUS everything for wiring, ventilating, signaling, and lighting for your entire station and grounds! Whatever your requirements — to get the most suitable items most quickly, call your nearest Graybar Broadcast Equipment Representative. *Graybar Electric Company, Inc. Executive offices: Graybar Building, New York 17, N. Y.*

Hon. Clifford E. Bolgard
Young & Rubicam Inc.
Chicago, Illinois.

Dear Cliff:

Lots t'do round these parts 'bout an island which sprang up in the Kanawha river near Charleston followin' th' recent floods.

Feller went out to it in a boat jest t'be the first man t' set foot on it. Course, this island will probably wash away, but it brings to mind that if'n this feller woulda took a portable radio with him . . . he's found WCHS coming in on 580 with 5000 watts. . . . Same as it does over most o' West Virginia. . . . Yessir, if'n you want t' get somethin' across t' people in West Virginia, WCHS is th' place t' go. Cause, round these parts, you jest can't get away from them 5000 watts. . . . Course, who'd want to . . . WCHS has CBS.

Yrs. . . .

Algu.

WCHS
Charleston, W. Va.

CHICAGO TV

DRASTIC CHANGES in blueprints of Chicago's Television City, calling for abandonment of a spacious plaza and substitution of a 1,050-ft. studio frontage to accommodate the major networks, have been approved tentatively by NBC, ABC, CBS, and WGN-Mutual officials.

Dennis Scanlan, of Walter Butler Co., St. Paul, designer of the lakefront project, made this announcement Wednesday in Chicago. It was confirmed by I. E. Showerman, Edward Borroff, and H. Leslie Atllass, central division vice presidents of NBC, ABC, and CBS, respectively, and Frank P. Schreiber, general manager of WGN Inc.

Mr. Scanlan also disclosed that Ralph L. Atllass, general manager of WIND, and Howard Lane, radio director of Field Enterprises, owner of WJJD, "are interested" in studio space on the lake side of the proposed development.

The latest rough draft of the Television City project envisions adjoining network studios 260 feet wide, looking west across Chicago's outer drive, and 190 feet deep. The WIND and WJJD studios would be 350 feet wide, overlooking Lake Michigan, and 75 feet deep. All studio ceilings would be 30 feet high.

Mr. Scanlan described WGN officials as "enthusiastic" about the project despite the fact a new building is underway to house studios of WGN-TV, new video outlet, and to allow for expansion of the parent *Chicago Tribune* organization. Mr. Schreiber admitted having conferred with the Television City promoter "several times."

Mansfield

(Continued from page 28)

Unity Corp. (subsequently granted) and the *Mansfield Journal*. FCC also asked the court to deny the *Journal's* request for a stay order blocking effectiveness of the Jan. 10 actions.

The Commission told the Court that "the principal objective" of the appeal "is the defeat or at least the delay of the grants" to WMAN and Unity "rather than the protection of appellant's own rights as an applicant."

Meanwhile, FCC heard oral argument by counsel for WHBQ Memphis and KFDM Beaumont, Tex., on the Commission's proposal to grant WHBQ's application to move from 1400 to 560 kc and boost power from 250 w to 5 kw day and 1 kw night [BROADCASTING, March 8].

Paul M. Segal, attorney for KFDM, insisted WHBQ should be required, if its application is granted, to give more protection to KFDM's new 5-kw operation on 560 kc. George Strong, counsel for WHBQ, reiterated that the Memphis station's application should be granted but that "the inference that we can protect Beaumont in some way just isn't supported by the record."

Networks to Get Studio Space

Erection of the main office building and tower of the development, originally estimated to cost \$50,000,000, probably will be postponed until several years after the television studios, sports arena, and stadium projects have been completed, Mr. Scanlan added. Construction of the arena and stadium would go along with that of the studios because these centers would be needed for the origination of TV remotes, he explained.

Mr. Scanlan would not venture a guess as to when the project might get underway, but indicated one network is "most anxious to get started as it can save money by casting its lot with Television City rather than convert the building presently occupied for TV purposes."

GORDON GRAY HEADS ALL - INDUSTRY PLAN

GORDON GRAY, WIP Philadelphia, last week was elected permanent chairman of the All-Industry Presentation Committee, which already is working on a major promotion project designed to exploit all facets of broadcasting.

Plans for discussion of the project at the NAB Los Angeles convention were discussed. The subject comes up at the Monday afternoon convention session. Scale of fees for stations has been drawn up [BROADCASTING, May 3].

All AM and FM stations have received a pamphlet, "Radio Has Been Strangely Silent," explaining the project in detail.

In a policy decision the committee decided that those who desire to participate in benefits of the all-industry film must aid in its financing. The film will be produced this summer, employing new techniques in animation.

CLEARWATER GRANTED; LAKELAND IS DENIED

FCC last week made final its proposed decision to grant Clearwater Radio Broadcasters' application for a new 250-w fulltime station on 1340 kc at Clearwater, Fla., and to deny Ledger Publishing Co.'s bid for the same facilities at Lakeland.

As in its original proposal [BROADCASTING, March 15], the Commission held in its final decision, released Wednesday that a grant at Clearwater would provide a more equitable distribution of radio transmission facilities. The Lakeland company, publisher of the daily *Lakeland Ledger*, had filed no exceptions to the proposed decision. Ownership of the grantee company:

Otis E. Pruitt, owner of a Clearwater auto agency, owns 1-2/3% interest and is president; Danzil Pulley, radio engineer, owns 30% and will serve as manager and chief engineer; Clifford McKay, in the advertising business in Clearwater and one-time manager and announcer of WMAZ Macon, Ga., also owns 30% and will be commercial manager; Lawrence O. Binder, wholesale jeweler and citrus farmer, has 15% interest; Lewis Sperry, whose business interests are in Troy, N. Y., but who has a home near Clearwater, owns 16-2/3%, and Edward B. Casler Jr., Clearwater attorney and former Mayor, has 6-2/3%. The station, second for Clearwater, will be the resort city's fulltime outlet.

FCC in Los Angeles

CHAIRMAN Wayne Coy will head an FCC group of at least three Commissioners and five top staff executives attending the NAB convention in Los Angeles next week. Commissioners attending will include George E. Sterling and Rosel H. Hyde and possibly Robert F. Jones. Staff members will be Benedict P. Cottone, general counsel; John A. Willoughby, acting chief engineer; Cyril M. Braum and James E. Barr, heads of the Engineering Dept.'s FM and AM sections, respectively, and Hart Cowperthwait, acting head of the TV section. Chairman Coy will be one of the principal speakers and several of the other FCC representatives will participate in the convention programs.

FARMERS

TWO-YEAR CONTRACT under which WMAL-TV Washington becomes an ABC television affiliate [BROADCASTING, April 26] is completed by Mark Woods (l), president of ABC, Sam H. Kauffman (seated), president of WMAL and WMAL-TV, and Ernest Lee Jahncke, station relations manager of ABC Television. WMAL and WMAL-TV are owned by The Evening Star Broadcasting Co.

Code Text

(Continued from page 51)

no claims intended to disparage competitors, competing products, or other industries, professions or institutions.

Advertising copy should contain no claims that a product will effect a cure.

Good taste should always govern the content, placement and presentation of announcements. Disturbing or annoying sound effects and devices, blatant announcing and over-repetition should be avoided.

TIME STANDARDS FOR ADVERTISING COPY

As a guide to the determination of good broadcast advertising practice, the time standards for advertising copy are established as follows:

The maximum time to be used for advertising, allowable to any single sponsor, regardless of type of program, should be:

Between 6:00 p.m. and 11:00 p.m.

5 minute programs	1:00
10 minute programs	2:00
15 minute programs	2:30
25 minute programs	2:50
30 minute programs	3:00
45 minute programs	4:30
60 minute programs	6:00

All Other Hours

5 minute programs	1:15
10 minute programs	2:10
15 minute programs	3:00
25 minute programs	4:00
30 minute programs	4:15
45 minute programs	5:45
60 minute programs	7:00

The time standards allowable to a single advertiser do not affect the established practice of allowance for station breaks between programs.

All multiple sponsorship or an-

nouncement programs, except as hereinafter provided, are subject to the limitation of a maximum of three minutes of advertising per 15 minute segment excluding station breaks. Such programs of half hour, three-quarter hour and hour duration are subject to appropriate multiples of that limitation.

Recognizing that such programs as shopping guides, market information, rural news, and the like render a definite service to the listening public; time standards for such programs may be waived for a total of one hour a broadcast day, but care should be exercised to preserve proper program balance in their distribution.

While any number of products may be advertised by a single sponsor within the specified time standards, advertising copy for these products should be presented within the framework of the program structure. Accordingly the use on such programs of simulated spot announcements which are divorced from the program by preceding the introduction of the program itself, or by following its apparent sign-off should be avoided. To this end the program itself should be announced and clearly identified before the use of what have been known as "cow-catcher" announcements and the program should be signed off after the use of what have been known as "hitch-hike" announcements.

Any reference in a program to any product or service under any trade name, or language sufficiently descriptive to identify it should, except for normal guest identifications, be considered as advertising copy and, as such, a part of and included in the total time allowances as herein provided.

The placement of more than one commercial announcement between two programs should not be permitted except in those instances when one of the two announcements is a sponsored time signal, weather report, station promotion, identification, ownership or location announcement of not to exceed a total of ten seconds in length.

CONTESTS

Any broadcasting designed to "buy" the radio audience, by requiring it to listen in hope of reward, rather than for the quality of its entertainment should be avoided.

Contests should offer the opportunity to all contestants to win on the basis of ability and skill, rather than chance.

All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced or easily accessible to the listening public; and the winners' names should be released as soon as possible after the close of the contest.

When advertising is accepted

which requests contestants to submit box-tops, wrappers or other evidences of purchase of product, reasonable facsimiles thereof should be made acceptable.

All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided.

PREMIUMS AND OFFERS

Full details of proposed offers, should be submitted to the broadcaster for investigation and approval before the first announcement of the offer is made to the public.

A final date for the termination of an offer should be announced as far in advance as possible.

If a consideration is required, the advertiser should agree to honor complaints indicating dissatisfaction with the premium by returning the consideration.

There should be no misleading descriptions or comparisons of any premiums or gifts which will distort or enlarge their value in the minds of the listeners.

NEA TALENT MAKING TRANSCRIBED PACKAGE

NEGOTIATIONS were completed last week with Scripps-Howard's syndicate, NEA, to bring its top writing talent to radio. The transcribed package, titled *FYI—For Your Information*, is being handled by Ed Hart & Assoc., Washington.

The show will bring to the air NEA personalities reading their own columns. Each one will have about a minute and three-quarters and Richard Hollander, managing editor of Scripps' *Washington Daily News*, will tie the program together. Peter Edson, Erskine Johnson, Harry Grayson, Alicia Hart and all other NEA feature writers will be available for appearance.

Keystone Broadcasting System will place the show with affiliates and Ed Hart & Assoc. will handle sales in metropolitan areas.

