Bird Planet Tim Laman 2022-10-04 Bird Planet presents the best work of Tim Laman, the world's most celebrated bird photographer. Birder extraordinaire Tim Laman is a superstar in one of photography's most challenging pursuits: The quest to portray birds in the wild. A naturalist and explorer as well as a brilliant image maker, he has spent thousands of hours over more than 30 years wedged precariously in the tops of trees, often in remote jungles, in the hope that careful planning and good fortune will align to produce the perfect picture. His is a passion shared by all birders, carried to the level of art. Bird Planet takes the reader on a journey to the world of birds. Laman

shares his best images of spectacular birds on all continents, from the scarlet ibis of the Orinoco River in Venezuela to rhinoceros hornbills in the rainforests of Borneo; his familiar backyard American birds are as memorable as his poetic red-crowned cranes in snowy Japan. His signature achievement—to photograph all the known species of birds of paradise, spending 18 months in New Guinea over eight years—gets a chapter, as does his visits to the penguins of Antarctica. The Falcon Thief Joshua Hammer 2021-02-16 A "well-written, engaging detective story" (Kirkus Reviews, starred review) about a rogue who trades in rare birds and their eggs—and the wildlife detective determined to stop him. On May 3, 2010, an Irish national named Jeffrey Lendrum was apprehended at Britain's Birmingham International Airport with a suspicious parcel strapped to his stomach. Inside were fourteen rare peregrine falcon eggs snatched from a remote cliffside in Wales. So begins a "vivid tale of obsession and international derring-do" (Publishers Weekly), following the parallel lives of a globe-trotting smuggler who spent two decades capturing endangered raptors worth millions of dollars as race champions—and Detective Andy McWilliam of the United Kingdom's National Wildlife Crime Unit, who's hell bent on protecting the world's birds of prey. "Masterfully

constructed" (The New York Times) and "entertaining and illuminating" (The Washington Post), The Falcon Thief will whisk you away from the volcanoes of Patagonia to Zimbabwe's Matobo National Park, and from the frigid tundra near the Arctic Circle to luxurious aviaries in the deserts of Dubai, all in pursuit of a man who is reckless, arrogant, and gripped by a destructive compulsion to make the most beautiful creatures in nature his own. It's a story that's part true-crime narrative, part epic adventure—and wholly unputdownable until the very last page.

A Guide to the Birds of East Africa Nicholas Drayson 2009-03-05 For lovers of Alexander McCall Smith, Nicholas Drayson introduces the charming Mr Malik and the East African Ornithological Society in A Guide to the Birds of East Africa. Reserved, honourable Mr Malik. You wouldn't notice him in a Nairobi street - except, perhaps, to comment on his carefully sculpted comb-over - but beneath his unprepossessing exterior lie a warm heart and a secret passion. Not even his closest friends know it, but Mr Malik is head-over-heels in love with the leader of the local Tuesday-morning bird walk, Rose Mbikwa. Little can he imagine the hurdles that lie before him. Even as he plucks up the courage to ask for Rose's hand, thieves, potential kidnappers and corrupt officials, not to mention one particularly determined love rival, seem destined to thwart Mr Malik's chances. Will an Indian gentleman in the heart of Africa be defeated by the many obstacles that stand between him and his heart's desire? Or will honour and decency prevail? 'A funny, ingenious and touching love story' Joanne Harris, The Times 'A delightful comedy... It invites comparison to The No.1 Ladies' Detective Agency books, but it's original and, if anything, has more depth' Daily Mail 'Sweet, charming and utterly wonderful on the subject of birds' Metro Nicholas Drayson was born in

England and has lived in Australia since 1982, where he studied zoology and a PhD in 19th century Australian natural history writing. He has worked as a journalist in the UK, Kenya and Australia, writing for publications such as the Daily Telegraph and Australian Geographic. He is the author of three other novels, *Confessing a Murder*, *Love and the Platypus* and *A Guide to the Beasts of East Africa*.