WEGO Renewed

RENEWAL without hearing of the license of WEGO Concord, N. C., was granted last week by FCC to Wayne M. Nelson, owner. Investigation had been designated last December by the Commission regarding certain fortune telling or astrological reading programs which were alleged to have been aired. In its petition for renewal without hearing WEGO pointed out that a program series by "El Haren," an astrologer, had been dropped when it was learned FCC at one time indicated disapproval of such shows. WEGO is assigned 1 kw daytime on 1410 kc.

ABC's "Ladies Be Seated" will give performances at National Food Show in Chicago, May 9-16, in both afternoon and evening hours.

POLICY BREAK

WCBS New York is slated to break a 20-year-old precedent this week when nighttime spot announcements are offered for sale for the first time since the key CBS station went on the air in 1928 as WABC.

Behind this disclosure is a unique story of painstaking self-regulation by a station, told by G. Richard Swift, assistant general manager of WCBS.

The decision to sell evening spots on WCBS was cued by the success of the station's daytime spot system, according to Mr. Swift, instituted in October 1947, before which time WCBS was altogether spot-less. The system was worked out by Mr. Swift and Don Ball, manager of the WCBS editing division. It is "as scientific as we can make it," Mr. Swift says, in keeping with the passion for precision and research which characterizes CBS from Frank Stanton downward.

The WCBS spot control plan is a reflection of the station's policy of fully controlling all of its shows, and airing no agency packages. Thus, Mr. Swift says, program control is extended down through the level of 20-second spots. Even these, he maintains, are scheduled and programmed as carefully as the programs themselves.

Spots are never sold by the station by position, he said, but instead they are placed according to a vastly complicated rotating schedule, which is said to guarantee equal treatment for all spot-buyers. Close attention is given to juxtaposition, so there is small

BENTON WILL ADDRESS AD FEDERATION MEET

PRINCIPAL speaker at the Advertising Federation of America's 44th annual convention in Cincinnati, June 13-16, is to be William

Mr. Benton

Benton, former assistant secretary of state and head of the U. S. delegation, United Nations Conference on Freedom of Information and the Press in Geneva. Mr. Benton is a former partner of Benton & Bowles, New York.

Other advertising and business leaders slated to participate are Dr. Vergil Reed, associate director of research, J. Walter Thompson Co.; Fairfax Cone, chairman, executive committee, Foote, Cone & Belding, and Henry Obermeyer, Consolidated Edison Co., New York. Messrs. Cone and Obermeyer will discuss "Is Advertising Losing Out to Public Relations?" at the morning session June 14. J. H. S. Ellis, president, Kudner Agency Inc., and John J. Karol, CBS sales manager, also will take part in the sessions.

WCBS Intends to Sell Nighttime Spots

★ chance of Pepsi-Cola hitting the spot immediately after the Coca-Cola show on WCBS.

To keep all of its spot purchasers happy, the schedule is keyed to a rating system based on the shows preceding and following the announcement. An average monthly rating is established, and spots are placed where they will hit or exceed the average figure. All spots are limited to 45 words or 20-second transcriptions.

With scientific caution WCBS studied the whole field of spot announcements for a year before deciding to use them at all, according to Mr. Swift. One of the fruits of this study was the conclusion that even some of the much-criticized varieties of spot announcements—singing, repetitive, sound-effect—are not objectionable in themselves but only if handled or placed with poor taste.

Ziv Co. Program Is Sold to Norge

A NEW musical show, *It's Showtime From Hollywood*, starring Freddy Martin, has been purchased from Frederic W. Ziv Co. by Norge Division, Borg-Warner Corp. of Detroit, in what is reportedly one of the biggest transcription deals in radio history.

The contract giving Norge exclusive right to the show until July 1, when it is expected that from 150 to 175 stations will carry it, was signed in Detroit April 30 by Alvin E. Unger, Ziv national sales manager; Ray Linton, of Ziv's Detroit office; Joe Neebe, Campbell-Ewald Agency, and C. H. MacMahon, Norge advertising manager.

Norge distributors and dealers are being offered the show. The parent company will pay two-thirds of the time and talent costs, according to John L. Sinn, executive vice president of Ziv.

Mars Is Experimenting In TV With 'Dr. I. Q. Jr.'

TELE-VERSION of new juvenile quiz show, *Dr. I. Q. Jr.*, sponsored by Mars Inc., will be offered for an experimental seven-week period on WWJ-TV Detroit beginning May 15, it has been announced by Grant Advertising Inc.

Series is designed with an eye toward future trends in television and is expected to provide an opportunity for the sponsor to adapt its commercial copy slant and presentation to the medium, according to V. H. Gies, sales and advertising director.

Commercial

GLEN W. TRAVIS, member of sales staff of KREL Goose Creek, Tex., has been appointed commercial manager. He formerly was with WTMOC Ocala, Fla., as commercial manager. JESS IKARD has joined KREL sales staff, replacing ISOBEL McCONNEL, resigned.

ROBERT M. HETHERINGTON, formerly with sales staff of WIL St. Louis, has joined sales department of KSTL, new station under construction in St. Louis. Mr. Hetherington previously was Chicago newspaper man. KSTL plans to begin operations June 1.

Mr. Hetherington

L. D. LARIMER, member of CBS Radio Sales in Chicago, will join the network's Hollywood station, KNX, this week.

NATIONAL BROADCAST SALES, Toronto and Montreal, has been appointed as exclusive representative for CJCH Halifax.

BERNARD W. JASPER, new to radio, has joined WCSI(FM) Columbus, Ind., as commercial representative.

ROBERT MEEKER Assoc., New York, has been appointed national sales representative of WGFG Kalamazoo and WJIM Lansing, Mich., both of which are affiliates of ABC and are under general managership of HAROLD G. GROSS.

KMOX St. Louis has issued Rate Card No. 21, effective May 15. Base rates are unchanged, but Class C rate has been revised, and Dollar Volume Discount has been eliminated.

ELLIOTT P. MILLER, program director of WHTT Hartford, Conn., has transferred to station's sales department.

McGEEHAN & O'MARA Inc. has been appointed station representative for WGIL Galesburg, Ill.

BETTY SVEC, formerly with JOHN BLAIR & Co., New York, has joined New York branch office of WCKY Cincinnati.

BOLLING Co., Chicago, has been appointed national representative for WCFL Chicago.

RICHARD PERCIVAL, chief of auditing department, KRNT Des Moines, is the father of a boy, William Carl.

GENE GRANT & Co. has been appointed as representative for KASH Eugene, Ore.

CLARK-WANDLESS Co., New York, has been appointed U. S. representative for TGL and TGLA both Guatemala City, Guatemala.

MEL HALES, sales representative for WHBC Canton, Ohio, is the father of a boy, Lloy Delvyn.

10,800 Television Sets Installed in Washington

AN ESTIMATED 10,800 television sets are installed and operating in the Washington, D. C. area as of May 1, according to the Washington Television Circulation Committee representing the three operating TV stations there.

Data, reflecting the largest increase in sets installed in any one month, was compiled by the Electric Institute of Washington and WMAL-TV, WNBW and WTTG. This represents an increase of 2,200 over the April 1 total of 8,600 sets. Home-made television sets are included in the estimate.

Committee members are James Seiler, WNBW; Gordon Williamson, WTTG, and Sam Cooke Digges, WMAL-TV.

SHERMAN H. DRYER PRODUCTIONS. New York, which currently has optioned out four of its top packages to as many agencies, is forming television film company as subsidiary. Further details will be announced when formation takes place.

WANDA MARVIN VAN BRUNT, former editor of Television Analyst, has joined video management consultant firm of Richard W. Hubbell & Assoc. Firm has moved to 118 E. 40th St., New York, with new telephone numbers, Murray Hill 3-0028 and Murray Hill 5-1000.

JERRY FAIRBANKS PRODUCTIONS Hollywood, has opened service offices in Tulsa, Okla., with A. G. PETRASEK as manager.

BOB SUMMERS, research director for WFAA Dallas since 1946, has been appointed to technical committee of Broadcast Measurement Bureau. He replaces **CORT LANGLEY** of WOR New York, resigned.

JACK STEWART, former program director of W6XAO Hollywood, has joined Nassour Studios, that city, as director of television and commercial films.

MENDEL KOCHANSKI, Chicago freelance writer, has been named director of newly-organized radio department of National Committee for Labor Pales-

tine, New York. Former script editor and publicity director of WSBC Chicago, Mr. Kochanski will direct production of both live and transcribed programs for broadcast.

HERB FREEDMAN, formerly with UP Philadelphia Bureau, has joined MIT Shapiro Assoc., Philadelphia program packager.

INDUSTRIAL ADVERTISERS Assn. has formed Dallas branch with the name of Dallas-Southwest Industrial Marketing Council. **NATHE P. BAGBY** of Leche & Leche is chairman and **JAMES C. McMANS** of McMains Adv., secretary-treasurer. Group will meet monthly.

JANE HARVEY, singer, has been signed by Larry Finley Productions, Hollywood, to do 13-week television film series on 16 mm, starting June 1.

AMERICAN LEGION RADIO BRANCH is distributing series of ten free four-minute transcribed interviews with major league baseball stars and league officials, endorsing Legion's Junior Baseball program. Stations offered interviews are 774 which carry Legion's "Decision Now" in regular slot of week-day program schedules.

Equipment

C. M. (Buck) LEWIS, former regional sales manager for RCA Engineering Products in midwest region, has been appointed sales manager for broadcast and industrial equipment of the department at Camden, N. J. In new position he will direct field sales activities on all AM, FM, and TV equipment used by broadcasting stations, as well as industrial equipment. **Dr. DOUGLAS H. EWING**, former manager of Teleran Engineering, has been appointed manager of advanced development engineering of RCA Engineering Products Dept.

PAUL S. ELLISON, with Sylvania Electric Products for 15 years in various sales and advertising capacities, has resigned as public relations director of the firm. His future plans have not been revealed. He is former chairman of Assn. of National Advertisers, a current director of the Advertising Council, Audit Bureau of Circulations and Adv. Research Foundation. His successor has not been named.

ROBERT W. JACKSON, formerly with General Electric News Bureau, Schenectady, has been shifted to San Francisco in charge of company's General News Bureau there, handling West Coast operations. He replaces **F. LOWELL GARRISON**, who has been named radio sales manager for San Francisco district of GE Supply Corp.

FARNSWORTH TELEVISION & RADIO Corp., Fort Wayne, Ind., has announced new automatic record changer which plays 12 10- and 12-inch records separately or intermixed, without manual adjustments. Firm also announced plans for marketing of complete line of Capehart phonograph-radios and television receivers through nation-wide distributing organization.

TV Package Show Firm Set Up in New York City

FORMATION of the Television Artists Corp. to create, film and distribute video package shows was announced last week by Jack Bertell, former vice president of Music Corp. of America and of Columbia Artists Bureau.

Production plans call for filming three six to seven-minute shorts a day, Mr. Bertell said. Office headquarters are at 38 E. 57th St., New York, with studios in the Bronx.

WPIX Plans Syndication Of Daily Video Newsreel

THE DAILY television newsreel slated to appear on WPIX (TV) New York when the *Daily News* station begins operations in June, will be syndicated nationally, station said last week.

Exclusive rights in their area will be granted stations signing for the 16 mm film. Domestic and foreign coverage in addition to that by WPIX cameramen is being planned, officials added.

ATS Forum

A FORUM on "The Independent Director and Producer in Television" will be held by the American Television Society at 8 p.m. May 12 at the Wendell Willkie Memorial, 20 W. 40th St., New York. Speakers will be Thomas Hutchinson, director of the *Swift Show*. Martin A. Gosch, producer of *Tonight on Broadway*, and Irvin Paul Sulds, producer of *Court of Public Opinion*. This will be the last forum in the ATS series of 1947-1948.

Group to Study Programs Formed in San Francisco

A GROUP of San Francisco civic leaders, educators, welfare workers and churches have formed an organization devoted to study of radio programming. Group plans to offer constructive criticism to broadcasters.

Acting chairman is Edwin Rich, headmaster of the Town School for Boys. He said the group's objectives are: To obtain better programs, to obtain a balanced distribution of programs throughout the day, to urge responsible use of radio as a social force, and to stimulate the listening public "to exercise its rights, privileges and duties."

Participating are:

San Francisco Council of Churches, San Francisco Council of Church Women, San Francisco Juvenile Court, California Federation of Women's Clubs, Public Education Society, Pan-Hellenic Society, American Assn. of University Women, Quota Club, Alamo Mothers' Club, Commodore Sloat Mothers' Club, Lake Merced Mothers' Club, Sarah Dix Hamlin School, Town School for Boys, Presidio Hill School, College of Holy Name, Mental Hygiene Society, Booker T. Washington Community Center, Katherine Delmar Burke School for Girls, Second District California Congress of Parent-Teacher units from Sheridan, Lafayette and Frederic Burk schools and Wilkins private high school.

Heads RDG N.Y. Local

ROBERT LEWIS SHAYON, producer-director for CBS, has been elected president of Radio Directors Guild's New York local, succeeding William Sweets. Other new RDG local officers are: Tom Bennett, vice president; Charles Powers, secretary, and Ernest Ricca, treasurer. Mr. Sweets and Don Gillis were elected council members and Charles Polacheck was named council representative for television.

BBC Yearbook Out

THE 1948 edition of the British Broadcasting Corp. Yearbook has been published, and is replete with illustrations of broadcasts and telecasts made during 1947. Half the book is devoted to special articles on various aspects of British broadcasting by well-known British writers and broadcasters, and half reviews activities in 1947.

CONTROL TREND *Increased Regulation Seen by Lawyer*

A CONSISTENT trend toward economic regulation by FCC in recent years is seen and reviewed by Edwin C. Conrad, Madison, Wis. attorney, in a study of "Economic Aspects of Radio Regulation" in the April issue of the *Virginia Law Review*.

Characterizing FCC's Blue Book as "the most advanced form of economic regulation," Mr. Conrad writes that if it is "validated in the halls of justice, we will see the transformation of radio from a free system to one of Government control."

But, he says, "if the right of radio to remain free of government program control is ultimately sustained by the courts, a communications system as free as the ether it utilizes will come forth."

Mr. Conrad contends FCC's Blue Book program policy "is founded

upon the fallacious premise that too many commercial programs are detrimental to the public, regardless of the content, simply because the program is sponsored." He writes:

Excessive commercialism is a moral problem which the broadcast industry must itself resolve. If it does not, Congress will be forced to enact appropriate legislation. But it is evident that the American broadcasting system cannot long remain free if shackled by the tentacles of governmental program control. The Blue Book is just a beginning.

Of FCC's Avco Rule requiring the advertising of stations up for sale, Mr. Conrad finds it "impossible to reconcile this procedure with the [Communications] Act" and feels that it "should wilt when subjected to judicial scrutiny." Referring to the economic effects of multiple grants in relatively small communities, he said "experience has shown that the 'survival of the fittest' philosophy is not the solution," and that "Congress can provide the Commission a formula calling for an optimum number of radio stations giving good service rather than a large number giving inferior service."

Mr. Conrad is a member of the Madison law firm of Aberg, Bell, Blake & Conrad.

Plan New Relay Stations For 'Voice of America'

STEPS are underway by the State Dept. for building new, powerful relay stations in Europe to increase the effectiveness of "Voice of America" broadcasts, particularly in the Soviet sphere of influence.

It was felt that the stations may help to overcome the "jamming" of U. S. broadcasts to Siberia. The "jamming" is reportedly continuing despite an official protest to Moscow last month.

The building program is made possible by a \$3,000,000 supplemental fund the State Dept. expects to receive soon. The fund is

News

HARRISON COLSON, former news editor and overseas correspondent for NBC in Honolulu, has joined news staff of WFAA Dallas.

GUS POLLES, former night manager of UP Bureau in Des Moines, has joined news department of KRNT Des Moines.

He replaces **JIM COONEY**, resigned. Mr. Polles previously was with Chicago Daily News, Waukegan (Ill.) Sun, Akron Beacon Journal and UP Chicago bureau.

JIM COX, sportscaster on CKNW New Westminster, B. C., has been appointed to handle broadcasts of Inter-City Box Lacrosse games over CKNW.

THURSTON MACAULEY, news chief of Army's Blue Danube Network in Austria, has also been appointed Vienna correspondent of ABC.

RAYMOND C. McCAY, radio commentator and public relations man in Atlanta, Ga., is the father of a girl, Sherry Marie.

JACK SHELLEY, news manager of WHO Des Moines, was one of the recipients of Missouri Honor Awards for Distinguished Service in Journalism, named by U. of Missouri School of Journalism, May 7.

ELINOR CANEDY, commentator on KSDJ San Diego, has resigned to freelance in New York.

ROBERT BENDICK, news and special events director for CBS television, is the father of a girl, Karen Ann.

MIKE ERRICO has joined WNLK Norwalk, Conn., as sportscaster.

DAVE ATCHISON, farm news editor of NBC Central Division press department, is the father of a girl, Kathleen Anne.

contained in an appropriation bill containing money for other agencies and is now in conference committee, but both House and Senate have agreed to the State Dept. fund.

Staff Removes Equipment As Fire Threatens WWSR

QUICK thinking and far-sighted planning saved WWSR St. Albans, Vt., from possible destruction when a major fire broke out the night of April 28 in a large brick block just an alley-width from the station's offices and studios.

All speech input equipment and amplifiers, which had been installed with jacks for quick changes, plus console, office furnishings etc. were quickly removed by the staff and piled on the street two floors below. The fire, which destroyed living quarters of 32 people and 6 businesses, was finally brought under control at 5 a. m. and the equipment was carried back up by the staff. The station signed on from its regular studios at 7 a. m. that morning.

Station Manager and Mrs. Warren Marsden had been trapped in a fourth floor apartment, but managed to escape via a flimsy fire escape which had been awaiting repairs.

CBS EL PASO

KROD

KEY STATION - SOUTHWEST NETWORK

ONE YEAR ago KGO San Francisco began paid-space radio news column in four metropolitan daily papers in the Bay Area. Station reports last month the column, called "Bob Franklin's Radio News," received the highest index rating for per cent of women readers and fourth highest for per cent of men readers in Adv. Research Foundation's Continuing Study of Newspaper Reading, made by San Francisco News. "Fan mail and offers received by the radio column convinced us long ago that the column was the most effective piece of audience promotion advertising KGO has ever undertaken," says Bob Laws, KGO advertising, promotion and publicity manager.

WGAC Reach

"THE OLD Boarding House Reach Was Never Like Ours," says WGAC Augusta, Ga., on cover of its latest coverage data folder. Prepared in handy file-folder form, piece presents maps showing station's daytime primary coverage area and daytime unduplicated coverage. Maps are done in colors on bright yellow background. Facts on area's population, business, etc. also are included.

'TV Is Coming'

EIGHT-FOOT signs on side of Buffalo Evening News trucks now proclaim "Television Is Coming—WBEN-TV—See Your Radio Dealer." Station is using 100 signs. Formal opening for the News' video station is set for Friday, May 14, and paper will issue special television section following day.

Shave Contest

"CLOSEST SHAVES" of contestants—their narrowest escape from danger—are to be entered in \$25,000 prize essay contest on "Mystery Theatre," sponsored by Molle Shaving Cream Fridays at 10 p.m. on NBC. Contest, to open May 14 and close June 18, offers a \$3,500 vacation trip, or same amount in cash, as grand prize. Contestants must enclose two end-flaps of carton from any tube or jar of the shaving cream.

Flour for Europe

HOUSEWIVES throughout West Coast listening area have opportunity to contribute flour to hungry Europe, at no cost to themselves. Flour to Europe project is under auspices of Fisher Flouring Mills Co. and is conducted on "James Abbe Observes" over KGO San

Promotion

Francisco and ABC Pacific Coast Network. Fisher is donating flour for Europe on pound-for-pound basis to match purchase of Fisher's Biskit Mix, one of its products. Purchasers who clip top of package and mail it to Flour-for-Europe, Box 84, Seattle, insure the earmarking of 2½ pounds of bread flour for European relief. At end of drive, Fisher will distribute total quantity of contributed flour among U. S. accredited relief agencies. Pacific National Adv., Seattle, is agency for Fisher.

Guest Popularity

MOST POPULAR guest to appear on ABC's "Breakfast Club" during 12 months preceding June 23, 1948, will be selected from poll which currently is being conducted among cast members and all departments of ABC and Don McNeill Enterprises Inc. Personality who is chosen "best all-around guest" will be invited to appear on June 23 broadcast of Club's 15th anniversary program.

KFI Harmonica

LATEST AID for "calling secretaries, hailing taxicabs, or making noise at parties" comes in form of a small harmonica on KFI Los Angeles' most recent promotion letter plugging its new 750-ft. antenna. "This fine musical instrument," says the letter, "can be used for everything but making music. Leave that—and everything else that provides a background for a selling message on the air—to us."

WHBC Awards

NATION'S outstanding school orators and thespians, all state champions, gathered in Canton, Ohio, April 30 and May 1 for 14th annual tournament of National Forensic League. WHBC Canton cooperated by awarding gold medal and victory trophy, suitably inscribed, to winner in Radio Announcing division. Contestants com-

peted for awards by reading commercial announcements and news broadcasts prepared by WHBC news staff. Station Manager Robert C. Fehlman presented the trophy to winner's school as permanent award and gold medal to winner. In addition, WHBC originated six broadcasts during eliminations and finals.

Swift Contest

FOUR GRAND prizes of \$500 each, plus 400 toasters, are being offered as awards on new contest sponsored by Swift & Co. on its portion of ABC "Breakfast Club." Listeners must submit favorite recipes to "Martha Logan" of Swift's home service department. Recipes, which require use of sponsor's product (Prem), will be judged in four categories: (1) main course dishes, (2) casserole dishes, (3) sandwiches and (4) salads and appetizers.