Pigs of Paradise T. R. Todd 2018-10-16 "The Bahamas are famous for sun, sand—and swimming pigs." —National Geographic In the middle of paradise, with billionaires and celebrities for neighbors, is an island populated only by swimming pigs. For decades, this archipelago of 365 islands would remain largely unknown to the world. It would not be a ruthless pirate, pioneering loyalists, a notorious drug kingpin, or the infamous Fyre Festival that would unveil Exuma to the world, but rather the most unlikely of creatures. Appearing in magazines, videos, newspapers, commercials, TV shows, and countless selfies, the Swimming Pigs of Exuma, in the Bahamas, have become a bucket-list sensation and have been named one of the marvels of the universe. But how did they reach this celebrity status? What made them so famous? And why, in February 2017, did so many of them die? *Pigs of Paradise* is an unlikely story of humble beginnings and a swift rise to stardom. With interviews from historians, world-renowned ecologists, famous pig owners, and boat captains, it thoughtfully considers what this phenomenon says about not only these animals but also about us.

The Feather Thief Kirk Wallace Johnson 2018-04-24 As heard on NPR's This American Life "Absorbing . . . Though it's non-fiction, *The Feather Thief* contains many of the elements of a classic thriller." —Maureen Corrigan, NPR's Fresh Air "One of the most peculiar and memorable true-crime books ever." —Christian Science Monitor A rollicking true-crime adventure and a captivating journey into an underground world of fanatical fly-tiers and plume peddlers, for readers of *The Stranger in the Woods*, *The Lost City of Z*, and *The Orchid Thief*. On a cool June evening in 2009, after performing a concert at London's Royal Academy of Music, twenty-year-old American flautist Edwin Rist boarded a train for a suburban outpost of the British Museum of Natural History. Home to one of the largest ornithological collections in the world, the Tring museum was full of rare bird specimens whose gorgeous feathers were worth staggering amounts of money to the men who shared Edwin's obsession: the Victorian art of salmon fly-tying. Once inside the museum, the champion fly-tier grabbed hundreds of bird skins—some collected 150 years earlier by a contemporary of Darwin's, Alfred Russel Wallace, who'd risked everything to gather them—and escaped into the darkness. Two years later, Kirk Wallace Johnson was waist high in a river in northern New Mexico when his fly-fishing guide told him about the heist. He was soon consumed by the strange case of the feather thief. What would possess a person to steal dead birds? Had Edwin paid the price for his crime? What became of the missing skins? In his search for answers, Johnson

was catapulted into a years-long, worldwide investigation. The gripping story of a bizarre and shocking crime, and one man's relentless pursuit of justice, *The Feather Thief* is also a fascinating exploration of obsession, and man's destructive instinct to harvest the beauty of nature.

The Photo Ark Joel Sartore 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

A Guide to the Birds of Colombia Steven L. Hilty 1986 Describing all of Colombia's birds, Steven Hilty and William Brown bring together information on one of the world's largest avifaunas-nearly

1,700 species. Over half of all the species of birds in South America are included, thus making the book useful in regions adjacent to Colombia, as well as in the country itself. The primary purpose of the work is to enable observers to identify the birds of the region, but it also provides detailed species accounts and will serve as an important handbook and reference volume. Fifty-six lavish color plates, thirteen halftone plates, and ninety-nine line drawings in the text illustrate over 85% of the species, including most of the resident birds. Notes on the facing-page of each plate, and range maps of 1,475 species, facilitate identification. Written with the field observer in mind, the text gives special attention to comparisons of similar species, transcriptions of voices, and comments on behavior, status, and habitat. It also provides ranges, breeding data, and references. Notes outline taxonomic problems and briefly describe species that eventually may be found in Colombia. Introductory chapters and photographs highlight Colombia's geography, climate, and vegetation, and discuss migration and conservation questions, and the history of Colombian ornithology. Appendices contain a large bibliography, a section on birding locations, and coverage of two of Colombia's far-flung island territories, Isla San Andrés and Providencia. Maps depicting vegetation zones, political boundaries, national parks, and the most text localities are included.