WINNER of Frances Holmes achievement award, given by Los Angeles Advertising Women Inc., to "most outstanding advertising woman in Southern California" for her writing, producing and commenting on K M P C Hollywood's "Woman's Voice" program, is Jeanne Gray (l). Ralph Edwards, m.c. of NBC "Truth of Consequences" and m.c. at presentation dinner, assists in holding the trophy. Agnes Moorhead (r), film star, made presentation.

Song Title Contest

SONG TITLES mentioning either fabrics, colors or articles of clothing were subject of contest recently conducted over WRC Washington on "Patterns in Music," sponsored by Washington's seven House of Fabrics shops. New Singer sewing machine, course of sewing lessons and enough fabric for complete outfit were offered to listener who compiled most complete list. Station reports Library of Congress was jammed during five weeks contest ran and several Congressmen requisitioned music title volumes from the library after constituents complained they weren't able to get at books. Winning entry listed titles of 4,527 songs.

Ball Schedule

BAT and ball drawings decorate front of Yankee Stadium Baseball schedules being distributed by WABD New York. Bat carries inscription, "Play Ball!" and the DuMont station's call letters and channel appear on ball. Complete schedule of New York Yankees home games is included. Heading states: "Again this year WABD and Ballantine offer you a reserved television seat for the New York Yankees' home games . . . you'll always have a reserved seat for a good show on WABD . . ."

D. J. Contest

ASPIRING disc jockeys have opportunity to fulfill their desire in new contest sponsored jointly by Kovar Appliance Co. and KREL Goose Creek, Tex. Format includes month's contest, during which listeners are asked to write letter on "Why I Would Like to Be a Disc Jockey." Composer of best letter will receive General Electric radio and will act as guest disc jockey on one hour of station's "Club 1360" program.

KVOO Give-Away

IN LIGHT of mounting interest in Presidential election year, KVOO Tulsa is offering a 24-page booklet titled

"The Book of Presidents" to listeners free on request. Offer is made on Ken Miller's evening newscast, "News and Views." Back of booklet carries listing of time for all KVOO newscasts.

WNBC Puzzle

CROSS-WORD puzzle ad promoting station's programs was inserted in recent issue of New York Journal-American by WNBC New York. For correct solution to puzzle, readers must contact WNBC.

Special Section

PUBLICATION on June 13 of a supplement containing comprehensive review of the television field was announced last week by New York Times. Section to include both present and prospective developments in the field, also will cover major phases of FM and AM.

Sports Brochure

BROCHURE on "Sports Clinic" of WFIL Philadelphia has been published by station in two colors under title "1,000 Kids Went to School on Saturday!" Piece tells in words and pictures what happened when "Sports Clinic" with Tom Moorehead and Don Kellett, WFIL sports authorities, went on first of a series of road shows to give children in outlying communities a chance to see the program live.

Food Fair Celebration

WEEK-LONG series of breakfast parties were held at WCBM Baltimore in connection with 27th anniversary celebration of Food Fair, which sponsors "Dialing for Dollars" on WCBM. Breakfast parties were climaxed with special afternoon program at station, attended by some 3,000 women, station reports. Theodore A. Newhoff Adv., Baltimore, planned and supervised parties.

WMCA Salutes

SALUTES to communities in New York, New Jersey and Connecticut are being presented by WMCA New York, in new program and promotion campaign, called "City of the Week." Station honors different community each week. Perth Amboy, N. J., first city to be honored, provided many "examples of civic cooperation," station reported. Billboards, window cards, movie trailers and even a parade promoted the celebration.

Good Luck Peat

CHUNK of peat imported from Ireland is being sent by John Feeney, m. c. of "Songs of the Old Sod" on WINS New York, to listeners who contribute to New York Heart Fund campaign. The peat is said to be a good luck talisman.

WMIN Rally

WHEN WMIN Minneapolis-St. Paul staged "Welcome Home, Saints" rally for St. Paul baseball team whose games it broadcasts, turnout exceeded expectation, station reports. More than 3,000 persons jammed St. Paul Auditorium and some 7,500 were turned away. In addition to introducing baseball players and winners of King and Prince Fans contests, WMIN presented an 11-act entertainment program and gave away \$1,000 in prizes.

RCA 'Magic'

"THE MAGIC of Making Television Picture Tubes" is told in booklet under that title released by RCA Dept. of Information. Brightly colored, seven-page booklet, illustrated with many pictures, tells story of step-by-step process of manufacturing tubes in RCA plant at Lancaster, Pa. Cover of booklet shows giant hand holding large kinescope tube above the earth.

WPEN Schedule

MONTHLY program schedule has been drawn up by WPEN Philadelphia and packaged in three-color, four-page folder for advertising agencies, announcing that WPEN is "Philadelphia's Best Radio Buy." Piece asserts that WPEN delivers more daytime listeners than all other Philadelphia independents combined and more than two of the Quaker City's network stations.

Promotion Personnel

WILLIAM WYLIE, manager of ABC program promotion division, has transferred to network's stations relations department Eastern Div. HERB CUNIFF, head of guest relations department at ABC Central Division, has resigned to enter Army's Officer Candidate School at Fort Riley, Kansas. HARRY JEFFRIES has succeeded him.

A. W. (Sen) KANEY, station relations manager of NBC Central Div., is making annual tour of affiliated stations in Central Div. area.

CONNIE RIVARD, member of ABC Central Division press department, and DAVID KIMBLE of NBC Central Division, were married May 1.

Accurate STOP WATCHES

by CLEBAR

For unfailing ACCURACY in timing you can rely on Clebar precision timers. They have proved their dependability in leading studios, laboratories and colleges.

CLEBAR TIMERS MEET THE REQUIREMENTS OF THE NATIONAL BUREAU OF STANDARDS STOP WATCH PRECISION TEST.

No. 654 CLEBAR TIMER

1/5 second, 30 minute register. Start, stop, start again from crown; push button returns to zero. 7 jewel non-magnetic movement; nickel chrome case. Each \$18.50

No. 652 CLEBAR TIMER—

1/5 second. Long hand registers fifths of seconds; small hand minutes up to 30. Side slide for starting and stopping; pressure on crown returns to zero. Chrome case; 7 jewel non-magnetic movement. Each \$18.50

EVERY CLEBAR TIMER IS ELECTRONICALLY SET, RIGIDLY TESTED, AND GUARANTEED FOR ONE YEAR.

Production

DAN RUSSELL, formerly with NBC, CBS and ABC, has been appointed program director of WGBS Miami, Fla. He was with NBC from 1931 to 1941 and for a time was head of network's announcers' training school and in charge of international division. At CBS he was with international division from 1941 to 1945 after which he joined ABC as staff producer. **FRANCES CARLSON**, former radio traffic manager with Henri, Hurst & McDonald, Chicago, has joined WGBS as program department assistant.

EVERETT (Hal) HOUGH, former program director and assistant manager of KOMA Tulsa, Okla., has been appointed program director of WJBK and WJBK-FM Detroit. Mr. Hough, who has been in radio 10 years, previously was with KFRT Columbia, Mo., WHO Des Moines, KGGF Coffeyville, Kan., KUOA Siloam Springs, Ark., KMBC Kansas City.

NANCY OSGOOD, director of women's activities for WRC Washington, has been elected vice president of Women's Advertising Club of Washington.

PETER WOLF, known in radio as **PAUL WILSON**, has resigned as announcer-writer with KFRO Longview, Tex., to start cooperative AM station with several other veterans.

ROBERT WESTERMEIER, new to radio, has joined announcing staff of WCSI (FM) Columbus, Ind.

DON SINGER has joined announcing staff of WLAD Danbury, Conn.

CHARLES AVERY, actor, formerly on shows over WNET New York, has joined announcing staff of WMID Atlantic City, N. J.

BOB MAURER has been appointed chief announcer of WHTT Hartford, Conn.

BOB PLATT, member of continuity department at WIND Chicago, has been appointed assistant program director and production chief. **CAROL STUIVE** has been appointed assistant to **FLORENCE FOLSOM**, WIND continuity chief, and **BOB FINNEGAN** and **BOB JAMES** have joined announcing staff.

WILLIAM KROUGH, formerly with WCNC Elizabeth City, N. C., has joined WGLN Glens Falls, N. Y., as program director.

GLEN HUNT, formerly with WGAD Gadsden, Ala., has joined announcing staff of WOAI San Antonio. He previously was with KLRA Little Rock, Ark., K TSA San Antonio, KRRV Denison and KGKB Tyler, Tex.

BILL PHARR, formerly with KPRC Houston, has joined announcing staff of WFAA Dallas. Previously he was with KFDM Beaumont, Tex. and KTBS Shreveport.

ROBERT STERRETT, announcer at WTON Staunton, Va., has received Bronze Star Medal from Army Secretary Kenneth Royal for "meritorious achievement in ground operations against the enemy, European Theatre of Operations, during the Rhineland campaign."

BILL LAWSON, formerly with WKOK Sunbury, Pa., has joined WPDJ Clarksburg, W. Va., as announcer.

HOWARD BOGARTE has joined WFAA Dallas, as announcer. He conducts a Saturday after-midnight disc show called "Bogarte's Belfry."

IRWIN (HAP) KAUFMAN, writer-producer of KGO San Francisco, and Betty Roche have announced their marriage.

BILL MCCAIN, chief announcer and production manager of WAGA Atlanta, has been elected to honorary membership in Delta Gamma Kappa, national radio fraternity.

MIKE HUNNICUTT, m.c. with WOL Washington, has received engraved

plaque from U. S. Marine Corps in appreciation of his promotion of Marine Reserve Recruiting Drive.

KEN BERRYHILL has joined regular announcing staff of WDIA Memphis. He previously handled a record show on station.

JIM MILLS, hillbilly director at WIBX Knoxville, and Marjorie Nunnally have announced their marriage. **LLOYD PAYNE**, also with WIBX as record m.c., and Bettye Pope were married April 2.

JERRY GATES, conductor of "Smile Program" orchestra on WFAA Dallas, is the father of a girl, Jerrel.

BEULAH KARNEY, women's director and home economist at WENR Chicago, has been appointed food editor of Liberty of Canada magazine. Miss Karney also is food editor of Liberty in U. S.

TED STEELE, veteran of 15 years' experience as announcer, radio organist, singer, pianist and novachordist, May 3 started solo weekly television show over WPTZ Philadelphia under title "Piano Patter."

FRED CRANE, KFAC Hollywood announcer, and Ruth Seder were married May 2.

DEC SONNER has joined KFI Los Angeles transcription department, replacing **MAXINE MCKIBBEN**, resigned.

CRAIG RICE, radio mystery writer, and **H. W. DeMOTT Jr.**, writer and radio producer, were married April 30 in San Diego.

Breneman Memorial

ESTABLISHMENT of a Tom Breneman Memorial Fund, in tribute to the late radio star, was announced last week by Don McNeill, toastmaster of ABC's "Breakfast Club." Contributions will be accepted by American Heart Assn. in Chicago. Appeals will be made throughout May during regular feature of "Breakfast Club" in which listeners usually are asked to send messages of cheer to persons in certain designated hospitals.

WMAL AM, FM AND TV STAFF IS REORGANIZED

REORGANIZATION of the AM, FM and TV operations of the Evening Star Broadcasting Co., Washington, was announced last week by Kenneth H. Berkeley, vice president and general manager of the ABC affiliate. Fred Shawn, formerly of NBC New York, has been named manager of television and broadcast operations. Harry Hoskinson, WMAL producer, will be Mr. Shawn's TV assistant.

Mr. Shawn first joined NBC in Washington in 1933, as announcer, later becoming assistant manager and program manager. He went to NBC New York in 1945 as administrative assistant to the vice president in charge of programs, Clarence Menser, who was replaced by Ken Dyke. Mr. Shawn succeeds Burke Crotty, now with ABC television in New York.

Frank Harvey, with WMAL for a year, is now chief engineer in charge of AM, FM and TV technical operations. Earl Hilburn is his assistant. Ben Baylor Jr., as-

Issues for TV Rate Inquiry Revealed

Lawfulness and Justification
To Be Considered

FCC's investigation of AT&T and Western Union rates for network television facilities, slated to start June 15 [BROADCASTING, May 3], will center on the lawfulness of the rates, their bases and justification, and their relationship to "actual and potential need and demand" for such services.

The hearing issues, disclosed last week, also call for inquiry into the "reasonableness" of (1) AT&T's restriction on interconnection of its intercity channels with those of other companies, and (2) Western Union's specification of a one-year minimum contract period.

Purpose for Authorization

The investigation was ordered on petition of Television Broadcasters Assn., which also sought—but unsuccessfully—to have the May 1 effectiveness of the rates suspended.

The Commission pointed out that it had authorized commercial operation of the AT&T New York-Washington coaxial cable "for the purpose, among others, of avoiding discrimination and preference in favor of television broadcasters as against other broadcasting services." Further, FCC said, suspension of the rates "might result either in the discontinuance of the video transmission service during the period of such suspension, or in the rendition of the service without charge, at the expense of other users of the telephone companies' services."

Similar considerations prevail with respect to Western Union rates, the Commission added.

It was also pointed out that television broadcasters may seek refunds on any charges paid in excess of whatever rates are found to be "just and reasonable."

Rate Basis

AT&T's rates, applicable to both coaxial cable and microwave relay systems, are based on \$35 per airline mile per month for eight hours' daily service on unshared channels, or, where television use of a channel must be shared, \$25 per airline mile per month for four hours service daily. WU rates, applicable to two reversible radio beams slated to be in use between Philadelphia and New York in June, will be \$4,700 a month for one reversible channel connecting the two cities from 4 p.m. to midnight daily.

Assistant general manager, and sales manager of the three stations, continues in that position. Arthur Weld Jr., formerly of WRGB Schenectady, has been appointed television production director.

Comedians and Lux Lead Pulse Rating

JACK BENNY, *Lux Radio Theatre*, and Fred Allen continued as the three top shows in The Pulse ratings for April, released last week, while sets-in-use showed a slight decrease.

Arthur Godfrey, *Helen Trent*, and *Breakfast Club* led the day-timers.

The average sets-in-use figure for April was 25.0, compared to 25.5 for the preceding period. Detailed Pulse quarter-hour ratings follow:

EVENING	
Jack Benny	28.8
Lux Radio Theatre	27.9
Fred Allen	25.3
Charlie McCarthy	24.3
Fibber McGee & Molly	22.0
Fitch Bandwagon	21.2
Bob Hope	20.7
Truth or Consequences	20.5
Amos 'n' Andy	20.0
Walter Winchell	19.3

DAYTIME	
Arthur Godfrey	8.7
Helen Trent	8.5
Breakfast Club	8.0

The Shadow	11.8
Quick as a Flash	9.0
True Detective	8.8
Counterspy	7.9
One Man's Family	7.8
House of Mystery	7.7
Theatre of Today	7.6
Grand Central Station	7.3
Quiz Kids	7.3
Stars Over Hollywood	7.3

Pulse Shows Increased FM Set Owners in N. Y. Area

LATEST PULSE Inc. report indicates increased FM set ownership since January in New York's metropolitan area, showing that 5.6%, or 168 of the 3000 homes surveyed, contain sets. The January survey indicated that 2.1%, of the homes had sets.

FM ownership is not restricted to upper income homes, the report revealed, since about 37% of sets are owned by families in the lower bracket.

Video Set Merchandising Is Discussed by NRDGA

DISCUSSION of problems in merchandising television sets resulted in the establishment of a new sub-committee on television of the vendor relations committee, National Retail Dry Goods Assn., at an association meeting in New York May 3.

Major difficulty concerned the "inadequate" initial markup allowed retailers by manufacturers of video sets. Assumption by retailers of installation charges on a set before the set is sold to the ultimate consumer and servicing after home installation were cited as other problems.

Alexander G. Lewi of Bamberger & Co., Newark, N. J., was appointed committee chairman.

York; WPTZ Philadelphia; KTLA Los Angeles. Agency: J. Walter Thompson Co., Chicago.

Network Accounts • • •

JOHN MORRELL & Co., Ottumwa, Iowa (dog food), June 5 switches *The Lassie Show* from ABC (157 stations), Sun. 2-2:15 p.m. (CDST) to full NBC network (167 stations), Sat., 4:15-4:30 p.m. (CDST.) Agency: Henri, Hurst & McDonald, Chicago.

HELBROS WATCH Co., New York, expanded *Quick as a Flash* on MBS Sun., to 401 stations.

U. S. STEEL Corp., Pittsburgh, Sept. 5 renews for 52 weeks *Theatre Guild on the Air* on ABC, Sun. 9:30-10:30 p.m. Agency: BBDO, New York.

TONI Co., Toronto (home permanent), Sept. 9 starts to June 2 *Wayne & Shuster Show* on 27 Trans-Canada Network stations, Thurs. 9:30-10 p.m. RCA VICTOR, Montreal, current sponsor of show, plans to bring its Sunday afternoon NBC program to Trans-Canada as replacement. Agency for both is Spitzer & Mills, Toronto.

REVERE CAMERA Co., Chicago, May 20 adds 30 MBS stations to 50 currently airing *All Star Revue*, Thurs. 8-8:15 p.m. and changes time to Thurs. 9:30-9:45 p.m.

PROCTER & GAMBLE Co., Toronto (Dreft, Spic & Span), May 29 cancels *Life of Riley*, Sat. 8-8:30 p.m. on 24 Trans-Canada Network stations; no plans to renew in fall. Agency: Dancer-Fitzgerald-Sample, Chicago.

ALL - SPORTS SPONSOR SIGNS KOIL CONTRACT

WEBBER MOTORS, one of the largest automotive outlets of its kind in the Midwest, has just signed with KOIL Omaha, to sponsor all-sports programs over the station. Deal involves approximately \$42,000 in time, talent and production costs.

All current station sports events will be transferred to Webber package at the culmination of present contracts. Program has been tagged as Webber Motors *Sportslog* and will feature Bob Steelman, KOIL sports director. Sports to be included are the home baseball games of the Omaha Cardinals (Western League), home games of the Omaha Knights Hockey Team, local high school and university athletic events and other events of general sports interest.

The idea for year 'round all-sports sponsorship by one firm was conceived and developed by William J. Newens, station manager;

* * *

Bill Newens (l) hands contract to E. E. Webber in presence of Don Paffenrath (center) and Jack Anderson.

Forrest H. Blair, general sales manager; Virgil Sharpe, production manager; working with C. Jack Anderson, account executive for Allen & Reynolds, Omaha advertising agency, and Don Paffenrath of KOIL sales staff.

Coca-Cola Co.'s Summer Replacements Announced

SUMMER replacements for the Coca-Cola-sponsored shows were announced last week. Starting June 6 an eight-week replacement for Percy Faith and Jane Froman on *The Pause that Refreshes*, Sundays, 6:30-7 p.m. on CBS, will feature weekly copies of foreign programs presented by the sponsor in Europe and Latin-America.

A special orchestral group is being formed for the summer series, and each week a top-flight star will be flown to New York from the country being saluted to "guest-star" on the show.

The advertiser's *Spotlight Revue*, Fridays, 10:30-11 p.m. on CBS, will be replaced at the end of June for 13 weeks by another musical series featuring Dick Jurgens and his orchestra. D'Arcy Adv. Co., New York, is the agency.

Stanton Credits Staff

CBS President Frank Stanton credited "good team play" by the network's staff as the primary factor for the notable number of programming honors won recently. In a message to the CBS staff last week Dr. Stanton referred to recent award presentations including the New York Newspaper Guild's annual Page One award for *CBS Views the Press*, given May 5 at the Guild's annual ball.

WHLD Niagara Falls, N. Y.—Granted petition for continuance of consolidated hearing scheduled for May 3 to May 10 at Washington.

Just in Time

THE ALLEN PRESCOTT show, *The Wife Saver*, heard over WGEM Quincy, Ill. really proved to be a "family saver" recently. The station received a letter from a listener saying she had put her baby's formula on the stove and had gone on about her household chores. Then she heard over the air, "Mrs. Housewife, is something burning?" When she rushed into the kitchen, reminded of the formula, she found the milk had boiled over, extinguishing the gas, with her four children nearby. The announcement came in the nick of time, the housewife wrote WGEM.

Charles Wilbur Lamar Jr., Morgan City, La.—Continued hearing scheduled April 30 to May 28 at Washington.

Ordered that hearing on Fall River-New Bedford, Mass. TV applications scheduled for May 5-7 be continued to June 21-22 at Fall River and June 23 at New Bedford, Mass.

WCFL Chicago—Continued hearing on application for mod. of CP from May 5 to June 3.

KXRO Aberdeen, Wash.—Continued hearing on application for CP from May 3 to June 1.

Follow-thru Stroke

WAZL Hazleton, Pa., evidently adheres to a broad interpretation of the phrase "direct sales by radio." The day after the spots advertising a local merchant's lawnmowers had been broadcast, the **WAZL** copywriter, Dave Davies, called at the store and found a customer examining the lawnmower. The store sales manager pointed out that the customer had come to the store on the strength of the spot announcement. He challenged Mr. Davies to close the sale. Mr. Davies did. The customer paid cash.

WCAR and UAW-CIO Bestg. Corp., Detroit, Mich.—Granted joint petition for extension of time for filing proposed findings of fact and conclusions in proceeding on applications; extended time to June 23.

KXOA Sacramento, Calif.—Granted petition for continuance of hearing in re applications of Petaluma Bestrs., et al. in which petitioner is party intervenor; continued hearing from May 4 to June 2.

May 5 Decisions . . .

DOCKET CASE ACTIONS

Petition Denied

ENGINEERS

Canadian IRE Session Attracts Over 400

WITH AN ATTENDANCE of more than 400 from all parts of Canada, but principally from Ontario and Quebec, the first Canadian Institute of Radio Engineers convention was held at the Royal York Hotel, Toronto, April 30 and May 1. Thirty manufacturers exhibited at the convention and the Canadian Army Signal Corps showed its latest high-frequency equipment in operation.

A wide variety of papers included a number of interest to broadcasters. G. C. W. Brown, controller of radio, Dept. of Transport, Ottawa, spoke Saturday morning on "Frequency Allocations," reviewing international conferences and giving details on developments resulting from last year's Atlantic City conference.

J. E. Hayes, engineer of Canadian Broadcasting Corp., Montreal, dealt in detail with equipment developed by CBC for FM field intensity measurement at the opening morning session. He reviewed FM development in Canada to date, theoretical development of measurements, and explained how CBC had developed its own measurement equipment in part from war assets surplus materials.

Orin Dakin, engineer of Canadian General Electric Co., Toronto, dealt with problems of converting 60-cycle television receivers for 25 cycles current used in southern Ontario, the most populated area in Canada. He explained that the problem was one of filtering the power, was definitely not difficult,

and that CGE had a number of TV receivers converted at Toronto. 25-cycle current would not retard TV in southern Ontario, he said. H. Goldin, chief engineer of Canadian division of Gaumont-Kalee Ltd., Toronto and London, England, described development of TV in England for theatre use, pointing out that tests have been successfully made with screens 11 by 14 feet in size.

Other papers included "Reproduction of Sound" by E. O. Swan, chief engineer of CKEY Toronto; "A Direct-reading Phase Monitor" by D. F. Wright, Canadian Marconi Co., Montreal; "Narrow Beam Radar Recording Altimeter" by B. J. McCaffrey, National Research Council, Ottawa; "Industrial Electronics" by J. T. Thwaites, Canadian Westinghouse Co., Hamilton; "New Measurement Equipment in the Radio Industry" by Col. B. DeF. Bayly, Bayly Engineering Ltd., Oshawa; "Some Quality Problems in the Manufacture of Miniature Tubes" by John F. Hinds, Radio Valve Co., Toronto; and "Directional Transmission FM Antenna" by Dr. Sinclair, University of Toronto.

Convention was under chairmanship of Gordon J. Irwin, Canadian General Electric Co., Toronto, with Henry S. Dawson, former manager of Canadian Assn. of Broadcasters, and now television engineer with CGE Toronto, as vice-chairman.

KELO to 5 kw

SOUTH DAKOTA officials congratulated KELO Sioux Falls in special broadcast May 2 at 5:45 p.m. marking station's boost in power from 250 w to 5 kw fulltime and change in frequency from 1230 kc to 1320 kc. Sen. Chan Gurney, Sen. Harlan J. Bushfield and Rep. Karl E. Mundt transcribed congratulatory messages. Actual switch-over to the higher power occurred during talk by South Dakota's Gov. George Michelson.

Modification of CP

America's Leading Foreign Language Station

SOMETHING new under the sun in forecasting is taking place each week-day evening at 7 p.m. over WMAL-TV Washington. The Hecht Co. of Washington and Silver Spring, Md., sponsors series of one-minute spots which show background of typical Washington scene in rain or sun, depending upon weather forecast. Large thermometer on set indicates present temperature as announcer reads forecast. A model adjusts thermometer to tomorrow's forecast and models a costume especially chosen for next day's weather. Announcer reads short description of suit or coat or dress and accessories. Idea was conceived by Harwood Martin Agency, Washington, agency for Hecht.

Airport Feature

PERSONS arriving at and leaving Cleveland's Municipal Airport are greeted by WJW Cleveland over its quiz program, "Question A-I-R." Conducted by Bruce MacDonald, program is aired from airport with passengers as participants. Large array of gifts are awarded to persons interviewed and winners of quiz.

WPIX Films

VIDEO RIGHTS to 24 major films produced by Sir Alexander Korda have been obtained by WPIX New York, "Daily News" station which is to begin operations June 15, station has announced. Films are packaged for full year of programming, and are described by WPIX as period-classics, including such features as "Thief of Bagdad" with Sabu and Conrad Veidt, and "Lady Hamilton" with Vivien Leigh and Lawrence Olivier. Television stations throughout country are to be offered the series for exclusive showing in each video city.

'Bar-None Corral'

TWO IMAGINARY horses are featured on new show "Bar-None Corral," aired over KVOO Tulsa and featuring Dave Denney, western singing star. "Tumbleweed" and "Sagebrush," the horses, encourage listeners through whinneying and with help of Mr. Denney, to send in requests to "he-mail" and "she-mail" bags. Mr. Denney sings his own songs and plays recordings of other western songsters. Listeners who correctly identify his mystery song receive autographed pictures. If listener requests record that KVOO doesn't have Mr. Denney asks listener to buy two of the records and send to station. One record is kept in studio and everytime it is played, sender's name is mentioned; other record is sent to some children's home or welfare center.

Candidates on TV

VIDEO counterpart of CBS "Presidential Timber" series is to be inaugurated on CBS television May 27, Thursdays, 9-9:30 p.m. All declared presidential candidates are to get CBS bids, as in the audio series.

'Yesterday's Yearbook'

"YESTERDAY'S YEARBOOK" of local high school in Shamokin, Pa., is brought to life over WISL that city. In weekly show heard Sunday 10-10:30 p.m. Three members of each graduating class are interviewed on each show. Starting with earliest issue published by local high school, yearbook is covered page by page by announcer and class member. Sports events of the year, various members of class, what has become of them and how they might have paralleled class prophecy are subjects of half-hour show. Entire yearbook is covered in three six-minute

Programs

interviews by wire recorder. Interviews are divided by transcribed musical selections of that current year.

Puppet Series

FILMING of series of puppet programs made exclusively for video use has been started by WLWT, television station of Crosley Broadcasting Corp. in Cincinnati. Martin and Olga Stevens, internationally-known puppeteers, have created new characters for the 13 complete shows, which will be of 10- and 30-minute lengths. R. E. Dunville, vice president and general manager of the corporation, has announced that films will be offered to television stations throughout country "at reasonable cost." Service will include specially-tailored commercials—live or on film—to meet local needs.

OFFICIALS of the Lynchburg (Va.) Cardinals and WWOD Lynchburg get together to put it on the dotted line for another season of broadcasts of the Cardinals' home and away baseball games. Home games will be carried this year on a participating basis. Jack Weldon, WWOD manager, is at right, and Wallace McKenna, business manager of the Cardinals, at left. Standing is Norman Simpson, WWOD sports director.

Presents Famous People

FAMOUS PEOPLE from local governmental, social and professional scene, as well as national and international personalities, will be introduced on new program starting tomorrow (May 11) over WITG Washington. Titled "Meet Mrs. Markel," weekly program will feature Hazel Kenyon Markel, public relations director of WTOP Washington. New twist will be given to fashion news

with presentation of latest creations from Paris, New York and Washington. Mrs. Markel will be aided by Don Roper. Special setting for show has been designed by Sam Love. Margaret Truman will be guest on opening program tomorrow, 7:45 p.m.

Telegram Requests

ONLY REQUESTS by telegram are acknowledged on new record show, "Request Matinee," heard over KQV Pittsburgh. To conduct the telegraph-request program, station arranged with Western Union for special teletype machinery to be installed in studio. Show is aired Saturday 1:15-4:40 p.m.

'Invitation to Dinner'

PEOPLE DO like to hear their own voice on the radio, says WHAV Haverhill, Mass., in reporting on success of its new "Invitation to Dinner" program. Sponsored by local Bella Vista Restaurant, program consists of recorded quiz session from sponsors' place of business. Each Sunday afternoon Ken Ash, WHAV public events man, takes wire recorder into restaurant and conducts quiz program among customers. Following night program is aired on WHAV at 6:45 p.m. Station reports that sponsor's restaurant is filled to capacity each Sunday and listener response is very favorable.

Election Cooperation

ALL COMMERCIAL commitments after 6:30 p.m. May 4 were cancelled by WJRD Tuscaloosa, Ala., to carry complete election returns. The Tuscaloosa News, non-radio affiliate newspaper, gave WJRD full cooperation, station reports. All returns were aired from editorial rooms of the newspaper. Two loud speakers were mounted at city's busiest intersection with broadcast and public address system announcing returns simultaneously.

Audience Auditioned

AUDITION theme was used as special feature of broadcasts of "Jim Ameche's Matinee," aired daily over WAIT Chicago, in connection with recent Chicago and Home Show. Participants were asked to read commercials, dramatic copy and other radio material in competition for \$10,000 in prizes. Assisting Mr. Ameche were Les Lear, also of Ameche Radio Productions; Bob Murphy, NBC-WMAQ Chicago announcer, and Kenneth Shephard. Wayne Williams, of Wayne Williams Adv., handled promotion for series, which was preceded with week of spot announcements on WAIT. Home Show was sponsored by Metropolitan Home Builders of Chicago.

Political Women

THOUGH WOMEN now have the franchise in many countries throughout the world, few have succeeded in attaining rank of cabinet ministers in governments. CBL Toronto and CBC Trans-Canada Network next fall start series on "Women in the Cabinet," with women now holding these high posts outlining special contributions needed from women in shaping of national policies at the present time.

Vet Series

EIGHTH series of "Here's To Veterans," 15-minute recordings, has been produced by Veterans Administration. Series includes capsule versions of various top-talent shows and is intended for airing June 1 through Aug. 31. Stations may obtain transcriptions without charge from VA Branch Office radio chiefs in Boston, New York, Philadelphia, Richmond, Atlanta, Chicago, St. Paul, St. Louis, Dallas, Seattle, San Francisco, Denver, and Columbus, Ohio.

'Needle Club'

AMATEUR and professional politicians have been invited to participate in new show soon to begin over WDRC Hartford, Conn. Titled "Needle Club," half-hour program will originate from local restaurant. Governor Shannon of Connecticut has accepted invitation to be guest on program May 27, and other top-ranking state political leaders have been issued invitations. Jack Zaiman, political writer for Hartford Courant, will m.c. show.

ON THE AIR EVERYWHERE 24 HOURS A DAY

JOHN H. FLEET, former chief engineer at WATO Oak Ridge, Tenn., has been appointed chief engineer of KSTL, new station under construction in St. Louis. He previously was chief engineer at WXGI Richmond, Va. and WKYW Louisville, and was associate member of John H. Mullaney & Co., Memphis radio engineering consultant firm.

FRANK C. CATANZARO, **BENJAMIN CHEW**, and **MEYER POSNER** have joined technical department of WCAU Philadelphia. Mr. Catanzaro formerly was with RCA Victor television engineering in Camden, and was with Philco Corp.; he will be WCAU studio technician in television installation department. Mr. Chew, to be vacation relief technician, was with WPEN Philadelphia, Raytheon Mfg. and the old WPG Atlantic City. Mr. Posner, also to be vacation relief technician, formerly was with WFIL Philadelphia.

ROTHROCK & BAIREY, Washington consulting radio engineering firm, has moved offices to Suite 604, 1757 K St., N.W. Telephone: National 0196.

EDWARD L. COLLINS, formerly with WRUL New York; **ROBERT L. ROY**, formerly of WJDA Quincy, Mass., and **DONALD E. FERRELL** have joined engineering staff of WHDH Boston.

MYRON J. EARL, with WGN Chicago for 20 years, has joined WGN-TV as engineer on remote telecasts. Others joining WGN-TV include: **H. P. HOUSTON**, engineer; **H. THAINE LYMAN**, studio engineer; **FELIX KUBIK Jr.**,

newsreel cameraman, and **BETH KASPAR SMITH**, record-turner, formerly with WGN.

SONOTONE Corp., Elmsford, N. Y., has announced first commercial application of synthetic substance possessing piezoelectrical qualities, involving use of specially-treated ceramic material. Substance will be used in new ceramic pickup for phonographs, called "Titone." It makes possible high fidelity reproduction of sound on low-priced record players under all weather and humidity conditions, firm stated. Eventual use in other transcription and conversion systems, including microphones, is anticipated by company.

MATTHEW J. DOWD, formerly with WLEE Richmond, Va., has joined engineering staff of WOL Washington.

RAYTHEON MFG. Co., Newton, Mass., has announced new Raytheon Bantal

Tubes, featuring advanced type of construction and improved performance. Outstanding feature, firm states, is ruggedness and structural strength afforded through use of eight-pillar support construction.

Leap Year Results

EPIDEMIC of marriages broke out recently in the engineering department of WHDH Boston. Within a short span of time four of its studio technicians took the vows. Affected were Irwin Wolbarst, Charles Burgoyne, Newton Stephen and James Sullivan.

ROBERT HILKER, member of WBT Charlotte, N. C., engineering staff, and Betty Sue Stowe have announced their engagement.

ROY CONNELL, formerly with WFMO Jersey City, has joined WWDX(FM) Paterson, N. J., as studio engineer.

RCA ENGINEERING PRODUCTS Dept., Television Equipment Section, has announced new 35-mm sound motion picture projector which will enable video broadcasters to expand programming facilities by using standard 35-mm films. New machine, Type TP-35A, projects pictures directly onto pickup tube of TV film camera for conversion to video signals.

BOB FONAROW, Don Lee Television cameraman, and Evelyn Watts were married April 24 in Hollywood.

JIM SHADDUCK, engineer of KIDO Boise, Idaho, has resigned to go into private business.

KYW Philadelphia Wins Battle to Erect Towers

FIGHT TO erect two 465-foot transmission towers in Whitemarsh Township (Pa.) by KYW Philadelphia was won this week by the Westinghouse station when the Whitemarsh Zoning Board of Adjustment gave permission for the construction.

The permit is conditional on the company maintaining the grounds in keeping with the residential character of the neighborhood. No structures other than the towers may be erected. It also is stipulated that Westinghouse Radio Stations Inc. will remove the towers in the event they are abandoned.

New Quarters for KDB To Be Occupied July 1

KDB Santa Barbara, affiliate of Don Lee Broadcasting System, will move to new quarters about July 1, according to Ed Kemble, general manager.

Station is to move into a Spanish mission style building in the center of the city. A seven ton, 250 ft. tower is now being erected for use in FM as well as AM. Total construction costs are about \$18,000. Visitors will be able to view control room, main studio and news teletype machines through glass from reception room.

WJZ-FM in New York Operating on 95.5 mc

INAUGURATION of FM broadcasts by WJZ-FM, ABC's New York outlet, was held May 4 at 9:30 p.m. when the Boston "Pops" concert, a network presentation, was broadcast.

The station is duplicating network programs, ABC announced. ABC is now duplicating all network programs on its other owned and operated FM stations, WENR-FM Chicago, WXYZ-FM Detroit, KECA-FM Los Angeles and KGO-FM San Francisco, and 67 ABC affiliates are also duplicating network shows on their FM stations.

WJZ-FM operates on Channel 238 (95.5 mc).

KDAC, 250 w (1230 kcl), Now on Air at Ft. Bragg

KDAC has started operation at Fort Bragg, Calif., with 250 w fulltime on 1230 kc.

Licensee is Mendocino Coast Broadcasting Co. Officials are T. R. Amarante, station manager; John A. Brush, commercial and program manager, and Edward A. Mertle, business manager.

Programming is regional. Among features is presentation of three weather forecasts daily. A 400-ft half-wave tower is in use.

Engineers Shifted

FIVE NBC Hollywood engineers, led by A. H. Saxton, western network chief engineer, are temporarily transferred to New York effective May 16 to join video training group. The others who will participate in the four-month training program are: M. S. Adams, C. W. Comegys, Ross J. Miller and Oscar F. Wick. During their absence, F. M. Figgins will replace Mr. Adams as field supervisor; J. C. Riekeberg is to replace Mr. Figgins as maintenance supervisor. Other vacancy replacements have not been announced.

Turntable

HERBERT GORDON, formerly with Decca Records Inc., May 17 is to join New York office of Frederic W. Ziv Co. in executive capacity. Ziv Co. also has announced sale of three programs to merchants in Wilson, N. C.: "Wayne King Show" to Flower Shoe Shop; "Boston Blackie" to Wilson Dye Works, and "Guy Lombardo Show" to Wilson Drug Co. Firm also announced renewal of its "Calling All Girls" by Korrick's Inc., Phoenix; Wellan's Department Store, Alexandria, La., and Markel & Gelman Department Store, Glens Falls, N. Y.

DECCA RECORDS Inc.'s consolidated net profit for first quarter of 1948 amounted to \$388,399, after provision of \$238,051 for income taxes, firm reports. Payment per share is 50 cents on 776,650 shares of capital stock outstanding at end of quarter.

The listening jury brings in the final verdict...

757A

ALL the experience of Bell Telephone Laboratories in the analysis of sound went into testing the performance

of the 757A Loudspeaker. The most delicate instruments gave convincing evidence of its outstanding performance. All studies led to the same conclusion: that the Western Electric 757A can be matched by no other speaker in its combination of efficiency, frequency response and power capacity.

Yet one test remained to be applied: the test of the listening jury!

Human ears and emotions must render the final verdict. And at Bell Telephone Laboratories, men and women—like those who will listen to the loudspeakers in your station—fully confirmed the judgment of engineers and instruments!

When you hear the 757A yourself, you too will agree with their verdict. It's the loudspeaker you'll want throughout your studios and transmitter building... because it gives your programs the kind of reproduction they deserve!

For early delivery of the 757A, you should get your order in now. Call your local Graybar Broadcast Representative, or write Graybar Electric Company, 420 Lexington Avenue, New York 17, N. Y.

FCC Actions

(Continued from page 78)

May 6 Decisions . . .

BY COMMISSION EN BANC

TV Time Rule

As result of consideration of petition filed by Television Bcstrs. Assn. on March 4, Commission proposed amending its rules and regulations (Sec. 3.661 (a)) to provide for graduated periods of programming by commercial television stations depending upon length of time station license has been in effect. Stations would maintain regular program operating schedule as follows: Not less than two hours daily in any five broadcast days per week and not less than total of twelve hours per week during first 18 months of station's operations; not less than two hours daily in any five broadcast days per week and not less than 16 hours, 20 hours and 24 hours per week for each successive six-month period, respectively, and not less than two hours in each of seven days of week and not less than 28 hours per week thereafter. This would apply to stations operating on special temp. authority or program tests, as well as during license period. Test or other fixed patterns would not be counted. Present rule requires licensed television stations to program at least 28 hours per week with minimum of two hours per day.

TV Allocations

As result of hearing and oral argument, FCC made effective as of June 14 its proposed rule making of Aug. 14, 1947, which will (1) Abolish sharing of television channels by certain non-broadcast services because of interference problems; (2) Delete television Channel 1 (44-50 mc) and assign it to non-government fixed and mobile services which have been sharing television channels; (3) Allocate band 72-76 mc, now source of television interference, to fixed services on cond. that no interference will be caused to television.

CANADIAN Broadcasting Corp. has started daily shortwave programs in Portuguese beamed to Brazil from its transmitters at Sackville, N. B. Nightly half-hour programs of Canadian news and commentary replace weekly half-hour program which has been in operation for some months.

Senate Confirms Two

SENATE last week confirmed two Presidential nominations of interest to radio industry. Charles Sawyer, Cincinnati lawyer, businessman, diplomat, was confirmed May 5, took oath of office following day as Secretary of Commerce, replacing W. Averell Harriman, appointed special U. S. ERP Ambassador. Mr. Sawyer is president of Radio Voice of Springfield, licensee of WIZE Springfield, Ohio, and Great Trails Broadcasting Corp., licensee of WING Dayton, Ohio [BROADCASTING, April 26]. Delos Wilson Rentzel, chairman-president of Aeronautical Radio Inc., was confirmed as administrator of Civil Aeronautics Administration May 5 [BROADCASTING, April 12].

WLS AGAIN RECEIVES NATIONAL FIRE AWARD

1947 GOLD MEDAL award of the National Board of Fire Underwriters has been awarded to WLS Chicago for the third time in four years in recognition of outstanding public service in fire prevention. Award comprises a gold-plated medal and a \$500 check, which it will turn over to a worthy charity.

The NBFU statement cited WLS in the past year as a "clearing house for farm fire problems, conducting extensive research into fire hazards and their correction and the organization of fire-protection districts, and acting as liaison between listeners and fire authorities."

The station distributed free construction plans to farmers, developed a method for combating spontaneous ignition of hay, advised farmers on formation of rural fire departments, and also gave support to those already established, the board stated.

Garden TV Cut

NEW YORK Boxing Commissioner Eddie Eagan announced May 6, following a conference with representatives of the Boxing Managers Guild and Mike Jacobs and Sol Strauss of Twentieth Century Sporting Club, that solution may be forthcoming in the near future of a controversy revolving about demands by the Guild for a share in receipts for television rights on fights promoted by the Twentieth Century organization.

ABC Stock

ABC filed registration statement with Securities Exchange Commission May 6 for approval for public sale of 500,000 shares of its common stock through an underwriting group, headed by Dillon Read & Co., New York. Network is arranging \$5 million term loan with institution to augment stock sale for repaying \$4 million bank loan. Balance and other ABC funds will be used in its program for video facilities, expected to be in operation later this year.

DETAILS ARE RELEASED FOR EARLIER GRANTS

Write fully in strictest confidence. Samples of past achievements will be appreciated.

Write: Merle Jones
Radio Station WCCO
625 Second Ave. S.
Minneapolis 2, Minn.

At Deadline ...

NBC WILL RESHUFFLE TUESDAY NIGHT SCHEDULE

NBC WILL RESHUFFLE Tuesday night schedule early in June to comply with its policy prohibiting mystery programs before 9:30 p.m. in summer months. Lever Bros. summer replacement for *Amos 'n' Andy*, Tues., 9-9:30 p.m., *Call the Police*, crime show, will move into 9:30-10 p.m. period to be vacated by *Fibber McGee & Molly* (Johnson's wax). Latter program takes 17-week summer hiatus. First *Call the Police* show will be presented in original *Amos 'n' Andy* time, 9-9:30 p.m., as NBC policy allows one show to be heard at that time but not series. Following week it will shift to 9:30-10 p.m. Ruthrauff & Ryan is agency.

Tuesday 9-9:30 p.m. period will then be taken over by Pabst Blue Ribbon, which moves from Thursdays 10:30-11 p.m. on NBC. Eddie Cantor show will complete its season in Tuesday slot with *The Thin Man*, which is being written as comedy instead of mystery show, taking over for summer. Plans not set for 10:30-11 Thursday night period vacated by Pabst.

UNIFORM TIME FAVORED AT HOUSE HEARING

BROADCASTERS made another plea for uniform time Friday in hearings before House Interstate Commerce subcommittee considering HR-2740 by Rep. Joseph O'Hara (R-Minn.) and HR-2414 by Rep. Emory H. Price Jr. (D-Fla.), both providing standard time for business in interstate commerce.

Earl H. Gammons, CBS Washington vice president, described complications of mixed time and read resolution from CBS affiliates advisory board. Gene Juster, appearing for NBC Washington Vice President Frank M. Russell, agreed mandatory uniform time is needed. NAB Executive Vice President A. D. Willard Jr., however, supported HR-2740, saying it would make it extremely inconvenient not to observe standard time.

DON LEE TEMPORARY GRANT FOR COMMERCIAL TV

YEARS-LONG QUEST of Don Lee Broadcasting System for commercial operation of 16-year-old Los Angeles TV station W6XAO achieved Friday. FCC granted special temporary authority to operate commercially 90 days. It must use present experimental call, not KTSL which it sought.

Grant conditioned on ultimate FCC decision on Don Lee AM and FM renewals. Pioneer W6XAO has been on air since 1931 at cost of "millions of dollars." Don Lee received commercial grant in 1941, was unable to build because of war.

McCLATCHY TV APPLICATIONS

TELEVISION stations for KFBK Sacramento and KMJ Fresno, Calif., sought at FCC Friday by McClatchy Broadcasting Co. Sacramento application, for Channel 10 (192-198 mc), is third for one of three channels available under FCC's proposed new allocation plan. Fresno bid, for Channel 7 (174-180 mc), is third, with four channels open.

2 FULLTIME, 6 DAYTIME AM STATIONS AUTHORIZED

TWO FULLTIME, six daytime AM stations authorized by FCC Friday, including day outlet to Mountain Empire Broadcasting Corp. (1 kw, 1010 kc), Marion, Va., of which Virginia Lieut. Gov. L. Preston Collins is vice president. New AM grants:

LIVE OAK, FLA.—Live Oak Broadcasting Co., 1450 kc, 250 w, unlimited, conditioned to not operate before WGOV Valdosta, Ga., goes to 950 kc. STARKVILLE, MISS.—The Starkville Broadcasting Co., 1230 kc, 250 w, unlimited. Mayor Henry Grady Imes, for 17 years publisher weekly News, is 25% owner. AUBURN, ME.—Davis Broadcasting System Inc., 1320 kc, 500 w, daytime. NEW ORLEANS—Southland Broadcasting Co., 600 kc, 500 w, daytime. COALINGA, CALIF.—D. O. Kinnie, 1470 kc, 500 w, daytime. Grantee is owner KKIN Visalia, Calif. MARION, VA.—Mountain Empire Broadcasting Corp., 1010 kc, 1 kw, daytime. Principals: Robert Lane Anderson, editor weekly Smyth County News, president; Virginia Lieut. Gov. L. Preston Collins, vice president; Charles C. Lincoln Jr., president, Lincoln Industries, furniture maker, secretary-treasurer, and Robert C. Wolfenden, ex-manager WPUV Pulaski, Va., to be general manager. AMES, IOWA—Ames Broadcasting Co., 1430 kc, 1 kw, daytime. Partnership includes Harold W. Higny, engineer; L. Clay Rusk, WHO Des Moines newscaster, and W. Al Bell, announcer, each 12.5%. MT. PLEASANT, TEX.—Mt. Pleasant Broadcasting Co., 960 kc, 1 kw, daytime. Sole owner is Winston O. Ward, radio repair shop owner since 1936.

PERMITS FOR FM OUTLETS GRANTED BY COMMISSION

CONDITIONAL grants for two Class B FM stations and issuance of construction permits for two Class A and 11 Class B outlets reported by FCC Friday. Conditional grants went to Service Broadcasting Inc., Anderson, Ind., with Channel 254 (98.7 mc) proposed, and to The Donze Co., Ste. Genevieve, Mo., licensee KSGM there, with Channel 289 (105.7 mc) allocated and proposed. CPs were issued to:

WSYO Sylacauga, Ala.—Class B, 101.9 mc (Channel 270), 3.6 kw, 680 ft. KLCN-FM Blytheville, Ark.—Class B, 96.1 mc (241), 6.2 kw, 350 ft. WFML Washington, Ind.—Class B, 106.5 mc (293), 14 kw, 320 ft. WHOP-FM Hopkinsville, Ky.—Class B, 98.7 mc (254), 22 kw, 210 ft. WCMA-FM Corinth, Miss.—Class B, 101.5 mc (268), 3.9 kw, 230 ft. KDRO-FM Sedalia, Mo.—Class B, 99.7 mc (259), 13.2 kw, 390 ft. KVNJ-FM Fargo, N. D.—Class B, 92.3 mc (222), 64 kw, 340 ft. WFRB-FM Utica, N. Y.—Class B, 93.7 mc (229), 9.3 kw, 290 ft. WIFM New Rochelle, N. Y.—Class A, 94.3 mc (232), 1 kw, 150 ft. WCAV-FM Norfolk, Va.—Class B, 103.3 mc (277), 41 kw, 280 ft. WAUX-FM Waukesha, Wis.—Class A, 95.3 mc (237), 190 w, 190 ft. CPs issued in lieu of previous conditions: WXHR Cambridge, Mass.—Class B, 96.9 mc (245), 20 kw, 440 ft. WENY-FM Elmira, N. Y.—Class B, 106.9 mc (295), 5.1 kw, 650 ft.

KECA DENIED STAY ORDER

IN ACTION which may throw additional light on court's philosophy on FCC hearings as enunciated in its WCKY Cincinnati decision [BROADCASTING, April 19], Court of Appeals for D. C. denied KECA Los Angeles petition for stay order against FCC grant to KTHH Houston for 5 kw fulltime on 790 kc, which ABC's KECA also uses with 5 kw.

KECA claimed it would receive interference outside its normally protected contour.

KFVD SALE DISPUTE

ALTHOUGH J. Frank Burke Sr. advised BROADCASTING last week that \$395,000 sale of KFVD Los Angeles had fallen through, Wesley I. Dumm, purchaser, stated he held "a bona fide contract and expected it to be completed." Mr. Burke contends majority of stockholders have voted against it and since sale against corporate majority will is not possible, earlier "tentative agreement" with Mr. Dumm is void.

STA HEARING ONE-SIDED; CHAIRMAN COY 'APPALLED'

NINE ATTORNEYS representing score of daytime AM educational and commercial stations appeared Friday before FCC *en banc* to oppose Commission's proposed rule change to abolish special temporary authorizations for night broadcast of special events by limited-time stations. No one appeared to support FCC proposal and it was pointed out docket record bears no brief supporting STA abolishment. All appearing asked at least for chance to be heard in individual merits proceeding of STA requests.

Opposition was chiefly directed at FCC's stipulation that STA operation degrades night service through added interference and that FM service is broad enough to supplant STA need. Night service degradation point blasted by attorneys who asked why supposedly aggrieved broadcasters were not present.

On matter of one-sided representation Chairman Wayne Coy commented: "I am appalled at the lack of interest of broadcasters to protect the very standards under which they are operating their stations."

SHAFFER TO KANSAS CITY

KEITH SHAFFER, timebuyer with Erwin Wasey & Co., New York, resigns to join KMBC-KFRM Kansas City, in charge of sales for KFRM.

Closed Circuit

(Continued from page 4)

this Saturday (May 15); returning Wednesday. Other Commissioners to attend include George Sterling, Rosel Hyde and possibly Robert F. Jones.

FCC CHIEF-ENGINEER sweepstakes, to select successor to Comr. George E. Sterling, now points to status quo, with Acting Chief Engineer John A. Willoughby continuing indefinitely to run department. Consideration has been given to appointment of outsider.

WASHINGTON observers are wondering whether Tobey inquisition into FM-TV patent and allocation situation will prove another "one-day wonder." Original prognostications of all-out full-dress knockdown proceedings now are being temporized with report that proceeding may run one or two days.

IT'S generally believed now that when President Truman offered FCC left-winger Clifford J. Durr reappointment it was with absolute knowledge that Alabaman would turn down another seven-year term. Whole proceeding, according to these usually informed circles, was to save face.

WITH FCC's proposed TV allocations making no provision for additional channels in D. C. area, CBS is expected to make pitch for addition of fifth channel for Washington at upcoming June hearings on proposed allocations.

DEALER SURVEY completed last week by WMAR-TV, Baltimore *Sunpapers'* station, reveals city proper has upwards of 10,275 sets, including home-assembled installations, as against 6,500 under previous estimates. These are aside from receivers lying in Washington area also covered by Baltimore stations.

WHERE IS
KANSAS CITY'S
 TRADING AREA?

No guesswork here! Dr. W. D. Bryant, former Director of the Department of Research and Information for the city of Kansas City, spent many months investigating and classifying all the factors which determine the limits of primary interest. From the findings of this nationally recognized expert, Kansas City's trading area has been

clearly set down as encompassing all of the State of Kansas, the western half of Missouri, and small parts of Iowa, Nebraska, Oklahoma and Arkansas*. Before the institution of the KMBC-KFRM Team, no one Kansas City broadcaster could provide blanket coverage of the entire area.

PART OF THE COLORADO SCENE

KLZ Forum The market place for ideas and discussion of Colorado's problems is the "American Legion Sounding Board of Public Opinion" heard over KLZ every Thursday night. Topics as timely as tomorrow's headlines make the program an integral part of the Colorado scene. Informed leaders from labor, business, religious, civic and educational groups participate in the discussion aired over KLZ in cooperation with Denver's Leyden-Chiles-Wickersham American Legion post, second largest in the world.

Manufacturing For 76 years the Pueblo Steel Plant of The Colorado Fuel & Iron Corp., above, has been a mighty factor in the development of the West and an important part of the Colorado scene. Abundant resources of minerals and fuel, a healthful climate and happy living conditions have continued to attract a wide and extensive variety of industrial activities. Meat packing, sugar refining, tire and rubber manufacturing and scores of craftsman type industries make up the industrial scene in Colorado today.
